

42

MR. H. ADAMS,  
SURVEYOR,  
HULL.

1853

LLOYD'S REGISTER  
OF  
BRITISH AND FOREIGN SHIPPING.

ESTABLISHED 1834.

**Notice.**

FROM the number of alterations and additions constantly returned to this Office, it is necessary that the Register Books should be posted every Week; it is therefore requested that Subscribers in London will be particular in sending their Books to this Office for that purpose.

Supplements will be sent, as heretofore, to Subscribers in the Country and those resident abroad.

Parties discovering any errors are requested to communicate the same to the Secretary, in order that immediate notice may be taken thereof.

It is particularly requested that Subscribers leaving town, will direct their Books to be sent to the Office, where they will be kept regularly posted during their absence.

As all vessels are required to be surveyed periodically, annually if practicable, the *date of Survey* is the criterion of their state of efficiency at that time only.

By order of the Committee,

CHARLES GRAHAM,

*London, 1st July, 1853.*

*Secretary.*

2, *White Lion Court, Cornhill.*

N.B.—The Subscription to be paid on the delivery of the Book.

# LLOYD'S REGISTER BOOK.

NOTICE  
TO  
MERCHANTS, SHIP-OWNERS, AND UNDERWRITERS.

*Extracts from the Rules relation to the Periodical Surveys.*

## LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

### NOTICE.

The Rules, Sections 31, 40, 46<sup>51</sup>, 52, 53, 54, 55, and 60, having been amended or altered since the last edition of the Work, attention is particularly directed thereto; and likewise to the amended Tables of Timber, Tables of Bolts, &c.

By order of the Committee,  
**CHARLES GRAHAM, Sec.**

2, White Lion Court, Cornhill,  
1st July, 1853.

*See Supplement Vol 12 Granville I built at Palma 1841  
4m 52 CI*

Whenever a Ship is stripped, the Bottom is to be caulked if necessary.

N.B.—In reference to the Rules above quoted, and in order to prevent the disappointment arising from Ships losing their Characters, from want of Survey, it is respectfully intimated that the duty of giving NOTICE FOR SURVEY, rests with the Owners, their Masters, or Agents.

CHARLES GRAHAM, *Secretary.*

No. 2, White Lion Court, Cornhill,  
1st July, 1853.

# STUDY OF THE

The following is a list of the names of the students who have been admitted to the course of study in the Department of Education for the year 1900-1901. The names are arranged in alphabetical order of their surnames.

1. Adams, John  
2. Adams, William  
3. Adams, Charles  
4. Adams, Thomas  
5. Adams, James  
6. Adams, Robert  
7. Adams, Henry  
8. Adams, George  
9. Adams, Edward  
10. Adams, Richard  
11. Adams, Benjamin  
12. Adams, Samuel  
13. Adams, Daniel  
14. Adams, Matthew  
15. Adams, Joseph  
16. Adams, Patrick  
17. Adams, Michael  
18. Adams, John  
19. Adams, William  
20. Adams, Charles

# LLOYD'S REGISTER

OF

## BRITISH AND FOREIGN SHIPPING.

---

### RULES AND REGULATIONS.

1. THE operations of the Societies of the two Register Books of Shipping formerly printed for the use of Merchants, Ship-Owners, and Underwriters, having ceased in the year 1834, this Society was then established for the purpose of obtaining a faithful and accurate Classification of the Mercantile Shipping of the United Kingdom, and of the Foreign Vessels trading thereto, and for the government of which the following Rules and Regulations have been from time to time adopted.

2. A Register Book to be printed annually for the use of Subscribers.

3. Each person subscribing the sum of Three Guineas per annum (or such other sum as the General Committee may fix), to be considered a Member of the Society, and entitled *for his own use* to one copy of the Register Book.

4. The subscription of Public Companies, or Public Establishments (not being engaged in Marine Insurance), to be Ten Guineas per Annum.

5. The subscription of Marine Insurance Companies to be regulated by the Committee on special application, in each case, but not to be less than Ten Guineas per Annum.

6. The Register Book to be periodically posted throughout the year.

7. For the convenience of Subscribers not resident in London, a Supplement, containing the additions to, and corrections made in, the Register Book, to be printed fortnightly in such convenient form, as to admit of its transmission by Post, so that such parties may be furnished, from time to time, with the latest and most complete information.

8. The superintendence of the affairs of the Society to be under the direction of a Committee in London, of twenty-four members, consisting

of an equal proportion of Merchants, Ship-Owners, and Underwriters. The Chairman for managing the affairs of Lloyd's, and the Chairman of the General Ship-Owners' Society, and also the Chairman and Deputy Chairman of the Liverpool Committee, and the Chairman of the Rotation Committees for the time being, to be, *ex officio*, Members of the Committee.

9. Six of the Members, namely, two of each of the constituent parts of the Committee, to go out annually by rotation, but to be eligible to be re-elected.

10. The vacancies so arising to be filled up by the election of two Underwriters and one Merchant by the Committee for managing the affairs of Lloyd's, and two Ship-Owners and one Merchant by the Committee of the General Ship-Owners' Society.

11. The Committee to appoint from their own body, annually, a Chairman and Deputy Chairman, and also a Chairman for a Sub-Committee of Classification.

12. The Committee to appoint a Sub-Committee of Classification, to be so regulated that each Member of the General Committee may, in rotation, take his turn of duty therein throughout the year.

13. The Secretary, Clerks, and Servants of the Society, and the Surveyors to be appointed by, and be under the direction of the General Committee.

14. Special meetings to be convened by order of the Chairman, or Deputy Chairman, or on the requisition of any three members.

15. All elections and appointments to be made by ballot.

16. No Member of the Committee to be permitted to be present on the decision of the classification of any ship of which he is the owner, or wherein he is directly or indirectly interested.

17. The Committee to be empowered to make such By-laws for their own government and proceedings as they may deem requisite, not being inconsistent with the original Rules and Regulations under which the Society was established; but no new Rule or By-law to be introduced, nor any Rule or By-law altered, without special notice being given for that purpose at the meeting of the Committee next preceding that at which such Motion is intended to be made; such notice to be inserted in the summons convening the meeting. No new Rule, or alteration in any existing Rule, materially affecting the classification of ships, to take effect until the expiration of six months from the time it shall have been determined upon.

18. All Reports of survey to be made in writing by the Surveyors according to the forms prescribed, and submitted for the consideration of the General Committee, or of the Sub-Committee of Classification; but the

character assigned by the latter to be subject to confirmation by the General Committee.

19. The reports of the Surveyors, and all documents and proceedings relating to the classification of ships, to be carefully preserved, and parties proving themselves to be interested therein, to have access to the same under the direction of the Chairman or Deputy Chairman.

20. Foreign ships, and ships built in the British possessions abroad where there is not a Surveyor (*See also Section 51*), to be surveyed on their arrival at a port in the United Kingdom; but a due regard is to be had to the circumstance of their having been exempted from the supervision while building to which all British ships are subjected, and the character to be assigned to them is to be regulated according to their intrinsic quality, and from the best information the Committee can obtain.

21. In every case in which the Character assigned to a ship may be proposed, on survey, to be reduced, notice is to be given in writing to the Owner, Master, or Agent, with an intimation that if the reduction be objected to, the Committee will be ready to direct a special survey, on the Owner, Master, or Agent, agreeing to pay the expenses attending the same, provided on the said survey there shall appear sufficient ground for the proposed reduction.

22. When the Surveyors consider Repairs to be requisite, they are respectfully to communicate the same in writing to the Owner, Master, or Agent, and if such repairs be not entered upon within a reasonable time, a corresponding report is to be made to the Committee for their decision thereon.

23. Parties considering the repairs suggested by the Surveyor to be unnecessary or unreasonable, may appeal to the Committee, who will direct a special survey to be held; but should the opinion of the Surveyor be confirmed by the Committee, then the expense of such special survey is to be paid by the party appealing.

24. The Surveyors to the Society not to be permitted (without the especial sanction of the Committee), to receive any Fee, gratuity, or reward whatsoever for their own use or benefit, for any service performed by them in their capacity of Surveyors to this Society, on pain of immediate dismissal.

