DEPARTMENT OF PARKS,
Boroughs of Brooklyn and Queens.

September 29, 1907.

Hon. HERMAN A. METZ, Comptroller:

Dear Sir—Pursuant to your instructions I have caused to be made an analysis of the departmental estimates for 1908 of the Commissioner of Parks, Brooklyn and Queens, and as a result of such analysis I beg to submit the following report:

No. I.—Administration.

The budget appropriation for salaries of the office force, now classified under "Administration," was \$33,700 for 1907. The estimated amount required for 1908 is \$92,800, an increase of \$59,400 over the present rate of expenditure. In 1906 the total expenditures were \$28,900.

The payroll for the month ending June 30, 1907, shows that there were nineteen persons on the roll, whose yearly compensation aggregated \$33,400. These consisted of:

1 Superintendent	\$4,000 00
1 Secretary	2,500 00
1 Stenographer	1,500 00
1 Confidential Stenographer	1,050 00
1 Telephone Operator	750 00
1 Chief Clerk	2,000 00
1 Assistant Paymaster	1,650 00
1 Property Clerk	1,950 00
1 Chief Engineer	2,400 00
1 Assistant Engineer	2,400 00
1 Superintendent of Supplies and Repairs.....	1,950 00
1 Bookkeeper	2,550 00
2 Levelers, at \$1,500 each.....	3,000 00
3 Arboriculturists, at \$1,500 each	4,500 00
1 Second Grade Clerk	900 00
1 Office Boy	300 00
<hr/>	
Total	\$33,400 00
<hr/>	

1908

The increase in the amount asked for 1908 over that provided for 1907 is to permit of certain increases in the salaries of present employees and for the establishment of new positions as follows:

Proposed Salary Increases.

	Present Salary.	Proposed Increase.
1 Stenographer	\$1,500 00	\$300 00

The revised form of budget as recommended by the Conference Committee on Budget provides for the segregation of the present account "Administration," which includes all the salaries of the office force, into four accounts as follows:

Salaries and Wages.

Account No. 1C—Commissioner's office.

Account No. 2C—Superintendent's office.

Account No. 3C—Engineer's office.

Account No. 4C—Office of the Superintendent of Supplies and Repairs.

For the purpose of obtaining data upon which may be based budget allowances as proposed in the revised form of budget, examination has been made of the payrolls of the department. As the result of the examination thus made, the following classification of positions with the present salaries and amounts requested for 1908 has been made:

Account No. 1C—Commissioner's Office.

No.	Yearly Salary as Per Payroll of June, 1907.	Departmental Estimate for 1908.
1 Secretary	\$2,500 00	\$2,500 00

1 Heating and Ventilating Draughtsman.....	1,800 00
1 Electrical Engineer.....	2,400 00
3 Inspectors of Masonry, at \$1,200 each.....	3,600 00
3 Inspectors of Regulating and Paving, at \$1,200 each.....	3,600 00
1 Inspector of Carpentry and Masonry.....	1,200 00
1 Building Inspector	1,500 00
1 Electrician	1,500 00

No.	Yearly Salary as per Payroll, June, 1907.	Departmental Estimate for 1908.
1 Inspector of Topsoil.....	1,200 00
1 Clerk to Engineer, with knowledge of stenography.....	1,200 00
Total	\$7,800 00	\$57,800 00

Account No. 4C—Office of Superintendent of Supplies and Repairs.

	Yearly Salary as per Payroll, June, 1907.	Departmental Estimate for 1908.
1 Superintendent	\$1,950 00	\$1,950 00
1 Property Clerk	1,950 00	2,100 00
Total	\$3,900 00	\$4,050 00

Your Examiner recommends that the account of Salaries and Wages, under the heading of Administration, be fixed in the 1908 Budget at \$45,350, to be made up as follows:

Account No. 1C—Commissioner's office.....	\$15,800 00
Account No. 2C—Superintendent's office.....	13,800 00
Account No. 3C—Engineer's office.....	11,700 00
Account No. 4C—Superintendent of Supplies and Repairs.....	4,050 00
Total	\$45,350 00

