HOW BEST TO CLEAN STREETS

CITY ENGINEER HAS SUBMITTED A REPORT

Committee Decides to Ascertain Cost of Modern Vacuum Cleaner

Angus Smith, city engineer, submitted at last evening's meeting of the streets, sewers and bridges committee of the city council an important report on present methods of street cleaning and watering in Victoria, and recommendations as to the policy which should be pursued in the future. This report read:

"The equipment used for cleaning the streets in the business section tonight, consists of one machine, one squeegee street washing machine and one sprinker. The sprinker is used previous to the passage of the machine broom to prevent the raising of dust; the squeegee machine does its own flushing and extra water is not required except for the first cleaning where pavements are very dirty. From 25,000 to 30,000 square yards are cleaned by the squeegee nightly. This machine is operated on Government Fort, Broad, Yates and Johnson streets. The remainder of the paved streets are cleaned by the machine broom, the northern and the southern sections being cleaned alternately, the area cleaned per shift is from 40,000 to 50,000 square yards.

"The night gang work in conjunction with the foregoing equipment consists of four men bunching sweepings, one cart, and one foreman. Any material not lifted is reported to and removed by the day men.

"The day gang consists of five men with patrol carts removing litter from pavements on Government, Johnson, Yates, Broad, Langley, Bastion, Fort and Belleville. Four men with hand brooms cleaning the other paved streets, Johnson, Yates, Fort from Douglas to Blanchard. These men clean rubbish from all paved streets that cannot be covered by the machine broom the previous night. Two carts are engaged removing the accumulation with additional assistance when required.

"During the last few weeks a gang composed of nine men, including foreman, have been engaged removing weeds and rubbish from streets lately improved and also on the principal main thoroughfare; in a few days all these streets will have been gone over once and I propose to practically cover the same ground at frequent intervals, the number of men employed being changed to suit conditions at any particular time.

"In addition to the foregoing outfit extra carts or wagons to assist in removing rubbish are engaged as circumstances seem to require.

"Clause 136 of section 50 of the Municipal Clauses Act empowers the city to make bylaws for imposing a special rate of not more than 2c per foot frontage per month on the occupier of all stores, and premises of any kind fronting on any street in the municipality, for the purpose of defraying the cost of watering said street. It appears that our dust laying appliances are not sufficient for the purpose as only a portion of the streets requiring treatment can be treated. Under the present conditions not nearly all the streets are getting treated and it appears to me that it would be reasonable to pass a bylaw for the watering of streets and assessing the cost against the properties benefited. If calcium chloride is used in watering the streets, I believe that the cost to the property owners would not be more than 3c per foot frontage per annum instead of the 2c per foot frontage per month allowed by the bylaw."

(Concluded on page 7.)

WIDEN DOUGLAS STREET THROUGH TO THE PARK

Mayor Morley Makes Suggestion to the Streets Committee Which is Adopted

At the suggestion of Mayor Morley, which was concurred in by other members of the board at the streets committee meeting last evening, the city engineer will be asked to make a report as to the cost of carrying Douglas street at a width from Humboldt right through to Beacon Hill park.

In bringing the matter to the attention of the board last evening his worship said that with but little expense the street could be made one of the best in the city. In his opinion the work he suggested was very necessary. Douglas street was one of the main arteries of the city, leading as it did to Beacon Hill park.

Continuing, Mayor Morley expressed the opinion that now was the time to undertake the work. It might be necessary to expropriate a portion of the Weller Bros. property at the southeast corner of Douglas and Humboldt streets. There was but a slight grade south of Belleville street. The Criterion apartment house would not be disturbed, though a portion of the land in front of the building might be cut into.

The members of the committee thought the mayor's suggestion a most timely one, and the engineer will be asked to report on the cost of the work at once.

TEN MEMBERS FOR PROVINCE

HON. WM. TEMPLEMAN ADDRESSES LIBERALS

Sir Wilfrid Laurier's Visit—Strength of the Government and Liberal Party

Ten members at least, and possibly twelve, representing this province in the House of Commons after the next redistribution was predicted by Hon. William Templeman, Minister of Mines, in an address to the Victoria Liberal Association last evening.

The occasion was the regular quarterly meeting of the association, and a goodly number had gathered in Sir William Wallace hall, Broad street, F. A. Pauline, first vice-president, was in the chair. Several matters of routine business were disposed of expeditiously.

The resignation of W. E. Ditchburn as president of the association was submitted and accepted, a vote of thanks to Mr. Ditchburn for his past services to the association and the Liberal cause was adopted unanimously, and it was decided to hold a special meeting next month to fill the position. A vacancy on the executive committee was filled by the election of T. J. W. Hick.

The Minister of Mines was given a very hearty welcome, and he complimented the Liberals of Victoria on the great interest they were taking in the coming visit of the great Canadian Premier. Speaking of Sir Wilfrid's tour Mr. Templeman said:

"I am glad to know that our party on the coast, in spite of recent happenings, is not dead altogether, and I look for a glorious awakening after our leader has been here. I am sure that the visit of the Premier everywhere in the west, and especially in British Columbia, will have a very beneficial effect on the cause of Liberalism. No doubt it is due to some extent to the fact that the leaders of the party, the Prime Minister especially, do not visit the west as often as they might if they were nearer that there is not as keen and active an interest in the Liberal organization as in the east, where they are more in touch with the leading men locally. I have always impressed upon the Premier the advisability of coming west. I have made earnest efforts to get Mr. Fielding to come out, but there have always been good and cogent reasons why they could not do so. There is no busier man on the continent than the Premier of Canada, except it be the Minister of Finance, who unquestionably is the hardest working man in the cabinet. They do not get time to get away, the distance is great, so we cannot expect very frequent visits from them."

(Concluded on page 2.)

WOOD BLOCKS OR ASPHALT?

ANOTHER PROBLEM FOR FORT STREET OWNERS

Streets Committee Willing to Leave Choice in Hands of the City Engineer

There is a division of opinion among the property owners on Fort street as to the particular class of pavement which ought to be laid on that thoroughfare in connection with the widening scheme. At last evening's meeting of the streets committee a deputation of the owners appeared and petitioned that the by-law might be changed from wood blocks to asphalt.

This deputation was made up of J. A. Sayward, D. E. Campbell, A. P. Luxton, B. C., and Albert Haines, Capt. Worswick, of the Worswick Paving Company, was also present at the invitation of Mr. Campbell.

Mr. Campbell said that he had watched the asphalt paving work which is in progress on Linden avenue and had come to the conclusion that it would be better for Fort street than wood blocks. He had communicated with a number of the leading owners and found them of the same opinion—namely, that the company would give a guarantee for twenty years and leave 15 per cent. of the contract in the hands of the city for that period.

A. P. Luxton, K. C., said that as far as he was personally concerned he was desirous that the work should be proceeded with all possible speed. He was not so much concerned about the kind of pavement used as that that job should be got on with.

Later in the evening a letter was read from A. E. Todd, protesting against the announcement in the press to the effect that the owners on Fort street had decided to ask for asphalt instead of wood blocks. The concluding portion of his letter read:

(Concluded on page 7.)

THE LATEST ADDITION TO DAN'S FAMILY.

ARRANGING FOR GREAT MEETING

SIR WILFRID SPEAKS IN HORSE SHOW BUILDING

Will Be Sufficient Car Service—Meeting Open to All—Band to Attend

The great public meeting which will be addressed by Sir Wilfrid Laurier in Victoria on the evening of Thursday, August 18, will be held in the horse show building at the fair grounds.

This decision has been reached by the sub-committee which was appointed to look after that matter, after a careful survey of all available places as to size, acoustic properties, facilities for handling the immense crowds which will be present, and so forth.

The acoustics have been thoroughly tested and the result in the empty building proves that when filled every whisp of sound is heard distinctly in any part of it. The lighting, which is being improved in anticipation of this year's fair, will be all that can be desired. Manager Goward promises a street car service which will be fully equal to all the demands upon it, and which will carry the crowds out to the grounds quickly and comfortably.

The meeting is, of course, a public one, open to every citizen who wishes to hear what the premier of Canada has to say. There will be no tickets and no reservation. One of the advantages of this building will be that seats will be found for everyone, and there will be none of the crush which would be inevitable to get into any building in town.

It will be after 8 o'clock before the meeting begins but in the interval, from a little after 7, the splendid band of the Fifth Regiment will play a selection of music and there will be vocal numbers also.

The Liberal associations of the Island are lending the local association all possible help in connection with the meeting and a large attendance is expected from all the surrounding districts.

SEVERE STORM.

London, July 30.—A terrific rain and wind storm swept London and the district west of here yesterday afternoon. Trees by the dozen were blown down about the city and trolley wires broken, taking up some of the street railway lines. The top of a fir tree was blown down on top of a team of horses in a funeral at Woodland cemetery, but the driver was able to control them. Lightning struck a house on the Hamilton road, and did some damage.

MURDER AND SUICIDE.

Quincy, Mass., July 30.—Louis Restelli, an Italian manufacturer of granite, shot and killed himself and his mother yesterday afternoon. He also shot Charles Henry Hardwick, a quarry owner. Mr. Hardwick's brother and partner, Theodore Hardwick, his own brother, Jasper Restelli, and Fenj. Bishop. All of the men will recover.

PLOT TO KILL ITALY'S DOWAGER QUEEN

Man Selected to Commit Murder Ends His Own Life After Arrest

(Times Leased Wire.)
Naples, July 30.—A plot to assassinate Dowager Queen Margherita has been unearthed. The man selected to kill her committed suicide after arrest, but the police have clues which may lead to the capture of many prominent anarchists.

SEVERS RELATIONS WITH VATICAN

Spanish Ambassador Leaves for Madrid—Papal Nuncio i Re-called to Rome

(Times Leased Wire.)
Rome, July 30.—Monsignor Vico, the papal nuncio to the Spanish court, was recalled this afternoon by Pope Pius X. The action of the holy see followed the recall of Ambassador Emilio de Ojeda by King Alfonso.

With the mutual recall came the severance of all diplomatic relations between the Vatican and the Spanish court.

Marquis de Ojeda left here this afternoon for Madrid.

King Alfonso Praised.
Madrid, July 30.—King Alfonso is in the foreground owing to the severance of relations with the Vatican. The King is praised for his stand.

May Support Pretender.
London, July 30.—A republican Spain or limited monarchy under Don Jaime is foreshadowed here. It is believed that the Pope will throw his influence now with the pretender to the Spanish throne.

BRITISH TROOPS MAY ENTER THIBET

Report That Preparations Are Being Made to Check Aggression by Chinese

(Times Leased Wire.)
London, July 30.—A dispatch from Simla to the foreign office indicates that British troops are preparing to cross the Indo-Thibetian border to prevent further aggression by Chinese troops.

It is no longer doubted that China plans a serious invasion of Thibet and border states which are under British protection.

LUMBERMEN MEET.

Tacoma, Wash., July 30.—The Washington Lumber Manufacturers' Association is holding the biggest meeting in the history of the organization here to-day. There are 230 members in the association and most of them are present.

No business is to be taken up at this session. The entire time is devoted to discussions, papers and speeches of a general educational character.

RUMORED THAT VICTORIA WINS

PROVINCIAL CAPITAL TO HAVE UNIVERSITY?

Persistent Reports That Decision Has Been Communicated to Government

Persistent rumors have been afloat for the past few days that the decision of the University Site Selection Commission, which recently concluded its labors in this province, has been communicated to the provincial government and that the verdict is in favor of Victoria.

Corroborative of the theory that this is correct is the fact that some large real estate transactions have taken place in the district where it is popularly supposed the university would be built if placed here. What lends color to the story is the circumstance that the statement that Victoria has been chosen is made by those who ought to be in a position to get official information on the matter.

It is believed that sufficient time has elapsed for the commissioners to have completed their report and communicated the same to the government. Dean Weldon, chairman of the commission, was interviewed by the Times just prior to his departure from Victoria and he said that only a short time would elapse before the report would be placed in the hands of the government.

A real estate transaction which is held to be highly significant in this connection was the transfer some few days ago of 75 acres of the Scott property (the old Dean farm) to a gentleman popularly regarded as an agent of the provincial government. The price paid was in the neighborhood of \$125,000. The property adjoins the site offered by the Hudson's Bay company for the university and might be used as a campus. The land in question has an ideal situation, overlooking the city and Cadboro Bay. It is said that on the strength of the rumors that the commission has decided in favor of Victoria, and that the site will be in the neighborhood of Cadboro Bay, a large tract of land lying west of the Scott property has been bonded for a very large sum.

It is conceded on all sides that the choice of the commissioners narrows down to Vancouver and Victoria, and it is known that the members of the commission were individually much enamored of the Capital City of the province as a university site. The members of the commission were Dean Weldon, chairman; Canon Dault, Principal Murray, Dr. Skelton and Dr. Cecil Jones.

TWENTY-FIVE REPORTED KILLED

RACE WAR BREAKS OUT IN TEXAS

Scores of Whites and Negroes Also Wounded—Governor is Asked to Send Troops

(Times Leased Wire.)
Palestine, Tex., July 30.—Twenty negroes and five white men are reported dead and scores of whites and negroes injured in rioting throughout the night near here.

A call upon Governor Campbell for troops has been made. Three hundred armed negroes are terrorizing the countryside.

Scores of white men fleeing from the plantations and farms arrived here to-day with their families. They bring word that the negroes have threatened to kill any white men who attempt to enter their settlements.

Hundreds of whites here and in nearby towns are arming for battle.

Rangers Ordered Out.
Fort Worth, Texas, July 30.—A company of Texas Rangers were ordered to proceed at once to Palestine to quell riots between whites and negroes. No details of the rioting have reached here except the fact that at least ten negroes were killed.

Militia in Readiness.
Austin, Texas, July 30.—The adjutant general of the National Guard this afternoon issued a general order to the militia to be in readiness for duty at Palestine.

One regiment already is on its way to the riot zone. Governor Campbell will leave Galveston to-night for Palestine.

RAILWAY ACCIDENTS.
London, July 30.—The report of the board of trade dealing with railway accidents in the United Kingdom shows that in 1,264,500,000 passengers carried only one passenger was killed while travelling first-class, for a period of twenty months, while the number injured was 20. The record is low compared with the average of previous years.

ICE CREAM CONES SEIZED.
Kansas City, Mo., July 30.—Local government officials, acting upon orders from Washington, yesterday confiscated 25,000 ice cream cones consigned to a local drug store. The government alleges that the cones are impure. Marshall Durbin says his office has seized two hundred thousand cones this week.

BUSY DAY FOR SIR WILFRID

HEARS GRAIN GROWERS AT SASKATOON

Premier Lays Cornerstone of Saskatchewan University—Welcomes New Comers

(Special to the Times.)
Saskatoon, Sask., July 30.—Following a remarkable reception on Thursday night in which Lieut.-Governor Forget, of Saskatchewan, Premier Scott, President Murray, of the university, Mayor Hopkins and President J. F. Cairns, of the Liberal Association, participated, and Sir Wilfrid Laurier delivered address on the main street, the premier threw himself with vivacity and enthusiasm into all of to-day's programme. He ran the gamut of the Agricultural Association and statescraft. In the morning he met the grain growers, who with Hon. Mr. Motherwell, minister of agriculture, conferred with him at the city hall. In the afternoon he laid the cornerstone of the Saskatchewan university, a brilliant social function, and at night addressed a mammoth public meeting in the great arena.

The premier administered a dignified rebuke to the speaker who appeared to party passion at the conference with the grain growers' deputation.

In support of the tariff memorial, John Evans Nutans, director of the Central Association, who presided at the conference, asked why the farmers do not receive bonuses from the government, the same as Dominion iron and steel companies. The Liberal party, he said, had departed from all principle of Liberalism, and to-day are the most conservative government on the face of the civilized globe. He declared "in 1896 the Liberal government came into power on the distinct pledge of free trade. Now you are farther from it than in 1896. In 1896 you promised to skin the Tory bear of protection. Have you done it? If so, I would like to ask you what you would have done with the hide."

E. M. Macdonald, M. P., expressed the view that it was a mistake to engage in political speeches while important natural problems were under consideration.

Sir Wilfrid replied courteously. "We're all British subjects," he served, "and we enjoy British right of free speech. My friend has availed himself of his opportunity. He will doubtless agree if I claim also freedom of speech."

"I certainly realize that a good deal of what I have heard from various speakers has been commendable, but must find fault with him who talks politics rather than grain growing. I am here to confer, to learn, on the business of the country's well-being, not to debate on party differences."

The grain growers cheered the premier's statement.

So dense was the crowd in the arena at night that hundreds outside were unable to get in, and prior to the opening of the meeting the services of carpenters were requested to tear down the outside of the great frame building, thus securing ventilation and allowing many on the outside to hear.

Sir Wilfrid spoke generally on the policy of the government, dealing with the benefit of the British constitution. He welcomed the new comers and outlined the development of the immigration policy.

Hon. Mr. Graham referred to the best government owned and managed railway in the world in Germany, showing that it charged sufficient rates to pay government interest on the money invested and profit of 6 per cent. above that. It gave cheap passenger rates, but high freight rates, much higher than those in Canada.

COMMITTEE WAITS ON MINISTER OF MINES

Hon. Mr. Templeman Will Bring Matters Referred to Him Before His Colleagues

The committee appointed by the board of trade council waited upon Hon. William Templeman yesterday afternoon and asked him to place before the Dominion government the matter of improving the Stewart mail service, the extension of the time during which foreign-owned automobiles may remain in Canada without registration and the connection of the local postoffice with the public telephone service.

The deputation was assured by the Minister of Mines that he would lay the matters referred to before his colleagues.

Mr. Templeman will also bring a meeting of the board of trade with Sir Wilfrid Laurier, at which a memorial regarding the Songhees reserve and Seymour Narrows bridge question will be presented to the premier.

Mr. Templeman was asked by the committee to advise the government against the sale of Clover Point rifle range and, in this connection, the minister stated that he thought the federal authorities had no intention of disposing of the property.

FIRES UNDER CONTROL

Nelson, July 30.—Government Agent Teetzel had another busy day Thursday. A new fire was reported by Fire Warden Anderson who wanted assistance. Mr. Teetzel arranged for twenty-five men to leave on a special train which left Nelson for China Creek. Twenty-five men were also sent to Jackson's Sliding where there is a bad fire which has been burning for some time. No reports are to hand from Hall 84-

ing or Winlaw, so it is supposed these fires are under control. From the Arrow Lake reports are that the fires are small and doing no damage. A fire is making great headway on Shaw Creek at the south end of Kootenay Lake.

