NEW AND IMPROVED STYLES
OF
SCHOOL AND CHURCH
FURNITURE
AND
SCHOOL APPARATUS.

MANUFACTURED BY
The National School Furniture Co.
NEW YORK AND CHICAGO.
1872.

Take Notice.

All of our Desks have our new Seat-Hinge, Patented Feb. 20, 1872. It is, without any question, the best joint in the market. Certain unscrupulous vendors of common furniture are endeavoring to impress the community with the idea that they control all lift-seat combinations. We would caution the public against this audacious fraud, and urge upon them the advantages of our seat-joint.

do not care to pay the slightly increased price for the Peard Desks. It is our wish to be able to meet the wants of every customer, and we cordially invite all who desire to be *exactly suited* to visit us before deciding to place in their school-rooms furniture that they will always regret having taken should they see ours after "the deed is done."

We also make a specialty of **Church Furniture**, and would call attention to our new and elegant designs in this department of our business.

It is our intention to make furniture for the *whole country*, and to the end that we may accommodate our western customers, WE HAVE ESTABLISHED A FACTORY AT CHICAGO, with sales and show rooms at the store of A. S. BARNES & Co. (515 State Street), where we shall be glad to welcome those in quest of school outfits, and where all orders sent will receive prompt and careful attention. Our manufacturing department is under the direct supervision of JOHN PEARD, the patentee of our folding-desks, who from a life thus far spent in catering to the wants of the school-room, is eminently fitted for the discharge of the duties which devolve upon him, and understands thoroughly the essentials of a comfortable and elegant school building, of which knowledge his patents are the fruit. Owing to the number of calls we are constantly receiving for our new styles of furniture, we would suggest to those who are contemplating furnishing Church or School Buildings to send in their orders as early as possible; for we can, if allowed ample time, do more credit to ourselves and better satisfy our customers.

Very respectfully,

THE NATIONAL SCHOOL FURNITURE CO.,

111 & 113 WILLIAM ST.,
NEW YORK.

515 STATE STREET,
CHICAGO.

THE PEARD DESK AND SETTEE COMBINED,

PATENTED FEBRUARY 2, 1869,

Is, without exception, the most approved style of School Furniture in the market,

And has for the PAST TWO YEARS been awarded the premium at the Fair of the American Institute over all competing styles. Therefore to it we would first invite special attention.

COMPARATIVE SIZES, SHOWING DESK IN DIFFERENT POSITIONS.

In the use of this Desk a School or Lecture-room is secured at pleasure.

In position for use as Desk and Settee.

Desk-lid folded for use as Settee only.

No.	HEIGHT OF SEAT.	HEIGHT OF DESK.	AGE OF PUPIL SEATED.	LENGTH OF DESK.	
				Single.	Double.
1	16½ inches.	28 inches.	14 to 20	22 inches.	42 inches.
2	15½ "	26½ "	12 to 14	22 "	42 "
3	14½ "	25 "	10 to 12	20 "	40 "
4	13½ "	23½ "	8 to 10	18 "	36 "
5	12½ "	22½ "	6 to 8	18 "	36 "
6	10½ "	21 "	4 to 6	16 "	33 "

In ordering please state whether Double or Single Desks are wanted.

We invite the careful attention of the buyer to the many advantages which this Desk affords over all others in the market :

1st. *It economizes room.* There is no desk that closes as compactly and conveniently, occupying as it does when folded *only nine inches of space*, and securing passage-ways between the desks of two-and-a-half feet. When folded as Settee the seating capacity is *one-third greater* than that of the common styles.

2d. *Cleanliness*, a most important consideration in the school-room, is attained with difficulty where the stationary desk is used, but with the *PEARL DESK* it is a matter of perfect ease to secure a neat and clean room, for sweeping is no more difficult than in an open hall.

3d. *The Book-rack is always accessible*—an advantage found in no other folding-desk.

4th. The folding of the desk *adds greatly to its durability*, for it is out of the way of damage.

