

### BUILDING PERMITS

FOR THE SECOND TIME IN HER HISTORY GLENDALE PASSES \$200,000 MARK

While the number of building permits issued in June was not larger than in the previous month, the total value of the buildings represented by these permits exceeded May's record by many thousands of dollars. There were 80 permits issued and the total valuation was \$202,471. In the detailed list which follows, the owner named is understood to be the contractor, also, if no contractor's name is given.

- Glendale Sanitarium, 30-room hospital unit, H. J. Eggers contractor ..... \$ 40,000
- Glendale Sanitarium, 30-room dormitory at 135 N. Jackson, H. J. Eggers contractor ..... 18,000
- Glendale Construction Co. 5 four-room bungalows at 200 E. Wilson Ave., 5 permits for \$3000 each, W. G. Boyd contractor... 15,000
- Glendale Construction Co., 8-room double bungalow \$4000, 4-room bungalow and garage \$3000, 4-room bungalow \$3000, all corner Wilson and Maryland avenues, W. G. Boyd contractor ..... 10,000
- Minnie W. Fox, 7-room residence and garage at 345 N. Kenwood ..... 8,000
- E. W. Alserge, 7-room residence and garage at 433 N. Isabel, H. J. Eggers contractor ..... 6,000
- J. M. Prime of Alhambra, 5-room residence at 312 N. Isabel, H. J. Eggers contractor ..... 5,000
- Chas. E. Pfautz, 6-room residence and garage at 507 N. Isabel ..... 4,500
- I. Cline, 5-room residence and garage at 432 W. Wilson Ave. .... 4,325
- I. Cline, 5-room residence and garage at 440 W. Wilson Ave. .... 4,000
- T. L. Peterson, 5-room residence at 424 W. Wilson Ave., I. Cline contractor ..... 4,000
- Herman Johnson, 4-room residence and garage at 414 W. Lexington Drive, I. Cline contractor ..... 4,000
- Henry A. Michel, 5-room residence at 455 W. Wilson Ave. .... 4,000
- C. A. Lessard, 6-room residence at 805 E. Wilson Ave. .... 4,000
- Joe Lingeman, 5-room residence at 666 W. Lexington Drive ..... 4,000

(Continued on Page 8)

### OUTING AT PORTUGUESE POINT

Quite a party of friends are planning a trip to Portuguese Point for a week-end Fourth of July celebration. They have a boat and will therefore be able to spend as much time on the water as they choose and expect to have a big catch of fish. The party will include Mr. and Mrs. L. G. Bramble and son Gilbert of North Columbus avenue, Mr. and Mrs. Grith and Mr. and Mrs. Anderson. They will motor to the beach Friday night and not return until Monday night.

### SUBURBAN HOME

J. R. COVERT BUYS ACRE AND WILL BUILD SPANISH STYLE RESIDENCE

J. R. Covert of 208 West Eulalia has bought an acre of ground fronting on Kenneth Road, a part of Alex Mitchell's former holdings. It is covered with large apricot trees. Mr. Covert will build at once a comfortable double garage for a home until he can put up an 8-room Spanish style residence. He is a builder and has been working lately for a large real estate and building firm on Western avenue, Los Angeles. He is a self-taught architect and draughtsman and has the plans already drawn for his residence.

Mr. Covert is a loyal Glendalian, even though his work has been in Los Angeles. He formerly owned a home on North Kenwood, which he sold about a year ago. He and his wife want to raise their two children in a small-city environment and think they have secured an ideal location for a home. The section where they have just bought is rapidly filling up with fine residences. A large, two-story residence is to be erected on acreage just north of him and fronting on the private road leading to Alex Mitchell's home, Mr. Covert says.

### HOME WEDDING

MISS ETHEL LEWINSTEIN BECOMES BRIDE OF EDWIN EDGLEY, EX-SERVICE MAN

A very pretty but strictly home wedding took place Thursday evening at 205 West Lomita avenue when Miss Ethel Lewinstein became the bride of Edwin Edgley, Dr. W. E. Edmonds officiated and Miss Ruth Massard, a cousin of the groom from Pasadena, presided at the piano and sounded the wedding march at 8:30 when the marriage was celebrated, playing softly during the ceremony and furnishing the accompaniment for the vocal numbers by her sister following the marriage.

The bride was very handsome in her wedding gown of white net over white silk and bridal veil crowned with orange blossoms which displayed her dark beauty to advantage. Her shower bouquet of white sweet peas completed the symphony in white. Attending her as bridesmaids were two cousins of the groom, Misses Elliott and Mary Massard, gowned in pink and carrying pink sweet peas. The groom was supported by his brother, Norval Edgley.

After congratulations had been extended to the happy pair by the company which numbered about twenty, all relatives or close friends of the bride and groom, a wedding supper was served, the bridal party being seated at a special table centered by a very beautiful wedding cake on which a sweet pea design had been carried out in the frosting. A circle of bouquets of pink sweet peas alternating with candles under pink shades completed the decoration of the table.

Later the bride exchanged her wedding dress for a handsome going-away gown of brown tricotine with hat to match and amid the usual showers of rice and old shoes the young people departed on their wedding journey.

On their return they will make their home in Los Angeles where Mr. Edgley, who is a civil engineer, is employed in the office of the County Engineer. He is an ex-soldier who spent two years in France, returning about a year ago with the rank of Sergeant. Mrs. Edgley was graduated from Glendale High last year and has many friends here. She has recently been in the employ of the Southern California Music Company in Los Angeles.

### C. J. PEURRUNG SALE

WELL-KNOWN GLENDALIAN TRANSFERS RESIDENCE TO BURBANK

C. J. Peurrung, who has been a resident of Glendale for about 14 years has just disposed of his home at 378 West California avenue, the purchaser being Robert H. Brandt, who comes to Glendale from Los Angeles, but who is a newcomer in the state from Illinois. Mr. Peurrung sold reluctantly as he was much attached to the property. While the price was satisfactory he admits he will make no money on the transaction because he is building again on Tejuanga avenue in Burbank and his six-room bungalow there will cost him more than he realized from the property sold. But he has taken over the Dodge Agency in Burbank and for business reasons feels it is to his advantage to live there, hence the change. He has a large circle of friends here who regret his removal, but who are glad he is to be so near our city.

### NEW COMERS FROM OAK PARK

Mr. and Mrs. M. J. Brennan and family of 519 North Central avenue left Thursday afternoon for Balboa, where they plan to spend a couple of months. A few hours before they took their departure they welcomed Mr. and Mrs. Moritz, who were neighbors and warm friends of theirs for many years in Oak Park, Ill. The visitors have disposed of their interests there and come to Southern California to locate. They were easily persuaded to take possession of the Brennan home and care for it in the absence of the owners and in the meantime can be looking around for a new home. As soon as they are permanently located they will send for a daughter and son-in-law now in Oakland who also wish to live in Southern California. Though Mr. and Mrs. Moritz have been here so short a time, they are already impressed by the attractions of Glendale and the friendly spirit of its citizens.

### DEMOCRATIC PLATFORM

EVASION OF "WET AND DRY" ISSUES AND IRISH QUESTION EXCEPT AS TO SYMPATHY

(Special Service to Glendale Evening News)

SAN FRANCISCO, July 2.—When the Democratic national convention was called to order at 10:37 today, Senator Carter Glass was ready to present the platform as chairman of the Resolutions Committee.

The platform, which was completed early today, is entirely silent on "wet and dry" issues. It contains such a league of nations plank as was detailed yesterday. On the Irish question it extends sympathy to Ireland without any reference to American recognition of the Irish republic.

The administration plank for a mandate for Armenia was rejected and is not in the platform.

The platform pledges aid to soldiers in securing land and houses but does not promise any money bonus.

It advocates tax reforms and a revision of the War Revenue Act to fit peace-time conditions.

It favors collective bargaining and co-operative marketing for farmers.

The labor plank was practically written by Samuel Gompers and is lengthy. The main provisions are the same as the sub-committee's draft made public yesterday.

On the railway question it advocates "a complete test" of the Cummins Railway Bill with the idea of building an efficient railway system under the present private ownership and without government subsidies.

The platform favors government supervision of livestock markets and "ample appropriations" for the irrigation of arid lands.

It favors Philippine independence and commends the government's policy on Asiatic immigration pledging support to western states in the strict enforcement of this policy.

### CANDIDATES TO BLOCK EACH OTHER

OBSERVERS AT CONVENTION BELIEVE NO CANDIDATE HAS STRENGTH ENOUGH TO WIN ALONE

(Special Service to Glendale Evening News)

SAN FRANCISCO, July 2.—Apparently not a candidate for the Democratic presidential nomination now has sufficient strength without help to win the nomination.

Reliable sources say that the best McAdoo can muster without help from others is 600 votes, or more than one hundred less than is required to nominate.

Palmer's maximum individual strength is not to pass 500, and Cox's 400.

Political observers believe that McAdoo will lead on the first ballot, that Palmer will come close behind and that Cox will be a poor third.

Palmer expects to develop his maximum strength on the fifth ballot when, if he does not win, his strength is expected to disintegrate, going to McAdoo and Cox.

### CORNING MINUS LIGHT AND WATER

FIRE CAUSED BY LIGHTNING DESTROYS SUB-STATION OF PACIFIC LIGHT & GAS CO.

