COMMUNITY CHEST OBJECTIVE NEXT WEEK

FRENCH PLANNING TO SEIZE GERMAN COAL AS REPARATION MOVE

Cabinet Reported to Have Approved Scheme Drawn Up By Military and Civil Authorities; To Collect Export Taxes In Ruhr.

Paris, Nov. 28.—A plan for direct action by France as a solution of the reparations question was submitted to-day to a full Cabinet meeting in the Elysee Palace, with President Millerand presiding.

The plan provides for seizure of the state coal mines and collection of the export taxes in the Ruhr district, together with absolute control of that section of the Rhineland now occupied by the French military.

Cabinet members refused to discuss the action taken but it is generally believed the plan was approved without opposition, as drawn up yesterday at a meeting in which the foremost military and civil authorities participated, including President Millerand, Premier Poincare, Marshal Foch and the Ministers of Finance, War and Liberated Regions.

OTHER PLANS ARE NOT TRUSTED NOW

Paris, Nov. 28.—The intention of France to "pay herself" in Germany will be discussed at a full meeting of the Cabinet to-day.

A plan for direct action through the seizure of part of the Ruhr district and absolute control of the French section of the Rhineland, which is considered and approved at yesterday's meeting of military and civil authorities, will be submitted for final approval. There is much faith here in any inter-Allied solution of the reparations question, even though the Brussels conference is held.

SEATTLE STUDENT WAS WOUNDED BY CONSTABLE

Seattle, Nov. 28.—Richard Holbrook, of Seattle, a student of the University of Washington, was shot and seriously wounded by Patrolman J. H. Karlberg early to-day near the University campus. Holbrook was taken to a hospital and later looked on a charge of disorderly conduct.

MERCHANT AND HIS COLLEAGUES MUST FOOT LEGAL BILL

Council Cannot Pay Expenses of Staneland Grant Case Such Expenditure Would Be Illegal, Solicitors Rule

The City Council cannot legally pay the expenses incurred by Mayor William Marchant and members of the Civic Finance Committee in fighting the recent Staneland grant case against them. This was made known at the City Hall to-day after officials of the city legal department had completed their investigations into the legal aspects of the proposed reimbursement of the Mayor and his colleagues.

MEASURES AFTER MIDDLE OF JANUARY

This programme would be applicable only after January 1, 1923, when Germany has a reparations plan for the end of December and the first payment under the existing scheme of reparations, now in suspension, would be due the middle of January.

GERMAN EFFORT TO STABILIZE MARK

New Ministry Uphold Late Ministry's Reparation Policy

Notification of Purpose Sent to Allies

Paris, Nov. 28.—Formal notification by the new German Government that it intends to uphold the reparations policy of the Wirth Cabinet as outlined in the German note of November 14 reached the Reparations Commission last night.

GERMAN EFFORT TO STABILIZE MARK

The communication asks, however, that "consideration be given to the financial situation of Germany." The Commission accede with the least possible delay to the proposals put forward in the note of November 14. The Commission is awaiting the result of the Allied conversations in regard to the proposed Brussels financial conference, before taking any action.

FRENCH WILL KEEP ALLIES INFORMED

Premier Poincare saw Marquis Salazaro Raggi, Italian member of the Reparations Commission, yesterday, and it was taken for granted that it was to supplement the outline of Poincare had already given Premier Mussolini at Lausanne of the French intentions toward Germany.

COAL OUTPUT

The Cabinet had before it to-day the Government's calculations on exactly what the output of two-thirds of the Ruhr would yield. These official figures show the German Government's mines in the Ruhr produce 9,000,000 tons of coal, about half the amount annually delivered France.

SNOW AT VERNON

Vernon, Nov. 28.—The first snow of the Winter began falling last night and is continuing to-day. The temperature is not low, however, and it is doubtful if the snow will last.

SUPPORTS ECONOMIC CONFERENCE PLAN FOR THE EMPIRE

Canadian Commissioner in London.

HON. P. C. LARKIN Canadian Commissioner in London.

URGES INDUSTRIES IN THE DOMINIONS

Canadian High Commissioner States Views to British

London, Nov. 28.—The statement of Hon. P. C. Larkin, High Commissioner here for Canada, which was published this morning, approving of Premier Bonar Law's proposal to hold an Empire economic conference, will give great gratification to those who have been pressing for early steps looking towards development of Empire trade.

SCHOONERS ASHORE IN LAKE ONTARIO; SHIP UNREPORTED

Kingston, Ont., Nov. 28.—In addition to the schooners Mary Daryaw and Horace Taber, reported ashore yesterday, it is learned that the schooner Lyman Davis, bound from Oswego for Belleville with coal, went ashore on Waupos Island during the storm.

SAYS EMPIRE FAIR MISREPRESENTED

Duke of Devonshire Defends Preparations For 1924

Materials and Supplies Bought Within Empire

London, Nov. 28.—(Canadian Press Cable)—The Duke of Devonshire, who is chairman of the executive of the British Empire Exhibition, has a letter in The Times with reference to recent criticisms of the management of the big show that is being prepared for 1924. The Duke says that although the proceedings have been systematically misrepresented to an extent that almost passes belief, the executive has never deviated from the policy that to the utmost limit of practicability, the materials and supplies for the exhibition shall be produced within the Empire.

LABOR CAMPAIGN IN ONTARIO SOON

Programme of Political Education Planned

Toronto, Nov. 28.—A programme of education in industrial centres of the province, with Labor members of the British House of Commons, the Provincial Legislature and the Federal Government taking part, is planned by the Independent Labor Party and the Canadian Labor Party.

DECLARES HIGHWAY REGULATION NEEDED

Sir T. White Writes of Many Automobile Deaths in Ontario

Toronto, Nov. 28.—Sir Thomas White, ex-Minister of Finance, writes to The Toronto Telegram regarding the number of auto fatalities in part as follows:

CORK COUNCIL TO NOMINATE SENATORS

To Take Action Under Free State Constitution

Threat Made by Cork Valerist Brigade

Cork, Nov. 28.—The Cork Corporation decided to-day to make nominations to the Irish Senate created by the Free State Constitution.

OVER 100 SHIPS TAKE LIQUOR TO U.S.

Eastern American Prohibition Official Tells of Flood

New York, Nov. 28.—New York and New Jersey cities are being flooded with liquor from the Bahamas, Scotland and Britain, according to Frank J. Hale, an investigator for the prohibition department. He declared that a steamship had cleared from Scotland last week with 24,000 cases of whisky bound for the "whisky armada" camping ground "four miles off the American coast."

LIVE WIRE DRIVE TO COMMENCE ON FRIDAY

The Community Chest objective of \$86,000 will be reached a week from Saturday. One hundred and twenty live wire canvassers will start out Friday morning fully equipped with data and arguments to secure the necessary donations.

The canvass has developed into one of the keenest contests ever staged in Victoria and the Rotary, Kiwanis and Gyro clubs will each compete for first place in attaining their respective objectives. The club reaching its objective first will be made trustee of the honor flag presented to Victoria by the Dominion Government in the last Victory Loan drive for the best record of any city in Canada turning in the highest amount at the least cost. Many of the canvassers who participated will work in the Community Chest contest. An organization banquet will be held Thursday evening, in preparation for the start of the big drive Friday morning.

From 4 to 6 o'clock to-morrow afternoon the Boys' Naval Brigade band will give a concert at Community Chest headquarters.

The Salvation Army, through Commissioner Hodder, chief of the western Canada division, heartily endorses the Community Chest.

Telephone number 7,700 for any information desired.

EXPORTS INCREASE, IMPORTS DECREASE

Canada's Trade With United States in Healthy Condition

Ottawa, Nov. 28.—Canada's exports of agricultural and vegetable products to the United States during October, 1922, decreased by almost half from the total of October last year, according to the summary issued by the Dominion Bureau of Statistics. Exports of other commodities increased, however, bringing the total exports for the month to \$12,478,532 as compared with \$16,832,140, as against \$13,175,052; non-ferrous metal products \$2,686,125 as against \$1,997,569; and non-metallic mineral products \$2,906,250 as against \$1,335,917. Total exports of Canadian products to the United States during the month were valued at \$12,478,532 as compared with \$28,457,095 in October, 1921.

ANTI-LIQUOR WORLD CONVENTION

Delegates in Toronto Discuss International Law Co-operation

Ten Mass Meetings in Toronto Churches To-night

Toronto, Nov. 28.—Best methods for international co-operation for law enforcement on both sides of boundary lines between countries one of which have prohibition formed one of the more important subjects discussed at to-day's convention of the World League Against Alcoholism. Arthur J. Davis, of Boston, Mass., regional superintendent of the Anti-Saloon League of America, presided at this discussion.

LAKE WHEAT MOVEMENT

Fort William, Ont., Nov. 28.—Yesterday and to-day no less than 8,239,000 bushels of grain cleared for the lower lake ports, of which 7,469,000 was wheat.

DATE OF QUEBEC GENERAL ELECTION TO BE ANNOUNCED

Quebec, Nov. 28.—A caucus of the Liberal Party has been called for Thursday this week, when the date of the next general election probably will be fixed.

REFUGEES SUFFER IN ASIA MINOR

250,000 Christians Moving to Sea Coasts

Tragedy May Be Great As Smyrna Disaster

Constantinople, Nov. 28.—Another human tragedy that promises to rival the Smyrna fire is developing in Northern Asia Minor. A tide of 250,000 Christian inhabitants is sweeping in full flood to the fringes of the Black Sea and the Mediterranean.

The refugees are clamoring to be saved. The American naval base at Constantinople is deluged with S. O. S. calls from the flotilla of destroyers patrolling the Mediterranean and Black Seas coast of Asia Minor, which are crowded with Christians fleeing from the Turks.

Appeals come from every part of Anatolia, where whole Christian communities are migrating and where the Near East Relief is working heroically to overcome almost insuperable obstacles, including the removal of orphans from great distances to the sea. Cryptic radio-grams received to-day indicated that a critical situation was developing with surprising suddenness. The whole interior is blanketed with snow, adding immeasurably to the misery of the refugees.

BRITAIN TO BREAK WITH GREECE BECAUSE EX OFFICIALS EXECUTED

Six Former Cabinet Ministers and Army Officers Put to Death In Athens As Result of Greek Defeat In Asia Minor; British Government Expected to Recall Its Minister At Once.

Athens, Nov. 28.—Six former Cabinet officers and army officials convicted of high treason in connection with the Greek military disaster in Asia Minor were executed to-day.

London, Nov. 28.—The former Greek Ministers condemned to death by the military court in Athens have been executed, says an Exchange Telegraph dispatch from Athens this afternoon.

It was stated in official circles this afternoon that the immediate withdrawal of the British Minister at Athens would result from the executions.

London, Nov. 28.—There is the strongest possibility that Great Britain will break off diplomatic relations with Greece if the death sentences imposed on former Greek Cabinet officers are carried out, it was stated in official circles to-day.

The precedent of such action by the British, it was suggested, probably would be the break in diplomatic relations with Serbia in 1903 as a result of the murder of the Serbian King and Queen by revolutionaries.

It was pointed out, however, that the sentences given the former Greek Ministers have not yet been carried out and that there was still hope that the Greeks would not take such extreme action.

Trial Began November 13. The trial of several former Greek Ministers and military officers who were charged with high treason as a result of the army's recent defeat by the Turks began on November 13. The court martial was instituted by the full responsible news of the revolutionary committee after an investigation by a special committee of inquiry had resulted in a report charging treason.

Constantine Not Tried. Former King Constantine was declared exempt from the charges on grounds that he was not responsible for any acts that led to the triumph of the Turkish armies. It was decided that his Ministers must bear the blame of the disaster. The accused were permitted to testify in their own defence.

Early in the trial the British Government made representations against possible imposition of the death sentence. The British action had generally resented in Athens and that the fall of the Zaimis Ministry a few days ago could be traced directly to the British stand.

London Informed. London, Nov. 28.—The Foreign Office received an Athens dispatch to-night stating that the five former Greek Ministers and one former general condemned to death had been shot.

The British Minister at Athens, G. O. Lindley, recently informed the Greek Government that if the prisoners were executed he would depart. Upon receipt of the news of the executions, the Foreign Office stated that Mr. Lindley had probably already left the capital.

The fate of the Greeks in the face of the British representations may bring serious results to their Government, according to official opinion, not only in the withdrawal of moral support but also the refusal of financial assistance by the Great Powers.

M. GOUNARIS ONE OF THOSE EXECUTED

London, Nov. 28.—A Central News dispatch from Athens says the court martial heard the treason charges against several former Cabinet Ministers imposed the death sentence on M. Gounaris, M. Protopapadakis and M. Stratos, former Premier. Theotokis, former Minister of War; M. Baltazis, who held portfolios in several Cabinets, and General Padjanostis, who commanded the Greek forces in the recent debacle in Asia Minor.

The dispatch adds that General Stratos and Admiral Goudas were sentenced to life imprisonment.

LARGE CROWD AT ATHENS TRIAL

Athens, Nov. 28.—All but two of the former Cabinet officers and army officials accused of high treason in connection with the Greek debacle in Asia Minor have been sentenced to death by the military court martial that heard the charges. Sentences of life imprisonment and degradation (Concluded on page 2.)

RAIDING PARTIES CUT TELEGRAPH WIRES IN IRELAND

Dublin, Nov. 28.—Telegraphic communication between Dublin and all towns in the south and west Ireland was interrupted to-day because of wide-spread wire cutting.

OBJECT TO CROWDS NOW IN LONDON

Papers Say Visiting Throngs of Unemployed a Menace

Must End, Says Pall Mall Gazette

Special to The Times. London, Nov. 28.—The press in London is restless over the continued presence of 10,000 unemployed, many of whom are from provincial centres. It is beginning to call on the authorities to put an end to this "sponging on London."

The Pall Mall Gazette in an editorial comments as follows: "Communist and criminal leaders of the unemployed hordes are still persisting in their attempt to substitute mob dictation for elected government. They are, as they themselves declare, building up an army with which to bring about a general crash."

The paper goes on to say that "the policy of filling London with imported crowds of desperate people under leaders eager for a chance to riot must come to an end."

TO FACE LIFE IN CANADA AS IT IS

Sir A. McPhail Gives Advice to Toronto Young Men

Toronto, Nov. 28.—Sir Andrew McPhail, of McGill University, started his audience at a dinner last night of the Young Men's Club of the city. He said that the factory system seemed to have come to an end; that he doubted the benefits to come from immigration; ridiculed the habit of "boasting" they call it "boasting" now, but it is the same," he said—and urged them to face life in Canada as it was and not what they expected it to be in the future.

To Escape Work. Beginning in a humorous strain, Sir Andrew said mankind was endeavoring always to escape work, to evade the duties of life. "What the city holds out to-day is that even if you do not work, you will not perish," he said, and cited such things as organized charities and hospitals which defended man from the results of his own folly, and lastly, there was the living wage, which let a man live according to the lights of his desire. Speaking of land in Canada that he knew of, Sir Andrew said that the estimated profit made on this land over a period of 100 years had been about 400 percent. (Concluded on page 4.)