The allowance recommended for the Commissioner's office will permit of small increases in salary which are recommended in recognition of long-continued and efficient service, the salaries now paid being in each instance, it is stated, less than those paid to persons occupying similar positions in other branches of the Department of Parks. Of the increased amount \$1,800 is to provide for the employment of two additional Clerks, it having been found necessary to assign Laborers to clerical work. The increased amount recommended for the Superintendent's office is to provide for one small increase in salary for one Arboriculturist, which was recommended and allowed in the 1907 budget, the establishment of the new salary grade not having been passed upon by the Select Committee on Salaries of the Board of Estimate and Apportionment. The Commissioner recommends the creation of the

positions of Master Machinist at \$2,000, General Foreman, \$1,800, and Clerk to the Superintendent, \$1,500. The duties of a General Foreman and the Clerk to the Superintendent are now performed by persons under different official designations and whose compensation is paid out of Labor Maintenance and Supplies Account. The services of a Master Machinist are required for the care, supervision and repair of steam road rollers, electric lawn mowers and the operation of the lathes, planers and other machinery in the shops of the department. These three amounts aggregate \$5,300.

The amount recommended to be allowed for the Engineer's office is to provide, pursuant to a recommendation of the Conference Committee on Budget, for the supervisory and office force of the Engineer. It is intended that other charges for services of the technical staff are to be taken from the several Corporate Stock accounts provided for new work. Adopting the recommendation of the Committee, the employees, in this case, whose compensation would be included in the Salaries and Wages account of the Administration are the Chief Engineer, Principal Assistant Engineer, the Assistant Engineer, two Levelers and one Clerk.

The departmental estimate specifies a number of new positions sought to be established in the Engineer's office, as indicated in the preceding schedule. It is the judgment of your Examiner that if there is sufficient work in the construction and improvement of parks during the coming year to justify the employment of additional help the compensation therefor should be made a charge against the Corporate Stock fund provided for the particular improvement in connection with which their services may be employed; that if it be found that the appropriations thus made for such improvements be insufficient to provide for the employment of the necessary engineering force the Commissioner may submit to the Board of Estimate and Apportionment a special request for an additional appropriation of Corporate Stock.

The proposed increase of \$150 in the salary of the Property Clerk is recommended on account of the faithful services of the incumbent for many years, and also to compensate him for the greatly increased responsibilities of the position.

Account No. 5C—Supplies:

This appropriation item is intended to provide for office supplies, the disbursements having previously been made from the appropriation account, Labor, Maintenance and Supplies. An allowance of \$500 would seem to be sufficient.

Account No. 6C—Contingencies:

This account is intended to cover contingent expenses incurred in connection with administration, such items in the past having been charged to the account, Labor, Maintenance and Supplies. In order to open an account, an allowance of \$1,000 is recommended.

Account No. 7C—Telephone, Rental of:

The estimate for telephone service during 1908 is placed at \$1,500. The Commissioner submits the following statement of the cost of telephone from January 1 to June 30, 1907, and inasmuch as several new extensions to the system have been ordered for Prospect Park, he says the amount so expended may be slightly increased for the last half of the year.

Cost of Telephones, January 1 to June 30, 1907.

An allowance of \$1,500 is recommended for 1908.

NO. II. MAINTENANCE OF PARKS, BOULEVARDS, DRIVES, STONE WORK AND STREET TREES.

Parks and Boulevards.

The suggested form of budget for 1908 for the Maintenance of Parks and Boulevards provides for the segregation of the present appropriation account, Labor, Maintenance and Supplies, into the following:

Account No. 8C—Salaries and Wages.

Account No. 9C—Hired Teams and Carts, Road Machines and Rollers.

Account No. 10C—Equipment, Repairs and Rental Supplies.

Account No. 11C—Consumable Supplies.

It is proposed also to set up separate appropriations for Salaries and Wages and Supplies and Collections under the head of "Zoological Department," the expenses for which at present are charged against Labor, Maintenance and Supplies Account. For all of these purposes the budget appropriation for 1907 was \$645,000, and during the current year issues of Special Revenue Bonds have been authorized to cover estimated deficiencies in this account amounting to \$177,585, which would represent a total allowance for maintenance for all kinds during 1907 of \$822,585. In the departmental estimate for 1908 the amount specified for the same purposes is \$861,736.

