### Notice of Stockholder's Annual Meeting.

Notice is hereby given of the Annual Meeting of the stockholders of Campbell Water Company, a corporation, to be held in this company's office, in Campbell, Santa Clara County, California, on Tuesday, November 8th, 1910, at 2 o'clock p. m., for the purpose of hearing the reports of the officers, electing a board of directors to serve for the ensuing year, and to transact any other business that may properly come before that meeting.

S. G. RODECK, President.  
J. F. DUNCAN, Secretary.  
October 21st, 1910.

### What's in a Name?

"I don't like your heart action," the doctor said, applying the stethoscope again to one of the basketball boys. "You had some trouble with angina pectoris."  
"You're partly right doctor," said the young man sheepishly, "only that ain't her name."

### ARE THE PEOPLE BEING DECEIVED?

Clean County Petition Being Missured in Behalf of the Man Who Turned It Down

In fairness to the many people who support and read this paper; and in fairness to the great number of people in this community who signed the Clean County Petition last spring and who at the present time possibly are being misled as to what they signed and the history of that precious document after it left the hands of the petitioners, we, being in possession of the truth about these affairs think it our duty to make some very plain statements at this time. Were we to lay down and say nothing we would feel like a coward and a traitor. We are not working in the interest of any particular individual or group of individuals, but simply in the interest of clean, fair government. Furthermore, we know it is not to our financial gain that we publish these facts, but the truth must be known and circulated.

There is not an open saloon in Campbell. When that petition was circulated here last spring practically every man on the new register and all but fourteen on the old register signed it. We are proud of this town and why should we not champion the cause of clean government and help our weak neighbors?

In the petition it provided in article 2: "Licenses may be issued so long as the electors are willing."  
"3. The electors shall be presumed to be willing until one-fourth thereof petition otherwise; but upon the filing of such a petition, that presumption changes and licenses expire at the end of the quarter."

"4. The foregoing petition may be overruled by majority vote at an election to be held, upon petition by one-fourth of the electors. Such petition to be filed within 60 days of the other. The question once settled is closed for four years. The territory outside of municipal corporations only affected."

Now the saloon people claim that this is unfair because the temperance people might bring in their petition a few days before the end of the quarter when the saloon licenses expire and there would not be sufficient time for the saloon men to get up a counter petition and call an election, consequently the saloons will be obliged to quit business. This was not intended for any unfair advantage as was evidenced by the fact that as soon as this point was shown the committee they altered the condition and when the petition was given a public hearing on April 4th, 1910, it provided that the saloonkeepers might have ninety days extended time after the expiration of the quarter in which the petition was filed. Isn't that fair enough? The C. C. Committee even went so far as to tell the saloon men they would get out and get the signers to their petition, if they wished assistance. What could be more fair?

Furthermore, the committee only offered the ordinance which they had prepared as a basis for the supervisors to work on and they specifically stated in the petition, that ordinance "or one of similar result, namely the determination by the people of the question whether or not saloons shall be licensed."

Our friends of the opposition further say that a petition of twenty-five per cent of the voters is not enough. All right. Did you not know that the committee told the supervisors to make it anywhere from one to fifty per cent? Possibly our friends were not there and don't know what they are talking about. We don't care especially about that ordinance. Any ordinance that will give the people a chance to express themselves will do. But Mr. Roll was not willing to give the people a chance in any way, shape or manner. And it is on that ground his re-election is opposed.

### Homes for the Orphans

J. M. Tension, of Oakland, representing the Children's Home Society of California is in Campbell, in the interest of the children of misfortune. The society is non sectarian and places its wards in family homes instead of orphan homes. Last fiscal year it handled 351 children in California and is now placing a child per day. Mr. Tension tells us he has a girl ten and a boy ten years old and twin boys ten months old for whom he is anxious to find good homes. If you fail to see me, Tension while here address him at 726 10th St., Oakland.

### Hallowe'en Parties

The eighth grade of Campbell grammar school enjoyed a Hallowe'en party last Friday night at the home of one of its members, Miss Bernice Lloyd. The porch and yard were lighted by Jack-o-lanterns, thus giving the place quite a witchy and spooky look. There were about nineteen boys and girls present. The evening was spent in playing Hallowe'en games. In the latter part of the evening refreshments were served. The eighth graders agree that Bernice and her mother are delightful entertainers.

On Saturday evening the parlors of the Methodist church were the scene of a jolly good time. Mrs. Wilson's class of girls returned the party given them by Mrs. Allison's class of boys some time ago. The room was prettily decorated with pumpkins. The boys must have known what a good time the girls would give them for a large number of them came. Altogether there were about thirty boys and girls to join in the Hallowe'en tricks and games. Since Mrs. Wilson's illness Mr. Wright has had her class of girls and he was the chaperon of the party.

