

**MEETS TREVINO**

**W. C. BRADLEY HALTED ON RETURN TO MEXICO BY BURNED BRIDGES**

W. C. Bradley of 1617 Oak street, who recently started back to Mexico City, where he had been for two years or more, got as far as Eagle Pass, Texas, where he was held for several days awaiting the opening of the railway to traffic. His wife received a letter from him Tuesday morning in which he stated that he finally got started on his journey only to be halted by burned bridges. Gen. Trevino (pronounced Tray-veen-yo) was on the same train with a body of soldiers. Mr. Bradley had had a slight previous acquaintance with him and so introduced himself to the general, who is one of Carranza's chief officers. The general asked Mr. Bradley if he was armed and receiving a negative reply asked if he would use a gun if supplied with one. Mr. Bradley replied in the affirmative and was at once furnished with a gun. When the train was stopped by the burned bridge it was derailed. Mr. Bradley worked so intelligently and faithfully in getting the train back on the rails, he being an old railroad man, as to gain Gen. Trevino's approbation, so when they separated at Eagle Pass after the train had returned to that city the station agent was ordered by the general to recognize Mr. Bradley's ticket when another start was made. Mr. Bradley said Gen. Trevino still bore the scar of his wound received a few weeks before at Chihuahua when a bullet ploughed its way along the side of his head.

**CHRISTMAS MUSIC**

Special music was a feature of the Sunday services in all of the Glendale churches. At the Christian church the morning service was devoted to a Christmas program of instrumental and vocal music and recitations by the Sunday school. In the evening a beautiful Christmas cantata was given under the direction of Mrs. John Cole. At the Congregational church the cantata, "The First Christmas," by Ira Bishop Wilson, was given by an enlarged choir, assisted by Miss Frances Payne on the violin. Mrs. Willisford read the Christmas story, "His Gift," by David De Forest Burrell. A Christmas concert of Christmas chimes and carols was given at the Lutheran church on Sunday night by the Bible school of the church. There was special music both morning and evening at the First Baptist church Sunday given under the leadership of Mr. and Mrs. C. H. Cunningham. Special music was also a feature of the Presbyterian services on Sunday. In addition to the special choir music at St. Mark's Episcopal church, Edmund Shank sang a baritone solo in the morning and Miss Adelaide Wolcott of Los Angeles gave a soprano solo in the evening. The beautiful Christmas cantata, "Messiah's Advent," was given by the choir of the First Methodist church on Sunday evening by the choir of the West Glendale Methodist church on Sunday evening, and at the Casa Verdugo Methodist church J. B. Clarke gave Dicken's "Christmas Carol" at the evening service. Christmas carols were a feature of the music at the Christmas day services at the Catholic church. The sermon subjects of the pastors of the various churches were appropriate to the day, and the services were all well attended.

**PRESIDENT SIXTY YEARS OLD**

(By United Press)  
WASHINGTON, Dec. 27.—The president of the United States will be sixty years of age tomorrow. At this, the beginning of his second term as president, the executive shows his years much more than he did at the beginning of his occupancy of the White House in 1912. He is a bit more stooped than then and the heavy lines in his face are much more sharply drawn than they were before he came through the international crises that have confronted him since the war began. He is, however, strong and well. Letters, telegrams and remembrances from friends and relatives began pouring into the White House by scores today.

**CHICAGO HEIRESS HONORED**

(By United Press)  
CHICAGO, Dec. 27.—Brilliance such as Chicago society never has seen will be on parade at the elaborate Yule-tide ball in the crystal room of the Blackstone here tonight in honor of Miss Lolita Armour, heiress to many millions, and a Thanksgiving debutante. Music will be furnished by the Yale University Glee, Mandolin and Banjo clubs, guests of Chicago's elite.

**CHRISTMAS PARTY**

**TUESDAY AFTERNOON CLUB ENTERTAINS CHILDREN AT ANNUAL FETE**

Approximately one hundred children were happily entertained Tuesday afternoon at Masonic Temple as the guests of the Glendale Tuesday Afternoon Club. The hall was brightly adorned with a decorated Christmas tree, poinsettias, pepper boughs and Christmas greenery. Mrs. Mable Ocker, chairman of the committee of hostesses, was asked by the president, Mrs. H. E. Bartlett, to preside and announce a program which was thoroughly enjoyed by the youthful guests of the club.

