COTTAGE GARDENS NURSERIES INCORPORATED EUREKA, CALIF.

WHOLESALE PRICE LIST
FOR THE TRADE ONLY
FALL 1916

SPECIALTIES
AZALEAS, RHODODENDRONS, KALMIA,
BOXWOODS, HOLLY, IRISH YEW,
ETC.

TERMS AND CONDITIONS

(PLEASE READ CAREFULLY)

This **Wholesale Price List** is for the **trade only**.

Prices herein are strictly net. Any items quoted in Retail Price List and not found herein will be supplied at 25 per cent discount from retail price.

Quantity Rates apply as follows:

- Less than 5 of a kind at each rate.
- 5 or more of a kind at 10 rate.
- 50 or more of a kind at 100 rate.

Terms to customers of approved credit are 60 days net from date of invoice unless otherwise arranged; 2 per cent cash in 10 days. Buyers unknown to us will please give bank or trade references. If C. O. D. shipment is wanted send one-third of amount of order in advance.

Transportation—Please state whether to ship by express, freight or water. If no definite instructions are given we will use our best judgment. When goods are shipped from Eureka by water our prices are understood to be f. o. b. San Francisco or Portland, packing charges extra.

Packing—Under the present terms of the "Western Classification" nursery and florists' stock **completely boxed** in less than carload lots takes third class rate. Hence whenever practicable we will pack in this manner and charge for cases at actual cost. The difference in the freight will usually offset the packing charge and customers should be certain they are getting the 3rd class rate on shipments so packed.

Claims—All goods travel at buyer's risk and our receipt from transportation company is to be held as evidence of satisfactory condition at that time. Before receipting for shipment examine it to see if in apparently good shape. If injured in transit memorandum should be made on freight bill and claim filed with transportation company. If there is any complaint as to shortage, grade or quality of goods it must be made within ten days after goods arrive. Otherwise it will be assumed that shipment is accepted as satisfactory.

Our Motto is "**Quality First**" and goods not fully up to our high standard will not be sent out. Any goods not up to representation may be returned at once.

Previous Quotations are hereby cancelled.

COTTAGE GARDENS NURSERIES INC.,

Eureka, Calif., Nov. 15, 1916.

CHAS. W. WARD, President.

NURSERIES

Eureka. Eden Nursery. The main establishment in the plant and tree division. Azaleas and Rhododendrons as well as all other Broad-leaved Evergreens and Conifers are propagated and grown here.

Eureka. "C" St. Testing Grounds. Mainly devoted to tests of new and rare bulbs both in open ground and under glass.

McKinleyville (Humboldt County). Main bulb farm. Here we grow millions of "Dutch Bulbs:"—Tulips, Narcissus, Hyacinths, Crocus, etc., as well as all herbaceous perennial stock.

San Jose (Santa Clara County). Located on State Highway to Oakland near Coyote Creek Bridge. Sales headquarters, primarily for S. F. Bay region. Extensive lath houses enable us to carry in stock large and complete assortment of Eureka grown stock, from which orders can be filled at short notice. Deciduous trees and shrubs are grown here.

Queens, Long Island, N. Y. Headquarters and nurseries of the Cottage Gardens Company, an independent but affiliated corporation, Chas. W. Ward being the founder and president of both.

CATALOGS AND PRICE LISTS

Preliminary Retail Catalog. Profusely illustrated. Gives origin of our nurseries, Eastern and Western. Contains brief descriptions of our leading lines. Prices not now in force.

Retail Price List, 1916-1917. Quotes current retail prices on all lines except bulbs.

Wholesale Price List, Fall 1916. This booklet.

Wholesale Price List, Spring 1917. Will list all forcing stock for early fall delivery including Dutch Bulbs, Azaleas, Rhododendrons, Kalmias, Ericas, Hydrangeas, etc., etc.

AZALEAS

AZALEA INDICA

Our available supply of Eureka grown stock for this season's delivery is exhausted, but as an accommodation to our customers we offer the following out of our Belgian importations provided the plants arrive in condition for reshipment. Sizes are measured across the crown.

NEW SORTS

		Each	Per 10	Per 100
Haeren's Pink Pearl	16-18 in.	2 50	20 00	165 00
Sometimes called Christmas Pink.	12-14 in.	2 00	16 00	135 00
Double, large full blooms; color beautiful salmon-flesh same as Enchantress carnation. We consider this one of the most promising Christmas Azaleas on the market today. Stock limited.	10-12 in.	1 50	12 50	100 00
Mme. Petrick Superba	10-12 in.	1 00	8 00	65 00
An improvement on the favorite Mme. Petrick. Bright rose edged white. Early forcer.				

STANDARD SORTS

Hexe (Firefly)	12-14 in.		7 50	65 00
Small double crimson blooms. One of the earliest.	10-12 in.		6 00	50 00
Mme. Ernest Eeckhaute	12-14 in.		7 50	65 00
Purplish crimson, undulated margin, double. Color particularly beautiful; mid-season.	10-12 in.		6 00	50 00
Mme. Petrick	20-22 in.	2 75	25 00	225 00
Double, brilliant deep rose, abundant bloomer and well-shaped plant. The surest variety for Christmas forcing.	16-18 in.		12 50	100 00
	10-12 in.		6 00	50 00
Mme. Vander Cruysen	16-18 in.	1 50	12 50	100 00
Crimson, semi-double. The standard late variety and a great favorite.....	12-14 in.		7 50	65 00
	10-12 in.		6 00	50 00
Prof. Wolters	12-14 in.		7 50	65 00
Pink with white margin; single, mid-season.	10-12 in.		6 00	50 00
Simon Mardner	16-18 in.	1 50	12 50	100 00
Bright rose, very double; large blooms and heavy foliage. Sure forcer for Christmas.	10-12 in.		6 00	50 00
Vervaeana	16-18 in.	1 50	12 50	100 00
Rose with white or variegated margin. Flowers double, large and borne profusely. One of the standard Christmas varieties.	12 14 in.		7 50	65 00
	10-12 in.		6 00	50 00

JAPANESE AZALEAS

Both the following are evergreen and very hardy.

