FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$75.00 per year, or \$45.00 for six months, payable in advance. The charge for individual copies is \$1.00 for each issue, or \$1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Area Code 202-523-5240

Highlights

- 29831 Financial Assistance Programs** HEW/SSA issues regulations regarding State plan and Federal matching funds for State and local training; effective 9-2-80
- 29965- Treasury Notes** Treasury announces interest rate
29968 on notes of series K-1983, series B-1989, and Treasury Bonds of 2005-2010
- 29937 Mortgage Pool Investment Trusts** Labor/P&WPB proposes class exemption for certain transactions; comments by 7-7-80
- 30056 Oil and Gas Lease** Interior/BLM amends final regulations with respect to new procedures for obtaining approval of assignments and transfers of record title interests; effective 5-6-80 (Part IV of this issue)
- 29849 Securities and Exchange** SEC proposes amendment regarding reports on certain unaudited supplementary financial information; comments by 6-30-80

Title 3—

Executive Order 12213 of May 2, 1980

The President

United States Holocaust Memorial Council

By the authority vested in me as President by the Constitution of the United States of America, and in order to provide for broader participation in the work of the United States Holocaust Memorial Council and in order to provide for additional time for the Council to complete its work, Sections 1-102, 1-207, and 1-402 of Executive Order No. 12169 of October 26, 1979, are amended to read as follows:

"1-102. The membership of the United States Holocaust Memorial Council shall consist of not more than 60 and not less than 35 members as follows:

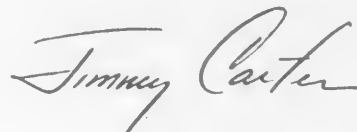

(a) The President shall appoint between 25 and 50 members of the Council and shall designate one of these members to chair the Council and another member to serve as Vice Chairman.

(b) The President of the Senate and the Speaker of the House of Representatives are each invited to designate five members of their respective Houses to serve as members of the Council."

"1-207. The Council shall submit a final report to the President and to the Secretary of the Interior no later than December 15, 1980."

"1-402. The Council shall serve as an interim body and shall terminate on January 15, 1981, unless sooner extended."

THE WHITE HOUSE,
May 2, 1980.

Presidential Documents

Executive Order 12214 of May 2, 1980

Administration of the Export Administration Act of 1979

By the authority vested in me as President of the United States of America by Section 4(e) of the Export Administration Act of 1979 (Public Law 96-72; 50 U.S.C. App. 2403(e)), it is hereby ordered as follows:

1-101. Except as provided in Section 1-102, the functions conferred upon the President by the provisions of the Export Administration Act of 1979, hereinafter referred to as the Act (Public Law 96-72; 50 U.S.C. App. 2401 *et seq.*), are delegated to the Secretary of Commerce.

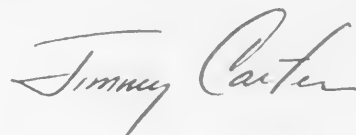

1-102. (a) The functions conferred upon the President by Sections 4(e), 5(c), 5(f)(1), 5(h)(6), 6(k), 7(d)(2), 10(g) and 20 of the Act are reserved to the President.

(b) The functions conferred upon the President by Sections 5(f)(4), 5(i), and 6(g) of the Act are delegated to the Secretary of State.

1-103. All delegations, rules, regulations, orders, licenses, and other forms of administrative action made, issued or otherwise taken under, or continued in existence by, Section 21 of the Act or Executive Order No. 12002, and not revoked administratively or legislatively, shall remain in full force and effect until amended, modified, or terminated by proper authority. This Order does not supersede or otherwise affect Executive Order No. 12002.

1-104. Except to the extent inconsistent with this Order, all actions previously taken pursuant to any function delegated or assigned by this Order shall be deemed to have been taken and authorized by this Order.

THE WHITE HOUSE,
May 2, 1980.

Presidential Documents

Presidential Determination No. 80-17 of May 1, 1980

Determination pursuant to Section 207(a) of the Immigration and Nationality Act, as amended (INA) concerning the admission and adjustment of status of refugees

Memorandum for the Secretary of State

Pursuant to Section 207(a) of the INA, and in accordance with Section 204(d)(1) of Public Law 96-212 (94 Stat. 109), I hereby determine, after appropriate Congressional consultation, that the admission of 231,700 refugees to the United States during Fiscal Year 1980 is justified by humanitarian concerns or is otherwise in the national interest. The admission of 231,700 refugees includes approximately 114,284 refugees already admitted during the first half of the fiscal year, and approximately 117,416 during the second half of the year. I also determine that providing an additional 2,500 refugee admission numbers to be available for adjustment of status, in accordance with Section 209(b) of the INA, of up to 2,500 persons previously granted asylum in the United States, is justified by humanitarian concerns or is otherwise in the national interest.

Pursuant to Section 207(a)(3) of the INA, I determine, after appropriate Congressional consultation, that these refugee admission numbers shall be allocated as follows:

REFUGEE ADMISSIONS FY 1980

Area of origin	Approximate number admitted first half of fiscal year	Approximate number to be admitted remainder of fiscal year	Total number of admissions for FY 1980
Asia			<u>169,200</u>
Indochinese	84,000	84,000	168,000
Other	600	600	1,200
Soviet Union	18,000	15,000	<u>33,000</u>
Eastern Europe	2,000	3,000	<u>5,000</u>
Middle East	500	2,000	<u>2,500</u>
Latin America			<u>20,500</u>
Cubans	9,000	10,500	19,500
Other	64	936	1,000
Africa	120	1,380	<u>1,500</u>
Sub-total	114,284	117,416	<u>231,700</u>
Asylum Status Adjustments			<u>2,500</u>
Total			<u><u>234,200</u></u>

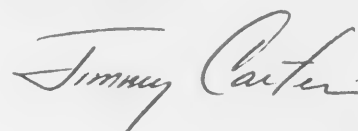

Pursuant to Section 101(a)(42)(B) of the INA, I hereby specify, after appropriate Congressional consultation, that special circumstances exist such that, for the purposes of admission under the limits established in this Determination, the following persons, if they otherwise qualify for admission, may be considered refugees of special humanitarian concern to the United States even though they are still within their countries of nationality or habitual residence:

persons in Vietnam with past or present ties to the United States, present and former political prisoners and their family members in Argentina, present and former political prisoners and their family members and persons in Cuba with relatives in the United States.

The Secretary of State is requested to inform the appropriate committees of the Congress of these determinations.

This memorandum shall be published in the **Federal Register**.

THE WHITE HOUSE,
Washington, May 1, 1980.

Presidential Documents

Presidential Determination No. 80-18 of May 2, 1980

Determination Pursuant to Section 2(c)(1) of the Migration and Refugee Assistance Act of 1962, as amended, and Amending Presidential Determination Number 80-16.

Memorandum for the United States Coordinator for Refugee Affairs

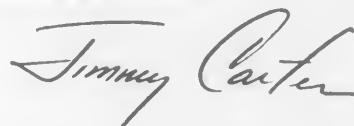

Pursuant to Section 2(c)(1) of the Migration and Refugee Assistance Act of 1962, as amended (the "Act"), I hereby determine that Presidential Determination Number 80-16 is amended by striking sentence two of paragraph three of the Determination.

I further determine that unexpected, urgent refugee and migration needs exist in Florida and that it is important to the national interest to provide assistance to those Cubans and Haitians arriving in Florida and applying for political asylum in the United States.

I further determine that a total of up to \$10 million shall be made available from the United States Emergency Refugee and Migration Assistance Fund for the purposes of processing, transporting, caring and associated administrative costs for assisting such asylum applicants on such terms and conditions as the United States Coordinator for Refugee Affairs shall determine on my behalf or for the purposes described in Presidential Determination Number 80-16, as amended.

The United States Coordinator for Refugee Affairs is requested to inform the appropriate committees of the Congress of this Determination and the obligation of funds under this authority.

This Determination shall be published in the Federal Register.

THE WHITE HOUSE,
Washington, May 2, 1980.

Rules and Regulations

Federal Register

Vol. 45, No. 89

Tuesday, May 6, 1980

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

21 CFR Part 522

Implantation or Injectable Dosage Form New Animal Drugs Not Subject to Certification; Change of Sponsor

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) amends the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA) for the change of sponsor for the injectable anthelmintic butamisol hydrochloride from American Cyanamid Co. to Cyanamid Agricultural de Puerto Rico, Inc.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Bob G. Griffith, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: American Cyanamid Co., P.O. Box 400, Princeton, NJ 08540, filed a supplemental NADA (104-184) providing for a change of sponsor for an injectable butamisol hydrochloride to Cyanamid Agricultural de Puerto Rico, Inc., P.O. Box 243 Manati, PR 00701. The drug is used to treat dogs for hookworm and whipworm infections.

This incorporate transfer of NADA does not involve changes in manufacturing facilities, equipment, procedures, or production personnel. Under the Bureau of Veterinary Medicine's supplemental approval policy (see Federal Register of

December 23, 1977 (42 FR 64367)), this is a category I change. Therefore, this action does not require a reevaluation of the safety and effectiveness data in the parent application.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), § 522.234 *Butamisol hydrochloride* is amended in paragraph (b) by deleting "010042" and inserting in its place "043781."

Effective date. This amendment is effective May 6, 1980.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: April 25, 1980.

Robert A. Baldwin,
Associate Director for Scientific Evaluation.
(FR Doc. 80-13655 Filed 5-5-80; 8:45 am)
BILLING CODE 4110-03-M

21 CFR Part 522

Implantation or Injectable Dosage Form New Animal Drugs Not Subject to Certification; Prednisolone Tertiary Butylacetate

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: This document amends the animal drug regulation for prednisolone tertiary butylacetate suspension to indicate those conditions of use for which applications for approval of identical products need not include certain types of effectiveness data. These conditions of use were classified as effective as a result of a National Academy of Sciences/National Research Council (NAS/NRC) Drug Efficacy Study Group evaluation of the product. In lieu of certain effectiveness data, approval may require submission of bioequivalence or similar data. An earlier Federal Register publication has reflected that this product is in compliance with the conclusions of the review.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-110), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: The NAS/NRC review of this product was published in the Federal Register of April 12, 1969 (34 FR 6447). In that document, the Academy concluded, and the Food and Drug Administration (FDA) concurred, that the product was effective as an anti-inflammatory agent for use in certain animals.

That announcement was issued to inform holders of new animal drug applications (NADA's) of the findings of the Academy and FDA, and to inform all interested persons that such articles could be marketed if they were the subject of approved NADA's and otherwise complied with the requirements of the Federal Food, Drug, and Cosmetic Act.

The Merck Sharp & Dohme Research Laboratories, Division of Merck & Co., Inc., Rahway, NJ 07065, responded to the notice by submitting a supplemental NADA (11-080V) providing current information covering manufacturing and controls and revising the labeling for the safe and effective use of the product as an anti-inflammatory agent in dogs, cats, and horses. The supplemental application was approved by a regulation published in the Federal Register of September 10, 1973 (38 FR 24643). The regulation reflecting this approval established a new section for the drug in 21 CFR 135b.89, recodified at 21 CFR 522.1885. The new section did not specify those conditions of use that were NAS/NRC approved.

This document amends the regulations to indicate those conditions of use for which applications for approval of identical products need not include certain types of effectiveness data required for approval by § 514.111(a)(5)(vi) of the new animal drug regulations. In lieu of those data, approval of applications for such products may be obtained if bioequivalency or similar data are submitted as suggested in the guideline for submitting NADA's for generic drugs reviewed by the NAS/NRC. The guideline is available from the Office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) and redelegated to the Director of the Bureau

of Veterinary Medicine (21 CFR 5.83), Part 522 is amended in § 522.1885 by adding after paragraph (c) (1), (2), (3), and (4) the footnote reference ¹ and by adding at the end of the section the footnote to read as follows:

§ 522.1885 Prednisolone tertiary butylacetate suspension.

- * * * * *
- (c) *Conditions of use.* (1) * * *¹
 (2) * * *¹
 (3) * * *¹
 (4) * * *¹

Effective date. This regulation is effective May 6, 1980.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated:

April 25, 1980.

Lester M. Crawford,

Director, Bureau of Veterinary Medicine.

BILLING CODE 4110-03-M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 11

Law and Order on Indian Reservations; Court of Indian Offenses

AGENCY: Bureau of Indian Affairs, Department of the Interior.

ACTION: Final rule.

SUMMARY: There is an urgent and compelling need for judicial and law enforcement services on the Pleasant Point and Indian Township Indian Reservations in the State of Maine. As a result of a recent decision by the Maine Supreme Court, *State of Maine v. Dana*, 404 A.2d 551 (1979) cert. denied, 48 LW 3523 (1980), justice is no longer effectively administered under State laws and by State law enforcement authorities on either reservation. The withdrawal of these services has left a void in the law and order program in the two areas and could have serious effect on the safety of their residents. Furthermore, the Associate Solicitor, Division of Indian Affairs, has determined that both the Pleasant Point and Indian Township Reservations are Indian country within the meaning of 18 U.S.C. 1151. Therefore, these events necessitate the establishment of an Indian court system which will provide an adequate machinery for law

¹ These conditions are NAS/NRC reviewed and deemed effective. Applications for these uses need not include effectiveness data as specified by § 514.111 of this chapter, but may require bioequivalency and safety information.

enforcement on the Pleasant Point and Indian Township Indian Reservations. The establishment of a Court of Indian Offenses to serve these two reservations is only intended to be a temporary measure necessary to the effective administration of justice on the two reservations. It is not intended to prevent the Tribe on either reservation from securing other means of achieving the effective administration of justice, and legally removing either reservation from the application of the regulations under Part 11.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

George T. Skibine, Acting Judicial Services Officer, Division of Tribal Government Services, Office of Indian Services, Bureau of Indian Affairs, Washington, D.C. 20240, telephone: (202) 343-7885.

SUPPLEMENTARY INFORMATION: This revision is made under the authority contained in 5 U.S.C. 301 and 25 U.S.C. 2, and delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.

The Bureau of Indian Affairs, in a notice published on January 31, 1979, 44 FR 7235, has determined that the Passamaquoddy Tribe of Maine is an entity having a government-to-government relationship with the United States and which the United States recognizes as eligible for programs administered by the Bureau of Indian Affairs.

The Department of the Interior has determined that this document is not a significant rule and does not require a regulatory analysis under Executive Order 12044 and 43 CFR Part 14.

The usual 30 calendar days deferred effective date period has been waived under 43 CFR 14.5(b)(5)(ii)(B) to expedite the prompt establishment of the Court of Indian Offenses in order to minimize the potential danger to the residents of the two areas resulting from inadequate law enforcement.

Proposed regulations were published in the Federal Register, Vol. 45, No. 49, at 15570 and 15571 on March 11, 1980. No comments were received during the comment period.

The principal author of this document is George Skibine, Branch of Judicial Services, Division of Tribal Government Services, Section 11.1(a) of Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations is amended by adding subparagraph (30) to read as follows:

§ 11.1 Application of regulations.

(a) Except as otherwise provided in this part, §§ 11.1-11.87 of this part apply to the following Indian reservations:

* * * * *

(30) Pleasant Point and Indian Township (Maine).

Dated: April 25, 1980.

Rick Lavis,

Deputy Assistant Secretary—Indian Affairs.

BILLING CODE 4310-02-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[FRL 1485-1]

Approval and Promulgation of Implementation Plans; Michigan

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) announces today final rulemaking on revisions to the Michigan State Implementation Plan (SIP). These revisions were submitted to USEPA by the State to satisfy the requirements of Part D of the Clean Air Act (Act). USEPA published a notice of proposed rulemaking on these revisions on August 13, 1979 (44 FR 47350). Based on its review of the State's response and the public comments, USEPA takes final rulemaking action to approve, or conditionally approve, specific portions of the Michigan submittal as revisions to the federally approved Michigan State Implementation Plan. This Final Rulemaking action does not address the adequacy of State rules to control emissions from the iron and steel making industry; Consent Orders submitted as part of the State's control strategy for the sulfur dioxide nonattainment areas; the ozone control strategy; transportation control plans; inspection and maintenance provisions; carbon monoxide control strategy for the Detroit nonattainment area; Prevention of Significant Deterioration (PSD) provisions; and the general requirements of the Clean Air Act which are not Part D requirements (Sections 121, 126, 127, 128, and 110(a)(2)(k)). The provisions which are part of Michigan's Part D SIP or are general requirements of the Clean Air Act are, or will be, addressed in separate Notices of Proposed Rulemaking.

EFFECTIVE DATE: This final rulemaking becomes effective on May 6, 1980.

ADDRESSES: Copies of the SIP revision, public comments on the Notice of Proposed Rulemaking (44 FR 38587), and USEPA's evaluation and response to comments are available for inspection at the following addresses:

U.S. Environmental Protection Agency;
Region V, Air Programs Branch, 230
South Dearborn Street, Chicago,
Illinois 60604.

U.S. Environmental Protection Agency,
Public Information Reference Unit, 401
M Street, S.W., Washington, D.C.
20460.

FOR FURTHER INFORMATION CONTACT:
Mr. Gary Gulezian, Chief, Regulatory
Analysis Section, Air Programs Branch,
Region V, U.S. Environmental Protection
Agency, 230 South Dearborn Street,
Chicago, Illinois 60604, (312) 886-6053.

SUPPLEMENTARY INFORMATION: On
March 3, 1978 (43 FR 8962) and on
October 5, 1978 (43 FR 45993), pursuant
to the requirements of section 107 of the
Clean Air Act (Act), as amended in 1977,
USEPA designated certain areas in each
state as nonattainment with respect to
National Ambient Air Quality Standards
(NAAQS) for total suspended
particulates (TSP), sulfur dioxide (SO₂),
carbon monoxide (CO), ozone (O₃), and
nitrogen dioxide (NO₂).

Part D of the Act, added by the 1977
amendments, requires each state to
revise its SIP to meet specific
requirements for areas designated as
nonattainment. These SIP revisions must
demonstrate attainment of the primary
National Ambient Air Quality Standards
by December 31, 1982, and in certain
circumstances no later than December
31, 1987 for ozone and/or carbon
monoxide. The requirements for an
approvable SIP are described in a
Federal Register notice published April
4, 1979 (44 FR 20372). Supplements to the
April 4, 1979 notice were published on
July 2, 1979 (44 FR 38583), August 28,
1979 (44 FR 50371), September 17, 1979
(44 FR 53761), and November 23, 1979
(44 FR 67182).

On April 25, 1979, the State of
Michigan submitted its proposed SIP to
USEPA to satisfy the requirements of
Part D. USEPA published a notice of
proposed rulemaking on the proposed
revisions on August 13, 1979 (44 FR
47350). The notice of proposed
rulemaking (NPR) described the nature
of the SIP revisions. The notice also
specified areas of the SIP submittal
which in USEPA's judgment did not
comply with the requirements of the
Clean Air Act and needed either
clarification or correction by the State.
The State of Michigan submitted
comments and commitments to USEPA
in its October 12, 1979, response to the

NPR. On March 31, 1980, Michigan
submitted revisions to the conditional
approval schedules for TSP. In addition,
USEPA received several public
comments on the Michigan submittal
and on USEPA's proposed action on it.
Significant comments and USEPA's
response to them are discussed where
applicable below.

In the August 13, 1979 notice, USEPA
indicated that some of the regulations in
the State's submittal were preliminarily
adopted by the Michigan Air Pollution
Control Commission (MAPCC) and
would be finally adopted after
completion of necessary State
administrative procedures. USEPA
stated that until all State administrative
requirements were satisfied, it would
not complete Federal rulemaking on the
SIP revisions. On January 9, 1980,
USEPA received a letter from the State
which demonstrated that all regulations
were finally adopted and would take full
effect January 18, 1980. A review by
USEPA of the regulations finally
adopted by Michigan revealed that the
final regulations were the same as those
submitted April 25, 1979 as a part of
Michigan's Part D State Implementation
Plan except that Michigan had modified
the numbering system slightly and had
removed the provisions pertaining to
Part C of the Act (Prevention of
Significant Deterioration). The rules,
however, contain a reference to the
same numbers used in the original
submittal so that comparison of the
rules is easily accomplished. USEPA has
reviewed these finally enacted
regulations and has determined that the
requirement for legal adoption of
regulations contained in Section
110(a)(2) of the Clean Air Act has been
met. Although Michigan submitted all
the rules of the Michigan Air Pollution
Control Commission on January 9, 1980
many of these rules had been previously
submitted to and approved by USEPA.
In this final rulemaking action USEPA is
taking no action on the rules already
approved by USEPA but will note the
recodification of the rules. The only final
rulemaking action taken today on
Michigan Rules is on those rules which
have not been previously approved by
USEPA and on which Michigan is
relying as part of its control strategy for
nonattainment areas. The rules which
are not part of Michigan's control
strategy for nonattainment areas and
which have not been previously
approved by USEPA will be addressed
in a separate notice of proposed
rulemaking.

This Federal Register notice addresses
public comments in two parts: (1)
General comments on the Michigan SIP

and on the criteria used by USEPA to
evaluate all SIPs; and (2) Comments on
specific portions of the Michigan
submittal and on USEPA's evaluation of
specific portions of the SIP. The second
part of this notice briefly identifies by
pollutant or topic the deficiencies cited
in the August 13, 1979 Federal Register
notice, discusses both the State's
response and the response of other
commentors, and contains USEPA's
response to comments and its final
determinations.

USEPA's final determinations take
one of three forms: approval, conditional
approval, or disapproval. A discussion
of conditional approval and its practical
effect appears in the July 2, 1979 Federal
Register (44 FR 38583) in a supplement
to the General Preamble. The
conditional approval requires the State
to submit additional materials by the
specified deadlines negotiated between
the State and the USEPA Regional
Office. Schedules submitted by
Michigan will be proposed for public
comment elsewhere in this Federal
Register. Although public comment is
solicited on the deadlines, and the
deadlines may be changed in light of the
comments, the State remains bound by
its commitment to meet the proposed
deadlines, unless they are changed.
USEPA will follow the procedures
described below when determining if
requirements of conditional approval
have been met:

1. When the State submits the
required additional documentation,
USEPA will publish a notice in the
Federal Register announcing receipt and
availability that the conditional
approval is continuing pending USEPA's
final action in the submission.

2. USEPA will evaluate the State's
submission and public comment on the
submission to determine if noted
deficiencies have been fully corrected.
After review is complete, a Federal
Register notice will either fully approve
the plan if all conditions have been met,
or withdraw the conditional approval
and disapprove the plan. If the plan is
disapproved the Section 110(a)(2)(I)
restrictions on construction will be in
effect.

3. If the State fails to submit the
required materials according to the
negotiated schedule, USEPA will publish
a Federal Register notice shortly after
the expiration of the time limit for
submission. The notice will announce
that the conditional approval is
withdrawn, the SIP is disapproved, and
Section 110(a)(2)(I) restrictions on
growth are in effect.

The following chart summarizes the
actions taken by USEPA today on the
Michigan submittal:

1. Approval
 - a. Maintenance/malfunction provisions.
 - b. New source review regulations.
 - c. Carbon monoxide control strategy for the Saginaw area.
 - d. Hydrocarbon RACT rules contained in the Michigan Air Pollution Control Commission Rules, Part 6, with the exception of Rules 336.1603 and 1606.
 - e. Total suspended particulate study schedules for secondary nonattainment areas.
2. Conditional Approval
 - a. Hydrocarbon RACT rules R 336.1603 and 1606.
 - b. Total suspended particulates control strategy for primary and secondary nonattainment areas which do not include iron and steel sources.
3. No Action.
 - a. General requirements of the Clean Air Act which are not Part D requirements (Sections 121, 126, 127, 128 and 110(a)(2)(K)).
Rulemaking on the following requirements will be published in a separate Federal Register notice to be published shortly.
 - b. Ozone control strategy.
 - c. Transportation control plans for Detroit, Flint, Lansing and Grand Rapids.
 - d. Inspection/maintenance for the Detroit urban area.
 - e. Carbon monoxide control strategy for the Detroit area.
 - f. Particulate regulations for iron and steel industries.
 - g. Sulfur dioxide control strategy for Ingham County.
Action on these provisions of the plan will be the subject of supplemental notices of proposed rulemaking. Until final action on these provisions, growth restrictions in the City of Detroit nonattainment area will continue for sources emitting photochemical oxidants and carbon monoxide and also in those nonattainment particulate areas where iron and steel industries are located; and in the sulfur dioxide nonattainment area of Ingham County, Michigan, for sources emitting sulfur dioxide.
 - h. Prevention of Significant Deterioration.
These provisions were withdrawn from the April 25, 1979 submittal by Michigan in a letter dated July 25, 1979. In this letter Michigan requested a delegation of authority to implement the prevention of significant deterioration program. A delegation of this authority was granted by USEPA on September 10, 1979. The notice of such delegation was published at 45 FR 8299 (February 7, 1980).

The following sections will discuss general and pollutant specific deficiencies in the Michigan SIP noted by USEPA in the August 13, 1979, Notice of Proposed Rulemaking, State and public comment in response to that Notice, and USEPA's final determinations and rulemaking actions. USEPA has determined that good cause exists for making these revisions immediately effective. By making this final rulemaking immediately effective, some of the restrictions on industrial growth contained in section 110(a)(2)(I) of the Clean Air Act will be lifted from the State of Michigan. These restrictions are imposed for failure to have a State Implementation Plan which meets the requirements of Part D after the final date for SIP approval specified in the Act. USEPA has determined that a major portion of the Michigan State Implementation Plan meets the requirements of Part D. Therefore, it would be contrary to the public interest to continue the restrictions on industrial growth in all nonattainment areas for thirty days after the publication of this notice.

Plan Requirements for Nonattainment Areas

In addition to the general requirements applicable to all State Implementation Plan revisions, the revised plan must satisfy the requirements of Part D of the Act. In the August 13, 1979 Notice of Proposed Rulemaking, USEPA indicated that the proposed revision to the Michigan SIP did not meet the requirements of section 172(b)(9) of the Act because it did not include an identification and analysis of the air quality, health welfare, economic, energy, and social effects of the plan provisions chosen, the alternatives considered, and a summary of the public comment on the analysis. USEPA believes that the State has satisfied these requirements through discussions in the original SIP submittal, the submittal of supplemental information identifying and analyzing the impact areas, and the submittal of a summary of public comments.

In addition to the comments submitted by the State of Michigan and the public specifically addressing the August 13, 1979 Notice of Proposed Rulemaking (44 FR 47350), one commentator submitted extensive national comments and requested that the comments be considered part of the record for each state plan. Although some of the issues are not relevant to provisions in Michigan's submission USEPA notified the public on its response to these comments at 45 FR 11472, 11474 (February 21, 1980).

Total Suspended Particulates

Part D of the Clean Air Act requires State Implementation Plans to include strategies and regulations adequate to insure attainment of the Primary National Ambient Air Quality Standards as expeditiously as practicable but not later than December 31, 1982, and in the interim, to provide reasonable further progress toward attainment through the application of reasonably available control technology (RACT). The statute requires that the secondary standards be attained within a reasonable time. Where attainment cannot be demonstrated despite the application of reasonably available control technology to traditional sources of particulate matter, USEPA will accept as a basis for approval a commitment by the State to conduct additional studies on the causes for particulate nonattainment, including the degree to which nontraditional area sources of particulate matter affect air quality, and to develop and to submit to USEPA additional enforceable strategies adequate to demonstrate attainment of the primary standards by the statutory attainment date.

Primary and Secondary Nonattainment Areas

Four areas of the State of Michigan including portions of the Detroit metropolitan area, Saginaw, Flint, and Albion, have been designated as nonattainment for the primary particulate National Ambient Air Quality Standards. An additional 20 areas are designated as nonattainment for the secondary particulate standard. These areas are delineated at 40 CFR Part 81.

As discussed in the August 13, 1979, Federal Register the State's analysis of the designated nonattainment areas indicates that despite the application of reasonably available control technology through new regulations, together with existing regulations, the particulate SIP may not be adequate to provide for attainment of the primary or secondary TSP NAAQS by December 31, 1982. Therefore, the Michigan SIP contained commitments to conduct additional studies including a study on nontraditional source control, to adopt industrial fugitive regulations that represent RACT for traditional sources, and to adopt additional controls beyond RACT on traditional sources if necessary. USEPA proposed to conditionally approve these commitments if the State submitted a more detailed schedule for the completion of the studies and the adoption of any necessary new regulations.

The State's October 12, 1979 response satisfactorily outlined a detailed plan to study the causes of particulate nonattainment and to develop strategies to attain and maintain the particulate standards. The State submitted revised schedule dates on March 31, 1980. The studies will focus on the ambient impact from nontraditional sources of particulates, on methods of controlling these sources, and on the contribution of traditional sources with RACT controls to particulate nonattainment.

The State has committed itself to complete additional studies in the Detroit area for an attainment strategy by June 1980 and to adopt statewide industrial fugitive regulations and any other regulations necessary to attain and maintain the particulate NAAQS. The State has also committed itself to submit to USEPA the adopted industrial fugitive regulations by January 1, 1981.

Because the State has been unable to demonstrate attainment despite the application of RACT to traditional sources of particulates and has made a satisfactory commitment to study the causes of particulate nonattainment and to adopt additional regulations to achieve attainment, USEPA approves the State's approach to demonstrating attainment. As discussed below, USEPA conditionally approves the Michigan particulates SIP for those nonattainment areas which do not include iron and steel sources. USEPA is taking no action at this time on the particulate plan as it is applied to iron and steel sources. Therefore, the growth prohibition of Section 110(a)(2)(1) of the Act continues to apply only in those particulate nonattainment areas containing iron and steel sources.

This notice follows the general format of the August 13, 1979 Federal Register. No public comments other than the State's response were received by USEPA on the TSP portion of Michigan's SIP.

Statewide

On January 9, 1980 the State submitted the officially adopted rules of the Michigan Air Pollution Control Commission. Part 3 of these rules covers emission limitations and prohibitions for particulate matter. Specific Statewide emission limitations for traditional sources are contained in Rule 336.1331 (formerly rule 336.44). This rule was amended and proposed for adoption by the State in February 1979 and submitted to USEPA on April 25, 1979. USEPA proposed approval of the amended rule in the August 13, 1979 Federal Register. The officially adopted rule submitted to USEPA on January 9, 1980, is essentially identical to the

previously adopted rule. Therefore, USEPA approves Rule 336.1331 as meeting the requirements of the Clean Air Act with the exception of specific regulations covering sources in the iron and steel source category. As discussed above, USEPA is taking no action on this source category at this time.

Detroit

The August 13, 1979, Notice of Proposed Rulemaking identified deficiencies in the Michigan strategy which USEPA stated must either be clarified or be corrected. USEPA noted that while fugitive particulate emissions appear to be a significant contributor to nonattainment in the Detroit metropolitan area and may be an important component of the nonattainment problem in other areas, the State has not yet developed regulations to control particulates from these sources.

The April 25, 1979 submittal from the State contained commitments by the State to develop industrial fugitive regulations for at least the primary nonattainment area in Wayne County (Detroit) by October 1, 1979, to adopt site specific abatement orders, and to conduct additional studies, including the study of nontraditional source impacts. USEPA found this approach generally acceptable but noted the following deficiencies in the August 13, 1979 Federal Register.

1. The commitment by the State of Michigan to develop and adopt industrial fugitive regulations was not accompanied by a detailed schedule for the completion of the proposed and ongoing studies and for the adoption of any additional regulations beyond RACT that are shown to be necessary to demonstrate attainment. A detailed schedule must contain projected dates for all necessary actions to be carried out by the State of Michigan prior to submittal of a SIP revision to USEPA.

State Response

Since the publication of the Notice of Proposed Rulemaking, the State has submitted a draft of its industrial fugitive rules. In the draft rules the State has extended the rules' coverage to all primary and secondary particulate nonattainment areas. USEPA had indicated in the Notice of Proposed Rulemaking that the State had committed itself to apply these regulations at least in the primary nonattainment area in Wayne County.

The rules have been adopted by the Commission for the purpose of holding public hearings. Public hearings on the rules were held on January 22, 24, and 28, 1980. The remainder of the rule

adoption schedule committed to by Michigan in its submittals of October 12, 1979 and March 31, 1980 includes the following items and completion dates:

1. Conduct public hearings throughout the State..... Jan. 1980
2. Prepare a summary of the public comments and revise rules if appropriate..... Feb. 1980
3. Formal rule adoption by the Commission..... Apr. 1980
4. Obtain approval from the legislative Service Bureau, Attorney General's Office and Joint Legislative Rules Committee..... Aug. 1980
5. File rules with Secretary of State and submit to USEPA for approval..... Jan. 1981

In regards to the need for additional studies in the Detroit area, the State has committed itself to analyze the results of filter analysis, perform particle size distribution work, refine their source emission inventories and examine the appropriate meteorological parameters in order to demonstrate the adequacy of the control strategy. On March 31, 1980, the State submitted revisions to the schedule for the Detroit studies. Accordingly, the Air Quality Division commits itself to the following schedule:

Item	Completion date
1. Particle size distribution report.....	Feb. 1980.
2. Refinement of the emission inventory.....	June 1980.
3. Assessments of meteorological variables.....	June 1980.
4. Analysis of the microscopy report.....	June 1980.
5. Submit study results to USEPA.....	Sept. 1980.

USEPA Response and Final Determination

USEPA believes that both the State's commitment and schedule to adopt industrial fugitive regulations are acceptable. Therefore, USEPA approves the particulate control strategy for Detroit on the condition that the State submit its statewide, finally adopted, industrial fugitive regulations to USEPA by January 1, 1981. A notice soliciting public comment on the acceptability of the schedule to adopt the industrial fugitive regulations and to conduct further studies appears elsewhere in today's Federal Register.

2. In the Notice of Proposed Rulemaking, USEPA requested a commitment from the State to develop and adopt nontraditional area source controls and point source controls more stringent than RACT in the Detroit area if these controls are necessary to demonstrate attainment.

State Response

The State has committed itself to drafting and proposing additional regulations necessary for attainment of the primary NAAQS as expeditiously as

possible and within a reasonable time for the achievement of secondary standards. The State predicates this commitment upon the completion of the proposed studies.

USEPA Response

Michigan has committed to conduct additional studies in the Detroit area and has committed to review and adopt nontraditional source controls and any necessary additional regulations for controls beyond RACT. The Clean Air Act mandates that the TSP NAAQS be attained in all nonattainment areas by December 31, 1982, and the secondary standards as expeditiously as practicable. If the State of Michigan is unable to demonstrate attainment by the application of RACT and the adoption and enforcement of industrial fugitive regulations, the State will be required to submit further regulations in order to demonstrate attainment.

3. USEPA commented in the August 13, 1979 Notice of Proposed Rulemaking that the Michigan submittal did not contain specific test methods for measurement of visible emissions from either continuous or intermittent sources of particulates. USEPA stated that acceptable test method or methods for these source categories must be promulgated and submitted to USEPA as a portion of the SIP.

State Response

Michigan, in its response, directed our attention to Rule 336.1303, "Grading Visible Emissions", for visual emission observations of stationary sources. This test method is on file with the Commission. A copy of the method was resubmitted to USEPA in a letter dated February 6, 1980.

USEPA Response

USEPA's assessment that the submittal did not contain a test method was in error. The Michigan submittal referenced a rule on file with the Commission.

USEPA has reviewed the visible emission test method and finds it acceptable as an enforceable compliance test method for both continuous and intermittent sources.

As previously noted, no action is being taken on iron and steel sources. Specific deficiencies in the opacity regulations for iron and steel sources will be proposed for comment with the remainder of the rules covering these sources in a separate Federal Register package.

Saginaw, Flint, and Albion

The State of Michigan plans to develop specific abatement orders for

controls beyond RACT which would apply to individual sources located in the Saginaw, Flint and Albion nonattainment areas, including sources of fugitive particulate emissions, that have been shown to cause or contribute to violations of the National Ambient Air Quality Standards. USEPA found this approach generally acceptable but noted the following deficiencies in the Notice of Proposed Rulemaking:

1. Specific abatement orders that require controls beyond RACT must be codified in a manner enforceable by the State and submitted to USEPA as a SIP revision before the State can claim emission reduction credits for control at these facilities.

State Response

The State has committed itself to submit the abatement orders or consent agreements which require controls beyond RACT along with air quality demonstrations for companies in the primary nonattainment areas of Flint, Albion, and Saginaw. All orders for these areas have been approved by the Air Pollution Control Commission and the air quality demonstrations supporting these orders have been completed. On March 10, 1980, the State submitted the abatement order for the Albion nonattainment area.

USEPA Response

The State has indicated that it is relying on these abatement orders to demonstrate attainment. Further, the State has committed to submit these abatement orders for specific sources and the accompanying attainment demonstrations for Saginaw, Flint, and Albion. The State's abatement order or consent agreement mechanism has been determined to provide legally enforceable emission limitations at the State level. The submittal of these orders or agreements to USEPA as site specific SIP revisions will also insure that these agreements are a legally enforceable part of Michigan's SIP. The approval or disapproval of specific abatement orders will be the subject of separate Federal Register notices.

2. Industrial fugitive regulations must be applicable to all particulate nonattainment areas unless the source specific regulations developed for these areas are sufficient to demonstrate attainment of NAAQS. The fugitive regulations should include control of particulates from storage piles, plant roads, loading and unloading operations, mineral handling and processing operations and emissions from building openings.

State Response

Michigan stated that the industrial fugitive rules that are now in the process of development and adoption will apply to all primary and secondary nonattainment areas in the State. In addition, for the Saginaw, Flint, and Albion nonattainment areas, the State plans to develop specific abatement orders which are beyond RACT for individual sources, including sources of fugitive particulate emissions, that have been shown to cause or contribute to violations of the NAAQS. On March 10, 1980, the State submitted the abatement order for the Albion nonattainment area.

USEPA Response

Michigan's response that the industrial fugitive regulations proposed for adoption will apply to all primary and secondary nonattainment areas and the commitment to develop and to propose adoption of specific abatement orders in Saginaw, Flint, and Albion is acceptable. The abatement orders will be reviewed as site specific SIP revisions and will be the subject of separate Federal Register notices.

Secondary Nonattainment Area Studies

Michigan's plan for secondary nonattainment areas consists of a commitment to conduct additional studies in all secondary nonattainment areas, and a commitment to develop regulations if necessary. The studies will include updating the point source emission inventory, adding area sources to the inventory, undertaking additional modeling and conducting particle microscopy work. The submittal includes a schedule for completing these studies which divides the secondary nonattainment areas into four categories based on the number of samples and the magnitude of the readings exceeding the standards. The studies in each of the four categories will be completed on June 30, 1980, October 30, 1980, February 28, 1981, and June 30, 1981, respectively.

The State has committed itself to develop enforceable control orders or additional emission limitations within one year of the completion of the studies for each area, as noted above. A commitment is also made to attain the secondary standards within four years of the completion of the studies in each area. Thus, the secondary standards will be attained within a period between June 1984 and July 1985.

USEPA proposed in the August 13, 1979 Federal Register to approve the schedule and the commitments to analyze, select and adopt control measures for the secondary particulate nonattainment areas on the condition

that key milestones are identified for evaluating progress in the development of a SIP to attain the secondary standards.

State Response

The types of studies that are contemplated for all of the secondary areas include a refinement of the emission inventory, an analysis of the impact of meteorological variables on the sample results, an analysis of the microscopy report and an examination of the desirability of conducting additional dispersion modeling.

The study schedule identified in the SIP at Table 2.14 on page 2-53 envisages completion of all of the items listed above within the specified time frame. The State reinforced its commitment to complete the studies according to schedule, but stated that interim milestones were not necessary.

USEPA Response

USEPA has reviewed the State's commitment and the time schedule for completing additional studies contained in the SIP. USEPA finds the State's reinforcement of their commitment to the necessary elements of the required additional studies is satisfactory without the addition of interim milestones. Therefore, USEPA approves the secondary nonattainment area study commitments. The adoption of any necessary additional control measures and the attainment demonstration will be the subject of a separate Federal Register notice.

Modeling Demonstrations

In the Notice of Proposed Rulemaking, USEPA stated that the State must provide a demonstration of attainment of the particulate National Ambient Air Quality Standard for all currently designated nonattainment areas. Estimates of industrial fugitive emission impacts must be supported by a comprehensive analysis of meteorological data, monitored air quality data, and filter analysis. A summary of any further modeling analyses should be submitted. The summary should include a map identifying monitored and modeled receptor locations and the highest predicted annual concentrations and highest and second highest concentrations predicted in the short term analysis at all receptors on all days modeled. A description of the derivation and use of background concentrations should be included.

State Response

The State pointed to previous difficulties with modeling in the

secondary nonattainment areas, and committed itself to provide an attainment demonstration utilizing the best available analytical tools. This includes filter analysis, meteorological analysis and the compilation of microinventories.

USEPA Response

Because of the particular problems and constraints inherent in the previous dispersion modeling analysis conducted by the State, USEPA will not mandate an air quality demonstration supported by modeling. The alternative analytical tools identified by the State are technically sound and should provide the information necessary to support any additional necessary control measures. However, the filter analysis method on which the State places emphasis may not be sufficient as the only analytical tool for situations in which traditional sources are the prime contributors to nonattainment. For such circumstances the adequacy of a filter analysis alone may be restricted by (1) the limited number of available sampling sites for analysis, which may not provide an adequate picture of source culpability, (2) the limited number of filters analyzed per site which may not cover the appropriate set of meteorological conditions and (3) the limited number of filters analyzed over time may not adequately address the annual standard.

USEPA Final Determination

USEPA conditionally approved Michigan's control strategy for the attainment of the primary and secondary TSP NAAQS in particulate nonattainment areas that do not contain iron and steel sources with the condition that Michigan conduct the necessary particulate studies in the Detroit area and adopt final industrial fugitive regulations that represent RACT for traditional sources. The State must submit these regulations to USEPA by January 1, 1981.

USEPA's action today finally approves the Michigan TSP study schedules for attainment of the secondary TSP NAAQS.

Sulfur Dioxide

Portions of Midland and Ingham Counties were designated as nonattainment for the sulfur dioxide National Ambient Air Quality Standards. These two areas were designated nonattainment because a source in each area, in contravention to Section 123 of the Act, was utilizing a supplementary control system (SCS) to demonstrate attainment of the sulfur dioxide (SO₂) National Ambient Air

Quality Standards (NAAQS). At the time of the designation neither source was meeting the emission limitations in the federally approved SIP. The State's control strategy for these SO₂ nonattainment areas was to rely on the existing SO₂ emission limitations in its present regulations while requiring the two sources in the nonattainment areas to apply "continuous emission control systems" to meet those emission limitations. The requirement of "continuous emission control" systems was to be implemented through individual Consent Orders entered into by the two sources and the Michigan Air Pollution Control Commission (MAPCC) and submitted to USEPA as SIP revisions.

Ingham County

In the August 13, 1979 Notice of Proposed Rulemaking USEPA stated that the existing SIP would be adequate to attain and maintain the SO₂ NAAQS when all sources are complying with the applicable rules and are utilizing constant emission controls; and that as a result, "no further rulemaking was necessary".

On August 22, 1979 Michigan submitted a Consent Order entered into by the Michigan Air Pollution Control Commission (MAPCC) and the Lansing Board of Water & Light (Board), located in the City of Lansing, Ingham County. The Board had been utilizing an SCS to keep from violating the SO₂ NAAQS instead of meeting the emission limitations in the federally approved SIP. The Order and technical support submitted with the Order demonstrated that the Board's recent compliance with the emission limitations in the existing SIP was not adequate to protect the NAAQS since a potential for violation of the SO₂ NAAQS occurred as a result of aerodynamic plume downwash at the facility. The Order to correct the downwash required additional controls in the form of GEP stacks.

American Lung Association of Michigan commented on the strategy and challenged USEPA's statement that the existing SIP is adequate and that no further rulemaking is necessary. USEPA agrees with American Lung that technically such statement was incorrect insofar as the nonattainment area in Ingham County was concerned. The State of Michigan also commented that it agreed with American Lung's evaluation. In the August 13, 1979 Notice of Proposed Rulemaking USEPA was requesting comment on Michigan's SO₂ control strategy while emphasizing that it was not necessary to take any additional rulemaking action on Michigan's existing federally approved

regulations controlling SO₂ emission limitations from power plants. Sulfur dioxide emission limitations for power plants are contained in Tables 3 and 4 of Rule 49 (R. 336.49). These tables and rule have been recodified in the Michigan submittal of January 9, 1980 as Tables 41 and 42 of Rule 401 (R. 336.1401).

USEPA finds that Michigan's control strategy for the Ingham County nonattainment area (requiring the Board to complete good engineering practice (GEP) designed stacks by December 31, 1982 to eliminate the downwash problem in addition to meeting the emission limitations in the federally approved SIP) is adequate to demonstrate attainment of the SO₂ NAAQS by December 31, 1982.

American Lung in its comments also asserted that the Board's use of a SCS while the GEP stacks are being built was prohibited under the Clean Air Act. In a letter dated February 13, 1980, addressed to the Regional Administrator, Michigan withdrew this part of the SIP revision from review by USEPA. Therefore, that provision will not be a part of the federal plan. The provision remains, however, as a matter of State law under the stipulation signed by MAPCC and the Board.

USEPA, in a Notice of Proposed Rulemaking to be published shortly, is proposing to approve the Lansing Board of Water & Light Order under Part D requirements on the basis that the Order requires the Board to continue to meet the existing emission limitations in the federally approved SIP while at the same time it imposes additional requirements on the Board in order to provide for the attainment of the SO₂ NAAQS by December 31, 1982. Under Part D of the Act when a source is meeting its existing requirements, the source may be granted additional time to meet any additional requirements which are necessary to provide for attainment of the NAAQS. See General Preamble for Proposed Revisions for Nonattainment Areas (44 FR 20371, 20373, April 4, 1979).

USEPA Determination

USEPA is not taking action in this rulemaking notice on Michigan's SO₂ control strategy for the nonattainment area of Ingham County. The strategy which is contained in a Consent Order and which requires a source to construct GEP stacks to correct a demonstrated downwash problem is the subject of a separate notice of proposed rulemaking. Until final action on the Order USEPA will be unable to enforce Michigan's control strategy. Therefore, final approval by USEPA on Michigan's control strategy for Ingham County will

be contained in USEPA's final rulemaking on the Consent Order which implements that control strategy.

Midland County

A portion of Midland County was designated nonattainment because The Dow Chemical Co. (Dow), instead of meeting its emission limitation under the existing federally approved SIP, was using a SCS to demonstrate attainment of the NAAQS.

Michigan's control strategy is to require Dow to come into compliance with the existing emission limitations in the federally approved SIP by either burning compliance fuel or purchasing processed steam and electricity from a nuclear power facility still under construction. To implement its control strategy Michigan referenced in its Part D submittal a Consent Order entered into by Dow and the MAPCC on February 13, 1979. This Order had been previously submitted to USEPA as a site specific SIP revision on February 14, 1979.

USEPA disapproved this Order as a site specific SIP revision because (1) it lacked a demonstration that the primary and secondary NAAQS would be attained and maintained without use of SCS; (2) it did not provide for continuous emission reduction; and (3) it did not contain emission limitations for sulfur dioxide and particulates. See 45 FR 19566, March 26, 1980.

The Order was also reviewed to see if it met Part D requirements of the Act. In a Notice of Proposed Rulemaking published at 44 FR 9752 (February 13, 1980) USEPA proposes to disapprove the order because it grants Dow additional time to meet existing emission limitations.

As noted in the February 13, 1980 Notice of Proposed Rulemaking it is USEPA's position that Congress, in passing the 1977 Amendments, did not intend to provide sources more time to come into compliance with existing emission limitations. See General Preamble for Proposed Revisions for Nonattainment Areas (44 FR 20371, 20373, April, 1979).

American Lung commented that Michigan's sulfur dioxide control strategy does not provide for reasonable further progress by requiring sources in the nonattainment areas to adopt reasonably available control technology (RACT). USEPA has determined that the emission limitations in the federally approved SIP represent RACT and that reasonable further progress is met by Michigan's new source review regulations. These regulations require emission offsets of greater than one for

one and also require minor sources to be included in the permit program.

It is USEPA's position that there is no reason to question the adequacy of the emission limitations in Michigan's existing federally approved regulations. The Dow Chemical Co. has never met those limitations which call for Dow to use fuel with a sulfur content not to exceed 1.0 percent. The technical support submitted with those regulations demonstrated that enforcement of those regulations will protect the ambient air quality in Midland County.

On March 12, 1980 during the comment period on the February 13, 1980 Notice of Proposed Rulemaking, Michigan withdrew the Order as a SIP revision to meet Part D requirements on the basis that it was not necessary under Part D inasmuch as the enforcement of the existing SO₂ emission limitations was adequate to demonstrate attainment. USEPA agrees with the State's assessment. Therefore, no further rulemaking is necessary. A notice of withdrawal of USEPA's rulemaking in the Dow order as a Part D SIP revision will be published in the Federal Register shortly.

Ozone

As indicated in the August 13, 1979 Notice of Proposed Rulemaking, the Michigan submittal did not include ozone design values for each nonattainment area, a determination of the Volatile Organic Compound (VOC) reduction requirements of each area, or a demonstration of attainment of the ozone standard. USEPA controls rulemaking only on the controls for stationary sources of VOC. Consequently, the measures approved in the discussion below constitute only a portion of the Michigan plan for attaining the ozone standard. Subsequent to the publication of the Notice of Proposed Rulemaking, the State submitted an ozone attainment demonstration which USEPA is in the process of reviewing. This final attainment demonstration and the adequacy of the ozone plan as a whole will be proposed for comment in the separate Federal Register notice. In addition, USEPA will propose rulemaking on Michigan's transportation control plans in a separate Federal Register notice to be published shortly.

Hydrocarbons From Stationary Sources

Section 172(b)(2) of the Clean Air Act requires the application of reasonably available control technology to stationary sources of VOC in nonattainment areas. USEPA has developed Control Techniques

Guidelines (CTGs) which provide information on available air pollution control techniques, and contain recommendations on what USEPA calls the "presumptive norm" for RACT. Where State regulations are not supported by the information in the CTGs, the State must provide an adequate demonstration that its regulations represent RACT, or amend the regulations to be consistent with the information in the CTGs. An explanation of CTGs and their practical effect is contained in a September 17, 1979 supplement (44 FR 53761) to the General Preamble (44 FR 20371).

The minimum acceptable level of stationary source control for ozone SIPs includes RACT requirements for VOC sources covered by CTGs the USEPA issued by January 1978 and schedules to adopt and submit by each future January additional requirements for sources covered by CTGs issued the previous January. The submittal date for the first set of additional RACT regulations was revised from January 1, 1980 to July 1, 1980 by an August 28, 1979 Federal Register notice (44 FR 50371). The Michigan submittal includes a commitment by the State to adopt any additional rules representing RACT on stationary sources of VOC for which USEPA issues CTGs. The Administrator approves this commitment by the State as part of the federally approved Michigan State Implementation Plan.

Approval of the ozone portion of the Michigan plan is contingent, however, on the submittal of the additional RACT regulations which are due July 1, 1980 (for CTGs published between January 1978 and January 1979). In addition, by each subsequent January beginning January 1, 1981, RACT requirements for sources covered by CTGs published by the preceding January must be adopted and submitted to USEPA. The above requirements are set forth in the "Approval Status" section of the final rule. If RACT requirements are not adopted and submitted to USEPA according to the time frame set forth in the rule, USEPA will promptly take appropriate remedial action.

Michigan submitted eighteen new rules containing stationary source controls representing RACT. These rules provide emission limitations and prohibitions for existing sources of volatile organic compounds. USEPA proposed to approve fourteen of these rules in the August 13, 1979 Notice of Proposed Rulemaking. No public comments were received on these rules or on USEPA's proposed approval. Therefore, USEPA approves Rules 336.1601, 1602, 1604, 1605, 1607, 1608,

1609, 1611, 1612, 1613, 1614, 1615, 1616, and 1617 as part of the federally approved Michigan SIP. USEPA also proposed to approve Rules 336.1603, 1606, 1610, and 1618 if the State clarified or corrected portions of each rule which, in USEPA's judgment, were deficient. On October 12, 1979, the State responded to USEPA's proposed rulemaking. With the exception of comments on Rule 336.1610 by the Ford Motor Company, no public comments were received on these four regulations or on USEPA's proposed action. As discussed below, USEPA approves Rule 336.1618 based on the State's response and Rule 336.1610 based on the State's response and on the Ford Motor Company's comments. Based on the State's response, Rules 336.1603 and 1606 are approved subject to the State satisfying the conditions outlined in the discussion below.

The following discussion identifies the deficiencies described in the August 13, 1979 Notice of Proposed Rulemaking, summarizes the State's response and any public comments, and contains USEPA's response and final determination.

1. Although Rule 336.1603 specifies final compliance dates for sources regulated under these rules, it does not contain the interim increments of progress required by 40 CFR Part 51.15.

State Response

The State of Michigan has made a commitment to submit detailed compliance schedules containing the increments of progress required by 40 CFR Part 51.15 within one year of the effective date of this rule for sources with final compliance dates prior to December 31, 1982, and by not later than 18 months from the effective date of this rule with final compliance dates beyond December 31, 1982.

USEPA Response and Final Determination

Based on this commitment, USEPA conditionally approves Rule 336.1603 as part of the federally approved Michigan SIP. USEPA also approves the two-tier schedule committed to by the State for satisfying this condition. The schedule is identical to the schedule proposed by USEPA in the August 13, 1979 notice. By March 31, 1981, the State must submit detailed compliance schedules for sources with final compliance dates prior to December 31, 1982. By September 30, 1981, the State must submit detailed compliance schedules for sources with final compliance dates beyond December 31, 1982.

2. Rule 336.1606 exempts gasoline dispensing facilities in major urban

areas from the requirements for a vapor balance system when loading gasoline into existing stationary vessels of more than 2,000 gallons capacity if the throughput of the facility is less than 250,000 gallons per year. The exemption from controls for facilities with existing gasoline dispensing storage tanks of 2,000 gallon capacity or more and a throughput of less than 250,000 gallons per year is not technically supported by the State as representing RACT.

USEPA believes that vapor balance systems should be required for all existing gasoline dispensing storage tanks of 2,000 gallon or larger capacity regardless of throughput. USEPA has promulgated such a requirement in the past under section 110(c) of the Clean Air Act at 40 CFR Sections 52.336, 52.787, and 52.1144. In USEPA's judgment, the widespread implementation of vapor balance systems on tanks of 2,000 gallons or greater regardless of throughput demonstrates that this control is reasonable.

USEPA asked that the State of Michigan either submit documentation technically supporting its proposal as representing RACT, document that allowable emissions resulting from the use of this rule differ less than five percent from the allowable emissions resulting from a regulation which requires vapor balance systems on all gasoline storage tanks with a capacity of 2,000 gallons or more, or commit itself to extend the coverage of the rule to all gasoline dispensing facilities with storage tanks of 2,000 gallon or more capacity.

State Response

The State has made a commitment to either develop and submit to the Michigan Air Pollution Control Commission a new rule with a 120,000 gallon per year throughput exemption, or provide technical support demonstrating that allowable emissions resulting from the use of its existing rule deviate less than five percent from USEPA's recommended level of control. The State has made a commitment to fulfill these conditions within one year of the effective date of this rulemaking.

USEPA Response and Final Determination

USEPA finds the alternative commitments made by the State of Michigan acceptable. An August 17, 1979 memorandum by Richard Rhoads, Director of USEPA's Control Programs Development Division, on "Evaluation of 10,000 gallon per Month Thruput Exemption for Petroleum Marketing Operations" compares controlled

emissions using a 2,000 gallon capacity tank size exemption with controlled emissions using a 10,000 gallon per month (or 120,000 gallon per year) throughput exemption. This memorandum indicates that a 10,000 gallon per month throughput exemption results in 8 to 10 percent of the total national throughput being uncontrolled. According to the memorandum, a 2,000 gallon capacity tank size exemption results in 3 to 5 percent of the total national throughput being uncontrolled. Therefore, the allowable emissions resulting from the use of 10,000 gallon per month throughput exemption are within 5 percent of the allowable emissions resulting from the use of a 2,000 gallon capacity tank size exemption. Guidance contained in a June 30, 1978 memorandum by Richard Rhoads on "Vapor Recovery Regulations Required to Meet RACT Requirements for the 1979 SIP" indicates that if the impact on emission varies imperceptibly, USEPA can approve State regulations which differ only marginally from USEPA's technically supported levels of control without requiring technical justification from the State. The Rhoads' memorandum further indicated that as a guide, USEPA considers an impact on emissions of less than 5 percent imperceptible. Therefore, USEPA finds Michigan's commitment to develop a new rule with a 120,000 gallon per year throughput exemption acceptable. USEPA finds equally acceptable Michigan's alternative commitment to provide technical support demonstrating that allowable emissions resulting from the application of its existing rule are within five percent of the allowable emissions resulting from a 2,000 gallon tank size capacity exemption.

Based on this commitment and schedule, USEPA conditionally approves Rule 336.1606 as part of the federally approved Michigan SIP.

Although the State does not commit itself to promulgate the new rule, USEPA believes that the State's commitment and schedule to submit any necessary regulations to the Michigan Air Pollution Control Commission is adequate. USEPA recognizes that the State cannot legally prejudice the outcome of statutorily mandated regulatory proceedings. Nonetheless, in order to guarantee that the deficiency is adequately addressed and that the plan is adequate to satisfy the requirements of the Act, USEPA imposes the additional condition that any necessary regulation be finally promulgated by the State and submitted to USEPA by September 30, 1981.

In establishing the date by which any necessary regulation must be promulgated, USEPA has taken into consideration the lengthy Michigan Air Pollution Control Commission rulemaking procedures which require review of regulations by several State offices and committees and approval by the Michigan Legislature. A notice soliciting public comment on the acceptability of this schedule will appear in a separate Notice of Proposed Rulemaking published elsewhere in today's Federal Register.

3. Rule 336.1610 establishes an emission limitation for can end sealing of 4.2 pounds of VOC per gallon of coating less water prior to December 31, 1985 and 3.7 pounds of VOC per gallon of coating less water thereafter. The State's April 25, 1979 submittal did not technically support as representing RACT either the 4.2 pound emission limitation or the schedule for implementing a 3.7 pound emission limitation.

Technical support contained in the CTG document for can coating, of which can end sealing is a subcategory, demonstrates that RACT for can end sealing compounds is 3.7 pounds of VOC per gallon of coating less water. Further, the data in the CTG document indicates that final compliance can be achieved by the can coating source category by December 31, 1982. Therefore, USEPA asked the State either to technically support its rule as representing RACT for can end sealing or to demonstrate that even with this emission limitation for can end sealing, allowable emissions for the entire can coating source category differ by less than 5 percent from the allowable emissions resulting from the application of the presumptive norms supported in the CTG.

In addition to this issue, USEPA identified three issues related to Rule 336.1610 and requested public comment. These three issues are discussed below under the USEPA's response and final determination or Rule 336.1610.

State Response

In its October 12, 1979 response, the State demonstrated that for the can coating source category the difference in allowable emissions resulting from the application of its rules rather than the CTG's presumptive norms is less than 5 percent. In order to make this demonstration, the State examined current emissions inventories as well as projections of 1982 emissions for the four facilities in Michigan with can coating operations. In addition, the State compared projections of 1982 emissions from can end sealing using the emission

limitation Michigan rule and using the recommended limit in the CTG.

With the exception of the emission limitation for can end sealing, Michigan's emission limitations for all other can coating operations are identical to the emission limitations technically supported in the CTG. Only two of the four can coating facilities in Michigan utilize can end sealing compounds. The State's comparison of 1982 projected emissions indicated that in the can coating category the difference between the allowable emissions resulting from the use of the Michigan can end sealing limitation of 4.2 pounds of VOC per gallon of coating less water and from the use of the CTG supported limitation of 3.7 is only 4.3 percent.

USEPA Response

USEPA has reviewed the State's demonstration and determined that it shows that allowable emissions resulting from the application of all Michigan rules for can coating operations are within five percent of the allowable emissions resulting from the application of the presumptive norms supported by the CTG. Therefore, USEPA approves the can end sealing emission limitations and schedule for their application in Rule 336.1610 as part of the federally approved Michigan SIP. A more detailed discussion of USEPA's review of the Michigan demonstration is contained in the rationale document located in the docket for this rulemaking.

In addition to the issue discussed above, USEPA highlighted and solicited public comment on three issues related to Rule 336.1610.

a. Rule 336.1610 contains two types of volatile organic compound emission limits for the surface coating of cans, coils, large appliances, metal furniture, magnet wire, fabric, vinyl, and paper. One limit is based on the maximum content of VOC in any coating applied and the second is based on a daily weighted average of all gallons of coating applied during any 24-hour period. USEPA noted in the August 13, 1979 Federal Register that averaging time is not addressed in the recommended CTG emission limits. USEPA also specifically identified cases in which either one or both of the emission limits in Rule 336.1610 vary from the emission limits recommended by the CTG.

Only the State of Michigan submitted comments on this issue. The State indicated that the emission control approach in Rule 336.1610 is not contradictory to the emission limits recommended in the CTG. Further, the

State argues that the averaging times specified in the rule are consistent with the overall oxidant control strategy. USEPA's review of the Michigan rule indicates that the State is correct. Seven of the eight surface coating operations must comply with emission limitations which reflect the limitations recommended in the CTG. The limitations for the eighth coating operation, vinyl surface coating, are discussed below in item b.

In an October 6, 1978 memorandum by Richard Rhoads containing "Comments on Auto Industry Proposals" and a November 21, 1978 memorandum by Richard Rhoads on "RACT Options for Can Coaters", USEPA allowed the use of daily weighted averaging for can and auto coaters. USEPA has subsequently determined that the use of daily weighted averaging is appropriate for all coating operations. USEPA bases this determination on the similar types and numbers of formulation for all surface coating operations.

b. Rule 336.1610 contains an emission limitation for vinyl coating of 4.5 pounds of VOC per gallon of coating applied minus water. Because there is only one vinyl coating plant in Michigan, this limit represents a site specific RACT determination for the Ford Motor Company vinyl coating plant in St. Clements, Michigan. Based on information in the CTG and from other plants engaged in the coating of automobile and industry-related products, USEPA questioned discrepancies in the data used to determine the emission limitation, these discrepancies related to the density of the coatings and the percent of solids by volume in the coatings. Both the State and the Ford Motor Company submitted comments on these issues.

The percent solids and the average solvent density relied on by the State to establish its emission limitation vary from the data used in the development of the presumptive norm in the CTG. The CTG for surface coating of vinyl recommends an emission limitation of 3.8 lbs/gallon. This emission limitation is based on the coatings containing 15 percent volume solids, an average solvent density of 7.35 lbs/gallon, and use of an add-on control device with an overall control efficiency of 81 percent.

In determining the vinyl coating emission limit, the State relied on information submitted to it by the Ford Motor Company. The State used 8.5 percent volume solids as the average composition of all coating utilized at the Ford vinyl coating plant. The State used 6.74 pounds per gallon as the composite density of all solvents. Finally, the State based its determination on the use of

add-on control devices with an overall control efficiency of 81 percent. Based on this data, the State concluded that an emission limitation of 4.5 lbs/gallon represents RACT for this vinyl coating plant. The comments and technical information submitted by the Ford Motor Company explain the discrepancies in data cited by USEPA in the Notice of Proposed Rulemaking and substantiate the data used by the State. A detailed discussion of USEPA's review of the data submitted by Michigan and the Ford Motor Company is contained in the rationale document located in the docket for this rulemaking.

USEPA believes that the technical support submitted by the State and the Ford Motor Company adequately documents that an emission limitation of 4.5 lbs/gallon represents RACT for this vinyl coating plant. USEPA believes that the technical support demonstrates that the Ford vinyl coating plant in Mt. Clements, Michigan is outside the industry norm in capabilities and characteristics. Pursuant to USEPA guidance contained in the Administrator's February 24, 1978 memorandum, RACT determinations may be case by case provided that adequate documentation exists. Therefore, USEPA approves the emission limitation in Rule 336.1610 as representing RACT for this vinyl coating plant.

c. Rule 336.1610 contains plant by plant extended schedules for compliance with the RACT emission limits for automobile and light duty truck coating. USEPA indicated in the proposed rulemaking that it believed that the schedules provided for compliance as expeditiously as practicable. No public comments were received on this issue. Therefore, USEPA approves the extended schedules as part of the federally approved SIP.

Because the State has satisfactorily responded to USEPA's concerns on Rule 336.1610, USEPA approves the rule a part of the federally approved Michigan SIP.

4. Rule 336.1618 allows the use of cutback asphalt during the months of October through April. According to the CTG for this source category, cutback asphalt should be used only when ambient temperatures are less than 50 degrees Fahrenheit. Therefore, USEPA asked the State to demonstrate that temperature fluctuations occurring in the months of October and April necessitate the use of cutback asphalt.

State Response

In its October 12, 1979 response, the State of Michigan submitted information on temperature fluctuations in the months of April and October for three cities in Lower Michigan and one city in the Upper Peninsula. In addition, average normal temperatures were examined for other areas in the State during these months. Using this data, the State demonstrated that for significant portions of these two months temperatures are below 50 degrees Fahrenheit throughout the State.

USEPA Response

Based on the State's technical demonstration, USEPA believes the use of cutback asphalt is appropriate in Michigan during the period from October to April. Therefore, USEPA approves Rule 336.1618 as part of the federally approved Michigan SIP.

Carbon Monoxide

Two areas in the State of Michigan were designated as nonattainment for the carbon monoxide (CO) National Ambient Air Quality Standards. These areas are located in the City of Detroit and the County of Saginaw. In the August 13, 1979 Notice of Proposed Rulemaking (44 FR 47350, 47356) USEPA did not propose rulemaking on the control strategy for the City of Detroit nonattainment area. Proposed rulemaking on the CO control strategy for Detroit will appear in a supplemental notice of proposed rulemaking on the transportation plans, and on the requirement of inspection/maintenance.

In this notice USEPA is taking final action on the State's control strategy for the CO nonattainment area in Saginaw County. The State's control strategy for Saginaw County is based on the control of stationary source emissions from large ferrous cupolas and mobile source emission reductions which will be obtained through the Federal Motor Vehicle Program. Michigan submitted a new Rule (Rule 930, R. 336.1930) which provides for the control of emissions of carbon monoxide from ferrous cupola operations. USEPA's review of that rule noted that it did not provide for submittal of necessary increments of progress as required under Sections 110(a)(2)(B) and 172(b)(8) of the Clean Air Act. USEPA proposed to approve Rule 930 on the condition that the State provide specific assurances that detailed compliance schedules containing all the necessary increments of progress be submitted to USEPA as SIP revision, not later than six months after the effective date of the rule. No comments were received other than the

State's response to the deficiencies noted by USEPA.

State's Response

The State noted that the Rule requires subject sources to submit a program for compliance with the Rules within six months after the effective date of the rule. Section (4) of Rule 930 requires that sources submitting programs for compliance with Rule 930 include in their written programs dates by which equipment shall be ordered, date of commencement of construction, date of initial start-up of equipment and date final compliance will be achieved. Additionally, Michigan submitted a draft compliance order with detailed increments of progress and committed itself to submitting these schedules to USEPA.

USEPA Response

In USEPA's opinion this commitment resolves the noted deficiency.

Final Determination

USEPA approves Rule 930 (R. 336.1930) and the control strategy to attain the carbon monoxide NAAQS in Saginaw County.

Maintenance/Malfunction Provisions

USEPA, in its August 13, 1979 Notice of Proposed Rulemaking (44 FR 47350), stated that Michigan submitted Rules 911, and 912 (R 336.1911 and 1912) as its maintenance malfunction program. USEPA reviewed the Rules in that Notice and proposed to approve them as they were submitted. No comments were received regarding these Rules. The Rules require a source to prepare a malfunction abatement plan to detect, prevent, and correct malfunctions or equipment failures which would result in excess emissions. The Rules also specify what steps must be taken as a result of an abnormal condition or the breakdown of process or controlled equipment.

Final Determination

USEPA approves these Rules as submitted by the State. However, compliance with these requirements does not excuse violation of emission limitations.

New Source Review

As part of its Part D plan the State of Michigan submitted regulations which implemented a new source review program for nonattainment areas as well as regulations for the Prevention of Significant Deterioration (PSD) of attainment areas. This submittal included proposed Rules 101 through 285 (R 336.1101-1285). USEPA did not take

any action on the PSD regulations in the August 13, 1979 Notice of Proposed Rulemaking. Later those regulations which pertained solely to PSD were withdrawn by the State. The numbers of the rules withdrawn are listed in the paragraph entitled "Prevention of Significant Deterioration".

In its August 13, 1979 Notice of Proposed Rulemaking (44 FR 47350), USEPA solicited comment on the State's proposed rules and noted several deficiencies therein. The only comment received on the new source review rules was from the State. The State's response to the deficiencies noted by USEPA are discussed below:

(1) The first deficiency pertained to USEPA's concern that the State's plan appeared to exempt carbon monoxide (CO) from the offset regulation and that the SIP did not demonstrate a margin for growth in those CO nonattainment areas where stationary sources contribute to ambient violations. Two areas of the State, in the City of Detroit and County of Saginaw, were listed as nonattainment for CO.

USEPA requested that the State correct the deficiency by submitting additional data for quantifying the growth margin provided for in the SIP or, in the alternative submit another SIP which does provide for a growth margin.

State Response

The State in its comments of October 12, 1979, responded by describing how the data submitted demonstrates the use of an accommodative approach for the reduction of CO. The State anticipates that its approach will result in a 100,000 ton per year margin of excess control for CO in the Detroit area by 1987 and a 60,000 ton per year margin for the Saginaw area in 1983.

USEPA Response

USEPA accepts Michigan's interpretation and use of the accommodative approach for the reduction of CO.