It was proven last Friday evening that girls can have a dandy good time without the boys at a Hallowe'en party. The girls of the Sophomore class with a few older girls, enjoyed a masked party at the home of Miss Ruth Hayes. The girls were dressed in all sorts of ghostly and witchy costumes. Miss Florence Brown, dressed as a witch and riding a broomstick was voted the best dressed masker. The rooms were lighted with candles and were decorated in a way that matched the guests. The girls had worked hard in preparing entertainment and many tricks, new and old were tried. Just before leaving, pumpkin pie, Jack-o-lantern tarts, apples and nuts were served. All the girls present had such a jolly time they have almost decided to be old maids.

Elizabeth Duncan entertained a number of her little friends at her home Saturday afternoon, the twenty-ninth, the occasion being a celebration of Hallowe'en.

Old Hallowe'en games were played. Then with only the light of jack-o-lanterns, each little girl told a ghost story. Later in the afternoon refreshments were served by a witch. The table was quite picturesque with chrysanthemum and Jack-o-lantern decorations.

Those present were Hazel Duncan, Marion Scott, Elizabeth Duncan, Joyce Robson, Irene Sawyer, Ruth Stewart, Laura and Margaret Blaine, Verna Cutting, Emily Duncan, Eva and Mary Spragia.

The Society of Sunny Oaks was out in all its gay attire Hallowe'en at the home of Mrs. O. Sholz of Campbell. The evening was spent in games and music, some beautiful selections being furnished by Robert on the violin and Carl on the horn. Miss Sholz accompanying on the piano. Mrs. Merna Sawyer also accompanied them in several selections. Delicious refreshments were served at midnight by the young ladies. After refreshments good nights were said, all assuring their hostess she was a royal entertainer.

Those who enjoyed her charming hospitality were: Messrs. and Mesdames C. J. Ringe, M. and A. Purmort, E. Woodhull, B. O. Curry, D. R. Oliver, W. A. Alexander, H. Young, A. V. Bangs, G. Ellison, Frank Bangs, Willie Oliver, Masleo Marcus Woodward, Misses. Clva Curry, Marie and Merna Sawyer, Mabel Oliver, Chrissie and Myrtle Woodward, and Irma Young.

### High School Notes

On Wednesday, the 26th., the boys' basketball team were subjected to a physical examination by Doctors Cooper and Blanchard. It was found that all the boys were O. K. in the affairs of the heart and otherwise.

The G. S. C. C., formerly of the grammar school, but now of the high school entertained a few of their friends at a Hallowe'en party at the home of Miss Essie Stoler Friday night.

A few of the high school girls enjoyed a girls' Hallowe'en party at the home of Miss Ruth Hayes on Friday evening. The usual ghost stories were told and the Hallowe'en games were hugely enjoyed.

The Senior pins appeared on Tuesday. By some misunderstanding the crescent of the pin was enameled instead of being made gold. Notwithstanding this, the pins are pretty and the Seniors well satisfied with them. One was presented to Miss Dollie Blenkinsop on her departure for England.

The boys' and girls' literary societies held their usual meetings Friday afternoon.

I went to see a dear old sweetheart,  
I'd never been there before,  
She locked me up in the old henhouse,  
And I'll never go there anymore.

Such is the sentiment of a crowd of high school boys who thought they would have some fun last Friday night at the Stoler home where the G. S. C. C. were holding a party. The boys ran into the coop to hide and were locked in, where they remained for two or three hours, so it is said. They are not crowing very much about it.

### Mr. L. D. Bohnett to Wed

The following announcement taken from the Sunday Mercury will interest a great many in this community: "Mr. and Mrs. E. A. Bevins announce the engagement of their daughter, Ivadelle, to Mr. L. D. Bohnett. Miss Bevins has been one of the most popular teachers of the Horace Mann School, and Mr. Bohnett, who is an attorney, is the Assemblyman from the Fifty-sixth District."

## Recent Occurrences Along the Pacific Slope Related in Brief Items.

### Paragraphs Selected With a View to Giving Busy Readers the News in a Nutshell.

Red Bluff.—San Francisco buyers have secured the bulk of the wool clip in this town. Prices ranged from ten and five-eighths to twelve cents.

San Francisco.—The one hundred merchants who recently toured the lower San Joaquin are planning a like excursion into the northern section.

Porterville.—After a long chase John Quinn, a horse thief, who stole a horse and saddle from Corcoran, was caught in the high Sierra above here by Officers Marston and Isham.

Auburn.—Fire destroyed the Stewart hotel at old Run, owned and conducted by James D. Stewart. The loss on the building and contents will amount to \$10,000, with little insurance.

Redding.—The residence of J. S. P. Bass on Stillwater creek, fourteen miles northeast of Redding, one of the famous stopping places in the days of the California-Oregon stagecoach line, has been completely destroyed by fire.

San Francisco.—The annual exodus of Chinese who go home to celebrate New Year, began with the departure of 400 on the Mongolia. The vessel also carried 38 Hindus and 18 Chinese turned back by the immigration bureau.

Seattle.—Seven thousand voters have signed the petition for the recall of Mayor Gill, and a recall election is assured, the Public Welfare League announces. Eight thousand names are necessary to make the recall effective, but the league has hope of obtaining 15,000 signatures.

