JOHN BRUNTON,  
SURVEYOR OF SHIPPING,  
SUNDERLAND.

1837

\* \* \*  
LLOYD'S REGISTER  
OF  
BRITISH AND FOREIGN SHIPPING.

—  
**Notice.**  
—

From the number of alterations and additions constantly returned to this Office, it is necessary that the Register Books be posted every Week ; it is therefore requested that Subscribers will be particular in sending their Books for that purpose.

The Committee, in assigning to the existing Tonnage the number of Years for which Ships shall stand in the First Description of the First Class, have been influenced in every instance by an anxious desire to do justice to the Ship-Owner ; but should it appear on subsequent survey that any Vessel is entitled to a greater or less number of Years than has in the first instance been assigned to her, the Committee, in conformity with the Rules, reserve to themselves the power to make whatever alteration such future survey shall justify.

Parties discovering any errors are requested to communicate the same to the Secretary, that they may be taken notice of accordingly.

It is particularly requested that Subscribers leaving town, will direct their Books to be sent to the Office, where they will be kept regularly posted.

By Order of the Committee,

CHARLES GRAHAM,

*London, 1st July 1837,

*Secretary.*

# LLOYD'S REGISTER

OR

## BRITISH AND FOREIGN SHIPPING.

1. THE operations of the Societies of the two Register Books of Shipping printed for the use of Merchants, Ship-Owners, and Underwriters, having ceased in the year 1834, this Society was established, having for its object the important purpose of obtaining a faithful and accurate classification of the Mercantile Marine of the United Kingdom, and of the Foreign Vessels trading thereto, and for whose government the following Rules and Regulations were adopted.

2. A Register Book to be printed annually for the use of Subscribers.

3. Each person subscribing the sum of Three Guineas per annum, (or such other sum as the Committee of Management might fix) to be considered a Member of the Society, and entitled (*for his own use*) to one Copy of the Register Book.

4. The subscription of Public Companies, or Public Establishments, (not being engaged in Marine Insurance,) to be Ten Guineas per Annum.

5. The subscription of Marine Insurance Companies to be regulated by the Committee on special application, in each case, but not to be less than Ten Guineas per Annum.

6. The Register Book to be periodically posted throughout the year.

7. For the convenience of Subscribers not resident in London, a Supplement, containing the additions to, and corrections made in the Register

Book, to be printed fortnightly in such convenient form, as to admit of its transmission by Post, so that such parties may be furnished, from time to time, with the latest and most complete information.

8. The superintendence of the affairs of the Society to be under the direction of a Committee in London, of twenty-four Members, consisting of an equal proportion of Merchants, Ship-Owners, and Underwriters, and, in addition, the Chairman for managing the affairs of Lloyd's, and the Chairman of the General Ship-Owners' Society for the time being, to be, *ex officio*, Members of the Committee.

9. Six of the Members, namely, two of each of the constituent parts of the Committee, to go out annually by rotation, but to be eligible to be re-elected.

10. The vacancies so arising to be filled up by the election of two Underwriters and one Merchant by the Committee for managing the affairs of Lloyd's, and two Ship-owners and one Merchant by the Committee of the General Ship-Owners' Society.

11. The Committee to appoint from their own body, annually, a Chairman, and Deputy Chairman, and also a Chairman for a Sub-Committee of classification.

12. The Committee to appoint a Sub-Committee of Classification, to be so regulated that each Member of the General Committee may, in rotation, take his turn of duty therein throughout the year.

13. The Secretary, Clerks, and Servants of the Society, and the Surveyors for London and the Outports, to be appointed by and be under the direction of the Committee of Management.

14. Special Meetings to be convened by order of the Chairman, or Deputy Chairman, or on the requisition of any three Members.

15. All Elections and Appointments to be made by Ballot.

16. No Member of the Committee to be permitted to vote in the decision of the classification of any Ship of which he is the Owner, or wherein he is directly or indirectly interested.