Hinodegiri	18-24 in.	1 25	10 00	80 00
The most popular Japanese variety. Leaves small and rounded; flowers single, intense and dazzling red covering the whole plant. Blooms early and can be forced.	15-18 in.	1 00	7 50	60 00
	12-15 in.		6 00	50 00
	10-12 in.		4 00	35 00
	8-10 in.		3 50	30 90
Maxwelli	12-15 in.	1 25	10 00	
A magnificent new Japanese variety. Flowers are single, carmine red and very large, up to three inches across. Hardy and should thrive wherever Hinodegiri succeeds.				

DECIDUOUS AZALEAS

Anthony Koster . Hybrid between <i>A. mollis</i> and <i>A. sinensis</i> with large, very rich yellow flowers. This and the following are beautiful and valuable novelties.	12-15 in.	1 50	12 50	
Mme. Anthony Koster	12-15 in.	1 75	15 00	
In the same class as preceding variety. The flowers are apple-blossom pink and wonderfully attractive.				
Daviesi	12-15 in.	1 00	7 50	
A "Ghent" Azalea bearing large white flowers. Excellent for forcing.				
Rustica fl. pl.	12-15 in.		6 50	
Double flowering mollis hybrids in assorted varieties and colors.				

RHODODENDRONS

One of our great specialties. The soil and climate of Humboldt County produce such magnificent specimens of native Rhododendrons that it is not at all surprising that we can grow the hybrids with such splendid results.

All varieties listed are suitable for planting outdoors on the Pacific Coast. * Varieties starred are used for forcing.

In all cases the heights are only approximate as the growth of different kinds varies greatly; grading is by number of buds.

SPECIALTIES

(NEWLY IMPORTED)

	Each	Per 10	Per 100
* Chevalier Felix de Sauvage			
.....8-10 buds, about 18 in.	1 25	11 00	100 00
.....6- 8 buds, about 15 in.		8 50	75 00
The best crimson forcer. Early and excellent.			
* Cynthia			
Extra fine plants 18 in. diam., heavily budded for forcing.....	1 75	15 00	135 00
Good plants with 8-10 buds, about 18 in.	1 25	11 00	100 00
Good plants with 6- 8 buds, about 15 in.		8 50	75 00
Brilliant rose or bright red. A fine early forcer.			
* Fastuosum fl. pl.			
.....8-10 buds, about 18 in.	1 25	11 00	100 00
.....6- 8 buds, about 15 in.		8 50	75 00
Decidedly out of the ordinary with its double lavender flowers. Very early and a favorite for forcing.			
* Gomer Waterer			
.....8-10 buds, about 18 in.	1 25	11 00	100 00
.....6- 8 buds, about 15 in.		8 50	75 00
Variously described as light lavender, salmon or white. Color varies with conditions. Flowers almost as large as Pink Pearl. An excellent forcer to follow the other varieties in this group which are earlier.			
* Pink Pearl			
Extra fine plants 18 in. diam., heavily budded for forcing	2 00	17 50	160 00
The Queen of all forcing Rhododendrons. Giant trusses with beautiful rose-pink blooms. Individual florets 3½ to 5 inches in diameter.			

GENERAL COLLECTION

(EUREKA GROWN)

10-12 buds about 22 in.....	1 50	12 50	100 00
8-10 buds about 18 in.....	1 00	9 00	75 00
6- 8 buds about 15 in.....		7 50	60 00
Abraham Lincoln. Rosy red.			
Album Grandiflorum. White.			
Atrosanguineum. Dark scarlet.			
Boule de Neige. White.			
Caractacus. Crimson.			
Chas. Dickens. Dark scarlet.			
* Everestianum. Rosy lilac.			
Gen. Grant. Rosy red.			
Giganteum. Bright rose.			
H. H. Hunnewell. Rich crimson.			
H. W. Sargent. Crimson.			
* John Waterer. Crimson.			
Kettledrum. Crimson.			
* Lady Armstrong. Pale rose.			
* Lady Clermont. Scarlet.			
Lady Powerscourt. Rosy crimson.			
Mrs. Milner. Rich crimson.			
* Mrs. R. S. Holford. Rich crimson.			
* Parsons' Gloriosum. Soft rose.			
Parsons' Grandiflorum. Rose.			
* President Lincoln. Lilac rose.			

KALMIA

Kalmia latifolia: MOUNTAIN LAUREL:			
CALICO BUSH	15-18 in.	1 00	7 50
Beautiful flowering shrub native of Eastern U. S. Flowers vary from deep pink to nearly white. When planted out requires about the same conditions as Rhododendrons. Extensively and increasingly used for forcing.	12-15 in.	75	6 00
			50 00

BOXWOOD

We carry a very heavy stock of this popular formal plant in Pyramids and Standards. The former are broad for their height, full and symmetrical.

		Each	Per 10	Per 100
Pyramids—				
5	to 5½ ft.	7 50	70 00	
4½	to 5 ft.	5 50	50 00	
4	to 4½ ft.	3 75	35 00	325 00
3½	to 4 ft.	3 00	27 50	250 00
3	to 3½ ft.	2 25	20 00	175 00
2½	to 3 ft.		15 00	125 00
2	to 2½ ft.		12 50	100 00
1½	to 2 ft.		10 00	75 00
Standards—				
Stems 36 in. tall,	heads 18 in. diam	4 00	37 50	
Stems 24 in. tall,	heads 18 in. diam	3 00	27 50	
Stems 18 in. tall,	heads 12 in. diam	1 60	15 00	

IRISH YEW

One of our leading specialties is this beautiful and popular tree. Its dense somber foliage and stately columnar habit lend it an air of distinction not possessed by any other similar plant. The abundant red berries add greatly to its beauty.

