PREFACE

This is a list of officially approved plants which operate under contracts with the Agricultural Marketing Service with respect to sanitation, the inspection of poultry, domestic rabbits, and egg products, and the grading of shell eggs, poultry, and domestic rabbits. Space is provided, under each state heading, for the names of additional plants as they are approved for service.

This list replaces the list of December, 1956, and includes all additions, deletions, and corrections made from November 28, 1956 to May 24, 1957. Also in this publication is the numerical list of plants formerly carried in AMS-45, which will no longer be issued.

Any further information concerning the programs available may be obtained from the Area Supervisors of the programs (see Pages 70 and 71) or from the Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C.