At an inquest held at Poplar, London, on the body of Ann Brown, aged 92 years, who died suddenly while eating her dinner. It was stated that death was due to heart failure from fright through fear of choking. A small portion of food had become temporarily lodged in her throat.

The July Piano Reduction Sale

At the Montelius Piano House Goes Merrily On.

A deep cut is also made on small instruments, Sheet Music, etc. Following special bargains still open:

TWO PERISH WHEN CANOE CAPSIZES

Mother Witnesses Accident, But is Powerless to Render Any Assistance

(Times Leased Wire.)
Bellingham, Wash., July 30.—While the mother looked on helplessly, only a few yards away, Alma Hildebrand, aged 21, and Irving, aged 13, were drowned last night in Lake Whatcom, near their summer home, just above Revelle Island. Mrs. Leda Gjesdahl, nee Hildebrand, their sister, saved herself from the same fate by clinging to the overturned boat in which all three had been paddling. She was dragged ashore almost exhausted by her mother, Mrs. Martha Hildebrand. The bodies of the victims of the accident have not been recovered. News of the catastrophe reached the city this morning when Mrs. Hildebrand and Mrs. Gjesdahl reached Silver Beach by boat. Both women were hysterical from the terrible shock of the tragedy.

TRAFFIC REGULATIONS.

Vancouver Authorities Will Amend By-law at Request of Police Chief.

Vancouver, July 29.—The need for better traffic regulations in the city was laid before the fire and police committee yesterday by the chief of police, who urged that something be done at once to make it possible for automobilists and other drivers of fast-moving vehicles to obtain some share of the road from the drays and heavy delivery wagons. In response to his request the committee appointed Chairman Whiteside, Chief Chamberlain and City Solicitor Jones to draft amendments to the present traffic by-law, to the effect that all slow-moving vehicles—those going at less than three miles an hour—must keep next the curb, and also that when any rig passes another from behind it must turn to the right.

Aid. Hepburn proposed that the rule of the road should be changed here, so that all rigs turned to the right when meeting, instead of to the left. No action was taken with respect to his suggestion. Complaints were made by the chief of police and several aldermen that the drays, when an auto came up behind them, refused to give it room to pass, and often, too, remained in front of the street cars for minutes at a time. The chief mentioned the subject of pedestrian regulations, pointing out that during the Saturday congestion the walkers on the streets were wandering all over "without any rhyme or reason."

BAND CONCERT.

By kind permission of Lieut.-Col. Currie and officers of the Fifth Regiment, the band will play the following music at Beacon Hill on Sunday afternoon at 3 o'clock: Grand March—Moujicks. Ronelle Overture—Morning, Noon and Night. Suppe Angela's Serenade (for cornet and trombone). Braga Selection—Extravaganza. Deanne Valse—Amoretten Tance. Gungl Piccolo Solo—Deep Blue Sea. Brewer Muselman Boy. (a) Traumerl (Reverie). Schumann (b) Fiasceto from Mignon. Thomas Grand Selection—Ernani. Verdi Gavotte—Among the Lillies. Frey March—Pride of the Regiment. Meyers God Save the King.

Corporation of the City of Victoria.

NOTICE is hereby given that on Wednesday, the 3rd day of August, 1910, at the City Pound, Chambers Street, at the hour of 12 o'clock noon, I shall sell by Public Auction the following animal, viz.: Aged Chestnut Horse, Leather Halter, unless the said animal is redeemed and the pound charges paid at, or before, the time of sale. W. H. CRAIG, Pound Keeper. Victoria, B. C., July 29, 1910.

TEN MEMBERS FOR PROVINCE

(Continued from page 1.)

"However, I am sure this visit will be of a great deal of benefit to our Liberal organization. Vancouver is not Conservative and Victoria certainly is not Conservative either. (Hear, hear.) Both went Conservative at the last general election, but I do not believe that there is a majority of Conservatives in either city. Our defeat was due to many causes, due to the unfair and dastardly attacks of the Conservative party; it is due to misrepresentation and fraud of all kinds that we have not a Liberal representative from Victoria to-day. Our great need is organization. If Liberals all unite for the common cause we can elect a Liberal representative in Victoria. I am quite sure. (Hear, hear.) It does not matter what British Columbia may do at the next election; Canada is going to return the Liberal government once more. If there were to be an election to-morrow or any time this year Sir Wilfrid and the Liberal government would be re-elected with as large a majority as at present, if not larger. Every indication from the Atlantic to this province points that way. The happy condition is due to the strength and popularity of the premier and his government and to the confidence which that policy has engendered. It is due also, in a measure, to the bickerings and lack of unity in the Conservative party. Indeed, it is a fact that the leader of that party has not been elected in parliament, and far less that of the Conservatives in the country. We have the strange sight of the nominal leader of the party in Quebec joining forces with Mr. Bourassa, a discredited Liberal, and opposing his own party as much as he does the government.

"Down in all the provinces to the east and in the prairie provinces, except Manitoba—causes prevailing there being much the same as in B. C.—I know that the premier is as strong in the confidence of the people as ever before, while the Conservatives fear an election. Their newspapers hint that probably Sir Wilfrid's tour will be followed by an election. The day before yesterday Mr. Borden asked the premier if it was true that there was to be a general election within the year. He feared it. The premier told him jokingly that he did not think so, but that it would be well to be ready in any event. Since I came out here I have been asked the same question. Why do they fear an election? Because they know they would be beaten badly as ever before, and not unlikely very much worse.

"But there is not going to be a general election. Such a thing has never been in the minds of the Premier or his colleagues. There should be a census and redistribution and a proper increase of representation from the west before a Liberal government would be justified in dissolving Parliament. In order to get an idea of what the representation of this province would likely be, I had an estimate made by Mr. Blue, the officer who will be in charge of the census. He estimates that the population in 1911 will be sufficient to warrant the election of ten members to the House of Commons. The Liberal government would be justified in dissolving Parliament. In order to get an idea of what the representation of this province would likely be, I had an estimate made by Mr. Blue, the officer who will be in charge of the census. He estimates that the population in 1911 will be sufficient to warrant the election of ten members to the House of Commons.

Before the captain had looked at his passengers' hats he had watched them closely, standing on the upper deck. The boy squeezed his father's hand affectionately and this did not seem natural to the knowing sea dog. Captain Kendall did not say anything of his suspicions at first to anyone, but later took the first mate into his confidence. He immediately came to the same conclusion as the captain. The mere fact that the woman is travelling in boy's clothing makes both officers believe that the Robinsons are in reality Dr. Crippen and Mile. Leneve. Dr. Crippen carries a revolver and is growing a beard. The only people on the vessel who know of the true state of affairs are the captain, mate and wireless operator.

There is a great Liberal sentiment in the air in B. C., as in all other provinces. Party lines are not as distinctly drawn with us as they are in the east. There is a great middle class of voters between the Liberals and the Conservatives, and to these we must appeal for support. In view of the record of the government there can be no doubt of our securing the support of this class if we put before our organization.

"I may say that I have represented Victoria and done as much to advance its interests as if Victoria had elected me. (Hear, hear.) I have done as much work for the city as when I was its representative. I am going to continue that to the end of the chapter. (Applause.) All my interests are here and my home is going to remain here. I am going to stay for the Liberal party because with the organization we have, and I am going in the future, as in the past, to help you in your organization and in the next election, so that we shall have installed in office for another five years thereafter that great Canadian, Sir Wilfrid Laurier." (Applause.)

IMPERIAL QUESTIONS.

(Special to the Times.)
London, July 30.—A bluebook just published contains correspondence since the imperial conference was held in 1907. It shows that the home office advocated the discussion of measures for preventing the arrival in Great Britain of undesirable expelled from the Dominions. Between 1907 and 1909 113 aliens were deported from Canada, whereof 44 were sent back from Great Britain to the country of their origin. In reference to the imperial conference, it is pointed out that Canada and New Zealand expressed no opinion as to its establishment but Alfred Deakin, who was at the time premier of Australia, declared that the secretariat idea and that approach the Australian idea and that it did not agree with a compromise. Australia, however, accepted the idea in three particulars. In reference to the All-Red route, the Blue Book states that it has been found impracticable so far to proceed.

CRIPPEN APPEARS TERROR-STRICKEN

CAPTAIN OF MONTROSE SENDS ANOTHER MESSAGE

Police Will Board Liner From Pilot Boat Off Father Point

(Times Leased Wire.)
On board steamer Montrose, July 30.—Capt. Kendall sent the following message this morning: Suspect did not sleep last night. Haggard this morning and appears terror-stricken. Mile. Leneve does not appear to be worrying, and spent all yesterday reading on deck.

Police Plans.
Father Point, July 30.—The steamer Montrose is due here on Sunday afternoon.

Inspector Dow has refused La Voie boarding house and sent to talk with reporters.

Correspondents wired to the Canadian government about being barred from the tug Eureka, which will go out to meet the Montrose.

Inspector Dow makes the arrest a personal matter, as Crippen assured him when questioned about his wife that he would not leave London.

Under pressure Inspector Dow later ruled that reporters might go on board the tug Eureka provided they remained below decks until after the arrest is made.

At noon the Montrose was off Heath Point, Anticosti Island. The vessel cannot arrive at Montreal before noon to-morrow.

Captain's Statement.
Fame Point, July 30.—Some additional details regarding Dr. Crippen and Mile. Leneve on board the steamer Montrose have been received here by wireless.

Captain Kendall first became suspicious of the Robinson pair while they were at lunch the first day out. Their hats were hanging outside the dining saloon and the captain examined them. He found that the boy's was several sizes too large and the band stuffed with paper to make it fit properly. Later on in the day he saw young Robinson in his shirt sleeves, his coat and waistcoat off. He noticed immediately that his trousers hung in a peculiar manner and that they were held up at the waist with safety pins.

Captain Kendall says he did not place the pair under arrest because he was absolutely certain that they had no idea that he suspected them and he knew that if he left them alone and tried to ingratiate himself with them he would probably get information which would be invaluable later on.

Before the captain had looked at his passengers' hats he had watched them closely, standing on the upper deck. The boy squeezed his father's hand affectionately and this did not seem natural to the knowing sea dog. Captain Kendall did not say anything of his suspicions at first to anyone, but later took the first mate into his confidence. He immediately came to the same conclusion as the captain.

The mere fact that the woman is travelling in boy's clothing makes both officers believe that the Robinsons are in reality Dr. Crippen and Mile. Leneve. Dr. Crippen carries a revolver and is growing a beard. The only people on the vessel who know of the true state of affairs are the captain, mate and wireless operator.

IMPROVEMENTS AT LUCKY JIM MINE

New Buildings Are to Be Erected at Scene of the Recent Fatality

Nelson, July 29.—"The loss of property at the Lucky Jim mine from the recent fire was comparatively unimportant," said Mr. Becker. "Nearly all that was destroyed at the Lucky Jim would have been replaced in the near future in any event. It consisted of the old buildings erected by the former owner when driving the upper tunnels.

"We had decided some time ago that it would be better to take out the ore by driving tunnels into the side of the mountain at much lower levels, nearer the railway grade. At the time of the fire we were engaged on the construction of a tramway to these levels. About the only real loss of property suffered was the timber for the construction of some of the ore bins for the new tramway.

"In addition to tunnel No. 5 we shall proceed at once with tunnel No. 6. The fire did a good deal of damage to the Great Northern line but we shall not wait either for the railway or assistance from any other quarter to get started again. A large force of men will be put to work at once on the road from Three Forks to Bear lake to bring in supplies and material for the camp and the new tramway. Within a week or ten days we should have fifty men at work on the road."

THE CALHOUN CASE.

San Francisco, Cal., July 30.—Judge Lawler, angry at delays in the Calhoun trial, declares he will say what he thinks when the case comes up on Monday about the absence of James Gallagher who is badly needed as a witness. Gallagher is living quietly at North Vancouver.

TAKE STEPS TO SECURE SEWERS

ESQUIMALT RESIDENTS APPOINT COMMITTEE

Municipalization of District is Strongly Advocated—Will Be Considered.

What appears to be a definite step toward the installation of a sewerage scheme throughout Esquimalt district and the ultimate incorporation of that place, was taken at a largely attended and enthusiastic meeting of residents held in the Lampson street school last evening, when a committee was appointed to gather all available data on these two matters and to report back to a public gathering at which further action will probably be taken.

While the question before the meeting was that of sewerage, the sentiment in favor of municipalization was strongly in evidence and several speakers expressed their belief that the time is ripe for the district to realize its own importance and take its affairs into its own hands.

About ninety residents were present when the meeting was called to order by James Finmore, who was voted to the chair. Upon the suggestion of George Carter a vote was taken on the sense of the meeting and a unanimous expression in favor of sewerage was elicited.

John Bryden said that there were really two questions before the meeting, whether the district was to be sewered under the act passed by the legislature last session, which allowed the work to be done by districts under the supervision of commissioners, or whether Esquimalt should be formed into a municipality.

George Carter urged immediate action in respect to sewerage facilities. "We have a beautiful residential district," he said, "and there is no doubt that Esquimalt will become a very important place if we proceed along the right lines. Water, light, telephones and sewers are the four most necessary adjuncts to the modern community, and sewerage, which means health, is the most important of the four."

He suggested the appointment of a committee to collect data on the subject. E. E. Billinghurst referred to the efforts which had been made to secure sewerage for the district. He had taken Hon. Mr. Taylor, minister of public works, over the ground, and Mr. Taylor had agreed that something should be done. The government had, however, found itself unable to build a sewer and then assess the property owners, as suggested, because it considered this would establish a precedent. Later Mr. Taylor had got Edward Mohun, the department of public works engineer, to make a contour survey of the district and to prepare plans and estimates for the construction of a sewer from Esquimalt village to the sea. This work, the speaker believed, would take over two years to complete and would cost nearly \$300,000.

Mr. Billinghurst suggested that, as the scheme for general sewerage involved such a large expense and as it would bring in no return from the long stretches of unoccupied land it would pass through, the sewerage of Esquimalt should be done by districts. Under the new act the work could be done in this way quite inexpensively. He thought that there would be no difficulty in getting the provincial government to back the bonds of each district if a feasible scheme were taken before it.

Mr. Bryden thought the machinery of the act too cumbersome. He thought it should be interpreted to the people of the district so that they would understand their obligations under it.

Some of the points in the act were explained by R. H. Pooley to the meeting. Replying to a question by Mr. Bryden, he said that it was not necessary to appoint all the officials named in the act. The commissioners entrusted with sewerage work might employ an engineer, collector, clerk and other assistants in the case of a big district. If they wished to, but the wording of the act made this optional.

C. H. Lugin said that when the act was framed it was only drawn up to a few of large districts being dealt with, the attorney-general not being fully acquainted with the needs of the smaller districts. He had attracted Mr. Bowser's attention to this latter matter and the act had then been extended to allow of smaller districts obtaining sewerage under its provision. He did not think the expense of maintaining a lot of officials need be considered, as there was no necessity for permanent officers and the commissioners should not ask for remuneration. There ought to be no difficulty in finding three, or four, or five men who would undertake this work without considering compensation. (Hear, hear.)

Dr. C. J. Fagan, secretary of the provincial board of health, strongly advocated the formation of a municipality. As far as sewerage was concerned, he thought it was imperative that some step be taken at once to provide satisfactory arrangements. It had been suggested that a septic tank should be constructed and that the government be asked to donate land for its construction. He was not speaking as a representative of the government but he felt safe in saying that the government could not establish a precedent of this kind. At the same time, the government was greatly interested in Esquimalt and was anxious that the district be properly sewered.

In his opinion the meeting should not consider sectional sewerage. The people should make sure that they were adopting the right system and the right system to his mind was a full and comprehensive installation. He thought that the estimated cost of sewers in Esquimalt so far made was much too high. The expense of a thorough system would be repaid by frontage tax and the enhanced value of property. He knew of at least a dozen families who wanted to live in Esquimalt but would not do so on account of there being no sewerage and also because complaints were made about the water service. Esquimalt had reached a stage where it could no longer say, "We

are not able to handle our own affairs. The solution of its difficulties lay in municipalization. (Hear, hear.)

John Jardine, M. P. F., thought that sectional sewerage would eventually prove more expensive than general sewerage. The government had gone to considerable expense having Mr. Mohun make surveys and prepare plans, and he thought the estimates were so complete that the cost of sewerage for any section of the whole district could be computed with ease. The committee should examine these plans and it would also be a good thing if the government would allow Mr. Mohun to address a public meeting and give the residents of Esquimalt more light on sewerage matters.

Mr. Jardine expressed himself as favoring sewers through the whole district instead of piece-meal installation. There was no question of the urgent necessity of the improvement. If Esquimalt had a good sewerage system and a water supply over which it had some control it would soon become one of the best residential districts in the province. He did not mean by this statement to reflect on the Esquimalt Waterworks Company but he thought the district should have some control over its water supply. In concluding his remarks Mr. Jardine said, "There is no doubt of our necessity. We should have a sewerage system as soon as we can get one and it should be the best system that the ingenuity of man can devise." (Applause.)

Mr. Bryden—"We must keep one fact before us in dealing with this matter. It won't be long before Victoria will want to take us in."

A Voice—"Then we'll get it in the neck. (Laughter.)"

Following further discussion, in which municipalization was strongly urged by several speakers, it was unanimously agreed to appoint a committee to interview the government regarding the sewerage scheme and collect all available data on this subject and also the possibilities of municipalization. John Jardine was chosen chairman of the committee, the other members, and the districts they represent, being: George Carter, Esquimalt town district; A. B. Ellis, Beaumont district; E. E. Billinghurst, Head Street district; F. Guest, Fraser Street and George district. The committee will hold its first meeting on Monday next and, upon completing its labors, will call a public meeting to make its report.

Before the adjournment of the meeting a vote of thanks was passed to the chairman, Mr. Finmore, and the secretary, A. R. Wolfenden, who will act as secretary to the committee.

We Want You to Be Sure and See Our Ad. To-morrow.

Campbell

We Want You to Be Sure and See Our Ad. To-morrow.

YES, we agree with you, it is very unusual for us not to give a few prices in our Saturday Ad., but the reason is that we last night decided to make this a "clean sweep day" and to find space to give you details is next to impossible; we merely state that we have gone through every department and marked prices down to lower than sale values in order to effect a prompt clearing before the Sun sets to-night. If you cannot come down yourself then send a friend, for in your own interest, you must be represented at "The Fashion Centre" to-day.

VICTORIA MERCHANTS AND NORTHERN TRADE.