5th. *They are constructed with special reference to the comfort and health of the Pupil*, and the seat and back are so shaped as to secure ease to the scholar, who unconsciously is compelled to assume an erect and healthful position.

6th. *The seat-hinge (our patent) is noiseless*, and is so constructed as to be easily tightened when through long-continued use the seat works too readily or loosely in the socket. Thus a *perfectly noiseless joint* is secured as long as the furniture is in use. *It is absolutely the only hinge in the market that is noiseless, and will continue to be so.*

7th. *The School can at pleasure be transformed into a roomy, comfortable, and elegant hall for Lecture and Assembly room purposes for Adults.* In many localities this is a most important feature, for thus TOWN HALL and SCHOOL-ROOM ARE PRODUCED AS THE RESULT OF ONE OUTLAY. Teachers of graded schools will also fully appreciate this advantage where assembly rooms are necessary in each department.

8th. They are made of the best kiln-dried lumber, elegant in finish, and are perfectly simple in construction, *no machinery about them*, as in every other style of folding-desk.

9th. When parties purchasing desks desire them shipped ready to screw to the floor, they will save *more than half the expense of freight* by taking the Pearl Furniture.

VIEW OF CASTINGS OF PEARD'S DESK AND SETTEE COMBINED.

Open.

THESE CUTS

SHOW THE

END VIEW OF THE DESK,

both Open and Closed

Closed.

Notice these castings in the following particulars:

1st. The castings are of extra weight (*being 25 per cent. heavier than those of any other desk*), and are so flanged as to secure the greatest possible strength.

2d. The feet upon which the castings rest upon the floor are very large, and will, if desired, admit of *four screws in each foot*, insuring perfect stability to the desk.

3d. We invite special attention to our *Patent Seat-Joint* (patented Feb. 20, 1872), which by an application of pads, is *entirely free from noise*, and is, without exception, the *strongest hinge in the market*. It will never become noisy, and is *the only seat-hinge of which this can be said*.

4th. Note the *beautiful curve of the seat-arm*, which we attain through the number of slats used.

5th. Observe what a *compact form the desk assumes* when both seat-arm and desk-lid are folded. There are no dangerous iron projections left exposed, as is the case with every other folding-desk, and the space occupied is only about half that of any other style.

The advantages of this Furniture can but be apparent to every school officer. We cannot too highly commend it to their consideration.

The Public are cautioned against the manufacture or purchase of any School Furniture WITH DESK-LID TURNING OVER TO LIE AGAINST BACK OF SEAT, THUS FORMING SETTEE, other than Peard's, as all such are infringements on his Patents; and those selling or purchasing will be prosecuted to the full extent of the law.

SEND FOR A PRICE LIST.

*All who are using these Desks are loud in their praise.
Read what a few of them say :*

"ST. FRANCIS XAVIER'S COLLEGE,
"New York, March 28th, 1872.

* * * "We have been using Peard's patent Desks and Settees, combined, for the past year, and have found them entirely satisfactory. *We cordially recommend these Desks to any one desiring the best.*

"H. HUDON, S. J., President."

"BOARD OF EDUCATION, PATERSON, N. J.,
"October 25, 1871.

"National School Furniture Co. :

"GENTLEMEN—Before deciding upon the style of furniture for our new school-house, I (as chairman of special committee appointed to determine upon what furniture should be adopted) examined all the latest and most improved styles of school desks and settees, and after carefully looking into the merits of each, gave your furniture, viz., *Peard's Desk and Settee*, combined, *my unqualified preference*, and it was chosen for our school as being *without exception the best*. It is the most durable in construction, the most elegant in finish, and affords many advantages found in no other style. I do not hesitate to pronounce it the *ne plus ultra* of school desks.

"Yours, etc.,

"ISAAC VAN HOUTEN,
"Chairman of Furniture Committee."

