DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Veterinary Information Sheets

Public Health Section, Sanitary Dep't, Kanagawa Prefectural Gv't.
Period: From 1st September to 30th September '50.

A. Rabies Control

1. Number of animals (dogs) vaccinated and areas:

Areas	Number
Yokohama City	121
Kawasaki	93
Yokosuka	0
Miura-Gun	3
Kamakura City	34
Koza-Gun	214
Naka-Gun	0
Ashigarashimo-Gun	0
Ashigarakami-Gun	0
Aiko-Gun	215
Tsukui-Gun	0
TOTAL	680

2. Number of rabies cases: 8 (22 persons bitten)

3. Number of specimens sent to the laboratory: 13

4. Number of rabies cases diagnosed:

a. Clinically: 1
b. Laboratorily: 7

5. Number of animals remaining to be vaccinated: 23,000

6. Number of stray dogs collected: 748

7. Disposition of all stray dogs:

The collection of stray dogs in the end of this month, as of 25th, has temporarily benn discontinued by which the collection of stray dogs was not accompanied with the Enforcement Regulation of the Rabies Control Law. The Prefectural Regulation based on the Law is now being compsoed.

8. Number of Retention Pens available and those locations:

Number of pens	Locations
6.	in both areas of Isogo and Minami Wards, Yokohama.
3.	at Hiratsuka, Naka-Gun.
3.	at Ebina-machi, Koza-Gun.
1.	at Kogae-mura, Aiko-Gun.
1.	at Koide-mura, Yokosuka City.
20.	20 retention pens are now being provided in each Prefectural Health Centre's areas, however, locations are not decided yet.

9. Were any prevaccinated animals found to be rabid ?

None.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

10. Is there suffivient amount of vaccine available in prefecture for the rabies control program ?
Yes or No — How many CC

Yes — 120,000 cc

11. How many animals were vaccinated by private practioners ? 249

12. Any remarks pertinent to the rabies control program ?

In consequence of which the Enforcement Regulation of the Rabies Control Law had bot been issued during this month, guidance by prefecture in accordance with the aim of the Law was stressed having contact with all fields concerned. Co-operation offered by all fields concerned is found to be contented.

B. Meat Inspection

1. Anti-mortem and Post-mortem Inspection of domestic animals.

	Cattle	Calf	Horse	Swine	Sheep	Goat
number of animals slaughtered	1,185	239	141	5,134	15	25
Weight (whole) units-kilograms	474,091	8,401	50,696	446,016	472	789
Weight (meat) units-kilograms)	242,450	3,950	24,151	285,436	209	351
condemnation in anti-mortem ins.(units-kg)	0	0	0	0	0	0
condemnation in post-mortem ins.(" ")	152	0	0	0	0	0
whole condemnation	205	0	0	30	0	0
partial condemnation	233	0	34	19	12	0
Viscera condemnation	502	2	45	3,343	3	2

Remarks: Figures representing condemnation of viscera show number of animals, not number of viscera condemned.

2. Number of "Tuberculosis" and "Brucellosis" reactors refered to slaughter: None:

3. What disposition was made of all tuberculosis reactors ?

No case of tuberculsosi to be reported.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

6. How many post-mortem inspections were made during this period ?

a. General	13
b. Partial	1,115

7. For what conditions were the animals slaughtered ?

Diseases				
General	Partial	Animals	Heads	Pathology
Acute Typmanitis		cattle	20	Gastritis
Hard Delivery		"	2	Excessive embryo
Puerperal Paralysis		"	4	Uteritis
Acute Typmanitis		sheep	1	Gastroenteritis
	Fracture	cattle	1	Fracture & bleed'g
	"	horse	1	Fracture
	Contusion & Fracture	cattle	4	Hard resperation & Fracture
	Torsion & Contusion	swine	2	Contused wound of muscle & bleeding
	"	horse	1	Hard resperation & Fracture.

8. What post-mortem conditions (generalized or localized) were observed and passed as fit for human consumption ?

CATTLE

PATHOLOGY		EXTENT	
Fasciola Hepatica	183	Liver	183
Paragonimus Westermanii	17	Spleen	17
Gastritis	28	Stomach	28

* These establishments are so poor that there is no applicable grade signs to indicate their sanitary status.

3. Sanitary conditions in the majority of establishments are so poor as to present potential health hazards which may result in serious intestinal disease epidemics. In view of this fact public health officials are conducting concentrated programs of improvement in order to bring establishments up to acceptable standards.

4. All establishments listed in paragraph 2 are to be reinspected on 29 September 1950, to determine the degree of compliance with instructions and recommendations for improvement.

FOR THE CHIEF:

GEO. B. NIBLOCK Jr.
Major, Infantry
Deputy Chief

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Veterinary Information Sheet

Public Health Division, Kanagawa Prefectural Government
Period: From 1 August to 31 August, 1950.

