What Bank Clearings Show: Jesse Livermore's Opinion Interests; Future Has Most For B.C.

All that close observers of conditions have been saying recently about business improvement is borne out by official totals of bank clearings.
Victoria total for October is \$10,334,408.

Table with 2 columns: Month and Amount. Rows for January through October.

That looks like pretty fair improvement since the beginning of the year.
Jesse Livermore, acute analyst of conditions as they are reflected in the stock market, who has been a persistent "bear" since early this year, announces now he is a "bull."

With 90 per cent. of products selling at higher prices than the farmer ever received with the exception of wartime prices, business should not suffer, he declares.
That's worth noting in Western Canada and on this Coast. Farmers and the business men who serve them, buy our lumber, our fruit, our fish and our climate.

Livermore says "you have only to look at the volume of sales of large mail order houses to see how far present prices of commodities have gone to restore the buying power of agricultural districts; I do not look for a boom time but for a more or less steady agricultural season."
High prices for what they produce and labor is well employed at high wages, you cannot very well have had times."

That sounds like a substantial basis for good business conditions.
Remember, Western Canada has by far the largest grain crop in its history. As a result of this crop \$543,000,000 is now being distributed through the channels of trade.
Canada's minister of trade and commerce, the Hon. Thomas A. Low, arrives and tells what he thinks of us out here. This is what he says:
"Of all Canada, British Columbia has most to hope from the future; B. C.'s future lies most largely before her.
You of B. C. cannot be held back by barriers of man's erecting.
British Columbia is already the third manufacturing province of Canada, with a net annual output of \$75,000,000, he says.

Bank clearings in United States show which way prosperity is facing on this continent. In the latest report, New York, barometer of Eastern conditions, shows the biggest decline with a drop of 21 1/2 per cent. Los Angeles, which sets the pace up the Pacific Coast, shows the largest increase, with an advance of 42 1/2 per cent.
The star of Empire.
You know the rest of the line.

FISHERMEN'S SERIES IS WON BY BLUENOSE IN DRIVING RACE

Halifax, Nov. 1.—The Bluenose, Canadian schooner, today demonstrated her superiority over the Columbia of Gloucester, United States challenger for the International Fishermen's Trophy in a tip-snorting northeaster that caused both skippers to shorten sail and the craft to shower their decks with spray with every plunge. By today's win the Bluenose retains the trophy won two years ago from Elsie and retained last year off Gloucester in competition with the Henry Ford.

Times at the finish: Bluenose, 2:36.03; Columbia, 2:38.48. The race began in a fifteen-knot breeze. The starting times were: Bluenose, 9:00.27; Columbia, 9:00.30.

Seattle-Victoria Mail Plane Stolen and Recovered

Seattle, Nov. 1.—When Herbert Munter hastened to the hangar today to make a flight with United States mail from Seattle to Victoria, his trusty machine was gone. He found it two miles away, beached at a flying field of the United States navy at Stan Point. Officers of the company owning the plane incline to the opinion that its theft had been attempted as an interference with the transmission of mail to the Far East.

DISCOVERY AIDS MARCH OF SCIENCE

Scientists Return on President Jackson, With News of Momentous Discoveries

Professors Henry Fairfield Osborn and Roy Chapman Andrews, returning from momentous anthropological discoveries in Central Asia with six boxes of specimens, published by the left out of their sight, were prominent passengers, arriving on the Ss. President Jackson, docking this morning at Ogden Point.

Professor Osborn is president of the American Museum of Natural History, New York, and is returning with Mrs. Osborn, after being called to the site of the discoveries of the third Asiatic expedition in the Valley of the Tishet Mountains. Incidentally Professor Osborn returns happy in the fact that a prediction made twenty-three years ago has come true. In the year 1900 Professor Osborn predicted that the stems of the warm blooded mammals and reptilian fossils discovered on this continent would be found in ancestral and original form in the plateaus of Central Asia. His dream remained twenty-three years a reality. To-day it is a fact, the proof of which he brings as result of his labors in the field of the museum party.

Professor Roy Chapman Andrews led the party into the field last year and again this year, in two periods of five months each. Last year was devoted to a general survey for scientific purposes.

TO DECIDE DATE OF BANK TRIALS

Mr. Justice Smith Has Home Bank Before Him in Toronto

Toronto, Nov. 1.—Mr. Justice Smith will announce on Friday, November 2, whether the trial of former directors and officials of the Home Bank of Canada, charged before him with making false returns for the institution, will be deferred until January or whether the accused are entitled to a speedy trial under Part 18 of the Criminal Code. Considerable argument took place in the assize court today when the former directors and officials were charged with conspiracy under Sections 414 and 414 of the Code.

SASKATOON'S FIRST WHITE WOMAN IS CALLED BY DEATH

Saskatoon, Nov. 1.—Mrs. Julia Kuschnick, Saskatoon's first white woman, died here today, aged eighty-six years. Mrs. Kuschnick lived here with her husband and seven children from Pembroke, Ont., in May, 1882. She had twelve children, seven of whom are still living. She had seventy-five grandchildren, fifty of whom survive her. She was born in Poland.

PASSENGER COACHES ROLLED INTO FIELD

Seventy-Five Persons Injured, Four Seriously in W. Virginia

Orlando, W. V., Nov. 1.—More than seventy-five passengers were injured, four seriously, when Baltimore & Ohio train No. 62, a local running from Clarksburg to Richmond, was derailed near here today. Two coaches crowded with passengers jumped the tracks and rolled about forty feet into a field, where they came to a stop upside down. The injured were brought here.

EXPRESSES CONFIDENCE IN STEADY GROWTH OF CANADA'S TRADE

Hon. T. A. Low, Minister of Trade and Commerce, Pays Visit, Inspecting Esquimalt Drydock in Course of Western Tour

"We are now not only the greatest wheat-exporting country in the world, but the fourth largest traders and the largest per capita exporters. With one-twelfth of the population of the United States we are doing one-fourth of the quantity of her trade," stated Hon. T. A. Low, Minister of Trade and Commerce, on his arrival here today, in reviewing the extent of commercial development as indicated in the returns to his Department at Ottawa.

Mr. Low is engaged in a western tour to inspect grain, dockage and similar questions in Western Canada, and will return by way of the northern route through Edmonton and Saskatoon. It was the first visit paid by the Minister to Victoria.

MEDICAL RESEARCH WILL BE ASSISTED

Headquarters of New Banting Foundation in Toronto

Toronto, Nov. 1.—A great research organization is to be started in Toronto, to be known as the Banting Medical Research Foundation. EXPECT BUREAU IN CITY FRIDAY

Minister of Customs Hears Numerous Delegations

Hon. Jacques Bureau, Minister of Customs and Excise, is expected in the city to-morrow. His colleague in the King administration, Hon. T. A. Low, who was in Victoria today, said he saw Mr. Bureau for a few minutes yesterday, and at that time it was uncertain whether Mr. Bureau would leave for the capital on the night boat from Vancouver. Everything then depended on his engagements on the Lower Mainland and in the Vancouver Board of Trade, who was with Mr. Bureau at the international boundary at Blaine yesterday.

Says Inquiry Must Be Only to Fix Germany's Capacity For Payment and to Outline New Methods of Payment; Calls For New Monetary System in Germany

Paris, Nov. 1.—Premier Poincaré made a speech at Nevers today in which, as interpreted by the French Foreign Office, he recognized four points as within the jurisdiction of the committee of experts which is to make a reparations inquiry as a result of the recent negotiations of the European chancelleries and the Washington Government. The Premier, by his recognition, it is held, excluded consideration of any other point. The four points indicated are:
First—Germany's present capacity for payment.
Second—New methods of payment.
Third—The renouveau of Germany's finances.
Fourth—A new monetary system.

Lewis, R.N., of the Provincial Party,
held a meeting on Monday evening in
the S.L.A.A. Hall, some twenty-five
residents attended. The chair was
taken by Col. Eardly Wilmut.

Commander Lewis dealt mainly
with taxation matters, asserting that
it was hopeless to expect settlers
from the British Isles until taxation
was reduced.
At the close of the speeches ques-
tions were invited. One question,
"Was the attitude of the party
towards education?" it received the
answer, "The matter would be dealt
with at a forthcoming convention to
be held in Vancouver."

Berlin White Slavers Sent
Over 500 Girls to U.S.
Brown, War-Time Spy, Head
of Criminals

Brussels, Nov. 1.—The discov-
ery of a vast white slave enter-
prise through which more than
500 girls are reported to have
been shipped to the United States
has led to increased vigilance on
the part of the American immi-
gration authorities, whose repre-
sentatives in Antwerp, the Bel-
gian police say, have definite
proof of the affair. The principal
plot, named Brown, was pres-
ident of the Girls' Protection Society
in Berlin, who sent the girls via
Antwerp, Hamburg and Rotterdam
to the United States where they fell
into the hands of his confederates.

ORGANIZATION IN
PRISON BROKEN

Mulcahy Explains Measures
Taken by Irish Officials at
Mountjoy

Dublin, Nov. 1.—An explanation of
the origin of allegations of ill-treat-
ment of prisoners was made yester-
day before the Dail by Richard Mul-
cahy, Minister of Defence, who de-
clared the charges were part of a
general campaign of propaganda
based on unnecessary disciplinary mea-
sures.
The prisoners in Mountjoy Prison
had gradually built up a military
discipline, he said, which prevented
individual prisoners who desired to
sign a guarantee which would secure
their release from getting in touch
with the prison governors. He
charged that when disciplinary action
was taken the prisoners mutinied
and assailed the police with iron
bolts, necessitating the calling in of
troops, who fired warning shots over
the heads of the prisoners. When
the more aggressive leaders in the
yard were taken to the exercise grounds
they were either dragged out or had
the firing force turned on them. After
being forced out to the grounds, Mul-
cahy said, they set fire to the furni-
ture and as a result were left out-
side all night. The weather being
mild, the hose was also turned on the
more aggressive leaders in the yard.

and Canada and the United States could
ever form a marketing commission to
govern the price of export wheat as
long as the United States growers ad-
mitted they faced the prospect of less
than production costs, and when Can-
ada remained dependent on the United
States for wheat for export at less
than production cost, he said he
would be prepared to dispose of his

COARSENEED

before you noticed it!

The women who must keep their skin young know how to combat the insidious everyday exposure that attacks their faces

The air—hot or cold, moist or dry, carrying country dust, or city soot—is working slowly on the texture of every woman's skin. One day you may realize suddenly that something horrible has happened to your skin. It has grown thicker, duller—old and coarsened long before it should. Why didn't you give your face the two things it needed to keep it fresh and young?

Two essentials

The actress and the society woman who tax their faces extremely and yet have lovely complexions, have had to learn the right way to care for their skin. Night and day they keep it supple and fresh with this famous method of two entirely different creams based on the two essentials a skin must have to remain beautiful and fine.

TRY THIS FAMOUS METHOD

Every night. With the finger tips apply Pond's Cold Cream freely. The very fine oil in it is able to penetrate every pore. Let it stay on a minute—now wipe it off with a soft cloth. Do this twice. It not only cleanses exquisitely, but restores each time your skin's essential suppleness. This nightly freshening is essential for skin fitness.

Then in the morning, smooth on Pond's Vanishing Cream very evenly—just enough for your skin to absorb. No exposure to dirt and weather can

dry out your soft supple skin or alter its fineness. And this protecting cream has the power also of beautifying instantly. Notice how your skin is soft and velvety to the touch, marvelously fresh under the powder.

Use this method regularly. Soon your face will grow clearer, more transparent and smoother than you could have imagined—in spite of every day's exposure. Buy both creams today. The Pond's Extract Company, 146 Brock Avenue, Toronto, Canada.

Miss Jobyna Ralston, Harold Lloyd's leading lady, says, "With the regular use of Pond's Two Creams I can keep my skin smooth, supple and transparently fresh. I can depend on them to prevent the coarsening effects of weather."

EVERY SKIN NEEDS THESE TWO CREAMS

SAYS LIQUOR CHIEF PROBLEM OF U.S.

Henry Ford States Views as He Passes Through Toronto

Toronto, Nov. 1.—"What is the most important problem in the United States today?" was a question fired at Henry Ford, multi-millionaire industrialist of the United States, as he stood in the doorway of a car here while en route between Boston and Detroit.

"Booze," said Mr. Ford without further comment on the subject.

From the announcement that the Ford industries would spend \$10,000,000 in expansion throughout Canada during the coming year to the matter-of-fact statement that he was no hunter, speaking amiably and freely, Mr. Ford ran the gamut of a series of hurried questions. He was communicative except on politics.