The total disbursements during 1906 from the appropriation account for Labor, Maintenance and Supplies were \$584,837.11, of which amount \$436,321.73 were expended on account of Salaries and Wages. Supplies purchased and charged to the same account during 1906 cost \$176,556.44. In addition to the \$436,321.73 expended for labor during 1906 from the budget appropriation account, \$154,753.91 were paid on account of labor and charged to Special Revenue Bond funds provided during 1906 to meet deficiencies in the appropriation account for the maintenance of new parks and for re-soiling trees in Prospect Park.

Accounts Nos. 8C and 9C—Salaries and Wages and Hired Teams and Carts, Road Machines and Rollers:

An analysis has been made of the disbursements during the year 1906 from the budget appropriation account, Labor, Maintenance and Supplies, to determine the amounts expended for Salaries and Wages and Hired Teams, Horses and Carts, etc. This was done to determine, if possible, a basis for recommendations for 1908 budget allowances. It was learned that the sum so expended on account of labor of all kinds was \$436,321.73. A similar analysis of the payroll charges against the Labor, Maintenance and Supplies Account during the first seven months of 1907 shows total expenditures of \$275,070.83.

The amounts expended in payrolls, by months, and charged to the budget appropriation accounts for Labor, Maintenance and Supplies, January 1, 1906, to July 31, 1907, schedules of which are appended to this report, will be found in the following summaries:

1906.	
January	\$34,462 32

June	45,413 28
July	50,323 86
Total	<u>\$275,070 83</u>

In addition to the amounts above specified as having been expended for Salaries and Wages and charged to the budget appropriation account for Labor, Maintenance and Supplies during 1906, the sum of \$136,066.77 was expended in Salaries and Wages from Special Revenue Bond funds provided for deficiencies in budget allowances, making a total of \$572,388.50 for labor employed in maintenance.

The payroll expenditures for maintenance, from Special Revenue Bond Funds by months during 1906, were:

	Fund for Deficiencies in Budget Account.	Fund for Maintenance of New Parks, Drives, etc.	Resoiling Trees in Prospect Park.
May	\$6,699 02
June	7,819 89	\$845 00

The following tabulation contains a summary of the payroll schedules appended to this report, showing the amounts expended for payroll purposes monthly, during 1906 and to July 31, 1907, from all accounts available and represents the actual cost of the labor force employed by the department other than that attached to the office of the Commissioner previously specified under Administration Account:

It will be seen that the payroll payments from Corporate Stock funds provided for the construction and improvement of parks during 1906 were \$39,999.63, and from January 1 to July 31, 1907, \$17,624.17.

The certification of payroll charges which carries with it the determination as to the portion of the amounts expended for labor weekly or semi-monthly, to be charged to Maintenance, Appropriation Accounts or Corporate Stock Funds for construction and improvements, is made by the Superintendent of Parks, under the direction of the Commissioner. The Commissioner declares that every charge made for departmental labor against Corporate Stock Funds during 1906 and 1907 has been for services performed in connection with the various park improvement projects for which the Board of Estimate and Apportionment has authorized Corporate Stock issues, and that no part of the same may in any wise be regarded as maintenance charges.

On June 7, 1907 the Board of Estimate and Apportionment, upon recommendations contained in a report by the Bureau of Municipal Investigation and Statistics, authorized the issue of Special Revenue Bonds to the amount of \$177,585 to cover deficiencies in 1907 Budget appropriation accounts for Maintenance of Parks, Parkways, Playgrounds, etc. This sum added to the Budget appropriation, \$645,000, for Labor, Maintenance and Supplies, will make \$822,585 available for all purposes for which the account Labor, Maintenance and Supplies is now used.