17. The Committee to be empowered to make such By-laws for their own government and proceedings as they may deem requisite; but no new Rule or By-law to be introduced, nor any Rule or By-law altered, without special notice being given for that purpose at the Meeting of the Committee next preceding that at which such Motion is intended to be made; such Notice to be inserted in the summons convening the Meeting.

18. All Reports of Survey to be made in writing by the Surveyors according

to the forms prescribed, and submitted for the consideration of the General Committee, or of the Sub-Committee of Classification; but the classing assigned by the latter to be subject to confirmation by the General Committee.

19. The Reports of the Surveyors, and all documents and proceedings relating to the classification of Ships, to be carefully preserved, and parties proving themselves to be interested therein, to have access thereto under the directions of the Chairman or Deputy Chairman.

20. Foreign Ships, and Ships built in the British possessions abroad, to be surveyed on their arrival at a port in the United Kingdom, but a due regard is to be had to the circumstance of their having been exempted from the supervision while building, to which all British Ships are subjected, and the class to be assigned to them is to be regulated according to their intrinsic quality, and from the best information the Committee can obtain.

21. In every case in which the class assigned to a Ship may be proposed to be reduced, notice is to be given in writing to the Owner, Master, or Agent, with an intimation that if the reduction be objected to, the Committee will be ready to direct a special survey, on the Owner, Master, or Agent agreeing to pay the expenses attending the same, provided on the said survey there shall appear sufficient ground for the proposed reduction.

22. When the Surveyors consider repairs to be requisite, they are respectfully to communicate the same in writing to the Owner, Master, or Agent, and if such repairs be not entered upon within a reasonable time, a corresponding report is to be made to the Committee for their decision thereon.

23. Parties considering the repairs suggested by the Surveyor, to be unnecessary or unreasonable, may appeal to the Committee, who will direct a special survey to be held; but should the opinion of the Surveyor be confirmed by the Committee, then the expense of such special survey is to be paid by the party appealing.

24. The Surveyors to the Society not to be permitted (without the special sanction of the Committee) to receive any fee, gratuity, or reward whatsoever for their own use or benefit, for any service performed by them in their capacity of Surveyors to this Society on pain of immediate dismissal.

25. The Surveyors will be directed to attend on special surveys of Ships under damage, or repairs for restoration, when required by Merchants, Ship-owners, or Underwriters; the charge for which is to be regulated according to the nature and extent of the service performed.

## FUNDS.

26. The Funds to be under the authority and control of the Committee, and a statement of the Receipts and Expenditure to be annually printed for the information of the Subscribers.

## RULES FOR CLASSIFICATION.

31. The Rules and Regulations for the Classification of Ships, which were originally framed after much labour and deliberation, aided by the valuable practical knowledge of the Committee of the General Ship-Owners' Society, having been revised and considerably modified, the following have now been determined upon as well calculated to meet the fair claims of all parties interested in their application, and from the adoption of which it is hoped that considerable benefit and convenience will result.

32. The characters to be assigned to Ships to be, as nearly as possible, a correct indication of their real and intrinsic qualities, and to be in all cases fixed (not by the Surveyors, but) by the Committee, after due consideration of the Reports of the Surveyors, and such other Documents as may be submitted to them.

### FIRST CLASS SHIPS.

#### *First Description of the First Class,*

33. Will comprise all Ships which have not passed a prescribed age, provided they are kept in a state of complete repair and efficiency; and they will be designated by the letter A.

34. The period of continuance on this Class to be determined by reference to the original construction and quality of the vessel, the materials employed, and the mode of building; but it being desirable, on grounds of national policy and of individual justice, that after the expiration of the prescribed period, Ships should be permitted to remain in the First Description of the First Class, or to be restored thereto, for a further limited period, such extension of the period may be granted on the conditions hereinafter shewn.

35. New Ships are to be surveyed while building by the Surveyors to this Society in the following three stages of their progress.

*First.*—When the frame is completed.

