1. In a message W ⁹⁴²⁸⁰ 92480 (Tab B) DA requested the following information be submitted:

a. Estimate of civilian supply requirement to include North Korea, in the same format contained in CINCFE msg C 65110 (Tab C). This information is to be followed with details to support justification in budget hearings.

b. Cost of supplies already supplied to Korea by Army.

c. FY 52 estimate.

d. List of requirements for Korea in detail, phased by month, to permit immediate supply action on the portion required from Unified Command, Washington.

2. The CG Eighth Army has been directed in CINCFE msg C 66092 (Tab D) to prepare a revised estimate of requirements for Korea, phased by month, in sufficient detail to permit immediate supply action. A proposed message to CG Eighth Army and CG X Corps forwarded for CofS approval on 19 Oct, assigns responsibility for North Korea to CG Eighth Army. The estimates from CG Eighth Army are not expected to arrive in this Hq until the early part of November 1950.

3. In view of information contained in para 2 above, the provision of information required in para 1 above to DA will be accomplished by Technical Services in coordination with ESS and ECA. This process is time consuming, requiring a list of items in detail with target delivery date, and desired destination, thus an interim reply to DA is considered necessary.

4. Revisions of the program to be prepared by General Hq for submission to DA (para 3 above), will be completed as firm information is received from CG Eighth Army.

5. Therefore, it is recommended that the attached interim reply to DA (Tab A) be approved and returned to G-4 for dispatch.

20 OCT 1950

1. In response to CofS question to General Eberle regarding the differences, if any, which exist between KORCIV 40, 3 October 50, (Tab "A") and directives of this headquarters, the following is furnished:
 - a. KORCIV 40, Tab "A", was received by airgram by ECA, Tokyo. This headquarters had not received this directive in this form by electrical transmission. Therefore, G-4, with concurrence of AG, reproduced the airgram and made distribution to interested staff sections.
 - b. Msg 290543 Z, 30 Sept 50, State to SCAP (USPOLAD) (Tab "B"), contains the identical information transmitted in KORCIV 40 (Tab "A"), but neither did it have a KORCIV number nor rescind KORCIV 11.
 - c. KORCIV 13, Tab "C", infers in paragraph 5, B, (3) and (4) that CINCPAC should procure from the Japanese economy, within its ability to furnish, as many of the requirements as possible.
 - d. In contrast, paragraph B, 1, Tab "A" states that total requirements for relief measures will be submitted to the Unified Command, Washington, with an indication of those requirements of great urgency which the Unified Command, Tokyo, is undertaking to fill on an emergency basis.
 - e. Msg W 93158 (KORCIV 41), 3 Oct 50, (Tab "D") states in paragraph 2, E, "Requirements will continue to be handled under present KORCIV 13 system modified to provide for the supply responsibility placed upon Army".
 - f. Msg W 94230, 17 Oct 50, (Tab "E") infers in part 2, paragraph A that DA plans to initiate immediate supply action on requirements for the next three months and endeavor to obtain maximum UN donations for 4th and succeeding months.
 - g. Up to the present time practically all procurement of supplies has been made locally due to the urgency for meeting emergency needs in Korea.
 - h. As requested in W 94210 (Tab "E"), G-4 is now preparing for submission to the DA, the estimated civilian supply requirements for FY 51 together with a list of requirements with sufficient detail, description, and estimated cost to permit immediate supply action by DA.

2. In view of the conflicting provisions contained in DA directives, as set forth above, it will be necessary to establish the policy to be followed for local procurement of relief supplies for Korea. In view of the plans of the DA to initiate necessary supply actions on the next 3 months requirements for civilian supplies for Korea and the order and shipping time required to obtain needed supplies from the ZI, it is recommended:

- a. That for the next 3 months, which can be considered an emergency period due to time element involved, maximum procurement of required relief supplies be made locally within the ability, as determined by SCAP (ESS), of the Japanese economy to supply same;
- b. That local procurement during the 4th and subsequent months be limited to those supplies urgently required for emergency purposes;
- c. That DA be informed of the above actions when requirements are submitted as required by Tab "E".