Decoto.—Grand officers and delegates from the lodges in the bay counties will attend the dedication of the new hospital building at the Masonic Home in November. The building, which is in the Mission style and will cost \$40,000, is the gift of Edward Coleman, for many years the Grand Treasurer of the Grand Lodge of California.

Richmond.—Plans for extensive docking facilities on the Richmond coast involving probable terminal sites for one of two new transcontinental railroad lines are being formulated by the Contra Costa Dock and Land Company, a San Francisco corporation which acquired title to the lands from Richmond to Point San Pabo, a distance of nearly four miles.

Stockton.—The Southern Pacific's double-track system between this city and Tracy is being used and is proving a great assistance to local traffic. The westbound trains for San Francisco use the west tracks and the eastbound the east tracks. The tracks interlock at the San Joaquin bridge, a towerman with special block system having been located there in order to prevent accidents.

San Francisco.—A telegram from the National Association of Aeronauts sent to F. E. Stratford, chairman of the committee arranging for the San Francisco aviation meet, confirms the date of November 23 of next year for the beginning of the meet, which will end on December 3. The aviators who have already consented to fly on this coast are DeLesseps, Moissant, Latham, Hoxey, Drexel Bookins, Willard and Hamilton.

Oakland.—Carrie G. Davis, superintendent of the Methodist Woman's Rescue Home, and Rose Hatch, a teacher in the Chinese Mission School, were made defendants in a ten thousand dollar damage suit for slander commenced by Sum Wy, a Chinese merchant. The suit is the outgrowth of an attempt on the part of the mission workers to take away from Sum Wy his nine-year-old daughter, whom they alleged was intended for a life of slavery by the parents.

Los Angeles.—Orlando F. Altorre, former postoffice clerk, pleaded guilty in the United States District Court to a charge of embezzling \$15,000 from the postoffice in which he was employed in the registry department. He was sentenced by Judge Wellborn to serve one year and one day in the Federal penitentiary at Leavenworth, the sentence to run concurrently with a two-year sentence for perjury imposed following his conviction on that charge some months ago.

### A PROFITABLE INVESTMENT.

If the Panama-Pacific Exposition is held in San Francisco a boom is sure to follow that will benefit every section of the State. The increased demand for California products will bring returns a hundred fold the tax which will represent the State's investment in what promises to be the greatest exposition the world has ever known.

### Oldfield Easily Defeats Johnson.

Sheepshead Bay.—Barney Oldfield easily defeated Jack Johnson, the heavyweight champion pugilist, in a five-mile automobile race here last week. Oldfield won the first two heats of the contest, making a third heat unnecessary. Oldfield won the first heat with a lead of a quarter of a mile, covering the distance in 4 minutes 44 seconds, and in the second heat led Johnson fifty yards. The time for the second heat was 5 minutes 14 2/5 seconds. Johnson was beaten a quarter of a mile in the first heat. In a one-mile exhibition race with a flying start Oldfield, with the Blitzen Benz, covered the mile in 44 3/5 seconds.

### Butchered in Sight of Mother.

Pasadena.—Once more does the Pasadena Humane Society find a knotty problem of law. Is it illegal for a man to kill a calf in the presence of its mother? A report has been turned in that such an offense against the moral code was committed by a hard-hearted resident of Pasadena, and the humane society officials are indignant over the proceedings. They declare that they will arrest and prosecute the butcher with great alacrity and cheerfulness, if they can find any possible law under which to work; and they are now searching the statute books for some authority.

### Third Set of Triplets.

Cleveland.—Too late for the census but earnestly doing her share in Cleveland's remarkable growth, Mrs. William G. Clarke, a Lakeside avenue matron, became the mother of triplets a few days ago. She is also the mother of four pairs of twins, and she herself is the only sister of twenty brothers. Two pairs of twins and one set of triplets were born during Mrs. Clarke's first marriage and the remainder of her seventeen children came in groups during the second marriage.

### Ethel Leneve, Much in Demand.

London.—Since her acquittal Ethel Leneve has received all kinds of offers, matrimonial, theatrical and literary, besides sixteen proposals of marriage. These offers, all of which are signed and unquestionably genuine, illustrate the odd effect of "notoriety upon comparatively degenerate minds. Miss Leneve also has been offered \$1000 for the first statement of her life with Dr. Crippen. This offer came from a London paper, but she is holding out for more money.

### King in Massachusetts Organization

London.—King George has accepted honorary membership in the Ancient and Honorable Artillery Company of Massachusetts. Notification of his election was made to his majesty by a committee presented at Marlborough House. The King cordially welcomed the proposal that his name be placed on the roster of the regiment, saying: "I appreciate greatly your action through which I became associated with the oldest military organization of the United States."