To Miss Harriet Nichols and Miss Mae Cornwell, directors of the games, the club is indebted for a large share of the children's delight. Assisting these ladies, Mrs. H. R. Boyer at the piano, furnished the musical setting for the entire afternoon's games and program, and accompanied the talented little solo dancer of Hollywood, Miss Edith Lindsay. Mrs. J. C. Danford, city librarian, added to the pleasure of the afternoon by telling the little guests the story of "The Stranger Child" and the beautiful French legend, "Piccola." Forest Gordon, a youthful violinist, displayed remarkable talent in his number and encore, the latter being the composition of his instructor, Mr. Julius Kranz of Glendale. Preceding the program the young guests marched to a beautiful little manger and deposited in it many gifts for children to whose homes Santa Claus could not come this year. Following is the program in full:

- Piano duet... Grace and Robert Tower
- Solo dance in costume, "In the Garden".....Miss Edith Lindsay
- Vocal duet.....Marion Curtis and Willard Fleming
- Christmas stories.....Mrs. J. C. Danford
- Violin solo.....Forest Gordon
- Gypsy dance in costume.....Miss Lindsay
- Musical games.

At the close of a happy afternoon appropriate refreshments were served the young guests and their escorts.

**FIRST CAMPINE CHICKENS**

The first man to introduce the Campine breed of chickens into Southern California was Irving Oliver of 747 Acacia avenue. Mr. Oliver, who is a well known local business man, finds a great amount of pleasure in the breeding of fancy fowls and dogs. He won several firsts and a few seconds in the recent Glendale show, and at the present time is planning to exhibit at the big Los Angeles show to be held January 3-4.

Mr. Oliver is also experimenting on the Speckled Sussex. He says that his hobby can't be beat for fascination.

**THE GOOD OLD WAY**

So many citizens of the Glendale community have the old-fashioned way of calling at the Evening News office just before the close of the year to pay six months or a year's subscription in advance for the paper. That plan of having all newspaper bills settled before January 1st for the coming year is a commendable one, and enables a publisher to use the money he receives in putting out a better paper instead of paying a large per cent of the money he receives to collectors.

**EXPRESSES APPRECIATION**

A reader of the News kindly writes us as follows:  
"Allow me to express my appreciation of your rule not to admit to the columns of your paper any criticism of any organization which is trying to make the world better, regardless of what creed or party it may represent. The absence from your paper of such so-called 'news' of a nature that is not fit to be read or taken into our homes, is appreciated by your subscribers."  
Such an expression of appreciation is very encouraging to the management of the News.

**DEATH OF J. R. FRANKLIN**

J. R. Franklin passed away at his home, Third and Belmont streets, Tuesday, December 26, 1916, at the age of eighty-three years. He leaves surviving him his widow, two sons, J. B. Franklin of Los Angeles and Lee Franklin of Glendale, and one daughter, Mrs. Drew Pruett of San Gabriel.

Funeral services will be held Thursday at 11:30 a. m. at the Brown Undertaking chapel in Los Angeles.

**VILLA'S OBJECTIVE IS TAMPICO**

**BANDIT HOPES TO CAUSE INTERNATIONAL COMPLICATIONS IS BELIEF OF OFFICIALS**

(Special Service to Glendale Evening News)  
EL PASO, Dec. 27.—That Villa's objective is the city of Tampico is indicated in reports to American officials. Tampico is the source of Britain's fuel oil supply and it is believed that Villa thinks he can cause international complications by seizing Tampico. Officials are inclined to believe the report as Villa is occupying San Luis Potosi, cutting off all communication from Tampico.

**POULTRY MEN MEET**

**ENTHUSIASTS OVER SHOW DISCUSS PLANS FOR NEXT YEAR**

Members of the Glendale-Tropico Poultry and Pet Stock Association held a meeting at the city hall Tuesday evening, heard reports of the annual exhibition held the first part of this month, and discussed plans for the coming year. There was a goodly number of the members of the association and the local poultry breeders present. All were enthusiastic over the results of the show and reports from officers and others showed it to have been a success from every standpoint.

The question of an open show for next year was discussed at length. This year on account of limited space the exhibits were limited to Glendale, Tropico, Eagle Rock and Burbank and the immediate vicinity. The Glendale-Tropico show has earned a splendid reputation among poultry breeders throughout the state and if the show were to be thrown open to outside breeders there would be many exhibitors from all points, which of course would make a more interesting show and would advertise the city more thoroughly. This question was considered from every standpoint and it is very likely that the association will have an open show next year.