(Special Service to Glendale Evening News)

CORNING, CAL., July 2.—Fire started by lightning today destroyed the Pacific Gas and Electric Company's sub-station here. The city will be without light or water for about 24 hours.

### SHIPYARD WORKERS KILLED

TWO WORKMEN BRUSHED OFF CROWDED STREET CAR IN OAKLAND, AND FELLOW WORKER INJURED

(Special Service to Glendale Evening News)

OAKLAND, July 2.—Two shipyard workers were killed and a third perhaps fatally injured today when the three were brushed off the step of a crowded street car by another car.

### U. S. DESTROYER TO THE RESCUE

STATE DEPARTMENT REPORTS SENDING OF SHIP TO EFFECT RELEASE OF MISSIONARIES

WASHINGTON, July 2.—A United States destroyer has been dispatched to secure the release of Paul Wilson and his wife, American missionaries in Cilicia, who have been captured by Turkish nationalists, the State Department announced this morning. No details were available.

### COL. TOM THORNTON

Just why our good old democratic wheel horse Col. Tom Thornton does not use the political whip on his party friends at San Francisco this week, and get them down to real business is a wonder to a few of the dim political lights in Glendale. Before departing for the Bay City Col. Thornton promised to nominate McAdoo and Cox, and never even mentioned that Bryan would be present at the convention.

### CITY HALL CHANGES

Several changes are noted in the City Hall. Ed Fairfield has resigned as Superintendent of Building and A. J. Van Wie has been appointed to succeed him. Miss Corinne Orff, stenographer and typist for the City Manager and Building Department, has left for other work. There are two new policemen on the force, the Strehlein brothers. J. F. McIntyre has been appointed Commercial Agent for the Public Service Department.

### LONG, USEFUL LIFE

EIGHTY-NINTH BIRTHDAY OF CHAS. MALLETT CELEBRATED AT DAUGHTER'S HOME

The home of Mr. and Mrs. R. R. Davis at 410 North Adams street was the scene of a happy gathering Monday evening, June 28th, when Mrs. Davis entertained with a six o'clock dinner in honor of her father, Charles Mallett, the occasion being his eighty-ninth birthday.

Covers were laid for twenty-three and after the guests were seated Mr. Mallett read a short poem which had been sent to him by a niece in Connecticut who is herself nearing the eighty-year mark.

Mr. Mallett was the youngest of twelve children and he had several nieces and nephews older than himself. His brothers and sisters were all married and had families and he is the only survivor of the twelve couples who all started life in Connecticut and all ended their days there except one sister, who recently died in Colorado at the age of 88. One brother reached the ripe age of ninety-eight.

Mr. Mallett is hale and hearty, taking an active interest in the affairs of the present day, working in his garden and often walking three or four miles a day for exercise. He recently raised, with very little assistance, a fine crop of fruit.

### MUSIC FEDERATION

Mrs. C. L. Marlenee, the new curator of the Music Section of the Tuesday Afternoon Club, represented her organization at a luncheon for officers of the Federation of Music Clubs held Wednesday afternoon at 12:30 in the quarters of the Men's City Club of Los Angeles. Following the luncheon there were brief addresses by distinguished members of the Federation, Charles Wakefield Cadman, who is Chairman of Education, telling something of his plans. Mrs. Cecil Frankel, president of the Federation, who had arranged the luncheon, presided, and Mr. Behymer, who was present, showed his sympathy with the proposed work but made no address. Mrs. Mattison B. Jones of this city, who is First Vice-President, made a talk, and Mrs. William Mabee of Los Angeles set forth her plans with regard to church music. Mrs. Marlenee found it most interesting because of the great promotion work promised.

### DINNER FOR SHUT-IN

MRS. PIERSON HANNING ENTERTAINS FOR MISS MARIAN SPRINGER, AN INVALID

On Thursday, July 1st, Mrs. Pierson Hanning gave a dinner and afternoon party at her home, 235 N. Orange, for Miss Marian Springer, of 231 S. Orange, who has been a helpless invalid for 18 months. She has not walked for over a year, but has been in a plaster cast most of the time. She was taken to Mrs. Hanning's in a wheeled chair and there found as fellow guests Mrs. S. H. Waller and little daughter, Laura Enid, Mrs. R. H. Robinson and little son and Catherine Bloss. Her mother and brother Ralph accompanied her. Dinner was served at 1 o'clock and seated about the table were those just named, also Mr. Hanning, Preston and Clifton. The table was decorated with sweet peas and the rooms with Shasta daisies and coreopsis.

The afternoon was spent by the older folk in entertaining Miss Marian by playing games, telling lively stories and making music. In the meantime Clifton Hanning took the little folk to the theater for the matinee performance and then treated them to ice cream.

It was a very happy occasion to Miss Marian, who is very patient and cheerful despite her long affliction.

### OUTINGS OF M'PHERSON FAMILY

H. A. McPherson and family of 416 Pioneer Drive expect to spend the Fourth at one of the beaches. Mrs. McPherson reports that her daughters, Margaret and Dorothy, expect to leave about the 15th for Big Bear with a party which has taken a cabin for a month, not far from where Miss Vera McPherson is located. Allen McPherson is also there having gone up three months ago to take a position which will keep him in the mountains all summer working for the Fish & Game Commission. Mrs. McPherson plans to motor up week-ends while her family are there declaring it is such a lovely journey that she and Mr. McPherson enjoy taking it.

### TRUSTEES' MEETING

E. C. FAIRFIELD RESIGNS—BUILDING ORDINANCE CHANGE

The Board assembled at 8 o'clock p. m., July 1, 1920. Present, Trustees Bartlett, Henry and Robinson. In the absence of the Chairman, Trustee Bartlett was appointed Chairman pro tem.

The minutes of the regular meeting of June 24, 1920, were read and approved.

A communication was read from Napoleon La Blanc of 1119 South Glendale avenue, complaining of the condition of an alley in the rear of 127 East Palmer avenue and requesting that the city apply to the same a coating of oil. Referred to the City Manager. A protest was read, signed by F. J. Willett, and other business men in the Central Building, against the strict enforcement of the Traffic Ordinance as applied to automobiles stopping for a few minutes in front of that building. On motion of Trustee Henry the matter was referred to the City Manager to report back to the Board of Trustees in regard to the same.

An application was read from J. H. Thompson of the California Swiss Goat Dairy for a permit to sell milk. On motion of Trustee Henry, granted. An application was read from F. D. Myers of Glendale Heights, asking permission to shoot rabbits on his own property; referred to the City Marshal. A communication was read from L. P. Abell of 3434 Atwater avenue, calling attention to the inconsistency in the rates of fare between Los Angeles and Atwater avenue and between Glendale and the same point. The communication also called attention to certain practices of the company which in the latter's opinion should be reformed. Communication filed.

Resignation of E. C. Fairfield as Superintendent of Building Dept. was presented to the Board and on (Continued on Page Ten)

### HIGH SCHOOL MATTERS

It is reported that at the next meeting of the High School Board of Trustees consideration will be given to tentative plans which architects have been instructed to prepare for temporary buildings to relieve congestion at Glendale High School. The date of the meeting will depend upon the speed with which the architects execute their commission.

Mrs. Gardener of Eagle Rock has succeeded Hartley Shaw as president of the Board and S. W. Shaull of West Eulalia street has been appointed to fill the place on the Board left vacant by the resignation of Mr. Shaw.

### HEALTH LECTURE

THE RELATION BETWEEN THE RIGHT CARE OF THE BODY AND SALVATION

Last evening a large audience was in attendance at the Gospel Tent, corner of Harvard street and Central avenue, to listen to an address given by Dr. W. J. Johnson, who spoke on the above named topic much to the edification of his auditors.

He set out with the text found in Eccles. 7:27: "Lo, this only have I found, that God hath made man upright; but they have sought out many inventions."

He showed how in creation God made everything good and indeed could not by His very nature produce anything that was imperfect.

He made man in His own image and placed him in a perfect Eden home. Adam must have been the very incarnation of robust, healthy manhood. We can not think of him as racked with pain or twisted up with rheumatism. The apples of Eden gave him no cause for distress until he disobeyed and ate of the forbidden tree. Until he transgressed all his organs functioned properly.

Many men today can remember a healthy, happy childhood. But for years they have suffered from disease to such an extent that they have well-nigh forgotten what it is to be in health. This condition has come from the violation of the laws of nature.

It is this that has brought sickness, pain and death. God never intended that Adam or his posterity should ever suffer from the decay of their bodily powers. He meant that men should be well and always well. But man has sought many (Continued on Page 9)

**OUR NATAL DAY**

(Contributed by Samuel Parker)  
 "Loud raise the peal of gladness,  
 'Tis freedom's natal day.  
 This land that once in sadness  
 Groaned 'neath a tyrant's sway.  
 "In liberty rejoices,  
 Awed by no monarch's rod.  
 Lift high your happy voices,  
 Yea, lift them up to God."

Small affair, the Revolution compared with the world-wide war. Hold there! Statesmanship, patriotism, suffering, bravery, endurance, daring; Washington ferrying his bare-footed army across the Delaware on floating cakes of ice. Hold up this incident beside the gas-tortured victims of our army in France and be it Pershing or Washington that calls for the suffering, let us thank God the ranks are full of brave boys ready to suffer if Old Glory leads on.