REFUGEE SUFFER IN ASIA MINOR

PROVINCE REJECTS DI TO RELIEVE CITIES OF SCHOOLS

Proposal That Government Assume All Education Costs, Thrown Out

Proposal that the Provincial Government should take over the entire cost of education within the Province was turned down today by the Municipal Committee of the Legislature.

H. G. Perry, member for Fort George, brought up the idea of a county council. He suggested that the Province should levy a tax on real estate, hospitals and roads.

Deputy Minister of Finance Johnston gave the committee statistics on education costs, showing that the total cost had increased in municipalities from \$2,221,940 in 1914 to \$4,670,724 in 1921.

Prince Rupert, Nov. 28.—A man named Danielson, of the American fishing vessel Republic, was drowned this morning when a dory which was being lowered overturned. The body was not recovered.

Los Angeles, Nov. 28.—Adelbert Elliott Dexter, motion picture actor, and Mrs. Nina C. Utermeyer, former wife of Alvin Utermeyer, attorney of New York, secured a marriage license here today.

FUNDS RAISED AT CHEMINAIS EVENT Special to The Times Cheminai—The Boy Scouts and Wolf Clubs of Cheminai held a very successful concert and dance in the old Recreation Hall, Cheminai, on Saturday evening under the direction of Scoutmaster C. COL. UNSWORTH WELCOMED HERE

Addresses Large Gathering at Salvation Army Citadel

Before a large gathering at the Salvation Citadel, Col. Unsworth, International Representative, who is touring the various parts of the British Empire and other countries, gave a very interesting address on "Glimpses into Missionary Work" last evening.

Outlining the work in the leper colony in Java, Col. Unsworth stated that cases of leprosy had been cured, through the treatment of one of the world's greatest oculists, Dr. Willye. In illustrating this, he told of an instance where a leper in India, who had been serving for number of years among the lepers, contracted the disease herself, but was cured by an injection given by Dr. Willye.

India and Ceylon. As an indication of the valuable work done in India, Col. Unsworth stated that the Archbishop of Canterbury presented Commissioner Booth-Tucker and Mrs. Tucker of India to King George, who decorated them for their services to the Empire. Col. Unsworth has also carried on missionary work in Ceylon.

ANNOUNCEMENTS Seats Concert, St. Columba Church, Oak Bay, Wednesday, Nov. 24, at 8 o'clock. Programme arranged for choir by May McCoy Jameson. See elsewhere in this paper.

Winnipeg, Nov. 28.—Two bodies of victims of the St. Boniface College fire were recovered to-day from the ruins of that institution, and three of the ten missing persons now are definitely accounted for.

This Christmas

CITY OF BROTHERLY LOVE IS IN WRONG

Toronto, Nov. 28.—A special from Washington to The Globe says: "Investigation of the complete breakdown in the enforcement of prohibition in Philadelphia on Saturday, where 50,000 people assembled at the annual United States Military Academy versus United States Naval Academy football game, may be expected this week by President Harding. The violation of the law was so flagrant as to be apparent to the most casual observer. It existed at the game itself. Men, and some women, drank underneath the stadium between the halves and at night some of the larger hotels were filled with drunks. There were so many as to

excite the anger of members of Congress and cabinet officials. "It is understood here that Secretary Weeks intends to call to the attention of President Harding the disgraceful violations of the law."

U. S. GOVERNMENT AND BLACK RUST

Washington, Nov. 28.—Prompt Government aid to eradicate black rust, estimated to cause an annual wheat loss of \$9,000,000 bushels in the Northwest, was urged yesterday by a delegation representing the conference for prevention of grain rust in the Northwest before a House subcommittee. Professor E. G. Stackman, of the University of Minnesota, who has

given the subject long study, told the sub-committee on appropriations which is framing the agricultural bill, that if the Government should vigorously go after the pest it could be wiped out in two years. The bill last year carried \$250,000. Secretary Wallace asked that the same amount be provided this year, but the budget bureau, it was understood, cut it to \$200,000.

FIRE IN NEW YORK

New York, Nov. 28.—A three-alarm fire broke out late yesterday afternoon in the Garves wallpaper factory on Third Avenue, Brooklyn, near the Bush terminal buildings. The police reported that about 1,000 employees were at work when the alarms were turned in.

PASSING OF IRISH BILL QUIET EVENT

Speeches at Second Reading in British Commons in Subdued Key

London, Nov. 28.—(Canadian Press Cable)—The second reading of the Irish Constitution Bill was passed by the House of Commons last night as quietly as if it had been a minor department bill. There was no rejoicing over the formal inauguration of the new regime in Ireland. All the speeches were pitched in a subdued key as if the members were afraid that premature rejoicing might bring about the intervention of malign fates which have wrecked so many hopes of peace for Ireland. Premier Bonar Law, Sir John Simon and Ramsay MacDonald, Leader of the Labor Party, all expressed quiet confidence in the future. Two of the authors of the Irish Treaty, Lloyd George and Austen Chamberlain, were in the House, but did not deem it necessary to speak. Douglas Hogg, the new Attorney-General, had a trying experience in making his maiden speech from the Treasury benches. He did so well that he was cheered from all quarters of the House when he had finished.

TURKS TO INSPECT FOREIGN SCHOOLS, SAYS-ANGORA GOVT.

Angora, Nov. 28.—Under the decree of the Minister of Education, all foreign schools must henceforth submit to Turkish inspection and supervision. Any found working contrary to the interests of Islam will be immediately suppressed. The measure also stipulates that the Turkish language shall be a compulsory subject in all schools and that the book-keeping and correspondence of all commercial houses shall be in Turkish; that the employees of foreign firms, excepting technical staffs be Turkish; and that the corporate stock of concerns in which concessions are granted shall be held by the government.

KU KLUX KLAN EFFORT IN CANADA

Rev. O. Haywood Says Organization Attempt Will Be Made

New York, Nov. 28.—(Canadian Press)—The first step toward international organization of the Ku Klux Klan will be made in Canada, it was announced here yesterday by Rev. O. Haywood, national lecturer of the Klan. In making this announcement he said he had received more than 500 applications for membership in the Klan from residents of Canada and the British Isles during a four-week lecture tour of the State of Pennsylvania. He said the campaign in Canada would be begun as soon as officers could be found to do it.

The officials of the Klan announced new plans yesterday for a drive for members in New York City in bold defiance of police orders. Dr. Haywood in announcing that the Klan planned a world-wide extension of its "Invisible Empire," said that it stood for the solidarity of the Protestant Gentile white race, but throughout the world.

Previous to this he had stated that it was not a political organization, but a racial movement not meant to oppress, abuse or ridicule other races. The American Jewish Congress, composed of 700 representatives of 250 Jewish organizations, in a resolution on Sunday expressed abhorrence of the policy and acts of the Klan.

PROVINCES'S HONEY CROP IS RECORD

This Year 355 Tons; Eleven Years Ago, 20 Tons

Nelson, B.C., Nov. 28.—British Columbia's honey crop breaks all records this year, according to the official estimate just given out here by W. J. Shepherd, provincial apiarist. The crop totals 711,356 pounds, against 308,074 last year. A 25c wholesale the crop is valued at \$177,839 against \$89,631 last year, when the wholesale price was 29c. The average yield for the 11,591 hives in the 2,148 apiaries in the Province is sixty-one pounds. There has been a gain of seventy-one apiaries and 1,242 hives. Beeswax worth \$5,000 has also been produced. Eleven years ago the provincial production was twenty tons, against 355 tons this year.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place. Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or rashes. You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store. (Adv.)

Giraffes can see behind them without turning their heads.

SAVED FROM AN OPERATION

"Fruit-a-tives" Completely Relieved Me

3928 Union St., Vancouver, B. C.
"I suffered with all the symptoms of Female trouble, with chronic Constipation and constant Headache. I had pains low down in the back and sides of the body. A doctor advised me to have an operation. I started taking "Fruit-a-tives" and this medicine has completely relieved me of all my misery and suffering. I am free of pain and headaches and the terrible Constipation, and what saved me is the fruit medicine, "Fruit-a-tives."
Madam M. J. GORSE

SETTLERS FOR UNTILLED LANDS

British Economist Says Dominions Do Not Want Town Immigrants

London, Nov. 28.—(Canadian Press Cable)—Harold Cox, the noted economist lecturing before the Women's Guild of Empire yesterday dealt with the Empire aspect of the population problem and said the ideal course to aim at was the transference of Great Britain's excess population to the untilled acres of Australia and Canada. The question was how this could be done. The first problem was found in the fact that the Dominions did not want urban population. Canada was strongly opposed to assisted immigration to that country except in the case of agricultural workers, but there was not too many farm laborers in England.

The Australian Labor Government, said the speaker, was against immigration, its objection being the competition of the persons who entered nominally to work on the land but who drifted into the towns. Assisted immigration generally tended to attract the unsuitable immigrants, whereas if a man went out on his own responsibility he was almost sure to do well.

One hopeful scheme, said Mr. Cox, was the training of boys in agricultural work and then sending them to the Dominions. Mr. Cox ascribed the continuance of the present excessive increase in the population, particularly among the less fit classes, to social reform legislation by which responsibility was taken away from the individual at cost to the state.

SLEEPING SICKNESS

Calgary, Nov. 27.—Sleeping sickness is again reported in this city. A fifteen-year-old boy named Robert Mason has been asleep for 100 hours.

CHEAPER POWER IN AUSTRALIA

New South Wales Follows Lead of Victoria and Tasmania

Sir George Fuller on Preferential Co-operation
Sydney, N. S. W., Nov. 27.—(Canadian Press Cable via Reuter's)—Sir George Fuller, Premier of New South Wales, speaking at the opening of the first hydro-electric plant at Dorrigo, Northern New South Wales, on Saturday, said the efforts of the Government in the direction of preferential co-operation between Great Britain and Australia should go far toward better recognition for the produce of the State. Co-operative marketing was essential for the success of the immigration scheme. The Premier said he was in agreement with the Australian Government for the submission to the British Government of some kind of co-operation scheme. He believed it was practicable and that the British Government was expected to accept the hydro-electric scheme is the beginning of hydro-electric development on the coastal rivers which has been under discussion for years. Victoria and Tasmania have resolved to free their industries from dependence on the New South Wales coal fields, and the whims of the coal miners there. Their success in developing cheaper power has induced New South Wales to follow suit. Tasmanian Plant.

London, Nov. 27.—(Canadian Press Cable)—With reference to the largest generating station in the Southern Hemisphere, the hydro-electric station at Rindon, Tasmania, near Hobart, which has a capacity of 50,000 horsepower and which was opened last Thursday, the Sydney correspondent of The Morning Post gives an interesting account. He states that Tasmania has expended nearly £3,000,000 on the great hydro-electric installation, which is used in the treatment of ore which formerly went to Germany to be treated. The island of Tasmania, says the correspondent, is rapidly becoming the seat of important industries fed by power produced from an immense dam constructed in connection with the great lakes of that country. The scheme for the encouragement of industries, together with great generating plants for the sister Australian state, Victoria, under the organization of Lieut.-General Sir John Morass, the noted engineer, who was born in Melbourne, 37 years ago, promise a new epoch in Australian development. The latter scheme aims at replacing coal by electric power in all the Victorian factories and a wide extension of the electrification of the railways in Victoria. Enthusiasm over the new power is spreading to New South Wales, where engineers are urging the harnessing of the Northern and Southern coastal rivers for the purpose of obtaining electric power. In the opinion of experts with the coming development of the Tasmanian electric works which has already effected the investment of capital in the secondary industries in the coal producing region of New South Wales, the extension and use of the hydro-electric power for the whole of Eastern Australia is clearly forecast.

SPECIAL 75c a Pair

Premier Drury in Role of Prophet

Says Prohibition Has Come to Stay in Ontario

Toronto, Nov. 28.—Before a mass meeting in Massey Hall last night Premier Drury, of Ontario, said prohibition had come to Ontario to stay. Neither government control nor the selling of beer and wine would ever receive the sanction of the Ontario electorate. He believed that before many years had passed, prohibition enforcement officers in the United States would not be arrested by the presence of a partially "wet" Canada on their northern boundary. Tarina P. Sinha, of Benares, India, appeared in Hindu costume. He said the revenue from the drink trade was doubling every three years, and Indians who for centuries had been total abstainers by tradition were now coming under the influence of alcohol because of the action of the Government in enforcing the sale of liquor. Discussing the opium traffic, the speaker stated that India produced enough opium each year to fill Massey Hall, but that only four tons were used for medicinal purposes. Much of the residue was going to America, where there were believed to be four million addicts. Protect Your Health The Tonic and Laxative Effect of Laxative BROMO GUINNESS Tablets will keep the system in a healthy state and thus ward off all attacks of Croup, Grip or Influenza. Made in Canada.

THE KU KLUX KLAN.

No doubt the Canadian Government and the governments of the various provinces will duly note the announcement in New York of the Rev. Oscar Haywood, national lecturer of the Ku Klux Klan, that a branch of that fantastic organization would be established in Canada preliminary to a "world-wide extension of its invisible empire." Indeed, judging by an article in The Times a few days ago the attempt to draw Canada into the embrace of this pyjama society already has begun, the little town of Cranbrook having been singled out for the distinction of being the starting place. In any case the advertisement in a Cranbrook newspaper announcing that one H. Moneroff, "Chief Klansman Canadian Division," would receive applications for membership in "Cranbrook Klan, No. 299" during his two-day stay in that place, is the first indication we have seen of any movement of this sort in Canada. It is interesting to observe, too, that all applicants must be "British subjects, between the ages of 21 and 40, and must also be qualified horsemen possessing the necessary skill and daring to uphold law and order at all costs."

Is only the skilled horseman to enjoy the thrill of participating in the nocturnal antics of the Klan? Is not the motorist to be allowed the privilege of wearing a gunnysack and nightgown, and waving a torch and otherwise promoting the peculiar aims and objects of the "invisible Empire?" Cannot a Kleagle do his kleagling as well from a motor car as from the back of a horse? This advertisement might be consoling to the horse which might see in it a promise of restoration to former prominence in the scale of civilization, but we fear it will be discouraging to not a few adventurous spirits who, however desirous they may be of becoming members of the Ku Klux Klan, will not care to take part in any equestrian festivities in the encumbering hob-goblin garb of the approved klansman. Skilled horsemen are becoming rarer every day.

Of course, nobody at all familiar with Canada, her people, institutions and laws, needs to be told that any attempt to develop the Ku Klux Klan in this country is bound to come to disaster. British countries are unhealthy places for organizations which try to take the law into their own hands, no matter what their objects may be. Night-riding law-breakers or trouble-makers are certain to run up against another kind of night-riding—the Canadian Mounted Police, formerly the R. N. W. M. P., of whom perhaps even the most obscure Klansman would have heard—and that will be the end of activities for some years. The resources of British law always were quite sufficient to deal with lawlessness, even in the early days in our western country when on the other side of the line Vigilance Committees for the protection of life and property were the order of the day. And they are quite sufficient for all purposes to-day. Ambitious Ku Klux Klansmen who wish to operate in this Dominion would not have to wait very long after they had started to function before discovering that one of the most conspicuous points of difference between Canada and the United States lay in the administration of law and order as exemplified in their treatment of organizations like the Ku Klux Klan.