A. Rabies Control

1. Number of animals (dogs) vaccinated and areas:

Area	Number
Yokohama City	3,924
Kawasaki City	266
Yokosuka City	470
Kamakura City	1,136
Miura-gun	473
Koza-gun	408
Aiko-gun	170
Total	6,847

2. Number of rabies cases: 10 (36 persons bitten)

3. Number of specimens sent to the laboratory: 18

4. Number of rabies cases diagnosed.

a. Clinically: None
b. Laboratory confirmation: 10

5. Number of animals remaining to be vaccinated: 3,000

6. Number of stray dogs collected: 773

7. Disposition of all stray dogs.

In accordance with the provision of Article 17 of the Live-stock Communicable Disease Prevention Regulations, the collection of stray dogs has been continued.
With the enforcement of the Rabies Prevention Law in August, 1950, a revision of the preceding Regulations is under way.

8. Number of retention pens available and locations.

Number of pens	Location
6	Isogo-ku & Minami-ku, Yokohama City
3	Hiratsuka City, Naka-gun
3	Ebina-machi, Koza-gun
1	Koayu-mura, Aiko-gun

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

19th August 1950

TO: Dr. Pegg, Public Health Section, Kanto Region Civil Affairs Team.
FROM: Veterinary Affairs Sub-Section, Public Health Section, Health Dep't, Kanagawa Prefectural Government.

SUBJECT: The confirmative of the previously reported food poisoning case.

Patients: Tsune Tachikawa (53), Shizue Tachikawa (17), Ken Tachikawa (17), Matsuo Tachikawa (19) and Takae Hiruta (22)
occupation-fishing address-1020, Matsuwa, Minami-shimoura-machi, Miura-Gun.

Date of outbreak: 9th August:

Caused by Square shaped Fugu

Date of recovery: 16th August:

Remarks: They were treated by Dr. Osamu Haneta of 195, Kikuna, Minami-shimoura-machi, Miura-gun immediately upon symptoms shown and being gradually recovered. (despite that they got diarrhea and vomitting, and one of them got cyanosis at the early stage of poisoning, no remarkable symptoms were noted since then) and on 16th August, all of the patients have completely recovered.

Reported by the Chief of Misaki Health Centre.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Kawasaki

No. 3116 Public Health Section, Kawasaki-shi '50

Date: 12 August '50

From: Vice-mayor of Kawasaki-shi, Mr. Yasuo Hara

To: Chief of Public Health Section of Kanto Civil Affairs Region

Subject: Counter-measure to prevent rabies and food sanitation.

Report in accordance with the guidance informed the other day.

1. Establishment of stray dog pens.

Here in Japan as regards the counter-measure of rabies, as you know, its executive right only belongs to the governor of prefecture complying with the law to prevent live stock infectious disease.

The other day Dr. Pegg, accompanied with Chief of Public Health Section of Kanagawa-ken, came down to kawasaki for inspection of preventive establishment of rabies, and at that time Dr. Pegg recommended to establish dog-ponds in Kawasaki. But Chief of Public Health Section of Kanagawa-ken recognized that this responsibility only depends upon him. After that he submitted the budget to prefecture assembly, and it is imagined that he could get decision partially. Moreover Mr. Yamagami (Chief of Veterinary Division of Public Health Section, Kanagawa-ken) told me unofficially to find out ground for dog-pond. So I picked up two places. But until now no information came and no construction set up.

2. About grade Sign

Kawasaki-shi is now holding lecture to unify marking. At the first time we want to start from ice-candy maker in view of prevailing of dysentery. Enforcement condition and plans as follows:

a. Enforcement condition 10 Aug. '50

Kind of shop	Total number	Number inspected	A	B	C	D
Ice-candy maker	132	78	None	15	44	19

b. Enforcement plan

Month	Kind of shop	Total number to be inspected	Remarks
Aug	Ice-candy shop	132	78 finished
	Meat retailer	90	
	Milk plant	2	
	Milk processing plant	3	
	Fish processing plant	2	
	Restaurant	772	

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Month	Kind of shop	Total number to be inspected	Remarks
Sept	Pastry maker (including bakers)	* 100	
	Teashop	171	
	Hotel	44	
	cooling beverage shop	7	
	Canning & bottle making plant	2	
	Fish retailer	255	
	Milk	36	
Oct	Macaroni maker	* 102	
	Bean-curd maker	* 17	
	Stall restaurant	331	
	Ice-maker & wholesaler	29	
Nov	Bread retailer	* 73	
	Pastry retailer	* 215	
	Wine retailer	* 208	
Dec	Vegitable retailer	* 270	
	Konnyaku retailer	* 56	

3. Improved condition of food shops

Status of observation and conduct in accordance with food sanitation law (April to July '50) shows next

Month	Kind of shop	Total number of shop	Number of shops ordered to be improved	Number of shops improved
April	Restaurant	310	120	95
	Bakery	10	5	3
	Pastry maker	8	7	6
	Fish retailer	125	80	60
	Meat retailer	82	50	30
	Milk	15	5	3
	Milk plant	2	1	0
	Slaughter house	1	0	0
	Fish market	2	1	0
	Fish processing plant	3	1	1