25. The Surveyors will be directed to attend on Special Surveys of ships under damage, or repairs for Restoration, when required by merchants, Ship Owners, or Underwriters; the charge for which is to be regulated according to the nature and extent of the service performed. In all cases, the application for the assistance of the Surveyors must be made in writing addressed to the Secretary.

## FUNDS.

26. The Funds to be under the authority and control of the Committee, and a statement of the Receipts and Expenditure to be annually printed for the information of the subscribers.

27. The following Fees to be charged to the Owners of ships prior to their vessels being classed and registered in the book.

## I.

*For Entering and Classing Ships, and for Entering and Classing Ships surveyed for Continuation, or repaired for Restoration.*

For each Ship ...	...	under	100 Tons ...	£1 0 0
Ditto ...	of 100 Tons and under	200	...	2 0 0
Ditto ...	200	—	300 ...	3 0 0
Ditto ...	300	—	400 ...	4 0 0
Ditto ...	400 and upwards	...	...	5 0 0

## II.

*For Registering Repairs ; or change of Owners.*

For each Ship ...	...	under	150 Tons ...	£0 10 0
Ditto ...	of 150 Tons and under	300	...	1 0 0
Ditto ...	300	—	500 ...	2 0 0
Ditto ...	500 and upwards	...	...	3 0 0

## III.

*For Re-classing Ships (except when repaired) the Characters of which have been expunged.*

For each Ship ...	...	under	200 Tons	£0 10 0
Ditto			200 and above	1 0 0

*Special Surveys.*

28. For Special Surveys, and where the Surveyors to the Society are required by the Owners to superintend the building of ships, or repairs for Restoration, or otherwise, a charge will be made according to the nature and extent of the service performed. In all such cases the authority of the Committee is required.

29. Certificates of Character, of the Form No. 7, signed by the Chairman of the General Committee, or by the Chairman of the Sub-Committee of Classification, and countersigned by the Secretary, will be granted on application; the charge for which will be as follows:—

For Ships under 200 Tons	...	...	...	5s. each.
Ditto of 200	—	and above	..	10s. each.

30. Rules, each copy ... .. 2s. 6d.

## CHARACTERS.

31. The Characters to be assigned to ships to be, as nearly as possible, a correct indication of their real and intrinsic qualities, and to be in all cases fixed (not by the Surveyors, but) by the Committee, after due consideration of the Reports of the Surveyors and such other documents as may be submitted to them, and will be distinguished as follows:—

## SHIPS A

To consist of new ships, or ships Continued, or Restored. *Vide Sections 34, 54, 55, 57.*

## SHIPS Æ asterisk, in Red,

To consist of ships that have passed the period assigned on the original survey, or Continuation, or Restoration; and also of ships not having had an original character, and which are found on survey of superior description, fit for the conveyance of dry and perishable goods, *to and from all parts of the world.* *Vide Section 60.*

## SHIPS Æ, in Black,

To consist of ships which are found on survey fit for the safe conveyance of dry and perishable goods on *shorter voyages.* *Vide Section 61.*

## SHIPS E

Will comprise all ships which shall be found on Survey fit for the conveyance of cargoes not in their nature subject to sea damage *on any voyage.* *Vide Section 64.*

## SHIPS I

To consist of ships fit to carry cargoes not liable to sea damage *on shorter voyages.* *Vide Section 66.*

32. In all cases in which the application of the rules must necessarily be regulated by the ship's admeasurement, the *least* tonnage (whether the result of the old or new method) is to be adopted.

## RULES FOR CLASSIFICATION.

## SHIPS A

33. Will consist of new ships and those which have not passed a prescribed age,\* provided they are kept in a state of complete repair and efficiency. The character A will not, however, be granted to any vessel, unless satisfactory evidence of the date of build and place where built is produced.

\* See the Tables of Timbering, &c. Nos. 1, 2, and 3.

34. The number of years to be assigned for this Character to be determined with reference to the original construction and quality of the vessels, the materials employed, and the mode of building; and their continuance for the time so assigned to depend upon its being shown by occasional surveys (annually if practicable) that their efficiency is duly maintained. The characters of ships A will be struck out of the Register, unless re-surveyed within a period of four years from the *date of last survey*,—or, in the case of ships exceeding the eight years' grade, within *one-half of the time* originally assigned. After the expiration of the periods prescribed, ships will be permitted to Continue in the character A, or may be Restored thereto, for a further limited period, on complying with the conditions hereinafter prescribed in Sections 54, 55, and 57.

35. New ships are to be surveyed while building, by the Surveyors to this Society, in the following three stages of their progress, or they will be liable to lose one year of the period to which they might otherwise be entitled. (*See Section 53.*)

*First.*—When the Frame is completed.

*Second.*—When the Beams are put in, but before the Decks are laid, and with at least two strakes of the plank of the ceiling between the lower deck and the bilge unwrought, to admit of an examination of the inner surface of the plank of the bottom.

*Third.*—When completed, and before the plank be painted or payed.

All Ships for which a higher character than Ten Years' A may be claimed, must undergo a Survey by a Surveyor who is an exclusive Officer of the Society, twice, at least, while building; namely, at the first and at the second stages of their progress as above prescribed. Due notice must be given by the Builder or Owner of their being ready for this additional survey.

36. A full statement, agreeably to Form No. 4, of the dimensions, scantlings, &c. of all new ships, verified by the builder, is to be transmitted by the Surveyor, and to be kept as a record in the office of the Society.

#### RULES TO BE OBSERVED IN BUILDING SHIPS.

37. The whole of the Timber to be of good quality, of the descriptions hereinafter shown in a Tabular Form, No. 1, as applicable to the several terms of years for which ships so constructed may respectively be appointed to remain on the character A: the stem, stern post, beams, transoms, apron, knightheads, hawse timbers, and kelson of ships claiming to stand *twelve years*, to be entirely free from all defects; the

frame to be well squared from the first foothook heads upwards and free from sap, and likewise below, unless the timber be proportionably larger than the scantling hereafter described; every alternate set of timbers to be framed and bolted together to the gunwale. The butts of the timbers to be close, and not to be less in thickness than one-third of the entire moulding at that place, and to be well chocked with a butt at each end of the chock. In all cases in which the heads and heels of the timbers shall be *square*, in vessels intended for the twelve years' grade, a dowel (to be in diameter from one-fourth to one-third of the moulding of the timber) must be introduced into the ends of such timbers in order to connect them together. In the construction of poops and top-gallant forecastles the timbers must be of the same materials as are required by the Rules (Table No. 1) for the "Top-timbers" of the frames of ships, according to the several terms of years appointed for such ships to remain on the character A. The outside planking of the forecastle and the sheerstrakes, plank-sheers, shelf or clamp, and spirketting of poops and top-gallant forecastles must be likewise of the materials required by the Rules (Table No. 2) for the "Topsides" of the said ships, *admitting also mahogany*. The remainder of the planking of the poops and top-gallant forecastles may be of fir of good quality. The beams of top-gallant forecastles and the mast beams, breast beam, and transom beam of poops, must be of the material required by the Rules (Table No. 1) for the beams of the said ships. The remainder of the beams and the water-ways of the poop may be of cedar, mahogany, Baltic fir, red pine, pitch pine, larch, hackmatac, tamarac, juniper, or cowdie; *and rock elm, for such beams only*, in ships of the 7 A grade and upwards, and of yellow pine or American white spruce in all below that grade. This Rule does not apply to raised quarter decks.

38. The Scantlings of the timbers, keelson, keel, planking, &c. are not to be less than those shown in the Table annexed to the Rules, following page 28.

39. The intermediate dimensions for the scantling of timbers between the floor heads and the gunwale to be regulated in proportion to the distance from the two points. Should the room and space be increased, the siding of the timbers to be increased in proportion. Whenever ships are built with double floors, *thick strakes must be worked inside, to extend from the lower part of the short floor head chocks to the upper part of the long floor head chocks*, and be well bolted through and clenched.