*Second.*—When the beams are put in, but before the decks are laid, and with at least two strakes of the plank of the ceiling between the lower deck and the bilge unwrought, to admit of an examination of the inner surface of the plank at the bottom.

*Third.*—When completed, and, if possible, before the plank be painted or payed.

36. A full statement, agreeably to Form No. 4, of the dimensions, scantlings, &c. of all New Ships, verified by the builder, is to be transmitted by the Surveyor, and to be kept as a record in the Office of the Society.

## RULES TO BE OBSERVED IN BUILDING SHIPS.

## TIMBERING.

37. The whole of the timber to be of good quality, of the descriptions hereinafter shewn in a Tabular Form, No. 1, as applicable to the several terms of years for which ships so constructed may respectively be appointed to remain in the First Description of the First Class : the stem, stern-post, beams, transoms, aprons, knightheads, hawse timbers, and kelson, of Ships claiming to stand twelve years, to be entirely free from all defects ; the frame to be well squared from first foothook heads upwards, and free from sap, and likewise below, unless the timber be proportionably larger than the scantling hereafter described ; every alternate set of timbers to be framed and bolted together to the gunwale. 45. No butts to be nearer than five feet to each other, unless there be a strake wrought between them, and then a distance of four feet will be allowed; and no butts to be on the same timber, unless there be three strakes between; but vessels under 200 tons will be exempted from the full operation of this rule, and in ships of larger tonnage, a literal compliance with it will be dispensed with, in cases wherein it may be satisfactorily

proved that the departure from the rule is only partial, being confined to the ends of the ship, or the thin planking of the topside, and does not injuriously affect the ship's general strength; but such relaxation will not be sanctioned unless an accurate description of the shifting of the plank be transmitted by the Surveyors, to enable the Committee to form a proper judgment on the case.

47 In all cases where the butt and bilge bolts are not through and clenched, One Year will be deducted from the period which would otherwise be assigned in the classification of the vessel; but this Rule will not be applied to Ships built previously to the 1st January 1835.

48 The scantlings and dimensions of all intermediate sized vessels to be proportionately regulated, agreeably to a scale adopted by the Society, a copy of which is in the hands of each of the Surveyors.

49. Ships surveyed while building, in which most of the requisites for a *Twelve Years' Ship* may have been fulfilled, but in which *all* the requisites for a *Ten Years' Ship* shall have been complied with, will be marked in the Book thus, "11 A", denoting that they are to remain in the First Description of the First Class *Eleven Years*, provided they be kept in a state of efficient repair.

50. Ships surveyed while building, the scantling of timber, thickness of plank, and size of fastenings of which, shall be in no respects less than those prescribed by the Rule, but which may not be framed, nor chocked, nor the timbers so well squared, as the regulations require for a Ship intended to stand *Twelve Years*, will be marked in the Book thus, "10 A"; denoting that they are to remain in the First Description of the First Class *Ten Years*.

51. In all other cases Ships surveyed while building, and constructed of the materials, of good quality, hereinafter shewn in the Tables, Nos. 1, 2 and 3, will be classed for the several terms of years respectively appointed for their remaining in the First Description of the First Class

52. Ships built in the United Kingdom under a roof, and which shall have occupied a period of not less than Twelve Months in their construction, will have One Year added to the period prescribed for their continuing in the First Description of the First Class.

53. Ships built in the United Kingdom since the Year 1834, and not surveyed while building by the Surveyors to this Society, or where the owners or builders may have refused to permit them to survey and examine the same at the several periods prescribed by the rules, will be subjected to the minutest possible examination previously to assigning the class in which they are to be placed according to the regulations; but in all such cases One Year will be deducted from the period which would otherwise be allowed, in consequence of their not having been submitted to such survey during their construction.