5	to 5½ ft.	6 50	60 00	550 00
4½	to 5 ft.	4 50	40 00	350 00
4	to 4½ ft.	3 50	30 00	250 00
3½	to 4 ft.	2 50	22 50	200 00
3	to 3½ ft.	2 00	17 50	160 00
2½	to 3 ft.		13 50	120 00
2	to 2½ ft.		10 00	80 00
1½	to 2 ft.		6 00	50 00

HOLLY

We propagate and sell only grafted or budded plants. Seedlings are entirely unreliable and at least 75 per cent are males which do not bear berries. Every plant we offer is of the self-fertile type which will bear and please your customers.

Berried Holly (newly imported)

Well berried plants..... 2½ to 3 ft. 1 50 13 50 125 00

Under normal conditions Hollies berry very heavily at Eureka, but all our plants were transplanted last spring and are not well berried this season.

"Pyramidalis" type (berry bearing 4 to 5 ft. 2 00 17 50 160 00
but not well berried at present)... 3 to 4 ft. 1 50 12 50 110 00
2½ to 3 ft. 10 00 85 00
2 to 2½ ft. 7 50 60 00

Variegated Holly. Golden King..... 1½ to 2 ft. 5 00
Golden Queen..... 1½ to 2 ft. 5 00

CONIFEROUS EVERGREENS

(Balled from the field unless otherwise stated)

Cedrus atlantica glauca..... 3 to 3½ ft. 2 25 20 00 180 00
BLUE MT. ATLAS CEDAR. One of 2½ to 3 ft. 1 50 12 50 110 00
the most beautiful trees in the 1½ to 2 ft. 7 50 70 00
world. Foliage intense silvery blue.

Cedrus deodara verticillata glauca 2 to 2½ ft. 1 50 12 50 110 00
A form of the Deodar with stiffer 1½ to 2 ft. 7 50 70 00
branches and very glaucous foliage.

Chamaecyparis lawsoniana alumi... 12 to 15 in. 3 00 25 00
A variety of Lawson Cypress of erect, almost fastigate growth. Foliage intensely glaucous. Very fine.

Chamaecyparis lawsoniana filifera glauca—
Although a variety of Lawson 1 to 1½ ft. 6 00 50 00
Cypress it has little resemblance to it as the secondary branchlets are thread-like, drooping and somewhat glaucous. Novel, interesting and handsome.

Chamaecyparis lawsoniana "Triomphe de Boskoop"—
Another beautiful form of Lawson 3 to 4 ft. 1 75 15 00 140 00
Cypress. Foliage intense silvery 2½ to 3 ft. 10 00 90 00
blue. Hardier than the type..... 2 to 2½ ft. 7 50 70 00
1½ to 2 ft. 5 00 45 00
1 to 1½ ft. 5 00 45 00

Chamaecyparis lawsoniana wisseli...
New variety of very graceful pyramidal habit and compact yet vigorous growth. Foliage has a fine blue color.

Chamaecyparis nootkatensis 1½ to 2 ft. 5 00 40 00
NOOTKA SOUND CYPRESS. Growth 1 to 1½ ft. 4 00 35 00
pyramidal and compact. Foliage deep, dark green.