40. The sizes of the deck and hold Beams have been regulated so as to be determined by the length of the beams *amidships*, as shewn in the Table, following page 28. The beams will be required to be of the

size of the midship beam, except those at the *after end* of the ship, which may be reduced in proportion to their length. If beams of spruce or yellow pine are used, the siding of such beams shall be one-fourth larger than is prescribed by the above Table, or be increased each way, siding and moulding, equal in area to that amount.

41. The deck and hold Beams to be sufficient in number, and securely fastened to the sides either with lodging knees of iron or wood, or with shelf pieces; or with a shelf piece and knees: or with some other security equal thereto, so as sufficiently to connect the ends of the beams to the sides of the ship: and, in addition, all ships of 150 tons and above to have vertical knees to the DECK beams; and those of 200 tons and above to have vertical knees to the HOLD beams (fitted as standards or hanging knees, the latter being preferred), in number as shewn in the table following page 28. Vessels of 13 feet, and under 15 feet hold, the spacing of the hold beams not to exceed 8 feet apart, and the deck beams 4 feet:—Vessels of 15 feet and under 18 feet hold, the spacing not to exceed 8 feet and 4 feet apart alternately, or in that proportion; the deck beams to be placed one over every hold beam, and one in all double spaces:—Vessels of 18 feet hold and above, the spacing of the beams not to exceed 4 feet 6 inches; the deck beams to be one over every hold beam. The depth in all such cases to be determined by taking the measure from the top of the limber-strake to the top of the upper deck beams. Ships having a depth of hold, measured from the limber-strake to the under side of the lower deck beam, *above* thirteen feet but not exceeding fifteen feet, must be secured with iron riders, in number and description such as are prescribed by the Rules, section 62, or by orlop beams, sufficient in number and properly secured. *All ships exceeding twenty-three feet in depth from the top of the limber-strake to the under side of the upper or main deck*, will be required to have orlop beams; the number to be in no case less than one-half of the number of lower deck beams in the space between the fore-mast and the mizen-mast. The application of this rule to Colonial and Fir built ships will not exempt them from the full operation of the Rules, section 62. Every ship exceeding 150 tons to have at least one crutch for the security of the heels of the after-timbers of the frame; one pair of pointers in addition to a knee at each end of the wing transom to connect the stern frame with the after-body of the ship; and a transom over the heels of the stern timbers properly kneed. The heels of the cant timbers forward and aft to be stepped into or on the deadwood, and bolted through.

42. Shifts of timber in ships of 200 tons and upwards, to be not less than

one-seventh of the main breadth; and in ships under 200 tons, to be not less than one-sixth of the main breadth.

#### PLANK.

43. The outside planking to be of good quality, of the description prescribed in the Tabular Form, No. 2, and to be clear of sap and free from all defects.

44. The inside planking to be of the description shown in the Tabular Form, No. 3, and free from all foxy, druxy, or decayed planks. With regard to the ceiling plank, and the efficiency of its fastening, it will be required that the planking shall be properly shifted and fastened so that there shall be at least either treenails or through bolts, or short bolts, in each plank of the ceiling *in every timber*.

45. No butts to be nearer than five feet to each other, unless there be a strake wrought between them, and then a distance of four feet will be allowed; and no butts to be on the same timber, unless there be three strakes between, as more particularly shown in the diagram annexed (*see Plate No. 2*); but vessels under 200 tons will be exempted from the full operation of this rule; and in ships of larger tonnage a literal compliance with it will be dispensed with in cases wherein it may be satisfactorily proved that the departure from the rule is only partial, being confined to the ends of the ship, or the planking of the topside, and does not injuriously affect the ship's general strength; but such relaxation will not be sanctioned unless an accurate description of the shifting of the plank be transmitted by the Surveyors, to enable the Committee to form a proper judgment on the case.

The thickness of the plank, according to the tonnage of the ship, is not in any instance to be less than is prescribed in the Table of Scantlings following page 28.

#### FASTENINGS.

46. The Treenails to be of good quality, and of a description of wood EQUAL TO THE BEST MATERIAL through which they are to pass. They are to be circular, being either engine-turned, compressed, or planed. In all cases in which planks above twelve inches in width shall be used, they must be *double fastened*; and those above nine inches in width must be treenailed double and single except bolts intervene; and if less than that width, then to be treenailed single, and at least one-half of the treenails must go through the ceiling. All ships to be fastened with at least one bolt in every butt, and from the wales to the lower part of the bilges the bolt to be through and clenched. The bilges to be secured with bolts so placed that from the foremast to the mainmast in ships under 300 tons there shall be at least one bolt through and clenched in each first foothook; and that in ships of 300 tons and

upwards there shall be at least two bolts through and clenched for each set of timbers in one or other of the thick bilge strakes. All the bolts of the knees, breasthooks, crutches, riders, transoms, pointers, kelsons, shelf pieces, and of all other material fastenings, are to be driven through and clenched on rings of the same metal as the bolts. The up and down bolts in the knees to beams are not required to be through the deck, but whether clenched upon the beams, or upon the deck, they must be clenched on rings of the same metal as the bolts. The two bolts, the nearest to the crowns of the pintles and braces of the rudder are also to be through and clenched, those through the braces to be in the main piece of stern post. The limber strakes on each side to be bolted down to the floors, and one bolt in every floor to be through and clenched. When the heels of the first futtocks (either with full moulding or with chocks) meet at the middle line on the keel under the kelson, the through bolting of the limber strakes may be dispensed with. Ships otherwise entitled by THEIR MATERIALS to stand higher than the TEN YEARS' grade, in which the whole of the outside fastenings above the floor heads, including those of the flat of the upper deck, shall consist of copper or mixed metal to the entire exclusion of iron bolts, nails, and treenails, and in which no iron bolts are used below the floor heads, shall be allowed an additional period of Two Years. And Ships otherwise entitled by THEIR MATERIALS to stand higher than the TEN YEARS' grade, in which treenails may be used in fastening the plank, but in which all the bolts,\* and also nails of the flat of the upper deck, shall be of copper or mixed metal, to the entire exclusion of iron, shall be allowed an additional period of One Year. In all such cases of substitution, the number of bolts must be the same as is already prescribed as above for treenails; the proportion of through bolts must be at least *one-half*†; and all the through bolts must be of malleable metal, and clenched on rings (of the same metal) inside. The sizes of the copper or mixed metal bolts must be as under, *viz.*

In ships of 150 tons and under 200 tons	...	...	...	5/8 in.	Smaller sizes must not be used.
200 ditto 350	...	...	...	3/4 in.	
350 ditto 500	...	...	...	7/8 in.	
500 ditto 700	...	...	...	1 in.	
700 ditto 900	...	...	...	1 1/8 in.	
900 and above	...	...	...	1 in.	

\* It is not intended that this rule should apply to the bolts or fastenings which are incidental to the rigging; nor to the bolts of the comings, windlass bitts, rails, bowsprit bitts, deck fixtures, or any fastening above the planksheer of the waist, or of poop, or top-gallant fore-castle, which may be of iron. The fastenings of the cutwater, quarter pieces, and bowsprit hook in vessels claiming to stand thirteen years, and upwards, to be copper or mixed metal, as heretofore.

† Whenever *metal fastenings* are used in lieu of Treenails, this proportion must be observed.

and the lengths of the short bolts not less than as follows, viz.—

When used in plank of  $2\frac{1}{2}$  inches, to be 7 inches long

—	3	”	8	”
—	4	”	10	”
—	5	”	12	”

and so on in proportion for plank of other thicknesses. The sizes of the bolts required in the several parts must not be less than is shown in the Table following page 28.

47. In every case where the butt and bilge Bolts are not through and clenched, One Year will be deducted from the period which would otherwise be assigned in the classification of the vessel.

48. The Scantlings and dimensions for all sized vessels to be proportionately regulated, agreeably to a scale and Table adopted by the Society, a copy of which is in the hands of each of the Surveyors. See Plate No. 1, and Table following page 28.

49. Ships surveyed while building, in which *all the materials required for a Twelve Years' Ship shall have been used*, and most of the other requisites for that grade fulfilled, but which, from partial deficiencies, may not appear to be in all respects entitled to the full period, although superior to the description of a Ten Years' ship, may be marked in the Book thus, 11 A ; thereby denoting that they are to remain on that grade *Eleven Years*, provided they be kept in a state of efficient repair.

