PAR. 10. Section 29.15-1 is amended as follows:

(A) By striking out so much as follows the first paragraph and precedes the example and inserting in lieu thereof the following:

For taxable years beginning before January 1, 1946, the "corporation surtax net income" of a corporation is its net income minus (1) the credit provided in section 26 (e) for income subject to excess profits tax imposed by subchapter E of chapter 2, (2) the credit provided in section 26 (b) for dividends received, and (3) in the case of a public utility, the credit provided in section 26 (h) for dividends paid on its preferred stock. For the purposes of determining the corporation surtax net income, dividends received on the preferred stock of a public utility must be disregarded in computing the credit provided in section 26 (b) for dividends received. For the purposes of determining the corporation surtax net income for taxable years beginning before January 1, 1946, such credit is limited to 85 percent of the corporation's net income reduced by the credit provided in section 26 (e) for income subject to the excess profits tax imposed by subchapter E of chapter 2, rather than to 85 percent of the adjusted net income so reduced.

For taxable years beginning after January 1, 1946, the rates of corporation surtax are as follows:

(1) Upon corporation surtax net incomes of \$25,000 or less, 10 percent of the amount thereof.

(2) Upon corporation surtax net incomes over \$25,000 but not over \$50,000, \$2,500, plus 22 percent of the amount of such income in excess of \$25,000.

(3) Upon corporation surtax net incomes of more than \$50,000, 16 percent of the entire amount thereof.

For taxable years beginning after December 31, 1945, the "corporation surtax net income" of a corporation is its net income minus (1) the credit provided in section 26 (b) for dividends received and (2) in the case of a public utility, the credit provided in section 26 (h) for dividends paid on its preferred stock. For the purposes of determining the corporation surtax net income, dividends received on the preferred stock of a public utility must be disregarded in computing the credit provided in section 26 (b) for dividends received.

For taxable years beginning after December 31, 1945, the rates of corporation surtax are as follows:

(1) Upon corporation surtax net incomes of \$25,000 or less, 6 percent of the amount thereof.

(2) Upon corporation surtax net incomes over \$25,000 but not over \$50,000, \$1,500 plus 22 percent of the amount of such income in excess of \$25,000.

(3) Upon corporation surtax net income of more than \$50,000, 14 percent of the entire amount thereof.

The credit provided in section 26 (a) for interest received on obligations of the United States or its instrumentalities is not allowable in computing corporation surtax net income for any taxable year.

For treatment of taxable years beginning in 1945 and ending in 1946, see § 29.108-2.

The computation of the surtax on corporations may be illustrated by the following examples:

(B) By redesignating the example as Example (1) and inserting at the end thereof the following:

Example (2). The B Corporation, a domestic corporation which is not a public utility, has for the calendar year 1946 a net income of \$75,000. The net income includes dividends received from a corporation which is not a public utility, in the amount of \$5,000, and dividends received on the preferred stock of a public utility in the amount of \$2,000. The B Corporation's surtax for the calendar year 1946 is \$9,905, computed as follows:

Net income.....	\$75,000
Less credit for dividends received (85 percent of \$5,000).....	4,250
Corporation surtax net income.....	70,750
Tax (14 percent of \$70,750).....	9,905

(a) *Income taxes.* Section 108 of the Internal Revenue Code is amended by striking out "(c)" at the beginning of subsection (c) and inserting in lieu thereof "(d)", and by inserting after subsection (b) the following:

(c) *Taxable years beginning in 1945 and ending in 1946.* In the case of a taxable year beginning in 1945 and ending in 1946, the tax imposed by sections 11, 12, 13, 14, 15, and 400 shall be an amount equal to the sum of—

(1) That portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1945, were applicable to such taxable year, which the number of days in such taxable year prior to January 1, 1946, bears to the total number of days in such taxable year, plus

(2) That portion of a tentative tax, computed as if the law applicable to years beginning on January 1, 1946, were applicable to such taxable year, which the number of days in such taxable year after December 31, 1945, bears to the total number of days in such taxable year.

PAR. 32. There is inserted immediately following § 29.108-1 the following:

§ 29.108-2 *Computation of tax for taxable years beginning in 1945 and ending in 1946.* For a taxable year beginning in 1945 and ending in 1946, the normal tax, surtax, and optional tax imposed by sections 11, 12, and 400 upon taxpayers other than corporations, and the normal tax and surtax imposed by sections 13, 14, and 15 upon corporations shall be computed as follows:

(a) That portion of a tentative tax computed under the law applicable to taxable years beginning on January 1, 1945, which the number of days prior to January 1, 1946, in the taxable year of the taxpayer bears to the total number of days in such taxable year, and

(b) That portion of a tentative tax computed under the law applicable to taxable years beginning on January 1, 1946, which, the number of days after December 31, 1945, in the taxable year of the taxpayer bears to the total number of days in such taxable year.

The provisions of section 108 apply to estates, trusts, and nonresident alien individuals whose tax is computed under sections 11 and 12. The method of computation prescribed in section 108 is not applicable, however, to an insurance company subject to Supplement G, an investment company subject to Supplement Q, or a Western Hemisphere Trade Corporation as defined in section 109.

The provisions of section 108 apply to a taxable year beginning in 1945 and ending in 1946, whether or not such taxable year is one of less than 12 months. In the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (c) and which because of a change in accounting period has a taxable year of less than 12 months, the net income shall be placed on an annual basis under the provisions of section 47 (c) (1) for the purpose of both tentative tax computations under section 108 (c), or shall be computed under the exception in section 47 (c) (2) for the purpose of both such tentative tax computations. Regardless of the method

adopted, the amounts of the tentative normal tax and surtax so computed upon the basis of 12 months' income shall be properly reduced under section 47 (c) in order to determine the tentative taxes under section 108 (c). However, in the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (c) and which because of any reason other than a change in accounting period has a taxable year of less than 12 months, the net income shall not be placed on an annual basis under section 47 (c) (1) and shall not be computed under the exception in section 47 (c) (2).

In any case in which the taxpayer, whether a corporation or a taxpayer other than a corporation, which is subject to the provisions of section 108 (c) has an excess of net long-term capital gains over net short-term capital losses, the alternative tax under section 117 (c) shall be an amount equal to the sum of the proper portions of the tentative taxes determined under section 108 (c), by computing each such tentative tax pursuant to the alternative tax computation provided in section 117 (c), regardless of whether either tentative tax so computed on the alternative basis is larger or smaller than the tentative tax computed without regard to section 117 (c).

Except as hereinafter provided, in the case of a corporation whose taxable year begins in 1945 and ends in 1946, the credit under section 26 (e) for income subject to the tax imposed by subchapter E of chapter 2 (the excess profits tax), for the purposes of the tentative tax computation provided in section 108 (c) (1), shall be the adjusted excess profits net income used in computing the tentative excess profits tax provided in section 710 (a) (7), and for the purposes of the tentative tax computation provided in section 108 (c) (2), no credit for income subject to the tax imposed by such subchapter E is allowable.

In the case of a taxable year of a corporation of less than 12 months, the credit under section 26 (e) for income subject to excess profits tax, for the purpose of the tentative tax under section 108 (c) (1), shall be an amount computed as provided in § 29.47-1 or § 29.47-2 (a) or (b), depending upon whether or not such taxable year is a year of less than 12 months because of a change in accounting period and upon whether the net income has been placed on an annual basis under section 47 (c) (1) or has been computed as the net income for a 12-month period under the exception contained in section 47 (c) (2).

In the case of a corporation computing its excess profits tax under section 721 (relating to abnormalities in income in the taxable period), section 726 (relating to corporations completing contracts under the Merchant Marine Act of 1936), section 731 (relating to corporations engaged in mining strategic minerals), or section 736 (b) (relating to corporations with income from long-term contracts), such credit for income subject to excess profits tax shall be, in the case of the tentative tax computed under section 108 (c) (1), the amount of which the

tentative excess profits tax computed under the provisions of section 710 (a) (7) without regard to the 80 percent limitation provided in section 710 (a) (1) (B) is 95 percent.

With respect to the credit for income subject to excess profits tax imposed by Chapter 2E for taxable years beginning before January 1, 1946, in case the corporation is entitled to use the excess profits credit based upon a constructive average base period net income, see § 29.26-4.