In reference to white coal, he was of the opinion it was one of the greatest assets of Canada. "Develop your electrical energy," he said. "I am a great believer in it, and I can see a wonderful future for it in Canada. Electricity is the answer to many problems." The St. Lawrence Waterway is another great project which I favor. Power and transportation. That is what we need.

DAME CLARA BUTT AND DAME MELBA SANG IN CALGARY

Calgary, Nov. 1.—Two separate theatres were filled to capacity, with a large overflow crowd, by Dame Clara Butt and Dame Nellie Melba, famous singers, who gave performances here last night.

An unprecedented event in Canada, split the musical crowd, and many persons heard part of each.

JOHN MACDONALD FACES TRIAL AT SYDNEY, N.S.

Sydney, N.S., Nov. 1.—The grand jury yesterday returned a true bill in the case of John Macdonald of Toronto, charged with uttering seditious words at Sydney Mines some months ago.

The grand jury returned a verdict with utter unanimity since May, 1922, when Macdonald, a reporter for The Maritime Labor Herald, on a charge of unlawful assembly, has been set forward to the next term of the Supreme Court.

TO BE INVESTIGATED

Washington, Nov. 1.—Charges that Sergeant William C. Cunningham was made the victim of a conspiracy, brutally assaulted and unjustly sentenced after a court-martial to imprisonment at Leavenworth because of the part he took in investigating a \$2,000,000 theft of army material at Kelly Field, Texas, are to be investigated a second time by the War Department.

Secretary Weeks said today he personally had read the papers in the case and believed Cunningham justly convicted.

CRITICIZES TARIFF PLANS OF BALDWIN

Arthur Henderson, British Labor Leader Urges International Labor Legislation

London, Nov. 1. (Canadian Press Cable)—The first comment of a responsible Labor politician on Premier Baldwin's speech at Swansea Tuesday night on the subject of protection, was made by Richard Hon. Arthur Henderson, secretary of the Labor Party, in a speech at Acton yesterday.

Mr. Henderson, while subjecting the Premier's economic policy to considerable criticism, did not go so far as to condemn it entirely. He pointed out that protected countries were not a workers' paradise, and that the only effective fundamental remedy for the unequal home and foreign working conditions was a policy of international labor legislation. "This was Labor's policy," he emphasized that Labor did not intend to be dragged at the heels of any party on a question of a fiscal policy. He urged that the tariff should be free trade on the Cobdenite lines.

REVENUE AT HIGHER LEVEL

Federal Customs and Excise Figure For Seven Months \$179,381,952

Ottawa, Nov. 1. (Canadian Press)—Customs and excise revenue increased \$2,352,637 during the seven months which ended with October 31 compared with the corresponding period last year, according to figures furnished by the Department of Customs and Excise. This increase is due to a decrease in the amount of revenue stamps for collection purposes which became effective October 1 diverted a considerable amount of revenue which formerly found its way to the Post Office Department on account of the use of postage stamps.

The figure for the seven months ended with October 31 was \$179,381,952, compared with \$177,029,315 for the first seven months of the last fiscal year.

BRITISH FARMERS AND CATTLE TRADE

London, Nov. 1. (Canadian Press Cable)—The Times commenting on the decision of the Imperial Conference with reference to the importation of cattle from Canada, says that, as a promoter of British agriculture, it must be a spirit of good will and a liberal interpretation in carrying out the existing agreements, but the disinclination to give a go-ahead beyond the measure to be proposed by Sir Robert Sanders, Minister of Agriculture, is in no way due to their dislike of British agriculture. It is a grim conviction that at the present moment the industry in which they are engaged needs all the protection that can be given, says The Times.

POSTAL RATES ARE CAUSE OF CONTEST

Special to The Times.

Wellington, N.Z., Oct. 31.—A post office war is being waged between Australia and New Zealand.

Australia recently decided to cut down its two penny postage to one halfpenny, and New Zealand, to go one better, decided to cut it to a penny. New Zealand, including Canada, agreed to New Zealand's reduction but Australia stood out and refused.

New Zealand says that the rate is 1200 miles away, and only a penny to travel the same distance.

Australia refuses to give any reasons for her refusal but presumably it is a desire not to lose the revenue.

DOUKHOBOIS TO STAY ON PRAIRIE

Winnipeg, Nov. 1.—Land in Mexico is not improving the Kamsack and Buchanan districts in Saskatchewan according to members of the party who passed through the province en route home after an inspection trip to the Santa Clara Ranch, seventy-five miles from Chihuahua, Mexico. They also reported that the Mennonite and Doukhoboi settlements in Western Canada were making little progress on their Mexican farms.

The party went to Mexico as a result of the proposal to clear title acreage in the Santa Clara Ranch. It was stated that the Doukhobois had considered leaving Canada on account of the way they were harassed by their creditors, but after viewing the land in the South, there is little chance of any of them leaving Saskatchewan.

STRIKE ARBITRATION ASKED IN PORTLAND

Portland, Ore., Nov. 1.—The Northwestern Electric Company, against which a strike of electrical workers has been in progress since Tuesday, is considering a request of the union that the difference involved be submitted to the State Board of Conciliation, according to a statement issued by L. T. Mersfield, general manager of the company. William F. Woodward, chairman of the board, notified Merwin yesterday that the strikers had requested the board to intervene.

COPPER MINERS' WAGES REDUCED

Phoenix, Ariz., Nov. 1.—Wages of approximately 5,000 miners in the Arizona copper mines were reduced today when the wage scale in effect prior to March 1 last was restored by the operators in line with similar reductions in wages at the Utah and Montana copper mines.

Workers in the Arizona mines probably will make no protest against the reduction, labor leaders here say, as the restoration of the old scale is being made on the basis of the sliding scale, to which the miners are reconciled. The reduction ranges from nine to ten per cent.

FOREIGN TRADE FIGURES OF U.S.

September Showed Increase Over Corresponding Month a Year Ago

Washington, Nov. 1.—The foreign trade of the United States during September, which showed a market increase when compared with the same month of 1922, was proportionately very little changed in the standing of various countries which participate in American commerce.

Figures made public today by the Commerce Department on the destination of exports and the source of imports, with comparisons between September, 1923, and September, 1922, follow:

Imports—Sept. 1923	Sept. 1922
Europe	\$ 85,274,597
N. America	66,572,931
S. America	27,830,180
Asia	68,851,486
Oceania	4,289,644

300 MUNICIPAL ELECTIONS HELD

People of England and Wales Make Choice of Councillors

London, Nov. 1.—More than 300 municipalities in England and Wales today are electing councillors to replace one-third of the total number of representatives, but percentage retiring annually.

The feature of the present contest is the strenuous effort being made by the Laborites and Socialists to elect their candidates, but during the last two years, the main issues upon which they have campaigned are unemployment and the housing shortage, but as their policy on these questions entails a considerable public expense they have not strong position.

As the country just now is flooded with talk of a possible general election in the near future, the municipal contests will be regarded more than ever before as showing the trend of political sympathies. The energy which the Labor and Socialist parties have bestowed upon the campaign is shown partly by the fact that their candidates greatly outnumber those of any other party. The Communists, who also are running, where they meet find the middle way. But you of British Columbia cannot be held back by any barriers of man's greed from the roll that destiny has written for you. You stand at the meeting not of East and West alone, but of nations.

URGENT PAYMENT OF BANK DEPOSITORS

Interested Torontonians Call For Federal Aid For Home Bank Sufferers

Toronto, Nov. 1.—At a meeting of depositors of the West Branch of the Home Bank last night two resolutions were passed, one urging the Province of Ontario forego priority on at least one-half of its claims in connection with its deposit in the defunct bank, and the second calling on the Federal Government to see that the depositors were paid 100 cents on the dollar by reason of the Government's failure to close the bank and to pass a bill at the next session with this end in view.

MARINER DRUGGED AND SWINDED

Special to The Times.

Sydney, Australia, Oct. 31.—Kept under the influence of drugs on the Sea Islands for two years by a man and a woman who compelled him to sign away all his property, a Canadian sea-captain who served at Gallipoli during the war, the police are keeping secret pending arrests, has told an astonishing story to the police department.

The captain had been sent to the South Sea Islands to take charge of copra plantations for a private syndicate. He met a man and woman there who introduced him to the use of drugs. They kept him in a more or less doped condition for two years, he says, and during that time managed to get him to sign away all his property to them. He was brought to Sydney ultimately and shifted about from place to place the man and the woman never letting him out of their clutches.

Meanwhile the captain's wife in England advertised for him on his non-return from the South Seas and the police got on his track. Then the man and woman disappeared.

STATES ESKIMOS GIVEN FAVORABLE TRIAL

T. L. Cory Returning to Ottawa From Herschel Island

Winnipeg, Nov. 1.—That the Eskimos tried at Herschel Island for murder had been given a thorough and fair trial and that everything was in accordance with the best traditions of British courts of justice, was the statement made last night by Thomas L. Cory, Ottawa, counsel for the defence, who reached Winnipeg yesterday after leaving Herschel Island August 12.

Mr. Cory declined to discuss the movement on foot for getting the condemned Eskimos reprieved on grounds that they were not familiar with the laws of civilization.

EXPRESS CONFIDENCE IN STEADY GROWTH OF CANADA'S TRADE

(Continued from page 1.)

Speaking of the great natural resources of British Columbia, Mr. Low said:

"In 1922 B.C. produced twenty-two per cent of Canada's fruit and vegetables, fourteen per cent of her copper, thirty-six per cent of her silver, seventy-five per cent of her copper, twenty-two per cent of her coal, 100 per cent of her zinc, ninety-four per cent of her lead, forty per cent of her fish, thirty per cent of her lumber, and the Province has under operation about eleven per cent of the total waterpower development of the Dominion. And this is the achievement of a population about the size of the city of Toronto scattered over nearly 400,000 square miles of territory. British Columbia can well claim a first place for progressive development among the provinces of Canada."

The Oriental Market

"Of all Canada," said Mr. Low, "British Columbia's future lies most largely before her. At her door is three-fifths of the world's population, an Orient awakening to the customs of western civilization and calling out for its exports. She has the resources and facilities to answer that call. In 1914 we exported to China \$473,000 worth of goods, last year over five million dollars worth. To Japan in 1914 we sent one and a half million dollars' worth. In 1923 over fourteen million. To Australia we sent in 1914 four million dollars' worth, but in 1923 almost nineteen million. With these Eastern markets before B.C., and with the rapidly filling pipelines behind her she occupies a strategic position not of Canadian trade but of international commerce. You people of the Coast have the question of freight rates, of markets in this sparsely settled country for your abundant products. You have these and other questions calling for our study and understanding in the East, and we too have ours. And somewhere we must find the middle way. But you of British Columbia cannot be held back by any barriers of man's greed from the roll that destiny has written for you. You stand at the meeting not of East and West alone, but of nations."

National Unity

Voicing an appeal for Canadian unity, such as was shown in the war effort, the Minister said: "When with the war there was one clear issue of right, Canada knew neither East nor West, but only one national call that sent 600,000 of our best, practically one-twelfth of our population, into an effort from which 60,000 did not return. We poured our two and a half billion dollars and increased our national debt eight-fold. Surely the call for united construction can meet with equal response, and in spite of those who for their purposes would sacrifice the heart and sinew of Canada in strong and true, and that we are far from bankruptcy, and really on the way to complete recovery. Our staggering national debt, over which some of the Eastern papers are hysterical, is largely the result of war, but even at that it is in a better position than the debt of any of our Allies who were in the war the same length of time. Our debt is now about two and a half billion dollars, or \$268 per head. That of the United Kingdom is \$731.88 per capita, France \$540, Australia \$359.60, while the United States with but one year of war, is \$215.26. Yet there are no so-called patriots howling about these countries, and we have more than their cause for optimism. Actual conditions in Canada are our greatest encouragement."

As a straight business proposition the Minister asked if there was any doubt of a man's credit if he had assets of twenty billion against a debt of two and a half billion.

Extent of National Credit

But national credit went further than this, Mr. Low pointed out. "The people of Canada have on deposit in banks and loan companies in the Dominion over two billion dollars, over three and a half billion carried in life insurance and seven and a half billions in fire insurance," he observed.

"In the decade from 1913 to 1922 the Canadian people have invested nearly three billion dollars in bonds of various kinds. Of our national debt itself, nearly 80% held by our own people, and in last month's refunding loan the money was so rapidly subscribed that the Government had to increase the fund to meet the demand. Does that sound like bankruptcy? Is there any fear for a country 80% of whose debt is held by her own people?"

In the last decade our population increased almost 25%, while that of the United States increased only 15%. Of the British Empire our growth was only surpassed by Australia, who was less than 1% ahead.