50. Ships surveyed while building, in which the scantling and shifts of the timbers, the thickness and shifts of the planks, and size of fastenings may be the same as are required by the rules, and in which the description of materials prescribed in the annexed Tables shall also have been used, but in which the *alternate* sets of timbers shall not have been framed, nor the chocks wrought with a butt at each end, nor the frame so well squared as is required for Twelve Years' ships, but which shall be *in other respects* equal thereto, shall be marked “10 A ;” thereby denoting that they are to remain on that grade for *Ten Years*, provided they be kept in a state of efficient repair.

51. In all other cases, ships surveyed while building, and constructed of the materials of good quality, hereinafter shown in the Tables Nos. 1, 2, and 3, will be allowed the several terms of years respectively appointed, provided they be kept in a state of efficient repair. All ships, *not built under Survey*, whether in the United Kingdom or abroad for which a character may be claimed, must be placed in dry dock

or laid on blocks in order that their bottoms may be seen and properly examined; they will also be required to have *their timbers completely exposed for examination, by a listing or plank being taken out* (if not originally left open) all fore and aft at the first foothook heads, and another between decks; *and a few tree-nails must likewise be driven out*, so that the Surveyors, from actual inspection, may be satisfied whether or not they are of the quality and make prescribed by the Rules; and the same being thus ascertained, shall be reported to the Committee, and a character assigned. If of 400 tons and upwards, the Survey must be made by two Surveyors, and their report signed accordingly.

52. Ships built under a Roof, *which shall project at each end beyond the length, and on each side beyond the breadth, a quantity equal to half the breadth of the vessel*, shall have one year added to the period prescribed, provided they shall have been surveyed whilst building, and shall have occupied a period of not less than twelve months in their construction, *and not less than nine months (as part thereof) after the Frames shall have been completed.*

53. Ships built in the United Kingdom, or in Quebec after 1851, or St. John New-Brunswick after 1853, and *not surveyed while building* by the Surveyors to this Society, or where the owners or builders may have refused to permit them to survey and examine the same at the several periods prescribed by the Rules, will be subjected to the minutest possible examination previously to assigning a character; but in all such cases One Year will be deducted from the period which would otherwise have been assigned, in consequence of their not having been submitted to such survey during their construction. In no case, however, will a higher grade than 10 A be assigned to ships built in the United Kingdom, which shall not have been surveyed while building.

#### CONTINUATION OF SHIPS A.

54. If, on the termination of the period of original designation, or if at any subsequent period not exceeding one-third of the number of Years assigned originally, or on Restoration, an Owner should wish to have his ship remain, or be replaced on the letter A (*vide section 59*), he is to send a written notice thereof to the Secretary, and the Committee shall then direct a Special Survey as follows to be held, consisting of not less than *two* competent persons to be appointed by the Committee, one of whom shall be a Surveyor the exclusive servant of the Society, namely,

## SURVEY.

For the purpose of facilitating such survey, the ship shall be either placed in dry dock or laid on blocks, so that the keel may be examined, and be scraped from the light water-mark upwards, including the plank-sheer and waterways, so as to expose the surface of the plank to view.\* The hold to be cleared and proper stages made. The attention of the Surveyors shall then be particularly directed to the state of the *upper or main deck* and comings, the upper and lower deck bolts, and the outside planks through which they pass, the *planksheers*, waterways, and beams, so far as they can be examined; the hawse timbers, knight-heads, breasthooks, and transoms; the floors and kelsons; the keel and rudder; the planking outside, *and the treenails passing through* from the light water-mark upwards; the ceiling inside, and the frame and inner surface of the outside planking where it may be seen; and the sheer and general form of the ship; *and should any suspicious treenails or bolts appear, the same are to be driven out for inspection.* The Surveyors on these points shall transmit to the Committee a detailed report, accompanied by such observations as may occur to them, from inspection of the ship, or from information of the repairs she may have received. If from the report of such special survey the ship shall appear to be in a sound and efficient state, and to have preserved her original form unaltered, the Committee shall continue such ship on the letter A for such further period as they may think fit, not exceeding, however, one-third of the number of years which had been originally assigned. Ships so Continued shall be distinguished in the Register Book by the number of years for which the character is extended, being inserted separately under the number assigned on the original character, thereby denoting that the ship has been found on survey in such good and efficient order as to entitle her to be Continued for \_\_\_\_\_ years. Ships built in the Colonies, which shall have had the character A for four years, will be allowed a Continuation for *Two Years*, provided that, in addition to the above requisitions, and those prescribed by section 63, the Owners shall agree to a *strake in the Topsides, fore and aft*, on both sides, being also removed, and the ships, specially surveyed in that state, shall be found to be in a sound and efficient condition. The period assigned for Continuation will, upon all occasions, commence from the time the ship may have gone off the letter A, without regard to the date when the survey for this purpose may have been held. ○

\* If the ship has been recently coppered, and it shall appear to the Surveyors that stripping from the light water mark to the wales may be dispensed with, the case will receive due consideration upon application to the Committee by the owner in writing.

In cases of the repair of ships for Continuation of character under the Rules, section 54, (*but in no other*) materials of an inferior description (but not below those prescribed for the six years' grade) may be permitted to be used in those parts which must of necessity, under the operation of the Rules, section 56, be *entirely removed* on a repair for Restoration; subject, however, to the ship-owner, in every instance, making a special application to the Committee for their previous sanction.

## RESTORATION OF SHIPS TO THE CHARACTER A.

### FIRST RULE.

55. If, at any time before the expiration of two-thirds of the number of years *beyond* the period originally assigned, an owner be desirous to have his ship Restored to the A character, such Restoration (on his consenting to the special survey hereinafter described, to be held by two Surveyors, and performing the repairs found requisite) will be granted for a period not exceeding two-thirds of the time originally assigned, the same to be calculated from the date of such repairs.

### *Requisites for Restoration.*

56. All the bolts in the range of each deck to be driven out, and the planks taken out; the upper deck waterways, and planksheers and spirketting, and the strake next the waterways on the lower deck in the midships, to be taken out; the sheathing to be entirely stripped off the bottom; *all the outside planking from the light water-mark upwards, to be scraped bright*; a strake in the upper course of the bottom, between the wales and the light water-mark fore and aft, and a plank in the ceiling at the floor heads on each side, to be taken out, the limbers to be clear, and the hooks forward to be exposed; and in that state the ship to be submitted to a special survey and examination, at which the attention of the Surveyors appointed by this Society is to be particularly directed to the state of the decks, the remaining plank of the topsides, the wales, upper courses, and treenails, and other fastenings; also to the state of the frame, hawse timbers, and knightheads, kelson, floors, foothooks, ceiling, and breasthooks, the rudder in all its parts and hangings; and if, after such examination, the Owner should consent to take out all planks, timbers, beams, knees, waterways, fastenings, and other parts that may be found defective, or objected to, and replace them with materials of the same species, or of equal quality

with those of which the ship was originally constructed, such ships to be entitled to Restoration for a period proportionate to their real condition and the extent of the repairs performed; or if timber of an inferior description, or second-hand English or African Oak or Teak be used, then for a period not exceeding that for which such materials would have entitled a new ship to stand A according to the tables, subject in either case to the ship being at all times thereafter kept in a state of efficient repair.

#### SECOND RULE.

57. If, at any age of a vessel, an Owner be desirous to have his ship Restored, such Restoration (on his consenting to the special survey herein-after described, to be held by two Surveyors, and performing the repairs thereby found requisite) will be granted for so long a period as may be deemed expedient by the Committee, not exceeding, in any case, the term of eight years.

#### *Requisites for Restoration.*

58. The whole of the outside plank of the vessel to be taken off as low as the second foothook heads, and the remainder of the planking, either outside or inside, together with all the decks, to be removed, so as to expose the timbers of the frame entirely to view, and in that state the ship to be submitted to a special survey and examination, by the Surveyors appointed by this Society; and if, after such examination all timbers, beams, knees, kelsons, transoms, breasthooks, remaining plank, inside or outside, or other parts found to be defective, be replaced with materials of the same species, or of equal quality with those of which the ship was originally constructed, and all the treenails driven out and renewed, such ship may be Restored. But if timber of an inferior description, or second-hand English or African Oak or Teak be used, then for a period not exceeding that for which such materials would have entitled a new ship to stand A according to the tables, subject, in either case, to the ship being at all times thereafter kept in a state of efficient repair.