Officers for the coming year were elected as follows:  
A. P. McDonnell, president.  
C. E. Battey, secretary-treasurer.  
Irving H. Oliver, auditor.  
W. W. Stofft, first vice-president.  
Dr. W. P. McArthur, second vice-president.

Executive committee: Dr. G. Irwin Royce, chairman; Cromwell Galpin, Eagle Rock; H. L. Gill, Tropico; E. E. Emerson, Burbank; H. W. Wood, A. B. Pierce, R. T. Lyons, J. Walter Elliott and R. R. Davis.  
Dr. G. Irwin Royce, president of the association since its organization was nominated by acclamation for president for the fourth year, but declined to serve.  
The name of the association was changed from the Glendale-Tropico Poultry and Pet Stock Association to The Glendale Poultry Association.

**MRS. WOOD ENTERTAINS**

Mrs. W. F. Wood of 500 East Third street delightfully entertained her class of eleven girls in the Baptist church, called the "Sunbeams," at her home one day and evening last week. The girls, whose ages range from ten to fourteen years, sat down to a beautifully decorated and bountifully laden table, the good things of which they thoroughly enjoyed. In the evening the young folks were surprised by the arrival of their parents and their pastor and his wife, Rev. and Mrs. V. H. Cowser, and the Sunday school superintendent, Will Wright, and Miss May Wright. Dainty refreshments were served later in the evening. Mrs. Wood had offered a prize some time ago to the one in her class who would write the best story on the life of St. Paul and Miss Dorothy Howard of 1464 Sycamore street won the first prize of \$2.50 and Miss Mildred Cole of 331 South Orange street won the second prize of \$1. Mrs. Woods' daughter and her husband, Mr. and Mrs. Roger Williams, of Hollister, were also present, being here for the holidays, and this was an added pleasure and surprise for the "Sunbeams," as Mrs. Williams had assisted in teaching their class formerly. The class were guests over night at the Wood's residence, being taken to their homes in an auto by Mr. Wood next day, after a most delightful visit and good time.

**POST AND CORPS MEETING**

N. P. Banks Post, G. A. R. and W. R. C. held their regular all-day meeting at G. A. R. Hall last Friday, with the usual business meetings and mid-day luncheon. Mrs. Louise Purnell was the chairman of the luncheon committee and was assisted by Mrs. Sanders, Miss Friedgen, Mrs. Bruck and Mrs. Dutton. At the meeting of the W. R. C. Miss Friedgen, who was recently elected as treasurer for the coming term, resigned and Mrs. Louise was elected in her place for that office. The new officers are to be installed in January. A happy feature of the day was the beautifully decorated Christmas tree with which the ladies surprised the Post veterans. The last Friday of the month the Post and Corps have been celebrating the birthday of the members occurring during the month, and there were three birthday cakes at Friday's meeting. A program consisting of music and readings completed a very happy and enjoyable day.

**KNIGHTS TEMPLAR**

**GLENDALE COMMANDERY OBSERVES CHRISTMAS WITH IMPRESSIVE SERVICE**

Knights Templar Commandery No. 53 observed Christmas day in its usual impressive manner with special services at the Masonic Temple. The devotions were rendered by Sir C. Irving Mills and Sir Clem L. V. Moore presented the Christmas toast to the grand master and then cald on Sir. Rev. J. H. Henry, who had a personal knowledge of the grand master, to present the toast, rather than himself. Sir Knight Henry has a personal acquaintance with Grand Master E. S. Smith of Pittsburg, Pa., and spoke very feelingly of his personal knowledge of the man and his fine Christian character. Sir Walter T. Sprowls responded in a very beautiful address to the Christmas toast. Sir Rev. J. H. Henry also sang "The City Four Square" by Danks, playing his own accompaniment. Sir James Whitcomb Brounger, D. D., then made a very magnificent address on "The Knight of the Twentieth Century." The White Gift was then received, and a beautiful white covered box was placed at the foot of the cross to receive the white gifts of the sir knights present for charitable purposes. The White Gift idea was suggested by Eminent Sir Mattison B. Jones, commander of the Glendale commandery, the white gifts representing not what we are receiving but what we are giving to the world and also being symbolical of Christmas. Charity represents the purest kind of love, hence the white gifts. The beautiful service was well attended and a number of visiting Sir Knights of the valley were present. Four toasts were drunk with water, to Grand Master Lee F. Smith, who is at the head of Knight Templary in the United States; to the grand commander, Elmer E. Stone of San Francisco, who is at the head of Knight Templary in California; to Eminent Commander Mattison B. Jones, as commander of the Glendale commandery, and to Glendale Commandery No. 53.