		Each	Per 10	Per 100
Chamaecyparis obtusa	5 ½ to 6 ft.	8 00	75 00	
JAPANESE RETINOSPORA (Trained).	5 to 5 ½ ft.	6 50	60 00	
Imported from Japan where they have been trained into dense, compact, columnar form. These are beautiful specimen plants and thoroughly acclimated, making them superior to newly imported stock.	4 ½ to 5 ft.	5 50	52 50	500 00
	4 to 4 ½ ft.	5 00	45 00	425 00
	3 ½ to 4 ft.	4 00	37 50	350 00
	3 to 3 ½ ft.	3 25	30 00	275 00
	2 ½ to 3 ft.	2 75	25 00	225 00
	2 to 2 ½ ft.	2 25	20 00	175 00
Chamaecyparis obtusa aurea	3 to 3 ½ ft.	3 50	32 50	
GOLDEN JAPANESE RETINOSPORA (Trained). An intensely golden-hued form of preceding. Has same habit and is wonderfully effective.	2 ½ to 3 ft.	3 00	27 50	
	2 to 2 ½ ft.	2 75	25 00	
Chamaecyparis obtusa compacta	3 to 3 ½ ft.	1 75	15 00	
Less formal than the two preceding varieties. A remarkably handsome small tree with rich green foliage and compact but not at all stiff habit.	2 ½ to 3 ft.		12 50	110 00
	2 to 2 ½ ft.		10 00	85 00
Chamaecyparis pisifera filifera	3 to 4 ft.	2 75	25 00	
THREAD - BRANCHED JAPANESE CYPRESS OR RETINOSPORA. Shrub of very compact growth. Branches drooping and thread-like, grayish green.	2 ½ to 3 ft.	1 75	15 00	135 00
	1 ½ to 2 ft.		7 50	65 00
	1 to 1 ½ ft.		5 00	45 00
Cryptomeria japonica	2 to 3 ft.		3 00	
"JAPAN REDWOOD." Tall rapid growing tree of loose open habit. Forms a large forest tree in Japan.				
Cryptomeria japonica elegans	2 to 3 ft.		6 00	55 00
Well known small tree with feathery foliage which turns bronze during winter.				
Juniperus chinensis argenteo-variegata —				
VARIEGATED CHINESE JUNIPER. Pyramidal, compact, sparing flecked with creamy variegation.....	2 to 2 ½ ft.	1 25	10 00	90 00
	1 ½ to 2 ft.		7 50	65 00
	1 to 1 ½ ft.		5 00	45 00
Juniperus chinensis aurea	1 ft.		5 00	45 00
GOLDEN CHINESE JUNIPER. Spreading growth and good color.				
Juniperus chinensis fortunei	3 ½ to 4 ft.	1 25	10 00	90 00
Growth columnar but not stiff. Foliage silvery; handsome.....	3 to 3 ½ ft.		7 50	65 00
	1 to 1 ½ ft.		3 00	25 00
Juniperus chinensis pfitzeriana	2 to 2 ½ ft.	1 00	8 50	
Branches spreading with drooping tips. Foliage slightly glaucous.....	1 ½ to 2 ft.		6 00	
	1 to 1 ½ ft.		5 00	40 00
Juniperus chinensis procumbens	12 to 15 in.		5 50	50 00
CREeping CHINESE JUNIPER. The well known Creeping Juniper with rather coarse gray foliage.	10 to 12 in.		4 00	35 00
Juniperus communis hibernica	2 to 2 ½ ft.		5 00	45 00
IRISH JUNIPER. Of dense columnar habit. Foliage silvery	1 ½ to 2 ft.		4 00	35 00
	1 to 1 ½ ft.		3 00	
Juniperus excelsa stricta	1 ½ to 2 ft.	1 00	7 50	65 00
GREEK JUNIPER. Growth very regular; conical outline; foliage blue-gray.	1 to 1 ½ ft.		5 50	50 00
Juniperus sabina tamartseifolia	2 to 3 ft.	1 25	10 00	90 00
Branches grow prostrate on the ground. Foliage much finer and better colored than the common Savin Juniper.	1 ½ to 2 ft.		8 00	75 00
	1 to 1 ½ ft.		6 50	60 00
Juniperus squamata	1 to 1 ½ ft.		6 50	60 00
Of low spreading growth; foliage grayish. May be a form of Juniperus sabina.				
Juniperus virginiana glauca	2 to 2 ½ ft.	85	7 50	
BLUE VIRGINIA CEDAR. Upright tree with arching branches and very blue foliage.	1 ½ to 2 ft.		6 00	50 00
	1 to 1 ½ ft.		4 00	35 00
Juniperus virginiana kosteriana	1 ½ to 2 ft.		6 00	50 00
Spreading branches with drooping tips. Foliage dark green.	1 to 1 ½ ft.		4 50	40 00
Picea alba . WHITE SPRUCE.....	1 ½ to 2 ft.		5 00	
	1 to 1 ½ ft.		4 00	35 00
Picea orientalis . ORIENTAL SPRUCE	1 ½ to 2 ft.		6 00	50 00
The most graceful of all the spruces. Branches slender; foliage very fine, clear green.	1 to 1 ½ ft.		5 00	40 00
Picea pungens glauca compacta	3 to 3 ½ ft.	3 50	32 50	300 00
A very compact and symmetrical form of the famous "Colorado Blue Spruce." Silvery color very intense.	2 ½ to 3 ft.	3 00	27 50	250 00
	2 to 2 ½ ft.	2 50	22 50	200 00
Pinus coulteri . COULTER PINE.....	1 to 1 ½ ft.		2 50	20 00
Native coast species of quick growth. Leaves long and dark green. Cones very large.				