(2) The second deficiency cited by USEPA concerned a showing that issuance of permits would not interfere with reasonable further progress toward attainment as defined under Section 171 of the Act. USEPA stated that this deficiency could be corrected by State submitting a procedure for determining that reasonable further progress is being achieved.

State Response

The State in its comments pointed out that it has provided for reasonable further progress in the SIP because minor sources, in addition to major sources, are subject to the emission

offset rules and because the offset requirement is greater than one for one.

USEPA Response

USEPA accepts Michigan's assessment that the SIP provides for reasonable further progress.

Final Determination

Rules 336.1101-1122, 1201, 1202, 1203(1), 1204, 1206-1236, 1239-1240(1) and (2)(a)(b)iv, (3), 1241, 1243, and 1280-1285 are approved as meeting the new source review requirements of Sections 110(a)(2)(I), 171, 172, and 173.

Part C—Prevention of Significant Deterioration

To meet the requirements of Section 110(a)(2)(D) and Part C of the Clean Air Act, Michigan had submitted proposed rules 203(2), 203(3), 205, and 231. In the August 13, 1979 Notice USEPA indicated that it would be taking action on these rules in a separate Federal Register Notice. On July 25, 1979 Michigan requested that the authority to implement the program for the prevention of significant deterioration (PSD) be delegated to them and withdrew the PSD rules from review by USEPA. The rules withdrawn from the April 25, 1979 submittal are as follows: 203(2), 203(3), 205, 231-237, and 242. In a letter dated September 10, 1979 USEPA granted Michigan authority to implement the PSD program. Notice of the delegation was given February 7, 1980 (45 FR 8299).

The 1978 edition of 40 CFR Part 52 lists in the subpart for each state the applicable deadlines for attaining ambient standards (attainment dates) required by Section 110(a)(2)(A) of the Act. For each nonattainment area where a revised plan provides attainment by the deadline required by Section 172(a) of the Act, the new deadlines will be substituted on the attainment date charts. The earlier attainment dates under Section 110(a)(2)(A) will be referenced in a footnote to the charts. Sources subject to plan requirements and deadlines established under Section 110(a)(2)(A) prior to the 1977 Amendments remain obligated to comply with those requirements, as well as with the new Section 172 plan requirements.

Congress established new deadlines under Section 172(a) to provide additional time for previously regulated sources to comply with new, more stringent requirements and to permit previously uncontrolled sources to comply with newly applicable emission limitations. If these new deadlines were permitted to supersede the deadlines established prior to 1977 Amendments,

sources that failed to comply with the pre-1977 plan requirements by the earlier deadlines would improperly receive more time to comply with those requirements. Congress, however, intended that the new deadlines apply to only new, additional control requirements and not to earlier requirements. As stated by Congressman Paul Rogers in discussing the 1977 Amendments:

Section 110(a)(2) of the Act made clear that each source has to meet its emission limits "as expeditiously as practicable" but not later than three years after the approval of a plan. This provision was not changed by the 1977 Amendments. It would be a perversion of clear congressional intent to construe Part D to authorize relaxation or delay of emission limits for particular sources. The added time for attainment of the national ambient air quality standards was provided, if necessary, because of the need to tighten emission limits or bring previously uncontrolled sources under control. Delays or relaxation of emission limits were not generally authorized (123 Cong. Rec. H 11958, daily ed. November 1, 1977).

To implement fully Congress' intention that sources remain subject to pre-existing plan requirements, sources cannot be granted variances extending compliance dates beyond attainment dates established prior to the 1977 Amendments. Such variances would impermissibly relax existing requirements beyond the applicable Section 110(a)(2)(A) attainment date under the plan. Therefore, for requirements adopted before the 1977 Amendments, USEPA will not approve a compliance date extension beyond pre-existing 110(a)(2)(A) attainment dates, even though a Section 172 plan revision with a later attainment date has been approved.

However, in certain exceptional circumstances, extensions beyond a pre-existing attainment date are permitted. For example, if a Section 172 plan imposes new, more stringent control requirements that are incompatible with controls required to meet the pre-existing requirements, the pre-existing requirements and deadlines may be revised if a state makes a case-by-case demonstration that a relaxation or revocation is necessary. Any such exemption granted by a state will be reviewed and acted upon by USEPA as a SIP revision. In addition, as discussed in the April 4, 1979 Federal Register (44 FR 20373), an extension may be granted if it will not contribute to a violation of an ambient standard or a PSD increment.

Under Executive Order 12044, USEPA is required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. USEPA labels these other regulations "specialized". I have reviewed this regulation and determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

This notice of final rulemaking is issued under the authority of Sections 110(a), 172 and 301(a) of the Clean Air Act, as amended (42 U.S.C. § 7410(a), 7502, 7601(a)).

Dated: April 23, 1980.

Douglas Costle,
Administrator.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Title 40 of the Code of Federal Regulations, Chapter 1, Part 52 is amended as follows:

1. Section 52.1170(c) is amended by adding paragraphs 16 to 20 to read as follows:

§ 52.1170 Identification of plan.

* * * * *

(c) * * *
(16) On April 25, 1979, the State submitted its nonattainment area plan for areas designated nonattainment as of March 3, 1978 and as revised on October 5, 1978. This submittal contained Michigan's Part D attainment plans for particulate matter, carbon monoxide, sulfur dioxide, transportation, new source review, plus a copy of Michigan's existing and proposed regulations. USEPA is not taking action at this time to include in the federally approved SIP certain portions of the submittal: Michigan's sulfur dioxide control strategy for Ingham County; provisions in R 336.1310 concerning open burning; 336.1331, insofar as it may pertain to process sources in the iron and steel category and site specific revisions; 1349, 1350, 1351, 1352, 1353, 1354, 1355, 1356, and 1357 as they pertain to specific iron and steel source operations; Part 5, Extension of Sulfur Dioxide Compliance Date for Power Plants Past January 1, 1980; Part 7, Emission Limitations and Prohibitions—New Sources of Volatile Organic Compound Emissions, R 336.1701-1710 controlling minor sources of volatile organic compounds; Part 11,

Continuous Emission Monitoring; Part 13, Air Pollution Episodes; Part 16, Organization and Procedures; and Part 17, Hearings. In addition USEPA is taking no action on the State's control strategy for the attainment of carbon monoxide in the City of Detroit; the transportation control plans, the requirement of vehicle inspection and maintenance, and general requirements which are not Part D requirements.

(17) On October 12, 1979, the State submitted comments and commitments in response to USEPA's notice of proposed rulemaking.

(18) On January 9, 1980, the State submitted a copy of the finally adopted rules of the commission. These rules became fully effective January 18, 1980. All of the rules submitted are approved except those identified in paragraph (16) on which no action has been taken at this time. (March 1980).

(19) On February 6, 1980, the State submitted the visible emission test method for stationary sources referenced in R 336.1303 as being on file with the Michigan Air Pollution Control Commission.

(20) On March 31, 1980, the State submitted revisions to the conditional approval schedules for total suspended particulates.

§ 52.1171 [Amended]

2. Section 52.1171 is amended by changing the heading "Photochemical Oxidants (hydrocarbons)" to "Ozone".

3. Section 52.1172 is revised to read as follows:

§ 52.1172 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Michigan's plan for the attainment and maintenance of the National Ambient Air Quality Standards under section 110 of the Clean Air Act. Furthermore, the Administrator finds the plan satisfies all requirements of Part D, Title I of the Clean Air Act as amended in 1977, except as noted below. In addition, continued satisfaction of the requirements of Part D for the ozone portion of the SIP depends on the adoption and submittal of RACT requirements by July 1, 1980 for the sources covered by CTGs between January 1978 and January 1979 and adoption and submittal by each subsequent January of additional RACT requirements for sources covered by CTGs issued by the previous January.

4. Section 52.1173 is revised as follows:

§ 52.1173 Control strategy: particulates.

(a) Part D—Conditional Approval—The Michigan plan for primary and secondary nonattainment areas which do not include iron and steel sources is approved provided that the following condition is satisfied:

(1) The State officially adopts final industrial fugitive regulations that represent RACT for traditional sources and submits these finally effective regulations to USEPA.

(b) Part D—No Action—USEPA takes no action on the adequacy of rules submitted by Michigan to control particulate emissions from the iron and steel making industries. Therefore, USEPA takes no action on the control strategy for particulates in those areas which are designated nonattainment for particulates and which contain iron and steel sources.

5. Section 52.1174 is revised as follows:

§ 52.1174 Control strategy: ozone.

(a) Part D—Conditional Approval—Michigan Rules 336.1603 and 336.1606 are approved provided that the following conditions are satisfied.

(1) Rule 336.1603—The State submits detailed compliance schedules containing increments of progress by March 31, 1981 for sources with final compliance dates prior to December 31, 1982 and by September 31, 1981 for sources with final compliance dates beyond December 31, 1982.

(2) Rule 336.1606—The State either promulgates a rule with a 120,000 gallon per year throughput exemption for gasoline dispensing facilities and submits it to USEPA or demonstrates that allowable emissions resulting from the application of its existing rule with 250,000 gallon per year throughput exemption for gasoline dispensing facilities are less than five percent greater than the allowable emissions resulting from the application of the CTG presumptive norm.

§ 52.1176 [Amended]

6. Sections 52.1176(c), (d), and (e) are hereby revoked pursuant to section 110(a)(5)(A) of the Clean Air Act (42 U.S.C. 7410) and reserved.

7. Section 52.1177 is revised as follows:

§ 52.1177 Attainment dates for national standards.

The following table presents the latest dates by which the national standards are to be attained. The dates reflect information presented in Michigan's plan, except where noted.

[06]0026

Air quality control region and nonattainment area	Pollutant

NOTE.—Dates or footnotes which are italicized are prescribed by the Administrator because the plan did not provide a specific date or the date provided was not acceptable. These dates may be changed through revisions to the SIP by the State.

NOTE.—Sources subject to the plan requirements and attainment dates established under section 110(a)(2)(A) prior to the 1977 Clean Air Act Amendments remain obligated to comply with these requirements by the earlier deadlines. The earlier attainment dates are set out at 40 CFR § 52.727.

NOTE.—For actual nonattainment designations, refer to 40 CFR Part 81.

a. July 1975.

b. Air quality levels presently below primary standards or area is unclassified.

c. Air quality levels presently below secondary standards or area is unclassified.

d. December 31, 1982.

e. December 31, 1987.

f. July 31, 1985.

BILLING CODE 6560-01-M

40 CFR Part 180

[FRL 1485-5; OPP-300007B]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Inert Ingredient; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correction.

SUMMARY: This notice reinstates in the Code of Federal Regulations (CFR) an inert ingredient that was inadvertently dropped out of the CFR.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. John Shaughnessy, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW, Washington, DC 20460, 202/426-9425.

SUPPLEMENTARY INFORMATION: In FR Doc. 75-32972 appearing at page 57215, in the issue of Monday, December 8, 1975, an exemption from the requirement of a tolerance was established in § 180.1001(d) for residues of the inert ingredient alpha-alkyl(C₁₂C₁₈)-omega-hydroxypoly(oxyethylene)/

oxypropylene) heteric polymer in which the oxyethylene content averages 13-17 moles and the oxypropylene content averages 2-6 moles. The inert ingredient was subsequently published in the 1976 edition of the CFR but inadvertently was not printed in the 1977 and all subsequent CFR editions. This omission is being corrected by reinstating the dropped inert ingredient in alphabetical order in § 180.1001(d) to read as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

* * * * *
(d) * * *

Inert ingredients	Limits	Uses
* * * * *		
alpha-Alkyl(C ₁₂ -C ₁₈)-omega-hydroxypoly(oxyethylene)/oxypropylene) heteric polymer in which the oxyethylene content averages 13-17 moles and the oxypropylene content averages 2-6 moles.	Surfactants, related adjuvants of surfactants.

Dated: April 30, 1980.

Edwin L. Johnson,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 80-13892 Filed 5-5-80; 8:45 am]

BILLING CODE 6560-01-M

40 CFR Part 180

[PP 8F2106/R248; FRL 1485-2]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Propanil**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: This rule establishes tolerances for residues of the herbicide propanil on wheat grain at 0.2 parts per million (ppm) and wheat straw at 0.75 ppm. The amendment to the regulations was requested by the Rohm & Haas Co. This rule establishes maximum permissible levels for residues of the herbicide on wheat grain and wheat straw.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW, Washington, DC 20460, (202-755-2196).

SUPPLEMENTARY INFORMATION: On March 25, 1980, the EPA published a notice of proposed rulemaking in the Federal Register (45 FR 19282) in response to a pesticide petition (PP 8F2106) submitted to the Agency by Rohm & Haas Co., Independence Mall West, Philadelphia, PA 18105. This petition proposed that 40 CFR 180.274 be amended by the establishment of tolerances for combined residues of the herbicide propanil (3',4'-dichloropropionanilide) and its metabolites (calculated as propanil) in or on the raw agricultural commodities wheat grain at 0.2 ppm and wheat straw at 0.75 ppm. No comments or requests for referral to an advisory committee were received in response to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.274 should be adopted without change, and it has been determined that this regulation will protect the public health.

Any person adversely affected by this regulation may, on or before June 6, 1980, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St., SW, Washington, DC 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the

hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Under Executive Order 12044, EPA is required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. EPA labels these other regulations "specialized". This regulation has been reviewed, and it has been determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

Effective on the date of publication in the Federal Register, Part 180, Subpart C, § 180.274 is amended by adding tolerances for residues of propanil on wheat grain at 0.2 ppm and wheat straw at 0.75 ppm as set forth below.

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: April 29, 1980.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Part 180, Subpart C, § 180.274 is revised (1) in the heading by changing "3',4'-dichloropropionanilide" to its common name "propanil," (2) by editorially reformatting the section into an alphabetized columnar listing, and (3) by alphabetically inserting wheat grain at 0.2 ppm and wheat straw at 0.75 ppm in the table as follows:

§ 180.274 Propanil; tolerances for residues.

Tolerances are established for combined residues of the herbicide propanil (3',4'-dichloropropionanilide) and its metabolites (calculated as propanil) in or on the following raw agricultural commodities:

Commodity	Parts per million
Cattle, fat	0.1(N)
Cattle, mbypp	0.1(N)
Cattle, meat	0.1(N)
Eggs	0.05(N)
Goats, fat	0.1(N)
Goats, mbypp	0.1(N)
Goats, meat	0.1(N)
Hogs, fat	0.1(N)
Hogs, mbypp	0.1(N)
Hogs, meat	0.1(N)
Horses, fat	0.1(N)
Horses, mbypp	0.1(N)
Horses, meat	0.1(N)
Milk	0.05(N)
Poultry, fat	0.1(N)
Poultry, mbypp	0.1(N)
Poultry, meat	0.1(N)
Rice	2
Rice, straw	75(N)

Sheep, fat	0.1(N)
Sheep, mbypp	0.1(N)
Sheep, meat	0.1(N)
Wheat, grain	0.2
Wheat, straw	0.75

BILLING CODE 6560-01-M

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**Public Health Service****42 CFR Part 57****Grants for Construction of Teaching Facilities, Educational Improvements, Scholarships and Student Loans; Grants for Nurse Practitioner Traineeship Programs****AGENCY:** Public Health Service, HEW.**ACTION:** Interim-final regulations.

SUMMARY: These regulations set forth requirements for grants to schools of nursing, medicine, and public health, to public or nonprofit private hospitals, and to other nonprofit entities to meet the costs of traineeships for the training of nurse practitioners. Trainees must reside in health manpower shortage areas and sign a commitment with the Secretary to practice full-time as nurse practitioners in areas having shortages of primary medical care manpower.

DATES: These regulations are effective May 6, 1980. As discussed below, comments on the regulations are invited. To be considered, comments must be received on or before July 7, 1980.

ADDRESS: Written comments may be addressed to the Director, Bureau of Health Professions, Health Resources Administration, 3700 East West Highway, Center Building, Hyattsville, Maryland 20782. All comments received will be available for public inspection and copying at the above address weekdays (Federal Holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Dr. Mary S. Hill, Chief, Nursing Education Branch, Division of Nursing, Bureau of Health Professions, Room 3-50 at the above address (Telephone 301-436-6681).

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, is adding a new Subpart AA to Part 57 of Title 42 of the Code of Federal Regulations to implement section 822(b) of the Public Health Service Act (the Act). Section 822(b) of the Act authorizes the Secretary to make grants to schools of nursing, medicine, and public health,

public or nonprofit private hospitals, and other nonprofit entities to establish and operate traineeship programs to train nurse practitioners. The trainees must be residents of health manpower shortage areas designated under section 332 of the Act and enter into a commitment with the Secretary to practice as nurse practitioners in areas having shortages of primary medical care manpower.

Eligible Entities—§ 57.2603. This section requires, as a condition of eligibility, that an entity provide a nurse practitioner training program which meets the guidelines governing grants for nurse practitioner training programs, 42 CFR Part 57, Subpart Y, Appendix. The Secretary believes that this requirement will assist in assuring that individuals receiving traineeships will be receiving high quality training, and will further the congressional interest in developing nurse practitioner programs which meet these guidelines.

This congressional direction is evidenced in both Titles VII and VIII of the Act and in the placement of the statutory authority for this program in section 822 of the Act, which provides support for projects to plan, develop, operate, expand, or maintain nurse practitioner training programs which are required to meet these guidelines.

Eligibility of Trainees—§ 57.2610. Section 822(b) of the Act requires each trainee to enter into a commitment with the Secretary to practice as a nurse practitioner in a health manpower shortage area designated under section 332 of the Act. Section 57.2614 of the regulations sets forth the requirements for this commitment, including a provision that the obligated practice must be conducted in a health manpower shortage area designated as being short of primary medical care manpower.

Under section 332 of the Act, the Secretary has designated areas as being short of health manpower personnel in specific specialties: dentistry, psychiatry, vision care, pharmacy, podiatry, and primary care. The primary medical care health manpower shortage areas include nurse practitioners since nurse practitioners deliver primary care services. (See 42 CFR Part 5).

Evaluation of Applications—§ 57.2605 describes how applications are evaluated. The Secretary will give first funding preference to applicants who provide nurse practitioner training in schools of nursing that award academic credit to students who complete the program. Second preference in funding is given to applicants other than schools of nursing that award academic credit to students who complete the program.

This approach recognizes that nurse

practitioner training is advanced training in nursing emphasizing physical and psychosocial assessment and management of care. Schools of nursing offering advanced training in the physical and behavioral sciences and in the various nursing specialties have superior faculty and clinical resources for extending nursing competence to include the provision of primary care.

The second funding preference recognizes that courses offering academic credit undergo a more thorough internal review process than non-credit training. Moreover, the awarding of credit by the grantee institution supplements the trainee's previous nursing education with a recognized standard of scholarship which enhances the trainee's opportunity for career mobility. Therefore, the Department believes that academic programs provide a superior training experience.

Repayment—§ 57.2615 of the regulations requires the trainee to repay to the United States an amount equal to all traineeship support received, plus interest, if the trainee fails to begin or to complete the period of required practice.

However, § 57.2616 of the regulations provides for suspension or cancellation of the practice or repayment obligation. The obligation may be suspended for a maximum period of two years if the trainee requires additional time to secure employment in a health manpower shortage area or if the trainee's personal circumstances temporarily prevent practice or repayment. The obligation may be cancelled if the trainee becomes totally and permanently disabled or dies. Publication of these regulations clarifies the repayment requirement and extends the repayment period from 12 months to 36 months. Immediate extension of the repayment time through publication of these regulations will ease the otherwise heavy financial burden on nurse practitioners who do not meet the service commitment.

The regulations are needed to tell trainees about the period they are required to practice as nurse practitioners in a designated health manpower shortage area. The regulations also tell the trainees how long they have to pay back funds if they fail to fulfill their commitment, and under what circumstances their obligation to practice in a shortage area or repay the training support funds may be cancelled or suspended.

The Secretary has determined, in accordance with 5 U.S.C. 533 and Department policy, that it would be contrary to public interest to follow proposed rulemaking procedures or to delay the effective date of these

regulations. Although proposed rulemaking procedures were omitted, interested persons are invited to submit written comments on these regulations to the Director of the Bureau of Health Professions at the address given above.

The regulations will be effective May 6, 1980.

Accordingly, Subpart AA is added to Part 57 of Title 42 of the Code of Federal Regulations as set forth below.

Dated: April 18, 1980.

Charles Miller,

Acting Assistant Secretary for Health.

Approved: April 30, 1980.

Patricia Roberts Harris,
Secretary.

Subpart AA—Grants for Nurse Practitioner Traineeship Programs

Sec.

Authority: Sec. 215 of the Public Health Service Act, 58 Stat. 690, as amended by 63 Stat. 35 (42 U.S.C. 216); sec. 822(b) of the Public Health Service Act, 91 Stat. 393 (42 U.S.C. 296m).

§ 57.2601 To what programs do these regulations apply?

These regulations apply to grants awarded to schools of nursing, medicine, and public health, public or nonprofit private hospitals, and other nonprofit entities to meet the costs of traineeships under section 822(b) of the Public Health Service Act.

§ 57.2602 Definitions.

"Act" means the Public Health Service Act, as amended.

"Health manpower shortage area" means a geographic area, population group, public or nonprofit private medical facility, or other public facility which has been determined by the Secretary to have a shortage of health manpower under section 332 of the Act and its implementing regulations (42 CFR Part 5).

"National of the United States" means a citizen of the United States or a person who, though not a citizen of the United States, owes permanent allegiance to the United States (as defined in 8 U.S.C. 1101(a)(22), the Immigration and Nationality Act).

"Nonprofit," as applied to any entity, means an entity no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

"Nurse practitioner" means a registered nurse who has successfully completed a formal program of study designed to prepare registered nurses to perform in an expanded role in the delivery of primary health care, including the ability to:

(a) Assess the health status of individuals and families through health and medical history taking, physical examination, and defining health and developmental problems;

(b) Institute and provide continuity of health care to clients (patients), work with the client to insure understanding of and compliance with the therapeutic regimen within established protocols, and recognize when to refer the client to a physician or other health care provider;

(c) Provide instruction and counseling to individuals, families, and groups in the areas of health promotion and maintenance, including involving these persons in planning for their health care; and

(d) Work in collaboration with other health care providers and agencies to provide and, where appropriate, coordinate services to individuals and families.

"Nurse practitioner training program" means a full-time educational program for registered nurses (irrespective of the type of school of nursing in which the nurses received their training) which meets the guidelines prescribed by the Secretary in 42 CFR Part 57, Subpart Y, Appendix. The objective of this program is the education of nurses (including pediatric and geriatric nurses) who will, upon completion of their studies in this program, be qualified to perform effectively in an expanded role in the delivery of primary health care, including care in homes, in ambulatory and long-term care facilities, and in other health care institutions.

"Primary health care" means care which may be initiated by the client or provider in a variety of settings and which consists of a broad range of personal health care services, including:

(a) Promotion and maintenance of health;

(b) Prevention of illness and disability;

(c) Basic care during acute and chronic phases of illness;

(d) Guidance and counseling of individuals and families; and

(e) Referral to other health care providers and community resources when appropriate.

"School of Medicine" or "school of public health" means a school of medicine or a school of public health as defined in section 701(4) of the Act, which is accredited under section 772(b) of the Act.

"School of nursing" means a collegiate, associate degree, or diploma school of nursing, as defined in section 853 of the Act.

"Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare (HEW), to whom the authority involved has been delegated.

"State" means any one of the several states of the United States, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands or the Trust Territory of the Pacific Islands.

"Trainee" means a student who is receiving a traineeship from a grant under this subpart.

§ 57.2603 Who is eligible to apply for a grant?

Any school of nursing, medicine, or public health, public or nonprofit private hospital, or other public or nonprofit private entity which is located in a State and which provides nurse practitioner training programs is eligible to apply for a grant.

§ 57.2604 How to apply for a grant?

(a) The Secretary will periodically notify the public about the availability of grant applications and the deadlines for submitting them. An applicant must submit an application in the form and at the time that the Secretary requires.

(b) The application must be signed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

§ 57.2605 How will applications be evaluated?

(a) The Secretary will approve projects which will best promote the purposes of section 822(b) of the Act.

The Secretary will take into consideration, among other factors:

(1) the adequacy of the qualifications and experience of the program director, staff and faculty to carry out the program; and

(2) the administrative and managerial ability of the applicant to carry out the proposed project.

(b) In determining priority for funding applicants approved under paragraph (a) of this section, the Secretary will give first preference to applicants who provide nurse practitioner training in schools of nursing that award academic credit to students who complete the program. The Secretary will give second preference to applicants other than schools of nursing that award academic credit to students who complete the program.

§ 57.2606 How long does grant support last?

(a) The notice of grant award specifies the length of time HEW intends to support the project without requiring the project to re compete for funds. This period, called the project period, will not exceed 3 years.

(b) Generally, the grant will initially be funded for one year, and subsequent continuation awards will also be for one year at a time. A grantee must submit a separate application to have the support continued for each subsequent year. Decisions regarding continuation awards and the funding levels of these awards will be made after consideration of such factors as the grantee's progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by the Secretary that continued funding is in the best interest of the Government.

(c) Neither the approval of any application nor the award of any grant commits or obligates the United States in any way to make any additional, supplemental, continuation or other award with respect to any approved application or portion of an approved application.

(d) The Secretary may permit unobligated grant funds remaining in the grant account at the close of a budget period to be carried forward for obligation during a subsequent budget period, provided a continuation award is made for that period and the Secretary's written approval is obtained. A budget period is an interval of time (usually 12 months) into which the project period is divided for funding and reporting purposes.

§ 57.2607 How is the amount of the award determined?

The amount of the award to the grantee will be determined on the basis

of the Secretary's estimate of the sum necessary during the budget period to cover the trainees' costs of tuition, reasonable living and moving expenses (including stipends), books, fees, and necessary transportation.

§ 57.2608 For what purposes may grant funds be spent?

(a) Any funds granted under this subpart shall be spent solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed in Subpart Q of 45 CFR Part 74.

(b) Grantees may not spend grant funds for sectarian instruction or for any religious purpose.

§ 57.2609 What financial support is available to trainees?

The grantee must pay each trainee, from grant funds, the entire cost of tuition and fees for the program, and a stipend and allowance, as set forth by the Secretary in the notice of grant award. This allowance must include costs incurred for:

(a) Books and equipment necessary to the course of study;

(b) Initial necessary travel from the trainee's residence to the training site;

(c) Travel required for clinical practice during the training program; and

(d) Necessary travel and moving expenses from the training site to the site of the obligated practice.

§ 57.2610 Who is eligible for financial assistance as a trainee?

To be eligible for a traineeship, an individual must:

(a) Be a national of the the United States or a permanent resident of the Trust Territory of the Pacific Islands or the Northern Mariana Islands, or a lawful permanent resident of the United States, Puerto Rico, the Virgin Islands, or Guam;

(b) Be accepted for enrollment, or be enrolled, as a full-time student in a nurse practitioner training program;

(c) Be a resident of a health manpower shortage area; and

(d) Have signed a commitment with the Secretary in accordance with § 57.2614.

§ 57.2611 What are the requirements for traineeships and the appointment of trainees?

(a) The grantee must require each trainee to complete a statement of appointment by the beginning of the training period. The program director must sign the statement of appointment and the grantee must retain it for three years.

(b) The grantee must require each trainee to agree to respond to

communications from the Department of Health, Education, and Welfare regarding the trainee's professional activities for five years following completion of the training program for which the traineeship is awarded.

(c) The grantee must require each trainee to sign a commitment with the Secretary to practice as a nurse practitioner in a health manpower shortage area, designated as being short of primary medical care health manpower. The commitment must meet the requirements of § 57.2614.

(d) The grantee may not require trainees to perform any work which is not an integral part of the nurse practitioner training program and required of all students in the program.

(e) the grantee may not discriminate on the basis of religion in the admission of individuals to its training program.

§ 57.2612 Duration of traineeships.

Initial appointments to traineeships must be made for a full academic year, not to exceed 12 months, except that a shorter appointment may be made when necessary to enable the trainee to complete the training program.

Appointments may be extended on a year-to-year basis. The total period of support for any trainee may not exceed 24 months.

§ 57.2613 Termination of traineeships.

The grantee must terminate a traineeship:

(a) Upon request of the trainee;

(b) If the trainee is no longer enrolled fulltime in the nurse practitioner training program for which the trainee was receiving a traineeship under this subpart; or

(c) If the trainee fails to maintain the level of academic standing required by the institution's standards and practices for fulltime enrollment.

§ 57.2614 What must a trainee agree to do in return for traineeship support?

(a) *General.* Each trainee must sign a commitment with the Secretary to practice as a nurse practitioner on a full-time basis (at least 40 hours per week) in a health manpower shortage area designated as having a shortage of primary medical care manpower. At the end of the training program, the trainee must inform the Secretary of the location where he or she will be serving the practice commitment. The trainee must also inform the Secretary of any changes in name, address, and employment during this period of practice.

(b) *Duration of practice.* The period for which a trainee must agree to practice is equal to twelve months for each academic year for which the trainee receives support from grant funds. Once practice has begun, it must

be continuous for the entire period of practice required by the commitment, unless the Secretary permits suspension of the obligation in accordance with § 57.2616.

(c) *Beginning of practice.* The trainee must begin the practice described in paragraph (a) of this section within three months of the completion of the training program.

§ 57.2615 What are the consequences if the trainee fails to comply with the terms of the commitment?

If a trainee fails to begin or complete the period of practice required by the commitment under § 57.2614, the trainee must repay the traineeship support to the United States Treasury. The amount of repayment must equal the sum of all traineeship support received, together with interest at the maximum legal prevailing rate in effect on the date the trainee initially received traineeship assistance, less an amount which bears the same ratio to this sum as the number of months the trainee has practiced in a health manpower shortage area, designated as having a shortage of primary medical care manpower, bears to the total number of months of practice required under the commitment. The trainee must pay the amount owed within 36 months of the date on which he or she failed to begin or complete the period of required practice, as determined by the Secretary.

§ 57.2616 When can the practice or payment obligation be cancelled or suspended?

(a) *Application for cancellation or suspension.* A trainee may seek cancellation or suspension of the commitment to practice or obligation to repay traineeship support by written request to the Secretary setting forth the basis, circumstances, and causes which support the requested action. The total period during which the practice or repayment obligation may be suspended may not exceed 2 years.

(b) *Conditions for suspension.* The Secretary may suspend any practice or repayment obligation whenever he or she finds good cause based on such factors as:

(1) The trainee's efforts to secure employment which satisfies the practice obligation;

(2) The trainee's present and estimated future financial resources and obligations; or

(3) The extent to which the trainee has problems of a personal nature, such as physical or mental disability, or terminal illness in the immediate family, which temporarily prevent the trainee from performing the obligation incurred.

(c) *Conditions for cancellation.* The Secretary may cancel any practice or repayment obligation:

- (1) Upon the death of the trainee;
- (2) If the trainee is found to be permanently and totally disabled as supported by whatever medical certification the Secretary may require. A trainee is totally and permanently disabled if he or she is unable to engage in any substantial gainful activity because of a medically determinable impairment which is expected to continue indefinitely or result in death.

§ 57.2617 What additional Department regulations apply to grantees?

Several other regulations apply to grantees. They include, but are not limited to:

- 42 CFR Part 50 PHS grant appeals process
- 45 CFR Part 16 Department grant appeals process
- 45 CFR Part 46 Protection of human subjects
- 45 CFR Part 74 Administration of grants
- 45 CFR Part 80 Nondiscrimination under programs receiving Federal assistance from the Department—Implements Title VI of the Civil Rights Act of 1964
- 45 CFR Part 81 Practice and procedure for hearings under Part 80
- 45 CFR Part 83 Nondiscrimination on the basis of sex in the admission of individuals to training programs
- 45 CFR Part 84 Nondiscrimination on the basis of handicapped in Federally assisted programs
- 45 CFR Part 86 Nondiscrimination on the basis of sex in Federally assisted education programs
- 45 CFR Part 91¹ Nondiscrimination on the basis of age in Department programs or activities receiving Federal financial assistance

§ 57.2618 What other record keeping, audit, and inspection requirements apply to grantees?

Each grantee must, in addition to the requirements of 45 CFR Part 74, meet the requirements of section 705 of the Act concerning record keeping, audit, and inspection.

§ 57.2619 Additional conditions.

The Secretary may impose additional conditions on any grant award before or at the time of any award if he or she determines that these conditions are necessary to assure or protect the advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

BILLING CODE 4110-83-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 70

[Docket No. FEMA-5712]

National Flood Insurance Program; Letter of Map Amendment for the City of Scottsdale, Ariz.

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Scottsdale, Arizona. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Scottsdale, Arizona, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, DC 20410 (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 045012A Panel 20, published on October 23, 1979, in 44 FR 61025, indicates that Lots 93 through 116, 132 through 141, 156 through 160, 166 through 183, and Tracts E, F, and G, Scottsdale Monterey Subdivision, Scottsdale, Arizona, as recorded in Book 200, Page 7, in the Office of the Recorder, Maricopa County, Arizona, are partially or totally within the Special Flood Hazard Area.

Map No. H & I 045012A Panel 20 is hereby corrected to reflect that Lots 93 through 106, 110 through 116, 132 through 141, 156 through 160, 166 through 174, 178 through 183, and Tracts E, F, and G of the above mentioned property are not within the Special Flood Hazard Area identified on January 9, 1976. These properties are in Zone B.

Map No. H & I 045012A Panel 20 is also hereby corrected to reflect that the existing structures on Lots 107 through 109 and 175 through 177 of the above mentioned property are not within the Special Flood Hazard Area identified on January 9, 1976. These structures are in Zone B.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1968 (33 FR 17804, November 28, 1969), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator 44 FR 20963)

Issued: April 3, 1980.

Gloria M. Jimenez,
Federal Insurance Administrator.

BILLING CODE 6718-03-M

44 CFR PART 70

[Docket No. FEMA-5712]

**National Flood Insurance Program;
Letter of Map Amendment for the City
of New London, Conn.**

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of New London, Connecticut. It has been determined by the Federal Insurance Administrator, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of New London, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, DC 20410 (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 090100A Panel 06, published on October 23, 1979 in 44 FR 61005 indicates that the Winthrop Urban

Renewal Area, CONN R-45, Disposition Parcels K-1 and L-1 as shown on the survey prepared by Cahn Engineers, Incorporated dated March, 1979 and revised May 4, 1979, are partially within the Special Flood Hazard Area.

Map No. H & I 090100A Panel 06 is hereby corrected to reflect that those portions of the above mentioned properties that are at or above eleven (11) feet (Mean Sea Level) as shown on the above mentioned survey are not within the Special Flood Hazard Area identified on May 2, 1977. Those portions of the properties which are between eleven (11) feet (Mean Sea Level) and fourteen (14) feet (Mean Sea Level) are in Zone B. Those portions which are at or above fourteen (14) feet (Mean Sea Level) are in Zone C.

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FI-3012]

**National Flood Insurance Program;
Letter of Map Amendment for the
Unincorporated Area of Sussex
County, Del.**

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps were published identifying Special Flood Hazard Areas. This list included the Unincorporated Area of Sussex County, Delaware. It has been determined by the Federal Insurance Administrator, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the Unincorporated Area of Sussex County, Delaware, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, D.C. 20410 (202) 755-6570 or Toll Free Line (800) 424-8872.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638-6620 toll free.

The Map amendments listed below are in accordance with § 70.7(b):

Map No. H&I 100029A, Panel No. 34, published on June 29, 1977, in 42 FR 33207, indicates that Lot No. 31, as designated upon a Plot of Supplement No. 1 of the Culver Development of "North Shores", Unincorporated Area of Sussex County, Delaware, as recorded in Volume 948, Page 258, in the Office of the Recorder of Deeds of Sussex County, Delaware, is located within the Special Flood Hazard Area.

Map No. H&I 100029A, Panel No. 34, is hereby corrected to reflect that the existing structure located on the above-mentioned property is not within the Special Flood Hazard Area identified on October 6, 1976. The structure is in Zone C.

(National Flood Insurance Act of 1968 (Title XIII Of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator 44 FR 20963)

Issued: March 17, 1980.

44 CFR PART 70

[Docket No. FEMA-5712]

National Flood Insurance Program; Letter of Map Amendment for the County of Okaloosa, Fla.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final rule

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the County of Okaloosa, Florida. It has been determined by the Federal Insurance

Administrator, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the County of Okaloosa, Florida that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, D.C. 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free 800-424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b): Map No. H & I 120173, Panel 0008B published on October 23, 1979 in 44 FR 61014 indicates that the property located in Section 16, Township 1 South, Range 22 West, Okaloosa County, Florida, as recorded in the Warranty Deed, Book 874, Page 750, in the Office of Public Records of Okaloosa County, Florida, is within the Special Flood Hazard Area.

Map No. H & I 120173, Panel 0008B is hereby corrected to reflect that the existing structure located on the above property is not within the Special Flood Hazard Area identified on July 1, 1977. The structure is in Zone B.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 23, 1968 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator 44 FR 20963)

Issued: April 23, 1980.

[Docket No. FEMA-5712]

National Flood Insurance Program; Letter of Map Amendment for the City of Pembroke Pines, Fla.

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Pembroke Pines, Florida. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Pembroke Pines, Florida, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program

(NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b): Map No. H&I 120053 Panel 0002A, published on October 23, 1979, in 44 FR 61014, indicates that Lot 44, Block 6, Westview, Section Three, Part One Amended, Pembroke Pines, Florida, as recorded in Plat Book 86, Page 42 of the Public Records of Broward County, Florida, is within the Special Flood Hazard Area.

Map No. H&I 120053 Panel 0002A is hereby corrected to reflect that the existing structure located on the above property is not within the Special Flood Hazard Area identified on December 15, 1977. The structure is in Zone B.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 23, 1968 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator 44 FR 20963)

Issued: April 23, 1980.

Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map Number H & I 360231, Panel 0010C, published on October 23, 1979, in 44 FR 61008, indicates that the land

situated in the Town of Cheektowaga, Erie County, New York, being part of Lot Number 43, Township 10, Range 7 of Buffalo Creek Reservation and also being parts of Panels I and II as filed in the Erie County Clerk's Office under Cover Number 2274 and further recorded in the Deeds, Liber 8091, Pages 551 to 552 and Liber 8605, Pages 503 to 504, in the Office of the Erie County Clerk, Erie County, New York, is within the Special Flood Hazard Area.

Map Number H & I 360231, Panel 0010C, is hereby corrected to reflect that the portions of the above-mentioned property at or above 661.5 feet National Geodetic Vertical Datum are not within the Special Flood Hazard Area identified on June 16, 1978. These portions are in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

National Flood Insurance Program; Letter of Map Amendment for the City of Dickinson, N. Dak.

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Dickinson, North Dakota. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Dickinson, North Dakota, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program

(NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, telephone: (800) 638-6620.

The map amendments listed below are in accordance with S 70.7(b):

Map No. H & I 380117 Panel 0001B, published on October 23, 1979, in 44 FR 61025, indicates that the Mobile Home Sites on Lot 12, Block 3; Lots 7 through 11, Block 5; Lots 2, 3, and 26 through 30, Block 7; and Lots 17 and 18, Block 9, as shown on the Plans for Green Acres First Addition by L. W. Veigel and Company, P. C. and being an unplatted subdivision recorded as Document No. 173828 in Book A154, Pages 495 through 502, in the Office of the Register of Deeds, Stark County, North Dakota, are not within the Special Flood Hazard Area.

Map No. H & I 380117 Panel 0001B is hereby corrected to reflect that the above mentioned lots are within the Special Flood Hazard Area identified on June 1, 1978. These lots are in Zone A8.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FI-3012]

National Flood Insurance Program; Letter of Map Amendment for the City of Newark, Ohio

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps were published identifying Special Flood Hazard Areas. This list included the City of Newark, Ohio. It has been determined by the Federal Insurance Administrator, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Newark, Ohio that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related

financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, D.C. 20410 (202) 755-6570 or Toll Free Line (800) 424-8872.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, phone: (800) 638-6620 toll free.

The Map amendments listed below are in accordance with S70.7(b):

Map No. H&I 390335B, Panel No. 03, published on June 29, 1977, in 42 F.R. 33226 indicates that a 7.0453 and 11.7341 acre parcels of land, City of Newark, Licking County, Ohio, as recorded in Volume 795, Page 566 and Volume 783, Page 1004, in the Office of the Recorder of Deeds of Licking County, Ohio, are located within the Special Flood Hazard Area.

Map No. H&I 390335B, Panel No. 03, is hereby corrected to reflect that the existing K-Mart and Retail Stores structures, located on the above-mentioned property are not within the Special Flood Hazard Area identified on April 15, 1977. The structures are in Zone C.

(National Flood Insurance Act of 1968 (Title XIII Of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator 44 FR 20963).

Issued: March 24, 1980.

Gloria M. Jimenez,

Federal Insurance Administrator.

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FEMA-5712]

Letter of Map Amendment for Harris County, Tex., Under National Flood Insurance Program

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included Harris County, Texas. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for Harris County, Texas, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080)

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 480287B Panel 21, published on October 23, 1979, in 44 FR 61022, indicates that structures numbered 13 and 14 located on a 15.277 acre tract in the Daniel Harmon Survey A-315, and being a portion of unrestricted Reserve D, Block 12, Cypress Station, Section Two, Harris County, Texas, as recorded in Volume 222, Page 74, in the Office of the Clerk, Harris County, Texas, are within the Special Flood Hazard Area. The location of the structures are as shown on the Site Grading and Drainage Plan for Cypress Point by House Reh & Associates, dated November 2, 1978.

Map No. H & I 480287B Panel 2 is hereby corrected to reflect that structures numbered 13 and 14 of the above mentioned property are not within the Special Flood Hazard Area identified on July 30, 1976. These structures are in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 23, 1969 (33 FR 17804, November 28, 1968), as amended; 42

U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

Issued: April 23, 1980.

broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 480287B, Panel 41, published on October 23, 1979, in 44 FR 61022, indicates that Lots 1 through 7, Block 1; Lots 30 through 39, 70 and 71, Block 2; Lots 1, 28 through 62, and 87, Block 3; Lots 1, 2, 19 through 37 and 46 through 49, Block 4; all of Block 5; Lots 2 through 21, Block 6; Lots 1 through 5, Block 7; and Reserves A, B, G, and H, White Oak Bend, Section One, Harris County, Texas, as recorded in Volume 276, Page 70 of the Record Maps, in the Office of the Clerk, Harris County, Texas, are within the Special Flood Hazard Area.

Map No. H & I 480287B Panel 41 is hereby corrected to reflect that Lots 1 through 7, Block 1; Lots 30 through 39, 70, and 71, Block 2; Lots 1, 28 through 41, 46 through 62, and 87, Block 3; Lots 1, 2, 19 through 37, and 46 through 49, Block 4; all of Block 5; Lots 8 through 21, Block 6; and Lots 1 through 5, Block 7; and Reserves A, B, G, and H of the above mentioned property are not within the Special Flood Hazard Area identified on July 30, 1976. This property is in Zone C.

In addition, Lots 42 through 45, Block 3, and Lots 2 through 7, Block 6, of the above mentioned property are not within the Special Flood Hazard Area identified on July 30, 1976, with the exception of the 20-foot building setback line as shown on the recorded plat map cited above. This property is in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

Issued: April 23, 1980.

BILLING CODE 6718-03-M

44 CFR Part 70

[Docket No. FEMA-5712]

Letter of Map Amendment for the City of Mesquite, Tex., Under National Flood Insurance Program

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of Mesquite, Texas. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Mesquite, Texas, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 485490A Panel 05, published on October 23, 1979, in 44 FR 61022, indicates that Lots 1 through 10,

Block 24; and Lots 26 through 30, Block 25, Meadowdale No. 5, Mesquite, Texas, as recorded in Volume 78166, Page 1176, in the Office of the Recorder, Dallas County, Texas, are located within the Special Flood Hazard Area.

Map No. H & I 485490A Panel 05 is hereby corrected to reflect that the structures on the above mentioned property are not within the Special Flood Hazard Area identified on September 26, 1975. These structures are in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

Issued: April 23, 1980.

[Docket No. FEMA-5712]

Letter of Map Amendment for the City of Redmond, Wash., Under National Flood Insurance Program

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps identifying Special Flood Hazard Areas have been published. This list included the City of

Redmond, Washington. It has been determined by the Federal Insurance Administrator after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Redmond, Washington, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for the property as a condition of Federal or federally-related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, S.W., Washington, DC 20410, (202) 755-6570 or toll free line (800) 424-8872 (in Alaska and Hawaii call toll free (800) 424-9080).

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally-related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034. Telephone: (800) 638-6620.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 530087 Panel 0005B, published on October 23, 1979, in 44 FR 61027, indicates that Buildings "J" through "L" and "O" through "Q" and the East Laundry Building, recorded as Document Number 7808291044 in Volume 23 of Condominiums, Pages 22 through 29; and as Document Number 7902080801 in Volume 28 of Condominiums, Pages 48 and 49, in the Office of the Recorder, King County, Washington, are within the Special Flood Hazard Area.

Map No. H & I 530087 Panel 0005B is hereby corrected to reflect that the above mentioned structures are not within the Special Flood Hazard Area identified on February 1, 1979. These structures are in Zone B.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; delegation of authority to Federal Insurance Administrator, 44 FR 20963)

Issued: April 23, 1980.

Letter of Map Amendment for the City of Oshkosh, Wis., Under National Flood Insurance Program

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which maps were published identifying Special Flood Hazard Areas. This list included the City of Oshkosh, Wisconsin. It has been determined by the Federal Insurance Administrator, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Oshkosh, Wisconsin, that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, SW., Washington, DC 20410, (202) 755-6570 or Toll Free Line (800) 424-8872.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same

policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, phone: (800) 638-6620 toll free.

The map amendments listed below are in accordance with § 70.7(b):

Map No. H & I 550511B, Panel No 01, published on October 23, 1979, in 44 FR 61020, indicates that part of the South East ¼ of the North East ¼ of Section 22, Township 18 North, Range 16 East, lying East of the East line of Josslyn Street, West of Campbell Creek, and North of line that is 2107.0 feet South of the North line of the North East ¼ of said Section 22, 6th Ward, City of Oshkosh, Winnebago County, Wisconsin, recorded as Document Nos. 471814 and 468543 in the Office of the Register of Deeds of Winnebago County, Wisconsin, is partially located within the Special Flood Hazard Area.

Map No. H & I 550511B, Panel 01, is hereby corrected to reflect that the portion of the above-mentioned property lying North of the line that is 1900.60 feet South of the North line of the North East ¼ of Section 22, which lies above elevation (749.5 feet National Geodetic Vertical Datum), is not within the Special Flood Hazard Area identified on May 16, 1977. Portions of the property are in Zone B and Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator, 44 FR 20963)

Issued: March 24, 1980.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

45 CFR Parts 205 and 235

State Plan and Federal Matching Funds for State and Local Training

AGENCY: Social Security Administration, HEW.

ACTION: Final rules.

SUMMARY: These rules describe the requirements for training of State and local staff in the financial assistance programs under title I, IV-A, X, XIV, or XVI (AABD) of the Social Security Act. They also specify the conditions under which the States can receive Federal matching funds for monies spent on training and staff development. These rules are designed to improve the management and effectiveness of the financial assistance programs and to assure that training expenditures achieve the purposes for which they are authorized.

EFFECTIVE DATE: These regulations shall be effective September 2, 1980.

FOR FURTHER INFORMATION CONTACT: Miss Evelyn Greene, Social Security Administration, Office of Family Assistance, 330 C Street, S.W., Washington, D.C. 20201, telephone (202) 245-2090.

SUPPLEMENTARY INFORMATION:

Background

Two notices on Federal matching funds for State and local training were published in the *Federal Register* on January 11, 1977. A Notice of Intent (42 FR 2440) requested comments on the structure of the regulations. Specifically, we asked if training rules for (1) the Medical Assistance program, (2) the Social Services program, and (3) the Financial Assistance Payments programs should be consolidated, or whether each program should have separate rules for training.

Twenty-one commenters favored consolidating the training rules for these three programs and eight commenters favored separate rules. This is now a moot point because the Social and Rehabilitation Service which

administered these three programs was abolished as part of this Department's reorganization of March 8, 1977. The Medical Assistance program is now administered by the Health Care Financing Administration and the Social Services program is now administered by the Administration for Public Services. The Financial Assistance Payments programs are now administered by the Social Security Administration. In view of this new structure it is no longer feasible to have consolidated training rules.

A Notice of Proposed Rule Making (NPRM) was also published on January 11, 1977 (42 FR 2445), requesting comments on proposed training rules for the financial and medical assistance programs. Since that time training rules for the social services program and the medical assistance program have been published in 45 CFR Part 228, Subpart H, and 42 CFR 432.1, 432.30-432.32; 432.50-432.55, and 432.60, respectively. The training rules for social services programs under title I, IV-A, X, XIV, or XVI (AABD) in Guam, Puerto Rico, and the Virgin Islands are currently in § 205.202.

The attached final rules affect the financial assistance programs administered under title I, IV-A, X, XIV, or XVI (AABD) of the Social Security Act. The comments received on the NPRM are discussed under the subheading entitled Discussion of Comments.

The training rules for the social services programs in Guam, Puerto Rico, and the Virgin Islands remain in § 205.202. The amended training rules for the financial assistance programs in all jurisdictions are in §§ 235.60-235.66.

Delayed Effective Date

We are providing a 120 day delayed effective date for these regulations. This is being done so that any States that have already started training programs for the current fiscal year may complete them before these rules become effective.

Scope of Final Rules

1. Section 235.60 explains that the regulations contain the State plan requirements and the conditions for Federal financial participation (FFP) for State and local training costs under title I, IV-A, X, XIV, or XVI (AABD) of the Social Security Act.

2. Section 235.61 defines terms used throughout §§ 235.60-235.66.

3. Section 235.62 sets forth the State plan requirements for a training program for agency personnel and for persons preparing for employment. Among other requirements, the training program must

include initial in-service training for newly appointed staff and continuing agency training opportunities for personnel to improve the operation of the program.

4. Section 235.63 states the conditions under which FFP is available for training programs provided personnel employed in all positions, volunteers, and persons preparing for employment by the State or local agency administering the program.

This section also states the conditions under which FFP is available in payments for services rendered under grants to education institutions.

5. Section 235.64 provides the rates of FFP, and describes the activities and costs that are matchable as training expenditures.

6. Section 235.65 states that salaries of supervisors and employment of students on a temporary basis are not considered training expenses and, therefore, FFP is not available for these activities as training costs. However, expenditures for these activities may be matchable as administrative costs.

7. Section 235.66 explains when public funds may be considered as the State's share in claiming Federal reimbursement. When public funds are appropriated directly to the State or local agency, or transferred from another public agency, or are Federal funds authorized by Federal law to be used to match other Federal funds they may be considered as the State's share.

This section also explains when funds donated from private sources may be considered as the State's share in claiming Federal reimbursement. When private funds are donated to the State or local agency without any restrictions and do not revert to the donor's use, these funds may be considered as the State's share.

Discussion of Comments

Interested persons were given the opportunity to submit data, views, or arguments with regard to the Notice of Proposed Rule Making published on January 11, 1977 (42 FR 2445). A number of comments were received from Federal, State, and local agencies and organizations and private citizens. Summarized comments and our responses follow:

1. Coordination With Human Service Agencies

Comment: A requirement to coordinate the State agency training program with other human service agencies was supported by two commenters and opposed by four commenters.

Response: The arguments that implementation of a requirement for coordination would be unproductive and unworkable were persuasive. It would be difficult to measure compliance and to describe in regulations the nature and scope of coordination required. Therefore, we have not provided for this requirement. This is an area in which voluntary action will be encouraged.

2. Definitions—§ 235.61 (§ 205.202(b) in the NPRM)

Comment: Definitions of "orientation" and "part-time training" are confusing and, when tied to matchable cost, restrict the agency in carrying out essential in-service training activities.

Response: The definition of "orientation" has been eliminated, and the definition of "part-time training" has been clarified. A definition of "initial in-service training" has been substituted for the definition of "orientation."

Federal financial participation flows from the definition of "initial in-service training," and assists the State agencies in developing and implementing essential training activities for new employees.

Comment: One commenter felt that the word "grant" was a misnomer to describe the agreement between the State agency and an educational institution for training provided by the educational institution. "Contract" would be a more accurate word.

Response: "Grant" is used because it is the term used in section 403(a)(3)(A) of the Social Security Act authorizing grants to educational institutions. The definition has not been changed.

3. State Plan Requirements—§ 235.62 (§ 205.202(c) in the NPRM)

Comment: Nine commenters opposed the elimination of the State plan requirement for a training program, stating that a mandated training program represented a Federal commitment to develop and maintain qualified staff resources that are needed to operate a quality program. None of the commenters expressed support of the elimination of the State plan requirement. Seven commenters requested that the regulation include a requirement providing that the State submit an annual training plan to the Department.

Response: The two sets of comments are related. A clear distinction had not been made between a requirement for a training program and a requirement for a training plan. We have interpreted these comments as requesting a Federal mandate for training beyond that expressed in the proposed revision. The State plan requirement for a training

program has been retained in § 235.62 as necessary for the proper and efficient administration of the State plan. This requirement is based on section 402(a)(5) of the Social Security Act for the AFDC program, and parallel provisions for the other financial assistance programs. This requirement commits the State to have a training program which supports the financial assistance programs under the titles of this regulation.

The final rules also require an annual training plan. The training plan is an operational tool for the State in carrying out its training program. We believe that the training plan will be a useful tool that can be used by the State and Federal staff to monitor, evaluate, and improve the training program.

4. Conditions for FFP—§ 235.63 (§ 205.202(d) in the NPRM)

Comment: There were two objections to requiring schools to have accreditation status as a condition for providing training for the State agency under grants to educational institutions. One commenter supported this requirement.

Response: We believe that this requirement provides assurance of a basic level of quality, and we have retained it.

Comment: There was objection to the authority of the panel which evaluates grants to terminate a grant. It was felt that this should be a State responsibility.

Response: Mandatory participation by Federal staff in the evaluation process has been deleted. The State agency and educational institution will carry responsibility for this process. Federal staff may be involved in the monitoring of the use of funds for educational grants as part of ongoing technical assistance and consultation responsibilities.

Comment: Under financial assistance to students, use the same language as in title XX policies when those policies are consistent with title XX.

Response: Under § 235.63, financial assistance to students, suggested changes have been made for clarity.

Comment: Allow six-months instead of thirty-days availability for a person to be employed.

Response: It is the intent of these rules that persons trained move into employment upon completion of the training. States are expected to minimize the length of time between completion of training and employment. Under § 235.63(b)(6), the person trained is not required to be available for an offer of employment for a period longer

than two months after training is completed.

Comment: Allow the State agency more discretion in determining exemptions from fulfilling commitments after full-time training.

Response: Under § 235.63(b)(1), the State has been allowed more discretion in determining when a person can be exempted from fulfilling a commitment for employment.

5. Activities and Costs Matchable as Training Expenditures—§ 235.64 (§ 205.202(c) in the NPRM)

Comment: Twenty-four commenters opposed the changes in the Federal reimbursement for expenditures in providing in-service training. The complex and changing nature of the financial assistance programs and the lack of formal educational programs to prepare staff for the specific duties of the programs make it necessary for the State agency to assume the major responsibility for training the financial assistance staff.

Response: These rules are intended to encourage and strengthen the State agency's training activities. Therefore, the changes that have been made authorize Federal matching funds for most of the same activities funded under the current regulations. Changes from the Notice of Proposed Rule Making allow FFP in: salaries for initial in-service training, salaries for full-time, short-term training of four or more consecutive work weeks, travel and per diem for State agency employees in training sessions away from the work site, and costs of maintaining and operating the agency library.

6. Activities and Costs not Matchable as Training Expenditures—§ 235.65 (§ 205.202(f) in the NPRM)

Comment: Allow FFP in expenditures for attendance at conferences sponsored by professional organizations.

Response: State staff development personnel may determine that the agenda of a professional conference will provide a useful training experience for selected staff. If such agenda or part of the agenda meets an identified agency training objective as part of the agency's continuing training program, travel and per diem are allowable under § 235.64(b)(2).

Comment: Allow FFP in salaries of students employed in summer work training programs.

Response: Costs of training students in these programs, other than salary costs, are reimbursable as training costs. The value of these programs is not being questioned. However, the primary purposes of such programs, recruitment

and selection, are considered to be administrative expenses rather than training expenses.

7. Sources of State Funds—§ 235.66
(§ 205.202(g) in the NPRM)

Comment: Eliminate restrictions on private donations so that policy will be consistent with title XX policy. This would allow training to be provided by a donor if the donor is a non-profit organization, and it is an independent decision of the State agency to purchase the training.

Response: The provision has not been changed. A change would not comport with the intent of the laws governing the financial assistance programs.

Comment: Allow private donations on the same basis as public donations.

Response: This question will need further study. Previous review of this question resulted in the decision that this change would require legislation.

We carefully considered each comment and suggestion in preparing these final rules. We believe that the issues have been addressed, and that these final rules are responsive to State agency training needs. Accordingly, with these clarifying and editorial changes, these rules are adopted as set forth below.

(Secs. 2, 3, 402, 403, 1002, 1003, 1402, 1403, 1602, and 1603, Social Security Act as amended; 49 Stat. 620 as amended, 49 Stat. 621, as amended, 49 Stat. 627, as amended, 49 Stat. 628 as amended, 49 Stat. 645 as amended, 49 Stat. 646, as amended, 49 Stat. 647, as amended, 64 Stat. 555, as amended, 76 Stat. 198, as amended, 76 Stat. 200, as amended; 42 U.S.C. 302, 303, 602, 603, 1202, 1203, 1302, 1352, 1353, 1382, and 1383)

(Catalog of Federal Domestic Assistance program No. 13.761, Public Assistance State and Local Training)

Dated: February 25, 1980.

William J. Driver,
Commissioner of Social Security.

Approved: April 30, 1980.

Patricia Roberts Harris,
Secretary of Health, Education, and Welfare.

Part 205 and Part 235, Chapter II, Title 45 of the Code of Federal Regulations are amended as set forth below:

**PART 205—GENERAL
ADMINISTRATION—PUBLIC
ASSISTANCE PROGRAMS**

1. Section 205.202 is amended by adding introductory text and by revising the introductory text of paragraph (a) to read as follows:

§ 205.202 Staff development.

These rules apply only to the social services programs in Guam, Puerto Rico,

and the Virgin Islands. Rules for the financial assistance programs under title I, IV-A, X, XIV, or XVI (AABD) in all jurisdictions are found in Part 235, §§ 235.60–235.66 of this title.

(a) *State plan requirements.* A State plan for social services programs in Guam, Puerto Rico, or the Virgin Islands under title I, IV-A, X, XIV, or XVI (AABD) of the Social Security Act must provide for a staff development program for personnel in all classes of positions and for volunteers, to improve the operation of the State program and to assure a high quality of service including:

* * * * *

**PART 235—ADMINISTRATION OF
FINANCIAL ASSISTANCE PROGRAMS**

2. Part 235 is amended by adding new §§ 235.60 through 235.66 to read as follows:

Sec.

235.60 Federal financial participation (FFP) for State and local training.

235.61 Definition of terms.

235.62 State plan requirements for training programs.

235.63 Conditions for FFP.

235.64 FFP rates, and activities and costs matchable as training expenditures.

235.65 Activities and costs not matchable as training expenditures.

235.66 Sources of State funds.

§ 235.60 Federal financial participation (FFP) for State and local training.

Sections 235.61 through 235.66 contain (a) State plan requirements for training programs and (b) conditions for Federal financial participation (FFP) for training costs under the State plans. These sections apply to the State plans for the financial assistance programs in all jurisdictions under title I, IV-A, X, XIV, or XVI (AABD) of the Social Security Act.

§ 235.61 Definition of terms.

For purposes of §§ 235.60–235.66—
“Act” means the Social Security Act, as amended.

“A grant to an educational institution” means payments to an educational institution for services rendered under a time limited agreement between the State agency and the eligible educational institution which provides for the training of State or local agency employees or persons preparing for employment with the State or local agency.

“A training program” is the method through which the State agency carries out a plan of educational and training activities to improve the operation of its programs.

(a) “Initial in-service training” means a period of intensive, task-oriented training to prepare new employees to assume job responsibilities.

(b) “Continuing training” means an on-going program of training planned to enable employees to (1) reinforce their basic knowledge and develop the required skills for the performance of specific functions, and (2) acquire additional knowledge and skill to meet changes such as enactment of new legislation, development of new policies, or shifts in program emphasis.

(c) “Full-time training” means training that requires employees to be relieved of all responsibility for performance of current work to participate in a training program.

(d) “Part-time training” means training that allows employees to continue full time in their jobs or requires only partial reduction of work activities to participate in a training program outside of the State or local agency.

(e) “Long-term training” means training for eight consecutive work weeks or longer.

(f) “Short-term training” means training for less than eight consecutive work weeks.

“FFP or Federal financial participation” means the Federal government’s share of expenditures made by a State or local agency under a training program.

“Fringe benefits” means the employer’s share of premiums for industrial compensation, employee’s retirement, unemployment compensation, health insurance, and similar expenses.

“Persons preparing for employment” means individuals who are not yet employed by the State or local agency, but who have received financial assistance from the State agency for training, and have made a legally binding commitment with the State or local agency for future employment under the conditions of these regulations.

“Stipend” means the basic living allowance paid to a student.

§ 235.62 State plan requirements for training programs.

A State plan under title I, IV-A, X, XIV, or XVI (AABD) of the Act must provide for a training program for agency personnel and for persons preparing for employment. The training program must—

(a) Include initial in-service training for newly appointed staff, and continuing agency training opportunities to improve the operation of the program. The training program may also include

short-term and long-term training at educational institutions through grants to institutions or by direct financial assistance to students enrolled in institutions who are agency employees or persons preparing for employment with the State or local agency;

(b) Be related to job duties performed or to be performed by the persons trained, and be consistent with the program objectives of the agency; and

(c) Be described in an annual training plan prepared prior to the beginning of the fiscal year. Copies of the training plan shall be made available upon request to the Regional Office of Family Assistance for review by the Federal staff.

§ 235.63 Conditions for FFP.

(a) *Who may be trained.* FFP is available only for training provided personnel employed in all classes of positions, volunteers, and persons preparing for employment by the State or local agency administering the program.

(b) *When FFP is available.* FFP is available for personnel employed and persons preparing for employment by the State or local agency provided the following conditions are met, and with the following limitations:

(1) Employees in full-time, long-term training make a commitment to work in the agency for a period of time equal to the period for which financial assistance is granted. A State agency may exempt an employee from fulfilling this commitment only if failure to continue in employment is due to death, disability, employment in a financial assistance program in a public assistance agency in another State, or other emergent circumstances determined by the single State agency head to be valid for exemption;

(2) An employee retains his or her rights and benefits in the agency while on full-time, long-term training leave;

(3) Persons preparing for employment are selected by the State agency and accepted by the school;

(4) Persons preparing for employment are pursuing educational programs approved by the State agency;

(5) Persons preparing for employment are committed to work for State or local agency for a period of time at least equal to the period for which financial assistance is granted if employment is offered within 2 months after training is completed;

(6) The State or local agency offers the individual preparing for employment a job upon completion of training unless precluded by merit system requirements,

legislative budget cuts, position freezes, or other circumstances beyond the agency's control; and if unable to offer employment, releases the individual from his or her commitment;

(7) The State agency keeps a record of the employment of persons trained. If the persons are not employed by the State or local agency, the record specifies the reason for non-employment;

(8) The State agency evaluates the training programs; and

(9) Any recoupment of funds by the State from trainees failing to fulfill their commitment under this section shall be treated as a refund and deducted from total training costs for the purpose of determining net costs for FFP.

(c) *Grants to educational institutions.* FFP is available in payments for services rendered under grants to educational institutions provided all of the following conditions are met:

(1) Grants are made for the purpose of developing, expanding, or improving training for personnel employed by the State or local agency or preparing for employment by the State or local agency administering the program. Grants are made for an educational program (curriculum development, classroom instruction, field instruction, or any combination of these) that is directly related to the agency's program. Grants are made for not more than 3 years, but may be renewed, subject to the conditions of this section;

(2) Grants are made to educational institutions and programs that are accredited by the appropriate institutional accrediting body recognized by the U.S. Commissioner of Education. When a specialized program within the institution for which there is a specialized accrediting body is used, that program must be accredited by or have pre-accreditation status from that body. (Part 149 of this title explains the requirements and procedures for obtaining recognition as an accrediting agency or association. Lists of currently recognized accrediting bodies are published in the *Federal Register* periodically. See also *Nationally Recognized Accrediting Agencies and Associations* published by the Office of Education);

(3) The State agency has written policies establishing conditions and procedures for such grants;

(4) Each grant describes objectives in terms of how the educational program is related to the financial assistance programs and how it is designed to meet the State or local agency's manpower needs; and

(5) An evaluation of the educational program funded by each grant is made no later than the close of the second year of the grant. The evaluation shall be conducted by representatives from the educational institution and the State agency to determine whether conditions and objectives described in the grant are being met. If the educational program does not meet these conditions and objectives, payment shall be terminated no later than the close of the second year of the grant.

§ 235.64 FFP rates, and activities and costs matchable as training expenditures.

Under title I, IV-A, X, XIV, or XVI (AABD) of the Act, FFP is available at the rate of 75 percent* for the following costs:

(a) Salaries, fringe benefits, travel and per diem for—

(1) Staff development personnel (including support staff) assigned full time to training functions and;

(2) Staff development personnel assigned part time to training functions to the extent time is spent performing such functions.

(b) For agency training sessions, FFP is available for—

(1) Salaries, fringe benefits, travel and per diem for employees in initial in-service training of at least one week;

(2) Travel and per diem for employees in agency training sessions away from the employee's work site, or in institutes, seminars or workshops related to the job and sponsored by professional organizations;

(3) Salaries, fringe benefits, travel and per diem for experts outside the agency engaged to develop or conduct special programs; and

(4) Costs of space, postage, teaching supplies, purchase or development of teaching material and equipment, and costs of maintaining and operating the agency library as an essential resource to the agency's training program.

(c) For training and education outside of the agency, FFP is available for—

(1) Salaries, fringe benefits, dependency allowance, travel, tuition, books, and educational supplies for employees in full-time, long-term training programs (with no assigned agency duties);

(2) Salaries, fringe benefits, travel, tuition, books, and educational supplies for employees in full-time, short-term training programs of four or more consecutive work weeks;

(3) Travel, per diem, tuition, books and educational supplies for employees

*However, for title IV-A in Guam, Puerto Rico, and the Virgin Islands, FFP is available at the rate of 60 percent.

in short-term training programs of less than four consecutive work weeks, or part-time training programs; and

(4) Stipends, travel, tuition, books and educational supplies for persons preparing for employment with the State or local agency.

(d) FFP is available for payments to educational institutions, as described in § 235.63(c) for salaries, fringe benefits, and travel of instructors, clerical assistance, teaching materials and equipment.

§ 235.65 Activities and costs not matchable as training expenditures.

FFP is not available for the following expenditures as training costs; however, the expenditures described in this section may be matched as administrative costs, if conditions for such matching are met:

(a) Salaries of supervisors (day-to-day supervision of staff is not a training activity); and

(b) Employment of students on a temporary basis, such as in the summertime.

§ 235.66 Sources of State funds.

(a) *Public funds.* Public funds may be considered as the State's share in claiming Federal reimbursement where the funds—

(1) Are appropriated directly to the State or local agency, or transferred from another public agency (including Indian tribes) to the State or local agency and under its administrative control, or certified by the contributing public agency as representing expenditures eligible for FFP under §§ 235.60–235.66;

(2) Are not used to match other Federal funds; and

(3) Are not federal funds, or are Federal funds authorized by Federal law to be used to match other Federal funds.

(b) *Private funds.* Funds donated from private sources may be considered as the State's share in claiming Federal reimbursement only where the funds are—

(1) Transferred to the State or local agency and under its administrative control;

(2) Donated without any restriction which would require their use for the training of a particular individual or at particular facilities or institutions; and

(3) Do not revert to the donor's facility or use.

BILLING CODE 4110-07-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 0

Commission Organization; Reflecting Change in Organizational Title Concerning the Certificate of Compliance Division of the Cable Television Bureau

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This amendment changes the Commission's Rules to incorporate a change in the organization of the Cable Television Bureau. The revision is caused by the Commission's action in September to eliminate the certificate of compliance process for cable television systems.

EFFECTIVE DATE: May 12, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Charles Marietta, Jr., Office of Executive Director, (202) 632-7513.

Adopted: April 21, 1980.

Released: April 23, 1980.

1. In September 1976, the Commission eliminated the certificate of compliance process for cable television systems. As a result, the title and functions of the Certificate of Compliance Division are being revised. Part 0 is being changed to reflect the new title.

2. The newly-named Compliance Division has general responsibility for enforcing cable television regulations, ensuring annual reports by cable system operators, and providing consumer assistance in cases of inquiries and complaints.

3. The amendment adopted herein is editorial and pertains to agency procedure and practice. The prior notice procedure and effective date provisions of Section 4 of the Administrative Procedure Act, 5 U.S.C. 553, are therefore inapplicable. Authority for the amendment adopted herein is contained in Sections 4(i) and 5(b) of the Communications Act of 1934, as amended.

4. In view of the foregoing, IT IS ORDERED, effective May 12, 1980, that Part 0 of the Rules and Regulations is amended as set forth in the Appendix hereto.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

R. D. Lichtwardt,
Executive Director.

Appendix

Part 0 of Chapter 1 of Title 47 of the Code of Federal Regulations is hereby amended as indicated below.

1. Section 0.84 is amended to read:

§ 0.84 Units in the Bureau.

The Cable Television Bureau is comprised of the following units:

- (a) Office of the Bureau Chief
- (b) Policy Review and Development Division
- (c) Research Division
- (d) Special Relief and Microwave Division
- (e) Records and Systems Management Division
- (f) Compliance Division

§§ 0.85, 0.86, 0.87, 0.88, 0.89, and 0.90 [Deleted].

