The Same Service is for You, too!

Hundreds of thousands of our successful men and women — business men, farmers, mechanics, parents, teachers, writers, clergymen, lawyers, advertising men, librarians, all are being served by

Webster's NEW INTERNATIONAL Dictionary

The Merriam - Webster

This host of successful Webster owners who are satisfied with Webster service, who have their needs anticipated and supplied, whose questions about new and old *words*, noted *persons* and *places*, questions of *what*, *why* and *how*, here answered with the authority of the world's scholars, should encourage the young man or woman, even though near the foot of the ladder, to profit from the same service. The one who knows wins success.

EXPLANATION OF THE ARTICLES IN THE CALENDAR

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.
The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.
The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.
The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.
MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.
The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 15th.
The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.
The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 30m. W. (71°30'). For any other meridian, interpolation of these quantities is necessary. For example, on October 10th, 1922, what would be the Sidereal Time when the Sun's centre is on the 81st meridian west longitude. Here the difference in longitude is 9.5°. The tabulated Sidereal time on the 10th is 13h. 1 min. 7 secs., and on the 11th, 13h. 4 min. 48 secs., giving an increase of 221 secs. which, multiplied by 9.5° and divided by 360, gives a correction of 6 secs. to be added to 13h. 1m. 7s.
GREATEST ELONGATION OF THE POLE STAR.—This Table gives the greatest azimuth of the Pole star east or west from the meridian as observed at a place in latitude 42° N., with the corresponding corrections, which are additive for latitudes up to 65° N.
(See pages 33 and 34).
From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.
*In the present Almanac the hours are numbered from 0 (midnight) to 23.
†Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result subtract the constant quantity 1h. 33m.

To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting, add the same number to the time of its meridian passage. Those stars marked (...) revolve in a circle of perpetual apparition, and do

not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of a Tauri (Aldebaran), January 2nd, 1922.

ECLIPSES DURING 1922

(F. L. BLAKE.)

In the year 1922 there will be two eclipses, both of the Sun.

I.—An Annular Eclipse of the Sun, March 28th, 1922, invisible in Canada and the United States except Florida, where the extreme northern limit of the eclipse will touch. The path of the Annular Eclipse will sweep in a general easterly direction over Brazil just south of the Amazon River, crossing the Atlantic Ocean to the Sahara Desert in Africa and gradually bending a little more easterly and following the Desert, passing over Egypt and the north end of the Red Sea, ending in northern Arabia near the Gulf of Persia.

II.—A Total Eclipse of the Sun, September 20th, 1922, invisible in North and South America. The path of the Total Eclipse will begin in the southern part of Abyssinia in the vicinity of Barri, and sweep easterly out over the northerly part of the Indian Ocean, and gradually curving in a south easterly direction, crossing the Equator south of Ceylon, passing not far from the coast of Sumatra, striking the Australian coast near Condon in Western Australia. Thence centrally across the full width of the continent to a point on the east coast of Queensland just south

of Brisbane and out over the Pacific Ocean, ending some distance from the extreme northern point of New Zealand.

The Moon during 1922 will be at its farthest North and South limits on the following dates:—

Jan. 11 North max.	July 7 South
" 24 South max.	" 22 North
Feb. 8 North	Aug. 3 South
" 20 South	" 18 North
Mar. 7 North	" 31 South

May 1 North	" 24 South
" 13 South	Nov. 8 North
" 28 North	" 21 South
June 10 South	Dec. 5 North
" 24 North	" 18 South

At Full Moon the Moon will be North or South of the Equator as follows:—

Jan. 13. 16° 38' North	July 8. 17° 37' South
Feb. 11. 10° 29' "	Aug. 7. 13° 1' "
Mar. 13. 1° 47' "	Sept. 6. 1° 38' "
April 11. 7° 15' South	Oct. 5. 3° 43' North
May 11. 14° 22' "	Nov. 4. 12° 2' "
June 9. 18° 8' "	Dec. 4. 17° 24' "

TABLE OF REFRACTION.

The barometer being at 30 inches and the attached thermometer at 50°, or the outside at 47°; with the correction for an increase of one inch in the barometer, and for a decrease of 1° in the thermometer, Fahrenheit.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the tabular refraction, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become subtractive. When great accuracy is required, 0'003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

THE STARS.

(F. L. BLAKE.)

As seen on a clear and moonless night, when the sky is spangled over with shining points of light, some bright, others fainter, and many more barely perceptible to the unaided vision, we are inclined to imagine that the stars visible to the naked eye are innumerable, and that any attempt to count them would be a hopeless task. This idea is merely an optical illusion, due partly to the twinkling of the stars and partly to their irregular distribution. As a matter of fact the stars visible to the naked eye can be easily counted, and they have been counted and catalogued. The number that can be seen with ordinary eyesight is very limited, being about on the average 3,000.

With the giant telescopes of the present day it is estimated that at least several hundreds of millions of stars are visible, and this is not counting the dark stars which have cooled down to a point at which no light is emitted and may possibly number as many more.

All visible stars shine by their own light and are in reality suns, some smaller but far more are immensely larger than our own sun.

The starry universe is a cluster comprising all the stars, including the Sun, which is also a star attended by a retinue of planets revolving around it, one of them being our earth.

Our sun, with its planets, is placed somewhere near the centre of this star cluster, and is at an enormous and unthinkable distance even from its nearest neighbor. The separate stars in this cluster are also at similar distances one from another. The stars as viewed from the earth, are thus apparently fixed but not really so; all are in motion, but owing to their immense distances no perceptible change in their relative positions can be noticed by the unaided eye, except during the lapse of centuries.

The apparent motions are due to the rotation of this earth on its axis making the stars, as well as the sun planets and moon, which seem to be projected on the starry sphere, but are not so in reality, appear to rise and set daily. The sun also appears to move among the stars and make a complete revolution among them in a certain well defined path called the ecliptic once a year. This is caused really by the earth's motion around the sun.

If we could cut off the sun's rays from a wide region we should see the stars in the day time as well as by night.

These bodies surround us in all directions as if the earth were placed in the centre of the Universe.

It is to be remembered then that the apparent movements of the sun and stars are not real movements of those bodies, but are real movements of the earth, namely, daily rotation on its axis, and an annual revolution of our planet around the sun.

It must not be understood by this that the stars are stationary objects in the sky, they also are in motion, but their immense distances dwarfs their movements so as not to be discernible to the eye. Everything is in motion, even our sun is moving through space, dragging our earth and planets along with it.

The stars then are bodies like the sun in various stages of incandescence, some smaller and a great number immensely larger. Possibly some of them have a retinue of planets around them similar to our sun, but it is never likely that we shall ever be able to see them, the stars being so far away.

COMETS

Comets are generally supposed to be stray portions of matter moving at various velocities in space, mostly in the form of globular aggregations of particles loosely held together by their mutual attractions. In their wanderings through the void of space some of them come within the attraction of the sun and are

gradually drawn towards it in increasing velocity as they approach, and if by chance they come near to one of the larger outer planets circling around the sun, their direction is changed, causing their path to take the form of an ellipse, in which case they become a member of the solar system with aphelion distance about the point which caused the perturbation. If the disturbance causes a deflection so as to assume the form of a parabola or hyperbola, they whirl around the sun in either of these curves and depart from the sun never to return.

On the near approach to the sun a tail is formed by the repulsion of particles from the head of the comet. These particles stream behind and become visible generally by reflected sunlight. The comet sweeps around the sun, sometimes with a tail a hundred millions of miles in extent, generally pointing away from it, and going away tail first, gradually losing it, and continues its course as a globular mass of particles much reduced in size to return again and again, if in an elliptical path, until it becomes disintegrated and its orbit or path strewn with debris of matter.

LEGAL WEIGHTS AND MEASURES IN CANADA.

In Canada the law provides, with respect to weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains), one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon, containing ten standard pounds weight of distilled water, weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the "Imperial gallon," contains 277.274 cubic inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

IMPERIAL MEASURE.

Special note should be made of the fact that certain standards of weights and measures used in some of the states of the United States are not legal (though frequently used), in Canada. These standards are not so large, being about 20 per cent. smaller in capacity than the legal standards in Canada, *i.e.*, the Imperial pint, quart and gallon.

The following tables shew the legal weight in Canada of certain commodities by the Barrel, Bushel, Bag, etc.:—

COMMODITIES BY THE BARREL.

Every barrel, half barrel, bag, sack or package must have marked thereon the name of the packer and the brand and the weight of the contents, and in the case of feed, the composition thereof.

	Net Weight in Dominion Standard pounds.	
	Barrel.	Half-barl.
Flour.....	196	98
Meal.....	196	98
Rolled oats.....	180	90
Rolled wheat.....	100	50

APPLES.

Barrels used for packing apples must be 26½ inches between the heads inside measure, 17 inches in diameter at head, and have a middle diameter of 13½ inches, containing as nearly as possible 96 quarts. Boxes used for packing apples must be not less than 10 inches deep, 11 inches in width and 20 inches long, representing as nearly as possible 2,200 cubic inches. Every such package (barrel or box), must be marked with the name of the person or corporation doing the packing, the name of the variety and the grade, *viz.*:—Fancy, No. 1, No. 2, No. 3.

The weight of a barrel of apples varies considerably according to the variety. The standard weight as accepted by the railway companies is 165 pounds. The average would probably be about 135 pounds. This includes weight of the barrel, which is about 15 pounds.

VEGETABLES AND OTHER ARTICLES.

Unless a bushel by measure is specially agreed upon, it must weigh the number of pounds set opposite each article.

Bushels.	Weight in Dominion Standard pounds.

COMMODITIES BY THE BAG.

A bag of any of the articles mentioned, must weigh the number of pounds set opposite the name of such article.

Bags.	Weight in Dominion Standard pounds.
Artichokes.....	84 lbs.
Beets.....	75 "
Carrots.....	75 "
Onions.....	75 "
Parsnips.....	65 "
Potatoes.....	90 "

POTATOES IN BARRELS, 165 LBS.

A barrel of potatoes shall mean, unless a barrel of specified size, kind or content by measure is agreed upon, 165 Dominion Standard pounds of potatoes.

EGGS.

When eggs are described as sold by the standard dozen, the dozen shall mean one pound and a half.

RECEIPTS AND PAYMENTS, CANADA, 1921.

Statement of the Receipts and Payments from the Consolidated Fund for the year ending 31st March, 1921.

The receipts from the sources of the ordinary revenue of the country are paid into what is called the Consolidated Fund, and payments therefrom are made to cover the ordinary expenses. These receipts and payments, therefore, constitute what may be considered as the regular income and expenditure of the country, receipts from and expenditure out of loans and all other extraordinary transactions being excluded.

THE INCOME TAX ACT,

WITH AMENDMENTS OF 1918, 1919, 1920 AND 1921.

The following is a summary of some of the more important provisions of the Act. The summary is not official and, in case of doubt, persons interested are recommended to write to the Commissioner of Taxation, Finance Dept., Ottawa:—

INCOME.

Section 3 defines income as follows:

(1) For the purposes of this Act, "income" means the annual net profit or gain or gratuity, whether ascertained and capable of computation as being wages, salary, or other fixed amount, or unascertained as being fees or emoluments, or as being profits from a trade or commercial or financial or other business or calling, directly or indirectly received by a person from any office or employment, or from any profession or calling, or from any trade, manufacture or business, as the case may be, whether derived from sources within Canada or elsewhere; and shall include the interest, dividends or profits directly or indirectly received from money at interest upon any security or without security, or from stocks, or from any other investment, and, whether such gains or profits are divided or distributed or not, and also the annual profit or gain from any other source; including the income from but not the value of property acquired by gift, bequest, devise or descent; and including the income from but not the proceeds of life insurance policies paid upon the death of the person insured, or payments made or credited to the insured on life insurance endowment or annuity contracts upon the maturity of the term mentioned in the contract or upon the surrender of the contract, including salaries, etc., of members of the Senate, House of Commons, judges, civil servants, etc., with the following exemptions and deductions:

EXCEPTED INCOME.

- (a) Such reasonable amount as the Minister, in his discretion, may allow for depreciation, and the Minister in determining the income derived from mining and from oil and gas wells and timber limits shall make such an allowance for the exhaustion of the mines, wells and timber limits as he may deem just and fair;
- (b) For the purposes of the normal tax only, two hundred dollars for each child under eighteen years of age who is dependent upon the taxpayer for support;
- (c) Dividends received by or credited to shareholders of a corporation which is liable to taxation under the provisions of this Act shall not be liable to the normal tax in the hands of the shareholders, but shall be liable to the supertax and surtax provisions of this Act or any amendment thereto. The amount of the exemption from the normal tax to the shareholder shall not exceed the net amount of such dividends after the deduction of the interest or carrying charges, if any, in respect of such dividends;
- (d) In determining the income no deduction shall be allowed in respect of personal and living expenses, and in cases in which personal and living expenses form part of the profit, gain or remuneration of the taxpayer, the same shall be assessed as income for the purposes of this Act;
- (e) Deficits or losses sustained in transactions entered into for profit but not connected with the chief business, trade, profession or occupation of the taxpayer shall not be deducted from income derived from the chief business, trade, profession or occupation of the taxpayer in determining his taxable income;

(f) And the Minister shall have power to determine what deficits or losses sustained in transactions entered into for profit are connected with the chief business, trade, profession or occupation of the taxpayer, and his decision shall be final and conclusive.

HOLDING COMPANIES.

(2) Where an incorporated company conducts its business, whether under agreement or otherwise, in such manner as either directly or indirectly to benefit its shareholders or any of them, or any persons directly or indirectly interested in such company, by selling its product or the goods and commodities in which it deals at less than the fair price which might be obtained therefor, the Minister may, for the purposes of this Act, determine the amount which shall be deemed to be the income of such company for the year, and in determining such amount the Minister shall have regard to the fair price which, but for any agreement, arrangement or understanding, might be or could have been obtained for such product, goods and commodities.

NON-RESIDENTS.

(3) In the case of the income of persons residing or having their head office or principal place of business outside of Canada but carrying on business in Canada, either directly or through or in the name of any other person, the income shall be the net profit or gain arising from the business of such person in Canada.

PROFITS AND DIVIDENDS.

(4) The share of a taxpayer in the undivided or undistributed gains and profits of a corporation shall not be deemed to be taxable income of the taxpayer, unless the Minister is of opinion that the accumulation of such undivided and undistributed gains and profits is made for the purpose of evading the tax, and is in excess of what is reasonably required for the purposes of the business.

(5) Dividends declared or shareholders' bonuses voted after the thirty-first day of December, 1920, shall be taxable income of the taxpayer in the year in which they are paid or distributed.