Critics and fault-finders, like the poof, we shall have always with us. The circumstances of Victoria are so unique that the poor are but little in evidence, but the individual who knows all about the conduct of his neighbor's business is to be met upon every street corner. It has been so from the beginning, and it will be until the end of the chapter. The charge that the business men of Victoria are sleepy and slow to take advantage of their opportunities is not new. It has been often laid at the doors of our leading commercial houses. Possibly there may have been a time in the history of the city when there was an atom of truth in it. But, be that as it may, the charge is no longer valid.

The very latest allegation is that much of the business of the rapidly developing northern country is being lost to the wholesale houses of Victoria because they have no representatives on the ground. The burden of the complaint of the "allegator" was laid at the door of the Colonist, but we hesitated to give the tale publicity until the facts had been substantiated. We could not credit the statement that not one of the leading commercial houses of Victoria was sufficiently alive to the increasing opportunities in Stewart and Prince Rupert and the regions tributary thereto to maintain suitable connections in these growing cities. Now we are informed on the very best of authority that every important establishment in this city maintains its agents in the places mentioned, that their travellers are continuously on the "road," and that so far from losing ground in a business sense, our houses are more than maintaining their position in the face of keen competition from other points. The charges were no doubt made in good faith, although obviously based upon either lack of information or misinformation. The assurances given the Times will have the effect of removing any apprehension that has been created.

"PEACE HATH HER VICTORIES."

If our boasted civilization of the twentieth century is not principally venerable, why is it that the chief topic of discussion on the public platform and in the press is war? The politicians of Great Britain profess to be deeply concerned about the ulterior designs of Germany. Sinister motives are attributed to every movement for the improvement of the German army and the augmentation of the German fleet. The people of the United States profess to observe within the Teutonic mind thoughts which portend hatred of the Monroe doctrine and a determined purpose to test the validity of that unwritten law as a bulwark raised for the maintenance of the integrity of the American continent against European aggression. The fact is pointed out that Germany has no colonies in the sense of the term in which colonial possessions are understood by people of Anglo-Saxon lineage. There is no spot specially set apart on the face of the globe to which Germans can emigrate and remain subjects of the Kaiser. Most of them go to the United States and become American citizens or cross to Canada and become subjects of King George. Hence Teutonic statesmen have their eyes fixed upon Brazil or some other South American republic and will not be satisfied until the Latin races of the coveted territory acknowledge the Kaiser as their anointed king and ruler. The British view is that the ultimate object of the new German navy is the annihilation of the British fleet; the United States view is that the ambition of Germany must lead to a great battle upon the Atlantic for supremacy upon this continent. In support of this latter theory the fact is pointed out that already the fleet of Germany is much more powerful than the navy of the United States and that the impending blow may be struck whenever the time seems opportune.

This state of alarm is not peculiar to the relations of Germany with Great Britain and the United States. Scarcely a nation of standing in the world but fancies it has good reason to watch with jealousy and misgiving the designs of its neighbor. Great armies

are maintained and powerful fleets constructed in anticipation of trouble and strife. It is true there is at the present time an international peace tribunal sitting at The Hague adjudicating upon matters which not so very long ago might only have been settled by an appeal to the sword; yet war is still glorified, and few of our great orators, with possibly one notable exception, ever think of saying a word respecting the brighter glories and nobler achievements of peace.

For close upon a hundred years there has been peace between the two greatest of the nations, Great Britain and the United States. A movement has been inaugurated for a fitting celebration of the centenary of the signature of the Treaty of Ghent in the year 1814. This movement is international in its scope. Many of the leading men of both countries have identified themselves with it. President Taft has publicly endorsed the project. It is proposed not only to hold pageants illustrative of some of the striking incidents which have occurred during the hundred years of peace, but that a public monument, to which both the United States and Canada will contribute, shall be erected at some point on the international boundary line. Hon. Mackenzie King has suggested a bridge of imposing proportions spanning the Niagara River as a most appropriate material exemplification of the spirit of the times. Such a structure would fittingly typify the unity of the people of the two countries in all works making for the benefit of humankind.

Professor J. M. Larned of the Buffalo Peace Society, in connection with the historic event, has a more far-reaching proposal to advance. He suggests that Great Britain and the United States make 1915 the date of the signing of a treaty of unlimited arbitration. This would mean the elimination from the category of war of disputes affecting national honor, vital interests and independence.

It looks like a race between the Dominion and the C. P. R. as to which shall be the greater revenue producer. The country is at present about one lap in the lead.

London Advertiser: Hon. George Graham and Hon. Walter Scott played in a baseball match at Melville, Sask., Thursday. From force of habit, they batted the enemy all over the lot.

A writer in the Melbourne Argus compares the car system of Victoria, B. C., favorably with that of the capital of Victoria, Australia. This city and Honolulu are held up as object lessons, yet the citizens here fancy there is room for improvement.

If the harvest on the prairies is not quite as satisfactory as might have been wished, the harvest of the sea on this coast and of the orchards of British Columbia is extremely satisfactory. With fishermen and fruit growers making records, the mines turning out well, and the lumber mills working full blast, there should be good times in this province.

F. D. Monk, M. P., says an eastern contemporary, has definitely thrown in his lot with Henri Bourassa in opposition to the naval policies of both political parties in Canada. After his course in Parliament he could do nothing else, but it seems a pity that so generally broad-minded a man as the member for Jacques Cartier should take so narrow-minded a view of a national duty.

The throng which assembled at Saskatoon to hear Sir Wilfrid Laurier was so great that no building could be found to accommodate it. But where there is a determined will a way can always be found. In this case the way lay in pulling the sides off the building. The task was speedily accomplished, and the intellectual hunger of the multitude was satisfied. As Saskatoon is a new town and none of the public structures are of a permanent character, no material harm was done by this act of justifiable incendiarism.

We understand that the merchants of Victoria have only suffered under one handicap in their business connections with the new north. That is lack of steamboat accommodation. The C. P. R. steamer Princess May has hitherto been operated in such a way as to place our commercial houses at a disadvantage. But now that the G. T. P. steamers are in the field and are operated on a fixed schedule, doubtless that disadvantage will be overcome.

KING'S CORONATION.

(Special to the Times.)
London, July 29.—A deputation saw Premier Asquith yesterday in reference to the scheme of inviting representatives from Dominions overseas over to the coronation. They urged the government's co-operation. Premier Asquith suggested that the matter should be left to both houses of parliament. It is probable members will be guests of the Lords and Commons.

EXPLOSION KILLS TWO.

Seattle, Wash., July 29.—Two men were killed and seven injured, one fatally, when a boiler blew up this afternoon at the plant of the Chippewa Lumber & Shingle Mill Company at Lake Ballinger, north of this city.

GOES TO BRUSSELS.

(Special to the Times.)
London, July 29.—Hon. W. S. Fielding, Canadian minister of finance, has gone to Brussels.

Spencer's Great House Furnishing Sale Commences Monday, Aug. 1

This sale involves the different sections of the House furnishing department, on the third and fourth floors, including all furniture and carpets and Linoleums, also the staple department, the crockery and Kitchenware departments. The provincial executive has decided to grant a short term loan of \$50,000 to the city of Prince Rupert to enable it to finance the establishment of a municipal electric light system. The loan will be repayable this fall.

The choir of the Metropolitan Methodist church are holding their annual picnic on Monday at White Lady rock, near the lagoon at Esquimalt. All members are cordially invited. Luncheon will be served at 11 o'clock in the morning and in the afternoon from Esquimalt at 2:30 and 4 o'clock.

As O. M. Reddin, of the Canadian General Electric Company of Vancouver, was going over on the steamer Charmer last Friday evening, a thief stole all his clothes and belongings with the exception of his watch, which was under his pillow, and his boots which were under the berth. He had left his window wide open in order to get plenty of fresh air, and supposes that the thief must have got in that way. He estimates his loss in money and clothes at not less than \$100. In the morning he was compelled to borrow a suit of clothes from the steward to wear till he could reach home.

Two permits have been issued for the erection of new houses in the Oak Bay municipality. One of these was to W. J. Palmer for an eight-room, storey-and-a-half dwelling on Monterey avenue south, at a cost of \$2500, and the other to H. D. Tilley, for a two-storey, eight-roomed house in Gonzales park, at a cost of \$2,785.

Advice received from Honolulu chronicle the death on July 2 at his home in Waikiki, of Alexander Young, a noted Hawaiian, who had many friends and acquaintances in British Columbia. He was 78 years of age, and was a native of Scotland. In 1849 he brought a shipment of machinery from the old land to Vancouver Island for a sawmill at Alberni, and in 1865 he went to Honolulu where he engaged in the machine business. He had large sugar interests, and owned three of the large hotels of the island. In 1899 he was chosen as a member of the Dole Hawaiian cabinet, holding the portfolio of minister of the interior. He was the last person to hold that office.

STREETS COMMITTEE

SUPPORTS INSPECTORS

Complaint of Contractors for Cement Sidewalks Ventilated Last Evening

J. Stedham, manager of the Pacific Coast Construction Company, forwarded a letter to the streets committee last evening complaining of incompetency of inspectors who had been appointed by the city to supervise the work of cement sidewalk construction.

Ald. Fullerton moved that the matter be referred to the city engineer and the chairman of the committee, with power to act.

City Engineer Smith made light of the complaint. The company had not been unjustly dealt with. There was really no point in dispute to be settled. If the company had any specific complaints to make he would be glad to hear them. In his opinion the contractors were as much to blame as the inspectors for any trouble that had occurred. Mr. Winkle, one of the inspectors complained of, was, in his opinion, a good man.

Ald. Sargison expressed the opinion that it would be well to keep a watchful eye on the contractors.

Replying to Ald. McKeown, the city engineer reiterated the opinion that Mr. Winkle was a good, capable man. Ald. McKeown hoped the engineer was not mistaken. He had heard many stories around the streets as to his alleged incompetence.

Ald. Ross thought it a mistake to employ any but practical men as inspectors. It would take a mason to understand cement work.

Mayor Morley remarked that it was seldom that contractors were found kicking at inspectors who let them do as they like. In this case the city had inspectors who would not let them do that.

Ald. Sargison remarked that his understanding of the matter was that the assistant engineer, Mr. Bryson, personally inspected the work each day. Ald. Raymond was not altogether satisfied that the inspectors were competent men. It seemed from what he could gather that there was some influence at work to hamper the Pacific Coast Construction Company in their contracts with the city. He had been told that the inspector had refused to allow the work on a certain section to be continued after 5 o'clock, though this action resulted in considerable loss to the contractors.

Ald. Ross warned the members of the board that the first thing they knew the contract would be broken and the company would be suing the city for damages.

Finally, the matter was left in the hands of the city engineer and the chairman of the committee to report.

PANTAGES' WILD WEST.
"Buffalo Bill" wild and woolly and full of fun, and "Whose Baby Are You?" also constructed for the purpose of creating laughter, both musical comedy productions of high-class calibre as to their chorus presentations, will constitute the double programme at Pantages next week with which the Lewis and Lake company will endeavor to break all previous records for attendance.

"Buffalo Bill" is of course a burlesque on the so-called wild west shows, and its rapid action, ludicrous situations, crazy lines, pony ballets, with the chorus girls in regular "cow girl" costumes, and all accompanied by stage sittings and effects necessary to the picture, results in one of the liveliest of modern stage productions. Lewis and Lake have the complete wardrobe for dressing this western comedy, and it is due wholly to this fact that Victoria will be privileged to see "Buffalo Bill," as wild west costumes are not possessed by the average musical comedy company.

"Whose Baby Are You?" is too well known by its laugh-creating reputation to need more than a title mention. It is the one absolutely sure-fire amusement success of one out of every ten musical stock organizations, and is so happily constructed that it pleases all classes.

The show at Pantages next week should be by far the best presented during the Lewis and Lake engagement up to date.

Eugenie Bronska's Voice

CLOVERDALE MEET WARDS ON MONDAY

City Lacrosse League Series For Claxton Cup Will Be Continued at Royal Park

Monday evening the city league series will be continued with a match between the North Wards and Cloverdale at Royal Park. On the last occasion these teams met a draw was the result after playing an overtime period.

The Wards have improved considerably and are at present on top, but should Cloverdale win Monday the two will be about even. The Cloverdale lads means business, and have been putting in much hard practice.

Last evening they had a good workout under the watchful eye of Bill Clark, and to-morrow the team to represent the suburbanites will be chosen from: Clark, Lorimer, Temple, Finlayson, McDonald, Cars, Sweeney (capt.), McInnes, Dempster, Young, Julian, Jesse, McLaughlin, Hancock, Harris, Owens. The North Ward team will be made up of Johnson, F. Sweeney (capt.), Dakers, Noel, Morris, Brynjolfson, Humber, Petticrew, Sargison, Kroeger, Morris, Johnson, McDougall, McDonald.

MILE TRACK ON JAMES ISLAND. PURCHASE OF PROPERTY IS BEING NEGOTIATED. Co-Operative Horse Racing With Pari-Mutuel and Large Breeding Farm Proposed.

Negotiations are pending between Irving H. Wheatcroft, owner of James Island, and a Victoria syndicate of wealthy men, some of whom are connected with the Victoria Country Club.

The object of the promoters is to have a first class breeding establishment and to place horse-racing on the highest level. Under the co-operative plan proposed the members of the two clubs interested believe that the object will be attained and that it can be made to pay.

The plans outlined are to secure the island, build a mile track, and purchase a number of thoroughbreds. The whole proposition will be pooled. The horses purchased will be at the average of two to each member of the company.

The organization will be maintained by the members of the club from the proceeds of the meetings, the sale of young horses, and from receipts from the agricultural products of the island.

The percentage from the Pari-Mutuel machine will go into the club funds, and will probably amount to ten per cent of the money bet. The public will

VICTORIANS WIN IN VANCOUVER TENNIS. Miss Pooley and Schwengers Get Two Victories Each—Macrae and Tyler Win Doubles.

Two wins to Schwengers, two wins to Miss Violet Pooley and one win to F. A. Macrae are the latest results of Victoria tennis players in the Vancouver tournament. Schwengers beat J. L. Burns in the gentlemen's singles 7-5, 8-4, and playing with B. Rhodes in the doubles beat Chrichemay and Farquhar in two sets, 6-1, 6-1.

VANCOUVER SHOTS HAVE EXCUSES READY. Secretary of B. C. R. A. Says They Did All They Could—Has Some Regrets.

The following letter appears in the Vancouver News-Advertiser in answer to the complaints of Victoria and interior riflemen who attended at the recent B. C. R. A. meeting at Richmond range: To the Editor of the News-Advertiser: Sir—Under the above heading an article from your Victoria correspondent appears in to-day's issue referring to the manner in which the recent prize meeting of this association was conducted.

On occasions of this kind there are always some soreheads who derive a certain amount of pleasure from airing their grievances, real or imaginary, and certain others who "kick" on principle just for the fun of kicking, and if the general public were aware of all the circumstances I should not take the trouble to correct the impression the article referred to is intended to create.

Regarding the delay in the arrival of the camp equipment. No one regrets this more than the officials at this end, but no blame can be attached to them, the circumstances being as follows: The matter of requisitioning for tents, blankets, etc., (which have to be obtained from the district stores of the militia department in Victoria) was in the hands of the Victoria officials of the association. Instead of these being sent over a few days beforehand, we received word that they would be shipped on Monday night (18th inst.) and should arrive on the Tuesday morning.

2. In regard to "frubbing." Though we did everything possible, both by private effort and by advertising in the newspapers we to get anybody to cater at the range for those attending the meeting. The nearest available point where provisions could be obtained was Eburne and there we made arrangements for pitching the tents and for meals, etc., to be obtained from the local restaurant, in addition to which we arranged for the mid-day meal to be supplied at the range itself.

3. Fresh water was supplied daily at the range by barrels being shipped out from Vancouver as in former years, this being the only way in which it can be obtained. 4. Display posters were certainly conspicuous by their absence. We never have had them at any of the previous thirty-six annual meetings of the association, and I fail to see any necessity for their exhibition.

5. Chairs for register keepers. There was plenty in the office and if any of the register keepers were without it, it was simply because they did not ask for it. 6. Chairs for the register keepers. The absence of these was due to an oversight, which we regret, the result being that the register keepers had to sit on the back end of the firing platform for the first one and one-half days of the meeting, not a very serious hardship, after all, and one which would have been remedied sooner if the B. C. E. Railway Company could have been induced to ship the chairs out at once. They were ordered as soon as the omission was discovered, but did not arrive until Friday afternoon.

I am, sir, yours, etc. G. A. BOULT, Capt. Hon. Sec. B. C. Rifle Association, Vancouver, July 23, 1910. Lord Roberts, as an accession envoy, will have a good deal of travelling, as he is to visit Berlin, Dresden, St. Petersburg, Constantinople, Sofia, Bucharest and Belgrade. Lord Rosebery, on the other hand, will journey into the Str. William frigate Movement in the Str. William, which will be taken at 8 o'clock.

"LOVE FIFTEEN" ON MONDAY NEXT. TENNIS STARS COME FOR BIG TOURNAMENT. Twenty-Third Provincial Championships Meeting at Victoria Club Courts.

The twenty-third annual tournament for the tennis championships of British Columbia will open on Monday morning at the tennis courts of the Victoria Tennis Club, Cadboro Bay road, and while, with a few exceptions only, the talent will be confined to British Columbia players, it is interesting and important that more than two of the provincial centres will be represented. Kamloops and Duncan are among the centres from which entries have been received by Secretary Lawson of the Victoria Club.

Kamloops this year offers the example to the other inland towns of the province by sending three players, two to play in the gentlemen's events and one in the ladies' events. Temple Cornwall and H. Hepburn will play in all the gentlemen's events, singly in the singles and together in the doubles, while Miss Pearce will play with one of the men visitors in the mixed doubles and will represent the Kamloops country in the ladies' singles.

The two events of greatest importance in the week's play are the gentlemen's championship of British Columbia and the ladies' championship of the province. The former is for the challenge cup, which must be won three years in succession before it becomes the property of any one player. It is at present held by Joe Tyler, the Spokane player. The winner of the event will take the first prize and will then be entitled to play Tyler for the cup. Schwengers, winner of the inland championship this year, intends to go after the honor and retain the cup in the province.

The ladies' singles championship of the province is held by Miss Hazel Hotchkiss, the California tennis champion, but owing to the possibility of her cutting Victoria out and going to Tacoma next week the championship cup will most likely rest in other hands. Miss Hotchkiss may make the trip, arriving here towards the end of the week to protect her honors, but in her absence it will go to the winner of the series.

The rules of the Lawn Tennis Association of England will govern all the matches. The games will be played on grass courts and at least two line-men will be appointed to assist the umpire in every match. The new tennis courts of the Victoria Tennis Club have been completed and recently underwent the approval of a formal opening through the units of which expressed satisfaction and delight at the location, and general improvement over the old Belcher street grounds, where the tournaments were played in the past.