In the case of a taxpayer, whether a corporation or a taxpayer other than a corporation, subject to the provisions of section 108 (c), any credit against the tax otherwise imposed by sections 11, 12, 13, 14, 15, and 400, such as the credit for taxes paid to a foreign country or possession of the United States under section 131, shall be deducted from, and any limitation in such credit shall be based upon, the tax computed under section 108 (c). However, in those instances in which an individual taxpayer computes a tentative tax under section 108 (c) by taking into account the optional standard deduction under section 23 (aa), the following credits shall not be allowed: all credits under section 131 with respect to taxes of foreign countries and possessions, and all credits with respect to taxes withheld at the source under section 143 (a), relating to interest on tax-free covenant bonds.

Example. Corporation A is a domestic manufacturing corporation which makes its income tax returns on the basis of a fiscal year ending March 31. For the fiscal year ended March 31, 1946, it had a gross income of \$1,000,000, which did not include any dividends or interest. Its allowable deductions are \$400,000, its excess profits credit is \$200,000, and there are no adjustments to be made under section 711 in computing excess profits net income. Its adjusted excess profits net income for the purposes of the tentative excess profits tax computed under section 710 (a) (7) is \$390,000. The normal tax and surtax of Corporation A for its fiscal year ended March 31, 1946, are \$73,479.45 and \$46,027.40, respectively, computed as follows:

(h) *Fiscal year taxpayers.* For taxable years beginning in 1945 and ending in 1946, see section 131.

PAR. 34. Section 29.131-8, as amended by Treasury Decision 5452, approved April 19, 1945, is further amended by striking out "The" at the beginning of the paragraph which begins with the words "The normal-tax net income" and inserting in lieu thereof "For taxable years beginning before January 1, 1946, the".

PAR. 35. There is inserted immediately preceding section 29.143-1 the following:

SEC. 102. ALLOWANCE OF SAME EXEMPTIONS FOR NORMAL TAX AS FOR SURTAX. (Revenue Act of 1945.)

(b) *Technical amendments.*

(5) Section 143 (a) (2) (relating to credits against net income in the case of interest on tax-free covenant bonds) is amended by striking out "normal tax exemption provided in section 25 (a) (3) and the surtax".

(c) *Taxable years to which applicable.* The amendments and repeals made by this section shall be applicable with respect to taxable years beginning after December 31, 1945. For treatment of taxable years beginning in 1945 and ending in 1946, see section 131.

PAR. 36. Section 29.143-3, as amended by Treasury Decision 5443, approved March 2, 1945, is further amended as follows:

(A) By inserting immediately after "December 31, 1943," in the second sentence "and before January 1, 1946."

(B) By inserting immediately preceding the sentence which begins with the words "To avoid inconvenience" the following:

For taxable years beginning after December 31, 1945, such withholding shall not be required if there is filed with the withholding agent when presenting coupons for payment, or not later than February 1 of the following year, an ownership certificate on Form 1000 stating:

(1) In the case of a citizen or resident of the United States, that his net income does not exceed his exemptions under section 25 (b); and

(2) In the case of an estate or trust, that the net income does not exceed the credit allowed in section 163 (a) (1).

(C) By striking out the next to the last paragraph and inserting in lieu thereof the following:

A nonresident alien individual not engaged in trade or business within the United States at any time within the taxable year is subject to the tax imposed by section 211 (a) on gross income and is not entitled to any personal exemption or credit for dependents for taxable years beginning before January 1, 1944, to the normal-tax exemption or the surtax exemptions for taxable years beginning after December 31, 1943, and before January 1, 1946, or to the exemptions under section 25 (b) for taxable years beginning after December 31, 1945. A nonresident alien individual who is engaged in trade or business within the United States at any time during the taxable year is entitled to the personal exemption for taxable years beginning before January 1, 1944, and to the normal-tax exemption and the surtax exemption allowed by section 25 (b) (1) (A) for taxable years beginning after December 31, 1943, and before January 1, 1946, and to the exemption allowed by section 25 (b) (1) (A) for taxable years beginning after December 31, 1945. If such nonresident alien is a resident of Canada or Mexico, he is also entitled to the credit for dependents for taxable years beginning before January 1, 1944, and to the surtax exemptions or exemptions for both normal tax and surtax allowed by section 25 (b) (1) (B) and (C) for taxable years beginning after December 31, 1943. The benefit of such exemptions or credit for dependents may not be received by filing a claim therefor with the withholding agent. However, in the determination of the tax to be withheld at the source under section 143 (b) with respect to remuneration paid on or after July 1, 1943, for labor or personal services performed within the United States by a nonresident alien, the benefit of the personal exemption for taxable years beginning before January 1, 1944, or the normal-tax and surtax exemptions or exemption for both normal tax and surtax for taxable years beginning after December 31, 1943, shall be allowed, prorated upon the basis of \$1.40 per day for the period of employment during any portion of which labor or personal services are performed within the United States by such alien. Thus if A, a nonresident alien seaman employed by the X Shipping Corporation, is paid upon the termination of the voyage and such voyage covers 100 days, and A performed personal services within the United States during, or incident to, such voyage, the amount of \$140 will be allocated as the portion of the personal exemption, normal-tax and surtax exemptions, or exemption for normal tax and

surtax to be allowed as a credit against the remuneration of A for personal services performed within the United States during such voyage, and withholding shall be applied against the balance, if any, of such remuneration. If, for example, the total remuneration paid to A for such voyage is \$800, of which the amount of \$120 is allocable to sources within the United States, there is no withholding. As to what constitutes remuneration for labor or personal services performed within the United States, see section 119 (a) (3) and § 29.119-4. The amount of the compensation allocable to labor or personal services performed within the United States together with the amount of the personal exemption, normal-tax and surtax exemptions, or exemption for both normal tax and surtax, prorated as set forth in this paragraph, shall be shown on the annual withholding return, Form 1042.

PAR. 37. There is inserted immediately preceding § 29.163-1 the following:

SEC. 102. ALLOWANCE OF SAME EXEMPTIONS FOR NORMAL TAX AS FOR SURTAX. (Revenue Act of 1945.)

(b) *Technical amendments.*

(6) Section 163 (a) (1) (relating to credits of estates and trusts against net income) is amended to read as follows:

(1) For the purpose of the normal tax and the surtax, an estate shall be allowed, in lieu of the exemptions under section 25 (b) (1), a credit of \$500 against net income, and a trust shall be allowed, in lieu of the exemptions under section 25 (b) (1), a credit of \$100 against net income.

(c) *Taxable years to which applicable.* The amendments and repeals made by this section shall be applicable with respect to taxable years beginning after December 31, 1945. For treatment of taxable years beginning in 1945, and ending in 1946, see section 131.

PAR. 38. Section 29.163-1, as amended by Treasury Decision 5425, is further amended by striking out the caption and the first two sentences of (b) and inserting in lieu thereof the following:

(b) *Exemption allowed estates and trusts for taxable years beginning after December 31, 1943.* For taxable years beginning after December 31, 1943, and before January 1, 1946, an estate is allowed the same normal tax exemption, namely, \$500, as is allowed a single person under section 25 (a) (3) and the same surtax exemption, namely, \$500, as is allowed an individual under section 25 (b) (1) (A). For taxable years beginning after December 31, 1945, an estate is allowed a credit of \$500 against net income for both normal tax and surtax purposes. For proration of such exemptions in the case of a fractional part of a year resulting from termination by the Commissioner under section 146 of the taxable period, see § 29.47-1.

PAR. 39. There is inserted immediately preceding § 29.214-1 the following:

SEC. 102. ALLOWANCE OF SAME EXEMPTIONS FOR NORMAL TAX AS FOR SURTAX. (Revenue Act of 1945.)

(b) *Technical amendments.*

(7) Section 214 (relating to credits of nonresident aliens against net income) is amended to read as follows:

(b) *Taxable years to which applicable.* The amendment made by this section shall be applicable with respect to taxable years beginning after December 31, 1945. For treatment of taxable years beginning in 1945 and ending in 1946, see section 131.

PAR. 46. Section 29.400-1, as amended by Treasury Decision 5425, is further amended as follows:

(A) By striking out the first sentence of the paragraph in (b) which begins with the words "For the purposes" and inserting in lieu thereof the following:

For the purposes of determining whether a taxpayer may elect to pay the tax under Supplement T for taxable years beginning after December 31, 1943, the amount of the adjusted gross income is controlling, without reference to the number of exemptions or surtax exemptions, as the case may be, to which the taxpayer may be entitled.