Prof. Wm. F. Phelps, Principal of State Normal School, Winona, Minn., says, under date of Nov. 27th, 1871 :

* * * "I like Peard's Folding Desk better than anything of that style I have yet seen. It seems to me to be *simple, durable, convenient, and cheap.*"

"NORMAL COLLEGE, New York, March 14th, 1871.

* * * * *
"For economy of space, for simplicity of movement, and for practical usefulness, the 'Peard patent Desk and Settee, combined,' is just the thing for our schools, and I cheerfully recommend it to my fellow-teachers.

"THOS. HUNTER,

"President of Normal College."

Mr. N. J. Beedy, writing in behalf of the Board of School Directors, of which he is a member, at Pottsville, Iowa, says, under date of Nov. 28th, 1871 :

"We are very well pleased with the Peard Folding Desk and Seat, and think them the *very best manufactured.*"

"GRAMMAR SCHOOL No. 26,
"New York City, April 5th, 1871.

* * * * *
"I think the superiority of Peard's furniture is apparent on the most cursory examination; and after a year's experience with it in the school-house, to say nothing of its *handsome appearance*, I believe it to be the simplest, most compact, and convenient combination of desk and settee yet invented, and the *very best that can be put into a school-room.*

"HUGH CARLISLE,

"Principal of Grammar Department."

Prof. I. I. Anderson, principal of Marshall Academy, of Marshall, Wis., under date of Dec. 16th, 1871, says :

"Peard's patent Folding Desk and Seat, for convenience, ease, and durability, surpasses everything in that line I have ever seen. * * * We are delighted with them, and feel sure that they excel all other school Desks in every respect, besides possessing advantages not found in any others made."

For Schools not wishing a Folding-desk, we have provided

THE GEM DESK,

The most perfect Stationary Top Desk in the market.

How few desks combine comfort, elegance, and durability! *THE GEM* we commend as complete in each and every particular. We make this desk with slatted back and seat, both of which are beautifully curved, rendering them thoroughly comfortable, while to look at it is the *neatest and most graceful desk of its kind in the market.*

We would call attention to the *exceeding symmetry and beauty* of the castings, as shown in accompanying cut. For strength the castings of this desk are unequalled. *They are thirty per cent. heavier* than those of similar styles, and are so flanged as to render them the strongest made.

The seat-hinge is the same as upon the *Pearl Patent Folding Desk*, and is *NOISELESS*, and will continue so, besides being the

STRONGEST MADE. *It is the only hinge that won't wear out.*

Where a stationary desk is wanted we cannot too highly recommend

“THE GEM.”

“It is the ‘*ne plus ultra*’ of stationary desks,” is the **UNIVERSAL** verdict.

SEND FOR A PRICE LIST.

THE GEM DESK

Is made in Five Sizes, as shown by comparison in Cut below.

In ordering be sure to say whether Single or Double Desks are wanted.

NO.	HEIGHT OF SEAT.	HEIGHT OF DESK.	LENGTH OF DESK.		AGE OF PUPIL SEATED.
			Single.	Double.	
20	16½ inches.	28 inches.	22 inches.	42 inches.	14 to 20
21	15½ "	26½ "	22 "	42 "	12 to 14
22	14½ "	25 "	20 "	40 "	10 to 12
23	13½ "	23½ "	18 "	36 "	8 to 10
24	12½ "	22½ "	18 "	36 "	6 to 8

This Desk for artistic beauty and finish is unexcelled, and for a stationary desk there is nothing in the market that so combines the requisites of perfect furniture. Strength, elegance, and comfort are in it so combined as to render it the admired of all admirers, and the choice of such as prefer a stationary to a folding-desk.

DON'T BUY
A STATIONARY DESK

"THE STUDY DESK,"

The only Desk in the Market with Easel Combination.

PATENTED MAY 23, 1871.

"How shall we *prevent our pupils from leaning over their books* while engaged in study, thus inducing rounding of the shoulders and compressing the chest?" is a problem which has long puzzled the brain of every educator who has had the physical well-being of his scholars at heart; but is at last fully solved in the production of

Open.