The appointments of the grounds are superior to the old grounds and the new club house is fitted far in advance of the dressing-rooms at Belcher street. The new clubhouse was designed by H. S. Griffith and the tennis club officers, when they came to pay him were delightfully surprised by being informed that his services were free to the club on this occasion.

SWIMMING ENTRIES ARE NOW IN ORDER. Second Series of B. C. Championships to Be Held at the Gorge Next Saturday.

The final series of the B. C. swimming championships to be held at the Gorge Saturday next are now open for entry. What the mainland will send over is at present unknown, but Harn for the 50 and 100 yards with Warr for the 50 yards altered and residents of British Columbia for at least two months. Entries are now open for the following programme of events, and will close on August 4th: 50 yards, senior championship; 100 yards, junior championship; tub race (extra); 250 yards, senior championship; ladies' 100 yards championship; greyish pole (extra); 800 yards, senior championship; upset canoe race (extra); diving senior championship; (a) standing, (b) springboard, (c) two fancy; senior life-saving championship (teams of two), Royal Life Saving Society rules.

First and second prizes given, three to enter or no second prize. In championship events, gold medal for first, silver for second, except in life-saving, when winning team is awarded gold medals and holds Benwell cup one year. Entries, 25 cents for one event, 50 cents for two or more. Life saving, 50c per team. Referee's decision final. Entries to be addressed to A. J. Brace, secretary, B. C. A. S. A., Victoria, B. C. The officials will be: Starter, Ed. Sears; timer, W. J. Shortt; announcer, T. Dalzell; clerk and scorer, A. J. Brace; judges, A. B. Patterson, B. Boggs and Capt. Macintosh; judges for life saving, A. B. Patterson, A. J. Brace and a third to be chosen; referee, Ian St. Clair, president.

TRAVELERS DEFEAT THE FIFTH REGIMENT. Commercial Men Are Now in the Running for Third Place.

The United Commercial Travelers' baseball nine beat the Fifth Regiment nine in the city league last night at Beacon Hill by 10 to 3, and recorded the fourth win for the season for the knights of the grip.

The Travelers are now in line for third position with the Empress, being equal on points, but with one game less played than the hotelmen. Holness, the old-timer, pitched for the Regiment, but the Travelers batted him all over the slope. They had

How much fun you get out of your vacation, will depend on what you take in your kit as well as on what you leave out. The experienced camper knows. He travels light—but he never neglects to take the necessities. Any man, who has ever gone to camp without a razor, has experienced the nagging annoyance of a stubble of beard—the heat, uncleanness, discomfort.

Take a GILLETTE Safety Razor in your vacation kit. You don't have to learn to use it—just take it and shave. You'll want to shave regularly, no matter where you go—to mountains, seashore, summer hotel. Start each day right. Spend three minutes with your GILLETTE and you'll find twice the snap in your morning dip in surf or lake. Have your own GILLETTE. Don't borrow. Be self-reliant. Have done with stropping and honing. The Gillette way is the modern way.

Don't wait until the last minute. Get your GILLETTE NOW. This sign marks the stores handling Gillette Razors and Blades. Standard Sets, \$5.—Pocket Editions, \$5 and \$6. If there is anything we can do, write us. Goodbye and Good Luck. GILLETTE SAFETY RAZOR CO. of Canada, Limited, MONTREAL.

no difficulty in locating the ball at any time. Malcolm, for the soldiers, was absent and Camusa played first base at a disadvantage. The Travelers had Fryberg, of the Victoria club, behind the plate, which helped some, their regular man Gregg being inactivated with a broken finger. Sargison was behind the plate for the defeated team, and Hallett pitched for the winners. The Travelers' next game is against the Prides.

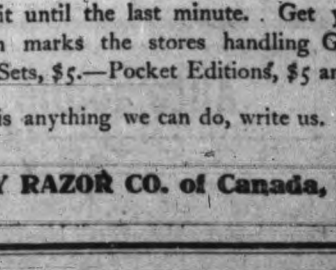

Thirty Foot Freight Carrying Tugboat, Delivered \$1,750. We are now making a very special offer and can deliver immediately a fine 30-foot freight-carrying tug boat, built very substantially of oak throughout, reinforced with 14 h.p. heavy duty 4 cycle motor engine. This is just the boat for heavy work. Will stand all kinds of rough weather. MARINE DEPARTMENT. PHIPPS & STYLES. 1052 Fort St. Phone 2058. GEO. BULKELEY, G. E. Mech. E., Manager. 1052 Fort Street. WILL RESIGN FROM BENCH. Magnolia, Mass., July 29.—Justice Wm. H. Moody, of the Supreme court of the United States, announces his decision to retire from the bench. Justice Moody is convinced that his health makes it impossible for him to resume his duties. A special act enabling him to retire was passed at the last session of congress.

MARINE NOTES

The Butler Freighting Company announce that they have chartered a steamer Grainer to W. J. Balcom for one trip to Prince Rupert and Stewart.

WRIGHTS AND THEIR PROBLEMS

WHAT THEY HAVE DONE TO ADVANCE AVIATION

Interesting Details About the Brothers Who Brought Flying Within Range

Are the brothers Wright eccentric, or are they merely sensible, middle-aged men? Are they sentimentalists or practical people?

When Orville Wright met with a slight mishap on an aerodrome in Virginia recently and found, upon examination of the "Dayton Flyer," that a half-yard of cloth was needed to repair a break, he promptly took the train for his home city...

He could have obtained it some other place, probably in Washington, a few miles from Fort Meyer. Consequently, when Wilbur mysteriously disappeared the following day and members of the Army Corps were searching every nook and corner for him, it developed that he, too, had gone away on a "strange mission."

One blisteringly hot afternoon President Taft, the members of the cabinet, ambassadors, diplomats and statesmen of all degrees were on the ground to witness the flight of the aeroplane. All conditions seemed perfect and the spectators were expectant.

But Orville Wright discovered some defect (imaginary, some of the uncivil critics said) and he failed to make an attempt. To the trained eye, conditions were not "ripe," and Orville did not propose to try his hand at luck—he preferred the scientific end of aviation.

This one incident is said to have done much to influence Congress not to take up the big appropriation which Chief Signal Officer Allen and other members of the Army Corps had confidently hoped would be reached during the special session of Congress.

Refused Invitation to Russia. Wilbur Wright has just received an invitation from Odessa, Russia, to give an exhibition there in October...

Aside from their natural antipathy to giving exhibitions, the Wrights believe they are taking the proper course in outlining their work. One reason they advance is that under no circumstances could they agree to fly on any set occasion for any stipulated sum, be it one thousand or one million dollars.

Want to Prosecute Everybody. Just now the inventors are busy protecting their patents. They declared this week that they would prosecute every individual or corporation manufacturing aeroplanes, as all machines that have left the earth, up to this point, they assert, are an infringement of their flyer, including both the biplane and the monoplane.

Not all sorts of propositions have been received by the Wrights. Imaginary financiers and prospectors have submitted many unique plans, but here is one which the Wright brothers are willing to admit, easily captured the prize. Like others, it seemed with poetry, mixing the classic with the commercial in astounding fashion.

"Dear Mr. Wright—I want you to make for me a big aeroplane that will hold twelve passengers. It is my idea to make a trip to China and return each day. That is, I shall raise the machine you are going to make for me a sufficient distance above the earth and remain practically stationary for twelve hours.

One of the commentators on the French steamer Aniral Dupere, which was at San Francisco a few days ago, was 19,000 pounds of dried cherry stems, value \$1,900, to Havre, France. These are utilized in the manufacture of perfume.

easy; I simply discharge my passengers and take on twelve more. My price for this unique trip will be \$400 per passenger for a round trip. Now Mr. Wright, I will make you a good offer. I will give you \$200. Will you do it?"

SOME ENGLISH RELICS SOLE.

Snuff boxes were the feature of a sale at Christie's, London, of the Schroder collection. The following were the highest prices:

Louis XV., oval gold snuff box, painted by Charlier, 4,900 (C. Wertheimer).

Louis XVI., oval gold snuff box, signed Ve Georges, at Paris, 12,500 (C. Wertheimer).

Louis XV., oval gold snuff box, enamelled, 12,205 (Goldschmidt).

At Sotheby's there was submitted for sale a collection of eleven original documents relating to Eugene Aram's historic case. They included the coroner's inquisition upon the finding of a skeleton on Thistle Hill, Knarborough, in August, 1758, supposed to be that of Daniel Clark, who had disappeared fourteen years previously.

A new captain has been sent from Sydney, N. S. W., to Noumea to take charge of the British ship Dunayre, which put into the latter port on July 18th with Captain Smith sick. The vessel was on a voyage from Columbia river to Melbourne.

TENNIS PLAYERS COMING. Seventeen Leaders From Other Cities Will Play Here. Everett, Tacoma, Duncan, Spokane, Chemainus and Vancouver will have representatives here Monday for the British Columbia tennis championships, which open on the Victoria Club courts. Vancouver sends 11 men and six ladies: Cardinal, Gilliat, Baker, Montgomery, Jukes, B. Rhodes, Merritt, Nichols, Charleston, G. Burns and Napier Smith; Misses Allen, Baker, R. Jukes, Hobson, Mrs. Innes and Mrs. Proctor. Mrs. Green and Mrs. Robertson are extra entries from Duncan, Ray Thompson comes from Tacoma, Percy Gardner from Everett, S. Ryall from Chemainus. C. N. French is another entry from Duncan in addition to Kingston. Secretary J. M. Lawson announces that the entry list complete is the longest the club has had at any tournament.

VICTORIA BOWLING WELL. Held Vancouver Down in First Innings of Game Being Played To-Day. The cricket match between Vancouver and Victoria was commenced this morning on the Jubilee hospital grounds. The home captain won the toss and sent the visitors in to bat. Play commenced at 11.15 and continued until 12.45, at which time the Vancouver eleven were all out for a total of 58 runs, the low scores being due very largely to the excellent bowling of Gallier and York. The scores at the lunch adjournment were: J. F. Morris, b. Gallier, 22; H. Shotton, b. Gallier, 7; F. J. Beers, b. L. York, 7; W. E. Hodges, b. Gallier, 5; W. H. Crossfield, b. York, 4; L. F. Murphy, b. Gallier, 12; W. Snee, b. L. York, 3; E. Winearis, b. Gallier, 6; H. Arthur, b. Gillespie, b. L. York, 4; G. Sharp, s. W. York, b. Gallier, 10; K. Damesborough, not out, 1; Extras, 7. Total, 58. Bowling: Gallier—4 wickets for 34 runs. L. York—4 wickets for 44 runs.

IN POLICE COURT. Frederick McKenzie told Magistrate Jay from the witness box of the police court this morning, where he had been transferred from the dock to give evidence on his own behalf, that he desired to work out his own salvation. If he does not pay the \$10 fine marked against him, he will have ten days to get action in on his salvation project. He was fined for striking a man named O'Neill on the nose on Johnson street yesterday, the result of the blow being that O'Neill was knocked senseless and McKenzie was accommodated with handcuffs by Police Constable Harry H. MacDonald.

LOCAL NEWS. The Victoria Nurses Club will hold their regular monthly meeting on Monday afternoon next at 3 p. m. in the Alexandra Club rooms. At last night's meeting of the Victoria Laborers' Protective Union it was decided that the president, J. C. Waters, should represent the union at the Trades and Labor Congress of Canada, to be held in Fort William.

At last night's meeting of the Victoria Laborers' Protective Union it was decided that the president, J. C. Waters, should represent the union at the Trades and Labor Congress of Canada, to be held in Fort William. There will be a second meeting of the Fenian Band veterans at 634 View street, at 3 p. m. on Monday night, when the proposal to lay the question of land grants before Sir Wilfrid Laurier will be discussed. The deputation from the Vancouver Island Development League which will meet Sir Wilfrid Laurier upon his visit to the city will be J. W. Coburn, of Nanaimo, president of the league; J. J. Shallocross, president of the local branch, and Joshua Kingham, treasurer of the local branch. It is expected that a memorial respecting railroad connection with the mainland will be given to the Premier.

At a meeting of the board of public library commissioners for Victoria, held yesterday afternoon, the office of janitor was filled. There were no less than 102 applicants, though the salary is but \$60 per month. Some of the applications came from Calgary, Vancouver, Ladysmith and other places, but the bulk were from residents of Victoria. James Nightingale was the lucky man. He was formerly caretaker of the Congregational church.

EVASION REGULATIONS. Immigration Department Orders Arrest of Number of Strike Breakers on Grand Trunk. (Special to the Times.) Ottawa, July 30.—The immigration department is hot on the trail of strike breakers. Instructions were wired out last night for the arrest of sixteen of them. They came in at Sarnia on Grand Trunk passes, through to the suspension bridge. An officer of the department detailed to follow the party reported that they got off at Brantford. Instructions accordingly were sent out at once for their arrest on a charge of entering the country and evading immigration regulations under false pretences. The department also ordered last night the arrest of Conductor S. W. Smith. He had been admitted on the understanding that he came in for international traffic. It was reported here that he had left Sarnia in charge of a freight train for Hamilton. This being local traffic, his arrest was ordered.

HIS DOWNFALL PREDICTED. San Sebastian, Spain, July 30.—The recall of the Papan Nuncio and the complete severance of Spain's relations with the vatican to-day created great consternation at the capital. Although dispatches from Madrid are closely censored, news from the capital indicates that the anti-clericals are doing with joy, while the radical clericals are predicting the overthrow of the ministry and the downfall of Alfonso. PORN. CHAMPION—On the 30th inst., the wife of W. Champion, 623 Niagara street, of a son.

Sun's up! You too! Before you dress, get in shape for the day; drink a glass of MAGI THE WATER OF QUALITY.

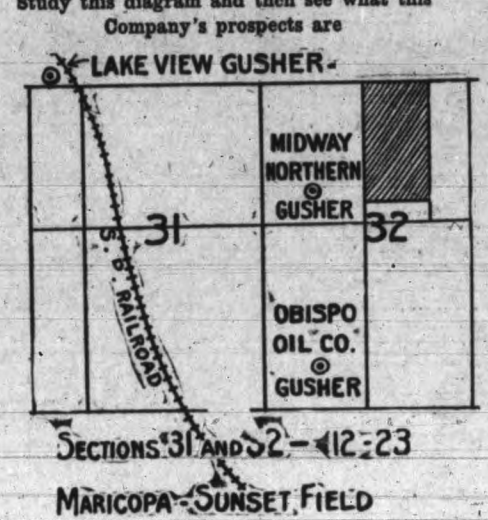

STRIPE OF HONOR. Bravery of Detective Clayards and Constable Smith Rewarded. The police commissioners, at a meeting held yesterday afternoon, conferred extra service stripes upon Sergt. Clayards and Constable Frank H. Smith in recognition of acts of bravery done by them in the course of their duty. Both officers recently, at risk of serious injury to themselves, stopped runaway teams on the street. The stripes, besides being a badge of honor, carries with it an increase of pay. The commissioners ordered letters to be sent to Sergt. Clayards and Constable Smith expressing appreciation of the commissioners at the work of the two men.

At last night's meeting of the Victoria Laborers' Protective Union it was decided that the president, J. C. Waters, should represent the union at the Trades and Labor Congress of Canada, to be held in Fort William. There will be a second meeting of the Fenian Band veterans at 634 View street, at 3 p. m. on Monday night, when the proposal to lay the question of land grants before Sir Wilfrid Laurier will be discussed. Handsome Belt Buckles

There is hardly a Lady or Miss who does not admire dainty, pretty, and above all, exclusive Belt Buckles. We are at present showing a splendid stock which we purchased direct from New York.

Prices Range From \$2 to \$4.50

Special attention is drawn to the fact that these Buckles, both in design and finish, are positively exclusive with us. The designs are plain and fancy, and the various finishes are extremely new. Some are set with miscellaneous stones.

Good Furniture

SEASONED woods, proper machinery and skilled labor are the prime factors in the making of GOOD furniture. There's a host of factories making furniture of a sort—a lot who "throw together" furniture for special sales and to supply a demand for the cheap lines. We know the factories from which we draw our furniture—they are houses that have proved their goods to be of a quality to satisfy a trade that demands the best. We don't buy "job lots," nor buy from factories that build for the "sales" trade. We have maintained this standard for years, and the result is that Weiler Quality is known as the Best. Try this store with a sample order.

Have You Seen These New Cribs?

Some Are "Classy" Styles for the Kiddies—Just Received
If you haven't seen those recent additions in cribs, you should take the first convenient opportunity of visiting our fourth floor and have a look at them. They are interesting because of their stylish design, their superior finish, their special features and easy prices. The upright rods are so close together that baby cannot crawl out, climb out or fall out. Put him in one of these and he is just as safe as if you were constantly watching over him. Why not try one for your little tot? See them anyway, for that costs nothing. We illustrate a few styles here.

WOODEN CRIB, PRICED AT \$3.50 Exactly as illustration above. This is an ideal crib for one looking for a small size. Made of wood, finished natural. Complete with spring for \$3.50
WOODEN CRIB, PRICED AT \$7.00 Exactly as illustration above. This is a Mission style crib. Wooden frame, finished in white enamel. Neat and stylish design. Complete with springs for \$7.00
WOODEN CRIB, PRICED AT \$7.00 Exactly as illustration above. This is another wooden style, finished in white enamel. Has drop side, and is offered complete with splendid spring at \$7.00

IRON BED, \$3.50 Same as illustration above. Here's an ideal metal bed for the summer cottage or for anyone looking for a little-priced bed. Made of best materials and finished in white enamel. A large purchase enables us to mark these full-sized beds at \$3.50
WOODEN CRIB, PRICED AT \$7.50 A Mission-designed crib. Wood frame, finished in golden oak finish. Complete with springs. Drop side. Priced at \$7.50 In white enamel at \$8.50

Some Interesting New Ladies' Desks

Three Stylish New Ones To-day
Three real stylish ladies' desks have just been placed in stock on the third floor. Well made and finely finished and of superior design—they are worthy of a visit of inspection from anyone interested.
LADY'S DESK—In oak, Early English finish. Has one drawer and a shelf beneath. Desk proper is conveniently arranged. Neat and attractive design. Priced at \$12.00
LADY'S DESK—An oak desk, finely finished in the golden finish. Has one drawer. Top conveniently arranged for the storage of papers and writing materials. Priced at \$15.00
LADY'S DESK—Another Mission design in Early English finished oak. A very attractive design. Has 2 full length drawers with a shelf beneath. Priced at \$20.00
We have many other very interesting styles in the several popular woods and finishes, and shall be pleased to show you the display at your convenience.

