SUBJECT : Application for Approval of Temporary Use of Reparations Machinery

TO : Commander, Hyogo Civil Affairs Team

THRU : Kobe Liaison and co-ordination Office
Kobe Branch of Osaka Finance Bureau

Your permission for our application for approval of temporary use of reparations machinery (unloader 13-52-10), dated 30th July 1949, was given at 2nd Aug. 1949, by word of mouth, because we unload coal belonging the Solid Fuel Distribution Public Corporation urgently.

Thanking your permission we have immediately entered upon unloading and we are utilizing all this machine's faculty. But many carrying ships are pressing forward one after another, and we want to increase unloading capacity.

Fortunately another unloader (13-52-9) are by the side of this machine (13-52-10), and conveyers are attached to this unloader. We are sure, when we use this unloader with conveyers, we can rapidly unload a large quantity of coal. So we furthermore are under the necessity of the help of the latter one.

We, therefore, ardently request your generous approval of the temporary use of this unloader with conveyers.

KOBE BRANCH FINANCE OFFICE

2 August 1949

417

SUBJECT: Application for Temporary use of Reparations Land and Equipment.

TO : Commander, Hyogo Civil Affairs Team.

THRU : Kobe Liaison and Co-ordination Office

1. Hamada Transportation and Construction Company Ltd. brought this office the petition as enclosed.

2. They are suffering with hardships in disposing of a good amount of piled coal on the seashore and it is feared that there will be no space to heap up, when the coal newly arrives.

3. They found adequate space (some 7.5 acres) and Reparations coal-unloader in Harima Factory, of which they are applying for temporary use. The space can store 100,000 tons of coal. (Vicinity is plain and has no obstacle) The equipment can load sixty (60) tons of coal an hour.

4. Using period of land is twelve (12) months (This government is planning to sell 10 per cent of stock-piled coal every month from October this year.) Using period of unloader (13-52-10) is two (2) months, and it will not be used when the coal is shipping off. The action effects to nothing as the coal is transported over the sea without passing through any other spaces or the gate.

5. By reason mentioned above, we apply that your permission is granted to their temoorary use.

verbal permission granted to use coal-loader temporarily.

Tamio Morita
TAMIO MORITA

authorized to stock-pile coal in Harima Plant. 2/8/49

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO.

HAMADA TRANSPORTATION AND CONSTRUCTION CO.,LTD.

30th July 1949

SUBJECT: Application for Approval of Temporary Use of Land in the Reparation Factory and Reparation Machinery

TO : Commander, Hyogo Civil Affairs Team

THRU : Hyogo Liaison Office
Kobe Branch of Osaka Finance Bureau

As you recognize, coal is motive power of industry, and we are making effort for smooth distribution of coal through its efficient unloading.

By direction of The Solid Fuel Distribution Public Corporation, we had already borrowed the private land storing 100000 tons of coal at Aboshi and Shikama. Additionally we have been directed to borrow the new land at Takasago area where is capable of storing 100000 tons of coal for a large quantity of remains. But we are puzzled because we can't find such place.

A spacious piece of land lies in The Harima Factory of Ex-Osaka Military Arsenal, and this is, we are sure, the most suitable one for storing coal because it is convenient for unloading.

We want to get your permission of the temporary use of this land (7.5 acres).

The programed coal yard is shown as annexed blueprint.

Furthermore we have to unload a large quantity of coal in a short period, but it is feared that we should not be able to complete its unloading only by human labor, so we are under the necessity of the help of an unloader (13-52-10).

We, therefore, ardently request your generous approval of the temporary use of said land and unloader.

T. Boda

Takeo Boda

President of Hamada Transportation & Construction Co.,Ltd.

30th July 1949

SUBJECT ; Temporary Use of Land and Coal Unloader

TO : Commandery, Hyogo Civil Affairs Team

THRU : Hyogo Liaison Office
Kobe Branch of Osaka Finance Bureau

The Solid Fuel Distribution Public Corporation has designated a spacious land of the Harima Factory of Ex-Osaka Military Arsenal where the coals will be stored, and has submitted the application for temporary use of the land and one coal unloader (13-52-10) to your headquarters.

The programed coal yard is shown as annexed blueprint.

It is harmless, we believe, for our custody and maintenance of reparations equipment to give permission to the said Corporation.

Herby approval of your headquarters for the said temporary use requested.

SUBJECT: Transmittal of Reparations Allocation Notices

TO: Commanding General
I Corps
APO 301

1. Transmitted herewith for your information and necessary action in accordance with the provisions of Operational Directive 21, dated 30 March 1948, are copies of SCAPIN 5825-A/29 and allocation notices listed therein which pertain to reparations plants located within your zone of responsibility.

2. The resident engineer to be appointed by the claimant nation as provided in these allocation notices will be named in a subsequent communication. The resident engineer will work through the representatives of the local Military Government Team. If the engineer deems that removal operations are not proceeding satisfactorily he may make written request to the local Military Government Team for cessation of operations giving reasons for such request. Based on the engineers request, operations will be stopped and the problem involved will be referred to General Headquarters, Supreme Commander for the Allied Powers, by the most expeditious means available; confirmation will follow through normal channels.