#### CONTINUATION OF SHIPS IN THE FIRST DESCRIPTION OF THE FIRST CLASS.

54. If, on the termination of the period of original designation, a Ship-Owner should wish to have his Ship *remain* on the letter A, he is to send a written Notice thereof to the Committee, who shall then direct a Special Survey to be held, consisting of not less than three competent persons, to be appointed by the Committee (one of whom to be a Surveyor, the exclusive servant of the Society); that at such Survey the attention of the Surveyors shall be particularly directed to the state of the following parts of the Ship, *viz.*—The upper and lower Deck Bolts and the outside planks through which they pass; the Waterways and Beams, so far as they can be examined; the Hawse timbers, Knight-heads, Breasthooks, and Transoms;—the Floors and Keelsons; Planking outside, from the light water-mark upwards; the Ceiling inside, the Frame and inner surface of the outside Planking where it may be seen; the Decks and Comings; and the Shear and general form of the Ship:—that on these points they shall transmit a detailed report, accompanied by such observations as may occur to them either from inspection of the Ship or from information of the repairs she may have received. And if, from the Report of such Special Survey, the Ship shall appear to be in all respects in a sound and efficient state, and to have preserved her original form unaltered, the Committee shall *continue* such Ship on the letter A for such further period as they may think fit, not exceeding, however, one-third of the number of Years which had been originally assigned. Ships so continued

shall be *distinguished* in the Register Book by the number of Years for which the classing is extended, being inserted separately *under* the number assigned on the original classing, thereby denoting that the Ship has been found on Survey in such good and efficient order as to entitle her to continue years longer on the First Description of the First Class.

## RESTORATION OF SHIPS TO THE FIRST DESCRIPTION OF THE FIRST CLASS.

### *First Rule.*

55. If at any time before the expiration of two-thirds of the number of years *beyond* the period for which Ships may have been originally assigned to remain in the First Description of the First Class, an Owner be desirous to have his Ship restored to that description, such restoration (on his consenting to the special survey hereinafter described, and performing the repairs thereby found requisite) will be granted for a period not exceeding two-thirds of the time originally assigned for her remaining in the First Description of the First Class, the same to be calculated from the date of such repairs.

### *Requisites for Restoration.*

56. All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck water-ways, and plank shears and spircketing, and the strake next the water-ways on the lower deck in the midships, to be taken out; the sheathing to be entirely stripped off the bottom; a strake in the upper course of the bottom between the wales and the light water-mark fore and aft, and a plank in the ceiling at the floor heads on each side, to be taken out, the timbers to be clear, and the hooks forward to be exposed; and in that state the Ship to be submitted to a special survey and examination, at which the attention of the Surveyors appointed by this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knight-heads, kelson, floors, foothooks, ceiling, and breast-hooks, the rudder in all its parts and hangings; and if, after such examination, the Owner should consent to take out all planks, timbers, beams, knees, water-ways, fastenings, and other parts that may be found defective, or objected to, and replace them with materials of the same species, or of equal quality, as those of which the Ship was originally constructed, such Ships to be entitled to restoration to the First Description of

the First Class, for a period proportionate to their real condition and the extent of the repairs performed, subject to their being at all times thereafter kept in a state of efficient repair.

*Second Rule.*

57. If, at any Age of a vessel, an owner be desirous to have his Ship restored to the First Description of the First Class, such restoration (on his consenting to the special survey hereinafter described, and performing the repairs thereby found requisite) will be granted for so long a period as may be deemed expedient by the Committee, not exceeding in any case the term of six years.

*Requisites for Restoration.*

58. The whole of the outside plank of the vessel to be taken off as low as the second foothook-heads, and the remainder of the planking, either outside or inside, together with all the decks, to be removed, so as to expose the Timbers of the Frame entirely to view, and in that state the Ship to be submitted to a special survey and examination by the Surveyors appointed by this Society; and if, after such examination, all timbers, beams, knees, kelsons, transoms, breast-hooks, remaining plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the Ship was originally constructed, and all the treenails driven out and renewed, such Ships may be restored to the First Description of the First Class.