EXTRACT FROM "BRITISH MEDICAL JOURNAL" March 23, 1910.
"A Most Valuable Food"
At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.
The BUTTER-SCOTCH which Messrs. Callard & Bower (Duke's Road, Finsbury Road, W. C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, so palatable, in fact, that children are more likely to need restraining from excess than any persuading to take it. This BUTTER-SCOTCH is stated to contain 11.7 per cent. of fat and 73.3 per cent. of sugar, and the results of an analysis which we have made recently of a specimen further chemical examination of the fat extracted showed it to be genuine butter fat. This confection can therefore be recommended not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases. In all the principal candy stores in Victoria.
To scallop a sheet, fold the goods back and make the scallops over the doubled portion. It will then be much firmer and will last longer than if made in the ordinary manner.
Last Chance To-night In which you can get a \$20 Suit Made to Order for \$15.00 Come in to-night and see our materials. Fit guaranteed. Charlie Hope & Co. 1434 Government St.
OTHER DENOMINATIONS. Christian Science church, 555 Pandora avenue. Services every Sunday evening at 7.30. All interested in the new theology or in sympathy with any liberal Christian faith will find here congenial associations. A cordial invitation extended to all. The subject of to-morrow evening's discourse will be "Liberal Religion and Liberal Men." The speaker will be Rev. Rabbi Montague N. A. Cohen, Reformed Jewish Temple, Butte, Montana, formerly of the Jewish synagogue in this city. Mrs. Tompkins will sing.
Society of Friends, Broad street hall, 135 Broad street. Meeting for worship, 11 a. m. All are welcome.
Spiritualism, 724 Calcedonia avenue. R. H. Kneeshaw lectures at 8 p. m., subject, "The Soul of Things." All are welcome to those meetings.
Salvation Army, Citadel, Broad street. Services: 7 a. m., knee drill; 11 a. m., holiness meeting; 2 p. m., Sunday school; 3 p. m., praise meeting; 7.30 p. m., salvation meeting. The week-end meetings will be conducted by Capt. Koudoun, assisted by the local corps. All are invited.
New Thought, Sir William Wallace hall, Broad street. Mrs. Clara Bewick Colby, Ph. B., Wisconsin University, will address service at 11 o'clock; subject of sermon, "God's Angel Meeting Us on the Way." Evening service at 7.30 o'clock; subject, "Memories." Sunday school at 10 o'clock. The congregational meeting has been postponed from Monday to Wednesday of this week at 8 o'clock in the evening. Welcome to all services. Rev. Geo. Wanning, pastor. Rev. Wm. C. Drabn, mission secretary.

Recommendations

At Mr. Nicholson's, Saanichton, We are installing a Hot Air Plant
At Capt. Margison's, South Saanichton, we are installing a lighting plant (The Sicke Gas Machine).
At Mr. Schwabe's, Duncan, we are also installing a lighting plant (The Sicke Gas Machine).
The Sicke Gas Machine Has No Equal.

Among City Churches

CONGREGATIONAL.

First Church.

Girl Guides.—Last Thursday evening a large number of those interested in starting a companion organization to the Boy Scouts, met in the Congregational schoolroom under the presidency of the pastor, Rev. H. A. Carson, and discussed the matter of forming a party of Girl Guides for the city. Lieut.-Col. Hall explained at some length the benefits of the Boy Scout movement and urged that something might be done along similar lines for the girls. J. E. Andrews, S. Houghes, J. Wheeler and Sergeant-Major Stockie gave short addresses in which they commended the movement to the audience. Upon the matter being thrown open for discussion a number of ladies spoke heartily in favor and volunteered their services for the new organization. It was decided to organize and Mrs. H. M. Hillis was appointed leader with Miss Brak and Mrs. Caston as assistants. The object of the Girl Guide organization is to direct the energies of the girls along right channels and to help them to become useful citizens. Major Stockie offered to give the girls gymnastic drill, walking and breathing exercises and in general to have oversight of the athletic part of the work. The aim of the organization is to help the girls to live useful lives and an important part of the work will be training in first aid to the injured. The organization promises to arouse much interest among the growing girls and should prove of great benefit.

Bible Class on the Green.—The members of the Men's and Ladies' Adult Bible classes will meet at 2.45 p. m. tomorrow at the Burns' monument in Esplanade Hill park, and will proceed to some quiet nook where the regular sessions of the classes may be held. Visitors will be cordially welcome to this unique meeting of the classes and the

study of the Bible lesson will be none the least interesting because of the novel place in which the session is held.

Trolley Party.—The Ladies' Aid Society are arranging for a trolley party to be given on Tuesday evening, August 9th. The "Observation Car" will be used and a merry and happy time is expected.

Garden Party.—On Monday next a garden party will be given on the lawn at the home of Mrs. Roberts, 29 Menzies street (kindly loaned for the occasion). The proceedings will commence at 1 p. m., when afternoon tea will be served. In the evening a concert will be given and refreshments will be served. The proceeds are in aid of the donation which the Young People's Society have promised to make towards the expenses of the forthcoming Christian Endeavor convention. It is hoped that the friends will patronize this gathering and thus help the young people in their good work.

Communion Service.—The committee of management remind the congregation that the Sacrament service will be held next Sunday evening instead of Sunday week. This service is called for the week early in order to allow an exchange of pulpits between pastor Carson and the Rev. Lester B. West on August 7th.

REFORMED EPISCOPAL.

Church of Our Lord.

Sunday Services.—Rev. T. W. Gladstone will preach to-morrow both morning and evening. In the morning his subject will be "The Parable of the Mustard Seed," and in the evening, "Hypocrisy."

METHODIST.

Metropolitan.

Song Service.—There was a very large

congregation last Sunday evening for the song service given by the choir. An organ recital was given by Edward Parsons, commencing at 7 p. m., and a very large part of the congregation gathered for that part of the service. The anthems were all rendered in the finished style for which the choir is noted, and the service was conducive to the act of worship from beginning to end. Solos were sung by Mrs. Parsons and Miss Cocker, both of whom are regular members of the choir, and a new voice was heard when Alfred A. Codd, late of Winnipeg, sang, "Thou Art Passing Hence, My Brother." Mr. Codd possesses a bass voice of great quality and his rendering of the sacred song gave much pleasure.

Temperance Rally.—The Epworth League are to be congratulated upon the success attending their temperance rally held last Monday evening. The committee in charge invited the members of the other young people's societies in the city to attend and a large number responded. Dr. Ernest Hall presided and addresses were given by Mrs. Spofford and Rev. Dr. Spencer, superintendent of the Local Option League of British Columbia. There was a short musical programme and the meeting was a pronounced success. On Monday next the league will hold its monthly consecration meeting and will then adjourn until after the meeting of the general conference.

Choir Picnic.—On Monday evening next the annual picnic of the choir will be held. The party will proceed to White Lake, Esquimalt, where the refreshments will be served and the summer evening enjoyed. The affair promises to be a very pleasant one.

To-morrow's Services.—The pastor, Rev. T. E. Holling, will conduct both services to-morrow. In the morning his subject will be "A Double Portion of Elijah's Spirit," and in the evening "Elijah Fighting for the Rights of the People."

Centennial.

Sunday Services.—Rev. Wm. Elliott, B.A., at present supplying the pulpit of James Bay church, will preach in Centennial church to-morrow morning, and Mr. G. V. Fallis will occupy the pulpit at night. The pastor, Rev. A. Henderson, is concluding his holiday and is spending the week end in Vancouver.

Bible Class Picnic.—The annual picnic of the Ladies' Bible class was held last Wednesday evening at Esquimalt, and the ladies invited the members of the other Bible classes to join them in the happy event. Some 75 sat down to the feast of good things prepared and a most enjoyable evening was spent.

Victoria West.

Sunday Services.—The song service commencing at 7.15 p. m., given by the choir, is proving a very attractive feature of the Sunday service and the music is most heartily enjoyed by all.

In spite of the summer weather and the attractiveness of the outdoor season the congregation continue to keep up to the high average and the change from 7 to 7.30 p. m. for the evening service is greatly appreciated.

Sunday School Daily.

In connection with the forthcoming meeting of the general conference a rally of all the Methodist Sunday schools—the city will be held in the Metropolitan church on Sunday, August 21. Mr. Justice MacLaren of Toronto and Rev. S. T. Bartlett, secretary of the B. S. department, have been asked to give addresses.

PRESBYTERIAN.

First Church.

Sunday Services.—In the absence of the pastor, Rev. Dr. Campbell, who is enjoying a portion of his summer holiday, the services to-morrow will be conducted by the Rev. A. E. Roberts, and the Rev. Alfred Hall, Mr. Hall is from London, England, and is the city will meet and the distribution of Nelson shields to schools. He will preach in the evening.

BAPTIST.

Emmanuel.

Sunday Services.—The pastor has returned from his trip to Prince Rupert and Stewart and is expected to preach to-morrow. His subject in the morning will be, "Does God Need Our Prayers?" and in the evening, "How Jesus Helps Men To-day." The Berean class will meet to-morrow afternoon at the usual school hour and it is hoped there will be a large attendance to consider matters of importance.

First.

Special Sermons.—Commencing to-morrow Pastor Warnicker will preach a special series of sermons on Sunday evenings. The first subject will be "Life's Half-built Towers."

Men's Baraca Class.—The men's Baraca class have changed their time and place of meeting. They now meet at 9.45 a. m. in the Victoria hall, and not in A. O. U. W. hall in the afternoon as formerly. It is felt that the change will be beneficial to some who found it inconvenient to meet in the afternoon.

Temporary Building.—For some weeks past the executive of the church have been discussing the possibility of erecting a temporary building where services could be held pending the erection of permanent quarters. The present building is proving entirely inadequate and it is absolutely necessary in the interests of the work that larger and better premises be secured. An important meeting of the church members is called for Thursday evening to hear recommendations from the executive on this matter, and every member is urged to attend.

As a rural postman was going his rounds near Bonneville, says the Paris correspondent of the Daily Mirror, he was caught by a cyclone. The wind lifted him from the ground and carried him a distance of a hundred yards. His umbrella acted as a parachute, and he came safely to the ground.

Robin Hood Flour Is Different

If, Madam, we could take you right into our Model Bakery at the Mill, where all our tests are made, you would see exactly what we mean when we say, "Robin Hood Flour is Different."

You would see how favorably it compares with other flours in respect to color.

Its superior quality would be plainly visible to you.

You would quicker realize why you are so hard to make water than usual when using it.

The bigger loaf made by it would lie before you. Seeing it, you would note its closer texture—no waste. Tasting it, you would admire its finer flavor.

In short, you would surely decide that you ought to start using Robin Hood Flour right away.

But, Madam, if you cannot come to our Bakery, we can help you to have better Baking Results of your own.

Use Robin Hood Flour yourself, and prove that what we claim for it is true.

We supply the flour-quality. We give the guarantee. It is up to you to get the benefit.

Have you asked your grocer about our Money-back-guarantee yet?

Moose Jaw, Sask.

PROGRAMME FOR

C. E. CONVENTION

Attractive List of Speakers for the Gathering Which Assembles August 10

The Provincial Christian Endeavor convention, which will be held in St. Andrew's Presbyterian church, August 10 to 14, promises to be one of the best-attended and most interesting ever held in the province. The committee in charge have already received intimation that the young people's societies of the province will send many representatives, and the list of speakers is a most attractive one. The programme as completed to date is as follows: the general theme being "Things That Abide":

Wednesday Evening.

7.8 p. m.—Reception, registration and assignment for entertainment at committee room, St. Andrew's church.
8.15 p. m.—Opening of convention, devotional service, Rev. W. L. Clay, B. A.

8.15-8.25 p. m.—Addresses of welcome on behalf of the Local C. E. Union, by Dr. W. Russell; of the Ministerial Association, by Rev. Dr. John Campbell; of the City, by Mayor Morley; reply.

8.40—Music.
8.45-9.15—President's address, Rev. Hermon A. Carson, B.A.; offering; music.

9.25-10—Address, Rev. Lester L. West, D.D., "Possessing and Being Possessed."

Thursday Morning.

9.00-9.30—Quiet hour, C. C. Mitchener.
9.30-9.50—"Junior Work, It's Possibilities in B. C.," Miss C. McKenzie, Vancouver.

9.50-10.15—"Place of Mission in Junior Work," Miss G. Warner, Vancouver.
10.15-11.15—School of Methods, Junior and Intermediate work, Rev. E. A. King, North Yakima.

11.25-11.55—"Relation of Sunday School to C. E.," Rev. I. W. Williamson, Vancouver.

Thursday Afternoon.

2.00-2.15—Praise service.
2.15-2.45—"True Development in Home Life," Rev. S. J. Thompson, Nanaimo.
2.45-4.00—"True Development in Church Life."

4.05-4.15—"The Need of Evangelism," Rev. Dr. Pidgeon, Westminster Hall, Vancouver.
4.20-4.50—"The Evangelism We Need," Dr. H. Francis Peery, Vancouver.
4.45-5.00—Discussion.

Thursday Evening.

8.00-8.15—Praise.
8.15-9.00—"Place of Lord's Day in Making for Abiding Life of Nation," Rev. T. A. Moore, Toronto.
9.00—Offertory, Music.
9.10-10—Address, Rev. Dr. W. G. Temple, Seattle, "The Abiding Spirit of Christ."

Friday Morning.

9.00-9.30—"Quiet Hour," Rev. J. B. Warnicker, B.A., Victoria.
9.30-10.30—School of Methods, Junior and Intermediate, Rev. E. A. King.
11.00-11.05—"C. E. 1911, What Does It Mean?" D. J. McPhail.
11.00-11.25—"International Building," R. W. Coleman.
11.25-11.35—Presentation of Resolutions re forward work.

Friday Afternoon.

2.00-2.15—Praise.
2.15-2.35—"Permanent Value of Old Testament," Rev. W. G. Jordan, D.D.
2.35-4.15—"Missionary Enterprises," Rev. S. T. Bartlett, M.A., Toronto; Conference.
4.15-5.00—"Pastor's Conference," Rev. W. B. Hinson, D.D.

Friday Evening.

8.00-8.15—Prayer and Praise.
8.20-9.00—Address, Rev. S. Cleaver, D. D., Toronto; Offering; Music.
9.15-10.00—Address, Rev. W. B. Hinson, D.D., Portland, Ore.

Saturday Morning.

9.00-9.30—Quiet hour, devotional, Rev. Merton Smith, Vancouver.

Saturday Evening—Meeting of new executive at 8 o'clock.

Sunday—Divine worship 11 a. m. and 7.30 p. m.; Y. P.'s rally at 4 p. m. Lively speakers.

It is expected that there will be a union choir at all the evening sessions and much bright singing throughout.

TROUBLE WITH THE STOMACH

That Can Only Be Cured When Liver and Kidneys Are Set Right by DR. A. W. CHASE'S KIDNEY and LIVER PILLS.

It is customary to put all the responsibility on the stomach for indigestion and its accompanying discomforts. This is all wrong, for almost always the liver and kidneys are to blame, and you find among the symptoms constipation, backache, biliousness and headache.

You will be surprised how quickly Dr. A. W. Chase's Kidney and Liver Pills will regulate the liver, kidneys and bowels and get the digestive system into good working order.

If you are in earnest about a cure, don't bother any more with mere aids to digestion, but rid the whole system of poisonous impurities by using Dr. A. W. Chase's Kidney and Liver Pills, and you will know once again the pleasure of living.

This medicine gets at the cause of trouble and makes the cure complete. One pill a dose, 25 cents a box, all dealers, or Edmanston, Bates, & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

The Irish residence of the Earl of Huntingdon, Sharnvogue Castle, Birm. King's county, has been wrecked by an explosion of acetylene gas, and two of the inmates, Miss Jessie Dawne, a governess, of Richmond, Surrey, and Joseph Power, of Clonmel, stable boy, lost their lives.

Victoria Building Society

The SEMI-ANNUAL GENERAL meeting of the above Society will be held at the secretary's office, 611 Truncheon avenue, Saturday, 30th July, 1910, at 8 p. m., to receive the secretary's report and financial statement, together with the auditor's report and such other business as may be brought before the meeting.

By order, A. St. G. FLINT, Secretary.

SUES HIS WIFE.
Cincinnati, O., July 30.—Much interest is being shown by Cincinnati society in the suit brought by Percy Proctor, a wealthy club man, against his wife, Baroness Madeline Van Klee. Puss for the recovery of \$40,000 in stocks which Proctor said he gave his bride to secure a marriage settlement of 200,000 francs.
The testimony has brought out interesting details of the couple's courtship and marriage. Following the wedding, Proctor charges, the Baroness broke her pre-nuptial agreement to keep the stocks, and converted them into cash in London.
A bat cannot rise from a perfectly level surface.

WINS ACTION AFTER THREE YEARS' FIGHT

G. F. White's Appeal Allowed in Suit Against Victoria Lumber and Manufacturing Co.

Dispatches received from London announce that the judicial committee of the privy council has allowed the appeal of G. F. White in the action brought by him against the Victoria Lumber and Manufacturing Company. The Privy Council, by this judgment has restored the verdict of the jury. Their lordships also stated that the decision of the full court was a judicial misadventure.

Mr. White is a laborer, residing in South Vancouver, and after a long fight, lasting over a period of three years, he has been successful in his action.

The action arose out of the death of his son, who was an engineer at Chemainus, Vancouver Island, in the employ of the Victoria Lumber and Manufacturing Company. On November 23rd, 1897, a runaway occurred on the railway owned by the company, and as the result of the accident two men lost their lives and several were injured. Mr. White's son was one of the killed. The parents brought an action against the company for damages, alleging that the brakeman employed was incompetent, and that an improper safety switch had been provided by the company. The action went to trial in March, 1908, at Vancouver, before Mr. Justice Clement and a special jury. The verdict was in favor of the plaintiff for \$8,000. The company appealed to the full court of British Columbia, and the appeal was heard by Chief Justice Hunter, Mr. Justice Irving and Mr. Justice Morrison. The full court delivered judgment in September, 1909, setting aside the verdict of the jury and sending the case back for a new trial. Chief Justice Hunter was of the opinion that the verdict of the jury was wrong, and thought that judgment should be entered for defendants. Mr. Justice Irving thought that the jury had given too high damages, and agreed that there ought to be a new trial. Mr. Justice Morrison disagreed with both, and held that the verdict of the jury should stand. The plaintiff, through his solicitors, Messrs. McCrossan & Harper, refused to accept the judgment of the full court and appealed from the decision to the Privy Council.