2. Sections 0.85, 0.86, 0.87, 0.88, 0.89, and 0.90 are deleted.

[BC Docket No. 79-155; RM-3261 and RM-3469]

FM Broadcast Station in Mountain Home, Ark.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rules.

SUMMARY: Action taken herein assigns Channel 288A to Mountain Home, Arkansas, as that community's second FM assignment, in response to a petition filed by Tri-Rivers Broadcasting Company, Inc. Further action denies the counterproposal of Mountain Valley Broadcasters, Inc., to assign Channel 282 to Mountain Home.

EFFECTIVE DATE: June 9, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Molly Pauker, Broadcast Bureau, (202) 632-6302.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Mountain Home, Arkansas). BC Docket No. 79-155 RM-3261 RM-3469. Report and order. (Proceeding Terminated).

Adopted: April 23, 1980.

Released: April 30, 1980.

By the Chief, Policy and Rules Division.

1. By *Notice of Proposed Rule Making*, 44 Fed. Reg. 37518, June 27, 1979, the

Commission proposed to assign Channel 288A to Mountain Home, Arkansas, as that community's second FM service, in response to a petition from Tri-Rivers Broadcasting Company, Inc. ("Tri-Rivers"). Mountain Valley Broadcasters, Inc. ("Mountain Valley"), filed a counterproposal seeking instead the assignment of Channel 282 to Mountain Home. Tri-Rivers filed comments and reply comments, affirming its intention to apply for Channel 228A, if assigned, and opposing Mountain Valley's counterproposal. Mountain Valley filed reply comments affirming its intention to apply for Channel 282, if assigned, and purporting to justify the assignment of a Class C channel to Mountain Home. Marshall Broadcasting Company filed a letter opposing the assignment of Channel 282 to Mountain Home and stating its interest in assigning Channel 282 at Marshall, Arkansas, as an alternative.¹

2. Mountain Home (pop. 3,939),² seat of Baxter County (pop. 15,319) is located in north central Arkansas, 173 kilometers (108 miles) north of Little Rock. Mountain Home is currently served by Stations KLTO(AM) and KLTO-FM (Channel 252A). Channels 282 and 288A can be assigned to Mountain Home in compliance with the minimum distance separation requirements.

3. As a preliminary matter, Tri-Rivers objected to the assignment of Channel 282 to Mountain Home because this would conflict with the proposed substitution of Channel 285A for Channel 244A at Thayer, Missouri. See *Poplar Bluff, Mo.*, Dkt. 78-188, 45 Fed. Reg. 21636 (1980). However, we resolved this conflict by the assignment of Channel 296A to Thayer instead of Channel 288A. Tri-Rivers raises the argument that Mountain Valley's pleading is not properly a counterproposal, because both Channel 282 and Channel 288A could be assigned to Mountain Home without conflict. However, there are factors, such as population criteria and intermixture, which the two proposals have in common making joint consideration appropriate.

4. With respect to the assignment of Channel 288A to Mountain Home, preclusion would occur on the co-channel only, and no communities of

¹ Zero Broadcasting, Inc. ("Zero") subsequently petitioned for the assignment of Channel 282 to Marshall (RM-3560) and stated that it would apply for the channel if assigned to Marshall. The proposal was submitted too late to be considered in this proceeding even though it is mutually exclusive. It will be considered in a later proceeding.

² Population figures are taken from the 1970 U.S. Census.

over 1,000 population would sustain preclusion. Tri-Rivers, in response to the *Notice*, provided a *Roanoke Rapids* showing which indicated that negligible first FM and second nighttime aural service could be provided by its proposed facility, though second FM service could be provided to 6,770 persons within a 680 square kilometer (258 square miles) area and a second nighttime aural service could be provided to 5,747 people in a 600 square kilometer (230 square mile) area.³

5. Mountain Valley's proposed assignment would cause preclusion on Channels 282 and 285A. The communities affected would be Marshall, Arkansas (pop. 1,397) with a daytime-only AM station; West Plains, Missouri (pop. 7,100), with both AM and FM assignments; and Mountain View, Missouri (pop. 1,320), with no local aural service. We have not been afforded adequate showing that other channels are available for assignment to Marshall or Mountain View. Mountain Valley suggests that Channel 249A could be assigned to Marshall; however, with the site limitation which would be required, 10.5 kilometers (6.5 miles) north of Marshall, it is not at all clear that city-grade coverage could be provided to the entire community, given the mountainous terrain. Mountain Valley's showing of first and second FM and nighttime aural service is inadequate, because it has not taken into account several standard stations and unoccupied assignments under *Roanoke Rapids* criteria.⁴ In the instant case, a showing of significant first and second service would be essential to our making an exception to our policies against intermixture,⁵ and against assigning high-powered channels to smaller communities.

6. We believe that the assignment of a second Class A channel to Mountain Home, as Tri-Rivers requests, would be appropriate. Mountain Home's need for increased broadcast service can be met by a competing station of facilities

³ Tri-Rivers' figures for second nighttime aural service should be cut in half since it did not properly take into account the signal of KAAV(AM), Little Rock.

⁴ See 9 F.C.C. 2d 672 (1967).

⁵ A proper *Roanoke Rapids* study by Mountain Valley should have taken into account unused Channel 272A, assigned to West Plains, Missouri; the larger of the facilities applied for on Channel 226 in Batesville, Arkansas; reasonable facilities for Station KHOZ and unused Channel 224A in Harrison, Arkansas; reasonable facilities for Station KAMS, Mammoth Springs, Arkansas; the facilities applied for on Channel 277, Mountain View, Arkansas; and reasonable facilities for Station KSAR, Salem, Arkansas.

⁶ See Fayetteville, Arkansas, Dkt. 19879, *Second Report and Order*, 43 Fed. Reg. 36104, released August 15, 1978.

comparable to the existing Class A station. However, to justify the assignment of a higher-powered facility either as a second or third assignment, our concerns of intermixture, preclusion impact and lack of need for a wide coverage area station would have to be overcome. In this regard, Mountain Valley failed to demonstrate first or second services accurately enough for us to confirm any such service. It was alleged that the proposed service area is the fastest growing area in Arkansas, and now has 90,000 population. However, we have not been shown that this area is actually underserved. Further, as for preclusion, we have not been shown that alternative channels are available for assignment to Marshall, Arkansas, or Mountain View, Missouri. Finally, if we were to treat the Mountain Valley requests as a third assignment proposal for Mountain Home, we would also need to minimize the preclusive impact on affected communities. See *Waycross, Ga.*, Dkt. 79-149, 45 FR 25806 (1980); and *Poplar Bluff, Mo.*, Dkt. 78-188, 45 FR 21636 (1980). Therefore, having found insufficient justification for a Class C assignment, we have denied the request of Mountain Valley.

7. Nevertheless, this action is taken without prejudice to Mountain Valley seeking to refile the request to overcome the policy problems we have indicated. In particular, such a showing should include an accurate *Roanoke Rapids* study, as detailed in foot note 6, *supra*.⁷

8. Accordingly, pursuant to authority contained in sections 4(i), 4(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, it is ordered, That effective June 9, 1980, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, is amended with respect to Mountain Home, Arkansas, as follows:

City	Channel No.
Mountain Home, Arkansas	252A, 288A

9. It is further ordered, That the counterproposal of Mountain View Broadcasters, Inc., to assign Channel 282 to Mountain Home, Arkansas, is denied.

10. It is further ordered, That this proceeding is terminated.

11. For further information concerning this proceeding, contact Molly Pauker, Broadcast Bureau, (202) 632-7792.

⁷ In this regard, Mountain Valley should follow the progress of the proceeding involving a request for Channel 282 at Marshall, Arkansas. See footnote 1. *supra*.

[BC Docket No. 80-3; RM-3517]

FM Broadcast Station in Paxton, Ill.; Changes Made in Table of Assignments

AGENCY: Federal Communications
Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns a Class A FM channel to Paxton, Illinois, in response to a petition filed by Roger C. Elliott. The channel can be used to provide a first local aural broadcast service to the community.

EFFECTIVE DATE: June 6, 1980.

ADDRESSES: Federal Communications
Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
Mildred B. Nesterak, Broadcast Bureau,
(202) 632-7792.

SUPPLEMENTARY INFORMATION: In the
matter of amendment of § 73.202(b),
Table of Assignments, FM Broadcast
Stations. (Paxton, Illinois). BC Docket
No. 80-3 RM-3517. Report and Order
(Proceeding terminated).

Adopted: April 18, 1980.

Released: April 25, 1980.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, adopted January 8, 1980, 45 Fed. Reg. 3941, in response to a petition filed by Roger C. Elliott ("petitioner"), which proposed the assignment of FM Channel 285A to Paxton, Illinois. Supporting comments were filed by petitioner in which he stated he will promptly apply for the channel, if assigned. No oppositions to the proposal have been received.

2. Paxton (pop. 4,373),¹ in Ford County (pop. 16,382), is located approximately 116 kilometers (72 miles) east of Peoria, Illinois. It has no local aural broadcast service.

3. Petitioner states the economic status of Paxton is stable and promising. He previously submitted demographic data with respect to Paxton which is persuasive as to its need for a first FM assignment.

¹ Population figures are taken from the 1970 U.S. Census.

4. The Commission believes it would be in the public interest to assign Channel 285A to Paxton, Illinois. The channel could provide for a first local aural broadcast service to the community. The assignment can be made in conformity with the minimum distance separation requirements.

5. Accordingly, *it is ordered*, That effective June 6, 1980, the FM Table of Assignments, § 73.202(b) of the Commission's Rules, is amended with respect to the community listed below as follows:

City	Channel No.
Paxton, Illinois.....	285A

6. Authority for the action taken herein is contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

7. *It is further ordered*, That this proceeding is terminated.

8. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

FM Broadcast Station in Bloomfield, Iowa; Changes Made in Table of Assignments

AGENCY: Federal Communications
Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns a Class A FM channel to Bloomfield, Iowa, in response to a petition filed by Robert L. McDavid. The channel could provide a first local aural broadcast service to the community.

EFFECTIVE DATE: June 9, 1980.

ADDRESSES: Federal Communications
Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
Mildred B. Nesterak, Broadcast Bureau,
(202) 632-7792.

SUPPLEMENTARY INFORMATION: In the
matter of amendment of § 73.202(b),
Table of Assignments, FM Broadcast
Stations. (Bloomfield, Iowa) BC Docket

No. 80-2 RM-3515. *Report and order*
(Proceeding Terminated).

Adopted: April 23, 1980.

Released: April 30, 1980.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, 45 Fed. Reg. 3940, adopted January 8, 1980, proposing the assignment of Channel 292A as a first FM assignment to Bloomfield, Iowa. The *Notice* was issued in response to a petition filed by Robert L. McDavid ("petitioner"). Petitioner filed supporting comments reaffirming his intention to file for the channel, if assigned.

2. Bloomfield (pop. 2,817),¹ seat of Davis County (pop. 8,207), is located approximately 74 kilometers (46 miles) north of Kirksville, Missouri, and approximately 32 kilometers (20 miles) south of Ottumwa, Iowa.

3. Petitioner has submitted sufficient information which is persuasive as to its need for a first local aural broadcast service in Bloomfield.

4. We believe it would be in the public interest to assign Channel 292A to Bloomfield, Iowa. An interest has been shown for its use, and the assignment would provide for an FM station which could render a first local aural broadcast service to the community.

5. In view of the foregoing, *it is ordered*, That effective June 9, 1980, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended to read as follows for the community listed below:

City	Channel No.
Bloomfield, Iowa.....	292A

6. Authority for the adoption of the amendment contained herein is found in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

7. *It is further ordered*, That this proceeding is terminated.

8. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

[BC Docket No. 80-24; RM-3527]

Radio Broadcast Services FM Broadcast Station in Boyce, La.; Changes Made in Table of Assignments**AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

SUMMARY: Action taken herein assigns a Class A FM channel to Boyce, Louisiana, in response to a petition filed by Robert Allen. The channel can be used to provide a first local aural broadcast service to the community.

EFFECTIVE DATE: June 6, 1980.**ADDRESSES:** Federal Communications Commission, Washington, D.C. 20554.**FOR FURTHER INFORMATION CONTACT:** Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.**SUPPLEMENTARY INFORMATION:**

Adopted: April 18, 1980.

Released: April 25, 1980.

By the Chief, Policy and Rules Division.

1. The Commission has under consideration the *Notice of Proposed Rule Making*, adopted January 22, 1980, 45 FR 6970, in response to a petition filed by Robert Allen ("petitioner"), which proposed the assignment of FM Channel 252A to Boyce, Louisiana. Supporting comments were filed by petitioner reaffirming his intention to apply promptly for the channel, if assigned. No oppositions to the proposal have been received.

2. Boyce (pop. 1,240),¹ in Rapides Parish, is located on the west bank of the Red River, approximately 161 kilometers (100 miles) southeast of Shreveport, Louisiana. It has no local aural broadcast service.

3. Petitioner previously stated that Boyce's commercial and service economy consists of a strip of highway commercial development, a central business district and a small percentage of scattered neighborhood developments. Petitioner submitted sufficient information with respect to Boyce and its need for a first FM assignment.

4. We believe the public interest would be served by the assignment of FM Channel 252A to Boyce, Louisiana. An interest has been expressed in its use, and such an assignment could provide the community with a first local aural broadcast service.

5. In view of the foregoing, it is ordered, that effective June 6, 1980,

¹ Population figure taken from the 1970 U.S. Census.

§ 73.202(b) of the Commission's Rules, the FM Table of Assignments, as regards the community listed below, is amended as follows:

Radio Broadcast Services FM Broadcast Station in Grand Rapids and Hibbing, Minn.; Changes Made in Table of Assignments**AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

SUMMARY: Action taken herein substitutes a Class C channel for the Class A channel at Grand Rapids, Minnesota, and assigns a Class C channel to Hibbing, Minnesota, as that community's second FM assignment, in response to petitions of Grand Rapids Radio, Inc., and Jerry J. Collins, respectively. These assignments could also provide substantial first and second FM service to outlying areas.

EFFECTIVE DATE: June 6, 1980.**ADDRESSES:** Federal Communications Commission, Washington, D.C. 20554.**FOR FURTHER INFORMATION CONTACT:** Molly Pauker, Broadcast Bureau, (202) 632-6302.**SUPPLEMENTARY INFORMATION:**

Adopted: April 21, 1980.

Released: April 28, 1980.

By the Chief, Policy and Rules Division.

1. By *Notice of Proposed Rule Making and Order to Show Cause*, 43 FR 53475, November 16, 1978, the Commission solicited comments on four alternative plans concerning the assignment of FM channels to Grand Rapids and Hibbing, Minnesota, as follows:

	Grand Rapids	Hibbing
Present.....	244A	292A
Proposed:		
Plan I.....	228A, 244A	269A, 292A
Plan II.....	244A, 252A	269A, 292A
Plan III.....	245, 282	230, 271
Plan IV.....	244A, 252A	230, 271

The *Notice* was adopted in response to petitions filed by (1) Itasca Broadcasting Company ("Itasca"), licensee of fulltime AM Station KOZY, Grand Rapids, seeking the assignment of a second commercial FM channel to Grand Rapids (RM-2936); (2) Jerry J. Collins ("Collins"), licensee of daytime-only AM Station WKKQ, Hibbing, seeking the assignment of a second FM channel, Channel 230, to Hibbing (RM-2968); and (3) Grand Rapids Radio, Inc. ("GRR"), licensee of Station KXGR (Channel 244A), Grand Rapids, seeking substitution of Channel 245 for its present assignment (RM-2988). Since Plans III and IV would require the licensee currently using Channel 292A, Hibbing Broadcasting Co. ("HBC"), licensee of Station WMFG-FM, Hibbing, to substantially improve its facilities in order to avoid intermixture of Class A and Class C channels at Hibbing, the *Notice* solicited comment from HBC as to its willingness to undertake such modification. Comments and replies were filed by Collins, GRR, HBC, Iron Range Broadcasting, Inc. ("Iron Range"), licensee of Stations WEVE(AM) and WEVE-FM (Channel 261A), Eveleth, Minnesota, and Sorenson Broadcasting Corporation ("Sorenson"), replacing Itasca as party in interest.¹

2. Grand Rapids (pop. 7,247),² seat of Itasca County (pop. 35,530), is located 256 kilometers (160 miles) north of Minneapolis, Minnesota. Grand Rapids is currently served by noncommercial educational station KAXE(FM) (Channel 219C), by commercial station (KXGR(FM) (Channel 244A)) and fulltime AM Station KOZY. Hibbing (pop. 16,104),³ located in St. Louis

¹ On November 8, 1978, Sorenson purchased the broadcast facilities of Station KOZY(AM).

² Population figures are based on 1970 U.S. Census.

³ WKKQ, Inc., through Collins, brings to our attention that since the filing of comments in this proceeding, the Minnesota Municipal Board authorized the annexation of the town of Stuntz (1975 pop. 5,229, according to Collins) by Hibbing.

County (pop. 220,693), is 48 kilometers (30 miles) northeast of Grand Rapids and 96 kilometers (60 miles) northwest of Duluth, Minnesota. Hibbing is currently served by Stations WMFG(AM) and WMFG-FM (Channel 292A), and daytime-only AM Station WKKQ.

3. In comments and reply comments, Sorenson, licensee of various South Dakota stations, stated that it has entered into a contract with Itasca for the purchase of Station KOZY. Initially affirming an interest in applying for a Grand Rapids station, Sorenson later stated that it is no longer interested in a Grand Rapids FM station.

4. Several parties, including HBC, in response to the *Order to Show Cause*, have pointed out that Commission policy against multiple ownership would prevent HBC from upgrading its facility at Hibbing.⁴ Frank P. and Claire C. Befera are said to have control and ownership of HBC and Virginia Broadcasting Co., licensee of Station WHLB-FM (Channel 296A), Virginia, Minnesota.⁵ Virginia is 32 kilometers (20 miles) from Hibbing, and HBC operates Station WMFG-FM with substandard Class A facilities (600 W at 61 meters (200 feet) HAAT) in order to avoid overlap of the 1 mV/m contours. Unless granted a waiver of the duopoly rule, HBC cannot increase its facilities to Class C, as proposed in Plans III and IV.⁶ Therefore, we are left with two proposals, a Class C assignment for Hibbing as a second channel and a Class C channel in place of a Class A channel for Grand Rapids.

Hibbing Proposal (RM-2968)

5. If the Commission were to grant the Collins petition and assign an additional channel (Class C) to Hibbing, HBC asserts that the resulting intermixture would pose an economic threat to its operation. Collins responds that the Beferas, with a total of four stations (two AM and two FM) in Hibbing and Virginia, are in fact in a competitively strong position in the area. Nevertheless, we are generally wary of assigning a high-powered channel to a community where a low-powered facility is already in operation. However, there have been instances where other public interest factors outweighed our concerns regarding

intermixture. For example, in *Lewiston, Idaho*, Dkt. 78-25, *Report and Order*, 45 Fed. Reg. 13078, we held that a showing of substantial second nighttime aural service better served the public interest than preservation of the economic interest of a multiple owner. In *Fayetteville, Ark.*, Dkt. 19879, *Second Report and Order*, 43 Fed. Reg. 36104, released August 15, 1978, we announced that provision of first or second aural service is a higher priority than avoidance of intermixture. In the instant case, we would likewise be inclined to favor efficient frequency utilization over protection of HBC's competitive position, were we shown that first or second FM service could be provided to a significant number of people. This approach stems initially from the consideration that a Class C channel appears appropriate to Hibbing, particularly in view of its significance as a major city in the area. Collins argues that a Class C facility would provide substantial first and second services. However, its engineering data was inaccurate, prompting the staff to conduct its own *Roanoke Rapids*⁷ study for Hibbing. A Class C assignment at Hibbing would provide first FM service to a significant population in an area of 3,620 square kilometers (1,398 square miles) which includes the communities of Sturgeon Lake (pop. 167), and Cook (pop. 687); and second FM service to a 308 square kilometer (119 square miles) area which includes the communities of Grand Rapids (pop. 7,247), Keewatin (pop. 1,382), Hibbing (pop. 16,104), and Chisholm (pop. 5,913).⁸ While we remain concerned about intermixture, we believe that, on balance, the amount of first and second service which could be provided by a Class C assignment at Hibbing, weighs more heavily in favor of the assignment in terms of public interest considerations.

6. Sorenson, HBC and Iron Range favor assignments of Class A channels exclusively to both Hibbing and Grand Rapids, because the preclusive impact would be less. However, preclusion does not appear significant with the assignment of these Class C channels. Collins submitted a list of alternative available channels for each of the communities which the *Notice* stated would sustain preclusion, should Channel 230 be assigned to Hibbing. GRR suggested alternative channels for

most of the communities listed in the *Notice* should Channel 245 be substituted for Channel 244A in Grand Rapids, with the exception of Two Harbors (pop. 4,437) and Buhl (pop. 1,303), which it argued would not in fact sustain preclusion. However, Collins did indicate an alternative channel for Two Harbors. Buhl would be precluded on Channel 246, but it is currently precluded by Channel 244A at Grand Rapids in any event. GRR also stated that the precluded community of Proctor (pop. 3,123) is wholly contained in the Duluth-Superior urbanized area and is therefore already sufficiently served.

Grand Rapids Proposal (RM-2988)

7. As for Grand Rapids, the staff also had to conduct its own study due to serious deficiencies in GRR's showing. A Class C channel would provide first FM service to a significant population in an area of 6,174 square kilometers (2,384 square miles),⁹ which includes the communities of Deer River (pop. 815), Remer (pop. 403), Hill City (pop. 357); and second FM service to an area of 1,730 square kilometers (668 square miles) which includes Hibbing (pop. 16,104), Keewatin (pop. 1,382), Chisholm (pop. 5,913), and Floodwood (pop. 650).¹⁰ The magnitude of sparsely populated rural areas outside the community itself which would be served by a Class C channel located at Grand Rapids would justify assignment of a Class C channel there.

8. Given the minor preclusive impact of the assignment of Class C channels to Grand Rapids as well as the relatively large areas of potential first and second FM service, we are inclined to assign the Class C channel. GRR has made an adequate showing that the public interest would be served by the assignment of a Class C channel, even though the community is small, because the sparsely populated outlying areas which would be covered are relatively large. Since Sorenson has indicated that neither it nor Itasca is interested in applying for an FM channel, it is not necessary for us to assign two FM channels to Grand Rapids. Channel 245 can be substituted for Channel 244A in Grand Rapids at the present site of Station KXGR in full compliance with the spacing rules. Channel 230 can be assigned to Hibbing in compliance with the spacing rules. Also, as to the Grand Rapids Class C assignment, no other

⁹This is in addition to 1,720 square kilometers (644 square miles) currently served by the Class A channel at Grand Rapids.

¹⁰There is a substantial area, which, if Class C channels were assigned to both Hibbing and Grand Rapids, could progress from no present FM service to reception of two signals.

⁴See Section 73.240(a) of the Commission's Rules.

⁵Former call letters are WIRN.

⁶As HBC points out, it is unlikely that the Commission would grant a waiver, absent compelling public interest reasons, especially where the grant of an alternative application would not violate the duopoly rule. See *Piedmont Service Corp.*, 43 FR 45475, October 2, 1978; and *Town and Country Radio*, 65 F.C.C. 2d 694 (1977).

⁷9 F.C.C. 2d 672 (1972).

⁸Also, Collins asserts that a Class C channel at Hibbing would serve at least the approach area to the Bois Forte Reservation at Nett Lake, Minnesota, which could improve relations between Hibbing and the native American population. Collins has attached a supporting letter from the Bois Forte Reservation Business Community to his comments.

interest in the new channel has been expressed. Therefore, we shall approve a modification of the license for Station KXGR to specify Channel 245 at Grand Rapids.

9. Canadian concurrence in these assignments has been obtained.

10. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

11. In view of the foregoing, *it is ordered*, That effective June 6, 1980, Section 73.202(b) of the Commission's Rules, the FM Table of Assignments, as regards Grand Rapids and Hibbing, Minnesota, is amended as follows:

City	Channel No.
Grand Rapids, Minnesota	245
Hibbing, Minnesota	230, 292A

12. *It is further ordered*, That pursuant to Section 316(a) of the Communications Act of 1934, as amended, the outstanding license of Station KXGR, Grand Rapids, Minnesota, is modified, effective June 6, 1980, to specify operation on Channel 245 instead of Channel 244A. The licensee shall inform the Commission in writing no later than June 6, 1980, of its acceptance of this modification. Station KXGR may continue to operate on Channel 244A for one year from the effective date of this action or until it is ready to operate on Channel 245, or the Commission sooner directs, subject to the following conditions:

(a) At least 30 days before commencing operation on Channel 245 the licensee of Station KXGR shall submit to the Commission the technical information normally required of an applicant for Channel 245 including that connected with a change in transmitter site.

(b) At least 10 days prior to commencing operation on Channel 245, the licensee of Station KXGR shall submit the measurement data required of an applicant for a broadcast station license; and

(c) The licensee of Station KXGR shall not commence operation on Channel 245 without prior Commission authorization.

13. *It is further ordered*, That the petition of Itasca Broadcasting Company for a second FM channel to Grand Rapids, Minnesota, is dismissed.

14. *It is further ordered*, That this proceeding is terminated.

15. For further information concerning this proceeding, contact Molly Pauker, Broadcast Bureau (202) 632-6302.

47 CFR Part 73

[BC Docket No. 80-21 ; RM-3478]

Radio Broadcast Services FM Broadcast Station in Commerce, Tex.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns a Class A FM channel to Commerce, Texas, in response to a petition filed by FIRStation Radio. The assigned channel can provide a first local commercial broadcast service to the community.

EFFECTIVE DATE: June 6, 1980.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: April 18, 1980.

Released: April 25, 1980.

By the Chief, Policy and Rules Division.

1. The Commission herein considers the *Notice of Proposed Rule Making*, adopted January 18, 1980, 45 FR 6633, in the above-entitled proceeding, instituted in response to a petition filed by FIRStation Radio ("petitioner"). The petition proposed the assignment of Channel 221A to Commerce, Texas, as a first commercial FM assignment to that community. Petitioner reaffirmed its intention to file for the channel, if assigned. No oppositions to the proposal were filed.

2. Commerce (pop. 9,534)¹ in Hunt County (pop. 46,564), is located approximately 106 kilometers (66 miles) east northeast of Dallas, Texas. It is served locally by noncommercial educational FM Station KETR (Channel 206), licensed to East Texas State University. Commerce has no local commercial broadcast service.

3. Petitioner states that Commerce is the second largest city in Hunt County. In support of its proposal, petitioner has submitted information with respect to Commerce in order to demonstrate its

¹Population figures are taken from the 1970 U.S. Census.

need for a first commercial FM assignment.

4. Since it has been shown that there is a need and demand for a commercial FM assignment in Commerce, and that the proposed station would provide a first local commercial broadcast service to the community, we conclude that the public interest would be served by making this assignment.

5. Accordingly, **IT IS ORDERED**, That effective June 6, 1980, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, **IS AMENDED** with regard to the community listed below:

City	Channel No.
Commerce, Texas	221A

6. Authority for the action taken herein is found in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

7. *It is further ordered*, That this proceeding is **TERMINATED**.

8. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Federal Communications Commission.

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[Service Order No. 1425]

The Atchison, Topeka & Santa Fe Railway Co. Authorized To Transport Grain in Covered Hopper Cars to Mexico at Reduced Carload Minimum Weights

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 1 to Service Order No. 1425.

SUMMARY: This order amends Service Order No. 1425 which authorized the Atchison, Topeka and Santa Fe Railway Company to transport grain in covered hopper cars to Mexico at reduced carload minimum weights, by extending the expiration date until 11:59 p.m., July 31, 1980.

DATES: Effective date: 11:59 p.m., April 30, 1980. Expiration date: 11:59 p.m., July 31, 1980.

FOR FURTHER INFORMATION CONTACT: M. F. Clemens, Jr., (202) 275-7840.

SUPPLEMENTARY INFORMATION:

Decided April 29, 1980.

Upon further consideration of Service Order No. 1425 (45 FR 7551), and good cause appearing therefor:

It is ordered,

§ 1033.1425 *The Atchison, Topeka and Santa Fe Railway Company authorized to transport grain in covered hopper cars to Mexico at reduced carload weights.* Service Order No. 1425 is amended by substituting the following paragraph (f) for paragraph (f) thereof:

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1980, unless otherwise modified, amended or vacated by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., April 30, 1980.

This action is taken under authority of 49 U.S.C. 10304-10305 and 11121-11126.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, Joel E. Burns, Robert S. Turkington and John R. Michael.

Agatha L. Mergenovich,
Secretary.

[Service Order No. 1399]

**Pend Oreille Valley Railroad, Inc.,
Authorized To Operate Over Tracks
Formerly Operated by Chicago,
Milwaukee, St. Paul & Pacific Railroad
Co.**

AGENCY: Interstate Commerce Commission.

ACTION: Amendment No. 1 to Revised Service Order No. 1399.

SUMMARY: Revised Service Order No. 1399, permits the Pend Oreille Valley Railroad to operate over tracks formerly owned and operated by the Chicago, Milwaukee, St. Paul and Pacific Railroad. This order amends Revised Service Order No. 1399, by extending the expiration date.

EFFECTIVE DATE: 11:59 p.m., April 30, 1980, and continuing in effect until July 31, 1980, unless otherwise modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT:

M. F. Clemens, Jr., (202) 275-7840.

SUPPLEMENTARY INFORMATION:

Decided: April 29, 1980.

Upon further consideration of Revised Service Order No. 1399, (45 FR 23698), and good cause appearing therefor:

It is ordered,

§ 1033.1399 *Pend Oreille Valley Railroad, Inc. authorized to operate over tracks formerly operated by Chicago, Milwaukee, St. Paul and Pacific Railroad Company.* Revised Service Order No. 1399 is amended by substituting the following paragraph (h) for paragraph (h) thereof:

(h) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1980, unless otherwise modified, amended, or vacated by order of this Commission.

Effective date. This order shall become effective at 11:59 p.m., April 30, 1980.

This action is taken under authority of 49 U.S.C. 10304-10305 and 11121-11126.

This amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 33

Sport Fishing; Tamarac National Wildlife Refuge

AGENCY: Fish and Wildlife Service.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to sport fishing of certain National Wildlife Refuges is compatible with the objectives for which the areas were established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public. These special regulations describe the conditions under which sport fishing will be permitted on Tamarac National Wildlife Refuge, Minnesota.

DATES: Effective on May 6, 1980, for duration of calendar year 1980.

FOR FURTHER INFORMATION CONTACT: The Area Manager or Refuge Manager at the address or telephone number listed below:

George G. P. Bekeris, Area Manager,
U.S. Fish and Wildlife Service, 530
Federal Building and U.S. Court
House, 316 North Robert Street, St.
Paul, MN 55101. Telephone: (612) 725-
7641.

Omer N. Swenson, Refuge Manager,
Tamarac National Wildlife Refuge,
Rural Route, Rochert, MN 56578.
Telephone: (218) 847-4355.

SUPPLEMENTARY INFORMATION: The Refuge Recreation Act of 1962 (16 U.S.C. 460k) authorizes the Secretary of the Interior to administer such areas for public recreation as an appropriate incidental or secondary use only to the extent that it is practicable and not inconsistent with the primary objectives for which the area was established. In addition, the Refuge Recreation Act requires (1) that any recreational use permitted will not interfere with the primary purpose for which the area was established; and (2) that funds are available for the development, operation and maintenance of the permitted forms of recreation.

The recreational use authorized by these regulations will not interfere with the primary purposes for which Tamarac National Wildlife Refuge was established. This determination is based upon consideration of, among other things, the Service's Final

Environmental Statement on the Operation of the National Wildlife Refuge System published in November 1976. Funds are available for the administration of the recreational activities permitted by these regulations.

§ 33.5 Special regulations; sport fishing for individual wildlife refuge areas.

Sport fishing on Tamarac National Wildlife Refuge shall be in accordance with all applicable State, Federal and White Earth Reservation regulations. Portions of the refuge which are open to sport fishing are designated by signs and/or delineated on maps. Special conditions and maps are available at refuge headquarters or from the Office of the Area Manager (address listed above).

Only the part of Tamarac Lake north of the dike is open during all regular State fishing seasons. Fishing on Two Island, Wauboose, Lost and Blackbird Lakes is permitted only from the State season opening on May 17, 1980 through Labor Day. Bank fishing 50 yards either side of the Ottertail River bridges on County Roads No. 26 and No. 126 is the only stream fishing permitted.

Richard E. Toltzmann,
Acting Area Manager.

April 24, 1980.

Proposed Rules

Federal Register

Vol. 45, No. 89

Tuesday, May 6, 1980

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Parts 915 and 944

Avocados Grown in South Florida and Imported Avocados; Proposed Grade and Maturity Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice invites written comments on a proposal which would establish minimum grade and maturity requirements for shipments of 1980-81 season avocados grown in South Florida, and for avocados imported into the United States, for the period May 9, 1980, through April 30, 1981. The proposed requirements are designed to assure the shipment of ample supplies of mature avocados of acceptable quality in the interest of producers and consumers.

DATE: Comments must be received on or before May 21, 1980.

ADDRESS: Send two copies of comments to the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, DC 20250, where they will be available for public inspection during business hours (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT: Malvin E. McGaha, 202-447-5975.

SUPPLEMENTARY INFORMATION: *Findings.* The proposed Florida avocado regulation would be issued under the marketing agreement, as amended, and Order No. 915, as amended (7 CFR Part 915), regulating the handling of avocados grown in South Florida. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposed avocado import regulation would be issued under section 8e (7 U.S.C. 608e-1) of this act. The proposed grade and maturity requirements applicable to Florida avocado shipments were recommended by the Avocado Administrative

Committee, which locally administers this marketing order program.

The proposed regulations would establish U.S. No. 3 as the minimum grade, and prescribe minimum weights or diameters by specified dates as the maturity requirements for the various varieties of avocados. Minimum weights or diameters and picking dates are used as indicators during harvest to determine which avocados are sufficiently mature to complete the ripening process. Skin color would also be authorized as a method of determining maturity, for those varieties which turn red or purple when mature. The proposed requirements are designed to assure that the various varieties of avocados will be of suitable quality and maturity so they provide consumer satisfaction, which is essential for the successful marketing of the crop. They are also designed to provide the trade and consumers with an adequate supply of mature avocados of acceptable quality, in the interest of producers and consumers pursuant to the declared policy of the act.

The import requirements would be issued under section 8e of the act, which requires that when specified commodities, including avocados, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity.

These recommendations reflect the Avocado Administrative Committee's appraisal of the avocado crop and current and prospective market conditions. The committee has adopted a marketing policy for the 1980-81 season Florida avocado crop, in which it estimates that 1,250,000 bushels of Florida avocados will be shipped to the fresh market, compared with about 1,017,000 in 1979-80, 894,375 in 1978-79, and 411,024 in 1977-78. Shipment of this season's crop is expected to begin with light shipments of early varieties in late May, but volume shipments will not begin until late June or early July. California is currently producing an avocado crop estimated at 2,636,000 bushels for the season ending October 31. Relatively small quantities of avocados were imported into the United States last season, with the majority from the Dominican Republic.

This proposal has been reviewed under USDA criteria for implementing Executive Order 12044. It is being published with less than a 60-day comment period because of insufficient time between the date when information became available upon which these proposals are based and the effective date necessary to effectuate the declared policy of the act. A determination has been made that these actions should not be classified "significant." A Draft Impact Analysis is available from Malvin E. McGaha, Chief, Fruit Branch, Fruit and Vegetable Division, AMS, USDA, Washington, DC 20250, telephone 202-447-5975.

The proposed regulations read as follows:

§ 915.322 Florida avocado regulation 22.

(a) *Order.* (1) During the period May 19, 1980, through April 30, 1981, no handler shall handle any avocados unless such avocados grade at least U.S. No. 3 grade: *Provided*, That avocados which fail to meet the requirements of such grade may be handled within the production area, if such avocados meet all other applicable requirements of this section and are handled in containers other than the containers prescribed in § 915.305, as amended (7 CFR Part 915), for the handling of avocados between the production area and any point outside thereof;

(2) On and after the effective date of this regulation, except as otherwise provided in paragraphs (8) and (9) of this section, no avocados of the varieties listed in Column 1 of the following Table I shall be handled prior to the date listed for the respective variety in Column 2 of such table, and thereafter each such variety shall be handled only in conformance with paragraphs (3), (4), (5), (6), and (7) hereof;

(3) From the date listed for the respective variety in Column 2 of Table I to the date listed for the respective variety in Column 4 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 3 of such table or is of at least the diameter specified for such variety in said Column 3;

(4) From the date listed for the respective variety in Column 4 of Table I to the date listed for the respective variety in Column 6 of such table, no

handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 5 of such table or is of at least the diameter specified for such variety in said Column 5;

(5) From the date listed for the respective variety in Column 6 of Table I to the date listed for the respective variety in Column 8 of such table, no handler shall handle any avocados of such variety unless the individual fruit weighs at least the ounces specified for the respective variety in Column 7 of such table or is at least the diameter specified for such variety in said Column 7;

(6) Except as otherwise provided in paragraphs (8) and (9) of this section, varieties of the West Indian type of avocados not listed in Table I shall not be handled except in accordance with the following terms and conditions:

(i) Such avocados shall not be handled prior to June 30, 1980.

(ii) From June 30, 1980, through July 27, 1980, the individual fruit in each lot of such avocados shall weigh at least 18 ounces.

(iii) From July 28, 1980, through August 31, 1980, the individual fruit in each lot of such avocados shall weigh at least 16 ounces.

(iv) From September 1, 1980, through September 28, 1980, individual fruit in each lot of such avocados shall weigh at least 14 ounces.

(7) Except as otherwise provided in paragraphs (8) and (9) of this section, varieties of avocados not covered by paragraphs (2) through (6) hereof shall not be handled except in accordance with the following terms and conditions:

(i) Such avocados shall not be handled prior to September 15, 1980.

(ii) From September 15, 1980, through October 12, 1980, the individual fruit in each lot of such avocados shall weigh at least 15 ounces.

(iii) From October 13, 1980, through December 14, 1980, the individual fruit in each lot of such avocados shall weigh at least 13 ounces.

(8) Notwithstanding the provisions of paragraphs (2) through (7) hereof regarding the minimum weight or diameter for individual fruit, up to 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided*, That such avocados weigh not more than two ounces less than the applicable specified weight for the particular variety as prescribed in Columns 3, 5, or 7 of Table I or in paragraphs (6), and (7) of this section. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot.*

(9) The provisions of paragraphs (2) through (8) of this section shall not apply to any variety, except the Linda variety, of avocados which, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(b) Terms used in the amended marketing order, when used herein, have the same meaning as is given to the respective term in said marketing order; the term "diameter" shall mean the greatest dimension measured at right angles to a straight line from the stem to the blossom end of the fruit; and the term "U.S. No. 3" shall have the same meaning as set forth in the United States Standards for Florida Avocados (7 CFR 2851.3050-2851.3069).

(c) The provisions of this regulation shall become effective May 19, 1980.

§ 944.20 Avocado import regulation 28.

(a) *Applicability to imports.* Pursuant to section 8e of the act and Part 944—Fruits; Import Regulations, the importation into the United States of any avocados is prohibited during the period May 19, 1980, through April 30, 1981, unless such avocados meet the following minimum grade and maturity requirements:

(1) All avocados imported during the period May 19, 1980, through April 30, 1981, shall grade not less than U.S. No. 3.

(2) Avocados of the Pollock variety shall not be imported (i) prior to June 30, 1980; (ii) from June 30, 1980, through July

13, 1980, unless the individual fruit in each lot of such avocados weighs at least 18 ounces or measures at least 3¹/₁₆ inches in diameter; (iii) from July 14, 1980, through July 27, 1980, unless the individual fruit in each lot of such avocados weighs at least 16 ounces or measures at least 3¹/₁₆ inches in diameter; and (iv) from July 28, 1980, through August 10, 1980, unless the individual fruit in each lot of such avocados weighs at least 14 ounces or measures at least 3¹/₁₆ inches in diameter.

(3) Avocados of the Catalina variety shall not be imported (i) prior to August 25, 1980, (ii) from August 25, 1980, through September 7, 1980, unless the individual fruit in each lot of such avocados weighs at least 24 ounces; and (iii) from September 8, 1980, through September 28, 1980, unless the individual fruit in each lot of such avocados weighs at least 22 ounces.

(4) Avocados of the Trapp variety shall not be imported (i) prior to July 28, 1980; (ii) from July 28, 1980, through August 10, 1980, unless the individual fruit in each lot of such avocados weighs at least 14 ounces or measures at least 3¹/₁₆ inches in diameter; and (iii) from August 11, 1980, through August 24, 1980,

unless the individual fruit in each lot of such avocados weighs at least 12 ounces or measures at least 3¹/₁₆ inches in diameter.

(5) Avocados of any variety other than Pollock, Catalina, and Trapp varieties, of the West Indian varieties not listed elsewhere in this regulation, shall not be imported (i) prior to June 30, 1980; (ii) from June 30, 1980, through July 27, 1980, unless the individual fruit in each lot of such avocados weighs at least 18 ounces; (iii) from July 28, 1980, through August 31, 1980, unless the individual fruit in each lot of such avocados weighs at least 16 ounces; (iv) from September 1, 1980, through September 28, 1980, unless the individual fruit in each lot of such avocados weighs at least 14 ounces: *Provided*, That any lot of such avocados may be imported without regard to the date or minimum weight requirements of this paragraph if such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(6) Avocados of any variety of the Guatemalan type, including hybrid type seedlings, unidentified Guatemalan and

hybrid varieties, and Guatemalan and hybrid varieties not listed elsewhere in the regulation shall not be imported (i) prior to September 15, 1980; (ii) from September 15, 1980, through October 12, 1980, unless the individual fruit in each lot of such avocados weighs at least 15 ounces; and (iii) from October 13, 1980, through December 14, 1980, unless the individual fruit in each lot of such avocados weighs at least 13 ounces.

(7) Notwithstanding the provisions of paragraphs (2) through (6) of this section regarding the minimum weight or diameter for individual fruit, not to exceed 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified and be less than the specified diameter: *Provided*, That such avocados weigh not over 2 ounces less than the applicable specified weight for the particular variety specified in such subparagraphs. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot.

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Quality Division, Food Safety and Quality Service, United States Department of Agriculture, is designated as the governmental inspection service for certifying the grade, size, quality, and maturity of avocados that are imported into the United States. Inspection by the Federal or Federal-State Inspection Service with evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of avocados, is required on all imports. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 2851) and in accordance with the Procedure for Requesting Inspection and Certification (7 CFR 944.400).

(c) Notwithstanding any other provisions of this regulation, any importation of avocados which, in the aggregate, does not exceed 55 pounds may be imported without regard to the restrictions specified herein.

(d) It is hereby found that the application of the maturity restrictions being imposed, pursuant to Order No. 915 (7 CFR Part 915), upon avocados grown in south Florida to imported avocados, other than of the Pollock, Catalina, and Trapp varieties is not practicable because of variations in characteristics between the domestic and imported avocados; and the maturity restrictions applicable to

imported avocados other than of the Pollock, Catalina, and Trapp varieties are comparable to those imposed upon the domestic commodity. The quality restrictions for all imported avocados and the maturity restrictions for imported avocados of the Pollock, Catalina, and Trapp varieties are the same as those being imposed upon the domestic commodity.

(e) No provisions of this section shall supersede the restrictions or prohibitions on avocados under the Plant Quarantine Act of 1912.

(f) Nothing contained in this section shall be deemed to preclude any importer from reconditioning, prior to importation, any shipment of avocados for the purpose of making it eligible for importation.

(g) The terms relating to grade, as used herein, shall have the same meaning as when used in the United States Standards for Florida Avocados (7 CFR 2851.3050-2851.3069). "Diameter" shall mean the greatest dimension measured at right angles to a straight line from the stem to the blossom end of the fruit. "Importation" means release from custody of the United States Customs Service.

Dated: April 30, 1980.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 80-13654 Filed 5-5-80; 8:45 am]

BILLING CODE 3410-02-M

7 CFR Part 953

Irish Potatoes Grown in the Southeastern States; Vegetables: Import Regulations; Notice of Proposed Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposal would require fresh market shipments of potatoes grown in designated counties of Virginia and North Carolina to be inspected and meet minimum grade and size requirements. The regulation should promote orderly marketing of such potatoes and keep less desirable qualities and sizes from being shipped to consumers.

DATES: Comments should be received on or before May 21, 1980.

ADDRESSES: Comments should be sent to: Hearing Clerk, Room 1077-S, U.S. Department of Agriculture, Washington, D.C. 20250. Two copies of all written comments shall be submitted, and they will be made available for public

inspection at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, (202) 447-2615.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 104 and Order No. 953, both as amended, regulate the handling of potatoes grown in designated counties of Virginia and North Carolina. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The Southeastern Potato Committee, established under the order, is responsible for its local administration.

This notice is based upon recommendations made by the committee at its public meeting in Norfolk, Virginia, on April 10, 1980.

The proposed grade and size requirements are the same as those which have been issued during past seasons. They are necessary to prevent potatoes of poor quality or undesirable sizes from being distributed to fresh market outlets. The proposal would benefit consumers and producers by standardizing and improving the quality of the potatoes shipped from the production area.

Again this season the minimum quantity exemption is proposed to be five hundredweight. This should relieve the burden on handling noncommercial quantities of potatoes and allow direct marketing outlets to operate in greater freedom.

Exceptions are proposed to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

Shipments would be allowed to certain special purpose outlets without regard to the grade, size, and inspection requirements, provided that safeguards were met to prevent such potatoes from reaching unauthorized outlets. Shipments for use as livestock feed would be so exempt because requirements for this outlet differ greatly from those for fresh market. Since no purpose would be served by regulating potatoes used for charity purposes, such shipments also would be exempt. Also, potatoes for most processing uses are exempt under the legislative authority for this part.

This proposal has been reviewed under USDA criteria for implementing Executive Order 12044. A determination has been made that this action should be classified "not significant." A Draft Impact Analysis has been prepared and is available upon request from Charles W. Porter (202) 447-2615.

§ 953.319 [Deleted]

It is proposed that § 953.319 (44 FR 29642, May 22, 1979) be deleted and a new § 953.320 be added as follows:

§ 953.320 Handling regulation.

During the period June 5 through July 31, 1980, no person shall ship any lot of potatoes produced in the production area unless such potatoes meet the requirements of paragraphs (a) and (b) of this section or unless such potatoes are handled in accordance with paragraphs (c) and (d) or (e) of this section.

(a) Minimum grade and size requirements.

All varieties U.S. No. 2, or better grade, 1½ inches (38.1 mm) minimum diameter.

(b) Inspection.

Except as provided in paragraphs (c) and (e), no handler shall ship any potatoes unless an appropriate inspection certificate covering them has been issued by the Federal-State Inspection Service and the certificate is valid at the time of shipment.

(c) Special purpose shipments. The grade, size, and inspection requirements set forth in paragraphs (a) and (b) of this section shall not apply to potatoes shipped for canning, freezing, "other processing" as hereinafter defined, livestock feed or charity, except that the handler of them shall comply with the safeguard requirements of paragraph (d) of this section.

(d) Safeguards. Each handler making shipments of potatoes for canning, freezing, "other processing," livestock feed, or charity in accordance with paragraph (c) of this section shall:

(1) Notify the committee of his intent to ship potatoes pursuant to paragraph (c) of this section by applying on forms furnished by the committee for a Certificate of Privilege applicable to such special purpose shipments;

(2) Obtain an approved Certificate of Privilege;

(3) Prepare on forms furnished by the committee a special purpose shipment report for each such individual shipment; and

(4) Forward copies of such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee's office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for suspension of such handler's Certificate of Privilege applicable to such special purpose shipments.

(e) Minimum quantity exemption.

Each handler may ship up to, but not to exceed, five hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any portion of a shipment that exceeds five hundredweight of potatoes.

(f) Definitions. The term "U.S. No. 2" shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes as amended (7 CFR 2851.1540 through 2851.1566), including the tolerances set forth in it. The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute "other processing." All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part, both as amended.

(g) Applicability to imports. Pursuant to § 8e of the Act and § 980.1 "Import regulations" (7 CFR 980.1), Irish potatoes of the round white type imported during the effective period of this section shall meet the grade, size, quality, and maturity requirements specified in paragraph (a) of this section.

Dated: May 1, 1980.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

Rural Electrification Administration**7 CFR Part 1701****Contract Approval Requirements—Generation; Proposed Supplement to REA Bulletin 40-6**

AGENCY: Rural Electrification Administration, USDA.

ACTION: Proposed Rule.

SUMMARY: The Rural Electrification Administration (REA) proposes to issue a supplement to REA Bulletin 40-6, "Construction Methods and Purchase of Materials and Equipment." This proposed supplement would reduce the number of plans and specifications, contracts, contract amendments, and subcontracts related to power plant

construction which will be subject to REA approval. This action is intended to reduce REA's workload and that of its power supply borrowers while allowing REA to maintain necessary control in this vital area.

DATE: Public comments must be received by REA no later than July 7, 1980.

ADDRESS: Submit written comments to the Director, Engineering Standards Division, Rural Electrification Administration, Room 1268, South Building, U.S. Department of Agriculture, Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT:

E. N. Limberger, telephone (202) 447-5117. A Draft Impact Analysis has been prepared and is available from the Director, Engineering Standards Division, at the above address.

SUPPLEMENTARY INFORMATION:

Pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue a supplement to REA Bulletin 40-6, "Construction Methods and Purchase of Materials and Equipment."

The proposed changes in REA policy are as follows: (a) reduce the number of equipment and construction contracts required to be submitted for REA approval for construction of a major generating station from about 100 to about 12, (b) raise the minimum dollar estimated amount of generating plant equipment and construction contracts for which REA reviews and approves plans and specifications from \$200,000 to \$500,000, (c) eliminate REA approval of subcontracts, (d) eliminate the requirement for REA review and approval of power plant contract amendments except that when the total cost of the contract and all its amendments exceed 120 percent of the price of the base contract, the amendment which causes the total amended price to exceed 120 percent of the base price and all subsequent amendments to that contract must be submitted to REA for review and approval, and (e) will increase the responsibility of borrowers to comply with proper bidding and contract award procedures. Copies of the draft supplement are available from the Director, Engineering Standards Division, at the above address.

This proposal has been reviewed under the USDA criteria established to implement Executive Order 12044, "Improving Government Regulations." A determination has been made that this action should not be classified "significant" under those criteria. A Draft Impact Analysis has been prepared and is available from the

Director, Engineering Standards Division, at the above address.

Dated: April 29, 1980.

Robert W. Feragen,
Administrator.

BILLING CODE 3410-15-M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Parts 211 and 214

Nonimmigrant Classes; the Effect of a Strike on the Admission and Continued Employment of Certain Nonimmigrants

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Proposed Rule.

SUMMARY: These proposed rules set forth the restrictions on the admission and continued employment of nonimmigrant temporary workers, intra-company transferees, and students in the occupations and at the places of labor strikes. The rules are necessary to protect U.S. labor. These proposed rules also eliminate a restriction on the admission of commuters destined to the site of a strike which was declared invalid by a U.S. Court of Appeals.

DATE: Representations must be received on or before July 7, 1980.

ADDRESS: Please submit representations, in duplicate, to the Commissioner of Immigration and Naturalization, Room 7100, 425 Eye Street, NW., Washington, DC 20536.

FOR FURTHER INFORMATION CONTACT:

For General Information: Stanley J. Kieszkiel, Acting Instructions Officer, Immigration and Naturalization Service, 425 Eye Street NW., Washington, DC 20536, telephone: (202) 633-3048.

For Specific Information: Paul W. Schmidt, Deputy General Counsel, Immigration and Naturalization Service, 425 Eye Street NW., Washington, DC 20536, telephone: (202) 633-2895.

SUPPLEMENTARY INFORMATION: On April 18, 1979, the Department of Justice, Office of Legal Counsel ("OLC") advised the Immigration and Naturalization Service ("INS") that 8 CFR 214.2(h)(10), which relates to the effect of a labor dispute on H nonimmigrants, did not apply to aliens in the United States. In the opinion, the OLC questioned whether the regulation was rationally related to the purpose of 8 U.S.C. 1101(a)(15)(H)(ii) and concluded that its application to an alien already in the

United States would contravene the alien's right to strike or not to strike guaranteed him under section 7 of the National Labor Relations Act ("NLRA").

The Department of Labor expressed its concern over the OLC opinion. It contended that the continued employment or training of H nonimmigrants during a strike would adversely affect U.S. labor. Moreover, it argued that, as a practical matter, the rights of a nonimmigrant under the NLRA are more theoretical than real, and urged that the labor policy interests underlying the Immigration and Nationality Act outweighed those underlying the NLRA in most strike situations.

We have prepared an amendment to 8 CFR 214.2(h)(10) which in our view, protects U.S. labor while at the same time satisfying the legal concerns of the OLC. Under the amendment, before INS suspends the employment or training authorization of any H nonimmigrants, a determination will have been made by the Department of Labor, which has the labor market expertise, that the continued employment or training would adversely affect U.S. wages and working conditions. In the case of aliens covered by the NLRA, it must also be shown that more than 30% of the workforce involved are U.S. citizens or resident alien workers and that the strike has been authorized by a majority of such workers. This latter provision is included to provide the public with guidelines to identify those situations where the impact upon U.S. labor will not be considered significant enough to override the alien's rights under the NLRA.

A similar amendment is proposed to 8 CFR 214.2(1)(3a) pertaining to the admission of intra-company transferees. It is also proposed to suspend employment authorization for nonimmigrant students upon certification by the Department of Labor that a strike is in progress in the occupation and at the place of employment and that the continued employment of the nonimmigrant student would adversely affect U.S. labor. Because employment is not the purpose for which a nonimmigrant student is present in the United States, we view their rights under the NLRA less significant than those of nonimmigrants who are admitted for the purpose of employment. Consequently, we have not provided guidelines similar to those proposed for nonimmigrant temporary workers and intra-company transferees.

Since 8 CFR 211.5(d), relating to the admission of commuters destined to the site of a strike, has been declared

invalid by the U.S. Court of Appeals for the Ninth Circuit in *Sam Andrews' Sons v. Mitchell*, 457 F.2d 745 (9th Cir. 1972), the deletion of that subsection is also proposed.

In view of the above, the following amendments are proposed to Chapter I of Title 8 of the Code of Federal Regulations:

PART 214—NONIMMIGRANT CLASSES

§ 214.2 [Amended]

1. It is proposed to revise 8 CFR 214.2(h)(10) to read as follows:

(h) * * *

(10) *Effect of strike.* (i) A petition to classify an alien as a nonimmigrant as defined in section 101(a)(15)(h) of the Act shall be denied if the Secretary of Labor certifies to the Commissioner of Immigration and Naturalization that a strike is in progress in the occupation and at the place the beneficiary is to be employed or trained, and that the employment or training of the beneficiary would adversely affect the wages and working conditions of U.S. citizen or resident alien workers. (ii) If a petition has been approved, but the beneficiary has not yet entered the United States to take up the approved employment or training, and the Secretary of Labor certifies to the Commissioner of Immigration and Naturalization that there is a strike in progress in the occupation and at the place the beneficiary is to be employed or trained, and that the employment or training of the beneficiary would adversely affect the wages and working conditions of U.S. citizen or resident alien workers, the approval of the petition is automatically suspended and application for admission on the basis of the petition shall be denied. (iii) For the beneficiary already in the United States, the approval of the beneficiary's employment or training is automatically suspended upon certification of the Secretary of Labor to the Commissioner of Immigration and Naturalization that a strike is in progress in the occupation and at the place of employment and that the continued employment of the beneficiary during the strike would adversely affect the wages and working conditions of the U.S. citizen or resident alien workers: *Provided*, In the case of a beneficiary already in the United States who falls within the definition of "employee" under the National Labor Relations Act (29 U.S.C. 152(3)), that the Secretary of Labor has certified that (A) more than 30% of the workforce in the occupation and at the place of employment or training are U.S. citizen or resident alien workers, and (B) the

strike has been authorized by a majority of such workers.

* * * * *

§ 214.2 [Amended]

2. It is proposed to revise 8 CFR 214.2(l)(3a) to read as follows:

* * * * *

(l) * * *

(3a) *Effect of strike:* (i) A petition to classify an alien as a nonimmigrant as defined in section 101(a)(15)L of the Act shall be denied if the Secretary of Labor certifies to the Commissioner of Immigration and Naturalization that a strike is in progress in the occupation and at the place the beneficiary is to be employed and that the employment of the beneficiary would adversely affect the wages and working conditions of U.S. citizen or resident alien workers. (ii) If a petition has been approved, but the beneficiary has not yet entered the United States to take up the approved employment, and the Secretary of Labor certifies to the Commissioner of Immigration and Naturalization that there is a strike in progress in the occupation and at the place the beneficiary is to be employed and that the employment of the beneficiary would adversely affect the wages and working conditions of U.S. citizen or resident alien workers, the approval of the petition is automatically suspended and the application for admission on the basis of the petition shall be denied. (iii) For the beneficiary already in the United States, the approval of the beneficiary's employment is automatically suspended upon certification by the Secretary of Labor to the Commissioner of Immigration and Naturalization that a strike is in progress in the occupation and at the place of employment and that the continued employment of the beneficiary during the strike would adversely affect the wages and working conditions of the U.S. citizen or resident alien workers: *Provided*, In the case of a beneficiary already in the United States who falls within the definition of "employee" under the National Labor Relations Act (29 U.S.C. 152(3)), that the Secretary of Labor has certified that (A) more than 30% of the workforce in the occupation and at the place of employment are U.S. citizen or resident alien workers, and (B) the strike has been authorized by a majority of such workers.

* * * * *

3. It is proposed to amend 8 CFR 214.2(f)(6) by amending the last sentence in the paragraph to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(f) * * *

(6) *Employment.* * * * Permission which is granted to a student to engage in any employment shall not extend beyond the expiration date of his/her authorized stay, and authorization for all employment, whether or not part of any academic program, is automatically suspended upon certification by the Secretary of Labor to the Commission of Immigration and Naturalization that a strike is in progress in the occupation and at the place of employment and that the continued employment would adversely affect the wages and working conditions of the U.S. citizen or resident alien workers.

* * * * *

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

4. It is proposed to revoke 8 CFR 211.5(d) in its entirety.

§ 211.5 Alien commuters.

* * * * *

(d) [Revoked]

* * * * *

(Sec. 103, and 214; (8 U.S.C. 1103, and 1184))

Public Comments Invited

In accordance with 5 U.S.C. 553, the Service invites comments from interested parties on the proposed rules. All relevant data, views, and arguments submitted before July 7, 1980, will be considered. Representations should be submitted in writing, in duplicate, to the Commissioner of the Immigration and Naturalization Service at the address shown in this notice.

Dated: May 1, 1980.
David Crosland,
Acting Commissioner of Immigration and Naturalization.

BILLING CODE 4410-10-M

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 230

[Release No. 33-6208; File No. S7-834]

Accountants' Liability Under Securities Act of 1933 for Reports on Certain Unaudited Supplementary Financial Information

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rule.

SUMMARY The Commission is proposing for comment amendments to a rule which would provide that a "report" prepared or certified by an accountant within the meaning of Sections 7 and 11 of the Securities Act of 1933 shall not include a report by an independent accountant on two types of unaudited supplementary financial information included in a document containing financial statements. The amendments, if adopted, would have the effect of excluding accountants from Section 11(a) liability for reports on unaudited supplementary information as to the effects of changing prices and as to oil and gas reserves.

DATE: Comments should be received by the Commission on or before June 30, 1980.

ADDRESSES: Comments should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D. C. 20549. Comment letters should refer to File No S7-834. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 1100 L Street, N.W., Washington, D. C. 20549.

FOR FURTHER INFORMATION CONTACT: Linda L. Griggs (202-272-2130), Office of the Chief Accountant; Steven Hamilton (202-272-2573), Division of Corporation Finance; or Robert Chira (202-272-2437), Office of the General Counsel, Securities and Exchange Commission, 500 North Capitol Street, Washington D. C. 20549.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission is proposing for public comment amendments to 17 CFR 230.436 which would exclude from the definition of a "report" for purposes of Sections 7 and 11 of the Securities Act of 1933 ("Securities Act") reports by independent accountants on unaudited supplementary information as to the effects of changing prices and as to oil and gas reserves. Adoption of these amendments would mean that accountants would not be required by Section 7 of the Securities Act to consent to the inclusion of such reports in registration statements and that accountants would not be liable for such reports under Section 11(a). In Accounting Series Release No. 274 ("ASR No. 274")¹ issued in December, 1979, the Commission announced the adoption of similar amendments regarding reports by independent accountants on reviews of unaudited interim financial information pursuant to

¹ Securities Act Release No. 6173, December 28, 1979 (45 FR 1601).

Statement on Auditing Standards No. 24 ("SAS No. 24").²

I. Background

As part of its Conceptual Framework project, the Financial Accounting Standards Board ("FASB") intends to develop criteria for distinguishing information to be included in financial statements from that which should be provided by other means of financial reporting. Statement of Financial Accounting Concepts No. 1, *Objectives of Financial Reporting by Business Enterprises*, issued by the FASB in November 1978, states:

Although financial reporting and financial statements have essentially the same objectives, some useful information is better provided by financial statements and some is better provided, or can only be provided, by means of financial reporting other than financial statements.

At its Spring 1979 meeting, the Council of the American Institute of Certified Public Accountants ("AICPA") approved a resolution designating the FASB as the body under Rule 204 of the AICPA Rules of Conduct to establish standards for the disclosure of financial information outside of financial statements in published financial reports. As a result of that resolution, the Auditing Standards Board ("ASB") of the AICPA added to its agenda a project to develop general standards for the involvement of auditors with all types of supplementary information measured and presented within guidelines established by the FASB. On October 1, 1979, the ASB issued for comment a proposed Statement on Auditing Standards ("the proposed SAS") relating to such general standards.³ After considering the comments, the ASB issued Statement on Auditing Standards No. 27 ("SAS No. 27").⁴

SAS No. 27 requires an independent accountant to follow certain limited review procedures, which are substantially less extensive than an audit, when supplementary information is required to be presented pursuant to FASB pronouncements. Instead of requiring an accountant to report explicitly on such information, SAS No. 27 requires an accountant to expand his report on the audited financial

statements only to call attention to his inability to complete the prescribed procedures, the omission of supplementary information required by the FASB or material departures from FASB guidelines on the measurement or presentation of such information.⁵

The ASB stated in SAS No. 27 that additional procedures to be followed by auditors reviewing specific types of supplementary information might be specified in other Statements on Auditing Standards. Thus far, the ASB has issued for comment proposed Statements on Auditing Standards which relate specifically to the two types of supplementary information now required: information about the effects of changing prices⁶ and information about oil and gas reserves.⁷

Certain public companies are required by Statement of Financial Accounting Standards No. 33⁸ of the FASB to include in their published annual reports for years ending on or after December 25, 1979 certain supplementary information on the effects of changing prices.⁹

Oil and gas producing companies are permitted by Statement of Financial Accounting Standards No. 25¹⁰ to include as supplementary information in documents containing their financial statements disclosure of the estimated quantities of proved oil and gas reserves required by Statement of Financial

Accounting Standards No. 19.¹¹ Rule 3-18 of Regulation S-X requires disclosure of the estimated future net revenues from production of proved reserves, the present value of the estimated future net revenues and annual changes therein, and a summary of oil and gas producing activities prepared on the basis of reserve recognition accounting as well as disclosure of the estimated quantities of oil and gas reserves. (All of this information is collectively referred to herein as "oil and gas reserve information" or "reserve information.") In Accounting Series Release No. 270,¹² the Commission delayed until fiscal years ending after December 25, 1980 the requirement that these oil and gas reserve disclosures be audited. Recently, in Accounting Series Release No. 277 ("ASR No. 277"),¹³ the Commission amended Rule 3-18 to extend the postponement of the audit requirement until a decision is reached on requiring reserve information in the primary financial statements.¹⁴ The rule amendments in ASR No. 277 also permit this unaudited reserve information to be reported as supplementary information accompanying, but outside, the financial statement.¹⁵

As noted above, SAS No. 27 does not require auditors to report explicitly on either of these types of supplementary financial information. The ASB stated in SAS No. 27:

The Auditing Standards Board has under consideration the issue of whether the auditor should report explicitly on such information, that is, whether the auditor should issue a report, based on the limited procedures prescribed by this Statement, that states he is not aware of any material modifications that should be made to the information for it to conform with guidelines established by the FASB. This issue has not been resolved because of uncertainties

⁵The "exception" reporting standard contained in SAS No. 27 represents a significant change from the proposed SAS, which would have required the accountant to explicitly report whether or not he was aware of any material modifications that should be made to the supplementary information for it to conform with the FASB guidelines.

⁶Proposed Statement on Auditing Standards, "Supplementary Information on the Effects of Changing Prices," AICPA, December 31, 1979. Rather than prescribing additional review procedures for the accountant to follow beyond those specified in SAS No. 27, the proposed statement provides additional guidance on the nature of the auditor's inquiries of management concerning the information on changing prices.

⁷Proposed Statement on Auditing Standards, "Supplementary Oil and Gas Reserve Quantity Information," AICPA, December 31, 1979. The proposed statement relates to information required by the Commission as well as by the FASB. See note 14 *infra*.

⁸Statement of Financial Accounting Standards No. 33, "Financial Reporting and Changing Prices," FASB, September 1979.

⁹In March 1980, the Commission proposed amendments to Regulation S-K and to various reporting provisions which would require companies subject to FAS 33 to include supplementary information on the effects of changing prices in various registration statements and certain proxy statements filed with the Commission. Securities Act Release No. 6201, March 27, 1980 (45 FR 23470).

¹⁰Statement of Financial Accounting Standards No. 25, "Suspension of Certain Accounting Requirements for Oil and Gas Producing Companies," FASB, February 1979.

¹¹Statement of Financial Accounting Standards No. 19, "Financial Accounting and Reporting by Oil and Gas Producing Companies," FASB, December 1977.

¹²Securities Act Release No. 6128, September 24, 1979 (44 FR 57037).

¹³Securities Act Release No. 6207, April 17, 1980 (45 FR 27747).

¹⁴In ASR No. 253, August 31, 1978 (43 FR 40688), the Commission discussed its decision to seek the development of reserve recognition accounting, which would involve recognition of valuations of proved oil and gas reserves in the primary financial statements.

¹⁵The Commission notes that the ASB's proposed SAS on "Supplementary Oil and Gas Reserve Quantity Information" (see note 7 *supra*) would apply to, and would extend the provisions of SAS No. 27 generally to, the reserve information required by Regulation S-X when such information is included in an unaudited note to the financial statements. The Commission expects that the final SAS will reflect the action taken in ASR No. 277 and, accordingly, be made applicable to reserve information required by Rule 3-18 of Regulation S-X and reported as supplementary information.

²Statement on Auditing Standards No. 24, "Review of Interim Financial Information," AICPA, March 1979.

³Proposed Statement on Auditing Standards, "Reporting on Required Supplemental Information," AICPA, October 1, 1979.

⁴Statement on Auditing Standards No. 27, "Supplementary Information Required by the Financial Accounting Standards Board," AICPA, December 1979.

concerning (a) the implications that the location of the information (outside or inside the basic financial statements) may have on explicit versus exception reporting, (b) whether Section 11(a) of the Securities Act of 1933 would apply to an auditor's explicit report on supplementary information included in a securities act filing, and (c) the nature of information that may become required supplementary information. The board intends to decide whether explicit reporting is appropriate when sufficient knowledge is obtained to clarify these matters.¹⁶

The Commission believes that, by excluding accountants from potential liability under Section 11(a) of the Securities Act for their reports on supplementary information as to the effects of changing prices and as to oil and gas reserves included in Securities Act filings, the proposed amendments, if adopted, will encourage the ASB to require explicit reporting by auditors for the year 1980. The proposed amendments, if adopted, would be inoperable unless auditors are required to state in explicit reports on this supplementary information whether or not they are aware of any material modification that should be made to the information for it to conform with guidelines established by the FASB or the Commission.

II. Proposed Amendments

The Commission has encouraged the FASB to look beyond the reporting of financial information in financial statements to a broader concept of financial reporting¹⁷ and has supported the expansion of auditors' responsibilities beyond audits of financial statements to reports containing limited statements of assurance concerning unaudited financial information.¹⁸ Thus far, accountants' reports on unaudited interim financial information pursuant to SAS No. 24 are the only reports which accountants may give after undertaking reviews which are less extensive than audits.

The Commission believes that adoption of the proposed amendments will encourage the development of explicit reporting on supplementary financial information. In addition, the Commission expects that, if the proposed amendments are adopted and if explicit reports on unaudited supplementary information as to the effects of changing prices and as to oil

and gas reserves are included in registration statements, directors and underwriters will continue to exercise due diligence in a vigorous manner with respect to such supplementary information. Directors and underwriters should not be able to claim in defense to a suit for damages under Section 11(a) that these accountants' reports were statements "purporting to be made on the authority of an expert * * * which they had no reasonable ground to believe were untrue * * *" under Section 11(b)(3)(C).¹⁹ Directors and underwriters should be required, as has historically been the case with respect to unaudited information included in a registration statement, to demonstrate affirmatively under Section 11(b)(3)(A) that, after conducting a reasonable investigation, they had reasonable ground to believe, and did believe, that the supplementary information was true.²⁰

Adoption of these amendments would foreclose both private actions and actions by the Commission against accountants pursuant to Section 11(a) of the Securities Act for their reports on required supplementary information as to the effects of changing prices and as to oil and gas reserves used in connection with registration statements; however, the Commission could still take action against accountants for such reports pursuant to Section 17(a) of the Securities Act.²¹ The Commission has

¹⁹ Section 11(b)(3)(C) provides a defense to Section 11(a) liability to every person named in Section 11(a), other than an issuer, if such person sustains the burden of proof that as regards any part of the registration statement purporting to be made on the authority of an expert (other than himself) or purporting to be a copy of or extract from a report or valuation of an expert (other than himself), he had no reasonable ground to believe, and did not believe, at the time such part of the registration statement became effective, that the statements therein were untrue or that there was an omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, or that such part of the registration statement did not fairly represent the statement of the expert or was not a fair copy of or extract from the report or valuation of the expert. . .