Turn of the Tide

"Take our trade from 1904 to 1914, there was a steady balance against us which by 1913 had grown to \$24,000,000. Mr. Low continued. "But tide has been turning our way and last year the balance was \$100,000,000 on our side. This great export trade was built on direct production from our natural resources. We are just beginning to make a scientific study of our export markets, and getting the Canadian producer to make what the foreign buyer wants. Last year, for instance, Canadian wool-manufacture was valued at over \$20,000,000, the result of the scientific study of our export markets."

Low was willing to retire in Mr. Gration's favor, and in return Mr. McGarry was to be returned unopposed to the Ontario Legislature as a Conservative. The compact, in so far as it concerned Mr. McGarry was loyally kept, but when Mr. Low retired early in 1912 for Mr. Graham some of the Conservatives in South Renfrew refused to honor the undertaking, and opposed the ex-minister. However, Mr. Graham was elected by a small majority.

Mr. Low was out of the House of Commons for several years, developing his business interests. He came back for his old riding, which had returned an Opposition member to the Parliament of 1917-1921 at the last general election, having a majority over the candidates of the Conservative, Labor and Progressive parties. When the King Ministry was formed he was appointed a Minister without portfolio, and sworn of the Privy Council. He now attains a portfolio after a ministerial career of less than two years.

Nature Puts in the Flavor

One of the chief causes for the pure, fresh naturalness of flavor of Pacific Milk is that here, in this nature-favored part of Canada, the dairy herds find green pasturage almost the whole year round. The milk is better. We only retain its rich naturalness.

MUSSOLINI'S ANNIVERSARY

In view of the fact that the Mussolini Party in Italy has just celebrated its first anniversary of political success we shall expect Lord Rothermere to tell us once more that this modern Cromwell has saved the rest of Europe from an "overflow of Bolshevism" and the London Observer to repeat its assertion that "Signor Mussolini is one of the greatest forces of our time... and fulfills democracy more than any living statesman in any country."

Events and circumstances in Italy during the last year or so have furnished Lord Rothermere with nothing substantial upon which he might base an illustration of his own fear for the social fabric of the "rest of Europe." And how the leading weekly newspaper of Great Britain could so far forget itself as to describe Mussolini as the fulfillment of democracy verily passeth all understanding.

Competent observers and followers of latter day Italian history declare that there never was a danger of Bolshevist revolution. They point to the fact that if the Socialists had been looking for a pretext to take up Leninism with a will they could have found it in the attack upon the offices of the leading Socialist organ of the country. An anonymous writer in one of the Old Country reviews—a student of Italian politics and Mussolini's part in them—also reminds all and sundry of the pitiable failure of the workmen's attempt to run the industries of the country, how they implored the employers to take back their factories and operate them and assure regular wages, how when food prices rose the Socialists actually essayed to calm the people, how this faction ignored another opportunity to put their theories to the test when the troops that were ordered to Albania mutinied, how these radical elements never attempted to seize the vital services of the country—the prefectures, the telegraphs, and the whole apparatus of government—how these facts amply prove that they never were in real earnest. And it must be remembered that Mussolini played a very important part in supporting the political errors of Baron Sonnino and contributed in substantial fashion towards the turning of the heads of the people during the war and inflamed popular disaffection with the Peace. Of this the Socialists took the fullest advantage; but their subsequent actions betrayed a lack of earnest purpose.

Where is the basis of Lord Rothermere's fear and whence came the inspiration to The Observer? To quote the anonymous writer again: the Fascisti had ceased to be anti-Socialist or anti-Bolshevist because "ardent spirits find little sport and less profit in tramping upon corpses." Consequently they became anti-parliamentary and proceeded to cover political freedom with a "blanket of black flannel." How long will it be before Mussolini and his followers cool down and make peace with "plain folk and plain facts?" The powers of State will sooner or later prevail over the powers of party. No movement "born of fear, nurtured on violence, and sustained by intolerance" can expect to live to enjoy many anniversaries.

WHAT DID MR. POOLEY MEAN?

If we are to believe the member for Esquimalt British Columbia is in a very bad way indeed. Mr. Pooley tells us that the Province is a long way from prosperity and unless "we get something more" than "self-praise" from the Government he fails to see any very bright ray of hope.

It is fortunate that the Esquimalt member has a remedy. The only thing about the remedy that we do not quite understand is the manner in which he proposes to employ it. It looks simple enough. What is there the least ambiguous about: "We want a full dinner pail, less taxes and more action." This is the remedy Mr. Pooley proposed to the Legislature yesterday.

A full dinner pail is fairly self-explanatory and there is not a school boy in the Province who would require to put forth any amount of mental effort to understand what is meant by less taxes. But what does really lie behind those two mystic words "more action." We could easily hazard a fairly accurate guess; but it seems hardly fair to think that the Esquimalt member would steal his leader's thunder by telling the people of British Columbia that more public works should be undertaken, more roads built, more railway construction launched; that spending be curtailed, borrowing be dispensed with; that there be cheap money for farmers and that taxation all round be cut down materially.

Consequently it is only fair to suggest that Mr. Pooley would have more correctly interpreted his duty to the people of British Columbia if he had given us an intelligent meaning of "more action" instead of a long recital of the manner in which some gentleman in the North is supposed to be getting round the liquor laws of the Province.

HOW THEY DO BUSINESS

How the two English-speaking nations can do business without fuss or harsh words, and literature through an important consideration in the purpose may be... states are which th...

of the latter may search ships for contraband liquor.

The understanding that has been reached so far is intended to permit search for liquor only within a radius of twelve miles from the American shore and assure American affirmation by Treaty of the principle of the three-mile limit for territorial waters. In consequence of the granting of this concession our neighbor will allow British ships to carry liquor for their own use into United States ports as long as it shall be under seal while in such territorial waters.

When this arrangement is ratified the Republic to the South should find some of its difficulties that are at present traceable to the "rum fleet" considerably minimized. On the other hand travellers on British liners may have such satisfaction as they may extract from an Eastward voyage upon which the arbitrament of a "dry" condition is not imposed. The main point, however, is the settlement of a ticklish question in the spirit of friendliness and co-operation.

SOME OCTOBER!

Are there very many pleasant places in this wide world that can boast of a mean temperature of fifty-three and 162 hours of bright sunshine—with only two really full cloudy days—in the month of October? We venture to assume there are precious few; but Victoria happens to be one of those favored spots.

Apart from these highly gratifying facts, we are also informed that the rainfall was less than two inches for the month and a little more than an inch below the average. Our sunshine also was just over thirty hours in excess of the customary October amount and the mean temperature as a rule is somewhere in the region of fifty. But if the month which has just closed could claim no more than the average our initial question still holds good.

All of which means that we have a marketable commodity on sale for seven months of the year that can be marked in plain figures and guaranteed perfect.

James Larkin has proposed to Premier Cosgrave that he will settle all Labor disputes in the Free State if the Government will release all political prisoners. Very naturally the Premier is not having any and doubts, quite rightly too, "Jim's" ability to settle any dispute. He would pine away and die if he were not in trouble of some sort.

PLAN SCOUT CENSUS

The Provincial Secretary of the Boy Scouts' Association in British Columbia requests scoutmasters and cubmasters throughout the Province to have census forms completed and returned to provincial headquarters, 1214 Broad St., Victoria, B.C., at the earliest opportunity. A complete census statement of all British Columbia troops and packs has been compiled, by that headquarters and transmitted to the Canadian General Council of the association during November, and the co-operation of all scouts is therefore earnestly desired.

BRITISH-ISRAELISM

To the Editor:—An article in your Saturday supplement dated London, Oct. 27, calls for criticism and a restatement, more in accordance with facts. Your correspondent is also most decidedly wrong in his estimate of the importance of the British-Israel World Federation movement. I have before me the latest number of the National Message, the official organ of the federation, containing an account of the opening of the fourth annual congress (and not the first, as your article seems to imply). In the King George Hall, Y.M.C.A., Tottenham Court Road, on the 8th, and continued the five following days of this month, Princess Alice, chief patroness (first cousin of the King, not second), was present with others of the nobility. The hall, which seats 2,500, was filled to capacity, with a most influential and enthusiastic gathering. The president, Lord Gisborough, was supported by a strong platform. Powerful addresses were delivered by the Rev. W. E. Woodhams Denham, on the reconstruction of biblical interpretation, the Rev. W. R. Goad on "This Gospel of the Kingdom," and the Rev. J. Anderson Watt on "Divinity in the British Empire." Also delegates from all parts of the Empire and the United States were present in considerable numbers.

The platform itself is termed a "miracle of grace." This will be understood by the statement that the laymen were outnumbered by clergy and ministers of many communions. The English church was well represented; the Presbyterian, Congregational, and Wesleyan bodies, with others, were there in force. And the spirit of comradeship and brotherhood was very marked. This is a platform upon which all the Protestant denominations meet and mingle in hearty good fellowship. Your correspondent has evidently a very partial and inadequate conception of the principles, which British-Israel truth stands for. This is evident by his statement that we claim to be descended from one of the lost tribes; whereas the whole twelve are undoubtedly represented in the Anglo-Saxon world. He further states that religious circles generally this movement has about as much influence as Joanna Southcote-Cox, and few men of scholarship attach the slightest weight to "theories." Surely prejudice could go no further. I have in my possession a long list of names of clergy and ministers of all the above religious bodies, who are members of the federation. Also of men who hold high positions in the realms of art and science, one of whom, Dr. M. C. Schuyten, professor of mathematics, at Brussels University, has lectured on this subject in London. Many names of those who stand high in the legislatures of the Empire, including Premier Murray, of New Zealand; in the army and navy; and in fact all ranks and creeds of life could be mentioned who believe heart and soul in this great truth: to say nothing of such eminent names as Lord Roberts, Kitchener, Admiral Fisher, etc., etc., who have passed to their rest. These men were not visionaries. One who is in the very best position to know, has estimated that believers now number at least 10,000,000. Of course, this belief is based in the first place on the universal reserved acceptance of the Scriptures, as both first and second volumes, as the inspired words of the Almighty God, and a belief that He meant every word of it, and that He must, and will, fulfill every promise therein, according to our Lord and Saviour's specific statement. It is also further supported by historical evidences which have caused many thinking minds to ponder upon what it all means. Also the leading authorities on ethnology support it; Sharon Turner for instance. Even such a sceptic as H. G. Wells, in his Outline of History, admits of a rather line of history, which he says, "under different names, who came into Britain in the early centuries of this era, were related peoples. As of course, all the tribes of Israel were of this race, and it must be, if God has kept his promise to regenerate the tribes which he cast off, and to put them in a place of safety and give them the desolate heritages and command of the sea, unbounded wealth, victory over all their enemies, etc., what other people on earth occupy this position? Is it not worth while investigating the reason of it all, and finding it all confirmed, to give thanks and praise to Almighty God for His wonderful forbearance and love to His erring, disobedient people, just like Esau we be found despising our birthright."

Is this shopper doing her part to insure good service? The answer will be found among to-day's want ads.

The big demand for tickets for the British Campaigners' Association dinner at the Chamber of Commerce this evening, when the blocking of Zebrugge will be commemorated, indicates a large attendance. There are still a few tickets on hand which can be obtained from W. J. Edwards, phone 6958. Uniform may be worn by all ranks who desire, otherwise dress will be informal. The address by Captain Thorpe-Double on the memorable feat of the navy is being awaited with interest.

WOMAN'S PERSONAL

PRETTIEST COSTUMES GRACE ESQUIMALT P. T. A. MASQUERADE
Nearly Six Hundred Guests Last Night; \$130 For Milk Fund

Lampson Street School was the scene of one of the most successful entertainments for children ever given in Esquimalt, when between 600 and 600 guests attended the Halloween masquerade evening.
Mrs. J. Nicol and Mrs. Watson, the president and vice-president of the Esquimalt Parent-Teacher Association, under the auspices of which it was held, received the visitors in the auditorium, which was gaily decorated with Autumn flowers and emblems of Halloween. The parents were accommodated with seats around the hall, leaving the floor free for the children, who marched in a grand procession headed by two tiny toddlers in Eastern dress. There was an endless variety of beautiful and quaint costumes, witches in plenty, and a slim little gnome in green, bedecked with a snow drop, a cornflower, rosebuds and other flowers provided dainty hues. More vivid were the girls and boys from Japan, Russia and the East. The gipsies and Indian chiefs, Little Red Riding Hood, Little Boy Blue and Robin Hood were there, and there was also a young girl in a white dress and a boy in a red and white striped outfit.
Among the original characters the one which attracted most attention, in view of the object of the dance, was a huge milk bottle extremely well carried out. Up-to-date, too, was the little Greek fruit vendor bearing the legend, "Yes, we have no bananas."