SPREAD THE GIFT.

Those who are hesitating about the amount of their subscription to the Community Chest should bear in mind that although the federated budget will be made up annually it is not necessary that the individual donation for that period be

paid in one sum. The work of the Board of Management will be continuous throughout the year and some of the beneficiaries will not be making a call upon the amalgamated fund for some months to come. That being the case the committee in charge of the campaign merely asks that contributors who would prefer to spread their liability over the full twelve months call at the office and arrange the amount of the monthly or quarterly instalment. When this formality has been negotiated the Board will know exactly what funds it may depend upon as it progresses with its work of administration. This policy has been followed in other communities where the federated budget has been adopted and its invariable success speaks well for this system of dealing with the various branches of the public service which cannot depend upon financial assistance from the State.

IMMIGRATION PLANS.

Canada's immigration proposals as outlined by Hon. Charles Stewart yesterday would seem to permit of a vigorous and successful policy that will give this country the best of settlers from the Old World. It is also proposed to invite those Canadians who are at present resident in the United States to return to their native land to take part and share in the success of this Dominion's more intensive development. To bring about these desirable conditions the Government intends to inaugurate an immediate and extensive publicity campaign throughout Great Britain and eventually in other parts of Europe.

Judged by the success which seems to be attending the Australian Government's immigration policy the admission of colonies and the younger generation in batches is a sound line to follow. Five or six thousand sturdy boys and girls admitted to this country every year would be an excellent stroke of business if sufficient precaution were taken to see that they carried out their part of the bargain and became producers from the land. Caught during the impressionable years, they would learn their calling and have nothing to unlearn—a stumbling block to many new settlers with a none too plastic mind—in the ways of the country after arrival at years of maturity. What is more their Canadianism would be unspoiled.

It goes without saying that the people of the Old Country want to hear about Canada and to hear the truth. Every unemployed demonstration in Britain, each march on London and other large centres, will quicken the interest of both urban and rural population in the possibilities of making a living in other parts of the Empire. That is to say the individual who has ambition, but whose means of livelihood feels the influence of economic disturbances of ever so slight a nature, will cast about him for a new market for his labor. Nor is this mere speculation by any manner of means. For at Kidderminster the other day officials of the Canadian National Railways, who had planned a public meeting to discuss emigration, arrived to find the hall jammed to the doors and hundreds turned away. Surely Canada can capitalize this sort of interest if, as Mr. Stewart promises, she goes about it "in a big way."

NOTE AND COMMENT

When a New Yorker was addressing the Montreal Reform Club the other day he declared that the two "great evils which must be fought in the United States to-day are the Hearst press and the Ku Klux Klan." We rather think there must have been some qualification to the parallel used. Surely no American would consider Hearst in the nature of an evil or a menace. He is merely about the most stupid joker in existence.

It will not be surprising if Mr. Lloyd George and Mr. Asquith come together through a mutual interest in the Safeguarding of Industries Bill—in spite of the fact that it was the Lloyd George Government that passed it. The little Welshman is no more a Protectionist than his predecessor and Mr. Bonar Law "pinched" a few Northern seats

because he promised the electorates most interested in the country's fiscal policy that tariff reform would be waived for the time being.

Mr. Bonar Law very probably had good reasons for refusing to see the delegation of unemployed which arrived in London last week. But we venture to assert that if he had taken a leaf out of his predecessor's book he would have had more tranquility this week than he is likely to have as a result of his own decision.

Chancellor Cuno wants the outside world to recognize Germany's goodwill and honesty. His idea may be right; but it is difficult for the householder, awakened in the middle of the night, to flatter himself that the burglar is merely making sure that his gas meter is not cheating the consumer.

Has anybody noticed that the Pound Sterling touched \$4.52 on Wall Street yesterday? This is the highest point reached in three years. We wager that it will not take twelve months to find the missing thirty-four cents.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and clearly written. The longer an article the more chance there is for miscommunication. Names must be given and must be in full. The publication of the names of contributors is a matter entirely at the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

TAX EXEMPTION.

To the Editor:—Messrs. Redon & Hartigan some years ago, built and occupied the Hotel on their taxable land, without any exemptions, a building that, placed in the same position as the Empress Hotel, would give it an exemption.

I have no recollection of any plebiscite of compensation or even a suggestion, due to their misfortune. The C. P. R. on the other hand was treated at a rate worth half a million of dollars and exemption from all civic taxes for a long period of years in consideration of expenditure of \$200,000, for an hotel, which amount, their legal representative asserts, was very materially exceeded.

The President of the C. P. R. stated the other day that they were conducting their road on business principles and had no occasion to subsidize anybody. Then why this asking aid from the City of Victoria for their lack of business acumen? It is a case of "heads I win tails you lose?"

The bare request passes the limitations of efficiency, and even its receiving any consideration from our Council, let alone a plebiscite, would suggest hypnotic influence.

Conceive, if you can, such firms as Messrs. Spencer's, Hudson's Bay Co., B. C. E. R. Co., Machinery Depot, Dominion Hotel, or even our undertakers making such a request. Instead of a plebiscite an alienist would be dispatched to the scene of its formation.

THE PATIENT.

To the Editor:—I beg a little space to air my views pertaining to our physicians at the City Hall, namely, the Mayor and Council. In my humble opinion they have not diagnosed the patient under their care correctly. Goodness only knows they have had him on the operating table long enough. At the present time they are dividing the tax paid on the land for revenue, others on improvements. I for one would like to know how they can apply the Henry George theory to the patient. You might as well get a broom and try to sweep back the oncoming tide from Vancouver Island. It would be just about as ridiculous. By virtue of the fact that the vast majority of the unimproved land has reverted to the city, while held by the city it is not revenue producing, the question arises on whom will the burden fall. One answer and one only: the persons who have struggled to get a home together. This is nothing more or less than political trickery. Might I ask in passing, why are the disciples of the Henry George theory in favor of granting concessions to the C. P. R. which amount into thousands of dollars? On the other hand the citizens that are making an honest endeavor to meet their obligations, in fact some are going without the common necessities of life in order to make ends meet. If they cannot pay their water bill it is turned off.

What has been done cannot be undone. We have to deal with the present and the future, it is up to everybody at the next municipal election, irrespective of political belief, whether it be Labor, Conservative, Liberal or Progressive, to show a united front against the forces in our midst that are a stumbling block in the march of progress.

WALTER INWARD.

1446 Lang Street, City, November 27, 1922.

THE GORGE AND VICINITY.

To the Editor:—Last Summer, in a letter which you published, I ventured a protest at the indifference displayed in preserving and enhancing the beauties of Victoria's greatest scenic asset. While I prophesied that Nature would again resent the extremely ugly scaffolding erected by one of the athletic associations for giving purposes, I little dreamed that her objection would be registered so soon and so harshly.

It is encouraging to note that since my reference to the matter, the city has provided a good sidewalk on the point of vanishing, he said. Canada had discovered suddenly that the supply of men was deficient and so

newspaper references to the latest proposal of establishing a motor camp in the civic park, and an assurance that anyone would propose to destroy the best beauty of the city. To utilize this tiny, but particularly beautiful park for any such purpose seems to a lover of natural beauty a proceeding of little short of criminal. It would not be so bad were it not necessary to destroy the trees, because time would show the absurdity of using the park for such a purpose, but once the trees are gone they could not be replaced. Once they are sufficiently thinned to suit the "practical" minds gathering this proposal, Nature will promptly destroy most of those remaining.

At present the thickly wooded portion of the park—a favorite resort of many on a hot Summer day—serves many purposes. It forms a fine contrast to the cleared and cultivated part. It is part of a harmonious and beautiful setting for the Gorge itself, is an invaluable wind-break for the civic building just below the bridge, and must shelter from the Winter gales quite a large portion of the residential area on both sides of the water.

Let us by all means make reasonable provision for our visitors, but surely that could be done without destroying our own property.

For many years the waterfront ought to be publicly owned, and if the same energies were directed towards that end undoubtedly public opinion would approve.

Whatever provision is made for tourists, I trust it will be found unnecessary to destroy such a gem of natural woodland for their accommodation.

CITIZEN.

GERMS

To the Editor:—Saturday's letter from "Pertinax" is more impressive in its area than in its arguments. The question of asepis vs. anti-asepis has nothing to do with the truth or falsity of the theory. To bring it in is merely to confuse the issue. It is obvious that if germs cause disease it is better to keep them out than to let them in and then try to kill them. Prevention is better than cure. Similarly with sanitation, for sanitation is really nothing but asepsis on a huge scale—asepsis of an army as distinguished from asepsis of a wound. Lister's early methods had technical defects. These were remedied, but not by abandoning the germ theory.

"Pertinax" quotes about thirty authorities. It is worth noticing that five of these, Sir Henry Morris, Sir Almoth Wright, Sir Malcolm Morris, Lord Roberts and Labourand, are merely in favor of either asepsis or sanitation, and therefore quite in accord with the germ theory. It is also worth noticing that the more eminent of the others, such as Mme. Curie, Wallace, Vrehow, Oiler and Huxley, are in favor of the germ theory. The definitions and verbiage in general terms, while direct quotations from most of the others (obviously very small-bore "authorities") do not detract from the germ theory. The definitions and verbiage in general terms, while direct quotations from most of the others (obviously very small-bore "authorities") do not detract from the germ theory.

they went out "head hunting" to get people to come in to help them live, in reality without working. "I suggest to you that you should give a little less time to what you think is coming and a little more to things as they are," said the speaker. Discussing immigration, he said that in the last ten years Canada had lost all the immigrants that had come in, and "more than that, 200,000 of our own have gone." They could not save themselves by this process of immigration any more than could the Romans by their system of slavery. "I suggest you put a little less stress on this policy of immigration before you are quite sure you can keep the immigrants you pay for," he declared.

CREAM EXPRESS RATES

Ottawa, Nov. 28 (Canadian Press)—The application of the National Dairy Council to the Board of Railway Commissioners, asking for cancelling the twenty per cent. increase in express rates on cream allowed by General Order 327, dated February 2, 1921, and re-establishing the special commodity rates on cream in existence prior to that order, is dismissed by the board in a judgment issued to-day.

Floor Wax

C. & B. Wax is made in Canada of a combination of the best and hardest polishing waxes known to chemists, it dries quickly and gives a hard durable polish that does not easily mark. It requires less effort in polishing than any other wax on the market. It has no disagreeable odor and its sanitary, anti-septic and purifying qualities cannot be excelled for floors, interior woodwork, furniture and linoleum.

BUSINESSMEN FAIL TO AGREE ON NEW LICENSE CHARGES

So City Plans to Concentrate on Rental Values Tax Here

Delegations Fail to Appear and City Bill is Held Up

Out of the mass of taxation proposals that have been advanced for the solution of Victoria's revenue problem it became pretty clear at the end of a long session of the Private Bills Committee of the Legislature to-day that the city would endeavor to levy a rental values tax next year and scrap its plan to increase business license fees drastically.

No decision on the city's tax schemes will be reached by the Private Bills Committee until to-morrow when it will hear the representations of local bankers, who are proposing that people appear to discuss the rental value tax shall not also pay license fees. As the Chamber of Commerce, upon whose representations the Committee has been waiting, has failed to reach a decision on license fee rates, Council members sat at noon to-day that they planned now to concentrate on the rental values tax.

Little Progress.

To-day's meeting of the Private Bills Committee was most unsatisfactory for everyone concerned for both the Chamber of Commerce and local bankers failed to make the representations which the Committee was expecting. The Chamber of Commerce, the Committee learned by telephone, had failed to reach any conclusion on license taxation matters and for that reason was unable to lay any proposal before the Committee. A delegation of bankers actually did appear to discuss the rental value tax but, in the unexpected absence of their solicitor, H. B. Robertson, they refused to urge their case. They will be heard to-morrow.

Want Equitable Burden.

Long informal conferences were held between the bankers and members of the Committee to-day, however. The bankers said that they were anxious to bear their share of the city's financial burdens, but they wanted to have these burdens fairly distributed. Finally they proposed that no one should be asked to pay both the rental values tax and license fees as well. They also urged that the rate of the rental values tax should be the same for all businesses in the

ably will not be handed on by the companies to the consumer because of the active competition of the companies operating in this Province.

Remove Succession Dues.

The Committee to-day finally approved a clause which removes all old succession dues from land which has reverted to the city so that the city may be free to sell it. In spite of the previous protest of Saanich representatives, the Private Bills Committee to-day approved a clause in the city's bill which gives the city power to collect a rental from Saanich residents for the use of city sewers. This power is not desired for revenue purposes but to give the city complete control of its own sewers.

TWO-YEAR SENTENCE

Montreal, Nov. 28.—Drug Traffickers were loudly condemned in court here yesterday when Mr. Justice Lafontaine passed sentence of two years imprisonment on E. L. Lafortune, found guilty of manslaughter last week in connection with the death of Paul Holland, nineteen years old, in the course of a "drug party" in a house on St. Denis Street.

BISHOP DIED IN U. S.

Meadville, Pa., Nov. 25.—Bishop James M. Thoburn, of the Methodist Episcopal Church, died at his home here to-day after a lingering illness.

—Carpet, Second Floor

The Theatre

DOMINION

Agnes Ayres has a dog whose particular sport seems to be to chew up all the mules he can find.

The "mules" in question, however, are not the animal variety, but the kind worn on milder dainty feet.

"The" warlike name of the Paramount star's young pet has already chewed up four pairs of satin laced slippers, and Miss Ayres has to keep the remaining pairs of a high shelf, out of his reach.

The dog, which is of thoroughbred German police breed, is a playful puppy, and when allowed in the house romps around in high glee, knocking over a table or a chair here and there and wrecking things generally. Miss Ayres has hopes for him, however, when he grows older, and meanwhile is training him away from his ill manners by stepping on his toes and otherwise showing her disapproval of his boisterous conduct.

Miss Ayres plays one of the important roles in William de Mille's production of "Clarence," a Paramount version of Booth Tarkington's famous stage success, which comes to the Dominion theatre all this week. Wallace Reid and May McAvoy also are featured.

CAPITOL

D. W. Griffith's newest photoplay sensation, "Orphans of the Storm," adapted from the stage classic made famous by Kate Claxton, "The Two Orphans," will be seen for the first time under a United Artists Corporation release now showing in this city at the Capitol Theatre.

The production represents months of preparation and a most careful study of the period depicted, the time of the French Revolution. The basis of the story is the famous old play, but Mr. Griffith has woven into it an historical romance with the thrills of some of the maddest days of the revolution. The guttural scene at its death of the guillotine is seen at its deadly work, and there are tremendous crowds of frantic men and women fighting wildly against the aristocrat in the hope of freedom.

The role of Henriette is Lillian Gish, whose work in former Griffith productions has placed her at the fore-front of screen artists. Dorothy Gish has the role of the same name. Louise, the other orphan, then there is Joseph Schildkraut, said to be the handsomest actor in all Europe, who plays the role of the Count de Vauray. Monte Blue, tremendous crowds of frantic men and women fighting wildly against the aristocrat in the hope of freedom.

