INDEX

TO VOLUME XLIV, JULY-DECEMBER, 1900.

Subdivided into ILLUSTRATIONS: GENERAL (including Editorials, Technical Articles, Current News and Correspondence): AUTHOR: BOOK REVIEWS and TABLE OF ERRATA. (Also CONTRACT PRICES OF Supplement.)

INDEX TO ILLUSTRATIONS.

<p>A.</p> <p>Acetylene gas generator..... 235 Acetylene gas testing apparatus..... 366 Air compressors: Riveting plant..... 396 Steam engines..... 204 Arc lamp, Submarine..... 167 Arches: Concrete-steel, Niagara Falls..... 383 Fluted steel arch..... 158, 161 Supporting building over stream..... 325 Asphalt, Action of water on..... 114</p> <p>B.</p> <p>Bacterial analysis of street dust..... 242, 243 Bearings, Expansion, for bridge girders..... 29 Bell signal for mines..... 170, 171 Blanks used in Michigan railway appraisal..... 432, 433 Boiler, Oil bath..... 327 Boiler explosion, Chicago power house..... 422 Brake, Prony..... 216 Bridge floor beam and hanger..... 147 Bridge floors: Concrete-steel, Economical..... 412 Fireproof floor..... 103, 104 Bridge span, Transportation of..... 544 Bridges: American, at Paris Exposition..... 110 Arched plate girder, Madison, N. J..... 134 Madison, N. J., Foot-bridge..... 135 Niagara Falls: Goat Island..... 382, 383 Mich. Cent. R. R..... 1290 Paris Exposition, Steel arch..... 147 Plate girder foot-bridge..... 135 Pontoon swing bridges..... 1190 Rye, N. Y..... 412 Steel arch, Paris Exposition..... 147 Supporting spans during repairs..... 54 Suspension, Footway..... 346, 347 Brush for cleaning water pipe..... 156 Buildings: Broad Exchange, New York..... 339, 340 Pan-American Exposition..... 315, 316 Supporting over stream..... 325 Bumping post for yard tracks..... 369</p> <p>C.</p> <p>Cableway, Electric, with oscillating shear..... 328 Caissons: Annular, pneumatic..... 74 Broad Exchange building..... 339 Canals: New Orleans drainage..... 186 Niagara, Topographical map..... 121 Capstan, Steam wharf..... 375 Car couplers, Brockelbank automatic..... 240 Cars: Convertible parlor and sleeping car..... 364 Monorail railway..... 66 Wooden box and coal cars..... 42 Cascade rock-fill, Erie R. R..... 441 Casting, Mending of..... 351 Castings used in sinking piles of hard material..... 209 Cattleguard, Pit and surface..... 268 Cement kiln..... 210 Centrifugal railway..... 342, 343 Civil Service examination questions..... 352 Clip connections for building constructions..... 195 Columns, Equalizing girder system..... 341 Concrete mixers: Baltimore subways..... 112 Duluth harbor work..... 186 New Orleans drainage work..... 186, 87 Traveling mixer..... 162, 163 Concrete pier superstructure, Duluth harbor..... 186 Conduit, Concrete and expanded metal, Jersey City water-works..... 142 Cranes: 150-ton electric, Kiel..... 91 Traveling, over road and track..... 376 Crates for handling bricks..... 186</p> <p>D.</p> <p>Dams: Austin, Texas, Profiles..... 391 Sections of dams..... 208 Wachusett dam..... 1174, 179 Diagrams: Acetylene gas explosions..... 366, 367 Allen engine..... 395 Asphalt, Action of water and frost..... 115 Bacterial analyses of street dust..... 242 Calibration curve of dynamometer spring..... 69 Car brake tests, New York..... 77 Centrifugal pumps..... 98, 99</p>	<p>Diagrams (continued): Coal consumption and steaming radius of "Yosemite"..... 263 Erosion of river heads..... 283 Ice-water consumption of Corliss engine..... 337 Filter bed dimensions..... 253 Gas engine design..... 417 Groined arch vaulting..... 181 Pig iron production..... 197, 198 Portland cement production and consumption..... 61 Southwest Pass..... 282, 283 Speed variations of Otto gas engine..... 83 Spirit level tests..... 348, 349 Virtual grades..... 369 Water waste, New York..... 129 Weights of electric railway bridge spans..... 427 Drainage of New Orleans..... 186, 87 Drawbridge gate, Interlocking mechanically operated..... 452 Drill, Brandt hydraulic rotary..... 153 Drop test for gun barrel blank..... 48 Drops for testing car wheels..... 266 Dry docks: Gt. Northern Ry..... 1424 Hunter's Point, Cal..... 276, 277 Dust analysis..... 242, 243 Dynamometer, Transmission..... 59 Dynamometer apparatus of test car, Ill. Cent. R. R..... 71</p> <p>E.</p> <p>Electric motor, Geared motor for printing press..... 2 Electric railway wreck at Tacoma, Wash..... 46 Electrolysis of underground metal structures..... 38, 41 Elevator bins, Duluth, Break..... 438 Excavating machine for loading ore luto cars..... 200 Excavator on New Orleans drainage work..... 86</p> <p>F.</p> <p>Falls of Cauvery River, India..... 370 Feed pump to handle water at high temperatures..... 119 Flumes at Wachusett dam..... 177, 179 Forge, Army and Navy..... 384, 385 Furnace linings..... 252 Furnaces: "Cross draft"..... 245 Walker smokeless..... 436</p> <p>G.</p> <p>Gage for setting tie-plates..... 81, 82 Garbage reduction, Syracuse, N. Y..... 1247 Gas engines: Cockerill, Paris Exposition..... 49 Design of the gas engine..... 416, 417, 419 Two-stroke cycle engine..... 206, 207 Gate chambers of Wachusett dam..... 174, 176 Gate house screens..... 218, 219 Gates: Interlocking, for drawbridge..... 452 Pipe-connected, for grade crossing..... 140 Gear, Speed-changing..... 333 Glass "revealers"..... 319 Grades, Virtual..... 369 Gravel washing plant..... 156 Gun, "Long Cecil," Kimberley..... 110, 112</p> <p>H.</p> <p>Hydraulic screwing machine for driving screw piles..... 90 Hydraulic valve gear, Schneider steam engine..... 107</p> <p>I.</p> <p>Injector, Automatic..... 392 Insets: Bridges: American bridges at Paris Exposition..... 110 Michigan Central R. R..... 1290 Pitts., Bess. & Lake Erie and Union Railways..... 1102 Pontoon swing bridges..... 1190 Buildings, Pan-American Exposition..... 1315 Caisson foundations..... 1339 Cars, Wooden box and coal..... 142 Concrete pier superstructure, Duluth harbor..... 