The appeal was heard this month before the Privy Council, consisting of Lord Macnaghten, Lord Atkinson, Lord Shaw, Lord Mersey and Sir Henri Taschereau. The Privy Council, by its decision has disagreed with the judgment of Chief Justice Hunter and Mr. Justice Irving, and has restored the judgment entered by Mr. Justice Clement on the verdict of the jury.

UNABLE TO SCALE MOUNT MCKINLEY

U. S. Geological Society's Expedition Fails—Members on Way to Seward

Seward, Alaska, July 30.—The American Geological Society's expedition, headed by Prof. Herschel Parker, of Columbia University, and Brown, of Tacoma, has failed in its efforts to climb Mount McKinley, and its members will arrive in a few days. Prof. Parker gives a shortage of supplies as a reason for abandoning the party.

The expedition started from Taiketa a day later than the Portland Oregonian-New York Herald expedition, and went up the Chulitna in the boat Explorer, built especially for the party.

A. L. Cool and Jos. Ridley, members of the expedition, which set out in April to ascend Mount McKinley, and which turned back unsuccessful, arrived in Seward yesterday. Cool and Ridley say that nobody ever reached the summit, and that 5,000 feet of precipitous cliffs surrounded the top.

The Russian expedition reached the summit of the mountain ascended by Dr. Cook and Edward Barrill, and found the scaling of this peak easy enough, but it was ten miles distant from the summit.

EXPORTS FROM STATES BREAK ALL RECORDS

Shipments of Manufactured Goods to Canada Increased 32 per Cent in Year

Washington, D. C., July 30.—The bureau of statistics yesterday reported that during the fiscal year ending June 30th, 1910, the United States exported manufactured goods to the value of \$788,000,000, by far the greatest amount on record.

Figures for each ten years beginning with 1880 show the increase of exported goods to be enormous. In 1889, according to the bureau, the value of the exports manufactured was \$122,000,000; in 1890, \$179,000,000, and in 1907, \$485,000,000.

During the past year exports to Canada have increased 32 per cent.

ROOSEVELT STANDS ALOOF

New York, July 30.—Theodore Roosevelt yesterday declared he is taking no part in the gubernatorial contest in California. He denied that he is backing Hiram Johnson, insurgent candidate, against the other candidates for the nomination. The statement was issued in connection with the candidacy of Philip A. Stanton and Hiram Johnson.

Gifford Pinchot's support of Johnson caused the report to be circulated that Roosevelt favored the avowed candidate of the Lincoln-Roosevelt League.

There are fourteen separate bones in the human nose.

CANADIAN CASES ARE DISPOSED OF

Privy Council Gives Leave to Intervene in C. P. R. Land Taxation Suits

London, July 30.—The judicial committee of the Privy Council yesterday handed down the following judgments in Canadian cases:

In the case of the minister of public works of the province of Alberta vs. C. P. R., which involves the question of liability for taxes of lands of respondents under the local improvement ordinance of the Northwest Territories and the local improvement act of Alberta, leave to intervene in an appeal was allowed.

Leave to intervene in the appeal of the King vs. the C. P. R. was also allowed. The Canadian courts have upheld the C. P. R.'s plea in these cases, held that the 20 years' exemption from taxation dates not from the signing of the company's charter, but from the issue of letters patent, unless the land is actually sold and an agreement completed in the meanwhile.

Gordon vs. Horne, appeal granted with costs. The case involves a question of partnership between applicants and respondents in the purchase of certain lands.

Burchill vs. Cowrie and Blockhouse Collieries Limited, appeal allowed with costs. The action was for commission for sale of property.

Attorney-General of Quebec vs. Attorney-General of Ontario, dismissed with no costs. The case involved a question as to whether the arbitrators appointed to ascertain the amount of the school fund of the late province of Canada exceeded their powers.

Dominion of Canada vs. Province of Ontario, involving a dispute with reference to when were formally Inland Appeal dismissed with no order for costs.

Western Electric Company vs. Plaintiff, dismissed with costs, as was the case of Plaintiff vs. Western Electric Company. The cases involved the purchase prices of telegraph poles.

JUDGMENT REDUCED

Japan Herald Succeeds to That Extent in Appeal in Preston Case.

In a late issue of the Kobe Herald received appears the following item: Judgment has been delivered in the Court of Appeal in the appeal lodged by the Japan Herald Kabushiki Kaisha and Mr. T. Satchell, late editor of the Japan Daily Herald, against the decision of the Court of First Instance, by which the defendants were ordered to pay Mr. W. T. R. Preston the sum of 5,000 yen as damages for loss of reputation and to publish an apology in various journals. The judgment on appeal reduces the amount of damages to 2,500 yen, to be paid by either of the defendants.

The original action was lodged by W. T. R. Preston, the then Canadian trade commissioner to Japan, who claimed that the reproduction in the Japan Daily Herald of an article criticizing his official attitude, originally published in the Victoria Daily Colonist (which paper, by the way, he has not seen fit to prosecute) had damaged his reputation to the extent of 20,000 yen.

SUMMER MONTHS FATAL TO SMALL CHILDREN

Every mother must know how fatal the summer months are to small children. Cholera, infantum, diarrhoea, dysentery and stomach troubles are all common at this time and many a precious life is snuffed out after only a few hours illness. As a safeguard mothers should keep Baby's Own Tablets in the house. An occasional dose of these Tablets will prevent stomach and bowel troubles, or if the trouble comes on suddenly, will bring the little one through safely. Mrs. R. E. Sanford, Inverary, Ont., writes: "My baby was sickly for over a week with stomach and bowel troubles and cried night and day. Nothing helped her till I began giving her Baby's Own Tablets, but they helped her right away, and now she is a big healthy child with fine rosy cheeks. The Tablets are certainly a wonderful medicine, and I recommend them to all my friends who have little children." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

BODY FOUND IN LAKE

Chilliwack, July 29.—The remains of James Smith, who was drowned in Cetus lake last winter, have been found lying on the shore, having been washed ashore by the waves. The body had been in the water for nearly eight months.

Deceased was a brother of Mrs. Ernest Hill, of Sardis. He was 30 years of age, born in Scotland. On December 2nd of last year, Smith, Ernest Hill and Hiram K. Leavens started out for

2 in 1 SHOE POLISH
It's a pure oil paste—no mops, bottles or liquids—contains no Turpentine or Acids. The finest of them all. ALL DEALERS, 100 THE P. F. DALLEY CO., LIMITED, Hamilton, Ont., and Buffalo, N.Y.

There's SAFETY in KNOWLEDGE
Don't use any medicine—unless YOU or your druggist knows exactly what it contains.
Since you insist on pure foods when you are in perfect health, surely it is reasonable that you should insist on pure medicine when you, or any member of your family, are ailing. That's our strongest reason for recommending Nyal's Remedies.
We know these remedies are pure—specially prepared compounds for specific troubles. We know positively the formulas of all Nyal's Family Remedies—know the effect to be expected from these formulas—know that each formula is scientifically made for the purpose of counteracting the effects of a certain ailment. No single Nyal Remedy is prescribed specifically for more than one specific ailment unless they are very closely allied as to cause. But for each ordinary ailment there is a Nyal Remedy. We know the ingredients, and know that Nyal's Remedies are honestly made.
There is absolutely no secret about any of Nyal's Family Remedies. That's their outstanding characteristic. That's exactly why reputable druggists recommend and guarantee Nyal's Remedies. The reputation of Nyal's is firmly established. We know how good Nyal's Remedies are, for our customers tell us how satisfactory they have been.
You get good honest value for your money in Nyal's

PREMIER ASQUITH ON NAVY EXPENDITURE

Says Government Will Not Be Coerced by Ill-Founded Alarms

The navy was the main object of discussion in the British House of Commons recently. John Dillon, who delivered a vigorous protest against the growth in naval expenditure, was answered by the prime minister, who declared that the expenditure was necessary, though the government was not to be coerced by any ill-founded alarms.

On the vote of £2,444,100 for shipbuilding, Mr. Dillon moved a resolution of £2,000,000, the effect of which, he said, would be to postpone the completion of the monstrous programme of ironclads. If they once surrendered the control of the army and navy estimates to experts, good-bye to economy and social reform.

In three years of a radical administration the navy estimates had been augmented by close upon twelve millions annually, which was unparalleled in the history of England. The navy estimates for 1909-10 were introduced in a speech by the first lord of the admiralty of the most extraordinary character ever made by a British minister on such an occasion, and the chief feature of it was that the whole programme was directed against one European power.

The first lord said: "The difficulty in which the government finds itself placed is that we do not know, as we thought we did, the rate at which the

German construction is proceeding." That was the sentence which set the panic going, and he did not wonder at it. The German government had not accelerated its programme, and, therefore, the contingency on which the additional four battleships were to be laid down had not arisen.

The government was mainly responsible for this competition of armaments, and the abominable language of men in the country who were trying to promote a war between this country and Germany.

Premier Asquith said there was no reason whatever for any presumption from their past record that they would be suddenly, in a fit of emotional panic, tempted to deviate from the path of economy.

Our relations with Germany were of the most cordial character, but they must take into account the shipbuilding programme of the world, and never sacrifice that margin of security necessary for the safety of the Empire.

Last year he said the German fleet of Dreadnoughts in April, 1912, would certainly amount to thirteen, and it might conceivably be seventeen. What were the facts?

There were at that moment built and ready for war ten British and five German Dreadnoughts. There were actually launched, or about to be launched, six British and five German Dreadnoughts, and there were on the slips four British and three German Dreadnoughts. Four others were ordered by Germany last April.

At the end of 1911 Great Britain would have sixteen and Germany eleven Dreadnoughts, and in the critical month of April, 1912, Germany would have thirteen and we should have, including the four contingent ships authorized by the House last year, twenty.

In the spring of 1912 Germany would have at least four additional Dreadnoughts. Taking the five ships of the programme of the present year, we should have twenty-five ships in 1912, and Germany, including her four additional ships, would have twenty-one.

Mr. Asquith asked: If the government's programme were justified now, would it not have been better if the shipbuilding had been more evenly distributed over the years? He believed the government was partly responsible for the gigantic expenditure now to be met, and for much of the international friction indicated in the press.

From the premier's own figures it was possible that at the end of 1912 Germany would have seventeen Dreadnoughts against our twenty. Would the House be content with such a small margin of superiority? There had been no time in the last quarter of a century when another power had been within that percentage of strength of the British navy.

He believed the general feeling which the debates of last year aroused in the country had been admirable in its effect upon the work which responsible departments had thrown into the problem of defence.

MODERN DUG-OUT.

Will Carry Freight on the North Thompson River.

Kamloops, July 29.—P. and S. Christianson, two well-known Peavine ranchers, are tackling the transportation problem in a novel manner. The brothers are both skilled river drivers and boatmen and they are of the opinion that the difficulty of taking a large boat up the riffles on the north river in the ordinary form of boat, whether power driven or not, can be overcome by utilizing the native craft. With this intent they have built a huge dug-out canoe, 48 feet long and thirty-six inches beam, cut from a single tree. The stem and stern are strongly barred with iron and she is otherwise strengthened in many ways. A twelve horse power gasoline engine is being installed in this improved dug-out and the steersmen are of the opinion that with this power and their own skill as polemen they can take five tons weight of freight up the worst of the riffles. The going in other places will be easy.

Judge Emden stated in a dress case heard at Bromley county court that if women had a disagreement over the fit in which their clothes were made and they ought to have some tribunal of ladies to settle the matter.

SOCIAL AND PERSONAL

Miss and Miss Manning, of Winnipeg, are visitors to Victoria.
Miss Florence Richards is in Vancouver visiting friends.
Miss Margaret Treleur, Nanaimo, is spending a week's holiday in Victoria.
Mrs. Charles Stuart, 568 Michigan street, has left the city for a fortnight.
J. H. Grive, Dominion Immigration agent at Spokane, Wash., is a guest at the Drriad hotel.
Miss G. Smith, of the C. P. R. office at Nelson, is spending a fortnight's vacation in the city.
H. Carmichael, provincial assayer, was a passenger on the Princess May last night on his way to Atlin.
Miss Gose, daughter of Judge Gose, is here from Olympia, Wash., on a visit to Miss Allen, Fernwood road.
Mr. and Mrs. Walter Springer, who were married last week in Seattle, are spending their honeymoon in Victoria.
Mr. and Mrs. Pollock and family, Mr. and Mrs. Hagerly and Dr. Stanier are spending a short holiday at Cowichan.
Duncan C. Scott, F. R. S., of the Indian department, Ottawa, is in Victoria accompanied by Mrs. Scott. As a writer of both verse and prose Mr. Scott is well known throughout the Dominion. Mrs. Scott, formerly the daughter of George W. Bradford, Boston, is an accomplished violinist.
On Saturday, July 23, at the Upland Fruit ranch, Abbotsford, the beautiful home of Mr. D. H. Nelson, Mr. Walter Thomas Garner, of Vancouver, and Miss Jennie Barr Shearer, of Straiton, B. C., were united in marriage by Rev. J. L. Campbell, of the Presbyterian church, assisted by Rev. W. M. Reid, of the British and Foreign Bible Society. Miss Tibby Shearer, sister of the bride, was bridesmaid, and Mr. Hamilton Stratton, of Straiton, groomsmen. After spending a few days at the home of the bride's parents, at Straiton, Mr. and Mrs. Garner will reside at Vancouver.
THE VOGUE OF CRETONNE.
Does a country villa ever seem so cool and clean as when it is hung and furnished with washable things? This explains the Parisienne's desire, when she leaves the city for her villa in la champagne, or her villa aux bains de mer, to take with her a whole house-full of cretonne! She has countless pillows of cretonne

The Evening Chit-Chat

A man who signs himself "A Bachelor" has just written to ask me to settle a wager which a friend has made with him, to the effect that I am a man.
Just think of it. My little letters have received the highest compliment possible from a man—he actually thinks they show a sufficient intelligence to have been written by one of his own sex.
As "A Bachelor" puts it—"my friend insists that the writings which appear above your signature, on account of their wisdom must emanate from a masculine mind."
I suppose I ought to be very grateful, but I'm not.
On the contrary I think that is just the kind of compliment that a woman should resent—the kind that flatters her personally at the expense of her sex.
I heard a man and woman arguing the subject of woman's suffrage the other day.
The man said, "I haven't a doubt YOU could vote just as intelligently as any man. But you are an exception. There are not many women with your brains and common sense."
And the woman said, "I suppose you think that I will be pleased by that compliment, but I am not. You can't buy my sex with a 'bit' of flattery to let you disparage my sex."
I wanted to say "Hurrah!"
I think that is exactly the attitude that every woman ought to take. Never allow a man to disparage your sex unchallenged, no matter how much personal flattery he may use to sugar coat his disparagement with.
It isn't loyal.
One great reason why men have kept the position of masters, economically and socially, which they have so long held, is that they have always stood by each other.
Do you know one reason why women have begun to realize what a terrible menace immorality is to their home life and to demand a single standard of morality for both sexes? It is because there are now so many women physicians who are explaining these things to their sex.
In by-gone days when all physicians were men, they stood by their sex and covered up and glossed over the sin of their brothers, even when it was wrecking homes. When a woman was made an invalid simply because her husband had "sowed his wild oats," she was kept in entire ignorance of the cause of her suffering, and perhaps her own daughter was expected to bear the danger. These things are beginning to be different now and I think there will be an even greater change in the next few generations.
Of course that is a case where loyalty was unjustifiable, but it shows what loyalty can do.
No woman should be contented even if she herself is mentally and socially superior, unless she believes that her whole sex is on the high road to become the same.
And no woman should be pleased when a man, no matter how highly he professes to reverence her, who adopts a slighting attitude towards her sex.
And now Mr. "A Bachelor," after that little talk, have you any further doubt to which sex I belong?

and lamp-shades of the same pretty stuff, fringed with multi-colored cotton fringe.
She takes cretonne bags of all sorts, for linings for fancy work, for shoes and for paper.
Every room in the villa is furnished with cretonne scrap-baskets and trinket holders.
For herself madame has the prettiest imaginable cretonne flowered parasol, the daintiest little cretonne purse, and even hats trimmed with cretonne, or what is still newer, marquisette desole printed with cretonne designs.

FASHION HINTS

To follow fashion these days is a race—often a scrimmage. One feels like a special train pacing a flying machine. Sometimes you are ahead and then behind, and always the elusive thing you chase is whirling circles around you. At any moment it may drop out of sight, and you must know it is ended; it may reach its resting place and you must be cognizant of its success.
An expert declares that if one keeps up with the changes in coiffure, sleeves and collars, it is enough for one mind. It is true this gives one plenty to do. Just glance back along the varying styles in hairdressing during the last winter, to say nothing of the last few years.
Puffs in the middle of the head were displaced by the flattened braid; the pompadour gave way to the side parting; the upward slant over the ear gave way to the downward droop. All that was high became low, and all that was fluffy became severe. The Marcel wave was partly replaced by burnished straightness, and the bare forehead was adorned with a bang.
The changes were not made at once. All things were not changed in the twinkling of an eye. One fashion replaced another as quickly as skill could do it, and no sooner had you learned to arrange your coiffure in the last fashion than the world put the accent on the word "last," and you sadly learned you were behind the times.
The present fashion—and it may change before this can be printed—is to avoid the flat braid and swirl reaching from neck to forehead; to build hair high at the top or in the middle by other half than your own in any special way you like. The pompadour shows signs of returning, the tiny fringe remains, the bandeau or fillet is as fashionable as ever, lightly-bounded around the edge of the hair. Small finger curls are preferred to puffs, and the locks must never, never drop over the neck.
All tight sleeves went out under a whiff of wind from another direction. For a time all was confusion, and the followers of fashion were like a pack of hounds dashing about after a fox that has given them the slip.
Low sleeves, short sleeves, draped and plain ones, kimono and peasant, Renaissance and Russian, each followed the other, or fought for first place. This went on for weeks, and now the kimono or above the elbow leads all others.
It goes by the name of peasant as often as it does Japanese, and it rarely conforms to either word in a strict and literal sense.
Its shape is straight, without an armhole, and often made up of several fabrics draped over each other to give some chosen color effect, the more iridescent the better.
There has been opposition but no important change in the style of the bare neck. It began so many seasons back that only the observers with charts remember its daring beginning. It is only now, when it has reached fever heat that it is regarded with daily interest. It was then sporadic; it is now epidemic.
In its earlier stages it was considered mainly as a young girl fashion; now it is quite proper from 16 to 60. At the latter age really well-dressed women always adopted it. The slight V in front and rounded edge at back outlined with white tulle was and will be a dignified and graceful fashion. So it was that women in between these ages clung to the high stiff-collared except for formal evening affairs.
Now custom allows any woman to whom the fashion is becoming to bare her neck for every waking hour. And what a blessed relief it is! To be able without criticism to leave off the collar through the five warm weather months is a fashion that good sense should never allow to go out.
Morning frocks and simple blouses—how the word "shirtwaist" has gone out—are an inch lower than the base of the neck and finished off with a wide collar. Afternoon gowns are three and four inches low. They do not have the rolling collar as a finish, as this is definitely an informal method and kept by fastidious women for the occasions rather than the hours into which it fits. The correct finish for the slightly low afternoon and evening gown is a decollete yoke of fine, soft lace or a peasant band of satin with a few folds of tulle above.
The latter is far the more difficult to wear, and should only be attempted by those who have a strong, large neck firmly set upon the shoulders. Frail necks demand the soft shadow of filmy fabrics.
—Specials in ostrich feathers direct from manufacturers. Comparison respectfully invited: 22-inch, extra heavy full plume, \$10; 26-inch, extra heavy full willow, \$15; extra good feather, \$5.50; also mounts. The Elite, 1128 Douglas.

shiny it can be freshened by wiping off with alcohol. This is particularly good for black hats, and does not hurt crepe if carefully applied.
Where black goods are much spotted they can be cleaned with common brown soap—such as is used in the kitchen. Sponge well with a thick suds of the soap, rinse and press on the wrong side or under a thick cloth to prevent shininess.
When mud stains remain on a black skirt after careful brushing they can often be removed by rubbing with half a raw potato.
Do not use ammonia to clean black gowns. This is a common cleanser, but makes the material, especially woollens, rusty.
Cottons or linens are apt to turn gray unless carefully washed. Black starch should be used.
When William Jones Harman was charged at West Ham, London, police court with bigamously marrying Miss Hilda Clarice Gronland, it was stated that his wife heard of the second marriage within three hours, while the wedding feast was in progress.