59. On the same principle of giving to Ships which shall be actually proved to be superior of their class, and in excellent condition, every advantage that can be extended to them consistently with the maintenance of the general principles on which the Society was established, Ships which have been restored to the class A, shall be entitled to an extension of the time, subject to the same conditions of Survey and examination as are prescribed for Ships proposed to be continued in the First Description of the First Class, at the expiration of the period first assigned to them; but, in like manner, the term of such extended continuance shall be limited to a period not exceeding one-third of the number of Years for which the Ships may respectively have been restored, without any reference whatever to the period originally assigned to them.

## FIRST CLASS SHIPS.

*Second Description.*

60. Will comprise all Ships which having passed the prescribed age,—but have not undergone the repairs which would entitle them to be continued in or restored to the First Description, or having been continued or restored, and the additional period thus assigned having expired,—shall appear on survey to be still in a condition for the safe conveyance of dry and perishable cargoes; and they will be designated by the diphthong Æ: but such of the Ships of this Class as shall be found on Survey to be of superior description, being fit for the conveyance of dry and perishable goods *to and from all parts of the world*, shall be distinguished by an asterisk thus prefixed, \*Æ.

61. For the purpose of continuing a Ship in this class, a careful survey will be required to be made annually, or on the return from every foreign voyage, by one of the Surveyors to this Society, who is to state distinctly and separately the actual condition of the *Upper Deck Fastenings, Water-ways, Spirketting, Plank Shears, Topsides, Upper Deck with its Appendages, Lower Deck Fastenings, Wales, Counter, Plank, and Treenails outside to the Water's Edge, Rudder, Windlass, and Capstan Beams, Breasthooks, and Timber*; but if not surveyed within twelve months after entering the Second Description of the First Class, such Ship having been during that time in some Port in the United Kingdom, the character will be omitted until such survey be held; or, as the case may be, she will be allowed to pass into the class E.

## BRITISH NORTH-AMERICAN BUILT SHIPS.

62. Ships built in the British North American Colonies of 300 tons and above, shall, in order to entitle them to stand on the First Description of the First Class as described in the Tables annexed hereto, be secured in their Bilges by the application of Iron Riders to cover the joints of the floor and foothook heads, to extend from the height of the hold beams to the floors so as to receive not less than two bolts in a substantial part of the floors; the number of Iron Riders to be not less than one on every fourth floor on each side from two feet abaft the mainmast to two feet abaft the foremast, the size thereof to be not less than 3½ inches by 1¼ inches at the joints of the Timbers for Ships of from 300 to 400 tons, and to be increased *one quarter of an inch each way* for every one hundred tons of increased size. That all such Ships shall also be secured by Iron hanging Knees to the Hold Beams, one Knee to every alternate Hold Beam, provided the distance of the said

Beams from each other does not exceed 4 feet 6 inches, and the tonnage be less than 400 tons, but if the distance exceeds 4 feet 6 inches, or the Ship is 400 tons and above, then One to every Hold Beam. The Knees to be connected with the Riders or not, at the option or convenience of the Owners, but if not so connected, the Side Arms are to be long enough to receive at least four Bolts: the whole to be securely bolted with Bolts of sufficient size.

63. On the expiration of the period originally assigned to British North-American built Ships for remaining on the First Description of the First Class, if they are *then* in any port in the United Kingdom, and if not, as soon as may be after such expiration, not, however, exceeding twelve Months, such Ships shall be subjected to a careful Survey, to be made by one of the Surveyors to this Society,—and no further character shall be assigned them unless a Survey shall be held as thus prescribed, and a strake of the inside ceiling be taken up from stem to sternpost, immediately above the turn of the bilge in midships, and in such range forward and aft so as to expose the timbers of the frame : that a special Report of the state of these timbers, and of the general state and condition of the upper deck fastenings, waterways, spirketting, plankshears, topsides, upper deck with its appendages, lower deck fastenings, wales, counter, plank and treenails outside to the water's edge, rudder, windlass, and capstan beams, and breasthooks, shall be transmitted by the Surveyors to the Committee, and on the receipt of such Report the Classing shall take place ; and if the diphthong character be then assigned, it shall be continued for a period not exceeding the number of years originally assigned for the Ship's remaining in the First Description of the First Class;—at the expiration of which the character will be discontinued, unless a similar survey and examination of the frame be again submitted to.