SUBJECT: Application for permit for removing of supports to Reparations Accumulator in Harima Factory

TO : Commander, Hyogo Military Government Team

THRU : Kobe Liaison and Co-ordination Office

1. We apply for your permission of taking off the wooden supports to Reparations Accumulator (13-52-4504), which stands at south outside of the warehouse (Bldg No. 109) in Harima Factory, on ground that the timbers are much corroded and in danger of collapse.

2. No danger will occur by removing action as piston-rod is descended.

3. In taking off the metal fittings (Bolts of guide-rail) they may be gass-cutted as being rusted much. After removed the metal fittings will be preserved.

4. Expenditures (togetner design and action) are estimated at 60,000 Yen.

5. Necessary Charts are being prepared.

6. Attached is a rough sketch of the Accumulator.

Apr. 15 1949

SUBJECT: Application for Approval of Temporary Use of Reparations Machinery.

TO : Commander, Hyogo Military Government Team.

THRU : Hyogo Liaison Office
Kobe Branch of Osaka Finance Bureau

In compliance with a recent directive by the authorities for the remodeling operation of wooden passenger cars, complete arrangements for immediate execution are being provideddfor, But the shortage of electric welding machines are disturbing the opening of the work.

It would have, we are convinced, a very good effect upon the matter that the use of the six electric welding machines which are at present under the reparations custody as below mentioned sholud be authorized by this headquarters.

Here is, therefore ardently requested a generous approval of temporary use of said machines by this headquarters.

OSAKA RAILWAY DIVISION
JAPANESE GOVERNMENT

Nov. 12 1948

SUBJECT: Application for Transposition of Reparation machinery in Authorized Use.

TO : Commander, Hyogo Military Government Team.

THROUGH: Hyogo Custody Office, Osaka Finance Bureau, Japanese Government

Authorized for use through the good offices of the Team all the reparation machines located in Takasago Railway workshop are being put in operation for the purpose of the rolling stock repairs just as they remain intact as heretofore installed.

The efficiency of said operation, however, has been found unreasonable at certain points, and it is now considered necessary, with a view to a better proceed of the rolling stock repair work, to transpose some of said machines as per enclosure.

Permission for said transposition is herewith requested.

TO: Sangyo Fukko Kodan

THRU: Hyogo Liaison Office

1. Reference is made to your application, dated 6 September 1948, ("Dai-Fuku-Kin-Hei," No. 34) requesting permission to use three (3) jib cranes and one (1) rail weighing machine for removal of scrap iron from the Harima Factory of the Osaka Military Arsenal (13-52).

2. Since arsenals have been made available for reparations, formal authorization for use of equipment is not possible. However, the equipment mentioned above may be temporarily used until such time as reparations removal commences or until removal of scrap iron is accomplished, whichever is sooner.

ATTN: Mil Govt Section

1. Forwarded herewith in compliance with paragraph 4g, Operational Directive #21, Headquarters Eighth Army, dated 30 March 1948, application submitted by the Sangyo Fukko Kodan, Osaka Branch, requesting permission to temporarily use three (3) jib cranes and one (1) rail weighing machine located in the Harima Factory of the Osaka Military Arsenal (13-52).

2. The Sangyo Fukko Kodan requires the use of above equipment in order to move approximately 70,000 tons of scrap iron located in the compound of the Harima Factory for delivery to steel industries. Use of the four (4) items of equipment will not require removal or transfer of such equipment since dock areas of the Harima Factory is to be used. In its present state, the three (3) jib cranes are in need of repairs which the Sangyo Fukko Kodan will undertake in the event authority for use is granted.

3. It is the recommendation of this headquarters that since delivery of scrap iron located in the Harima Factory (13-52) of the Osaka Military Arsenal to steel industries will be of benefit to the rehabilitation of Japanese industry, inclosed application be given favorable consideration.

HQ GWMG RECORDS

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS No.

Dai-Fuku-Kin-Hei
No. 34

Date: September 6th 1948.

Applicant:

SANGYO FUKUKO KODAN, OSAKA BRANCH
(The Industry Reconstruction
Public Institution)

.....
Manager of the Osaka Branch.

To the Military Government,
Hyogo Prefecture:-

Subject: Application for Temporary use
of Reparation Machines:

For the reason stated below, we should like to use temporarily the jib-cranes and Rail Scales of the reparation machines now in custody on the compound of Osaka Railway Bureau, Takasago Machinery Department located at Arai-mura, Kago-gun, Hyogo Prefecture:

(1) Items we wish to use;	Capacity	Reparation No.
A. Jib-crane	3 kilo tons	13 - 52 - 2
B. "	5 "	13 - 52 - 4
C. "	5 "	13 - 52 - 6
D. Rail weighing machine	30 "	13 - 52 - 626

(2) REASON: We, Sangyo Fukuko Kodan, Osaka Branch, were asked in last August to deliver about ~~7 kilo~~ 70,000 tons of Scrap Iron which we had received from the Arms Disposal Committee. Since the stock of scrap iron is very scarce at all steel makers, the Commerce and Industry Ministry as well as the Stabilization Headquarters urge us to ship same as soon as possible. We expect to ship about 50,000 tons by December 1948, but as the matter stands, the shipment is greatly hindered by limited capacities of our cranes and weighing machines, and we fear we shall not be able to carry out the expected shipment, unless we are permitted to make a temporary use of the machines mentioned above.

Please grant us permission to temporarily use them.