It's easy to grow plants in a Sunshine-heated home

Pure, Warm Sunshine Air
PEOPLE living in homes heated with ordinary furnaces often claim they cannot grow plants with any degree of success. This is due to the fact that ordinary furnaces are not provided with an Automatic Gas Damper. There is nothing to prevent coal-gas, which is deadly to plant life, being forced up through the registers.
Now, when the gas in the combustion chamber of the Sunshine reaches a certain pressure it swings open the Automatic Gas Damper and passes up the chimney, consequently there is no chance for it to escape through the registers. Instead, the air that passes through the registers is pure, warm, Sunshine air, laden with the proper degree of moisture from the water-pan.
It's the kind of air that makes plants thrive and is good to breathe into your own lungs.
If you want to guard your home (and who doesn't?) against evil-smelling, deadly coal gas order our agent to install the Sunshine furnace (guaranteed) in your cellar.

ADVERTISE IN THE TIMES

TO RUSH WORK ON DOUGLAS STREET STREETS COMMITTEE TO HURRY JOB ALONG

Hoped Scheme May Be Completed Before Advent of Wet Weather

At the suggestion of Ald. Sargison, it was decided at last evening's meeting of the streets committee of the city council that the work of paving Douglas street between Humboldt and Flanagan streets, shall be rushed to completion with all possible speed.

Ald. Sargison also feared that in any event there would be a shortage of blocks. As far as he could learn the erecting plant was unable to handle the blocks as fast as they were tele-creed.

Mayor Morley said the chief cause of the delay on Douglas street was the difficulty in getting the underground connections in place. But the work would proceed with greater speed from now on. There was, however, a danger of a shortage of wood blocks.

Residents in the Empress subdivision petitioned for sewerage connection. This was referred to the city engineer for report.

Alice M. Wolfenden, 628 Dunedin street, asked that a telephone pole in front of her premises be removed so that a driveway might be arranged for. The matter was left in the hands of the city engineer with power to act.

W. J. Corbett, Jackson street, near Mount Tomlin, asked that he be given a water service. His family was being put to great inconvenience. He had several children sick in consequence of his inability to get a sufficient supply of water.

Mayor Morley explained that it was intended to get a consolidated bylaw which would enable the city to take hold of all these streets which were in a deplorable condition. He wanted to know if there was not an inspector engaged for the express purpose of looking after these matters.

The city engineer was of the opinion that there was such a man. He was instructed to get a report from him and have it ready at the next meeting of the committee.

Ald. Ross said that the road had recently been macadamized, and he asked the city engineer if he thought it a complete job.

Mr. Smith said he had inspected the road the other day, and in his opinion the job was not a finished one.

City Solicitor McDiarmid explained that the city engineer and himself were now working on a bylaw which it would be possible to clear up all these works of local improvement which had resulted in dissatisfaction to the property owners and them, having a clean slate to proceed with the work on improved lines.

The city engineer submitted a report as to the life of the wood block pavement on Fort street, giving it as his opinion that the term specified in the bylaw, might with perfect safety be made twenty years. This was referred to the city solicitor.

MUST REMEDY DEFECTS.

Ladysmith, July 29.—The fire warden, through Ald. Michie, handed in a report at the last meeting of the city council. A list of names of those using stovepipes in place of proper brick chimneys was read. The council were surprised at the number of places disregarding the by-law in this respect and were of the opinion that some action be taken in the matter. His worship remarked that it was bad enough to have a private house on the outskirts of the city using stovepipes in this manner, but was a grave matter in the business section of the city where buildings were so near each other.

Dr. Chase's Ointment is a certain and guaranteed cure for every form of itching, bleeding and sore throat, and is the only one of its kind. It is the only one that will cure you in ten days. It is the only one that will cure you in ten days. It is the only one that will cure you in ten days.

The Eyes of Canada Are Turned Toward Watrous

Favored Bountifully by Nature and by the Grand Trunk Pacific, Watrous is Destined to Become One of the Most Important Inland Cities of Western Canada

Watrous is located near the banks of Little Manitou Lake, the most wonderful body of mineral water on the American Continent. A century ago the Indians took the sick and ailing tribesmen to Little Manitou to be cured. To-day the white man is journeying from far and near to receive the benefits afforded by the medicinal waters from Little Manitou Lake.

Little Manitou Lake—"The Carlsbad of Canada."

This most remarkable mineral water lake is located about two and a half miles from Watrous. The water is similar in practically all respects to those of "Hunyadi Janos" and "Carlsbad" with the exception that the water from Little Manitou Lake contains the same ingredients in greater proportions, its specific gravity therefore being much greater.

Herbert Quick, editor of "Farm and Fireside," United States, visited Little Manitou Lake, and writes of it as follows: "Little Manitou Lake, full to the brim of water like that of Hunyadi Janos, and as still and sweet as fish and fowl in the Dead Sea. The germs of leprosy already stir in the soil. One may hear of Indians smitten with leprosy who came across the prairie ages ago, led by the Manitou, or Great Spirit, to bathe in these waters and be healed. It is so set in its devotion to the salvation of life that it refuses to drown anyone. Try to sink in it and it spurs you forth and ejects you. Go to Little Manitou with suicidal intent and it will hold your head out of the water while it purges you of your disease."

Large profits will be made by far-sighted investors who buy property in Watrous. Property at other famous health resorts is held at very high prices, and property in Watrous will doubtless command similar high prices within the next two or three years.

At these other noted health resorts, there are only mineral water springs; at Watrous there is a mineral water lake, three-quarters of a mile wide and twelve miles long, with water so clear that the sandy bottom can be seen distinctly at a depth of six feet, and the water is so buoyant that a human being floats on its surface like a fishing cork. Little Manitou Lake is ideal for bathing and boating.

Property at Watrous should command even higher prices than at other well-known resorts, because this is the only resort of its kind on the American continent. There is but one Little Manitou Lake, and therefore there can be but one Watrous.

Watrous Occupies Splendid Strategic Position--407 Miles from Winnipeg 388 Miles from Edmonton

In the centre of the finest farming section in all Saskatchewan. In direct line between Regina and Prince Albert, Watrous is the terminus of the branch line of the Grand Trunk Pacific to Prince Albert, this last named city being an important lumber and agricultural shipping point.

What Moose Jaw is to the Canadian Pacific Railway, Watrous will be to the Grand Trunk Pacific. Of the Great Western Provinces, Moose Jaw is the Central Divisional point on the Canadian Pacific Railway. Watrous is the Central Divisional point on the Grand Trunk Pacific. Moose Jaw now has 15,000 population, and is growing rapidly. Lots which sold in Moose Jaw a few years ago at \$100 each are today worth from \$1,000 to \$3,000, and they are advancing in price rapidly. You can buy lots today in Watrous at \$100 to \$175; in five years they should be worth at least as much as the same kind of lots in Moose Jaw today.

Watrous being the central divisional point, and midway between Winnipeg and Edmonton, where the present shops of the Grand Trunk Pacific are located, it is expected that the central shops of the road will be located at Watrous.

On account of Watrous being the central divisional point, it is from here that the different branch lines to the important cities of Saskatchewan and Alberta will radiate.

With the building of the several large sanatoriums, it will be most logical to suppose that, attracted by the lure of Little Manitou Lake, large numbers of transcontinental tourists will stop off at Watrous on their way from coast to coast.

Three Sanatoriums to Be Erected

Contract has been let for the erection of Manitou Lake Sanatorium, which, when completed, will cost \$50,000. Work upon the building is to begin at once, and is to be pushed as rapidly as possible.

Another large sanatorium of fifty rooms is to be built at once by a Company which has been organized with a capital of \$60,000, the principal stockholders being a number of physicians of Saskatchewan. The Provincial Government of Saskatchewan, recognizing the curative values of the water of Little Manitou Lake, has reserved for sanatorium purposes a mile of frontage on the lake, and it is understood that a large sanatorium is to be built on this tract in the immediate future.

Anticipating the enormous demand for the mineral water of this lake as soon as its great curative powers are made known, a Company with strong financial backing has been incorporated (Manitou Mineral Water Company, Ltd., Winnipeg, Man.), and is now bottling and shipping the mineral water to all parts of the American continent. There are also two other companies being organized to bottle and ship the wonderful water from Little Manitou Lake. These water companies will be of great advertising value to Watrous, and will make this beautiful little city known throughout the American continent.

WATROUS SURROUNDED BY RICH AGRICULTURAL TERRITORY. The territory surrounding Watrous is very fertile, being a deep loam with clay sub-soil. The major portion of the land in the vicinity is under cultivation. Wheat averages about twenty-five bushels to the acre, while oats range from fifty to sixty bushels.

An Active Market for Watrous Lots

The two prime factors in determining the value of a piece of Real Estate in City or Town are Population and Demand.

Upon Population rests all stable realty values. Realty values cannot go up and stay up without a corresponding growth in population.

But equally important is Demand. Three banks or business houses vying for a choice corner will boost the price out of the reach of the ordinary investor. And the better a city is known, the greater will be the demand for its Real Estate.

Watrous will be one of the best known cities in all Western Canada, through the advertising which we and our agents shall do for it—Advertising in all the leading Canadian daily newspapers from coast to coast—Advertising through a thousand agents, all selling Watrous lots. We are creating a Canada-wide market for Watrous lots, agents everywhere will know Watrous,—buyers will be familiar with their value. And when you come to sell you will find Demand ready and waiting. Property in Demand is good property to own.

WATROUS is the most favored CITY of the most favored RAILWAY in Western Canada--

The Grand Trunk Pacific

The rapid development of Western Canada during the past few years has been chiefly due to the splendid railway systems which are being built. The last and the greatest of these—the shortest line from ocean to ocean—is the Trans-continental line of the Grand Trunk Pacific.

These great railway systems make rapid increases of population a certainty. Every facility and inducement is afforded to the desirable citizen, and the history of those who have grown rich and are growing rich in the West is the best guide to the future.

Pioneering is not a feature of the growth of Western Canada. Cities grow up in the time it takes for a settlement to become established in an ordinary community. That these cities will be permanent,—that Real Estate values will continue to rise,—is assured by the rich agricultural country which these railways have opened up. The Grand Trunk Pacific alone, in its course through the Great Prairie Provinces, draws on the largest area of fine wheat producing land than the entire Wheat Belt of the United States.

Thus it is that while the assessed valuation of Canada's new cities is increasing by millions, they will continue to increase at the same or a greater rate for years to come.

These millions of increased valuation represent the Profits paid to the early holders of land. You cannot secure these profits in the older towns—the cities which have sprung up along the older railways. It takes capital to handle Real Estate in these older cities. But along the line of the new Grand Trunk, Passenger Service only started this month. Values have not had time to boom. A comparatively few dollars will do the work here, and every dollar invested in Watrous today should multiply itself many times over before 1915—even before 1912. Some of the lots in Watrous are already selling at ten to twenty times their cost only two years ago. \$6,000 was recently offered for the twenty-five foot lot on the corner of Second and Main streets, and was refused. This lot originally sold for \$250.

If you failed to get in on the big money that was made in other Grand Trunk Pacific cities—such as Port Arthur, Fort William, Saskatoon, Prince Albert, Edmonton, Prince Rupert, or in any others which might be named—here is your chance now to get in right on Watrous. The same spirit of co-operation which has been extended by the Grand Trunk Pacific

to those other cities which have made good will be extended to Watrous. Watrous is destined to become the inland Prince Rupert of the Grand Trunk Pacific.

To insure securing choice lots, we advise that you order direct from this advertisement, using the coupon in lower right-hand corner, making remittance payable to Land Commissioner, Grand Trunk Pacific Railway Company, Winnipeg, Man. If, however, you desire further information, before purchasing, then use the coupon in lower left-hand corner, mailing direct to the selling agents, International Securities Co., 649 Somerset Building, Winnipeg, Man., and you will be furnished with full particulars, maps, plans, etc. But we again repeat, our advice is to make your purchase at once.

If the selection of lots made for you by our representative is not satisfactory, all you need do is to notify us to that effect, and the money which you have paid to the Grand Trunk Pacific will be refunded to you. Safeguard your interest by using the Purchase coupon and mailing remittance today.

INFORMATION COUPON. International Securities Co., 649 Somerset Bldg., Winnipeg, Man. Please forward to me by return mail full particulars regarding the sale of town lots in the sub-division to the original town-site of Watrous, which is just being placed on the market. Name..... Address.....

Title to lots to be clear and indefeasible. No interest to be charged on deferred payments, and no taxes until the year 1912. Please make out and forward to me your formal "Application to Purchase Town Lots," which I will sign and return. Name..... Address.....

We have some choice lots for sale fronting on Little Manitou Lake. Write the International Securities Co., 649 SOMERSET BUILDING, WINNIPEG, MAN., for particulars.

SHACKLETON PRAISED BY FRENCH EXPLORER

Dr. Charcot Discusses the Problem of Finding the South Pole

Dr. Jean Charcot is resting from the toil of South Sea exploration in his charming villa at Neuilly-sur-Seine. "One of my pleasant memories of the South Pole expedition," Dr. Char-

cot said, "was the greeting which I received at Monte Video in the middle of March from the English cruiser Amethyst. A welcome was run up at the mast, all the officers came aboard, and placed themselves at our disposal; and Captain Webb invited us to dinner. At Guernsey also our welcome was most kind. Nor can I ever forget that when my first dispatches giving the results of my expedition, but in order to avoid expense, very short, were sent, Shackleton rendered us the immense service of explaining them, placing at our service his unequalled knowledge. It is to him we owe the enthusiasm which our result evoked in

Dr. Charcot has formed no opinion on the Peary-Cook controversy, but he believes Peary reached the North Pole. "Of course, when I say the Pole, I mean within a hundred miles of it; for it stands to reason that you cannot plant your flag exactly at the North Pole when it is a shifting icefield, here to-day and gone to-morrow. With the South Pole the case is different. It is a continent, and one might well amuse one's self with planting the flag exactly at the South Pole, always supposing that the apex of the Pole is not situated, as it well might be, in a crevasse or on an inaccessible peak. If Scott gets within a radius of 50 miles from the South Pole we may consider

that he has discovered the South Pole and planted his flag there. I see no reason why he should not succeed, he has everything in his favor—but he is in the hands of fortune. "To show you how largely it must be a matter of good or ill fortune, I will give you a personal experience. We were in a bay which we had discovered, and which I have named Marguerite Bay, after my wife. Everything seemed quiet, and we were preparing for an expedition on the ice. There was a small iceberg about five hundred yards from the Pourouq Pas. Two of us had been out in a boat to take soundings and make observations before. I was writing in my cabin—it

was about half-past eleven at night—when suddenly a tremendous roar was heard. I sprang on deck to find that the iceberg was capsizing. It was coming straight towards us, rolling on its axis, big slices breaking off as it advanced. By the rarest of good fortune we had steam up. I signalled to the engineer, who fortunately understood my gesture to go full speed astern, at the same time ordering the crew to ship the cables. On came the berg, passing clean over the spot where we had been moored to the ice a few seconds before. So narrow was our escape that it smashed one of our boats and a lump of the iceberg broke off and wedged itself under the bowsprit.

where we kept it for nearly a week. It had been in bed, with only the ordinary look-out on deck, that would have been the last ever heard of us and the Pourouq Pas! That shows what the unforeseen means in South Pole exploration. "Will you go again to the South Pole?" he was asked. "Not for the present. But the South Pole, like the East, has its fascination." —Hot weather hosiery comfort—Ladies' black cotton hose. "Louis Hermandor" fast dye, and with natural wool feet. July sale price 25c a pair. Robinson's Cash Store, 642 Yates St.

NEW HOSPITAL FOR LADYSMITH Will Be Erected at Cost of \$16,000—Directors Are Elected.

Ladysmith, July 29.—At a meeting of the hospital committee D. Nicholson reported the result of his interview with the architect who prepared the plans. The architect had advised Mr. Nicholson to go over the plans and make changes that would reduce the cost, while at the same time not detracting from the utility of the building, and that new plans would be prepared to suit the emergency.

An invitation subscription dance will be held on August 3rd in the club house of the Athletic Association, Showright Lake. A number of invitations have been sent to friends of the club in Duncan.

Mrs. John Norrie and Mrs. Hirsch, who are hostesses at tea at the South Cowichan Tennis Club on Saturday next. Mrs. Fairfax Prevost is the hostess at the Duncan Club.

In writing up her Indian articles Miss White unearthed two interesting parchments owned by the Indian Antoine, of the Somenos tribe. One is a representation of the Bible stories from the creation to the crucifixion, and the founding of the church. It is in black and white and looks almost like hieroglyphics, but is sufficiently clear that stories may be followed after having been heard once or twice.