**HAPPY REUNION**

A delightfully happy reunion occurred at the home of Mr. and Mrs. E. D. Yard, 127 North Maryland street, on Christmas day, it being the first holiday season Mrs. Yard and her two sisters, Mrs. R. H. Norton of Boston, Mass., and Mrs. S. E. Cooper of Los Angeles, had spent together in twenty-five years. Mrs. Norton will spend two months on the coast, seeing California and visiting her sisters. Miss Lizzie McKinney of Cambridge, Mass., was also a guest at the Yard home on Christmas day. The day was spent in the usual joyous festivities and a bounteous dinner served, covers being laid for Mr. and Mrs. S. E. Cooper, Mrs. R. H. Norton, Miss Lizzie McKinney and the host and hostess and their son, Waldo Yard.

The Ladies' Aid Society of the First Methodist church will hold their monthly business meeting Thursday afternoon at 2:30 in the church parlors.

Williams of Chicago, who is Mrs. Moore's house guest for the winter, Miss Sylvia Miller of Los Angeles, Mr. and Mrs. Leo Goode and children, and the Misses Minnie and Ruth Moore.

## RAILROAD CARS THE CAUSE OF MANY ACCIDENTS

The man who invented the first locomotive and car neglected to make a provision in connection with the invention for the protection of human lives at railroad crossings. The history of the past has taught us that from the first year that railroad trains were run across highways of public traffic there have been occasional accidents caused by the train colliding with vehicles at crossings. It would seem that some one would be sufficiently wise to contrive a plan of absolute safety for vehicles passing over railroad crossings. There is no need of criticising people for being careless, because it has been found that the most observing and careful men in all pursuits of business have been victims of fatal accidents at railroad crossings.

There is a great opportunity for some one to devise a system of signals that will insure safety at all railroad crossings. Throughout the orange grove district in Southern California there is a network of electric roads on which are operated cars that at certain places cannot be observed by travelers on the public highway until the car is upon the crossing, making it almost impossible for autoists to travel with any degree of safety over such territory. Who is the man who will devise a practical system of signals that will aid in the saving of many human lives?

## RESPECT FOR THE CHURCH

The Church and its supporters, regardless of denominationalism, deserve respect and fair treatment from the hands of every well-meaning citizen. The man who scoffs at any form of religion is placing himself in a class that is far from being an ideal people. There may be people who connect themselves with a church for selfish reasons, but that does not detract from the honor of the church. There are people who act falsely in all walks of life, and that the church is used as a cloak for the wicked at times is not a surprise.

The fundamental principles that govern every church are sound and if lived up to the world would be better than it is at present. May we bear in mind that it is the heart of the wrongdoer in the church that is at fault and not the church. A good cause remains good notwithstanding it may have followers who are everything but good.

Whenever you hear a man condemning religious and educational institutions you may consider yourself in the presence of a man who lacks consideration for the bulwarks of our nation. Criticise the would-be supporters who are in error, but do not criticise the institutions.

## TWO MODEL SISTERS PASS BEYOND

To-day there is assembled in a place of worship in Glendale a large number of people who with bowed heads pay the final earthly honor to two young ladies who for almost four years have mingled among us, gaining the high regard of all with whom they formed an acquaintance. Few young ladies in this community were so favorably known as were those sisters. One graduated from the High School last June and the other was a pupil in the school until the holiday vacation time. In church and school these sisters were bright and shining stars and their untimely passing has cast a gloom over the entire community.

## CIRCULATION DETERMINES ADVERTISING VALUE

The quality of the stock used in the manufacture of hardware, furniture, clothing, shoes, groceries and other manufactured articles determines the value.

The circulation of a newspaper determines its value as an advertising medium. When the purchase of merchandise is being considered, quality is that which receives the attention of the buyer, and when advertising space is being arranged for, extent of circulation of the publication in which the advertising is to be used, is what interests the shrewd buyer of space.

The Evening News invites the advertiser to inspect the subscription list of this paper and will sell advertising on a circulation basis.