²⁰ Section 11(b)(3)(A) provides a defense to Section 11(a) liability to every person named in Section 11(a), other than an issuer, if such person shall sustain the burden of proof that as regards any part of the registration statement not purporting to be made on the authority of an expert and not purporting to be a copy of or extract from a report, or valuation of an expert, and not purporting to be made on the authority of a public official document or statement, he had, after reasonable investigation, reasonable ground to believe and did believe, at the time such part of the registration statement became effective, that the statements therein were true and that there was no omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading. . .

²¹ Section 17(a) of the Securities Act provides in its entirety:

It shall be unlawful for any person in the offer or sale of any securities by the use of any means or

utilized Section 17(a) as an alternate vehicle for securing many of the protections afforded under Section 11 of the Securities Act,²² although there are significant differences between the two sections. Furthermore, accountants could be liable to investors and shareholders for their reports on this supplementary information under common law, state statutes, and the general antifraud provisions of the federal securities statute. For example, a shareholder could bring an action under Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder, although the plaintiff will have the burden of proving scienter in that case.²³ Directors and underwriters who relied on the accountants' reports on changing prices or oil and gas reserve information could bring actions under other applicable laws.

III. Accountants' Acknowledgments and Alternate Disclosure

While the proposed amendments would eliminate the requirement of Section 7 of the Act that accountants consent to the use of their reports on required supplementary information as to the effects of changing prices and as to oil and gas reserves, the Commission believes that independent accountants should acknowledge their awareness

instruments of transportation or communication in interstate commerce or by the use of the mails, directly or indirectly—

(1) to employ any device, scheme, or artifice to defraud, or

(2) to obtain money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, or

(3) to engage in any transaction, practice, or course of business which operates or would operate as a fraud or deceit upon the purchaser.

²² With respect to Commission enforcement actions, Section 17(a) has generally been interpreted by the courts to impose civil liability without scienter. *Securities and Exchange Commission v. World Radio Mission*, 544 F.2d 535 (1st Cir. 1976); *Securities and Exchange Commission v. Coven*, 581 F.2d 1020 (2d Cir. 1978), cert. denied, 47 U.S.L.W. 3568 (1979); *Securities and Exchange Commission v. Aaron*, CCH Fed. Sec. L. Rep. ¶96,800 (2d Cir. 1979), cert. granted, October 15, 1979, Docket Number 79-66; *Securities and Exchange Commission v. American Realty Trust*, (1978) CCH Fed. Sec. L. Rep. ¶96,605 (4th Cir. 1978). Therefore, insofar as material misstatements or omissions are made by accountants, in reports on required supplementary information used in registration statements, the Commission may take appropriate enforcement action against such accountants under Section 17(a). Of course, where an accountant's report is found to be fraudulent, and the fraud has occurred in connection with the purchase or sale of a security, civil liability would also arise pursuant to Section 10(b) of the Securities Exchange Act of 1934, 15 U.S.C. 78j(b), and Rule 10b-5 thereunder, 17 CFR 240.10b-5. See, e.g., *Blue Chip Stamps v. Manor Drug Stores*, 421 U.S. 723 (1975).

²³ See *Ernst & Ernst v. Hochfelder*, 425 U.S. 185 (1976).

¹⁶ SAS No. 27, paragraph 11.

¹⁷ See, e.g., Securities and Exchange Commission Report to Congress on the Accounting Profession and the Commission's Oversight Role, U.S. Government Printing Office, July 1979, pages 188-193.

¹⁸ See, e.g., id., pages 241-243.

that such reports are being included in a registration statement. The Commission intends to adopt an amendment to the exhibit requirements applicable to appropriate forms for the registration of securities which would require issuers to file as an exhibit to a registration statement a letter from the independent accountants which acknowledges their awareness of the use in a registration statement of any of their reports which are not subject to the consent requirement of Section 7. If the proposed amendments are adopted, this amended exhibit requirement would therefore require an acknowledgement whenever an issuer makes use in a registration statement of a report on required supplementary information as to the effects of changing prices or as to oil and gas reserves.²⁴

If the proposed amendments are adopted and accountants' reports on supplementary information are included in registration statements, the Commission believes that disclosure which clarifies the distinction between the role of accountants in preparing such reports as opposed to their role in certifying financial statements is needed in order to fully inform investors. Such disclosure would correct any misleading implication about the extent of accountants' involvement which might otherwise arise from the inclusion of both a report on the required supplementary information and a certification in a registration statement and thus satisfy the requirements of Rule 408 of Regulation C under the Securities Act. Accordingly, the Commission expects that, if the proposed amendments are adopted, a prospectus which includes a discussion about the accountants' involvement in a registration statement should clarify that reports on required supplementary information as to the effects of changing prices or as to oil and gas reserves included in such registration statement are not "reports" or "parts" of the registration statement within the meaning of Sections 7 and 11 of the Securities Act. In addition, the prospectus should state specifically that the independent accountants' Section 11 liability does not extend to such reports.

²⁴ The Commission has proposed amendments to Regulation S-K and certain forms for the registration of securities under the Securities Act of 1933 in order to integrate the exhibit filing requirements and eliminate certain exhibit filing requirements. Securities Act Release No. 6149, November 16, 1979 (44 FR 67143). The exhibit filing requirement discussed above will be adopted at the same time as final action is taken on the amendments to the exhibit requirements proposed in Securities Act Release No. 6149.

IV. General Rule Regarding Supplementary Information

The Commission understands that the establishment by the ASB of a general explicit reporting requirement may be desirable in promoting consistency in reporting on new types of supplementary financial information and in ensuring timeliness of reporting requirements as new types of supplementary information are required. Furthermore, the Commission recognizes that the ASB may be encouraged to establish a general standard for explicit reporting on supplementary financial information if the Commission establishes a general rule concerning liability.

The Commission, thus, is looking toward the possibility of a general framework which provides a proper link between auditor liability and responsibility. The inclusion by public companies of supplementary unaudited financial information within their annual reports and other public documents is a new and evolving area of disclosure and one which the Commission has been encouraging. The accounting profession is participating in the development of meaningful supplementary financial information through the establishment of standards by the FASB and through limited reviews of the supplementary information conducted by companies' independent auditors. The Commission believes that accountants should report explicitly on the supplementary information, but also recognizes that their exposure to liability for such reports must be consistent with responsibilities which they assume.

Accordingly, in the near future, the Commission intends to issue a concept release which invites comments on whether the Commission should develop such a general rule. In addition, comment will be invited on the appropriate approach to the liability issue if a general rule should be developed. Two alternate approaches may be discussed: (i) a general exemptive rule, similar to the amendments proposed herein, which would exclude from the definition of a "report" for purposes of Sections 7 and 11 of the Securities Act all reports on supplementary financial information; and (ii) a general definitional rule which would define "reasonable investigation" for purposes of an accountant's defense to liability for such reports under Section 11 of the Securities Act and "reasonable grounds for belief" for purposes of the defense of other persons to liability for such reports under Section 11.

V. Authority for Proposed Amendments

The proposed amendments would be promulgated pursuant to Section 19(a) of the Securities Act of 1933 which grants the Commission authority to define "accounting, technical and trade terms used in this title."

VI. Request for Comments

All interested persons are invited to submit their views and comments on the foregoing in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C., 20549 on or before June 30, 1980. Such communications should refer to File S7-834 and will be available for public inspection.

In ASR No. 274, the Commission emphasized that adoption of the rule excluding accountants from potential liability under Section 11 of the Securities Act with respect to unaudited interim financial information is not its final view as to the proper resolution of the issue of Section 11 liability for reports by accountants containing limited assurances based on procedures less extensive than audits. The Commission, accordingly, specifically solicits the views of registered companies, shareholders, directors, underwriters, accountants and their respective counsel, as well as other interested parties, as to whether exclusion of potential Section 11 liability for reports issued by accountants based upon reviews less extensive than audits is appropriate and desirable in these circumstances. In addition, the Commission invites comments on whether this proposed action may affect the ability of directors and underwriters to meet their due diligence defense under Section 11(b)(3)(A) and whether more appropriate alternative approaches to this issue exist.

VII. Text of Proposed Rule

In consideration of the foregoing, it is proposed to amend 17 CFR Chapter II as follows:

Part 230 of Chapter II of the Title 17 of the Code of Federal Regulations is proposed to be amended by revising paragraph (c) and adding paragraphs (e) and (f) to § 230.436 as follows:

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

§ 230.436 Consents required in special cases.

* * * * *

(c) Notwithstanding the provisions of paragraph (b), the following reports issued by independent accountants shall not be considered a part of a registration

statement prepared or certified by an accountant or a report prepared or certified by an accountant within the meaning of sections 7 and 11 of the Act:

(1) A report on unaudited interim financial information as defined in paragraph (d) of this section,

(2) A report on unaudited supplementary information as to the effects of changing prices as defined in paragraph (e) of this section; and

(3) A report on unaudited supplementary oil and gas reserve information as defined in paragraph (f) of this section.

(d) (No Change)

(e) The term "report on unaudited supplementary information as to the effects of changing prices" shall mean a report which consists of the following:

(1) An identification of the specific supplementary information as to the effects of changing prices to which procedures have been applied;

(2) A brief description of the procedures;

(3) A statement that the information is not part of the financial statements and is not audited; and

(4) A statement about whether the accountant is aware of any material modifications that should be made to the information for it to conform with guidelines established by the Financial Accounting Standards Board.

(f) The term "report on unaudited supplementary oil and gas reserve information" shall mean a report which consists of the following:

(1) An identification of the specific supplementary oil and gas reserve information to which procedures have been applied;

(2) A brief description of the procedures;

(3) A statement that the information is not part of the financial statements and is not audited; and

(4) A statement about whether the accountant is aware of any material modifications that should be made to the information for it to conform with guidelines established by the Financial Accounting Standards Board or with reporting requirements established by the Commission in Rule 3-18 of Regulation S-X.

By the Commission.

George A. Fitzsimmons,
Secretary.

April 30, 1980.

BILLING CODE 8010-01-M

17 CFR Part 240

[Release No. 34-16770; File No. S7-833]

Stock Options

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rulemaking.

SUMMARY: The Commission is publishing for comment a proposed amendment to Rule 16b-3 under the Securities Exchange Act of 1934 that would exempt from the short-swing profit recovery provisions of Section 16(b) of the Act the delivery of stock by an officer or director upon the exercise of an employee stock option. In addition, the Commission is proposing to amend the caption for Rule 16b-3 to reflect the broadened coverage of the rule. The proposed changes are being published as a result of several requests from the public that the Commission provide relief from Section 16(b) for the use of stock as payment for the exercise of employee stock option.

DATE: Comments should be submitted on or before June 9, 1980.

ADDRESS: Comments should refer to File No. S7-833 and should be submitted in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 1100 L Street, N.W., Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT: Michael R. Kargula or Peter J. Romeo, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272-2573.

SUPPLEMENTARY INFORMATION: On April 27, 1979, the Internal Revenue Service issued a ruling which held that an employee could deliver stock already owned by him as payment for the exercise of an employee stock option without recognizing any taxable gain on the unrealized appreciation of the delivered shares.¹ Pursuant to this ruling, the optionee is not taxed on the difference between his cost basis for the old shares and their market value on the date of delivery, even though the delivered shares are valued at their current market price for purposes of paying all or part of the option price.

In essence, the IRS ruling in many instances permits an employee who uses stock to exercise a stock option to acquire, without any cash outlay, not

only a number of shares equal in all respects to the surrendered shares but also additional shares equal to the difference between the option price and the market price at the time of exercise.² The tax and other advantages flowing from this ruling, however, are for all practical purposes not presently available to officers and directors of issuers which have a class of equity securities registered under Section 12 of the Securities Exchange Act of 1934 ("1934 Act") [15 U.S.C. 78a et seq.]. Such persons are subject to Section 16(b) of the 1934 Act, which allows an issuer to recover any profits realized by its officers and directors on any purchase and sale, or sale and purchase, of the issuer's equity securities occurring in a period of less than six months. Since the delivery of stock upon exercise of an option could be considered a "sale" to the issuer, and the acquisition of stock as a result of exercising the option could be deemed a "purchase," the profit on the combined sale and purchase would be recoverable by the issuer under Section 16(b) because it occurred in a period of less than six months.

In recent months, the Commission and its staff have received a number of informal requests, as well as a formal rulemaking petition,³ that it provide exemptive relief from Section 16(b) for the delivery of stock upon the exercise of a stock option. In this regard, Section 16(b) grants authority to the Commission to exempt by rules and regulations any transaction or transactions which it believes are not comprehended within the purpose of that section. The Commission has exercised its exemptive authority under Section 16(b) on numerous occasions in the past, as evidenced by the various rules it has adopted under that section.

Those persons who have requested exemptive relief have stated that the use of already-owned stock to exercise a stock option does not present an opportunity for the abuses which Section 16(b) is designed to prevent.⁴

¹ For example, if a person who holds an option for 200 shares at an exercise price of \$10 per share decided to exercise the option when the stock was trading at \$20 a share, he could do so by delivering 100 shares previously acquired by him (with a value of \$2,000) for the 200 shares under the option.

² The rulemaking petition was submitted under Rule 4(a) of the Commission's Rules of Practice [17 CFR 201.4(a)] by the firm of Rodden and Marshall on March 4, 1980 on behalf of Consolidated Oil & Gas, Inc. Requests of a similar nature were received in writing from Messrs. Jesse Brill, Warren Crienberger, John Bitner, and Monty Barber. Moreover, many members of the public have expressed the view in telephone conversations with the staff that the Commission should provide the type of relief being proposed herein.

³ Generally, the purpose of Section 16(b) is to prevent insiders from unfairly utilizing confidential

Footnotes continued on next page

⁴ CCH Standard Federal Tax Reporter, ¶ 6979. The ruling dealt with non-qualified stock options.

The Commission, to some extent, has previously recognized this view by its prior adoption of amendments to Rule 16b-3 [17 CFR 240.16b-3] exempting from Section 16(b) certain transactions involving stock appreciation rights.⁵ The use of already-owned stock to exercise a stock option is in substance another form of stock appreciation right⁶ and does not appear to present any more opportunity for speculative abuse than stock appreciation rights payable in securities.

Under the circumstances, the Commission believes it is appropriate to propose the adoption of an amendment to Rule 16b-3 that would provide the requested exemptive relief. Rule 16b-3 exempts from Section 16(b) certain transactions occurring under specified types of employee benefit plans. It reflects the Commission's recognition that without such an exemption the legitimate use of the types of plans covered by it as a means of executive compensation would be largely frustrated. Because of the safeguards inherent in the rule, such as the requirements for shareholder approval of the plan and disinterested plan administrators, the opportunities for abuse under it are slight.

The proposed amendment would appear in the first sentence of Rule 16b-3 and would exempt "any surrender or delivery to the issuer of securities of the issuer pursuant to the exercise of an option for securities of the same class." It should be noted that the amendment would exempt only the stock delivered to the issuer upon the exercise of an option. Stock acquired by the optionee upon such an exercise would not be exempt from Section 16(b) just as stock acquired upon the exercise of a stock appreciation right is not exempt under the rule. This is generally due to the fact that insiders usually can control the timing of the exercise of an option (or a stock appreciation right, for that matter) and thus can take unfair advantage of inside information if they are allowed to acquire stock pursuant to an option and then immediately resell it to the public without Section 16(b) consequences. Thus, stock acquired in a transaction covered by the proposed amendment could be matched under Section 16(b) against any sales of such stock

Footnotes continued from last page information to profit from short-term trading transactions in an issuer's securities.

⁵ Release Nos. 34-13097 (December 22, 1976) [42 FR 755] and 34-13659 (June 22, 1977) [42 FR 33283].

⁶ Both the use of stock to exercise an option and the exercise of a stock appreciation right for securities result in the acquisition of additional stock without any out-of-pocket expense on the basis of a preselected measure of appreciation.

occurring within less than six months before or after the acquisition.

Other Matters

The caption for Rule 16b-3 indicates that the rule covers "acquisitions of shares and stock options and stock appreciation rights under certain stock incentive, stock option or similar plans." Because the proposed amendment described above would expand the rule to cover certain dispositions of stock, the caption would no longer reflect the contents of the rule if the amendment were adopted. Accordingly, as a related matter, the Commission is proposing to change the caption for Rule 16b-3 to state that the rule exempts from Section 16(b) "certain transactions occurring under employee benefit plans."

In addition to the foregoing, the Commission is aware that the proposed amendment to Rule 16b-3 described herein would, if adopted, raise the question whether an amendment to an existing stock option plan allowing the delivery of already-owned stock upon exercise of an option would be a material amendment requiring shareholder approval under paragraph (a) of the rule.⁷ The Commission is of the view that such an amendment would not be material and therefore would not necessitate shareholder approval, since it would not result in any additional remuneration for directors and officers not already contemplated by such a plan. Instead, it would simply allow issuers to revise the form of consideration acceptable for the exercise of options. The Commission welcomes any comments on this view that interested persons may wish to submit.

Text of Proposed Amendments

17 CFR Part 240 is proposed to be amended by revising the introductory paragraph of § 240.16b-3 to read as follows:

§ 240.16b-3 . Exemption from section 16(b) of certain transactions occurring under employee benefit plans.

Any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) pursuant to a plan as defined in paragraph (d)(1) hereof, or any acquisition, expiration, cancellation or surrender to the issuer of a stock option or stock appreciation right pursuant to such a plan, or any surrender or delivery to the issuer of securities of the issuer

⁷ Rule 16b-3(a) states at the end thereof that any amendment to a plan must be approved by shareholders "if the amendment would: (A) materially increase the benefits accruing to participants under the plan . . ."

pursuant to the exercise of an option for securities of the same class under such a plan by a director or officer of the issuer shall be exempt from the operation of section 16(b) of the Act if the plan meets the following conditions:

* * * * *

(Secs. 16(b), 23(a), 48 Stat. 896, 901; sec. 203(a), 49 Stat. 704; sec. 8, 49 Stat. 1379, sec. 18, 89 Stat. 155; 15 U.S.C. 78(b), 78w(a))

Authority

The Commission hereby publishes for comment the amendments to Rule 16b-3 described herein pursuant to the Securities Exchange Act of 1934, particularly Sections 16(b) and 23(a) thereof.

By the Commission.

George A. Fitzsimmons,
Secretary.

April 30, 1980.

[FR Doc. 80-13929 Filed 5-5-80; 8:45 am]

BILLING CODE 8010-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 655

Labor Certification Process for the Temporary Employment of Aliens in Agriculture: Adverse Effect Wage Rate Methodologies; Proposed Rulemaking; Extension of Comment Period

AGENCY: Employment and Training Administration, Labor.

ACTION: Proposed rulemaking; extension of comment period.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (DOL) extends the comment period through July 14, 1980, on the proposal to adopt a new methodology for establishing an adverse effect wage rate governing the temporary alien employment certification program in agriculture. This action is being taken to allow commenters more time to make meaningful comments on the issue.

DATE: Interested persons are invited to submit written comments on the proposed rule on or before July 14, 1980.

ADDRESS: Send written comments to: Mr. David O. Williams, Administrator, United States Employment Service, Employment and Training Administration, United States Department of Labor, Suite 8000, Patrick Henry Building, 601 "D" Street NW., Washington, DC 20213.

FOR FURTHER INFORMATION CONTACT:

Mr. Kenneth Bell, United States Employment Service, Employment and Training Administration, United States Department of Labor, Suite 8410, Patrick Henry Building, 601 "D" Street NW., Washington, DC 20213. Telephone: 202-376-6297.

SUPPLEMENTARY INFORMATION: In the Federal Register of March 11, 1980 (45 FR 15914), ETA proposed a new methodology for computing adverse effect wage rates (AEWRs) in agriculture and proposed continuing the old methodology for logging. AEWRs are the minimum wages that must be offered and paid by employers seeking to temporarily employ nonimmigrant alien workers. See 20 CFR § 655.207. If lower wages were permitted to be offered or paid, the wages of similarly employed U.S. workers would be adversely affected and an adequate test of the availability of U.S. workers would be frustrated.

On April 11, 1980, the 30-day comment period announced in the Notice of Proposed Rulemaking was extended until May 12, 1980. 45 FR 24902. DOL has received numerous requests from interested parties that the comment period be extended further. DOL has determined that it would be in the public interest to extend the comment period again, and that an extension through July 14, 1980, would be appropriate.

Accordingly, the comment period is hereby extended through July 14, 1980.

Signed at Washington, D.C., this 1st day of May, 1980.

Ray Marshall,

Secretary of Labor.

BILLING CODE 4510-30-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

24 CFR Parts 203 and 234

[Docket No. R-80-808]

Modification of Graduated Payment Mortgage Program

AGENCY: Department of Housing and Urban Development.

ACTION: Notice of transmittal of interim rule to Congress under Section 7(o) of the Department of HUD Act.

SUMMARY: Recently enacted legislation authorizes Congress to review certain HUD rules for fifteen (15) calendar days of continuous session of Congress prior to each such rule's publication in the Federal Register. This Notice lists and

summarizes for public information an interim rule which the Secretary is forwarding to Congress for such review.

FOR FURTHER INFORMATION CONTACT: Burton Bloomberg, Director, Office of Regulations, Office of General Counsel, 451 7th Street, S.W., Washington, D.C. 20410 (202) 755-6207.

SUPPLEMENTARY INFORMATION:

Concurrently with issuance of this Notice, the Secretary is forwarding to the Chairmen and Ranking Minority Members of both the Senate Banking, Housing and Urban Affairs Committee and the House Banking, Finance and Urban Affairs Committee the following interim rulemaking document:

34 CFR Parts 203 and 234—Modification of Graduated Payment Mortgage Program

This interim rule would modify the Graduated Payment Mortgage Program to implement a 1979 amendment to Section 245 of the National Housing Act. It would provide for a limited program with reduced down payment requirements, to aid potential home purchasers who are priced out of the present housing market.

(Sec. 7(o) of the Department of HUD Act, 42 U.S.C. 3535(o), Section 324 of the Housing and Community Development Amendments of 1978)

Issued at Washington, D.C., April 22, 1980.

Moon Landrieu,

Secretary, Department of Housing and Urban Development.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Chapter VII

Louisiana Permanent Regulatory Program; Correction

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), U.S. Department of the Interior.

ACTION: Correction.

SUMMARY: This document corrects the date announcing a public hearing on the substance of the proposed Louisiana Regulatory Program to be conducted by the State of Louisiana which was published in the Federal Register on Friday, April 25, 1980 (45 FR 27955)

EFFECTIVE DATE: May 5, 1980.

ADDRESS: Regional Director, Office of Surface Mining, Region IV, 818 Grand Avenue, Scarritt Bldg., Kansas City, Missouri, 64106.

FOR FURTHER INFORMATION CONTACT:

Ricard Rieke, Assistant Regional Director, Office of Surface Mining, Reclamation and Enforcement, Scarritt Bldg., 818 Grand Avenue, Kansas City, Missouri 64106, Telephone: (816) 374-3920.

The following correction is made: On page 27955, column 3, the seventh paragraph under SUPPLEMENTARY INFORMATION is corrected to read: "1. Proposed amendments to Statewide Order 29-0-1, the Louisiana Regulations. These regulations will be subject to a public hearing conducted by the state in Baton Rouge on May 7, 1980."

Dated: April 29, 1980.

Allyn O. Lockner,

Acting Regional Director.

BILLING CODE 4310-05-M

CENTRAL INTELLIGENCE AGENCY

32 CFR Part 1900

Public Access to Documents and Records and Declassification Requests

AGENCY: Central Intelligence Agency.

ACTION: Proposed rule.

SUMMARY: The Central Intelligence Agency (CIA) amends its regulations relating to public access to documents and records by clarifying policies and procedures regarding historical research requests. Based upon the Agency's experience in handling requests from historical researchers for access to classified information held in the file systems, a modification of the regulation is necessary. The amendment will allow the CIA to process such requests with less burden upon its limited resources. This document also corrects the text by setting forth language which was inadvertently omitted when first promulgated.

DATE: Comments must be received on or before July 7, 1980.

ADDRESS: Chief, Information and Privacy Division, Central Intelligence Agency, Washington, DC 20505.

FOR FURTHER INFORMATION CONTACT: Mr. Charles E. Savige, Phone: (703) 351-5659.

SUPPLEMENTARY INFORMATION: Executive Order 12065 (43 FR 28949, July 3, 1978) authorizes access to classified information for persons engaged in historical research. In order to accommodate such requesters, the Agency must conduct background security investigations of the applicants, make special arrangements for work space in areas where the researchers'

contacts with Agency personnel will be limited, provide badging and escort services, assign personnel to continually monitor the researchers' activities and movements, and arrange for the review of all notes and manuscripts. Needless to say, these requirements tax our manpower resources. Moreover, our experience in dealing with historical research requests has demonstrated that the same results can often be obtained, and with less of a burden upon the Agency's limited resources, through processing requests for access to reasonably described records in accordance with the mandatory classification review provisions of Executive Order 12065.

In consideration of the foregoing, Part 1900, Chapter XIX of Title 32, Code of Federal Regulations, is amended by revising paragraph (a) of 1900.61 to read as follows:

§ 1900.61 Access for historical research.

(a) Any person engaged in an historical research project may submit a request, in writing, to the Coordinator to be given access to information classified pursuant to an Executive order for purposes of that research. Any such request shall indicate the nature, purpose, and scope of the research project. It is the policy of the Agency to consider applications for historical research privileges only in those rare instances where the researcher's needs cannot be satisfied through requests for access to reasonably described records.

Don I. Wortman,

Deputy Director for Administration.

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 50

Demonstrations and Special Events; Proposed Rule

AGENCY: National Park Service, Interior.

ACTION: Proposed rule and policy statement with request for comments.

SUMMARY: This proposed rule suggests amendments to the National Park Service regulations governing demonstrations and special events in Washington, D.C. and its environs. A proposed Administrative Policy Statement explains the administration of these regulations. These amendments and statements are intended to clarify and simplify the procedures for

obtaining demonstration and special event permits.

DATES: Written comments must be received on or before June 5, 1980.

ADDRESSES: Written comments may be sent to: Manus J. Fish, Jr., Regional Director, National Capital Region, National Park Service, 1100 Ohio Drive, SW., Washington, D.C. 20242.

FOR FURTHER INFORMATION CONTACT: George Berkclacy, Public Affairs, National Capital Region, National Park Service, 1100 Ohio Drive, SW., Washington, D.C. 20242, telephone: 202-426-6690. Richard G. Robbins, Assistant Solicitor, National Capital Parks, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240, telephone: 202-343-4338.

SUPPLEMENTARY INFORMATION: The following persons participated in the writing of this regulation: Richard G. Robbins and Barbara I. Berschler, Office of the Solicitor.

Background

On March 29, 1976, the current regulations governing demonstrations and special events were published in the *Federal Register*, 41 FR 12881. Those regulations had been the subject of extensive litigation in *A Quaker Action Group v. Morton*, 516 F. 2d 717 (1975), and were adopted to conform with the court's direction in that case. Since the adoption of those regulations, the National Park Service has gained over three years of experience in administering the regulations and has identified areas which need change and clarification in order to simplify the demonstration/special event permit system.

Furthermore, on August 12, 1977, the lawsuit *Women Strike For Peace v. Andrus*, C.A. No. 74-1303 (D.D.C.), was amended to raise certain additional challenges to the constitutionality of the regulations. After that amendment was filed, officials of the National Park Service entered into discussions with officials of the American Civil Liberties Union who represent plaintiffs in that litigation. During the course of those discussions it was discovered that no controversy existed between the National Park Service and the American Civil Liberties Union with regard to several of the issues in litigation. Moreover, the discussions dealt with some other aspects of the regulations which the parties thought required clarification. Accordingly, the following proposed amendments to the regulations and proposed Administrative Policy Statement are intended to settle several of the issues in litigation and to clarify and simplify the regulatory system.

Proposed Regulation Changes

Definitions

Included in the current definition paragraph, 36 CFR 50.19(a), are definitions for the terms the "Kennedy Center," "Lincoln Memorial," "Jefferson Memorial," and "Washington Monument." In order to eliminate the need for cross-referencing, it is proposed that the definitions of these terms be incorporated directly into the applicable subparagraph 36 CFR 50.19(c)(2). The definition for the term "Constitution Gardens" will be eliminated because the National Park Service has determined that the new plantings can now withstand a sizeable increase in park visitor use.

As a further aid in understanding the regulations, diagrams of those locations where demonstrations or special events are not permitted will be placed at the conclusion of the section.

In light of the recent ruling in *O'Hair v. Andrus*, No. 2170 (D.C. Cir. October 5, 1979), in which the plaintiffs challenged the Park Service's issuance of a permit for the use of park land for a papal mass and the provision of services by the government in anticipation of the large number of expected park visitors, the definition for the term "demonstrations" in this paragraph will be expanded to make it clear that requests for religious services are treated in the same manner as other First Amendment activities.

Exemption of Small Groups and Waiver of 48 Hour Notice Requirement

At present the regulations require any individual or group planning to conduct a demonstration to obtain a permit and to give at least 48 hours notice in advance of the activity. As a result of its extensive prior experience in dealing with demonstrations of all sizes and formats, the Park Service has concluded that an exemption of small groups from the permit requirements under certain conditions will not hinder fulfillment of its responsibilities to administer park lands and to provide visitor services. Thus, the National Park Service proposes to amend § 50.19(b) to exempt individuals or groups of up to 25 persons from the permit requirement provided that the demonstrators observe the other applicable requirements in the regulation, that they are not an extension of another group already taking advantage of the exemption, or that they will not unreasonably interfere with other demonstrations or special events.

The Park Service believes that the 48 hour advance application requirement may be waived under certain conditions without jeopardizing fulfillment of its

park responsibilities. To this end, the Park Service proposes to amend paragraph 50.19(c) to allow the Director of the National Capital Region to waive the 48 hour notice requirement in those instances when the size and nature of the planned activity do not require the assignment of park resources or personnel in excess of that which are normally available or reasonably can be obtained within the abbreviated time frame. The National Park Service plans to monitor carefully the implementation of this provision over the summer season and will meet again with ACLU representatives in the fall to explore administrative procedures to simplify this process to the greatest practical extent.

Waiver of Numerical Limitations

The current regulations, 36 CFR 50.19(e), provide that no more than 3,000 persons may demonstrate in Lafayette Park and no more than 750 persons may demonstrate on the White House Sidewalk at any one time. The regulations also provide that these numerical limitations may be waived if the applicant files certain information with the Director, National Capital Region, at least 15 days in advance of the demonstration. Also, the applicant must show that the activity has been planned and will be patrolled in such a fashion as to render unlikely any substantial risk to legitimate government interests in the area.

The proposed regulations will change the current paragraph in three ways. First, the time period in advance of the demonstration required for filing a waiver request is shortened from 15 to 10 days. Second, the amount of information an applicant must furnish has been reduced. The proposed regulations will require, in addition to the standard permit application, that the waiver application contain only certain information to be furnished concerning the demonstration marshals. Third, the criteria for granting a waiver have been clarified. The proposed regulation will require the applicant to show that good faith efforts will be made to plan and marshal the demonstration so as to render unlikely any disruption or violence so substantial as to be unreasonable.

Paragraph 36 CFR 50.19(e) will be further amended by revising subparagraph (4) to eliminate (i) which is now viewed as no longer necessary.

Rush-Hour Demonstrations

The proposed regulations will change the current subparagraph on demonstrations and special events held during rush-hour periods (36 CFR

50.19(e)(6)) to make it clear that demonstrations and special events may be conducted during rush-hour unless it is necessary to restrict the activity to avoid unreasonable interference with traffic.

Temporary Structures and General Visitor Services

In connection with permitted demonstrations or special events, the construction of temporary structures has been allowed under 36 CFR 50.19(e)(8). The proposed change in the regulation makes it clear that the National Park Service allows all groups to erect and to use such structures to the same extent as those constructed in connection with government sponsored or co-sponsored events.

In administering this regulation, minor injury to the turf resulting from the construction of temporary structures will not result in permit denial or revocation.

Moreover, it has been the long standing policy of the National Park Service to make available to all groups, irrespective of their views or purpose in conducting their activity, a level of visitor services (e.g. security, sanitation facilities, water, etc.) commensurate with the size and nature of the activity scheduled.

Parks Where No Permits Are Required

The current regulations at 36 CFR 50.19(b) specify certain parks where no permit is required if the demonstration is limited to the number of persons listed for each of the named park areas. This system is retained in the proposed regulations, but the language is changed to make clear that demonstrations may be conducted in excess of the numbers listed if a permit is secured.

Areas Where Demonstrations and Special Events Are Prohibited—Maps

The current regulations prohibit demonstrations and special events in certain portions of the park areas (36 CFR 50.19(c)(2)). These prohibitions are designed to protect legitimate government interests in the areas and for the most part are designed to set aside areas of peace, calm, tranquility and reverence where the park visitor may be free of activity intrusions found in other areas. However, the proposed regulations have been supplemented with the relevant definitions and with reference to maps to delineate clearly the areas where demonstrations and special events may not be held. The definitions for the terms "Washington Monument" and "Kennedy Center," which were found at § 50.19(a), will be

revised in this subparagraph to describe these areas more clearly.

Place of Filing

The proposed regulations add the main information desk of the National Visitor Center, Union Station, as an area where applications for demonstration and special event permits may be obtained and filed. Applications may still be submitted either in person or by mail at the National Capital Regional Office, 1100 Ohio Drive, SW. This addition is designed to make it easier for persons to seek a demonstration or special event permit. Park areas will be allocated on a first-come, first-served basis determined by the time an application is received at either the National Visitor Center, Union Station, or the 1100 Ohio Drive offices.

National Celebration Events

Each year the National Park Service sponsors several events which occur at the same time and location. These events have been called National Celebration Events. The current regulation found at 36 CFR 50.19(d)(1) specifies that these events have priority use of designated park areas.

The amended regulation will make it clear that other permitted demonstrations or special events can take place in the same park areas as the National Celebration Events provided they do not significantly interfere with the National Celebration Event. Also, an activity containing structures can not be closer than 50 feet to another activity containing structures without the mutual consent of the interested parties.

Reference to Prefatory Statement

In order to aid readers in understanding the administrative policies which have been developed to implement the revised regulations, a citation to the applicable Federal Register reference will be included at the conclusion of 36 CFR 50.19.

Administrative Policy Statement:

Clear and Present Danger

The current regulations provide that a permit for a demonstration or special event may be denied or revoked by the Director if it reasonably appears that the proposed demonstration or special event will present a clear and present danger to the public safety, good order or health and that a permit may be revoked by the ranking United States Park Police supervisory official in charge if continuation of the event presents a clear and present danger to the public safety, good order or health as well as for any violations of applicable law or

regulation. When applying this standard the policy of the National Capital Region has been and will continue to be to apply the ordinary meaning of clear and present danger as it has been developed by court decisions. In arriving at a determination, either prior to or during the course of a demonstration or special event, the deciding official will consider the following:

(a) Whether the sponsor of the demonstration or special event indicates a specific intent to or does cause violence manifested by specific plans or actions. A general intent extrapolated only from rhetoric or previous exploits is not enough. Concrete evidence is required. Also, substantial violence caused by the sponsor in the period immediately preceding the application will justify denial for a reasonably brief cooling off period.

(b) Whether conditions exist which will, or do at the time of the activity, necessitate restricting access by the general public to the area or invoking a general curfew because of natural disaster, emergency or conditions of violence.

Application and Permit Forms

In order to improve the permit application process, the current form has been shortened and simplified. In addition, the standard application form and application form for a waiver of the limitation on the number of persons who may demonstrate in the White House area have been combined. These changes will reduce the amount of paperwork required of an applicant and will speed up the application process. Copies of these new forms are available from the Office of Public Affairs, National Capital Region, National Park Service, 1100 Ohio Drive, SW., Washington, D.C. 20242, and the National Visitor Center, Union Station, Main Information Desk, Washington, D.C.

Structures and Campsites

The current regulations (36 CFR 50.19(e)(8)) permit structures to be used in the conduct of demonstrations and special events except on the White House sidewalk. In administering this section, the National Park Service permits all groups to erect structures, props and displays of the same size, number, space, character and duration as structures used in connection with government sponsored or co-sponsored events.

Camping is prohibited in all park areas except those specially designated as official campsites (36 CFR 50.27). The National Park Service does permit the use of symbolic campsites reasonably

related to First Amendment activities. However, camping primarily for living accommodation must be confined to designated campsites.

National Celebration Events

The National Park Service sponsors numerous special event activities throughout the National Capital Region on a year round basis. These activities vary widely in nature and include musical presentations, athletic events, pageants, dramas, walking tours, parades, etc. The times and places for these events are allocated by the National Park Service with regard to privately sponsored demonstrations and special events on a first-come, first-served basis. That is, if an application for a demonstration is received prior to the official scheduling of a Park Service sponsored event, the demonstration is given priority use of the park area applied for and vice versa.

Certain Park Service events occur at the same time and locations annually. Notice of the times and locations of these events has been given in 36 CFR 50.19(d), and they have been called National Celebration Events. While still following the first-come, first-served principle, the National Park Service has, within the regulations, determined because these events recur annually for the same locations and times, that they will enjoy a preference for those times and locations. These events include the Christmas Pageant of Peace, President's Cup Regatta, Cherry Blossom Festival, Fourth of July Celebration, Festival of American Folklife and Columbus Day Commemorative Wreath-Laying.

It is the policy of the National Park Service to permit demonstrations and special events within the same park areas as the National Celebrations Events, and immediately adjacent thereto. Permits in these areas shall be granted except when such demonstrations or special events will significantly physically or audibly interfere with the National Celebration Event or another authorized activity. When enforcing the regulations during the conduct of a National Celebration Event, it is anticipated that insignificant interferences will not result in permit denial or cancellation.

Moreover, it is the policy of the National Park Service to permit demonstrators who do not unreasonably interfere with a National Celebration Event or with ingress or egress to the event to engage in activity up to the entrance of a National Celebration Event or around its perimeter in accordance with the requirements of 36 CFR 50.19. The distribution of literature within a National Celebration Event is

permissible in accordance with the requirements of 36 CFR 50.52.

While the National Celebration Events are sponsored by the National Park Service, the Park Service encourages the expression of views regarding these events and participation in them by all members of the public. For the annual Christmas Pageant of Peace, the National Park Service will conduct a public meeting to present its general plan for the coming event and to obtain the views of members of the public on proposals as well as to solicit any additional suggestions for activities within the theme and format of the Christmas Pageant. Notice of the open meeting will appear in the Federal Register and in newspapers of general circulation. Although the National Park Service will consider written comments and suggestions prior to the public meeting, these comments and those presentations at the meeting will be the only public input considered toward establishing the plan for the Pageant. This procedure will be followed so that all members of the public may have an equal opportunity to have their views considered. The Park Service will review all written comments and the suggestions presented at the public meeting before deciding on the final plan for the Pageant.

If the National Park Service decides to expand the traditional activities included in any of the other National Celebration Events, then it will follow the procedures outlined above as an aid in developing the event's format.

Persons or groups wishing to participate in any of the events within their theme and format should write or contact the Office of Public Affairs, National Capital Region, 1100 Ohio Drive, SW., Washington, D.C. 20242, and outline the type of participation being sought and the appropriateness of that participation to the event's theme. Persons and groups offering participation in accord with the event's theme and format will be permitted to participate in the program subject to reasonable limitations on number of groups or persons who can be accommodated.

The themes and formats of the various National Celebration Events are as follows:

The Christmas Pageant of Peace which is held in the oval portion of the Ellipse during approximately the last three weeks in December is presented as a celebration of the holiday season. This event provides the park visitor an opportunity to view the lighting of the National Christmas tree, attend musical presentations and visit the yuletide displays.

The President's Cup Regatta is held in East Potomac Park for approximately two days during the first week in June. This event continues an annual tradition begun in 1929 under the direction of President Calvin Coolidge and gives the public an opportunity to view limited and unlimited power boat races on the Potomac River. Boats are entered, selected and registered in accordance with prevailing regulations.

The Cherry Blossom Festival is scheduled for six days usually in late March or early April. This event celebrates the beauty of the blossoming Japanese Cherry Trees and commemorates the gift of those trees by Japan to the people of the United States. The opening ceremony of the Festival is held at the Japanese Lantern adjacent to the Tidal Basin. At this event, greetings are extended by the Mayor of the District of Columbia, the Director, National Park Service, and the Ambassador of Japan. The Embassy of Japan traditionally is accorded a role in the sponsorship of this event. The Festival ends with a parade down Constitution Avenue from 7th to 17th Streets, N.W. Other Festival events, such as band competitions, are held on the Ellipse or the Washington Monument Grounds, adjacent to Constitution Avenue, between 15th and 17th Streets, N.W., during the 6-day period.

The Fourth of July Celebration is held on the Washington Monument Grounds. This event provides entertainment to celebrate Independence Day and ordinarily attracts large numbers of persons. During this event, the Mayor of the District of Columbia welcomes visitors. Musical groups participate, and the day is traditionally concluded with a fireworks display.

The Columbus Day Commemorative Wreath-Laying is conducted at the Columbus statue on the Union Plaza on Columbus Day. This event marks the anniversary of Columbus' discovery of America. Speaker and musical groups participate in the program.

PUBLIC PARTICIPATION: The policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed regulation to the address noted at the beginning of the rulemaking.

IMPACT ANALYSIS: The National Park Service has determined that this document is not a significant rule requiring preparation of a regulatory analysis under Executive Order 12044

and Part 14 of Title 43 of the Code of Federal Regulations; nor is it a major Federal action significantly affecting the quality of the human environment, which would require preparation of an Environmental Impact Statement.

David V. Tobin, Jr.,
Acting, National Park Service.

In consideration of the foregoing, § 50.19 of Title 36 of the Code of Federal Regulations is accordingly amended:

PART 50—NATIONAL CAPITAL PARK REGULATIONS

1. By revising the first sentence of § 50.19(a)(1) to read as follows:

§ 50.19 Demonstrations and special events.

(a) Definitions. (1) The term "demonstrations" includes demonstration, picketing, speechmaking, marching, holding vigils or religious services and all other like forms * * *

2. By deleting from § 50.19(a) definitions (8) through (12).

3. By changing the number of the definition in § 50.19(a) for the term "director" from (13) to (8).

4. By changing the number of the definition in § 50.19(a) for the term "other park areas" from (14) to (9).

5. By adding at the conclusion of § 50.19(a):

Note.—The darkened portions of the diagrams at the conclusion of this section show the areas where demonstrations or special events are prohibited.

6. By deleting the introductory clause in § 50.19(b) and replacing it with the following:

(b) Demonstrations and special events may be held only pursuant to a permit issued in accordance with the provisions of this section except:

(1) Demonstrations involving 25 persons or less may be held without a permit *provided* that the other conditions required for the issuance of a permit are met and *provided further* that the group is not merely an extension of another group already availing itself of the 25-person maximum under this provision or will not reasonably interfere with other demonstrations or special events.

(2) Demonstrations may be held in the following park areas without an official permit *provided* that the conduct of such demonstrations is reasonably consistent with the protection and use of the indicated park area and the other requirements of this regulation. The numerical limitations listed below are applicable only for demonstrations conducted without a permit in such areas. Larger demonstrations may take place in these areas pursuant to a permit.

7. By renumbering subparagraphs (1) through (5) in § 50.19(b) and amending subparagraph (v) as follows:

(i) * * *

(ii) * * *

(iii) * * *

(iv) * * *

(v) * * * and south of D Street, S.E., for no more than 25 persons.

8. By substituting the following for the first two sentences of § 50.10(c):

§ 50.10 Dogs, cats and livestock.

* * * * *

(c) Permit applications may be obtained at the Office of Public Affairs, National Capital Region, 1100 Ohio Drive, SW., Washington, D.C. 20242, or at the main information desk of the National Visitor Center, Union Station, Washington, D.C. 20240. Permit applications shall be submitted to the Director, National Capital Region, at either location. Permit applications shall be submitted in writing on a form provided by the National Park Service so as to be received by the Director at least 48 hours in advance of any proposed demonstration or special event. This 48 hour period will be waived by the Director if the size and nature of the activity will not reasonably require the commitment of park resources or personnel in excess of that which are normally available or which can reasonably be made available within the necessary time period.

9. By revising § 50.19(c)(2) (i)-(iv) and deleting (v) as follows:

§ 50.19 Demonstrations and special events.

(2) * * *

(i) The Washington Monument, which means the area enclosed within the inner circle that surrounds the Monument's base, except for the official annual commemorative Washington birthday ceremony.

(ii) The Kennedy Center, which means the area under the administration of the National Park Service within the building known as the John F. Kennedy Center for the Performing Arts and includes the roof terrace and the outdoor terraces on the north, south, and west portions of the institution as well as the driveways leading to the parking garages. For the purpose of this section, the term "Kennedy Center" does not include the east building sidewalk, outdoor plaza or grassy areas at the Center. Demonstrations are permitted on those areas provided entrances to the Center are not obstructed or vehicular traffic in its vicinity is not impeded.

(iii) The Lincoln Memorial, which means that portion of the park area which is on the same level or above the base of the large marble columns surrounding the structure, and the single series of marble stairs immediately

adjacent to and below that level, except for the official annual commemorative Lincoln birthday ceremony.

(iv) The Jefferson Memorial, which means the circular portion of the Jefferson Memorial enclosed by the outermost series of columns, and all portions on the same levels or above the base of those columns, except for the official annual commemorative Jefferson birthday ceremony.

10. By adding at the conclusion of the revised § 50.19(c):

Note.—The darkened portions of the diagrams at the conclusion of this section show the areas where demonstrations or special events are prohibited.

11. By revising § 50.19(d)(1)(iii) as follows:

(1) * * *

(i) * * *

(ii) * * *

((iii) *Cherry Blossom Festival*. In the Japanese Lantern area adjacent to the Tidal Basin and on the Ellipse and the Washington Monument Grounds adjacent to Constitution Avenue, between 15th & 17th Streets, N.W., for six days usually in late March or early April.

(iv) * * *

(v) * * *

(vi) * * *

12. By adding at the end of the revised § 50.19(d)(1):

Other demonstrations or special events shall be permitted in these particular park areas to the extent that they do not significantly interfere with the National Celebration Events listed in this paragraph. No activity containing structures shall be permitted closer than 50 feet to another activity containing structures without the mutual consent of the sponsors of those activities.

13. By revising § 50.19(e)(3) to read as follows:

(3) The Director may waive the 3,000 person limitation for Lafayette Park and/or the 750 person limitation for the White House sidewalk upon a showing by the applicant that good faith efforts will be made to plan and marshal the demonstration in such a fashion so as to render unlikely any substantial risk of unreasonable disruption or violence. In making a waiver determination, the Director shall consider and the applicant shall furnish at least ten days in advance of the proposed demonstration the functions marshals will perform, the means by which they will be identified, and their method of communication with each other and the crowd.

14. By revising § 50.19(e)(4) to read as follows:

(4) No permit shall be issued for a demonstration on the White House

sidewalk and in Lafayette Park at the same time except when the organization, group, or other sponsor of such demonstration shall undertake in good faith all reasonable action, including the provision of sufficient marshals, to insure good order and self-discipline in conducting such demonstration and any necessary movement of persons, so that the numerical limitations and waiver provisions described in subparagraphs (e)(1) and (2) of this section are observed.

15. By revising § 50.19(e)(6) to read as follows:

(6) The Director may restrict demonstrations and special events weekdays (except holidays) between the hours of 7:00–9:30 a.m. and 4:00–6:30 p.m. if it reasonably appears necessary to avoid unreasonable interference with rush-hour traffic.

16. By deleting from the first sentence in § 50.19(e)(8) the words "reasonably necessary for the conduct of the demonstration or special event".

17. By deleting from § 50.19(e)(8)(ii) the words "to cause the least possible damage to park property and basic park values" and substituting in their place "not to unreasonably harm park resources".

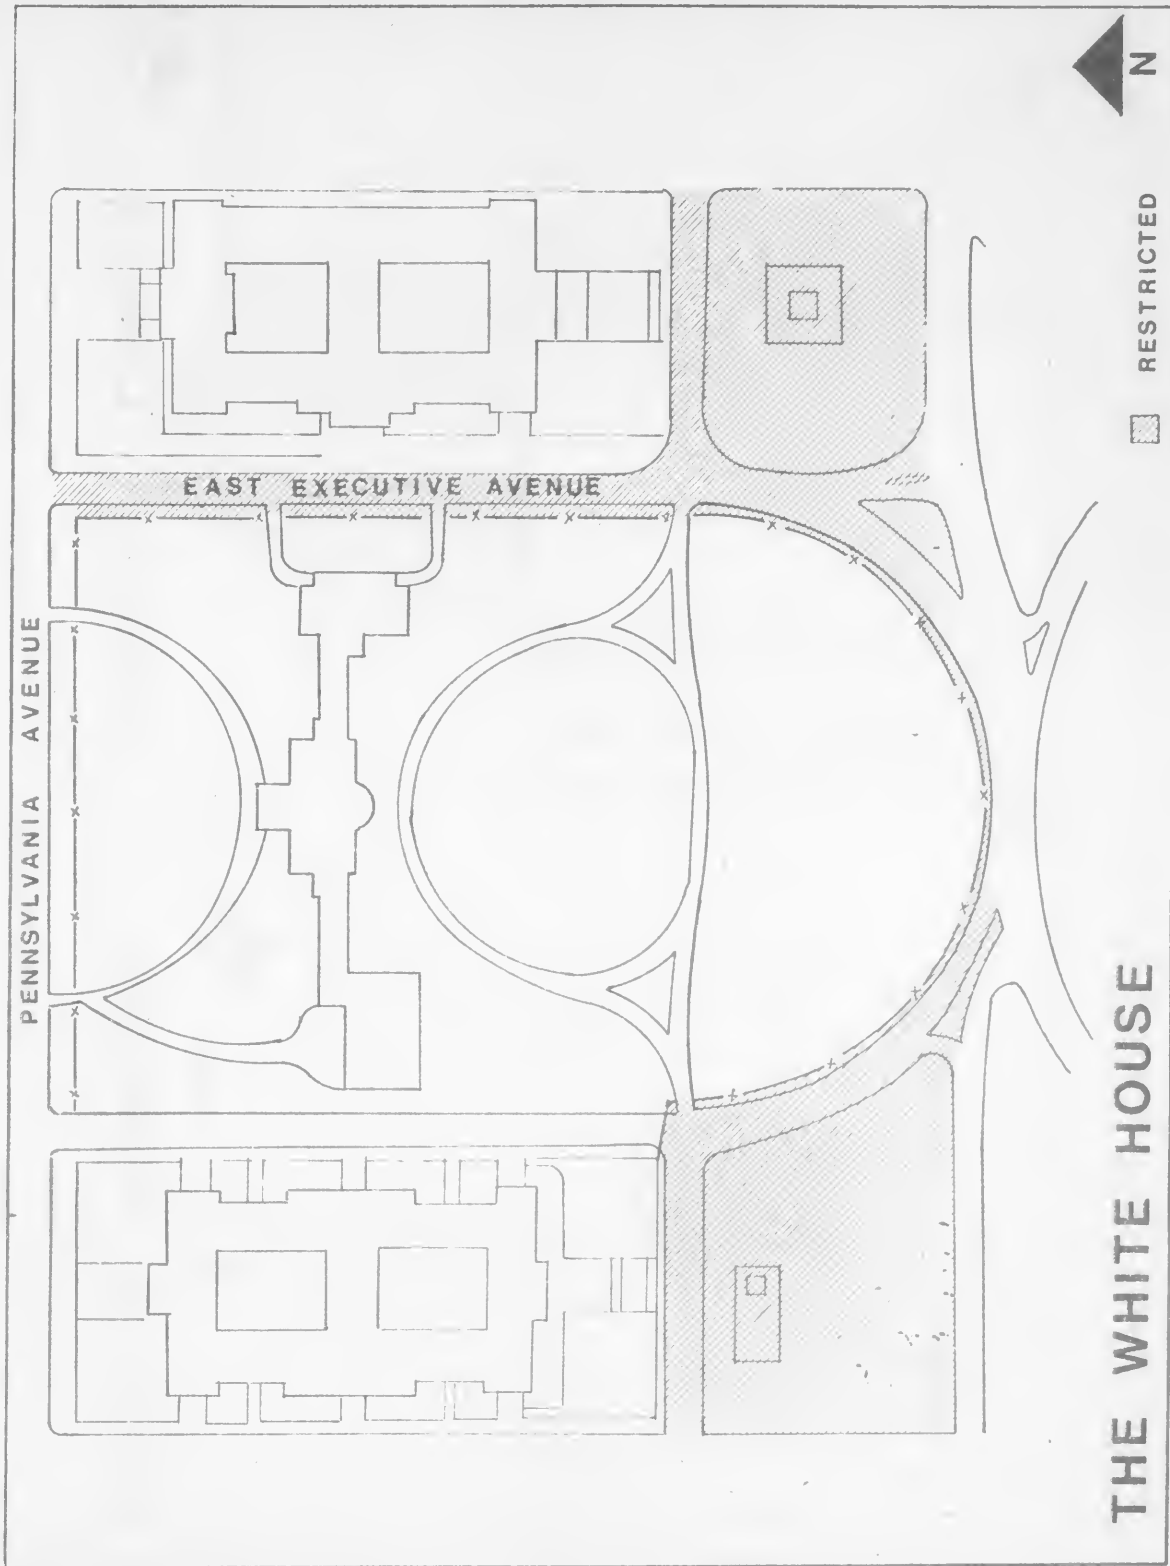

18. By deleting from § 50.19(e)(9) the words "reasonably necessary for the conduct of the demonstration or special event".

19. By adding at the conclusion of § 50.19:

(g) Further information on administering these regulations can be found at _____ FR _____ (date).

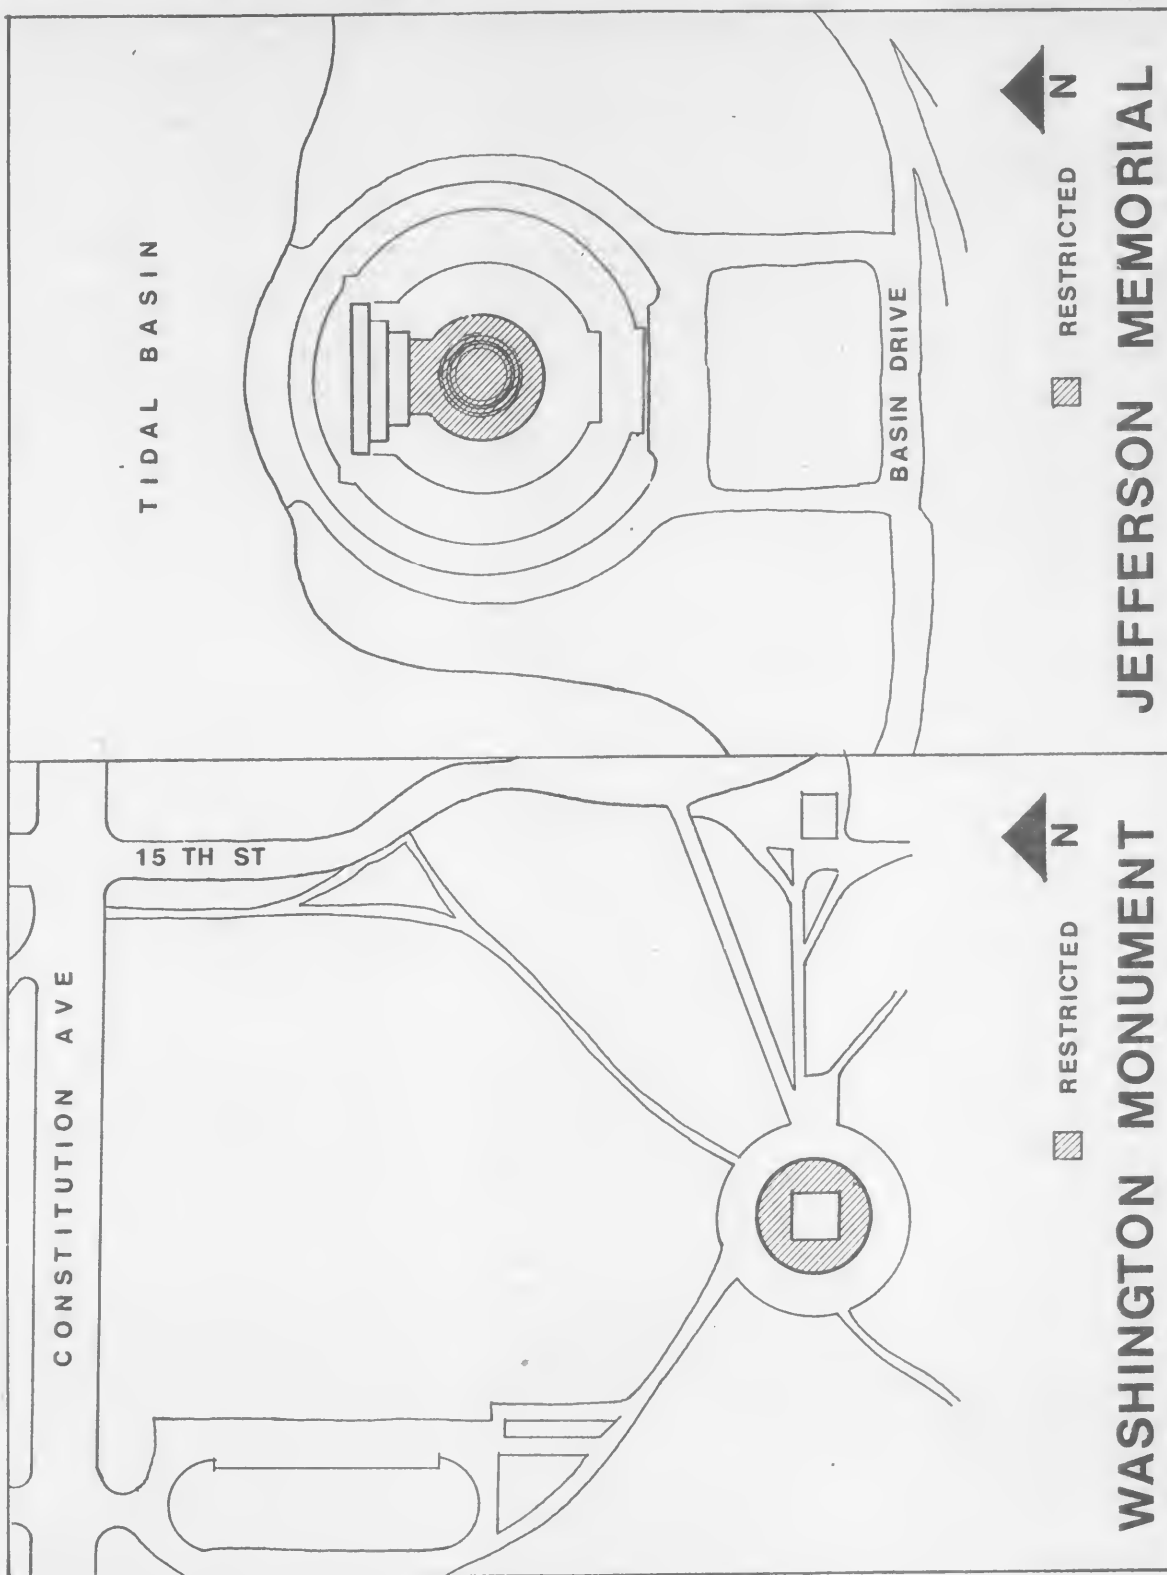

(41 FR 12881, March 29, 1979, as amended at 43 FR 14654, April 7, 1978)

BILLING CODE 4310-70-M

THE WHITE HOUSE

[FR Doc. 80-14088 Filed 5-5-80; 8:45 am]
BILLING CODE 4310-70-C

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[FRL 1484-8]

Approval and Promulgation of Implementation Plans: Michigan**AGENCY:** U.S. Environmental Protection Agency.**ACTION:** Proposed rulemaking.

SUMMARY: The United States Environmental Protection Agency (USEPA) announces final rulemaking on revisions to the Michigan State Implementation Plan (SIP) in today's Federal Register. Michigan submitted these revisions to satisfy the requirements of Part D of the Clean Air Act, as amended in 1977. In the final rulemaking, USEPA conditionally approved certain revisions to the Michigan SIP. A discussion of conditional approval and its practical effect appears in the July 2, 1979, Federal Register (44 FR 38583) and the November 23, 1979 Federal Register (44 FR 67182). A conditional approval requires the State to remedy identified deficiencies by specified deadlines. This notice solicits public comment on the deadlines by which the State of Michigan has committed itself to remedy conditionally approved portions of its SIP. Although public comment is solicited on the deadlines, the State remains bound by its commitments unless the schedules are disapproved by USEPA in its Final Rulemaking action. A conditional approval means that the restriction on new source construction in designated nonattainment areas will not apply unless the State fails to submit the corrections by the specified date, or unless the corrections are ultimately determined to be inadequate.

DATES: Comments must be received on or before June 5, 1980.

ADDRESSES: Comments should be sent to the following address: Mr. Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

Copies of the materials submitted by the State and by the public during the comment period announced in this notice of proposed rulemaking are available for review during normal business hours at the following addresses:

USEPA Region V, Air Programs Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

USEPA, Public Information Reference Unit, 401 M Street, S.W., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Mr. Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, (312) 886-6029.

SUPPLEMENTARY INFORMATION: In final rulemaking action published in today's Federal Register USEPA identified the actions taken by the State of Michigan to remedy deficiencies in the Michigan SIP submittal which were noted in USEPA's August 18, 1979 Notice of Proposed Rulemaking (44 FR 47350). USEPA also identified the conditions which must be satisfied by the State of Michigan to correct other specified deficiencies in the revisions to the Michigan State Implementation Plan (SIP). The State of Michigan has provided assurances that it will satisfy these conditions on specific schedules.

In some instances, the State has made a commitment to submit regulations to the Michigan Air Pollution Control Commission by a specified date. Because the State cannot legally prejudice the outcome of the Commission's statutorily mandated proceedings, it cannot assure USEPA that the regulations will be promulgated. Therefore, the State has not made commitments either to promulgate the regulations or to a specific date for promulgation. In these cases, USEPA is proposing a date by which the State must promulgate and submit the regulations to USEPA. USEPA believes that this is necessary in order to guarantee that the deficiencies are adequately addressed and that the plan is adequate to satisfy the requirements of the Act. In establishing the date by which any necessary regulations must be promulgated, USEPA has taken into consideration the lengthy Michigan Air Pollution Control Commission rulemaking procedures which require review of regulations by several State offices and committees and approval by the Michigan State Legislature.

USEPA proposes to approve the following schedules for the State of Michigan's correction of deficiencies in the Michigan SIP.

Schedules*Total Suspended Particulates*

1. The State has committed itself to the schedule below for the adoption of industrial fugitive regulations that represent RACT for traditional sources. This commitment does not extend to sources in the iron and steel category.

a. Conduct public hearings throughout the State, January 1980.

b. Prepare a summary of the public comments and revise rules if appropriate, February 1980.

c. Formal rule adoption by the Commission, April 1980.

d. Obtain approval from the Legislative Service Bureau, Attorney General's Office and Joint Legislative Rules Committee, August 1980.

e. File rules with Secretary of State and submit to USEPA for approval, January 1981.

2. The State has committed itself to the following schedule for additional studies in the Detroit area:

Item and Completion Date

a. Particulate size distribution report, February 1980.

b. Refinement of the emission inventory, June 1980.

c. Assessments of meteorological variables, June 1980.

d. Analysis of the microscopy report, June 1980.

e. Submit to USEPA, September 1980.

Ozone

1. The State has committed itself to either promulgate a rule with 120,000 gallon per year throughput exemption for gasoline dispensing facilities and submit it to USEPA or demonstrate that allowable emissions resulting from the application of its existing rule with 250,000 gallon per year throughput exemption for gasoline dispensing facilities are less than five percent greater than the allowable emissions resulting from the application of the CTG presumptive norm. The State has committed itself to comply with this condition by (one year from date of publication). USEPA proposes the additional condition that any necessary regulations be finally promulgated by the State and submitted to USEPA by September 30, 1981. Under Executive Order 12044, USEPA is required to judge whether a regulation is "significant" and therefore subject to the procedural requirements of the Order or whether it may follow other specialized development procedures. USEPA labels these other regulations "specialized." I have reviewed this regulation and determined that it is a specialized regulation not subject to the procedural requirements of Executive Order 12044.

This notice of proposed rulemaking is issued under authority of Sections 110, 172 and 301(a) of the Clean Air Act, as amended, (U.S.C. 7410, 7502, 7601(a)).

Dated: March 11, 1980.

John McGuire,
Regional Administrator.

BILLING CODE 6560-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 61

Interface of the International Telex Service With the Domestic Telex and TWX Services

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of Time.

SUMMARY: This order extends the times for filing comments and replies on the proposal to require the carriers to detariff their offering of telex terminal equipment and tielines. The extension is to permit the parties to review the Commission's forthcoming decision in the Computer Inquiry.

DATES: The times for filing comments and replies have been extended for an indefinite period until the Commission has issued its decision in the inquiry. By subsequent order, the Commission will set a new schedule.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: John F. Copes, International Programs Staff, Common Carrier Bureau, Federal Communications Commission, Washington, D.C. 20554. (202) 632-3214.

Adopted: April 22, 1980.

Released: April 25, 1980.

By the Chief, Common Carrier Bureau:

1. On February 15, 1980, the Commission released its Report, Order and Notice of Proposed Rulemaking in the above-captioned matter, Customer Use of Telex Service, FCC 79-844, — F.C.C. 2d—, 45 FR 19278, (March 25, 1980). In that decision, the Commission, *inter alia* allowed comment by interested persons on its tentative preference that telex terminal equipment be detariffed. Comments on that question are due April 30, 1980, and replies on May 30, 1980.

2. We now have before us for consideration a motion filed on April 14, 1980, by The Western Union Telegraph Company for an extension of the time for filing comments until three weeks after the release of the Commission's decision in Docket No. 20828 (the "Computer Inquiry"). In support of its request, Western Union notes that the Commission in *Computer II* has

proposed to require detariffing of terminal equipment in the domestic market and that the Commission's views on that subject will be important to the respondents in the instant rulemaking. The request was not opposed.

3. We believe that Western Union has justified an extension of time for the filing of comments and replies. Since the date of release of the *Computer II* decision is not now known, we shall extend the comment period indefinitely until further order of the Commission.

4. Accordingly, IT IS ORDERED pursuant to Section 0.291(c) of the Commission's Rules and Regulations, 47 CFR 0.291(c)(1979), the time for filing comments and replies on the question of detariffing the provision of telex terminal equipment is postponed until further order of the Commission.

Federal Communications Commission.

Philip L. Verveer,

Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

47 CFR Part 73

FM Broadcast Station in Bridgeport, Nebr.; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; order extending time for filing reply comments.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding involving the proposed assignment of a Class C FM channel to Bridgeport, Nebraska. Petitioner, Media, Inc., states that the additional time is needed in order to prepare a fully responsive reply.

DATE: Reply comments must be filed on or before May 12, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: April 24, 1980.

Released: April 28, 1980.

By the Chief, Policy and Rules Division:

1. On February 6, 1980, the Commission adopted a *Notice of Proposed Rule Making*, 45 FR 12457, concerning the proposed assignment of FM Channel 267 to Bridgeport, Nebraska. The date for filing reply comments is presently April 28, 1980.

2. On April 21, 1980, counsel for Media, Inc., filed a request seeking extension of time for filing reply

comments to and including May 12, 1980. Counsel states that the additional time is necessary so as to provide Media's counsel and principals an adequate opportunity to review the comments filed in the proceeding and to prepare a fully responsive reply. Counsel adds that the Tracy Corporation, another party in this proceeding, has consented to the requested extension.

3. Since the Commission believes it would be in the public interest to have all material available to it in arriving at a decision in this proceeding, we are granting the additional time requested.

4. Accordingly, it is ordered, that the above request for an extension of time filed by Media, Inc. is granted and the date for filing reply comments is extended to and including May 12, 1980.

5. This action is taken pursuant to Section 4(i), 5(d)(1) and 303(r), of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

[BC Docket No. 80-177; RM-3373; RM-3495]

FM Broadcast Stations in Springdale, Ark. and Washburn, Mo.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes, in the alternative, the assignment of FM Channel 237A to either Springdale, Arkansas, or Washburn, Missouri, in response to petitions filed by Robert R. Estes and William Carney, respectively. The proposed channel would provide a first FM assignment to Washburn or a second FM assignment to Springdale. **DATES:** Comments must be filed on or before June 23, 1980, and reply comments must be filed on or before July 14, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Springdale,

Arkansas, and Washburn, Missouri). BC Docket No. 80-177, RM-3373, RM-3495. Notice of proposed rulemaking.

Adopted: April 18, 1980.
Released: April 28, 1980.

By the Chief, Policy and Rules Division: 1. The Commission has before it two separate petitions for rule making. The first filed by Robert R. Estes ("Estes") proposed the assignment of FM Channel 237A to Springdale, Arkansas.¹ The second was filed by William Carney ("Carney") which proposes the assignment of FM Channel 237A to Washburn, Missouri, as that community's first FM assignment.² The distance between Springdale and Washburn is 47 kilometers (30 miles), and the required separation for co-channel Class A assignments is 104 Kilometers (65 miles). No other channels are available for assignment to either community. Therefore, these proposals are mutually exclusive. No other comments were submitted. Numerous letters supporting each proposal were attached to the respective petitions.