186 Dam, Wachusett..... 1174 Dry docks: Gt. Northern Ry..... 1424 San Francisco, Cal..... 1247 Garbage reduction, Syracuse, N. Y..... 1247 Gas engine, Two-stroke cycle..... 1206 Launching ways for battleship..... 1350</p>	<p>Insets (Continued): Locomotives: Consolidation, Rio Grande Western Ry..... 1150 Schneider..... 1258 New Orleans drainage canal..... 186 Niagara canal route..... 121 Paris underground railway..... 1392 Pumping engines: Allis, Boston..... 1217 Nordberg..... 1118 Railway terminal, Ches. & Ohio Ry..... 1379 Steam engines, Central station, Vienna..... 170 Viaduct, Vaur, France..... 1158 Warwick Castle..... 1222 Water power, Snoqualmie Falls..... 1398 Injector for dynamometer car..... 407</p> <p>J.</p> <p>Jack, Track..... 63, 64 Jetty cross-sections..... 227 Joints: Balanced expansion joint..... 194 Cast-iron conduit, Paris sewers..... 72</p> <p>K.</p> <p>Kiln, Cement..... 82, 210</p> <p>L.</p> <p>Launching ways for battleships..... 1350 Level rod for cross-sectioning..... 182, 183 Liquids under high pressure..... 237 Locomotives: Auxiliary driving wheels..... 232, 233 Consolidation, Rio Grande Western Ry..... 1150 Decapod compound..... 190 Northwestern type..... 70 Schneider high-speed locomotive..... 1258 Superheater attachment..... 274 Twelve-wheel, Chic. & East Ill. R. R..... 330</p> <p>M.</p> <p>Maps: Cauvery River, India..... 371 Chicago tunnels and pumping stations..... 290 Chicago water supply system..... 306 Chinese railway lines..... 4 Mine of San Rafael..... 334 Mississippi River..... 121, 125, 222, 224 Niagara canal route..... 121 Paris underground railway..... 1392 Reservoir system, Miss. River..... 294 Snoqualmie Falls power plant..... 398 Wachusett dam..... 174 Mattress construction..... 239 Mine, Red Ash colliery..... 311 Molds for making concrete footing blocks..... 456 Monorail railway..... 66</p> <p>O.</p> <p>Oiling apparatus, Positive, with sight-feed distributor..... 105</p> <p>P.</p> <p>Photometer..... 89 Piers: Repairing, Aqueduct bridge, Wash..... 54, 55 Skewback piers..... 159 Pig-iron sampling machine..... 211 Pile driver, Turn-table, New Orleans..... 186 Piles, Screw..... 90 Pipe joint, Balanced expansion, for steam pipes..... 194 Pipe scrapers..... 155, 156 Plumb hoh line, Devices for holding..... 9, 109 Projectiles, Armor-piercing..... 233 Prony brake..... 216 Pulley, Wood and Iron..... 256 Pumping engines: Allis, Boston..... 1217 Coolgardie pipe line..... 272 Nordberg..... 1118, 120</p> <p>Pumps: Air lift, moving water horizontally..... 359 Feed pumps, Nordberg engine..... 119 Suction chambers in..... 415 Tests of centrifugal..... 414 Pyrometer, Recording air..... 411</p> <p>R.</p> <p>Rack rail and grips..... 254, 255 Rail chairs, Effect of electrolysis..... 40, 41 Railway terminals: Ches. & Ohio Ry., Richmond..... 1379 Northwestern electric elevated, Chicago..... 377 Railways: Centrifugal..... 342, 343 Halford "gradient" railway..... 2</p>	<p>Railways (Continued): Paris underground electric..... 1393, 394 Single rail railway..... 66 Rand, J. R., Portrait..... 65 Recorder, Speed, Hill..... 392 Recording apparatus of test car..... 71, 72 Reservoirs: Grand Rapids, Mich., Failure..... 21, 25 Old street reservoir, East Boston..... 206 "Revealers," Glass..... 319 Rivers: Cauvery, India..... 370 Miss., Relief models of Southwest Pass..... 251 Riveter, Pneumatic..... 396 Rock-fill, Cascade, Erie R. R..... 441 Roller thrust bearing, 80-ton..... 193 Roof construction of car shops, Russian railway..... 29</p> <p>S.</p> <p>Sampling pig iron..... 211 Screens: Balanced shaking..... 169 Gate house..... 218, 219 Screwing machine for driving screw piles..... 39 Settling tanks, Denver..... 322, 221 Sewer pipe, Concrete, Cookstown, Ireland..... 75 Shear, Rotary splitting..... 285 Sidewalk, Concrete and steel..... 304 Skewback panels..... 161 Skewback piers..... 159 Skips for handling excavated material..... 186 Slope-stake setting..... 313 Smith, Hamilton..... 309 Smokejack, Swinging..... 287 Speed recorder, Hill..... 392 Spirit level tests..... 348, 349 Stadia rod, U. S. Survey..... 246 Stairway, Moving..... 267 Standpipe failures due to electrolysis..... 39, 40 Steam engines: American central valve..... 387 Triple expansion, Vienna, Austria..... 170 Strainer and sand trap for wells..... 96 Submarine arc lamp..... 167 Suction chambers in pumps..... 415 Superheaters: Borsig locomotive..... 274 Schwoerer..... 107</p> <p>T.</p> <p>Tamping machine, Track..... 401 Ties, Steel, Huntington & Broad Top Mt. Ry..... 38, 39 Track jack..... 63, 64 Transmission dynamometer..... 53 Transportation of bridge span..... 344 Travelers, Steel..... 102, 380 Trench excavating machines..... 18 Tumbling barrel for testing paving materials..... 73 Tunnel excavation and lining, Simpson..... 152 Tunnel timbering, Crutch system..... 309 Tunnels: Chicago Avenue tunnels..... 261 Chicago water supply..... 307, 309 Paris underground railway..... 1393, 394 Turbines: De Laval..... 106 Segor..... 103 "Turbinia" at Paris Exposition..... 106</p> <p>U.</p> <p>Underground dynamo room..... 166</p> <p>V.</p> <p>Valve, Steam, operated by hydraulic pressure..... 107 Viaducts: Pitts., Bess. & Lake Erie R. R..... 1102 Vaur, France..... 1158, 161</p> <p>W.</p> <p>Warwick Castle..... 1222 Water, Moving by air lift pumps..... 359 Water-cooling tower..... 210 Water pipe: Electrolysis..... 41 Redwood, Floriston, Cal..... 236 Special, Chicago..... 309 Steel pipe, Castle Square, Boston..... 54 Wrought iron, cement lined..... 206 Water pipe scrapers..... 155, 156 Water power plant, Snoqualmie Falls..... 1398, 403 Water tank failure, Paterson, N. J..... 446 Water wheels: Cassel self-governing..... 442, 443 Snoqualmie Falls plant..... 401, 403 Well strainer and trap..... 96 Wheel pit, Niagara Power Co..... 113</p>