(B) By striking out the paragraph in (b) which begins with the words "To determine" and inserting in lieu thereof the following:

To determine the amount of the tax for a taxable year beginning after December 31, 1943, the individual ascertains the amount of his adjusted gross income, refers to the schedule set forth in section 400 which is applicable to the taxable year, ascertains the income bracket into which such income falls, and, using the number of exemptions (or surtax exemptions) applicable to his case, finds the tax in the vertical column having at the top thereof a number corresponding to the number of exemptions (or surtax exemptions) to which the taxpayer is entitled. Thus, if for 1946 A has adjusted gross income of \$4,415 and has three exemptions, including his own exemption, his tax is \$481.

(C) By striking out the paragraph in (b) which begins with the words "In any case" and inserting in lieu thereof the following:

If, for a taxable year beginning after December 31, 1943, and before January 1, 1946, the taxpayer and his spouse elect to pay the tax imposed by Supplement T on the basis of a joint return and the return includes income of both husband and wife, the tax determined under the table shall be reduced by 3 percent of the smaller adjusted gross income but in an amount not in excess of \$15.

PAR. 47. There is inserted immediately preceding § 29.401-1 the following:

SEC. 102. ALLOWANCE OF SAME EXEMPTIONS FOR NORMAL TAX AS FOR SURTAX. (Revenue Act of 1945.)

(b) *Technical amendments.*

(10) Section 401 (defining "surtax exemption" for the purposes of Supplement T) is amended to read as follows:

SEC. 401. DEFINITION OF "EXEMPTION." As used in the table in section 400, the term "number of exemptions" means the number of the exemptions allowed under section 25 (b) as credits against net income for the purpose of the normal tax and the surtax imposed by sections 11 and 12.

(c) *Taxable years to which applicable.* The amendments and repeals made by this section shall be applicable with respect to

taxable years beginning after December 31, 1945. For treatment of taxable years beginning in 1945 and ending in 1946, see section 131.

PAR. 48. Section 29.401-1, as amended by Treasury Decision 5425, is further amended by inserting at the end of the first paragraph of (b) the following:

The term "number of exemptions", which, for taxable years beginning after December 31, 1945, is used instead of the term "number of surtax exemptions", means the number of exemptions allowed under section 25 (b) for such years as credits against net income for the purpose of the normal tax and the surtax imposed by sections 11 and 12. See § 29.25-3.

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62) and sections 101, 102, 103, 121 (a), (c), and (d), 122 (g) and (h), 131 (a), and 152 of the Revenue Act of 1945 (Pub. Law 214, 79th Congress))

PART 1301—GENERAL WAGE APPROVALS

RAILWAY CARRIERS

§ 1301.3 *General Wage Approval No. 3.* The President of the United States having found, on May 22, 1946, that wage or salary increases of 2½ cents per hour made in settlement of existing disputes between certain employees subject to the Railway Labor Act, represented by twenty separate labor organizations, and certain carriers subject to the Railway Labor Act, represented by three Conference Committees, would be consistent with the standards then in effect, under the stabilization laws, for the purpose of controlling inflationary tendencies; and the various carriers concerned in these disputes, representing the larger part of the railway industry, having agreed to put such wage or salary increases into effect; and other carriers subject to the Railway Labor Act, but not concerned in these disputes, having in the past followed the practice of increasing wages or salaries in accordance with increases made by the majority of the railway industry; therefore, it is hereby found that the provisions of this section are consistent with, and will aid in the effectuation of the stabilization laws.

Therefore, pursuant to the authority vested in me by Executive Order 9299 of February 4, 1943, Executive Order 9581 of June 30, 1945, section 3 (a) of Executive Order 9697 of February 14, 1946, and section 308 (c) of the Supplementary Wage and Salary Regulations issued by the Economic Stabilization Director on March 8, 1946; *It is hereby ordered:*

(a) Any wage or salary increase not in excess of 2½ cents per hour made on or after May 22, 1946; by any carrier (as "carrier" is defined in Section 1, First, of Title I of the Railway Labor Act, as amended), with respect to any of such carriers' employees who are subject to

the jurisdiction of the Chairman, will be deemed approved.

(b) This section is not applicable to any carrier subject to the Railway Labor Act whose wage-setting practices follow the movements of any industry other than the railroad industry. In the case of organized employees with duly recognized bargaining representatives, the approval conveyed herein is applicable only in the event that the terms of the increase meet with the concurrence of such recognized representatives of the employees.

(c) This authorization is permissive in nature and shall not be construed as directing or ordering payment of such increases as are herein approved.

H. H. SCHWARTZ,
Chairman.

Approved:

CHESTER BOWLES,
Economic Stabilization Director.

[Suspension Order S-937]

DAYLITE MARKETS, INC.

Daylite Markets, Inc., a corporation with offices located at 6423 Colgate Avenue, Los Angeles, California, is engaged in the operation of a chain of food markets. ¹ Filed with the Division of the Federal Register.

§ 1010.937 *Suspension Order No. S-937.*

(a) Neither the Daylite Markets, Inc., its successors and assigns, nor any other person shall do any further construction on the market building and five stores located at 8331-8343 West Third Street, Los Angeles, including putting up, completing or altering the structures, unless hereafter authorized in writing by the Civilian Production Administration.

Chapter XI—Office of Price Administration

PART 3290—TEXTILE, CLOTHING AND
LEATHER

[Conservation Order M-310, as Amended
June 13, 1946]

HIDES, SKINS AND LEATHER

The fulfillment of requirements for the defense of the United States has created shortages in hides, skins and leather for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

- (a) General definitions.
- (b) Provisions applying to all hides, skins, and leather.
- (c) Untanned cattlehides, calfskins, and kips.
- (d) Pickled sheepskins and slats.
- (e) Regular reports.
- (f) Plants without quotas.
- (g) Appeals.
- (h) Communications to the Civilian Production Administration.
- (i) Violations.

§ 3290.196 *Conservation Order M-310*—(a) *General definitions.* (1) "Tanner" means a person in the business of tanning, dressing, or similarly processing hides or skins, who in any calendar month after April 1, 1940, processed or processes more than 500 hides or skins.

(2) "Contractor" means a person in the business of causing hides or skins to be tanned or dressed for his account in any tannery not owned or controlled by him.

(3) "Collector" means a person, including a dealer or importer, engaged in the business of acquiring from others untanned hides or skins for resale, or

removing hides or skins from animals not slaughtered by him.

(4) "Producer" means a person in the business of slaughtering animals.

(5) "Military order" means an order for hides, skins or leather for delivery against a specific contract placed by any of the following, or for incorporation in any product to be delivered against such a contract:

The Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration.

(6) "Military specifications" or "military quality" means, except as herein otherwise specifically provided, the specifications applicable to military orders or the quality of material meeting such specifications.

(7) "Sole leather" means vegetable tanned sole leather unless otherwise specified.

(8) "Whole stock" means sides, crops, backs, bends, shoulders with heads on, shoulders with heads off, bellies and belly centers.

(b) *Provisions applying to all hides, skins and leather.* (1) No person shall process any hides, skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration relating to the processing or production of specific types of leather to meet military or designated civilian requirements.

(2) No producer, collector, tanner, contractor or cutter shall sell, deliver, accept delivery of, cut, use or incorporate in any product any hides skins or leather contrary to any specific direction issued from time to time by the Civilian Production Administration deemed necessary in order to fill military or designated civilian requirements.

(3) Notwithstanding the provisions of any regulation or order of the Civilian Production Administration, no preference rating shall be applied or extended for the delivery of hides, skins or leather, except:

(i) Leather for military orders (excluding sole leather whole stock and cattlehide splits in the blue, pickled, or lime state); or

(ii) When specifically authorized in writing by the Civilian Production Administration pursuant to this paragraph (b) (3) (ii).

(4) [Deleted May 13, 1946.]

(c) *Untanned cattlehides, calfskins and kips*—(1) *Definition.* "Cattlehide", "calfskin" and "kip" mean the hide or skin of a bull, steer, cow or buffalo, foreign or domestic (excluding slunks).