## PUBLIC DUTY OF ARCHITECT

All things seem to move in circles, yet the interval of recurrence may at times be so long that the movements are not readily seen. For centuries all social effort has been more or less pronouncedly individualistic, but today we are in a measure turning back to the principles of the times of the patriarchs. Under such conditions the government of the city must become something more than a restraining and protecting force, for cities are no longer sovereign states and do not wage war one against the other. Their functions are limited to conserving the health, morals and commercial interests of the people. City government is no longer military in spirit, but a centralized social force, and since the nation has also passed from the early constructive stages when the law-maker was the all-important factor, so have we also come to the time when the lawyer should in great measure give way to the constructive expert.

Organic and efficient methods of control, of which city planning in the broadest sense of that term has become a fundamental factor, are

now far more imperatively necessary for the city than ever before.

The architect, because of his artistic and technical training, has a greater measure of responsibility than the average citizen, and he should be a forceful factor in all movements for civic reform and advancement. That he has signally failed to recognize the obligation is not often evident. At a conference on city planning the architect is noticeable by his absence, and in most cities a public discussion of harbor improvements, railroad terminals and the like will bring out the fact that apparently the architect, with but few exceptions, has given little or no consideration to such projects. Even housing reform is passed by with much the same indifference.

## HAD NOTHING ON HIM

He says that a friend of his called Jones had the misfortune to get in the way of an automobile driven by a lady on Euclid avenue. The friend was taken to a hospital, but his injuries were not serious, so he was immediately removed to the police station, where his assailant was being held. And as soon as Jones got there the lady started in to impress him with the fact that the blame for the accident was all his.

"You know, Mr. Jones," she said, "you must have been walking very carelessly. I am a very careful driver. I have been driving a car for seven years."

"You've got nothing on me, madam," said Jones, politely, "I've been walking for thirty-four years."—Cleveland Plain Dealer.

The banks of Los Angeles and other Southern California cities are being warned by government officials to be on the watch for counterfeit \$20 bills believed to be the product of an outlaw mint located near the Mexican border. The bogus bills of the "Cleveland head" type, drawn on the federal reserve bank of Philadelphia, are said to be excellent imitations.

## Facts and Comment

The cornerstone of the new \$24,000 branch city hall on Virginia street, Van Nuys, was laid on December 19 in the presence of a large assembly of citizens and city officials.

No streets in future subdivisions in the San Fernando annexed area shall be less than sixty feet in width, it has been decided by the city council of Los Angeles, and the board of supervisors have been requested to not approve any maps of subdivisions that do not provide streets of this width.

The Vanomar Producers' Cannery at Van Nuys, which has been engaged in canning pumpkin for some time, closed down for the season last week. It is probable that the plant will be put in operation again in about the middle of January to take care of the beets, and spinach will follow the beets.

Sawtelle held a big street celebration to mark the completion of the Santa Monica Blvd. improvement. The city was gaily decorated and thousands of visitors joined in the festivities. Three bands, an auto parade of the beach cities, a free barbecue, athletic contests, drills and games and a street dance in the evening were among the amusements provided.

E. Pickering and C. F. Wickland have made application to the harbor commissioners of Los Angeles for a lease on city property at Terminal Island, having a frontage of 1000 feet on that part of the ocean front known as Brighton Beach. The applicants state that they propose to create an amusement park that will cost about \$500,000 and bring a number of concessions from San Diego at the close of the exposition.

Los Angeles county will assess and collect Sawtelle city taxes next year, and a petition to the county auditor and a city ordinance to bring about the matter are to be drawn at once. Under the new plan the county will assess property and collect the city taxes for a fee of 1 per cent. The county will be responsible for the delinquent taxes, it is said. The county offices report that many of the municipalities in the county are adopting the plan of having the county do the assessing and collecting.

New plans for a horseshoe or continuous pier that would extend 1800 feet into the ocean were introduced at a recent meeting at Long Beach, and it is said steps may soon be taken for the circulation of a petition calling for a special \$1,250,000 bond election to vote on the structure, which it is proposed to extend from Pine to American avenue. Features are a breakwater formation along the entire length, making a lagoon which will provide still water for boating, an immense open-air Greek theater, seating 8000 people, a large arena which will give space for special pageants, open for erection of ice-skating palaces, a fishing pier extending 300 feet beyond the outer end of the continuous pier.