Song has its uses in all military moves. The splendidly equipped bands of our army were a valuable asset. We find in the song books used by any congregation a number of hymns harking back to Revolutionary times. They are in the books, but not in use though full of piety and patriotism. Among all the compositions for our natal day there is none that excels that noble composition of Dr. Smith, "America." Let it ring out from highest hilltop to lowest valley covering all the space between.

The colleges have graduated a gratifyingly large number of harvest hands this June.

Quite a lot of people seem to think that 100 per cent Americanism is synonymous with 100 per cent profits.

Advertise it, or advertise for it in the Evening News.

**SPENDING AS THEY EARN**

The soviet government of Russia has put into practice many freakish innovations, so that anything undertaken no longer causes surprise. The latest experiment reported is that of issuing currency notes good only for the month of issue, a different color being provided for each month.

It is presumed the dominant idea is to cause holders of the notes to spend their money from day to day and to make impossible any accumulation for the future. If such is the principle on which the government is acting it should be successful.

Spend today, let the morrow take care of itself, is the plan on which many individuals act, but such never become of great importance in the world. Primitive races that had not developed to the point where they realized the value of storing for the future followed that plan. They gorged themselves when food was plentiful and starved when it was scarce because they either had not learned to save in times of plenty for periods of scarcity or had no facilities for storage.

If the accumulation of money is forbidden as a means to prevent the acquirement of wealth the laying away of a surplus of goods would logically come under the same ban, for the products of the soil, the output of the mills and mines constitute wealth, while currency is merely a medium of exchange. If the soviet government wishes to bar absolutely the accumulation of wealth it would be necessary to cease producing more than is consumed from month to month. Applying the plan to currency alone will not fulfill the design.

By means of barter one may accumulate wealth without the use of currency at all. Spending as they go and consuming as fast as they produce will not restore Russia to a condition of prosperity. The Bolshevik leaders in their efforts to establish a purely social state, if such really is their purpose, evidently have not advanced to the primary grade in the principles of economy.

**ASSURANCES FROM MEXICO**

Assurances by Provisional President Huerta that Mexico will construe the petroleum code liberally and will assume all legally contracted debts are undoubtedly pleasing. It must be remembered, however, that Huerta is as yet merely an executive pro tempore and as such incapable of making serious commitments.

The spirit of frank friendship manifested by the utterances of the Mexican leader may be significant. If this continues the policy of the new order south of the Rio Grande, Americans will have great cause for gratification.

Mexico is likely to continue our greatest riddle for many years. The country cannot be made over in a day. It is inconceivable that the plagues of illiteracy and poverty can be eradicated in less than two generations. We may help, but most of the work must be done by Mexico herself.

The one great hope of friends of Mexico in this country is that a way may be found for cooperation in building up the distraught republic. This must depend largely upon the attitude of the two governments.

Huerta's announced stand is the first step in the right direction taken by Mexico.

**APRICOT CROP QUITE VALUABLE**

Ed Krachey is about through with apricot picking on the Sycamore Canyon ranch. There are 12 acres of it altogether, 10 acres in full-bearing apricot trees and from these he has taken more than 1500 lug boxes of fruit. Much of this has been sold to Glendale people through ads in the Evening News, but a great many boxes of the cots have been shipped to Oregon. He and three of his neighbors, together with two growers living near Lankershim, combined and shipped seven carloads to northern points, at considerable profit to themselves. He says the canneries offered but \$90 a ton, though he could have gotten \$115 by holding out. But he is very well satisfied with the result of his labors. The ranch has also peaches, pears, plums and walnuts on it.

**RED CROSS ON THE JOB**

It will be a long time before the world is free from the inevitable accompaniment of a long and destructive war. Disease and pestilence may be expected to break out with violence in many places, making extraordinary care and precaution necessary to combat death-dealing maladies. One area threatened with pestilence is that portion of Russia known as the Crimea, where cholera has broken out with a severity which threatens the whole of that district. In a fortnight 67 cases have resulted in 31 deaths, the disease being due to the arrival of many infected soldiers from the Caucasus. Small-pox has also been prevalent in this district, and strict measures are being taken against both maladies. It is a matter for congratulation that the American Red Cross is at work in the Crimea, being the only foreign relief organization assisting the Russians in their efforts to get cholera under control.

The three Smiths who are candidates for one state office in Ohio should at least command the full Smith support.

### ENABLING GERMANY TO PAY

The \$30,000,000,000 cash indemnity imposed upon Germany by the Allies is probably no greater, relatively, than the \$1,000,000,000 collected by Germany from France nearly a half-century ago, taking into account the increase in the wealth of nations in this period. France paid in an incredibly short time, surprising the world with the revelation of her hidden financial resources, and the aftermath of the settlement in some ways worse for the victor than the vanquished. Germany indulged in an economic spree and also in a dream of world conquest which was shattered two years ago. France, on the other hand, buckled down to work and not only speedily rehabilitated herself financially but became, next to England, the greatest creditor nation in the world. Industrially, Germany is superior to France, and shortly before the war she wrested supremacy from Great Britain as an iron and steel producer and took rank second only to the United States in this respect.

Under the plan submitted at the conference of Allied premiers the period for the payment of the \$30,000,000,000 imposed upon Germany is extended over a period of 37 years, unless the prosperity of the latter in the meantime warrants a more rapid extinction of the obligation. The problem set before the world's financial experts in this connection had no parallel in all history. The obstacles in the way of its solution appeared insuperable to the lay mind. They involved political as well as economic factors, affecting both creditors and debtors. One cannot but admire the skill displayed in the tentative adjustment. In the first place, the terms of the treaty left uncertain the amount of the indemnity to be exacted. The plan submitted at the recent conference fixes a definite sum. The terms of payment were also indefinite; now they are explicitly fixed.

Without doubt the experts had in mind the effect upon the recipient of the too rapid payment of the indemnity, assuming Germany's ability to pay promptly. Perhaps the most serious of all the problems in the mind of the general public was the means whereby Germany could be enabled to meet her obligations. She could not pay in gold because the sum did not exist in exchangeable form in all the world. She could only pay by being given the means to develop her material resources. Here the experts applied the principle followed by an individual bank to a virtually insolvent but honest debtor when it makes a new loan to him. The Allies propose to issue international bonds, one-third of the proceeds of which will be advanced to Germany for her own internal uses. With these means she will be able to buy raw materials on which she must apply her acknowledged skill and her admitted potential industry, turning them into finished products which may be exchanged for gold or financial credits, which in turn will be devoted to the liquidation of the principal of her debt.

Commerce has little sympathy with individual or partisan bitterness, and is not barred by geographical boundaries. Where its interests are mutual it makes friends. It is as much to the interest of the Allies that Germany be economically rehabilitated as to the new republic itself. It looks as if the financial experts had solved the problem. The percentage of the sum to be distributed among the several Allies appears to be the one remaining point of dispute, but this should not impair the solution submitted.

### FRENCH LIKE OUR CANNING METHODS

Last year France borrowed three canning specialists from the United States Department of Agriculture. This unit taught a large number of agricultural directors and professors, assembled for the purpose at the principal French agricultural college, the American methods of canning and drying. This year the Americans have been asked to continue the demonstrations and lectures. One member of the unit is already there and the rest sail the last of May.

Instead of giving the instruction at one place in France this summer, short courses will be conducted in different parts of the country at the schools where those who attended the course last year have been teaching American canning methods. To facilitate the work, the French Government recently issued a bulletin which gives complete directions for canning by the American method. The material for this bulletin, which is the first of its kind to be published in French, was prepared by Frantz P. Lund, a member of the American canning unit.

When the demonstrators went across last year they took with them 20 units of canning equipment, consisting of pressure cookers, cans, both tin and glass, can sealers and other articles necessary in the work, because many of these things could not be procured in France. This year, however, this will not be necessary, as the French manufacturers, seeing how popular American canning methods were apt to become in France, began at once to manufacture certain of these articles. Inside of three weeks after the school

started last June, one factory which previously had manufactured war munitions reorganized, invented an aluminum pressure-cooker, and turned out a thousand of them.

The American method of canning, that is, cooking fruit and vegetables in the jar, is spreading fast through all the civilized countries. The school held in France last year was attended by Algerians, Syrians, Armenians and Egyptians who since have been teaching the people in their respective countries how to can a la America.

This year other countries besides France are requesting lectures and demonstrations on this work. Holland's Health and Nutrition Department, recognizing the value of plenty of fruits and vegetables in the diet of a people all the year around, has asked for 10-day lectures and demonstrations by the Americans. Denmark will call home her agricultural consuls this summer from all parts of the world for two weeks' instruction in food conservation to be given by Mr. Lund. Belgium and England also have requested the loan of the canning specialists.

The fact that in 1918, at a time when it was so necessary that nothing be wasted, the housewives and club girls in America were able to conserve nearly a billion jars of food has made a deep impression on people in other lands, who now are anxious to learn how it was done.