(2) No producer or collector shall put into process or cause to be put into process any untanned cattlehide, calfskin or kip, or portion thereof, other than splits and guestock, except to the extent specifically authorized in writing by the Civilian Production Administration. Applications for such authorization may be made by letter setting forth the quantity of each kind of cattlehide; calfskin or kip, or portion thereof, which the applicant desires to put into process or cause to be put into process.

(3) No tanner or contractor shall purchase or accept delivery of any untanned cattlehide, calfskin or kip or portions of

any of them for any purpose except in quantities specifically authorized in writing by the Civilian Production Administration. A tanner, however, may accept delivery of and tan hides for the account of a contractor who he knows has been specifically authorized in writing to purchase hides. No person shall make any sale or delivery which he knows or has reason to believe would be accepted in violation of this paragraph. Applications may be made on Form CPA-1325 for the purchase of domestic cattlehides, and on Form CPA-1322 for the purchase of domestic calfskins and kips. Authorization to purchase is granted on Form CPA-1323 except from the Reconstruction Finance Corporation which is granted on Form CPA-3507. Form CPA-1323 must be returned to CPA with information showing the applicant's use of the authorization in accordance with the terms of the form. The following transactions may be made without authorization:

(i) Transactions between collectors and between producers and collectors for purposes of resale or delivery within the continental United States;

(ii) The purchase and acceptance of delivery of less than 500 hides or skins in any calendar month by any person (other than a tanner) not specifically authorized to purchase or accept delivery of hides or skins.

(4) In acting under paragraph (c) (3), it will be the policy of the Civilian Production Administration, so far as is practicable, to grant authorizations so that contractors or tanners will obtain cattlehides, calfskins or kips in the proportions that their respective wettings of such skins computed separately during the calendar year 1942, bore to all wettings thereof during that year by all contractors and tanners producing the same type of leather, except that authorizations to tanners or contractors having more than a practicable minimum working inventory may be withheld or may be granted in reduced quantities.

(d) *Pickled sheepskins and slats*—(1) *Effect of paragraph and definitions.* The provisions of this paragraph (d) restrict deliveries of pickled sheepskins and slats as defined below. Imported skins may not be withdrawn from Customs without specific authorization from the Civilian Production Administration. In addition the Civilian Production Administration authorizes deliveries of both domestic and imported skins to tanners and contractors. For the purposes of this order pickled sheepskins and slats are defined as follows:

(i) "Pickled sheepskin" means a de-wooled, untanned, unsplit skin which has been removed from a sheep or lamb, and has been either pickled or otherwise prepared for tanning. It does not include a hair sheepskin even after it has been de-haired or de-wooled, which has been imported from countries other than the following: Argentina, Uruguay, Chile, Peru, New Zealand, Australia, Iceland and Canada. A "hair sheepskin" is a skin from a sheep or lamb which is imported into the continental United States with the hair or wool on it of more than 1/4" in length under Customs classification as free, or conditionally free under

carpet wool bond, or subject to carpet wool duty.

(i) "Slat" means a sheepskin imported into the continental United States in the dried, untanned condition which has no wool or hair on it or has wool or hair less than 1/4" in length of no commercial value.

(2) *Restrictions on withdrawal from Customs.* No person shall withdraw any sheepskins, flesh splits of such skins, or slats from United States Customs within the continental United States except as specifically authorized in writing by the Civilian Production Administration. Before arrival of the sheepskins, flesh splits, or slats in the United States the importer shall notify the Civilian Production Administration, Hide and Leather Branch, Washington 25, D. C., Ref.: M-310, by letter specifying the quantity, type, country of origin, probable date of arrival, name of ship, if available, and the names of tanners or contractors, if any, to whom he prefers to sell pickled sheepskins or slats which he has no quota to receive as a tanner or contractor. The importer, or the tanner or contractor to whom he sells the skins, may be granted authorization by the Civilian Production Administration (on Form CPA-4403) to withdraw them from Customs, under the criteria in paragraphs (d) (5) or (f).

The provisions of this paragraph do not relieve the importer from complying with applicable provisions of General Imports Order M-63.

(3) *Restrictions on purchase and acceptance of delivery by a tanner or contractor.* (i) No tanner or contractor shall purchase or accept delivery of pickled sheepskins or slats for any purpose except in quantities specifically authorized in writing by the Civilian Production Administration. A tanner, however, may accept delivery of pickled sheepskins or slats for the account of a contractor who he knows has been specifically authorized in writing to have such skins tanned for his account either under this paragraph (d) (3) or under paragraph (d) (2). No person shall make any sale or delivery which he knows or has reason to believe would be accepted in violation of this paragraph. In the case of a tanner or contractor who performs the de-wooling operation or has it done for his account, the movement of pickled sheepskins after de-wooling to be tanned for him or for his account shall constitute an acceptance of delivery by him subject to this paragraph.

Application for authorization to purchase, accept delivery or have pickled sheepskins or slats tanned for the applicant's account must be made on Form CPA-4404.

(ii) However, this paragraph (d) (3) does not apply to any pickled sheepskins or slats before they are imported into the continental United States. Also, a tanner or contractor who has been designated in an authorization under paragraph (d) (2) to receive imported pickled sheepskins or slats, may receive them without restriction under this paragraph (d) (3) and without counting them against the total quantities specifically authorized under this paragraph (d) (3).

(4) No person shall split or frize the grain of any pickled sheepskins except as follows: a contractor or tanner may split or frize the grain of any skins (or have them split or frized for his account) which were in his possession before February 16, 1946, or which he has obtained under an authorization from CPA under paragraphs (d) (2) or (d) (3) above.

(5) *Policy.* In acting under paragraphs (d) (2) and (3), it will be the policy of the Civilian Production Administration, so far as is practicable, to grant authorizations so that:

(i) Each tanner and contractor will obtain pickled sheepskins and slats in the proportion that wettings for his own account of such skins during any calendar year 1941 to 1945, inclusive, bears to the total computed by adding together the wettings of such skins for his own account by each tanner and contractor during the calendar year from 1941 to 1945 which he selects.

(ii) Each tanner and contractor will obtain heavy foreign pickled sheepskins (averaging 45 pounds per dozen or heavier) in the proportion that his wettings of such skins during calendar year 1941 bore to the total thereof by all tanners and contractors during the same period.

Authorizations to tanners or contractors having more than a practicable minimum working inventory may be withheld or may be granted in reduced quantities.

(6) *Base period report.* Each tanner or contractor seeking to qualify under paragraph (d) (5) for authorizations under paragraphs (d) (2) or (3) shall file as soon as possible a one-time base period report on Form CPA-4405.

(e) *Regular reports.* Every person described below shall, on or before the 10th day of each month execute and file reports with the Civilian Production Administration, as directed on the respective forms mentioned below:

Tanners and contractors of cat-tle hides.....	CPA-1325
Tanners and contractors of calf-skins and kips.....	CPA-1322
Tanners and contractors of pick-led sheepskins and slats.....	CPA-4404

Failure to file any of the reports mentioned above or any other reports requested pursuant to approval by the Bureau of the Budget shall constitute a violation of this order.

(f) *Plants without quotas.* Any person who owns a plant equipped to process hides or skins but whose past operations do not qualify him under paragraphs (c) (4) or (d) (5), may apply for authorization under paragraphs (c) or (d) by letter. The letter should be addressed to the Civilian Production Administration, Hide and Leather Branch, Washington 25, D. C., and should indicate the name and address of the plant, type and quantity of leather raw material which the applicant wishes to process per month, and the quantity of each type which he has processed during the preceding four calendar months. Authorizations may be granted on an equitable basis to applicants who did not process a monthly average of more than 500 hides and

skins of all kinds during the preceding four calendar months.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications to the Civilian Production Administration.* All reports, applications, forms, or communications required under or referred to in this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref: M-310.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

NOTE: The reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 13th day of June 1946.

Maximum Price Regulation 400 is amended in the following respects:

1. The last paragraph of section 3 is amended to read as follows:

Nothing in this section, however, shall permit the use of a manufacturer's base price which exceeds the maximum price now or hereafter established by the Office of Price Administration for each classification of paper as set forth in the pertinent Appendix of this regulation; *Provided, however,* Where the kind of packing is not specifically set forth in that Appendix, the merchant shall use as the price to which to apply his mark-up, the price charged him by the manufacturer for the particular kind of packing in the sale.

The maximum prices established by the order may be revoked or modified by the Administrator at any time.