Altogether, the task of deciding to whom the prizes should be given was more than usually difficult, and the Judges, Mrs. Booth, Rev. Father Silver and Mr. Black are to be congratulated on making so generally satisfactory a selection.
Prizes, which were distributed by Mrs. J. Nicol and Mrs. Watson, were awarded as follows:
Girls' national—First, Evelyn Martin; Canada, second, Dorothy Bourne; Irish colleen, third, Josephine Doucette; Turkish lady, first, Nora Griggs; Girls' comic—First, Nora Griggs; Huck Finn, second, Dorothy Cave; Aunt Dinah; third, Ethel Keeler, with.
Original—First, Gwendolyn Griggs, milk bottle; second, Mildred Cragg, cabbage; third, Mabel Sanders, "Substitution."
Prettiest—Phyllis Lockley, Molly Patterson and Emily McDuff, fairies, all received first prizes.
Boys' comic—First, Roland Welsh, Huckleberry Finn; second, Peter Nicholls, gollywog; third, Lillie Walsh, boy.
Historical—First, Keith McFarlane, Dick Whittington; second, Donald Woodie, Guy Rainsford.
National—First, Clifford Dawley, French boy; second, Gordon Nicol, American; third, David Stevenson, Indian.

Original—First, George Ford, Puss in Boots; second, Douglas McIntyre, page boy; third, Billy Hole, Jackie Cougar.
Advertisements—First, Elton twins, Gold Dust Twins; second, May Fea, Swift's products; third, Malcolm Chandler, Butter and Bread.
Special prizes—First, Pearl Gray, rose; second, Kathleen Johnson, Indian; third, Margery Thompson, old lady; fourth, Phyllis Adams and Beattie Borrowman, "Two little girls in blue"; fifth, Elsiebeth Cochrane, Lady Pompadour; sixth, Dorothy Scott, Queen of Hearts; seventh, Tommy Hodnett and Irene Hislop, Irish boy and girl; eighth, Jean Hansen, Winter; ninth, Irene Nicholson, "Buffalo Soldiers"; May Ford, Rose.
A special prize was also given to "Teeny" Saddler, who as "Squibs," a flower girl, dispensed her posies for the benefit of the fund. Another source of revenue was the ice cream stall convened by Mrs. King, assisted by Mrs. Neil Fraser and Mrs. Sanders.

Fairey's Orchestra supplied bright and appropriate music. Ernest Campbell, principal of the school, and J. Nicol were indefatigable masters of ceremonies, and all combined to make the evening an outstanding success. Sufficient funds to defray the cost of prizes and other expenses were collected for that purpose, and the entire proceeds of the ball will be added to the credit of the milk fund, which will benefit to the extent of some \$130.

Yesterday afternoon the Rev. Dr. Campbell celebrated at "Iradadibane" the marriage of Mr. George Nicol to his bride, Miss Clara Plowright, of Saanich. They were accompanied by Mrs. Mary Ann Sandover and Mr. Alfred Cliff, Mr. and Mrs. Cliff will make their trip to Saanich.

A very enjoyable evening party was given on Monday by Mrs. James Nicol at her residence, "Auchmountain," Esquimalt, to celebrate the birthday of Miss Sara McDuff. A large gathering of young people was present, and the evening was spent in games and dancing. Dainty refreshments were served.

Mrs. W. C. Edgar, of 135 Hollywood Crescent, Victoria, B. C., announces the engagement of her only daughter, Mabelle Gertrude Edgar, to Mr. E. B. Bannard, of Montreal, younger son of the late Mr. and Mrs. A. Bannard, of Eastbourne, England. The marriage will take place November 20 in Victoria.

Mr. and Mrs. W. H. O'zard, of Albany Road, will celebrate their twelfth anniversary at their wedding on Saturday. In the afternoon Mrs. O'zard will hold a reception from 3 o'clock to 5 o'clock at her home, 1005 1/2 street, and in the evening Mr. and Mrs. O'zard will be at home to their friends from 7 until 10 p.m.

The annual bazaar of the First Presbyterian Church will be formally opened Saturday, November 3, at 3 p.m. in the schoolroom of the church by the noted Canadian pianist, Mrs. Nellie McClung. At six o'clock a cafeteria supper will be served.

A delightful Halloween house party was held at the Young Women's Christian Association headquarters last evening, the social committee being the hostesses. High carnival was held, and fancy costumes worn by the girls were most original. Witches, cats and bats predominated, and all in harmony with the decorations of the rooms. High carnival was held until 11:30, the last part of the programme consisting of a sumptuous supper, the table being suitably decorated with cats, pumpkins, and witches. The toast list included "The King," "Our Dominion," "Our Visitor, Miss E. DeWolfe," "The Y.M.C.A. and Mrs. Mitchell and Mrs. Giesman, who were responsible for the supper, and for which vociferous applause was accorded.

The guests at "Cherry Bank" were hosts at a delightful dance evening, held in the lounge, which for the occasion was gay with Halloween decorations. Among those present were Mr. and Mrs. M. P. Gordon, Mr. and Mrs. Whitcroft of Vancouver, Mr. and Mrs. Jordan, Mr. and Mrs. Gallop, Mr. and Mrs. Curry, Mr. and Mrs. Frank, Mrs. Haller, Mrs. Parrot, Mrs. John Moss, Mr. and Mrs. Fred Polson, Mrs. Taylor, Mrs. Thwaites, the Misses Ross, Prudeaux, Workman, Aubrey, Graham, Livingston, Hope Leeming, Phyllis Knappan, Myra Bennett, Mrs. Mary Helen Marshall, A. E. Starr, E. Urry, Otto Weller, Jr., Lynn Gordon of Kamloops, Ide of Seattle, Darcy Marsh, Aldrich, Edwin McLean, George Beay, Mrs. Payson, Kenneth Raymur, John Davidson, Bill Polard, Conway Parrot, George Beattie, Thomas Wilson, Herbert Warren, Kenneth Riddle, Richard Despecker and Newcombe.

The monthly meeting of the Women's Auxiliary to the Provincial Royal-Spelled Hospital held in the Nurses' Home yesterday afternoon, it was decided that there would be no teas or other functions arranged by the W.A. to swell their exchequer during the forthcoming hospital campaign, all the members devoting their energies to the furtherance of the big cause. (Bills amounting to \$73.34 were ordered paid, and acknowledgment was made of cheques for \$26.34 from the Community Chest. Mrs. Verrinder was appointed to act on the executive to fill a vacancy, and Mrs. J. E. Upgahc and Mrs. E. H. Griffiths were appointed to the buying committee.

A generous donation of \$50 towards the maternity ward fund of the new hospital was received from Mrs. McB. Smith. Plans for the furnishing of the new hospital were discussed.

Mrs. Hermann Robertson announced that the following had paid their membership dues. Mrs. Howell, Mrs. Grierison, Mrs. Graham, Mrs. Gallon, Mrs. Haderman, Mrs. Holmes, Mrs. Hunt, Mrs. Holmes, Mrs. Selden Humphreys, Mrs. Forman, Mrs. Randall, Mrs. A. L. Cameron, Mrs. G. R. Members of the Victoria Fire Department proved themselves exceptional hosts at their big dance at the Armories last evening, when nearly 1,000 guests entered thoroughly into the spirit of the affair, and enjoyed the programme arranged for their entertainment. The gathering was augmented at midnight by a number of guests from other Halloween festivities.

Great credit for the success of the affair is due to the committee which included Capt. Raymond, Lieut. Taylor, Mr. J. Barton, Lieut. Gwyer, Mr. P. Guy, Lieut. R. Brindle, Mr. Arthur Clarke, Mr. H. Dyer and other members of the department. An elaborate scheme of decoration is being prepared in which much of the work will be done by the sailors, who are masters of this art. Flash colored electric lights, and various novelties will be introduced.

Naval and Military Ball on Armistice Night
A naval and military ball, in which not only all the permanent militia and military forces and active militia are taking part, but also the former soldiers who served with the colors in the recent war will be held at the Armories on Bay Street on Armistice Night, Monday, November 12.

The purpose of this ball is to raise funds to form the nucleus for the erection of a permanent memorial to be erected to commemorate the comrades who gave their lives in the great cause. What form this memorial will take is a matter for future consideration. This will be decided by the consensus of opinion of the citizens of Victoria, but it is intended to make it a permanent one that will mark the memory of the Victorians who fell, until time shall be no more.

An energetic committee has been engaged for some time past in making preparations for the ball, and it is anticipated that the function will rank with any held during the season. An elaborate scheme of decoration is being prepared in which much of the work will be done by the sailors, who are masters of this art. Flash colored electric lights, and various novelties will be introduced.

Uniforms to be worn by all the naval and military men attending, and all those who have the right by their service to wear uniform are also requested to do so. The necessary permission to wear uniform and also decorations has been given by the district officer commanding.

The various militia units at the drill hall will be "at home" in their messes during the evening. His Honor the Lieutenant-Governor has signified his intention of being present, also the senior naval officer, district officer commanding, and students of the Alexandra ballroom, Courtney Street, to-morrow afternoon from 4 until 8 o'clock.

The Friday afternoon has been chosen in order not to interfere with school studies, and a big crowd of little folks is expected. The Chapter also hope that there will be many grown-ups to watch the kiddies dance and play the old-fashioned Halloween games, and afternoon tea will be available for the adults.

Camosun Chapter has held this annual Halloween party for many years past, and the members are confident that the success of this year's affair will out rival that of former occasions. The proceeds will be devoted to the furnishing of the Chapter's room at the new Provincial Jubilee Hospital.

Progressive Club Party—At the successful card party and dance held in the Caledonia Hall under the auspices of the Progressive Conservative Club last evening the following were the winners in the card games: Mrs. Bennis, Miss Morris, Mr. Grice, Mr. Morney, J. McRae, Mr. Wescott, Mr. Bromley, Mr. Fraser, Mrs. Adams, Mrs. Boyd, Mrs. West and Mrs. Colesman; Mr. Livingston and Mr. Jones won the "ten bid." The tombola winners were, Mr. Churchill holding ticket No. 98; Mr. Hogan, 49; Mr. Livingston, 23, and Mr. Kelly, 37. The music for dancing was supplied by Mrs. Ridgair's orchestra. Prior to the social gathering a business meeting was held at which standing votes of condolence were passed to the families of the late Mrs. Armstrong and the late C. T. Cross. Mr. Brian Combe, the capable social convener, gave a most gratifying report and was accorded a hearty vote of thanks. A special business meeting will be held on Monday at 8 p.m. in the Balmoral Hotel.

YOUR HOME AND YOU
By HELEN KENDALL
Individualizing the Inside Door
Have you ever been a visitor in a messy, though you might imagine so if you hadn't seen it. The general woodwork was quite, and the doors were painted a deep blue, bright yellow, or some sage green, and one was a sort of mauve. On each was a pretty knocker of brass or polychrome and, above the knocker was the occupant's name in a little frame. Sometimes there was an amusing legend in this frame—for the cards could be slid in and out easily. One I remember was lettered "Union rules—an eight-hour night!" Another said, "Busy-sleeping!" On my door, the guest-room door, my name was prettily printed. No chance to wander into the wrong room, and have someone else bolting suddenly into mine!

Mix Does Thrilling Stunts in New Play Showing at Columbia

Clever Fox Star Appearing in "The Road Demon" for Three Days

Tom Mix's pictures are always enjoyable. He does the things we always hope he will do. He battles in realistic style with the gangs that beset his path. Mix has a compelling personality. He carries you with him from the beginning.

Mix opened to-day at the Columbia Theatre in his latest William Fox production, "The Road Demon," for a run of three days. In this he not only thrills with his daredevil work in a speedy automobile in which he wins a road race. This is one of the best pictures in which the clever Fox star has appeared, and he won general admiration.

He puts much more character work than usual into this play, in which his role is that of a cowboy who "won't cowboy" who has a leaning toward mechanical contrivances and manages to get various sorts of adventure and much romance out of his experience with autos.

Harold Lloyd Very Funny in "Why Worry"

Variety, originality and ideas characterize the Harold Lloyd comedies. "A Sailor-Made Man" was adventure and romance, with Harold as a rich young scoundrel reduced to the lowly level of a plain job and "seeing the world" from the deck of a battleship.

"Edgar's Boy," probably the only comedy of its kind ever produced. It had a great big, serious, sober idea behind it—and was tremendously funny. It showed the Lloydian and Freudian psychology of fear.

"Doctor Jack" combined a serious idea with comedy gags and thrills—a cross between "Edgar's Boy" and "Safety Last." But "Safety Last" reached the peak of thrillism. It was the gag-and-thrill comedy supreme.

