(o) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

Bombs and rocket results not accurately observed due to low ceiling. The mountains on the N. side of the Anani anchorage rise over 1000' and those on the S. side rise over 400'. With 8/10's cloud coverage at 1500' it was impossible to pinpoint a target before push over, and pull out below 1500' gives little opportunity for accurate aim or observation.

(p) Were Photographs Taken? NO Photographs of Damage, When Taken, Should Be Attached By Staple.

This strike was called especially due to a report from U.S.S. HAWAN planes of some 18 merchant ships, one DD, and one possible CL at Assani. The convey turned out to be luggers, smaller than Sugar Dog, plus one possible DD located in the coves of the Assani anchorage, and previously reported by this ship. The position of the ships had not changed. Due to low ceiling and high mountains on either side of the anchorage, bombing and rocket results were not accurately observed. The DD, now called an LST, was not hit.

AIRCRAFT ACTION REPORT

~~CONFIDENTIAL~~

REPORT No. 33

XIII. MATERIAL DATA. (Comment freely on performance or suitability, following check list at left.
Use additional sheets if necessary).

ARMAMENT

- Guns, Gunsights
- Turrets
- Ammunition
- Bombs, Torpedoes
- Bomb Sights
- Bomb Releases

COMMUNICATIONS

- Radio, Radar
- Homing Devices
- Visual Signals
- Codes, Ciphers

RECOGNITION