59. Ships which have been Restored shall be entitled to Continuation, subject to the same conditions of survey and examination as are prescribed for ships proposed to be Continued, at the expiration of the period first assigned to them (Sec. 54); but in like manner, the term of such extended Continuance shall be limited to a period not exceeding one-third of the number of years for which the ships may respectively have been Restored, without any reference whatever to the period originally assigned to them. At the termination of the several periods assigned to ships for remaining

on the character A, they will be reduced to the Description designated by the diphthong Æ; but if during the *last year* of the period assigned to them, the Owners of a ship shall, in consequence of her being about to proceed on a distant foreign voyage, apply to have her surveyed for continuation on the letter A, or for the diphthong Æ with the Asterisk, a special survey shall be held conformably to the Rules, sections 54 or 60, as the case may be: and if from the report of such special survey, the ship shall appear to be in all respects in a sound and efficient state, such as is required by those Rules, the Committee shall, from the period at which the ship's character would terminate, continue her on the letter A, or assign to her the character \*Æ (in red) in accordance with the Rules referred to.

#### SHIPS Æ ASTERISK, IN RED,

60. Will consist of all ships that have passed the periods which have or might have been assigned to them for the character A, or for Continuation, or for Restoration, and shall be found on survey to be of superior description, being fit for the conveyance of dry and perishable goods to and from all parts of the world, shall be distinguished by inserting their characters in Red with an asterisk thus prefixed, \*Æ.—But in all cases in which the owner may claim this distinction, the ship must undergo a special survey by two surveyors, to be appointed in every instance by the Committee, and be subject in other respects to a compliance with the undermentioned requisitions of

#### SURVEY.

The ship to be either placed in dry dock or laid on blocks, so that the keel may be examined, and be scraped from the light water-mark upwards, including the planksheer and waterways, so as to expose the surface of the plank to view.\* The hold to be cleared, and proper stages made both inside and outside. The attention of the surveyors shall then be particularly directed to the state of the upper or main deck and comings, the upper and lower deck bolts, and the outside planks through which they pass, the planksheers, waterways, and beams, so far as they can be examined; the hawse timbers, knightheads, breasthooks, and transoms; the floors and kelsons; the keel and rudder; the planking outside, and the treenails passing through from the light water mark upwards; the ceiling inside,

\* If the ship has been recently coppered, and it shall appear to the Surveyors that stripping from the light water mark to the wales may be dispensed with, the case will receive due consideration upon application to the Committee by the owner in writing.

and the frame and inner surface of the outside planking where it may be seen; and the sheer and general form of the ship; and should any suspicious treenails or bolts appear, the same are to be driven out for inspection.

And to entitle them to continue this character, such vessels will be required, in addition to the usual annual survey, to undergo a special re-survey, as prescribed above, within a period (from the date of the last special re-survey) not exceeding *two-thirds* of the several terms of years originally assigned to them, or earlier, if in the judgment of the Surveyors, upon a careful examination of the ship, the same shall appear to them to be necessary. With respect to the materials to be used in the repair of vessels, the Owners of which may apply for a Special Survey for the *Asterisk*, not any will be permitted of a description inferior to the materials contained in the Tables for *Vessels of the Six Years' grade*, or to those prescribed by the Tables for *New Ships of higher character*, for periods equal to two-thirds of the several terms of years of original designation of the ships undergoing repair.—Those ships, however, the original construction of which may not have entitled them to the *A* character for a longer period than *Five Years*, will not be allowed the distinction of the asterisk. Whenever it shall appear to the Surveyors that a vessel classed *Æ with the asterisk* shall no longer be in a condition to deserve that distinction, notice of the proposal to reduce her shall be given *in writing* to the Owner, Master, or Agent, in the same manner as is prescribed by the rules, section 21, page 7.

#### SHIPS Æ, IN BLACK,

61. Will consist of ships that have passed the prescribed age for the *A* Character, but have not undergone the repairs which would have entitled them to be Continued or Restored; or having been Continued or Restored, and the additional period thus assigned expired, and of ships of the *Æ asterisk* Character, in Red, and also such ships as have never had an original character, which shall be found on survey fit for the conveyance of dry and perishable goods on *shorter voyages*, shall be distinguished by the diphthong *Æ* in Black; and a careful survey will be required to be made *annually*, or on the return of the ship from every foreign voyage, by one of the Surveyors to this Society, who is to state distinctly and separately the actual condition of the *upper deck fastenings, waterways, spirketting, planksheers, topsides, upper deck with its appendages, lower deck fastenings, wales, counter, plank, and treenails outside to the water's edge, rudder, windlass and capstan, beams, breasthooks, transoms, and timbers*; but

if not surveyed within twelve months, such ship having been during that time in some port in the United Kingdom, the character will be omitted until such survey be held; or, as the case may be, she will be allowed to pass into the class E.

#### BRITISH NORTH-AMERICAN BUILT SHIPS, AND FIR SHIPS.

62. Ships built in the British North-American Colonies, and all ships wherever built, the frames of which are composed of *Fir*, of 300 tons and above, shall, in order to entitle them to be classed in the Register Book of the Society, be secured in their bilges by the application of iron riders to cover the joints of the floor and foothook heads, to extend from the height of the hold beams to the floors so as to receive not less than two bolts in a substantial part of the floors; the number of iron riders to be not less than one on every fourth floor on each side from two feet abaft the mainmast to two feet abaft the foremast, the size thereof to be not less than  $3\frac{1}{2}$  inches by  $1\frac{3}{4}$  inches at the joints of the timbers for ships of from 300 to 400 tons, and to be increased *one quarter of an inch each way*, for every one hundred tons of increased size. That all such ships shall also be secured by iron hanging knees to the hold beams, one knee to every alternate hold beam, provided the distance of the said beams from each other does not exceed 4 feet 6 inches, and the tonnage be less than 400 tons; but if the distance exceeds 4 feet 6 inches, or the ship is 400 tons and above, then one to every hold beam. The knees to be connected with the riders or not, at the option or convenience of the owners; but if not so connected, the side arms are to be long enough to receive at least four bolts; the whole to be securely bolted with bolts of sufficient size. In cases of refusal, the words "not fastened as per rule, section 62," will be inserted against the vessels' names. All ships built in the Colonies will be considered as "iron fastened" in their centre lines, unless it shall be satisfactorily shewn to the contrary, either by the exposure of some of the bolts, or by a certificate to be produced from the builders.

63. All British North-American built ships, which have gone, or may go off the List of Ships of the A character, or which may be of an age exceeding the period for which they might have had claims to be put upon that grade (whether classed or not), shall, as from time to time they come under examination, be subjected to a careful survey, to be made by one of the Surveyors to this Society;—and no further character shall be assigned them unless a survey shall be held as follows; and planking, either inside or outside, at the discretion of the Surveyors, in quantity equal to *one entire*

*strake* fore and aft on both sides, shall be removed; to be taken out in mid-ships immediately above the turn of the bilge, and *at such height* forward and aft as may, in their judgment, best expose the timbers of the frame to view; that a special report of the state of these timbers, and of the general state and condition of the upper deck fastenings, waterways, spirketting, planksheers, topsides, upper deck with its appendages, lower deck fastenings, wales, counter, plank and treenails outside to the water's edge, rudder, windlass and capstan, beams and breasthooks, shall be transmitted by the Surveyors to the Committee; and on the receipt of such report the character shall be assigned. If the diphthong character be then assigned, it shall be continued (subject to an annual survey) for a period not exceeding the number of years originally assigned; at the expiration of which the character will be discontinued, unless a similar survey and examination of the frame be again submitted to.

#### SHIPS E,

64. Will comprise all ships which shall be found on survey fit for the conveyance of cargoes not in their nature subject to sea damage *on any voyage*.

65. Subject to occasional inspection, at least once in every two years, ships will continue in this class so long as their condition shall, in the opinion of the Committee, entitle them thereto.