The total payroll payments from Budget and Revenue Bond accounts for 1906, aggregating \$572,388.50, indicates an average monthly labor cost of \$47,700. The payroll payments from January 1 to July 31, 1907, amounting to \$275,070.83, represent a monthly average labor cost of approximately \$39,300. No disbursements had been made from the Special Revenue Bond Fund for deficiencies up to and including July 31. The reduction in the payroll charges during the first four months of 1907, compared with the corresponding period of 1906 (as shown in the monthly summaries

previously given), were due to the "laying off" of a large force of workmen, so as to bring the monthly expenditures within the Budget appropriation as provided for the Department. In May last a large force was put on to complete the planting work and to prepare the parks for summer use. In the following months more men were added until July, when the payroll charges amounted to \$50,323.86.

It should be here noted that of the total payroll payments, \$572,388.50, during 1906, the sum of \$108,219.97 was for hired teams, horses, carts, steam rollers, etc., which in the 1908 Budget are to be provided for in a separate account. The expenditures for hired teams, etc., January 1 to June 30, 1907, were \$35,719.50.

Below will be found summaries showing the monthly payments for hired teams, horses and carts, etc., from January 1, 1906, to June 30, 1907:

June	10,286 75
Total (six months).....	<u>\$35,719 50</u>

It is recommended that the appropriation for 1908 for Salaries and Wages be \$510,390, and for Hired Teams, Horses, Carts, Steam Rollers, etc., \$112,740.

Accounts Nos. 10C and 11C—Equipment, Repairs and Renewal Supplies and Consumable Supplies:

In 1906 the disbursements for supplies of all kinds amounted to \$176,556.44. According to the schedule of expenditures furnished with the estimate for 1908 the sum of \$132,490.95 was for supplies which may be classified under the head of Equipment, Repairs and Renewal Supplies, and \$44,065.49 under Consumable Supplies. An appropriation of \$208,736 for supplies of all kinds is asked for 1908.

It is recommended that the appropriation for Equipment, Repairs and Renewal Supplies for 1908 be \$142,500, and for Consumable Supplies \$43,600.

Care of Trees in City Streets.

Accounts Nos. 12C and 13C, viz., Salaries and Wages and Supplies:

In the Budget for 1907 the allowance for this account was \$20,000. In the departmental estimate for 1908 the sum of \$61,200 is requested. The payroll analysis made for the purposes of this report showed that the disbursements on account of wages from this account from January 1 to July 31, 1907, were \$13,297.39, which amount was expended as follows:

Payroll Payments from Account Care of Trees in City Streets, 1907.

January	\$453 63
February	575 64
March	2,047 73
April	2,028 77
May	3,008 30
June	2,529 77
July	2,635 55
Total	<u>\$13,297 39</u>

During 1906 provision was made for the first time, pursuant to the terms of a legislative enactment approved in 1902, placing the care and preservation of all trees in city streets under the jurisdiction of the Department of Parks. In the year mentioned an appropriation of \$20,000 in Special Revenue Bonds was authorized. The expenditures during the last six months of that year for Salaries and Wages were \$18,687.14, the balance, \$1,312.86, being for equipment, spraying materials, tools, etc.

The amounts so allowed in 1906 and 1907 provided only in a small measure for the demands of the public for the trimming, pruning and spraying of trees. The amounts provided, the Commissioner states, have not been sufficient to permit of the organization of an efficient force to undertake the work of caring for and preserving

the street trees throughout the boroughs of Brooklyn and Queens as contemplated and required by the law. As has been suggested by your Examiner in discussing the requirements of this account, in the analysis made of the 1908 estimate of the Commissioner of Parks for Manhattan and Richmond, it would seem proper that the yearly appropriations for this purpose should be increased, to the end that eventually the work of caring for and preserving the trees in the city streets may be properly done.

The Department officials are now engaged in the work of "plotting out" the Boroughs into districts, and the information already obtained would indicate that in the Borough of Brooklyn alone there are approximately 80,000 street trees. The work so far accomplished, according to the Commissioner's statement, shows that the relief afforded by the appropriations heretofore made is far from satisfactory. It is stated that an appropriation of \$60,000 for five years successively, would enable the Department to place the trees in such condition as would make it possible to maintain them in good shape thereafter at an estimated yearly cost of \$30,000.

It is recommended that the allowance for salaries and wages for 1908 be \$41,000 and \$4,000 for supplies to be used in the work.