"THE STUDY DESK,"

as shown in the accompanying cuts. It is a *folding-desk with book-easel attached*, and so arranged that when the desk-lid is

folded the easel is presented *directly before the pupil*, enabling him, when the book is placed upon it, *to assume an easy, erect position*, while the book is brought on a line with *the angle of vision* without necessitating *any bend of the neck or head*. We recommend this desk especially for use in *Normal, High Schools, and Academies*. It is *very elegant in finish, and thoroughly durable*, and can but become a favorite. We make three sizes of this desk, with *beautifully curved slat backs and seats*.

Folded, showing Easel.

THESE DESKS HAVE OUR PATENT SEAT-HINGE.

NO.	HEIGHT OF SEAT.	HEIGHT OF DESK.	LENGTH OF DESK.		AGE OF PUPIL SEATED.
			Single.	Double.	
10	16½ inches.	28 inches.	22 inches.	42 inches.	14 to 20
11	15½ " "	26½ " "	22 " "	42 " "	12 to 14
12	14½ " "	25 " "	20 " "	40 " "	10 to 12

In ordering please specify whether it is the Single or Double Desk that is desired.

SEND FOR A PRICE LIST.

THE ECONOMIC DESK.

WE manufacture with a special view to meet the wants of country districts where the desire is to secure *a cheap and yet substantial style of furniture*. To such we cannot too highly recommend "THE ECONOMIC," which desk combines the comfortable features of our higher priced desks, while it is furnished at a *price fully as low as the "old pine-box desks,"* with this in its favor, that in its use the *comfort and health of the pupil is ministered to*. The seats are *slatted, curved, and folding*, with the same *perfectly strong and noiseless hinge-joint as our best desks*. We supply this Desk at a price *twenty per cent. less* than that of our regular styles, and *far below the price of any Desk of other manufacture*.

ABSOLUTELY, THIS DESK DEFIES COMPETITION.

Don't fail to see it if you want **CHEAP FURNITURE THAT IS GOOD.**

We make five sizes, as follows:

NO.	HEIGHT OF SEAT.	HEIGHT OF DESK.	LENGTH OF DESK.		AGE OF PUPIL SEATED.
			Single.	Double.	
30	16½ inches.	28 inches.	22 inches.	42 inches.	14 to 20
31	15½ "	26½ "	22 "	42 "	12 to 14
32	14½ "	25 "	20 "	40 "	10 to 12
33	13½ "	23½ "	18 "	36 "	8 to 10
34	12½ "	22½ "	18 "	36 "	6 to 8

 Say whether *Single or Double Desks* are wanted when ordering.

School Requisites.

GLOBES.

"A good Globe is as essential in every School-room as an English Dictionary or a Blackboard."

OUR Globes are beautifully printed in colors; the water is blue, which, besides being more natural than white, shows the ocean currents very plainly, and the land more distinctly. They are manufactured under the Schedler patent, and do not soil and look old nearly so soon as the white ones. To them was awarded the Prize Medal at the Paris Exhibition, 1867; also at American Institute Fair in New York, 1869.

NO SCHOOL SHOULD BE WITHOUT
 A SET OF
HARRINGTON'S GEOMETRICAL BLOCKS,
(Patent applied for,)
 THE ONLY SIMPLE AND YET COMPREHENSIVE SYSTEM
 OF
OCULAR MENSURATION.

Every Geometrical Formula accurately demonstrated.

Every form, however irregular, so hinged as to enable the teacher to dissect it before the pupil, and show "*the reason why*" of each rule for measurement.

By the use of these blocks, the pupil who is acquainted with the common rules of Arithmetic may, in a few hours, learn to measure any surface or any solid.

Price per Set, \$10 00

Prof. H. A. NEWTON, Prof. Mathematics in Yale College, says:

Mr. Harrington has shown me a series of blocks intended to assist teachers in illustrating the rule of Mensuration wherever given in Arithmetics without demonstration. The blocks correctly illustrate the reason of the rules, and in the hands of an intelligent teacher would, I think, be very valuable.