### Hoo Doo Diamond Reappears.

Paris.—The famous Hope diamond, which has brought death or misfortune to every person who has owned it, and which was believed to be safe at the bottom of the China sea, has reappeared in Paris. It is on sale in the window of a jeweler in the Rue de la Paix, but its evil reputation has affected its price. Lord Francis Hope sold it for \$148,000, but it can be bought now for less than \$100,000.

### Ball Player Fatally Injured.

Ithaca, N. Y.—L. B. Paine of Duluth, Minn., acting captain of the Cornell freshmen football team, died at the Cornell infirmary from supposed internal injuries received while playing football.

### Oakland's Many Avenues.

Oakland.—Confusion of street names following merging of suburban towns is being done away with by new names being posted on all streets in East Oakland, from First to 106th avenues.

# California Will Lose Exposition If Amendments 52 and 33 Are Not Carried

On Tuesday, November 8th, the voters of California will virtually decide whether Louisiana is to have the exposition to commemorate the opening of the Panama canal or whether the Golden State will be awarded the prize. If Amendments 52 and 33 are carried California's exposition fund will amount to \$17,500,000 and the committee can go before Congress with a sum sufficiently large to offset Louisiana's \$7,500,000 and the powerful corporate influence which is being exerted on behalf of the Southern State.

The citizens of San Francisco have subscribed \$7,500,000; the city is anxious to bond itself for another \$5,000,000. This can only be accomplished by the passage of Assembly Constitutional amendment No. 33 which will permit San Francisco to amend its charter to provide for the proposed bond issue. The entire expense of this bond issue will be borne by San Francisco; not one cent will come out of the pockets of the people of the State at large.

CAST YOUR BALLOT FOR ASSEMBLY CONSTITUTIONAL AMENDMENT NO. 33. To complete the fund of \$17,500,000 it is necessary that the Senate Constitutional Amendment No. 52 be carried. This amendment provides for a State wide tax of \$5,000,000, payable in four annual installments of \$1,250,000 each. It will mean an infinitesimal sum to each tax payer. It has been computed that the assessment will amount to less than 50 cents on the thousand dollars.

The passage of Amendment No. 52 means a great deal more to the State, to Congress, and to the world, than a sum of money expressed in figures. It means that all California is behind the movement to have the exposition located in San Francisco. It means that the pride of the people has been aroused and that the entire State is backing the committee when it appears before Congress to urge California's claims.

If amendment No. 52 is not carried the whole world will regard us as "bluffers." California will be humbled and humiliated, and the exposition committee may as well remain at home in shame and disgrace. To appear before Congress without the support of the State as expressed through Amendment No. 52, would be a waste of time and money, and the whole world will believe that Californians are lacking in progressiveness, energy, spirit and sincerity.

The honor, the dignity, the pride and the fame of the Golden State depend upon the passage of the amendment. Every Californian should go to the polls on November 8th and cast a VOTE FOR AMENDMENT NO. 52. Should Congress designate San Francisco as the site for the exposition every nook and corner of California will receive a share of the benefit accruing from the fair. Hundreds of thousands of people will attend the exposition and before returning home will visit various parts of the State. Wherever they go they will learn of California's marvelous resources. They will carry home with them tales of the State's unlimited possibilities for the capitalist, the investor and the home-seeker, and California will prosper as it has never prospered before.

Opportunity is knocking at California's door, and it will be up to the voters on November 8th to raise the latch.

## Automatic Grocery Store and Quick Lunch Emporium

Cincinnati.—The corner grocery store in the crowded tenement sections of great cities in the United States will be crowded out by automatic grocery stores if the formation of a great corporation to install slot machine stores in congested districts proves a success. Automatic lunch rooms, though not new, form another side of the project. The company has already contracted with Baldwin Locomotive Works and Cramp's shipbuilding yards to supply food at noon to their 40,000 men. The name of the organization is the Underwriters' Company of Philadelphia. It claims to control all the patents on automobile lunch service. Its investment is expected to run into millions. "Our automatic grocery store and lunch is not entirely for profit," said the promoter. "It will really be a great philanthropy. The poor in the tenement parts of the big cities buy in small quantities and have to pay the highest prices. A woman who purchases ten cents worth of coal gets it at the rate of \$20 a ton. So with the other necessities of life. The cheap groceries are also unsanitary, and much time is lost waiting to be served, especially if a child is sent to make the purchase. "Our grocery stores will consist of a small room with a lot of slots in the wall. If a man wants a dime's worth of coal all he has to do is to drop a dime in the slot and he gets a whole ten cents' worth. So with beans, sugar, coffee and doughnuts.

### Inciting Soldiers To Revolt.

Madrid.—The Spanish Government is aroused at the strength of the alleged anti-military campaign of the Socialists, who, it is claimed, are carrying their propaganda into the barracks with the purpose of inciting the soldiers to revolt. In this movement it is asserted that the Socialists are aided secretly by the Republicans.

### Killed By Childrens Sport.

Fresno.—While riding on a merry-go-round as the machine was going full speed, Burrell Tabor was injured, perhaps fatally, when he lost his balance and fell off, his head striking a post. The injured man was rushed to the emergency hospital, where it was found that he had suffered a fracture of the skull, besides internal injuries.