(6) The income, for any taxation period, of a beneficiary of any estate or trust of whatsoever nature, shall be deemed to include all income accruing to the credit of the taxpayer whether received by him or not during such taxation period. Income accumulating in trust for the benefit of unascertained persons, or of persons with contingent interests shall be taxable in the hands of the trustees or other like persons acting in a fiduciary capacity, as if such income were the income of an unmarried person.

(7) Any part of the remuneration of a taxpayer retained by his employer in connection with an employee's superannuation or pension fund or plan shall be allowed as an exemption or deduction from the income of the taxpayer for income tax purposes, and any payment to an employee out of such fund or plan shall be included as taxable income of the employee.

RATE OF TAXATION.

Section 4 establishes the rate of taxation as follows:

(1) There shall be assessed, levied and paid upon the income during the preceding year of every person,—

- (i) residing or ordinarily resident in Canada: or,

(ii) who remains in Canada during any calendar year for a period or periods equal to one hundred and eighty-three days; or,

(iii) who is employed in Canada; or,

(iv) who, not being a resident of Canada, is carrying on business in Canada; or,

(v) who, not being a resident of Canada, derives income for services rendered in Canada, to any person resident or carrying on business in Canada, but only upon that portion of the income so earned by such non-resident, the following taxes:

- (a) Four per centum upon all income exceeding \$1,000 but not exceeding \$6,000 in the case of unmarried persons and widows or widowers without dependent children, and persons who are not supporting dependent brothers or sisters under the age of eighteen years, or a dependent parent or parents, grandparent or grandparents, and exceeding \$2,000 but not exceeding \$6,000 in the case of all other persons, and

Sixty-five per centum upon the amount by which the income exceeds \$1,000,000.

CORPORATIONS AND COMPANIES.

(2) Corporations and joint stock companies, no matter how created or organized, shall pay ten per centum upon income exceeding two thousand dollars. Any corporation or joint stock company the fiscal year of which is not the calendar year, shall make a return and have the tax payable by it computed upon its income for its fiscal year ending within the calendar year for which the return is being made.

FIVE PER CENT. ADDITION.

(2a) The several taxes and surtaxes prescribed by subsections one and two of this section are hereby increased by the addition of five per centum of the amount of each of the said taxes and surtaxes payable with respect to any taxable income of \$5,000 or more for the calendar year 1919, or any taxable income of \$5,000 or more for accounting periods ending in the year 1919, as the case may be, and for each calendar year or accounting period thereafter.

PARTNERSHIPS.

(3) Any persons carrying on business in partnership shall be liable for the income tax only in their individual capacity. A husband and wife carrying on business together shall not be deemed to be partners for any purpose under the Income Tax Act.

(4) A member of a partnership, or the proprietor of a business whose fiscal year is other than the calendar year, shall make a return and have the tax computed upon the income from the business for the fiscal period ending within the calendar year for which the return is being made, but his return of income derived from sources other than his business shall be made for the calendar year.

TRANSFER OF PROPERTY.

(5) A person, who, after the first day of August, 1917, has reduced his income by the transfer or assignment of any real or personal, movable or immovable property, to such person's wife or husband, as the case may be, or to any member of the family of such person, shall, nevertheless, be liable to be taxed as if such transfer or assignment had not been made, unless the Minister is satisfied that such transfer or assignment was not made for the purpose of evading the taxes imposed under this Act or any part thereof.

DEDUCTIONS ALLOWED.

(6) Taxpayers shall be entitled to the following

deductions from the amount that would otherwise be payable by them for taxes under the provisions of this Act:

(a) The amount paid by such taxpayer for corresponding accounting periods under the provisions of Part I of *The Special War Revenue Act, 1915*, and any amendments thereto, or *The Business Profits War Tax Act, 1916*, and any amendments thereto: Provided, that in computing the taxable income hereunder the taxpayer shall not include any taxes paid under the said Acts in the expenses of his business, and the Minister shall have power to determine any questions that may arise in consequence of any difference in the several periods for which the taxes under the said Acts, and under this Act, respectively, are payable, and the decision of the Minister shall be final and conclusive. In the case of a partnership, each partner shall be entitled to deduct such portion of the tax paid by the partnership under *The Business Profits War Tax Act, 1916*, and any amendments thereto as may correspond to his interest in the income of the partnership: Provided that such deduction shall not affect the liability of the taxpayer to tax hereunder in respect of any income which does not form part of the profits assessed under *The Business Profits War Tax Act, 1916*, but such income shall be assessed for income tax purposes in the same manner as if it were the only income of the taxpayer.

(b) The amount paid to Great Britain or any of its self-governing colonies or dependencies for income tax in respect of the income of the taxpayer derived from sources therein, and the amount paid to any foreign country for income tax in respect of the income of the taxpayer derived from sources therein, if, and only if, such foreign country in imposing such tax allows a similar credit to persons in receipt of income derived from sources within Canada: Provided, that such deduction shall not at any time exceed the amount of tax which would otherwise be payable under the provisions of section three of chapter twenty-five of the statutes of 1918, or of any amending Act, in respect of the said income derived from sources within Great Britain or any of its self-governing colonies or dependencies or any foreign country; and further provided, that the said deduction shall be allowed only if the taxpayer furnishes evidence satisfactory to the Minister showing the amount of tax paid and the particulars of income derived from sources within Great Britain or any of its self-governing colonies or dependencies or any foreign country.

INCOMES NOT LIABLE TO TAX.

Under the Act certain incomes are not liable to taxation. These are described in Section 5, as follows:

- (a) The income of the Governor General of Canada;
- (b) The incomes of Consuls and Consuls General who are citizens of the country they represent and who are not engaged in any other business or profession;
- (c) The income of any company, commission or association not less than ninety per cent. of the stock or capital of which is owned by a province or a municipality;
- (d) The income of any religious, charitable, agricultural and educational institutions, Boards of Trade and Chambers of Commerce;
- (e) The incomes of labour organizations and societies and of benevolent and fraternal beneficiary societies and orders;
- (f) The incomes of mutual corporations not having a capital represented by shares, no

part of the income of which inures to the profit of any member thereof, and of life insurance companies except such amount as is credited to shareholders' account;

- (g) The incomes of clubs, societies and associations organized and operated solely for social welfare, civic improvement, pleasure, recreation or other non-profitable purposes, no part of the income of which inures to the benefit of any stockholder or member;
- (h) The incomes of such insurance, mortgage and loan associations operated entirely for the benefit of farmers as are approved by the Minister;
- (i) The income derived from any bonds or other securities of the Dominion of Canada issued exempt from any income tax imposed in pursuance of any legislation enacted by the Parliament of Canada; and
- (j) The income of incorporated companies whose business and assets are carried on and situate entirely outside of Canada.
- (k) Any pension granted to any member of His Majesty's military, naval or air forces for any disability suffered by the pensioner while serving in any of his Majesty's Forces during the war that began in August, 1914, and any pension granted to any dependent relative of any person who was killed or suffered any disability while serving in the said forces in the said war.

UNDER SECTION 7.—Every person liable to taxation shall make a return of income without notice or demand each year, on or before the 30th of April.

Employers shall make a return of all persons in their employ receiving any salary or other remuneration in excess of such an amount as the Minister may prescribe, on or before the 31st of March.

Corporations, etc., shall make a return of all dividends and bonuses paid on or before the 31st of March. All persons in whatever capacity acting having the control, receipt, disposal or payment of fixed or determinable annual or periodical gains, profits or income of any taxpayer, shall make and render, on or before the 31st of March, a separate and distinct return of such gains, profits or income, containing the name and address of each taxpayer. All returns due on or before the 31st of March must cover the twelve months of the calendar year under report.

PENALTY FOR NOT MAKING RETURN.

Every person required to make a return under subsection 1 of this section, who fails to make a return within the time limited therefor shall be liable to a penalty of five per cent. of the amount of tax payable; provided, however, that such penalty shall not in any case exceed five hundred dollars; and every person failing to deliver a return pursuant to any other provision of this section within the time limited therefor, shall be liable to a penalty of ten dollars for each day of default; provided, however, that such penalty shall not in any case exceed fifty dollars.

All such penalties shall be assessed and collected from the person liable to make the return, in the same manner as taxes are assessed and collected.

PAYMENT OF TAXES

Under Amendments passed in 1920 it is provided that all persons when sending in their Income return must pay at least one-fourth of the amount of the tax and surtax, and may pay the balance in three instalments at two, four and six months with interest at 6 per cent. If the re-

"If any person liable to pay any tax under this Act pays as any instalment less than one-quarter of the tax as estimated

by him, or should he fail to make any payment at the time of filing his return or at the time when any instalment should be paid, he shall pay, in addition to the interest at the rate of six per centum per annum provided for by this subsection, additional interest at the rate of four per centum per annum upon the deficiency from the date of default to the date of payment."

Trustees, Assignees, Executors, etc., shall pay all income taxes before distributing any estate, and must obtain a certificate from the Minister that there are no unpaid income taxes against the person, property or estate, before distributing the assets, otherwise such Trustees, Assignees, Executors or similar persons will be personally liable for the amount of the tax.

Under Section 8 the Minister of Finance may ask for additional information and may require the same under oath. Also that the Minister may require the taxpayer to keep adequate books of account.

Section 9 as amended, provides for penalties in the event of making default in the sending in of proper returns or of making false statements.

ASSESSMENT

Section 10 provides for the making of Assessments by the Minister.

5. (1921) "After examination of the taxpayer's return the Minister shall send a notice of assessment to the taxpayer verifying or altering the amount of the tax as estimated by him in his return. Any additional tax found due over the estimated amount shall be paid within one month from the date of the mailing of the notice of assessment. If the taxpayer fails to pay such additional tax within one month from the date of the mailing of the notice of assessment aforesaid, he shall pay, in addition to the interest provided for by subsection seven of section seven, of this Act, as enacted by section ten of chapter forty-nine of the statutes of 1920, interest at the rate of four per centum per annum, upon the said additional tax from the expiry of the period of one month from the date of the mailing of the said notice to the date of payment."

(2) The Minister, if he suspects that the taxpayer is about to leave Canada, may, for that or any other reason, by registered letter addressed to the taxpayer, demand payment of all taxes, penalties and accrued interest for which the taxpayer is liable, and the same shall be paid within ten days from the date of mailing of such registered letter, notwithstanding any other provision in this Act contained. Non-payment of the said tax within the specified time shall render the goods of the taxpayer liable to seizure by the sheriff of the city, county or district in which the goods of the taxpayer are situate. A certificate of non-compliance with any such demand, signed by the Commissioner of Taxation, setting forth the particulars of the demand and placed in the hands of the sheriff, shall be sufficient authority for him to seize sufficient of the goods of the taxpayer to meet the said demand.

The sale of such goods, and the disposition of the monies realized, shall be conducted in the manner prescribed by the law of the province in which the goods are situate as if the seizure were made under a writ of execution issued out of the Superior Court of the said province.

Section 11 provides that all information received by the Government is held in secret. Provision is also made for the appointment of Boards for the hearing of complaints against any assessment made.

In case of any further information being required, application should be made to the Commissioner of Taxation, Finance Department, Ottawa.

INCOME TAX RATES AND ESTATES DUTY IN GREAT BRITAIN, 1920-1921.

INCOME TAX.

The Royal Commission on the Income Tax which was appointed in 1919, with Lord Colwyn as President, reported in March, 1920, and almost all of its recommendations were accepted by the Chancellor of the Exchequer in laying the tax for 1920-21. The changes affected the taxation of earned and unearned incomes, abatements on small incomes and double taxation of incomes by the United Kingdom and a Dominion. No changes were made by the Finance Act of 1921. The excess profits duty was abolished but the income taxes, and super income taxes were left untouched.

DOUBLE TAXATION.

The recommendation of the Royal Commission was that in case of incomes taxed both in the United Kingdom and in a British Dominion, there should be deducted from the British tax the whole of the Dominion tax where this did not exceed one-half of the amount of the British tax. Where the Dominion tax exceeded one-half, the amount deducted would be one-half of the British tax and it was recommended that the Dominion make the concession of the remaining amount of the double tax. Mr. Chamberlain proposed to give partial relief without waiting for action by the Dominions, and the relief on incomes taxed both in the United Kingdom and in a Dominion is fixed at one-half the five shilling rate—2s. 6d. in the pound. This relief was estimated to cost the Exchequer £2,500,000 a year, and if the full recommendations are accepted later it will be a further charge on the Exchequer of £2,000,000. No relief was given on incomes taxed both by the United Kingdom and a foreign power.

EARNED AND UNEARNED INCOMES.

An abatement of ten per cent. was established on all earned incomes, and the income deemed assessable, instead of being the whole amount as in the case of investment incomes, was ninety per cent. of the total received, up to an amount of £200. On incomes of £2,000 or more the abatement was limited to £200.

EXEMPTIONS AND ABATEMENTS.

Exemption from income tax is granted to an individual whenever the total assessable income does not exceed £135 (£150 earned, £135 unearned). If a man is married, the exemption is raised to £225. If the wife is also earning the exemption may be increased by £45 or by nine-tenths of the wife's income if below this amount. The exemption for the first child is £36, and for each other child £27 of assessable income. For dependent relatives the exemption is £25, and an exemption of £45 is allowed to either widower or widow in respect of a female relative or housekeeper to take charge of the children.

GRADUATION OF TAXATION

Instead of the older graduated rates of income tax, graduation is arrived at in the present scheme, first by the classification as assessable income, and secondly by charging the first £225 of taxable income—after all exemptions have been deducted, at one-half the standard rate—at 3s. in the pound instead of 6s. Thus a man with £500 of earned income, with a wife, three children and his mother to support will pay £16 10s. income tax:—

Earned Income £500. Assessable Income £450.	£	s.	d.
Exemption for self and wife.....	225	0	0
" first child.....	36	0	0

Tax at 3s.—£16 10s.			

A man with £1,000 earned income will pay £164 5s. His exemptions will be the same. He will pay on £225 at 3s. in the pound, and on £435 at 6s. in the pound. There are exemptions allowed in respect of Life Insurance premiums.

THE SUPER-INCOME TAX.

The changes in the income tax were calculated to diminish the yield of the tax by about £18,000,000. To make up the deficit, increases were made in the super-income tax. The level of income on which the tax was paid was lowered to £2,000 instead of £2,500 the former level. The minimum rate was increased from 1s. in the pound, in addition to the standard income tax rate of 6s. to 1s. 6d. The new scale rises from 1s. 6d. on incomes of over £2,000 by graduated steps to 5s. on incomes of £20,000; to 5s. 6d. on incomes of £30,000 and 6s. on incomes over £30,000.

ESTATE DUTY.