CHAS. DAVIES, LL.D., author of "Davies' Complete Mathematical Course," says:

They are thoroughly accurate and simple—just the thing for every school-room.

STATE OF CONNECTICUT, OFFICE OF SECRETARY OF BOARD OF EDUCATION,
State House, New Haven, May 19, 1871.

Dr. I. Harrington's Geometrical Blocks for the illustration of the rules of Mensuration seem to me to be the simplest and best yet invented. They make plain what many scholars fail to comprehend.

B. G. NORTHROP, *State Superintendent of Education.*

BAADE'S PERMUTATION READING CASE.

Patented August 22, 1871.

CONTAINING

26,000 Sentences,

which can be

INSTANTANEOUSLY

CHANGED.

OBJECT

AND

Word Method

PRACTICALLY

AND

Attractively Combined.

THIS apparatus consists of a neatly finished black walnut case, and a set of *thirteen large printed cards*. The frame is arranged with three vertical tiers of small slides upon the front, which may be easily moved up or down at pleasure. To prevent their becoming loose and inoperative, small springs are placed in the ends of each, which press lightly in the grooves in which they work. Upon the cards, which are contained in a receptacle behind the slides, are printed in large distinct type, that may be easily read across the school-room, three columns of ten words each, spaced to correspond with the slides in front. The slides are arranged so as to show *but three words upon the card at a time*, which always form a sentence, in whatever position the slides may be left. *From each side of every card 1000 sentences may be formed*, and the change from one to another *is instantaneous*. Upon the upper portion of the Card, which is always in view, are cuts of *objects, animals, etc.*, which illustrate the exercises and enhance their interest. As a device to facilitate the instruction of primary classes in learning to read, no other apparatus has been invented that so practically meets the purpose designed. It is simple, convenient, and inexpensive. It is always ready for use, and is so constructed that it can never get out of order.

Price, \$10 00

SCHOOL APPARATUS.

CHEMICAL.

THE following Set is prepared expressly for and is adequate to the performance of all experiments found in Elementary Text-Books in Chemistry. *Price, \$20 00.*

CHEMICALS.

1 lb. Black Oxide of Manganese	$\frac{1}{2}$ oz. Chloride of Barium
$\frac{1}{2}$ lb. Bleaching Powder	4 oz. Ammonia
$\frac{1}{2}$ lb. Chlorate of Potash	$\frac{1}{2}$ oz. Tartaric Acid
$\frac{1}{2}$ lb. Alum	$\frac{1}{2}$ oz. Chloride of Mercury
$\frac{1}{2}$ lb. Sulphur	$\frac{1}{2}$ oz. Metallic Antimony
$\frac{1}{2}$ lb. Caustic Potash (Sticks)	$\frac{1}{2}$ oz. Arsenious Acid
$\frac{1}{2}$ lb. Sugar of Lead	$\frac{1}{2}$ oz. Iodide of Potassium
1 oz. Bichromate of Potash	$\frac{1}{2}$ oz. Iodine
2 oz. Bone-black	$\frac{1}{2}$ oz. Potassium
2 oz. Sulphuret of Iron	$\frac{1}{2}$ oz. Sodium
1 oz. Nitrate of Potash	$\frac{1}{2}$ oz. Solution Chloride of Platinum
1 oz. Chloride of Ammonium	4 oz. Sulphuric Ether
$\frac{1}{2}$ oz. Yellow Prussiate of Potash	$\frac{1}{2}$ oz. Chloride of Cobalt Solution
$\frac{1}{2}$ oz. Red " "	$\frac{1}{2}$ oz. Bisulphide of Carbon
$\frac{1}{2}$ oz. Oxalic Acid	$\frac{1}{2}$ oz. Phosphuret of Calcium (Pieces)
$\frac{1}{2}$ oz. Ground Nut-gall	1 oz. Litharge
$\frac{1}{2}$ oz. Phosphorus	$\frac{1}{2}$ oz. Nitrate of Silver Solution
2 oz. Fluor Spar	2 oz. Sulphate of Iron
$\frac{1}{2}$ oz. Litmus	2 oz. Sulphate of Copper
2 ft. Magnesium Ribbon	$\frac{1}{2}$ oz. Gun Cotton for Collodion
1 Specimen Metal, Aluminum	6 sheets Filtering Paper

APPARATUS.