SALMON PACK IS \$11,500,000

1,290,326 Cases Put Up by Canneries

Vancouver, Nov. 28.—Valued at \$11,500,000, the 1922 British Columbia salmon pack aggregates 1,290,326 cases. It has been exceeded on only four occasions since statistics have been compiled during the past 26 years, and the most recent was in 1919, when the total was 1,339,156 cases. The sockeye contributed 293,614 cases, larger than the previous year, and of this 48,744 cases were packed by Fraser River canneries. This is the largest sockeye pack on the Fraser during five years, and is nearly three times that of 1918. It is explained that the famous salmon stream has now reached a stage where it is becoming unprofitable for American packers with expensive traps and costly plants on Puget Sound to operate, although British Columbia canners can carry on and make a profit. The large Washington plants it is stated, are profitable where there are big runs; but, as has been happening

in recent years, when the salmon return in small numbers, only the small canners are able to make money. The result is that a larger proportion than formerly of the sockeye are caught by the Fraser River fishermen. The large figures, however, came from the less expensive varieties of salmon. The chums contributed 258,294 cases, the pinks 581,978, of which 301,655 came from the Skeena River; and the cohoes 102,845. This year more than three times the 1921 quantity of chums and pinks were packed. **Skeena River.** As far as the Skeena River is concerned, 1922 is a record, and its total of 423,365 cases, comprising all varieties, has never been exceeded during the past twenty-six years. The Fraser River's total of 137,452 cases is a long way from the records of 1905 and 1907, when 871,158 and 860,459 cases of salmon, mostly sockeye, were packed. Other than about 20,000 cases of chums and a quantity of pinks, the bulk of this year's pack of cheaper grades has been sold. Approximately sixty per cent. of the sockeye pack has been sold, and the percentage would have been higher had it not been for the keen competition encountered by the British Columbia canners in the British market from Japanese packers, selling Siberian salmon.

France has absorbed much of the chums and pinks, and British Columbia salmon has been sold to purchasers in Australia, Africa and Mediterranean countries. In fact, the market has been world-wide. The demand from China and Japan did not affect the market to any extent, as the inhabitants of those countries prefer a more oily fish. Approximate valuation for the various species is as follows: Sockeye, \$5,100,000; springs, \$297,000; bluebacks, \$98,000; steelheads, \$12,000; cohoes, \$480,000; pinks, \$3,500,000; chums, \$1,400,000.

CANADA'S SONS OPEN CLUB HERE

Social Evening Spent in New Home; Movement Growing

Over two hundred Native Sons of Canada sat down to the long banquet tables which filled the new club rooms of the organization at 1010 Langley Street, last night, when the house-warming celebration took the form of a varied entertainment in which all members participated. Following the supper, pipes were lighted and a number of glowing speeches were given, interspersed with community songs and individual offerings. It was nearly midnight before the party disbanded, and all agreed that the new home of the lodge was something that all should be proud of and something which should prove of very great value in the development and welfare of the organization. President J. O. Dunford, of the local lodge, and William Ivel, head of the Dominion organization, praised the work of the committee responsible for establishing the new home and staging last night's opening festivities. There was only one thing to mar the pleasure of the event and that was the sad death of Brother E. L. Cousins, whose funeral was held to-day, and this fatality is the first befalling any member of the lodge since it was formed. **Proud of Canada.** Right Rev. Bishop Macdonald said it is our duty as sons of Canada to inculcate and foster in our hearts and to stir up patriotism in others. Surely we have in this great Canada of ours something of which we have reason to be proud. He emphasized the value of love of country and the ties that bind the people of a nation together. J. W. Connell spoke of the limitless resources of Canada and compared it in area and resources to other neighboring countries with a large balance in favor of Canada. "With all these advantages, why has Canada only 3,000,000 people, and the United States 110,000,000. It is up to Canadians to develop the country's resources," he declared. Brother Valais, visiting Victoria from the Province of Quebec, called attention to the late Sir Wilfrid Laurier's famous declaration that the Nineteenth century belonged to the United States and the Twentieth to Canada. "One-quarter of the century has gone, and what have we done?" he asked. "We have not kept our natural increase in population even, and young Canadians are leaving the country," said the speaker. "With all these advantages, why has a flag of her own and should be a 'fraternal sister nation' without resort to the Privy Council in matters of litigation."

Not Playing the Game. "We are now in a crisis and the people have an opportunity of getting together and lending their support. To oppose the committee was to carry out the affairs of the city, certainly not playing the game. It is all very well to talk in generalities about the need for reducing expenditure, but the Council has yet to hear of any sane, practical measure to effect worth-while economy. The situation this year is that the City Council is compelled to increase taxes on land and buildings to meet the 100 per cent. There are some property owners whose increased taxes this year will amount to more than the whole of their personal property being paid by merchants of this city. **Land Revision.** "Our great problem is to prevent the further revision of lands to the city, and unless it is solved we will all be carried down in disaster. If the city is refused the income-making legislation it is now urging, and if it is also refused the co-operation of its citizens, the city must provide for \$500,000. This will result in a result in another enormous increase in taxation on land and improvements. The situation will become simply impossible, and no doubt next year the Council will realize the impossibility and apply for a receiver. "You will then have an official in charge who won't tackle the question in the care and delicate way that the Council has been doing. Jim will probably apply a rental value tax of twenty-five per cent or more instead of the ten per cent tax proposed."

Rental Values Tax. Alderman Todd said that the city was pressing for a business occupant tax on the basis of rental value but probably would be satisfied with higher license fees or any plan that would provide the revenue needed. E. L. Gamlen opposed the proposed rental value tax because of the present personal-property tax, and C. P. W. Schwenger declared that if his business, as proprietor of the company, was forced to pay rental value tax it would move. H. S. Stevenson also uttered a warning against higher taxation and said that business was paying all the taxes it could now. "Personally, I'm in favor of taxing everything that is taxable until we've got out of the hole," said J. O. Cameron. "We've got to beat down hard on the need for economy and ask people who fix the taxes to apply the soft pedal. I get caught no matter what I do, and I am doing my utmost to kill such fool legislative schemes as the eight-hour day and increased workmen's compensation which takes up money and gives nothing back in return."

Two Aldermen Speak. Ex-Alderman Reginald Hayward, who resigned last night to enter the mayoralty contest, was given a great reception by his brother Canucks. He told some amusing reminiscences of the early day history of the city, on which the present headquarters stand. Alderman Perry also addressed the meeting in his usual happy vein, and he paid a high tribute to the services to the city of Alderman Hayward. It was reported that the Sons of Canada organization is spreading rapidly throughout Canada, and Victoria has the credit for establishing the first lodge. The new club over Sweeney-McConnell's plant is centrally and the rooms have been fitted out attractively. More furniture will be added, and the "Canucks" will have one of the neatest clubrooms in the city.

SCHEDULE DRAFTED BY LICENSE BODY

Chamber of Commerce Falls to Agree on New Trade Charges

Turning down the report of a special license commission which has been working for some weeks to frame increased business license fees here, Directors of the Chamber of Commerce decided yesterday afternoon to re-open the whole license question. The \$129,000 increase in revenue which would result from the inauguration of the license commission's proposed schedule would be absolutely insufficient, Alderman A. E. Todd, chief opponent of the commission's report, told the Chamber of Commerce Directors. An additional amount of \$150,000 must be raised through larger license fees, he asserted. Alderman Todd told of the city's fight before the Private Bills Committee of the legislature for larger revenue sources. "Each time we appeared before the Committee we found citizens of Victoria there to oppose and not to help us," he complained. "If the government doesn't see fit to pass legislation such as the city is asking the city should be a calamity. Section after section of the legislature is sidestepping its duty to the city. **Not Playing the Game.** "We are now in a crisis and the people have an opportunity of getting together and lending their support. To oppose the committee was to carry out the affairs of the city, certainly not playing the game. It is all very well to talk in generalities about the need for reducing expenditure, but the Council has yet to hear of any sane, practical measure to effect worth-while economy. The situation this year is that the City Council is compelled to increase taxes on land and buildings to meet the 100 per cent. EVERY FACILITY ABOARD LACONIA

Is On World Tour; San Francisco Will Be Fourth Port of Call

No cruising yacht, however palatial, could ever excel the cruising facilities than those of the Cunard liner Laconia, which sailed Nov. 21 for a cruise around the world under the auspices of the American Express Company in conjunction with the Cunard Line. Every stateroom will be occupied when the passenger leaves San Francisco, which will be the fourth port of call. Havana will be the first. After a stop at Colon, the big 20,000-ton steamer will pass through the Panama Canal and the stay on the Pacific side will allow for a sight-seeing tour through the new and old cities of Panama. Equipped in an unprecedented manner, a gymnasium as large as that on the Berengaria has been installed on the boat deck, and contains all the latest up-to-date machines, such as those for rowing, horseback riding, playing golf, bicycle riding, boxing and other pastimes. There are two swimming pools, and they will be very popular. The steamer sails mostly through summer seas. These will be used for the Father Neptune ceremonies while crossing the equator, and in order to obtain a passport from him certain regulations must be gone through. They are usually most enjoyable for those who look on. The Laconia will be the first ship on which passengers will be enabled to indulge in the ancient pastime of archery, which the vogue of Douglas Fairbanks' "Robin Hood" is bringing about again. There will also be a "field" where water sports may enjoy clay pigeon shooting. A special American dentist, and three nurses—in addition to the Cunard Line's quota—will accompany the steamer. Four hundred and fifty tourists will make the voyage around the world. The trip will occupy about 150 days. The ship will be met at Hilo, Honolulu, Yokohama, Kobe, Peking, Arthur, Tsing Tao, Shanghai, Keelung, Hongkong, Manila, Batavia, Singapore, Rangoon, Calcutta, Port Said, Alexandria, Naples, Monaco and Gibraltar, from which port the Laconia will return to New York.

Manila Maru Here on Friday Is Expected to Reach William Head Friday; Has Orange Shipment

The Osaka Shosen Kaisha liner, Manila Maru, Captain Y. Somekawa, is due to arrive at William Head on Friday from the Orient. She has twelve steerage and seven cabin passengers for this port, while twenty steerage and ten first class passengers will proceed to Seattle, when she clears from here after discharging her cargo. Some seven thousand packages of Japanese oranges will help to complete the Christmas stock of this fruit on this side of the Pacific. Part of this cargo will be shipped while in port in Seattle, and the remainder in Vancouver for overland delivery. In addition to the orange shipment some twenty tons of general cargo is expected for this port. Her mail comprises of eighteen bags of mail for Victoria, while Eddie Hubbard will meet the boat on her arrival here, and take six bags of mail to Seattle.

RESTORER REPORTS. A cable was received in the city from Capt. Combe of the cable ship Restorer this morning, stating that she had left Honolulu last night for Midway to repair the break in the cable. **GUNNERY PRACTICE.** The Royal Canadian Garrison Artillery will engage in gun practice tomorrow and on the two following days. It was announced Monday in War Post orders issued by Major R. A. Wright. The batteries will go into action according to the following schedule: Wednesday, 7 p. m. to 12 midnight.—Front, Black Rock and Belmont batteries. Blank ammunition only. Thursday (by day), commencing 10 a. m. Service ammunition, 9th Signal Hill, and 6th H. P. Rodd Hill. Friday (by night), from 7 p. m. to 12 midnight.—Service ammunition, 12 p. q. F. batteries, Belmont and Black Rock. Range—Wednesday, 7,000 yards; Thursday, 12,000 yards. Arc of fire, from Macaulay Point to William Head. To-morrow night manoeuvres will be carried out by boats without lights, in the above-mentioned area. **PROHIBITION.** **SENTIMENT GAINS IN GERMANY NOW.** Special to The Times. Berlin, Nov. 28.—Prohibition sentiment is making rapid progress in Germany in various cities. Great demonstrations took place lately and villages have by many hundreds are closing weekly for lack of customers. This temperance movement is effectively aided by bad beer, the ingredients of which no longer have any resemblance to hops and malt on account of the bad harvests and high prices. At a trial vote in Osnabruck yesterday 5,700 men and 6,700 women voted for prohibition and fewer than 1,000 against.

ESQUIMALT DRYDOCK

Engineers and contractors at work on the construction of the Esquimalt Drydock express the hope that the tightening of the joints in the coffer dam in order to prevent leakage of water into the workings may be accomplished within a short time in order that the men engaged on construction may be put back to work. It is, engineers state, a difficult matter to say just exactly how long it will take to make the dam water-tight, but every effort is being made to accomplish this in order that the workmen may again get to work. It may be two weeks, and it may be four before the leakage can be stopped, they said to-day.

SAMARIA CELEBRATES ON IRISH NIGHT

New Cunard Liner Opened to Visitors; Musical Programme Rendered

An Irish night, with all that goes to give it real enthusiasm, including good food, music and singing, was celebrated last Thursday night by Irish steamship agents on the new Cunard liner "Samaria," the steamer that carried the first big excursion over to Ireland last Summer, and which was ably conducted by Mr. and Mrs. James Burns, the Cunard's veteran Boston representative. Between courses during the meal the ship's orchestra played Irish music and the diners joined in the choruses. One of the features of the programme was a new Irish song, "I Am Going Back to Ireland Once Again," verses by John J. McIntyre, the Cunard staff, and music by Sheila O'Donovan-Rossa, daughter of the famous Irish patriot and the wife of Mr. Marjory. Even the crew of the ship took up the catchy strains of the song and joined the diners in giving vim to its rendition. When cigars were passed Toastmaster Frank Hannigan introduced Wm. B. Nelson, assistant general passenger manager of the Cunard Line, who greeted the Irish agents for his company and told them they would always be welcome aboard Cunard Line steamships and that the passengers who sent to the line would be given the best treatment that lay in the ability of the company to provide. Among the agents who made brief pointed speeches were Messrs. James Boylan, Joseph Flood, Patrick McKenna, M. Kelly, J. T. Buckley, Robert H. Edmond, Charles Martin, J. Taylor, James Burns, Thomas Kennedy, W. Braman, and I. Engel. The beautiful new steamer was "set up" for visitors and the agents were delighted with the layout of the ship and the wonderful accommodations she contains. James Burns says she is the finest ship that ever sailed into Boston, and James Boylan says no finer ever sailed into New York.

MADISON EN ROUTE. The Admiral Oriental Liner President Madison left Yokohama to-day and is expected to arrive here December 5, according to advices received from her commanding officer, Captain Thomas P. Quinn. The Madison has 154 first cabin and 294 steerage passengers, 2,600 bags of mail, silk valued at \$4,500,000, and large shipments of tea, hemp and rice for Seattle. **C. G. M. M. REPORTS.** The C. G. M. M. steamer Canadian Prospector, Capt. Wallace, reached Yokohama from the Coast November 22. The Canadian Highlander, Capt. Fisher, sailed from Honolulu November 22 for Newcastle, N. S. W. The Canadian Inventor shifted to Chemsuin from the Mainland November 22, and will sail December 10.