Margin as used in that formula shall mean the percentage mark-up over current raw food cost that is currently being realized in your establishment.

(b) If you are the proprietor of an eating or drinking establishment which satisfies the above requirements, you may apply for an adjustment of your maximum prices by submitting in duplicate to your OPA District Office a statement setting forth:

(1) Your name and address and the name and address of your establishment.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch, and dinner), number of persons served per day during the most recent thirty-day period, and any other information which is necessary to describe your establishment and the nature and extent of your operation.

Proposed amendments to the tentatively approved marketing agreement and order, as amended, regulating the handling of milk in the Greater Kansas City Marketing Area.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Cum. Supp. 900.1 et seq., 10 F.R. 11791), notice is hereby given of a public hearing to be held in District Court Room 409, Federal Building, Kansas City, Missouri, beginning at 10:00 a. m., c. s. t., June 18, 1946, with respect to proposed amendments to the tentatively approved marketing agreement and order, as amended, regulating the handling of milk in the Greater Kansas City Marketing Area (7 CFR, Cum. Supp. 913.2 et seq.; 7 CFR 1943 Supp. 913.16; 8 F.R. 2521, 3688, 8294; 11 F.R. 5468). These amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to economic or marketing conditions which relate to the amendments, or any modification thereof, which are herein-after set forth.

The Pure Milk Producers Association of Greater Kansas City, Inc., has proposed the following amendments:

1. Delete § 913.3 (a) (3) and substitute therefor the following:

(3) "Producer" means any person who, with respect to the regulations applicable to milk to be used for consumption as milk or cream in the marketing area, (i) under supervision of the Health Department of Kansas City, Missouri, Independence, Missouri, Excelsior Springs, Missouri, Kansas City, Kansas, or Leavenworth, Kansas, or (ii) under a permit issued by the Missouri State Board of Health or under a permit issued by the State of Kansas authority charged with the inspection for fluid milk in other parts of the marketing area, produces milk which is purchased or received at an approved plant: *Provided*, That any delivery of milk or cream during the period by such person is made only to an approved plant. The phrase "purchased or received at an approved plant" shall also apply to the milk of a producer which a cooperative association causes to be diverted from the farm of such producer to the plant of a non-handler for the account of such cooperative association.

2. Delete § 913.3 (a) (4) and substitute therefor the following:

(4) "Handler" means (i) any person who operates an approved plant from which Class I milk or Class II milk is disposed of in the marketing area, or (ii)

any cooperative association with respect to milk of any producer which such cooperative association causes to be temporarily diverted from the farm of such producer to the plant of a handler or to the plant of a non-handler for the account of such cooperative association.

3. Delete § 913.3 (a) (7) and substitute therefor the following:

(7) "Other source milk" means milk or milk products received from sources other than producers or handlers who receive milk from producers.

4. Add as § 913.3 (a) (11) the following:

(11) "Producer milk" means all milk produced by a producer as defined in (3) of this paragraph and purchased or received by a handler, either directly from such producer or from another handler.

5. Add as § 913.3 (a) (12) the following:

(12) "Approved plant" means any milk plant approved by the applicable health authority for the handling of milk disposed of for fluid consumption as milk in the marketing area and currently used for any or all of the handling functions of receiving, weighing (or measuring), sampling, cooling, pasteurizing, bottling, or other preparation of milk delivered by producers, as defined in (3) of this paragraph, for fluid sales or disposition as milk or cream for fluid consumption in the marketing area.

6. Delete § 913.5 (a) (5) and substitute therefor the following:

(5) The receipts of other source milk and the butterfat content.

7. Delete § 913.6 (a) and substitute therefor the following:

(a) *Milk to be classified.* All milk and milk products purchased or received by each handler at his approved plant shall be classified by the market administrator in the classes set forth in (b) of this section.

8. Delete in § 913.6 (b) the phrase "paragraph (a) of this section," and substitute therefor the following: "paragraph (c) of this section,".

9. Reletter § 913.6 (c) as (d).

10. Add as § 913.6 (c) the following:

(c) *Transfers of milk and cream.* (1) Milk or skim milk sold or disposed of in fluid form by a handler to a plant of a non-handler who distributes fluid milk shall be Class I: *Provided*, That if the non-handlers' other receipts of milk were from qualified dairy farmers and if the market administrator is permitted to audit the records of such non-handler, such milk shall be classified as follows: (i) determine the use of all milk and milk products received at the plant of such non-handler and (ii) allocate the milk disposed of by the handler to such non-handler to the highest use remaining after subtracting, in series beginning with the highest use classification, the receipts of milk by such non-handler from qualified dairy farmers. This provision shall not apply if during any period the receipts of producer milk on the

Greater Kansas City market are less than Class I and Class II sales.

(2) Cream sold or disposed of as fluid cream by a handler to a plant of a non-handler who distributes fluid cream shall be Class II: *Provided*, That if the non-handlers' other receipts of milk were from qualified dairy farmers and if the market administrator is permitted to audit the records of such non-handlers, such cream shall be classified as follows: (i) determine the use of all milk and milk products received at the plant of such non-handler, and (ii) allocate the cream disposed of by the handler to such non-handler to the highest use remaining after subtracting in series beginning with the highest use classification, the receipts of milk by such non-handler from qualified dairy farmers. (5) Cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to another handler who purchases or receives milk from producers shall be Class II: *Provided*, That if the amount of such cream so sold or disposed of is in excess of the amount classified as Class II in such purchasing handler's plant, such excess cream shall be classified in the next highest class in which such purchasing handler has use: *Provided*, That if either or both handlers have purchased other source milk, such cream so sold or disposed of shall be classified so as to return to the producers at both plants the highest class utilization of producer milk: *And provided further*, That if such cream was sold or disposed of from a handler's plant located outside the marketing area to another handler who

purchases or receives milk from producers, such milk shall be allocated to the lowest class usage of such purchasing handler.

NEW YORK METROPOLITAN MARKETING AREA

NOTICE OF PROPOSED AMENDMENTS AND MARKETING AGREEMENTS

Notice of report and opportunity to file written exceptions on proposed amendments to the Order (No. 27), as amended, and to a proposed marketing agreement, regulating the handling of milk in the New York Metropolitan Milk Marketing Area.

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F.R. 11791), notice is hereby given of the filing of this report with respect to proposed amendments to the order, as amended, and to a marketing agreement, regulating the handling of milk in the New York metropolitan milk marketing area, to be made effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to the report with the Hearing Clerk, Room 1331, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 7th day after publication of this notice in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Pursuant to notice of hearing issued on January 9, 1946 (11 F. R. 534), the hearing was convened in Brooklyn, New York, on January 17, 1946, in Watertown, New York, on January 21, 1946, and at Syracuse, New York, on January 22, 1946. Thereafter, by notice issued April 18, 1946 (11 F.R. 4417), a hearing was held at Utica, New York, beginning on May 14, 1946, for further consideration of proposals considered at the prior hearing and for consideration of additional proposals.

The issues developed at the hearing, and relative to which proposed amendments were considered, relate principally to the following:

1. Revision of the minimum prices for the various classes of milk;

2. Revision of butterfat differentials on Class III and Class IV-B milk;

3. Elimination or modification of provisions relating to payments for milk or milk products from other than producer sources;

4. Revision of the definition of Class III milk to include "syruped malted milk";

5. The addition of a new provision imposing an additional charge in connection with past due payments to or from the producer settlement fund;

6. Revision of provisions relating to the suspension and cancellation of pool plant designations, particularly as to requirements or obligations of handlers in supplying milk and cream for the marketing area;

7. The addition of a new provision for allocation of available milk supplies among handlers;

8. Expansion of the area in which location differentials are applicable, and provision for the payment by handlers of all such differentials;

9. The basis of classification as to the period allowed for handling cold storage cream, the movement of frozen desserts or homogenized mixtures in New York City, and the prior assignment in the prescribed accounting procedure, of producers' milk to Class II-B products;

10. The establishment of limitations on the time within which handlers may make claims on the producer settlement fund and within which the market administrator may audit, reaudit or charge handlers;

11. Storage cream payments, particularly as to claims for such payments, reports on the storage of cream, and eligibility for payments;

12. The addition of provisions authorizing the market administrator to recommend to the Secretary amendments to the order, and requiring the market administrator to publicly disclose the name of any person failing to make payments for administrative expense; and

13. Revision and reorganization, primarily for clarification and without significant change in meaning, of provisions (a) requiring announcement of prices by the market administrator, (b) relating to transportation differentials, and (c) relating to the accounting for and classification of skim milk.

Conclusions. With respect to the foregoing issues it is concluded:

1. The Class I-A price provision should be amended by, (a) extending the table contained therein to provide prices beyond the top limits now provided, (b) increasing the price 5 cents per hundredweight during the months of July through March and reducing the price 15 cents per hundredweight during the months of April through June, and (c) providing for a fixed minimum price of not less than \$4.15 during the months of July through December 1946.

2. Evidence in the record indicates that the Class I-B price should be increased, and in view of administrative complications involved in making the Class I-C price a floor under the Class I-B price as specifically proposed in the notice of hearing, it is concluded that the Class I-B price should be the same as the Class I-A price.

3. The Class II-A price provision should be amended by (a) extending the table contained therein to provide prices beyond the top limits now provided and (b) naming a fixed minimum price of not less than \$3.00 per hundredweight during the month of July 1946.

4. The Class II-B price, in order to be more nearly competitive with alternative sources of butterfat, should be the Class II-E price plus 25 cents during the months of August through February and plus 20 cents during the months of March

through July, but not less than the Class II-D price.

5. The Class II-D and Class II-E prices, including the floor now provided, should not be changed, except for rewording to retain the present floor during all months. Deletion of the factor of 10 cents in the floor provisions is not justified without further evidence as to conditions resulting from such a change.

6. In order to maintain a relatively favorable outlet for milk during seasons of the year when adequate outlets returning a higher price to producers may not be available, the Class III price should be reduced 10 cents per hundredweight during the months of March through June and 2 cents during the months of January, February, July, August, and September, but by reason of no apparent necessity for utilizing milk during the months of October, November, and December so as to result in a return to producers lower than somewhat above the present Class III price, the price during such months should be increased 5 cents per hundredweight. Revision of the Class III butterfat differential as herein provided is equivalent to a further reduction in the price of Class III milk of approximately 4 cents per hundredweight on milk of average butterfat content.

7. The Class IV-A and IV-B prices, in order not to be lower than necessary to result in the utilization in these classes of milk for which a higher value use is not available, should remain at their present level except that during the months of relatively short supply (October through February) the Class IV-A price should not be less than the Class II-E price, and the Class IV-B price should not be less than the Class III price. Evidence in the record at this time does not justify adoption of the posting and auction plan proposed relative to Class IV-A and Class IV-B milk.

8. The value of skim milk at the Class V-B price should be deducted from the Class III price before dividing by 35 in determining the Class III butterfat differential in order to more equitably adjust the cost to handlers of milk containing more or less than 3.5 percent butterfat.

9. The factor of "9.45" contained in the formula for determining the Class IV-B butterfat differential should be changed to "9.0" in order to correspond with an earlier change in the Class IV-B price formula.

10. The payments for cream and plain condensed milk from non-pool sources, upon a declaration by the market administrator of a temporary emergency should be reduced for such temporary period to an amount equal to the difference between the Class II-A or Class II-B price and the Class II-E price.

11. The term "other concentrated milk products" should be substituted, in the definition of Class III milk, for the terms "malted milk powder" and "ice cream powder" in order to facilitate the classification of new products.

12. Additional evidence is required before adding a new provision for adjustment of payments past due to or from the producers settlement fund.

13. In order to clarify the order as to the conditions under which pool plant designations may be suspended by the market administrator, and to more effectively and equitably provide for meeting the fluid milk and cream requirements of the market during the months of short supply, the provisions relative to the suspension and cancellation of pool plant designations should be amended to more specifically set forth the conditions under which the market administrator may suspend pool plant designations; to extend the period of August through December to the period of July through February during which pool plant designations may be suspended for failure to meet requirements; to establish varying monthly percentages of milk in certain classes, rather than the present figure of 75 percent, which, if met, will protect the handler from cancellation; and to restrict the classes of milk credited in meeting the percentage requirements during the months of November and December to Class I-A and Class I-C.

14. A new provision for the allocation of available milk supplies among handlers should not be included in the order.

15. Evidence in the record is not sufficient to justify a change at this time in the present provisions of the order relative to location differentials.

16. The order should be amended to permit classification in classes other than II-B of milk used in frozen desserts or homogenized mixtures which are moved from the plant where made to a second plant in New York City and then outside.

17. An amendment should be made setting forth the portion of the handling of cold storage cream required to be performed during the period of time allowed for establishing classification.

18. The provision setting forth the principles governing accounting procedure should be expanded to require assignment pool milk, cream, and plain condensed milk to Class II-B (in addition to Class I-A, II-A, and IV-A) prior to assignment of non-pool milk, cream, or plain condensed milk to Class II-B.

19. Further evidence should be obtained and consideration given the establishment of limitations on the time within which claims may be made by handlers on the producer settlement fund and within which the market administrator may charge handlers before such a provision is included in the order.

20. The order should be amended establishing a limitation on the time within which claims may be filed for storage cream payments; specifically requiring storage cream reports; and making handlers eligible for storage cream payments on butterfat used in Classes II-D, II-E, or II-F during the months of July to March (rather than October to March).

21. The order should be amended authorizing the market administrator to recommend to the Secretary amendments to the order, and requiring the market administrator to publicly disclose the name of any person failing to make the required payments for administrative expense.

22. That provision of the order requiring announcement of prices should be amended to require announcement of all product price quotations used in deter-

mining class prices; to include the term "nonfat dry milk solids"; to substitute the term "U. S. Grade A or U. S. 92-score butter" for the term "92-score butter"; to more specifically define the period within which price quotations for butter and nonfat dry milk solids are to be used in determining Class I-A and Class II-A prices; and to otherwise clarify the provision.

23. Provisions relating to transportation differentials should be amended to eliminate the 5-mile differential as between highway and mileage distances; to specifically designate the latest mileage guide issued by the Household Goods Carriers' Bureau for use in computing highway mileage distances; to designate Columbus Circle as the point in New York City from which mileage distances to plants are to be computed; and to otherwise coordinate the provision with the various class price amendments.

24. The order should be amended by bringing together in one section all provisions relating to the operation of the producer settlement fund, and by changing such provisions to provide for rendering once each month (rather than more frequently) to each handler a statement of his account.

25. The Class V-A and Class V-B definitions and other provisions relating to the classification of and accounting for skim milk should be amended merely for the purpose of clarification.

26. The provision on payments for administrative expense should be amended by changing the date on which such payments are due from the 20th to the 18th day of each month in order to coincide with the date on which producer settlement fund accounts are due, and also to provide for adjustment of errors in such payments.

(a) *Handlers' accounts.* The market administrator shall establish an account for each handler who is required to make payments to the producer settlement fund or who received payments from the producer settlement fund. After computing the uniform price and each handler's pool debit or credit each month, and at such other times as he deems appropriate, the market administrator shall render each handler a statement of his account showing the debit or credit balance, together with all debits or credits entered on such handler's account since the previous statement was rendered.

No handler who, on the 25th day of the month, has not received such payments in full from the market administrator shall be deemed to be in violation of § 927.8, if he reduces his total payments to producers for milk delivered by such producers during the preceding month by not more than the amount of the reduction in payment from the producer settlement fund.

(d) *Handlers' pool debit or credit.* After computing the uniform price for each month, the market administrator shall compute each handler's pool debit or pool credit as follows:

(1) Add to each handler's net pool obligation the value of his Class I-C milk at the uniform price.

(2) Multiply the quantity of milk received by each handler from producers by the uniform price.

(3) If the result obtained in (2) of this paragraph is less than the result in (1), the difference shall be entered on the handler's producer settlement fund account as such handler's pool debit.

(4) If the result obtained in (2) of this paragraph is greater than the result in (1), the difference shall be entered on the handler's producer settlement fund account as such handler's pool credit.

(e) *Adjustments of errors in payments.* Whenever verification by the

market administrator of reports or payments of any handler discloses errors made in payments to or from the producer settlement fund, the market administrator shall debit the handler's producer settlement fund account for any unpaid amount. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall credit the handler's producer settlement fund account for any such amount.

(g) *Storage cream payments.* With respect to butterfat in frozen cream held in one or more licensed cold-storage warehouses for more than 28 days under the conditions set forth in § 927.4 (c) (5), the handler whose net pool obligations included such butterfat as Class II-B milk may make claim, on forms supplied by the market administrator, for payments out of the producer settlement fund, if such butterfat was received from producers during the months of April to September, inclusive, and was used in Classes II-D, II-E, or II-F during the months of July to March, inclusive, or in Class IV-A during the months of January to March, inclusive. The market administrator shall, after investigation and audit of such claim, make payment to such handler out of the producer settlement fund, or issue credit against balances due from such handler to the producer settlement fund, in an amount equal to the difference between the Class II-B price and the class price for such utilization in effect for the month during which the milk was received from producers. Claims pursuant to this paragraph shall be made not later than 30 days after the month during which such frozen cream is utilized: *Provided*, That if the reported utilization of such cream is found by the market administrator to be in error, claims may be made during a period ending not later than 30 days after notice by the market administrator of such error.

33. Amend § 927.8 (e) (herein renumbered § 927.9 (h)) by:

a. Inserting in subdivision (2) (ii) thereof immediately following the words "Class V-B prices," the following: "except as provided in (iv) of this subparagraph."

b. Adding to subparagraph (2) thereof the following:

(iv) If the market administrator finds that there is an inadequate supply of cream or plain condensed milk in the marketing area and that such products are available from non-pool sources, he may declare an emergency for a period ending not more than three months from the date of such declaration, in which case the payment during the period of such declared emergency shall be the difference between the value of the milk equivalent of such cream or plain condensed milk at the appropriate Class (II-A or II-B) price in the 201-210 mile zone and at the Class II-E price in the 0-250 mile zone from Boston.

c. Changing subparagraph (4) thereof to read:

(4) The amount due pursuant to this paragraph shall be entered on the han-

dlers' account as a debit immediately after the filing of the report pursuant to § 927.6 (a).

34. Amend § 927.9 (herein renumbered § 927.10) by changing the word "20th" to "18th" and by adding to the end thereof the following: "Whenever verification by the market administrator discloses an error in the payment made by any handler, such error shall be adjusted not later than the date next following such disclosure on which payments are due pursuant to this section."

FEDERAL POWER COMMISSION.

[Docket No. G-735]

NATURAL GAS PIPELINE CO. OF AMERICA
NOTICE OF APPLICATION

JUNE 11, 1946.

Notice is hereby given that on June 3, 1946, an application was filed with the Federal Power Commission by Natural Gas Pipeline Company of America ("Applicant"), a Delaware corporation with its principal place of business at Chicago, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize (1) the construction and operation of certain facilities in Ogle County, Illinois; and (2) the sale of natural gas to Rochelle Gas Company

for resale for consumption in the City of Rochelle, Illinois, and its environs. Applicant, together with Texoma Natural Gas Company, owns and operates an integrated natural-gas transportation system which includes, among other facilities, a 24-inch main pipeline extending from the Panhandle Field in Texas in a general northeasterly direction across portions of Oklahoma, Kansas, Nebraska, Iowa and Illinois to a point near Joliet, Illinois; and a 20-inch lateral pipeline connecting with such main pipeline at Geneseo, Illinois, and extending therefrom in a northeasterly direction to a point approximately 29 miles south of the Wisconsin State line.

Applicant delivers natural gas for distribution in numerous communities in Illinois, Indiana, Iowa, Nebraska and Kansas.

The facilities which Applicant seeks authorization to construct and operate are described as follows:

A two-inch pipeline in Ogle County, Illinois, commencing at a point of connection with Applicant's aforementioned 20-inch lateral pipeline, in Township 41 North, Range 1 East, and extending therefrom in a southeasterly direction for a distance of approximately six miles to a point near the city limits of Rochelle, Illinois, connecting with a regulating and metering station to be there constructed; such station; and all necessary appurtenances thereto.

The application recites that Rochelle Gas Company has been manufacturing and distributing carbureted water gas in and in the vicinity of Rochelle, which in 1945 had an estimated population of 5,000; and that said company proposes to discontinue the manufacture of carbureted water gas and to substitute natural gas in lieu thereof.

The application further recites that it is contemplated that the pipeline system of Applicant will permit a pressure of 500 pounds per square inch at the point of commencement of such two-inch pipeline; that the capacity to deliver of such pipeline is estimated to be 1200 Mcf per day at a terminal pressure of 50 pounds per square inch; and that the requirements of Rochelle Gas Company will be supplied from gas reserves presently connected with the intake of Applicant's transportation system.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Natural Gas Pipeline Company of America should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen (15) days from the date of this publication, a petition or protest in accordance with the

Commission's provisional rules of practice and regulations under the Natural Gas Act.

REROUTING B & O LAKE CARGO COAL TO CANADA

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 12th day of June A. D. 1946.

It appearing that a dispute has arisen between the management and the employees on the lake cargo carriers operating under Canadian registry on the Great Lakes and that the vessels of said carriers plying between Charlotte Docks, Rochester, New York, and Canadian Ports have ceased operation stopping the transportation by lake vessel of coal in bulk from Charlotte Docks, Rochester, to Canadian destinations, that such cars loaded with coal are being delayed; that the delay to such cars is causing and has resulted in a serious shortage of coal cars for all roads and especially the Baltimore and Ohio Railroad; in the opinion of the Commission an emergency exists requiring immediate action to prevent a short-

age of coal cars in the coal regions in the Eastern part of the United States; it is ordered, that:

(a) *Rerouting coal from West Virginia.* Upon reconsignment by the owners of the coal from points of origin south of Fairmont, West Virginia, moving via the Baltimore and Ohio Railroad, now held at Charlotte Docks or in transit to Charlotte Docks, that carrier is hereby directed (1) to forward that coal by the way of Genesee Dock, Ontario Car Ferry to Cobourg, Ontario, so that it may move therefrom; or (2) in the event the said car ferry ceases operation, then via all-rail routes to junctions with Canadian railroads so that it may move therefrom to Canadian destinations.

(c) *Divisions.* That in executing the directions of the Commission contained in this order, the common carriers involved shall proceed without reference to contracts, agreements or arrangements now existing between them with reference to the division of rates of transportation applicable to said traffic; that such divisions shall be during the time this order remains in force, voluntarily agreed upon by and between said carriers, and that, upon failure of the carriers to so agree, said division shall hereinafter be fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(d) *Application.* The provisions of this order shall apply only to foreign commerce. This order shall apply only to cars of coal shipped prior to the effective date of this order.

(e) *Regulations suspended—announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this order is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing such suspension.

(f) *Effective date.* This order shall become effective at 7:00 a. m., June 13, 1946.

(g) *Expiration date.* This order shall expire at 7:00 a. m., June 27, 1946, unless otherwise modified, changed, suspended, or annulled by order of this Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 49 U.S.C. 1 (10)-(17), 15 (4))

[Rev. SO 119, Order 250]

NATIONAL ENAMELING AND STAMPING CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* National Enameling and Stamping Company of Milwaukee, Wisconsin, may compute its adjusted ceiling prices for galvanized household utensils of its manufacture by increasing by 10.8 percent the ceiling prices to each class of purchaser as established by Maximum Price Regulation No. 188.

As used in this paragraph "ceiling prices as established under Maximum Price Regulation No. 188," shall mean the ceiling prices established under that regulation without the inclusion in those ceiling prices either directly or indirectly of any adjustment, either individual or industry wide.

(b) *Ceiling prices of purchasers for resale.* (1) A purchaser for resale, who had an established ceiling price prior to the effective date of this order for any article, whose manufacturer's ceiling price was adjusted in accordance with the provisions of this order, may increase that established ceiling price by 10.8 percent.

(2) A purchaser for resale who had no established ceiling price prior to the effective date of this order for any article whose ceiling price is subject to this order, shall determine his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the resale ceiling price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted ceiling prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests contained in the application for price adjustment filed by National Enameling and Stamping Company, on March 21, 1946, and all amendments and additions thereto, not specifically granted by this order are hereby denied.

(f) The provisions of Supplementary Order No. 153 shall have no application to any sale or delivery of any article subject to this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 13th day of June 1946.

Issued this 12th day of June 1946.

[SO 133, Order 47]

KING AXE AND TOOL CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* The King Axe and Tool Company, Oakland, Maine, may increase by 10 percent its current maximum prices (exclusive of any permitted increases), for sales of (axes) which it manufactures.