The secretaries of the Chambers of Commerce of Los Angeles, Riverside, Orange and San Diego counties met at Pasadena on December 16. More than 100 delegates attended. A reception was held in the morning, followed by a luncheon at noon at the Hotel Maryland, and addresses were made by A. L. Hamilton, chairman of the Pasadena city commission, and F. E. Wilcox and Dean George A. Damon of Throop. In the afternoon the delegates went up Mt. Lowe, and in the evening a business session was held at Alpine Tavern. Addresses were given by L. H. Ballard of Long Beach on "Tow to Handle a Board of Directors," J. C. Metzger of Santa Ana on "What Can the Small Chamber of Commerce do along the Lines of Effective Advertising," J. B. Pearman of Pasadena on "Ways and Means of Handling Inquiries for Prices on Properties," and E. K. Hoak of South Pasadena on "Advertising Southern California."

## JEFF McEMORE MARRIED

(By United Press)  
GALVESTON, Texas, Dec. 27.—Miss May Clark of Galveston was married here today to Congressman Jeff McEmore of Houston. The wedding took place at the home of the bride's widowed mother and only members of the immediate family were present. Congressman McEmore is the man who drafted the now historic congressional resolution to prohibit Americans from traveling in armed vessels on the high seas during the war. The fight was bitter and close, involving endorsement or repudiation of President Wilson's policy on the point, but the resolution was defeated.

The toys contributed by the children at the meeting of the Tuesday Afternoon Club yesterday were turned over by Mrs. Bartlett to Mrs. L. W. Sinclair, chairman of the philanthropic work, and today she and her assistants are taking some of them to the county hospital and the children's hospital. The latter part of this week or the first of next some will be taken to the Day Nursery and to the Coleman Settlement Association. The committee are very grateful to the children for their generous donations of toys, books, candy, etc.

**NEW QUARTERS FOR PRISONERS**

(By United Press)  
GRANVILLE, Dec. 27.—Milwaukee county criminals Monday will occupy new quarters in the luxurious establishment built here at a cost of \$700,000, and said by officials to be one of the largest, finest, most comfortable county workhouses in the county. The buildings, of which there are twelve, have been under course of construction for the last two years. They have a capacity for 650 prisoners. Each inmate has a separate cell, while those who sleep in the dormitories will have plenty of room and a number of cubic feet of air to breathe. The inmates will have luxuries denied many persons, even in moderate circumstances. Each cell will contain a toilet and wash basin, while shower baths will be installed along the cell corridors. So as not to fatigue prisoners, the chair factory has been located in such a manner that they will not have to walk a great distance. The factory will turn out thousands of chairs of all kinds each year. It was built at a cost of \$100,000.

**TROPICO TRUSTEES**

**PASS DOG KENNEL ORDINANCE, ORDER NEW MOTORCYCLE**

The trustees of the city of Tropic met in regular session Tuesday evening at 7:30, with the following officers and members of the board present: Trustees Peters, president of the board, Henry, Alspach, Seal and Vasselich, City Clerk Mrs. Coleman, City Attorney Shaw, City Engineer Wattles and Health Officer Mabry. Minutes of the last meeting read and approved.

A communication was received from Arthur Campbell representing the Title Guarantee & Trust Company in regard to the cutting into streets and the repair of same, stating that it was their intention to replace the street in just as good condition as they find them and if the city wishes, the city to do the repair work that they may have the street soft, do the work and send in their bill for same; on motion the communication was filed.

A communication was received from C. W. Coyner, manager of South Pasadena, in regard to the different rate charged by the Pacific Light & Power Company for electric energy supplied to the city of Tropic and the city of South Pasadena and other suburban towns and as the rate charged Tropic is so much greater than elsewhere, Mr. Coyner suggested that the Tropic board of trustees take the matter up with the railroad commission. The board seemed to think, as they had made the best contract possible under existing conditions, that they would let the matter rest for that period.

At the last meeting the city attorney was requested to investigate the franchise granted to the Southern California Gas Company to see if they were in any way bound to extend their mains whenever consumers wished to be supplied with gas. He reported that at the time the franchise was given the company was given three years in which to complete the laying of their mains and as that time had expired there could be nothing under the franchise governing such matters, and the quickest and probably the cheapest way for the Green and Hill street people to get a hearing in the matter would be for them to bring suit to compel the company to supply them with gas. After some discussion it was determined by the board to take this matter up for final disposal at its next meeting and addressed a resolution to the gas company notifying them of their intentions and requesting them to have a representative present.

