

THE ALEXANDRIA'S ICE PALACE

One of the best examples of originality and artistic ability of Architect Edwin Bergstrom is the new tea room on the mezzanine floor of the Alexandria hotel, Los Angeles, which was recently opened.

The color scheme is in green and white. The walls are draped with green satin and white Eider down. The ceiling is frosted and decorated with imitation snowballs frosted in mica in an irregular fashion to give the appearance of an ice cave.

The beauty of the electric lighting effects is quite impressive, vari-colored lights being reflected from the frosted surfaces and the glass beading. This effect is enhanced by the use of a number of large recessed mirrors.

The cost of fitting up the room was in the neighborhood of \$50,000. On account of the war it is now impossible to obtain considerable of the material used and the scheme could not be reproduced at any cost.

YOUR TOWN

Said old man Haskins, with a frown: "A man is a fool fer to knock his town,

It's easy to find fault all day long And declare that everything's going wrong.

It doesn't take brains for to do that stunt;

It's simple to knock and to grouch and grunt.

And say that everything's going to pot

Whether it's exactly true or not.

And crabbins' a town, fur as I kin see

Don't never bring no prosperity.

If you find that you've got to growl about

Your town, it is time to get clean plumb out

And hide your discontented face,

And let folks stay who enjoy the place.

REUNION OF ALUMNI

SEVERAL HUNDRED U. OF C. STUDENTS WILL HOLD MEETING JUNE 3

A special excursion train has been chartered by the alumni of the University of California to take several hundred of them on Saturday, June 3, from San Francisco to Fresno county for their annual meeting and reunion.

After a sight-seeing tour through the University's great vineyards, orchards, and farms, there will be a barbecue supper, followed by the annual business meeting of the alumni. In the evening there is to be a reception in the Kearney mansion, a band concert, and an open-air country dance.

The sleeping-cars of the special train will be sidetracked for the use of the alumni at Kearney Park. On Sunday morning, June 4, the excursionists will be the guests of the university management at Kearney Park on an automobile tour through the country, with luncheon at the Sunnyside club.

For the first time in thirty-five years the annual business of the Alumni association will be transacted away from Berkeley. In previous years the meeting has been held in conjunction with the alumni luncheon on commencement day at the campus.

The vast vineyard, orchards, and alfalfa fields of the Kearney estate occupy 5400 acres, seven miles west of Fresno. The property, which is proving useful for agricultural experiment works, was bequeathed to the University by the late M. Theo. Kearney in 1900.

The railroad transportation will be the only expense which the Bay counties alumni will be required to meet. For \$8.35 the entire trip from San Francisco can be made. All expenses at the park, including the automobile trip on Sunday morning will be met by the University management at Kearney Park, of which Ralph P. Merritt, '07, is the director.

The committee in charge of the excursion is as follows: Dean Witter, chairman; A. J. Eddy, W. A. Starr, O. E. Hotle, H. H. Phleger, Douglas Brooklan, W. E. Creed, A. M. Kidd, Scott Hendricks, F. P. Deering, J. J. McLellan, Chas. Stewart, J. K. Moffitt, Milton Newmark, S. C. Irving, F. H. Dam, Farnham Griffiths, Nathan Moran, Colman Schwartz, C. S. Wheeler, Jr., Harry East Miller, F. C. Turner, Colis Mitchum, H. H. Ashley, J. W. McKibben, F. T. Robson, Charles W. Merrill and Walter P. Burpee.

Efficient muzzling of dogs will eradicate rabies.

TRUSTEES' MEETING

(Continued from page 1.)

street work by private contract, accompanied by a check for five dollars, was received from W. G. Collins; said work consisted of 150 feet of four foot sidewalk on the east side of Dayton Court north of Third street.

An application was read from W. A. Eastman asking permission to hold religious services on the streets of this city, and on motion of Trustee Muhleman the permit was granted, subject to the supervision of the police department to see that traffic is not interfered with, or the street blocked in any manner.

Mr. Reeser was present to inquire into the matter of the opening and widening of Penn street. The city attorney made a statement in reference to the case, to the effect that the attorney of Mr. Shattuck had made a proposition that all parties interested are willing to dedicate the street and save condemnation proceedings, provided the city does not press the improvement of the street within a period of time equal to the time required for condemnation proceedings.

The city manager presented a lot cleaning resolution. On motion, Resolution Number 909, "A Resolution of the Board of Trustees of the City of Glendale declaring weeds growing upon and in front of certain lots in said city to be a public nuisance," was taken up for reading.

Trustee Jackson brought up the matter of the demand of Dr. Smith for \$3.00 for services rendered by order of the police department, and upon motion of Trustee Grist, the said demand was referred to the city manager.

On motion of Trustee Muhleman, a notice of lot cleaning was ordered to be published in the Glendale Evening News, Tuesday, May 23rd.