2. Springdale (pop. 20,100)³ is located in Washington County (pop. 77,370), approximately 232 kilometers (145 miles) northwest of Little Rock, Arkansas. Springdale is being served locally by FM Station KCIZ, fulltime AM Station KBRS, and daytime-only AM Station KSPR. Washburn (pop. 233) is located in Barry County (pop. 19,597) approximately 92 kilometers (57 miles) southeast of Springfield, Missouri. Washburn has no local aural broadcast service.

3. Petitioners have submitted community profiles which are intended to reflect the need for this assignment in their respective communities. In the case of Springdale, this assignment would provide the second FM service in a community of over 20,000 persons. In the case of Washburn, this assignment would provide that community with its first local aural broadcast service.

4. The assignment of Channel 237A to Springdale will cause preclusion to three communities with populations greater than 1,000. Of these, only one, Pea Ridge, Arkansas (pop. 1,332), has no

current AM station or FM assignment. No preclusion study is required for Washburn because it is for a first Class A assignment.

5. Ordinarily, we would be inclined to favor a first local aural service over a second FM service to a community in accordance with established Commission priorities. However, in the instant case we believe that additional factors should be taken into account on a comparative basis in view of the respective sizes of the communities and the small population of Washburn. The parties will be given this opportunity to compare the needs for broadcast service at each community. In particular, we would like to have recent and future estimates of population growth at Washburn and Springdale and the extent of aural services from nearby stations.

6. The Commission feels consideration of both proposals would be in the public interest. Accordingly, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, for either one of the below named communities:

City	Channel No.	
	Present	Proposed
Springdale, Arkansas.....	285A	237A, 285A
or Washburn, Missouri.....		237A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before June 23, 1980, and reply comments on or before July 14, 1980.

9. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Federal Communications Commission,
Henry L. Baumann,
Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules. It is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on

¹ Public notice of the petition was given on May 4, 1979, Report No. 1176. This request previously specified Channel 252A for assignment to Springdale. However, a conflicting request to assign that channel to Bentonville, Arkansas, prompted Estes to amend the petition to specify Channel 237A.

² Public Notice of the petition was given on October 10, 1979, Report No. 1196. Carney specified, in the alternative, Cassville, Missouri, as the community of assignment. However, due to a significant short-spacing, Channel 237A cannot be assigned to Cassville in compliance with our rules.

³ Population figures are taken from the 1970 U.S. Census.

the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission Rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

BILLING CODE 6712-01-M

47 CFR Part 73

[BC Docket No. 80-178; RM-3410]

FM Broadcast Station in Bullhead City, Ariz.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the substitution of Class C FM Channel 274 for Class A Channel 272 at Bullhead City, Arizona, in response to a petition filed by Holiday Broadcasting Company. The proposed substitution of channels would provide a wide coverage area service to substantial unserved areas. The license for Channel 272A is proposed to be modified to specify Channel 274.

DATES: Comments must be filed on or before June 23, 1980, and reply comments must be filed on or before July 14, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Bullhead City, Arizona). BC Docket No. 80-178, RM-3410. Notice of proposed rulemaking.

Adopted: April 18, 1980.
Released: April 29, 1980.

By the Chief, Policy and Rules Division:

1. *Petitioner, Proposal, Comments:* (a) A petition for rulemaking¹ was filed by Holiday Broadcasting Company ("petitioner"), licensee of Station KRHS-FM, to substitute Class C Channel 274 for its present assignment on Channel 272A at Bullhead City, Arizona.

(b) The channel can be assigned in compliance with the minimum distance separation requirements.

(c) Petitioner states it will apply for the channel, if assigned. Comments were received from Shoblom Broadcasters, Inc., licensee of Stations KFWJ(AM) and KRFM(FM), Lake Havasu City, Arizona, to which petitioner replied.

2. *Community Data:* (a) *Location:* Bullhead City, in Mohave County, is located approximately 288 kilometers (180 miles) northwest of Phoenix, Arizona.

(b) *Population:* Bullhead City—Not listed in 1970 U.S. Census; Mohave County—25,827.²

(c) *Local Aural Broadcast Service:* Bullhead City is served locally by Station KRHS-FM (Channel 272A), and there are two outstanding applications for AM stations (one for unlimited time and one for daytime-only).

3. As a preliminary matter, Shoblom suggests that since the proposed Class C assignment for Bullhead City would enable a station to provide a city-grade signal to Lake Havasu City, Arizona, and in view of the pendency for a Class C assignment to Lake Havasu City (RM-3440), the two petitions should be considered together. Holiday replied that the two requests are not mutually exclusive and should therefore be considered separately. We agree that the petitions are sufficiently unrelated and will not be joined. The potential service from each proposed station to the other city can be considered as it relates to the separate requests.

4. *Additional Considerations:* (a) A preclusion study indicates that preclusion would occur on Channels 272A, 273, 274, 275, 276A and 277. Several communities within the precluded area would be affected.³ Petitioner should indicate whether alternate channels are available for assignment to these communities.

(b) Secondly, petitioner did not submit a *Roanoke Rapids/Anamosa* showing to demonstrate if any first or second FM service would be provided. However, petitioner states that with an increase to Class C facilities the coverage area gain

would be almost 2,000 square miles and almost 100% more population. The gain area is said to be served by only two daytime-only AM stations (KSFE, Needles, Calif., and KDWN, Las Vegas, Nev.). Thus, it appears that substantial first FM and first nighttime aural service would be provided.

(c) In accordance with established policy, we shall propose to modify the license of Station KRHS to specify Channel 274. However, if another party should indicate an interest in the Class C assignment, then the modification could not be effectuated. Instead, an opportunity for the filing of a competing application must be provided.

(d) Mexican concurrence in this assignment is required since it is within 320 kilometers (199 miles) of the Mexican-U.S. border.

5. Therefore, in view of the apparent need for a wide-coverage area station, the Commission proposes to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, as it pertains to Bullhead City, Arizona, as follows:

City	Channel No.	
	Present	Proposed
Bullhead City, Arizona	272A	274

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before June 23, 1980, and reply comments on or before July 14, 1980.

8. For further information concerning this proceeding, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

¹ Public Notice of the petition was given on August 3, 1979, Report No. 1187.

² Population figure is taken from the 1970 U.S. Census.

³ California: Eagle Mountain (pop. 2,453); Utah: Hurricane (1,408); Kanab (1,381); Arizona: Bagdad (2,079).

Federal Communications Commission.
Henry L. Baumann,
 Chief, Policy and Rules Division, Broadcast
 Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponents(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on

the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[BC Docket No. 80-180; RM-3405]

FM Broadcast Station in Missoula, Mont.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a fourth FM channel to Missoula, Montana, in response to a petition filed by KGVO Broadcasters, Inc. The proposed channel could provide Missoula, Montana, with an additional FM broadcast service.

DATES: Comments must be filed on or before June 23, 1980, and reply comments must be filed on or before July 14, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Missoula, Montana). BC Docket No. 80-180 RM-3405. Notice of proposed rulemaking.

Adopted: April 23, 1980.

Released: April 29, 1980.

By the Chief, Policy and Rules Division: 1. The Commission has before it a petition¹ filed by KGVO Broadcasters, Inc. ("petitioner"),

¹ Public Notice of the petition was given on August 3, 1979, Report No. 1187.

licensee of KGVO, Missoula, Montana, proposing the assignment of Class C Channel 271 as a fourth FM assignment to Missoula. The channel can be assigned to Missoula in conformity with the minimum distance separation requirements provided the transmitter site is located approximately 16 kilometers (10 miles) southeast of Missoula. Scottie Broadcasting Company ("Scottie"), licensee of Stations KYLT(AM) and KYLT-FM (Channel 261A), Missoula, Montana, filed opposing comments, to which petitioner responded.

2. Missoula (pop. 29,497,² seat of Missoula County (pop. 58,263), is located approximately 152 kilometers (95 miles) west of Helena, Montana. It is served locally by three FM stations: KDXT (Channel 227); KYSS (Channel 235) and KYLT (Channel 261A); three fulltime AM stations (KGRZ, KGVO and KYLT) and one daytime-only station (KYSS).

3. Petitioner states that there has been an 8.9% increase in the population of Missoula between 1960 and 1970. According to the Bureau of Business and Economic Research, University of Montana, the 1977 population of Missoula County was 66,800 as compared to the 1970 population of 58,263. Petitioner asserts that Missoula is the largest city in Missoula County. Petitioner has submitted demographic and economic data with respect to Missoula in order to demonstrate the need for an additional FM assignment.

4. Petitioner contends that KGVO(AM), of which it is the licensee, is the only commercial AM station among the four AM stations authorized to serve Missoula which does not have a sister FM station, and as such is at a distinct competitive disadvantage in generating local, regional and national advertising revenues. It points out that the advantage enjoyed by the Missoula combination stations also extends to programming. Petitioner states that in combining AM and FM personnel, the combination broadcast facilities are able to minimize the substantial burden imposed on small market stations with limited staffs to fulfill license obligations.

5. Scottie argues that although the proposed assignment would increase KGVO's revenues, petitioner has not explained how it would better serve the broadcast audience in Missoula. It contends that, because other stations in Missoula are AM-FM combinations, this does not establish that petitioner is suffering economic injury. Scottie asserts that the Commission has

² Population figures are taken from the 1970 U.S. Census.

recently indicated that the creation of new AM-FM combinations may be counter to the public interest.³ Scottie points out that a city of Missoula's size is generally limited to one or two FM channels, and an exception is made only where one or more of the channels is educational or where a showing is made that service will be provided to unserved or underserved areas.⁴ It contends further that petitioner has failed to show that the preclusive impact of the proposed assignment would be insignificant.

6. In response, petitioner asserts that Scottie is in no position to attack the possible addition of a new AM-FM combination in Missoula since it is itself the owner of an AM-FM combination in that community and adds that the AM-FM combination question is one better dealt with in the comparative hearing process. Petitioner claims that it is to Scottie's financial interest to take whatever steps are necessary to preclude, or delay the assignment of an additional FM assignment to Missoula, thereby perpetuating its competitive advantage. Petitioner notes the increase in the population of Missoula and Missoula County and states that rapid population growth, with a corresponding need for new broadcast services, has always been a public interest criteria viewed favorably by the Commission.

7. *Preclusion Study:* Channels 268, 269A, 270, 271, 272A and 273 would be precluded from use in various areas as a result of the proposed assignment. Thirty-two communities of over 1,000 population are located in these precluded areas: Of these, eighteen are without an FM assignment.⁵ Three (Polson and Deer Lodge, Montana, and McCall, Idaho) have AM stations. Petitioner should indicate whether there are any other channels available for assignment to those precluded communities without FM assignments.

8. The assertions raised by Scottie concerning petitioner's need for an AM-FM combination in Missoula to remain competitive is not a question we are concerned with here. Rather, the application processing stage could more appropriately treat that matter in

connection with other parties that may apply. The only major factor is the need for a fourth FM assignment to Missoula which exceeds the FM population guidelines. However, the proposal is being advanced for the purpose of determining whether such an assignment is warranted and whether the public interest would be served by making the additional assignment. The population guidelines are used to give guidance in resolving matters of equitable distribution of channels to the various communities. See Section 307(b) of the Communications Act. Generally, where the preclusion impact is insignificant and fails to elicit demand from such areas, we have given favorable treatment to such requests for additional assignments. See *Poplar Bluff, Mo.*, Dkt. 78-188, 45 Fed. Reg. 21636 (1980); and *Waycross, Ga.*, Dkt. 79-149, 45 Fed. Reg. 25806 (1980). Here, although the proposed channel would preclude several communities, other channels may be available for assignment. Petitioner should provide data as to current population growth in Missoula and indicate the source of this information.

9. In view of the foregoing, the Commission proposes to amend the Table of Assignments (Section 73.202(b) of the Commission's Rules) with regard to Missoula, Montana, as follows:

City	Channel No.	
	Present	Proposed
Missoula, Montana.....	227, 235, 261A	227, 235, 261A, 271

10. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

11. Interested parties may file comments on or before June 23, 1980, and reply comments on or before July 14, 1980.

12. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning

the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons

³ Citing Public Notice of June 8, 1979, FCC 79-376 and *Combined Communications Corp.*, 72 F.C.C. 2d 631 (1979).

acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street N.W., Washington, D.C.

BILLING CODE 6712-01-M

47 CFR Part 73

[BC Docket No. 80-171; RM-3353]

FM Broadcast Station in Quincy, Calif.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a Class B channel to Quincy, California. It also proposes the deletion of an unoccupied Class A channel at Quincy in order to avoid intermixture and to allow the channel to be used elsewhere.

DATES: Comments must be filed on or before June 16, 1980, and reply comments must be filed on or before July 7, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Quincy, California). BC Docket No. 80-171 RM-3353. Notice of proposed rulemaking.

Adopted: April 16, 1980.

Released: April 28, 1980.

By the Chief, Policy and Rules Division:

1. *Petitioner, Proposal, Comments:* (a) A petition for rule making ¹ was filed by Ralph E. Wittick d/b/a KPCCO Radio ("petitioner"), licensee of daytime-only AM Station KPCCO, Quincy, California, proposing the substitution of Class B Channel 270 for Channel 240A (unoccupied and unapplied for) at Quincy, California. No responses to the proposal have been filed.

(b) The proposed assignment can be made in compliance with the minimum distance separation requirements.

(c) Petitioner states it will apply for the channel, if assigned.

2. *Demographic Data:* (a) *Location:* Quincy, seat of Plumas County, is located approximately 272 kilometers (170 miles) northeast of San Francisco, California.

(b) *Population:* Quincy—2,500; ² Plumas County—11,707.

(c) *Local Aural Broadcast Service:* Quincy is served locally by daytime-only AM Station KPCCO, licensed to petitioner.

3. *Economic Considerations:* Petitioner asserts that Quincy has a variety of businesses and is the center of trade for the area. Quincy's population is presently estimated at 5,000, according to petitioner.

4. Petitioner states that KPCCO(AM) has extremely poor coverage capability, other than to the confines of the immediate Quincy area, due to very bad ground conductivity and the surrounding mountainous terrain. It claims that the Class A FM channel assignment at Quincy would serve the same area which KPCCO(AM) now serves, but the proposed Class B channel would enable excellent coverage of most of the outlying towns in the county.

5. *Preclusion Studies:* Preclusion would be caused on Channels 269A, 270, 271 and 272A. Twenty communities with populations greater than 1,000 would sustain preclusion on one or more of these channels. Ten ³ of these have no AM stations or FM assignments. Petitioner should indicate whether alternate channels are available for assignment to these communities.

6. *Additional Considerations:* Petitioner states that the assignment of a Class B channel would provide first FM and first nighttime aural service to 11,893 persons in an approximate area of 52,000 square kilometers (20,300

¹ Public Notice of the petition was given on April 16, 1979, Report No. 1172.

² Population figures are taken from the 1970 U.S. Census.

³ *California:* Palermo (pop. 1,966); Greenville (1,073); Chester (1,531); Westwood (1,862); Central Valley (2,361); Project City (1,431); Willits (3,091); Gridley (3,534); Portola (1,625); *Nevada:* Lovelock (1,571).

square miles), whereas a Class A channel would provide first FM and first nighttime aural service to 6,280 persons in a 803 square kilometer (314 square miles) area. However, our staff has found several errors which would substantially decrease these estimates. For example, petitioner failed to include Stations KFMF (Channel 229) and KPAY (Channel 236), Chico, California, and underestimated the contour of Station KSUE, Susanville, California. ⁴ Petitioner should correct these errors and provide accurate *Roanoke Rapids/Anamosa* showing if it wishes us to consider this information.

7. Since no one has expressed an interest in applying for Channel 240A, presently unoccupied at Quincy, we shall propose its deletion and allow the channel to be utilized elsewhere.

8. We believe consideration of the proposal is warranted in order to get comments on the desirability of a wide-area coverage channel for the Quincy area. Accordingly, the Commission proposes to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, with regard to the city listed below, as follows:

City	Channel No.	
	Present	Proposed
Quincy, California	240A	270

9. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

10. Interested parties may file comments on or before June 16, 1980, and reply comments on or before July 7, 1980.

11. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at

⁴ Petitioner also failed to accurately depict the 1mV/m contour of the proposed station and of the present Class A assignment.

the Commission or oral presentation required by the Commission.

Federal Communications Commission,
Henry L. Baumann,
Chief, Policy and Rules Division, Broadcast
Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 72.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply

comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[BC Docket No. 80-172; RM-3352]

FM Broadcast Station in Stephenville, Tex.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the substitution of a Class C FM channel for a Class A channel at Stephenville, Texas, in response to a petition filed by Dixie Broadcasters, the Class A licensee. The proposed Class C channel could provide first and second FM services to a large area and population.

DATES: Comments must be filed on or before June 16, 1980, and reply comments on or before July 7, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Stephenville, Texas). BC Docket No. 80-172; RM-3352. Notice of proposed rulemaking.

Adopted: April 16, 1980.

Released: April 28, 1980.

By the Chief, Policy and Rules Division:

1. The Commission herein considers a petition for rule making¹ filed by Dixie Broadcasters ("petitioner"), licensee of daytime—only AM Station KSTV and Station KWWM-FM (Channel 252A), Stephenville, Texas, which seeks the substitution of Class C FM Channel 289 for Channel 252A at Stephenville and the reassignment of Channel 252A from Stephenville to Cisco, Texas, as that community's first FM assignment. The proposed substitution of channels at Stephenville could be made in conformity with the minimum distance separation requirements. Comments in support were filed by Richard L. Whitworth of Crockett County Broadcasters, licensee of Station KRCT, Ozona, Texas.

2. Stephenville (pop. 9,277)² seat of Erath County (pop. 18,141), is located approximately 144 kilometers (90 miles) southwest of Dallas, Texas. Stephenville is served locally by daytime-only AM Station KSTV and Station KWWM-FM (Channel 252A), on which petitioner operates.

3. Petitioner asserts that Stephenville is the largest city in Erath County. It notes that Tarleton State University, with almost 4,000 students, is located there and the majority of these students live throughout Erath County. Petitioner states that not only these students but farmers, dairymen and schools look to Station KWWM-FM before sunrise to advise them of weather, road and other matters, however, it asserts that its Class A facility does not cover enough area, it therefore urges a Class C facility for the Stephenville area. Petition has submitted numerous letters from community leaders, merchants and listeners, expressing their support for a Class C station.

4. *Preclusion Studies:* A preclusion study conducted for the assignment of Channel 289 to Stephenville reveals that thirty-one communities, with populations greater than 1,000, would be preclude as a result of this assignment. Of these, seventeen³ have no AM stations or FM assignments. Petitioner indicates that alternate channels are

¹ Public Notice of the petition was given on April 18, 1979, Report No. 1172.

² Population figures are taken from the 1970 U.S. Census.

³ Texas: Throckmorton (pop. 1,105) (Channel 288A); Olney (3,624) (Channel 288A); Archer City (1,722) (Channel 288A); (Channel 288A); Goldthwaite (1,693) (Channels 289A, 289, 292A); Eldorado (1,446) (Channel 289); Eden (1,291) (Channels 289, 290); Menard (1,740) (Channels 289, 290); Mason (1,806) (Channel 289, 290); Dublin (2,810) (Channel 289); Bangs (1,214) (Channels 290, 292A); Santa Anna (1,310) (Channel 290); Cisco (4,160) (Channel 292A); Cross Plains (1,129) (Channel 292A); Rising Star (1,009) (Channel 292A); Ranger (3,094) (Channel 292A); Gorman (1,236) (Channel 292A); DeLeon (2,170) (Channel 292A).

available in Olney and Cisco, Texas. It is requested to indicate whether channels are available to the remaining fifteen communities having no FM assignments. Petitioner claims that a Class C station at Stephenville would provide a first FM service to 68,474 persons in a 5,836 square kilometer (2,280 square miles) area, and a second FM service to 11,871 persons in a 1,868 square kilometer (730 square miles) area. No first or second nighttime service is indicated. It appears that petitioner's *Roanoke Rapids/Anamosa* showing did not take into account all necessary stations. If included, the first FM service figures would be reduced and the second FM service population figure would be cut in half. Nevertheless, the proposed services appear to be substantial and warrant consideration of the proposal as described above. However, we will not propose the assignment of Channel 252A at Cisco, Texas, as suggested by petitioner, since no interest has been expressed for an assignment to that community. However, should such an interest come forth, we will consider proposing an assignment to Cisco at that time.

5. Petitioner has not specifically requested modification of its license to specify the proposed assignment of Channel 289. In view of our policy as expressed in *Cheyenne, Wyoming*, 62 F.C.C. 2d 63 (1976), we have held that the public interest is best served where interested parties are afforded an equal opportunity to apply for such a Class C channel newly assigned to a community. Indeed, another party, Crockett County Broadcasters, expressed an interest in the proposed assignment of Channel 289 to Stephenville. Therefore, we shall not propose to modify petitioner's license to specify the Class C channel. Petitioner may continue to operate its Class A station, which we propose to retain, while it applies for a Class C operation.

6. In view of the above, the Commission proposes to amend the FM Table of Assignments (Section 73.202(b) of the Commission's Rules) with regard to the city listed below as follows:

City	Channel No.	
	Present	Proposed
Stephenville, Texas.....	252A	252A, 289

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before June 16, 1980, and reply comments on or before July 7, 1980.

9. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Federal Communications Commission.
Henry L. Baumann,
Chief, Policy and Rules Division, Broadcast Bureau

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who file comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

[BC Docket No. 80-179; RM-3417]

FM Broadcast Station in West Salem, Wis.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: Action taken herein proposes the assignment of a second Class A FM channel to West Salem, Wisconsin, in response to a petition filed by Good News Radio, Inc. The proposed channel could provide West Salem with a second local aural broadcast service.

DATES: Comments must be filed on or before June 23, 1980, and reply comments must be filed on or before July 14, 1980.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (West Salem, Wisconsin). BC Docket No. 80-179 RM-3417. Notice of proposed rulemaking.

Adopted: April 18, 1980.

Released: April 28, 1980.

By the Chief, Policy and Rules Division:

1. *Petitioner, Proposal, Comments:*

(a) A petition for rule making¹ was filed by Good News Radio, Inc. ("petitioner"), proposing the assignment of Channel 269A to West Salem, Wisconsin, as its second FM assignment.

(b) The channel can be assigned in compliance with the minimum distance separation requirements, provided the transmitter site is located approximately 5 kilometers (3 miles) southeast of the community.

2. *Community Data:*

(a) *Location:* West Salem, in La Crosse County, is located approximately 160 kilometers (100 miles) northeast of Madison, Wisconsin.

(b) *Population:* West Salem—2,180;² La Crosse County—80,468.

(c) There is no local aural broadcast service in West Salem. Channel 261A is assigned to the community with two applications pending.³

3. *Economic Considerations:*

Petitioner states that West Salem is part of an important trading center serving adjacent counties in Minnesota and Iowa as well as Wisconsin. Petitioner has submitted demographic and economic data with respect to West Salem in an effort to show the need for a second FM assignment.

4. A preclusion study indicates that the assignment of Channel 269A to West Salem, Wisconsin, would not cause preclusion to any community with a population over 1,000.

5. In light of the foregoing information and the fact that the proposed assignment would provide the community with an opportunity to

develop a second local FM broadcast service, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with regard to West Salem, Wisconsin:

City	Channel No.	
	Present	Proposed
West Salem, Wisconsin.....	261A	261A, 269A

6. Authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements, are contained in the attached Appendix and are incorporated by reference herein.

Note: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before June 23, 1980, and reply comments on or before July 14, 1980.

8. For further information concerning this proceeding, contact Mildred B. Nesterak, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a notice of proposed rule making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, IT IS PROPOSED TO AMEND the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former

pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

Proposed Notice of Guidelines for Mini-Grant Program

Summary

The following notice sets forth the proposed guidelines under which applications for Mini-Grants will be accepted and reviewed. The notice describes the program purpose, applicant eligibility, grant scope, and application procedure.

In accordance with ACTION's response to Executive Order 12044, Improving Government Regulations, a working group met on March 20, 1980, and determined that a regulation in the form of guidelines was necessary to accomplish the purposes of this notice. Also, because the group found that the notice affects an important agency program (the Mini-Grant Program) and imposes the standard grant-reporting requirements, it was decided that the notice was significant. Therefore, the guidelines are published in proposed form for a 60-day period during which written comments will be accepted and regional meetings held for public discussion, if requested.

DATE: Written comments should be submitted no later than June 30, 1980 to Jeffrey M. Hammer, OVCP, ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525.

FOR FURTHER INFORMATION OR TO REQUEST A REGIONAL MEETING, CONTACT: Jeffrey M. Hammer, OVCP, ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525, or telephone toll-free 800-424-8867. The addresses and phone numbers of State ACTION Offices may also be obtained by calling this number.

SUPPLEMENTARY INFORMATION: Notice is hereby given that pursuant to the authority contained in section 123 of the Domestic Volunteer Service Act of 1973, as amended (42 USC section 4993),

applications will be accepted for Mini-Grants.

1. Program Purpose

(a) The ACTION Mini-Grant Program is intended to utilize and promote volunteering and voluntary action; and to assist emerging or established organizations, particularly low-income and community based-groups.

(b) The purpose of this program is to initiate, strengthen and/or supplement volunteer efforts and to encourage broad-based volunteer citizen participation which will develop and enhance community self-reliance. Mini-Grants are intended to be directed to meet a broad range of basic human needs, especially in the poverty sector—health and nutrition; food and water; knowledge and skills; economic development and income; housing; community services; energy conservation; and legal rights.

2. Eligibility

Public or private non-profit organizations, including hospitals or institutions of higher learning, and local units of government which utilize, or will utilize, volunteers as an integral part of their provision of services may apply for grants.

3. Scope of Grant

The Mini-Grant Program provides funds on a one-time, non-renewable basis for a project period not to exceed one year under the following conditions:

(a) The federal share of the grant award shall not exceed \$5,000 to organizations for a local project or \$10,000 to organizations for a project that relates to an entire state or ACTION region.

(b) All grants of \$3,500 or more in federal funds require a minimum matching share of 10% of the total grant cost. The matching share can be cash or an in-kind contribution, e.g., project director's salary and fringe benefits, space or equipment used by the project, or meals provided to project volunteers.

(c) The use of federal funds must be related directly to supporting the project volunteers, e.g., meals, transportation, child care, training, printing, supervision, etc. Grantees are encouraged not to spend Mini-Grant monies on expensive office equipment. If the purchase of office equipment will contribute directly to the generation of volunteer hours, a justification must be

presented in the grant application. Equipment for program (tools, seeds, sports, etc.) purchased with grant monies also must directly generate volunteer hours.

(d) Mini-Grants will be awarded for projects which have measurable goals achievable in a specified time frame not to exceed one year.

(e) Mini-Grants should be considered and used as a means to establish or strengthen activities, mechanisms, and programs which may be one-time or on-going in nature, but which must demonstrate a solid potential for long-term effect upon improving poverty-related conditions and/or enhancing community self-reliance. The funding of conferences, workshops, seminars, fairs, etc. is at the discretion of the regions, but these kinds of projects must also contain a strong volunteer component.

(f) Mini-Grants are basically for the mobilization of volunteers to impact on a community problem. It is expected that for each federal dollar awarded, at least one (1) hour of volunteer service will be generated. If the project is of a nature that numbers of volunteers and volunteer hours cannot be documented, then the grantee is asked to describe the impact of the project on the larger issue of volunteer activity in the organization/community.

(g) ACTION reserves the right to establish funding priorities each year in order to meet national needs and agency goals. These priorities will affect the obligation of 50% of Mini-Grant funds or \$500,000 annually, whichever is less.

4. Procedures

(a) Mini-Grant applications will be submitted to ACTION State Program Offices on OMB Standard Form 424, Application for Federal Assistance (Short Form).

(1) Part I *Face Sheet*—Complete all items in Sections I and II. Do not make any entries in Section III.

(2) Part II *Budget Data*—Submit budget information as requested. Include a narrative justification for each line item in the budget.

(3) Part III *Program Narrative Statement*—The Program Narrative Statement should be brief, showing the need, objectives, approach, anticipated number of volunteer and volunteer hours, geographical location of the project, and the benefits expected.

(4) Part IV *Assurances*—Applicants must sign and date "Assurances" page.

5. Deadlines

Deadlines for submission of applications are established by the individual regions.

6. Reports and Records

(a) Reports Requirements.

Grantee should maintain sufficient records in order to validate required financial and program reporting. Grantee will make financial reports on ACTION Form A-451, Financial Status Report, within ninety (90) days after the end of the project period. Grantee will submit a program report at the conclusion of the project in a format to be prescribed by the ACTION Regional Office. The final program report should reflect degree of achievement toward goals as outlined in the program narrative, including the actual number of volunteers and volunteer hours generated. ACTION Regional Offices will provide a narrative Close-Out Report which describes project benefits, success and limitations to the National Program Manager, upon completion of each project.

(b) Records Retention.

Grantee must retain all financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of three (3) years after submission of the final Financial Status Report. If any litigation, claim, or audit is begun before the expiration of the three-year period, the records shall be retained until all litigations, claims, or audit findings involving the records have been resolved.

Dated at Washington, D.C., this 30th day of April, 1980.

Sam Brown,
Director.

BILLING CODE 6050-01-M

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Food Stamp Program Policy Interpretation Response

SUMMARY: This notice advises the public of a policy interpretation by the Food and Nutrition Service in the applicability of current policy regarding rental refund payments that will be issued shortly by the Department of Housing and Urban Development and may be received by Food Stamp households.

FOR FURTHER INFORMATION CONTACT: Larry R. Carnes, Chief, Policy and Regulations Section, Program Standards Branch, Program Development Division, Family Nutrition Program, Food and Nutrition Service, Washington, D.C. 20250, 202-447-9075.

SUPPLEMENTARY INFORMATION: In 1974 Congress approved additional funds to the Department of Housing and Urban Development (HUD) to grant greater subsidies to landlords of Section 236 housing projects to offset increasing utility and property tax cost. HUD declined to implement this program and, as a result, some landlords passed the increased costs on to their tenants through higher rental fees. Subsequently, a series of class action suits was filed against HUD (e.g., *Underwood v. Harris*, Civil No. 16-0469, D.D.C.) resulting in stipulated settlements under which households required to pay the rent increases are entitled to retroactive payments.

Notice: Policy Interpretation 80-6

Regulation Citation: Sections 273.9(c)(8) and 273.8(c).

Subject: Treatment of HUD Rental Refund Payments.

Question: Can these payments be excluded as income and resources in determining eligibility for Food Stamp Program?

Response: Pursuant to the Food Stamp Act of 1977 and in accordance with section 273.9(c)(8) of Food Stamp Program regulations, the HUD rental refund payments described above shall be considered nonrecurring lump sum payments and, as such are excluded from consideration as income for Food Stamp Program purposes. In accordance with section 273.8(c) of the regulations, however, these payments shall be considered a resource in the month received.

It is significant to note that, pursuant to section 273.12 of the regulations, household need not report the receipt of these payments unless, during the month it received the payment, its total liquid resources (including the HUD payment) exceeds \$1,750. If the HUD payment does cause the household's liquid resources to exceed \$1,750 the household has ten days from the date it received the payment to report it.

Dated: April 14, 1980.

Robert Greenstein,
Administrator.

[Docket 37987]

Miami-London Service Case (Gatwick Phase); Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled proceeding will be held on June 3, 1980, at 9:30 a.m. (local time), in Room 1003, Hearing Room D, Universal North Building, 1875 Connecticut Avenue, N.W., Washington, D.C., before the undersigned administrative law judge.

In order to facilitate the conduct of the conference, the parties are instructed to submit one copy to each party and four copies to the judge of (1) proposed statement of issues, (2) proposed stipulations, (3) proposed requests for information and for evidence, (4) statements of position, (5) proposed procedural dates, and (6) proposals for organizing cross-examination or otherwise expediting the hearing.

The Bureau of International Aviation shall deliver its material on or before May 14, 1980. The submissions of the other parties shall be delivered on or before May 28, 1980. The submissions of the other parties shall be limited to points on which they differ with BIA and shall follow the numbering and lettering used by the Bureau to facilitate cross referencing. Parties with Washington counsel should hand-deliver such submissions, and other parties should utilize express services to insure that delivery is made by the dates specified.

Dated at Washington, D.C., May 1, 1980.

William A. Pope, II,
Administrative Law Judge.

BILLING CODE 6320-01-M

[Order 80-4-224; Docket 38086]

Republic Airlines, Inc.; Application for Approval of the Acquisition of Hughes Air Corp., d.b.a. Hughes Airwest

Order and Notice to all Parties

Adopted by the Civil Aeronautics Board at its Office in Washington, D.C. on the 30th day of April, 1980.

On April 25, 1980, Republic Airlines filed an application for approval of the acquisition of Hughes Air Corp., d.b.a. Hughes Airwest pursuant to section 408(b) of the Federal Aviation Act and new Part 315 of the Board's Procedural Regulations (14 CFR 315). Part 315 and the supplementary information that accompanied it (PR-221), adopted and effective April 2, 1980) provide that applications will be processed by hearing unless the Board states otherwise. Our preliminary analysis of the application indicates that a hearing may not be necessary to handle adequately the legal and factual issues involved, and we are therefore considering handling this proceeding by a show-cause order.

Part 315 of our regulations allows interested parties ten business days from the filing date of an application to comment on whether the application meets the information requirements of Part 315. Comments on the application are now due on May 9. Interested parties should include in their comments any objections they might have to the use of show-cause procedures, and an explanation why they believe that the intended acquisition, or certain aspects of it, raises legal or factual issues that would require an oral evidentiary hearing before an Administrative Law Judge for their proper disposition. Our tentative conclusion that a show-cause order is the best method by which to handle this application does not foreclose the possibility that we may find that some, but not all, of the issues should be sent to hearing. Comments may be addressed to the suitability of our taking such a hybrid approach.

Notice is hereby given that, in the event that comments from interested parties or our further analysis indicates that a hearing is required, a prehearing conference will be held on May 19.

Accordingly: 1. We request comments from interested persons by May 9, on whether the application of Republic for acquisition of Hughes Airwest should be handled in whole or in part by show-cause procedures, and

2. Comments should be filed concurrently with comments on whether the application has met the information requirements of Part 315 of our Procedural Regulations.

This order shall be published in the Federal Register.

By the Civil Aeronautics Board.¹

Phyllis T. Kaylor,

Secretary.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Additional Import Controls on Certain Cotton Textile Products From Pakistan

April 30, 1980.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Controlling women's, girls', and infants' cotton knit shirts and blouses in Category 339, produced or manufactured

in Pakistan and exported during the year which began on January 1, 1980. (A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463)).

SUMMARY: Under the terms of the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended, between the Governments of the United States and Pakistan, the United States Government has decided to control imports of cotton textile products in Category 339, produced or manufactured in Pakistan and exported to the United States during the twelve-month period which began on January 1, 1980, in addition to those categories previously designated. (See 44 FR 76572)

EFFECTIVE DATE: May 6, 1980.

FOR FURTHER INFORMATION CONTACT:

Carl Ruths, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230. (202/377-5423).

SUPPLEMENTARY INFORMATION: On December 27, 1979, there was published in the Federal Register (44 FR 76572) a letter dated December 20, 1979 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs which established levels of restraint for certain specified categories of cotton textile products, produced or manufactured in Pakistan, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period which began on January 1, 1980 and extends through December 31, 1980. In accordance with the terms of the bilateral agreement, the United States Government has decided also to control imports of cotton textile products in Category 339 at a level of 397,535 dozen with a sublimit therein of 139,773 dozen for unornamented cotton knit shirts in T.S.U.S.A. numbers 382.0669 and 382.0671 during that same period. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to prohibit entry for consumption or withdrawal from warehouse for consumption of cotton textile products in Category 339 in excess of the designated levels of restraint. The levels have not been adjusted to reflect any imports after December 31, 1979. As the data become available, charges will be made for the period beginning on January 1, 1980 and

extending through the effective date of this action.

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

April 30, 1980.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury,
Washington, DC 20229.

Dear Mr. Commissioner: This directive amends, but does not cancel, the directive of December 20, 1979 from the Chairman, Committee for the Implementation of Textile Agreements, concerning imports into the United States of certain cotton textile products, produced or manufactured in Pakistan.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton Textile Agreement of January 4 and 9, 1978, as amended between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 8, 1977, you are directed to prohibit, effective on May 6, 1980 and for the twelve-month period beginning on January 1, 1980 and extending through December 31, 1980, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 339, produced or manufactured in Pakistan, in excess of the following level of restraint:

Category	Twelve-month level of restraint ¹
339	397,535 dozen of which not more than 139,773 dozen shall be in T.S.U.S.A. numbers 382.0669 and 382.0671.

¹The level of restraint has not been adjusted to reflect any imports after December 31, 1979.

Textile products in Category 339 which have been exported prior to January 1, 1980 shall not be subject to this directive.

The action taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreement.

[FR Doc. 80-13800 Filed 5-5-80; 8:45am]

BILLING CODE 3510-25-M

DEPARTMENT OF DEFENSE

Department of the Army

Draft Environmental Impact Statement (DEIS) for a Proposed Navigation Improvement in Bogue Inlet, North Carolina

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent to Prepare a Draft Environmental Impact Statement (DEIS).

SUMMARY: 1. The proposed action to improve navigation in Bogue Inlet, NC, is to dredge and maintain an 8' x 150' channel across the ocean bar, which will extend the existing side channel from the Atlantic Intracoastal Waterway (AIWW) to the ocean. The ocean bar channel will be dredged and maintained by either a side-casting dredge or hopper dredge. Material from the hopper dredge will be deposited in the nearshore zone of the beaches on the west end of Emerald Isle.

2. Alternatives for navigation improvement that have been investigated include dual rock jetties with an excavated 12' x 300' entrance channel and 10' x 150' interior channel extending to the AIWW, dual rock jetties with sand dike extension and with an excavated 12' x 300' entrance channel and 10' x 150' interior channel to the AIWW, and a single rock jetty with 12' x 300' excavated entrance channel and 10' x 150' interior channel to the AIWW.

3. a. The public involvement program was begun with a public meeting held on 29 January 1971, which initiated the study. In 1977 a letter was sent to interested agencies and persons announcing the first stage of planning for feasible navigation improvements in Bogue Inlet and requesting preliminary comments. A second public meeting was held on 28 February 1980. In the future an additional public meeting will be held to present the recommend project. Throughout the study, agencies have also been briefed on the project in informal meetings. All agencies, organizations, and interested parties which have not been previously notified are invited to comment at this time.

3. b. The significant issue to be analyzed in the DEIS involves the selection of a plan to improve navigation in Bogue Inlet.

3. c. The U.S. Fish & Wildlife Service will furnish comments in accordance with the provisions of the Fish & Wildlife Coordination Act (48 Stat. 401, as amended; 16 U.S.C. 661 et seq.)

3. d. A section 401 Water Quality Certificate shall be required from the State of North Carolina.

4. Public meetings were held in January of 1971 and in February of 1980. A late stage public meeting is tentatively scheduled in August 1980.

5. Estimated date of public availability of the DEIS is August 1980.

ADDRESS: Questions about the proposed action and DEIS can be answered by: Richard Jackson, Environmental Resources Branch, U.S. Army Engineer District, Wilmington, PO Box 1890, Wilmington, NC 28402.

Dated: April 23, 1980.

Adolph A. Hight,

Colonel, Corps of Engineers, District Engineer.

BILLING CODE 3710-N-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Action Taken on Consent Orders

AGENCY: Economic Regulatory Administration.

ACTION: Notice of Action Taken on Consent Order.

SUMMARY: The Economic Regulatory Administration of the Department of Energy (DOE) hereby gives Notice that Consent Orders were entered into between the Office of Enforcement, ERA, and the firms listed below during the month of February 1980. These Consent Orders concern prices charged by retail motor gasoline dealers allegedly in excess of the maximum lawful selling price for motor gasoline. The purpose and effect of these Consent Orders is to bring the consenting firms into present compliance with the Mandatory Petroleum Price Regulations and the General Allocation and Price Regulations, and they do not address or limit any liability with respect to the consenting firms' prior compliance or possible violation of the aforementioned regulations. Pursuant to the Consent Orders, the consenting firms agree to the following actions:

1. Reduce prices for each grade of gasoline to no more than the maximum lawful selling price;
2. Post the maximum lawful selling price for each grade of gasoline on the face of each pump in numbers and letters not less than one-half inch in height, or in a prominent place elsewhere at the retail outlet in numbers or letters not less than four inches high;
3. Properly maintain records required under the aforementioned regulations; and

4. Cease and desist from employing any discriminatory and/or unlawful business practices prohibited by the aforementioned regulations.

For further information regarding these Consent Orders, please contact James C. Easterday, District Manager, Southeast District, Department of Energy, Office of Enforcement, 1655 Peachtree Street, NE, Atlanta, Georgia 30309, telephone number (404) 881-2661.

BILLING CODE 6450-01-M

Edwards Producing Company, Inc.

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

DATE: Effective date: March 10, 1980.

COMMENTS BY: June 5, 1980.

ADDRESS: Send comments to: James C. Easterday, District Manager of Enforcement, 1655 Peachtree Street, N.E., Atlanta, Georgia 30309.

FOR FURTHER INFORMATION CONTACT:

James C. Easterday, District Manager of Enforcement, 1655 Peachtree Street, N.E., Atlanta, Georgia 30309; Telephone (404) 881-22661.

SUPPLEMENTARY INFORMATION: On March 10, 1980, the Office of Enforcement of the ERA executed a Consent Order with Edwards Producing Company, a Jackson, Mississippi, crude producer. Under 10 CFR 205.199(b), a Consent Order which involves a sum of less than \$500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution. Because of the settlement negotiations involved in this case and the desire to conclude this matter expeditiously, the DOE has determined that it is in the public interest to make the Consent Order with Edwards Producing Company effective as of the date of its execution by the DOE and Edwards Producing Company.

I. The Consent Order

Edwards Producing company (Edwards), with its home office located in Jackson, Mississippi, is a crude oil producer, and is subject to the jurisdiction of the DOE with regard to prices charged in sales of crude oil, pursuant to 10 CFR 212.93. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Edwards, the Office of Enforcement, ERA, and Edwards entered into a Consent Order, the significant terms of which are as follows:

1. The Consent Order relates to production and sales of crude oil by Edwards during the period September 1, 1973 through December 31, 1977.

2. From the audit conducted during the above period, the Office of Enforcement concluded that Edwards erroneously classified properties so that crude oil production was sold as stripper well oil in violation of applicable DOE pricing regulations.

3. Edwards agrees to refund the total sum of \$106,732.34, plus applicable interest, in full settlement of all outstanding overcharges found by DOE during the audit period. Payments shall be in the form of a certified check submitted monthly to the Assistant Administrator for Enforcement, ERA, Washington, D.C., who will ensure distribution in accordance with current DOE policies and procedures.

4. The Consent order provides that Edwards shall make refunds totalling \$106,732.34, plus applicable interest, within a three (3) year period of time from the date of execution of the Consent Order. If the total sum is not

repaid within three (3) years, Edwards shall repay the remaining overcharges and interest by paying an equivalent sum to the Assistant Administrator for Enforcement.

5. In the event of any permanent shut-in, abandonment or other permanent disposition of the properties specified in the Consent Order prior to three (3) years from the date of execution of the Consent Order, Edwards shall repay the remaining overcharges and interest by paying an equivalent sum to the Assistant Administrator for Enforcement.

6. The provisions of 10 CFR 205.199], including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In the Consent Order, Edwards agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. and I.2. above, the sum of \$106,732.34, within three (3) years of execution of the Consent Order. Refund methodology will be as specified in I.B., and I.4. and I.5. above. Refunded overcharges will be in the form of certified checks made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have either been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. Potential Claimants: Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. Other Comments: The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments or written notification of a claim to James C. Easterday, District Manager of Enforcement, 1655 Peachtree Street, N.E., Atlanta, Georgia 30309. You may obtain a copy of this Consent Order with proprietary information deleted by writing to the same address.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Edwards Consent Order." Comments received by 4:30 p.m., local time, on June 5, 1980 will be considered. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Atlanta, Georgia on the 17th day of April 1980.

James C. Easterday,
District Manager of Enforcement.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-C30182; FRL 1485-3]

Ciba-Gelgy Corp.; Approval of Application to Conditionally Register Pesticide Product Containing a New Active Ingredient

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the approval of an application by Ciba-Geigy Corp. to conditionally register the pesticide RIDOMIL 2E containing a new active ingredient.

SUPPLEMENTARY INFORMATION: Notice was given that Ciba-Geigy Corp., Agricultural Div., P.O. Box 11422, Greensboro, NC 27409, had filed an application (EPA File Symbol No. 100-ANT) with EPA to conditionally register the pesticide product RIDOMIL 2E containing 25.1% of the active ingredient *N*-(2,6-dimethylphenyl)-*N*-(methoxyacetyl)alanine methylester, which was not previously registered at the time of submission.

This application was approved February 28, 1980, and the product has been assigned EPA Registration No. 100-607. RIDOMIL 2E is classified for general use as a fungicide to control blue mold on tobacco.

PUBLIC RECORD/INSPECTION: A copy of the approved label and list of data references used to support registration are available for public inspection in the Product Manager's (PM-21, Mr. Henry Jacoby) office, Room E-305, Registration Division (TS-767), office of Pesticide Programs, 401 M St., SW, Washington, DC 20460, telephone number 202/755-2562. The data and other scientific information used to support registration, except for the material specifically protected by section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; 7 U.S.C. 136) will be available for public inspection in the Information Services Branch, Room EB-35, EPA, telephone number 202/426-8850 in accordance with section 3(c)(2) of FIFRA, within 30 days after the registration date of February 28, 1980. Requests for data must be made in accordance with the Provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), EPA, at the above address. Such requests should: (1) Identify the product by name and registration number; and (2) specify the data or information desired.

(Sec. 3(c)(5), 92 Stat. 824, (7 U.S.C. 136))

Dated: April 30, 1980.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

BILLING CODE 6560-01-M

[OPP-180428; FRL 1485-4]

New York Department of Environmental Conservation; Issuance of Specific Exemption To Use Chlorpyrifos To Control Onion Maggot

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has issued a specific exemption to the New York Department of Environmental Conservation (hereafter referred to as the "Applicant") to use chlorpyrifos to control the onion maggot on 6,700 acres of onions in Madison, Oneida, Ontario, Orleans, Oswego, Steuben, Wayne, and Yates Counties, New York. The specific exemption is issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: This exemption ends on June 30, 1980.

FOR FURTHER INFORMATION CONTACT: Libby Welch, Registration Division (TS-767), Rm. E-124, Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, 202-426-0223.

It is suggested that interested persons telephone before visiting the EPA Headquarters so that the appropriate files may be made conveniently available for review purposes.

SUPPLEMENTARY INFORMATION: Onion maggot, *hylemya antiqua* (Meigen), is a single host pest that annually threatens onion crops grown in New York. The larvae tunnel into growing bulbs and either destroy them completely or render them unusable, according to the Applicant. Because the onion maggot is a single host pest, the entire population is exposed to the chemical being applied, resulting in eventual resistance to the chemical. Fensulfothion and fonophos are the only registered pesticides still recommended for use as preventive applications at planting time before the larvae invade the plants; according to the Applicant, neither provides satisfactory control. There are no alternative cultural or biological practices. The Applicant states that chlorpyrifos, the active ingredient (a.i.) in Lorsban 4E and Lorsban 15G, provides good control. The applicant claims that significant economic losses could result if the onion maggot is not controlled.

EPA has concluded that residues of chlorpyrifos in onions are not expected to exceed 0.5 part per million (ppm) from the proposed use rate of one pound a.i. per acre with a 90-day pre-harvest interval. This residue level has been deemed adequate to protect the public

health. EPA has also determined that the proposed use should not pose an unreasonable hazard to the environment.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of onion maggot on onions has occurred or is about to occur; (b) there is no effective pesticide presently registered and available for use to control the onion maggot in New York; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the onion maggot is not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until June 30, 1980, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. Use of the products Lorsban 4E (EPA Reg. No. 464-484) and Lorsban 15G (EPA Reg. 464-523) is authorized at a dosage rate of 0.029 pound a.i. per 1,000 linear-foot of row, or one pound a.i. per acre based on the standard fifteen-inch row width. If unregistered labels are used, they must contain the identical, applicable precautions and restrictions which appear on the registered labels;
2. A maximum of one application is authorized. Application will be made at planting time only;
3. Applications may be made by growers State-certified as private applicators or by persons in their employ and under their supervision;
4. A maximum of 6,700 acres of dry bulb onions in the counties named above may be treated;
5. A maximum of 6,700 pounds a.i. may be applied;
6. Application may be made by (a) drench treatment, using 75 gallons of water per acre, (b) a furrow spray, using 25 to 40 gallons of water per acre, or (c) granules;
7. Onions with residue levels of chlorpyrifos not exceeding 0.5 ppm may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health, Education, and Welfare, has been advised of this action;

8. There is to be a pre-harvest interval of not less than 90 days;

9. All applicable label directions, precautions, and restrictions must be adhered to;

10. The EPA shall be immediately informed of any adverse effects resulting from the use of chlorpyrifos in connection with this exemption; and

11. The Applicant shall be responsible for assuring that all of the provisions of this specific exemption are followed and must submit a report summarizing the results of this program by December 31, 1980.

(Sec. 18, as amended, (92 Stat. 819; 7 U.S.C. 136)).

Dated: April 30, 1980.

Edwin L. Johnson,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 80-13882 Filed 5-5-80; 8:45 am]

BILLING CODE 6560-01-M

FEDERAL COMMUNICATIONS COMMISSION

[FCC 80-96; CC Docket No. 78-99]

The Western Union Telegraph Co.; Memorandum Opinion and Order; Enlarging Issues

Adopted: February 28, 1980.

Released: March 25, 1980.

By the Commission: Commissioner Lee absent.

In the Matter of Revisions to Tariff F.C.C. No. 261, Satellite Transmission Services, Transmittal Nos. 7546 and 7549.

1. Before the Commission are several petitions seeking rejection or, alternatively, suspension and investigation of proposed revisions to Tariff F.C.C. No. 261 filed by Western Union Telegraph Company (Western Union). The revisions, which are scheduled to become effective March 3, 1980, provide for rate structure and rate level changes for occasional video channel and associated transponder services.¹ For reasons to be explained, we are denying the petitions for rejection and granting in part the requests for investigation.

I. Background

2. Western Union's Westar satellite system consists of three satellites each having twelve transponders. Each transponder is capable of relaying channels of varying bandwidths between transmit and receive earth stations. Among the various kinds of

services offered through the Westar satellite system are: occasional video channel service, full time or whole transponder service, and multiple-access special channel service. With respect to occasional video channel service, Western Union currently furnishes, and would continue to furnish under the proposed revision, hourly use of transponders with optional leasing of Western Union's earth stations and terrestrial access facilities for transmission and reception of television programming. Full time transponder service enables subscribers to lease a whole transponder 24 hours a day, seven days a week. This service is currently offered on a month to month basis. Under the proposed revisions, this service would continue to be offered on this basis, but also for the first time be offered for a fixed period of two years. Generally, subscribers to this service maintain and utilize their own earth station facilities. Multiple-access special channel service enables a subscriber to obtain varying amounts of transponder capacity. Western Union currently offers this service on the same basis as the full time transponder service noted above, and would continue to do so under the proposed revisions.

3. The proposed revisions would accomplish the following: (1) a restructuring of service categories and rate elements for occasional video channel service; (2) a restructuring of service categories and rate elements for full time or whole transponder service, including reinstatement of the category of Fixed Term Transponder Service; and (3) a change in rate levels for occasional video channel service, full time transponder service, and multiple-access special channel service. We turn now to a brief description of the current tariff and the proposed changes to the rate structures and certain tariff provisions under occasional video channel service and full time transponder service.

Occasional Video Channel Service

4. The current tariff contains two principal categories of occasional video channel service, namely, Long Term MultiSchedule and Occasional. The Long Term MultiSchedule service is further subdivided into Program Distribution Channels and Reserved Time. In each of these subcategories of service and in the Occasional category the rates for service differ on the basis of three time of day classifications: (1) Prime Time (4 p.m. to 2 a.m. Eastern Time Monday through Friday, and 2 p.m. to 2 a.m. Saturday; Sunday and certain major holidays); (2) Daytime (12 Noon to 2 p.m. Eastern Time Monday through

Friday, and 8 a.m. to 2 p.m. Saturday, Sunday, and certain major holidays); and (3) Earlybird (all other times).

5. The proposed revisions would retain the two principal categories of occasional video channel service: (1) Long Term Commitment (formerly, Long Term MultiSchedule) and (2) Occasional. The subcategories under Long Term MultiSchedule would be eliminated and the time of day rate differentiation applicable to both principal categories of service would be redefined in terms of two time periods: (1) Prime Time and (2) Earlybird. The Prime Time period would be expanded by one hour between 1 p.m. and 2 p.m. Eastern Time on Saturdays, Sundays, and certain enumerated holidays. The Earlybird period would be expanded to include the time previously designated as Daytime except for the periods of time now included in Prime Time.

6. In addition, unlike the current tariff, both principal categories of service and time of day periods would contain separate rates for each of three principal components of service: (1) transmit channels (uplinks), (2) space segment (satellite transponder), and (3) receive channels (downlinks). In turn, the transmit and receive channels would be further classified into three types: Type 1, representing charges associated with either transmit or receive channels where a customer uses a Western Union Television Operating Center, a terrestrial interconnection link, and Western Union earth station equipment; Type 2, representing charges associated with either transmit or receive channels where a customer uses only Western Union's earth station equipment; and Type 3, representing charges associated with either transmit or receive channels furnished solely by the customer.

7. The proposed Long Term Commitment service category would retain the provision of the Long Term MultiSchedule service category which requires the customer to commit to a minimum service term of three years and to an average usage charge of \$950,000 per year. Service may be terminated prior to the end of three years if certain conditions occur, or upon payment of a termination charge. At their option, present customers of Long Term MultiSchedule service may continue to take service under Long Term Commitment service. If they choose, all payments made under the former schedule would be applied toward the minimum commitment of the new schedule.

8. The proposed revisions also contain a revised cancellation charge. The current cancellation charge is \$125 per occasion when a service order is

¹ Petitions have been filed by Hughes Television Network, Inc. (HTN); Robert Wold Company, Inc. (Wold); Public Service Satellite Consortium (PSSC); Independent Television News Association (ITNA); Association of Independent Television Stations (INTV); and the three television networks, ABC, CBS, and NBC (TV Networks).

In response to a request by the Commission staff, Western Union supplemented its initial filing with additional cost support material pursuant to Section 61.38 of our Rules, 47 CFR § 61.38. Comments on the additional information have been filed by all petitioners except the TV Networks.

cancelled in whole or in part. The cancellation charge does not apply, however, to service scheduled on less than 30 days notice and cancelled prior to 2 hours in advance of the scheduled start of service. Under the revised cancellation provision, cancellation charges would be assessed for cancellation of all scheduled service hours within 30 days of the scheduled use, regardless of when ordered. The cancellation charge would be the charge applicable to the scheduled service, except for Type 3 channels, up to a maximum of two hours.

Full Time or Whole Transponder Service

9. With respect to full time or whole transponder services, the category of Fixed Term Transponder service would be reinstated under the proposed revisions. In addition, the types of whole transponder services available under both the Fixed Term Transponder and Month to Month categories would be expanded to include Protected, Unprotected, and Unprotected-Interruptible service. The reinstated Fixed Term Transponder category requires the customer to commit to a minimum initial service period of at least two years. Also, a customer taking Fixed Term Transponder service for use in connection with video and audio broadcasting may take additional video service under the Long Term Commitment schedule provided he meets the minimum service period and minimum payment requirements associated with the latter service. Payments for Fixed Term Transponder service would be counted in determining the minimum payments.

Related Matters

10. We initially note here that an investigation into certain issues raised with respect to the predecessor to the present tariff filing, Transmittal No. 7314, was ordered by the Commission in a *Memorandum Opinion and Order*, 67 FCC 2d 96 (1977). The specific issues for investigation were designated to be heard in Docket No. 78-99, *Western Union Telegraph Company*, 68 FCC 2d 889 (1978). However, this proceeding, as well as other similar investigations involving the tariffs of RCA American Communications, Inc., and American Satellite Corporation, were later held in abeyance by the Commission pending the institution of a broad rulemaking proceeding which would consider basic principles for the regulation of competitive offerings and would be likely to resolve many of the issues raised by recent tariff filings. See, *RCA American Communications, Inc.*, 69 FCC

2d 426 (1978). Since then, by notice of inquiry and proposed rulemaking we have instituted such a proceeding. See, *Policy and Rules Concerning Rates for Competitive Common Carrier Services and Facilities Authorizations Therefor* (hereafter *Competitive Carrier Rulemaking*), FCC 79-599, released November 2, 1979. There, we have indicated our intent to terminate or settle pending dockets on the basis of the policies and rules adopted in this proceeding to the extent possible. *Competitive Carrier Rulemaking, supra*, paras. 94-96. Further, we have ordered active parties in these dockets to inform us as to their intentions in this regard.

II. Petitioners' Contentions for Rejection

11. Initially, several petitioners argued that the explanatory and economic material originally submitted by Western Union in support of the tariff filing failed to comply with the requirements of Section 61.38 of the Commission's Rules, 47 CFR 61.38. Specifically, HTN, Wold, INTA and INTV alleged that Western Union's support material failed to provide a breakdown of aggregate cost information for occasional video channel and full time transponder service. Additionally, they were critical of the support material underlying the initial cost allocations and projections on which the rate levels were based. HTN complained of a vague description of Western Union's computerized Westar Cost Model, while Wold criticized the lack of allocation factors associated with distributing costs among the various satellite services. Petitioners further faulted Western Union for not providing adequate cost justification for Type 3 uplink and downlink charges for customer owned and maintained earth stations and for the revised cancellation charges. Finally, Wold argued that Western Union's 61.38 data appeared to have been superseded as a result of an announced transaction by Western Union with American Satellite Corporation, Fairchild Industries, Inc., and Continental Telephone Company (ASC/Fairchild/Continental), involving the sale of a 20 percent interest in the Westar satellite system.

12. Western Union's supplemental support material addresses many of these concerns. It contains, among other things, the following: (1) updated base year data for January through September 1979 with projections for the remaining months of 1979; (2) separate cost information for occasional video channel and full time transponder service and cost justification rationale for the major rate classifications for these services; (3) supplemental

information with respect to Western Union's Westar Cost Model, which includes the actual computer programs and an explanation of the fixed and variable factors employed by the computer programs; (4) the satellite transponder fill factors for all satellite services and an explanation of the methodology utilized in allocating costs among the various categories of service based on these factors; (5) a breakdown of traffic and revenue data with an explanation of the methodology utilized in performing these projections; (6) the activities and cost factors associated with Type 3 uplink and downlink charges; and (7) the factors considered by Western Union when revising its cancellation charge provision.

13. Wold and ITNA now essentially agree that the information provided by Western Union is substantially responsive and basically addresses their concerns with respect to Section 61.38 compliance. However, HTN still maintains that Western Union has not provided quantitative costs associated with the cancellation of a video program as requested by Commission staff. PSSC also finds that Western Union has failed to comply with the staff's request to provide quantitative costs associated with Type 3 uplink and downlink charges. Finally, INTV questions whether the cost support material even now takes into account the proposed sale to Western Union of a 20 percent interest in the Westar Satellite System to ASC/Fairchild/Continental. Specifically, INTV argues that contrary to prior statements, the supplementary material shows that the transponders leased to ASC are expected to decline from four in 1980 to two in 1981 to none in 1982. Stated differently, it believes ASC's present leasing of Westar transponders will be converted to a 20 percent ownership interest by 1982. In view of this prospective ownership interest by ASC, INTV asserts that Western Union's cost material cannot show corresponding adjustments to investment and expenses assigned to occasional video channel service.

14. Wold additionally continues to press for rejection on the theory that Western Union's filing is in violation of its own tariff provisions which since 1977 has offered Long Term MultiSchedule service for a minimum period of three years. Wold asserts it has assumed substantial risk by having to guarantee annual payments averaging \$950,000 over the three year term of the commitment, and accordingly, Western Union should not be allowed to impose higher rates over the balance of the minimum three year commitment period.

HTN, for its part asserts that the cancellation charge provision for occasional video channel service is unlawful on its face because the charges, which are unrelated to costs, amount to the imposition of a penalty on the cancelling customer.

Discussion

15. Section 61.38 of our Rules requires a carrier to submit with its tariff filing certain support material and economic data to assist our threshold evaluation of the lawfulness of a tariff filing pursuant to our statutory responsibilities under Section 201(b) and 202(a) of the Communications Act, 47 USC § 201(b), 202(a). After careful review, we find the material submitted by Western Union in support of its proposed revisions on the whole accomplishes this purpose. Simply put, we find Western Union has provided substantial-economic data which addresses all the major changes in rate levels and rate structure for the proposed service offerings.

16. Petitioners themselves really do not assert otherwise. Thus, they generally admit that a major number of their initial concerns over compliance with Section 61.38 have been amply satisfied by Western Union's supplemental support material. What few bones of contention remain concern alleged inadequacies in the support material associated with the Type 3 uplink and downlink charges, the cancellation provision and, Western Union's failure to take into account the financial implications of its proposed transaction with ASC/Fairchild/Continental. For reasons we now turn to, we cannot agree that rejection is warranted on the asserted bases.

17. With regard to the Type 3 uplink and downlink charges for customer owned and maintained earth stations, Western Union has provided a description of the administrative activities and cost factors involved, some overall cost figures relating to all types of uplinks and downlinks, and a general explanation of the ratemaking methodology employed in arriving at the Type 3 uplink and downlink charges. While we recognize that Western Union might have undertaken to furnish more information in greater detail, we nevertheless find that the support material just described satisfies Section 61.38—that is, it is sufficient to enable us to make a threshold judgment as to the lawfulness of the Type 3 uplink and downlink charges. (See, also paragraph 30, *infra*.)

18. Similarly, we do not view Western Union's failure to submit specific costs underlying its cancellation provision as a ground for rejection of the tariff filing.

Although costs are incurred for which Western Union should be reimbursed when scheduled program hours are cancelled, we appreciate the difficulty that may be involved in precisely quantifying these costs for purposes of ratemaking. At the same time, we recognize that this provision is intended to deter irresponsible scheduling and cancelling of program hours by occasional video channel users which can result in lost revenues to the carrier. In view of these factors, we accept Western Union's explanatory justification for purposes of Section 61.38 compliance.²

19. Finally, we see no merit in the allegations regarding the treatment of the proposed ASC/Fairchild/Continental transaction and the effect it might have on the adequacy of Western Union's Section 61.38 support material. As pointed out in Western Union's response, ASC is currently operating under a leasing arrangement pursuant to F.C.C. Tariff No. 264 which by its terms terminates in June, 1981. Under these circumstances, it appears reasonable for Western Union to reflect the continuation and projected termination of this arrangement in its tariff support material. We therefore shall not reject this filing for Western Union's admitted failure to take into account in its projections a corporate transaction which was not finally agreed upon at the time of the initial submission and, furthermore, is still subject to certain contingencies.

20. Wold's additional argument that the proposed revisions patently violate the current tariff rests on an assumption that Western Union has previously waived its statutory right to initiate tariff changes. In our view, however, Wold misinterprets the three-year commitment provision under which it subscribed to Long Term MultiSchedule service in 1977. The current tariff clearly indicates that Western Union intended to retain its right to increase rates or change the terms and conditions of this service offering during a customer's three-year commitment period. Thus, as Wold itself seems to recognize, the current tariff contemplates customer termination without liability during the commitment period in the event of a rate increase. Viewed as a whole, we construe the service commitment as unilaterally imposed by Western Union, in return for which it offers a lower rate to the long term customer. In other words Western Union has not bound itself to refrain from raising its rates for the full three year period. Accordingly,

² See also para. 31 below, in which we discuss the probable lawfulness of the charge.

we find no basis to reject the proposed revisions.³

III. Parties' Contentions Concerning Suspension and Investigation

21. Several petitioners complain that the rate increases for comparable Western Union service are so large on their face they raise a serious question regarding their reasonableness.⁴ They view Western Union's decision to propose these huge increases as *prima facie* evidence that Westar customers are "captive" in the sense that there is no reasonable alternative source of supply and, therefore, that competition is not truly effective in the satellite video marketplace. Thus, petitioners claim rate increases of this magnitude could have severe repercussions for television stations which are dependent upon the program offerings of INTV, ITNA, Wold, and HTN, and could stifle the efforts of these independent programmers to compete with the major television networks and their affiliated stations.

22. Petitioners additionally argue that the rates of return projected for video channel and full time transponder services are unreasonably high in relation to Western Union's earnings on its other satellite operations and communications activities. In their view this indicates improper cross-subsidization and unlawful discrimination. For example, ITNA sees no justification for return levels which are considerably above the forecasted rates of return for the company as a whole during the years 1981 and 1982. Wold, for its part, objects to video channel and transponder rates which by 1982 would collectively yield a pre-tax return on investment of 20 percent or more in the face of the negative return anticipated for "other Westar offerings." According to this petitioner, it would be required to subsidize American Satellite Corp., PBS, and other satellite customers. Wold also questions the lawfulness of the rate increases, noting that the percentage increase in Long Term Commitment rate levels is substantially higher than the percentage increase in Occasional service rate levels. INTV, on the other hand, regards Long Term Commitment and Fixed Term

³ Petitioners' remaining arguments for rejection—that the projected rates of return are unlawfully high and that the cancellation charge is an unlawful penalty—go more to the issue of reasonableness. Therefore, we consider these contentions in our discussion of suspension and investigation below. See paras. 24-31, *infra*.

⁴ ITNA and HTN estimate that their costs for video distribution will increase by more than 100 percent; while Wold predicts it will experience a 70-81 percent increase in charges for Westar service.

Transponder services as "like" within the meaning of Section 202(a) of the Act, and the differential between the minimum dollar commitment amounts required of customers taking these services as unreasonably discriminatory. In addition, ITNA views the disparity in the projected rates of return for occasional video channel and full time transponder services as unduly preferential of transponder customers.

23. Petitioners next maintain that the proposed charges for customer provided Type 3 uplinks and downlinks cannot be justified on either a cost or policy basis. They take issue with Western Union's claim that the administrative costs it incurs when a customer uses its own earth stations justifies these charges. Wold additionally asserts that it is impossible to ascertain from Western Union's support material whether the Type 3 uplink and downlink charges unlawfully discriminate against customers who supply their own facilities. PSSC notes in this regard that Western Union would apply the proposed Type 3 rates even in instances where Western Union incurred none of the variable administrative costs it described. HTN, INTV and the TV Networks are critical of the fact that Type 3 downlink rates would decline as the number of customer-owned earth stations increased. They maintain that Western Union does not incur additional administrative costs each time a customer uses one of its earth stations, nor could it incur costs in direct proportion to the number of earth stations a customer operates. Finally, petitioners ask for investigation of the revised cancellation charge which would apply to users of occasional video channel service. The TV Networks contend that this provision is not related to costs since the cancelling customer would be charged even if the carrier finds a substitute customer.

Discussion

24. As noted, the Docket No. 78-99 investigation into prior Western tariff revisions has been held in abeyance pending the development of general policies to resolve recurring controversies as to permissible rate structures, rate levels, service features, etc. in this and other markets. One of our major efforts in the *Competitive Carrier Rulemaking, supra*, will be to assess the degree to which competition presently exists and is likely to exist in the future in the domestic common carrier communications satellite industry. On the basis of our analysis there, we shall determine to what extent market forces are and will be, sufficient to ensure just, reasonable, and not

unduly discriminatory rates and practices on the part of the satellite carriers. We thus hope to arrive at a much better sense of where to apply our limited regulatory resources to achieve an overall public interest result. It is in this context that we consider the petitioners' contentions.

25. Despite some present uncertainty as to these broader issues, we can nevertheless make the required judgments concerning the lawfulness of the proposed revisions. As explained below, we believe certain aspects of the filing warrant investigation, and for this reason, are incorporating the instant revisions for consideration in Docket No. 78-99. On the whole, however, the proposed charges in video channel service rate levels and rate structure do not appear to require investigation.

26. Initially, we disagree that the sheer size of the rate increases in various service categories creates a presumption of unlawfulness, as petitioners claim. In the first place, petitioners' figures assume they will continue to purchase the same class of service as before. We do not know this to be the case. Indeed, to the contrary, it strikes us that there may be better economic choices under the significantly restructured tariff, including the possibility of purchasing service from full time transponder users. Furthermore, we are cognizant that the domestic satellite industry is still in an early stage of development, and until just recently, has been plagued by a lack of sufficient demand to cover the high fixed costs of operation. These market conditions have apparently begun to change with the expansion of uses for satellites, particularly in the area of television program distribution. Thus, for the first time Western Union may be in a position to earn a fair return on its satellite video services. In this connection, Western Union understandably points out that its video channel program transmission services have not been earning a positive rate of return. It would be a significant disincentive to the use of satellite technology if we were to evaluate rates of return at any discrete moment in time without recognizing the historical pattern of development of the market and the attendant risks. We do not desire to foreclose firms in this position from making substantial investments to serve new markets. We believe a longer run perspective comports with the nature of the market and services in issue.⁵

⁵The Commission recognized in Its Second Report and Order in Docket 16495, 35 FCC 2d 844 (1972), recon., 38 FCC 2d 665 (1972), that substantial risk existed for firms attempting to enter the domestic

27. We similarly are not persuaded that the differences among the projected rates of return found in Western Union's support material draw into question the lawfulness of the revisions.⁶ Petitioners' allegations of unlawful cross-subsidization and discrimination are based on a comparison between the various rates of return for occasional, full time, other satellite offerings, and the company as a whole. Significantly, we have never required Western Union to design its rates so that each service category yields the same rate of return or a return equal to that realized by the company overall. Standing alone, the fact that these rates of return may vary does not signify that unlawful cross-subsidization is present or that the rates charged users of the more profitable services are unreasonably high.