1 Funnel—3 inches	1 Ring Platinum Sponge
1 Alcohol Lamp—4 oz.	2 Tubes for Hydrogen Tubes
2 Evaporating Dishes	$\frac{1}{2}$ lb. French Glass Tubing
1 Tripod	1 ft. Rubber Tubing for Connectors
6 Assorted Test Tubes	1 Small Lead Tray
1 Mortar and Pestle	1 Evolution Flask, Funnel, and Delivery Tube
1 Mouth Blow-pipe (Jewellers')	1 Florence Flask with Delivery Tube
1 Stop-cock and Connector for Gas-bag	1 Deflagrating Spoon

The above articles are securely packed in a nice Slide-Cover Box, and can be transported any distance without danger of breakage.

Chemical Apparatus for making O. Copper Retort with Iron Stand, Gas-Bag Rubber Tubing, and Gallow's Screw Connectors,	\$22 50
Chemical Apparatus for making and inhaling N. O., Wash Bottle, Large Rubber Bag, Small Bag with Stop-cock and Mouth-piece, 1 lb. Nitrate of Ammonia,	22 50
Compound Blow-pipe, Two Rubber Bags with Tubing Connectors and Jet complete,	40 00
The above three items complete, in one Set,	75 00

*Set of Philosophical Apparatus fully adequate
for the performance of all the leading
experiments in any text-book.*

We would call attention to the extremely low price at which it is offered. The set contains the following articles:

MECHANICS.

*Centrifugal Hoops**Leaning Tower**Collision Balls*

ELECTRICITY.

*12-in. Plate Machine**Spiral Tube**Leyden Jar—quart**Set Bells**Discharger**Plates for Images*

PNEUMATICS.

*Air Pump and Receiver**Fountain in Vacuo**Hemispheres**Globe to Weigh Air**Hand and Bladder Glass*

HYDROSTATICS.

*Equilibrium**Water Hammer**Hydrometer and Jar**Bottle Imps**Syphon*

OPTICS.

*Compound Microscope**Set Lenses**Concave and Convex Mirrors**Magnifier**Prism*

MAGNETISM AND GALVANISM.

*Pot Battery**Bar Magnet**Electric Magnet**Magnetic Needle**Magnet**Dip Needle*

CHEMISTRY.

*Retort Stand**Funnel and Filters**Spirit Lamp**Glass Tube, Assorted**6-Bulb Tubes**Porous Cup**Barometer Tube and Mercury**Glass Tubes for Sound**6 Rupert's Drops**Compound Bar**Flask*

Price, \$125. Packing Extra.

The National Lock Ink-Well.

Peard's Patent, Feb. 20, 1872.

The Newest! The Handsomest! The Best! and the only real Lock-Well made.

There are many ink-wells in the market, the manufacturers of which claim for them that they lock, *but the National Ink-Well is the only one that actually accomplishes the much to be desired end of so locking as to prevent the possibility of the pupil in any way getting at the ink,* when it is the teacher's desire that he should not. *It is perfectly simple in its construction; it can't get out of order.* While it locks perfectly tight if desired, *it can also be used as an open ink-well* by those who prefer such an one. *It is made of non-corrosive metal.* It may be inserted in holes made for the ordinary glass ink-wells. *No part of it can be removed*—the cover unscrewing with a wrench which accompanies it, and all the movable parts of the well are under this cover. *It is perfectly air-tight*—prevents all dirt and dust from getting into the ink. The same quantity of ink will last twice as long in this well as in any other. We invite the attention of Teachers and School Officers to it.

Academy Bells,

OF

THE CELEBRATED "MENEELY" MANUFACTURE.