"Why Worry" is like none of these, and yet it is typically Lloyd.

because Lloyd's comedies are always funny, are always skilful, are always varied, and are always created out of an idea. "Why Worry" is pure, unalloyed farce comedy of romance and adventure as it can be found in the midst of a red-hot South American revolution.

Sheridan's Comedy Big Triumph at the Playhouse

"The School for Scandal" scored a most remarkable triumph at the Playhouse last night, and established beyond doubt the golden opinions which Mr. Compton and his clever players have earned for themselves. It was believed in some quarters that a play of this calibre, with the large cast required and the elaborate wardrobe necessary, would prove in excess of the resources at the command of the Playhouse company. This proved to be entirely unfounded, as the manner in which the play was produced, costumed and acted left nothing to be desired, and a finer piece of work has seldom been seen upon a Victoria stage.

Mr. Compton, who must be heartily congratulated on his enterprise and pluck in giving Victoria a production of this kind, gave a most delightful and finished performance of Charles Surface, never overdoing the character, he yet contrived to bring out all the points and was really convincing that he belonged to the eighteenth century.

Lady Teazle, played by Miss Peggy Dundas, gave a picture of such fragrant charm that the memory will live for many a day. She gave an excellent performance, both in her lighter and more quarrelsome moods and also in her moments of pathos. Herbert Leslie, as Sir Peter Teazle, did his best by the use of a magnificent and sparkling jeweled curtain brought from Paris.

There was a good house last night and the production all the way through was greeted with enthusiasm and vigorous applause.

The show by "The Originals" will be repeated to-night and to-morrow night at the Royal.

Sir Anthony Hope's Novel is Here in Films This Week

Sir Anthony Hope has no just cause for complaint as to the manner in which his popular romance, "Rupert of Hentzau," has been transferred to the screen. The entire production is a credit to its director, Rupert, who personally supervised it. The cast, which is unusually brilliant, is well selected, and each artist gives his best characterization of the role to which he or she was assigned.

The plot centres around an indiscreet letter written by Queen Maria (Elsie Hammerstein) of Ruritania to her English lover, Rudolf Ransendyll (Bert Lytell), whom she has not seen since her marriage to the King of Ruritania, who is played by Bert Lytell. The missive is stolen en route by Rupert of Hentzau.

Every man, however wise, requires the advice of some sagacious friend in the affairs of life.

Soldier Actors Win Applause in Lively New Show

Sparkling Revue Put On At Royal Victoria by "The Originals."

"Red" Newman after all is not carpeting up at Kamloops, B.C., making coffins in Fred Anderson's "ball-walk," but is still rolling up reputation as an entertainer that he started in the war.

Victorians learned this definitely last night when "The Originals" including members of the Original Dumbells, who cheered up and entertained the boys at the front, opened their three nights' run at the Royal Victoria Theatre in "Rapid Fire."

Jimmy Goodie, who has become one of the cleverest and most droll of face-painter comedians, is one of the features of the company. "The girls" are still the great attraction of the company. Jock Holland, Fred Fenwick, Alan Murray, Charlie McLeod and Gene Pearson start in the feminine roles. Perhaps the cleverest female impersonator of either of the Canadian soldier companies on tour now is Gene Pearson. His singing of "The Last Rose of Summer" was exceptionally good. All through his work he shows a finer sense of the feminine spirit, such as was a long way from placing him up near the top of the class of which Julian-Ethine has been the head for years.

Red Charter is back with another series, this one being on "Rapid Fire." It gets better, however, as it goes along into the second part. There is some quartette work by Tom Young, Jerry Brayford, Bertram Langley and Bill Tennant that is high class.

The clever comedy number is put on by Jimmy Goodie as a nigger night clerk, and Fred Fenwick as the lady. "Red" Newman as a cockney was loudly applauded for his singing of "The Old Kent Road" by people who say they like that song. "Red" did some awfully hard and effective work as the stoker in "In the Ship's Hold" and brought down the house.

To keep the characteristic wartime flavor, two straight soldier numbers "Mulligan Up" and "Fed Up" were staged in the former scene at the front under shell fire is enacted. The numbers are well staged and the settings are good, some of them brilliant. The opening of the second act is heralded by the use of a magnificent and sparkling jeweled curtain brought from Paris.

There was a good house last night and the production all the way through was greeted with enthusiasm and vigorous applause.

The show by "The Originals" will be repeated to-night and to-morrow night at the Royal.

As I hope in time to play at least a season on their stage, declares Hatton solemnly. "China is the greatest country in the world for actors. Their plays are built on the continuous performance idea, lasting anywhere from a day to a week, so the Actors always have a job. Of course, they have to work continuously, too, but that would be a small item in view of the honor conferred by having an audience that is willing to spend anywhere from twenty-four to a hundred hours watching you work."

DAME CLARA BUTT WRITING MEMOIRS

A book from the pen of Dame Clara Butt, the distinguished English contralto, who is being heard in concert throughout the Dominion, doubtless will appeal to a wide reading public on both sides of the Atlantic. It will come from the publishers early this Winter.

Although the book probably will fall into the same category with other "memoirs" that artists have contributed to the public, the advance proofs indicate that it will have an appeal far greater than the average of such books. It is written in a delightful vein, while its literary style is of extraordinary high value.

In the sub-titles are revealed the glamor of the concert stage, on the one hand, and the shames in the other, of a home life that is a model of domestic felicity. It covers every phase of professional life at home and abroad, and it gives an intimate knowledge of the more interesting of women and women of distinction, including the life of a matron who is completely peasant.

FACES TRIAL

Regina, Nov. 1.—Anton Mayer, of Golden Prairie, Sask., a farmer, was remanded for trial Monday following a preliminary hearing on a charge of defamatory libel laid by Miss Alice Hiett, a school teacher. The charge resulted from a note alleged to have been written by Mayer and carried to complainant by one of Mayer's children.

"WITHIN AN HOUR'S SAILING DISTANCE"

That is to Govern Searches of Ships Near U.S. Coast For Liquor London, Nov. 1.—The terms of the treaty recognizing the right of the United States to search ships for liquor near the United States coast, but outside the old three-mile limit, are to be laid before the Imperial Conference Friday.

At the request of the British the rights of the American authorities to formal search of British vessels suspected of rum-running will not be confined strictly to twelve miles from shore or any other arbitrary limit, but will probably embrace the distance covered in the broad term, "An hour's sailing distance from the American shore," which is reckoned roughly at from ten to fifteen miles.

ADMIRAL LINERS WILL HAVE MORE COLD CHAMBERS

Owing to the increased demand in the Orient for fruit and perishable foodstuffs the Admiral Oriental Line announced to-day through the local offices, that they would condition their transpacific liners to allow for more refrigeration space.

It is proposed to equip each of the five liners with refrigeration space capable of handling at least 450 tons each of this kind of cargo.

TWELVE-MILE SEA LIMIT NOT STRONGLY OPPOSED London, Nov. 1.—There has been little public comment on the twelve-mile ship liquor search proposal, but there is nothing to suggest that it will meet opposition except in interested quarters.

ORIENT WILL BE GRAIN MARKET OF THE FUTURE

Alderman Fred Crone, of Vancouver, Speaks on Grain Movement Toronto, Nov. 1.—Claiming that transportation costs are lessened by from 11c to 15c a bushel by shipping grain from the prairies to European markets by way of Vancouver and the Panama Canal, and estimating that more than 20,000,000 bushels will be handled in that manner this year, Alderman Fred Crone of Vancouver numbers himself among the advocates of the western route.

NEWS IN BRIEF
Caught between two pulleys and thrown down with considerable severity shortly before noon to-day at Leigh's mill, George Payne, 575 Hillside Avenue, was rushed to his home with injuries to his ribs. The police ambulance attended.

Elsie McLuhan, gold medalist entertainer, has arranged a most attractive program of humor and dramatic numbers for her recital to-night at the First Baptist Church. Mrs. McLuhan comes to "Victoria" with a well-known speaker, and to-night's recital are promised an enjoyable treat.

The hearing of Watson versus Caulfield continued in the Supreme Court to-day before Mr. Justice Murphy. Plaintiff claims an interest in the right of the invention known as the Caulfield stoker, or alternately remuneration for services said to have been rendered to the defendant in the development of the invention. The hearing proceeds.

To Trustees Jay, chairman of the City School Board, and Municipal Inspector Beane has been entrusted the discussion of details of the proposed scholarship offered by the management of the Victoria Steam Laundry for the best essays dealing with the plant of the firm. The scholarship will be of a value of \$100.

The City Private Bill will not reach the Private Bills Committee of the Legislature before the beginning of the week of November 12, it was stated to-day. Meanwhile next Monday there will be a meeting of the Legislative Committee of the day to consider the bill on matters which are to be taken up at the present session of the Legislature.

Following the success of the industrial classes for students of the public schools providing for lessons at different factories and plants in the city, the Chamber of Commerce is arranging for a further series of lessons next week. It was found impossible to hold more classes to-day but it is hoped to make arrangements with the manufacturers so that a regular schedule of visits from school children can be made.

"Dad" James, veteran cougar hunter of the Cowichan Lake district, arrived in the city to-day with a statement given out that it is satisfactory to know, however, that even with this decrease the Province takes fourth place in the Dominion in the amount of work accomplished.

Blunder Causes Decrease for 1922-23 in the figures shown above, says a statement given out at the Education Department. This is due to two reasons: Firstly, a serious blunder made by the Vancouver school board in calculating the per capita cost of pupils, and secondly, an increase in high school accommodation in Greater Vancouver. Local boards fog these reasons.

Victoria Lodge No. 2, B.P.O.E., entertained about 150 guests at a jolly Halloween dance last evening in the Elks' Hall, Weller Building. Heaton's orchestra furnished the popular dance music, and Bro. A. C. Hill superintended the excellent supper arrangements. The committee of Elks which convened the arrangements for the evening's entertainment was composed of the following members: Bro. Alfred T. Weight, chairman, and Bro. Harry Reid, Harry Howard, Bob Petch, Herbert Collins, Bill Nield, Frank Sommers, Jimmy Stewart, Guss Mehan and Jack W. Gillis.

Despite every effort made by the police to ward off damage to private property last night, in consequence of the Halloween mania, three pages of foolscap record to-day in the city of Victoria the events of the night. Firecrackers and missile gates claimed the greater share of attention. Five false alarms were rung in the fire department by youths who are said to have used an automobile to get from place to place. A Coca Cola sign found its way to the Government Liquor Vendor's store and the Roman Chariot prop of the Royal Victoria Theatre took a nocturnal ramble on Cook Street.

B.C. FOURTH IN TECHNICAL WORK IN SCHOOLS NOW
Province Ranks Third in Night Schools' Education; Attendance Drops Slightly
British Columbia is now fourth among the provinces of Canada in technical education, according to figures prepared by officials of the Department of Education and released at the Parliament Buildings to-day. In the work of night schools British Columbia ranks third among the other provinces.

Technical schools are organized and functioning in New Westminster, Vancouver and Victoria, and an additional school will be opened in Trail next year. These figures show the number of pupils attending technical classes in these schools this year and last year.

Table with 2 columns: Year, Number of Pupils. Rows include New Westminster, Vancouver, Victoria, Ladysmith, Cranbrook, Kamloops, Nelson, North Vancouver, Point Grey, Revelstoke, South Vancouver.

He is in a position to tell in a very graphic way, something of the wonderful opportunity facing the world in training the boyhood of the nations in Christian citizenship.

SHAPING PLANS TO SAVE B.C. FORESTS FROM PINE BLISTER
Dominion Botanist Here to Confer With B.C. Officials on Tree Disease
To shape plans for curbing the spread of white pine blister among the forests of the interior of British Columbia, H. T. Gussow, Dominion Botanist, went into conference with officials of the Department of Agriculture and the Forest Branch of the Land Department at the Parliament Buildings to-day. Provincial Government officials and experts of the Federal Government are co-operating in the fight against white pine blister, which is reported to be spreading at an alarming rate among Western forests. The Forest Branch recently ordered a survey of districts infected by the disease so as to find out exactly the extent of the damage likely to occur.

Dr. Gussow is also taking up with Cecil Tice, Provincial Government potato expert, the certification of seeds.

BIG INCREASE IN PAYROLL OF B.C. INDUSTRY SHOWN
Many New Firms Swell Total Expenditure, Compensation Board Reports
Money Allowances Now Given to 491 Widows and 850 Children Under Act
British Columbia industry has made substantial progress during the last calendar year, according to the sixth annual report of the Workmen's Compensation Board, now before the Legislature.

The report shows that at the beginning of the year 6,393 industrial establishments within the scope of the Workmen's Compensation Act were in operation. At the end of 1922 that number had grown to 8,224, or a net increase of 1,831 firms during the year.

