FOREWORD to the Second Edition

This work is intended to meet the need of the students and graduates of the Japanese Language Department, Army Language School, for increased vocabulary with respect to service in the Administration of Civil Affairs and Military Government in occupied Japan.

This text is a collection of words required in the Civil Affairs Administration and Military Government, and of combination peculiar to it, arranged alphabetically within categories.

While at school, the student may use this text for classroom study. When in the field, it will aid those who need a glossary of Civil Affairs terms.

Every interpreter, translator, and interrogator, in the exercise of his work should be provided with the proper tools. This book is designed as such an instrument.

A large vocabulary increases one's range of thought and makes it more precise, while misapplied or misunderstood terms may cause both error and interminable dispute.

The rapid changes in scientific knowledge, the consequent improvement of the arts of life, and the extension of these arts and sciences to many new purposes, create a continual demand for the formation of new terms.

Consequently, the compiler, at the completion of his work, finds numerous terms already obsolete, and on the other hand, many too recent to be included in his text.

In its entirety, therefore, this work is far from perfect. It is expected that from time to time there be appropriate adjustments, additions, and corrections.

At this time, the compiler wishes to express his sincere gratitude to the following professors for their valuable assistance:

1st Lt Tsutomu Matsumoto
Mr. Yukio Kumamoto
Mr. Goro D. Yamamoto

With these preliminaries the compiler leaves this work in the hands of the instructors, graduates, and students, trusting that it will be of some service in the diffusion of a correct knowledge of Civil Affairs Terms. Corrections of mistakes, as well as suggestions for future improvements, will be gladly and thankfully received.

Prepared under the direction of the Commandant:

THOMAS N. TANIMOTO.
General Coordinator
Civil Affairs Terms.