There was no change in the rates of estate duty in 1921. The rates as they now stand are as follows:—

FRENCH TREATY

Trade Agreement Between France and Canada

Under this Agreement France is accorded most favoured nation treatment, and this applies to France merely, and not to Algeria, the French Colonies and Possessions and the Territories of the Protectorate of Indo-China.

The favourable treatment to which products originating in and coming from France will now be entitled is that accorded to Belgium, The Netherlands and Italy, and, as to samples, that accorded to Japan by Treaty, and such favourable treatment applies only when such goods are imported and conveyed without transshipment from a port of France or from a port of a British country into a sea or river port of Canada.

The following is a list of Countries accorded most favoured nation treatment in Tariff matters by Canada.

Argentine Republic,	Russia,
Columbia,	Spain,
Denmark,	Sweden,
France,	Switzerland,

(b) The excise taxes as imposed by the preceding paragraph (a) shall be payable at the time of importation or when taken out of warehouse for consumption in addition to the present duties of customs or at the time of sale by the Canadian manufacturer, but shall not apply on playing cards when exported, and shall be accounted for to His Majesty in accordance with such regulations as may be prescribed by the Minister of Customs and Excise.

(c) A tax of thirty cents per gallon on wines of all kinds, except sparkling wines, containing not more than forty per cent of proof spirits.

(d) A tax of three dollars per gallon on champagne and all other sparkling wines.

(e) The excise taxes as imposed by the preceding paragraphs (c) and (d) shall be payable at the time of sale by the Canadian manufacturer, but shall not apply to such wines when exported, and shall be accounted for to His Majesty in accordance with such regulations as shall be prescribed by the Minister of Customs and Excise.

(2) Every person selling or dealing in the articles upon which taxes are imposed as prescribed by this section may be required to take out an annual license therefor.

"19BBB (1) In addition to the present duties of customs and excise there shall be imposed, levied and collected an excise tax of one and one-half per cent on sales and deliveries by Canadian manufacturers or producers, and wholesalers or jobbers, and a tax of two and one-half per cent on the duty paid value of goods imported, but in respect of sales by manufacturers to retailers or consumers, including sales to His Majesty, whether in the right of His Majesty's Government of Canada or His Majesty's Government of any province of Canada for the purpose of re-sale, the excise tax payable shall be three per cent and on goods imported by retailers or consumers, including importations by His Majesty, whether in the right of His Majesty's Government of Canada or His Majesty's Government of any province of Canada for the purpose of re-sale, the excise tax payable on the duty value shall be four per cent.

SALES TAX ON LUMBER

Manufacturers of logs etc., into lumber, shingle etc., pay a sales tax of 2% on the sale price when such goods are sold and when resold no further sales tax is demanded.

Lumber imported is subject to a sales tax of 3% on the duty paid price and is exempt from further sales Tax when resold as lumber. Mills engaged in custom sawing, are not required to obtain a Sales Tax License

PROOF OF ORIGIN

(4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Customs House for goods admitted to entry under any of the Tariffs, and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin.

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual

selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or 'ampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council from time to time suspend the Surtax from application to the goods of any country.

FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

DRAWBACK

10. On the materials set forth in Schedule B to this Act, (see page 105) there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

GOODS TO BE MARKED

All goods imported into Canada which are capable of being marked, stamped, branded or labelled, without injury, shall be marked, stamped, branded or labelled in legible English or French words, in a conspicuous place that shall not be covered or obscured by any subsequent attachments or arrangements, so as to indicate the country of origin. Said marking, stamping, branding, or labelling shall be as nearly indelible and permanent as the nature of the goods will permit.

Provided that all goods imported into Canada after the date of the coming into force of this section which do not comply with the foregoing requirements shall be subject to an additional duty of ten per centum ad valorem to be levied on the value for duty purposes and in addition such goods shall not be released from Customs possession until they have been so marked, stamped, branded or labelled under Customs supervision at the expense of the importer.

COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED TO DATE

by

O. H. Cogswell, B. A., Ottawa

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem* except when otherwise specified.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from The Netherlands, Belgium, France, or Japan.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from The Netherlands, Belgium, Italy, France, or Japan.

Under the West India Island Trade agreement, all items designated by articles II and III, page 51 coming from the colonies included in W. I. I. Trade agreement named on page 52 have the advantage of 50% of the General Tariff when coming into Canada except those items under Schedule A, which have a special rate, see page 51

Items exempt from sales tax see page 111.

ADDENDA.

A selection of abridged notes to aid Importers and others with limited experience in Customs business.

Animals, pure bred, for improvement of stock, to be duty free, must be imported under following conditions:—

(a) Owner must be a British subject, resident in the British Empire.

(b) Entry must be accompanied by a certificate stating the animal to be recorded in Canadian National Records or in an accredited Foreign Record. (See dogs, also fowls.)

Animals' Quarantine.

“Cattle for breeding purposes and milk production, six months old or over, if accompanied by a satisfactory tuberculin test chart, dated not more than sixty days prior to the date of entry and signed or endorsed by a veterinarian of the United States Bureau of Animal Industry, must be detained in quarantine for such period as may be deemed necessary, and subjected to the tuberculin test; cattle reacting thereto must be returned to the United States or slaughtered without compensation.”

“The agent of any railway or common carrier receiving cattle or other live stock for shipment shall attach to the way bill accompanying such shipment the district health certificate relating to such cattle or other live stock whenever the owner or shipper possessing such certificate requests him to do so.”

Automobiles for touring purposes may be brought in by a non-resident of Canada for a period of six months by making a deposit of \$25.00 and giving a bond for double the amount of duty. On proof of exportation

the deposit will be refunded. For a period of only one month the deposit and bond are not demanded but the automobile must be duly entered at the frontier port of Customs on approved form in duplicate.

Baggage, wearing apparel, and such articles as are in use and actually accompany persons arriving into Canada and are necessary for the purposes of the journey, may be admitted duty free. It does not apply to merchandise for sale or goods belonging to other persons. Up to 40 cigars and 100 cigarettes may be admitted as baggage. Tools of trade in actual use may also be admitted free.

British Preferential. To secure the British Preferential it is necessary to note that:—

- (1) A separate invoice must be furnished for preferential goods.
- (2) Invoice must have certificate as to origin of goods.
- (3) Goods must be packed separately or not mixed up with other goods.
- (4) Goods must come direct or have a through bill of lading.

Cash discount not in excess of 2½% may be allowed off for duty purposes if actually deducted on the invoice. Trade discount should be deducted from both columns on the invoice.

Cattle for exhibition purposes over six months old entering Canada from United States must have a veterinary certificate signed by a veterinary inspector of the United States Bureau of animal industry,

ADDENDA—Continued.

- stating that they have passed the tubercular test within the last six months, also an affidavit from the importer identifying the cattle entered.
- Dogs, pure bred.** To obtain free entry the importer must produce a certificate of purity of blood signed by the breeder. He must also make an affidavit that the dogs imported are the identical animals described on the certificate.
- All dogs from Great Britain must be accompanied by a certificate, approved by the British Board of Agriculture that the animal has not been exposed to infection.
- Deer and Moose.** Deer shot for sport by persons not domiciled in Canada may be exported only within 15 days after the "open season." No person in any one year, shall export more than the whole of one moose and three deer, and that in not over two shipments. The exporter must produce the license to a Collector of Customs and sign a declaration as to the quantities and parts exported, the same to be attached to the export entry.
- Firearms and dangerous and offensive weapons, restrictions on importation of:—**
 "Note that a permit (which may be known as a Police Permit) in Form 76, is required by any one to lawfully have upon his person elsewhere than in his dwelling house, etc., or to carry, concealed, a pistol, revolver, sheath knife, etc., or other dangerous or offensive weapon, and that a similar police permit is required by an alien to lawfully have in his possession *anywhere* any firearm, or ammunition therefor, or any offensive weapon. British subjects may now have possession of guns or rifles without Police Permit.
- Collectors of Customs and Excise are therefore instructed not to release for delivery any goods as described in subsection (a) and (d1) of section 118 of the Criminal Code to any importer, not being a recognized dealer, unless such importer has, where required, in addition to any Customs permit required, a permit in Form 76, as prescribed, from an officer of Police or other proper official authorized by the said section to issue such permits."
- Fowls, pure bred,** must have certificate of blood describing the breed and signed by the breeder. Also the following sworn to statement made by the importer, "The fowls now imported and entered by the undersigned, are the identical fowl described in the invoice or entry."
- Goods damaged in transit.** Collectors may permit an importer to abandon to the Crown any whole package of goods damaged in transit, and be relieved of payment of duty thereon, if notice is given within 14 days of landing or entry of such goods.
- Gold export:—**Collectors of Customs must not permit the exportation of gold except upon the production of a license issued by the Deputy Minister of Finance for each shipment, such license to state the value or the approximate weight in ounces of the gold comprising the shipment.
- Goods perishable and breakable.** Collectors are permitted to make an allowance for all damage in excess of 15% as certified to by the appraiser on perishable and breakable goods such as fruit, crockery and glass, if the claim is made within three days of the arrival of such goods. If duty has been paid on full value of such goods, a refund may be arranged if the claim is made within 14 days and appraisal is made as soon as they can be examined.
- Horses, carriage and harness** going into the United States may be re-admitted into Canada duty free if they are returned within one year without change of ownership. They must be reported outward in duplicate with such description as to be identified on return. Duty is to be paid on repairs.
- Liquor:—**No person shall make or manufacture, except for scientific or medicinal purposes, any intoxicating liquor in the Dominion of Canada after the 1st day of April, 1918. After that date also, no person shall directly or indirectly transport or sell any intoxicating liquor.
- Machinery** valued at not less than \$10.00 when exported for repairs may be re-admitted by payment of duty on the repairs, only if returned within one year, provided further that application was made for outward entry and examination at Customs at time of export.
- Milk, Vegetable and Fruit Regulations.** The containers of milk, vegetable and fruit products:—
- (a) Are to be marked with the initials, the surname and the address of the packer;
 - (b) Must give a true description of the contents;
 - (c) Must show the firm No. assigned to the establishment;
 - (d) Must be subject to the approval of the Veterinary Director-General as to design of label.
- No such goods are admitted into Canada unless accompanied by a sworn declaration from the exporter that the goods are shipped in accordance with the regulations made under the Meat and Canned Foods Act.
- Motor cycles** as tourist outfit are admitted to entry into Canada for a period of one month under the same conditions as apply to automobiles, when for longer than one month the same conditions apply except a deposit of \$10.00 as a deposit instead of \$25.00.
- Opium and Narcotic Drugs:—**Cocaine, Morphine, Opium, Eucaine and other drugs, may not be imported into or exported from Canada except under License therefor, good only for the particular exportation or importation, which licenses are to be obtained on application to the Deputy Minister of the Department of Health, Ottawa; such drugs may only be imported or exported from Canada at the Canadian Customs Ports named by the Department.
- Oleomargarine:—**No person shall import or manufacture oleomargarine without first obtaining a license from the Food Controller of Canada, Department of Agriculture. A record must be kept of all shipments, showing date, quantity, and from whom purchased. All packages must be labelled and clearly marked with the words "Oleomargarine" to the approval of the Food Controller.
- Perfecting entries.** Sight entries must be perfected as well as entries on Form B1, on which duty is paid, pending production of certificate under Customs regulations for free entry of same, and for which a refund of duty is applied for.
- Refund on goods returned** not according to order, must comply with the following conditions:—
- (1) Goods are to be identified by Customs.
 - (2) Application for refund within one month and export within three months of date of entry.
 - (3) Proof of export furnished.
 - (4) Must be accompanied by export entry in triplicate.
 - (5) Delivered under Customs supervision.
 - (6) Copy of waybill signed by carrier, also copy of export entry duly certified to by Customs officer at port of exit must be annexed to refund claim.
- Refund on goods damaged in transit,** duty having been paid on the entire shipment according to the invoice, it will be necessary to bill the railway or inland carriers for the amount of the duty in addition to the value of the goods. It will then be up to the railway to produce a short landing certificate from the ocean carriers if the goods are from overseas, or a proof that the goods were lost or destroyed beyond the confines of Canada. When this proof is produced it must be attached to the refund claim.
- Samples (commercial traveller's),** are subject to duty each time of importation. The trunks may be admitted free after paying duty at time of first importation.

ADDENDA—Continued.

Samples of dutiable goods imported direct by non-residents of Canada from any British or French Treaty country may be admitted on deposit of a sum equal to the duty. The importer will make a temporary entry on the face of which he will make the declaration that the goods are samples for use only in taking orders and will be exported within 12 months. Samples to be re-exported must be marked for identification.

Seeds:—All importers of seeds, viz., clovers, grasses, vetches, rape, forage plants, field root, and garden vegetables, in lots of 10 lbs. or more, must submit a sample to be forwarded to the Government Seed Laboratory, Department of Agriculture, Ottawa, for test.

Sight entries are usually occasioned by defective invoices or no invoices at all. They are to be made out in quadruplicate and the value of the importation must be so increased for duty as to be absolutely certain to protect the revenue. On receipt of corrected invoices a claim for refund may be submitted but not after a period of six months, except by permission of the Department.

Special duty exemptions. Special duty does not apply in the case of goods not made in Canada, or when the difference between the home price at time shipped and the price to the Canadian purchaser does not exceed 5% of the home price. Provided, however, the whole difference is to be taken into account for special duty purposes when exceeding 5%. If the home price at time shipped has been subject to sudden inflation the price at time of purchase may be accepted as the fair market value in the application of the dump.

Special duty does apply and without exemption allowance to articles of a class and kind made in Canada, even when admitted free of ordinary duty.

Value for duty is subject to the following general regulations:—

- (1) Home consumption price at time shipped.
- (2) Actual trade discount allowed not to reduce

below home consumption price.

- (3) Commission for services rendered in the purchase of goods bought in the name and on the account of the importer and so invoiced and exported shall not usually be held as forming a part of the value for duty when not in excess of 5%. All other commission charges are considered dutiable.
- (4) Price of goods as sold in bond not to be accepted for duty.
- (5) Foreign revenue duties to be added, but foreign export duties not to be added.
- (6) Value must be without condition as to sale.
- (7) Value for duty to be at the distributing point.
- (8) Must be the value on condition ready for shipment.
- (9) Bonus for early delivery must be considered part of value for duty.
- (10) Cash discount not over 2½% is allowed off if actually deducted on invoices.
- (11) Appraisers valuation is to be accepted.
- (12) Articles of different kinds, the highest value is to be taken as the average for duty.
- (13) No allowance off for packages, straw, twine, etc.

Valuation for duty on goods not sold for home consumption may, usually, be determined by ascertaining the total cost of producing the goods in condition ready for market and adding thereto the usual profits made on sales of a similar line of goods.