Petitioners, by their allegations of improper cross-subsidization, impliedly assume that a rate can be established at just and reasonable levels and still be generating sufficient excess revenues to subsidize the (unreasonable) shortfall of another service. We disagree with this interpretation. Furthermore, pricing practices which take into account differentials in demand and other market conditions may be perfectly acceptable in a given situation.

28. Looking at the specific pre-tax rates of return projected for the occasional and full time classes of service, we find little indication that the revised rates will be too high. Although Western Union shows a 1982 pre-tax rate of return for occasional video channel services of 31 percent, we are reluctant to investigate the revisions solely on the basis of a third-year forecast which is subject to many variables and unknowns relating to a potentially evolving program distribution market. As for the near-term projections, we do not believe that pre-tax returns on this service of the magnitude indicated here raise questions of lawfulness, particularly since Western Union has operated both its video channel and other satellite service offerings at a loss since their inception.

29. We address now Wold's claim that since service offered under both the Long Term Commitment and Occasional schedules is functionally the same, Western Union unlawfully discriminates

satellite market, both as a result of unproven customer demand and the existence of AT&T's terrestrial network.

⁶For the years 1980, 1981, and 1982 Western Union shows the following pre-tax rates of return for occasional video channel services: 4.6 percent, 19.5 percent, and 31.0 percent. Full time transponder services are expected to yield 22.4 percent, 18.2 percent, and 17.1 percent respectively.

against customers in the former category by subjecting them to a larger percentage increase than Occasional customers. We find this argument to be without merit. Both types of customers are obtaining the same occasional video channel service. However, the willingness of the Long Term Commitment customer to agree to a fixed annual minimum dollar commitment over a three year period, regardless of the amount of service actually purchased, entitles this user to obtain occasional video channel service at a rate lower than that charged an Occasional customer who makes no such commitment. In this regard, we recognize that in the latter case there is a far greater risk or uncertainty as to the continuing use of in-place facilities. Since this far greater risk is a legitimate cost to the carrier which may be reflected in its prices, the existence of a differential between these two categories, standing alone, is not unreasonable. We also note that the proposed tariff revisions would actually reduce the rate disparity between the Long Term Commitment and Occasional services. We plan, however, to consider the use of service commitment provisions by satellite carriers as a general matter in the *Competitive Carrier Rulemaking, supra*. We reject INTV's related claim of discrimination between Long Term Commitment and Fixed Term Transponder Services for the same reason, namely, that differences exist in the nature of these offerings. For example, Fixed Term Transponder service entails the leasing of an individual transponder on a full time basis (24 hours per day, 7 days a week) while Long Term Commitment service permits a customer to purchase, as needed, service on an hourly basis from a group of transponders. Therefore, Long Term Commitment users have greater flexibility to simultaneously transmit different video programs at a preferred time. Thus, we cannot say that the annual dollar guarantees for Long Term Commitment and Fixed Term Transponder services necessarily must be the same.⁷

⁷ Several petitioners imply that meaningful comparisons can be drawn between the rate relationships under the current revisions and the rate relationships under American Telephone and Telegraph Company's (AT&T) latest rate structure proposal for its Series 7000 video transmission service. See, *AT&T Series 7000 Rejection*, 67 F.C.C. 2d 1134 (1978), *recon.* 70 F.C.C. 2d 2031 (1979), *appeal docketed*, No. 79-1261, D.C. Cir., March 9, 1979. There, among other things, we rejected AT&T's revisions on the ground that the carrier had provided no colorable justification for rate differentials between part-time and full-time services as required by a prior order. 67 F.C.C. 2d at 1135. In that filing, AT&T had assumed at the outset that its part-time and full-time video services were

30. We are, however, concerned that the Type 3 uplink and downlink charges may be unlawful insofar as they apply to customer owned earth stations. Although Western Union may legitimately incur some administrative costs when a customer provides its own transmit or receive facilities; we are not convinced that these costs are sufficiently great to justify those charges, or that charges of this nature can be justified under any other theory of ratemaking. Similarly, we question whether Western Union has employed a proper ratemaking methodology in devising the Type 3 downlink rate structure whereby the rate for each downlink declines in steps as the number of downlinks increase. We, therefore, intend to explore this matter further in Docket No. 78-99.

31. Petitioners' remaining dispute lies with the two-hour cancellation charge applicable to occasional video channel service. While we readily acknowledge that some form of cancellation provision may be reasonable, we question whether the specific cancellation charge proposed by Western Union is unlawfully high or overbroad in its application. As we read the proposal, a customer apparently would be liable for the full charge irrespective of Western Union's reselling the cancelled service hours to another customer. HTN's conclusion that the cancellation provision amounts to an unlawful penalty rests on its belief that this charge far exceeds any legitimate costs associated with customer cancellation and that a carrier should not be permitted to engage in this degree of averaging of its costs among customers. This is in essence a reasonableness argument, which requires further examination. At this juncture, we are unwilling to characterize the cancellation charge as a penalty. We have stated earlier our belief that it would be extremely difficult for a carrier to justify this type of provision through a showing of precise costs.⁸ Rather, we

different and therefore designed two separate facilities networks to provide them. Implicit in our refusal to accept AT&T's use of dedicated networks in the Series 7000 filing as a valid basis for differentiating part-time and full-time rates was the requirement that AT&T composite facilities used for television service, as it does with other services. See, e.g., 67 FCC 2d F at 1173. Here, on the other hand, Western Union relies on a common facility plant, i.e. a base of costs common to both services. Under these circumstances any differentiation of costs and rates as between part-time and full-time services can then be justified on the basis of actual differences in attributes of the two sets of market requirements.

⁸ We have, as a matter of course, allowed carriers reasonable latitude in distributing costs as between recurring and non-recurring charges, the latter including installation, relocation, and termination

intend to pass on the reasonableness of Western Union's cancellation provision through a liberal balancing of the cost factors, revenue losses, and other considerations supporting such a charge, as well as by examining alternative means of accomplishing the carrier's stated objective of deterring irresponsible scheduling and cancellation.

32. To sum up, then, although we find that Western Union's proposed charges for service cancellation and customer-provided earth stations raise questions of lawfulness and will be investigated, the revisions overall do not in our opinion require suspension or the imposition of an accounting order. Since the objectionable provisions appear to represent a minor portion of the charges for occasional video channel service, we see no need to forestall the impact of these revisions upon customers or require the carrier to maintain detailed accounts to facilitate a possible refund.

33. In turn, as indicated, Docket No. 78-99 will be enlarged to encompass these revisions, primarily for the purpose of resolving the specific questions we have raised. We do not foreclose the possibility, however, of delving into other features of these revisions in Docket No. 78-99, should subsequent events and our ongoing analysis convince us that investigation is required.

34. Accordingly, IT IS ORDERED, that the petitions for rejection of Western Union's revised Tariff F.C.C. No. 261, ARE DENIED.

35. IT IS FURTHER ORDERED, that the petitions for suspension and investigation of Western Union's revised Tariff F.C.C. No. 261 ARE GRANTED to the extent indicated and otherwise, ARE DENIED.

36. IT IS FURTHER ORDERED that Docket No. 78-99 is enlarged to include Western Union Transmittal Nos. 7546 and 7549.

[Report A-9]

TV Broadcast Application Accepted for Filing and Notification of Cut-Off Date

Released: May 1, 1980.

charges associated with general tariff offerings. For example, in the private line channel service area, the longstanding telephone company practice has been to require payment for a minimum of one month's service.

Cut-Off Date: June 18, 1980.

Notice is hereby given that the applications listed in the attached appendix are accepted for filing. They will be considered to be ready and available for processing after June 18, 1980. An application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on June 18, 1980 which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C. no later than June 18, 1980.

Petitions to deny any application on this list must be on file with the Commission no later than the close of business on June 18, 1980.

Federal Communications Commission.

BILLING CODE 6712-01-M

[FCC 80-215; BC Docket No. 80-165, File No. BPCT-5088; BC Docket No. 80-166, File No. BPCT-5158]

Astro Enterprises, Inc. and Good Life Broadcasting, Inc.; Applications for Construction Permit for a New Television Broadcast Station; Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

Adopted: April 15, 1980.

Released: April 30, 1980.

By the Commission:

1. The Commission has before it the above-captioned applications of Astro Enterprises, Inc. (Astro) and Good Life Broadcasting, Inc. (Life) for authority to construct a new commercial television broadcast station on channel 52, Cocoa, Florida. These applications are mutually exclusive in that operation of both stations, as proposed, would result in mutually destructive interference.

2. The predicted Grade A contour of Astro's proposed television station completely encompasses the community of license of Astro's AM station, WWBC. Section 73.636(a)(1) of the rules, 47 CFR 73.636(a)(1) (the "one-to-a-market" rule), sets forth a policy against granting television construction permits to applicants who directly or indirectly own, operate or control a radio station licensed to a community which is completely encompassed by the predicted Grade A contour of their proposed television station. Note 8 to this rule provides, *inter alia*, that applications for UHF television facilities "... will be handled on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest." Accordingly, an appropriate issue will be specified to determine whether common ownership of Astro's AM station and its proposed television station would be consistent with the public interest.

3. Astro's application indicates that it will require \$215,531 to construct its proposed station and an additional \$75,137 to operate the station for three months. To meet these costs, applicant relies upon the following:

Existing capital	\$5,000
Net Meritt Square Bank loan (assuming a 14% prime rate)	222,720
Net deferred credit from equipment supplier	143,240
Sale of broadcast time	672,060
Program production contracts	198,000
Total	1,241,020

4. The Meritt Square Bank loan requires a first lien on all fixed assets of the applicant. However, Astro's letter from its equipment supplier, RCA, does not indicate whether net deferred credit will be available to Astro on terms which will allow the Bank to have a first lien on applicant's broadcasting equipment. Further, Astro's reliance on revenues from the sale of broadcasting time and production services to demonstrate its financial qualifications is misplaced. The present television financial standard requires applicants to demonstrate an ability to construct and operate a proposed station for three months without operating revenues. Since Astro has shown \$148,240 available to meet construction and operating costs totaling \$290,668, an

appropriate financial issue will be specified.

5. Further, a number of defects are contained in the documentation of Astro's ascertainment efforts. There is no demographic data showing the minority, racial or ethnic composition of Cocoa. It is unclear whether community leader interviews were conducted in person or over the telephone. Also, it appears that none of Cocoa's highest ranking elected officials were contacted, e.g., mayor, city council members, etc. Accordingly, an appropriate issue will be specified inquiring into Astro's compliance with the *Primer on Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650 (1971).

6. Finally, review of Astro's engineering showing reveals the following deficiencies: (a) the antenna height above average terrain listed in response to Questions 2 and 14, Section V-C of applicant's FCC Form 301 is incorrect; (b) the vertical plan sketch for the proposed antenna structure required by Question 7(a) of Section V-C is incorrect; and (c) the antenna data submitted pursuant to Question 7(b) of Section V-C indicates that an antenna without electrical beam tilt will be used; however, the antenna vertical pattern submitted is for an antenna with one-quarter degree beam tilt. Thus, an appropriate issue will be specified to determine the height above average terrain of applicant's proposed transmitting antenna and the correct area within the predicted Grade A and Grade B contours of the proposed station.

7. Except as indicated in the issues specified below, we find Astro and Life legally, financially, technically and otherwise qualified to operate as proposed. Since these applications are mutually exclusive, we are unable to make the statutory finding that their grant would serve the public interest, convenience and necessity. These applications must therefore be designated for hearing in a consolidated proceeding on the issues set out below.

8. Accordingly, IT IS ORDERED, That pursuant to Section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of Astro Enterprises, Inc. and Good Life Broadcasting, Inc. are designated for hearing in a consolidated proceeding to be held before an administrative law judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether common ownership, operation or control of Station WWBC and Astro Enterprises, Inc.'s

proposed television station would be in the public interest.

2. To determine whether Astro Enterprises, Inc. has reasonable assurance of the availability of a \$222,720 loan from the Meritt Square Bank and, if not, the effect thereof on applicant's financial qualifications.

3. To determine the efforts made by Astro Enterprises, Inc. to ascertain the community needs and problems of the area to be served by its proposed station, the means by which applicant proposes to meet these needs and problems, and the effect thereof on applicant's basic and/or comparative qualifications.

4. To determine the correct antenna height above average terrain and the correct areas within the predicted Grade A and Grade B contours of Astro Enterprises, Inc.'s proposed station, and the effect thereof on applicant's technical qualifications.

5. To determine, in the event both applicants are found basically qualified to be Commission licensees, which of the proposals would, on a comparative basis, better serve the public interest.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

9. It is further ordered, that to avail themselves of the opportunity to be heard, the applicants herein, pursuant to Section 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

10. It is further ordered, that the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

Secretary.

[FR Doc. 80-13756 Filed 5-5-80; 8:45 a.m.]

BILLING CODE 6712-01-M

[FCC-80-216; BC Docket No. 80-167, File No. BPCT-5223; BC Docket No. 80-168, File No. BPCT-781010KG]

Troy Raymond Moran and Robert M. Voelker; Application for Construction Permits; Order Designating Applications for Consolidated Hearing on Stated Issues

Adopted: April 15, 1980.

Released: May 1, 1980.

By the Commission.

1. The Commission has before it the above-captioned mutually exclusive

applications of Troy Raymond Moran (Moran) and Robert M. Voelker (Voelker) for a new commercial television station to operate on Channel 34, Lubbock, Texas.

2. Lubbock is the community of license of KTEZ-FM, which is licensed to Southwest Record Suppliers, Ltd. (Southwest), of which Moran is 100% owner, President, and Director.¹ Section 73.636(a)(1) of the Commission's Rules (47 CFR 73.636(a)(1)) sets out a policy against granting a television construction permit to an applicant, such as Moran, who directly or indirectly owns, operates, or controls an FM radio station licensed to the same community as his proposed television station. However, because Moran filed his application before September 13, 1979, it is subject to Note 8 of the Rule, which provides that applications for UHF television facilities "will be handled on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest." *Notice of Proposed Rule Making in BC Docket 79-233*, 44 FR 55603 (1979). Accordingly, an appropriate issue will be designated to determine whether common ownership of KTEZ-FM and the proposed television station would be consistent with the public interest.

3. Moran proposes to lease broadcast equipment for \$2,945 per month from Western Commercial Leasing, Inc. (Western). Western is equally owned by Moran and Herb Marchman and has been "set up" to lease equipment to entities owned by them; however, it does not appear that Western has any communications equipment available to rent. Accordingly, an issue with respect to the availability of equipment will be specified.

4. Because Moran has failed to submit a copy of his lease agreement with Western, the cost of leasing the equipment cannot be established, as required by Question 1(b), Section III of the application. Accordingly, an appropriate financial issue will be specified.

5. Further analysis of the financial data submitted by Moran indicates that, in addition to equipment costs, approximately \$150,000 will be required to construct and operate his proposed

station for three months, itemized as follows:²

Satellite earth station	\$16,000
Other	28,500
Operating costs (three months)	105,405
Total	149,905

To meet these expenses, Moran intends to rely on personal funds and profits and receivables from his other operations. The applicant's most recent personal financial statement indicates the availability of \$114,499 in liquid assets (cash and cash value of a life insurance policy), but it also indicates \$313,660 in liabilities (mortgages, encumbrances, notes and personal bills). Because Moran has not differentiated between current and long-term liabilities, all liabilities will be considered current and payable during the next year. Absent a more complete balance sheet, we cannot determine that Moran has liquid assets in excess of current liabilities to provide any capital for the proposed station.³ Finally, Moran intends to use \$50,000 in profits from his existing operations to meet his proposed expenses, but he has not demonstrated whether the stations have shown a profit and, if so, to what extent the profits are available. Because we cannot determine the availability of any money to Moran for the purpose of constructing the station, appropriate financial issues will be specified.

6. Moran proposes some Spanish language programming, but a specialized programming issue is not warranted, since the applicant has not demonstrated that Spanish language programming is not available in substantial amount on other Lubbock stations. *George E. Comeran, Jr. Communications*, 71 FCC 2d 460 (1979).

7. Section 73.613 of the Commission's Rules requires that the main studio of a television station be located within the city of license, but that on a showing of good cause, the main studio may be located outside that community. Moran proposes to locate his main studio adjacent to his transmitter site at University Avenue and 100th Street, approximately one-quarter of a mile south of Lubbock; however, the applicant has failed to provide the required good cause showing. As a result, a studio location issue will be specified.

8. Voelker estimates that approximately \$76,000 will be required to construct and operate the station for three months:

² Moran has already purchased the tower, antenna, land, studio and transmitter building.

³ We note that Moran claims to have established a line of credit with the Plains National Bank in Lubbock, but no bank letter has been submitted.

¹ Moran is also 30% owner and Vice President of Burroughs Broadcasting Company (Burroughs), licensee of KRZY and KRST-FM, Albuquerque, New Mexico; 100% owner, President, and Director of KRSY, Inc., licensee of KRSY, Roswell, New Mexico; and 100% owner, President and Director of KRIZ, Inc., licensee of KRIZ-FM, also of Roswell.

Equipment rental:	
Downpayment.....	\$9,032
Three months.....	\$9,032
Antenna site rental (three months).....	\$750

Voelker agreed to an option to rent space atop the Metro Tower Building in Lubbock for the purpose of erecting an antenna. The rent would be \$500 per month, half in cash and half in advertising time on the proposed station; however, the option expired on June 12, 1979. The applicant has not indicated the renewal of the option, so we are unable to accurately determine the applicant's present cost of renting an antenna site, and an appropriate financial issue will be specified.

Building remodeling.....	\$2,800
Other.....	\$6,125

Voelker proposes only \$4,000 for legal expenses, but that amount appears to be unrealistically low, since the costs of a hearing must be included. The applicant has not provided the basis for his cost estimates, and an issue will be specified to determine the basis for and the reasonableness of his estimated legal expenses.

Operating costs (three months).....	\$48,229
-------------------------------------	----------

Voelker proposes a staff of 12 full-time and three or four part-time employees. His estimated operating costs, therefore, appear to be unrealistically low, since, in addition to salaries, provision must be made for rent, utilities, programming, administrative costs, and other expenses. The applicant has not provided the basis for his cost estimates, and an issue will be specified to determine the basis for and the reasonableness of his estimated operating costs.

9. To meet his estimated costs, Voelker intends to rely on \$99,262 in existing capital (his liquid assets less \$1,000 in current liabilities) and a \$200,000 loan from the City National Bank of Plainview, Texas. Because the bank commitment letter expired on March 1, 1980, the \$200,000 may not be available, but Voelker's existing capital would be sufficient to meet the above expenses—if accurate. Because clarification of the above points could cause costs to exceed \$99,262, a limited issue as to the applicant's sufficiency of funds will be specified.

10. Because of the expiration of the option, we are unable to determine the availability of Voelker's proposed antenna site. Accordingly, a site availability issue will be specified.

11. Except as indicated by the issues specified below, the Commission finds Troy Raymond Moran and Robert M. Voelker legally, financially, technically, and otherwise qualified to operate as proposed. Since these applications are

mutually exclusive, the Commission is unable to make the statutory finding that grant of the applications will serve the public interest, convenience and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues set out below.

12. Accordingly, *it is ordered*, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether common ownership, operation, and control of station KTEZ(FM) and Moran's proposed television station would be in the public interest.

2. To determine whether broadcast equipment is available to Moran and, if not, the effect thereof on the applicant's qualifications.

3. To determine with respect to Moran's financial showing:

(a) The cost of purchasing or leasing broadcast equipment as proposed.

(b) The cost of operating the proposed station for three months without revenue.

(c) Whether Moran has liquid assets in excess of current liabilities to meet his construction and three month operation costs.

(d) Whether, in light of the evidence adduced pursuant to (a), (b), and (c) above, the applicant is financially qualified.

4. To determine whether Moran's application is in compliance with Section 73.613 of the Commission's Rules with respect to the proposed location of the main studio and, if not, whether good cause exists for the proposed location.

5. To determine whether an antenna site is available to Voelker and, if not, the effect thereof on the applicant's qualifications.

6. To determine with respect to Voelker's financial showing:

(a) The cost of purchasing or leasing an antenna site.

(b) The basis for and reasonableness of Voelker's estimated legal expenses.

(c) The cost of operating the proposed station for three months without revenue.

(d) Whether Voelker has liquid assets in excess of current liabilities to meet his construction and three month operation costs.

(e) Whether in light of the evidence adduced pursuant to (a) through (d)

above, the applicant is financially qualified.

7. To determine which of the proposals would, on a comparative basis, better serve the public interest.

8. To determine, in light of the evidence adduced pursuant to the foregoing issues which of the applications should be granted.

13. *It is further ordered*, That, in the event of a grant of the application of either Troy Raymond Moran or Robert M. Voelker, the construction permit shall contain the following conditions:

1. Type acceptance shall be obtained prior to the commencement of program tests.

2. The aural transmitter output power measurement shall be made at the diplexer output.

Further, in the event of a grant of Voelker's application the construction permit shall contain the additional condition:

In order to satisfactorily demonstrate that radiation patterns have not been changed because of the construction of the antenna structure, prior to the commencement of program tests, the permittee shall file with the Commission sufficient field intensity measurements of standard broadcast station KSEL made both before the commencement of construction and after its completion. Minimum required measurements shall include at least ten consecutive points, including the measured field intensity at the monitoring point locations for each of the radials included in the last complete proofs of performance on file with the Commission. Measurement shall be made for both directional and non-directional modes of operation.

These measurements, together with their ratios (DA/NDA) shall be submitted in tabulated form. Also, measurement data shall be certified by all parties involved before submission to the Commission. The engineer selected by the permittee to make the measurements shall be acceptable to all parties, and the permittee shall bear the cost both of making the measurements and of any corrective measures necessary to restore the patterns to the conditions in existence prior to this construction. Further, the permittee shall be responsible for maintenance and repair of any detuning circuits installed on the antenna supporting structure of the television station which are necessary to restore the radiation patterns to station KSEL.

14. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to Section 1.221(c) of the Commission's Rules, in person or by attorney, shall, within 20 days of the mailing of this

Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

15. *It is further ordered*, That the applicants herein, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and Section 73.3594 of the Commission's Rules, shall give notice of the hearing within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by Section 73.3594(g) of the Rules.

Federal Communications Commission.

William J. Tricarico,
Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-616-DR]

Louisiana; Amendment to Notice of Major Disaster Declaration

AGENCY: Federal Emergency
Management Agency.

ACTION: Notice.

SUMMARY: This Notice amends the Notice of a major disaster for the State of Louisiana (FEMA-616-DR), dated April 9, 1980, and related determinations.

DATED: April 25, 1980.

FOR FURTHER INFORMATION CONTACT:

Sewall H. E. Johnson, Disaster Response and Recovery, Federal Emergency Management Agency, Washington, DC 20472 (202) 634-7845.

NOTICE: The Notice of a major disaster for the State of Louisiana dated April 9, 1980, is hereby amended to include the following areas among those areas determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of April 9, 1980.

The following Parishes have been designated for Individual Assistance only: Iberville and Washington.

(The Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Thomas R. Casey,

Acting Associate Director, Disaster Response and Recovery, Federal Emergency Management Agency.

BILLING CODE 6718-02-M

FEDERAL MARITIME COMMISSION

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for review and approval, if required, pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10423; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, by May 16, 1980. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreement No. 10389.

Filing Party: Hopewell H. Darneille, III, Esquire, Sullivan & Beauregard, 1800 M Street, N.W., Washington, D.C. 20036.

Summary: Agreement No. 10389, between Delta Steamship Lines, Inc., Empresa Lineas Maritimas Argentinas S.A., A. Bottacchi S.A. de Navegacion C.F.I.L., is a cargo revenue pooling, sailing and equal access agreement in the southbound trade from U.S. Gulf ports to Argentine ports. The agreement provides for a division of cargo revenue between the U.S.-flag carriers and the Argentine-flag carriers on a 50-50 basis. The agreement will be effective upon approval by the respective government maritime authorities and shall remain in effect through December 31, 1983. Agreement No. 10389 is intended to replace Agreement No. 10345.

Dated: May 1, 1980.

By Order of the Federal Maritime Commission.

Francis C. Hurmey,
Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Citizens Inc.; Formation of Bank Holding Company

Citizens Incorporated, Evans City, Pennsylvania, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 percent or more of the voting shares of Citizens National Bank, Evans City, Pennsylvania. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than May 29, 1980. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, April 29, 1980.

Cathy L. Petryshyn,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

First International Bancshares, Inc.; Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares of Guaranty Bond State Bank, Tomball, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than May 29, 1980. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, April 29, 1980.

Cathy L. Petryshyn,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Mid Iowa, Inc.; Proposed Retention of Panora Insurance Agency

Mid Iowa, Inc., Panora, Iowa, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to retain Panora Insurance Agency, Panora, Iowa.

Applicant states that the proposed subsidiary would engage in the activities of general insurance agency activities in a town with a population of less than 5,000. These activities would be performed from offices of Applicant's subsidiary in Panora, Iowa, and the geographic area to be served is Panora, Iowa and surrounding trade area. Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views of requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 29, 1980.

Board of Governors of the Federal Reserve System, April 29, 1980.

Cathy L. Petryshyn,
Assistant Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

Community Service and Continuing Education—Special Projects; Closing Date for Transmittal of Applications for Fiscal Year 1980—Noncompeting Continuation Projects

Applications are invited for noncompeting continuation projects under the Community Service and Continuing Education—Special Projects Program.

Authority for this program is contained in Section 106 of Title I Higher Education Act of 1965, as amended (20 U.S.C. 1005a).

The purpose of the awards is to assist institutions in carrying out Special Programs and projects of continuing education related to technological, social, or environmental changes.

Closing Date for Transmittal of Applications: To be assured of consideration for funding, an application for a noncompeting continuation award should be mailed or hand delivered by June 23, 1980.

If the application is late, the Office of Education may lack sufficient time to review it with other noncompeting continuation applications and may decline to accept it.

Applications Delivered by Mail: An application sent by mail should be addressed to the U.S. Office of Education, Application Control Center, Attention: 13.557, Washington, D.C. 20202.

An applicant should show proof of mailing consisting of one of the following:

- (1) A legibly dated U.S. Postal Service postmark.
- (2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.
- (3) A dated shipping label, invoice, or receipt from a commercial carrier.
- (4) Any other evidence acceptable to the U.S. Commissioner of Education.

If an application is sent through the U.S. Postal Service, the Commissioner does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail.

Applications Delivered by Hand: An application that is hand delivered should be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C. 20202.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays and Federal holidays.

Available Funds: The President has proposed budget rescissions to the Congress that may eliminate funds for this program. If the Congress approves the proposed rescissions, a notice to the public will be published in the **Federal Register**, stating that the rescissions have been approved. However, the deadline established in this notice will not be extended, and applicants should prepare and submit applications pending further notification.

Applications must be submitted to the Application Control Center at the address included in this notice.

Application Forms: Application forms and program information packages are expected to be ready for mailing by May 21, 1980. They may be obtained by writing to the Community Service and Continuing Education Branch, U.S. Office of Education (Room 3737, Regional Office Building 3), 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. The Commissioner strongly urges that applicants not submit information that is not requested.

Applicable Regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Community Service and Continuing Education Program (45 CFR Part 173); and

(b) The General Provisions Regulations for Office of Education Programs (45 CFR Parts 100 and 100a)

Note: The Final Education Division General Administrative Regulations (EDGAR) were published in the Federal Register on April 3, 1980 (45 FR 22494-22631). When EDGAR becomes effective, it will supersede the General Provisions Regulations for Office of Education Programs (the current 45 CFR Parts 100a through d).

When EDGAR becomes effective grants made under this program, will be subject to the following provisions of EDGAR: Subpart A (General); Subpart E (What Conditions Must be Met by a Grantee?); Subpart FS (What are the Administrative Responsibilities of a Grantee?); and Subpart G (What Procedures Does the Education Division Use to Get Compliance?).

Further Information: For further information contact Dr. Edwin J. Neumann, Community Service and Continuing Education Program, U.S. Office of Education (Room 3717, Regional Office Building 3), 400 Maryland Avenue, S.W., Washington, D.C. 20202, Telephone: (202) 245-9868 (20 U.S.C. 1005a).

(Catalog of Federal Domestic Assistance Number 13.557; University Community Service—Special Projects)

Dated: April 29, 1980.

William L. Smith,

U.S. Commissioner of Education.

[FR Doc. 80-13752 Filed 5-5-80; 8:45 am]

BILLING CODE 4110-02-M

Community Service and Continuing Education—Special Projects; Closing Date for Transmittal of Applications for Fiscal Year 1980—New Projects

Applications are invited for new projects under the Community Service and Continuing Education—Special Projects Program.

Authority for this program is contained in Section 106 of the Higher Education Act of 1965, as amended. (20 U.S.C. 1005a).

This program issues awards to institutions of higher education or combinations of such institutions.

The purpose of the awards is to assist institutions in carrying out special programs and projects of continuing education related to technological, social, or environmental changes.

Closing Date For Transmittal of Applications: An application for a grant must be mailed or hand delivered by July 21, 1980.

Applications Delivered by Mail: An application sent by mail must be addressed to the U.S. Office of Education, Application Control Center, Attention: 13.557, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the U.S. Commissioner of Education.

If an application is sent through the U.S. Postal Service, the Commissioner does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications Delivered by Hand: An application that is hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C., time) daily, except Saturdays, Sundays, and Federal holidays.

An application that is hand delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information: Fiscal Year 1980 Funding Priorities are:

(1) Experimentation with programs of continuing education directed to the problems of regional or national water or energy conservation, land use planning, and/or environmental pollution.

(2) Demonstrations of effective linkages between institutions of higher education and management and/or organized labor in developing innovative continuing education programs to retrain workers whose jobs have been adversely affected by technological change.

(3) Planning and demonstration of resource sharing among institutions of higher education, agencies, and organizations, that expand continuing education opportunities for particular populations who have traditionally been underserved such as women, minorities, the handicapped, older adults, and parents/families.

(4) Demonstrations of new or improved professional development programs to meet the needs of individuals working in continuing and postsecondary lifelong learning.

(5) Evaluations of selected non-traditional degree programs that meet the continuing education needs of adults particularly those that integrate liberal and experiential learning.

(6) Demonstrations of innovative State or local programs which provide effective linkages between postsecondary continuing education and State or local comprehensive manpower programs to enhance long-term employability.

More specific information regarding these priorities is contained in the regulations and the program information package.

Available Funds: The President has proposed budget rescissions to the Congress that may eliminate funds for this program. If the Congress approves the proposed rescissions, a notice to the public will be published in the Federal Register, stating that the rescissions have been approved. However, the deadline established in this notice will not be extended, and applicants should prepare and submit applications pending further notification. Applications must be submitted to the Application Control Center at the address in this notice.

Application Forms: Application forms and program information packages are expected to be ready for mailing by May 21, 1980. They may be obtained by writing to the Community Service and Continuing Education Branch, U.S. Office of Education (Room 3717, Regional Office Building 3), 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information package. The Commissioner strongly urges that the narrative portion of the application not exceed 20 pages in length. The Commissioner further urges that applicant not submit information that is not requested.

Special Procedures: Every applicant is subject to the State and areawide clearinghouse review procedures under OMB Circular A-95.

An applicant should check with its appropriate Federal regional office to obtain the name(s) and address(es) of the clearinghouse(s) in its State. OMB Circular A-95 requires the applicant to give the clearinghouse(s) up to 60 days for review, consultation, and comments on the applications.

In its application each applicant must provide—

(a) The comments of each clearinghouse that commented on the application; or

(b) A statement that the applicant used the procedures of Part I of OMB Circular A-95 but did not receive any clearinghouse comments.

Each applicant must also provide an assurance that the State agency responsible for administering the State grant portion of the Community Service and Continuing Education Program has been given the opportunity to comment on the application. This comment period may be concurrent with the A-95 review process.

Applicable Regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Community Service and Continuing Education Program (45 CFR Part 173); and

(b) The General Provisions Regulations for Office of Education Programs (45 CFR Parts 100 and 100a).

Note: The final Education Division General Administrative Regulations (EDGAR) were published in the Federal Register on April 3, 1980 (45 FR 22494-22631). When EDGAR becomes effective, it will supersede the General Provisions Regulations for Office of Education Programs (the current 45 CFR Parts 100a through d).

When EDGAR becomes effective grants made under this program, will be subject to the following provisions of EDGAR: Subpart A (General); Subpart E (What Conditions Must be Met by a Grantee?); Subpart F (What are the Administrative Responsibilities of a Grantee?); and Subpart G (What Procedures Does the Education Division Use to Get Compliance?).

Further Information: For further information contact Dr. Edwin J. Neumann, Community Service and Continuing Education Program, U.S. Office of Education (Room 3717, Regional Office Building 3), 400 Maryland Avenue, S.W., Washington, D.C. 20202, Telephone: (202) 245-9868 (20 U.S.C. 1005a).

(Catalog of Federal Domestic Assistance Number 13.557; University Community Service—Special Projects)

Dated: April 29, 1980.

William L. Smith,
U.S. Commissioner of Education.

BILLING CODE 4110-02-M

Food and Drug Administration

[Docket No. 80F-0121]

American Cyanamid Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: American Cyanamid Co. has filed a petition proposing that the food additive regulations be amended to provide for the use of 1,3,5-tris(4-tert-butyl-3-hydroxy-2,6-dimethylbenzyl)-1,3,5-triazine-2,4,6-(1H, 3H, 5H)-trione as an antioxidant in polystyrene and rubber-modified polystyrene.

FOR FURTHER INFORMATION CONTACT: Gerard L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 9B3471) has been filed by American Cyanamid Co., Wayne, NJ 07470, proposing that § 178.2010 *Antioxidants and/or stabilizers for polymers* (21 CFR 178.2010) be amended to provide for the use of 1,3,5-tris(4-tert-butyl-3-hydroxy-2,6-dimethylbenzyl)-1,3,5-triazine-2,4,6-(1H, 3H, 5H)-trione as an antioxidant in polystyrene and rubber-modified polystyrene.

The agency has determined that the proposed action falls under § 25.1(f)(1)(v) (21 CFR 25.1(f)(1)(v)) and is exempt from the requirement of an environmental impact analysis report, and that no environmental impact statement is necessary.

Dated: April 25, 1980.

Sanford A. Miller,

Director, Bureau of Foods.

Calgon Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: Calgon Corp. has filed a petition proposing that the food additive regulations be amended to provide for the use of a terpolymer of diallyldimethyl ammonium chloride, acrylamide and potassium acrylate as a retention and drainage aid in the manufacture of paper and paperboard for food-contact use.

FOR FURTHER INFORMATION CONTACT: Gerad L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 8B3400) has been filed by Calgon Corp., Calgon Center, Box 1346, Pittsburgh, PA 15230, proposing that § 176.170 *Components of paper and paperboard in contact with aqueous and fatty foods* (21 CFR 176.170) be amended to provide for the use of a terpolymer of diallyldimethyl ammonium chloride, acrylamide and potassium acrylate as a retention and drainage aid. The agency has determined that the proposed action falls under 21 CFR 25.1(f)(1)(v) and is exempt from the requirements of an environmental impact analysis report and that no environmental impact statement is necessary. The statement of exemption and the environmental assessment report may be seen in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 25, 1980.

Sanford A. Miller,
Director, Bureau of Foods.

E. I. du Pont de Nemours & Co.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: E. I. du Pont de Nemours & Co. has filed a petition proposing that the food additive regulations be amended to provide for safe use of perfluoropropylvinylether/tetra fluoroethylene copolymer in coatings or components of coatings for articles intended for food contact.

FOR FURTHER INFORMATION CONTACT: Gerad L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 9B3459) has been filed by E. I. du Pont de Nemours & Co., Wilmington, DE 19898, proposing that

Part 177 of the food additive regulations (21 CFR Part 177) be amended to provide for the safe use of perfluoropropylvinylether/tetra fluoroethylene copolymer in coatings or components of coatings for articles intended for food contact.

The agency has determined that the proposed action falls under § 25.1(f)(3) (21 CFR 25.1(f)(3)) and is exempt from the requirement of an environmental impact analysis report and that no environmental impact statement is necessary.

Dated: April 25, 1980.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

(INT DEIS 80-30)

Draft Environmental Impact Statement, Livestock Grazing Management Program, Tonopah Resource Area, Battle Mountain District, Nev.; Availability and Public Hearings

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement for the Tonopah Resource Area which encompasses about 3.6 million acres of public land in Nye County, Nevada.

The Tonopah grazing proposal involves allocation of 126,390 AUMs of available vegetation to livestock, 14,828 AUMs to wildlife, and 7,242 AUMs to wild horses. The proposal includes implementation of intensive livestock grazing management on 15 allotments, less intensive grazing management on three allotments, and continued intensive grazing management on two allotments. The proposal also includes establishing proper periods-of-use, grazing treatments, and necessary range improvements needed to implement grazing management for each allotment in the resource area.

Public hearings on the draft environmental statement will be held at the following locations:

- (1) May 29, 1980—7:30 p.m., Tonopah Convention Center, Tonopah, Nevada.
- (2) May 28, 1980—7:30 p.m., BLM District Office Conference Room, Battle Mountain, Nevada.
- (3) June 2, 1980—7:30 p.m., Pioneer Inn Conference Room(s), 221 South Virginia, Reno, Nevada.

Interested individuals, representatives of organizations, and public officials wishing to testify are requested to contact Gene Nodine, District Manager, Battle Mountain District Office in Battle Mountain, Nevada, by May 23, 1980, phone (702) 635-5181. Written requests to testify should identify the organization represented, be signed by the prospective witness, and state a phone number for contact purposes. Because of time constraints, oral testimony will be limited to 10 minutes unless additional time is requested in advance.

Oral testimony can be supplemented with written statements, at the time oral testimony is presented. Also speakers with prepared speeches may file their text with the presiding officer whether or not they have been able to finish oral delivery in the allotted time. If time permits, following oral testimony by

those who give advance notice, the hearings officer will give others an opportunity to be heard.

Written comments on the draft environmental statement will be accepted until June 30, 1980, and are being solicited from public agencies and interested citizens. Comments should be addressed to the District Manager, Battle Mountain District, Bureau of Land Management, P.O. Box 194, North 2nd and South Scott Streets, Battle Mountain, Nevada 89820.

A limited number of copies of the DEIS are available upon request to the District Manager at the above address.

Public reading copies will be available for review at the following locations:

Office of Public Affairs, Bureau of Land Management, Interior Building, 18th and C Streets N.W., Washington, D.C. 20240, telephone: (202) 343-5717.

Nevada State Office, Bureau of Land Management, P.O. Box 12000, 300 Booth Street, Reno, Nevada 89520, telephone (702) 784-5311.

Battle Mountain District Office, Bureau of Land Management, North 2nd and South Scott Streets, Battle Mountain, Nevada 89820, telephone: (702) 635-5181.

Tonopah Resource Area Office, Bureau of Land Management, Building 102, Military Circle, Tonopah, Nevada 89049, telephone: (702) 482-6214.

Carson City District Office, Bureau of Land Management, 1050 E. Williams Street, Carson City, Nevada 89701, telephone: (702) 882-1631.

Elko District Office, Bureau of Land Management, 2002 Idaho Street, Elko, Nevada 89801, telephone: (702) 738-4071.

Ely District Office, Bureau of Land Management, Star Route 5, Box 1, Ely, Nevada 89301, telephone: (702) 289-4865.

Las Vegas District Office, Bureau of Land Management, P.O. Box 5400, 4765 West Vegas Drive, Las Vegas, Nevada 89102, telephone: (702) 385-6403.

Winnemucca District Office, Bureau of Land Management, 705 East 4th Street, Winnemucca, Nevada 89445, telephone: (702) 623-3676.

Churchill Public Library, 553 South Main Street, Fallon, Nevada 89406.

Clark County Library, 1401 E. Flamingo Road, Las Vegas, Nevada 89109.

Elko County Library, Elko, Nevada 89801.

Esmeralda County Library, Goldfield, Nevada 89013.

Eureka County Library, Eureka, Nevada 89316.

Lander County Library, Battle Mountain, Nevada 89820.

Mineral County Library, 1st and D Streets, Hawthorne, Nevada 89415.

Nevada State Library, Library Building, Carson City, Nevada 89710.

Nye County Library, Tonopah, Nevada 89049.

University of Nevada, Reno, Getchell Library, Reno, Nevada 89507.

University of Nevada, Las Vegas, James R. Dickensen Library, 4505 Maryland Parkway, Las Vegas, Nevada 89154.

Washoe County Library, 301 S. Center Street, Reno, Nevada 89505.

White Pine County Library, City Hall, Ely, Nevada 89301.

Comments on the draft environmental impact statement, whether written or oral, will receive equal consideration in preparation of a final environmental impact statement.

Dated: April 29, 1980.

George D. Lea,

Acting Associate Director.

National Park Service**Finding of No Significant Impact; General Management Plan; Indiana Dunes National Lakeshore, Indiana**

The National Park Service has prepared a General Management Plan for Indiana Dunes National Lakeshore, a federally administered area situated on the Indiana shore of lake Michigan. The proposed actions which constitute the Plan were evaluated for impact on man's environment in these documents as provided in Section 102(2)(A), Pub. L. 91-190, 83 Stat. 853 (National Environmental Policy Act):

Assessment/Review of Alternatives—General Management Plan, July 1979 (See *Federal Register*, Vol. 44, No. 157, August 13, 1979, pages 47411 and 47412.)
West Unit Proposals—Assessment/Review of Alternatives, December 1979 (See *Federal Register*, Vol. 45, No. 8, January 11, 1980, page 2404.)

The General Management Plan and a limited number of the previously distributed documents, cited immediately above, are available from the Office of the Superintendent,

Indiana Dunes National Lakeshore, 1100 North Mineral Springs Road, Porter, Indiana 46304, (219) 926-7561.

The two Assessment/Reviews were made available to the public and were the subjects of a series of public meetings held at Indiana and Illinois locations during the periods of August 14-22, 1979, and January 14-18, 1980. Comments were received from the general public, conservation groups, and from Federal, State, and local agencies.

After reviewing the proposals and assessments and evaluating the records of the public meetings and the comments received following them, the National Park Service has made a Finding of No Significant Impact (40 CFR 1508.13) and will not prepare an environmental impact statement.

The General Management Plan will not be implemented for a period of thirty (30) days after the publication of this announcement.

Dated: April 16, 1980.

Randall R. Pope,

Acting Regional Director Midwest Region.

Office of the Secretary**Historic Preservation Advisory Committee; Establishment**

This notice is published in accordance with Section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463). Following consultation with the General Services Administration, notice is hereby given that the Secretary of the Interior is establishing the Historic Preservation Advisory Committee to review and comment on policies and procedures developed for and administered by the Cultural Programs, Heritage Conservation and Recreation Service.

Further information regarding the committee may be obtained from the Associate Director for Cultural Programs, Heritage Conservation and Recreation Service, Department of the Interior, Washington, D.C. 20243 or calling (202) 343-5444.

Certification

I hereby certify that the Historic Preservation Advisory Committee is in the public interest in connection with the performance of duties imposed on the Department of the Interior by the Antiquities Act of 1906 (16 U.S.C. 431, *et seq.*) the Archeological Resources Protection Act of 1979 Pub. L. 96-95, the National Historic Preservation Act of 1966 (16 U.S.C. 470, *et seq.*, as amended), the Archeological and Historic

Preservation Act of 1974 (16 U.S.C. 469, *et seq.*), Executive Order 11593, Resolutions of the Advisory Board on National Parks, Historic Sites, Buildings and Monuments, Cooperative Agreements dated July 23, 1934, and March 1962, among the American Institute of Architects, the Librarian of Congress, and the National Park Service, and a Cooperative Agreement dated December 25, 1968, among the American Society of Civil Engineers, the Librarian of Congress, and the National Park Service (these National Park Service responsibilities are now delegated to the Heritage Conservation and Recreation Service).

Dated: March 28, 1980.

Cecil D. Andrus,

Secretary of the Interior.

INTERSTATE COMMERCE COMMISSION

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC

Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

[Notice No. 27]

MC 97127 (Sub-14TA), filed December 26, 1979. Applicant: BATESVILLE TRUCK LINE, INC., P.O. Box E, Batesville, AR 72501. Representative: Don A. Smith, P.O. Box 43, 510 North Greenwood, Fort Smith, AR 72902. Transporting, over regular routes, *general commodities*, (except those of unusual value, commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and those which because of size or weight require the use of special equipment), (1) Between Clinton, AR and Mountain View, AR, serving all intermediate points: From Clinton over AR Hwy 16 to Shirley, AR, then over AR Hwy 9 to Mountain View and return over the same route; (2) Between Shirley, AR and Edgemont, AR, serving all intermediate points: From Shirley, AR over AR Hwy 16 to Edgemont and return over the same route; (3) Between Junction AR Hwy 16 and AR Hwy 330 and Fairfield Bay, AR, serving all intermediate points: from Junction AR Hwy 16 and AR Hwy 330 to Fairfield Bay, over AR Hwy 330 and return over the same route. (4) Between Springhill, AR and Harrison, AR, serving all intermediate points: From Springhill over U.S. Hwy 65 to Harrison and return over the same route; (5) Between Harrison, AR and Marshall, AR, serving all intermediate points: From Harrison over AR Hwy 7 to Junction AR Hwy 14, then over AR Hwy 14 to Junction AR Hwy 27, then over AR Hwy 27 to Marshall and return over the same route; (6) Between Harrison, AR and Viola, AR, serving all intermediate points: From Harrison over U.S. Hwy 65 to Junction U.S. Hwy 62, then over U.S. Hwy 62 to Viola and return over the same route; (7) Between Calico Rock, AR and Junction AR Hwy 201 and AR-MO state line, serving all intermediate points: From Calico Rock over AR Hwy 5 to Junction AR Hwy 201, then over AR Hwy 201 to AR-MO state line and return over the same route; (8) Between Mountain Home, AR and Norfolk, AR, serving all intermediate points: From Mountain Home over AR Hwy 201 to Norfolk and return over the same route, (9) Between termination of AR Hwy 101 at or near Rea Valley, AR and Mountain Home, serving all intermediate points: From termination of AR Hwy 101 at or near Rea Valley to Junction AR Hwy

178, then over AR Hwy 178 to Midway, AR, then over AR Hwy 5 to Mountain Home and return over the same route. (10) Between termination AR Hwy 202 at or near Oakland, AR and Junction AR Hwy 126 and U.S. Hwy 62, serving all intermediate points: From termination of AR Hwy 202 at or near Oakland, AR to Junction AR Hwy 5, then over AR Hwy 5 to Junction AR Hwy 126, then over AR Hwy 126 to its junction with U.S. Hwy 62, and return over same route. (11) Between Junction AR Hwys 126 and 178 and Mountain Home, AR, serving all intermediate points: From Junction AR Hwys 126 and 178 over AR Hwy 178 to Mountain Home, and return over the same route. (12) Between Timbo, AR and Rushing, AR, serving all intermediate points: From Timbo over AR Hwy 263 to Rushing and return over the same route. (13) Between Springhill, AR and Little Rock, AR, serving no intermediate points: From Springhill over U.S. Hwy 65 to Little Rock and return over the same route for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Applicant is supported by 42 supporting shippers. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Building, 700 West Capitol, Little Rock, AR 72201.

Republication

MC 147077 (Sub-5TA), filed August 6, 1979. Applicant: Q. T. TUGGLE, d.b.a. CALIFORNIA WESTERN, 3325 Linden Ave., Long Beach, CA 90807. Representative: Milton W. Flack, 4311 Wilshire Blvd., Suite 300, Los Angeles, CA 90010. *Contract carrier*, irregular routes; *steel pipe coated or wrapped, and welded fittings when transported in mixed loads with steel pipe, coated or wrapped*, from the facilities of M. E. Gray Co., at or near Bell Gardens, CA, Plexco, at or near Fontana, CA, and Mobile Pipe Coaters, at or near Duarte, CA, to Phoenix, Tucson, Yuma, and Sahuaritz, AZ and points within 25 miles of these cities, under a continuing contract(s) with M. E. Gray Co., of Bell Gardens, CA. Supporting shipper(s): M. E. Gray Co., 5960 W. Shull, Bell Gardens, CA. The above-described request for authority was published in the Federal Register September 17, 1979, but the point of origin of the facilities M. E. Gray Co., at Bell Gardens, CA was inadvertently omitted. By decision of April 14, 1980, the Motor Carrier Board modified its decision of December 26, 1979, so as to grant the authority in its entirety. Insofar as the authority to serve the origin point at Bell Gardens, CA is concerned, any interested party may file a petition for reconsideration within 20 days from the date of this notice is published. Send petitions for reconsideration to: The Secretary, Team 4, Room 5331, Interstate Commerce Commission, Washington, DC 20423.

MC 149306TA, filed January 31, 1979. Applicant: JOSEPH C. KACHANSKI, d.b.a. MIKE'S TRANSFER, 9229 Saddlebrook, St. Louis, MO 63126. Representative: Joseph C. Kochanski (same address as applicant). *Contract carrier*, over irregular routes, *Hardware and related items*, between points in Missouri, Illinois, Indiana, Tennessee, Kansas, Kentucky, Oklahoma, Arkansas and Iowa, for 180 days. Supporting shipper: General Mercantile & Hardware, Inc., 3965 Park Ave., St. Louis, MO 63110. Send protests to: Opal Jones, ICC, Suite 600, 411 W. 7th St., Ft. Worth, TX 76102.

[Notice No. 28]

Filed: December 12, 1979.

MC 148763 (Sub-1TA). Applicant: GRIBBLE BROS. RENTAL SERVICE, INC.; 4958 Atlanta Road, S.E., Smyrna, GA 30080. Representative: W. H. Gribble, Jr., 192 Pine Lake Drive, N.W., Atlanta, GA 30327. DEPARTMENT OF JUSTICE

Attorney General

U.S. v. Andrew Carlson & Sons, Inc., et al.

Pursuant to the Antitrust Procedures and Penalties Act 15 U.S.C. 16, the Antitrust Division of the Department of Justice received a comment on the proposed Final Judgment in *U.S. v. Andrew Carlson & Sons, Inc., et al.*, 71 Civ 341 (E.D.N.Y.). The Comment and Justice's Response thereto are set forth below.

Joseph H. Widmar,
Director of Operations, Antitrust Division.

Andrew Carlson & Sons, Inc.
Kings Park, N.Y., April 2, 1980.

Ralph T. Giordano,
Chief, New York Office, Antitrust Division of Justice, 26 Federal Plaza, New York, New York.

Dear Mr. Giordano: I am in receipt of your letter of February 14, 1980, clarifying Section V(B) (page 3) of the Proposed Final Judgment in the captioned case. I have read and understand the contents of your letter. On the basis of the explanation set forth therein of

Section V(B) of the Proposed Final Judgment, please be advised that Andrew Carlson & Sons, Inc., withdraws the objections to the entry of the Proposed Final Judgment which it raised in its letter to your office dated November 19, 1979, and does hereby consent to the entry of the Proposed Final Judgment.

Very truly yours,
Hank Carlson,
President.

February 14, 1980.

Mr. Hank Carlson,
President, Andrew Carlson & Sons, Inc.,
Town Line & Old Northport Roads, Kings Park, New York 11754.

Dear Mr. Carlson: In response to your letter of November 19, 1979, to Mr. Ralph Giordano, Chief of the New York Office of the Antitrust Division, United States Department of Justice, please be advised that Section V(B) (page 3) of the Proposed Final Judgment does not apply to any pricing information which you may receive in the regular course of business from a *bona fide* customer or potential customer (not a competitor), provided such information is not received pursuant to any plan or attempt to fix or stabilize the price of precast concrete products.

Please also be advised that Section V(B) (page 3) of the Proposed Final Judgment does not apply to the receipt of unsolicited price information from any other person engaged in the manufacture, distribution, or sale of precast concrete products, provided you have, in no way, encouraged, prompted, or fostered the receipt of such information.

Sincerely yours,
Samuel London,
Attorney, Antitrust Division.

Andrew Carlson & Sons, Inc.
Kings Park, N.Y., November 19, 1979.

Ralph T. Giordano
Chief, New York Office, Antitrust Division of Justice, 26 Federal Plaza, New York, N.Y.

Gentlemen: It has come to our attention that a consent decree was submitted by Whitman and Ransom as attorneys for Andrew Carlson & Sons, Inc.

Please be advised that this submission was made without approval or consent of the client, Andrew Carlson & Sons, Inc. and that Andrew Carlson & Sons, Inc. does not agree to the proposal consent decree.

Our objection to the decree centers on 5-B, "receiving".

While we do not object to the basic intent of the decree which we understand is both to proscribe attempts to fix prices and to promote competition, any proscription on "receiving" unsolicited information is beyond the control of our company, and further we seek to find out what the market price is so that we may compete effectively.

We have no objection to the word "receiving" if it is qualified to say "for the purposes of fixing prices."

Very truly yours,
Hank Carlson,
President.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Meeting of the Business Research Advisory Council

The regular spring meeting of the Business Research Advisory Council will be held at 1:30 p.m., May 20, 1980, at the Frances Perkins Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C. room N5437 A, B, & C. the agenda for the meeting is as follows:

1. Chairman's Opening Remarks.
2. Commissioner's Remarks.
3. Committee Reports:
 - (a) Employment and Unemployment,
 - (b) Wages and Industrial Relations,
 - (c) Economic Growth,
 - (d) Price Indexes.
4. Other Business.
5. Chairman's Closing Remarks.

This meeting is open to the public. It is suggested that persons planning to attend as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on Area Code (202) 523-1559.

Signed at Washington, D.C. this 29th day of April 1980.

Janet L. Norwood,
Commissioner of Labor Statistics.

Business Research Advisory Council Committees; Meetings and Agenda

The spring meetings of committees of the Business Research Advisory Council will be held on May 19 and 20, 1980.

The meetings of the Committees on Employment and Unemployment, Wages and Industrial Relations, and Economic Growth will be held in room 2433, General Accounting Office Building, 441 G Street, N.W., Washington, D.C. Price Indexes will hold its Committee meeting in room N5437 A, B, & C of the Frances Perkins Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

The Business Research Advisory Council and its committees advise the Bureau of Labor Statistics with respect to technical matters associated with the Bureau's programs. Membership consists of technical officers from American business industry.

The schedule and agenda of the meetings are as follows:

Monday, May 19

9:30 a.m.—Committee on Employment and Unemployment

1. Summarization of the "Interim Report of the Secretary of Labor on the Recommendations of the National Commission on Employment and Unemployment Statistics."

2. Redesign of the Current Population Survey.
3. Redesign of the industry employment statistics 790 program.
4. Preliminary results of the job vacancy survey testing.

2:00 p.m.—Committee on Wages and Industrial Relations

1. Review of WIR work in progress.
2. Profiles of Occupational Pay: A Chartbook—a brief presentation by Martin Personick.
3. Collective Bargaining Settlements in 1979 and the 1980 Outlook—by Victor Sheifer.
4. The Employment Cost Index—status report by George Stelluto.
5. WIR Long-Range Planning—subcommittee report by Thomas Swan.

Tuesday, May 20

9:30 a.m.—Committee on Economic Growth

1. New Labor Force Projections to 1995.
2. Revised 1990 Macroeconomic Projections—Assumptions and Preliminary Results.
3. Review of NASA-funded BLS study of the Impact of NASA Research and Development Spending on Potential Output Growth in Selected Manufacturing Sectors.

9:30 a.m.—Committee on Price Indexes

1. Status of Family Budget evaluation committee.
2. Current status of continuing Consumer Expenditure Survey, and the Outlet Sample Updating Program.
3. Status of International Price Program.

The meetings are open to the public. It is suggested that persons planning to attend these meetings as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on Area Code (202) 523-1559.

Signed at Washington, D.C., this 29th day of April 1980.

Janet L. Norwood,
Commissioner of Labor Statistics.

Office of the Secretary

[TA-W-6994]

Ford Motor Co., Dearborn Glass Plant; Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely.

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The investigation was initiated on February 11, 1980 in response to a petition which was filed by the United Auto Workers in part on behalf of workers of the Dearborn Glass Plant, Dearborn, Michigan, of the Ford Motor Company. Workers at the Dearborn Glass Plant produce flat glass and glass auto parts.

The investigation revealed that, with respect to workers engaged in employment related to the production of flat glass, criterion (3) has not been met.

The majority of flat glass produced at the Dearborn plant is sold to outside customers. A Department survey revealed that no surveyed customer purchased any imported flat glass in 1979. Production of flat glass to be used in Ford Motor Company automobiles increased at Dearborn in the January-September period of 1979, compared with the same period of the previous year. The flat glass furnace was closed for maintenance in October 1979.

It is determined in this case that, with respect to workers engaged in employment related to the production of glass auto parts, all of the requirements have been met. In order to determine if increased imports contributed importantly to production and employment declines at Ford Motor Company's component parts plants and support facilities, the Department sought to determine the degree to which each of these facilities were integrated into the production of Ford Motor cars, trucks, vans, and general utility vehicles which have been subject to import injury. Where substantial integration was established the Department considered imports of "like or directly competitive" cars, trucks, vans and general utility vehicles in determining import injury to workers producing component parts at the various plants.

The Department has determined that increased imports contributed importantly to the decline in sales of production and to total or partial separations of workers at 17 of Ford Motor Company's car and truck assembly plants (TA-W-6438, 6849-50, 6874, 6946-48, 6950-58, 6955A). Workers

at these plants are engaged in production of one or more of the following car or truck lines: Pinto, Bobcat, Fairmont, Zephyr, Granada, Monarch, Ford LTD, Mercury, Continental, pick-ups, vans, and general utility vehicles.

During the course of the investigation, it was established that the Dearborn Glass Plant produced a significant proportion of its glass auto parts for use in one or more of the Ford car and truck lines which have been subject to impact injury. Therefore, the Dearborn Glass Plant is substantially integrated into production of the trade-impacted Ford car and truck lines.

Conclusion

After careful review, I determine that all workers at the Dearborn Glass Plant, Dearborn, Michigan, of the Ford Motor Company, who are engaged in employment related to the production of flat glass are denied eligibility to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

I further conclude that increases of imports of articles like or directly competitive with Pinto, Bobcat, Fairmont, Zephyr, Granada, Monarch, Ford LTD, Mercury, Continental, pick-ups, vans, and general utility vehicles produced by the Ford Motor Company contributed importantly to the decline in sales or production and to the total or partial separation of workers at the Dearborn Glass Plant, Dearborn, Michigan who are engaged in employment related to the production of glass parts. In accordance with the provisions of the Act, I make the following certification:

All workers at the Dearborn Glass Plant, Dearborn, Michigan, of the Ford Motor Company engaged in employment related to the production of glass auto parts who became totally or partially separated from employment on or after January 30, 1979 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 25th day of April 1980.

Herbert N. Blackman,
Associate Deputy Under Secretary,
International Affairs.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has

instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under

Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 16, 1980.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 16, 1980.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 28th day of April 1980.

Marvin M. Fooks,
Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-23-M

Office of Pension and Welfare Benefit Programs

[Application No. D-1657]

Proposed Exemption for Certain Transactions Involving the H. B. Owsley and Sons, Inc., Employee Stock Ownership Plan Located in Charlotte, N.C.

AGENCY: Department of Labor.**ACTION:** Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the sale of certain real property by the H. B. Owsley and Sons, Inc. Employee Stock Ownership Plan (the Plan) to R. P. Owsley, a party in interest with respect to the Plan. The proposed exemption, if granted, would affect Owsley and Sons, Inc. (the Employer), the sponsor of the Plan, R. P. Owsley, the City National Bank of Charlotte, North Carolina (the Trustee), the trustee of the Plan, the Plan and its participants and beneficiaries and any other persons participating in the transaction.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before June 17, 1980.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. Attention: Application No. D-1657. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT:

Mr. Louis Campagna, of the Department of Labor, telephone (202) 523-7352. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and from the taxes imposed by section 4975 (a) and (b) of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code. The proposed exemption was requested in an application filed by the Trustee, the Employer and R. P. Owsley, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicants.

1. The Plan is an employee stock ownership plan which was converted on July 31, 1975 from a profit sharing plan. The Plan has 105 participants. R. P. Owsley is an officer and director of the Employer.

2. In 1960 an unimproved parcel of real property (the Land) located in Guilford County, North Carolina, was acquired by the Plan from R. P. Owsley for \$22,000 and leased back to the Employer for a 15-year term. In 1965 and 1967 improvements (the Improvements) were made on the Land by R. P. Owsley at a total cost to R. P. Owsley of \$72,558. Rent for the Land has been paid from the beginning of the lease of the Land to

the Plan by the Employer. Rent for the Improvements since their construction has been paid to R. P. Owsley by the Employer. At the end of the 15-year term of the lease of the Land a dispute arose as to the ownership of the Improvements. A law suit (the Law Suit) was filed in December of 1977 in the Superior Court of Mecklenburg County, North Carolina by R. P. Owsley against the Trustee and the Employer. To settle the Law Suit, R. P. Owsley, the Employer and the Trustee entered into a settlement agreement whereby the Land and the Improvements would be sold to R. P. Owsley. The settlement agreement was made contingent upon the grant of an exemption by the Department for the proposed sale.

3. The applicants are requesting an exemption to allow the Plan to sell the Land and the Improvements to R. P. Owsley for a cash price of \$140,000. The price for the Land and Improvements was determined as of June 19, 1978 by an independent appraisal performed by Wayne Sudderth, SREA, of Greensboro, North Carolina. The appraisal was made on the basis of the full market value of the Land and the Improvements and did not involve a reduction of the full market value as a result of the settlement of the Law Suit. No real estate sales commission will be charged the Plan in connection with the proposed sale.

4. The proposed sale will prevent further litigation as to the ownership of the Improvements. One possible result of the Law Suit could be a determination by the court that the Improvements are owned by R. P. Owsley and not the Plan thereby leaving the Plan with no ownership interest in the Improvements and an ownership interest in the Land which would have a limited marketability.

5. The applicants represent that the criteria of section 408(a) of the Act will be satisfied by the proposed sale because: (1) the Trustee represents the sale is in the best interests of the Plan; (2) the sale will be a one time transaction for cash; (3) no real estate sales commission will be charged the

Plan; (4) the price for the proposed sale was established by an independent appraisal; (5) the failure to dispose of the Land and the Improvements could result in a hardship to the Plan; and (6) the sale will yield a substantial profit to the Plan.

Notice to Interested Persons

Notice of the pending exemption will be given to all interested persons including participants and beneficiaries of the Plan, including all former employees of the Employer with an interest in the Plan assets, within ten days of the publication of the notice of pendency in the Federal Register. Such notice shall include a copy of the notice of pendency as proposed in the Federal Register and shall inform interested persons of their right to comment on or request a hearing regarding the requested exemption. The notice will be provided to participants currently employed by the Employer by posting it at locations customarily used by the Employer for notice to employees. Notice shall be provided to all other interested persons by first class mail.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the Plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its

participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a) 406(b)(1) and 406(b)(2) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the proposed sale of the Land and the Improvements located in Friendship Township, Guilford, County, North Carolina by the Plan to Mr. R. P. Owsley for a cash price of \$140,000 provided that this amount is not less than the fair market value of the Land and the Improvements at the time of the sale.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 23d day of April 1980.

Ian D. Lanoff,

Administration, Pension and Welfare Benefit Programs Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

Proposed Class Exemption for Certain Transactions Involving Mortgage Pool Investment Trusts

In the matter of Proposed Class Exemption for Certain Transactions Involving Mortgage Pool Investment Trusts Requests by the Bank of America National Trust and Savings Association (Application No. D-1448), the Crocket National Bank (Application No. D-1449), the Wells Fargo Bank, National Association (Application No. D-1357), and PMI Mortgage Corp. (Application No. D-1447).

AGENCY: Department of Labor.

ACTION: Notice of proposed class exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed class exemption from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed class exemption would exempt transactions related to the origination, maintenance and termination of mortgage pool investment trusts (mortgage pools), and the acquisition and holding of certain mortgage-backed pass-through certificates (certificates) of mortgage pools under certain circumstances by employee benefit plans (investing plans). The proposed exemption, if granted would affect participants and beneficiaries of employee benefit plans investing in such certificates, the originators and trustees of such mortgage pools, and other persons engaging in the described transactions.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before July 7, 1980.

EFFECTIVE DATE: It is proposed to make the exemption effective as of January 1, 1975.

ADDRESSES: All written comments and requests for a hearing (preferably at least three copies) should be sent to: Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington,

D.C. 20216, Attention: Applications D-1357, D-1447, D-1448 and D-1449. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W. Washington, D.C.

FOR FURTHER INFORMATION CONTACT: William J. Flanagan of the Plan Benefits Security Division, Office of the Solicitor, U.S. Department of Labor, (202) 523-7931. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of a proposed class exemption from the restrictions of sections 406 and 407(a) of the Act and from the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1) of the Code. Exemptive relief for transactions involving mortgage pools was requested in applications filed by the Bank of America National Trust and Savings Association (D-1448) (Bank of America), the Crocker National Bank (D-1449) (Crocker), the Wells Fargo Bank, National Association (D-1357) (Wells Fargo) and PMI Mortgage Corporation (D-1447) (PMI) pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).¹ These applicants, although not originally requesting class relief, indicate that the transactions they have entered or intend to enter with regard to mortgage pools are similar to transactions entered with regard to mortgage pools formed by other institutions within the banking industry. The applicants further state that all of these mortgage pools are patterned substantially after pools formed since 1970 by the Government National Mortgage Association and the Federal Home Loan Mortgage Corporation. In

¹As an alternative to exemptive relief, the applicants each requested the Department to issue an advisory opinion that ownership of mortgage pool certificates by a plan does not mean that mortgage loans in the pool are plan assets. The Department at this time is not prepared to state that such mortgage notes would not be plan assets due to the pendency of proposed regulation 29 CFR 2550.401b-1 (44 FR 50363, August 28, 1979) defining the term "plan assets." The Department is currently considering the comments received regarding this proposal and has not yet resolved the issues presented by these comments. Nevertheless, because the applicants have indicated the need for prompt relief, the Department has decided to propose this class exemption at this time. It should be noted, however, that the relief provided in this class exemption may ultimately be affected by actions taken by the Department regarding proposed regulation 29 CFR 2550.401b-1.

light of these representations, the Department has decided to treat these four applications as the basis upon which to propose class exemptive relief. The relief provided in this proposed class exemption is not, therefore, limited to transactions involving mortgage pools formed by the four applicants. Rather, this relief is available for any transaction involving a mortgage pool which meets the conditions of the exemption.

It should be noted that the applicants have requested retroactive and prospective relief for transactions which entered with regard to mortgage pools. The applicants represent that the transactions are the subject of their applications have regularly occurred in other conventional and government assisted mortgage pools. Since it appears that these types of transactions are customary for most mortgage pools formed since 1970, the Department has decided, in accordance with the applicants' requests, to propose retroactive and prospective relief.

Summary of Facts and Representations

The facts and representations contained in these applications are summarized below. Interested persons are referred to the applications on file with the Department for the complete representations of the applicants.

The applicants indicate that they and other entities have formed or intend to form substantially similar series of mortgage pools, based primarily on either the Bank of America program, the Crocker program² or the PMI program. As described below in greater detail, a mortgage pool is an investment pool the corpus of which consists of first mortgage notes either originated by the sponsor³ of the pool or purchased by the pool sponsor directly from the original mortgage lender. These mortgage loans are collected by the pool sponsor and transferred in trust to a trustee which is independent of the pool

²Wells Fargo, in its application, indicates that it intends to form mortgage pools having characteristics of both the Bank of America and Crocker programs.

³In their submissions to the Department, the applicants have used the term "originator" to describe the entity which organizes a mortgage pool. Because confusion may result from the fact that, in certain cases, the "originator" of a pool is not also the entity which originated the mortgage loans included in the pool, the Department has decided to use the terms "sponsor" or "pool sponsor" to describe an entity which organizes a mortgage pool. It should, however, be noted that the sponsor of a mortgage pool is not, solely by virtue of its sponsorship of the pool, the "plan sponsor" (as defined in section 3(16)(B) of the Act) with respect to a plan investing in the mortgage pool.

sponsor.⁴ The pool trustee then transfers to the pool sponsor certificates representing fractional, undivided beneficial interests in the pooled mortgages. The certificates are then issued by the pool sponsor in a public offering to investors including employee benefit plans. Although there are certain material differences among the three types of mortgage pools covered by the proposed exemption, it appears that, in all cases, principal and interest payments made by individual mortgagors are passed through the mortgage pool in the form of fixed monthly payments to certificateholders, with the pool sponsor retaining a fixed percentage of the interest as a servicing fee.

A. The Bank of America Program⁵

The Bank of America had, as of March 7, 1979, formed nine mortgage pools with an aggregate principal amount of \$578 million. The Bank of America represents that a number of other financial institutions have formed substantially similar mortgage pools, and that these other pools had, as of March 7, 1979, an aggregate principal amount of approximately \$457 million.

Under the Bank of America program, the pool sponsor chooses loans for a mortgage pool from among mortgage loans it has previously made in accordance with its normal banking practices.⁶ The pool sponsor then

⁴Subsequent to the creation of the pool, its operation may result in the holding by or for the pool of property formerly securing such notes, which property has been acquired by the pool through foreclosure, and such funds as may from time to time be held in separate non-interest bearing accounts pursuant to applicable trust instruments or servicing agreements.