		Each	Per 10	Per 100
Pinus halepensis. ALEPPO PINE....	1½ to 2 ft.		3 00	25 00
Quick grower adapted to dry loca- tions.	1 to 1½ ft.		2 50	20 00
Pinus pinaster. (P. maritima).....	1½ to 2 ft.		3 00	25 00
CLUSTER PINE. Long deep green leaves.	1 to 1½ ft.		2 50	20 00
Pinus resinosa. NORWAY PINE.....	1½ to 2 ft.		3 00	25 00
Tall growing; dark foliage.....	1 to 1½ ft.		2 50	20 00
Pinus strobus. WHITE PINE.....	1½ to 2 ft.		3 00	25 00
Leaves very fine, soft and glaucous	1 to 1½ ft.		2 50	20 00
Pinus torreyana. TORREY PINE.....	1 to 1½ ft.		3 00	25 00
Native of Southern California. Leaves very long; dark green. Drought resistant.				
Retinospora (See <i>Chamaecyparis ob- tusa</i> and <i>Ch. pisifera</i> .)				
Sciadopitys verticillata	5 to 6 ft.	7 00	65 00	600 00
UMBRELLA PINE. Japanese tree of remarkable appearance. Leaves very long and clustered in whorls, bright green in summer, bronzy in winter.	4½ to 5 ft.	5 00	45 00	425 00
	4 to 4½ ft.	3 50	32 50	300 00
	3½ to 4 ft.	2 75	25 00	225 00
	3 to 3½ ft.	2 25	20 00	175 00
widely used as a tub plant. In hot sections should be in at least par- tial shade. Plants we offer are all specimens; very compact, broad for their height, of regular conical out- line and thoroughly acclimated.	2½ to 3 ft.	1 75	15 00	125 00
	2 to 2½ ft.	1 25	10 00	80 00
	1½ to 2 ft.		7 50	60 00
	1 to 1½ ft.		6 00	50 00
Sequoia gigantea	1½ to 2 ft.		6 00	50 00
CALIFORNIA BIG TREE. Native of the Sierras; hardier than the Redwood.				
Sequoia sempervirens. REDWOOD....	3 to 4 ft.		6 00	50 00
Native of California coast region. Attains its greatest development in Humboldt County and with the pre- ceding species ranks as oldest and largest trees in the world.	2 to 3 ft.		5 00	40 00
	1 to 2 ft.		4 00	30 00
Taxus baccata fastigiata — IRISH YEWE. See page 5.				
Taxus baccata fastigiata aurea	2 to 2½ ft.	1 50	12 50	
GOLDEN IRISH YEWE. Habit same as Irish Yew but with golden-hued foliage; color particularly brilliant in spring.	1½ to 2 ft.		7 50	
Taxus baccata oevereinderi	3 to 3½ ft.	1 75	15 00	135 00
Foliage similar to common English Yew, but has a dense erect habit, broadest near base and tapering regularly to a slender tip. Unique and desirable.	2½ to 3 ft.	1 25	11 00	100 00
	1½ to 2 ft.		5 00	45 00
Taxus baccata repandens	1½ to 2 ft.	1 00	7 50	65 00
Compact form of English Yew; globular habit.				
Thuja gigantea magnifica aurea	3 to 4 ft.	2 25	20 00	
Very graceful form of Giant Arbor Vitae with intensely yellow foliage. Color held well throughout the year.				
Thuja occidentalis	2 to 3 ft.		3 00	25 00
AMERICAN ARBOR VITAE. Well known small tree of rather compact growth. Makes a good hedge and is very hardy.				
Thuja occidentalis compacta	1 to 1½ ft.		3 00	25 00
Dwarf compact variety assuming oval form.				
Thuja occidentalis pumila	1 to 1½ ft.		3 50	30 00
TOM THUMB ARBOR VITAE. Very dwarf form of slow growth with dense heath-like foliage.				
Thuja occidentalis pyramidalis	6 to 7 ft.	2 25	20 00	
PYRAMIDAL ARBOR VITAE. Has the form of Italian Cypress but with the characteristic Arbor Vitae foliage.				
Thuja occidentalis rosenthalii	1½ to 2 ft.		4 00	35 00
Distinct variety with dense compact habit and finely cut foliage.	1 to 1½ ft.		3 00	25 00
Thuja occidentalis sibirica	3 to 3½ ft.	1 25	10 00	90 00
SIBERIAN ARBOR VITAE. Compact tree of broadly pyramidal growth.	2 to 2½ ft.		6 50	60 00
Foliage has an unusual metallic hue	1½ to 2 ft.		4 50	40 00
	1 to 1½ ft.		3 50	30 00
Thuja orientalis	1 to 1½ ft.		2 50	20 00
CHINESE ARBOR VITAE. Of erect and sometimes bushy habit. Usually assumes winter tints. Grows rapidly				
Thuja orientalis aurea conspicua	1½ to 2 ft.	1 00	7 50	60 00
Beautiful and striking form of Chi- nese Arbor Vitae with intensely yel- low foliage and slender, erect, sym- metrically tapering habit.	1 to 1½ ft.		6 00	50 00

		Each	Per 10	Per 100
<i>Thuya orientalis aurea nana</i>	2 to 2½ ft.	1 75	15 00	
DWARF CHINESE GOLDEN ARBOR VITAE. Very compact, nearly globular. Color brilliant and held well. Growth very slow.	10 to 12 in.		3 50	30 00

BROAD LEAVED EVERGREENS

(Balled from the field unless otherwise stated)

<i>Abelia grandiflora</i>	1½ to 2 ft.		3 00	25 00
	1 to 1½ ft.		2 00	15 00
<i>Abelia triflora</i>	1½ to 2 ft.		3 00	
	1 to 1½ ft.		2 00	
<i>Albizzia lophantha</i> (<i>Acacia lophantha</i>)				
from 4 in. pots	2 to 2½ ft.		2 00	18 00
from 4 in. pots	1 to 1½ ft.		1 50	12 00
Azalea —See page 3.				
<i>Berberis darwini</i>	1½ to 2 ft.		5 00	40 00
DARWIN BARBERRY, from 4 in. pots	6 to 8 in.		1 50	14 00
<i>Buxus sempervirens</i> . BOXWOOD. See page 5				
<i>Cerantonia siliqua</i> from 4 in. pots	8 to 12 in.		2 00	15 00
CAROB; ST. JOHN'S BREAD.				
<i>Choisya ternata</i>	6 to 10 in.		2 00	18 00
MEXICAN ORANGE SHRUB.				
<i>Coprosma baueri</i> from 4 in. pots	10 to 15 in.		1 50	12 00
LOOKING GLASS PLANT.				
<i>Cotoneaster acuminata</i> (<i>C. nepalensis</i>)	3 to 4 ft.	1 00	7 50	
Splendid berry bearer. Partly deciduous.	2 to 3 ft.		5 00	
<i>Cotoneaster franchetti</i>	2 to 3 ft.		6 00	50 00
Arching habit. Bears freely	1 to 1½ ft.		3 00	25 00
<i>Daphne odora</i> , WHITE DAPHNE.....	6 to 10 in.		3 00	25 00
<i>Daphne odora marginata</i>	6 to 10 in.		3 50	30 00
PINK DAPHNE.				
<i>Diosma ericoides</i> (<i>D. alba</i>)				
BREATH OF HEAVEN.				
from 4 in. pots	8 to 12 in.		1 50	12 00
<i>Dodonea cuneata</i>				
from 4 and 5 in. pots	1 to 2 ft.		1 80	15 00
<i>Dodonea viscosa</i> from 4 in. pots	8 to 12 in.		1 80	
<i>Erica lusitanica</i> (<i>E. codonodes</i>).....	8 to 12 in.		2 50	20 00
SPANISH HEATH. Foliage very soft and fine; flowers pale rose.				
<i>Erica lusitanica veitchi</i>	10 to 15 in.		3 00	25 00
(<i>E. codonodes veitchi</i>)	4 to 6 in.		1 50	12 00
<i>Erica mediterranea</i>	10 to 15 in.		2 50	20 00
MEDITERRANEAN HEATH. Flowers lavender pink; foliage dark.	8 to 10 in.		2 00	15 00
<i>Erica mediterranea hybrida</i>	6 to 8 in.		2 50	20 00
Of low compact growth; flowers pale pink and very early.				
<i>Erica persoluta</i>	12 to 15 in.		3 00	25 00
Nearly white, faintly flushed. Spring bloomer.	4 to 6 in.		1 50	12 00
<i>Erica persoluta alba</i>	12 to 15 in.		3 00	25 00
Pure white form of preceding; nearly identical.	8 to 12 in.		1 80	15 00
<i>Erica "Rose White"</i>	8 to 12 in.		3 00	
Resembles <i>E. lusitanica</i> but has larger and deeper pink flowers. Very handsome. Botanical name unknown				
<i>Erica triumphans</i>	10 to 15 in.		2 50	20 00
Foliage dark green; growth upright; flowers deep pink.	8 to 10 in.		2 00	15 00
<i>Escallonia montevidensis</i>	1 to 1½ ft.		3 00	
Flowers white, borne in late summer in utmost profusion.				
Eucalyptus —Pot grown.				
<i>E. ficifolia</i>	from 4 in. pots—2 to 3 ft.		5 00	40 00
	from 4 in. pots—1½ to 2 ft.		3 50	30 00
	from 4 in. pots—1 to 1½ ft.		2 50	20 00
<i>E. maculata</i>	from 4 in. pots—2 to 3 ft.		2 00	15 00
	from 4 in. pots—1½ to 2 ft.		1 50	12 00
<i>E. obliqua</i>	from 4 in. pots—1½ to 2 ft.		1 50	12 00
<i>E. viminalis</i>	from 4 in. pots—1½ to 2 ft.		1 50	12 00
Eucalyptus —In flats of 75—2 00 per flat.				
<i>E. kertoniana</i>	2½ to 3 ft.			
<i>E. rostrata</i>	2½ to 3 ft.			
<i>E. viminalis</i>	2½ to 3 ft.			
Eucalyptus —In flats of 75—1 50 per flat.				
<i>E. bicolor</i>	8 to 12 in.			
<i>E. gonocalyx</i>	8 to 12 in.			
<i>E. kertoniana</i>	6 to 8 in.			
<i>E. longirostris</i>	6 to 8 in.			
<i>E. obliqua</i>	8 to 12 in.			
<i>E. polyanthemus</i>	6 to 8 in.			
<i>E. robusta</i>	6 to 8 in.			
<i>E. sideroxylon</i>	4 to 6 in.			
<i>E. tereticornis</i>	4 to 6 in.			
<i>E. viminalis</i>	8 to 12 in.			
<i>E. virgata</i>	4 to 6 in.			