Waybills must show:—

- (1) Name and address of consignee.
- (2) Marks and number of packages.
- (3) Description of packages.
- (4) When goods are in bulk, the number of pieces, bundles or bushels.
- (5) In case of agricultural instruments, number and description of each class of instruments.

CUSTOMS PROCEDURE

CUSTOMS PROCEDURE

SHIPPING GOODS TO THE UNITED STATES:—

The customs laws of the United States, governing the importing of goods, very materially differ from ours. They have no such thing as the manifesting system such as we have, and all merchandise is supposed to be entered at the first port of arrival. However, they have ports, termed I. T. Ports (Immediate transport ports) to which goods may be forwarded in bond, without appraisement at the frontier port. In this case the goods must be carefully marked "Forwarded in Bond."

Merchandise, in order to be entered under Immediate Transportation, without appraisement at the frontier, must be destined to a designated immediate transportation port, and must be billed via a port at which merchandise may be entered for transportation to another port without appraisement.

These ports through which goods must be billed and to which they must be consigned may be learned from the transportation company as the lists are too extensive to be given space here.

If goods are destined for a foreign country they are entirely under Transportation and Exportation entry in bond, in transit, for exportation from the sea board port.

Goods to be returned to the United States: Merchants finding it necessary to return goods not according to order and wish to obtain refund of duty will be required to make out three different forms to accompany the waybill when goods are shipped back. If shipment is over \$100.00 the forms are as follows.

1. "Foreign Owners Oath" or "Oath of American Manufacture."

2. American Consular Certificate.

3. Export Papers in triplicate.

Where shipment is under \$100.00 the American Consular certificate is not required.

The Intending Consignee must send to the U.S. shipper for an affidavit on a prescribed form, mentioned above as the Oath of American Manufacture, declaring the goods to be of United States origin or manufacture, in order that the goods when returned may pass the U.S. Customs without duty.

When this affidavit is received it must be attached to the waybill by the transportation agent here and forwarded along with the goods. This will enable the United States Customs Officer at the frontier to recognize the goods as Home Manufacture and have them forwarded on to destination without duty. The original U.S. shipper may secure these forms at his customs, but a better way is for the intending consignee to secure a copy from the local express agent here and forward same to the U.S. firm with all necessary explanation as to line of procedure and thus avoid possible delay.

The American Consular certificate forms must be obtained from the nearest American Consul who will send blank forms in triplicate. These must be filled in as required and returned to the American Consul with his fee when he will return one copy to the Intending Consignee, who will attach same to waybill with other documents mentioned.

Export entry, procurable from Customs Dept. must be made out by consignee in triplicate and attached to waybill together with the Foreign Owners' Oath and Consular certificate. One copy will remain on file at the port of exit, the second copy goes to the Customs Department and the third copy will be returned by the Customs Officer at the Canadian Port of exit to the Merchant who returned the goods. He will then attach it to the Refund of Duty claim along with a copy of the way bill as a guarantee that the goods have been returned.

GOODS SHORT LANDED

Merchants frequently find when a consignment of goods has arrived, that on comparison with the invoice or the waybill some of the goods are missing. In such a case duty must be paid on the entire face value of the invoice. If a whole package is missing it is only necessary after clearing the entire lot to accept what is termed a "short warrant" for the goods short landed. On the arrival of the stray goods it will simply be necessary to present this warrant to the Customs to secure their release.

But if on examination of the goods the importer finds part of contents of packages missing, he must within 14 days notify the collector or the Customs' Appraiser in writing of the missing goods.

The Appraiser will at once examine the shipment, and if satisfied that the goods reported on the invoice, are not inclosed he will make a notation to that effect on the invoice. This notation will serve as a proof that duty has been paid, and enable the importer, at a subsequent date to have the missing goods cleared without further duty on a value included in entry or to obtain a refund of duty if such is desired.

SETTLERS' EFFECTS ENTRY

Bonafide settlers have no difficulty in bringing their effects with them when entering Canada. They have simply to make affidavit that they have owned their effects for at least 6 months, and that they intend to become bonafide settlers in Canada. Settlers going to the United States must state under Oath that they have owned their effects for at least one year, but are not required to come under any obligation to become permanent settlers. The Canadian has this advantage that he can enter the United States for the season and take his effects with him and not have them become liable for duty.

TOURING WITH AUTOMOBILES ETC—A non-resident of Canada, after getting a permit from the U.S. Customs, may enter his car into Canada for touring purposes for one month by simply calling at the Frontier Port of entry and subscribing to a permit on a prescribed form.

This permit is made out in duplicate; one copy to remain on file at the Port, and the other to be held by the tourist, to be returned to the Collector of Customs, and compared with the copy on file, when the car makes its exit from Canada.

Should the Tourist return via some other Port, he will surrender his permit to the Collector at the Port of Exit, who will at once mail it to the Collector of the Port of Entry there to be compared with the copy on file.

Should the Tourist wish to remain in Canada for a longer period, up to 6 months, he will be required to deposit with the Collector \$25.00, and furnish a bond for double the amount of duty secured through an accredited guarantee company of Canada. A list of these compared with their address may be obtained at the Customs.

Should a Tourist not return within the time limit, the car would be liable to seizure. Should a delay occur threatening to prolong the six-month period, the Customs Department should be communicated with at once to learn line of procedure.

Canadian Tourists going into the United States must follow a similar line of procedure, and secure a permit on Form C-12 at the Customs, in order to return his car without duty, and also enter his car on the U. S. side for one month on permit. For 6 months he must furnish a bond of an accredited Guar-

antee Company of the United States for double the amount of duty, but no deposit is demanded as with cars coming this way.

POSTAL INFORMATION.

For List of Officials of Post Office Department, see Dominion Government.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 3 cents for first oz. and 2 cents for each additional oz. If unpaid or insufficiently prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 2 cents for the first oz. and 1 cent for each additional oz.

Post Cards.—From any place in Canada to any place in Canada or to the United Kingdom and the British Empire generally, to the United States or Mexico, 2 cents each. To all other countries, 6 cents each.

Cards bearing the printed title "Post Card" or "Private Post Card" can be admitted to both Canadian and International mails at printed matter rate, provided that they bear no written communication, and conform in all respects to the regulations regarding printed matter.

Private Post Cards.—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by 3½ inches in width, nor be less than 3¼ inches in length by 2¼ inches in width. Cards for other countries must not exceed 5½ inches in length by 3½ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

United Kingdom and British Possessions and Protectorates.—Postage on Letters, 4 cts. for the first ounce and 3 cents for each additional ounce.

Foreign Countries, except United States and Mexico.—Postage on Letters, 10 cents for a letter weighing one ounce or less. For letters weighing over one ounce 10 cts. for the first ounce and 5 cts. for each subsequent ounce or fraction of an ounce,

United States and Mexico.—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (3 cents), must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid 3 cents.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, "Special Delivery" stamps of the value of 20 cts. or ordinary postage stamps of the value of 20 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Belleville, Brantford, Brockville, Chatham, Fort William, Galt, Guelph, Hamilton, Kingston, Kitchener, Lindsay, London, Niagara Falls, Oshawa, Ottawa, Owen Sound, Peterboro', Port Arthur, Sarnia, Stratford, Sault Ste. Marie, St. Catharines, St. Thomas, Toronto, Walkerville, Windsor and Woodstock; in Quebec—Hull, Montreal, Quebec, St. Hyacinthe, Sherbrooke, Shawanigan Falls and Trois Rivières; in New Brunswick—Fredericton, Moncton and St. John; in Nova Scotia—Amherst, Halifax and Sydney; in Manitoba—Brandon and Winnipeg; in Saskatchewan—Moose Jaw, Prince Albert, Regina and Saskatoon; in Alberta—Calgary, Edmonton, Lethbridge and Medicine Hat; in British Columbia—Nanaimo, New Westminster, Vancouver and Victoria; in P. E. Island—Charlottetown. The "Special Delivery" stamps may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 20 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents each. Two coupons of this value are required to prepay replies from most of the Postal Union countries.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, except parcels sent by parcel post, ten cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 10 cents in addition to the ordinary postage and registration fees if requested at the time of posting. If requested, after the registered article has been posted, the fee is 20 cents.

Indemnity for Registered Articles.

Domestic—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

British and Foreign.—Except in cases beyond control (e.g., tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs (\$10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

Insurance of Domestic Parcel Post.—Parcels posted in Canada for delivery within Canada which conform to Parcel Post Regulations are accepted for insurance up to \$100, against loss, rifling or damage. The insurance fees are:—3 cents for insurance not exceeding \$5, 6 cents for insurance over \$5 but not over \$25; 12 cents for insurance over \$25 but not over \$50 and 30 cents for insurance over \$50 but not over \$100.

1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals *printed and published in Canada* not less frequently than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, State of North Borneo, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of British Bechuanaland, Cape of Good Hope, Natal, Orange Free State and Transvaal), and Zanzibar, is a bulk rate of 1½ cents per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, in any city, town or village which has a population of not more than 10,000, are entitled to pass free to regular subscribers and newsdealers in Canada to the extent of a circulation of 2,500 copies per issue within a distance of 40 miles from their place of publication. In all cases the centre of the area for free distribution will be the place of publication. Such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 2 cents per pound or fraction thereof. Other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 2 cents per lb.

2. British and Foreign Newspapers posted by Newsdealers in Canada.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 2 cents per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 2 cents per pound.

3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers*. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the

United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is two cents for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 2 cents per 2 ozs. when addressed to the United Kingdom or British Colonies.

Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. for British and foreign post, 4 lbs. 6 ozs., but in case of a single book, a weight of 10 lbs. is allowed in the domestic and British and Foreign post. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; British and foreign: 18 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage when addressed to places in Canada, New Foundland, the United States and Mexico, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

Books and other literature for the blind, can be sent to the United Kingdom and all countries of the Postal Union at the rate of 1 cent per pound. The general limit of weight is 4 lbs. 6 ozs. but in case of a single book a weight of 10 lbs. is allowed.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 2 cents per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications), engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards and single post cards without written communications, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college exami-

nation papers and educational exercises passing between colleges and extra-mural students (written corrections and comments on examination papers and educational exercises may be enclosed with them, but no correspondence is allowed), printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Circulars are communications in print, or produced by a multiplying process easy to recognise, but not direct from a typewriting machine, which are issued in identical terms to several individuals. A circular may, without becoming liable to a higher rate of postage, have a written date and signature, and may have the name of the addressee repeated in writing inside. Reproductions of imitations of hand or typewritten matter, in order to be accepted as circulars, must be handed in at the post office wicket, in a number not less than twenty identical copies, separately addressed. Failure to comply with either of these conditions will subject the article to letter rate of postage.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, or in the United States, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers
“Commercial Papers” are understood to comprise all

papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any note which does not relate directly to the execution of the work. The rate is 2 cents per 2 ozs., but each packet must have a minimum prepayment of 10 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 1 lb. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada may be registered by affixing thereto stamps to the value of 10 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids (except intoxicating liquors), oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in

the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 1 lb. and must be prepaid at the following rates:— For the United States and Mexico, 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—2 cents per 2 oz. or fraction of 2 oz., with a minimum prepayment of 4 cents covering a weight of 4 oz.

Samples of liquids (except intoxicating liquors), oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(a) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(b) Ten cents for the first pound and 5 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(c) Ten cents for the first pound and 7 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee,

“postage due” stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Parcel Post packets cannot be registered but can be insured (*See fees for insurance of parcels, page 155*).

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations :—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom, Australia, New Zealand and Newfoundland must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than those mentioned above must not exceed 2 feet in length by 1 foot in width or depth. There are some other exceptions to this rule, as may be ascertained at any Post Office.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel ; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed*.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster ; in no case should they be dropped into a letter box or other receptacle for mail matter

Prohibited Articles.

All explosive, dangerous or destructive substances, intoxicating liquors, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes. Enquiry should be made at the Post Office in regard to transmitting game, raw furs, skins, plumage, etc., by mail.

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Post Office Money Orders.

Money order business has not yet been resumed with Austria, Hungary, Bulgaria, and the countries and places served through those countries, nor with Constantinople and Luxemburg. Money orders may now be issued for payment in Germany and Spain through the intermediary of the British Postal Department.

In view of these facts and also of the fact that the regulations may be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

LIST OF RAILROADS IN THE DOMINION OF CANADA, WITH THEIR TERMINAL POINTS.

Numbered to correspond with numbers used in Third and Sixth columns of pages 170 to 264.

NOTE—The number to the left of the decimal point indicates the Railway system, and the numbers to the right of the decimal point the branch. Thus 535 is the Canadian Pacific Railway system, and 535.37 is the Guelph and Goderich Branch of the C. P. R. For Express Companies see pages 159 to 163. See also list of old and new names of Railways.

POST OFFICES AND RAILROAD STATIONS
IN THE DOMINION OF CANADA.

The Offices printed in *Italics* are authorized to issue and pay Money Orders and Postal Notes. The Offices marked * are Savings Bank Offices. † Places marked thus are not Post Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Sask, Saskatchewan.

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 164 to 169. For Express Companies, see pages 159 to 163.

THE KING AND ROYAL FAMILY. THE HOUSE OF WINDSOR.

In deference to the strong antipathy of the British to a German name for the Royal Family, the King in 1917, by Order-in-Council, changed the name of the Royal Family, from the House of Hanover to the House of Windsor.

THE KING.—George V., by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the seas, King, Defender of the Faith, Emperor of India. His Majesty is the second son of the late King Edward and Queen Alexandra, the elder son, Prince Albert Victor, Duke of Clarence, having died in January, 1892. George V. was born June 3rd, 1865. He married on July 6th, 1893, his second cousin, Princess Victoria Mary Augusta Louise Olga Pauline Claudine Agnes of Teck.

THE QUEEN.—Mary, only daughter of the late Duke of Teck, was born at Kensington Palace, May 26th, 1837, and was married at Windsor to His Majesty, then Duke of York, on July 6th, 1893.

The children of King George and Queen Mary are:—

Prince Edward Albert Christian, Duke of Cornwall, born June 23rd, 1894. He received investiture as Prince of Wales, July, 1911.

Prince Albert Frederick Arthur George, Duke of York, born December 14th, 1895.

Princess Victoria Alexandra Alice Mary, born April 23rd, 1897.

Prince Henry William, born March 31st, 1900.

Prince George Edward, born December 20th, 1902.

Prince John Francis Charles, born July 12th, 1905 died January 13th, 1919.

The surviving children of the late King Edward VII. besides King George V., are:—

Princess Louise, Dowager Duchess of Fife (Louisa Victoria Alexandra Dagmar), born February 20th, 1867; married July 27th, 1889, Alexander William George, Duke of Fife, died 29th January, 1912. Has two daughters, Alexandra, Duchess of Fife, born May 27th, 1891, married October 15th, 1913, Prince Arthur of Connaught; and Maud, born April 3rd, 1893.

Princess Victoria Alexandra Olga Mary, born July 6th, 1868.

Princess Maud Charlotte Mary Victoria, born November 26th, 1869; married 22nd July, 1896, to Charles second son of the Crown Prince of Denmark, chosen King of Norway, Nov., 1905. Has one son, Olaf.

The surviving children of her late Majesty Queen Victoria are:—

Her Royal Highness Helena Augusta Victoria, born May 25th, 1846; married to H. R. H. Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sonderburg-Augustenburg, July 5th, 1866 (died Oct. 28, 1917; issue three sons, one of whom died an infant, and one died in South Africa, Oct., 1900, and two daughters.

Her Royal Highness Louise Caroline Alberta, born March 18th, 1848; married March 21st, 1871, to the Marquis of Lorne, ninth Duke of Argyll, who died in 1914.

His Royal Highness Arthur William Patrick Albert, Duke of Connaught, born May 1st, 1850; married March 13th, 1879, to Princess Louise Margaret, daughter of the late Prince Frederick Charles of Prussia, died in 1917, and has issue one son and two daughters. Arthur, married Alexandra, Duchess of Fife; Margaret, married Gustavus Adolphus, Crown Prince of Sweden, died 1920, and Patricia, married Commander Ramsay, son of the Earl of Dalhousie.

Her Royal Highness Beatrice Mary Victoria Feodora, born April 14th, 1857; married July 23rd, 1885, to Prince Henry of Battenburg, who died Jan. 20th, 1896; and had issue three sons, of whom the youngest, Maurice, born 1891, was killed in action in France, October 27th; 1914, and one daughter, now Queen Victoria of Spain, married King Alfonso, May 31st, 1906.

The deceased children of her late Majesty Queen Victoria, are:—Edward VII., born November 9th, 1841; succeeded to the throne, January 22nd, 1901, died May 6th, 1910. He married Princess Alexandra of Denmark, March 10th, 1863. On the death of the King, Queen Alexandra took the title of Queen Mother.

Her Imperial Majesty Victoria Adelaide Mary Louisa, Princess Royal, Empress Frederick of Germany, born Nov. 21st, 1840, and married Jan. 25th, 1858, to Frederick, Crown Prince of Prussia, afterwards (March to June, 1888) second German Emperor, who died June 15th, 1888, died August 5th, 1901, and had issue four sons (two deceased), the eldest William, the ex-German Emperor, and four daughters.

Her Royal Highness Alice Maud Mary, born April 25th, 1843; died December 14th, 1878; married his Royal Highness Prince Frederick Louis of Hesse, July 1st, 1862, who died March 13th, 1892; had issue five daughters and two sons; the second son died by an accident, May, 1873; the youngest daughter died November 15th, 1878.

His Royal Highness Alfred Ernest Albert, Duke of Saxe-Coburg-Gotha, born August 6th, 1844; married the Grand Duchess Marie of Russia, January 9th, 1874, died July 30th, 1900; issue, a son, born October 15th, 1874, (died February 6th, 1899) and four daughters, born October 29th, 1875, November 25th, 1876, September 1st, 1878, and March, 1884.

His Royal Highness Leopold George Duncan Albert, Duke of Albany, born April 7th, 1853; married April 27th, 1882, to Princess Helen of Waldeck, and died March 28th, 1884, having had issue one son, now Duke of Albany, who succeeded his uncle, the Duke of Edinburgh, as Duke of Saxe-Coburg-Gotha, on July 30th, 1900, and one daughter.

THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910, the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until in 1919, it amounted to £1,115,186, an amount double that granted to the King and Royal Family in the Civil List

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons receives an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to his daughter is £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List).....	£470,000
Queen Alexandra.....	70,000
Pensions transferred to Consolidated Fund.....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein.....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg)....	6,000
Duchess of Albany.....	6,000
Total.....	£625,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty, Sir Robert Borden, Sir George Foster, Sir Charles Fitzpatrick, Sir Louis H. Davies, and Justice Lyman P. Duff are styled Right Honourable as members of the

English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a ‡ and during tenure of office are styled Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial Bench, and the Attorney and Solicitor-Generals. *** Senator; hence, honourable.

CANADIAN RECIPIENTS OF THE "VICTORIA CROSS."

The Victoria Cross (in imitation of the French Cross of the Legion of Honour) was instituted by Queen Victoria at the close of the Crimean campaign, 1856. It is granted to soldiers and sailors of any rank for a single act of valour, the performance of some signal deed of devotion in the enemy's presence. It is a Maltese Cross, made of gun metal, with a Royal Crown in the centre surmounted by a lion and the words "For Valour" indented on a scroll below the Crown. The ribbon is red for the army and blue for the navy. A pension of £10 a year accompanies the decoration.

McMichael, S. W.	Tully, Kivas
Montizambert, Frederick	Walker, W. H.
Courtney, J. M., <i>C.M.G.</i>	Wolfenden, Lt.-Col. R.

THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

THE DISTINGUISHED SERVICE ORDER.

This Naval and Military Order of Distinction was instituted by Queen Victoria, September 6th, 1886, as a means of rewarding individual instances of meritorious or distinguished service in war.

Synopsis of the statutes relating thereto:—

(1) This Order is designated the "Distinguished Service Order."

(2) It consists of the Sovereign, and of such Companions as the Sovereign shall appoint.

(3) The Kings and Queens Regnant of the United Kingdom of Great Britain and Ireland, Emperors and Empresses of India, are Sovereigns of the Order.

(4) No person is eligible for this distinction who does not actually hold, at the time of his nomination, a Commission in the Navy, in Land Forces, of Marines, or in the Indian or Colonial Naval or Military Forces, or a Commission in one of the Departments of the Navy or Army, the holder of which is entitled to Honorary or Relative Rank, nor may any person be nominated unless his services shall have been marked by the especial mention of his name, by the Admiral or Senior Naval Officer commanding a Squadron or detached Naval Force, or by the Commander-in-Chief of the Forces in the Field, in despatches for meritorious or distinguished service in the Field, or before the enemy.

(5) Foreign Officers who have been associated in Naval and Military operations with the British Forces are eligible to be Honorary Members of this Order.

(6) Appointment is made by Warrant under Royal Sign Manual, and countersigned by one of the Principal Secretaries of State.

(7) This Order ranks next to and immediately after the Order of the Indian Empire, and the Companions take precedence immediately after the Companions of the said Order of the Indian Empire and shall rank among themselves according to the dates of their respective nominations.

(8) The Badge of the Order consists of a gold cross, enamelled white, edged gold, having on one side, in the centre, within a wreath of laurel, enamelled green, the Imperial Crown in gold, upon a red enamelled ground, and on the reverse, within a similar wreath and on a similar red ground, the Imperial and Royal Cypher V.R.I., and is suspended from the left breast by a red riband, edged blue, of one-inch in width.

(9) The names of these upon whom the decoration is conferred are published in the London *Gazette*, and a registry thereof is kept in the office of the Secretary of State for War.

A list of Companions of the Distinguished Service Order (D.S.O.) was published in the CANADIAN ALMANAC or 1920.

ORDERS OF KNIGHTHOOD, ETC.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

The Order of the British Empire has four classes—K.B.E., C.B.E., O.B.E., and M.B.E.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

The following is a list of abbreviations used to indicate Honours and Decorations:—

K.G.—Knight of the Most Noble Order of the Garter.
 K.T.—Knight of the Most Noble Order of the Thistle.

PARLIAMENTARY REPRESENTATION

REPRESENTATION BY PROVINCES

The four original provinces of the Dominion were Ontario, Quebec, Nova Scotia and New Brunswick, which were given parliamentary representation according to Section 37 of the British North America Act, 1867. By Imperial Orders in Council the provinces of British Columbia and Prince Edward Island were admitted into the Dominion, the former on July 20, 1871, by Order dated May 16, 1871, and the latter on July 1, 1873, by Order dated June 26, 1873. An Act of the Dominion Parliament of May 12, 1870 provided for the formation of the province of Manitoba out of Rupert's Land and the Northwest Territories soon as these should be admitted into the Dominion of Canada, which admission was effected by Imperial Order in Council dated June 23, 1870, taking effect July 15, 1870. In consequence of doubts as to the legal validity of the Dominion Act of 1870. The Imperial Parliament passed an Act in 1871 making the Canadian Act valid and effectual.

PARLIAMENT OF CANADA

The Parliament of the Dominion of Canada consists of the Senate with 96 members and the House of Commons with 235 members, senators being appointed for life by the Governor-General and members of the House of Commons being elected by the people. The ordinary legal limit of duration for each parliament is five years, but by Act of Imperial Parliament passed June 1, 1916, the duration of the 12th Parliament of Canada was extended until October 7, 1917. The 12th Parliament of Canada was dissolved by proclamation of the Governor-General on October 6, 1917, and the 13th Parliament of Canada was elected on December 17, 1917. A Redistribution Act passed after each census readjusts the number of representatives in the House of Commons in accordance with rules laid down in Section 51 of the British North America Act, 1867, of the Imperial Parliament. These rules provide that the province of Quebec shall always have a fixed number of 65 members and that there shall be assigned to each of the other provinces such

a number of members as will bear the same proportion to the number of its population (ascertained by the census) as the number 65 bears to the population of Quebec. However by an amendment to the British North America Act passed by Imperial Parliament in 1915, it was enacted that "notwithstanding anything in the said Act, a province shall always be entitled to a number of members in the House of Commons not less than the number of senators representing such province." As a consequence of this amendment the representation of Prince Edward Island has remained at 4 members.

THE SENATE

The numerical presentation of the Senate by provinces is as follows: Prince Edward Island 4, Nova Scotia 10, New Brunswick 10, Quebec 24, Ontario 24, Manitoba, 6, Saskatchewan 6, Alberta 6, British Columbia 6. Total 96.

HOUSE OF COMMONS

The representation of the people in the House of Commons has been governed by Acts of Dominion Parliament passed in 1903, 1904 and 1907. The provinces of Saskatchewan and Alberta were created by Acts of Dominion Parliament passed in 1905 and after the Northwest Census of 1906 the Representation Act was amended by an Act of April 27, 1907 which gave Saskatchewan ten members and Alberta seven members after the next ensuing election of October 26, 1908. The seven additional members thus given to Saskatchewan and Alberta brought the representation of Canada in the House of Commons up to 221. The Representation Act, 1914 which was assented to on June 12, 1914, came into operation for the election of the 13th Parliament of Canada. An amending Act and the Imperial Act 5-6, provide that the House of Commons shall consist of 235 members distributed by provinces as follows: Prince Edward Island 4, Nova Scotia 16, New Brunswick 11, Quebec 65, Ontario 82, Manitoba 15, Saskatchewan 16, Alberta 12, British Columbia 13 and Yukon Territory 1.

PRODUCTION OF MINERALS—QUEBEC

The annual report of the Quebec Superintendent of Mines shows that the value of the mineral production of the province for the calendar year 1919 amounted to \$20,813,670, as compared with \$18,707,762 for 1918. The figures for 1919 are the highest on record. Of the total the products of the mines proper are valued at \$13,366,775, and building materials at \$5,340,987; the former show an increase of 23.5 p.c. and the latter an increase of 2 p.c. Amongst the principal products, with their respective values in 1919, are asbestos (\$10,932,289); cement (\$4,337,572); copper and sulphur ore (\$447,623); limestone and marble (\$916,776); magnesite (\$283,719); brick (\$1,179,624); chromite (\$223,331); lime (\$521,031); mica (\$224,938); zinc and lead ore (\$103,135); molybdenite (\$69,203); tiles, drain-pipes, etc. (\$112,367); granite (\$334,692). The following table shows the annual value of the mineral production of Quebec for years 1900 to 1919.

The Presbyterian Church in Canada was formed on June 15th, 1875, in Victoria Hall, Montreal, by the union of the Canada Presbyterian Church; the Presbyterian Church of Canada in connection with the Church of Scotland; the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland and the Presbyterian Church of the Lower Provinces.

THE BASIS OF UNION WAS IN BRIEF.

1. The Scriptures of the Old and New Testaments, being the Word of God, and the only infallible rule of faith and manners.
2. The Westminster Confession of Faith shall form the subordinate standard of the Church; the Larger and Shorter Catechisms shall be adopted for the instruction of the people.
3. The government and worship of the Church shall be in accordance with the recognized principles and practice of the Presbyterian Church as laid down generally in the form of Presbyterian Church government, and in the Directory for the public Worship of God.
4. (1) This Church cherishes Christian affection towards the whole Church of God, and desires to hold fraternal intercourse with it, in its several branches, as opportunity offers.
(2) This Church shall, under such terms and regulations as may from time to time be agreed on, receive ministers and probationers from other churches, and especially from churches holding the same doctrine, government and discipline with itself.

There are Eight Synods:—

PATENTS IN CANADA.

The Patent Office is attached to the Department of Trade and Commerce, Ottawa.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. Whenever a Patentee is unable to commence or carry on the construction or manufacture of his invention within the two years provided, the Commissioner may at any time not more than three months before the expiration of that term, grant to the Patentee or his legal representatives an extension of the term of two years, on his proving to the satisfaction of the Commissioner that his failure to commence or carry on such construction or manufacture is due to reasons beyond his control. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office

requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final. A patent is granted for a term of eighteen years.

The patent may be assigned, but same unless duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far as it has proceeded, with or without plans, at his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees shall be payable before an application for any of the purposes herein mentioned shall be received by the Commissioner, that is to say:—On filing an application for patent, \$15.00; on grant of patent, \$20.00; (Payable on pain of forfeiture within six months from the date of notice of the allowance of patent). On lodging a caveat, \$5.00; on asking to register a judgment pro tanto, \$4.00; on asking to register an assignment, or any other document affecting or relating to a patent, \$2.00; for each and every patent mentioned in any notice given to the Commissioner by the Inventor after the issue of a foreign patent of his invention to apply for a patent in Canada for such invention, \$2.00; on asking to attach a disclaimer to a patent, \$2.00; on asking for a copy of patent with specifications, \$4.00; on petition to re-issue a patent after surrender, \$30.00; on office copies of documents, not above mentioned, the following charges shall be made: for every single or first folio of one hundred words, certified copy, \$0.25; for every such subsequent folio, fractions of or under one-half not being counted, and of one-half or more being counted as a folio, \$0.10.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Austria, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the

Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are \$5.00 on filing of the application, \$10.00 on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

Since the war there have been Orders-in-Council amending the orders and regulations regarding patents, which are as follows:—First Order dated 2nd October, 1914, under which it is provided, that in any case in which through circumstances arising from the present state of war the Commissioner may deem it expedient, he may order that during the continuance of the war, and for six months thereafter, neither the failure to construct or manufacture in Canada any patented invention, nor the importation of such invention into Canada, shall in any way affect the validity of the patent granted in respect of such invention.

Under order dated 2nd October, 1914, it is provided that the Commissioner may order the avoidance or suspension in whole or in part of any patent or license, the person entitled to the benefit of which is a subject of any State at war with His Majesty, and the Commissioner may also in his discretion grant in favor of persons other than a subject of any State at war with His Majesty, license to make, use or vend the patented invention so avoided or suspended. The Commissioner may also extend the time prescribed by the Patent Act or any rules made thereunder, for doing any act or filing any document:

(a) Where it is shown to the satisfaction of the Commissioner that the Applicant, Patentee or Proprietor was prevented from doing such act or filing the said document by reason of active service or enforced absence from the country, or any other circumstances arising from the present state of war, which in the opinion of the Commissioner would justify such extension.

(b) Where the doing of any act would by reason of the circumstances arising from the present state of war, be prejudicial or injudicious to the rights or interests of any Applicant, Patentee or Proprietor as aforesaid. These orders are confirmed until June, 10, 1922.

The Commissioner may also refuse to register the assignment of any patent made by a subject of any State at war with His Majesty, and filed in the Patent Office on or after 4th August, 1914, unless satisfied that such assignment was made in good faith, and not for the purpose of evading any of the provisions of the orders and regulations.

PEACE TREATY.

Under the provisions of the Treaty of Peace (Germany) Order 1920, incorporated in the Dominion Statutes of 1920, provisions are made for the extension of time for the performance of certain acts required under the Patent Laws. Persons interested are advised to refer to this order.

COPYRIGHT IN CANADA.

A new Canadian Copyright Act was passed on 4th. June 1921 entitled "The Copyright Act 1921".

This Act was to come into force on proclamation of the Governor General in Council. Up to the time of going to press this proclamation had not been made. The provisions of the old Copyright Law of 1906 are there fore still in force. A summary of this law was given in the Canadian Almanac for 1921.

J. EDWARD MAYBEE 156 YONGE STREET - TORONTO, ONT.

SUCCESSION DUTIES UNDER THE SUCCESSION DUTIES ACT OF ONTARIO.

Property consisting of real and personal property of every description and every estate and interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs and representatives is subject to Succession Duty, and the value thereof is taken on the basis of the fair market value as on the date of the death of the deceased, less an allowance for reasonable funeral expenses, debts and encumbrances and Surrogate Court Fees.

No duty shall be leviable :—

(a) On any estate the aggregate value of which does not exceed \$5,000.

(b) On property passing by will, intestacy or otherwise to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, daughter-in-law, or son-in-law of the deceased where the aggregate value of the property of the deceased does not exceed \$25,000.

(c) Where the whole value of any property passing to any one person does not exceed \$300.

(d) On property devised or bequeathed for religious, charitable or educational purposes to be carried out in Ontario or by a corporation or a person resident in Ontario or on the amount of any unpaid subscription for any like purpose made by any person in his lifetime to any corporation or person mentioned in this subsection for which his estate is liable.

(e) On any bond, debenture or debenture stock issued by a corporation having its head office in Ontario, transferable on a register at any place out of Ontario and which is owned by a person not domiciled at the time of his death in Ontario.

No duty shall be payable in respect of any property :—

(a) Given absolutely more than three years before the death of the donor to a child, son-in-law or daughter-in-law, or to the father or mother of the donor to the value or amount of \$20,000 in the aggregate to said persons.

(b) Given by the donor where the gift is proved to have been absolute and to have taken effect in the lifetime of the donor and to have been part of his ordinary and normal expenditure and to have been reasonable, having regard to the amount of his income and the circumstances under which the gift was made ; of which property actual and *bona fide* possession and enjoyment shall have been assumed by the donee immediately upon the gift and thenceforward retained to the entire exclusion of the donor or of any benefit to him, whether voluntary or by contract or otherwise.

Nor in respect of property :—

(c) Given by the donor in his lifetime and not exceeding in value the sum of \$500 in the case of any one donee, or

(d) Actually and *bona fide* transferred for a consideration in money or money's worth paid to the transferor

for his own use and benefit, except to the extent, if any, to which the value of the property transferred exceeds that of the consideration so paid.

Subject to the above the following duties are payable :—

1. Where the aggregate value of the property exceeds \$25,000, and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, son-in-law, or daughter-in-law of the deceased, the same or so much thereof as so passes, shall be subject to a duty at the rate and on the scale as follows :—

(p) Exceeds \$2,500,000 and does not exceed \$3,000,000, 12 per cent.

(q) Exceeds \$3,000,000, 13 per cent.

5. The additional duty provided for by subsections 2 and 4 shall be payable on the property in Ontario, where the deceased dies domiciled elsewhere than in Ontario, but for the purpose of fixing the rate of such duty the beneficial interest in property out of Ontario passing to the successor or other person on the same death shall be added to the value of the property in Ontario, and nothing in this Act shall be construed to impose any duty, directly or otherwise, on property out of Ontario owned by any deceased person so domiciled.

6. Where the aggregate value of the property exceeds \$5,000 and any property passes in manner hereinbefore mentioned either in whole or in part, to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above mentioned or to or for the benefit of any stranger in blood to the deceased, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

- (a) Exceeds \$5,000 and does not exceed \$10,000, 7½ per cent.
 (b) Exceeds \$10,000 and does not exceed \$50,000, 12½ per cent.
 (c) Exceeds \$50,000 and does not exceed \$100,000, 15 per cent.
 (d) Exceeds \$100,000 and does not exceed \$200,000, 17½ per cent.
 (e) Exceeds \$200,000 and does not exceed \$300,000, 20 per cent.
 (f) Exceeds \$300,000 and does not exceed \$400,000, 22½ per cent.
 (g) Exceeds \$400,000 and does not exceed \$500,000, 25 per cent.
 (h) Exceeds \$500,000 and does not exceed \$600,000, 27½ per cent.
 (i) Exceeds \$600,000 and does not exceed \$700,000, 30 per cent.
 (j) Exceeds \$700,000 and does not exceed \$800,000, 32½ per cent.
 (k) Exceeds \$800,000, 35 per cent.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six

months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places of residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein. The provisions of the Act apply to transfers of property other than for valuable consideration made since 1st July, 1892.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him. Power is given to any person liable to pay duty to raise same by sale, mortgage, or lease of the property vested in him or under his control.

The Provincial Treasurer has power to remit duty in cases of persons killed while on active military or naval service.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

THE LAW OF INTESTATES ESTATES, PROVINCE OF ONTARIO.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (i.e., who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them per stirpes, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

Table with 2 columns: 'If the Intestate die leaving:' and 'His representatives take in the following proportions:'. Rows include 'Wife and child or children', 'Wife only', and 'No wife or child'.

THE BRITISH GOVERNMENT.

At the end of 1921 the House of Commons which had been elected in December 1918, had completed its third year. At that election the Coalition Ministry received the enormous majority of 273, and although during the three years there were many by-elections which went against the Government, these results made little impression upon the balance of parties in the House. The general tendency in 1921 was towards Labor, and towards a new policy of "Anti-Waste" which was quickly taken up as an election cry by candidates of all parties. The Liberals strengthened themselves somewhat in Parliament under Mr. Asquith's leadership and in 1921 they gained two seats in by-elections. Mr. Asquith had been defeated in the general election of 1918, but regained a seat in February 1920.

There was a reorganization of the Ministry in April 1921. The most outstanding loss to the Premier, Mr. David Lloyd George, at this time, was the retirement of Mr. A. Bonar Law, which was due to ill-health. Mr. Law had been a steady and reliable supporter and lieutenant to Lloyd George, and had conducted the business of the House during the Premier's frequent absences. His place as Lord Privy Seal and Leader of the House of Commons was taken by Mr. J. Austen Chamberlain, and Sir Robert Horne took the place of Mr. Chamberlain as the Chancellor of the Exchequer.

In spite of the fact that there was a great deal of discontent in the country and very little general popularity for the House of Commons, Mr. Lloyd George's position was greatly strengthened during the year. His support from the reverses inflicted on the miners in their long struggle. The Labour Party suffered during the year the greater trade unions: both that of the miners and those of other unions which came to their assistance, and there seemed little likelihood of the Labour Party being able to maintain its position as the chief opposition party, and to convert this position into one of ascendancy at any general election held in the near future. There was therefore no desire on the part of the Labour Party for a dissolution of Parliament and a new trial of strength in the constituencies. As the Liberal Party was still in a hopeless minority, there was no leadership for any revolt against the government and the strong movement which had existed in 1919 for a new election on the basis that Parliament had not dissolved in 1918 when the country was still under the influence of the war spirit and that the elections had not reflected the real desires of the people, was scarcely discernible in 1921.

The Cabinet, as reorganized in April, contained 21 Ministers, as compared with 20 in the former Cabinet. The additional member was the Attorney-General, Sir Gordon Hewart. It has not been usual in recent cabinets to include the holder of this office. A new departure was the formation of the Overseas Trade Department, a joint department of the Foreign Office and the Board of Trade. Its creation marks the increasing concern of the British Government with the promotion and protection of foreign trade.

It may be interesting to add that the voting strength of the House of Lords in February 1919, when Parliament assembled for its first session, was 678. The total number of members was 699, of whom twenty were minors. Two peerages were held by the same man, and there was then one contested succession. Of these 699 members, 26 were spiritual peers, archbishops and bishops, 625 hereditary peers, 16 Scotch representative peers, elected for the Parliament; 28 Irish representative peers, of whom one also held a British peerage, and 5 life peers.

Vice-Chamberlain—Mr. W. Dudley Ward (£924).

THE OFFICE OF PRIME MINISTER.

Prime Minister—Rt. Hon. David Lloyd George.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Rosebery the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition, the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. Sir Robert Stevenson Horne.

First Lord of the Treasury—Rt. Hon. David Lloyd George.

Financial Secretary to the Treasury—Lieut. Commander E. Hilton Young.

Joint Parliamentary Secretaries to the Treasury—Rt. Hon. Charles A. McCurdy, Lieut. Col. Leslie O. Wilson.

Lords Commissioners of the Treasury—Lieut. Commander Sir John Gilmour, J. Parker, J. Towyn Jones, Sir William Sutherland.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the

rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Rt. Hon. Earl Curzon.

Under Secretary—Hon. Cecil Harmsworth.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. Winston S. Churchill.

Under Secretary—Hon. E. F. L. Wood.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Rt. Hon. E. S. Montagu.

Under Secretary—Rt. Hon. Earl of Lytton

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Rt. Hon. Edward Shortt.

Under Secretary—Major J. L. Baird.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Rt. Hon. Sir Lamington Worthington-Evans.

Under Secretary—Lieut. Col. Sir Robert A. Sanders.

Parliamentary and Financial Secretary to the War Office—Lieut. Col. George F. Stauley.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE AIR MINISTRY.

Secretary of State for Air—Capt. Frederick E. Guest.

Under Secretary—Marquess of Londonderry.

At the close of the war the Air Ministry was made part of the War Department. So much objection was raised to this arrangement that in 1921 it was again erected into a separate Department.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Lord Lee.

Civil Lord of the Admiralty—L. C. M. S. Amery.

Secretary to the Admiralty—Commander B. M. Eyres Monsell.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF EDUCATION.

President—Rt. Hon. Herbert A. L. Fisher.

Secretary—Rt. Hon. J. Herbert Lewis.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now,

however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE MINISTRY OF HEALTH.

President of the Ministry of Health—Rt. Hon. Sir Alfred Mond.

Parliamentary Secretary to the Ministry of Health—Rt. Hon. Earl of Onslow.

The Ministry of Health came into existence on July 1st, 1919. It then took over the functions of the Local Government Board in connection with the administration of the poor law and of the laws affecting local government, with enlarged powers as regards public health. It also took over from the National Health Insurance Commissioners the administration of the National Insurance Acts. Its first staff included two permanent secretaries, a controller and a deputy controller of health, who were in charge of the insurance department, and eleven assistant secretaries. A new office under the Minister of Health was that of Government Actuary, filled in the first place by Sir Alfred Watson.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Stanley Baldwin.

Parliamentary Secretary to the Board of Trade—Sir W. Mitchell-Thomson.

Secretary for Mines—Rt. Hon. W. C. Bridgeman.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The importance and range of work of the Board of Trade have been greatly increased since the War.

THE POST OFFICE.

Postmaster-General—Rt. Hon. F. G. Kellaway.

Assistant Postmaster-General—Rt. Hon. Herbert Pike Pease.

The Post Office in England controls the telegraph, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Rt. Hon. Col. Sir A. Griffith-Boscawen.

Parliamentary Secretary to the Board of Agriculture—Rt. Hon. Earl of Ancaster.

The principal duties of this Department before the war was the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad. With the war came the necessity of increasing production, and the Board of Agriculture took a much wider scope. It undertook research and experiment, and made campaigns of education for the best use of the land. During the war it had supervision of all farming operations, and of the administration of the laws penalising misuse or underuse of the land.

THE MINISTRY OF PENSIONS.

Minister—Rt. Hon. J. Ian MacPherson.

Parliamentary Secretary—Major G. C. Tryon.

THE MINISTRY OF LABOR.

Minister—Rt. Hon. T. J. Macnamara.
 Parliamentary Secretary—Sir Montague Barlow.
 THE MINISTRY OF TRANSPORT.
 Minister—Rt. Hon. Sir Eric C. Geddes.
 Parliamentary Secretary—Arthur Neal.

The three foregoing Ministries came into existence as a result of the agencies of war. Unlike the Ministry of Munitions, which had a short post-war existence as the Ministry of Supply, they seem likely to prove a permanent part of the British Government.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Rt. Hon. Earl of Crawford and Balcarres.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Viscount Sandhurst.
 Treasurer—Col. George A. Gibbs.
 Comptroller of the Household—Major H. Barnston.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Lord Lieutenant of Ireland—Rt. Hon. Viscount Fitzalan.
 Lord Chancellor of Ireland—Sir James H. M. Campbell.
 Chief Secretary for Ireland—Rt. Hon. Sir Hanar Greenwood.
 Secretary for Scotland—Rt. Hon. Robert Munro.
 Lord Advocate—Rt. Hon. T. B. Morison.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

OFFICERS OF THE HOUSE OF COMMONS.

Rt. Hon. J. W. Lowther, who was first elected to the

Speakership in 1905 and unanimously re-elected on the opening of the new Parliament in February 1919, retired from the chair in April, 1921. Rt. Hon. J. H. Whitley, who had previously had much experience as Deputy Speaker and Chairman of Committees of Ways and Means, was elected Speaker on April 27, 1921 to succeed him. There was no contest but a complaint was made that the Government had infringed on the rights of the House of Commons by openly recommending Mr. Whitley for the Speakership. Hon. James F. Hope succeeded Mr. Whitley as Chairman of Committees of Ways and Means (salary £2,500). As is customary a pension (£4,000 a year) was voted to the retiring Speaker and he was raised to the House of Lords. Sir J. Lonsdale Webster is Clerk of the House (salary £1,800); Admiral Sir Colin Keppel, Sergeant at Arms (salary £1,000).

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834.

Salaries of Ministers are fixed by Act of Parliament, but each Minister is free to do as he pleases with his salary. During the war Ministers agreed to pool their salaries, which differ in amount, and to divide equally—an arrangement which gave each Minister about £4,500. The pooling arrangement excited some discussion and led to a proposal that there should be a general revision of Ministers' salaries. In July, 1919, a bill was introduced to raise the salaries of all ministers receiving less than £5,000 to this level. It met with strong opposition on account of the state of the National Finances. A vote taken on August 6th, showed 178 in favour, 85 opposed, and 130 not voting. The bill was postponed until the autumn session, when a new arrangement was made by which most of the salaries, but not all, were increased to £5,000.

BRITISH CUSTOMS DUTIES.

In 1919, for the first time since the sweeping away of the old Colonial System in 1846-49, a system of preferences for products of all British Possessions was introduced into the British Fiscal System. The preference was not announced as a general trade policy, but was introduced to give effect to a declaration of the Imperial War Cabinet made in 1917. The articles affected include tea, coffee, cocoa, tobacco, wines and spirits, and in general the concession was one sixth off the ordinary duty. Where excise duties are levied on similar products of British origin a similar reduction is made in the excise duty.

A new departure was taken by the British Government in 1921, when it introduced the bill for the Safeguarding of Key Industries. This bill, which became law in August and came into force on October 1st, 1921, levies a duty of 33 per cent on any goods which in the opinion of the Board of Trade are sold below the cost of production, or, owing to the depreciation of foreign currency, below the prices at which similar goods can be manufactured in the United Kingdom. It also levies a similar duty on industries included in a list drawn up by the Board of Trade, and including such industries as were set on foot during the war and as are unable as yet to stand foreign competition. The list includes eight sections:

1. Optical glass and optical elements, whether finished or not;
2. Optical instruments;
3. Scientific glassware;
4. Laboratory porcelain;
5. Scientific instruments;
6. Gauges and measuring instruments of precision of the types used in engineering shops and viewing rooms, whether for use in such shops or rooms or not;
7. Compounds (not including ores or minerals), of thorium, cerium and the other rare earths;
8. Chemicals as distinct from dye-stuffs.

The list of chemicals occupies 58 of the 73 pages of the government publication setting out the articles liable to duty. The articles names number about 2,500. Dyestuffs are not included because they are covered by a special act known as the Dye-stuffs Act which was passed to aid the infant industry, at the time British manufacturers were trying to become independent of German dyes.

THE BRITISH ARMY.

THE BRITISH ARMY

For the first time since the beginning of the War, detailed army estimates were laid before the House of Commons in 1921. The first draft of the estimates was brought in on March 15, when Sir Laming Worthington-Evans, the Secretary of War, asked for a vote in supply. At that time he apologized for not having ready the detailed estimates, but promised that these should be ready within a few weeks. They were ordered to be printed on May 2.

The total amount asked for was £106,315,000. This was a reduction of £58,635,000 from the previous year, when the original estimates were £125,000,000 and large supplementary estimates were presented later in the year amounting to £39,750,000. From both years, the Secretary explained, there ought to be subtracted the non-recurrent charges arising out of the war. When this had been done the saving for 1921 would amount to £25,557,000. For the current year these non-recurrent charges would amount to £10,702,000. These charges included payments such as amounts due for reinstating rolling stock on the Indian railways, reinstating of properties commandeered during the War and reconditioning of ships that had been used as transports. There should also rightly be deducted a sum of £28,500,000 for charges attendant on the new commitments of the British Government for Mesopotamia and Palestine. These charges belonged to the Foreign Office, and it was intended to create a new sub-department to take charge of them.

Comparing the post-war expenditures of 1921 with the estimates for 1914 Sir L. Worthington-Evans stated that the part of the estimates rightly comparable with pre-war costs amounted to £69,000,000, as compared with the pre-war cost of £27,845,000. Roughly speaking this was two-and-a-half times as great, but it must be remembered that the value of money had depreciated in just about this ratio, and that therefore the cost of the army was not materially greater.

THE REGULAR ARMY

Army expenditures, the Secretary explained, had to be considered under two heads—those for the Regular Army and Reserve, and those for the Territorial Army and Yeomanry. In the Regular Army in March 1921 there were 17,000 officers and 206,000 of all other ranks, making a total of 223,000. Of these 16,000 were due for discharge, leaving 207,000. The estimates provided for an average of 192,500 to be reduced by March 31, 1922 to 186,000. At the end of March, 1922, 16,000 more would be discharged leaving on April 1, 1922 an army of 170,000 men. There was at the beginning of the fiscal year an excess of about 7000 officers over the number in the pre-war army. Many of these were pre-war officers, holding administrative posts. A committee had been appointed to inquire into the possibility of reductions, and on its recommendations 2,200 were to be discharged. Later in the year there would be further reductions. Another economy in regard to the Regular Army was the disbanding of four cavalry regiments, which would save £400,000 a year. The four chosen for disbandment were the Fifth Lancers, which dated from 1858, and the 19th Hussars, the 20th Hussars and the 21st Lancers, all of which dated from 1861.

EXPEDITIONARY FORCE

The ultimate aim of the War Office was to recreate an expeditionary force of six divisions. The

numbers provided for in 1921 might give two divisions, with some delay for filling the ranks, but to complete the six divisions the reserve must be brought up to 140,000. In March 1921 the reserve numbered 62,000. It was proposed to increase this to 80,000. "We are still therefore," added the Secretary of War, "very far from having an army as complete as the pre-war army. My predecessor (Rt. Hon., Winston Churchill) had to choose between providing a regular army equal to the pre-war army and preserving the Territorial Army. He deliberately took the course of a smaller expeditionary force in order to gain a second line of Territorials at an earlier moment."

THE TERRITORIAL ARMY

For the Territorials and Yeomanry the amount asked for 1921-22 was £5,200,000. This would provide for a strength of 210,000 officers and all other ranks. The Territorial Army was being organized as a second line, modelled on the Regular Army and equipped to provide fourteen divisions with cavalry and army and corps troops. Division and brigade officers and staffs, all men who had distinguished themselves in the War, had been appointed, and the General Staff had planned the conversion of the old Territorial Army and the Yeomanry regiments into infantry, cavalry, artillery, engineers, signallers, army service corps, ambulance, ordnance and all other units necessary to make self-contained divisions, ready to take the field.

OTHER EXPENDITURES

Another expenditure for which the War Office was asking £500,000, was the provision of improved forms of tanks. The plan was to have light tanks to cooperate with the infantry, fast and powerful, more effective than cavalry. Experiments were being made, especially in regard to cooling devices for use in tropical countries, and it was expected that the new tanks would be serviceable in any climate. Expense was being incurred also in sweeping away an old abuse—the hardship that had been borne by the man who married off the strength. It was recognized by the War Office that the man of 26 was normally a married man, and provision was being made for married allowances to all officers over 30 and all enlisted men over 26. A sum of £171,000 was asked in the Estimates for building better married quarters for officers and men.

IRELAND

Sir L. Worthington-Evans was not very hopeful in regard to affairs in Ireland. When the Estimates were prepared there were fifty-one regiments of cavalry and infantry in Ireland—seven of these being cavalry. There were also 32 batteries of artillery, four companies of Royal Engineers and three companies of signallers. In the then disturbed condition of Ireland he did not see how these numbers could be reduced, and he significantly stated that it would be impossible to withdraw the soldiers "until the cause of the trouble had been removed."

These army expenditures for Ireland were unexpectedly brought to an end when on July 11, following an invitation given by the King on June 24, to De Valera and Sir J. Craig to meet in conference in London, a truce was declared between the British Government and Sinn Féin, a truce that made possible the agreement arrived at at the beginning of December and published on December 6th, 1921.

The total number of men asked for in the Estimates, including the Territorial Army, and including also some of troops from the Crown Colonies' but exclusive of the Indian army, is given in the following table

DISTRIBUTION OF TROOPS

The establishment of British units in India was left to the Government in India and the Secretary of State for India to arrange, and was not included by Sir L. Worth-

ington-Evans in his exposition of the Army Estimates. The cost of these units is borne by the Indian Government. As regards the other troops the following table gives approximately their distribution in May 1921:—

THE BRITISH AIR SERVICE.

THE BRITISH AIR SERVICE

The estimates for the Air Service were presented to the House of Commons on March 1st, 1921 by Mr. Winston Churchill. At this time, Mr. Churchill was Secretary of State for the Colonies, he having been transferred to this office from the War Department. There was much criticism of his retaining at the same time the control of the Air Service, which had been previously under the War Department. Largely due to this criticism, the Air Service was shortly afterwards erected into a separate department and put under the charge of Capt. Guest. Capt. Guest was not, however, like the Secretaries of War and other Departments of State, made a member of the Cabinet.

Mr. Churchill's explanations of the Estimates were not wholly satisfactory to the House of Commons and he was accused of giving a light and airy apology for an unsatisfactory state of affairs. His most severe critic was General Seely, who had resigned from the Under-Secretaryship for Air in 1920 as a protest against the placing of the Air Service under the War Office.

The main theme of Mr. Churchill's speech was the necessity of allowing time to work out the plans that had been made for the Air Service. The plans were drawn to cover five years of work and only two years had yet elapsed. If on account of public and ill-informed agitation the plans should be upset it would cause an irreparable injury to the future of the British Air Service. To show the difficulty and complexity of the task of the Minister of Air Mr. Churchill pointed out that it required 54 trades, of which 30 were highly skilled, for the production and repair of an aeroplane. He recapitulated the uses of the air

force. For the navy, aeroplanes were necessary first of all to spot the fall of shots fired at vessels so far distant that they were concealed beneath the horizon; the aeroplane took the place of cruisers as scouts over the seas; they were needed to attack ships in harbors and at sea with bombs and torpedoes; and the smaller planes were carried on vessels whence they rose to attack bomb carrying and reconnoitring enemy planes.

They rendered somewhat similar services in connection with the Army, and for each kind of service a different type of machine was necessary and different training was required for the men. The Government was providing training schools for all services, and was also devoting much attention to experimental and research work.

STRENGTH OF THE AIR SERVICE

In March 1921 there were 28 service squadrons in the British Air Service, with 2,900 officers and 25,000 men of other ranks. Mr. Churchill asked for an increase to 30,880 men in 1921-1922. Six of the squadrons were in Egypt and Palestine; five in Mesopotamia and eight in Egypt. Nearer home there was one squadron at Malta; one on the Rhine; three in Ireland and three in England. The remaining squadron was not yet fitted out and four more squadrons were in process of formation.

COST OF SERVICE

The total amount asked for in the Air Estimates was £19,033,400 as compared with £23,406,795, the amount voted on the Estimates in March 1920 and on the supplementary estimates later in the year. The detailed costs were as follows:—

NO MORE AIRSHIPS

Only aeroplanes were provided for in the votes. Airships, Mr. Churchill explained, had been given up in 1920, and at the time he spoke, the Government was making an offer to any private company that would take over the airships and run them for commercial purposes. If any company would make such an offer,

with an undertaking to continue to experiment with Airships the Government would give its airships free of charge, together with all the spare parts in its possession and the necessary groundworks. In spite of this generous offer, Mr. Churchill expressed little hope for any prosperous future for commercial aviation in Great Britain. He felt that neither the airship nor the aeroplane could compete with the train and the motor.

THE BRITISH NAVY.

THE BRITISH NAVY.

Great Britain's pre-war naval policy—a policy accepted by both Conservative and Liberal Governments—was to maintain a navy equal in strength to those of the two powers maintaining the next strongest naval forces. On March 16, 1921 the First Lord of the Admiralty, speaking at a dinner given by the Institute of Naval Engineers, made the significant admission that this policy was no longer to be followed. "We see the United States Senate, he said, "is laying down the principle that America shall maintain a navy at

least equal to that of any other power. That is a claim to equality which this country has never accepted in the past, and never would accept save in connection with a great English speaking nation that sprang from its loins and must ever hold a great place in our regard and confidence."

The admission made by Lord Lee was further elaborated the following day in the House of Commons by Sir James Craig, Secretary to the Admiralty, in explaining the Naval Estimates which had been laid before the House. Sir James Craig said nothing about the departure from the two power standard, but laid

emphasis on what he termed the "Long enunciated" policy of the Government that the British Navy shall not be inferior to that of any other power. The Admiralty, he said was responsible for carrying out this policy. The Government was willing to accept equality as regards America, but even with regard to this great friendly power it was not willing to accept inferiority. Even accepting this standard, and accepting the fact that the United States had a great program of ship building, Sir James Craig was able to announce considerable decreases in the cost of the navy for 1921-22.

In 1920, Sir J. Craig told the House, Mr. Long, his predecessor, had given the number of men of all ranks in the Navy as 127,500. By April 1st, 1921 that number would be reduced to 123,700 and soon afterwards to 121,700. The total amount of money asked for the Navy in 1920 was £92,099,441. In 1921 they were asking for £83,848,552, a decrease of a little over £8,000,000. These economies were to be effected through the reduction of the number of capital ships in full commission from twenty to sixteen; through placing in the reserve four destroyer flotillas of the Atlantic fleet; through reductions in the North Atlantic and South African squadrons; and through reductions in the personnel of the fleet and of the civil staff. It was also proposed to effect large reductions in the cost of fuel for the fleet by reducing the amount of steaming both at home and abroad. In fuel alone they hoped to save £900,000 in 1921-22.

At the close of the war Great Britain had seven dockyards in operation, besides the work that was done by contract with private firms. Two of the seven dockyards were to be abandoned, as soon as work which was going on in them was completed. This change would effect a saving of £500,000 a year.