STUART DOLLAR PASSES THROUGH Convoys by the Government cutter Haida, and in tow of the tug Sea Monarch, the Stuart Dollar passed through the Straits of Juan de Fuca and proceeded direct to Seattle last night. The Stuart Dollar lost her rudder, while en route to the Orient twenty days ago. She will be repaired by a Seattle concern. **Travel comfort is promoted by luxurious limited trains, so that going to the East or to the West is as easy as a trip downtown. But the best way to go may be undetermined in your mind, and the long journey necessary should lead you to select a comfortable route, also safe and quick, with something worth seeing on the way. Go "Canadian National" the way. Reservations and all details arranged at the Tourist and Travel Bureau, 911 Government Street.**

LONGSHOREMEN TRANSFER CARGO

Working Day and Night on Grant and Jefferson; Will Leave Here To-morrow

The transfer of the 8,000 tons of cargo on the steamship President Grant to the steamship President Jefferson was delayed by rain so that the latter vessel will not sail from Seattle until Wednesday. She will leave Victoria for the Orient and the Philippines to-morrow at 6 p. m., according to advices received from the Admiral Line offices to-day. Owing to the delay in delivery of some condenser tubes needed aboard the Grant, her sailing, which was scheduled for last Saturday, has been postponed until December 9. The Jefferson was to receive some repairs, but will make this trip for the Grant, while the Grant will take over the Jefferson run, which was scheduled December 9. Working day and night four hundred longshoremen are shifting the cargo from the Grant to the Jefferson.

LEAVES ON ASIA

When the Empress of Asia sails for the Orient at noon Thursday Mrs. George Vanderbilt and her daughter will be on board en route for the Orient, instead of celebrating their Thanksgiving holiday in their home country.

CHRISTMAS MAIL SERVICE TO CLOSE

Date Set For Final Mailing; Rates Given and Other Regulations

Parcel Post mails for the United Kingdom will close at noon at the General Post Office on December 2, and at the same time on December 5. The public are advised to get their parcels off this week if at all possible, and to mail them before the end of the week so as to avoid congestion. Owing to strict regulations concerning imports into the United Kingdom, the contents of all parcels must be carefully declared on the Customs Declarations—general descriptions, such as Christmas presents, dry goods and so on, not being sufficient. Parcel Post rates to the United Kingdom are 20c for the first pound, and 15c for each succeeding pound, up to a maximum of 11 pounds. Letter rates are 4c for the first ounce, and 2c for each succeeding ounce. Postcards are 2c, and wholly printed matter, other than newspapers, is subject to a rate of 2 cents for each ounce, 2c being the minimum charge.

R. mail call; 5.28; 23; smooth, 8 a. m., in, Prince John, south.

AUDIENCE SEES FINE PICTURES

Mrs. Cuppage Talks on Scenery of Province

That the famous triangle route from Victoria by the inside passage to Prince Rupert, eastwards by rail to Jasper Park, and back to the coast by the "route of canyons," is justly conceded to be the most wonderful ocean and rail journey on the continent was amply demonstrated in an illustrated travel talk by Mrs. E. M. Cuppage in the Victoria Club last night. The views shown on the screen included some magnificent colored slides of Canada's Alpine Kingdom in the provincial park at Mount Robson and the Dominion park at Jasper, Alta. As the park at Jasper has only recently been provided with modern accommodations and visitors to the mountain wonderland is still comparatively little known, and the audience looked and listened with rapt interest as the lecturer took them into the heart of the Rockies to the base of Mount Robson, to the shores of the mighty Athabasca, to the glaciers of Mount Edith Cavell, the beauties of the "Tonquin Valley," the mountain lakes and streams, into the Valley of a Thousand Falls, along trails blazed by the Indians and fur traders of early days, through the amazing scenic wonders of the Yellowstone Park and down the shores of the Thompson and Fraser rivers on the return journey to the coast. The lecture was rendered especially interesting by the introduction of many pictures taken by the lecturer herself, of incidents and personalities met with on a trip to Jasper Park last Summer. Some slides depicting industries and agriculture pleasantly varied the purely scenic views, while those of bear cubs at Lakelse, packing horses and outfitting for the trail were very popular.

Mrs. Genevieve Lipsett-Skinner, of Winnipeg, was called upon at the conclusion of the lantern talk, and reminisced in happy vein on some delightful trips to the Rockies, the mountain route of the C. N. R. when she conducted a party of women to the World's Fair at San Francisco, and more recently when she visited Jasper Park with a party of women, paper folk and authors. Miss Bonshor contributed two pleasing pianoforte solos. The hall was filled to capacity.

SANTA CLAUS AT GORDON'S LIMITED

"Home of Christmas Cheer" Is Firm's Shopping Slogan

"The Home of Christmas Cheer" is the slogan adopted by Gordon's Limited in connection with this season's shopping, and suitable actions to the words, the firm has gaily decorated the Yates Street store with festoons of leaves and flowers, and the new phonograph department purveys a programme of lively music for the benefit of patrons while engaged in their shopping. Gordon's Santaland, and this year is located in the basement and the place has been charmingly decorated with colored effects, including Christmas electric light globes and fireproof decorations and splendor.

This afternoon at 4 o'clock Santa Claus paid his first visit to Gordon's, and after viewing the display and extending his kindly greetings to the youngsters, proceeded to make other calls. The firm announces that at various hours between now and Christmas to be announced in the newspapers, Santa Claus will again visit Gordon's toyland as he to call village lanes by many hundreds are closing weekly for lack of customers. This temperance movement is effectively aided by bad beer, the ingredients of which no longer have any resemblance to hops and malt on account of the bad harvests and high prices. At a trial vote in Osnabruck yesterday 5,700 men and 6,700 women voted for prohibition and fewer than 1,000 against.

Beware Infectious Coughs

Do you realise the risk you run riding in a crowded train or street-car without a Peps tablet in your mouth? Every sneeze, every cough, fills the air you breathe with countless disease germs that immediately make for any weak spot in your throat and chest. Be wise, always carry Peps, and occasionally let one of these germ-killing tablets dissolve in your mouth to ward off the infection. Then you will not be "full of cold" on the morrow, with the possibility of influenza, pleurisy or pneumonia supervening. Just as you breathe in the germs that cause infectious throat and lung ailments, etc., so you must breathe in the soothing germicidal Peps medicine to rout out the germs before they can cause serious trouble. Free from harmful drugs, Peps are the safest and best remedy for sudden colds and chilly, grippy, sore-throat, laryngitis, night-cough, hoarseness, wheeziness, bronchitis and chest weakness in old and young.

NEWS IN BRIEF

Accused of selling liquor at Cowichan Lake, Charles Gordon, a city taxi driver, appeared yesterday in the Provincial Police Court and pleaded not guilty, being remanded until Monday on bail of \$3,000.

The Victoria Presbytery at its meeting last evening concurred in the call made to the Provincial Police Court this morning, where he paid a fine of \$15 after Game Warden J. W. Jones had described the discovery of the bird after hearing gunfire on Gleanford Avenue.

A hen pheasant in the possession of George W. Rogers resulted in his appearance in the Provincial Police Court this morning, where he paid a fine of \$15 after Game Warden J. W. Jones had described the discovery of the bird after hearing gunfire on Gleanford Avenue.

Charles Gordon, a taxi driver, already under arrest for selling liquor at Cowichan Lake, appeared this morning in the city police court to face another charge of selling liquor in the city on Saturday last. The hearing was remanded until Friday.

A. F. Proctor, late Chief Engineer for the British Columbia Department of Railways, who was recently sentenced in the city police court to seven days for being under the influence of liquor while in charge of a motor car, has withdrawn the appeal entered in the County Court, and is serving his sentence in the city police jail.

Owing to the large number of inquiries which have been made regarding the securing of tickets for the Royal Victoria Theatre meeting which will be held by him on Thursday evening, December 7, Police Commissioner Joseph North advises all those interested to send in their money to the box office of the theatre for whatever price seats they want. The box office will open at the theatre on December 5.

Miss Pearl L. Heather, a young student of Mr. Oliver R. Stout, has just received the bronze medal of the London College of Music as the highest student in the advanced intermediate section at the July examinations in British Columbia. The honor is for pianoforte playing. This is the second time one of Mr. Stout's pupils has won a bronze medal, as last year a candidate was first in her section in the intermediate grade.

The new Amusement Centre, by-law, containing preliminary plans for the establishment of an amusement centre here, was put through its first reading by the City Council last night. An agreement whereby the city would acquire a free site for an amusement centre and exempt it from taxation for ten years will be laid before the electors for approval at the civic election next month.

Having beaten a Chinaman over the head with a chair, LeRoy Green, a lumberman, was this morning sentenced in the city police court to serve one month in jail, Magistrate Jay commenting "This was a most violent assault, without provocation or justification." The assault was committed at the Pekin Cafe on Government Street on Saturday evening, when Green and four companions got into trouble in the restaurant.

Dr. Ernest W. Hetherington, who has been practising with Dr. William Russell for the past two and a half years, has opened a modern suite of offices in the new Woodworth Building, Douglas Street. The dental equipment was supplied by the Temple-Pattison Supply Company, of Vancouver. The suite is very attractively designed, the rugs and draperies by the Hudson's Bay Company and the furniture by David Spencer, Limited.

The Great War Veterans' Association at its meeting at the headquarters, Hastings Street, will outline its programme of business which the delegate of the association, M. G. McLeod, will be instructed to bring before the Provincial convention to be held in Penticton December 1, 2 and 3. It is understood that Captain Ian Mackenzie, M. P. E., and Colonel Lister, M. P. E., who will also be delegates to the convention, will attend the meeting. The general meeting will be called to order at 8 o'clock and the G. W. V. A. executive will meet earlier, at 7 o'clock in the same place.

The Tuberculous Veterans' Association at an enthusiastic meeting held last night in the Great War Veterans' Association rooms, appointed committees to arrange for the holding of the first annual ball, which will be held under the auspices of the Tuberculous organization in Alexandra Ballroom on Thursday evening, December 14, the purpose being to raise funds for an educational campaign in regard to tuberculosis, and to assist in furnishing a rest room for tubercular patients. Further plans

COURT PROCEDURE RULES CRITICIZED BY APPEAL JUDGE

Mr. Justice Martin Comments in Court of Appeal

"Parliament has constituted this Court a Sovereign body, we might as well use the term," asserted Mr. Justice Martin this morning in the Court of Appeals, when an application of John R. Green, on behalf of H. F. Doane, for permission to appeal from a decision of the Court to the Supreme Court of Canada was being heard.

Permission to appeal was unanimously refused, Chief Justice Macdonald being the only member of the Bench not present.

A collision on Douglas Street between H. F. Doane, a cyclist, and a motor truck owned by F. Thomas, had resulted in a Supreme Court suit which awarded \$1,200 to Doane. This was appealed successfully by Thomas, the decision handed down on October 2 last being a 3-1 opinion of the Court.

The refusal to allow appeal to the Supreme Court was based upon a rule limiting such appeals to cases involving sums in excess of \$2,000, which Mr. Justice Martin commented upon. "I say it with great respect, but laying down this rule on appeals by the Supreme Court of Canada is legislative action by the Court," he said.

Dr. E. W. Hetherington

is now located in the new Woolworth Building, Douglas Street, Phone 948 Suite 102

Stratford, Ont.—"I do think that Dr. Pierce's Favorite Prescription is one of the best medicines I have ever known for the relief of women. I had for quite a long time been having inward trouble which caused me to become all run-down, weak and nervous. I doctored, but nothing seemed to give me relief until I began taking the Favorite Prescription. This medicine gave me such wonderful relief that I am glad to recommend it to others."—Mrs. A. Godwin, 50 Brant St.

What Doctor Pierce's Favorite Prescription has done for others it should do for you. Get it this very day from your neighborhood drugist in either liquid or tablet form, and write Dr. Pierce, President Invalids' Hotel in Buffalo, N.Y., for free, confidential medical advice. Send 10 cents to Dr. Pierce's Laboratory, Bridgeburg, Ont. If you wish a trial pig. of the tablets.

The Overseas Club has decided to change the time of its meeting from afternoon to evening and the next will be held in the Vogue tea-rooms, corner Douglas and Yates on Monday, December 4, at 8 o'clock

POPULAR INNOVATION

A capacity house applauded the first "Music Night" at the Royal Victoria yesterday, Manager Denham announcing that such features would be held once a week in future.

HUDSON'S BAY TOYLAND GLOWS WITH YULETIDE

Is Joyland For Kiddies; Christmas Atmosphere Prevails

Toyland is joyland at Hudson's Bay Company's Yuletide display of gifts and goods under the words of Dickens, "Christmas—the season of hospitality, merriment and open-heartedness." is exemplified and characterized throughout the huge store.

The Christmas aspect of things is immediately apparent the moment one enters the doors of the Hudson's Bay Company store, but it is in the Christmas toy department that the real spirit of the season is prevalent even in the atmosphere.

A wonderful array of toys, mechanical and otherwise, greets the eye, and a pleasing feature of the display is the roomy manner in which everything is set out so that one may choose with ease and comfort what they like. There is no suggestion of a jumble, and shopping is made easy under these conditions. The company does not unload its entire stock to the shelves, but samples of each variety of toys are displayed, and the purchaser may pick out in order what they want, place a small deposit on the goods if they desire and they will be delivered in right time to be placed on the Christmas tree.

Beautiful Dolls

Talking and walking dolls and a wonderful doll house, such as have never been seen here before, are among the things that appeal to the children, especially the girls. There are hosts of beautiful dolls, and this year the prices and quality are away ahead of anything offered in some years past. Now that the war has been over for some time and industries are getting back to their exclusive lines of business, there is a marked improvement in the manufacture of toys. There are oceans of games which will please girls and boys.

Gifts for Boys

The future manhood of Canada will find a great deal in the Hudson's Bay toyland to interest and appeal. Every boy has a mechanical turn of mind and this characteristic will be amply satisfied by Santa Claus this year. There are serviceable wagons, stanch bodies and fine color effects. There are all kinds of pile drivers which work like the real thing, and other engineering features for numerous mention. A boy could spend a whole day in Hudson's Bay Santaland and never get tired of looking at all the attractive things to be seen there.

The Meccano engineering set is the real boy's attraction. Here are to be found Eiffel towers, double-tracked over bridges and through tunnels, railway lake and river country and the powerful locomotive driven by electricity. Look particularly business-like as it spreads around the country.

To Suit All Purposes

The general display includes all sorts of musical toys, kitchen necessities for the future little housewife, toys for all classes and all conditions, to suit the purses of everyone just so that the Christmas spirit may be properly observed in every home in Victoria by a full stocking of good things from Santa Claus.

It is only appropriate that just alongside the kiddies' toyland there should be a fine lot of suitable gifts for the grown-ups, particularly those articles that are useful as well as ornamental, are to be found that will add to the adornment of the Christmas table.

"Our goods were bought in the lowest market. Values are very much more attractive than in previous years and our system of consolidated buying enables us to put the best goods before our patrons at the lowest prices," said one of the company's officials.

CLUBS OUTLAWED BY MANSON IN ANTI-BEER FIGHT

Charters of the Imperial Veterans in Canada, the Naval Veterans of the Empire, Sons of Canada and the Seventh Battalion Association, were all cancelled to-day by orders of Attorney-General Manson because of beer selling activities. These organizations were all incorporated under the Societies' Act.