Grevillea robusta. SILK OAK—			
	from 4 in. pots 1	to 1½ ft.	1 50 12 00
Hakea pugioniformis	2	to 3 ft.	4 00
Ilex aquifolium. ENGLISH HOLLY. See page 5.			
Ilex vomitoria. CASSENA—			
	from 4 in. pots 1	to 1½ ft.	3 50
	from 4 in. pots 8	to 12 in.	2 50
Handsome shrub with small, smooth, crenate leaves. Bears an enormous crop of small scarlet berries.			
Kalmia latifolia. MOUNTAIN LAUREL; CALICO BUSH. See page 4.			
Leptospermum laevigatum. AUSTRALIAN TEA TREE—			
	from 4 in. pots 12	to 15 in.	1 50 12 00
	from 4 in. pots 8	to 12 in.	1 20 10 00
	flats of 75—10	to 15 in.—4 00	per flat.
Leptospermum nicholsi. from 4 in. pots 1	to 1½ ft.		5 00 45 00
One of the best introductions of recent years. Formed a conspicuous feature of the Australian and New Zealand horticultural exhibits at the 1915 Exposition. Plant is very finely branched with slender twigs and very small leaves which are ruddy bronze. Flowers are about a half inch broad, deep garnet or claret colored and borne in great profusion. Stock very scarce.			
Leucothoe catesbaei	1	to 1½ ft.	1 00 8 00 70 00
(Andromeda catesbaei). Graceful shrub with spreading arching branches and beautiful leathery leaves which turn deep bronzy red during winter. Flowers heath-like in long drooping clusters.			
Ligustrum ovalifolium. CALIFORNIA PRIVET—			
	bare roots 2	to 3 ft.	1 50 10 00
	bare roots 8	to 12 in.	5 00
Lonicera nitida. BOX HONEYSUCKLE—			
	Will rank among the very best 8	to 10 in.	3 50 30 00
	shrubs introduced by Wilson from 6	to 8 in.	3 00 25 00
China. It is a small plant of very compact and regular growth. Leaves about the size and shape of the small-leaved myrtles, deep glistening green. Will probably supplant Box for many purposes as it is handsomer and far better adapted to our climate.			
Mahonia aquifolium	1	to 1½ ft.	4 00 35 00
OREGON GRAPE.			
Myrica cerifera. WAX MYRTLE....	2	to 3 ft.	7 50
	Shrub or small tree with elongated 1	to 2 ft.	3 50
slender leaves.			
Myrtus communis	1	to 1½ ft.	1 80 15 00
COMMON OR ENGLISH MYRTLE			
Myrtus communis microphylla		8 to 12 in.	1 50 12 00
		6 to 10 in.	1 50 12 00
SMALL-LEAVED MYRTLE.			
Prunus ilicifolia integrifolia. CATALINA CHERRY.			
	from 4 in. pots 1	to 1½ ft.	1 60 15 00
Rhododendron. See page 4.			
Spartium junceum. SPANISH BROOM.			
	from 5 in. pots 2½	to 3 ft.	2 50 20 00
Thea bohea. TEA PLANT.			
	from 4 in. pots 10	to 15 in.	3 50 30 00
Veronica decussata	1	to 1½ ft.	2 50 20 00
Flowers violet blue.			
Veronica speciosa andersoni	1½	to 2 ft.	2 50 20 00
	Flowers violet purple	1 to 1½ ft.	2 00 18 00
Veronica speciosa imperialis	1½	to 2 ft.	2 50 20 00
	Flowers amaranth red	1 to 1½ ft.	2 00 18 00
Veronica speciosa variegata	1½	to 2 ft.	2 50 20 00
	Leaves variegated; flowers light 1	to 1½ ft.	2 00 18 00
	blue.		
Viburnum rhytidophyllum	1½	to 2 ft.	1 25 10 00
Another of Wilson's introductions from China and a magnificent addition to our evergreen shrubs. Leaves long and rather narrow, very deep green and wrinkled above, covered with brownish gray down beneath.			