There was a corresponding increase of slightly over \$4,000,000 in the total payroll expenditure during the year. The aggregate payrolls of the industrial establishments covered, totalling \$134,000,000. During the year 18,647 accidents were reported to the board. Of this number 169 proved fatal. Of the accidents considered 9,789 were of such a nature as to require time loss in excess of three days, thus entailing the workmen to compensation. Four hundred and ninety-two workmen were left with some physical handicap of a permanent nature. The cost of accidents to industry was \$2,224,465.68.

Lumber Mills Hazardous
The lumber industry continued to be the most hazardous in the Province, with forty-three per cent. of all the accidents occurring in this industry. From point of view of the total number injured, coal mining came second, with twenty-two per cent. Construction work accounted for nine per cent., railroading nine, general manufacturing six, metalliferous mining five, and agriculture and metal manufacturing three. Other industries covered under the act were less hazardous.

In fatalities the lumber industry in its various forms took a toll of forty-nine workmen's lives, coal mining sixteen, construction work thirteen, and metal mining seven, while the remaining industries accounted for the balance of the 169 lives lost during the year. In monetary cost \$595,978.38, coal mining, \$274,591.16, the railroading classes \$210,460.31, construction work \$162,106.41, and metal mining \$48,319.50.

As a result of fatal accidents dealt with under the present act, there are now 491 widows and 850 children receiving monthly allowances. In addition there are 486 permanently incapacitated workmen on the list. Greater prominence was given to the matter of accident prevention than previously. Safety committees of the important industrial establishments carried out energetic campaigns for the curtailment of preventable accidents. First aid regulations have been enforced more effectively than ever. The employers and workmen are co-ordinating their efforts to reduce the amount of life and limb through unsafe methods. During the first six years that the present act has been in force no less than 110,521 non-fatal and 1,851 fatal accidents have been dealt with by the board. These accidents cost industry \$10,377,319.73 in compensation, \$1,907,155.91 in medical attention during the period of disability.

TELLS OF GREAT REVOLTING BOYS OF EUROPE
Founder of Moran Schools Speaker at the Rotary Luncheon To-day
A growing discontent among the youth of Europe resulting in the establishment of clubs in movement, under the Wandervogel movement, in which youths between the age of sixteen and twenty band together and refuse adult leadership or interference, was described by Frank Moran of Seattle, founder and head of the Moran Schools Ltd., in an address to-day before the Rotary Club, in which he emphasized the vital importance of work among boys.

The spirit of youth was revolting against the leadership in the European countries, he said, and the situation they had led them into. They pointed to a war in which 12,000,000 to 13,000,000 had laid down their lives. They said they were led by evil leadership, and now they asked what had they got from it.

The youth Europe was in revolt, and it was evidenced in the rapidly spreading of Wandervogel movement of boys from sixteen to eighteen, who gathered not in clubs, but on street corners. They packed their knapsacks and walked. As they walked they sang and talked of the mess into which their members had led them.

Y.M.C.A. men, and church men were trying to get into this movement. They were trying to get in and guide them, but so far they had not succeeded. The greatest asset of any country, he said, was not the great railways and resources, but on the integrity and character of youth. After referring to threatening nature of the Wandervogel movement Mr. Moran urged Rotarians to realize the importance of the youth of the country. His classification as a Rotarian he stated was "Boys" and among boys had been elevated from the dry nurse rating with which it was regarded at one time as its vital importance to any nation was realized.

Fish Day
Being national fish day, Rotarian W. N. Kelly gave a three minutes talk on the fishing industry quoting figures to show the money invested in the industry and the men employed. "Fish is supposed to be a brain food," he said at the outset, and some people seem to think all the fish caught in Canada is imported. Fish marketed in Canada last year amounted to \$18,870,000. This was made up of money of salmon and halibut, the two brands of fish chiefly consumed throughout the country. The capital invested in boats and fishing apparatus amounted to \$12,125,000. There were 10,633 men engaged in the industry. These figures did not include the money invested in canneries which employed Columbia employed over five thousand men.

John Wood briefly referred to the Boy Scout organizations in Victoria which he said now had a thousand boys doing work in the city and which soon would be appealing for more funds. Miniature birthday cakes were presented to Ernie Hayward, George Ozaud, Bob Peden, Clarence Dea-ville and Herbert Pendar. The Fellowship Committee stung under Ernest Williams, under which telephone numbers were called and the two members answering, were questioned as to their money invested in the man "at the end of the wire" with the object of promoting friendliness, proved a great success.

ASKS TENDERS FOR HIGH SCHOOL PLAN
New High School For Oak Bay Will Have to Obtain Sanction by By-Law, Says Reeve
In furtherance of the proposed new High School building for the municipality of Oak Bay, the School Board is now calling for tenders for the erection of such a building on Cranmore Road.

At the Council meeting on Monday the plans of the School Board who passed a resolution expressing approval of the project involved. To The Times to-day Reeve H. F. Hewlett stated that the Council realized that if there should prove to be contention in the resolution there would have to be some remedy provided. It was a School Board matter, he concluded.

At present tenders are being called, and will close on November 15. Further action, it is stated, would have to be taken by way of submitting a by-law to the people. The plan called for the construction of a new High School and the use of the present premises for grade school work.

Lester to Look For Another Man To Complete Side

Fowler's Refusal to Sign Makes it Necessary to Look For New Goalie

Lester Patrick, manager of the Cougars, announced this morning that he was taking steps to fill the only vacancy on his team, which has been caused through the refusal of Hec Fowler to sign his new contract.

Fowler has not come to terms with the management of the local team, and so that he will not be caught napping, Lester has decided to start angling for a new goalie immediately.

Plenty of Amateur Hockey Players in Vancouver This Year

Vancouver, Nov. 1.—The senior amateur hockey season of 1923-24 was officially opened on Tuesday night at the local arena, when the Towers stepped on the ice and held the first hockey practice of the season.

The opening of the practicing season appeared as if some political convulsion was also being staged, as the arena from the way in which the managers were discussing new players and inquiring what sort of a lineup their opponents had.

KINKS OF THE LINKS

Player in driving from the tee, addresses the ball and starts his swing. He has brought the club back and started his downward swing when the ball starts to roll from the sand on which the player has teed it.

In match play what is the proper manner of deciding the winner if at the end of 18 holes, the number agreed on by the two players, the match is "now is a tie in a medal round?"

Three Teams Still Tied in Six-Day Grind at Chicago

Chicago, Nov. 1.—With positions unchanged yesterday, three teams of the twelve remaining in the six-day bike race, were riding at 1,416 miles, four laps at 6 a. m. to-day, the eighty-first hour of the race.

AFTER LEWIS'S TITLE

JAVIER OCHOA

He hails from Spain, where he won the heavyweight wrestling championship and now he has come to America to try to win the crown which rests upon the head of Ed "Strangler" Lewis.

Paper-Chasing Being Revived Spiritedly Here

Victoria Riding and Polo Club is Staging Some Interesting Chases

Paper-chasing with all its thrills is being revived in this city by the Victoria Riding and Polo Club. Every week the ponies are taken by their riders across country in pursuit of the "hares."

NEW YORK SCOUT IS NIBBLING FOR ROGER

St. Louis, Mo., Nov. 1.—Dick Ursella, scout of the New York Giants, had a conference with Sam Breadon, president of the local Nationals, yesterday, but efforts to ascertain whether a deal involving Rogers Hornsby was discussed were unavailing.

Amateur Hockey Heads Proceed With Proposal

Meeting to-morrow Night to Form Four-Club League and All-Star Team

To proceed with the organization of a representative Victoria amateur ice hockey club and the formation of a four-team Senior League, a meeting will be held in the lounge room of the Chamber of Commerce to-morrow evening at 8 o'clock.

The Scheme The proposal to be placed before the meeting is to select an all-star Victoria team, which will be entered in the B.C. Amateur Ice Hockey League as the team which will represent the Capital in the play-off for the provincial title.

Any players who have recently arrived in the city will be welcomed to to-morrow's night's meeting.

American Oarsmen Will Not Compete in Paris Olympiad

New York, Nov. 1.—America probably will not be able to muster its full strength for the Olympic rowing championships at Paris next year, as a result of the French Olympic committee's refusal to accept the American Olympic committee's request for a postponement of several days.

VICTORIA GOLF CLUB

The draw for the Calcutta foursomes at the Victoria Golf Club has been made. It is as follows: W. C. Todd and A. D. Grease, a bye.

London, Nov. 1.—Football games played under the auspices of the Rugby Union this afternoon resulted as follows: Cardiff, 6. St. Bartholomew's Hospital, 3.

WILLIE HUNTER WILL BECOME U.S. CITIZEN

Los Angeles, Nov. 1.—Willie I. Hunter, former British amateur golfer, announces that he has filed naturalization papers here.

Giants' Second Baseman Now Rated as Diamond's Greatest Star, Taking Place With Cobb and Sisler

FRANKIE FRISCH, HIMSELF, BATTING, FIELDING AND "LOOKING PRETTY"

By BILLY EVANS

With Ty Cobb having passed the peak of his game and the future of George Sisler uncertain, Frankie Frisch of the New York Giants looms up as baseball's greatest all-round star.

For years Ty Cobb has reigned supreme in baseball. Experts regard him as the greatest player of all time. A few years back Father Time started to get in his work and Ty's great began to slip a trifle.

Four Leagues May Seek Amateur Ice Title This Year

Okanagan and Kootenay May Affiliate With B.C. Hockey Body; Meeting Nov. 10

Vancouver, Nov. 1.—Plans to secure the affiliation of Okanagan and Kootenay with the B.C. Hockey Association, the main line of the season the champion teams of at least four leagues would meet in the provincial playoffs have been made by the British Columbia Amateur Hockey Association, whose annual meeting will be held in Vancouver on Saturday, November 10.

Sande Rides Zev to Easy Victory Proving His Form

New York, Nov. 1.—Zev yesterday demonstrated that he is fit for the \$50,000 championship at Latonia next Saturday when he proved the deciding three-year-old test of the year, by galloping to an easy victory in the feature event of the closing day's card at Empire City track.

The race, at a mile for all ages, proved little more than a workout for the conqueror of Papyrus. Ridden by Earl Sande, and carrying 120 pounds, Zev breezed under the wire in 1:40 2-5, five lengths ahead of Braccade.

Zev was worked an extra furlong by Sande, finishing the mile and an eighth in 1:56 1-8.

Welker Cochran Scored Great Victory Over Billiard Champion; Conti Beaten

New York, Nov. 1.—Welker Cochran of Los Angeles, furnished the surprise of the world's 18.2 ball line billiard tournament last night, defeating William F. Hoppe, the titleholder, 2-0.

Cochran won the bank, chose the spot ball but failed to count. Hoppe counted 29 and missed an easy carom.

Zev and My Own To Settle Turf Debate Saturday

Both Horses Reported to be in Fine Shape; Other Ponies Will Run

Cincinnati, O., Nov. 1.—Added interest in the Latonia championship race in which Zev and My Own will compete, was displayed by the arrival of the four-seven year-old gelding in My Own at Latonia yesterday.

Burch stated that My Own shipped well and that before leaving Laurel he worked a mile and a quarter in 2:08.

Renault is Meeting Johnson To-morrow in Elimination Bout

New York, Nov. 1.—Heavyweight title contenders will hold the centre of ring interest here during the next few days.

Jack Renault, the Canadian brawler, and Floyd Johnson, young Iowa, tapered off training to-day for their fifteen-round match to-morrow night at Madison Square Garden.

It will be the first of a series of elimination contests planned during the indoor season to develop another challenger for Jack Dempsey.

Harry Wills, negro contender, is preparing for a bout with Jack Thompson, Boston negro, at Newark, N.J., next Monday night. It will be Wills' second appearance in a campaign which he hopes will lead to a match with the champion.

Teamsters Lead League Through Defeating Bays

Have Yet to be Beaten; Garrison Win, Coulter Shooting Five Goals

By defeating the Hudson's Bay at the Royal Athletic Park yesterday afternoon the Teamsters jumped into undisputed leadership of the Wednesday Football League. The drivers now have two wins to their credit, while the Garrison team has one.

The Bays and Teamsters met yesterday to decide the league leadership. Both clubs won previous wins in their only encounters of the season.

The Garrison gained their first victory of the season when they turned the trick on the Bays team in the first half play was of the ding-dong nature, the ball alternating from one end of the field to the other with the Teamsters having a little edge on their opponents.

Upon the resumption of play the Teamsters immediately bombarded the Bay goal and their efforts were rewarded with a goal when Jarvis sent in a hard kick that peaked in the corner of the net. This seemed to put new life into the Teamsters, and they tried hard to enlarge it on the score and they sent in another goal.