Besides these ex-military organizations, Attorney-General Manson dealt with twenty-one clubs in Vancouver which have also been carrying on open beer selling. The licences and revoked their charters which were granted them under the Companies Act.

To-day's list brings the total number of club charters cancelled by the Attorney-General in connection with liquor act enforcement up to nearly 100.

Clubs dealt with and put out of existence to-day are: Abbott Bowling Club, All Nations, Balfour Club, Balmoral Purveyors, Campaigners' Club, Collingwood Club, Coronet Club, Couper Club, Empire Club, Fairview Workmen's Club, Fourth Division Club, Highland Club, Main Club, Martinique Club, Metropole Club, National Club, Rob Roy Club, Second Canadian Division Club, Stanley Club, Union Jack Club, Vancouver Commercial Club.

SAYS LIQUOR MEN MUST HAVE GOT TIP ON BUDGET PLANS

A sharp passage-at-arms on the allegation made by R. H. Pooley, member for Esquimalt, that the Government was forced to pay a large amount of money on bonded liquor which should have been taken out of bond immediately prior to the 1921 federal budget which increased the tax on liquor from four to ten dollars, was the only feature of the Public Accounts Committee of the Legislature to-day.

A. M. Johnson, Chairman of the Liquor Control Board, denied that private liquor exporters had saved thousands of dollars a day or two prior to the budget being announced. Mr. Johnson in reply stated that these exporters must have been given a tip, something the Government did not get.

McKay Not Able To Defeat Mets Alone

Mickey Played Whirlwind Game and Scored Four Goals But Seattle Doubled That Number and Won Last Night's Game; Victory Shoves Them Farther Into Lead; Score of 8-4 Does Not Really Represent Play

Vancouver, Nov. 28.—Seattle puckshavers outscored Vancouver in all three periods of last night's Coast League encounter at the Denman Street Arena, repeating their performance of opening night when they grabbed off eight goals, and giving the local fans another of those dazzling exhibitions which win championships.

Last night's count was 8-4. After an exciting first period in which the teams saw-sawed for the lead with the Mets finally pulling out in front, the visitors stepped out and displayed marked superiority over the local squad, and although the Maroons showed plenty of fight right up to the finish, the leaders proved the better team on the six minutes' play and deserved the victory.

Vancouver was very much in the picture in the opening session due to the brilliant and at times spectacular play of Mickey Mackay, who was the best man on the ice. The wily Scot accounted for all of Vancouver's scores, registering two in the first period, another in the second and the fourth in the closing canto. He stood head and shoulders above all other players, but to defeat the Mets single-handed was an impossible feat, although he furnished the majority of the thrills and came within inches of scoring a few more markers. Mackay's performance was the best he has turned in for several years and was the only redeeming feature of the Vancouver squad's efforts.

Mets Well in Front The Mets, by virtue of their victory, are now securely entrenched in first place with four victories and one defeat. The Maroons beat them last week on Seattle ice but, with the exception of the first period and about ten minutes of the second session, they were not in Seattle's class last night. Jim Riley picked off an assist and broke a tie for the scoring leadership with Frederickson and is now heading the list with nine points. Thus, Seattle is very much in the spotlight in the 1922-23 championship campaign.

The teams hit a fast clip at all stages of the game. There was the usual thrills hand checking and one, two and at times three-man rushes that had the fans on their feet; also some spectacular goal-keeping in which Holman, when Charlie Reid shared honors. Both goalies were in top form the Seattle veteran pulling off several spectacular saves with sharp reactions right on the net, while Reid electrified the fans with some clever work, although he let a few easy shots filter through. Seattle's Holman, however, his net and stopped rushes after the visiting forwards had beaten the Maroon defence. All in all, it was a hectic contest.

Play Was Close Play was much closer than the score would seem to indicate. The Mets played a combination of the few of their shots were wide of the mark. Vancouver also injected some combination into their play but they failed to break with the same speed as the Mets, and their shooting was not quite so accurate. They missed some good openings, by faulty shooting and at times Holman turned them back without batting an eyelash when a score seemed inevitable. This was particularly noticeable on several occasions when Mackay, through heavy work, duped the rival defence. The period was replete with exciting plays and not a few times did sensational plays have the crowd in an uproar.

It was a battle well worth glimpsing, even though Vancouver was forced to acknowledge defeat. Fans hand it to the Mets for a superior display and they also have a good reason for the fight which the Maroons waged.

MacKay Scores First MacKay took the first tally. He checked the puck the length of the ice, worked his old trick of pretending to pass and slipped through the defence. Heiden evened the score within a few seconds of his appearance on the ice. Mackay, playing brilliant hockey, came back with a rush. He shot from inside the blue lines. Holman stopped the shot and passed the rubber behind his net. Mackay went in and slipped the disc into the net with a hook from behind. Less than two minutes later Fraser gets a long, winding rush which was so slow everyone could see him coming, but heiden put his team one goal up in the last moments of the period on a pass from Foyston.

Foyston started the scoring in the second period. Mackay went down with Skinner, again holding when the Seattle defence expected him to pass, and scored. Then Fraser broke away and snapped a wicked shot at Reid.

MOORE-WHITTINGTON LUMBER CO. LTD.

Soldier Jones, Canadian Boxer, Ready to Take on Joe Beckett

London, Nov. 28.—(Canadian Press Cable)—Joe Beckett, the heavy-weight champion of the British Empire, recently stated that he is prepared to consider any challenge that is accompanied by a deposit of £500. This sum was deposited yesterday with Sporting Life, on behalf of "Soldier" Jones, the Canadian pugilist. It now rests with the British champion, if he accepts the Canadian challenge, to make an appointment for signing the necessary articles in connection with the proposed fight. Beckett, who was previously heavy-weight champion of England, won the Empire championship on April 10 by defeating George Cook, the Australian. Cook was disqualified in the sixth round of what was to have been a 20-round bout. Jones challenged Beckett on April 15 last for the Empire championship and £500 a side, but Beckett did not accept the challenge then.

Deidal Joins Cougars And Will Play Friday

Albert Deidal, known to the hockey fans as "Dellie," is going to make his debut as a professional hockey player on Friday night. He has been given his first chance to show his lines of goods against the St. Pat's, world's professional hockey champion, at the Arena on Friday.

"Dellie" is the best amateur hockey player that has appeared in Victoria. For the past two seasons he has performed with the champion Senators, and he has always been head and shoulders above the rest of the boys. "Dellie" got to figuring that perhaps he could make the grade in professional company and he asked Lester Patrick to give him a chance. The Cougar leader said "Come on out and I'll give you a chance." So the youngster answered the first call to practice.

He took to the road and practice sprinting and got his wind in shape and his muscles hard and firm. He attended all the work-outs at the Arena with the rest of the Cougars and right off the bat he showed form.

"Dellie" does not tower very far into the ozone but he is chunky and as stout as an oak. His stocky frame carries about 165 pounds. "Dellie" has an aggressive spirit and keeps on the move all the time. He doesn't worry about the size of 'em either.

After giving "Dellie" a real tryout Lester Patrick offered the youngster a contract and he signed it. He figures that Deidal will make good," said Lester "this morning, and the veteran leader ought to know, as he has been looking over hockey players for a score of years. "He is a hard worker and can shoot and stick-handle well and I believe he will be a good asset to our club. Deidal will be in the game on Friday night."

The signing of Deidal will give the Cougars ten men. Seattle and Vancouver each have ten men and Lester decided to bring his squad up to strength right away and not be caught napping in case of injuries to any of his players.

First Amateur to Graduate. Deidal is the first amateur in either Victoria, Vancouver or Seattle to graduate into professional company. In the workouts he looks much better than some of the material the other clubs have. He should prove a faster man than McCarthy, of the Seattle club, and those who have seen Cotch and Aseltine, of the Vancouver team, say that "Dellie" has it on them umpteen ways.

"Dellie" is tickled to death to have a chance to play in professional company. "It's a big jump from the amateur game, such as played out here, to pro company," says "Dellie," "but I'm going to try hard and make good." The fans will take an added interest in the game on Friday, as one of their own lads will be out there showing off his class.

HEAVY, never a strict trainer. Petrie at forty-five years of age is one of the marvellous old still packs a wicked shot and can skate with the best of 'em.

Muzz Murray, the strong-armed substitute of the Seattle hockey team two and three years ago, has quit hockey. He's back in Minnesota. "I'll never forget my night in Victoria," says Roy Rickey, "when he had the winning goal right in front of him with the net empty and about three or four feet from the goal was the unmoistened puck. Murray wound up with all his might and swung at the rubber. He missed and fell flat. Talk about your kick!"

Queen's Practice For Final Match. Presbyterians Meet Edmonton For Title Saturday; Snow at Kingston.

Kingston, Ont., Nov. 28.—Queen's University rugby team, victors over Argonauts, are holding their first practice to-day in preparation for the final game with the Edmonton Eskimos here next Saturday. They are confident that they will put the western champions on the shelf in quick order. Apart from McKeivley, McKeivley and Carson, the team is in splendid shape.

McKeivley and McLeod both received kicks in the back, while Carson got a black eye during the game with Argos, but the injuries are not serious. Carson will be out of practice to-day while McKeivley and McLeod probably will rest up until Wednesday.

Queen's are determined to cop the Dominion title and look for a great victory on Saturday. The seating capacity of the stadium probably will be increased but as yet no definite arrangements have been made. At present the ground is covered with a couple of inches of snow.

WALT AND JOE START TOUR OF CALIFORNIA. San Francisco, Nov. 28.—Walter C. Hagen, British open golf champion, and Joe Kirkwood, former open champion of Australia, arrived here last night. They will tour California golf courses for five weeks, giving exhibitions.

EMPERESS BILLIARDS. In the semi-final of the Empress Billiard Tournament held last evening Irish (6-200) beat Sale (6-100) after a good exciting game.

On Wednesday night at 8 o'clock Irish (6-200) will play Brewer (6-100) in the final of the handicap tournament. This game will be one of the best of the season, and a good crowd of spectators is expected to witness the match.

NEW YORK MAY GIVE RAFT OF PLAYERS TO VERNON FOR JAKE MAY. New York, Nov. 28.—Owners of the Vernon club of the Pacific Coast League told officials of the New York Yankees yesterday they would accept no less than \$75,000 worth of players in exchange for the southpaw pitcher Jake May, for whom the local owners have been dickering for some time. The Coast owners say they want no money for the little star, but players only. It is understood the Yankee management will meet the terms.

Members of the Seattle club think Gordon Fraser has the hardest shot of any player in the league. But, points out a Seattle critic, Fraser doesn't get his shot off to the twine fast enough, the loss of a split second making the difference between a goal and a wasted effort. When the youngster can learn to get his shot off a bit faster without having to set for it he will start scoring more counters.

"Bullet" Pitre, centre ice man for years with the famous Les Canadiens, is still playing hockey in Montreal.

Victoria Will Have a Sweet Rep Squad

Forty-Players Picked to Start Training For Places On Rugby Team Which Officials of Rugby Union Hope Will Bring McKechnie Cup Back to Victoria; First Rep Game Will Be With Cowichan Some Time In December

Officials of the Victoria Rugby Union are determined to have the McKechnie Cup, emblematic of the rugby championship of British Columbia, brought back to the Capital and if they can fire the players with the same determination there is no reason why the mug should not come back home.

In past years the rep squad has never gone into serious training and, although it has won many games, there has never been the consistent plugging and playing that would have been shown had the warriors been in proper condition. This year, however, conditions will be different. All the rep players must get down to the business of training.

The Rugby Union has selected forty players for the rep fifteen. This squad will gradually narrow down until a score of men are picked out for the fray. The men who train the most and take the game to heart will stand the best chance of getting on the team.

To Formulate Plans. A meeting of the Rugby Union will be held to-night and plans will be formed for the training of the squad. The list will be divided into halves with Boss Johnson, captain of the rep team, in charge of one section and Herb Penderay, vice-captain, leading the other. A course of training will be arranged and the boys will get down to it.

All teams in the senior league will be represented in the squad which is now being formed. The players on the list are as follows: Jimmie Miller, Bob Travis, Boss Johnson, John Johnson, Willie Bryn-Johnson, Taylor, Angie McInnes, Humber, Eric Ryan, McGee, and Totty of the J. R. A. A.; Penderay, Irvin Blyth, Ted Beales, Broadbent, Cliff Steele, Coleman, Champion, Gravin, McLellan, of the V. I. A. A.; Hermans, Colman, Windy Toimie, Kinch, Eric McCallum, Evell, Parker, Kerr, Allen, Nairn Robertson, Adams, Hee, Goodacre, of the Wanderers, and Cray, Crump, Matthews, Dick Wallis, Dubois, Pringle, and Lamson, of the Canadian Scottish.

First Game in December. The first call to practice will be issued very shortly. The local team will not engage in a McKechnie Cup tussle until next month and their first game will be with Cowichan. While the up-land boys have a very fleet team, with splendid backs, it is not expected that the locals will suffer defeat at their hands. The Wanderers, playing a man short throughout the season, were only beaten by 3-0 and it is believed that the rep squad here will be able to account for Cowichan.

The final selection of the rep team will be made until a week before the first McKechnie Cup game. At to-night's meeting of the Rugby Union dates will be talked over for games with Nanaimo and Vancouver. The first game of the season, however, will be played on December 10, when the local team will meet the Vancouver team at the Victoria stadium.

AMATEUR HOCKEY MOGULS MEETING TO PLAN SEASON. A joint meeting of the Victoria Amateur Hockey League and the Commercial Hockey League will be held this evening at 8 o'clock at 600 Beasant Building. The managers of all teams will be present and an effort will be made to reach a working agreement for the winter.

The Victoria League, which will have three teams, is planning to stage one game every Wednesday evening and have the Commercial League provide two other fixtures. This would make a real hockey night with three games on tap.

The teams are all getting into shape for the tussle this winter.

ROME A WINNER. Holyoke, Mass., Nov. 28.—Romeo Roach, of Holyoke, was awarded the decision over Mickey Travers, of New Haven, in a 10-round bout here last night. They are featherweights.

SEATTLE SIGNS WHITE SOX SECOND CATCHER. Seattle, Nov. 28.—Everett Yaryan, who has been three years a catcher on the Chicago American team, has been obtained by the Seattle Coast League club. President James R. Boldt announced yesterday when he returned here to-day from California. Yaryan, who was under study to Ray Schalk, is reputed to be strong at the bat.

Will Hold Banquet in Honor of Grimcrack, Gamest of All Horses. London, Nov. 28.—(Canadian Press Cable)—An event that is of interest to lovers of thoroughbreds throughout the world will take place to-morrow night when the York Grimcrack Club will give its annual dinner and renew for another year the name and fame of Grimcrack, a most remarkable horse of a century and a half ago, who through his gameness and success carried a place in the annals of racing that no other horse since has been able to take from him.

Grimcrack was foaled in 1750, and was an exceptionally small grey colt by Crispin, out of a mare by Criswood's partner. He never exceeded 14 hands and a quarter inch in height, and did not begin his racing career until he was four years old. Before he retired, however, he won 25 races, and his gameness and speed coupled with his small stature made him most popular with racegoers of those times.