DECIDUOUS TREES

Acer platanoides schwedleri	6	to 7 ft.	3 50
PURPLE-LEAVED MAPLE			
	5	to 6 ft.	3 00
Betula alba	3	to 4 ft.	2 50
EUROPEAN WHITE BIRCH.			
Betula alba fastigiata	3	to 4 ft.	3 50
UPRIGHT WHITE BIRCH.			
Betula alba pendula youngi	3	to 4 ft.	4 00
YOUNG'S WEEPING BIRCH.			

			Each	Per 10	Per 100
<i>Fagus sylvatica purpurea major</i>	5	to 6	ft.		6 00
PURPLE-LEAVED BEECH	4	to 5	ft.		5 00
	3	to 4	ft.		4 00
<i>Fagus sylvatica purpurea</i>	6	to 7	ft.	1 25	10 00 90 00
"Black Marguerite." Variety of vigorous growth with very large nearly black leaves. Splendid.					
<i>Taxodium distichum</i>	1 ½	to 1 ½	ft.		2 50 20 00
BALD CYPRESS. A deciduous conifer					
<i>Ulmus campestris cornubiensis</i>	6	to 7	ft.		3 00
WHEATLEY'S ELM. Smooth barked variety of compact upright growth.					
<i>Ulmus dampieri</i>	6	to 8	ft.		3 50

DECIDUOUS SHRUBS

(Bare roots unless otherwise stated)

Azalea. See page 3.					
<i>Berberis thunbergi</i>	2	to 3	ft.	1 80	15 00
THUNBERG'S BARBERRY. The handsomest deciduous hedge plant. Leaves color brilliantly in autumn.					
	8	to 12	in.	75	6 00
				60	5 00
<i>Cornus florida</i>	2	to 3	ft.	2 50	20 00
FLOWERING DOGWOOD.					
<i>Cornus spaethi aurea</i>	1 ½	to 2	ft.	2 00	15 00
<i>Elsholtzia stauntoni</i>	2	to 3	ft.	2 50	20 00
Shrub of the Mint family. Flowers lilac purple in terminal spikes in late summer and fall.					
<i>Hydrangea arborescens sterilis</i>	1	to 1 ½	ft.	1 50	12 00
<i>Hydrangea paniculata grandiflora</i> ..	2	to 3	ft.	2 50	20 00
<i>Hydrangea hortensis</i> types—					
(Practically all bloom blue with us at Eureka, but we cannot guarantee that they will hold this color when transplanted to other sections.)					
French Varieties, assorted—					
	2	to 3	ft.	7 50	65 00
	1	to 2	ft.	4 00	35 00
	10	to 15	in.	2 00	18 00
Japanese Varieties, assorted—					
	2	to 3	ft.	2 00	18 00
	2	to 3	ft.	2 50	20 00
Weigela—White flowering					

CLIMBERS

<i>Jasminum primulinum</i> . DOUBLE YELLOW JASMINE.					
	1 ½	to 2	ft.	1 80	15 00
from 4 in. pots					
<i>Wistaria megasperma</i> . EVERGREEN WISTARIA—	1 75			15 00	
medium sized plants					
A magnificent novelty in climbing plants. Foliage evergreen; flowers rosy purple. Seed pods remarkably large and handsome.					
<i>Wistaria "Pink Perfection"</i>				1 25	10 00
				5 00	
medium sized plants					
extra large plants					
A true pink-flowering Wistaria. It is of the Japanese or multijuga type with long clusters of really pink flowers.					

ROSES

HOLLAND GROWN

The following varieties, nearly all new sorts and among them the very latest introductions, we are importing this season from Holland. While these plants are of course not equal in quality to our California grown stock, they are coming from the leading Dutch growers and are the best obtainable from abroad. A large proportion of the following sorts are not yet available in American grown stock. For California grown roses see next section.

	Each	Per 10
<i>Alexander Hill Gray (H. P.)</i>	30	2 50
Deep lemon yellow which deepens as the flower expands. Large full and fine form with high pointed center.		
<i>Augustus Hartman (H. T.)</i>	30	2 50
Erilliant geranium red flushed with orange, sometimes cerise. Flowers large, beautifully formed and carried on erect stout stems. Gold medal N. R. S.		
<i>Autumn Tints (H. T.)</i>	30	2 50
Coppery red shaded orange and salmon; coloring similar to Mme. Ed. Herriot. Slowers of medium size and very freely produced.		
<i>Brilliant (H. T.)</i>	30	2 50
Most intense scarlet, "the brightest color yet achieved in roses, the fiery brilliance of which is quite startling." Gold Medal N. R. S.		
<i>British Queen (H. T.)</i>	25	2 00
White. In bud somewhat flushed but pales to white as flower expands. Flowers large, finely formed and fragrant. Gold Medal N. R. S.		