†Refers to insets.

GENERAL INDEX.

A.

Accidents: Bridge, Chicago, 437
Electric railways: Drawbridge, Chicago, 437
New York, Third avenue, 17
Tacoma, Wash., 17, 46

Explosions: Boiler, Wells St. power house, Chicago, 397, 422
Gasoline tanks, Parkersburg, W. Va., 17
Mine, Berryville, Pa., 395
Lead-Ash Colliery, 391
Tarrant's drug house, 289

Fires: Buffalo garbage works, 241
North German Lloyd steamers, 1, 26
Standard Oil Works, Bayonne, N. J., 17
Warehouse fires, 289
Floods in Texas, 173, 180, 196, 205
Flywheel burst, Detroit, Mich., 356
Lightning accident to chimney, 189

Railways: Central R. R. of New Jersey, 237
Chicago & Alton, 273
Chicago, Ind. & Louisville, 101
Chicago, R. I. & Pacific, 69
Chicago, R. I. & Texas, 53
Cincinnati Southern, 221
Cleveland, Cin., Chic. & St. Louis, 221
Del., Lack. & Western, 17, 37
Eastern Ry. of Minnesota, 395
Grand Rapids of Indiana R. R., 117
Illinois Central, 189
Mexican Central, 381
N. Y. C. & H. R. R. R., 117, 173
Northern Pacific, 289
Paris underground railway, 273
Pennsylvania R. R., 345
Phil. & Reading, 1, 157, 164, 173, 205
Pittsburg & Western, 211
Plant System, 365
St. Louis Southwestern, 85
Southern Ry., 397, 421
Southern Ry., 321
Wheeling & Lake Erie, 141