### UNNECESSARY TO GRAFT SKIN

When much skin is destroyed in burns, a common resort is skin graft, applied either in small isolated patches to grow gradually over the surface, or in pieces up to two or three inches square to cover a large portion or all of the wound. At a recent medical meeting, Dr. E. G. Beck of Chicago called attention to a process of culture by which skin may be made to grow without grafting, even over large surfaces. As the wound heals the granulations at the edge of the spreading fresh skin place an elevated barrier in its way and if these granulations are removed as often as every 24 hours the patient's own skin is given a chance and may be watched spreading over the entire surface. A protective covering of paraffin often promotes the replacement of skin without grafting.

### FAMOUS CHIMES RING AGAIN

"Oranges and Lemons" rang out on the old bells of St. Clements on the last day of March on an evening as fine as any during the finest winter London has ever known. The bells rang, but few heard them, prevented by the roar of the Strand traffic. It was the first time the old nursery rhyme had been rung out from the steeple for a very long while. Some hundreds of school children, who had been invited to attend the church, filed out at the close in small processions, piloted across the streams of traffic by the London policemen. Every child carried an orange or a lemon, a gift which made up to them for the faint tones in which the voices of the old bells reached their ears. Down the streets with the historic names run-

## Constructive Work

is always pleasant and a satisfaction to the worker if he does his task well.

—It is very satisfying to add to the sum total of the world's wealth in any form.

—Our work is constructing buildings and we have got a lot of pleasure out of our job since we have been engaged in business in Glendale, since we began erecting monuments to happiness, health, education and religion.

—We were never so busy in all the years we have been in Glendale as we are now.

—We never had so many buildings in process of construction at one time as we have now.

—We were never so well prepared to handle big jobs as we are now.

—We can cite you to scores of buildings in Glendale that we have erected and we can refer you to scores of men and women for whom we have worked.

—We ask no better recommendation than can be given by those who have employed us; no better advertisement than our work.

ning from the Strand to the Thames, St. Clements music was more audible, the sound carrying over the noise and roar, and into the offices where anybody, with a turn of mind for antiquity, has but to throw open his window to hear the sound of a bell cast in the year of the Spanish armada.

If the Armenian mandate promised large profits it would not go begging.

A veteran deploras the absence of the old wideawake torchlight procession; but what show would the latter make in these days of the arc-light and the twinkling bulbs of electric signs?

Lumber prices are dropping, despite the quadrennial demand for sound planks.

AFTERNOON OF FIVE HUNDRED

Mrs. B. L. Cushman of 208 East Maple street entertained informally Wednesday afternoon with three tables of Five Hundred. Roses from her own garden were used in decoration and punch and wafers were served. The card players were: Mrs. W. A. Kulp, Mrs. Frank Marek, Mrs. Raymond Horner, Mrs. Barker, Mrs. Wilson, Mrs. Frank Chambers, Mrs. A. J. Van Wie, Mrs. Henry Diehl, Mrs. Jepson, Mrs. C. W. Seeley, Mrs. Francis Wilkinson and the hostess.

ANNOUNCEMENTS

NOTICE
The Christian & Missionary Alliance, who worship in the Gospel Tabernacle at Louise and Chestnut Streets, desires to announce that they are in no way connected with the services now being held in the Gospel Tabernacle at Central Avenue and Harvard Street.

NOTE OF APPRECIATION
To those who extended to us in the loss of our mother, expressions of sympathy and floral tributes, we extend our appreciation and especially wish to thank Mrs. Arnold, Mrs. Haggood and Salmacia Brothers for the beautiful music.

NAVAJO RUG DISPLAY

By courtesy of Bartlett & French agents for Chandler and Cleveland cars, the Beresford collection of Me-i-toh-i Navajo rugs will be displayed at their show rooms, corner Brand and Harvard, from 4 to 8 p. m. during the first weeks of July. Rugs suitable for porch and den will be sold at a slight advance above cost.

NOTICE
To all property owners in district affected by Ordinance of Intention No. 383 to open Commercial Street from Broadway northwest to San Fernando Road, if you are opposed to said opening there has been a petition left at 110 South Brand Boulevard for you to sign your protest. HALLIWELL LAND CO.

## Fire Insurance

We Have 4 A-1 Good Companies

MILLER'S NATIONAL UNION, UNITED FIREMANS, NETHERLANDS, PITTSBURG UNDERWRITERS.

We have a lady expressly to write them up in first class shape. We make adjustments quickly. We have been in the fire insurance business 23 years and never raised our price. We are writing one hundred thousand a month. Remember your house will stand 1-3 more insurance now than it would 1 year ago. Protect your family.

Also  
AUTO INSURANCE, COMPENSATION INSURANCE, AND BURGLAR INSURANCE

**H. L. Miller Co.**  
109 S. Brand Glen. 853

## Personals

Mrs. Henry Pentecost is having a 4-room California house built at 206 West Palmer avenue, to cost \$1500.

R. E. Lawrence has moved from 722 East Harvard to 139 South Adams.

Mr. and Mrs. Charles Temple and family of 145 North Orange leave today for Hermosa Beach where they will spend several weeks.

Miss Zelda McConnell of 1115 Campbell street has just returned with her father from Denver, Colorado, by auto.

R. E. Good, of the Fanset Dye Works, has moved from the De Luxe apartments to the R. L. Wykoff property at 722 East Harvard.

J. A. Welber has taken out a permit for building an addition to his residence at 321 West Cypress avenue, to cost \$500.

J. A. Thayer and wife have leased their home at 129 South Kenwood for the summer and go to Watsonville today to spend a few months with their son.

Mrs. P. V. Potter and daughter, Dorothy, of 446 West Broadway, have gone to Pine Knot to spend two months. Mr. Potter will join them during his vacation.

Francis Wilkinson, who has been living on Adams, hopes soon to move into the new house he is building on Stanley avenue, on which he has done most of the work himself.

Mr. and Mrs. Thorpe, daughter and son-in-law of S. W. Shaull, are planning a Fourth of July trip to one of the beaches. Mr. Shaull will go for a longer vacation to Catalina a little later in the season.

Mrs. N. Maxwell Miller has taken out a permit for the remodeling of the administration building at Thornycroft, corner Windsor Road and Adams. The cost of the improvement is given at \$8,000.

Dr. J. G. Grimm is moving from 351 Myrtle to his fine new residence in the heart of a small orange grove on Grand View avenue, north of Tenth street, which has just been completed for him by Contractor T. H. Addison.

Corporal W. W. Esterly has been transferred to Arrowhead Springs by the army authorities. It has been transformed into a beautiful convalescent's camp for soldiers wounded in the late war and Corporal Esterly is enjoying it very much. He has been there about ten days and already feels better, he says. His wife will visit him Sunday.

The fire department was called out last evening and a quick run was made up on North Verdugo Road, near the Yost home, where a brush fire was creeping up the hillside in a small canyon. It might have assumed dangerous proportions if not checked. Good work by the fire department and volunteers from the neighborhood resulted in the putting out of the flames.

Mr. and Mrs. Roy Kent and children of 522 North Central avenue are leaving Saturday by auto with a party bound for a camping site in Ventura county where the men can fish and make hikes and all concerned have a jolly outing in the wilds. The party will include Mr. and Mrs. J. L. Gray and family and Mr. and Mrs. R. E. Olin and daughter. They plan to return Monday night.

H. Nicolaus and his son, Roy J. Nicolaus, of 357 Doran street, have just returned from Catalina where they spent a week. They found the resort quite crowded with pleasure seekers. Mrs. Nicolaus is entertaining her nephew, Ray Shelton, of Calexico, who has come out of the valley for the summer and is on his way north. He will be with her until after the Fourth.

John Everson of 611 North Central has just welcomed his brother, William Everson, of Southern Nebraska, who is here with his wife to see what Southern California is like in the summer time. He is a banker at Alma, Nebraska, and the Glendale Eversons are trying to persuade him to join them here. They will probably be guests in the Everson home for several weeks.

S. Berman returned home from San Francisco yesterday and he states emphatically that he did not go to attend the Democratic convention, as he had no interest in the gathering. He advises all motorists bound for northern cities to go by way of Bakersfield and to take plenty of gasoline with them if they hope to get through. He said he helped out several motorists who were stranded by the wayside on account of their supply giving out.

The General Richard Gridley Chapter of Daughters of the American Revolution was well represented at the big reception given at the Alexandria in Los Angeles on Tuesday for Mrs. Cottle, the retiring State Regent, who has been elected one of the general Vice-Regents of the national organization. The ladies present from Glendale were: Mrs. C. W. Houston, Mrs. E. W. W. Hayward, Mrs. Julian S. Hayward, Mrs. Mabel Franklin Ocker, and her sister, Mrs. Frank M. Head.

## JUVENILE DRAMA

### CHILDREN GIVE PLAYS AND POEMS TO RAISE MONEY FOR THE FOURTH

The home of Mr. and Mrs. E. L. Young at 325 West Milford street was the scene of quite a lively gathering Thursday afternoon when Elizabeth and Grahame Young and their friends gave quite a lengthy entertainment with which to raise funds for the Fourth. The program included a number of poems. While we are all familiar with the "fiery utterances of patriotic poets" it has remained for the modern generation to transmute poems into fire crackers. An admission fee of 5c was charged and when the receipts from the comparatively large audience of juveniles and adults were counted, each performer had 23c. The program included the following numbers:

Dance, "The June Rose," Dorothy Thompson.  
Duet, Grace Thompson and Janice Fletcher.