### ENGINEER LOSES LIFE IN OBEYING NEW STATE LAW

#### Effort to Get Engine Home in 16 Hour Limit Brings Fatal Results.

Chicago.—Obedience to the new State law which requires that a locomotive engineer must not be on duty longer than sixteen hours cost the life of William Strommer of the Chicago & Northwestern Railroad, who died in the hospital at Waukegan.

Strommer was on a heavy freight train running from Milwaukee to Chicago. He reached Norton Park, when he realized that he could not get to Chicago in time by pulling the whole train.

The rules of the company permit a man to abandon his train and rush his engine to headquarters. This Strommer tried to do by pulling his train on a side track and leaving the caboose on the main line. In bringing back the engine to get the caboose, it overturned and he was pinned beneath it, crushed and scalded by the boiling water.

Had he not reached Chicago within sixteen hours he would have been discharged. The fine against the company is \$100 for each offense.

### To Hindustan Says Hindus.

Marysville.—That the Hindu laborers are preparing to return to Hindustan within the next few months, following the renewed efforts to drive them from the country, has been made evident at the local postoffice, where in one day Hindus took out money orders in the amount of \$2825, payable to themselves in Hindustan. One of the Hindus when questioned by the postoffice employees said that there are now more Hindus leaving the country than are coming in. Hindu laborers, he said, cannot get employment as easily as formerly, and they are beginning to feel the effect of the low wages paid them.

### Chamber of Commerce Will Build.

Porterville.—According to plans outlined by the directors of the Chamber of Commerce, the local commercial body will soon have a building of its own. It is proposed that the Chamber devote to the building fund the money which is ordinarily spent for the support of the annual Tulare county citrus fair. When there is added to this fund contributions from the Merchants' Association, it is believed that the remainder may be raised by floating a loan.

### Heroically Gave Their Lives.

Washington.—Seventy-seven men heroically gave their lives in efforts to subdue the disastrous forest fires in the West during the latter part of August. These were mostly temporary employes engaged for the purpose of fighting fires. The bodies of the victims were buried where they were found, but as soon as suitable arrangements can be made those unclaimed by friends will be buried on forest reserve sites.

### Americans Make Loan to China.

Peking.—Frederick G. Cloud formerly American consul at Antung, has notified the Chinese Government that Americans represented by him are willing to take up the loan of \$30,000,000 for the Hankow-Szechuen railroad, satisfactory terms which have not been agreed upon by the original American group of financiers. It is understood that Cloud is acting without the support of the American legation.

### Drivers Out On Strike.

Lisbon.—Eight thousand freight and express wagon drivers are on strike. Soldiers and firemen are being utilized in the transportation of the necessities of life. Disorders are reported. The outbreak of labor trouble in the capital is considered especially unfortunate at the time when an effort is being made to harmonize all classes in support of the provisional Government and the new Republic.

### He'd Been A Good Fellow.

Chicago.—Adam Rapp, for eleven years postmaster at Hawthorne, Ill., who disappeared last spring, leaving an alleged shortage of \$8000 in the funds of the office, was brought to Chicago from Muncie, Ind., where he was working as a tea and coffee salesman. When searched he had one five-cent piece. "I've been a good fellow," was the only comment Rapp would make.

### Divorces Will Come Easy.

Lisbon.—The Provisional Minister of Justice has drafted a divorce law which proposes the most startling marital emancipation yet presented to Europe. It is based simply on mutual consent.

### David B Hill Dead.

Albany, N. Y.—David B. Hill, ex-United States Senator and former Governor of New York, died suddenly at Wolfert's Roost, his country home.

### Adventures of the Children of Mother Earth Related in Condensed Form

#### Comprehensive Review of Passing Events in Every Quarter of the Terrestrial Globe.

Paris.—President Fallieres gave a luncheon at the Elysee Palace in honor of Jacob M. Dickinson, the American Secretary of War.

London.—An appeal on behalf of Dr. Crippen, now under sentence of death for the murder of his wife, Belle Elmore, is to be brought before the Court of Criminal Appeals.

Columbus, Miss.—With his wife and baby standing by his side Frank Bell shot and killed Harvey Duncan and Charles Duncan in the Mobile & Ohio depot at McCarry, Miss. Bell surrendered.

Berlin.—The Turkish Government is negotiating with German, Austrian and Hungarian banks for the \$30,000,000 loan which France refused. It is understood that the negotiations are practically closed.

Boulder, Colo.—Because seventeen students were suspended by the faculty of the State University here for hazarding the entire student body, numbering more than 500, went on a strike and the class rooms are deserted.

Washington.—President Taft made a short address to the Methodist bishops in the East room. He praised the missionary work of the bishops, and in the course of a reply to the address the bishops endorsed the policy of the Government in the Philippines.

Kiev.—An investigation has begun of the ship-merchant guilds of Kiev, it being claimed that five thousand Jews are enrolled as members. This would entitle them to residence, but many of them are not engaged in trade and are therefore liable to expulsion.