Control Was Masterful Cochran had the "feel" of the balls and his control of the cluster was masterful.

Cochran had the "feel" of the balls and his control of the cluster was masterful. On the heels of his run of 95 he counted 80, mostly clicking off the table.

Cochran got 45 in his ninth trip to the table, and Hoppe after making three cushion shots, missed an easy draw.

Cochran continued his streak in the tenth inning, clicking off 65 before missing a one-cushion shot. Hoppe got the balls together and ran 29, missing a pinch shot off the upper rail.

Cochran's run ended at 145 when he missed an apparently easy one-rail shot. He then led Hoppe, 448 to 87.

Hoppe made 46 in his eleventh inning. His 46th shot left the white ball spotted and missed. His 24th shot, a mass draw of four feet, was the most spectacular and daring play of the tournament.

THE TIMES DAILY PICTURE PAGE

WHEN VARSITY BEAT MCGILL AT MONTREAL.—Stirring action picture of the intercollegiate senior contest taken at a time when there was more blue than white in Varsity's color scheme. A McGill plunger is shown going through the Varsity defense, with Snyder hanging desperately to his legs. The play is only a few feet from the Toronto line, which McGill subsequently crossed, and assumed the lead temporarily.

IT'S ALL IN THEIR DAYS' WORK.—One might almost surmise that the soldiers shown above were members of the Coldstream Guards, obeying the command "fall in." But they are only U. S. infantrymen, and swimming with full marching equipment is part of their daily routine.

NOVA SCOTIA SCHOONER BLUENOSE.—In the second race of the series for the North Atlantic Fishermen's Trophy, sailed today under excellent conditions, Bluenose again proved the victor over the United States schooner, Columbia, as she did in the first race last Monday. This gave her the series.

SEPARATIST!—Photo shows Dr. Dorten, leader of Germany's separatist movement in the Rhineland provinces. He is rumored to have formulated plans for the declaration of a "Rhineland Republic" within the next few months.

ALBERT MATTHEWS, of Montreal, has been elected president of the Baptist convention of Ontario and Quebec.

SHAKE HANDS.—Meet the new Lord Cromwell. Captain R. G. W. Bewicke-Copley (above) has acquired the title of Lord Cromwell, the barony having been revived after 400 years. He is the son of the late Bewicke-Copley, who claimed descent from the first Lord Cromwell.

J. MALCOLM BIRD, scientific investigator of New York, claims to have exposed as fraudulent the "spirit writing" by which Mrs. Josie Stewart recently started the United States.

LADY BOULTON, of London, England, is visiting Canada with her husband, Sir Harold Edwin Boulton.

ALEXANDER EDWARD MURRAY, V.C., D.S.O., 8th Earl of Dunmore, is visiting Canada.

SEEK NEW HIGH AIR RECORD.—Lieut. Macready and Dr. Moss, inventor of the super-charger, leaning against the Le Pere plane in which Macready made his 1921 altitude record. A close-up of the super-charger is shown at the right. Dr. Stanford A. Moss has perfected a new super-charger, or engine oxygen booster, which will make possible the attainment of higher altitude records than are at present known. The super-charger is a small contrivance mounted just back of the propeller blade on the front end of the Liberty motor. It is operated from the red-hot exhaust from the motor and weighs about 140 pounds. At 35,000 feet it will increase the power of the Liberty motor by at least 250 horsepower. Why all the anxiety and all the rivalry between different nations to reach the airplane ceiling? For two reasons: In time of war the highest flying plane has the advantage over the enemy, for the plane, which can hover above the others generally is the victor. Being able to maneuver at will, it can keep out of the enemy's range and more easily direct fire at the pilot below. In time of peace there is commercial aviation. Many flyers predict the day when globe-encircling flights will be common, when there will be one-day service to Europe and coast-to-coast flights of a few hours. And when that day comes, they say, flying will be done in the rarified atmosphere high above the earth, where the air offers little resistance to meteoric speed.

NOTICE is hereby given that an application will be made to the Legislative Assembly of the Province of British Columbia at its next Session by the Corporation of the City of Victoria for an Act to be known as the "Victoria City Act, 1923," providing for the following matters, and giving to the said Corporation and the Municipal Council thereof the following powers, namely:

- Amending "Victoria City Act, 1921."
- Amending section 19 to provide for cancellation of "Better Housing" Agreements on default of purchasers and for forfeiture of lands and payments after ninety days' notice.
- Amending Section 19 to provide that tax sale lands becoming reverted in the City by cancellation proceedings pursuant to said section, shall be deemed tax sale lands for purposes of resale.
- Repealing and re-enacting with amendments Section 23, requiring Collector to appportion tax arrears and future instalments charged against land, among parcels thereof after subdivision.
- Amending Section 23 to provide for the making or changes and corrections therein relative to the assessment rolls from and after July 15 in each year.
- Renaming Sections 4, 5, 10 and 11 of "Victoria City Act, 1922."
- Amending Subsection 2, Section 17, "Victoria City Act, 1922," providing retroactively for the apportioning of the Principal Sum Lien charged on land, among the various parcels into which said land may be subdivided.
- Validating the Municipal Voters' List as closed October 31, 1923.
- Enabling the Council by by-law: (a) To prohibit, regulate, restrict, define and allot areas of highways or public places for parking purposes, and for classifying vehicles, designating what vehicles shall or shall not use such areas.
- To acquire lands for parking vehicles, to lease or sublet any part thereof, to charge for the use of such land, or to grant money from current revenue for use in acquiring said lands and equipping same with buildings or other equipment for parking or tourist camp purposes.
- To grant money from current revenue for defraying part or all costs of management, operation and maintenance of parking lots within or without the City.
- Enabling the assessor to assess all parcels of land upon which a building stands as one parcel.
- Enabling the Council to appoint any one or more of its own members as Directors of the Provincial Royal Jubilee Hospital.
- Enabling the Court of Revision to consider complaints against assessments according to districts or otherwise, in the discretion of its members.
- Enabling the Council to enter into financial agreements for the consolidation and refunding of part or all of the City's debt.
- Providing retroactively, that Section 11 of "Victoria City Act, 1921," shall not apply to the land upon which a church stands.
- Enabling the Council to increase license fees which, in its discretion, may be considered inequitable.
- Validating "Bank Overdraft By-law, 1923."
- Enabling the Council to make, alter and repeal by-law for any of the following purposes: (a) To lease any portion of Elk Lake Reservoir and Water Shed property to any Government, person, firm or corporation for any purpose, or for game farm purposes for a period not exceeding thirty years, and by agreement to terminate lease at any time on one year's notice and payment of lease fee of compensation not exceeding value of improvements thereon.
- To subscribe for and out of current revenue to acquire shares, not exceeding par value, of \$10,000.00 of any Hydro Electric Company or any part of said Water Shed property.
- By payment out of current revenue to construct and establish camping grounds, bathing beaches, boating, fishing and other sporting facilities, including trap-shooting, tennis, lawn bowling and any other forms of sport, game or amusement, to acquire necessary equipment to operate or lease the same, to make rules and regulations and to charge fees or rentals in discretion of the Council.
- To supply water to the said Hotel Corporation lessee on terms to be fixed by the Council.
- To enter into necessary agreements for all purposes herein mentioned.
- Defining what a building set apart and in use for the public worship of God shall include; enabling the Assessor to assess the same as a separate parcel, and to assess adjoining land as a separate parcel or parcels; and providing that Subsection 1 of Section 206 of the "Municipal Act" shall not apply in the City of Victoria unless the said parcels are shown on a plan filed in the Land Registry Office.
- Enabling the Council, subject to vote of the ratepayers, to lease municipal lands for a period not exceeding forty years on terms to be agreed upon by the Council.

Women's Missionary Society Holds Annual Meeting

Duncan, Nov. 1.—The Presbyterian Women's Missionary Society, of St. Andrew's Church, Duncan, held their annual thanksgiving meeting on Tuesday evening. Mrs. George Henderson, the president, was in the chair, and the Rev. Bryce Wallace opened the meeting with prayer. Mrs. Mackay, president of the Presbyterian, and Miss White, Deaconess, who is engaged in social service work on Vancouver Island, were both present, and gave interesting addresses. Miss White spoke on Home Missions and Their Workings, and Mrs. Mackay dealt with Foreign Missions. Their present fields are China, Japan, Korea, Formosa and India. Just now there are wonderful opportunities she said, these countries are wide open and ready and anxious for teaching. The work is educational, medical and evangelistic. In the former they have kindergarten, primary and high, and now they are starting normal schools, where the native girls can be trained to become teachers. She also mentioned their work in the outlying districts, where the people come in large numbers to learn to read and study the Bible. They also treat thousands of patients in the hospitals and dispensaries. She emphasized the need of more workers and more interest among the women.

Mrs. Coyne delighted everyone with her sympathetic singing of "The Ninety and Nine," and the meeting closed with prayer by Rev. B. Hewitt.

The offering amounted to about \$35.

Mr. and Mrs. E. G. Sanford have arrived in Duncan. Mr. Sanford is recovering from his recent illness, and will take over the management of the local branch of the Canadian Bank of Commerce on November 1.

Mr. Bateman Hope's son has arrived from England, and will spend some time here with his parents.

POOLEY FEARS PROVINCE MAY GO DRY AGAIN

Prohibition Coming Back Unless Government Enforces Liquor Law, He Warns

Says Manson's Firm Solicitors of Beer Club Operators; Rupert "Wide Open"

Unless the Provincial Government takes hold of the liquor situation and enforces the Government control laws, British Columbia will be faced soon with a return of bone-dry prohibition, R. H. Pooley, Conservative member for Esquimalt, warned the Legislature yesterday. Speaking in the debate on the reply to the Speech from the Throne, Mr. Pooley made it clear that he was not a prohibitionist and never would be one. And this, he explained, was the reason why he wanted to see the present liquor system carried on successfully.

Charging that Mr. Manson's legal firm had acted as solicitors for people known to be evaders of the liquor law, Mr. Pooley blamed the Attorney-General for what he considered disgraceful liquor conditions in many parts of the Province. Conditions in Prince Rupert, Mr. Manson's home town, he asserted, were particularly bad and he went on to describe in detail just what he himself had seen in the North on his recent speaking tour.

Rupert: Wide Open
Prince Rupert, Mr. Pooley described as being wide open. He told about the prosperity of Ole Bessner, who had profited greatly through beer club operations, Mr. Manson's legal firm he charged, had been engaged by Bessner as his solicitors, as soon as the Attorney-General had taken office. He wondered whether Mr. Manson's appointment to the Government had influenced Bessner in engaging his firm as his solicitors.

Mr. Pooley declared emphatically that Bessner would never be sent to jail so long as Mr. Manson was Attorney-General.

This brought Mr. Manson to his feet instantly with a warm demand for retraction. After some delay Mr. Pooley withdrew his remark but insisted that conditions in Prince Rupert should be cleaned up.

Tells of Beer Club
Mr. Pooley provided the House with some amusement when he told of his own efforts to "sample the brew" in the Skeena Club which, he explained, stood on a scow attached to a Government wharf at Prince Rupert in such a position that crews from fishing craft were obliged to pass its doors on their way to the shore. Mr. Pooley said he had been refused admission to the club by a spotter but had seen large numbers of men lined up inside drinking. He passed around photographs of the club to all members of the House.

Not Government Wharf
Mr. Manson explained that the Skeena Club was not using a government wharf but the location was leased Government property.

"Then why didn't you turn them out?" Mr. Pooley demanded.

"We did," Mr. Manson replied.

adding that prominent Conservatives of Prince Rupert had held the lease. Mr. Pooley told the House that the Skeena Club had been closed since he had been in Prince Rupert and intimated that his visit probably had produced this result.

Mr. Manson assured Mr. Pooley, however, that his activities did not influence the Attorney-General's Department much one way or the other.

Closed Suddenly
The closing of the club had occurred suddenly, Mr. Pooley stated, immediately afterwards Bessner and his right-hand man, one Gooch, had left hurriedly for New Brunswick.

Mr. Pooley said it was strange that he could get all the facts about clubs in Prince Rupert while "spotters" of a Government official said they were unable to do so. He added that a Government official said to the northern city to watch the children of liquor there had actually stayed with Ole Bessner.

Attacks Stool Pigeons
The practice of using stool pigeons who enticed men to do wrong and then prosecuted them for it, was denounced by Mr. Pooley. The sooner some of the Government's stool pigeons were put in jail the better, he declared. The laws of British Columbia, he urged, should be enforced in a "decent, British way."

The Public Accounts Committee of the House at the last session had discovered, Mr. Pooley asserted, that friends of the Government had profited from the operations of the liquor business.

