

STAYING CONNECTED WITH PHYSICAL DISTANCING

1

E-MAIL, CALL, FACETIME

If you have access to a phone or computer, there are many ways to keep in contact with your loved ones! Send an e-mail, call your friend, or Facetime at the end of the day to fill them in on what they've missed!

2

WRITE A LETTER, MAIL A CARD

A fun, 'older' tradition to do - write someone a letter! Now is a great time to make a new penpal or send a 'thinking of you' card to check in

3

DRIVE-BY AND WAVE

Have a parade through your friends' neighborhoods and wave to them from your car! This is a fun way to see everyone while staying 6 feet away.

4

HOST A WATCH PARTY

Pick out a movie & a time for you and your friends to watch. Afterwards, you can talk about what you thought! For even more fun, video chat while watching the movie!

5

MAKE A PHOTOSHOW

This is an entertaining and easy way to stay connected to your friends & family! Look through old photos & reminisce on fun memories. After you're done, make a slideshow and send it out to your friends