⁵In describing mortgage pools organized under this type of program, the Bank of America has made representations which have been repeated by the other applicants in describing pools organized under their types of programs. Rather than repeat these duplicative representations, the Department has set forth fully the representations of the Bank of America and has subsequently noted where the other applications differ from or augment the Bank of America application. Therefore, unless otherwise noted, the representations ascribed to the Bank of America during this discussion may be attributed to all of the applicants.

⁶The Bank of America program requires that mortgage loans chosen for a mortgage pool must be "single-family" mortgage loans, which are permanent loans (rather than construction or land development loans) secured by mortgages on non-farm property comprising one to four dwelling units. Such loans must have a loan to value ratio of 80% or less, and principal balances between \$20,000 and \$150,000. In addition, principal and interest must be payable on a level debt service basis (approximately equal monthly payments representing increasing amounts of principal over the term of the loans), and the properties mortgaged to secure the loans must be dispersed over the geographic area served by the sponsor. Prospective investors are provided with detailed information regarding the composition of a mortgage pool prior

Footnotes continued on next page

transfers these loans in trust to the pool trustee, and the trustee delivers the certificates to the sponsor. The Bank of America represents that the pool trustee under its program is independent of the pool sponsor, but that the same trustee may be used for more than one mortgage pool.⁷

At the time of the transfer described above, the pool sponsor and the trustee enter into a pooling and servicing agreement. Pursuant to this agreement, the sponsor and the trustee assume certain specified responsibilities for the administration of the mortgage pool. The sponsor also agrees to continue to service the individual mortgage loans in the pool. In addition, the pool sponsor makes certain warranties with regard to the pooled mortgage loans, including that each mortgage is a valid first lien on the property securing the mortgage note and that the pool sponsor had good title to the mortgage loans prior to their transfer to the trustee. The trustee has a specified time within which to examine the loans in order to assure that the warranties have not been breached, and that the loan documents are complete. If, within this time period, a material breach of any of these warranties is discovered, or if there is a material defect in any of the mortgage documents, the pool sponsor has a specified period from the discovery of such breach or defect, or from notice thereof, in which either to cure the breach or defect or to repurchase the affected mortgage loan from the trustee at a price equal to the principal balance thereof plus accrued interest at the applicable pass-through rate to the first day of the month following the month of repurchase, less any unreimbursed advances made by the pool sponsor with respect to such mortgage loan.

The pooling and servicing agreement also sets the rate of return provided by the certificates. The applicant indicates that this rate, known as the pass-through rate, will be set by the pool sponsor based upon a variety of considerations. First, the applicant states that the pass-through rate will not exceed the lowest interest rate of any mortgage in the pool. Second, Bank of America represents that the pass-through rate will be set by the pool sponsor based upon money market rates existing at the time the

mortgage pool is formed. Third, the Bank of America indicates that the pool sponsor will utilize the pass-through rate as a market tool by balancing the pass-through rate with the offering price of the certificates in order to produce a security with both a price and a rate of return acceptable to investors under current market conditions.⁸

The originator retains the difference between the pass-through rate and the interest rate for each loan in the pool.⁹

The pool sponsor uses this retained interest to pay the pool trustee's fee and, where the pooling and servicing agreement requires the purchase of mortgage guarantee insurance and special hazard insurance policies for the pool, to pay the premiums for such insurance. The remainder accrues to the pool sponsor.¹⁰ The pooling and servicing agreement also provides that the pool sponsor may retain any prepayment or late payment penalties from individual mortgagors, although the Bank of America represents that it is its policy to waive all prepayment fees for pooled mortgage loans bearing an

⁷The applicant indicates that, in all three types of mortgage pools, there is a direct correlation between the certificate price and the pass-through rate. For example, in situations in which mortgage loans in a mortgage pool have interest rates lower than the rates currently available to investors, thereby resulting in a pass-through rate lower than current interest rates, the certificates in that pool must be offered at a discount in order to provide investors with a yield which is acceptable in the current market. Similarly, situations may arise in which the interest rates of pooled mortgage loans are higher than currently available rates. Ordinarily, certificates in such a pool would be expected to sell at a premium because they would provide a higher rate of return than the present market rate. However, the applicant indicates that, because of the substantial likelihood that many of the pooled mortgage loans will be prepaid or otherwise retired before their stated termination date, investors would be unwilling to purchase mortgage pool pass-through certificates at a premium. In order to reduce the offering price of the certificates to face amount, the sponsor must therefore reduce the pass-through rate to the level currently prevailing on the money market.

⁸The Bank of America states that in the case of pools of variable rate mortgages, the servicing compensation will be fixed when the pool is formed and thus changes in the mortgage rate will cause corresponding changes in the pass-through rate over the life of the mortgage pool.

¹⁰The applicant indicates that this retained interest is referred to in the mortgage banking industry as "servicing compensation," but that it reflects the mortgage market's assessment of the value of the certificate. Thus, when the pass-through rate is significantly lower than the average interest rate of the pooled mortgage loans, although this results in the pool sponsor's retaining a large portion of the interest paid on the loans, this gain is offset by the fact that such certificates will be sold at a discount in order to achieve an acceptable return for investors. The applicant represents that this retained interest plus all other payments retained by or otherwise inuring to the benefit of the pool sponsor in connection with the mortgage pool represents no more than reasonable compensation to the pool sponsor for selling the mortgage loans and organizing and servicing the mortgage pool.

interest rate lower than rates available for new mortgage loans.

The Bank of America represents that most of the certificates issued pursuant to its program have been offered through syndicates of investment bankers in firm commitment underwritings. By this process, the pool sponsor sells certificates to the underwriting syndicate, which then, either immediately or at some later time as the market dictates, resells the certificates to investors. Any change in the certificate price upon such resale is therefore borne by the underwriters. The Bank of America represents that initial sales of certificates in a pool established pursuant to its program may be subject to a specified minimum purchase size. The Bank of America also states that it expects a strong secondary market for this type of certificate to develop.

Once the certificates have been sold, the pooling and servicing agreement provides that the sponsor, as servicer of the individual mortgage loans, will continue to receive and process payments from individual mortgagors. The Bank of America represents that the pool sponsor under its type of program will hold all such payments in a noninterest bearing account until the specified date of transfer to the pool trustee for disbursement to certificateholders. The applicants represent that the holding of these funds in non-interest bearing accounts before transfer to certificateholders comports with present industry practice as established by Government National Mortgage Association (GNMA) pass-through mortgage pools and is taken into account by prospective investors.

The Bank of America represents that its program contains several features designed to assure regular payments and otherwise to safeguard the interests of certificateholders. The Bank of America indicates, however, that future pools organized under its program will contain different types of safeguards from those provided in pools it has previously formed.

In this regard, the Bank of America represents that the pooling and servicing agreements for pools already organized under its program provide three types of such safeguards. First, the pooling and servicing agreement requires the pool sponsor to obtain an insurance policy for each mortgage pool, generally covering loss by reason of default in payments on any mortgage loan included therein up to an amount equal to 5 percent of the initial adjusted aggregate principal balance of the pool. Second, because such insurance generally requires that any damaged mortgaged property must be repaired

Footnotes continued from last page to the sale of certificates. Mortgage loans contained in the other two types of mortgage pools covered by this proposed class exemption must meet similar criteria.

⁷The applicants represent that, when the pool sponsor and trustee are experienced in this area, repeated pool organizations by the same sponsor and trustee achieve efficiencies in the establishment and operation of such pools.

before payment of any claims thereon, the pool sponsor is required to obtain a special hazard insurance policy covering risks of loss not typically covered in hazard insurance policies held by most individual mortgagors. Premiums for both the mortgage insurance and the special hazard insurance policies are paid by the pool sponsor with funds derived from the interest differential retained by the pool sponsor. Finally, when payments from mortgagors are delinquent, the Bank of America indicates that it intends to make advances from its own funds to compensate for such delinquencies. The Bank of America represents that such advances are not required by the pooling and servicing agreement and will be made only to the extent they are recoverable under the pool's mortgage insurance policy. To the extent that no voluntary advances are made or delinquent payments are not covered by the pool's mortgage insurance, the Bank of America represents that payments to all certificateholders would be reduced.

With regard to future pools, the Bank of America indicates it will no longer be required to purchase mortgage insurance or special hazard insurance for its pools. Rather, pursuant to the recent approval of the Office of the Comptroller of the Currency, the Bank of America states that it intends to issue to each new mortgage pool an irrevocable letter of credit for an amount between 5 and 10 percent of the aggregate principal value of the pooled mortgage loans. For each month in which there are delinquent mortgage payments, the pool trustee will write a draft on this letter of credit equal to the amount of the delinquent payments, if the trustee later receives any of these delinquent payments, the trustee will transfer such payments to the Bank of America. If any mortgage becomes six months delinquent, the trustee will write a draft for the full amount of principal and interest remaining on that mortgage. In return for honoring the draft, the Bank of America will then be assigned the entire mortgage. The Bank of America will then satisfy the debt out of the proceeds of foreclosure. The Bank of America represents that this new system will ensure a steady flow of payments to certificateholders without the delays and costs which may be present when insurance policies are utilized.

The Bank of America represents that a mortgage pool established under its type of program will continue in existence until all the mortgage loans included in that pool are paid off. However, the sponsor under the Bank of America program has the option to

repurchase all the loans included in a pool, thereby terminating the pool, when the aggregate outstanding principal balance of the pool falls below 10 percent of its original aggregate principal value. The applicant represents that a pool, under normal circumstances, may be expected to be paid down to this 10 percent level no sooner than 15 years after its creation. The price for such a termination repurchase would be the greater of either the remaining aggregate principal balance or the fair market value of the certificates, plus interest in either case at the pass-through rate. The Bank of America states that such a termination repurchase provision is desirable because certificates in such small mortgage pools may be unmarketable, or marketable only at a discount, in any secondary market that may develop. In addition, the application indicates that it may be uneconomical to service such a small pool at the rate of compensation provided in the pooling and servicing agreement.¹¹

B. The Crocker Program

Crocker had not formed any mortgage pools as of the date of its application. The proposed Crocker program is similar in most material respects to the Bank of America program. As in the Bank of America program, pools formed under the Crocker program will consist of mortgage loans made by the pool sponsor and held in trust by an independent trustee. Pools under the Crocker program will also operate in essentially the same manner as pools organized under the Bank of America program. The primary difference between the two programs is that the Crocker program provides for neither mortgage insurance nor special hazard insurance. Rather, as more fully described below, the Crocker program provides for two classes of certificates, one subordinate to the other, and a reserve fund, in order to mitigate the effects of property damage or defaults.

Crocker represents that for each mortgage pool, two classes of certificates—Class A and Class B—will be offered. Crocker states that the Class B certificates, in its initial mortgage pool, will represent a 6.5% undivided interest in the pool, and that the interest represented by such certificates will not exceed, in the aggregate, a 10% undivided interest in any subsequent pool. Crocker represents that, under its

¹¹ The applicant indicates that if, pursuant to the terms of the pooling and servicing agreement, the sponsor of a mortgage pool resigns, ceases doing business, or defaults before the termination of the mortgage pool, the pool trustee will succeed to the sponsor's rights and duties.

program the pool sponsor will initially retain all Class B certificates.¹² Crocker states that Class B certificates will be subordinated to Class A certificates in entitlement to monthly distributions of principal and interest. When distribution of such payments to certificateholders begins, the pool sponsor will establish a reserve fund by withholding from Class B certificateholders monthly distributions to which they would otherwise be entitled. Crocker states that such withholdings will continue until the reserve fund reaches a level equal to the greater of (1) the sum of the principal balances of the two largest mortgage loans in the pool at that time, or (2) 1% of the aggregate principal balance of the entire mortgage pool. Each month, the mortgage payments collected by the pool sponsor will be transferred to the pool trustee for disbursement first to Class A certificateholders. For months in which the amount of collected mortgage payments is sufficient to make full scheduled payment to the Class A certificateholders, the remainder, if any, will be then disbursed to Class B certificateholders. When defaults reduce the amount of monthly payments collected, such deficiencies will be financed first from payments that would otherwise be made to Class B certificateholders. To the extent that this is still insufficient to provide full scheduled payments to Class A certificateholders, the pool trustee will utilize the reserve fund to make up the deficiency. When the reserve fund is drawn down, payments on the following months will be withheld from Class B certificateholders until the reserve fund again reaches its required level.¹³

Unlike the Bank of America program, the Crocker program does not provide for any direct advances from the pool sponsor to certificateholders in the event of default or late payment by individual mortgagors. The Bank of America indicates in its application that, if Crocker receives certain regulatory and tax rulings for its program, the Bank of America and other banks may modify their pooling arrangements and follow the Crocker model in the future.

C. The PMI Program

PMI represents that mortgage pools of the type organized under its program

¹² It should be noted that the class exemption proposed herein does not apply to the sale of Class B certificates to employee benefit plans.

¹³ Crocker represents that, under its program, the pool sponsor, not the pool trustee, is responsible for the administration of this allocation formula. Crocker further represents that the sponsor under its program has no discretion with regard to these allocations since the allocation formula is set forth in the pooling and servicing agreement.

will operate in essentially the same manner as those formed under the Bank of America and Crocker programs. There are, however, several material differences between the PMI program and the programs of the applicant banks.

Certain of the differences between the PMI program and the Bank of America and Crocker programs result from the fact that the sponsor of a mortgage pool established under the PMI program is not a mortgage lender and therefore must purchase mortgage loans from financial institutions which make such loans for inclusion in mortgage pools. PMI represents that it reserves the right to transfer these loans to the mortgage pool at a price which is at a premium over, or at a discount from, the purchase price paid by PMI. PMI also states that the lending institutions that made the mortgage loans included in a pool will, in most cases, continue to service individual mortgage loans, subject to the supervision of the pool sponsor, under the PMI program. These original lenders, referred to as "seller-servicers," are required to give monthly and yearly reports to the pool sponsor under the PMI program regarding all loans sold to the pool sponsor for inclusion in mortgage pools. PMI represents that seller-servicers are also required to state their intent to advance their own funds for any delinquent mortgage payments. The seller-servicers are not contractually obligated to make such advances, but PMI states that the seller-servicers will be reimbursed for any such advances. For their services, the seller-servicers receive all prepayment, late payment and assumption fees, and also retain a portion of the interest payment which is not less than $\frac{1}{4}$ of 1% (on an annualized basis) of the principal amount of each mortgage loan sold to the pool. The interest remaining after the seller-servicers retain this percentage fee is termed interest at the "contract rate."

PMI represents that, pursuant to its program's pooling and servicing agreement, seller-servicers deposit individual mortgage payments, less the interest retained by the seller-servicer, in a bank custodial account. This is a non-interest bearing account owned by the pool sponsor. From these deposited funds, the pool sponsor also retains a specified portion of the interest payment. PMI indicates that, as in the Bank of America and Crocker programs, this retained interest represents a part of the compensation paid to the pool sponsor as organizer and servicer of the mortgage pool. PMI states that the pool sponsor under its program is then

required to withdraw the remaining interest, principal payments, and prepayments from the custodial account for principal and interest, and deposit these funds by a date specified in the pooling and servicing agreement into an account from which the pool trustee makes payments to certificateholders.

PMI notes that, under its program as well as the Bank of America and Crocker programs, a cash "float" results from the delay between collection of individual mortgage payments and the distribution of such payments to certificateholders. As noted previously, bank-sponsors under the Bank of America and Crocker programs hold this "float" in non-interest bearing accounts, and any benefit derived from this practice accrues to such sponsors as a part of its total compensation for organizing and servicing the mortgage pool.¹⁴ PMI represents that, because the sponsor under its program is not also the lending institution which made the loans included in the mortgage pool, the cash "float" which results in the PMI program does not remain in one depository before it is distributed to certificateholders. As indicated above, these funds represent mortgage payments and are deposited in non-interest bearing custodial accounts by seller-servicers. After such deposits, the pool sponsor under the PMI program retains the right to invest this cash "float" for its own benefit prior to depositing such funds in the certificate account. PMI represents that the pool sponsor may deposit such "float" funds in an investment account at an "investment depository" designated in the pooling and servicing agreement. PMI further represents that such funds are then invested in one or more liquid, high grade investment instruments from amount a list of such investments specified in the pooling and servicing agreement and disclosed to all potential purchasers of certificates. PMI represents that any such investments are for the pool sponsor's own account and at the pool sponsor's risk. The pooling and servicing agreement under the PMI program requires that all "float" funds invested in this way be deposited in the certificate account by the date specified for such deposit, and that any insufficiency in these funds caused by losses suffered on these short-term investments must be made up from the pool sponsor's general assets. PMI represents that the proceeds from such investments represent a part of the reasonable compensation retained by the pool sponsor for establishing and maintaining the mortgage pool, and that

such investments are therefore similar to the holding of funds in non-interest bearing accounts by pool sponsors under the Bank of America and Crocker programs.

PMI indicates that its program also differs from the Bank of America and Crocker programs in the structure of the insurance obtained to safeguard the pool from delinquent or defaulted mortgage payments and to compensate the pool for physical damage to property securing the pooled mortgage loans.¹⁵ As in mortgage pools already formed under the Bank of America program, the sponsor of a pool organized under the PMI program is obligated to secure mortgage insurance and special hazard insurance for the pool. In addition, however, PMI indicates that, under its program, the sponsor must also establish a reserve fund to cover defaults of mortgage payments not otherwise covered by the mortgage insurance obtained for the pool. Unlike the reserve fund established under the Crocker program, the reserve fund under the PMI program is composed solely of the pool sponsor's own assets rather than a portion of the individual mortgage payments. PMI represents that the pool sponsor under its program will hold such reserve funds separately from all pool funds, and may invest such reserve funds for its own benefit. The amount in the reserve fund is set by the pooling and servicing agreement as a specified percentage of the principal amount of the mortgages not covered by mortgage insurance.

D. Prohibited Transactions

The applications indicate that employee benefit plans have invested or are expected to invest in these types of certificates. The applicants indicate that, in some cases, the pool sponsor or pool trustee, though independent of each other, may have a pre-existing relationship with an investing plan.

¹⁵In its application, PMI also outlined three other practices permitted under its program which are not present under the other programs and for which the Department is not proposing exemptive relief herein. First, PMI represents that the pool sponsor under its program would be able to obtain mortgage insurance and special hazard insurance for the pool from an insurer which is an affiliate of the pool sponsor. Second, PMI indicated that it wishes to retain the right to distribute its certificates through an underwriter which is an affiliate of PMI. Third, PMI represents that its program would permit a sponsor to create pools pursuant to negotiations with potential investors and to place certificates through privately negotiated offerings. On the basis of the facts and representations before it at this time, the Department has tentatively determined not to provide relief for such transactions because the Department does not believe PMI has demonstrated that an exemption for these transactions would satisfy the statutory criteria in section 408(a) of the Act.

¹⁴See note, *supra*, and accompanying text.

Where the pool sponsor or pool trustee has investment discretion with regard to the assets of an investing plan, the applicants state that the pool sponsor or pool trustee may be a fiduciary with regard to that plan as defined in section 3(21)(A) of the Act and a party in interest as defined in section 3(14)(A) of the Act. Where the pool sponsor or pool trustee provides services unrelated to the particular mortgage pool to investing plans, the applicants indicate that the pool sponsor or pool trustee may be a party in interest with respect to such plans as defined in section 3(14)(B) of the Act. Similarly, the applicants state that, in certain cases, the pool sponsor or pool trustee may be a party in interest with respect to a plan as defined in section 3(14)(C), (E), (G), and (I) of the Act. The applicants represent that a direct or indirect sale of certificates by the pool sponsor or pool trustee to employee benefit plans as to which the pool sponsor or pool trustee is already a party in interest may be a prohibited transaction under section 406(a)(1)(A) of the Act and section 4975(c)(1)(A) of the Code, which prohibit the direct or indirect sale, exchange or transfer of property between a plan and a party in interest. The applicants further represent that where the pool sponsor or pool trustee is a plan fiduciary, such a transaction may be prohibited under section 406(b)(1) and (2) of the Act and section 4975(c)(1)(E) of the Code, which prohibit a fiduciary with respect to a plan from dealing with the assets of the plan in his own interest or for his own account, and from acting in any transaction involving the plan on behalf of a party (or representing a party) whose interests are adverse to the interests of the plan or its participants and beneficiaries.¹⁶

The applicants indicate that other prohibited transactions with regard to all three programs may arise after the sale of certificates to employee benefit plans.¹⁷

¹⁶ The Bank of America and Crocker assert that, under their programs, such transactions may be exempt pursuant to section 408(b)(8) of the Act and 4975(d)(8) of the Code as transactions between a plan and a common or collective trust fund maintained by a bank. However, it does not appear to the Department that mortgage pools are common or collective trusts within the meaning of these sections. See H. Rpt. No. 93-1280 (93d Cong., 2d Sess.) 316 (1974).

¹⁷ The applicants represent that certain prohibited transactions may result from the provision of services by the pool sponsor or trustee to the mortgage pool when the pool sponsor or trustee is a party in interest with respect to an investing plan. The Department notes that section 408(b)(2) of the Act and section 4975(d)(2) of the Code exempt, under certain circumstances, the provision of services from the prohibitions of section 406(a) of the Act and the taxes imposed by section 4975(a) and (b) of the Code. Regulation 29 CFR 2550.408b-2

The bank-applicants state that the pool sponsor under their programs will retain a portion of the interest paid by individual mortgagors equal to the difference between the certificate pass-through rate and the actual interest rate on the mortgage loans included in the mortgage pool. In the case of the PMI program, the retained interest is the difference between the certificate pass-through rate and the contract rate. In part, this retained interest represents compensation to the sponsor for servicing the mortgage pool, payments of insurance premiums and other necessary pool expenses. However, the applicants represent that the amount of interest retained by the pool sponsor may also reflect an attempt to balance money market yield considerations with the aggregate yield of the pooled mortgage loans.¹⁸ Under such circumstances, the retention of interest

provides, among other things, that relief under section 408(b)(2) of the Act is available for contracting or making reasonable arrangements with a party in interest for office space, or legal, accounting or other services necessary for the establishment or operation of the plan, provided that no more than reasonable compensation is paid therefor. Regulation 26 CFR 54.4975-6 makes similar provisions for relief under section 4975(d)(2) of the Code. Thus, such provision of services would be exempt from the prohibitions of section 406(a) of the Act and the taxes imposed by section 4975(a) and (b) of the Code if these conditions were met.

The applicants also indicate that, when the sponsor or trustee of a mortgage pool is a fiduciary with respect to an investing plan, the provision of services by the sponsor or trustee to such pool may be a prohibited transaction under section 406(b) of the Act. The bank-applicants suggest, however, that the provision of such services may be exempt from the prohibitions of section 406(b) of the Act and section 4975(c)(1)(E) and (F) of the Code pursuant to section 408(b)(6) of the Act and section 4975(d)(6) of the Code, which exempt, under certain conditions, the providing of ancillary bank services to a plan by a bank which is a fiduciary with respect to such plan. Based on the information provided by the bank-applicants, the Department is unable to conclude that the services provided with regard to mortgage pools are ancillary bank services within the meaning of section 408(b)(6) of the Act and section 4975(d)(6) of the Code.

¹⁸ As indicated in note 10, *supra*, the applicants submit that payments received and retained by the pool sponsor represent adequate consideration for the sale of mortgage loans plus reasonable compensation for services provided to the pool. When the sponsor of a mortgage pool is a fiduciary with respect to a plan which has purchased certificates of such pool, the retention of such payments by the originator would be exempt from the prohibitions of sections 406(a) of the Act and section 4975(c)(1)(A) through (D) of the Code pursuant to section 408(c)(2) of the Act and section 4975(d)(10) of the Code to the extent that such payments represent reasonable compensation for services rendered and reimbursement for expenses properly and actually incurred. See 29 CFR 2550.408c-2(a)(2); 26 CFR 54.4975-6(e)(3). However, the Department notes that when the provision of such services by the pool sponsor involves an act described in section 406(b) of the Act and section 4975(c)(1)(E) and (F) of the Code, such an act constitutes a separate transaction which is not exempt under section 408(c)(2) of the Act and section 4975(d)(10) of the Code.

by the pool sponsor may be a direct or indirect transfer to or use by or for the benefit of, a party in interest, of plan assets, a prohibited transaction pursuant to section 406(a)(1)(D) of the Act and section 4975(c)(1)(D) of the Code. In addition, when the pool sponsor is also a fiduciary with respect to an investing plan, the retention of interest may be a prohibited transaction pursuant to section 406(b)(1) of the Act and section 4975(c)(1)(E) of the Code, which prohibit a fiduciary with respect to a plan from dealing with plan assets in his own interest or for his own account.

The pool sponsor under the Bank of America and Crocker programs also collects and holds individual mortgage payments in non-interest bearing accounts until the designated date of disbursement to certificateholders. The bank-applicants suggest that this practice may be prohibited under section 406(a)(1)(D) of the Act and section 4975(c)(1)(D) of the Code. In cases where the pool sponsor is a fiduciary with investment discretion with regard to the assets of an investing plan, the applicants also indicate that the practice may be a prohibited transaction under section 406(b)(1) of the Act and section 4975(c)(1)(E) of the Code.

Similarly, the pool sponsor under the PMI program may invest for its own benefit the cash "float" which results after the collection of individual mortgage payments. PMI represents that this practice may be viewed as a prohibited transaction under section 406(a)(1)(D) of the Act and section 4975(c)(1)(D) of the Code. Furthermore, when the pool sponsor under the PMI program is a fiduciary with investment discretion with regard to the assets of an investing plan, this practice may be a prohibited transaction under section 406(b)(1) of the Act and section 4975(c)(1)(E) of the Code.

The Bank of America and Crocker also indicate that in the course of servicing the mortgage loans included in a mortgage pool, a pool sponsor may receive certain additional fees such as late payment charges or assumption fees from mortgagors. When the pool sponsor is also a fiduciary with respect to an investing plan, the applicants represent that the retention of such fees by the pool sponsor may be a prohibited transaction pursuant to section 406(b)(1) of the Act and section 4975(c)(1)(E) of the Code. Such a transaction may also be prohibited pursuant to section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code which prohibit a fiduciary from receiving any

consideration from any party dealing with the plan in connection with a transaction involving plan assets.¹⁹

The pooling and servicing agreements also provide that the sponsor must repurchase a loan from the mortgage pool if the warranties made with respect to that loan have been breached or if there is a defect in loan documentation which cannot be cured otherwise. The applicants suggest that such a transaction is not a sale between a plan and a party in interest, but a rescission of a prior sale. However, the applicants recognize that such a transaction may be viewed as a direct or indirect sale of property between a plan and a party in interest, and that therefore such a transaction may be prohibited under section 406(a)(1)(A) of the Act and section 4975(c)(1)(A) of the Code.

Similarly, the pooling and servicing agreement provides that the sponsor may repurchase the loans in a mortgage pool when the pool's value falls to 10% or less of its original aggregate principal value. The applicants indicate that such repurchasing may be viewed as a sale of property between a plan and a party in interest, and as such would be prohibited under section 406(a)(1)(A) of the Act and section 4975(c)(1)(A) of the Code.

The applicants also state that the pool sponsor may in some cases cause foreclosure on property secured by mortgage loans included in the mortgage pool. Such property may be in need of repair before sale, and the applicants state that the pool sponsor is obligated to make such repairs and recover its costs out of the proceeds of the liquidation sale. Such a transaction may be prohibited under section 406(a)(1)(B) of the Act and section 4975(c)(1)(B) of the Code as a direct or indirect lending of money or other extension of credit between a plan and a party in interest.

The applicants represent that a mortgage pool could contain loans secured by mortgages on property owned by an employee of an investing plan or by any other party in interest of the investing plan. In such a situation, the applicants represent that the purchase of certificates by a plan in such a pool may be viewed as a direct or indirect extension of credit between a plan and a party in interest, a transaction prohibited by section 406(a)(1)(B) of the Act and section

4975(c)(1)(B) of the Code. The applicants state further that the foreclosure on such property may be viewed as a sale or exchange of property between a plan and a party in interest, and therefore prohibited by section 406(a)(1)(A) of the Act and section 4975(c)(1)(A) of the Code.

Similarly, the pool may acquire, through foreclosure or deed in lieu of foreclosure, property leased to a party in interest with respect to an investing plan. Such acquisition may be prohibited under section 406(a)(1)(A) of the Act and section 4975(c)(1)(A) of the Code as the indirect leasing of property between a plan and a party in interest.

The applicants indicate that the prohibitions in Title I of the Act also may apply where an employer of employees covered by an investing plan leases property subject to a mortgage loan included in a mortgage pool. The applicants indicate that under certain circumstances, the acquisition of such real property, through foreclosure or otherwise, by the pool on behalf of a plan may be prohibited under section 406(a)(1)(E) of the Act as the acquisition, on behalf of the plan, of employer real property, as defined in section 407(d)(2), in violation of section 407(a) of the Act.²⁰ The applicants further indicate that the mortgage pool may acquire mortgage notes arising from loans made to, and secured by property owned by, an employer of employees covered by an investing plan. The applicants represent that the acquisition of such loans may involve the acquisition of employer securities prohibited under section 407(a) of the Act. The applicants also state that the continued holding in a mortgage pool of such property and mortgages secured thereby, and the continued holding by a plan of certificates of such a pool may also be prohibited under sections 406(a)(2) and 407(a)(1)(B) of the Act.

Certain additional prohibited transactions may occur with regard to mortgage pools organized according to the Bank of America program. The Bank of America program provides that the pool sponsor may direct advances to certificateholders in the event of loan payment delinquencies, and recover such advances out of late mortgage payments or insurance proceeds.

²⁰ Section 407(a) of the Act provides, in part, that a plan other than an eligible individual account plan may not acquire or hold any employer real property which is not qualifying employer real property as defined in section 407(d)(4) of the Act. Section 407(a) further provides that such a plan may not acquire qualifying employer real property if immediately after such acquisition, the fair market value of such qualifying employer real property exceeds 10 percent of the fair market value of the assets of the plan.

Similarly, for all mortgage pools formed in the future by the Bank of America, the Bank of America will be obligated to honor drafts written on a letter of credit extended to the pool trustee on behalf of the mortgage pool. The Bank of America will recover these funds from mortgage payments later received or from the proceeds from foreclosures. To the extent that certificateholders in such pools include investing plans, the Bank of America represents that such advances, the issuance of such letters of credit or the honoring of drafts on such letters of credit may be prohibited under section 406(a)(1)(B) of the Act and section 4975(c)(1)(B) of the Code as loans or other extensions of credit between a plan and a party in interest.

There may also be other prohibited transactions which occur with regard to the Crocker program. Under the Crocker program, Class A certificateholders may receive payments from the reserve fund or from funds which would otherwise go to Class B certificateholders. Crocker suggests that such payments may represent an extension of credit or a guarantee of indebtedness between a plan and a party in interest, and may therefore be prohibited under section 406(a)(1)(B) of the Act and section 4975(c)(1)(B) of the Code.²¹

In addition, certain prohibited transactions may occur with regard to the PMI program.²² The PMI program

²¹ Crocker also represents that the allocation of payments between Class A and Class B certificateholders may give rise to prohibited transactions in situations where the pool sponsor is both a fiduciary with respect to an investing plan and the holder of some or all of the Class B certificates. Crocker suggests that, in such a situation, if the pool sponsor resolves conflicts between Class A and Class B certificateholders in favor of the Class B certificateholders, the transaction may involve a conflict of interest prohibited under section 406(b)(1) and (2) of the Act and section 4975(c)(1)(E) of the Code. However, Crocker represents that the relationship between Class A and Class B certificates is clearly defined in the pooling and servicing agreement proposed for the Crocker program, and that the pool sponsor does not possess the discretionary authority to deviate from these terms. Since the terms as described by the applicants indicate that Class A certificateholders will always have priority in entitlement to allocations of funds, it does not appear that a prohibited transaction will result as long as the originator follows the terms of the pooling and servicing agreement.

²² PMI suggests that when seller-servicers continue to service individual mortgage loans after selling such loans to the pool originator, and when such seller-servicers are parties in interest with respect to an investing plan by reason of a relationship unrelated to that particular mortgage pool, the continued provision of such services may be a prohibited transaction under section 406(a)(1)(C) of the Act and section 4975(c)(1)(C) of the Code. However, if the conditions in regulations 29 CFR 2550.408b-2 and 26 CFR 54.4975-6 are met, the provisions of such services would be exempt from the provisions of section 406(a) of the Act and section 4975(c)(1)(A)-(D) of the Code pursuant to

Footnotes continued on next page

¹⁹ Under the PMI program, such additional fees are retained by the seller-servicers of the individual mortgage loans. To the extent that such seller-servicers are not fiduciaries with respect to the mortgage pool, it does not appear that the retention of such fees would result in a prohibited transaction under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

allows the seller-servicers to hold individual mortgage payments in non-interest bearing accounts until transfer of such funds to the pool sponsor. This practice may be a prohibited transaction under section 406(a)(1)(D) of the Act and section 4975(c)(1)(D) of the Code. The PMI program also requires the pool sponsor to establish a reserve fund of its own assets to be used to compensate for delinquent mortgage loan payments not otherwise covered by mortgage insurance. PMI represents that this may be viewed as a guarantee of indebtedness and therefore a prohibited transaction under section 406(a)(1)(B) of the Act and section 4975(c)(1)(B) of the Code.

E. Exemptive Relief

The applicants represent that the requested exemption is administratively feasible; in the interests of investing plans, their participants and beneficiaries; and protective of the rights of participants and beneficiaries of such plans. The applicants represent that mortgage pool certificates are a high-yielding investment which would provide a steady flow of income to investing plans. The applicants also represent that investment in such certificates would benefit investing plans because such plans would pay a relatively low servicing fee. The applicants state that the loans in a mortgage pool are secured by geographically dispersed property, thereby reducing the chance that unfavorable economic developments in one geographic area will adversely affect mortgage pool yields. The applicants further indicate that the default rate for mortgage loans of the quality of those comprising these types of mortgage pools is generally 2% or less of the aggregate principal value of the pooled loans, thus increasing the attraction of investment in such certificates. In addition, the applicants suggest that such certificates represent a sound method by which plans may be able to diversify their investments to include investments in real estate mortgages.

The applicants further state that all mortgage pools are to be administered by trustees independent of the pool sponsor for the sole interest of certificateholders. All of the transactions for which the applicants seek exemptive relief are governed by the detailed terms of a pooling and servicing agreement which provides, among other things, that investing plans

will receive no less than fair market value for their investment in the event of repurchase by the originator. The applicants also indicate that the low loan default rate, and the favorable loan to value ratio of loans included in mortgage pools will protect the interests of investing plans and their participants and beneficiaries. Further safeguards under the Bank of America program would be provided by mortgage insurance and hazard insurance policies, or by the issuance of a letter of credit to cover mortgage payments delinquencies. The PMI program requires similar insurance policies along with a supplemental reserve fund comprised of the originator's own assets. Crocker, which has no such insurance in its program, represents that the two classes of certificates and the reserve fund features of its program are designed similarly to protect the interests of class A certificateholders.

The transactions which are the subject of the requested exemption are governed in detail by the pooling and servicing agreement. The applicants further represent that, because the compensation retained by the pool sponsor is actually a residual amount which is considered in setting the certificate price, market forces will prevent any pool sponsor from receiving unreasonable compensation.

The exemption proposed herein contains several general conditions for all transactions. First, the mortgage pool certificates must be offered for sale pursuant to an offering of securities registered under the Securities Act of 1933. Second, the certificates must be offered for sale by firm commitment underwritings. Third, the pool sponsor must maintain a system of insurance, reserve funds, irrevocable letters of credit, or a combination of any of these in order to protect certificateholders from losses due to mortgage loan defaults or property damage. Finally, the pool trustee must not be an affiliate of the pool sponsor.

In addition, the proposed exemption contains a condition which differs, in some respects, from the proposal for exemption submitted by the applicants.²³ The proposed exemption is available, when the pool sponsor or the pool trustee is a fiduciary with investment discretion with respect to a plan which may invest in mortgage pool certificates, for the sale of such certificates to the plan only if (1) such purchase is expressly approved by a fiduciary independent of the pool

sponsor or pool trustee who has authority to manage and control the assets of the plan; (2) the plan pays no more for the certificates than would be paid by an unrelated party in an arm's-length transaction; (3) the plan pays no investment management, investment advisory, sales commission or similar fee to the pool sponsor with regard to such sale or acquisition; and (4) the total value of certificates purchased by plans with respect to which the pool sponsor or pool trustee is a fiduciary with investment discretion does not exceed 10% of the amount of the offering.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before any exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Request

All persons are invited to submit written comments or requests for a hearing on the proposed exemption to the address and within the time period set forth above. All comments will be

Footnotes continued from last page section 408(b)(2) of the Act and section 4975(d)(2) of the Code.

²³ As indicated in note 15, *supra*, relief is not being proposed in three areas for which PMI requested relief.

made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the applications for exemption at the address set forth above.

Proposed Exemptions

On the basis of the facts and representations set forth in the applications, the Department is considering granting the following class exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1:

I. Transactions

A. Effective January 1, 1975, the restrictions of sections 406(a) and 407 of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975(a) and (b) of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (D) of the Code shall not apply to the following transactions involving mortgage pool investment trusts (mortgage pools) and pass-through certificates evidencing interests therein:

(1) The direct or indirect sale, exchange, or transfer of certificates between the sponsor of the mortgage pool and an employee benefit plan when the sponsor or the trustee of such pool is a party in interest with respect to such plan, provided the plan pays no more than fair market value for such certificates, and provided further that the rights and interests evidenced by such certificates are not subordinated to the rights and interests evidenced by other certificates of the same mortgage pool;

(2) The repurchase from the mortgage pool by the pool sponsor of any mortgage loans as to which there is a material defect in loan documentation or a breach in a warranty made by the pool sponsor, provided that the price of such repurchase shall be not less than the principal balance of the loan being repurchased plus interest accrued at the applicable pass-through rate to the first day of the month following the month of repurchase, less any unreimbursed advances made by the pool sponsor with respect to such loan;

(3) The purchase of all loans in a mortgage pool by the pool sponsor when the value of the mortgage pool is 10 percent or less of its original aggregate principal value, provided that the price of such repurchase shall be not less than the greater of the remaining aggregate

principal value of the pool or the fair market value of the outstanding certificates, plus interest at the applicable rate of return for such certificates;

(4) The acquisition and holding by a mortgage pool of mortgage loans made to parties in interest with respect to a plan which holds certificates of such mortgage pool (an investing plan);

(5) The acquisition and holding by a mortgage pool as a result of foreclosure or deed in lieu of foreclosure of real property owned by a party in interest with respect to an investing plan;

(6) The acquisition and holding by a mortgage pool as a result of foreclosure or deed in lieu of foreclosure of real property leased to a party in interest with respect to an investing plan;

(7) Expenditures by the pool sponsor to repair property securing mortgage loans included in a mortgage pool when the pool sponsor has foreclosed on such property, or acquired such property by deed in lieu of foreclosure, and the recovery of such amounts expended by the pool sponsor from the proceeds of the sale of such property, provided that such expenditures shall be reasonable in amount;

(8) Advances from the pool sponsor to certificateholders, including investing plans, in the event of loan payment delinquencies, and the recovery of such amounts from mortgage payments later received or from insurance proceeds;

(9) The issuance of an irrevocable letter of credit by the pool sponsor to the pool trustee on behalf of the mortgage pool and the honoring of drafts drawn by the pool trustee on such letter of credit in the event of loan payment delinquencies, and the recovery of such amounts from mortgage payments later received and from the proceeds from foreclosures;

(10) The establishment and administration of a reserve fund of the pool sponsor's own assets, pursuant to the terms of the pooling and servicing agreement, to compensate certificateholders for delinquent mortgage loan payments not covered by mortgage insurance;

(11) The establishment and administration of a reserve fund, pursuant to the terms of the pooling and servicing agreement, to effect distribution preferences among different classes of certificateholders, including investing plans;

(12) Payments to senior certificateholders, including investing plans, either from a reserve fund, or from funds which would otherwise be paid to junior certificateholders;

(13) The collection and holding by the pool sponsor of individual mortgage

loan payments in a non-interest bearing account until the designated date of transfer of such payments to the pool trustee for disbursement to certificateholders, including investing plans;

(14) The payment to, and retention by, the original mortgage lender or the pool sponsor of a specified portion of the interest paid on mortgage loans included in a mortgage pool; and

(15) Where the sponsor of a mortgage pool is not the maker of the mortgage loans included in the pool, the investment by the pool sponsor for its own benefit of funds deposited by the original mortgage lender in a custodial account for principal and interest pursuant to the terms of the pooling and servicing agreement, provided that the proposed nature and duration of any such investment are fully disclosed to all prospective purchasers of certificates.

B. Effective January 1, 1975, the restrictions of section 406(b) (1) and (2) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1)(E) of the Code shall not apply to the direct or indirect sale, exchange, or transfer of certificates between the sponsor of a mortgage pool and an employee benefit plan when the sponsor or the trustee of such pool is a fiduciary with investment discretion with respect to that plan, provided that: (1) such purchase is expressly approved by a fiduciary independent of the pool sponsor or pool trustee who has authority to manage and control the assets of the plan; (2) the plan pays no more for the certificates than would be paid by an unrelated third party in an arm's-length transaction; (3) the plan pays no investment management, investment advisory, sales commission or similar fee to the pool sponsor with regard to such sale or acquisition; (4) the total value of certificates purchased by all plans with respect to which the pool sponsor or pool trustee is a fiduciary shall not exceed 10% of the amount of the offering.

C. Effective January 1, 1975, the restrictions of section 406(b)(1) of the Act and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1)(E) of the Code shall not apply to the following transactions entered with regard to mortgage pools and pass-through certificates evidencing interests therein:

(1) The payment to and retention by the pool sponsor of a specified portion of the interest paid on mortgage loans included in the mortgage pool;

(2) The collection and holding by the pool sponsor of individual mortgage

loan payments in a noninterest bearing account until the designated date of transfer of such payments to the pool trustee for disbursement to certificateholders, including investing plans; and

(3) Where the sponsor of a mortgage pool is not the original maker of the mortgage loans included in the pool, the investment by the pool sponsor for its own benefit of funds deposited by the original mortgage lender in a custodial account for principal and interest pursuant to the terms of the pooling and servicing agreement, provided that the proposed nature and duration of any such investments are fully disclosed to all prospective purchasers of certificates.

D. Effective January 1, 1975, the restrictions of sections 406(a), 406(b)(1) and (3), and 407 of the Act, and the taxes imposed by section 4975(a) and (b) of the Code by reason of section 4975(c)(1) of the Code shall not apply to the retention by the pool sponsor of prepayment, late payment and assumption fees from mortgagors of individual mortgage loans contained in the mortgage pool.

II. General Conditions

A. The following conditions apply to the transactions described in Section I above:

(1) The certificates must have been issued in a public offering registered under the Securities Act of 1933 pursuant to a firm commitment underwriting;

(2) The sponsor and trustee for each mortgage pool must maintain a system for insuring or otherwise protecting the pooled mortgage loans and the property securing such loans up to an amount equal to not less than the greater of one percent of the aggregate principal value of all covered pooled mortgages, or the principal value of the largest covered mortgage. Such a system must include:

(a) The purchasing and maintenance of hazard and mortgage insurance policies from private insurers, provided that such insurer is not an affiliate of either the sponsor or the trustee of the mortgage pool; or

(b) The organization and maintenance of a system of self-insurance based upon the creation of a subordinate class of certificates and a reserve fund to be operated generally to assure full payments to senior certificateholders; or

(c) The issuance of an irrevocable letter of credit from the pool sponsor to the pool trustee on behalf of the pool, obligating the pool sponsor to honor on a monthly basis, drafts drawn on the letter of credit in the event of loan payment delinquencies; or

(d) A combination of the above;

(3) The trustee for each mortgage pool must not be an affiliate of the sponsor of such pool, provided, however, that the trustee shall not be considered to be an affiliate of the pool sponsor solely because the trustee has succeeded to the rights and responsibilities of the pool sponsor pursuant to the terms of the pooling and servicing agreement providing for such succession upon the occurrence of one or more events of default by the pool sponsor; and

(4) The sum of all payments made to and retained by the pool sponsor in connection with a mortgage pool, and all funds inuring to the benefit of the pool sponsor as a result of the administration of the mortgage pool, must represent not more than adequate consideration for selling the mortgage loans plus reasonable compensation for services provided by the pool sponsor to the pool.

III. Definitions

A. For the purposes of this exemption the terms "sponsor" or "pool sponsor" mean:

(1) The entity which organizes and continues to service a mortgage pool comprised of mortgage loans either made by such entity or purchased directly from the original lender by such entity; and

(2) Any successor thereto.

B. For the purposes of this exception, the term "mortgage pool" means an investment pool the corpus of which:

(1) Is held in trust; and

(2) Consists solely of—

(a) Interest bearing obligations secured by first deeds of trust on single-family, residential property;

(b) Property which had secured such obligations and which has been acquired by foreclosure or deed in lieu of foreclosure; and

(c) Undistributed cash.

C. For the purposes of this exception, the terms "mortgage pool pass-through certificate," or "certificate" mean a certificate representing a beneficial undivided fractional interest in a mortgage pool and entitling the holder of such certificate to pass-through payments, on a monthly basis, of principal and interest from the pooled mortgage loans, less any fees retained by the pool sponsor.

D. For the purposes of this exemption the term "affiliate" of a person means:

(1) A person directly or indirectly, through one or more intermediaries, controlling or controlled by, or under common control with such person;

(2) An officer, director, employee or relative (as defined in section 3(15) of the Act) of such person; or

(3) A corporation of which such person is an officer or director, partner or employee.

Signed at Washington, D.C., this 29th day of April, 1980.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-336]

Northeast Nuclear Energy Co. et al; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 55 to Facility Operating License No. DPR-65 to Northeast Nuclear Energy Company, the Connecticut Light and Power Company, The Hartford Electric Light Company, and Western Massachusetts Electric Company, which revised Technical Specifications for operation of the Millstone Nuclear Power Station, Unit No. 2, located in the Town of Waterford, Connecticut. The amendment is effective as of its date of issuance.

This amendment revises the Technical Specifications to authorize low temperature testing.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 27, 1979, (2) Amendment No. 55 to License No. DPR-65, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C.

and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 29th day of April, 1980.

For The Nuclear Regulatory Commission,
Morton B. Fairtile,

*Acting Chief Operating Reactors Branch No. 4
Division of Operating Reactors.*

BILLING CODE 7590-01-M

Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 5.60, "Standard Format and Content of a Licensee Physical Protection Plan for Strategic Special Nuclear Material in Transit," identifies the information that is needed in the licensee physical protection plan for strategic special nuclear material in transit, describes the detail that is necessary for the NRC staff's evaluation of the plan, and suggests a uniform format for presenting the information.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies of active guides may be purchased at the current Government Printing Office price. A subscription service for future guides in specific divisions is available through the Government Printing Office. Information on the subscription service and current prices may be obtained by writing to the U.S. Nuclear Regulatory

Commission, Washington, D.C. 20555, Attention: Publications Sales Manager. (5 U.S.C. 552(a))

Dated at Rockville, Maryland this 29th day of April 1980.

For the Nuclear Regulatory Commission,
Robert B. Minogue,
Director, Office of Standards Development.

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards Subcommittees on Site Evaluation and Reactor Radiological Effects; Meeting

The ACRS Subcommittees on Site Evaluation and Reactor Radiological Effects will hold a joint meeting on May 21 and 22, 1980 in room 1046, 1717 H. St. NW, Washington, DC 20555 to review pertinent portions of the NRC research program for the ACRS annual reports to NRC and Congress. Notice of this meeting was published April 25, 1980.

In accordance with the procedures outlined in the *Federal Register* on October 1, 1979, (44 FR 56408), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows: *Wednesday and Thursday, May 21 and 22, 1980—8:30 a.m. until the conclusion of business each day.*

The Subcommittees may meet in Executive Session, with any of their consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting.

At the conclusion of the Executive Session, the Subcommittees will hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons.

The ACRS is required by Section 5 of the 1978 NRC Authorization Act to review the NRC research program and budget and to report the results of the review to Congress. In order to perform this review, the ACRS must be able to engage in frank discussions with members of the NRC Staff and such discussions would not be possible if

held in public sessions. In addition, it may be necessary for the Subcommittees to hold one or more closed sessions for the purpose of exploring matters involving proprietary information. I have determined, therefore, in accordance with Subsection 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463), that, should such sessions be required, it is necessary to close portions of this meeting to prevent frustration of the above stated aspect of the ACRS' statutory responsibilities and to protect proprietary information. See 5 U.S.C. 552b(c)(9)(B) and 552b(c)(4).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Peter Tam (telephone 202/634-1413) between 8:15 a.m. and 5:00 p.m., EDT.

Dated: April 29, 1980.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGEMENT

Privacy Act of 1974; Amendments to an Existing System of Records

AGENCY: Office of Personnel Management.

ACTION: Notice; revisions to an existing system of records.

SUMMARY: The purpose of this notice is to: (1) make clarifying changes in the "category of records" and "purpose" sections of this system; (2) change one of the routine uses (f.) to clarify intent and to correct an error in the text that occurred when the notice was first printed; (3) separate routine use (k.) into three new routine uses. These changes result from comments received and internal OPM discussions. They are intended to enhance understanding of this system's function and the intent of these routine uses.

COMMENT DATE: Any interested party may submit comments regarding the rewording of routine use f. and the separation of routine use k. into three routine uses. To be considered, comments must be received on or before June 5, 1980.

ADDRESS: Address comments to: Deputy Assistant Director for Work Force Information, Agency Compliance and

Evaluation (Room 6410D), Office of Personnel Management, 1900 E Street, NW., Washington, D.C. 20415. Comments received will be available for public inspection at the above address from 9 a.m. to 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: William H. Lynch, Records Management Branch, Work Force Information Division, (202) 254-9778.

SUPPLEMENTARY INFORMATION: The Office published the notice of this system of records (as OPM/CENTRAL-15) on July 6, 1979 (44 FR 39659). The required 60-day advance notice period ended on September 4, 1979, and, as stated in the notice, the system became effective on that date. The numerical designation of the system was changed to OPM/CENTRAL-13 by OPM's Federal Register notice of October 26, 1979 (44 FR 61703). The Office received one comment concerning the system that indicated uncertainty as to the categories of records actually covered by the system and the principal purposes for maintaining the system. The Office concurs in these comments and, therefore, will change these sections of the notice. Additionally, OPM has decided to modify one of the routine uses (f.) for this system and also correct a significant typographical error that occurred when this routine use was originally published. Further, the original notice contained a routine use (k.) that the Office is re-stating as three separate and clearer routine uses.

Because of OPM's agreement with the comment received, the system is hereby revised to show the new designation, to add a "Note" section to the categories of records portion of the notice, to re-word the purpose section of the notice, and to reprint routine use f. and to add routine uses k., l., and m. The changes to the "category of records" and "purpose" sections of the notice are intended to provide clearer understanding that these records are used by the Office in the exercise of its responsibilities for oversight of the Senior Executive Service that are contained in the Civil Service Reform Act of 1978. Except for providing for a public comment period on the routine uses, other changes herein made do not: (1) constitute substantial changes within the meaning of OMB instructions concerning Reports on New Systems; (2) require any public comment; and (3) are, therefore, effective immediately. The routine uses will become effective on (30 days from date of publication), without further notice unless comments received necessitate otherwise. The entire

revised sections of this system notice appear below.

Office of Personnel Management.
Kathryn Anderson Fetzer,
Assistant Issuance System Manager.

OPM/CENTRAL-13

SYSTEM NAME:

Senior Executive Service (SES) Records.

* * * * *

CATEGORIES OF RECORDS IN THE SYSTEM: THESE RECORDS INCLUDE:

- a. Demographic, appointment, and assignment information (e.g., name, date of birth, Social Security Number, race and ethnic designation, title of position, pay rate, and type of appointment);
- b. Background data on work experience, educational experience, publications or awards, and career interests;
- c. Determinations on nominees for Meritorious and Distinguished Executive ranks;
- d. Determinations concerning executive (managerial) qualifications (i.e., Qualification Review Board records);
- e. Information relating to participants (current and former) in the sabbatical leave program (e.g., dates of participation and reasons for);
- f. Applications from individuals who, within the 90-day period provided for under 5 U.S.C. 3593(b), seek reemployment in the Senior Executive Service;
- g. Information concerning the reason(s) why an individual leaves the SES (e.g., to enter private industry, to work for a State government, or removed during probation or after, because of performance); and
- h. Information about the recruitment of individuals for SES positions (e.g., recruited from another Federal agency or from outside the Federal service).

Note.—Automated and manual duplicates of records in this system, maintained by agencies for purposes of actual administration of the SES, along with any other records agencies have on SES covered individuals are not considered part of this system. Such records are considered general personnel records and are covered by the OPM/GOVT-1, General Personnel Records system.

* * * * *

PURPOSE(S):

The records are used to: (1) assist the Office in carrying out its responsibilities under title 5, U.S. Code, and Office rules and regulations promulgated thereunder, including the establishment of SES positions, by agencies, development of qualifications standards for SES

positions, establishment and operation of one or more qualifications review boards, establishment of programs to develop candidates for and incumbents of the SES, and development of performance appraisal systems; (2) pursuant to section 415 of the Civil Service Reform Act, assist the Office in meeting its mandate to evaluate the effectiveness of the Senior Executive Service and the manner in which such Service is administered; (3) provide data used in policy formulation, program planning, research studies, and required reports regarding the Government-wide SES program; and (4) locate specified groups of individuals for personnel research (while protecting their individual privacy).

Race and ethnic data are collected for statistical use only.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

- a. To identify and refer qualified current or former Federal employees to Federal agencies for vacancies in the Senior Executive Service.
- b. To refer qualified current or former Federal employees or retirees to State and local governments and international organizations for employment consideration.
- c. To provide an employing agency with extracts from the records of that agency's employees in the system.
- d. To provide information required in the annual report to Congress mandated by 5 U.S.C. 3135 and elsewhere, regarding positions in the SES and the incumbents of these positions.
- e. To provide information to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.
- f. By the Office of Personnel Management to locate individuals for personnel research or survey response and in the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained, or for related work force studies. While published studies do not contain individual identifiers, in some instances the selection of elements of data included in the study may be structured in such a way as to make the data individually identifiable by inference.
- g. To disclose information to the appropriate Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order, where the disclosing agency becomes aware of an indication of a violation or

potential violation of civil or criminal law or regulation.

h. To the National Archives and Records Service (General Services Administration) for records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

i. To disclose information to another Federal agency or to a court when the Government is party to a judicial proceeding before the court.

j. To disclose, in response to a request for discovery or for appearance of a witness, information that is relevant to the subject matter involved in a pending judicial or administrative proceeding.

k. To disclose information to officials of the Merit Systems Protection Board, including the Office of the Special Counsel, when requested in connection with appeals, special studies of the civil service and other merit systems, review of Office rules and regulations, investigations of alleged or possible prohibited personnel practices, and other functions as promulgated in 5 U.S.C. 1205 and 1206.

l. To disclose information to the Equal Employment Opportunity Commission when requested in connection with investigations into alleged or possible discrimination practices in the Federal sector, examination of Federal affirmative employment programs, compliance by Federal agencies with the Uniform Guidelines on Employee Selection Procedures, or other functions vested in that office by the President's Reorganization Plan No. 1 of 1978, and to otherwise ensure compliance with the provisions of 5 U.S.C. 7201.

m. To disclose information to the Federal Labor Relations Authority or its General Counsel when requested in connection with investigations of allegations of unfair labor practices or matters before the Federal Service Impasses Panel.

* * * * *

BILLING CODE 6325-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 21541/April 28, 1980; 70-6435]

Columbia Gas System, Inc, et al.; Proposed Intrasystem Financing

In the matter of the Columbia Gas System, Inc., 20 Montchanin Road, Wilmington, Delaware 19807; Columbia Gas Transmission Corporation, 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314; Columbia Gas of Ohio, Inc., Columbia Gas of West Virginia, Inc., Columbia Gas of

Kentucky, Inc., Columbia Gas of Virginia, Inc., Columbia Gas of Pennsylvania, Inc., Columbia Gas of New York, Inc., Columbia Gas of Maryland, Inc., 99 North Front Street, Columbus, Ohio 43215; Columbia Hydrocarbon Corporation, the Inland Gas Company, Inc., Columbia Coal Gasification Corporation, 340 17th Street Ashland, Kentucky 41101; Columbia Gulf Transmission Company, 3805 West Alabama Avenue, Houston, Texas 77027; Columbia Gas System Service Corporation, Columbia LNG Corporation, Columbia Gas Development Corporation, 20 Montchanin Road, Wilmington, Delaware 19807.

Notice is hereby given that The Columbia Gas System, Inc.

("Columbia"), a registered holding company, and its subsidiary companies named above have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 6(b), 9, 10, 12(b), and 12(f) of the Act and Rules 43 and 45 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

It is proposed that certain subsidiaries of Columbia listed below issue and sell to Columbia prior to April 1, 1981, common stock and installment promissory notes up to the amounts indicated:

	Equity		Aggregate amount	Installment notes aggregate amount	Total
	No. of shares	Par value			
Columbia of Kentucky.....				\$3,100,000	\$3,100,000
Columbia of Ohio.....				37,100,000	37,100,000
Columbia of Maryland.....	52,000	\$25	\$1,300,000	700,000	2,000,000
Columbia of New York.....				1,300,000	1,300,000
Columbia of Pennsylvania.....	184,000	25	4,600,000	10,500,000	15,100,000
Columbia of Virginia.....				2,000,000	2,000,000
Columbia of West Virginia.....				7,900,000	7,900,000
Columbia Gulf.....				45,000,000	45,000,000
Development U.S.....				13,500,000	13,500,000
Hydrocarbon.....	26,000	25	650,000	3,450,000	4,100,000
Inland.....				700,000	700,000
Coal Gasification.....	552,000	25	13,800,000	12,100,000	25,900,000
Service.....				4,200,000	4,200,000
Total.....			\$20,350,000	\$141,550,000	\$161,900,000

The installment notes will be unsecured and dated the date of their issue. The principal amounts will be due in twenty (20) equal annual installments on March 31 of each of the years 1982 and 2001, inclusive. Interest on all installment notes will accrue from the date of issuance and is to be paid semi-annually on the unpaid principal thereof until fully paid. The interest rate will be the actual cost of money to Columbia with respect to its last sale of debentures prior to the issuance of said notes, decreased by an amount necessary in order that the interest rate be a multiple of $\frac{1}{100}$ th of 1%. Columbia sold \$100,000,000 principal amount of debentures on October 17, 1979 (File No. 70-6343) at a cost of money of 11.947%, and may sell additional long-term securities during the financing period. The installment notes to be issued initially will, therefore, bear an interest rate of 11.9% and installment notes to be issued subsequent to Columbia's future financings will carry an interest rate

related to the last sale of debentures prior to the issuance of said notes. Should Columbia utilize any interim alternate financing, the interest rate of the subsidiaries' installment notes will be related to the effective cost of the last takedown of the facility; thereafter, such notes will bear interest related to the permanent financing specifically replacing such interim financing.

It is stated that the proceeds from the issuance and sale of the common stock and installment notes, together with funds generated from internal sources, will be used to finance these subsidiaries' capital expenditure programs and other corporate needs. Columbia Transmission and Columbia LNG plan to finance the entire amount of their capital expenditure programs and other corporate needs with funds generated from internal sources. The projected aggregate of net capital expenditures for all of the subsidiaries is estimated at \$418,352,000.

It is also proposed that Columbia advance on open account to certain subsidiaries, and have outstanding from time to time, up to an aggregate amount of \$454,700,000 to finance the purchase by such subsidiaries of underground storage gas inventories and miscellaneous other inventories and to use for short-term seasonal purposes. Substantially, all of such advances are expected to be taken down by December 31, 1980; however, a portion may be taken down during the period January 1, 1981, through May 31, 1981. All such advances are to be repaid on or before May 31, 1981. The open account advances will initially bear interest at the rate in effect from time to time at the agent bank for Columbia's short-term loan line of credit. Interest charges to these subsidiaries subsequently will be adjusted, after the storage financing period, to the effective cost of money Columbia achieves on its short-term borrowing for this purpose.

The proposed advances will be limited to the amount of each subsidiary's estimated short-term financing requirements as shown below:

Columbia of Kentucky.....	\$15,400,000
Columbia of Ohio.....	94,200,000
Columbia of Maryland.....	1,800,000
Columbia of New York.....	2,700,000
Columbia of Pennsylvania.....	31,400,000
Columbia of Virginia.....	2,900,000
Columbia of West Virginia.....	33,700,000
Columbia Transmission.....	145,000,000
Columbia Gulf.....	45,000,000
Development U.S.....	5,100,000
Columbia LNG.....	70,000,000
Hydrocarbon.....	2,000,000
Inland.....	1,000,000
Coal Gasification.....	3,500,000
Service.....	1,000,000
Total.....	454,700,000

The fees and expenses to be incurred in connection with the proposed transactions are estimated at \$14,100, including charges for services of Columbia Gas System Service Corporation estimated at \$7,260. It is stated that authorization for the sale of securities is required from the various state public-utility regulatory commissions for Columbia of Kentucky, Columbia of Ohio, Columbia of New York, Columbia of Pennsylvania, Columbia of Virginia, and Columbia of West Virginia.

It is requested that the companies be authorized to file certificates under Rule 24 with respect to the proposed transactions on a quarterly basis.

Notice is further given that any interested person may, not later than May 22, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he

be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Release No. 16767, April 28, 1980; SR-PSE-80-1]

Pacific Stock Exchange, Inc.; Order Approving Proposed Rule Change

In the matter of Pacific Stock Exchange Incorporated, 301 Pine Street, San Francisco, CA 94104.

On March 12, 1980, the Pacific Stock Exchange Incorporated ("PSE") filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) ("Act") and Rule 19b-4 thereunder, copies of a proposed rule change which adopts a set of rules that would conform its rules on arbitration¹ to the Uniform Code of Arbitration ("Code")² which was drafted by the Securities Industry Conference on Arbitration ("SICA")³ and which

¹ For the PSE's former arbitration rules, see PSE Rule XII. PSE Manual (CCH paragraphs 5300-5345, at pages 3127-3127.7).

² The Code was published on December 28, 1979, as the *Second Report of the Securities Industry Conference on Arbitration to the Securities and Exchange Commission*.

³ The SICA was organized on April 5, 1977, pursuant to the Commission's stated position that there was a need to implement a nationwide investor dispute resolution system. See Securities Exchange Act Release No. 12528 (June 9, 1976), 9 SEC Docket 833 (June 23, 1976), 41 FR 23803 (June 11,

provides arbitration procedures for the settlement of disputes arising between customers and broker-dealers. The proposal deletes or amends the existing PSE arbitration rules and adopts the entire Code as new PSE Rule XII. The proposal incorporates the simplified arbitration procedures that were drafted by the SICA and adopted by the PSE on June 22, 1978,⁴ regarding small claims not exceeding \$2,500.⁵ Additionally, the new arbitration rules will apply to claims between PSE members as well as to claims against members raised by customers and non-members.⁶

The purpose of this proposal is to provide investors with a simple and inexpensive procedure for resolution of their controversies with broker-dealers who are members of the PSE. Further, the proposal anticipates that the Code will be adopted by other self-regulatory organizations thereby providing a uniform system of arbitration throughout the securities industry.⁷

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by issuance of a Commission Release ((Securities Exchange Act Release No. 16706 (March 28, 1980), 19 SEC Docket 1090 (April 15, 1980)), and by publication in the *Federal Register*, 45 FR 23563 (April 7, 1980). No comments were received with respect to the proposed rule filing.

1976); Securities Exchange Act Release No. 13470 (April 26, 1977), 12 SEC Docket 186 (May 10, 1977), 42 FR 23892 (May 11, 1977).

The SICA members consist of: the American Stock Exchange, Inc.; the Boston Stock Exchange, Incorporated; the Chicago Board Options Exchange, Incorporated; the Cincinnati Stock Exchange; the Midwest Stock Exchange, Incorporated; the Municipal Securities Rulemaking Board; the National Association of Securities Dealers, Inc.; the New York Stock Exchange, Inc.; the Pacific Stock Exchange Incorporated; the Philadelphia Stock Exchange, Inc., as well as the Securities Industry Association and three public representatives.

⁴ Securities Exchange Act Release No. 14881, 15 SEC Docket 103 (July 5, 1978), 43 FR 28273 (June 29, 1978).

⁵ See new PSE Rule XII, Section 2.

⁶ See new PSE Rule XII, Section 1(a).

⁷ The Code has already been adopted by the New York Stock Exchange, Inc. ((Securities Exchange Act Release No. 16290 (November 30, 1979), 18 SEC Docket 1197 (December 18, 1979)); the Cincinnati Stock Exchange ((Release No. 16472 (January 22, 1980), 45 FR 2722 (January 14, 1980)); the American Stock Exchange, Inc. ((Release No. 16502 (January 16, 1980), 19 SEC Docket 326 (January 29, 1980), 45 FR 5863 (January 24, 1980)); the Midwest Stock Exchange, Incorporated ((Release No. 16503 (January 16, 1980), 19 SEC Docket 327 (January 29, 1980), 45 FR 5860 (January 24, 1980)); the Municipal Securities Rulemaking Board ((Release No. 16570 (February 13, 1980), 19 SEC Docket 573 (February 26, 1980), 45 FR 11291 (February 20, 1980)); the Chicago Board Options Exchange, Incorporated ((Release No. 16606 (February 25, 1980), 19 SEC Docket 759 (March 11, 1980), 45 FR 15352 (March 10, 1980)); and the Boston Stock Exchange, Incorporated ((Release No. 16671 (March 17, 1980), 19 SEC Docket 922 (April 1, 1980), 45 FR 19705 (March 26, 1980)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges and, in particular, the requirements of Section 6(b)(5) of the Act that the rules of an exchange be designed to promote just and equitable principles of trade.⁹

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

[FR Doc. 80-13760 Filed 5-5-80; 8:45 am]

BILLING CODE 8010-01-M

[Rel. No. 21540, April 28, 1980; 70-6428]

System Fuels, Inc., et al.; Financing Arrangements Related to the Purchase of Fuel by a Nonutility Subsidiary for Use by Operating Companies

In the matter of System Fuels, Inc., 666 Poydras, Noro Plaza, New Orleans, Louisiana 70130, Arkansas Power & Light Company, First National Building, Little Rock, Arkansas 72203, Louisiana Power & Light Company, 142 Delaronde Street, New Orleans, Louisiana 70174, Mississippi Power & Light Company, Electric Building, Jackson, Mississippi 39205, New Orleans Public Service, Inc. 317 Baronne Street, New Orleans, Louisiana 70112.

Notice is hereby given that Arkansas Power & Light Company, Louisiana Power & Light Company, Mississippi Power & Light Company, and New Orleans Public Service Inc. (collectively, the "Operating Companies"), all public utility subsidiary companies of Middle South Utilities, Inc. ("Middle South"), a registered holding company, together with System Fuels, Inc. ("SFI"), a jointly-owned nonutility subsidiary company of the Operating Companies, have filed a declaration and amendments thereto in this proceeding pursuant to Sections 6(a), 7, 12(b) and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 45 and 50(a)(5) promulgated thereunder as applicable to

the following proposed transactions. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transactions.

The Operating Companies and Arkansas-Missouri Power Company ("Ark-Mo") obtain their fuel oil requirements from SFI pursuant to the terms of the Liquid Fuel Purchase Contract, as amended, among them. Pursuant to Commission authorization in File Nos. 70-5259, 70-5415 and 70-6055, SFI has financed its acquisition of fuel oil for resale to the Operating Companies and Ark-Mo by the sale of up to \$75,000,000 of its notes to Hibernia National Bank in New Orleans ("Hibernia") and up to \$40,000,000 of its notes to Citibank, N.A. ("Citibank") under amended loan agreements, and through the execution and delivery by SFI and the acceptance by Citibank of SFI's drafts in amounts up to \$50,000,000 pursuant to an acceptance facility line of credit agreement, as amended, with Citibank.

To assure the availability of an adequate supply of fuel oil through May 31, 1981 to the Operating Companies and Ark-Mo, SFI presently estimates that it will be necessary to maintain oil inventory of approximately 4.9 million bbls., valued at as much as \$133 million. In order to consolidate its financing of its fuel oil inventory, to lower the costs of such financing and to meet its commitment (set forth in File No. 70-6097) to endeavor to obtain funds for its corporate purposes from external sources under advantageous arrangements in lieu of borrowing from the Operating Companies, SFI proposes to enter into a loan agreement ("Loan Agreement") with a nonaffiliated company ("Finance Company") to be created for that purpose.

Finance Company will, upon request, make loans to SFI in amounts not to exceed \$100,000,000 at any one time outstanding out of the proceeds of commercial paper notes ("Notes") issued and sold by Finance Company and revolving credit loans ("Bank Borrowings") obtained by Finance Company under a credit agreement ("Credit Agreement") with Bank of America National Trust and Savings Association ("Bank"). The aggregate amount of Finance Company's Notes and Bank Borrowings at any time outstanding may not exceed \$100,000,000. All loans to SFI will be from the proceeds of Notes ("A Loans"), unless Finance Company is advised by its commercial paper dealer, The First Boston Corporation ("Dealer"), to seek a financing alternative to the sale of

Notes, or Notes may no longer be issued under the Credit Agreement for regulatory reasons. Upon the occurrence of these events, Finance Company will make loans from the proceeds of Bank Borrowings ("B Loans") to SFI. If no funds are available to pay a maturing A Loan and as a result a drawing under the Letter of Credit described below is made and is not reimbursed on the date when made, such A Loan automatically becomes a B Loan.