#### SHIPS I,

66. Will comprise ships which shall be found on survey fit for the conveyance, *on shorter voyages* (not out of Europe), of cargoes in their nature not subject to sea-damage.

67. The Bottom of every ship is to be CAULKED once in every five years, unless wood-sheathed and felted, and then once in every seven years, except in the case of *Teak-built ships*, upon which a special survey may have been requested, and the Surveyors having ascertained, by the removal of a strake of sheathing fore and aft under the wales, and a strake at the first foothook heads, and by causing listings to be cut out at the wood's ends, that such caulking is not required, the same may then be dispensed with. If any ship shall be stripped within the periods above mentioned, her bottom is to be caulked, *if necessary*.

68. In all cases in which ships may be Doubled, doubling of not less than the thicknesses hereinafter mentioned will be required, the same to be pro-

perly wrought and fastened as follows: in every instance the doubling is to be at least single fastened either with treenails or with bolts, and a through bolt in every butt. If treenails be used, every treenail must, if practicable, be a through fastening; and if bolts be used, then one-sixth of them from the lower part of the bilge upwards must be through and clenched on the ceiling in addition to the butt bolts.

The throat bolts of iron Knees, and the bolts of iron Hooks, Crutches, and Pointers, must be renewed through the doubling.

The thickness of the doubling for the wales and bottom, on ships

Under 400 tons to be not less than	...	2 inches
of 400 „ and under 600 tons	...	2½ „
of 600 „ and above	...	3 „

On the Topsides of ships not exceeding 300 tons, the thickness may be 1½ inches.

No ship hereafter doubled, shall be entitled to the asterisk or any higher class, unless it shall be ascertained at the time of doubling that the frame is capable of securely retaining the fastenings.

#### IRON-FASTENED SHIPS.

69. All ships although iron-fastened (except as hereinafter mentioned) shall be classed in the same manner as copper-fastened ships, so long as they remain unsheathed with copper, provided they are, in all other respects, constructed in accordance with the Rules; but when sheathed with copper over the iron fastenings, the words “Coppered over Iron Bolts” shall be added to the character in the Register Book, and continued until the ship be thoroughly copper-fastened.

70. Ships built in India, although fastened with iron, shall be permitted to be copper-sheathed without any mark being placed in the Book, provided the bottom be felted or chunamed, and wood-sheathed, and subjected to a careful examination of the iron fastenings on every occasion on which the sheathing is stripped off, for which purpose some of the bolts and nails are to be taken out of the lower part of the bottom, and to be seen by the Surveyor; but no such ship shall be permitted to continue either on the A or on the \*Æ in red class for a longer period than one-half the number of years beyond the term originally assigned for her remaining on the A character, unless the bottom shall have been doubled, or the whole of the iron fastenings taken out or properly secured, and the bottom refastened with bolts, or treenails, or both, including the middle line and breasthook and crutch bolts,

## ANCHORS, CABLES, AND STORES.

71. All vessels are required to have their masts, spars, and standing rigging in good order, and sails in sufficient number and good condition, and every ship is to be supplied with a good hempen stream-cable or tow-line of sufficient size and length, and with at least one good warp; and all vessels are to be provided with anchors of proper weight, and cables of approved quality, properly tested, in number and length according to the undermentioned scale:—

## ANCHORS.

72. All vessels under 200 tons to have at least two bower anchors, and all vessels of 200 tons and above, to be provided with at least three bower anchors.

## Cables.

	Tons.	Fathoms.
73. All vessels ..... under 150	to have at least	150 if chain.
— of 150 and under 250 .....		180 do.
— 250 .....	350 .....	200 do.
— 350 .....	500 .....	240 do.
— 500 .....	700 .....	270 do.
— 700 and upwards .....		300 do.

A Certificate of all new Chains having been tested, and of the strain applied to them, must be produced before a Ship is classed. The amount of strain applied should be marked on each length.

74. In all cases where hempen cables are used, one-sixth more in length will be required.

## BOATS.

75. All vessels under 150 tons to be provided with one good Boat; and every vessel of 150 tons and above to have a suitable number, and to be provided with *at least* two good boats.

76. The efficient state and condition of ships' anchors, cables, and stores, will be designated by the figure 1; and where the same are found insufficient in quantity, or defective in quality, by the figure 2.

## SHIPS NAVIGATED BY STEAM.

77. All sea-going vessels navigated by *Steam* shall be required to be surveyed *twice in each year*, when a character will be assigned to them according to the report of survey.

78. That with respect to the Boilers and Machinery, the owners are required to produce to the Surveyors at the above-directed surveys, a certificate from some competent *Master Engineer*, describing their state and condition at those periods; and to which certificate it is desirable there should

be added a description of the particulars of the same, as far as may be practicable, in the manner and form annexed, No. 8; to be appended to the report of survey, and delivered to the Committee, who will thereupon insert in the Register Book the letters "M.C." denoting that the boilers and machinery have been inspected and certified to be in good order and safe working condition; but if no certificate of their condition be furnished by the Owner or Master, then no character can be assigned for the machinery.

79. HULL:—The Surveyors are directed to examine and report the scantling of timbers, plank, and fastenings, and to state where built, and by whom, in the same manner as directed for sailing vessels.

The following relaxation from the Rules applicable to sailing vessels will be allowed in favour of steamers.

Fir (to be either Pitch Pine, Baltic Red Fir, or American Red Pine), Larch, Hackmatack, or Juniper, may be used for upper deck beams, to an extent not exceeding *one-half* the number of beams required according to the vessel's tonnage.

The same materials may be used in the outside planking from the first foot-hook heads upwards, excepting for the wales, sheerstrakes, and planksheers.

The same materials may be likewise used in the inside planking, excepting for the bilge planks, shelf-pieces and stringers, and clamps.

Steam-vessels built in all other respects in conformity with the annexed tables shall be classed for the terms of years therein respectively prescribed, subject to the following conditions:—

That the Rule requiring a survey 'twice a year' be rigidly enforced, and that whenever the boilers are taken out, the vessel shall be subjected to a particular and special survey, in order to ascertain her general condition, and particularly the state of the Fir, or other materials herein allowed to be used.

That unless such surveys be held, the Characters which may have been assigned to steam-vessels shall be struck out annually on reprinting the Register Book.

80. SCANTLINGS:—The scantlings for a steam-vessel under 300 tons register including the engine room, are to be deemed sufficient, if equal to those required by the scale prescribed in the Rules of this Society for a sailing vessel of *two-thirds* of the total tonnage of such steam-vessel.

81. But for a steam-vessel *above* 300 tons register, including the engine room, the scantlings are to be equal to those required by the scale for a sailing vessel of *three-fourths* of the total tonnage of such steam-vessel.

82. FLOORS:—Where the vessel is not *filled in solid to the floor-heads in the engine room*, an exception will be specially made against any reduction of the scantling of the *floors*, which in such cases will not be permitted to be upon the reduced scale of two-thirds or three-fourths of the dimensions for the *scantling* of sailing vessels, as before stated; but the *floors* will then be required to be equal to the dimensions set forth in the Rules for ships of the tonnage of the steam-vessel, including the engine room.

Vessels fitted with Auxiliary steam power are considered to be sailing vessels (not steamers), and will not be allowed any exception as to their scantlings.

83. The Surveyors are required to report the number, size, length, fastenings, and mode of arrangement of the engine and boiler *sleepers*, and the description of timber of which they are composed, and whether diagonally trussed with wood or iron, and to what extent; the length, size, and fastenings of shelf-pieces and paddle-beams; and whether the vessel be constructed with sponcings, and how they are formed; and to give the length and shifting of the plank outside and inside.

84. MATERIALS AND STORES:—The Surveyors are to examine and report the number and description of the masts, sails, anchors, cables, hawsers, warps, and boats, as directed to be done for sailing vessels; but the anchors and cables will not be required to exceed in weight and length those of a sailing vessel of two-thirds of the total tonnage of the steam-vessel.

85. The Surveyors are to be particular in examining and reporting the condition of the boats of all vessels employed in carrying passengers.