Although Grimcrack never won a race at York, a race for two-year-olds, and known as the Grimcrack Stakes, was instituted there in 1846 to perpetuate the memory of the little grey filly. The owner of the winner of this race became the guest of the evening at the annual banquet of the club, which was held at the conclusion of the flat racing season, and in accordance with the time-honored custom, Lord Woolavington, whose colt, Town Guard, won the Grimcrack last August will attend the dinner to-morrow night.

IS BACK IN GAME. JOHN BLACK. San Francisco, Nov. 28.—John Black, little Scotch veteran, who was the sensation of the national open championship golf tournament at Skokie last summer, made his first reappearance on the links to-day since an automobile accident almost snuffed out his life several months ago. Black has only one good arm, his left, but other golfers said he played a good game. He was but two strokes behind the leader in the qualifying round of the Bay Counties open championship with a score of 79.

AMATEUR HOCKEY MOGULS MEETING TO PLAN SEASON. A joint meeting of the Victoria Amateur Hockey League and the Commercial Hockey League will be held this evening at 8 o'clock at 600 Beasant Building. The managers of all teams will be present and an effort will be made to reach a working agreement for the winter.

WELER'S AND BAYS TO PLAY TO-MORROW. Only One Game Slated in Wednesday League; Fr's and Garrisoe Lay Off. Only one game is slated in the Wednesday Football League to-morrow afternoon. Weller's and the Hudson's Bay will meet at the Royal Athletic Park at 2.30 o'clock. The Bays are out after the scarp of the leaders. A win for the Bays would be a hard blow to Weller's, and could greatly hinder their chances of repeating in the league.

TORONTO 'VARSITY TO PLAY HARVARD. Cambridge, Mass., Nov. 28.—Harvard will open its hockey season in Boston, January 4, in a game with Toronto University.

STECHER WINS BOUT WITH BODY SCISSORS. Chicago, Nov. 28.—Joe Stecher, of Dooey, Neb., defeated John Frisner, of Chicago, after 34 seconds of wrestling in the sixth round of their match last night, with a body scissors. They are heavyweights.

VILLA WINS AGAIN. Boston, Nov. 28.—Pancho Villa, American flyweight champion, went out of his weight class again here last night and defeated Young Montreal of Providence, winning the decision in ten rounds.

JACKSON A LOSER. Rochester, N. Y., Nov. 28.—Willie Jackson, New York, lost on the judge's decision to Chubby Brown, Rochester, here last night, in 10 rounds. Brown carried six of the rounds, Jackson two and two were even. The men are lightweights.

MORVICH GOES TO STUD. New York, Nov. 28.—Morvich, most talked of thoroughbred of years and winner of this year's Kentucky Derby, will stand in stud for the Winter at a farm near Lexington, Ky., where Man o' War was taken when he retired two years ago.

GRASS HOCKEY. Philadelphia, Nov. 28.—Teams representing New York, Boston, Chicago, Philadelphia, Richmond and Great Britain are entered in the girls' inter-city hockey tournament which opens here Thursday. The British team is composed of coaches who came to this country to teach the game as played abroad.

MARS LOST THE BATTLE. Cincinnati, Nov. 28.—Ever Hammett, Chicago, lost to Philadelphia on a foul in the eighth round of a scheduled ten round boxing bout here last night.

THE HONOR. From time to time in America the question of "the honor" becomes a great source for discussion. Often it has been referred to as a courtesy extended to the winner of the last hole, and considered by those who know the game to be a distinct advantage. It is remarkable that those sage people will argue for several minutes as to who is away, when, within approaching distance of the flag it is very strange how suddenly it becomes a serious disadvantage to be forced to play first on such occasions. Do they ever consider the tremendous advantage of playing last from the tee when the opponent has found the rough, trees, bunker or even out of bounds? Such knowledge in the case of two players is of even or nearly even handicap means in nine cases out of ten, a sure hole won. The player teeing off first has to assume at all times that his opponent will at least obtain an average drive and cannot count on errors before they have been made.

Card and pencil maniacs, taking part in four-ball matches, appear to be causing trouble at Hopwood as elsewhere, and as a result the following notice has been displayed in the club house at the Manchester Golf Club.

"Four-Ball Matches.—Notice.—The following four-ball matches are taking three hours or more to play a round; this is too long, and causes delay and inconvenience to other players. It is hereby notified that a player who is playing a four-ball match should not engage in a four-ball match.

"When a slow four-ball is holding up a quick one, it would be more convenient for both matches if the latter was allowed to go through."

"Time is wasted on the tees. Each player should be ready to tee up and drive immediately the previous player has driven. This is especially true through the green by walking too slowly between shots and by each player not walking directly to his own ball. If a player is hopelessly out of it with his partner, he should pick up at once. Much time is wasted on the greens, too much attention is given to the order of play, and a player's ball is lying dead in four ball partner should not waste time having a long shot at a five. Under no condition should a player putt after a hole has been decided.

"If the above points are observed a four-ball match should be able to get round comfortably in two and a half hours, thereby lessening the congestion of the course and increasing the pleasure of all players."

THE GOLFERS' CORNER. "THE HONOR". From time to time in America the question of "the honor" becomes a great source for discussion. Often it has been referred to as a courtesy extended to the winner of the last hole, and considered by those who know the game to be a distinct advantage. It is remarkable that those sage people will argue for several minutes as to who is away, when, within approaching distance of the flag it is very strange how suddenly it becomes a serious disadvantage to be forced to play first on such occasions. Do they ever consider the tremendous advantage of playing last from the tee when the opponent has found the rough, trees, bunker or even out of bounds? Such knowledge in the case of two players is of even or nearly even handicap means in nine cases out of ten, a sure hole won. The player teeing off first has to assume at all times that his opponent will at least obtain an average drive and cannot count on errors before they have been made.

Card and pencil maniacs, taking part in four-ball matches, appear to be causing trouble at Hopwood as elsewhere, and as a result the following notice has been displayed in the club house at the Manchester Golf Club.

"Four-Ball Matches.—Notice.—The following four-ball matches are taking three hours or more to play a round; this is too long, and causes delay and inconvenience to other players. It is hereby notified that a player who is playing a four-ball match should not engage in a four-ball match.

"When a slow four-ball is holding up a quick one, it would be more convenient for both matches if the latter was allowed to go through."

"Time is wasted on the tees. Each player should be ready to tee up and drive immediately the previous player has driven. TIMES DAILY - PICTURE PAGE

Romance of a Horse

Not long ago Major J. A. Barry (above) found this horse, Submersible, as a worn-out plug pulling a laundry wagon in Fort Riley, Kas. Since then Submersible has won seven blue ribbons at horse shows. Hear that horse-laugh?

Why Allied Statesmen Worry

The Turk infantry swings into Constantinople and announces to the world that the sick man of Europe has regained his strength. This picture shows the crack regiment, with Refet Pasha, military leader of the

Kemalists, marching at its head. Enthusiastic crowds greet the conquerors of the Greeks and assure the Nationalists that they will have popular support against the allies. Inset shows Refet Pasha.

M. P.'s

Of 23 women candidates for Parliament in the British general election, just over, only three were successful. Top to bottom: Lady Alderton, Lady Nancy Astor, Mrs. Wintringham. The last two were re-elected.

Dr. Wiley's Hygiene Begins at Home

Two healthy and hygienically raised sons illustrate Dr. Harvey W. Wiley's doctrine of health and long life. Dr. Wiley, famous food and health authority, is in robust health despite his 77 years. Daily, he references the exercise of his two sons, Harvey, Jr., and John Preston.

A Day With the Birds—A Drama of the North

HE GETS 'OLD PIPE' A GUY AND SETS OUT BLITHELY HE MISSES ONE OF HIS GUNNERS AND STARTS IN SEARCH OF IT HE CANT FIND IT
WHAT USE IS THIS ONE? DISGUSTED—HE TOSSES IT IN THE AIR AND RIDDLES IT "ON THE WING" THEN STUMBLES ON THE MATE.

M. W. Wilson

New Assistant General Manager of the Royal Bank of Canada.

A Bullied Bull

May Wirth, queen of equestriennes, had little trouble conquering King Jess Homestead De Kol, the \$15,000 bull owned by John M. Kelly of Harrington Park, N. J. King Jess was a gentleman first and last. He not only consented to Miss Wirth riding him but made little complaint when she walked all over him.

Do They Look Businesslike?

This is the first picture yet received in America of Turkish troops serving under Mustafa Kemal Pasha. Their well-fed, well-disciplined appearance and their modern equipment and arms tell why Kemal routed the Greeks and now is causing the allies serious concern.

President's Cousin a Gob

While President Harding acts as commander-in-chief of the navy at his White House desk, his cousin, William H. Harding, labors for the good of the service on the battleship Oklahoma. "Bill" Harding is from Marion, O., and is the 19-year-old son of W. B. Harding, first cousin of the president.

She Hopes to Be Senator

Lucille Caldwell, Long Beach, Cal., hopes some day to fill a seat in the United States Senate. She's only 25 now but already she's a full-fledged lawyer; is president of the Woman's Legal Association of the University of California, and is looking longingly toward a seat in the Legislature.

FOR CHILDREN THE SANDMAN STORY FOR TONIGHT

BROWNIE IS INQUISITIVE Part I. One night the house was very still. Not the doll house in which the Twinkle-eyes lived...

The little Twinkle-eyes were all in bed. But it did not take them a second to jump out of bed and follow their father and mother down the wall to the pantry.

Twinkle-eyes led the children out of the pantry through the kitchen to the dining room. Now run about and play. There are no traps anywhere but in the pantry, so you can nibble at anything you find.

Twinkle-eyes led the children out of the pantry through the kitchen to the dining room. Now run about and play. There are no traps anywhere but in the pantry, so you can nibble at anything you find.

know they spoil things with their sharp teeth. There were plenty of crumbs that the careless, maid had left, but

By and by Mrs. Twinkle-eyes thought it time to collect her family and go back to the attic, but when she counted her children she found there were only six.

"It is Brownie that is missing," she told Twinkle-eyes. "He isn't in a trap, for I have just come from the pantry. He must have fallen asleep somewhere, but we must find him."

Everybody began to hunt for Brownie—in the drawers of the sideboard, in the china closet, in the fireplace; but no trace of him could they find.

Mrs. Twinkle-eyes spied the door of the sitting room that was open a crack. "He is very inquisitive," she told her husband. "He may be in here."

"Squeak, squeak, squeak," she called, running about the room, and then she saw the ball of paper on the floor, but of course she did not know Brownie was inside.

"Now I wonder what that is," she said, running over to it. You see Mrs. Twinkle-eyes was rather inquisitive herself, so little Brownie could not be blamed for being like his mother.

To-morrow I will tell you what happened when Mrs. Twinkle-eyes nibbled at the paper ball.

STEEL REALTY DEVELOPMENT CORP. LIMITED. 644 Fort Street.

AN EASY matter to run up the scarf that hung over the side, for it touched the edge of the basket.

"Oh, what have I found?" thought Brownie as he sniffed the top of the bottle. It was glue, and it did not smell nice at all, but mice have queer tastes and Brownie liked it so with his front paws he reached to the top of the bottle and tipped it over.

Then the trouble began. Brownie was scared. He tried to run, but the sticky stuff made his feet feel quite heavy and his tail felt as if something were tied to it.

"I rather have cheese," said Brownie. "I will run back to the pantry and get the bad taste out of my mouth."

He managed to get to the basket of papers and jumped in, but when he tried to get out he found that pieces of paper stuck fast to his feet and tail and down he tumbled on the floor, rolling over in the paper until he looked more like a ball of crinkled paper than a little mouse.

Brownie worked hard to escape, but it was no use, and after a while he was so tired he fell asleep, still wrapped in the paper.

By and by Mrs. Twinkle-eyes thought it time to collect her family and go back to the attic, but when she counted her children she found there were only six.

HERBERT A. BROWN, Phone 5497, 707 Fort Street.

Bickle. A programme will be rendered during the afternoon. On Dec. 2 the above lodge will hold a bazaar in the building recently occupied by Cochran's Drug Store.

On Wednesday the Women's Missionary Society of St. Andrew's Presbyterian Church will hold its annual Thank-offering meeting. The speaker will be Mrs. W. G. Wilson, and the meeting will be held in the lecture room of the church.

It is requested that all attending the winter to be held by the R. O. W. I. on Wednesday in the Margery Litter Hall, Royal Oak, provide themselves with needles and thread. Luncheon will be served at 1 o'clock, and Mrs. Dennis Harris will speak on the Wool Industry during the afternoon. A hearty invitation to attend is extended to all interested.

A special meeting of the spark and C. W. wireless amateurs of the city and vicinity will be held in the club-room of the Vancouver Island Radio Club, Pacific Salvage Company's building, on Wednesday evening, at 8 o'clock. A discussion on various topics will take place in connection with the work of the radio amateur. Mr. Poudrier will preside.

The monthly meeting of the British Campaigners' Association will be held in the A. O. F. Hall this evening at 8 o'clock.

The Women of Moosehead Legion, Chapter 25, will hold a silver tea at the home of Mrs. T. W. Spouse, 932 Pandora Avenue, to-morrow afternoon.

HOUSE BACKS MOVE TO BRING GRAIN TO PACIFIC COAST

The resolution of Mrs. Mary Ellen Smith and Capt. Ian Mackenzie, Liberal members for Vancouver, urging Dominion Government to provide additional facilities for the handling of grain at Pacific Coast ports and also urging the Provincial Government to continue its fight for a reduction in freight rates so that they will be brought down to the same level for westbound grain as for eastbound, passed the Legislature unanimously.

Mrs. Smith in moving the resolution pointed out that the action were taken along the lines proposed it would go a long way towards relieving the unemployment situation in this Province and would protect a trade which is purely Canadian in the interests of Canada.

Opportunity for Action. "The time is now opportune for this action," Capt. Mackenzie said, pointing out that the resolution from the Legislature would impress on the Ottawa authorities the necessity for dealing with the problem. He declared it was a matter which concerned not only Vancouver but every household in B. C., who would be advantageously affected by cheaper cereal prices resulting from reduced freight rates.

"This is a mandate for the Government to continue the fight against discriminatory freight rates and carry it to the highest tribunal," Capt. Mackenzie went on. "The interests of the port of Vancouver in this are identical with those of every port in the Province."

M. B. Jackson, K. C., member for the Island, asserted that there was no logical reason why all the grain from Saskatchewan should not be transported through the ports of Vancouver, those of Vancouver Island and of Prince Rupert when the time comes.

Mr. Jackson complained that agricultural industrialists in B. C., thanks to the railway monopoly, were

CITY TO FIGHT FOR GASOLINE TAXATION

To Ask Legislature For Three Cents Levy a Gallon

Representatives of the City Council will wait on the Municipal Committee of the Legislature this week to urge that a tax on gasoline be inaugurated in British Columbia and divided between the Provincial Government and municipalities. A tax of 3 cents a gallon on all gasoline sold in the Province, 2 cents to go to the cities and one to the Government, is proposed. Plans for urging the gas tax before the municipal committee were mapped out by the Council last night.