Before turning to the liquor question Mr. Pooley dwelt at some length on the business outlook in British Columbia, charging that the Government was not helping to fill the Province's dinner pail and that many British Columbians had left the country.

Conditions Unsatisfactory
The Government, Mr. Pooley asserted, is doing little to remedy business conditions which, he said, are unsatisfactory in many parts of the Province. He denigrated emphatically, however, that the Conservative party is spreading about "whispers of death." Mr. Pooley said he had found conditions in Central British Columbia very bad, with thousands of people leaving the country, despite good crops. He urged the Government to provide markets for farm produce, pointing out that the Government could do this and the producers could not.

The speaker referred to his recent trip to Prince Rupert, where at the Fall fair he saw a wonderful collection of farm produce, while the local stores were filled with fruit from Wenatchee.

Government should abolish its rotten business methods, he remarked. "British Columbia products should be manufactured in this Province and British Columbia should not send her unfinished materials to other places."

Mr. Pooley remarked that it was easy for Government members to say that there were fewer unemployed men in the Province than formerly. This was true, because so many hundreds had gone to other places where they could earn a living.

He criticized the Government for proposing so many new public works, claiming that the promises were nothing but "election songs."

Devoid of Interest
The Esquimalt member congratulated Mrs. Mary Ellen Smith upon her safe return from the Old Country and criticized her speech in the Legislature Tuesday, saying that it was devoid of interest.

The lady member is going to get settlers and the members of Agriculture will deport them later, he commented.

He suggested that immigration plans were useless until the Government did something to make prosperity for people already living here.

Mr. Pooley produced newspaper clippings of British newspapers, carrying photographs of Mrs. Smith. They were very poor advertising for her, he thought, but the Premier said Mrs. Smith looked very well indeed alongside His Majesty.

At this juncture Mrs. Smith entered the Assembly Hall and was given an enthusiastic reception by her party colleagues.

Defends Tolmie
The speaker harked back to the Liberal picnic at Goldstream and spoke of Mr. M. A. Macdonald's statement that Hon. S. F. Tolmie was a two-party man. He said Mr. Macdonald, of all people, should not throw stones.

A verbal exchange of caustic remarks took place at this stage, Mr.

The Sandman Story For To-night

KING OBERON'S WICKED PLOT Part I

King Oberon, the Fairy King, was of course to be pitted until he took better care of them when he was in power. "I will grant anything you ask if you do as I ask now."

"Well, don't," promised the little trickster. "We will be in the woods to-morrow night when you arrive with the Queen and her fairies. But if you do not keep your promise—well, you had better keep it, that's all."

Off scampered the Goblins and King Oberon hurried back to his palace, for the time of his reign was fast coming to an end and he would have to walk all the way back if he overstayed his time, for then his black steed turned back to a water rat and went running toward the river, leaving the poor King to get home as best he could.

The Fairy Queen was very much surprised when King Oberon invited her to come to the Goblins' woods the next night, for he was so jealous of his time to reign that he had never before wanted Titania or her fairies anywhere around him.

The Fairy Queen was so pleased that she never for a second suspected the wicked plot her King had planned and she told him she would be in the Goblins' woods with all of her subjects the following night.

AWARD DOES NOT FIX TELEGRAPHERS' WAGE SCHEDULE

Ottawa, Nov. 1.—In a report made public here the Board of Conciliation appointed by the Minister of Labor to deal with the dispute between the Canadian Pacific Railway and members of the Order of Railway Telegraphers states its inability to discover a basis upon which the parties might agree.

Two members of the board recommend that the alterations asked by the men be not met. The third member, David Campbell, the employer's representative, has presented a minority report favorable to the employees.

"I will invite the Queen," said King Oberon, "to attend a Festival with all of her fairies to be held in the woods where you have so many doors to your underground homes."

All the Goblins sat on the ground listening to King Oberon, their little eyes twinkling at the thought of playing some prank on the Queen and her fairies. So King Oberon had no trouble at all in getting them to listen.

"What I want you to do," said the King, "is to dance and do some of

VICTORIA GROWER SETS UP MANGEL RECORD FOR B.C.

Fred Barnes, of Croft Acres, Saanich, just outside Victoria, to-day formally claimed the mangel-growing championship of all Western Canada.

From a special trial acre of upland soil he produced a little over seventy tons this season. Totalling up the weight was completely to-day. The lowest price any of the mangels brought was \$10 a ton, so the whole acre netted him between \$700 and \$1,000.

The largest mangel Barnes produced at Croft Acres was weighed to-day, and found to go over thirty-two pounds. This is said to be a record.

Mr. Barnes has achieved fame as a mangel-grower before this. He captured the championship for British Columbia and all the first and second prizes at the B. C. Provincial exhibitions this year.

The world can pry out everything about us which it has a mind to know. But there is this consolation, which men will never accept in their own cases, that the world doesn't care.

Mr. Barnes has achieved fame as a mangel-grower before this. He captured the championship for British Columbia and all the first and second prizes at the B. C. Provincial exhibitions this year.

THREE SCHOOLS OVER-CROWDED Enrolments in Three Public Schools to be Re-adjusted

Increasing enrolments at George Jay, Oaklands and Burnside schools in the junior divisions were the subject of attention by the City School Board last evening.

In view of the possibility of making a re-adjustment of classes and transferring some pupils, action was left to the Municipal Inspector to attend at Quadra Street and report if necessary.

Municipal Inspector Deane, speaking on the general question of large classes, said that so far as the junior teachers of the public schools were concerned with the present higher enrolment, there had not been one demerit. The teachers were quite willing to undertake larger classes knowing present conditions, Mr. Deane said.

He pointed out that some adjustment would be made in some of the schools, as for instance in making some transfers to Bank St. School. It was not practically feasible to add pupils to Quadra Street and Spring Ridge. It was not always wise, he told the board, to shuffle young pupils, because every time it was done the pupils went to fresh teachers, and were put back.

The municipal inspector stated that the roll of pupils from the over-crowded classes in George Jay and Oaklands had been supplied for scrutiny, and he believed some re-adjustment could be made without impairing the efficiency of the classes. Mr. Deane said he was opposed to disturb conditions unless imperative, but some change might be made to transfer pupils without too much disturbance.

If conditions should remain as they were, he believed some additional teachers would be required in February. Before he obtained the roll showing the addresses of pupils, he thought some additional teachers would be imperative at once, but now he doubted whether it was essential. He recommended that the subject should be left with himself for further report.

ed, and Trustee Beckwith said the course was greatly appreciated.

Trustee Beckwith moved, and Trustee Walker seconded a motion to proceed with the work.

Trustee Sivertz believed the estimate was insufficient, and thought a net cost of \$500 was nearer what the work would cost, including the laying on of water.

Trustee Litchfield asked how the cost would be met, and was informed that sufficient funds would be available from amounts saved elsewhere.

WOMEN FROM FORTY TO FIFTY Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well."

—Mrs. THOMPSON, 303 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Remedy Book upon "Aliments Peculiar to Women."

The principle of visits to the industries of the city by senior pupils of the schools, inaugurated on Friday in conjunction with the Victoria Chamber of Commerce, was strongly approved by the City School Board last evening.

Municipal Inspector Deane, reported on the visits paid by the senior divisions to certain industries by divisions of schools to industries in their neighborhood. Mr. Deane said that in future technical man from the board would visit the plants first, and pay particular attention to revolving machinery, to give a warning to the pupils. A test of this character had been made at the B.A. Paint Co. last week, and had proved satisfactory, he said.

He was informed by the assistant secretary of the Chamber of Commerce that these industries would be visited monthly, Mr. Deane said.

The inspector pointed out that the visits were of educational value, and such addresses as were given to the pupils should be of a brief character. The community aspect was entirely a matter for the heads of the industry to arrange with the chamber.

The trustees expressed their approval of what had been done by unanimous vote.

KIDNEY TROUBLE?

The Kidneys are the Blood Filters—When They Weaken and Stop Urine The System Becomes Overloaded With Uric Acid

Toronto, Ont.—"I can highly recommend Dr. Pierce's Anuric anti-uric-acid Tablets to all those who suffer in any way with their kidneys or bladder. Anuric is by far the best medicine of the kind I have ever taken. My kidneys were congested and inflamed, my back ached something awful, my bladder was weak and I suffered from a scalding and burning sensation. I was almost down and out—but, thanks to Dr. Pierce's Anuric Kidney Tablets I do not suffer any more. Those who suffer with kidney trouble should try Dr. Pierce's Anuric Tablets just the medicine they need."—Mrs. Albert Blunt, 6 Blevins Place.

TO HAVE OWN BOTANIC GARDEN To Develop Agricultural Classes at High School

Agricultural work at the High School direct on the grounds of a permanent greenhouse, were recommended in a report to the City School Board last evening.

The trustees agreed to the suggestion, and to the erection of a building to house a botanic garden on the grounds.

The instructor in agriculture, supported by a principal, recommended the board to make provision for the better conduct of the classes.

It was recommended that the board should incur an expenditure in doing this work of \$855, and the grants in aid would be \$550, leaving a net cost to the board of \$305, up to June, 1924. The advantage would be of permanent quarters, in place of the rented premises on Vining Street, which have been used for agricultural purposes since 1915. Mr. Deane said the present temporary plan had been unsuccessful, and had discouraged the best results.

Mr. Deane observed that the development could be beneficially extended to the creation of a botanic garden adjoining the agricultural plot. They had trained botanists at the school staff, and the plants could be laid out to the best advantage.

The enrolment was increasing in the agricultural classes, it was stated.

LEARNING BY INSPECTION Board Approves Plan For Visits to Industries

The principle of visits to the industries of the city by senior pupils of the schools, inaugurated on Friday in conjunction with the Victoria Chamber of Commerce, was strongly approved by the City School Board last evening.

Municipal Inspector Deane, reported on the visits paid by the senior divisions to certain industries by divisions of schools to industries in their neighborhood. Mr. Deane said that in future technical man from the board would visit the plants first, and pay particular attention to revolving machinery, to give a warning to the pupils. A test of this character had been made at the B.A. Paint Co. last week, and had proved satisfactory, he said.

He was informed by the assistant secretary of the Chamber of Commerce that these industries would be visited monthly, Mr. Deane said.

The inspector pointed out that the visits were of educational value, and such addresses as were given to the pupils should be of a brief character. The community aspect was entirely a matter for the heads of the industry to arrange with the chamber.

The trustees expressed their approval of what had been done by unanimous vote.

SECURING DATA ON ISLAND PULPWOOD

Chamber of Commerce Committee to Present Case to Royal Commission

Full information on the pulpwood resources of Vancouver Island will be submitted to the Royal Commission traveling through the Dominion securing data. Under the chairmanship of R. T. Elliot, a Chamber of Commerce committee consisting of A. Carmichael, M. P. Blair, E. Tomlin and J. O. Cameron, men selected because of their knowledge of the situation and ability to present Vancouver Island's case will prepare statistics for the commission, so that it will have complete information on the pulpwood possibilities in this section. A meeting of the committee was held this morning in the Chamber of Commerce rooms when the vital importance of the pulpwood industry in connection with the development of the Island was referred to, and means of securing the information desired and offering facts in an effective manner were discussed.

HOUSEWIVES SHOULD SHOW CAPACITY AS POTATO COOKS

An outstanding feature of the British Columbia Potato Show will be the class for prepared dishes of potatoes. For the best exhibit of not more than thirty prepared dishes in which potatoes are main ingredients the following prizes are being given: first prize, \$15; second prize, \$12; third prize, \$10; fourth prize, \$5. Dishes, which may be of any size, must be named and recipe given for each. Quality and general appearance will be taken into consideration in judging.

A number have signified their intention of showing in this class already.

Those wishing to compete should send in their names to C. Tice, Department of Agriculture, Victoria, not later than November 3. These exhibits, on account of their perishable nature, should not arrive before Wednesday morning, November 14, and not later than 2 p.m. of the same day. Transportation charges must be prepaid.

The Rev. T. E. Rowe, director of the Guild of Health, will deliver a course of six lectures on "Psychology of the Bible" in the schoolroom of the Church of Our Lord, Humboldt Street, next Friday evening at eight o'clock, and every Friday evening in November. While the course is being given the Friday afternoon Bible class will not be held.

"I Avoided an Operation Appendicitis Disappeared"

Mrs. James Wells, Udon, Ont., writes:—

"I took a severe pain in my right side. It was very bad at times. I tried oils and tablets without gaining any relief. The doctor pronounced it chronic appendicitis. I dreaded an operation and a friend advised Dr. Chase's Kidney-Liver Pills. I used them and not only obtained relief from pain, but I believe it has completely freed me of appendicitis, as it is now over a year since I have had any of the old symptoms."