CLOSING UP THE WAR

During the first year after the ending of the War there were war liabilities which had to be carried by the Navy Department amounting to £100,000,000. In 1920 these War liabilities had been reduced to £18,000,000, and for the year 1921-22 there remained only £5,000,000 of these liabilities to be met out of income. War gratuities to officers and men had been paid to an amount of £13,500,000. There remained in March 1921 £166,000 of these gratuities to be dealt with. This was money belonging to officers and men whose addresses were lacking, and whom it had been impossible to reach. At the close of the war settlements had to be made with many owners of vessels who had turned them over to the Navy. In 1919 the cost of these settlements was £17,000,000, in 1920 it had been £4,000,000 and in 1921 it was estimated that £600,000 still remained to be paid on this account.

THE NAVAL RESERVE

Two naval reserve forces were comprised in the scheme of reorganization propounded by Sir James Craig. The first—the Royal Naval Reserve—was to be composed chiefly of officers and men serving on the mercantile marine. Such a reserve belonged to the pre-war navy; but in order not to strip the mercantile marine too greatly in case of war—when mercantile ships were always of enormous importance—there was to be also the Royal Navy Volunteer Reserve, to consist of men not necessarily following the sea for a livelihood but including also men from the interior. All the men in the Royal Navy Volunteer Reserve were to have 42 days of naval training in each term of four years. The training was to be in periods of 14 or 28 days, and at least 14 days must be on one of H. M.'s ships. Each man is required to qualify in some special subject during his four years. According to the subject chosen, training is given as signalmen, seamen, telegraphists, engine room artificers, motor mechanics, or in victualling or artisan branches. Recruiting for this force began in England and Scotland on April 1, 1921; but even before the date arrived 321 seamen, 62 engine room artificers and 423 stokers had volunteered.

THE CAPITAL SHIPS

At the close of Sir James Craig's speech several members brought up the subject of the value of capital ships, and enquired whether the Government was of the opinion that the capital ship was still of value as a fighting unit. These enquiries were answered by Lord Curzon who during the war was one of the six ministers forming the War Council. He defended the capital ship as still the most effective organ of the Navy. "Against warships," he said, "the submarine proved almost valueless. When the Grand Fleet went to sea during the latter stages of the War, it meant about 300 ships, and on not one occasion that I can remember was that enormous collection of ships ever prevented by submarines or mines from going to sea at all hours of the day or night whenever it was necessary. There were frequent attacks by submarines, but never with the smallest success with the exception of the torpedoing of the light cruisers Nottingham and Falmouth. Towards the end of the war surface craft had without doubt wholly beaten the submarines.

The following table gives a summary of the numbers of officers and men and of the allocation of the money asked for in the Estimates, with a comparison with the figures for 1920-21.

FLEETS OF THE WORLD

The end of the War left only four great powers with formidable navies. In reply to a question in Parliament, Sir James Craig gave the following numbers of battleships and battle cruisers belonging to each of these powers and maintained in full commission, as follows:—

	Battleships.	Battle cruisers
Great Britain	16	4
United States	16	—
France	5	—
Japan	12	6

Later a White Paper was issued by the Government giving particulars of the fleets of Great Britain and other maritime powers. Vessels over 20 years old are omitted from the lists:—

THE WASHINGTON CONFERENCE

On July 10, 1921 President Harding, on behalf of the United States, issued a tentative invitation to the Great Powers to consider the subject of reduction of armaments. This invitation being favourably received, it was followed on August 11 by a formal call to a conference to meet in Washington, Nov. 11, 1921. The special subject was the reduction of naval armaments, and at the opening of the Conference, Mr. C. E. Hughes, the American Secretary of State, who represented the United States at the Conference, put forward a proposal for a

ten years naval holiday and a drastic reduction in the number of capital ships. This proposal and the negotiations which followed it, mark the beginning of a new era in the naval policy of Great Britain, as well as in the policies of the other great nations. At this Conference the Dominions were represented as well as Great Britain and the plan suggested by Secretary Hughes met with warm approbation from all these representatives of the British Empire.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of at least six Trustees, appointed jointly by the Municipal Councils concerned. In Urban Municipalities Trustees may be appointed by the Councils, or may be elected by general vote of qualified electors. Urban Public and Separate School Boards of Trustees have the right to appoint a trustee. The Principal of the High School or Collegiate Institute must be a graduate of a University in the British Dominions, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are not charged except to non-resident pupils. Funds for the operation of the schools are raised by local assessment; assisted by Government and County grants. Every High School must have a Principal and at least one assistant teacher. Each Collegiate Institute receives a Government grant of \$250, and each High School with fewer than four teachers \$300, others schools \$275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises, and for special course of instruction fees are paid to the Board and Instructor. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes. Special grants ranging from \$40 to \$160 are also given to "Approved Schools". Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities and the professions. There are 47 Collegiate Institutes, 124 High Schools, and 159 continuation Schools doing the same grade of teaching in connection with the Public and Separate Schools in Ontario in 1921-1922.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to form a board to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by an elected Board of at least six trustees.

GENERAL FEATURES OF CANADIAN EDUCATION SYSTEMS.

Under the British North America Act, 1867, the right to legislate on matters respecting education was reserved exclusively to the provincial legislatures, subject to the maintenance of the rights and privileges of the denominational and separate schools as existing at the time of union or admission of provinces. In general there are two fundamental systems of education throughout Canada, one that of the Protestant communities, free from the control of religious bodies, and the other that of the Roman Catholic French and Irish communities in which education is united with the religious teaching of the Roman Catholic Church. In Ontario, Roman Catholics, Protestants and coloured people have each the right to establish "Separate Schools" for elementary education, the local rates for the support of these schools being separately levied and applied. In Quebec, the religious minority in any

municipality, whether Roman Catholic or Protestant (the Jews being "Protestants" for all the purposes of the School Law); may dissent and maintain its own elementary and model schools and academies or high schools, the taxation of the minority being separate from that of the majority for the three classes of school, except that in the case of the assessment of corporations, the taxes are levied by the majority and divided between the majority and minority in proportion to the number of children of school age. In Saskatchewan and Alberta a separate school may be established by the minority, whether Protestant or Roman Catholic, subject, however, to identical regulations as to courses, certificates, inspection, etc. In the remaining provinces there are special provisions for the education of Roman Catholics in the larger cities and towns.

EDUCATIONAL INSTITUTIONS.

THE UNIVERSITY OF TORONTO

(The Provincial University of Ontario)

The University of Toronto includes the Faculties of Arts, Medicine, Applied Science and Engineering, Household Science, Forestry and Music. The Faculty of Arts, in its turn, includes the four Arts Colleges:—University College, Victoria College, Trinity College and St. Michael's College, in one or other of which all undergraduates in Arts are enrolled. In certain subjects (chiefly the languages) the undergraduate work is conducted by these colleges, each for its own students; in the remaining subjects (chiefly the sciences) all the students receive instruction in common from a general University Arts Staff. For all Arts students, whatever their college, the curriculum and examinations are those of the University of Toronto, from which also they receive their degree of B.A. The University has no Faculty of Theology; in this department of work the federated Universities, Victoria and Trinity, and the federated Colleges, Knox, St. Michael's and Wycliffe, still retain their original independence and degree-conferring powers.

The following Colleges are in affiliation with the University of Toronto, their Students obtaining their Degrees at this Institution:—

Ont. College of Education	Ontario College of Pharmacy
Royal College of Dental Surgeons	Ontario Agricultural College
	Ontario Veterinary College

Technical and Industrial Schools.

In 1921 the Industrial Education Act of 1911, which authorised the organisation of industrial and technical training in day and evening schools throughout the Province, was repealed. An Act entitled "The Vocational Education Act, 1921" was passed in substitution, and came into force on the 1st July 1921. The new Act applies to Home making schools and departments, Agricultural High Schools and departments and Commercial High Schools and departments, in addition to the Industrial, Technical and Art courses controlled by the former Act. Advisory Vocational Committees may now be formed where two or more departments are established, instead of appointing separate advisory committees for each course. Day or Evening schools may be organized. The Day Schools are designed to give a thorough training in the essentials of a general education as a basis for citizenship and vocational efficiency, and, at the same time, to furnish specialised training in the subjects and operations which are fundamental to trades, industries and commerce. The purpose of the evening schools is to organise such classes as will meet the needs of workers in industry and those engaged in commercial pursuits.

The Schools are liberally supported by Government grants, based upon the amount paid for the salaries of the teachers and for buildings and equipment.

The school year extends from September to June. The courses of study in the Day Schools include an Industrial Course for both boys and girls. In addition to a certain amount of related academic work and instruction in comportment, physical culture and hygiene, practical work in connection with the most important industries of the Province is taught the boys, such as Engineering, the Building and Electrical Trades, etc. Girls are instructed in such subjects as Cooking, House-keeping, Dress-making and Millinery.

In the Evening Schools the courses cover practical, theoretical or technical work related to any trade or industry for which there is a demand.

Every assistance is given to Boards in organising classes, the Department having appointed specially qualified Organisers for the purpose.

Schools are conducted under the Vocational Education Act at the following centres:—

Day Schools at Brantford, Chatham, Collingwood, Haileybury, Hamilton, Kingston, London, Niagara Falls, Ottawa, Sault Ste. Marie, Sudbury, Toronto Windsor, and Fort William

Night Schools at Almonte, Barrie, Beamsville, Belleville, Brantford, Brockville, Chatham, Cobourg, Collingwood, Dundas, Espanola, Farbank, Ft. LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1920, was conducted by 44 active companies—25 Canadian, 8 British, 11 Foreign.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$641,778,095, an increase from those taken out in the preceding year of \$117,234,466. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$307,553,184, or 62% of the whole
 British Companies .. 15,967,383, " 2% " "
 Foreign 228,257,528, " 36% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by \$185,263,039.

TOTAL ASSURANCE IN FORCE.

The net amount of life assurance in force December 31st, 1920, amounted to \$2,657,025,493, an increase over that of the previous year of no less than \$469,188,176. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	\$	\$
Canadian.....	1,664,348,605	301,717,043
British and Colonial.....	76,883,090	9,975,026
United States.....	915,793,798	157,496,107
Total.....	\$2,657,025,493	\$469,188,176

The progress of the business, from the standpoint of the volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

LIFE ASSURANCE IN FORCE AT CLOSE OF

Year	Canadian Companies.	British Comp'nies	Foreign Companies.	Total.
	\$	\$	\$	\$
1890	135,218,990	31,613,730	81,591,847	248,424,567
1900	267,151,086	39,485,334	124,433,416	431,069,846
1910	565,667,110	47,816,775	242,629,174	856,113,059
1920	1,664,348,605	76,883,090	915,793,798	2,657,025,493

From \$248,424,567 in 1890 to \$2,657,025,493 in 1920, represents the large increase of over 1,069% in thirty years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1920 was 8.2, a decrease below the lowest rate in the preceding four years. The total death claims incurred from all causes amounted in the year 1920 to \$18,025,849. Claims due to the war and the influenza practically disappeared with the year 1919. The following table gives the rate for each of the years 1916-17-18-19-20:

	1920.	1919.	1918.	1917.	1916.
Active Companies (ordinary)	6.0	7.5	14.8	11.323	10.649
Active Companies (industrial)	8.4	8.3	13.4	10.559	10.261

All Companies....	8.2	8.3	14.1	11.058	10.593

BENEFITS TO POLICYHOLDERS.

During 1920 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, aggregated \$53,438,056. The details are as follows:

For Death Claims	\$22,143,449
For Disability Claims	28,272
For Matured Endowments.....	9,286,948
For Annuities	2,041,800
For Cash Surrender Values.....	9,817,056
For Dividends and Profits	10,120,531
Total.....	\$53,438,056

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies with Dominion charters for the year ending December 31st, 1920:

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III, c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers consist of 30, elected by the Bar, and *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, and so long as he does not practice as a Barrister or Solicitor, every retired Judge of the Supreme Court of Canada or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected* being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Supreme Court of Ontario; with a valuable and extensive library.

Museums in Canada.

ROYAL ONTARIO MUSEUM.

Bloor Street and Avenue Road, Toronto.

ROYAL ONTARIO MUSEUM OF ARCHAEOLOGY—C. T. Currelly, O. Medj., M.A., F.R.S.C., *Director*. Miss Cornelia G. Hareum, *Keeper of Classical Collections*.

The museum possesses large collections that show the primitive skill of the men in the Palaeolithic, Neolithic, Copper, and Bronze ages. The early grain civilisations are illustrated in three galleries of Babylonian and Egyptian objects; the classical period occupies two galleries, and ethnology and the American Indian three. Of civilisation later than that of Rome special attention has been given to the collections of arms, glazed earthenware, Chinese ceramics, Japanese work, wood-work and furniture, textiles, embroideries and laces.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor A. P. Coleman, Ph.D., F.R.S., *Director*.

The exhibits are arranged chiefly on an economic basis, sections being devoted to ores of the metals, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building and ornamental stones, copper and nickel ores, marbles and Canadian coals. The economic geology of famous mining regions is illustrated by suites of specimens among which the series from the nickel region of Sudbury is particularly complete. Glacial geology has received particular attention: striated surfaces, striated stones, and tillites are represented from all the known ice ages and from all parts of the world.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor T. L. Walker, Ph.D., F.G.S., *Director*. Prof. A. L. Parsons, B.A., *Assistant Director*.

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals for consultation by visitors particularly interested in the minerals and ores of Canada. The museum also contains collections of crystals, rocks, meteorites, radium minerals, and rocks from Antarctica.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALÆONTOLOGY—Professor W. A. Parks, Ph. D., F.G.S.A., *Director*.

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by striking reptiles and by an excellent collection of fishes. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Interglacial forms. The collections contain also a special Canadian series designed for the use of students of Canadian geology.

Much unique material is included in the exhibits, and many *type* specimens of particular value, e.g., Matthews types of Cambrian fossils from eastern Canada.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor B. A. Bensley, Ph. D., F.R.S.C., *Director*.

Contains exhibits of representative groups of animals, chiefly Canadian. About 1,000 mounted specimens of birds. Special exhibits of foreign birds, including pheasants, humming birds, and birds of paradise. Collections illustrating natural history of Atlantic and Pacific coasts of Canada.

ONTARIO PROVINCIAL MUSEUM, TORONTO.

EDUCATION DEPARTMENT, ST. JAMES SQUARE.

Copies of ancient and modern statuary, busts of British and Canadian celebrities, paintings by Ontario artists, insects and reptiles mostly of Ontario; mounted birds and mammals. In the Archaeological and Ethnological department there are upwards of 35 thousand specimens illustrative of primitive life in America, but especially in Ontario. The officials of the Museum are at all times ready to identify Archaeological and Natural History specimens for the public, and give such further information relating thereto as is required. As the property of the provincial government, it is open to the public, free, daily, from 9 a.m. to 5 p.m. Dr. R. B. Orr, *Supt.*; C. W. Nash, *Biologist*.
