THE ARLINGTON

CHILSON'S ENTIRELY NEW AND GREATLY IMPROVED PORTABLE RANGE, 1877.

I desire to call special attention of every housekeeper in want, or who ever expect to want a STRICTLY FIRST CLASS RANGE, to the great improvements over my old pattern Range, in broiling, heating water, anti-clinker grate, nickel-plated trimmings, towel dryer, four extra shelves, and extra heavy, fine, smooth castings, of rich and beautiful design, no place for dirt, rust or grease to lodge to keep women scrubbing, but always a clean surface. This beautiful range has no equal in this country. This will be proved on examination and trial.

MASS.

From _____ B. 2. 20

Added Sept. 1877. No. _____

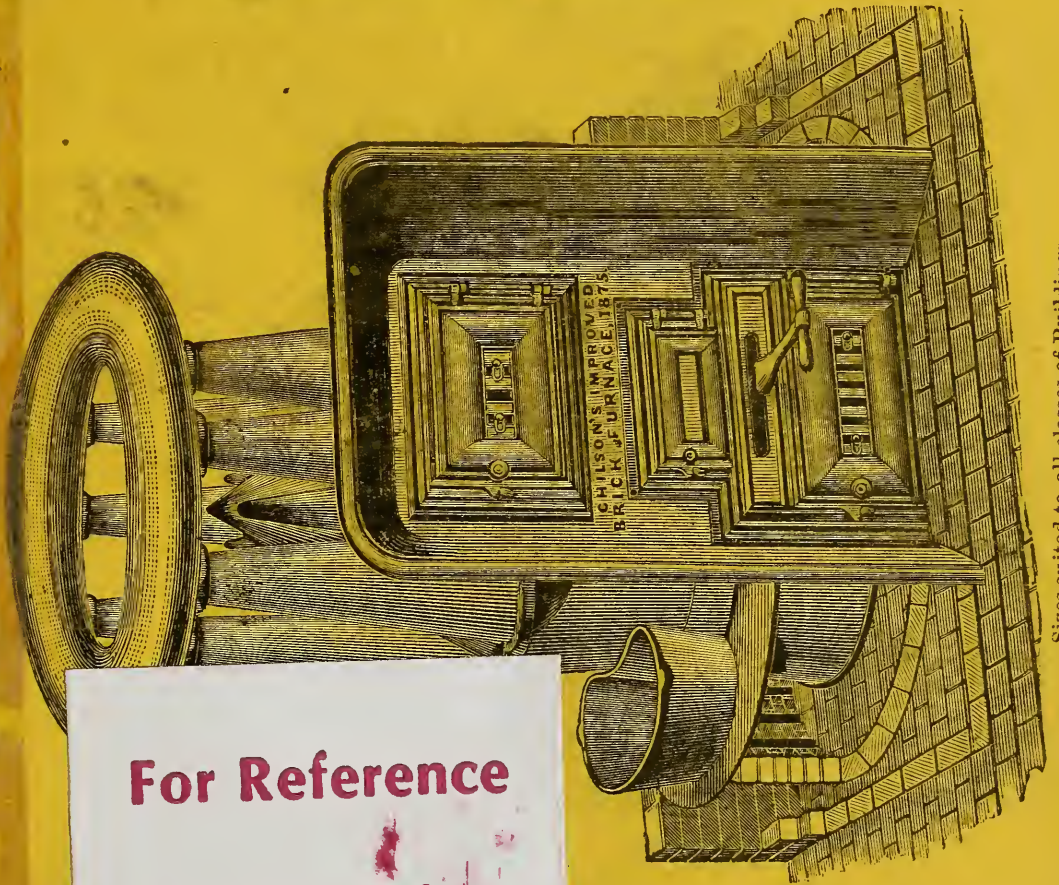

I also desire to call the attention of gentlemen, in want of the most substantial and beautiful range the brick setting ever put up in any kitchen, to my ARLINGTON BRICK RANGE, which is acknowledged by all to be the most splendid piece of work, for a range, ever got up. Also the *Chilson Brick Set Range* that has acquired such a high reputation in the use of over ten thousand ranges, in giving the most perfect satisfaction. This range comes at less price than the Arlington, and is within the reach of all. A full line of Furnaces, Ranges, Stoves, etc., at the lowest market prices. Special attention given to putting up furnaces and ranges in any part of the country. Nothing but what is strictly first-class work is manufactured by me.

P R E F A C E .

The time has again come for issuing a new edition of the WALTHAM AND WATERTOWN DIRECTORY, and, as usual, we have used all our resources for the one object of giving to our patrons and the public, a reliable Directory.

Eight years have passed since our first issue of this work, and we trust the business men and citizens will find it of sufficient value to them, to give us enough substantial aid to warrant us to continue the publication in the future.

We have been engaged in compiling and publishing Directories for nearly twenty years, and our experience during that time has enabled us to so systematize and extend our business, that from a comparatively small beginning, we now publish more Directories than any firm in this country. We keep constantly employed a large corps of canvassers, compilers, proof-readers, printers and binders, and the utmost care is taken in each department to avoid errors, and to present our works in an acceptable manner to our patrons.

Having lately removed our office from 242 Washington street, to more commodious quarters in the granite building, No. 22 School street, we shall be pleased to see all of our patrons and friends who may wish to refer to our Directories, complete files of which are always kept upon our shelves.

Very respectfully,

GREENOUGH & CO.,

Editors and Publishers.

THE BROWN IMPROVED STEAM HOUSE FURNACE

Is the latest invention of the kind, and as a matter of economy excels any Furnace yet constructed. It is *Self-Regulating*. It is *Cheap*, when compared with prices of other Furnaces of the same capacity. A glance at the cut shows at once its superior advantages, i.e., *the large area of heating surface brought directly into contact with the fire by the combination of Boiler and Fire-Box, and the impossibility of burning an immense amount of coal in so small a space.* We invite a thorough examination of its merits.