The City Council will send a delegation to Hon. John Hunt, Minister of Finance, immediately to ask him to remove from reverted city lands all old succession duties. The private Bills Committee of the House, it was explained, already has approved of this plan, but there is some doubt about the Legislature ratifying necessary legislation. Aldermen Todd, Patrick and Gillespie will urge the city's case before Mr. Hart during the next day or two.

At the regular meeting of the C. P. R. Social and Athletic Club, the usual Military 500 Game under the auspices of the C. P. R. will take place on Thursday evening in the private dining room of the Empress Hotel, commencing at 8:30 prompt.

In addition to the card game the dance committee are to hold an extra dance at the Empress ballroom, also commencing at 8:30. Ozard's orchestra will have charge of the musical programme. When the card game is finished the players are welcome to finish the evening in the ballroom.

ARRIVED AT LAST

WHEN IT'S A CUT SCALD or BURN—USE Zam-Buk

DRESS a cut, burn or scald with Zam-Buk and fiery smarting pain is stopped, inflammation disappears. Where skin is blistered or broken, the Zam-Buk dressing acts as a perfect antiseptic shield over the flesh. It prevents disease infection or any tendency to fester or become "matters". Zam-Buk owes this marvellous healing and disease-dispelling power to its refined herbal character—its complete freedom from the crude drugs and animal fats found in ordinary ointments. You will find Zam-Buk equally valuable for healing sore cracked hands, frost-bite and chilblains, and in winter eczema, ulcers, scald disease, piles, poisoned wounds, abscesses, and obstinate sores.

Consider how often you've wanted just such a safe, ever-ready skin remedy as Zam-Buk. Then get a box to-day and keep it always handy. 50 cents all dealers. 3 for \$1.25.

FREE! To test this great healer send 1c. stamp to Zam-Buk Co., Toronto. Sample box mailed by return.

FOR QUICK CLEAN HEALING

COUNCIL MARKS TIME OF LEGAL COST REFUNDING

Ask Solicitors' Opinion Before Reimbursing Mayor For Case

Aldermen Criticize Marchant's Issuance of Staneland Cheque

The City Council refused last night to consider the payment of expenses incurred by Mayor William Marchant and Finance Committee members in fighting the recent Staneland grant case against them, pending the receipt of a report on the legality of such payment by City Solicitor H. S. Pringle and City Counsel H. B. Robertson.

The Council last night discussed at some length the proposed reimbursement of the Mayor and his colleagues but it was finally agreed that nothing could be done until Mr. Pringle's formal opinion on the matter had been secured. For this reason the Council laid over for a week a motion by Alderman A. E. Todd that the Council pay the expenses of the case, \$250, if such payment were found to be legal.

When members of the Council criticized the Mayor for issuing a cheque for \$100 to Police Commissioner W. E. Staneland to pay his expenses to New York, Alderman E. S. Woodward defended his "Worship" with what he intimated was the inside history of the whole transaction. He said that the Mayor, before issuing the cheque, informally assured himself that he was supported by a majority of aldermen in taking this action. Unless he could have secured this majority report the Mayor would have refused to spend the \$100 out of police funds, Alderman Woodward asserted emphatically.

The Mayor indeed, had been more deterred than anyone that the cheque should not be issued except with the authority of the Council but finally had agreed to spend the money out of police estimates after he had consulted a majority of the Council members.

Aldermen Hayward, Andros and Patrick came out openly against the reimbursement of the Mayor for the expenses of the prosecution conducted against him. Alderman Hayward held that the case was against his "Worship" and Finance Committee members in their private capacity.

Alderman Andros said that the Mayor and Finance Committee members might have considered the prosecution a personal one on the part of the partner of the Mayor's son, Alderman Andros declared. He believed that any alderman who voted to re-pay the Mayor and the Finance Committee members would be violating his oath of office and would lay himself open to legal action.

Only Just. Mayor Marchant recalled the details of the Staneland grant case. He said that the payment of \$100 to Police Commissioner Staneland was simple justice. And this payment, he said, was by no means unprecedented. "There was the case of Aldermen Sangster and Harvey on the Finance Committee last year," the Mayor observed. "They paid out \$200 in connection with a Montreal convention with no more authority from the Council than we had. Not long ago the School Board made itself liable for the payment of \$1,200 for the removal of school buildings. I have obtained the opinion of the City Solicitor and he has informed me that I cannot legally sign the cheque. Now these men acted in good faith. Would it be just to send them into the Police Court? It would be Mr. Jay against Mr. Jay, because he is the magistrate and the man who signed the voucher. Don't suggest any such litigation but I mention it in a generous spirit."

No Sympathy for Mayor.

Alderman Patrick said he sympathized with Finance Committee members who had given their official O.K. to the \$100 grant, but this sympathy, he added did not extend to the Mayor who had acted contrary to the formal and recorded will of the Council. He intimated that the Mayor should pay the legal costs involved and said he would not vote to have the city pay them.

Alderman Andros was the only member who voted against the resolution to defer for a week consideration of the proposed reimbursement of the Mayor.

ASKS COUNCIL TO MAKE NO GRANTS

No Aid For Organizations Next Year, Gillespie Warns

No grants to semi-public organizations will be made by the City Council next year if Alderman J. H. Gillespie has his way. Alderman Gillespie made this clear at the Council meeting last night when the Goat Breeders' Association asked for financial assistance.

Organizations should be made to understand now that they need expect no grants from the city next year, he declared.

The city also should cut its work programme next year down to almost nothing, Alderman Gillespie affirmed. "If we have any common sense we shall do practically nothing in the way of public works in 1923," he said when the Council was discussing unemployment relief.

The Mayor and aldermen were told flatly by Finance Committee members that there was no money on hand to pay the unemployment relief work so that no action to provide employment was taken.

11TH FORTRESS SIGNAL COMPANY The weekly training parade of No. 11 Fortress Signal Company, will fall in at the New Drill Hall, Bay Street at 8 p. m. to-night. Any men interested in signalling are invited to attend this parade, with a view of joining the company.

HAYWARD RETIRES FROM MAYORALTY

"Hope to See You Next Year," His Farewell to Colleagues

Alderman Reginald Hayward formally resigned from the City Council last night, bade his former colleagues good luck and, vaulting over the rail that bars the Council from spectators, walked out of the Chamber.

Alderman Hayward explained that he was resigning now, in order that he could run for the mayoralty at the December election and so that a by-election could be held then to fill his aldermanic chair. "I hope to see you all here next year," Alderman Hayward said over his shoulder as he retired from his Council seat.

When Alderman Hayward filed his resignation Mayor William Marchant said he regretted that the Alderman was not staying on the Council for the rest of the year. "He has completed himself," he greatly professed and our personal relations have been very harmonizing," the Mayor declared. "The future is in the hands of the gods, but I wish him every good wish—a but one—as he did every with a chuckle in which all joined.

ESQUIMALT WILL REGISTER MEN NEEDING WORK

The Esquimalt Council last night debated at length possible means of relieving unemployment, greatly accentuated by the closing down of operations at the drydock three weeks ago. A strong sentiment towards provision of at least one week's work before Christmas developed.

Councillor Wilson stated that 500 men were in need of work in Esquimalt and the nearby municipalities, and suggested that the municipal work should be shared among all Esquimalt men on a turn-about basis. "It may be hard on the regular staff, but there are men who have been workless for months to be thought of."

Councillor Pomeroy agreed, but pointed out that discovery of work was an easy matter; the problem was to raise the money. He suggested a by-law be put in the voters.

Turning to the chair he said, "What can you suggest, Mr. Reeve?" Reeve Lockley replying, "If six councillors cannot find a solution among them, why come to the Reeve?"

Reeve's Views. Councillor Porter reiterating the request, Reeve Lockley said, "If you wish to assist the unemployed you must do so when making the estimates for the year. There are lots of work if there is money. It comes down to what are we to do when we are bound by the resources of the municipality. It is a Federal and Provincial matter, not to be settled properly when our only resource is land taxation.

"To keep the money rate down you have no surplus. I find you have spent almost as much as you can this year. This plan of week about work with no more authority from employees to be classed as unskilled labor.

"If you do not provide work for these men and their families, you must provide for them as relief and remember gentlemen, every dollar beyond your estimates must be taken out of next year's levies, you would be spending those in advance."

He suggested that the Attorney-General might permit the use of liquor profits earmarked for hospitals and advertising to permit the purchase of license revenues. "You might consolidate those, make a fund of about \$5,000 and with that operate a small scheme of week on and relief."

For Gasoline Station. Rock work might help, Reeve Lockley suggested, as possibly Esquimalt might be able to provide the Union Oil Company with much needed rock for a new gasoline station on the Esquimalt Avenue which would require from 100 to 300 yards of material. He looked for little relief from Provincial or Dominion Governmental aid, and recalled that if any were forthcoming it would only cover a part of the extra cost above the full normal cost.

Reeve Lockley pointed out that, while the proposal outlined was not large, it would enable the Council to assure every man one full week's work before Christmas. "But remember this, you will not be spending outside funds, save for part-mutual profits; these monies belong to your annual appropriations. Act, and act quickly. Tell these men you can or cannot give them assistance, so they may know whether to stay or go elsewhere," he urged.

Councillor Young suggested work be cut on Hudson's Bay lands by paying the municipality to bury up pay wages and sell the wood.

Councillor Pomeroy recommended that men be employed to improve reversed lots sufficiently to make them salable. Reeve Lockley doubted the feasibility, the lots being scattered or of poor grade.

Councillor Pomeroy moved that all unemployed be required to register at the Municipal Hall, so that the Council would have knowledge of the number requiring provision.

BURDE ATTACKS MEN AS "BRIGANDS"

Albani Member Has His Eight-hour Bill Up Again in House

Says Men Have to Keep at Work Because Unemployed Throng, Seeking Jobs

Major R. J. Burde, member for Alberni, in explaining in the Legislature his amendment to the Hours of Work Act whereby shingle and saw-mills, pulp and paper mills, would be included in the act and the whole eight-hour measure be brought into operation on May 1, 1923, made an attack on those who were objecting to the bill and the arguments which they were using to have its operation postponed until it was made operative in the other Provinces of Canada.

"If members would study the act they would come to the conclusion that a great deal of the literature circulated against it was absolute nonsense," he said. "The measure because it would disadvantageously affect the fishing as well as the agricultural industry. Major Burde asked any member of the House to pick up the bill and see he could find where in any way it affected fishing or agriculture, declaring that if anyone could find any such thing he would withdraw his bill."

Not Food Products. He asserted that he was not prepared to have the bill apply to the handling of perishable products and if it were ambiguous in any way he was prepared to go the limits in committee to have such ambiguities removed. He explained that if accidents occurred or emergencies arose there were exceptions provided whereby employers and employees of representatives of employees could get together and arrange for overtime or extra hours of work.

Major Burde referred to Mr. Grainger, representing the lumber manufacturers, who had been working at the Parliament Buildings against the bill as "a man who has been walking around pussyfooting here with his hat down over his eyes and when I saw him I felt like looking at him at my sergeant-at-arms." The Alberni member claimed that he had not received any of the literature against the bill that was put on the desks of other members.

There was another man whom he had seen walking through the lobby working against the bill, the major continued, and this man seemed to wear about half a ton.

"He said to me, 'Are you going to strangle the lumber industry of this Province?' and I said, 'You are going to strangle the workers in the lumber industry.'" Major Burde went on.

At Fraser Mills. The member went on to declare that the Fraser Mills were working men ten to thirteen hours a day and eight hours on Sundays and extra hours and Sunday work were made almost compulsory. The employers were able to force this on the men because a great many of the unemployed outside the gates and all the employers had to do was to point to this gang and then tell their employees that there were other unemployed waiting for their jobs if they did not work as they were told. The pulp mill at Port Alice, he said, had now gone back to two shifts of twelve hours each.

Eight hours a day was the rule in standard trades outside of the lumber mills, which stood unique in B. C. as a slave holding industry, the Major went on. He declared that the men there had been unable to organize because of the Orientals who number fifty per cent of the employees.

Oriental Versus Whites. At Ottawa during the last session of the House of Commons, A. W. Neill, independent member for Alberni had asked Premier King if there was any intention of bringing down eight-hour legislation and the Premier replied that the matter was in the jurisdiction of the Province. Major Burde went on. That was nearly a year ago, he said. Ontario and Quebec were not in competition with British Columbia as regards the lumber industry, he declared.

"Take two hours a day from the Orientals in the lumber industry and add to the white men and you will have done more to relieve the Oriental menace than all your Oriental exclusion resolutions," Major Burde said. "The question of wages is not involved. It is a question to the last ditch with the men who have tried to enslave labor. The lumber manufacturers believe that if the white man ever has a chance to get a grip on the lumber industry a heritage for the white man to get a living out of."

The Major asserted that men who were doing the work were blacklisted and so were voters in the Alberni district who voted for him at the last election. He closed by referring to "the lumber and logging employers as 'that band of brigands'."

CANON DECLARES OPEN SEASON FOR SPLIT INFINITIVES

Grammatical Atrocities in Legislature to Be Shot at Sight

There will have to be better grammar in bills, resolutions and other formal documents that go through the Legislature if Canon Hinchliffe, Conservative member for Victoria, has his way.

In other words, the Canon has started out gunning for such atrocities as split infinitives on the floor of the Legislature.

dozens which jarred his finer sensibilities. But last night, horror of horrors, when the consolidation of the Boilers' Inspection Act this is what House Chairman Clearihue read out: "To forthwith thoroughly examine."

"Why," the Canon said as he jumped up, "that one's actually split twice."

"I think we should take pride in turning out from this House these acts in just as good a condition grammatically as in every other way as we possibly can."

"I think the honorable gentleman is right," Attorney-General Manson said.

Edwards, secretary of the association in Victoria; and Captain Ian St. Clair.

AFTER MORE TRADE

The London cabby has long been noted for her peculiar terse humor. Not long ago a funeral hearse cut in front of a bus, and barely avoided running over a woman. The bus driver looked at the hearse driver. "Nah then, greedy!" he ejaculated.—Boston Transcript.

"I Was Terribly Weak After Baby Was Born"

Mrs. H. McClure, Norwood, Ont., writes:

"After my baby was born, I was terribly weak and ran down, with pains across my back. I had heard so much of Dr. Chase's Nerve Food that I decided to try it. Three boxes proved enough to make me quite strong and well again. I also used Dr. Chase's Ointment for a rash which broke out on the baby, and the rash disappeared completely in a short time."

DR. CHASE'S NERVE FOOD

50 Cents a box, all dealers, or Edmondson, Eaton & Co., Ltd., Toronto.

Examinations of adult and Junior teams are in progress in the city in connection with the St. John Ambulance Association, under the direction of Col. Charles A. Hodgetts, M. D., C. M. G., who arrived here yesterday from Nanaimo, where he had been conducting similar examinations.

Last evening Col. Hodgetts held an inspection of the boys' first aid teams in competition for the Wallace Nesbitt junior trophy. Those teams were from Boys' Central and South Park schools.

Officers of St. John Ambulance Association who were present, in addition to Colonel Hodgetts, were: Doctor A. B. Hudson, Colonel Drum, C. B. G., Captain A. J. Dainin, H. W.