#### SECOND CLASS SHIPS

64. Will comprise all ships which shall be found on survey unfit for carrying *dry* cargoes, but perfectly fit for the conveyance *to and from all parts of the world*, of cargoes not in their nature subject to sea damage; and they will be designated by the letter E.

65. Subject to occasional inspection, ships will continue in this class so long as their condition shall, in the opinion of the Committee, entitle them thereto.

#### THIRD CLASS SHIPS

66. Will comprise ships that are in good condition, and which shall be

found on survey fit for the conveyance, on *short voyages* (not out of Europe), of cargoes in their nature not subject to sea damage; and they will be designated by the letter I.

67. The bottom of every Ship to be caulked once in every Five Years, unless wood-sheathed and felted, and then once in every Seven Years; but if any Ship be stripped within those periods, the bottom to be caulked if necessary.

68. In all cases in which it shall satisfactorily appear to the Surveyors to this Society that *Doubling*, of sufficient thickness and properly wrought and fastened, may be allowed as a substitute for the shifting of plank, either in the wales or bottom, the Surveyor is to make a special report thereof, together with his reasons to the Committee, who will determine thereon.

#### *Iron-fastened Ships.*

69. All ships (except those built in India), although Iron-fastened, shall be classed in the same manner as Copper-fastened Ships, so long as they remain unsheathed with Copper, provided they are, in all other respects, constructed in accordance with the Rules; but when sheathed with Copper over the Iron fastenings, the words, "Coppered over Iron fastenings" shall be added to the character in the Register Book, and continued until the Ship be thoroughly Copper-fastened.

70. Ships built in India, although fastened with Iron, shall be permitted to be Copper-sheathed without any mark being placed in the Book, provided the bottom be felted or chunamed, and wood-sheathed, and subject to a careful examination of the Iron-fastenings on every occasion on which the sheathing is stripped off, for which purpose some of the Bolts and Nails are to be taken out of the lower part of the bottom, and to be seen by the Surveyor; but no such ships shall be permitted to continue either on the A, or on the Æ class for a longer period than one-half the number of years beyond the term originally assigned for her remaining on the First Description of the First Class, unless the bottom shall have been doubled, or the whole of the Iron fastenings taken out or properly secured, and the bottom fastened with copper bolts, or treenails, or both.

#### SHIPS' ANCHORS, CABLES, AND STORES.

71. All vessels are required to have their masts, spars, and standing rigging in good order, and sails in sufficient number and good condition; and every

Ship is to be supplied with a good hempen stream cable or tow-line of sufficient size and length, and with at least one good warp; and all vessels are to be provided with anchors of proper weight, and cables of approved quality, in number and length according to the undermentioned scale:—

*Anchors.*

72. All vessels under 200 tons to have at least two bower anchors, and all vessels of 200 tons and above to be provided with at least three bower anchors.

*Cables.*

	Tons.	Fathoms.
73. All vessels .....	under 150	to have at least 150 if chain.
— of 150 and under	250 .....	180 do.
— 250 .....	350 .....	200 do.
— 350 .....	500 .....	240 do.
— 500 .....	700 .....	270 do.
— 700 and upwards	.....	300 do.

74. But in all cases where hempen cables are used, then one-sixth more in length will be required.

*Boats.*

75. All vessels under 150 tons to be provided with one good boat; and every vessel of 150 tons and above to be provided with at least two good boats.

76. The efficient state and condition of Ships' Anchors, Cables, and Stores, will be designated by the figure 1; and where the same are found insufficient in quantity or defective in quality, by the figure 2.

77. In all cases in which the application of the rules must necessarily be regulated by the Ship's admeasurement, the *least* tonnage (whether the result of the old or new method) is to be adopted.