Louisville, Ky.—Mrs. Jane Morris, residing in the foothills of Cumberland mountains in Jackson county, lays claim to being the greatest mother in the world. She boasts of 518 descendants, nearly all of whom are living. None of them has ever been accused of an offense against the law.

New York.—Three thousand girl dressmakers employed in East Side tailoring stores held a parade through East Side streets and a mass meeting at Rutgers Square. The parade was held to celebrate the winning of the recent general strike of dressmakers for a fifty-two hour week and a 20 per cent increase in wages.

Kansas City.—A score of messengers, from every bank that is a member of the clearing house here, walked across the city and bore to the vaults of the Fidelity Trust Company \$1,000,000 in gold. Not until after the transfer had been made did any one other than several bank employes know that a fortune was being moved.

Jacksonville, Fla.—The Atlantic Coast Line's Jacksonville-Tampa train, northbound, ran into an open draw at McGirt's Creek, five miles south of Jacksonville, and the engine and tender toppled over into the creek. A mail car followed, but was caught by the rear trucks and hung over the creek. The engineer, Charles Ellis, was drowned.

Maysville, Ky.—A spectacular parade of geese was witnessed here last week. The birds were unloaded from a car in the Louisville and Nashville railway station after making the night hideous with their noise. Four thousand were in the flock when the train started from eastern Kentucky. The geese were taken to a farm six miles from this city to be fattened for the eastern markets.

Atlanta, Ga.—When asked about the possibility of Barney Oldfield being permitted to compete in the automobile races, J. M. Nye, secretary of the Atlanta Automobile Association, said: "No driver will be allowed to compete here if he is not in good standing with the American Automobile Association." Oldfield was disqualified by the American Automobile Association for entering an unauthorized race with Jack Johnson.

Tampa, Fla.—A belated appeal for aid was received here from the vicinity of Punta Rassa on the Gulf Coast, reporting that the Ten Thousand Island section had been swept by a tidal wave in the recent West Indian storm and that all residents who had escaped were in destitute circumstances. Small settlements were wiped out and the residents only saved themselves by climbing into trees. Many women and children were drowned. Seventeen sailors were washed ashore.

## Shouldn't We Have a Finger In Germany and England are bending every energy to the commerce and the profits that have hardly stirred our imagination, says Charles Johnson Post, in Success Magazine, in an article entitled, "Our Chance in South America." "No method of conciliation, no appeal to this market do they neglect; the training they give their business agents for this particular field is the best in the world; consequently they are getting the business that should be ours, despite the fact that their ports are twice the distance from South American countries as are our ports. Our lack of trade is not the result of any lack of ship subsidies or steamer lines; we have ample lines of steamers to handle the slight amount of commerce that has so far drifted to us. The difficulty lies in the fact that we have not the orders for goods and fail in the ability to get them against this foreign competition. It gets down to a question of selling—of salesmanship. Perhaps our splendid vanity in our national shrewdness has its weak spots.

### Bread and Butter.

There is no place in which bread and butter can be so beneficial or poisonous as in the nursery. The worst thing you can give a young baby, under a year old, is bread, says a writer. But later on bread becomes useful. It should never be given to a child at any age, but stale bread or toast, or bread baked crisp in the oven, is excellent for children. They really want more crisp foods nowadays, and if this fact was taken to heart the next generation would suffer less from decayed teeth and weak digestion.

### The Real Thing.

Fred, aged three, had been a naughty boy, and his mother had punished him. He felt very much hurt and complained to his auntie about his mamma's spanking him. Auntie said: "It is not you that mamma spans, but a little devil inside of you who makes you do naughty things." After sitting very still for five minutes he said: "It beats all how it hurts me when that devil gets spanked."—The Delineator.

### Care of Pet Animals.

Cats and dogs should be washed at least once a week. Do not keep the cats in a draft while the fur is drying. Any cat, even the alley breed, is liable to suffer from earache. Use warm water with a good amount of borax. Never rub soap on the fur or hair; have it dissolved ready for use. Keep the little poodle dogs on a blanket to dry. Cut the hair away from the eyes. This fringe that hangs over the eyes will cause blindness.

### Last of an Ill-Spent Fortune.

A life story on a \$2 bill was the curious find of an official of the Rye National bank, at Rye, N. Y., the other day. The bill came through the receiving teller's window, and here is the brief history of a squandered inheritance which it contained: "The hell with it. This is the remains of an ill-spent fortune."

### Victim of Circumstances.

While a man was walking under the trees in a park at Chichester (England) he was attacked by an owl. It was found that an owl had fallen out of a nest in one of the trees, but it seemed hopeless to try to explain to the parent bird that the unfortunate man had nothing to do with the accident.

### Force of Habit.

There is a story of a telephone girl in a big office who went to a doctor with a complaint that her nerves were out of order. "I have got to such a pitch," said she, "that when I kneel down to say my prayers at night I begin with 'Are you there?'"