The city manager made a report in reference to changing the night for band concerts. The manager of the band had reported that it would be impossible to give concerts on Saturday nights, and on motion of Trustee Grist, it was ordered that the contract with the Glendale Band be modified so as to specify Friday instead of Thursday evening at the night for public concerts.

The city attorney reported that in the case of the opening and widening of East Broadway, the referees' report had been confirmed, and that the interlocutory decree would be entered within a few days.

The chairman of the Public Works committee reported that he has gone over the ground in the wash with Mr. Thom, who agreed with him that the planting of trees as proposed by the committee would be a good thing but that later after having consulted with owners, he had finally said that they would not agree to the planting of trees in the wash on their land.

Trustee Jackson made a motion, which was adopted, that the city manager write to Mr. Pierce, requesting him to appear before the board of trustees at their next regular meeting, to give information as to the alleged cases of typhoid fever which it is reported he has stated to exist in Glendale.

While we as a board of trustees or as private citizens, do not feel authorized to declare the policy of the people of Glendale in regard to the consolidation of the two cities, nevertheless, we do feel warranted in this connection in calling attention to the fact that the people of Glendale have always voted favorably upon the question of welcoming contiguous territory whenever an election has been held in the City of Glendale for that purpose, and we, therefore, believe that we express the sentiment of the people of Glendale when we say that they recognize the benefits that would accrue to both communities by reason of consolidation.

In the event of the consolidation of the two cities, it would be the policy of this board to maintain in your present city hall, offices for the transaction of public business. Offices for the Public Service department, police and fire departments would be maintained and general information in regard to city business could be obtained at all times during office hours.

Your public library would be continued and its service and equipment consistently increased to meet the public demand. Your fire fighting equipment would remain at its present station, and day and night police service would be maintained both in the business and resident portions of your community.

This board would take immediate action to extend the Public Service Department to all parts of your community, giving the same rates and service as are now enjoyed by the people of Glendale.

Neither city would be required to assume any of the outstanding bonds of the other. It will be remembered that the question of consolidation of the two cities will have to be submitted to the qualified electors of the City of Glendale as well as to the qualified electors of the City of Tropic and a final decision as to a consolidation of the two governments will have to be settled by the voters of the two cities irrespective of the preference of the governing authorities of the City of Glendale.

We feel safe in assuring you that the people of the City of Glendale stand ready and willing to welcome consolidation with your city as it stands ready to welcome the annexation of any contiguous territory inhabited by the splendid character of citizenship which your city represents.

In accordance with the instructions given at the last meeting, the city attorney presented an ordinance proposing to change the manner of presenting demands for the payment of money by the city. On motion, "An Ordinance regulating the presenting, auditing and paying of demands against the City of Glendale and repealing Ordinances Nos. 5 and 140 of said city," was taken up for the first reading.

On motion, "An Ordinance regulating the presenting, auditing and paying of demands against the City of Glendale and repealing Ordinances Nos. 5 and 140 of said city," was taken up for the first reading. On motion, this ordinance was declared read for the first time and was taken up for the second reading.

The manager of the Public Service department made a report in regard to the North Glendale Distributing company, and it was ordered by motion of Trustee Grist, that the City of Glendale join with that company in taking up with the railroad commission the matter of the transfer of a portion of its pipe system to the City of Glendale.

The chairman of the Public Works committee reported that he has gone over the ground in the wash with Mr. Thom, who agreed with him that the planting of trees as proposed by the committee would be a good thing but that later after having consulted with owners, he had finally said that they would not agree to the planting of trees in the wash on their land.

Trustee Jackson made a motion, which was adopted, that the city manager write to Mr. Pierce, requesting him to appear before the board of trustees at their next regular meeting, to give information as to the alleged cases of typhoid fever which it is reported he has stated to exist in Glendale.

Though he was "green," old Bill was "white." I'll tell you why, you'll say I'm right. He never had a "yellow" streak; His blood was "red." He would not speak An unkind word, nor "black" deed do To anyone. He was not "blue" "Cause he was "gray." His "crimson" gore He gladly shed—his country for. And when the blood that he had shed To "purple" turned, Old Bill was dead.

Blank verse is the glory of English poetry. . . . It gives great freedom to the poet, and allows him to take the most lofty flights, unshackled by the chains of rhyme.

HOW A SALOON-RIDDEN CITY PROTECTS ITS HOMES

The 1916 budget of the city of Chicago is \$27,434,791. Of this the largest single item is the appropriation for the police department. The sum voted for police protection is \$7,323,883, more than double the amount for any other corporate purpose.

THE DIFFERENCE

Sam was reading the paper when suddenly he snorted and addressed Mrs. Sam: "What tomfoolery, Marie! It says here that some idiot has actually paid a thousand dollars for a dog."

A SEWING HINT

When one is doing considerable sewing by hand upon any one article, as when hemming napkins, embroidering in one color, or making hand-made lingerie, considerable time and effort may be saved by threading a dozen needles on to the spool of thread or skein of floss before the work is begun.