III. ZOOLOGICAL DEPARTMENT.

Account No. 14C—Salaries and Wages.

Heretofore the wages of Keepers and Laborers employed in the care of animals in Prospect Park have been paid out of the Budget account for Labor, Maintenance and Supplies. Information obtained from the Commissioner is to the effect that the force so employed and the yearly wage cost of the same are as follows:

1 Keeper, at \$3.50 per day, 365 days.....	\$1,277 50
3 Keepers, at \$2.50 per day, 365 days.....	2,737 50
8 Keepers, at \$2.00 per day, 365 days.....	5,840 00

Total	\$9,855 00
	=====

An appropriation allowance of \$9,855 for 1908 is therefore recommended.

Account No. 15C—Supplies and Collections.

The food supplies for the animals have in the past and are now being purchased from the funds in the Budget account for Labor, Maintenance and Supplies. Of these, meat and fish, during 1906, cost \$1,400. The estimated cost of forage and other miscellaneous supplies during the same year was \$2,500. No purchases of animals have been made in several years and none are at present contemplated.

For the purposes of this account it is recommended that an allowance of \$4,000 be made.

IV. SUNDRY APPROPRIATIONS.

Account No. 16C—Music:

The Budget allowance for this account in 1907, was \$13,864, and in 1906 it was \$12,790. In the current year there have been 83 band concerts, five concerts by German singers, the cost of which is here given.

Prospect Park	36 band concerts	\$7,710 00
Highland Park	13 band concerts	1,430 00
Fort Greene Park,	11 band concerts	1,210 00
Winthrop Park	3 band concerts	330 00

Red Hook Park	2 band concerts	220 00
Irving Square Park	2 band concerts	220 00
Kings Park	2 band concerts	220 00
Corona Park,	2 band concerts	210 00
Total.....83 band concerts		\$12,870 00

Concerts by German Singers.

Prospect Park	2 at \$300 each	\$600 00
Highland Park	2 at 100 each	200 00
Saratoga Park	1 at 100	100 00
Total		\$900 00
Total		\$13,770 00

In response to the demand of the public for an increased number of band concerts in several of the new small parks, it is recommended that the allowance for music for 1908 be fixed at \$15,000.

V. MAINTENANCE OF INSTITUTIONS.

Museum of Arts and Sciences (Including Taxidermical Laboratory).

The estimated cost of the maintenance of the Central and Children's museums during 1908, as given in detail in a communication from Franklin W. Hooper to the Commissioner of Parks under date of July 6, 1907, aggregates \$111,975. The budget allowance for 1907 is \$95,000. This amount prior to the present year was the

maximum amount which the Board of Estimate and Apportionment could under the law appropriate for the maintenance of the Brooklyn Institute of Arts and Sciences. Chapter 43 of the Laws of 1907, however, removes the limitation and makes it discretionary with the Board of Estimate and Apportionment as to the sum to be so provided in the annual tax budget. The amount, \$111,975, requested to be appropriated for 1908 and the expenditures for similar purposes during 1906 are as follows:

Summary of Museum Account.

	Expenditures from 1906 Appropriation.	Estimated Requirements, 1908.

Museum of Arts and Sciences.

Account No. 17C—Salaries and Wages:

An allowance of \$69,750 is asked for, an increase of \$22,920.83 over 1906 disbursements. The payrolls for June, 1907, show an increase in Salaries and Wages account, 1907 over 1906, of about \$12,000. This, the Director states, was due to employment of additional help to make complete use of the second section of the building, the installations in which were commenced in 1906, this section of the building not having been fully equipped and ready for the use of the public until 1907, when more Attendants, Cleaners, etc., had to be employed.

The further increase from a yearly salary cost of \$58,745, as indicated by the payrolls for June, 1907, to \$69,750, estimated as required in 1908, is to provide for additional help necessary to maintain the third museum section, which is now about finished, and which, it is expected, will be ready for the installation of specimens early in the coming year. There have been no material increases in individual salaries, and none are provided for 1908, the additional amount specified being intended principally to provide for the employment of additional help.