Play, "Blanche and Rose," Janice Fletcher, Grace and Dorothy Fletcher, Elizabeth Young and Bettie Heustis.

Egyptian Dance, Bettie Heustis.  
Poem, "Cherry Cheeks," by Dorothy Thompson.

Butterfly Dance, by Elizabeth Young.

Piano Solo, "Songsters on the Bough," by Janice Fletcher.

Poem, "Little Sunbeam," by Grace Thompson.

Play in which all the children took part, entitled, "Grandma's Ghost Story."

Poem, "The Lesson," by Janice Fletcher.

Piano Duet, "The Rushing River," by Elizabeth Young and Dorothy Thompson.

Poem, "My Shadow," by Elizabeth Young.

Play by all the children, entitled, "One Eye, Two Eyes, Three Eyes."

Piano Solo, "Let's Wander," Grace Thompson.

"Seashell Song," Bettie Heustis. Grahame Young and Allen Love acted as curtain raisers.

The children are planning to give another entertainment some time during the summer before school opens.

Jesse Smith and wife are at Catalina to stay until next Tuesday.

Thomas H. Hull and wife have moved from 217 E. Chestnut to 328 W. Colorado.

Miss C. Maitland of Burton, Wash., is here for an extended visit with her mother, Mrs. C. F. Ireland.

Mrs. L. Bovard has had the electricity installed in her new residence at 546 Salem, preparatory to moving in.

Mr. and Mrs. W. A. Burns of 132 South Louise street and their sons, Robert and Lawrence, have just returned from a very pleasant week's outing spent at Long Beach.

Miss Agnes Verity and Miss Elsie Verity of 511 West Broadway have returned from Catalina Island where they have been spending their vacation.

Mrs. E. U. Emery returned Thursday from Catalina Island where she had been spending a week at Hotel St. Catherine. Mr. Emery went with her and returned last Monday. Their friends, Mr. and Mrs. Sol A. Rehart, and family, and Mr. and Mrs. John Webb and family left Thursday for a brief outing at Catalina.

Miss Marjorie Yarick entertained a group of her school friends at her home Thursday, in honor of Miss Mary Wright, who is visiting from Wasco, Calif. The girls came to luncheon and spent a delightful afternoon with music and conversation. The girls were Misses Mary Wright, Gladys White, Elizabeth Sternberg and the hostess, Marjorie Yarick.

**ENCOURAGING REPORTS**  
From everywhere comes the report of the excellent results gotten from advertising in the Evening News. This paper has a standing in the community that is far reaching. It is the recognized advertising medium of this section of the San Fernando Valley. Six days of the week copies go into fifteen hundred homes in Glendale and that means a reading list of 7500—pretty good showing. The Evening News subscription list is open for inspection by our patrons at all times. The growth of the Evening News has been a gradual one for the past seven years, and the people of Glendale have the thanks of the publisher for the hearty support they have given the paper. The Evening News is not looking for any favors without giving full value in return—and the publisher has no political aspirations—his only ambition is to publish a local daily newspaper that is a credit to the community in which it circulates. The new home of the Evening News is 139 South Brand Boulevard. Our patrons already know where we are located.

**LONG USEFUL LIFE**  
(Continued from Page 1)  
sistance, a fine crop of 800 pounds of potatoes on about one-ninth of an acre of ground. This crop netted him at the rate of \$275 an acre. The guests for whom covers were laid at the birthday dinner were: Mrs. Sarah Moore, her daughters Cozetta and Alice Moore and son, Lee Moore, Mr. and Mrs. Richard Nan Kervis, their daughters, Eva and Zelma, and son, Ralph, and Grant Nodine all of Los Angeles, Mr. and Mrs. Charles Farrell of Hollywood, Dr. and Mrs. Follansbee, Miss Ria Murray, Mr. and Mrs. D. Mallett, Mr. and Mrs. Harry Stevenson and daughter, Eula, the host and hostess and guest of honor, who was the recipient of many nice gifts including a beautiful painting, a farm scene which was a special treasure to him as he takes great delight in reciting incidents of the fifty years he spent on a Connecticut farm. After a happy evening the guests bade Mr. Mallett good-night with the wish that he may enjoy many more like occasions, most of the guests having spent with him part of each birthday that he has celebrated in the past sixteen years.

**MOTORISTS, WATCH YOUR TURNS**  
City Marshal Stanley has announced that the ordinance prohibiting autos turning around between crossings will be strictly enforced hereafter as to Broadway between Glendale and Central avenues and Brand between Wilson avenue and Colorado. This action is made necessary by two recent occurrences on Brand between Broadway and Harvard, in one of which a little girl narrowly escaped being run over by an auto that was changing direction and in the other Russell Peck's delivery car was run into while the driver was turning around.

Warning is given, also, that there must be no parking at an angle on Broadway between Brand and Glendale avenue.

**PRESIDENT BARTLETT**  
In the absence of Hartley Shaw, president of the board of trustees of the city of Glendale, Mrs. H. E. Bartlett, a member of the board, was elected president pro tem at last evening's meeting of the board. Mrs. Bartlett proved herself equal to the task, and handled the gavel in a highly satisfactory manner.

**WEATHER FORECAST:** Fair tonight and Saturday. Partly cloudy Saturday morning.

Mr. and Mrs. W. W. Worley are anticipating the arrival of old friends, Hon. E. P. Rosenberger and Mrs. Rosenberger from Montgomery, Mo. They are now in San Francisco where Mr. Rosenberger is a delegate to the convention, and they are not likely to reach Glendale until a presidential candidate has been chosen. John Worley is now in Hemet in the employ of the Canning Company he worked for last year. He has an office position this year.

### Will You Be Our Guest?

Contest-time is guest-time in our store.

The contest picture in our window should beckon you to come inside and learn without obligation, how you can win a \$3,000.00, a \$1,000.00 or \$500.00 prize.

Every contestant is a guest—and every guest is supplied with contest blanks and information.

You will notice the Daylo in the picture. We can tell you a lot about our Daylo line. It may help.

Here is one—a tubular Daylo, small enough to go under your pillow at night without "humping." Ornamental as well as highly useful.

J. A. Newton Elec. Co.

629-31-33 E. Broadway  
Glendale 240-J

Three Pittsburg, Pennsylvania, boys who found a keg of blasting powder and lighted it to see if it would burn had their curiosity satisfied. In fact we fail to recall a single instance where boys have experimented with dynamite, powder or other explosive wherein expectations were not more than realized.

A St. Joseph, Missouri, landlord rents only to families having children and refunds rent for the month in which a baby is born in one of his houses. What office is he running for?

### THE FRUIT BY THE ROADSIDE

It is a subject of frequent remark that in no other state of the Union are there as many open fields and orchards as in California. Along country roads and city streets, peach, apricot and other trees drop their fruit on road or sidewalk and many large orange and lemon groves are open to passersby. The nearest approach to this condition is in some of the counties of Central Illinois where Samuel W. Allerton, a Chicago millionaire, formerly owned thousands of acres of rich farming land. Mr. Allerton said that he remembered going along the country roads when a boy and looking longingly at the apples, cherries and peaches "inside the fence." He said he resolved then that if he ever owned a farm or farms his side of the road should be planted to fruit trees and they should be "outside the fence." So that is why many country roads in Piatt, DeWitt, Champaign and McLean counties were and are now lined with apple, cherry and peach trees of fine varieties, the fruit of which is free to every traveler.

### MAY PUT BAN ON IMPORTATION OF PORTO RICAN COTTON SEED

Announcement of a public hearing to consider the advisability of prohibiting importation of cotton seed and seed cotton from Porto Rico, because of the prevalence of the cotton blister mite there has been made by the Department of Agriculture. The question of restricting the importation of cotton lint from the Territory for the same reason will be considered also.

Cotton blister mite is a dangerous insect not known to occur within the United States. Information, however, has come to the department that the insect is now present in Porto Rico. Officials are apprehensive, therefore, that it may find its way into the United States and menace the cotton crop here. Additional grounds for the quarantine exist in the fact that a cotton boll disease is also present in Porto Rico at this time which might be introduced into the United States and prove even more dangerous.

The enforcement of the proposed quarantine will make it necessary for the seed produced in the island either to be exported to foreign countries or to be milled or otherwise utilized there. It is not purposed under the quarantine to prevent the importation of ginned cotton and cottonseed cake, meal and oil from the island under proper safeguards.

### CIVIL SERVICE EXAMINATIONS

Open competitive examinations for positions named below will be held in Room 1007, Hall of Records, Los Angeles, on the dates named.

Monday, July 19, 8:30 A. M.—For resident physician, L. A. County Hospital. Salary, including full maintenance, \$175 per month for first year, \$185 second year and \$200 thereafter. One appointment is to be made immediately and an eligible list is desired. The work is both administrative and professional. The successful candidate will be required to assist the Chief Resident Medical Physician, relieve him when absent, reside at the hospital and devote his entire time to the duties of the position. Each candidate must be a graduate physician and surgeon.