### Philosophy.

This life is a constant fight, and philosophy is the only plaster that can be put upon the wounds one receives on every side.—Voltaire.

### Tribute to Humor.

Humor, warm and all-embracing as the sunshine, bathes its objects in a genial and abiding light.—E. P. Whipple.

### Ahead of His Times.

A crank is a man who is thinking now what the world will think in a quarter of a century.

### Danger of Vegetarian Shoes.

"I'm a vegetarian," he said, "but I draw the line at shoes. I wore a pair of vegetarian shoes on my vacation in Maryland, and one warm afternoon, after my good Maryland dinner of fried chicken, hot corn pone and waffles, I lay down in the farm yard under a tree for a snooze. I snoozed, I suppose, an hour or two. I awoke with an itchy feeling about the feet. I raised my head and saw a couple of sheep eating away calmly. They had finished both shoes but the heels and uppers."

### Folly of Flying into a Rage.

A man, if he remembers how foolish a figure another man makes when he is nursing his wrath, will restrain his own. Every man hates to be ridiculous. He shrinks from the humiliation of seeming little to his fellow, and no man ever seems so contemptible and absurd as when he is in a rage.

### Beetroot in Ton of Sugar.

It takes 16 tons of beetroot to make one ton of sugar.

### Cradles Unfashionable.

Cradles are going out; children are not wearing them any more. People tell us that rocking is unhygienic; babies, according to modern idea, should go to sleep naturally in a stationary germ-proof bed, with antiseptic pillows and sanitized rattle. Sentiment may save the cradle for a little while, but sooner or later it will go to the dusty attic along with the hair-cloth sofa. Maybe the infant of to-morrow will bear up somehow under these accumulated misfortunes, will struggle along somehow to maturity, but what about the artists, the poets, the song writers? What a world of sentiment and melody has been woven around the theme of the mother and the gently rocking cradle! What kind of song will the poor poet of the future be able to make about an enameled iron crib with brass trimmings!—Success Magazine.

### Physician's First Thought.

A physician was driving along the street when his horse took fright and ran away. He was thrown violently to the sidewalk, and knocked senseless. Presently he recovered a little from his unconsciousness, and, noting the crowd which had gathered about him, remarked: "What's the matter, gentleman? Anybody hurt? I'm Doctor B—. Can I be of any service?"

### Women Little Thought Of.

Among some Brazilian tribes it is believed that the presence of woman will hinder wine from fermenting. In Nukahiva should a woman happen to touch or sit near an object put under taboo, and rendered sacred and inviolable because of its contact with man, it cannot be further made use of, and she has to pay the penalty with her life in consequence. In Tahiti women must respect the places resorted to by men, as well as their fishing tackle and weapons.—North American Review.

### Faithful Japanese Wives.

In one of the dramas of the immortal Chikamatsu, the Shakespeare of Japan, there is a passage representing the ideas of a devoted Japanese wife: "For the sake of my husband I would even flay my nails from my hands and feet." Such are the ideals of duty cherished and obeyed by the faithful wives of Japan, who not only bear their sacrifices without any sense of loss but are delighted that they can show their desire to be of signal service to their husbands.

### Origin of "Spencer" Overcoat.

Words have been added to the English language as the result of wagers. The third Lord Spencer bet that by cutting off the tail part of his overcoat he could bring into fashion overcoats so short that the skirts of the undercoat would show beneath. He won his wager and "spencer" became the name both of that garment and of the feminine one afterward constructed in its likeness.

### How Did He Know?

On the first night of a new piece, a pretty young actress advanced to the front of the stage flaunting in an exquisite new costume. "That must have cost 3,000 francs!" said, audibly, a lady who sat with her husband in the front row. "No, no—only 2,500," he said, mechanically. Then he found her eye fixed on him, and was silent.

### The Great American Pie.

Steak, salad, fish, potatoes in all forms, may be thrown into the furnace in a huddle, but when the close of his repast approaches, when the pie hour is about to strike, it is the duty of every true American to reflect. Then he should attack the pie firmly but reverently, never in the spirit of one who runs a race.

### Locating the Villain.

"And who will be the principal villain of your production?" asked the friend.  
"Oh, the first-night critic, I suppose," replied the manager, wearily.—Washington Star.

### Helping Her Out.

"Have you a young chicken? I am rather green at cooking."  
"Such being the case, madam, don't you think you'd better have an old, experienced fowl?"—Courier Journal.

### What an Absurd Question!

The Sceptical Aunt—"What does he do, Dolly, for a living?" Dolly (greatly surprised)—"Why, auntie, he does not have time to earn a living while we are engaged."—Stray Stories.

### Humor and the Devil.

The devil is not, indeed, perfectly humorous, but that is only because he is the extreme of all humor.—Coleridge.

Profit by Others Experience. The road to success is paved with other men's failures.

## DOCTORS ADVISED OPERATION— DECIDED TO TRY GREAT KIDNEY REMEDY.

I want to tell you in a few words what your Swamp-Root did for me, believing that my testimony may do some other suffering person a great deal of good.