The city engineer reported that the rough work of grading and filling in on Hill street was almost completed and that the recent rains had packed it in fine shape for the macadam. He also reported in writing a list of the streets and avenues in Tropic whose names should be changed and cited in detail why these names should be changed; after some discussion the matter was laid over until next meeting night.

The city health officer reported that the places referred to him at last meeting had been renovated and were now in good sanitary condition. Trustee Henry brought up the deferred subject of buying a motorcycle for the police department; after the matter was discussed thoroughly it was decided by motion to buy a motorcycle and the president of the board and the city marshal were delegated to make the purchase.

On motion, signs were ordered placed at all the crossings on Brand boulevard, warning the traveling public to "Keep to the Right." No further business, the board adjourned.

tion to routine duties he has supervision over some considerable territory and the consuls in that territory are in a way under his orders, but not entirely. For example: Mexico is divided into two districts with a consul general at Mexico City with supervision over the southern half of that country, while the consul general at Monterey has supervision over the northern half. In Chile we have no consul general, in Peru one, and so on. In each of these territories there are several consuls and consular agents. A consul has a certain district and sometimes there are one or more consular agents in their territory over whom they have supervision. The consuls general at large receive a salary of \$5000 per year and all expenses. The consuls general receive from \$4500 to \$12,000 per year and some allowances for expenses. The consuls receive from \$2000 to \$6000 with certain allowances. The consuls general and consuls are not allowed to engage in any outside business. The consular agent receives no salary but instead one-half of the fees received at his office for certification of consular invoices, depositions, etc. His maximum income is placed at \$1000 per year. He is allowed to engage in other business, in fact, nearly all our consular agents are men who are established in some line of business. The notarial services and other legal work performed by the consuls general, consuls and consular agents refer only to such matters as pertain to international transactions.

NEW YEAR'S DAY FOR TEWA INDIANS

Thursday may have been just December 21st to some folks, but it was New Year's day to the Tewa Indians. There are only about 1200 of the Tewas in five villages: San Juan, Santa Clara, San Idefonso, Nambe and Tesuque. They hold ancient beliefs deduced by themselves from things as they are. The Tewas six cardinal directions are north, south, east, west, above and below. Each direction is colored and has an animal to signify it. North is green and personified by a lion. The Tewas believe the sky is the husband of the earth. They believe the sun is a man who walks across the sky behind a yellow shield in summer, clad in white deerskins ornamented with beads. In the winter he is green. Their year began Thursday and their New Year's day is founded upon the belief that the sun stands still in the sky to mark a new 12 month.

SAVING THE HAT

The cornerstone laying had been a brilliant success. The weather was fine, the speeches eloquent, the music impressive. The master of ceremonies was very well satisfied with himself, yet with the disposal of the crowd he became strangely excited. Hurriedly he sought the master mason. "Is it possible to lift the cornerstone again?" he asked. "I am afraid not, sir," said the mason. "Have you any particular reason for asking?" "I have," said the master of ceremonies. "I've left my hat in the receptacle along with the records."

ORDER FILLED, O. K.

Stella—"I wish the Lord had made me a man!"
Jack—"He did. I'm the man."

THE MONSTER!

"I thought you had given up burnt-wood art, dearie?"
"Ferdinand, how can you be so heartless? This is a pie."

AN UNBREAKABLE GLASS

A new glass, transparent, tough and strong, which has all the advantages and none of the defects of brittle, fragile glass, has been invented by Frank Shuman of Philadelphia. A bullet fired from a revolver will not penetrate it, a brick, rocks or similar heavy object will not shatter it. When struck a heavy blow by a hammer it will break but will not fall, and the surface although showing the effect of the direct blow, remains perfectly smooth. Its secret is a transparent sheet of celluloid placed between two lights of glass which are in turn subjected to a high degree of heat under pressure, serving to weld the three pieces together leaving a transparency in the glass equal to the ordinary article and making it practically unbreakable. No estimate is given as yet of its cost or its production in sufficient commercial quantities.—Southwest Contractor.

SELLING POULTRY IN LATIN AMERICA

Mr. J. J. Dean, the "Buff Orpington" man of Moneta, California, lived in the Republic of Colombia during his younger days. He knows that fine poultry will sell in Latin America and did not hesitate to advertise in our Spanish magazine Los Vecinos. A mass of replies have been received from many parts of the south and Mr. Dean got out a very neat and attractive folder in Spanish. The only thing that has