Reservoir, Grand Rapids, Mich., 1, 25, 29

Steamers: "City of Monticello" lost, 321
"Cymric," Fire, 101
"Embleten" sunk in Irish Channel, 53
Warships, French, 101
Water tank, Cedar Falls, Ia., 374, 387

Acetylene gas: Apparatus for testing pressure of explosive mixtures of acetylene, R. H. Penn., 396
Use of acetylene in Germany, 381
Acetylene gas generator, invention of, 234
Adirondacks, Notes wheel, 214
Africa, American engineering contracts, 332
Air brakes, Street car, Tests by New York Railroad Commission, 76

Air compressors: Explosions and ignitions in air compressors and receivers, A. G. White, 16
Riveting Works for field riveting, 396
Steam engine auxiliary, Flaber invention, 204

Air ships: Test of ship at Manzell, Switzerland, 69
Zeppelin, tested in Germany, 37, 273

Alarms, Grade crossing, 154
Allen, John F., and early steam engineering, C. T. Porter, 304

Aluminum: Paris exposition exhibit, 371
Powdered aluminum in welding, Goldschmidt process, E. F. Lange, 189, 291
Aluminum wire for electric transmission lines, F. A. C. Perrine and F. G. Baum, 215
American Economic Association, 164, 165
American Institute of Architects, 436
American Institute of Mining Engineers, 160, 186

American Railway Master Mechanics' Association, 7
American Society of Civil Engineers: Convention in London, 50, 422
Index to Library, 408
Nomination of officers, 197, 199
American Society of Mechanical Engineers, Convention, 413
American Society of Municipal Improvements: Convention at Milwaukee, 60, 164, 171
Future of the Society, 164
American Steamship Company sold, 321
Angle, Approximate method of dividing arc, R. H. Moore, 28
Arc, Photometry of electric arc, 89
Arc lamps, Submarine, 167

Arches: Brick, supporting building over running stream, 325
Concrete, Substructure and superstructure, Ohio law and highway bridges, 183, 248
Concrete-steel, Green and Goat Islands, Niagara Falls, 382
Groined, Diagram for determining volume of semi-elliptical arch, J. H. Gregory, 130
Hinged arch, Viaur, France, 1158
Plate girder foot bridge, Madison, N. J., Designed by H. G. Tyrrell, 134

Steel arches: Details of 24 large arches, 159, 215
Paris Exposition, Foot bridge over Seine, 147
Viaur, France, Three-binged arch, 1158

Arctic expeditions, 173, 257, 358, 390, 421

Armor plate: Carnegie Steel Co. and Russian Government, 141
Contracts for plate for warships, 101, 321, 354, 358
Letting contracts without competition, 354, 358

Army, U. S., Health and size of, 358
Asbestos mining, Thetford, Canada, 186
Asphalt, (See Pavements.)
Asphalt war in Venezuela, 442
Association of Railway Superintendents of Bridges and Buildings, 288, 287
Automobile Exhibition, New York, 337
Automobiles, (See Motor vehicles.)
Axles, Specifications for steel, 304

B.

Bacteria: Killing bacteria by hydrostatic pressure, F. H. Stillman, 230, 2236
Street dust analyses, Lafayette, Ind., 242
(See also Water analyses.)

Ballast: Methods of handling, Report at Roadmasters' Association, 341
Standards in U. S., Canada and Mexico, 142
Barrels of pressed steel, 241
Bath houses in Boston, Municipal, 448

Beams: Bending moment in a circular girder, G. P. Starkweather, 290, 335
Formula for strength of I-beams, R. D. Johnson, 389, 445
Belle Isle iron mines, 187
Bethlehem Steel Co., Taylor-White tool-steel process, 91
Bidder, Lowest, Compelling award of contract, 28
Blast furnace gas as fuel for gas engines, 1, 49, 1206
Blast furnace slag in Portland cement manufacture, Cecil von Schwarz, 210
Blast furnaces: Coal consumption varies, 157
Linings, Protection above mantle, S. S. Hartranft, 251
Block signal failures due to lightning, 184
Blooming mill development, 67, 358
Blowers, Power required by centrifugal blowers for cupolas and forges, William Sangster, 384, 430

Boats: Berger submarine torpedo boat, 305
Electric towing engine for canal boats, Russia, 233
Raddatz submarine boat tested, 53
Boiler explosion, Wells St. power house, Chicago, 397, 422

Boilers: British naval vessels, investigation, 117, 193
Paris exhibit, 107
Corrugated furnace, Method of construction, 48
Electro-galvanizing of tubes, 163
Feed water heating, Nordberg pumping engine, 118, 128
Oil circulating systems for obtaining steam at high pressures, 327
Scale, Graphite paint as preventive, 168
Smoke prevention on locomotives, A. Bement, 267
Superheaters, Paris exhibit, 107
Water level indicators, Paris exhibit, 107
Water tube marine boilers, Investigation by British Government, 117, 193