About six years ago, I was dangerously ill, consulted three doctors, all of whom said I had kidney trouble. One of the doctors analyzed my urine and reported that in order to regain my health and life, an operation would be necessary. I did not want to be operated on as I was afraid that I would not recover. Someone told me of Dr. Kilmer's Swamp-Root and said it was a reliable medicine for kidney trouble, so I decided to try it and went to Mr. Rose the druggist, at 303 Central Ave., Minneapolis, and bought a bottle, took it, noticed results and continued taking it until I was entirely cured.

Having been free from any kidney trouble for over six years, I consider that I am absolutely cured and know that Swamp-Root has the credit.

I never fail to tell my friends about your remedy, as I believe it is the best of its kind. Your U & O Ointment is also very good. We are never without a jar in our house.

Yours very truly,

**THE POLITICAL SITUATION**

On next Tuesday, November 8th, the electors of this community and state will go to the polls and decide the great controversy that has agitated the minds of everybody, more or less, for the last few months. In some instances there are great moral questions at issue, but in most cases it is simply a scramble for a job.

The editor of this paper does not presume to dictate to the readers how they shall exercise their privilege next Tuesday, for various reasons. In the first place, you all are intelligent, reading, thinking people, and have just as good an opportunity to be informed on the relative merits and demerits of the various questions as we have. And many—judging from the number out of work and idling around the streets talking—have a great deal more time to devote to the study of the matter. In the second place this paper, under the present management, is not intended to be a political organ in any way, shape or manner. The efforts of previous editors in a political way proved to be a failure, as is well known, and we are endeavoring to profit by their mistakes. Our purpose is to make the Press a local news paper, and an advertising medium for our home merchants. To accomplish this the paper must go into every home in the community, and when it is read in the home it should not contain that which would make it objectionable to the subscriber and thus deprive the advertiser of what he has a right to expect for his money.

Some of our readers are criticizing us for not taking a decided stand on the supervisor question, at a time when so great a moral interest is concerned. It does not appear to us that there is any question about the duty of every liberty loving, right thinking American citizen in this matter. A great temperance reform is sweeping over this country, and, as Joseph Cook says, "it is a mile high, a mile wide, and only a half mile away." Without considering the great moral evil of the business which all admit, the people are beginning to get their eyes open to the awful expense the state is put to each year to take care of the results of liquor drinking; the penitentiaries, the insane asylums, the almshouse and the police courts depend largely upon the saloons for their victims. The paltry little license—the blood money—which they pay each year does not come within one-tenth of the cost.

Could you, my reader, have been in the courtroom last spring when the Clean County Petition was presented to the board of supervisors and noted the marked differences between the two classes of people who were there to defend their interests, you would have no hesitancy about your duty at the present time. Hundreds of our best citizens representing the home, the school, and the church filled the room while crowded around the railing in front were the red noses and bleared eyes which represented the liquor interests. In the face of all this, three of our supervisors turned us down and would not let the people decide whether or not saloons outside of incorporated towns shall continue to exist. That was un-American in principle and practice.

Mr. Roll was one of these three supervisors, who by this action expressed himself as against the best interests of the community and in behalf of the saloon business. We know what he will do if re-elected. We do not know what Mr. Williams will do; we know very little about the man. We only know that he says he is willing to let the people decide what they wish done in regard to all questions which concern the people. We do not believe any of the stories circulated about that are intended to defame the character or lessen the chances for the election of Mr. Williams.

In regard to the various candidates for the two local offices we have nothing to say. They all have lived in your midst for years. You know them much better than we do, and we do not advocate the election of any particular candidate. They are all good men and there is no doubt but that any of them would make a faithful effort to discharge the duties connected with the office to the best of his ability.

A lengthy communication was received this week from Berkeley (judging from the post mark on the letter) dealing with the harbor improvement questions, but as there was no name signed to the article it cannot appear in the paper. It is not always necessary for a writer's name to appear in print but it must be known to the editor at least.

Good roads often lead to bad roadhouses.

 GEO. E. ATKINSON, Pastor.

**Stories At Less Than a Cent Apiece**

In the fifty-two issues of a year's volume "The Youth's Companion" prints fully two hundred and fifty stories. The subscription price of the paper is but \$1.75, so that the stories cost less than a cent apiece, without reckoning in all the rest of the contents— anecdotes, humorous sketches, the doctor's weekly article, papers on popular topics by famous men and women!

Although the two hundred and fifty stories cost so little, they are not cheap stories. In variety of scene, diversity of incident, skill and truth in character-depicting, they cannot be excelled.

The Announcement for 1911, beautifully illustrated, giving more detailed particulars of these stories and other new features which greatly enlarge the paper, will be sent to any address free with sample copies of current issues.

Every new subscriber receives free The Companion's Art Calendar for 1911, lithographed in thirteen colors and gold, and if the subscription is received at once, all the issues for the remaining weeks of 1910.
