

"Women in Wikimedia programs"

**Wikimedia Argentina
Education Program**

How will i organise the presentation?

I will talk about...

1. A little bit of women argentine history in education
2. Our experience in Wikimedia Argentina education Program
3. Numbers and participation of women teachers in education projects

Women moving education since XIX century

-Historically there were more women teachers than men and that difference is maintained to this day.

-In Argentina in the late nineteenth century, women could start studying teaching with the creation and expansion of what we know here as ["Normal School"](#).

-Although their participation as workers was based on the idea that compared maternal attitude with good teaching, this allowed many middle-class women to have access to tertiary studies and to the work culture.

In Argentine history, the first women who received some kind of social recognition were those who were linked to education activities during the late nineteenth and early twentieth centuries.

1. [Olga Cossetini](#), was an Argentine teacher, educator, and pedagogue. She spent her career transforming traditional schooling.
2. [Alicia Moreau de Justo](#), Argentine politician and feminist activist. She studied in the Normal School N°1.
3. [Julieta Lanteri](#), Italian **Argentine** physician leading freethinker, and activist for women's rights in Argentina as well as for social reform generally.

Wikimedia Argentina Education Program

-WMAR Education Program started working in the educational field since 2014.

-We have developed 4 projects for different educational levels: Secondary school, University and non-formal education.

-Teachers are generally our main audience in WMAR education program

-The concern about the gender gap goes through all of our initiatives

EDUCATION PROGRAM

EDITING CLUB

* 4 editing clubs organized around the country

* 2 editing clubs organized by women

* 2 organized by men

* Women participants: 134

* Men participants: 71

* Total: 205

* Edited articles: 60

WIKIMEDIA
ARGENTINA

WIKIBRIDGES MOOC

* 4 Wikibridges Moocs organized during 2016-2017

* Women: 415

* Men: 182

* Total: 597

* +500 edited articles

* 7 Edit-a-thons about human rights.

* Led by journalist and researcher women

* Women > 170

* Men > 110

* Total: 280

WIKILESA

* 9 projects in different universities around the country organized by teachers

* 8 projects organized by women

* 1 project by men

* Women participants: 261

* Men participants: 67

* Total: 328

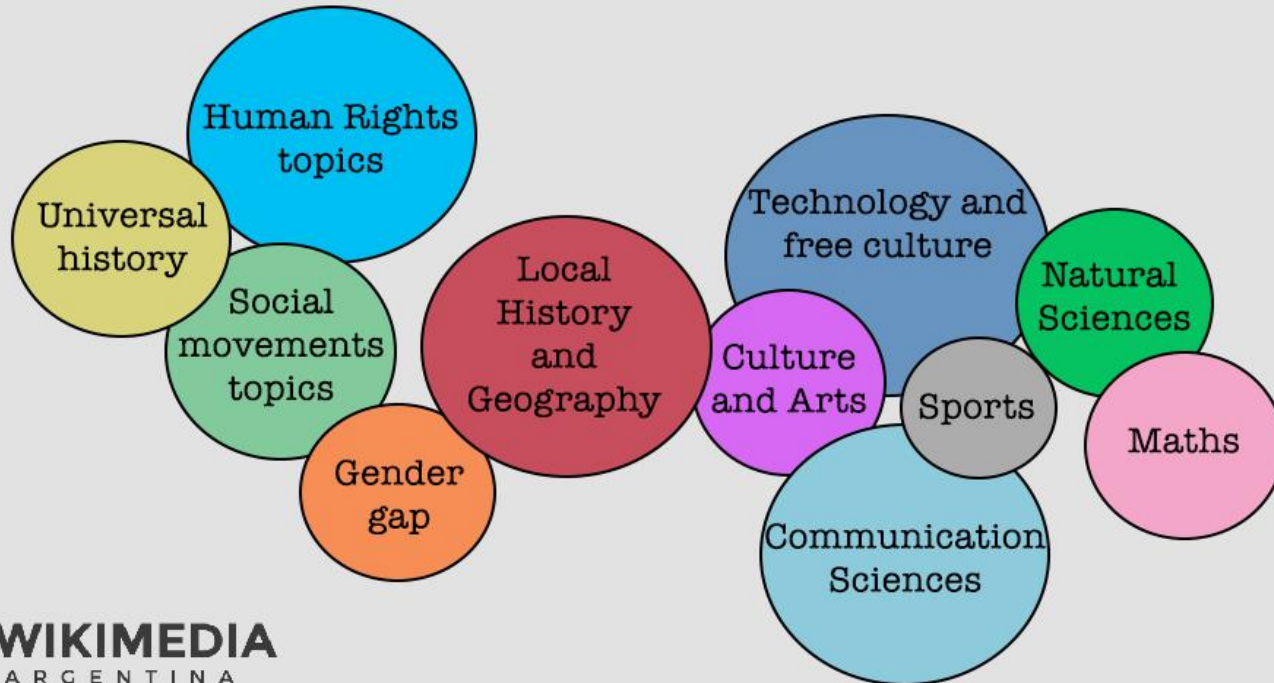

* 103 edited articles