FOR SHIPS NAVIGATED BY STEAM.

78. All sea-going Vessels navigated by *Steam* shall be required to be surveyed *twice in each Year*, when a character will be assigned to them according to the report of survey as regards the classification of the hull and materials of the vessel.

79. That with respect to the boilers and machinery, the Owners are required to produce to the Surveyors to this Society at the above-directed surveys, a

certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed, No. 5; to be appended to the report of survey, and delivered to the Committee, who will thereupon insert in the Register Book the letters "M.C.," denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned for the machinery.

80. *Hull*:—The Surveyors to this Society are directed to examine and report the scantling of timbers, plank, and fastenings, and to state where built, and by whom, in the same manner as directed for sailing vessels.

81. *Scantlings*:—The scantlings for a steam-vessel under 300 Tons Register, are to be deemed sufficient, if equal to those required by the Scale prescribed in the Rules of this Society, for a sailing vessel of two-thirds of the *Registered Tonnage* of such steam-vessel.

82. But for a steam-vessel *above* 300 Tons Register, then the scantlings are to be equal to those required by the Scale for a sailing-vessel of *three-fourths* of the *Registered Tonnage* of such steam-vessel.

83. *Floors*:—Where the Vessel is not *filled in solid to the Floor-heads in the Engine Room*, an exception will be specially made against any reduction of the scantling of the *Floors*, which in such cases will not be permitted to be upon the reduced scale of two-thirds or three-fourths of the dimensions for the *scantling* of Sailing Vessels as before stated; but the *Floors* will then be required to be equal to the dimensions set forth in the Rules for Ships of the actual *Registered Tonnage* of the steam-vessel.

84. The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the Engine and Boiler *Sleepers*, and the description of timber of which they are composed, and whether diagonally trussed with Wood or Iron, and to what extent; the length, size, and fastenings of Shelf Pieces and Paddle Beams; and whether the Vessel be constructed with Spongings and how they are formed; and to give the length and shifting of the Plank outside and inside.

85. *Materials and Stores*:—The Surveyors are to examine and report the number and description of the Masts, Sails, Anchors, Cables, Hawsers, Warps, and Boats, as directed to be done for Sailing Vessels; but the Anchors and Cables will not be required to exceed in number, weight, and length, those of a Sailing Vessel of two-thirds of the *Registered Tonnage* of the Steam Vessel.

86. The Surveyors are to be particular in examining and reporting the condition of the Boats of all vessels employed in carrying Passengers.

In presenting the New Edition of the REGISTER BOOK for the year ending the 30th June 1838, to the Subscribers, the Committee beg to congratulate them on the steady progress with which this important work is rising in the estimation of the public, and which is best attested by the gratifying fact of an extended List of Subscribers, including the *Right Honourable Lord Glenelg, Her Majesty's Principal Secretary of State for the Colonies*, and a very considerable augmentation of the number of Ships which have been surveyed and classed.

The Committee have also great satisfaction in announcing, that after much labour and anxious consideration, they have found it in their power greatly to amend and enlarge the Rules of the Society, not only with a view to render them as distinct and intelligible as possible to the Ship-Owners and Ship-builders, but also to allow the utmost practicable latitude in their application, consistently with the best and most correct information they have been able to obtain and the experience they have had.

The Committee therefore confidently hope that the Rules, as amended, will be found to be not only just in principle, but highly beneficial and satisfactory in practice.

By Order of the Committee,

CHARLES GRAHAM,

Secretary.

SUPPLEMENT.

The image shows a page from a ledger or account book. At the top center, the word "SUPPLEMENT." is printed. The main body of the page is a table with 12 vertical columns, created by thin black lines. The columns are of varying widths: the first column on the left is the narrowest, followed by several columns of similar, slightly wider widths, and the final column on the right is the widest. The table is completely empty, with no text or numbers written in any of the cells. The paper appears aged and slightly off-white.