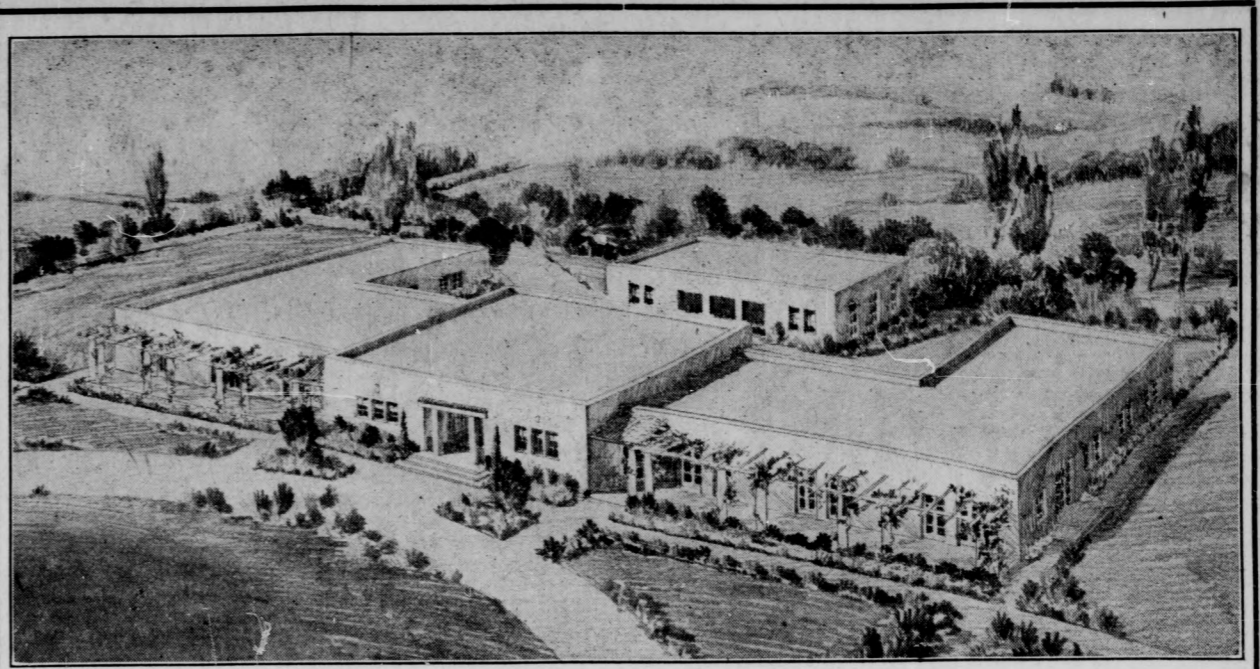

Tuesday, July 20, 8:30 A. M.—Resident admitting physician, county hospital. One appointment to be made immediately and an eligible list created. Salary, including full maintenance, \$125 a month to begin, then \$135 and after the second year \$150. Candidate must be a graduate physician and have had one year's hospital experience.

Wednesday, July 21, 8:30 A. M.—Chief Anesthetist, county hospital. One immediate appointment and eligible list. Salary, including full maintenance, \$175, \$185, then \$200 a month. The duties are to be responsible for the anesthetic service of the hospital. Minimum time required, four hours a day, but must be on call for emergencies. Candidates must be graduate physicians and have had special experience in administering all kinds of anesthetics.

Friday, July 23, 8:30 A. M.—Resident Roentgenologist, county hospital. One immediate appointment and eligible list. Salary, including full maintenance, \$175, \$185, then \$200 per month. Appointee to be in immediate charge of X-ray department. Each candidate must be a graduate physician and surgeon and must have had at least three months' special training in X-ray work. He will be required to devote all his time to the duties of the position.

Commencement season is over and everybody now knows what lies beyond the Alps; but after the close of the vacation season doubt will arise over other subjects, including the character of catches—piscatorial and other.

Yes, Consty, the Prohibition party will hold a convention this year. July 21st is the date and Lincoln, Neb., the place. Yes, the Supreme Court upheld the constitutionality of the eighteenth amendment.

### THE EFFORTS OF THE CITIZENS OF GLENDALE

whose realistic visions of the need of a hospital in Glendale are familiar to all, are being brought to a successful climax this month and soon ground will be broken for the erection of the building that is to house this worthy institution.

With more than a hundred of Glendale's best business men, bankers and capitalists back of the new Research Hospital, it is sure to be a success. These men are of the type who have a forward vision. They carefully considered the need of such an institution and now they are ready to act with firmness and business decision.

More than 14 physicians, not all of them local, have pledged their support to the new hospital and purchased stock.

The real estate on which these buildings are to be constructed was purchased at a price, several months ago, that will soon double itself. It is a valuable piece of property.

All stock is being sold at par, or \$100. You can pay for it by the month or quarter—same as you paid for Liberty bonds.

Have you subscribed? If not, telephone Glendale 408.

### TRAVEL IN EUROPE

From reports coming from abroad, Europe appears to be a place that one who insists on comfort and dislikes annoyance should wish to avoid this summer. The trains are overcrowded, the hotels are unable to accommodate nearly all the guests who apply, bread cards are still required in many countries, passports are necessary everywhere and police registration is not to be overlooked without inviting trouble. In complying with all the restrictions and regulations governing the movement of tourists, it would seem that little time would be left for anything else.

At home Americans demand every comfort of travel. If they should show themselves satisfied with less in Europe without putting in a stout kick, a radical change in nature would be indicated. Naturally, the class that caters to tourists has done everything possible to induce visitors, doubtless on the theory that the more, the merrier is the picking. There are many Americans who are eager to take the chances, hoping they will be lucky, but those already there are reported greatly harassed by conditions.

Yet why should anyone be so unreasonable as to expect that Europe would be prepared to entertain visitors in the former style and comfort? The railroads have not been restored, the havoc wrought by the war has not been repaired, the stocks of food have not been replenished, the suspicion engendered of the war that made every stranger a potential enemy has not been entirely removed.

Here at home trains are overcrowded and hotel accommodations are often hard to obtain. It necessarily is vastly worse abroad. Travel under such conditions might be expected to be undertaken only in case of necessity, yet the demand for steamer accommodations indicates that there is an eagerness to go to Europe on the part of a great many who cannot possibly have business there. While comforts are desired, the doubt of securing them does not act as a preventative of the desire to go anyhow.

A trip to Europe at this time might, however, act powerfully in making those who go appreciate America on their return. They might thus lose some of their disposition to kick on things at home.

France proposes to pay her loans after she collects from Germany. She thus exhibits financial acumen in making it of interest to her creditors to assist in making Germany "come across" promptly.

An observer just returned from Europe says the people there have either forgotten how to work or have no desire to do so. The malady may be more virulent abroad, but this country is not immune from the belief that some hocus pocus may be made to take the place of work.

In spite of the high cost of living, which makes it difficult to bring the ends together, highway men seem to find considerable money on those they hold up.

Though Jack Dempsey has been acquitted of dodging the draft it is understood that he is still ineligible to membership in the American Legion.

### CERTIFICATE OF DOING BUSINESS UNDER FICTITIOUS FIRM NAME

THE UNDERSIGNED HEREBY CERTIFIES that he is conducting business in the City of Los Angeles, County of Los Angeles, State of California, under the fictitious firm name and style of "FISH AUTO REPAIR COMPANY"; That said business is conducted and carried on at number 3716 West Washington Street, City of Los Angeles, and that said business so conducted at said address is that of repairing automobiles and conducting a general garage business.

That the fictitious firm of FISH AUTO REPAIR COMPANY is composed only of the following named person, who is the sole owner of said business, to-wit:

E. M. FISH, Residence address, 1655 Seventh Avenue, Los Angeles, California.

IN WITNESS WHEREOF, I have hereunto placed my hand and seal at Los Angeles, California, this 23rd day of June, 1920.

E. M. FISH,  
STATE OF CALIFORNIA, )  
( SS.

COUNTY OF LOS ANGELES )  
On this 23rd day of June, 1920, before me, Anna E. Bingham, a Notary Public in and for the County of Los Angeles, State of California, residing therein, duly commissioned and sworn, personally appeared E. M. Fish, personally known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal in said County the day and year in this Certificate first above mentioned.

ANNA E. BINGHAM,  
Notary Public in and for the County of Los Angeles, State of California.

(SEAL)  
Filed June 24, 1920. L. E. Lampton, County Clerk, by G. S. Clarke, Deputy.  
Carl P. Martin,  
Attorney at Law.  
Suite 1007 Van Nuys Bldg.

The "hell's kitchen," New York, youth who has been awarded \$3500 damages because his photo was published as representative of boyhood toughness has tangible evidence to prove that there is something in a name.

Some political ambitions will be left at the portals of the Golden Gate.

# SATURDAY, JULY 3, 1920

### ECONOMICAL REASONS WHY "CASH BEATS CREDIT"

Our Buying Power is possible through our supplying sixty-three stores with enormous quantities which necessitates ordering in carload lots. Our Operation expense is materially reduced through our cash and carry system. Four men can handle more people than ten could with the old delivery system. On the Cash Basis we eliminate delivery costs, telephone service, bookkeeping and bad accounts. Draw your own conclusions. Be convinced. First Quality Only is our standard. The foregoing reason explains why we can sell first grade products at lower prices than you have paid for inferior brands.

## TAKE ADVANTAGE OF THESE PRICES

### EFFECTIVE ADVERTISING CHEAP

Daily newspaper space is the least expensive advertising medium, according to the findings of a committee of the Cleveland chamber of commerce, which has just concluded a thorough investigation of advertising costs for the benefit of its members.