The other is a parchment having the Bible stories illustrated by colored pictures. These parchments remind one of the early churches of Europe where the Bible stories are told in mosaics on the walls. These parchments were given to Antoine's ancestors about 50 or 60 years ago by the first missionaries and have been most carefully preserved.

ROAD IMPROVEMENT. New Westminster, July 29.—To the present Burnaby has expended approximately \$50,000 of the \$150,000 voted last year by the ratepayers for road improvement and already the roads throughout this municipality are becoming noted as being the best in the province. Of this amount about \$35,000 was spent last year and \$45,000 up to the end of June in 1910.

DIES AFTER OPERATION. Kamloops, July 29.—J. E. Bird, who was for several years ranching on Cherry creek, died at the Royal Inland hospital after an operation for appendicitis. The deceased was 38 years of age.

—Fine trip "around the Sound" by steamers of P. C. S. S. Co. Cheap rates, including berth and meals. Phone 4.

SPEND NIGHT IN TREE. Nelson, July 29.—A bear adventure stirred the town of Crow's Nest a few days ago. Dan J. Kirk of Wella Walls, and O. E. Waynard of Spokane, were examining the property of the Empire Coal Company, near that town and were the heroes. On their return to the camp they came face to face with a big "silver tip" with two cubs. The mother chased them, forcing them to climb trees, where she kept them all night. They not putting in an appearance in camp that night caused a search party to be organized. Before they had gone far the rescuers heard cries for help from a point on the mountain. On reaching the scene they found that Mr. Kirk had killed the mother and captured two cubs. His calls for help were occasioned by Mr. Wayland, his partner, who could not persuade to come down from the tree; even the sight of the dead bear not being sufficient to convince him that the danger was over. The mother bear weighed in excess of 1,000 pounds.

News of the Province

FISHING ATTRACTS MANY VISITORS

Excellent Sport at Cowichan Bay—Interesting Parchments Owned by Member of Somenos.

(Special Correspondence.) Duncan, July 29.—A number of visitors are going to Cowichan bay for the sea trout fishing. Baskets of twenty are not uncommon and some have taken a great many more. The trout run from half a pound to three pounds over and are taken with a small spoon. When the tide is right they may be caught during the day and always in the evening.

Miss M. Wilson is spending a few weeks with friends on Salt Spring Island. Miss R. Kerner is visiting her grandparents, Mr. and Mrs. Ransome of Duncan.

W. H. Hayward, M. P. P., and Miss Hayward have returned from a pleasant trip to Prince Rupert and Stewart. Mr. Hayward's father has arrived from England to visit Cowichan.

Mrs. Hayward's brother, Mr. Wilson, from Scotland, is spending a week or two with Mr. and Mrs. Hayward on his way home. Mr. Wilson will spend a short time with relatives on the prairies and in Winnipeg. He is charmed with Cowichan and hopes to come for a longer stay before long.

A few days ago a steamer from the northern canneries came to Cowichan bay and every Indian and Kootenian who would go was employed and taken north. For the remainder of the canning season there will be a shortage of Indian labor about Duncan.

A flannel dance will be held in the Agricultural hall to-night. J. A. Stewart, of Victoria, has been awarded the contract for the brick work on the new block being built by the Cowichan Merchants' Company.

The engagement has been announced of Miss Helen Myrtle Cripps Stephens, daughter of Fleet Surgeon H. G. D. Stephens, R. N., of Glenora, and Mr. Henry Osney Melville Pym, son of the late Rev. Charles Melville Pym of Cherry Burton, Yorkshire.

An invitation subscription dance will be held on August 3rd in the club house of the Athletic Association, Showright Lake. A number of invitations have been sent to friends of the club in Duncan.

Mrs. John Norrie and Mrs. Hirsch, who are hostesses at tea at the South Cowichan Tennis Club on Saturday next. Mrs. Fairfax Prevost is the hostess at the Duncan Club.

WILL CONSTRUCT BIG CAR SHOPS

B. C. Electric Railway Company Finds Present Plant Inadequate to Demand.

New Westminster, July 29.—The British Columbia Electric Railway Company is now considering the question of the erection of more extensive car shops at some point on the lower mainland where sufficient cars may be built to supply the growing demands of the system. It is estimated that shops giving employment to 1,000 or 1,200 men will be required to fill the programme of car construction for the next few years when the company is now mapping out. The programme of expenditure in the matter of new lines and of car construction will be announced in a few weeks, probably about the first of August, when some definite arrangement will be made as to the new car shops.

The location of these shops is one of the questions which is now under advisement. As soon as the new freight sheds on Twelfth street on the old site of the Vulcan Iron Works are erected the new building at present used as a freight shed on Twelfth street near the car shops will be turned into a repair shop for cars on the New Westminster, interurban, and Chilliwack lines. The company have a repair shop at present in Vancouver, but it is too small to fulfill requirements.

Plans for the new freight sheds are now being completed and it is expected that the work of construction will be commenced in the course of a week or so. About two months will be required to complete these shops when the machinery will at once be installed in the new repair shop. The work of erecting the new \$100,000 passenger depot at New Westminster will, it is expected, be started about August 1st. Plans are also being prepared for the erection of a store room 45x60 feet on the south side of the present car shops on Twelfth street for the storing of material.

During the past year work has been humming in the car shops on Twelfth street. A force of about 30 men has been employed constantly and a large number of new cars have been built and considerable repair work is being done. During the year 46 cars including flats, passenger, box and work cars have been built at the shops in this city. At the present time six Vancouver city cars are being built; one express car for the Lulu Island line; one shunter for North Vancouver and four baggage and express cars for the Chilliwack line. When this work is completed it will finish last year's programme of car construction. In addition to these three passenger cars for Vancouver and three for Victoria are now finished at the shops and ready to be taken out. All of the new passenger cars constructed this year for city use are of the pay-as-you-enter style.

In addition to the work of car construction and car repairing the car shops at New Westminster have been turning out large orders for cross arms and overhead work for the new Chilliwack line. An order was placed at the shops for 45,000 cross arms for this line and of these about 35,000 have already been made.

ROAD IMPROVEMENT. New Westminster, July 29.—To the present Burnaby has expended approximately \$50,000 of the \$150,000 voted last year by the ratepayers for road improvement and already the roads throughout this municipality are becoming noted as being the best in the province. Of this amount about \$35,000 was spent last year and \$45,000 up to the end of June in 1910.

LOT ON CAR LINE, suitable for general store. Price \$1000, on terms, 1-5 cash, balance over 2 years.

SHOT HERSELF WHILE TEMPORARILY INSANE. Young Woman Used Revolver for Failure to End Life With Poison.

Vancouver, July 29.—After listening to the evidence of Constable Jewett, Arthur P. Brown, husband of the young woman who was found dead in a downtown hotel on Wednesday, and Mrs. L. E. Day, New Westminster, mother of the deceased, the coroner's jury yesterday afternoon were of the opinion that Alice Mildred Brown took her life by shooting while temporarily insane.

Behind the story unfolded yesterday before Coroner Pittendrigh and the jury was, according to the evidence submitted, an sad a story of domestic unhappiness that has been unveiled for many a day, ending Wednesday afternoon by the distracted young bride, after four months of wedded life, ending her life by firing a bullet through her heart, after a vain attempt to end it by taking a quantity of chloroform. On two previous occasions the young wife, who was barely 19 years old, had attempted to end her unhappy life, according to the statements of the coroner she was confined in a hospital for three weeks. Along with a sister, the support of a widowed mother, the young girl first became acquainted with Brown, who was working for a real estate firm in New Westminster, when he called at Mrs. Day's home in March last to arrange for the purchase of a lot from her. Acquaintanceship was continued over the telephone wire, as Miss Day was then employed as operator at the telephone exchange. Three weeks later they were married, and according to Brown's story, they lived happily together until outsiders began to interfere with their domestic affairs. This led to internal discussions which seemed to weigh heavily on the young woman, and after their removal to this city, matters seemed to take a turn for the worse, alleged indiscretions, as stated by Brown, causing a severance of their relations. He made arrangements to have her taken care of at St. Ann's academy, but the next day he said she left the institution. He had seen her the day before the tragedy, but she had not intimated to him that she intended taking the steps she did.

Mrs. L. E. Day, mother of the dead girl, told of the coming of the stranger to her home, the subsequent marriage, and the domestic unhappiness that followed. She claimed that Brown had abused her daughter.

Constable Jewett testified as to the condition of the body when the police arrived, stating that the girl was unconscious, dying half an hour later. A number of letters written by the deceased were put in as exhibits, the principal one, written some hours before taking her life, appealing to her husband to forget the past and forgive her. She had, she stated, forgiven him his past errors, and wanted him to overlook any error she had made. She could not live without him, and the deed she then contemplated was "because of her love for Arthur."

WITHDRAWALS RESIGNATION. Nelson, July 29.—At the last meeting of the city council the following letter from Fire Chief Guthrie addressed to the clerk, was read: "I beg to inform you that I hereby withdraw my resignation. In so doing I wish to thank all my friends for their kind consideration; also the property owners and ratepayers, for their petition on my behalf. I assure the citizens of Nelson that I will use my best endeavor for the protection of life and property as long as I am chief of the fire department."

It was moved by Alderman Macdonald, seconded by Alderman Mackenzie, that Mr. Guthrie's letter be received and filed. Carried.

Applications for the position of fire chief were read and it was moved by Alderman Rutherford, seconded by Alderman Mackenzie, that the city clerk write thanking the applicants.

THE B. C. LAND INVESTMENT AGENCY, LTD. 322 GOVERNMENT STREET.

Uncle Walt The Poet Philosopher

I walked with a highbrow of learning, one day in the Temple of Fame, and after much winding and turning, I said: "I am tired of this game, I'm tired of this jim-swizzled game. I've looked, THE HALL but I've failed of discerning a picture of Poe in a OF FAME frame, which I think is a rickety shame. Oh, tell me, thou highbrow of learning, why his picture is not in a frame?" The highbrow, he coughed and he stuttered, and wiped off some sweat from his cap; "the fellow you mention," he muttered, "was doubtless a poetry fan, he sure was no slouch of a fan; he's barred from this temple, and shuttered, for he was a dissolute man, and given to rushing the can; we have to be careful," he spluttered, "and place on the rounders a ban; we know where our biscuits are buttered, and stick to a high-moral plan." Then he hung on the wall an engraving of Julius Terwilliger Sneed, who's written some neat bits of raving that none in his senses would read; who's written some fierce bits of raving, that only the pipe-dreamers read. "His yerse," said the highbrow, "on shaving, was moral and helpful, indeed! And all through his life his behaving was chaste as his uplifting screed!"

Green Room

There is every indication, from the advance sale for Mrs. Fiske's all too brief engagement here, that the Victoria theatre will be crowded to the doors when that highly-gifted actress appears in "Becky Sharp" on Monday evening. All this week she has been playing to houses which completely filled the Moore theatre in Seattle—and houses which have been testifying their appreciation of her genius as actress and stage manager—of the uniformly excellent work of the members of the Manhattan Company and of the splendid stage picture by unstinted applause and repeated curtain calls after each act. Before a most enthusiastic audience at a matinee on Thursday she played Lona Hessel in Ibsen's "Pillars of Society," which she has recently added to her repertoire and in which she has achieved another striking artistic success.

FROM THE ADVANCE MAN

Mrs. Fiske as Becky.

Of all the parts created by Mrs. Fiske she is most loved for her totally fascinating portrayal of "Becky Sharp," Thackeray's "Vanity Fair," a compendium of human frailties, had been dramatized before with but little success. Now, sustained by the genius of Mrs. Fiske, Langdon Mitchell's comedy has become as famous on this continent as the book itself.

In this season of nondescript effort it is a delightful anticipation, the opportunity to see this most interesting comedy. It is instructive also, for

The performance on Monday evening, as has already been stated in this column, commences at 8.15 and not a moment later—Mrs. Fiske is a stickler for promptitude. And in the matter of the finale she always makes an appeal to her audiences, through the medium of a note on the bill, to remain seated until the curtain has fallen.

A week from Monday another star will be seen here, when Miss Margaret Anglin presents "The Awakening of Helen Ritchie." Miss Anglin is one of our own people, born within the walls of the Parliament Building at Ottawa while her father was Speaker of the House of Commons during the Mackenzie regime. In her latest play, in which she has been appearing since September last, she has scored a great success and received most flattering notices from the critics.

A. E. Matthews, one of the foremost of light comedians in the Old Land, has been brought to this side of the water by Charles Frohman to take the leading part in "Love Among the Lions," a farcical romance which will be one of the coming season's productions. Mr. Frohman says that in bringing over Mr. Matthews and G. P. Huntley, and one other comedian, Lennox Paul, whom he for the first time announces is to come later, an endeavor will be made to create a popular liking in the United States and Canada for the best type of English-speaking straight comedy acting.

In his selection of productions for the coming season, Mr. Frohman has been extremely cosmopolitan, more so even than in other years. Less than fifteen per cent. of his forty new plays are American, while forty per cent. are English and over thirty per cent. are French. "The reason is not hard to find," says Mr. Frohman. "It is merely that the American authors, voluminous enough in their output, are not producing the goods." I have endeavored to secure virile American plays, but have discovered only seven that warrant my production." Against these are sixteen English plays and thirteen French, considerably the largest foreign dramatic importation that has ever been made.

There passed away in London the other day one of the younger English playwrights, Captain Robert Marshall. He was the author of several comedies of a military color, of which "Second

 Meet me at the electric clock on the corner.

Rarely has there been so perfect an exhibition of stage direction and direction, and that the interpretative excellence of the cast is equal in every way to the spectacular effectiveness of the production is proven by the fact that during Mrs. Fiske's engagement at the Lyceum theatre, New York, it was frequently referred to as the most perfect body of players ever banded together on this continent.

Ever since its organization as a permanent group of players to support Mrs. Fiske, people have come to look on the Manhattan Company as the standard of such organization. Even though its personnel has been subject to change, to meet varying demands, the Manhattan Company has always maintained a unique artistic position.

Prominent in Mrs. Fiske's supporting company, which is an unusually large one, is Hedbrook Eliza Mayville, to be generally remembered for his wonderful performance in "Salvation Nell"; Henry Stephenson, an English actor; Edward Mackay, Sheldon Lewis, Frank McCormack, Harold Russell, Wilfrid Buckland, R. V. Ferguson, Owen Meech, Alice John, Florine Arnold, Mrs. Maddern, Veda McEwen and as many more.

New Grand Theatre.

Direct from the Folies Bergere, Paris, comes Europe's most artistic importation, Harry and Eliza Mayville, to the Grand theatre next week, where they will stage, with elaborate scenery, the famous Lilliputian wonders and living marionettes in a wonderful performance that has created a furore throughout America. Victoria is fortunate in getting this extraordinary act. The show is put on with a special stage brought by the Mayvilles themselves. It is a portable arrangement. The act contains a lot of vaudeville ideas from the English and French music halls and is reported as one of the season's biggest sensations.

Loelle, the aerial wonder, carrying his own special scenery for the stage and wings and elaborate plated apparatus for performing upon, is another drawing card Mr. Jamieson promises to the patrons of the theatre next week. The act is entirely an aerial performance and one of the highest class, with many incomparable gymnastic accomplishments.

"At Loelle's got four jokes ahead of the audience in Seattle, when he made his first appearance there, and the audience had to go back again next day to catch up with him. He is just the one great comedian, comical both in his work and his facial expression. There is a big hearty laugh for Victoria with him.

James McCormick and Eleanor Irving will present one of the most superb productions of the vaudeville

MISS MARGARET ANGLIN.

Distinguished Canadian actress will appear in "The Awakening of Helen Ritchie" at the Victoria theatre on Monday evening, Aug. 8.

"Becky Sharp" is now a classic of the American stage. It calls forth every phase of Mrs. Fiske's wonderfully wide and delicate art, makes demands upon the supporting company that few, if any, organizations other than the Manhattan Company could meet, and as an example of perfection in stage management and production stands among the most notable achievements of recent years.

Probably the most vivid stage picture that has been seen in this country is the famous ball-room at Brussels in "Becky Sharp." Much of the romance of the Napoleonic wars centred about the memorable function at which the pride of British soldiery danced the morning in while waiting for news of the enemy. The military uniforms of the period were the most brilliant in coloring that the army had ever known and the toilettes of the ladies were in extravagant keeping. The massive ball-room, the spectacle within, the unending dance, the orderlies rushing to and from, the careworn aides carrying quiet orders among Wellington's generals, the nonchalance of the officers, anxious only to conceal their concern from the ladies, and finally the distant rumble of Napoleon's guns—the resounding blasts of the assembly bugles, the farewells of the officers, the anguish of the women, who knew in their hearts that Napoleon had returned from Elba to fight to the death with their loved ones—all combine to make a most striking and dramatic scene.

How splendidly Mr. and Mrs. Fiske staged this scene is now a matter of stage history. It was a revelation in its perfection of detail, its lack of exaggeration and its tense naturalism.

"I Honestly Believe 'FRUIT-A-TIVES'"

The Greatest Cure For Rheumatism in the World

"For many years I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatments, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from the disease.

"I tried 'Fruit-a-tives' and this medicine has entirely cured me, and I honestly believe it is the greatest Rheumatism cure in the world."

"E. R. MILLS."

Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name, to sell it or sign it to an untruth. Mr. Mills tried "Fruit-a-tives" after all other treatment failed—and "Fruit-a-tives" cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimonial was entirely unsolicited on our part. We did not know that Mr. Mills was taking "Fruit-a-tives" until we received the above letter.

It is a case like Mr. Mills' that proves the marvellous powers of "Fruit-a-tives" in arresting and curing disease. It may be stated, without fear of contradiction, that "Fruit-a-tives" will positively cure Rheumatism when properly used.

"Fruit-a-tives" is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science.

Fifty cents a box, 6 for \$2.50, or trial box 25c. Sold by all dealers or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

To the "Times"

Please publish the following WARNING:

It having come to our knowledge that some persons have been soliciting orders, and taking contracts for roof painting, falsely representing that the material they apply is "EAG SLATES" Fireproof Roof Composition, manufactured by us in Victoria;

We hereby warn the public against any such persons, who, while agreeing to use this material, substitute a cheap and inflammable concoction, detrimental instead of beneficial to roofs. This can be guaranteed against only by those interested seeing that every package supposed to contain "EAG" Composition, bears our trade mark, "EAG", and the full name, Newton & Greer Co., Ltd.

We also beg to advise the public that all our representatives who solicit orders, are furnished with written authority from us, to enable them to book contracts in our name, to be done by our men—in which case it is guaranteed that none but the genuine material will be used and the same properly applied—in order to prevent roof fires, step leaks, etc., etc.

Interested parties can obtain further particulars on application.