Our School Bells range in weight from 100 to 375 pounds, and are mounted with rotary yoke, which permits the bell to be turned in a moment, so as to cause the clapper to strike in a new place when desired. Frame consisting of iron uprights bolted to platform of timber and iron wheel, steel clapper springs attached. Bells of these weights are often used for small Churches and Chapels.

THE BEST SCHOOL TIME-PIECE IS
ESTELL'S PROGRAMME CLOCK,

For which we are SPECIAL AGENTS.

THIS CLOCK

is a

Superior Eight-day

TIME-PIECE.

IS FINISHED

in a

Handsome Rosewood

or

Black Walnut Case.

Patented January 11th, 1870.

It is easily set to strike any desired programme of exercises in which the intervals consist of five minutes or multiples of five, thus:—It can be set to strike at 9.00, 9.05, 9.15, 9.30, 9.50, &c., or at any other five minutes during the day. It gives a single, clear stroke, like a "call-bell."

When once arranged it needs no changing, except as the order of exercises is changed, and then the change is easily and quickly made.

The machinery is very simple, and cannot get out of order.

The movement of this clock is superior in finish, the metal being extra heavy and the plates screwed together instead of being pinned as in the ordinary way. *One of these clocks will last as long as half a dozen of the cheap, common clocks usually purchased for schools, and what is better, it will keep much better time.*

STYLES AND PRICES.

1. *Estell's Programme Regulator.* Height, 30 in. : dial, 10 in. Walnut case. oil finish. Price, \$16 00
2. *Polished Rosewood or Walnut.* Square top, rubber or gilt front. Height, 16 in. : dial, 5 in. Price, 15 00
3. *Polished Rosewood.* Square top, plain, neat finish. Height, 13 in. : dial, 5 in. Price, 12 50

These are all shelf clocks, for the reason that they are much more easily kept perpendicular and "in beat" than hanging or suspended clocks are.

EVERY TIME-PIECE WARRANTED.

WE ARE AGENTS FOR

THE CRAIG MICROSCOPE.

MAGNIFIES 10,000 TIMES.

It is of inestimable value in the School-room.

Power equal to that of Microscopes of many times its cost.

It reveals thousands of hidden wonders of Nature, which would never be discovered to the naked eye.

Every instrument is neatly boxed and handsomely labeled, with full directions for use.

Price, \$3 00

SCHOOL MAPS AND CHARTS.

MONTEITH'S REFERENCE MAPS.

Eight Numbers, on Rollers.

THE first and only *Complete Reference Maps* for schools. They may accompany any series of Geographies to advantage.

They are of a convenient and uniform size (30 by 36 inches), are beautifully printed from engravings on copper, neatly colored, and highly ornamented. *Price per set, \$20 00.*

NATIONAL OUTLINE MAPS.

Seven Numbers, Muslin Back, with key.

These are the cheapest Outline Maps published. They are printed on muslin and handsomely colored. *Price per set, \$10 00.*

THE NATIONAL SCHOOL TABLETS.

Ten Numbers—Five Cards.

Embracing Reading and Conversational Exercises, Object and Moral Lessons, Form, Color, etc. *Price per set, \$8 00.*

EUREKA ALPHABET TABLET.

Two Numbers—One Card.

Price, \$1 50

NATIONAL PHONETIC TABLETS.

Eight Numbers—Four Cards.

These Tablets, each 24 by 30 inches in size, printed in colors and mounted in the best style, may be read at a distance of 100 feet.

Price per set, \$8 00. The same, Four numbers, on Rollers, \$5 00.

CLARK'S GRAMMATICAL CHART.

On Muslin.

Whatever text-book the teacher uses, he wants this chart.

Price, \$3 75

NORMAL CHART OF ELEMENTARY SOUNDS.

Mounted—Colored.

This chart was prepared by the celebrated teacher, DAVID P. PAGE, author of "Theory and Practice of Teaching." In design it is tasteful and ornamental. *Price, \$3 75.*