---

### SHIPS BUILT OF IRON.

The following Resolution for the classification of vessels built of Iron (until more defined Rules could be framed) was passed on the 4th January, 1844:—

“That the Character of A 1 will in future be granted to such ships as shall be constructed of Iron under the survey of the Surveyors to this Society, and be reported (Form No. 5), on their completion, to have been built of good and substantial materials, and with good workmanship.

“That Iron ships, already built, upon being subject to a careful and minute survey, and being reported to be in a high state of repair and efficiency, will also be classed as above; but if not so reported, they will be allowed such

other character as, on a due consideration of their respective claims, they may be found to deserve.

“That in every instance in which a character may be assigned to ships built of Iron, it must be understood that such ships must be subjected to a careful ANNUAL SURVEY, and that the continuance or otherwise of the character assigned will depend entirely upon the result of this survey.—And that vessels *not surveyed annually* will lose their character.”

---

The Rules having been amended or altered in sections 31, 40, 46, 52, 53, 54, 59, and 60, in conformity with the several Resolutions passed by the Committee, the attention of Ship-owners and Ship-builders is respectfully invited to the consideration of these Rules, as well as the amended Tables for the Timbering, &c. of Ships, Table of Bolts, &c.

---

Under a Resolution passed by the Committee on the 19th September, 1850, the *date of build* of new ships hereafter launched, during the months of November and December, will be that of the year *succeeding*, provided the ships shall not have been previously registered or sent to sea.

By Order of the Committee,

CHARLES GRAHAM,

Secretary.

No. 2, White Lion Court, Cornhill,  
London, 1st July, 1853.

## FORM OF CERTIFICATE FOR VESSELS NAVIGATED BY STEAM.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

*Certificate for Vessels navigated by Steam.*

\_\_\_\_\_ Day of \_\_\_\_\_, \_\_\_\_\_ 18

\_\_\_\_\_ do certify that the whole of the Boilers and machinery of the Steam Vessel \_\_\_\_\_ belonging to \_\_\_\_\_, whereof \_\_\_\_\_ is Master, \_\_\_\_\_ Tons, have been carefully inspected and examined by \_\_\_\_\_ at \_\_\_\_\_, and that \_\_\_\_\_ find the same to be at this time in good order and safe working condition.

Witness \_\_\_\_\_

\_\_\_\_\_  
*Manufacturing Engineer.*

The following is a true Account of the Particulars of the machinery of the Steam Vessel \_\_\_\_\_ above named:

ENGINES.	BOILERS.
Number .....	Whether iron or copper.....
Diameter of Cylinder .....	Working pressure .....
Length of Stroke .....	If it can be increased without going into the Boiler.....
No. per Minute .....	What are the means of changing the water while the Boilers are at work .....
Estimated Power .....	Maker of the Boilers.....
Diameter of Paddle-wheels ...	Age of the Boilers .....
Length of Paddles .....	When they were last taken out
Breadth of Paddles .....	Present condition .....
No. of Paddles .....	Number of feed pumps .....
On what motion.....	How attached.....
No. of revolutions per minute ..	What clear space upon the top-side of the boiler from wood-work .....
Size of the holding-down bolts ..	Do. at the end from ditto.....
Condition of ditto .....	Do. round the chimney from do.
Maker of the Engines .....	PUMPS.
Age of the Engines .....	No. of hand pumps .....
When they were last taken out	Can they be worked by the Engine .....
Present condition of the Engines	If any attached to engine, their purpose and size.....
Can injection water be taken from the Bilge in the event of a serious Leak .....	No. of force-pumps .....
_____	No. of branches and hose of sufficient length to reach to every part of the vessel .....
_____	
FUEL.	
Where stowed .....	
If in contact with boiler .....	
If not, what space between Coal Boxes and Boiler .....	
For what quantity room is provided .....	
If liable to get wetted.....	

\_\_\_\_\_  
*Manufacturing Engineer.*

## KEY TO THE REGISTER.

The Stores of Vessels are designated by the Figures 1 and 2:—

1. Signifying that the Vessel is well and sufficiently found,
2. That she is deficient in either quantity or quality.

Vessels RESTORED to, or CONTINUED on the Character A, will have the number of Years for which they are restored or continued inserted separately under the number originally assigned, in the tenth column; where the term in the latter case has expired, the Letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed.

Vessels marked "S.S." with a date, *in red*, denote that they have been surveyed at that time in accordance with the Rules, Sec. 54—60.

British North-American built vessels, opened as required by the Rules, Sec. 63, will be marked in the Register "S.S." with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S.47—3Yrs—"

When the Rules, Sec. 63, have not been complied with, they will be marked in the Register; thus—"Not Op." and the Character omitted.

When the term "almost Rebuilt" is used, it implies large repairs, but that the Rules for Restoration have not been fully complied with.

The figures in the Tenth Column, to vessels in the *Æ* Class, imply that they were originally classed A, for that number of Years. The cipher 0 in this Column indicates that (from inferior construction) there were no "number of Years first assigned."

Sailing Vessels thus distinguished, "A P. 30 H." denote that they are Fitted with Auxiliary Steam Power, equal to 30 Horses.

In the Second Column.

*In the Eleventh Column.*

The Figures under the Character denote either the Year, or the Month of the current Year, in which the Vessel was last surveyed.

When the character "Æ" without any date, appears in the last column, it denotes that the period assigned to the Vessel for remaining in Class "A." having expired, she has lapsed into the second description of the First Class, as per Rule, Section 59, and that this character has not been assigned from a Survey.

LENGTH OF BEAMS IN FEET, AMIDSHIPS.

Plate L.

Scale of Inches.

*BB The size of the MIDDLE DECK BEAMS, and of ORLOP BEAMS, to be the mean of the sizes prescribed above.*

THE UNIVERSITY OF CHICAGO LIBRARY

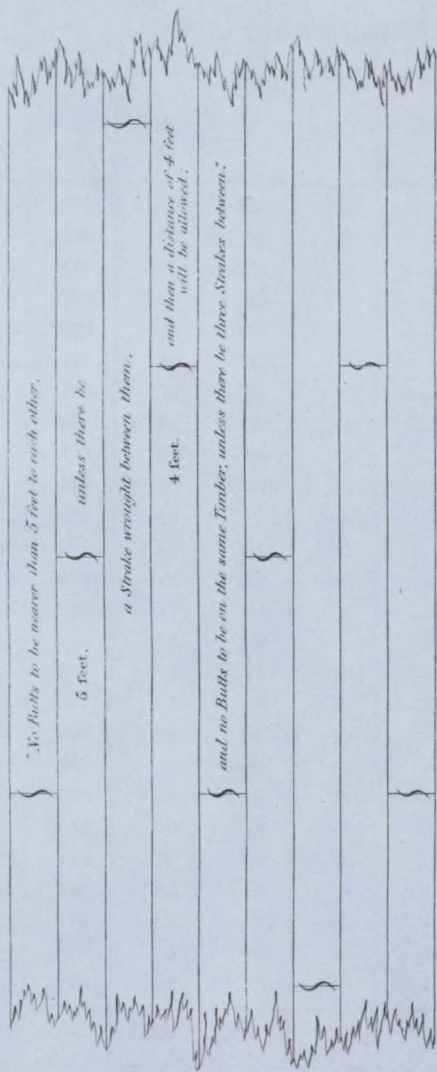

TABLE OF MEASURES IN THE VARIOUS STATES

The Sketch shews the principle on which the Butts should be arranged, so as to avoid Stopping, which is deemed bad Workmanship.

[Established 1834.]

---

## LIVERPOOL APPENDIX.

In pursuance of resolutions mutually agreed upon by the Committee for Lloyd's and the Committee for the Liverpool Register of British and Foreign Shipping, in May, 1845—"That the ships inserted in the Liverpool Register Book, which were not classed in or were classed higher than in LLOYD'S REGISTER, should be placed in an APPENDIX, which should, however, be entirely discontinued at the end of FIVE years" :—

NOTICE is hereby given, that as the above-mentioned period of five years has terminated with the re-printing of the new Register Book for the year 1850—51, it has been determined to place the few vessels which remained in the Appendix in the body of the Register Book, with their present Characters, and with the letters L C (in red) appended, to show that they were classed by the Liverpool Committee, subject, however, to their being surveyed for Classification, at the earliest convenient period, in conformity with the Society's rules, to determine thereby their claims to future character.