Bolts: Staybolts from wire rope, 421
Track bolts, Reversing alternate in rail joints, 341
Boston, Engineering work in, 64
Boston Society of Civil Engineers, Monthly bulletins, 26, 64
Brake, Improved prony, 216

Brakes: Attaching to car trucks, Grabam method, 130
European cars, Paris exhibit, 6
Freight cars, Necessity for uniform braking, 212
Street car brakes, Tests of different kinds of brakes by New York Railroad Commission, 76, 130

Brakeshoes: Friction, under various conditions of pressure, speed and temperature, R. A. Smart, 217
Tests by M. C. B. Association in 1901, 69

Brick: Influence of structure on wearing power, Tests by Frank Doty at Middletown, Ohio, 141
Bridge bearings, Steel column piers, Central A. Man Ry., 29
Bridge connections, Flexible, for riveted truss, Beuvron bridge, France, 199
Bridge design, Developments of the 19th Century, 400
Bridge erection, Floating spans into place, Spuyten Duyvil bridge, 345

Bridge floors: Concrete and steel, Rye, N. Y., 412
Fireproof floor, Union R. R. viaducts, 1103
Bridge letting in Nebraska, 430

Bridge span, Transportation, Hocking Valley Ry., 344

Bridge specifications: Economical steel and masonry, Rye, N. Y., 412
Electric railway bridges, Massachusetts, 427
Footway suspension bridge, Easton, Pa., H. G. Tyrrell, 346
Proposed specifications for steel railway bridges, J. W. Schaub, 255, 372

Bridges: American bridges in Africa, 421
Arched plate girder, Madison, N. J., 134
Blackwell's Island, Ordinance signed, 345
Cost, Comparative estimates on combination and all-steel highway bridges, H. G. Tyrrell, 132
Denmark, Little Belt suspension, 345
Development of the metal bridge, 400
Drawbridge gate, Interlocking, H. G. Tyrrell, 452
East River, Raising cable saddles, 397
Easton, Pa., Footway suspension with three towers, H. G. Tyrrell, 346, 410

Bridges: (Continued.) Hamilton, Ohio, Highway bridge of 400-ft. span, 60
India, New bridges, 189
Inspection apparatus, Viaur viaduct, 161
Little Rock, Ark., Repairing pier with annular pneumatic caisson, E. M. St. John, 73
Madison, N. J., Plate girder park bridge, 134
Moving span by rail, Hocking Valley Ry., 344
Niagara Falls: Green and Goat Islands, Concrete-steel, 382
Mich. Cent. R. R., cantilever, Strengthening, 1200
Northwich, Eng., Pontoon swing bridge, J. A. Sauer, 1190, 196
Paris Exposition: Steel arch footbridge over Seine, 147
Typical American bridges, G. L. Fowler, 110
Pitts., Beas. & Lake Erie R. R., Construction of bridge and viaducts, 1102
Pontoon swing bridge, England, J. A. Sauer, 1190, 196
Quebec, St. Lawrence River, 189, 241
Iye, N. Y., Steel and masonry highway, 412
Sheathing for bridges, Phil., 448
Spuyten Duyvil, Spau floated into place, 345

Steel: Comparative estimates of the cost of combination and all-steel highway bridges, H. G. Tyrrell, 132
Development of the metal bridge, 400
Strengthening Niagara cantilever, 1200
Substructure and superstructure in concrete arch construction, 183, 248
Suspended footway, Easton, Pa., H. G. Tyrrell, 346, 410
288
Union R. R., Construction details of bridges and viaducts, 103
Wash., D. C., Aqueduct bridge, Fall-buys and repair of piers, L. R. Garbill, 54

Weight: Curves of weight for electric railway bridges, 427
Formulas for calculating weight, 79

Buildings: High buildings and restrictions upon their height, 51
Hotel Wallaton, Brookline, Mass., Reconstructing defective foundations, 327
Kansas City Convention Hall, Re-erection, 3
New York City: Broad Exchange Building, 1339
Violations of building laws, 397
Pan-American Exposition, Buffalo, 1315
Supporting a building over running stream, 325
Bulging walls, Device for measuring, 298

Bumping posts: Cheapest and most practical, 288
Gibraltar, 399
Buoy, Pintock gas, 189
Bureau of Yards & Docks, Report, 365
Burning or mending castings, 351

C.