An allowance of \$66,745 is recommended, this amount being considered all that may be needed for increased salaries and any additional help incident to the opening of the third section of the building, which will, in all probability, be delayed until well into the coming year.

Account No. 18C—Repairs and Renewals (Building):

The revised estimate of the Director of the Institute specifies \$6,750 as the amount required for this account, itemized as follows:

	Estimated Amounts Required for 1908.
Cases, pedestals, glass, slate, special glass cases.....	\$1,500 00
Woodworking machines for carpenter shop.....	750 00
Furniture, desks, cabinets, library cases, storage cases.....	1,000 00
Dynamos, elevators, roof, pointing steps, galleries, new storm doors, uniforms, boilers, coat and catalogue counters, stereopticon lantern....	3,500 00
	<hr/>
	\$6,750 00
	<hr/> <hr/>

The expenditures during 1906 for all of the purposes specified above were \$5,343.78. An allowance of \$6,250 is recommended for 1908.

Account No. 19C—Supplies:

The revised estimate for 1908 for Supplies places the amount required at \$14,325, which is itemized as follows:

	Estimated Amounts Required for 1908.
Coal	\$6,500 00
Engineers' and electric supplies.....	1,200 00
Paints, oils and janitor.....	750 00
Lumber, compo, moulding.....	1,000 00
Hardware	750 00
Postage, stationery, car tickets.....	800 00
Printer's supplies.....	250 00
Reference books and magazines.....	900 00
Binding	300 00
Artists' supplies	450 00
Taxidermic supplies	150 00
Case fittings and mounts.....	1,000 00
Apparatus for lantern	150 00
Library supplies	125 00
	<hr/>
	\$14,325 00
	<hr/> <hr/>

The total expenditures during 1906 were \$11,694.80.

An allowance of \$13,500 is recommended for 1908.

Account No. 20C—Incidental Expenses:

The revised estimate for 1908 gives \$5,150 as the amount required for Incidental Expenses, itemized as follows:

	Estimated Amounts Required for 1908.
Printing bulletin and report.....	\$1,000 00
Accident insurance	150 00
Freight, cartage and customs.....	1,500 00
Field work, collecting	2,500 00
	<hr/>
	\$5,150 00
	<hr/> <hr/>

During 1906 the total disbursements were \$3,497.52.

An allowance of \$4,000 is recommended for 1908.

Account No. 21C—Telephone, Rental of:

In the estimate for 1908 the sum of \$350 is asked for telephone service. The cost during 1906 was \$249.59.

An allowance of \$300 for 1908 is recommended.

Children's Museum.

Account No. 22C—Salaries and Wages:

The estimated amount required for 1908 is \$10,000, as against expenditures of \$7,987.83 during 1906 and \$8,546 for 1907, as indicated by the payroll for June of 1907. The increased amount is asked for to provide for one additional Attendant, at \$540, and for several small increases in salaries.

An allowance of \$9,086 for 1908 is recommended.

Account No. 23—Repairs and Renewals (Building):

For 1908 the sum of \$575 is asked for, the expenditures during 1906 having been \$262.52.

An allowance of \$400 is recommended.

Account No. 24C—Supplies:

The estimated amount required for 1908 is \$1,925, the expenditure for 1906 having been \$1,775.53.

An allowance of \$1,900 is recommended.

Account No. 25C—Incidental Expenses:

The amount asked for as required in 1908 is \$200, which is to provide for the publication of "Museum News," a periodical designed for free distribution among the visitors to the Children's Museum, who consist almost exclusively of public school pupils.

An allowance of \$200 is recommended.

Account No. 26C—Telephone, Rental of:

The cost of telephone service during 1906 was \$86.10. For 1908 an appropriation of \$100 is asked for. An allowance of \$100 is recommended.

Summary of Recommended Allowances for 1908.

Attached to this report is a tabulation showing the Budget appropriations for 1907, the departmental estimates for 1908 and the recommended allowances as hereinbefore specified.

Appended to this report will also be found schedules showing the amounts expended for Department labor and hired teams, horses and carts, etc., from the several

Budget appropriation accounts, Special Revenue Bond issues and Corporate Stock funds, from January 1, 1906, to August 16, 1907, marked as follows:
