MEMO FOR RECORD:

1. See M/R, 23 Aug 49, pertaining to memo for JG, file AG 072, subj, "Procedures for Restoration of Patents, Utility Models, and Designs to Allied Nationals."

2. In a memo to Mr. D. H. Blake, 18 Apr 50, subj, "Closing Date of Restoration of Patents, Utility Models and Designs," it was recommended that the present closing date for restoration of patent prop, 1 Sep 50, should be extended to 1 Feb 51. The reasons for this are given in detail in the memo and were based substantially on the recent issuance of SCAPIN 1990/3 which broadened the restoration program and on the shortness of time left before 1 Sep 50 to disseminate notice of the SCAPIN in Allied countries and allow patent owners there to take steps to restore their property.

3. Subsequently the UK R&R Del in a ltr, file RED/111, 21 May 50, subj, "Procedures for Restoration of Patents, Utility Models and Designs to Allied Nationals," requested an extension of six months in the period for accomplishing patent restoration. This was based on the lack of time for notifying owners of interested parties in UK and for their taking necessary steps.

4. The matter was discussed informally by Mr. Ellison, CPC/FP, and Mr. Abbey, ESS/ST to learn if ESS would object to the extension. Mr. Abbey replied ESS would probably concur in the extension to 1 Feb 51.

5. The issuance of SCAPIN 1990/3 was necessitated by an exchange of radios with DA concerning restoration of patents to Japanese juridical persons. DA(JCS) Radio W-86030, 24 Mar 49, directed that patent prop be restored to Allied owners and defined them as being any owner of Japanese patents whose property was treated as enemy during the war. This eventually brought up the question of restoring patents owned by Japanese juridical persons who in turn were owned pre-war by Allied nationals. SCAP Radio Z-26952, 22 Oct 49, to DA raised this question for clarification and in reply DA Radio WCL-23065, 17 Nov 49, stated that restoration is to be based on treatment of the patent prop regardless of the owner's nationality. Since Cabinet Order 309 of 1949, the JG implementation of the original restoration directive was not broad enough to cover this new concept, a new directive (SCAPIN 1990/3, 21 Mar 50) became necessary to cause amendment of the Cabinet Order. As soon as it was issued it became evident the time left

for restoration of patents to this newly included class of owners was too short, as described in detail above, and only by extension of the program closing date could their interests in Japan be properly protected.

6. JCS 101, 24 Mar 49, states that Allied owners of patents in Japan shall have a reasonable time in which to perform all legally required acts in connection with restoration but it does not state the length of "reasonable period" nor does it set a specific date for closing of the restoration program. It does, however, state that requests for restoration should be made prior to such date as may be prescribed by SCAP. SCAP, therefore, does have authority to set a closing date, and by the same authority can extend it if necessary. In view of the "reasonable period" called for by the JCS it is considered the present situation, as described, is clearly one calling for extension of the closing date in order to give the newly included class of patent owners a reasonable time to complete restoration proceedings.

7. Memo to JG extends closing date to 1 Feb 51 in order to assure Allied owners of patent prop and of Japanese juridical persons ample time in which to demand restoration of their patent prop.

8. Authority: JCS 101, 23 Mar 50.

9. This is an administrative matter and surveillance by Eighth Army is not required.

10. Concurrences: ESS Lt. Col. E.C. Allen & Lt. Col. C. F. Knowlton, Jr

LS A. C. Carpenter.

11. This memorandum will be numbered SCAPIN 1990/4.

12. Initiates and completes action on Line No. 55297.