Cable-laying steamer, North German Cable Co., 17

Cables: Round vs. flat mining cables, 371
Submarine, Bids asked by British Government, 69
Transmission of 30,200 volts, 257

Cableways: Conveyor for slag, Dollar Bay, Mich., 1
Electric, with oscillating shear, 328
Cabs, Locomotive, on European railways, 6

Caissons: Bridge pier, Little Rock, Ark., Annular pneumatic caissons, E. M. St. John, 73
Broad Exchange Building, Pneumatic caissons, 1339
Dry dock entrance, San Francisco, 277
Canadian Rand Drill Company, 170
Canal boat, Electric towing engine, Prussia, 233

Canal locks, High lift, Discussion by Board of Engineers, for canals of New York, 17

Canal plank in the New York Republican platform, 180

Canals: Chicago drainage: Effect upon Chicago River, 85
Lease of water power, 53
Report of Special Commission, 97
St. Louis water supply, 257
Tender of canal to U. S. Government, 321
Dalles of Columbia River, 381
Danube-Adriatic, 371
Elbe and Trave, Germany, Opened, 53
Electric towing, 53, 233
Europe, Comparative cost of rail and water transportation, 44
Great Lakes to the ocean, Report of U. S. Board of Engineers, 30
Illinois & Michigan: Cost of lock at Bridgeport, Ill., 101
Fast canal boat service, 157
Killa Delta Danube, 437
Lake Borgne, 395
Lake Michigan-Mississippi River, 397
Liege to Antwerp proposed, 241
New Orleans drainage, Construction details of lined and covered canals, L. W. Brown, 186
New York State: Award to F. J. Dwyer on canal contract, 381
High lift locks discussed by engineers, 17
Nicaragua: Bill in Congress, Probable action, 372
Darlen route proposed by new company, 17

Canals: (Continued.) Nicaragua: (Continued.) Eye-Cragin concession annulled, 85, 113
Isthmian Canal Commission's report, 381, 425, 450
Silico Lake Railway, Stability of cuts, 28, 182
Topography of the canal route and the plans and estimated cost of construction, E. S. Wheeler, 421
Sault Ste. Marie, 53, 141
Southampton-London, Rumor, 273

 Wooden, Springfield, Mass. 448

Sewerage:
 Havana, Cuba. 273, 300, 334, 381
 New Orleans, Bond issue. 58
 St. Petersburg, Plans. 381

Sewers:
 Building under viaduct pier. 59
 Chicago, 30th St. contracts. 289
 Cleveland, Ohio, sewer under viaduct. 59
 Cleaning sewers: Columbus, Ohio. 443
 Paris. 73
 Columbus, O., Cleaning. 443
 Egg-shaped sewers, Formulas for computing quantities of brickwork. 28, 94
 Los Angeles, Cal., Converting portions of sewer into septic tank. 317
 Paris, Cleaning sewers. 72
 Providence, R. I., Costs. 440
 Shafting vs. electricity. 18
 Shear, Rotary splitting, for iron and steel plate. 286
 Sheet-metal spiral. 387

Shipbuilding:
 American competition with foreign shipbuilders in building large ocean vessels. G. W. Dickie. 352
 Contracts with American Shipbuilding Co. 157
 English industry. 37
 Foreign plants. H. G. Gillmor. 346, 363
 Ocean steamers and Lake builders. 365
 Risdon Iron Works, San Francisco. 205
 United States, Statistics. 37, 157
 Ship-subsidy bill in Congress. 428

Shops and factories:
 Electric power and light. F. R. Jones. 405
 Power transmission by shafting vs. electricity. 18
 Sidewalks, Concrete and steel, St. Louis. 304

Signals:
 Mine signaling device. C. S. Herzog. 170
 Seacoast storm signals. 365

Signals, Railway:
 Automatic alarms for grade crossings. 154
 Automatic block-signal failures due to lightning. H. D. Miles. 184
 Back lights for signals. W. H. Lane. 184
 Locations for automatic signals. C. C. Rosenberg. 311
 Pneumatic crossing gates and signals. Del., Lack. & West. R. R. 53
 Questions as to progress and uniformity presented to Railway Signaling Club. B. B. Adams. 311
 Slag for cement manufacture. 210

Slope stakes, Setting up. Discussion by H. P. Gillette, J. B. Johnson and others. 46, 78, 182, 198, 204, 205, 281, 296, 298, 313, 314, 334, 335, 336, 355, 356, 389, 410, 429, 445
 Smith, Hamilton, Biographical sketch. 300
 Smokejack, Swinging. 287
 Smoke prevention: Cleveland, Ohio, City ordinance. 415
 Locomotive fireboxes. 267
 Snow cleaning: Brooklyn, N. Y. 388
 Montreal. 449
 Snow fences, Stationary or portable. 268
 Snow plows on the Colorado Midland Ry. 133
 Social Engineering. 444
 Society of Naval Architects and Marine Engineers. 362
 Society for the Promotion of Engineering Education. 36
 South Carolina Interstate and West Indian Exposition. 358
 "Southern Review of Commerce". 315, 356
 Specifications. (See Bridge specifications; Masonry; Steel; Timber preservation.)
 Speed changing gear. 338
 Speed record, Hill. 302
 Spikes, Standard, in U. S., Canada and Mexico. 142, 149
 Spiral, Rolling sheet metal. 387
 Spirit levels on field instruments. Harold Van Duzee. 348
 Stadia rods, U. S. and Mexico boundary survey. 246