(b) *Maximum prices of purchasers for resale.* A reseller shall calculate his ceiling price by adding to his invoice cost

the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by the OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Reports.* The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C.

The provision of Supplementary Order No. 153 shall not apply to resale prices of articles covered by this order.

(f) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(g) *Effective date.* This order shall become effective on the 13th day of June 1946.

Issued this 12th day of June 1946.

[Region VIII Order G-19 Under RMPR 251]

ELECTRICAL SERVICES IN SPOKANE, WASH., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by sections 9 and 20 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for all "electrical services" performed in the Spokane Area, which comprises the following:

In the State of Idaho. The Counties of Benewah, Bonner, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, and Shoshone.

In the State of Washington. The Counties of Adams, Asotin, Benton, Columbia, Douglas, Perry, Franklin, Garfield, Grant, Lincoln, Pend Oreille, Spokane, Stevens, Walla Walla, and Whitman, and that portion of Okanogan County lying south of a line extending northeast from the most northerly point of Douglas County.

(b) *Maximum prices for jobs selling under \$100.00.* The maximum price for "electrical services" selling for less than \$100.00 shall be the sum of a charge for labor, a charge for the materials used, and such other charges as may be permitted by this order. The maximum charge for labor shall be the sum of separate charges determined by multiplying the number of hours of labor performed in each category by the maximum hourly rate provided for that category by subparagraph (b) (1). The maximum price of the materials used shall be as provided by subparagraph (b) (2).

(1) *Maximum labor charge:* (i) For sellers who employ one or more workmen. The maximum hourly rate for each workman shall be the "labor cost" per hour multiplied by 1.5 (rounded to the nearest 5 cents), but not in excess of \$2.50.

(ii) For sellers who employ no workmen, but who perform their own work on the job, the maximum hourly rate shall be \$2.25.

(iii) *Measurement of hours.* The total number of hours per workman chargeable against any job is to be computed from the time such workman leaves the seller's shop or field office or the previous job (whichever is later) until he completes the job (if he proceeds to another job) or until he returns to the shop or field office (if he proceeds there directly), excluding, however, any stops or delays in transit. Time in transit to and from any job may be charged only once each day. The man-hours for which charges may be made shall not exceed those actually paid for by the seller and shown in the seller's pay roll and on any records or invoices which this order may require the seller to prepare, issue, or keep.

(iv) *Overtime work* may be charged for at 1 1/2 times the maximum hourly rate stated above, except that overtime may be charged at two times such rate whenever sellers are required by union contract to pay labor at such doubled rate; but an overtime rate may be charged only if overtime work is performed at the customer's written request and only if the employee (if any) is paid

on an overtime basis, and only if the work is performed on Saturday, Sunday, a legal holiday, or after the performance of a standard day's work on a given day and before 8:00 a. m. of the following day.

(v) *Minimum charge.* If a job requires less than one man-hour, there may be collected a minimum charge equal to the maximum charge for one hour.

(2) *Materials.* (i) The maximum price for any materials shall be the lower of the following:

(a) The highest price charged for such material by the seller during March 1942, plus any increase authorized by the Office of Price Administration.

(b) The price published as of the date of the issuance of this order in Moore's Electrical Goods Price Book published by Moore Price Services, Inc., Lloyd Bldg., Seattle, Washington; or, for materials not priced in such book, the maximum price provided by the appropriate maximum price regulation for uninstalled sales of such materials at retail or the seller's cost (not exceeding legal cost) plus 50%, whichever is lower.

(ii) Only materials actually and necessarily used on the job shall be charged to the customer.

(c) *Jobs selling for \$100.00 or more.*

(1) For any job selling for \$100.00 or more, the maximum price shall be the sum of labor costs, material costs, other direct costs, and a margin not exceeding the following:

Total labor, material, and other direct costs:	Margin— Percent of cost
For the first \$200 in costs.....	25
For the next \$300 in costs.....	20
For costs over \$500.....	15

Provided, That:

(i) For sellers in business during March 1942, the margin shall not exceed the margin used in the most comparable job in the period January 1, 1939, to March 31, 1942, or the margin stated above, whichever is lower; and

(ii) No margin may be added to the cost of subcontracts for "electrical services" and the margin to be added to the cost of subcontracts for other services incidental or supplemental to the main contract shall be 10% of costs; and, for the purpose of determining the margin applicable to other remaining costs, subcontract costs shall be treated as the first costs incurred on a job.

(2) Other Direct Costs include only the cost of subcontracts (subject to the limitations stated above), workmen's compensation insurance, Social Security tax, unemployment compensation tax, building permits and fees, and rentals of equipment covered by Maximum Price Regulation No. 134, the equipment rentals to be charged at prices not exceeding the maximum rental rates.

(3) Administrative and overhead costs, selling expenses, and those mileage and out-of-town expense allowances for which provision is made elsewhere in this order are not to be included as direct cost.

(d) *Estimates.* Where work is performed on a cost-plus job on the basis of an estimate submitted by the seller, the maximum price therefor shall be that provided by paragraph (b) or (c) of this order, whichever is applicable,

but shall not exceed the estimated price by more than 15%, except to the extent permitted by paragraph (e) relating to extra work.

(e) *Other charges—*(1) *Mileage.* For necessary travel to and from a job when the work is performed at a place more than 15 miles from the seller's nearest place of business, as measured along the most direct customary route, mileage may be charged at the rate of 6 cents per mile per day per job (both ways), but only for the excess over such distances.

(2) *Out-of-town expenses.* A seller shall be reimbursed for expenses paid by him for employees required to remain out of town for the purposes of the job, but not in excess of \$5.00 per day per employee.

(3) *Extra work.* Any changes in plans or specifications made at the written request of the customer involving an increase in the cost of the work covered by the original estimate shall be charged for under the terms of paragraph (c); *Provided, however,* That the margin used shall not exceed 15%.

(4) *Authorization by customer.* The above items must be explained to and authorized by the customer prior to starting the work and invoiced properly as a separate item.

(f) *Lump-sum contract.* Where a seller offers to supply services of the kind covered by this order on the basis of a lump-sum contract, the seller agreeing to charge a fixed price, such price may exceed the maximum price computed in accordance with the terms of paragraph (c) of this order but not by more than 5%. With respect to such job the seller shall keep records as required by other paragraphs of this order, these records to be available for inspection by the Office of Price Administration.

(g) *Definitions.* (1) "Electrical services" means the installation, alteration, or repair of any electrical device, wiring, equipment, or materials in a building, structure, or construction project, or the sale of such articles on an installed basis.

(2) "Labor cost" means the wage rate in effect on October 3, 1942, or the wage rate which has been established by proper governmental agencies for the particular classification of labor and in the area in which the seller has his business address, but not more than the wage rate actually paid. In the case of a seller performing some of the direct work on a job himself, his "labor cost" therefor shall be deemed to be the wage rate prevailing in the area for journeyman electricians.

(3) A standard day's work shall consist of eight hours unless otherwise stipulated in a contract between labor union and seller.

(h) *Scope of this order.* (1) The maximum prices established by this order include all expenses, and no additional charge may be made for any other cost or incidental services.

(2) Lower prices than the maximum prices established by this order may be charged, demanded, offered, or paid.

(i) *Records and invoices.* Every person making sales subject to paragraphs (b) and (c) of this order shall furnish each customer an invoice or sales slip on

which he has certified that the price charged does not exceed the price permitted by this Order No. G-19, and showing the time spent by each classification of employee on the job, the rate charged for each such classification, the materials for which charges are made and their quantities and the charges therefor, the names and addresses of the buyer and seller, the location of the job and the date of its completion, and an itemization of any other charges (such as for mileage or "other direct costs") authorized by this order. Such seller shall also keep records showing the same information, and in addition, the itemized cost of the labor and materials involved. These records and duplicates of such invoices or sales shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(j) *Relation of this order to Revised Maximum Price Regulation No. 251.* Except as otherwise provided in this order, this order supersedes sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order; however, all other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, shall apply to sales covered by this order. As to such sales it also supersedes any other order issued under section 9 of Revised Maximum Price Regulation No. 251.

(k) This order may be revoked, amended, or corrected at any time.

This order shall become effective June 7, 1946.

Issued this 28th day of May 1946.