A Loans will be evidenced by a Master A Note and will bear the same discount and maturities as the Notes from which they are derived. Finance Company will issue its Notes to Dealer and the Notes will be sold at a discount not in excess of the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and like maturity. Notes will be unsecured with varying maturities not to exceed 270 days. The Notes will not be prepayable prior to maturity and will be payable at maturity at the office of Irving Trust Company ("Depository"), as issuing and paying agent under a Depository Agreement. Bank will issue an irrevocable Letter of Credit to Depository pursuant to the Credit Agreement as a standby source of funds for the repayment of the Notes in the event they are not repaid by Finance Company at maturity. It is anticipated that the Notes will be held by the buyers to maturity. Dealer may, if desired by a buyer, repurchase the Notes for resale to others.

B Loans will be evidenced by a Master B Note and will bear the same interest rate and have the same maturity as the Bank Borrowings from which they are derived. Bank Borrowings will bear interest from the date thereof on the unpaid principal amount thereof at an interest rate per annum equal to $\frac{3}{4}\%$ plus 107% of the Base Rate. The Base Rate is the greater of (a) Bank's prime rate determined on a daily basis, for 90-day commercial loans to its largest most credit-worthy commercial borrowers or (b) the latest 3-week moving average interest rate payable on 90-day secondary certificates of deposit as published weekly by the Board of Governors of the Federal Reserve System plus actual costs of reserves to Bank. Bank borrowings will be due and payable on May 31, 1981 or one year from the date of closing, whichever is earlier ("Credit Expiration Date"). The Credit Expiration Date may be extended for one year periods. Bank borrowings not paid when due or arising after the Credit Expiration Date will bear interest at $\frac{3}{4}\%$ plus 120% of the Base Rate.

⁹The Commission emphasizes, however, that notwithstanding the proposed rule change, arbitration clauses contained in customers' agreements that purport to bind customers to arbitrate all future disputes raising claims under the federal securities laws cannot be enforced against those customers who choose to obtain a judicial determination of such claims. See Securities Exchange Act Release No. 15984 (July 2, 1979), 17 SEC Docket 1167 (July 17, 1979), 44 FR 40462 (July 10, 1979).

The effective cost to SFI based upon the interest rates for commercial paper of comparable quality and like maturity together with all fees to be paid by SFI to Finance Company to secure A Loans and B Loans would be approximately 18.576%. The composite effective cost of borrowing pursuant to the two arrangements with Citibank is approximately 20.305%.

Upon consummation of the arrangements with Finance Company, SFI may terminate either or both of its arrangements with Citibank. Upon five days written notice, Finance Company may terminate the Credit Agreement and SFI may terminate the Loan Agreement. SFI may prepay all loans in whole or in part without penalty or premium.

SFI will maintain an account ("SFI Account") with Irving Trust Company, among other things, for receipt of loans from Finance Company. Funds in the SFI Account may be used (1) to retire a portion of SFI's indebtedness to Hibernia and all or a portion of its indebtedness to Citibank, (2) to finance acquisition and storage of fuel oil, (3) to pay maturing debt and other obligations under the Loan Agreement, and (4) to make temporary investments pending use of funds for aforesaid purposes.

Pursuant to the terms of the Loan Agreement and as security for the performance by SFI of its obligations to Finance Company thereunder, SFI will enter into a Security Agreement with Finance Company ("Security Agreement") whereby it will grant Finance Company a security interest in SFI's fuel oil inventory in storage at specified locations in the States of Arkansas and Mississippi, together with proceeds thereof, and in SFI's accounts receivable arising out of the sale of such fuel oil inventory and fuel oil inventory in storage at specified locations in the State of Louisiana. SFI will enter into an Act of Collateral Chattel Mortgage ("Chattel Mortgage") and execute and deliver in pledge to Finance Company a demand Louisiana Collateral Mortgage Note ("Louisiana Note") in the principal amount of \$125,000,000 pursuant to a Pledge Agreement ("Pledge Agreement") in order to grant Finance Company a security interest in SFI's fuel oil inventory in storage at specified locations in the State of Louisiana. SFI will also enter into a Statement of Assignment of Accounts Receivable ("Assignment of Accounts Receivable") in furtherance of the grant of the security interest in the accounts receivable. SFI will be required to prepay the A Loans or B Loans if the value of the fuel oil inventory and

accounts receivable arising out of sales of the fuel oil inventory under the Purchase Contract fails to exceed the aggregate outstanding principal amounts of A Loans and B Loans. It is also contemplated that Finance Company will be granted a security interest in all funds on deposit in the SFI Account and that payments under the Purchase Contract among Operating Companies, Ark-Mo and SFI will be paid into the SFI Account.

To secure the obligations of Finance Company to Bank under the Credit Agreement and its performance of and compliance with the terms of the Credit Agreement, Finance Company will enter into an Assignment Agreement ("Assignment Agreement") with Bank whereby Finance Company will irrevocably assign, transfer and set over to Bank and grant Bank a security interest in, (a) the full principal amount of the A Note and the B Note, together with all interest and interest penalty payments thereon, all accounts in which Finance Company has an interest under the Loan Agreement, including the SFI Account and all other amounts which Finance Company may be entitled to receive pursuant to the Loan Agreement; (b) all other amounts payable by SFI to Finance Company pursuant to the Security Agreement; and (c) all rights, claims, powers, privileges and remedies of Finance Company consequent on any failure on the part of SFI to perform or comply with any term of the Loan Agreement, the A Note or B Note and the Security Agreement.

SFI will execute an Acknowledgment of Assignment ("Acknowledgment of Assignment") to Bank and Finance Company which provides that SFI will pay, or cause to be paid, all amounts assigned pursuant to the Assignment Agreement directly to the SFI Account so long as no event of default under the Credit Agreement, or an event which with lapse of time or the giving of notice or both would constitute an event of default, has occurred and is continuing. If such an event of default or other event has occurred and is continuing, all such amounts will be paid, or caused to be paid, by SFI, into a General Account maintained with Depository. Under the Acknowledgement of Assignment, SFI will agree to indemnify Bank under certain circumstances.

SFI will enter into an Assignment Agreement with Finance Company ("Finance Company Assignment") which provides for the irrevocable assignment by Finance Company to SFI of all rights, claims, powers, privileges and remedies of Finance Company under the Credit Agreement, consequent

on any failure by Bank to perform or comply with any term of the Credit Agreement.

As an inducement to Finance Company to enter into the Loan Agreement with SFI, each of the Operating Companies proposes to join with SFI as a party to the Loan Agreement and to severally covenant and agree for the benefit of Finance Company and Bank that, (a) the aggregate amounts of the Operating Companies' investments, as defined in the Loan Agreement ("Investments"), in SFI will at all times during the term of the Loan Agreement be equal to at least 35% of the sum of investments and other indebtedness for borrowed money of SFI maturing after one year, and (b) it will not (i) create, incur, assume or suffer to exist any indebtedness, as defined in the Loan Agreement ("Indebtedness"), of SFI to such Operating Company which, by its terms, matures or is required to be prepaid or repaid, in whole or in part, on or before 75 days after the Loan Agreement Credit Expiration Date, (ii) accelerate or permit the acceleration of any Indebtedness of SFI to such Operating Company during the term of the Loan Agreement and (iii) during the term of the Loan Agreement request or permit the prepayment of any Indebtedness of SFI to such Operating Company if an event of default under the Loan Agreement, or other event which with lapse of time or notice or both would become such an event of default, has occurred and is continuing, or if the prepayment of such Indebtedness would result in such an event of default or other event. SFI may at any time prepay any Indebtedness to any Operating Company, provided no such event of default or other event has occurred and is then continuing, and provided further that the prepayment of such Indebtedness would not thereby create such an event of default or other event. Each of the Operating Companies will also severally covenant and agree (in proportion to its percentage ownership of SFI common stock on the date of the Loan Agreement) that it will take any and all action necessary to keep SFI in a sound financial condition and to place SFI in a position to discharge, and to cause SFI to discharge, its obligations under the Loan Agreement, the A Note, the B Note, the Depository Agreement, the Security Agreement and the Acknowledgment of Assignment.

Concurrently with the execution and delivery of the Loan Agreement and the Credit Agreement, SFI, the Operating Companies, Ark-Mo, Bank, Depository and Dealer, will enter into a Bankruptcy

No Petition Agreement, in which the parties will agree that none of them will institute any Federal or State bankruptcy, reorganization, liquidation or similar proceeding against Finance Company or join in or be a party to such proceeding for a specified period of time after the date on which all Notes have been paid in full.

The companies request exemption from the competitive bidding requirements of Rule 50(b) pursuant to paragraph (a)(5) thereof with respect to the execution and delivery by SFI of its notes. The companies propose to file the requisite certificates of notification under Rule 24 covering the proposed transactions on a quarterly basis.

The fees and expenses to be incurred in connection with the proposed transactions are estimated not to exceed \$65,000, including charges for services, at cost, of Middle South Services, Inc., estimated at \$13,000, and legal fees incurred by SFI estimated not to exceed \$50,000. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. Arkansas Power & Light Company must file pertinent information relating to its participation with the Arkansas Public Service Commission.

Notice is further given that any interested person may, not later than May 21, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulations, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Rel. No. 16771; SR-Amex-80-10]

American Stock Exchange, Inc.; Filing of Proposed Rule Change and Order Approving Proposed Rule Change

April 30, 1980.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) ("Act"), notice is hereby given that on April 30, 1980, the American Stock Exchange, Inc. ("Amex") 86 Trinity Place, New York, New York 10006, filed with the Commission copies of a proposed rule change to amend its Rule 114 governing registered equity market makers. Amex Rule 114 currently contains a "sunset" provision under which the rule would expire on April 30, 1980, unless extended by a rule of the exchange approved by the Commission. The Amex previously filed a proposed rule change to remove the sunset provision and thereby make Rule 114 permanent. The Commission, however, has determined to institute proceeding to determine whether that rule change should be disapproved. The purpose of the instant rule proposal is to extend the effectiveness of Rule 114 until 30 days after those proceedings are concluded.

Interested persons are invited to submit written data, views and arguments concerning the submission within 21 days from the date of this publication. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. SR-Amex-80-10.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and of all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room, 1100 L Street, N.W., Washington, D.C.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the

rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6, and the rules and regulations thereunder.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof, in that unless extended by the Commission, Amex Rule 114 would expire on April 30, 1980. Accelerated approval of the rule change will preserve the status quo pending a final resolution of the Commission's proceedings to determine whether Amex Rule 114 should be disapproved.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

[FR Doc. 80-13916 Filed 5-5-80; 8:45 am]
BILLING CODE 8010-01-M

[Rel. No. 11143; 812-4542]

Bear, Stearns & Co., et al.; application

April 29, 1980.

Notice is hereby given that Bear, Stearns & Co. ("Bear, Stearns"), a partnership formed under the laws of New York, Municipal Securities Trust, Series 1 and subsequent series ("Municipal"), New York Municipal Trust, Series 1 and subsequent series ("New York Municipal"), and A Corporate Trust, Series 1 and subsequent series ("Corporate") 55 Water Street, New York, New York 10041, (Municipal, New York Municipal and Corporate, as well as unit investment trusts organized and sponsored by Bear, Stearns in the future, are collectively referred to as the "Trusts"), each registered under the Investment Company Act of 1940 ("Act") as a unit investment trust (Trusts and Bear, Stearns are collectively referred to as "Applicants"), filed an application on October 1, 1979, and amendments thereto on December 13, 1979, and February 1, 1980, pursuant to Section 6(c) of the Act, for an order of the Commission exempting certain transactions from the provisions of Section 22(d) of the Act and pursuant to Section 11(a) of the Act, for an order approving certain exchanges.

All interested persons are referred to the application on file with the Commission for a statement of the

representations contained therein, which are summarized below.

Applicants state that Bear, Stearns is the sponsor of successive series of Municipal, New York Municipal and Corporate, each series being a separate unit investment trust. According to the application, the underlying portfolios of Municipal consist of general market tax exempt bonds; the underlying portfolios of New York Municipal consist of New York and Puerto Rico tax exempt bonds; and the underlying portfolio of Corporate consists of taxable bonds of corporations and governmental entities. Additionally, the application states that units of each Trust are distributed to the public through an underwriting syndicate (with Bear, Stearns accounting for the largest distribution to retail customers), with a sales charge of 4½% (approximately \$45 per unit), which is modified by a volume discount of \$5 per unit on purchases of 100 to 499 units, \$10 per unit on purchases of 500 to 999 units and \$20 per unit on purchases of 1,000 units or more by the same person during the initial public offering period. Moreover, Applicants state that although not obligated to do so, Bear, Stearns has maintained and intends to maintain in the future a secondary market in units of each Trust based upon the aggregate offering price of the underlying bonds in each Trust. As stated by Applicants, units purchased by Bear, Stearns in the secondary market may be reoffered to the public at the then current aggregate offering price of the underlying bonds plus the applicable sales charge or Bear, Stearns may tender the shares to the Trustee for redemption; absent the maintenance of a secondary market by Bear, Stearns, units of the Trust could be tendered to the Trustee for redemption at any time, but the redemption price is based on the aggregate bid price of the underlying bonds which is generally 1½ to 2% below the aggregate offering price of the bonds.

Applicants have requested an exemption from the provisions of Section 22(d) of the Act and approval under Section 11(a) of the Act to permit unit owners of "Redemption Trust" to participate in a proposed "Conversion Offer." As stated in the application, Redemption Trusts are registered unit investment trusts for which no active secondary markets in units of such Trusts exist. According to the application, all unit owners of all Redemption Trusts will be eligible to participate in the Conversion Offer, regardless of whether any such unit owner are or were retail customers of Bear, Stearns or whether of not Bear,

Stearns participated as an underwriter or selling dealer in the original public offering of any units of such Redemption Trust. Applicants state that under the Conversion Offer unit owners of Redemption Trusts, following a redemption of such units, will be permitted to apply the redemption proceeds toward the purchase of units of any of the Trusts at the net offering side evaluation of such units, plus a fixed sales charge of \$15 per unit.

The proposed Conversion Offer, as stated by Applicants, will be effected in the following manner. The Conversion Offer will be made by means of the current prospectus for each Trust. When a unit owner of a Redemption Trust indicates interest in the Conversion Offer, either directly to Bear, Stearns or indirectly through a retail broker, the unit owner will be furnished a current prospectus of the Trust describing the Conversion Offer. The unit owner who elects to participate in the Conversion Offer will then place two orders with his retail broker: (1) an order to redeem the Redemption Trusts units (the customer must then deliver his Redemption Trust unit certificates to his broker to be turned in to the trustee for redemption) and (2) an order to purchase units of any of the Trusts. The broker, in effecting this purchase, must certify to Bear, Stearns that the purchase is made pursuant to the Conversion Offer, thereby entitling the customer to the \$15 per unit fixed sales charge rather than the full sales load charged on Trust units sold in regular transactions. Applicants also state that under the Conversion Offer, units of the Trusts will be sold at the current per unit offering side evaluation; that such trust units may be from either a current primary distribution or from, Bear, Stearns's secondary market; and that Redemption Trust unit owners participating in the Conversion Offer may purchase only up to the nearest whole number of units of any Trust that is equal to but not more in value than, the redemption proceeds.

Applicants have also requested an exemption from the provisions of Section 22(d) of the Act and approval under Section 11(a) of the Act to permit Applicants to offer to unit owners of any of the Trusts in which Bear, Stearns is maintaining an active secondary market an "Exchange Privilege." Applicants state that pursuant to this Exchange Privilege, Trust unit owners would be entitled to sell units of a Trust to Bear, Stearns and simultaneously purchase from Bear, Stearns units of another Trust at a fixed, reduced sales charge of \$15, provided that: (1) Bear, Stearns is maintaining a secondary market in the

units of the Trust held by the unit owner, and (2) units of the "Exchange Trust" (the Trust into which the unit owner wishes to convert) are available for sale, either from the initial public offering or in the secondary market. Applicants also state that the price of both the repurchase of the original units and the purchase of the Exchange Trust units will be based on the aggregate offering side evaluation of the units in the respective Trust. Applicants state that although Bear, Stearns has indicated that it intends to maintain a secondary market for the units of all Trusts sponsored by it, it is under no obligation to continue the maintenance of such a market and expressly reserves the right to discontinue the secondary market for any Trust or series thereof.

According to the application, the Exchange Privilege will operate in the following manner: (1) the unit owner must notify Bear, Stearns of his desire to sell his units and to apply the proceeds from the sale to the purchase of units of an Exchange Trust; (2) if units of one or more Exchange Trusts are available for sale at that time, the unit owner will be provided a current prospectus relating to each Exchange Trust in which he indicates interest; (3) if the unit owner elects to exercise the Exchange Privilege, his units will be repurchased at a price based on the aggregate offering side evaluation of the underlying bonds of the Trust, and units of the Exchange Trust will be sold at a price based on the aggregate offering side evaluation of the underlying bonds in the Exchange Trust, plus accrued interest and a \$15 sale charge. Applicants state that transactions effected pursuant to this Exchange Offer will be effected only in whole units; that any proceeds not used to acquire whole units will be remitted to the selling unit owner.

As stated in the application, Bear, Stearns reserves the right to increase the sales charge on both the Conversion Offer and the Exchange Privilege in the future if the proposed charge should prove to be inadequate. Applicants state, however, that any such increase will only be made to reflect actual cost increases and expenses of administering the program and in no event will the sales charge be increased from \$15 a unit to more than \$20 per unit.

Section 11(a) of the Act provides, in part, that it shall be unlawful for any registered open-end investment company or any principal underwriter for such company to make, or to cause to be made, an offer to the holder of a security of such company or of any other open-end investment company to

exchange such security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) of the Act provides, among other things, that the provisions of Section 11(a) shall be applicable, irrespective of the basis of the exchange, to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current public offering price described in the prospectus.

Applicants submit that the proposed \$15 per unit sales charge will fairly and adequately compensate Bear, Stearns and the participating underwriters and brokers for their services and expenses and will be apportioned as follows: Bear, Stearns will retain \$10 per unit on each transaction and pass on a broker's allowance of \$5. Applicants indicate that this is approximately the same net return to Bear, Stearns as it realizes from sales of units in the primary distribution of a newly organized Trust at a 4½ percent full sales charge (approximately \$45) after deducting the broker's discount of \$30 and absorbing the organizational, advertising and selling expenses incurred in connection with the organization, registration and public offering of each new Trust. Applicants also submit that the \$5 allowed the broker fairly compensates the broker for its advice and services, as unit owners of existing trusts are customers whose essential investment needs have been identified and who have been educated regarding the nature of an investment in a unit investment trust. Thus, it is expected that: (1) they will require less advice than an investor acquiring an interest in an entirely different kind of investment and (2) there may be no need to prepare special advertising or sales literature.

Applicants submit that the Conversion Offer and Exchange Privilege would benefit the unit owners by enabling investors whose investment needs or tax situation may have changed to convert their investments at a reduced sales charge. Applicants also submit that allowing investors to purchase units of a Trust at a reduced sales charge is fair also to investors who purchase or have purchased units of the Trusts in regular transactions subject to the full

sales charge, as participants in the Conversion Offer or Exchange Privilege already have paid a full sales load on their original purchase of units.

Applicants further submit that the Conversion Offer will have a minimal, if any, competitive effect on the unit trust market and will not cause a significant acceleration in the redemption rate of Redemption Trust units for the following reasons: (1) the Conversion Offer will be available only to a very limited class of people (those holding units of Redemption Trusts); (2) those persons will not be induced or encouraged to participate in the Conversion Offer through an active advertising or sales campaign; rather, Bear, Stearns anticipates that eligible investors will be made aware of the program through their retail brokers in response to customers' inquiries as to an opportunity to convert their investment to an active, ongoing unit trust without having to suffer the economic loss of redeeming units at the bid side and, in addition, having to pay a full sales load on the purchase of units of an active trust; and (3) the Conversion Offer program is, thus, more in the nature of a service to investors.

Moreover, Applicants submit that the Conversion Offer program will not have the effect of encouraging competing sponsors of unit trusts to go after the customers of their active unit trusts because, by definition of the Conversion Offer, the sponsors of Redemption Trusts are no longer maintaining a service that is vital to the continued existence of the trusts (by discontinuing the secondary market, they have insured that the size of the trusts will be reduced to meet redemptions and that eventually, when each trust drops below the minimum liquidation amount, it may be liquidated in total by the sponsor and the trustee). Applicants contend that if a sponsor is concerned about any loss of customers through the Conversion Offer, it merely has to reinstitute a secondary market in the trust and the unit holders will no longer be in the class eligible to participate in the Conversion Offer.

Section 6(c) of the Act provides, in part, that the Commission may exempt any person, security, or transaction, or any class of classes of persons, securities or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than

May 22, 1980, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Rel. No. 11148; 812-4648]

Liquid Capital Income, Inc.; Application
April 30, 1980.

Notice is hereby given that Liquid Capital Income, Inc. ("Applicant"), 831 National City Bank Building, Cleveland, Ohio 44114, an open-end, non-diversified investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on April 3, 1980, for an Order of the Commission, pursuant to Section 6(c) of the Act, exempting Applicant from the provisions of Section 2(a)(41) of the Act and Rules 2a-4 and 22c-1 thereunder to the extent necessary to permit Applicant to compute its net asset value per share using the amortized cost method of valuing its portfolio securities. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it is a "money market" fund and that it invests

exclusively in various high-grade money market instruments maturing in one year or less, including securities issued or guaranteed by the United States Government or its agencies and instrumentalities, obligations of qualifying banks and savings and loans, high-grade commercial paper, certain corporate debt obligations, and instruments (including repurchase agreements) secured by such obligations.

Applicant states that experience indicates that two features are necessary in a "money market" fund: (1) certainty of stability of principal and (2) steady flow of predictable and competitive investment income. Applicant asserts that by maintaining a portfolio of high quality, short-term money market instruments valued at amortized cost it can provide those features to investors. Applicant maintains that experience has shown that, given the unique nature of Applicant's policies and operations, there should be a negligible discrepancy between prices obtained using the amortized cost method and those obtained using a market valuation method. Applicant represents that its Board of Directors has determined that, in light of the characteristics of Applicant, the amortized cost method of valuation of portfolio instruments is appropriate and preferable to the use of a market based valuation method and that use of such method is in the best interests of its shareholders.

As here pertinent, Section 2(a)(41) of the Act defines value to mean: (1) with respect to securities for which market quotations are readily available, the market value of such securities, and (2) with respect to other securities and assets, fair value as determined in good faith by Applicant's Board of Directors. Rule 22c-1 adopted under the Act provides, in part, that no registered investment company or principal underwriter therefor issuing any redeemable security shall sell, redeem or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Rule 2a-4 adopted under the Act provides, as here relevant, that the "current net asset value" of a redeemable security issued by a registered investment company used in computing its price for the purposes of distribution, redemption and repurchase shall be an amount which reflects calculations made substantially in accordance with the provisions of that

rule, with estimates used where necessary or appropriate. Rule 2a-4 further states that portfolio securities with respect to which market quotations are readily available shall be valued at current market value, and other securities and assets shall be valued at fair value as determined in good faith by the board of directors of the registered company. Prior to the filing of the application, the Commission expressed its view that, among other things, (1) Rule 2a-4 under the Act requires that portfolio instruments of "money market" funds be valued with reference to market factors, and (2) it would be inconsistent, generally, with the provisions of Rule 2a-4 for a "money market" fund to value its portfolio instruments on an amortized cost basis (Investment Company Act Release No. 9786, May 31, 1977).

Section 6(c) provides, in pertinent part, that the Commission, upon application may conditionally or unconditionally exempt any person, security or transaction or any class or classes of persons, securities or transactions from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant requests an order, pursuant to Section 6(c) of the Act, exempting it from the provisions of Section 2(a)(41) of the Act and Rules 2a-4 and 22c-1 thereunder to the extent necessary to permit it to value its assets using the amortized cost method of valuation.

Applicant submits that issuance of the requested order is consistent with the exemptive standards of Section 6(c) of the Act. In addition, Applicant has agreed to the imposition of the following conditions to any order granting the exemptive relief requested:

(1) In supervising Applicant's operations and delegating special responsibilities involving portfolio management to Applicant's investment adviser, Applicant's Board of Directors undertakes—as a particular responsibility within the overall duty of care owed to its stockholders—to establish procedures reasonably designed, taking into account current market conditions and Applicant's investment objectives, to stabilize Applicant's net asset value per share, as computed for the purpose of distribution, redemption and repurchase at \$1.00 per share.

(2) Included within the procedures to be adopted by the Board of Directors shall be the following:

(a) Review by the Board of Directors, as it deems appropriate and at such intervals as are reasonable in light of current market conditions, to determine the extent of deviation, if any, of Applicant's net asset value per share as determined by using available market quotations from the \$1.00 amortized cost price per share, and maintenance of records of such review.¹

(b) In the event such deviation from the \$1.00 amortized cost price per share exceeds ½ of 1%, a requirement that the Board of Directors will promptly consider what action, if any, should be initiated.

(c) Where the Board of Directors believes the extent of any deviation from Applicant's \$1.00 amortized cost price per share may result in material dilution or other unfair results to investors or existing stockholders, it shall take such action as it deems appropriate to eliminate or to reduce to the extent reasonably practicable such dilution or unfair results, which may include redeeming shares in kind; selling portfolio instruments prior to maturity to realize capital gains or losses, or to shorten Applicant's average portfolio maturity; withholding dividends; or utilizing a net asset value per share as determined by using available market quotations.

(3) Applicant will maintain a dollar-weighted average portfolio maturity appropriate to its objective of maintaining a stable net asset value per share; provided, however, that Applicant will not (a) purchase any instrument with a remaining maturity of greater than one year, or (b) maintain a dollar-weighted average portfolio maturity in excess of 120 days.²

(4) Applicant will record, maintain and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) described in condition 1 above, and Applicant will record, maintain and preserve for a period of not less than six

¹To fulfill this condition, Applicant intends to use actual quotations or estimates of market value reflecting current market conditions chosen by its Board of Directors in the exercise of its discretion to be appropriate indicators of value which may include, *inter alia*, (1) quotations or estimates of market value for individual portfolio instruments, or (2) values obtained from yield data relating to classes of money market instruments published by reputable sources.

²In fulfilling this condition, if the disposition of a portfolio instrument results in a dollar-weighted average portfolio maturity in excess of 120 days, Applicant will invest its available cash in such a manner as to reduce its dollar-weighted average portfolio maturity to 120 days or less as soon as reasonably practicable.

years (the first two years in an easily accessible place) a written record of the Board of Directors considerations and actions taken in connection with the discharge of its responsibilities, as set forth above, to be included in the minutes of the board's meetings. The documents preserved pursuant to this condition shall be subject to inspection by the Commission in accordance with Section 31(b) of the Act as though such documents were records required to be maintained pursuant to rules adopted under Section 31(a) of the Act.

(5) Applicant will limit its portfolio investments, including repurchase agreements, to those U.S. dollar-denominated instruments which its Board of Directors determines present minimal credit risks, and which are of high quality as determined by any major rating service or, in the case of any instrument that is not rated, of comparable quality as determined by the Board of Directors.

(6) Applicant will include in each quarterly report, as an attachment to Form N-1Q, a statement as to whether any action pursuant to condition 2(c) above was taken during the preceding fiscal quarter, and, if any action was taken, will describe the nature and circumstances of such action.

Notice is further given that any interested person may, not later than May 27, 1980, at 5:30 p.m., submit to the commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Rel. No. 21543; 70-5805]

**Maine Yankee Atomic Power Co.;
Proposed Issue and Sale of Notes and
Issue of Guarantees by Jointly-Owned
Subsidiary Company, Request for
Exception From Competitive Bidding**

April 30, 1980.

Notice is hereby given that Maine Yankee Atomic Power Company ("Maine Yankee"), 9 Green Street, Augusta, Maine 04330, an electric utility and indirect subsidiary company of both New England Electric System and Northeast Utilities, both registered holding companies, has filed with this Commission a post-effective amendment to its application previously filed and amended in this matter pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, as amended by said post-effective amendment, which is summarized below, for a complete statement of the proposed transaction.

By prior order in this proceeding (HCAR No. 19657, August 23, 1976), Maine Yankee was authorized to issue and sell up to \$35,000,000 aggregate principal amount of promissory notes to MYA Fuel Company ("Fuel Company"), a subsidiary of BSC Holdings Inc. ("BSC").

By post-effective amendment Maine Yankee requests authority to enter into a proposed First Amendment to the loan agreement between Maine Yankee and the Fuel Company dated as of August 26, 1976. Said First Amendment will increase the aggregate principal amount of loans which Fuel Company will make to Maine Yankee from \$35,000,000 to \$50,000,000 and the guarantee by Maine Yankee of certain obligations to be incurred by Fuel Company in connection with said additional amount of promissory notes. As of December 31, 1979, \$33,450,000 of such loans were outstanding. It is stated that the purpose of the increase in the loan commitment is to make additional funds available in order to finance the acquisition of a part of the nuclear fuel which will be required to operate the plant and to repay bank indebtedness used to finance the acquisition of nuclear fuel

used in the plant since it commenced operation. In connection with the First Amendment to the loan agreement, the Fuel Company and Manufacturers Hanover Trust Company will enter into a First Amendment to their credit agreement dated as of August 26, 1976 to increase the bank's commitment under said credit agreement from \$35,000,000 to \$50,000,000 and to reduce the fee charged by the bank for outstanding letters of credit from 1¼% to .95%.

The notes will be issued pursuant to a loan agreement ("loan agreement") between the Fuel Company and Maine Yankee. The period during which Fuel Company may make such loans will be extended beyond the initial five year period until 2002, unless three years' notice of a desire to have the obligation of Fuel Company to make loans under the loan agreement terminate at an earlier date is given by one party to the other. The notes will bear a stated maturity of 2002, but the notes will also become due and payable (i) upon the expiration of the term of the loan agreement, or (ii) 270 days after termination of the loan agreement by reason of certain events specified in the loan agreement. The notes may be prepaid at any time in whole or in part without premium or penalty.

Maine Yankee has also entered into a security agreement ("security agreement") with the Fuel Company concurrently with execution of the loan agreement. The security agreement provides that Maine Yankee mortgages, pledges and assigns a continuing security interest to Fuel Company in (i) certain nuclear fuel, as defined in the loan agreement, (ii) Maine Yankee's rights to receive and collect certain monthly payments under certain Capital Funds Agreements, as defined in the loan agreement. The security agreement states that such security interest is to be collateral security for the payment by Maine Yankee of all obligations incurred by Maine Yankee under the loan agreement.

The notes will bear interest in an amount equal to the Fuel Company's interest cost and other costs and expenses incurred by Fuel Company in connection with its loans to Maine Yankee plus ½ of 1% per annum of the aggregate principal amount of notes outstanding from time to time. The Fuel Company will finance its loans to Maine Yankee by the sale of the Fuel Company's commercial paper through Goldman, Sachs & Co., for which service the latter will receive a discount of ½ of 1% per annum. Such commercial paper will be supported by letters of credit under a credit agreement ("credit

agreement") between Fuel Company and Manufacturers Hanover Trust Company ("bank"). The initial term of the credit agreement will be 5 years, but it may be extended until 2002 under provisions similar to those governing the loan agreement. It is stated that the effective cost of the notes to Maine Yankee would be approximately 18.70% per annum assuming Fuel Company finances the purchase of the notes entirely by the sale of commercial paper yielding 17.5%.

The credit agreement also authorizes Fuel Company to make direct borrowings from the bank so long as the aggregate principal amount of the outstanding letters of credit and direct borrowings does not exceed \$50,000,000. The bank will charge a commitment fee of 1/4 of 1% per annum on the excess of the maximum credit available under the credit agreement over the aggregate of (i) the amount of commercial paper outstanding and (ii) the amount of direct borrowings by Fuel Company. The annual interest rate on direct borrowings will be 125% of the base rate ("base rate") in effect at the bank from time to time. The base rate will be the higher of the rate of interest charged by the bank on certain commercial loans ("prime rate") or the average rate for certain commercial paper. Assuming Fuel Company financed purchase of \$50,000,000 in notes entirely through bank borrowings based on a prime rate of 19%, the effective cost of the notes would be 23.75%.

Maine Yankee further proposes to execute a guarantee of (i) the obligations of Fuel Company to make payments under the credit agreement and (ii) the payment of commercial paper which Fuel Company issues pursuant to the loan agreement.

Maine Yankee has sinking fund provisions applicable to its Series A, B and C First Mortgage Bonds. These sinking fund payments will aggregate \$4,775,000 annually through the year 2001. Main Yankee has only one nuclear generating plant and no additional generating facilities are planned by Main Yankee.

It is requested that the issuance of such additional notes be exempt from the competitive bidding requirements of Rule 50 by virtue of paragraph (a)(5) thereof. The fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that the Maine, Public Utilities Commission has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has

jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than May 23, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application as amended by said post-effective amendment, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended by said post-effective amendment or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

[FR Doc. 80-13918 Filed 5-5-80 8:45 am]

BILLING CODE 8010-01-M

[Rel. No. 11145; 812-4499]

Narragansett Capital Corp. and Photo Systems Inc.; Application

April 29, 1980.

Notice is hereby given that Narragansett Capital Corporation ("Narragansett"), 40 Westminster Street, Providence, R.I. 02903, a closed-end, non-diversified, management investment company registered under the Investment Company Act of 1940 ("Act") and a licensed small business investment company under the Small Business Act of 1958, and Photo Systems, Inc. ("Photo Systems"), 7200 West Huron River Drive, Dexter, Mich. 48130, a company presumed to be controlled by Narragansett (hereinafter Narragansett and Photo Systems are

collectively referred to as "Applicants") filed an application on March 13, 1980, and an amendment thereto on April 28, 1980 ("Application"), for an order of the Commission pursuant to Sections 17(b) and 17(d) of the Act and Rule 17d-1 thereunder amending a prior order dated February 11, 1980 (Investment Company Act Release No. 11043). This prior order exempted from the provisions of Section 17(a) of the Act and permitted under Section 17(d) of the Act and Rule 17d-1 thereunder certain proposed transactions to be made in connection with the proposed restructuring of Narragansett's investment in Photo Systems. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

On June 26, 1979, Applicants filed an application ("Original Application") pursuant to Sections 17(b) and 17(d) of the Act and Rule 17d-1 thereunder for an order exempting from the provisions of Section 17(a) and permitting under Section 17(d) and Rule 17d-1 the proposed restructuring of Narragansett's investment in Photo Systems. According to the Original Application, on June 15, 1979, the Applicants entered into a Redemption and Refinancing Agreement ("Agreement") which would have resulted in the restructuring of Narragansett's investments in Photo Systems by (a) the redemption of a portion of the Photo Systems common stock held by Narragansett, with the effect of reducing Narragansett's percentage ownership of outstanding voting stock from approximately 77% to 52%, and (b) the refinancing of the balance of the outstanding indebtedness of Photo Systems to Narragansett, plus the financing of substantially all of the purchase price of the stock to be redeemed. As set forth in the Original Application, Photo Systems would be restructured and refinanced in the following manner. Photo Systems would purchase 550,000 of the 800,000 shares of Photo Systems Class B Common Stock held by Narragansett for an aggregate purchase price of \$550,000. The purchase price would be payable by delivery to Narragansett of a cash payment of \$5,000 and a promissory note of Photo Systems ("Redemption Note") for the remaining \$545,000, plus the currently outstanding balance on the promissory note issued by Photo Systems in 1976. Applicants stated that such Redemption Note would be due August 1, 1984, would carry an interest rate of 12% per annum, would be payable during each fiscal year in an amount equal to 20% of Photo Systems' after-tax earnings for the

preceding fiscal year, and would be subordinated, with respect to principal and interest, to Photo Systems' indebtedness to Industrial National Bank of Rhode Island ("Bank").

On February 11, 1980, an order was issued ("Order") (Investment Company Act Release No. 11043) pursuant to Sections 17(b) and 17(d) of the Act exempting from the provisions of Section 17(a) of the Act and permitting pursuant to Section 17(d) of the Act and Rule 17d-1 thereunder the proposed restructuring and refinancing of Photo Systems. However, Applicants state that Narragansett determined not to consummate the proposed transactions as contemplated for the following reasons. First it became clear that the proposed redemption transaction would probably be treated for Federal income tax purposes as a dividend to Narragansett of a substantial sum, notwithstanding the fact that Narragansett would receive very little of the redemption price in cash, thereby requiring Narragansett, since it intends to continue to qualify as a "regulated investment company" under the Internal Revenue Code of 1954 (which means that Narragansett must distribute on a current basis no less than 90% of its operating income), to make a substantial distribution to shareholders as a result of the Photo Systems transaction. Applicants state that in such an event the taxable income of Narragansett during 1980 might exceed its cash income by a material amount and that the distribution would have to be made from other sources of cash. Secondly, the tax basis and other tax attributes of the remaining investment in Photo Systems would vary materially from that which was originally intended.

Applicants state that following Narragansett's decision not to consummate the proposed transactions as set forth in the Original Application, Narragansett approached Photo Systems with a proposal to amend the terms of the proposed restructuring. Applicants further state that on February 11, 1980, Narragansett and Photo Systems entered into an amendment to the Agreement ("Amendment") which provided for the following amendments and/or modifications: (1) the number of shares subject to the redemption transaction was increased by 20,000 shares ("Additional Shares"), from 550,000 to 570,000 shares, with the price remaining fixed at \$1.00 per share; (2) the purchase price of the additional shares was to be paid by increasing the principal amount of the Redemption Note by \$20,000; (3) the amortization schedule annexed to the Redemption

Note to be delivered at closing was revised to reflect the delay in consummating the transactions and to revise the monthly allocations of principal payments due; (4) the Redemption Note was to be made subordinate, additionally, to any short-term indebtedness of Photo Systems to the Bank up to \$200,000 (plus any interest, expenses and fees payable in connection therewith); (5) the obligations of the parties were to be expressly conditioned upon the issuance of the amended order sought in the Application; (6) the obligations of Narragansett were conditioned upon the entering into by Narragansett and the principal management stockholders of Photo Systems ("Individual Stockholders") of a "Voting Agreement," the terms of which are described below; (7) the effective date of the redemption transaction was to be fixed at February 11, 1980, which is the date of the issuance of the Order and the date upon which the transactions covered by this Application would have been effective had they been consummated on the terms set forth in the Original Application; and (8) the Voting Agreement will not become effective until this order is issued. Applicants indicate that in all other respects the terms of the Agreement were ratified and confirmed.

As set forth in the Application, the Voting Agreement specifies the composition and method of selection of the Photo Systems Board of Directors ("Board") through the following provisions: (1) The number of members of the Board is to be fixed at five, of whom two are to be designees of Narragansett and two are to be designees of the Individual Stockholders, with the remaining director to be selected by the Majority in interest of the holders of all Photo Systems voting stock; (2) In the event that no person is able to obtain the votes of a majority in interest of the voting stock, the Board is to be reduced to four with two each to be designees of Narragansett and the Individual Stockholders; and (3) In the event of default under the Redemption Note, Narragansett may, at its option so long as such default remains uncured, require that the number of members of the Board be fixed at five, of whom three are to be designees of Narragansett and the remaining two are to be designees of the Individual Stockholders.

Section 2(a)(3) of the Act includes within the definition of "Affiliated person" of another person: (1) any person owning five percent or more of the outstanding voting securities of such

other person; (2) any person five percent or more of whose outstanding voting securities are owned by such other person; (3) any officer, director or employee of such other person; and (4) any person controlled by such other person. Section 2(a)(9) of the Act provides, in part, that any person owning, directly or indirectly, more than 25 percent of the voting securities of a company shall be presumed to control such company. Accordingly, Applicants stated in the Original Application that: (1) Photo Systems is an affiliate of and, by virtue of Narragansett's ownership of 77.7% of Photo Systems' outstanding voting securities, presumed to be controlled by Narragansett; and (2) Narragansett is an affiliate of Photo Systems. In addition, the Application states that the Individual Stockholders are all affiliated persons of an affiliated person (Photo Systems) of Narragansett by virtue of their being the principal management employees of Photo Systems.

Section 17(a) of the Act provides, in pertinent part, that it is unlawful for any affiliated person of a registered investment company or any affiliated person of such person, acting as principal, knowingly to purchase from or sell to such registered company or any company controlled by such registered company, any security or other property except securities of which the seller is the issuer. Section 17(b) of the Act generally provides that, upon application, the Commission may exempt a proposed transaction from the provisions of Section 17(a) of the Act if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act. Consequently, Applicants request an order, pursuant to Section 17(b) of the Act, amending the prior order to exempt from the provisions of Section 17(a) of the Act the amended redemption and refinancing arrangement described above.

Since Applicants have already received an order exempting the redemption and refinancing agreement as originally proposed, the order requested, if issued, would be based upon the conclusion that the redemption of the additional 20,000 shares at \$1.00 per share will not materially affect the original redemption and refinancing arrangement which was determined to be fair at the time the order was issued.

Section 17(d) of the Act and Rule 17d-1 thereunder, taken together, provide, in part, that it is unlawful for an affiliated person of a registered investment company, or an affiliated person of such person, acting as principal, to participate in or effect any transaction in which such investment company is a joint participant without the permission of the Commission. Rule 17d-1 provides, in part, that in passing upon applications for orders granting such permission the Commission will consider (i) whether the participation of the investment company in such transaction on the basis proposed is consistent with the provisions, policies and purposes of the Act, and (ii) the extent to which such participation is on a basis different from or less advantageous than that of other participants. Applicants stated in the Original Application that the proposed transaction may be said to involve a joint arrangement, in which Narragansett and Photo Systems are participants, and thus could be deemed to be prohibited under Rule 17d-1 unless the Commission issues an exemptive order or the transaction is otherwise exempt under the provisions of Rule 17d-1. Therefore, Applicants request an order, pursuant to Section 17(d) of the Act and Rule 17d-1 thereunder, amending the prior order to permit the amended redemption and refinancing arrangement described above. In addition, the Application states that entering into the Voting Agreement by Narragansett and the Individual Stockholders could be deemed to constitute a joint enterprise or other joint arrangement subject to the prohibitions of Rule 17d-1. Therefore, Applicants request an order, pursuant to Section 17(d) of the Act and Rule 17d-1 thereunder, amending the prior order to permit entry into the Voting Agreement as part of the amended redemption and refinancing arrangement.

Since Applicants have already received an order permitting as a joint transaction the redemption and refinancing arrangement as originally proposed, the order requested, if issued, would be based upon the conclusion that the modifications and amendments do not materially alter the participation of Narragansett in the joint transaction, which was considered to be consistent with the provisions, policies and purposes of the Act when the Order was granted.

Applicants state that the effects of the Amendment on the Agreement will be two-fold. First, such Amendment will increase the number of shares to be redeemed by 20,000, thereby reducing Narragansett's percentage ownership of

Photo Systems from 77% to 50%, rather than 52%. However, Applicants state that since the Redemption Note requires principal payments to be made to the extent of 20% of after-tax earnings, with all unpaid principal due on August 1, 1984, there will be very little impact on the amortization of the Redemption Note and the principal balance due at final maturity will likely be increased by approximately \$20,000. Secondly, since Narragansett currently has the ability to elect a majority of the Board by reason of its majority ownership of Photo Systems voting stock, the effect of the Voting Agreement will be to preserve that right in the event that Photo Systems is in default under the Redemption Note and to provide a mechanism for adequate representation on the Board of the interests of the Individual Stockholders.

As set forth in the Application, consummation of the proposed restructuring according to the terms of the Amendment would result in a variety of benefits. Applicants state that Narragansett believes that the redemption transaction, as proposed in the Amendment, would be treated not as a dividend, but as an exchange of the stock, thus avoiding the possible necessity of distributing as much as \$400,000 to its stockholders in 1980 as a result of the redemption against realized cash proceeds during the same period of only approximately \$25,000. Applicants also state that in addition to avoiding the adverse tax consequences of the redemption transaction as originally structured, the proposed transaction will: (1) provide additional incentives to the management shareholders to increase the profitability of Photo Systems, in which Narragansett will continue to have a substantial interest; (2) further Narragansett's program for relinquishing control of Photo Systems by the current deadline of 1983 (as required by the Small Business Investment Act of 1958); and (3) increase the current yield on Narragansett's total investment in Photo Systems by converting an additional \$20,000 from an equity investment with no current return to indebtedness bearing interest at 12% per annum. Applicants further state that under the proposed restructuring Narragansett will retain 50% of the voting stock and the Voting Agreement gives Narragansett control of the Photo Systems Board of Directors in event of default on the Redemption Note. Applicants state that the effects of the Amendment on the Agreement are deemed by the Narragansett Board of Directors to be in the best interests of Narragansett's shareholders and

Narragansett's business and financial condition. Accordingly, Applicants submit that: the terms of the proposed transactions as set forth in the Amendment to the Agreement are reasonable and fair and do not involve overreaching on the part of any person involved; the proposed transaction would be consistent with the policy of Narragansett and the general purposes of the Act; and the participation of Narragansett and the other participants in the amended redemption and refinancing arrangement to the extent it constitutes a joint enterprise or other joint arrangement would not be on a basis less advantageous than that of the other participants. Finally, Applicants contend that to the extent that the Voting Agreement constitutes a joint enterprise or other joint arrangement, since Narragansett and the Individual Stockholders will be able to participate in the designation of the members of the Photo Systems Board of Directors based on their respective percentage ownership interests in Photo Systems, the interests of all parties to the Voting Agreement are equitably reflected and none of the parties are disadvantaged by the terms of that agreement.

Notice is further given that any interested person may, not later than May 22, 1980, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the addresses stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Rel. No. 16772; SR-NYSE-80-20]

New York Stock Exchange, Inc.; Filing of Proposed Rule Change and Order Approving Proposed Rule Change

April 30, 1980.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) ("Act"), notice is hereby given that on April 30, 1980, the New York Stock Exchange, Inc. ("NYSE"), 11 Wall Street, New York, New York 10005, filed with the Commission copies of a proposed rule change to amend its Rule 107 governing registered competitive market makers. NYSE Rule 107 currently contains a "sunset" provision under which the rule would expire on April 30, 1980, unless extended by a rule of the exchange approved by the Commission. The NYSE previously filed a proposed rule change (File No. SR-NYSE-80-11) to remove the sunset provision and thereby make Rule 107 permanent. The Commission, however, has determined to institute proceedings to determine whether that rule change should be disapproved. The purpose of the instant rule proposal is to extend the effectiveness of Rule 107 until 30 days after those proceedings are concluded.

Interested persons are invited to submit written data, views and arguments concerning the submission within 21 days from the date of this publication. Persons desiring to make written comments should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. SR-NYSE-80-20.

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change which are filed with the Commission, and of all written communications relating to the proposed rule change between the Commission and any person, other than those which may be withheld from the public in accordance with the provisions of 5 U.S.C. § 552, will be available for inspection and copying at the Commission's Public Reference Room, 1100 L Street, N.W., Washington, D.C.

The Commission finds that the proposed rule change is consistent with

the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6, and the rules and regulations thereunder.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof, in that unless extended by the Commission, NYSE Rule 107 would expire on April 30, 1980. Accelerated approval of the rule change will preserve the status quo pending a final resolution of the Commission's proceedings to determine whether NYSE Rule 107 should be disapproved.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change referenced above be, and it hereby is, approved.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Rel. No. 16768; SR-PSE-79-14]

Pacific Stock Exchange Inc.; Order Approving Proposed Rule Change

April 29, 1980.

On February 25, 1980, the Pacific Stock Exchange Incorporated ("PSE") 301 Pine Street, San Francisco, CA 94104, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s)(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which would adopt, as PSE Rule XX, detailed rules for conducting its disciplinary proceedings.¹

The proposed rule change would extend the PSE's disciplinary jurisdiction over any PSE member, member organization, or any persons associated with a member or member organization following termination of membership or association with a member, with respect to matters that occurred prior to such termination, provided that the PSE gives notice of its inquiry into the matter to the member or associated person within one year of such person's notice of termination.² The proposed rule change would permit the PSE to conduct investigations of possible violations upon the receipt of a complaint filed by a member or any

¹ Such rules are required by the Securities Acts Amendments of 1975. See Section 6(b) of the Act, 17 U.S.C. 78f(b).

² Proposed PSE Rule XX, Section 1.

other person³ and would provide for the institution of disciplinary proceedings by the issuance of a statement of charges specifying the acts alleged to be in violation.⁴ A respondent would have an opportunity to file an answer to the charges and to request a hearing by a panel of the PSE's Hearing Committee.⁵ A decision by the Hearing Committee would be subject to review by an Appeals Committee,⁶ and the PSE's Board of Governors could review a decision of the Hearing Committee or the Appeals Committee on its own initiative.⁷ A member or associated person would be entitled to representation by counsel throughout any investigation and in any subsequent disciplinary proceeding.⁸

The proposed hearing and review procedures, however, would not apply to Floor Citations issued for violation of rules, policies, or procedures adopted by the PSE where the fines are \$500 or less. Floor Citations, which are issued summarily, are governed by a different set of PSE rules.⁹

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by issuance of a Commission Release (Securities Exchange Act Release No. 16658 (March 14, 1980), 19 SEC Docket 915 (April 1, 1980)) and by publication in the Federal Register (45 FR 18542 (March 21, 1980)). No comments were received with respect to the proposed rule filing.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

BILLING CODE 8010-01-M

[File No. 22-10302]

Trans World Airlines, Inc.; Application and Opportunity for Hearing

May 1, 1980.

Notice is hereby given that Trans World Airlines, Inc. ("Applicant") has filed an application under clause (ii) of Section 310(b)(1) of The Trust Indenture Act of 1939, as amended (the "1939 Act"), for a finding by the Securities and Exchange Commission (the "Commission") that the trusteeships of The Bank of New York (the "Bank") under (i) a Trust Indenture and Mortgage, dated May 1, 1971 (the "Indenture") among Bankers Trust Company, as Owner-Trustee ("Bankers Trust"), Applicant as Guarantor and the Bank as Indenture Trustee, (ii) an Equipment Trust Agreement, dated October 1, 1979 (the "Equipment Trust") between Applicant and the Bank providing for the issuance of approximately \$100 million aggregate principal amount of Equipment Trust Certificates due May 1, 1990 (the "Equipment Trust Certificates") and (iii) an Indenture of Mortgage, dated January 1, 1977 (the "Mortgage") among certain senior lenders, Applicant and Marine Midland Bank, as Trustee ("Marine") and the agency of the Bank under (iv) a Pledge Agreement, dated January 1, 1979 (the "Pledge Agreement") among Applicant and certain banks are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Bank from acting as Trustee under the Indenture.

The Application alleges that:

(1) The Indenture was qualified under the 1939 Act and filed with the Commission as Exhibit 4(a)-17 to the Registration Statement (Registration No. 2-40077) which Applicant filed to register the 11% Guaranteed Loan Certificates due June 1, 1986 (the "Loan Certificates") under the Securities Act of 1933, as amended (the "1933 Act"). There were outstanding, on December 31, 1979, \$33,618,000 aggregate principal amount of Loan Certificates, payment of which is guaranteed by Applicant and is secured by a mortgage on three Boeing 747-131 aircraft which were purchased in part by the proceeds of the sale of the Loan Certificates. Additional funds were provided by certain banking and

financial institutions (the "Owners") for whom Bankers Trust acts as Owner-Trustee. The three aircraft have been leased to Applicant by Bankers Trust for terms ending on May 31, 1986. After the Loan Certificates have been paid in full, the three aircraft will remain the property of the Owners subject to certain rights of Applicant to acquire them at the fair market value when the lease expires.

(2) Applicant and the Bank, as Trustee, have entered into the Equipment Trust in connection with the contemplated purchase of three Boeing 747SP-31 aircraft (the "Aircraft") to be delivered in March and April of 1980. The Equipment Trust covering the Aircraft will secure the Equipment Trust Certificates which will be guaranteed by Applicant and will be issued in private placements on the respective delivery dates of the Aircraft. The initial issuance of the Equipment Trust Certificates is anticipated for March 1980. The Equipment Trust Certificates will not be registered under the 1933 Act since the sales thereof will not involve public offerings and will therefore be exempt under Section 4(2) of the 1933 Act. The Aircraft will be leased to Applicant by the Bank for terms ending in 1990. At the termination of the lease, the lease payments will be treated as payment in full of the purchase price of the Aircraft and title to all the Aircraft will vest in Applicant.

(3) Marine acts as Trustee for certain of Applicant's senior lenders under the Mortgage, by which Applicant has mortgaged substantially all aircraft and aircraft engines (together with appliances from time to time installed) owned by Applicant on March 1, 1977, as more particularly described in the granting clauses thereof (on June 30, 1979, Applicant owned 159 jet aircraft subject to the lien of the Mortgage). The Mortgage is not qualified under the 1939 Act and was filed with the Commission as Exhibit 1 to the March 1, 1977 Form 8-K filed by Applicant. The Mortgage secures Applicant's senior indebtedness currently outstanding under, or that may be issued pursuant to, certain senior debt instruments.

(4) In connection with a reorganization on January 1, 1979, in which Applicant, Hilton International Co. ("Hilton"), and Canteen Corporation ("Canteen"), became wholly-owned subsidiaries of Trans World Corporation, a newly-created holding company, certain amendments to applicant's senior debt instruments were made. The amendments contained waivers of certain provisions of the senior debt instruments to the extent

necessary to permit Applicant to sell all the capital stock of Hilton and Canteen to Trans World Corporation and to pledge, for the benefit of Applicant's senior lenders, the Trans World Corporation promissory note received in payment for such sale, which promissory note is in turn secured by a pledge of the Hilton and Canteen shares. Marine is the custodian and agent (the "Pledge Agent") for the senior lenders under a pledge agreement relating to the pledge of such promissory note (the "Pledge Agreement"). The Pledge Agreement is Exhibit C to the Amendment dated January 1, 1979 to Applicant's July 1973 Loan Agreement, which was filed as Exhibit 3(d)-4 to the January 25, 1979 Form 8-B filed by Applicant.

(5) One of the amendments, the Second Supplemental Indenture date January 1, 1979 to the Mortgage (the "Second Supplemental Indenture"), removed an after-acquired property clause from the Mortgage and in a separate amendment to the senior debt agreements Applicant agreed to maintain, subject to the lien of the Mortgage, flight equipment having a depreciated book value at least equal to the amount of Applicant's senior indebtedness secured by the Mortgage, including the unborrowed amount (up to \$150,000,000) available under Applicant's revolving credit agreement with certain banks (the "Bank Loan Agreement"). Prior to the effectiveness of the amendments, Applicant had the right, if its financial condition reached certain specific levels, to release the lien of the Mortgage or suspend most of the covenants in the Mortgage, subject to an obligation to reinstate such covenants if Applicant thereafter failed to meet specified financial tests. The amendments eliminated Applicant's right to release the lien of the Mortgage, and the tests for suspension and reinstatement of the covenants in the Mortgage were made more stringent. The Second Supplemental Indenture was filed as Exhibit 3(c)-3 to the January 25, 1979 Form 8-B filed by Applicant. The First Supplemental Indenture dated July 27, 1977 to the Mortgage (the "First Supplemental Indenture") suspended certain provisions of the Mortgage. The First Supplemental Indenture was filed as Exhibit 3(c)-2 to the January 25, 1979 Form 8-B filed by Applicant.

(6) In return for Applicant's granting of the Mortgage, the amendments to Applicant's senior debt instruments entered into on March 1, 1977, provided, among other things, for the relaxation of certain restrictive covenants contained

therein and added borrowing flexibility under the Bank Loan Agreement.

(7) Applicant believes that Marine may become incapable of effectively acting as Trustee under the Mortgage if the proposed acquisition of a controlling interest in Marine by the Hongkong & Shanghai Banking Corporation ("H&S Bank") is approved by the appropriate regulatory authorities and is consummated. Under Section 501 of the Federal Aviation Act of 1958, as amended ("Section 501"), only aircraft owned by "a citizen of the United States," as well as by certain other persons and corporations not applicable here, are eligible for registration and operation within the United States. Officials of the Federal Aviation Administration, in informal discussions, have indicated their belief that in the event of a default under the Mortgage, under certain circumstances ownership of the approximately 159 aircraft covered by the Mortgage might pass to Marine as Trustee and that, following the acquisition of Marine by H&S Bank, Marine would no longer be considered "a citizen of the United States" within the meaning of Section 501. Under this interpretation of the Mortgage and Section 501, Marine would be unable to register or operate the aircraft within the United States and, therefore, would be restricted in its ability to perform its duties as Trustee in the event of a default by Applicant.

(8) Applicant intends to appoint the Bank Trustee under the Mortgage as the successor of Marine, subject to the right of the senior lenders to supersede such appointment, and the Bank has agreed to accept such appointment. Applicant will also seek to have its senior lenders appoint the Bank as Pledge Agent under the Pledge Agreement as the successor of Marine.

(9) Applicant believes that no material conflict of interest will result from the bank acting as Trustee under the Indenture, the Equipment Trust and the Mortgage and as Pledge Agent under the Pledge Agreement. The Indenture, the Mortgage and the Equipment Trust each cover a wholly separate and distinct set of identified aircraft and aircraft engines and the Pledge Agreement involves a pledge of certain securities. In the event that the Bank should have the occasion to proceed against the security of any one or more of the Indenture, the Mortgage, the Equipment Trust or the pledge Agreement, such action would not affect the security, or the use of any security, under any of the other of said agreements. As a result Applicant believes that the Bank, in serving as Trustee under the Indenture, the

Equipment Trust, and the Mortgage and as Pledge Agent under the Pledge Agreement, and, more importantly, in taking action on behalf of the security holders or the senior lenders with respect to their separate security under the indenture, the Equipment Trust, the Mortgage, and the Pledge Agreement, will not be placed in a situation in which the potential for a material conflict of interest would arise.

(10) Applicant believes that the Bank's serving as Trustee under the Indenture, the Equipment Trust, and the Mortgage and as Pledge Agent under the Pledge Agreement will be beneficial to the holders of the Loan Certificates, the holders of the Equipment Trust Certificates, and the senior lenders in that the operations of the Equipment Trust, the Mortgage, and the Pledge Agreement would be simplified if the Trustee acting under the Indenture can act as the Trustee under the Equipment Trust and the Mortgage and as Pledge Agent under the Pledge Agreement. The specialized nature of the Indenture, the Equipment Trust, the Mortgage, and the Pledge Agreement is such that Applicant believes that the holders of the Loan Certificates, the holders of Equipment Trust Certificates, the senior lenders, and Applicant would benefit by having a trust company familiar with the operation of Applicant under the Indenture appointed as trustee of the Equipment Trust and of the Mortgage and as Pledge Agent under the Pledge Agreement.

(11) The Indenture contains the provisions permitted by the proviso of Section 310(b)(1) of the 1939 Act which allow Applicant to make the application under Section 310(b)(1)(ii). Applicant is not in default under the Indenture, the equipment Trust, the Mortgage, the Pledge Agreement or any other indenture or equipment trust agreement.

Applicant has waived any hearing as well as notice of any hearing and all rights of specified procedures under the rules of practice of the Commission.

For a more detailed account of the matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the offices of the Commission at the Public Reference Room, 1100 L Street, N.W., Washington, D.C. 20549.

Notice is further given that any interested person may, not later than May 23, 1980, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any

such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the protection of investors, unless a hearing is ordered by the Commission.

For the Commission, pursuant to delegated authority, by the Division of Corporation Finance.

George A. Fitzsimmons,
Secretary.

Office of the Secretary

[CM-8/294]

Shipping Coordinating Committee, National Committee for the Prevention of Marine Pollution; Meeting

The National Committee for the Prevention of Marine Pollution, a component of the Shipping Coordinating Committee (SHC), will conduct an open meeting at 9:30 a.m. on Wednesday, May 28, 1980 in Room 3201 of the U.S. Coast Guard Headquarters Building, 2100 Second Street, S.W., Wash., D.C.

The purpose of this meeting is to finalize preparations for the 13th Session of the Marine Environment Protection Committee (MEPC) of the Intergovernmental Maritime Consultative Organization (IMCO) which is scheduled for June 9-13, 1980 in London. In particular, the National Committee will discuss development of U.S. positions dealing with, inter alia, the following topics:

- Uniform interpretation and possible amendments to the 1973 MARPOL Convention as modified by the 1978 Protocol;
- Control procedures under the 1978 MARPOL Protocol;
- Survey and certification;
- Enforcement of pollution conventions; in particular—casualty investigations in relation to marine pollution;
- Evidence for violations.

FOR FURTHER INFORMATION CONTACT: Captain R. A. Biller, Chief, International Affairs Division, U.S. Coast Guard (G-AIA/21), 2100 Second Street, S.W., Washington, D.C. 20593, telephone (202) 426-2280.

Dated: March 7, 1980.

John Todd Stewart,
Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

[CM-8/292]

Shipping Coordinating Committee, Subcommittee on Safety of Life at Sea; Meeting

The Working Group on Radio-communications of the Subcommittee on Safety of Life at Sea will conduct an open meeting at 1:30 PM on May 15,

1980, in Room 3201 of the U.S. Coast Guard Headquarters, 2100 2nd Street, S.W., Washington, D.C. 20593.

The purpose of the meeting is to prepare position documents for the Twenty-second Session of the Subcommittee on Radio-communications of the Intergovernmental Maritime Consultative Organization (IMCO) to be held in London in September 1980. In particular, the working group will discuss the following topics:

- Survival craft radio equipment;
- Operational requirements for future EPIRBs;
- Operational standards for shipboard radio equipment;
- Maritime distress system.

FOR FURTHER INFORMATION CONTACT: Lt. R. F. Carlson, U.S. Coast Guard (G-OTM/TP32), Washington, D.C. 20593. Telephone (202) 426-1345.

John Todd Stewart,

Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

[CM-8/293]

Shipping Coordinating Committee, Subcommittee on Safety of Life at Sea; Meeting

The Safety of Life at Sea Working Group on Lifesaving Appliances will conduct an open meeting at 9:00 AM on May 20, 1980 in Room 1303 of the U.S. Coast Guard Headquarters (Transpoint Building), 2100 2nd St., S.W., Washington, D.C. 20593.

The purpose of the meeting will be to:

- Discuss the report of the 14th Session of the IMCO Sub-Committee on Lifesaving Appliances;
- Discuss the draft text for the revision of SOLAS Chapter III and consider the text of or need for U.S. submittals for the next LSA Sub-Committee meeting scheduled for the week of July 14, 1980 in London, England. This includes vessel LSA carriage requirements as well as specifications for lifesaving equipment.
- Discuss the need for a U.S. submittal on the agenda item relating to raft servicing;
- Discuss the draft cold water survival guide being developed by IMCO;
- Discuss the requirements for immersion suits being developed by IMCO;
- Discuss the future IMCO LSA Work Plan.

FOR FURTHER INFORMATION CONTACT: Mr. N. W. Lemley, U.S. Coast Guard Headquarters (G-MMT-3/12), 2100 Second Street, S.W., Washington, D.C. 20593. Telephone: (202) 426-1444.

Dated: April 23, 1980.

John Todd Stewart,
Chairman, Shipping Coordinating Committee.

[CM8/295]

**Shipping Coordinating Committee,
Subcommittee on Safety of Life at Sea;
Meeting**

The Shipping Coordinating Committee will conduct an open meeting at 1:00 p.m. on May 29, 1980 in Room 3201 of the U.S. Coast Guard Headquarters Building, 2100 Second Street, S.W., Washington, D.C.

The purpose of this meeting is to finalize preparations for the 44th Session of the Council of the Intergovernmental Maritime Consultative Organization (IMCO) which is scheduled for June 2-6, 1980 in London. In particular, the SCC will discuss development of U.S. positions dealing with, inter alia, the following topics:

- Status of the IMCO Convention (IMCO membership);
- Consideration of the Reports of the Maritime Safety Committee;
- Consideration of the Report of the Marine Environment Protection Committee;
- Implementation of Conventions and Other Multilateral Instruments.

FOR FURTHER INFORMATION CONTACT:
R. A. Biller, Captain, U.S. Coast Guard (G-AIA/21), International Affairs Division, 2100 Second Street, S.W., Washington, D.C. 20593. Telephone (202) 426-2280.

Dated: April 9, 1980.

John Todd Stewart,
Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

DEPARTMENT OF THE TREASURY

[Department Circular Public Debt Series—
No. 14-80]

**Treasury Notes of August 15, 1983,
Series K-1983**

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately \$3,500,000,000 of United States securities, designated Treasury Notes of August 15, 1983, Series K-1983 (CUSIP No. 912827 KR 2). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each

accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing securities held by them.

1.2. If the interest rate determined in accordance with this circular is identical to the rate on an outstanding issue of United States notes, and the terms and conditions of such outstanding issue are otherwise identical to terms and conditions of the securities offered by this circular, this shall be considered an invitation for an additional amount of the outstanding securities and this circular will be amended accordingly. Payment for the securities in that event will be calculated on the basis of the auction price determined in accordance with this circular plus accrued interest from the last preceding interest payment date on the outstanding securities.

2. Description of Securities

2.1. The securities will be dated May 15, 1980, and will bear interest from that date, payable on a semiannual basis on February 15, 1981, and each subsequent 6 months on August 15 and February 15, until the principal becomes payable. They will mature August 15, 1983, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of \$5,000, \$10,000, \$100,000, and \$1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon,

registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Tuesday, May 6, 1980. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, May 5, 1980.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is \$5,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.11%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed \$1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or

instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a $\frac{1}{2}$ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.250. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of the noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury

expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.5., must be made or completed on or before Thursday, May 15, 1980. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by readily collectible check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than Monday, May 12, 1980. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price of allotted securities is under par, the discount will be remitted to the bidder. Settlement will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not

required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public

announcement of such changes will be promptly provided.

Paul H. Taylor,
Fiscal Assistant Secretary.

Supplementary Statement

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the Departmental procedures applicable to such regulations.

[FR Doc. 80-13983 Filed 5-5-80; 8:45 am]

BILLING CODE 4810-40-M

[Department Circular Public Debt Series— No. 15-80]

10 $\frac{3}{4}$ % Treasury Notes of November 15, 1989, Series B-1989

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately \$2,000,000,000 of United States securities, designated 10 $\frac{3}{4}$ % Treasury Notes of November 15, 1989, Series B-1989 (CUSIP No. 912827 KC 5). The securities will be sold at auction, with bidding on the basis of price. Payment will be required at the bid price of each accepted tender in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing securities held by them.

2. Description of Securities

2.1. The securities will be issued May 15, 1980, and are offered as an additional amount of 10 $\frac{3}{4}$ % Treasury Notes of November 15, 1989, (CUSIP No. 912827 KC 5) dated November 15, 1979. Payment for the securities will be calculated on the basis of the auction price determined in accordance with this circular. Interest on the securities offered as an additional issue is payable on a semiannual basis on November 15, 1980, and each subsequent 6 months on May 15 and November 15, until the principal become payable. They will mature November 15, 1989, and will not be subject to call for redemption prior to maturity.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of

1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Wednesday, May 7, 1980. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, May 6, 1980.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is \$1,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the price offered, expressed on the basis of 100 with two decimals, e.g., 100.00. Common fractions may not be used. Only tenders at a price more than the original issue discount limit of 97.75 will be accepted. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified price. No bidder may submit more than one noncompetitive tender and the amount may not exceed \$1,000,000.

3.3. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in an borrowings on such securities, may submit tenders for account of customers if the names of the

customers and the amount for each customer are furnished. Other are only permitted to submit tenders for their own account.

3.4. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.5. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and price range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the highest prices, through successively lower prices to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. Successful competitive bidders will be required to pay the price that they bid. Those submitting noncompetitive tenders will pay the weighted average price in two decimals of accepted competitive tenders. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the price. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the weighted average price of accepted competitive tenders.

3.6. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers

it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.4., must be made or completed on or before Thursday, May 15, 1980. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by readily collectible check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than Monday, May 12, 1980. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price of allotted securities is under par, the discount will be remitted to the bidder. Settlement will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the

securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20228. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20228. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Paul H. Taylor,

Fiscal Assistant Secretary.

Supplementary Statement

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the

Departmental procedures applicable to such regulations.

BILLING CODE 4810-40-M

[Department Circular Public Debt Series—No. 16-80

Treasury Bonds of 2005-2010

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately \$2,000,000,000 of United States securities, designated Treasury Bonds of 2005-2010 (CUSIP No. 912810 CP 1). The securities will be sold at auction with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing securities held by them.

2. Description of Securities

2.1. The securities will be dated May 15, 1980, and will bear interest from that date, payable on a semiannual basis on November 15, 1980, and each subsequent 6 months on May 15 and November 15, until the principal becomes payable. They will mature May 15, 2010, but may be redeemed at the option of the United States on and after May 15, 2005, in whole or in part, at par and accrued interest on any interest payment date or dates, on 4 months' notice of call given in such manner as the Secretary of the Treasury shall prescribe. In case of partial call, the securities to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. Interest on the securities called for redemption shall cease on the date of redemption specified in the notice of call.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are

exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Thursday, May 8, 1980. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Wednesday, May 7, 1980.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is \$1,000 and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired expressed in terms of an annual yield with two decimals, e.g., 7.11%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender and the amount may not exceed \$1,000,000.

3.3. All bidders must certify that they have not made and will not make any agreements for the sale or purchase of any securities of this issue prior to the deadline established in Section 3.1. for receipt of tenders. Those authorized to submit tenders for the account of customers will be required to certify that such tenders are submitted under the same conditions, agreements, and certifications as tenders submitted directly by bidders for their own account.

3.4. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers,

which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.5. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.6. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a $\frac{1}{8}$ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 92.500. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders

received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.7. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.5., must be made or completed on or before Thursday, May 15, 1980. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by readily collectible check drawn to the order of the institution to which the tender was submitted, which must be received at such institution no later than Monday, May 12, 1980. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price of allotted securities is under par, the discount will be remitted to the bidder. Settlement will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social

security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment is not completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive

tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Paul H. Taylor,

Fiscal Assistant Secretary.

Supplementary Statement.

The announcement set forth above does not meet the Department's criteria for significant regulations and, accordingly, may be published without compliance with the Departmental procedures applicable to such regulations.