Stairways, Moving:
 Dodge invention. 266, 297
 Reno inclined elevator. 206, 297
 Standardizing Bureau, National, Bill in Congress. 230
 Standpipes, Electrolysis of. D. H. Maury, Jr. 39, 44, 410 (See also Water tank.)
 Staybolts from wire rope. 421

Steam engines:
 Allen, Reminiscences. C. T. Porter. 394
 Central valve, American. E. T. Adams. 386
 Condensation in cylinders, Glass "revealers." Bryan Donkin. 318
 Early high-speed steam engineering. C. T. Porter. 394
 Economy guarantees of high-speed simple engines. E. J. Armstrong. 423
 Feed-water consumption of a 4-valve non-condensing engine at different loads. 337
 Governing, Combination of variable cut-off with throttling of steam supply. Vienna. 70, 76
 Lubrication, Positive oiling apparatus with Sight-feed distribution. 106
 Paris Exposition. 105
 Requirements of modern lighting generator sets. H. G. Reist. 423
 Schneider engine, Valves moved by hydraulic pressure. 107, 421
 Semi-portable, Wolfe engine. 107
 Triple expansion, Vienna central station. 70, 76

Steam engines.—Continued.
 (See also Boilers; Hoisting engines; Locomotives; Pumping engines; Traction engines.)
 Steam pipe, Balanced expansion joint. 194

Steamers:
 Atlantic Coast Steamship Co., "Waccamaw". 289
 Atlantic Transport Co., New ships. 321
 Cable laying steamer for North German Cable Co. 17
 "Celtic". 305
 "City of Monticello" lost. 321
 Coal consumption and steaming radius of U. S. S. "Yosemite". 263
 "Cymric", Fire. 101
 "Deutschland". 37, 53, 101, 157, 173
 "Embleton" sunk in Irish Channel. 53
 Ferry steamer of Pere Marquette Ry. 241
 Fuel, Liquid, on the "Cowrie". 305
 Hamburg-American line, New. 205
 Hullawell Steamship Co. 321
 "Kaiser Wilhelm der Grosse", Speed. 101
 Lake freight vessels. 189
 "La Lorraine". 141
 "Main" to be repaired. 241
 Pacific Coast and Oriental ports. 358
 Propeller, Fitting at sea, "Border Knight". 37
 Record between New Orleans and New York. 141
 "Runic" of White Star line launched. 289
 "St. Paul", Broken shaft and wrecked engine. 305
 Steel steamers, Resistance to fire. 27
 Subsidies for American merchant vessels. 428
 Transport service, British. 117
 Turret steamer, "Woramore". 289
 "Vaderland" launched. 53, 421
 Steaming radius and the most economical speed of steam vessels. 263

Steel:
 American Bessemer, in Sheffield. 117
 Manufacture: Possible use of oxygen. 9
 Talbot open-hearth continuous process. 31
 Specifications, International Association for Testing Materials. 303
 Tool steel: Effect of composition on hardening qualities. Swedish exhibit. 48
 Taylor-White process, Bethlehem Steel Co. 91
 Steering gear for ships, Electric, Buck patent. 107
 Stephenson link motion, Investigation. 312
 Storage batteries, Value in small stations. 53
 Strainer and sand trap for driven and artesian wells. 96
 Stresses in circular plates. 94
 Strike of coal miners. 189
 Submarine arc lamp. 167
 Submarine boats: Berger torpedo boat. 305
 Raddatz tested. 55
 Subsidies for American merchant vessels 428

Subways:
 Baltimore electrical, Explosions. 332
 Boston, Gas explosion in 1897. 273
 New York, Pipe galleries in Elm St. 332, 358, 381
 Objections to subways, Systematic location of pipes and wires in earth. 120 (See also Tunnels.)
 Suction chambers on pumps. 414
 Sulphur mine, Mexican. 334
 Superheaters: Locomotive on Prussian State Rys. 274
 Schwoerer, Cast-iron pipes with ribs inside and outside. 107
 Stork Bent-pipe system, Paris exhibit. 107

Surveying:
 Plotting contour lines. 62, 109
 Setting slope stakes. (See Slope stakes.)

Surveys:
 Great Bear Lake, B. N. A. 421
 Transcontinental triangulation along the 39th parallel. 96
 U. S. and Mexico boundary, Report. 246
 Switches, Standard in U. S., Canada and Mexico. 142, 149
 Sydney, Cape Breton. 186

T.
 Talbot open-hearth continuous steel process. 31
 Tamping machine, Track. 404
 Telegraph cables: Philippines. 353
 Vancouver—Australia. 421
 Telegraphing and telephoning simultaneously. Fire-alarm system of Berlin 234
 Telephonograph, Brief description of. 69

Telephony:
 Communication between ships at docks and city. 117
 Duplex telephone line, Yokohama and Tokio. 331
 Long-distance telephony, Proposed system by M. I. Pupin. H. T. Wade. 133
 Russian franchise sold. 381
 Wireless telephony at sea. 189
 Temperature record at Paris. 273
 Temperatures, High, produced by use of powdered aluminum. 189, 291
 Terminal and yards. E. E. R. Tratman. 376
 Testing machine, Drop, for cast iron car wheels. G. W. Beebe. 266
 Thetford asbestos mines. 186
 Tientsin, China, Trade and control of Peiho River. 185