The committee analyzed six classes of periodical publications, ranging from trade magazines, of exclusive circulation, to daily newspapers. All estimates were based on per column inch and a circulation standard of 1000 subscribers. Not only was it found that newspaper advertising was cheapest, but it was clearly proven to be the most effective.

This report only proves what experienced advertisers have long known, but coming from an unbiased source it is most encouraging to the sellers of newspaper advertising who are striving to give their buyers a dollar's worth of publicity, or more, for every dollar spent.

### TRANSIENT LABOR

A school vacation and an approaching Fourth of July make a combination highly favorable to industrial activity on the part of small boys. There are many applicants just now for jobs to cut lawns, pull weeds or do almost any kind of work that will yield revenue convertible into noise-making instruments for patriotic celebrations. They usually work in groups with companionable dog "helpers," and do collective bargaining, but they have not organized unions as yet, nor have any of them struck so far as known. There appear to be no "outlaws" among them and their employers view their endeavors with considerable indulgence.

It is well that the exchange of cable messages between the Carusos went under water. The cool depths of the sea may have been all that saved the wires from melting.

**HEALTH LECTURE**

(Continued from Page 1)

ventions that have wrought havoc with their health.

Many men make light of the laws of health and wantonly transgress them to their injury and that of their children. God said of ancient Israel: "My people perish for lack of knowledge." It is as true today as it was then.

It is a grave error to imagine as some do that our bodies are our own and we can do as we please with them.

The apostle Paul says in his first epistle to the Corinthians 6:19: "What? Know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own?"

Again: "Know ye not that ye are the temple of God, and that the Spirit of God dwelleth in you?"

"If any man defile the temple of God, him shall God destroy: for the temple of God is holy, which temple ye are."

In the light of these texts dare we say that we can do as we please? No, indeed. We belong to God by virtue of creation and redemption. Some scientists account for the origin of man by the evolutionary hypothesis, but not so does the word of God account for his origin. "The wisdom of man is foolishness with God."

Man was lost by his own transgression of God's holy commandment, "Thou shalt not eat of it, for in the day thou eatest thereof thou shalt surely die." Then God in infinite pity and mercy provided a plan of redemption by the precious blood of Christ.

God placed man here on the earth for some purpose. Did He create man and endow him with the wonderful powers he possessed only to use them in the service of self? By no means. God has a far higher purpose in view for man. It is only by living in harmony with God's plan that he can realize the high destiny that God has in view for him. "Know ye not that . . . ye are not your own?"

Your body is the temple of the Holy Ghost. How essential that you should realize this day by day, and that God wants to abide in you daily.

In how many ways can a man glorify God in his daily life? Perhaps some one will say: "Surely it can make no difference to God or in any way affect my salvation if I should overeat at the holiday season by gorging myself with the Christmas cheer." But St. Paul says: "Glorify God in your body and in your spirit which are His." 1 Cor. 6:20.

Nothing short of glorifying God in all that we do will satisfy our heavenly Father. To live otherwise is to live far beneath our privilege and to dishonor God in our bodies.

We are in duty bound to inform ourselves in regard to the laws and functions of our bodies and then do what we know to be right in the use of them.

Paul exhorts us: "Whether ye eat or drink or whatsoever ye do, do all to the glory of God."

The speaker told of a minister who said he got the inspiration for his sermon from one or two good Havana cigars. He said he could not value any sermon that was so inspired and pitied the people who must listen to such preaching.

Some men have asked: "Can I be a Christian and chew (or smoke) tobacco?" If such a man were informed as to the harmful effects of tobacco using he could not see how he could be a true Christian for he would be deliberately transgressing the law of God written in his physical nature. A tobacco user (as does the user of alcoholic liquors) cripples his powers and no cripple is ful-

ly realizing his God-appointed destiny.

God wants us to be well and strong that we may glorify Him. If we are sick or crippled this can not be done except imperfectly. We come short, we miss the mark, we thereby sin.

Surfeiting and drunkenness are sins of the last days. Overeating powerfully affects the life injuriously. It causes many ills. It poisons the body by producing ptomaines which in many cases cause death. A man can't be a good Christian who does that sort of thing.

The same applies to overwork (especially if done from a selfish motive). That man is guilty before God who abuses his natural powers and certainly does not glorify God in his body.

In all our work and play in every act of life we should seek to glorify God.

Let us not imagine that He takes no notice of such small matters. Jesus declared that the very hairs of our heads were all numbered and this indicates that God thinks of and cares about the least things in our lives. A disregard of these principles may shut us out of the Kingdom of God. He expects us to learn about the laws that regulate the body and then live in harmony with them.

Some farmers know more and care more about the health and diet of their cattle than they do about the welfare of their wives and children.

Others know all about how to take good care of an automobile, but know nothing about dietetic reform. God is not pleased with such ignorance and can not look with favor upon the lawlessness to which it inevitably leads.

Obedience to the laws of health brings its own reward. God asks us to pay heed to them because it is for our good. If we disobey we bring sickness and death upon ourselves. Many die prematurely for this reason. They are only reaping the harvest of their own sowing. The Scriptures of truth say: "Whoever a man soweth that shall he also reap."

This generation is reaping the harvest of the sowing of former generations of transgressors.

God spake thus to Israel: "Wherefore it shall come to pass, if ye hearken to these judgments and do them, that the Lord thy God shall keep unto thee the covenant and the mercy which he swore unto thy fathers. . . . And the Lord will take away from thee all sickness, and will put none of the evil diseases of Egypt upon thee." Deut. 7:12, 15.

Did God keep His word? David in the Psalms says: "He brought them forth also with silver and gold: and there was not one feeble person among their tribes."

Will God do for His people today what He did then? He surely will. If a man fears God and keeps His commandments and leads a holy life physiologically God will bless such a life.

The man who hopes to win in the severe contests that olympic sports stage today must train for the contest. If a man will lay aside every weight (handicap) and the sins that so easily beset him and "agonize" in the race of life he can surely win. God will help him to so live that he may win the crown of life—and he shall eat of the good of the land if he will only obey.

In other ages men have sought the fountain of perpetual youth—the elixir of life. It is found in Christ. There is a time coming when "the eyes of the blind shall be opened and the ears of the deaf shall be unstopped. Then shall the lame man leap as an hart, and the tongue of the dumb sing." Let us tread the way of holiness which alone can lead to that happy land and that happy time.

F. D. LANTERMAN,  
Secretary of Valley Water Company, R. F. D. No. 13, Box 49, Los Angeles, California.

**AMERICA'S LITTLE FRIENDS**

The plan of 30,000 French children to give a demonstration in Paris on the Fourth of July of their gratitude to the United States is a practical reminder that America has a warm place in the hearts of millions of boys and girls in all Europe. The French children, who propose to march in review before the American ambassador, are part of 400,000 war orphans who have been supported wholly or in part with funds raised in the United States. But not only in France has America rendered this aid. Even in the enemy countries at the present time hungry children are being fed with American food, served by Red Cross attaches, Pennsylvania Quakers and other American agents of mercy.

Throughout Europe there are millions of children who have cause to remember gratefully the relief they obtained from suffering through the philanthropy of the people of the United States. As the children grow older they will come to realize that in the fact that our intervention in the war saved Europe from the rule of a tyrant they have deeper cause for gratitude to America than because we fed them when they were hungry. The latter, however, is the outstanding reason for their gratitude at present, and the proposed demonstration in Paris indicates how powerful a hold it has given us on these children's affections.

While the extension of assistance to these unfortunate little ones was free from the slightest suggestion of a selfish purpose on our part, the affection which it has won us may become an asset of great value. These little friends of America will become men and women. If their gratitude endures—and who doubts that it will?—our having millions of friends among the peoples of Europe may be no unimportant factor in preserving pleasant international relations.

**PRINCES AT WORK**

That four nephews of the former kaiser have gone to work is considered sufficiently important news to be cabled to this country. It seems to be implied that they did not surrender to labor until necessity compelled the act. It may have been that they were reluctant to take the step, but possibly it may have been hastened by the alternative of facing a non-existent food supply.

Since the Hohenzollern family lost its main support more than 18 months ago it is evident that the nephews did not act hastily. Doubtless they considered the matter carefully. But that they were not able to avoid labor offers some hope that Germany is progressing toward republicanism. Also that these young men finally yielded indicates that all the virility is not out of the Hohenzollern strain.

In the eyes of royalty of the German brand, for princes to engage in labor is considered demeaning. But even princes have to eat and hunger affects them just as it does other people. They need clothing as well as the humblest peasant and they are subject to the same ills as afflict others, no matter where they stand in the scale of humanity. All this goes to show that princes are just ordinary mortals and that the system that rears them above the rest of mankind is predicated on a false basis.

The wounding of a baby in its crib in a Virginian feud fight indicates that feud battles are fought somewhat after the example set by the Germans.

Advertise for it in the News.

**SETTING GOOD EXAMPLE**

The New Orleans priest, who on seeing the indecorous attire of a bride walking down the aisle of the church with her wedding party, ordered the lights turned out and directed that the bride go home and change her dress before the ceremony could go on, performed a splendid service not only to be approved by men, but one that should be applauded by all right thinking womanhood.