By order of the Committee,

CHARLES GRAHAM,

*Secretary.*

2, White Lion Court, Cornhill, London,

May 9, 1850.

LLOYD'S REGISTER OF BRITISH AND  
FOREIGN SHIPPING.

[Established 1834.]

---

NOTICE is hereby given, that in pursuance of a Resolution passed by the Committee on the 19th instant,—

The Date of Build of New Ships launched, in future, during the Months of November and December, will be that of the Year *succeeding*, provided the Ships be not previously registered, or sent to Sea.

By order of the Committee,

CHARLES GRAHAM,

*Secretary.*

2, White Lion Court, Cornhill, London,  
September 27, 1850.

# LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

[*Established 1834.*]

---

NOTICE is hereby given, that in pursuance of a Resolution passed this day, the Rule, Section 51, has been in part amended, by the insertion of the words, in Italics, as follows :—

“ All Ships not built under Survey, whether in the United Kingdom or abroad, for which a Class may be claimed, must be placed in Dry Dock or laid on the ways, in order that their bottoms may be seen and properly examined ; *and if of 400 tons and upwards, by two Surveyors, and the Report for Classification is to be signed accordingly.*”

The Owners in such cases not to be subjected to any additional expense.

By order of the Committee,

CHARLES GRAHAM,

*Secretary.*

2, White Lion Court, Cornhill, London,  
23rd September, 1852.

# LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

[Established 1834.]

---

## SHIPS CLASSED Æ.

The General Committee of this Society having determined by Resolutions passed from year to year, that the Characters of all Ships of the Æ Class (*including those with the Asterisk*) which had not been surveyed between the years 1834 and 1850 inclusive, should in conformity with the Rules, pages 19 and 20, sections 60 and 61, be expunged, and that such Ships should not have their Characters re-entered in the Society's REGISTER BOOK, until upon further Survey they were found to be entitled thereto;—And it having been also this day decided to extend the Resolutions above mentioned to the Ships of this Class which have not been surveyed since the year 1851:—NOTICE is hereby given, that in pursuance of this decision, the Characters of such Ships of the Class in question as shall not be re-surveyed prior to the 30th of June next, (not having been surveyed since 1851,) will be omitted in reprinting the Register Book for the Year 1853-54.

By order of the Committee,

CHARLES GRAHAM,

*Secretary.*

2, White Lion Court, Cornhill, London,  
2nd December, 1852.

---

N.B.—In the case of Ships, which, *it shall be made appear by the owners*, have not been in any Port in the United Kingdom since 1851, the above Resolution will not be applied.

# LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

[Established 1834.]

NOTICE is hereby given, that in pursuance of a resolution passed by the Committee for Lloyd's Register Book, on the 21st instant, the following alterations and amendments have been made in the Rules of this Society:—

That the sizes in the Table of Dimensions prescribed for "TOP TIMBERS, moulded at heads if square," be increased by the addition of *one-fifth*.

That the thicknesses of planking for "TOPSIDES," now classed with "Ceiling below Hold Beam Clamp," be taken therefrom, and included in the line above, which will then stand thus: "Shearstrakes, *Topsides*, Upper Deck Clamp where there is no shelf fitted, and Lower Deck Clamp with a shelf."

That the Rule, Section 46, so far as relates to the LIMBER STRAKES, each side, being "bolted down to the floors, and one bolt in every floor to be through and clenched, be amended, *by the bolting so prescribed being dispensed with whenever it shall appear that the Heels of the first Foothooks, (either with full moulding or with chocks,) meet at the middle line on the Keel under the Kelson.*

That the requisition, Section 40, which prescribes that when "FIR BEAMS" are used, the siding shall be one-fourth larger than is prescribed in the Table, Page 27, be amended, and the requisition limited in its application to the following descriptions of material only, when used for Beams, namely,—YELLOW PINE TIMBER and SPRUCE.

That the use of American Rock Elm, of good quality, in the inside planking of ships, from the Limber Strakes to the Bilge plank, be allowed IN MIDSHIPS, in Ships of the Seven Years' Grade, *to an extent not exceeding two-thirds of the entire length of the Keel.*

That the Rules, Section 46, Page 14, relating to FASTENINGS, and also the Table, Page 27, prescribing the "Sizes of bolts and treenails" be amended, by a re-arrangement of the several headings, and a small increase in some of the sizes, and a reduction in others, and that the Table be distinguished thus: "SIZES OF BOLTS, PINTLES OF RUDDER, AND TREENAILS," showing the latter separately. The Tables so arranged are in course of printing, and will be immediately issued.

That the foot note in the Table of Dimensions referred to from "WATERWAY" be altered and amended as follows: "Depth below underside of Plankshear, or faying surface against timber, to receive the in and out through bolts at *alternate timbers, with alternate through bolts in shelf, and in Clamps where there is no shelf.*"

By order of the Committee,

CHARLES GRAHAM,

Secretary.

2, White Lion Court, Cornhill, London,  
30th April, 1853.

# BRITISH REGISTERED VESSELS.

RETURN of BRITISH SHIPS employed in Trade of the United Kingdom in 1851, not including repeated Voyages.

This RETURN embraces Vessels belonging to the Channel Islands, but not Vessels Registered in the British Plantations.

1. RETURN of the Number and Tonnage of British Registered Vessels employed solely as Home Trade Ships in the Year 1851, with the Number of Men employed ; distinguishing Sailing Vessels from Steamers.

SAILING VESSELS.			STEAMERS.		
Number of Vessels.	Tonnage.	Number of Men Employed.	Number of Vessels.	Tonnage.	Number of Men Employed.
8,898	685,641	36,906	368	78,820	6,048

2. RETURN of the Number and Tonnage of British Registered Vessels employed partly as Home Trade Ships, and partly as Foreign-going Ships, in the Year 1851, with the Number of Men employed ; distinguishing Sailing Vessels from Steamers.

SAILING VESSELS.			STEAMERS.		
Number of Vessels.	Tonnage.	Number of Men Employed.	Number of Vessels.	Tonnage.	Number of Men Employed.
1,489	242,656	8,570	18	4,926	282

3. RETURN of the Number and Tonnage of British Registered Vessels employed solely as Foreign-going Ships, in the Year 1851, with the Number of Men employed; distinguishing Sailing Vessels from Steamers.

SAILING VESSELS.			STEAMERS.		
Number of Vessels.	Tonnage.	Number of Men Employed.	Number of Vessels.	Tonnage.	Number of Men Employed.
7,277	2,287,897	85,801	134	60,995	4,330

4. AGGREGATE RETURNS, 1, 2, and 3, showing the Total Number of British Registered Ships employed in Trading in, from, and to *Great Britain* and *Ireland*, in 1851, with their Tonnage and Number of Men.

SAILING VESSELS.			STEAMERS.		
Number of Vessels.	Tonnage.	Number of Men Employed.	Number of Vessels.	Tonnage.	Number of Men Employed.
17,664	3,216,194	131,277	520	144,741	10,660

5. TOTAL SAILING VESSELS and STEAMERS together.

Number of Vessels.	Tonnage.	Number of Men Employed exclusive of Masters.
18,184	3,360,935	141,937

*Note.*—Home Trade Ships are Ships trading on the Coasts of the United Kingdom, or to Ports between the limits of the River Elbe and Brest; Foreign-going Ships are Ships trading to Ports beyond those limits. In the above Return of Foreign-going Ships it is possible that some Ships may be included which have now ceased to exist, or are no longer employed as British Ships; but such Vessels have (whenever found possible to ascertain the fact) been struck off; and in no case has any Ship been included which has not been reported as a Foreign-going Ship within four years. No Home Trade Ship is included which has not been reported within one year. In the above Return of Men employed Masters are not included. A very small deduction ought, however, to be made for the case of Men, who, after being discharged from one ship, join another immediately—the former vessels remaining in Port.

General Register and Record Office of Seamen, }  
London, 10 November, 1852.

J. H. Brown,  
Registrar.