Tie plates:
 Cage for setting tie plates. 81
 Standards in U. S., Canada and Mexico 142
 Tie plugs, Use of, in hard and soft wood ties. 341

Ties:
 Preservation. (See Timber preservation.)
 Southern Pacific Ry., Atlantic system, Preservation. 278
 Standard ties in U. S., Canada and Mexico. 142, 149, 215

Ties.—Continued.
 Steel ties:
 Huntington, Broad Top Mt. R. R. 38
 Lake Shore & Mich. So. Ry. 390
 Tamping machine, Sheppard. 404

Timber preservation:
 Atch., Top. & S. Fe Ry., Chemical treatment of ties. 342
 Burellizing process, So. Pa. Ry. 278
 Creosoting process, So. Pa. Ry. Specifications for creosote oil. 279
 General discussion of subject. O. Chanute. 79
 Specifications for treating ties with chloride of zinc and tar oil, Royal Prussian State Ry. O. Chanute. 80
 Timbering tunnel, Crutch system. 309
 Tool-steel process of Bethlehem Steel Co. 91
 Torpedo boats. (See Warships.)
 Tracks, Standard construction in U. S., Canada and Mexico. 142, 148, 215, 430 (See also Rails; Ties; etc.)
 Track bolts, Reversing alternate, in rail joints. 341
 Track elevation: Chicago. 221, 257
 Troy, N. Y., proposed. 1
 Track jack, Union. 63
 Tracklaying: Atch., Top. & S. Fe Ry., Rapid work. 320
 Kersey R. R., Notes. 356
 Tracklaying machine, Roberts. 9, 62
 Track maintenance by contract, European railway practice. 95
 Track scales: Chic., L. S. & East Ry., Gravity scale. 376
 Discussion, Ry. Supts. Bridges and Buildings. 28
 Track velocipede in Senegal. 63
 Traction engines in Siberia. 241

Trains:
 Fast trains: Canadian Pacific Ry. 345
 Lehigh Valley Ry. 285, 381
 Freight trains, Necessity for uniform braking. 212
 Transcontinental triangulation along the 39th parallel. 96
 Transition curves, Method of treatment. 200
 Transmission dynamometer, New. 50
 Transportation by rail and water in Europe, Comparative cost. 44
 Travelers, Steel: Ches. & Ohio Ry., Richmond, Va. 380
 Pitts., Bess. & L. Erie R. R. 102

Trench excavating machines:
 Austin. 18
 Dalton. 18

Trestles:
 Great Lake, Utah, Proposed. 17
 Weights of steel trestles, Formulas for calculating. 79
 Trigonometry, Problem in spherical. 430
 Tube-rolling plant, Etna Works. 117
 Tumbling barrel for testing paving material, Paris. 73

Tunnels:
 Cascade, Gt. Northern Ry., Progress. 205, 257
 Chicago, Street railway subways proposed. 83
 Chicago water supply: Chicago Avenue. 260
 History of tunnels. 259
 Hyde Park or 68th St. 307
 Lake View tunnel. 306
 Northeast tunnel. 309
 12th St. four-mile tunnel. 262
 Cincinnati water supply. 305
 Cleveland water supply. 345
 East Boston, Work begun and old reservoir uncovered. 141, 206
 Hook Mt. water supply, New Jersey. 437
 Marcellus and Rhone Valley, Proposed 29
 Paris Metropolitan Ry. 1392
 Siplon, Machinery and methods. C. B. Fox. 29, 151
 Staten Island—Long Island, Proposed. 289
 Straits of Gibraltar, Impracticable. 408
 Strickler, Colo., water supply tunnel. 345
 Submarine tunnels: Ford's original subaqueous viaduct. 410
 Impracticable at great depths. 408
 Timbering tunnels, Crutch system. 309
 Ventilation of Siplon tunnel. C. B. Fox. 153

Water supply. (See above, Chicago, Cincinnati, Cleveland and Strickler.)

Turbines, Steam:
 De Laval, Paris exhibit. 106
 Parsons: Test at Eberfeld, Germany. 173
 "Turbinia" at Paris Exposition. 106
 Seger, Paris exhibit. 106
 Twentieth Century's beginning. 421
 Typhoid fever, Albany, N. Y. 88

U.
 Underground chambers, Construction of moisture-proof. L. R. Grahill. 160
 Underground water: British law. 383, 388
 Brooklyn, N. Y., Litigation. 385, 388
 University of Michigan. 30, 185
 University of Mississippi. 284
 University of Wisconsin, Scholarship in municipal government. 62
 Ur, Exploration of ancient city. 345

V.
 Valves and valve gears: Central-valve steam engine. E. T. Adams. 386
 European locomotive valves at Paris Exposition. 5
 Hydraulic operation of steam valves in Schneider engine. 107
 Poppet steam valves, European practice. 106
 Stephenson link motion, Investigation. 312
 Vermont, Notes awheel. 214