It may have been a harsh measure, but the woman who will enter a sacred house of worship as one of the principals in one of the most important, if not the most important, sacrament, so attired, or rather unattired, as to cause a blush on the cheeks of the more sensible of her sex, has little right to expect the exercise of leniency.

The action of this New Orleans priest will do much to bring this question of woman's dress before the people and it may be that a more general discussion will show to these women who are more conspicuous for what they do not wear than for what they do wear, that the real men and the real women of the country will admire the woman who holds modesty as the greatest gem in her keeping.

### RETAIL PRICE LIST

The advance in the prices we are compelled to pay the producing farmer for milk, together with the increase in our total operating and delivery cost, makes it necessary for us to ask the following prices, commencing July 1, 1920.

1 Pint Milk.....10c	1/2 Pint Coffee Cream.....18c
1 Quart Milk.....18c	1/2 Pint Whipping Cream.....40c
1 Pint Special Baby Milk.....11c	1 Quart Butter-milk.....12c
1 Quart Special Baby Milk.....20c	1 Quart Skim-milk.....12c

This advance in price has been authorized by "The Fair Price Commission."

**REMEMBER THIS:** Even at this seeming high price, milk is still the cheapest and most nourishing food on the market.

Kindly help us to keep down our greatest expense by washing and returning all bottles each day.

We have the most sanitary and best equipped creamery in the valley. Therefore, the purest and best milk. Your personal inspection of our plant is invited.

### PROGRESS OF TRANSPORTATION

Transportation may still seem chaotic and unsatisfactory, by land and sea, but step by step the United States is getting straightened out. The new railroad law, with its increased powers granted to the Interstate Commerce Commission and its interlocking of public and private responsibility, is generally accepted as offering more hope than any previous plan. Now ocean shipping comes under a somewhat similar regime.

By the terms of the merchant marine bill just passed, the great commercial fleet built up under government direction during the war, and since, is to be turned over to private ownership as rapidly as the transfer can be accomplished without undue loss. Such vessels as are not sold will be eventually leased or chartered to private individuals or firms. None of the fleet will be permitted to pass into the hands of any but American citizens, or fly any but the American flag. And both before and after the sale of these government-owned ships, they will be subject to much the same sort of supervision as that exercised over the railroads.

When the Interstate Commerce Commission and the United States Shipping Board both come into full use of their powers, and the reorganization contemplated is effected, we shall have one vast system of land and sea transportation owned by private capital and operated by private enterprise, but directed by responsible public authority.

This certainly looks, at present, like the best solution yet devised for this big, baffling problem. There is no apparent reason why it should not fulfill the hopes based on it, if the Commission and the Board perform their duties intelligently and fairly, and if there is proper cooperation on the part of private interests. The public may be expected to do its part.—Long Beach Telegram.

### TRUSTEES' MEETING

(Continued from Page 1)

motion of Trustee Henry accepted. A written communication was read from Hartley Shaw, President of the Board, nominating Genevieve Goss as a member of the Library Board. On motion of Trustee Henry, the appointment was confirmed by the following roll-call:

Ayes: Bartlett, Henry, Robinson.

Noes: None.

Absent: Shaw, Stephenson.

The City Engineer presented the map of Tr. No. 3513 requesting its approval by the Board and on motion of Trustee Henry the map was approved and adopted by Resolution No. 1104: "A Resolution Approving Map of Tr. No. 3513 and Accepting in Behalf of the Public, the Avenues, Streets, Alleys and Public Places Shown Thereon." He also presented the map of Tr. No. 3793 and requested its approval by the Board and on motion of Trustee Henry the same was approved by resolution No. 1105, "A Resolution Approving Map of Tr. No. 3793 and Accepting on Behalf of the Public the Avenues, Streets, Alleys and Public Places Shown Thereon."

In accordance with advertisement calling for the same, bids were opened for supplying the Public Service Department with glass globes.

On motion bids referred to the City Manager.

In accordance with advertisements asking for the same, bids for supplying the city with pipe and fittings were then opened and publicly declared.

On motion the bids were referred to the Engineer of the Public Service Department.

Report of the City Recorder for the month of June was presented, showing total collections during the month amounting to \$697.00.

Demands were presented and referred to the Demands Committee. Later the Finance Committee reported back the demands approved and on motion of Trustee Henry warrants were ordered to be issued in payment of the same.

Mr. Boyd, a builder and contractor, appeared before the Board requesting a change in the building ordinance as outlining Fire District No. 1 and on motion of Trustee Henry it was ordered that ordinance be prepared, amending the present ordinance to conform with the request. The City Manager recommended that specifications be presented with plans for a reservoir on the 720 foot elevation. On motion the Engineer of the Public Service Department was instructed to prepare the plans as recommended by the City Manager. The City Manager stated that a supply of pipe would be needed for the extension of the water system on Broadway, east of Verdugo Road and also on Mariposa south of Windsor Road. On motion of Trustee Robinson, the Engineer of the Public Service Department was instructed to prepare specifications for the same. City Manager stated that there had recently been a meeting of property owners interested in the improvement of Sycamore Canyon Road and it is desired that the City Engineer revise the plans for said improvement, providing for a 56 foot roadway, curbs and a 3 foot gutter on each side of the street; no

sidewalks, culverts or underground work. On motion the City Engineer was instructed to prepare plans as recommended by City Manager. City Manager reported that the report of Engineer Omstead on a sewer system is now ready and will be presented to the Board at its next meeting. In regard to the proposed meeting of the Tractor Association in Verdugo Park in September next, he stated that the ground is already being prepared by the Newport Co. and that that company proposes to furnish water for the use of the exhibit and desires that the city lay a temporary 2-inch pipe to supply the same. On motion of Trustee Robinson it was ordered that the city secure the pipe and lay the same under an agreement with the Newport Company that the pipe be removed after its original purpose is served.

The City Manager recommended that 25 per cent of the receipts from the sale of water and electricity during the months of July and August be credited to the Public Service Bond Interest and Redemption Fund. It was so ordered by unanimous vote.

The City Manager stated that the receipts of the Public Service Department for water and light during the month of June amounted to \$20,000.

The City Manager recommended that A. J. Van Wie be appointed Superintendent of Building and on motion of Trustee Henry recommendation was adopted and the appointment made in accordance with the same. City Manager also recommended the appointment of J. F. McIntyre as Commercial Agent of the Public Service Department and on motion of Trustee Robinson the recommendation was adopted and the appointment made. On motion of Trustee Robinson, Mrs. Cash of 205 West Lomita was granted permission to remove a small eucalyptus tree.

A communication was read from the City Attorney accompanied by a check for \$44.32 being the costs awarded the city as defendant in a suit for damages brought by Henry T. Frith in 1918. A motion was made and carried that the same be accepted and credited to the general budget fund. The City Attorney reported that as he would be absent on July 15, 1920, the date set for the hearing of the application of the Pacific Electric Company for permission to increase rates, before the Railroad Commission, he recommended that the City be represented at the same by the City Manager and the Engineer of the Public Service Department. On motion of Trustee Henry it was so ordered. The City Attorney requested permission to be absent for the next three or four meetings of the Board. On motion of Trustee Henry it was ordered that the bid of the Ford Motor Co., submitted at the regular meeting of June 24, 1920, for supplying the city with two runabouts and a one-ton truck, be accepted.

The City Manager presented a communication accompanied by a number of general vouchers of the Public Service Department representing uncollectable accounts and recommended that the same be charged off against surplus. On motion of Trustee Henry it was ordered that the recommendation of the City Manager be approved and the accounts charged off.

## BRYAN CENTERS THE STAGE

CONVENTION HALL CROWDED WITH DELEGATES AND SPECTATORS TO HEAR HIS PLEA FOR DRY PLANK

(Special Service to Glendale Evening News)

SAN FRANCISCO, July 2.—With William Jennings Bryan expected to make the battle of his career on the liquor question today, the Democratic national convention met at 10:37 a. m.

Bryan stood on the platform, his eyes tightly closed, during the prayer. Before the convention met he had conferred with Chairman Robinson regarding procedure when he should present his minority report for a dry plank in the platform.

Immediately after the prayer Chairman Robinson recognized Senator Glass who began reading the report of the Resolutions Committee which covered the platform. This is expected to take considerable time as the platform is lengthy.

The convention hall was crowded to the doors early by delegates and spectators all of whom were evidencing the greatest interest in Bryan's promised appearance. When he came into the hall he was greeted by a brief round of hand clapping.

### THE RAINMAKER AGAIN

A decade or two ago we heard frequently about efforts to induce rainfall on the part of individuals who said they knew how to encourage Jupiter Pluvius to do his work, but of recent years the job of the rainmaker has fallen into innocuous desuetude. The reasonable presumption was that the rainmaker was a failure in this age of efficiency.

But it seems there is another chance for this individual. In the state of Washington just now there is dire need of rain, and it appears the farmers are willing to pay generously for a supply of moisture from the clouds. Agriculturists of Grant county, according to a Spokane banker, have deposited \$6,000 in his institution, with an agreement with a professional rainmaker that if his machinations bring down the needed irrigation he shall have the money. Another community has raised \$1,000 for the same purpose.

Nothing is said of what shall happen to the rainmaker if he fails to deliver the goods, but it would only be fair if he were penalized for failure, after raising such high hopes.
