DECLASSIFIED E.O. 12065 SECTION 3-402/NNDS NO. [illegible]

E-

1 March 1950

TO: The Supreme Commander Allied Powers
THROUGH: The Minister of International Trade & Industry Dept.
FROM : Daiichi Sangyo Co., Ltd.
President,
Yoshiro Mitani
SUBJECT: Application for the Permission to Use Machineries & Equipment Designated for Reparations.

1. Name of Plant: Daiichi Sangyo Co., Ltd.
2. Location of Plant: 2151 Jibikichō, Fukuyama City, Hiroshima Prefecture.
3. Name of Products:
Permit No.: None
Permission Granted By: Headquarters 94th HQS & HQS Detachment Military Government Group APO 24. Kure Honsyu
Date of Permission: 28 February 1946
Name and Quantity Products Permitted.
Supplementary engines for Ships.....80
Agricultural Machinery.....300
4. A.U. Machine and Equipment
67 units
(See attached Sheet No.1)
5. Reasons for Application.
The A.U. Machineries and equipments have allready been approved for use by the officer of the Hiroshima Military Government in charge in 1948 with the attached list submitted to the same according to instructions.
These have beenapproved orally by the said Military Government through the prefectural office.
By the instruction of the Civil Affairs Region, we are at this time applying for permit anew. These machineries and equipments are indispensable to the operation of our plant and therefore, we wish to ask you to grant us the requested permission. In this application (attached sheet No.1), 12 machines are omitted from the former list (attached sheet No.2), for these machines have become unnecessary by the low production recently.

2. PURPOSE:

Surveillance of reparations custody and maintenance at Daiichi Sangyo (11-11).

3. BACKGROUND:

Routine

4. DISCUSSION:

Twenty-seven (27) of the sixty-seven (67) authorized use items at this installation have been rescinded from authorized use due to scracity of orders for products of this plant. The rescission of these items has been reported to CPC/SCAP and this headquarters.

Two (2) items of equipment were authorized for movement and use from this installation to Iyo Iron Works Fukuyama City on 20 October 1950 by ESS/SCAP. These items have not been removed as yet due to illness of plant manager of Iyo Iron Works who is hospitalized with a serious ailment. Removal of the two (2) items will be accomplished when his health is restored.

5. CONCLUSION:

Machinery inspected and maintenance found to be excellent.

FIELD TRIP REPORT

R.G. STRADLEY

Fukuyama
26 July 1950

1. Purpose:

Inspection of Reparations Machinery at Daiichi Sangyo K.K., MUN. 11-11, 11-5(136).

2. Background:

Surveillance in accordance with O.D. 11.

3. Discussion:

Reports on the principal products and raw materials, power situation and labor are in our file.

The company submitted application for the deletion of 27 A.U. machines from a total of 67 A.U. on 20 July 1950. Of the remaining 40 reparations items, 29 items consists of machine tools and 11 items are line shafts and surface plates, etc.

The company applied for the deletion of 27 items in view of the fact that Mr. Laffin, CPC, SCAP, GHQ mentioned at the time of his inspection of the plant in April 1950 that 67 reparations items in use by the 30 employees was rather unbalanced. The company was also under the impression that it would take at least 5-6 months to get a conversion permit from SCAP, GHQ.

However, the company is going to increase the number of employees from the present 3 to 10 in the near future and is convinced that a large volume of orders for semi-diesel engines will be coming for wooden ships for Korea, especially when the Korean situation is stabilized, in which care those 27 A.U. machines, for which an application for deletion has been made, will become essential.

4. Conclusions:

The reparations machineries were found to be in satisfactory condition.

5. Recommendations:

It was recommended to a company official that if the comapny should intend to manufacture diesel engines in the near future and will have to

DECLASSIFIED E.O. 12065 SECTION 3 402/NNBS NO:

use the 27 items no objection is offered from this headquarters to retain them in the status of A.U. by cancelling the application so long as the machines will be kept in good condition and custody and that if the company should intend to manufacture other products than stipulated in the conversion permit a copy of application be submitted to this headquarter to expedite the approval.

Inspection of Reparations Machinery at Plant 11-11/~~11-35 (136)~~ 11-5(136)
(Daiichi Sangyo)

2. **Background:**

Surveillance in accordance with O.D. 51 dated 27 September 1949.

3. **Discussion:**

Plant at present employs 30 people, 3 of which are office workers. Items manufactured are farm machinery and engines for fishing vessels. Routine machine repair work is also done. Machinery in authorized use was verbally permitted on 23 March 1948 by HMGT after application was submitted. Of the 79 machines marked "U", 39 are not being used at present due to lack of work. An increase is expected during the coming year. Company has 56 single purpose machines in dead storage which they want to scrap. All are class 2 and 3 machines.

4. **Conclusion:**

Machinery inspected and found well marked and maintained.

5. **Recommendations:**

Plant should have in its possession written authority for machines now in use.