	Each	Per 10
Cheerful (H. T.)	75	6 00
Pure orange flame, the flame shading overspreading the petal, giving it a wonderful and pleasing effect. This with the distinct orange-yellow base creates a combination of color hitherto unknown in roses. Blooms large and full, perfectly formed with enormous petals.		
Constance (Pern.)	75	6 00
Vigorous grower of spreading branching habit with glossy green foliage and many long thorns. Bud is long, orange yellow streaked with crimson; flower globular, beautiful cadmium passing to golden yellow. Award of Merit R. H. S.; Gold Medal Paris 1914.		
Coronation (H. P.)	30	2 50
The largest rose yet raised. Flowers are immense with abundant petals, the color shading from flesh to bright shrimp pink. Gold Medal N. R. S.		
Countess Clanwilliam (H. T.)	30	2 50
Flowers large and full; buds long and pointed. Color delicate peach pink at the base of petals which are flamed and heavily edged with deep cherry red. Gold Medal N. R. S.		
C. W. Cowan (H. T.)	25	2 00
Warm carmine cerise. Flowers are well formed, very freely produced and delightfully fragrant.		
Daily Mail —See Mme. Edouard Herriot.		
Duchess of Sutherland (H. T.)	25	2 00
Bright rose pink conspicuously veined and with lemon shading at base. Buds are very long pointed and borne on magnificent stems which carry flowers perfectly erect.		
Florence Forrester (H. T.)	30	2 50
White with lemon tint in bud, becoming pure white as blooms develop. Flowers are enormous, even larger than Paul Neyron. Gold Medal N. R. S.		
Geoffrey Henslow (H. T.)	30	2 50
Orange crimson of great brilliancy. Color especially fine. Flowers large, full and globular.		
Henry Vesey Machin (H. T.)	30	2 50
Intensely black-grained crimson scarlet blooms of globular shape and carried on rigid stalks. Flowers very large. Gold Medal N. R. S.		
Iona Herdman (H. T.)	30	2 50
Pure clear orange flame; a magnificent color surpassing Rayon d'Or in clearness and brightness. Easily among the very best yellows. Gold Medal N. R. S.		
Leslie Holland (H. T.)	30	2 50
Deep scarlet crimson flamed velvety crimson. Flowers of large size and good substance.		
Louise Catherine Breslau (Pern.)	30	2 50
Coral shaded chrome yellow. Very vigorous and hardy.		
Marie (Dwt. Poly.)	60	5 00
Flowers soft apple blossom pink, double, very large for the class and borne continuously in enormous clusters. In the baby-polyantha class and does not grow over two feet tall. Has Wichuraiana blood giving it splendid foliage.		
Miss Alice de Rothschild (T.)	20	1 60
Deep citron yellow intensifying as the blooms expand.		
Miss Cynthia Forde (H. T.)	20	1 80
Brilliant rose pink.		
Mme. Edouard Herriot or "Daily Mail" (Pern.)	25	2 00
Superb coral red, shaded yellow at base, passing to shrimp red. Coloring is wonderful and must be seen to be appreciated. Flowers are rather large and loose. It is a wonderfully free bloomer, practically continuous in California. Foliage very attractive. Certainly destined to attain widespread popularity as it becomes known. Won the Gold Cup offered by the Daily Mail of London and the Gold Medal of the English N. R. S.		
Mme. Edmond Rostand (H. T.)	20	1 80
Pale flesh shaded salmon and orange. May be considered as an improved Prince de Bulgarie.		
Mrs. Alfred Tate (H. T.)	25	2 00
Coppery red shaded fawn. Formed like Miss Kate Moulton with gracefully reflexed petals.		
Mrs. Ambrose Ricarde (H. T.)	30	2 50
Deep honey yellow overlaid with brighter yellow. Said to be the largest yellow rose yet produced.		
Mrs. Archie Gray (H. T.)	30	2 50
Deep creamy yellow bud opening to clear light canary yellow. Buds long and pointed; flowers beautifully formed and freely produced. Gold Medal N. R. S.		
Mrs. Bertram J. Walker (H. T.)	75	6 00
Clear bright cerise pink of a novel and distinct shade. Flowers large, very full and perfectly symmetrical. Very productive. Gold Medal N. R. S.		
Mrs. Forde (T.)	30	2 50
Delicate rose pink overlaid deep carmine rose and shaded chrome yellow at base. Flowers large and full on erect stalks.		

	Each	Per 10
Mrs. Frank Bray (H. T.)	25	2 00
Rich coppery ecru flushed shell pink. Delightfully fragrant. An improvement on Mme. Ravary.		
Mrs. Frederick W. Vanderbilt (Pern.)	25	2 00
Deep orange red shaded bronze apricot red. Color hard to describe, really a blending of several shades.		
Mrs. Muir Mackean (H. T.)	25	2 00
Carmine crimson, colored like American Beauty. Buds very large and open very slowly making it splendid for cutting.		
Mrs. Wallace H. Rowe (H. T.)	25	2 00
Pink tinted lilac. Flowers well formed on good stems.		
Mrs. Wemyss Quinn (H. T.)	40	3 00
Intense lemon chrome washed with solid maddery orange becoming deep canary yellow when fully opened. Very free blooming and deliciously fragrant. An improvement on the favorite Rayon d'Or.		
Muriel Dickson (Pern.)	75	6 00
Deep reddish copper in bud opening to cherry red with coppery shadings. Buds are long and pointed. An extremely free and continuous bloomer. A magnificent addition to this class of wonderful roses. Gold Medal, N. R. S.; Award of Merit, R. H. S.		
Naarden (H. T.)	25	2 00
Creamy white with salmon pink center. Cross between Lyon and Frau Karl Druschki. Flowers very large.		
Old Gold (H. T.)	25	2 00
Reddish orange with coppery apricot shadings. Semi-double. Buds long, slender and pointed. Very fragrant, free blooming and has very handsome foliage. A gem in every way. Gold Medal, N. R. S.		
Peach Blossom (Dwf. Poly.)	60	5 00
A splendid addition to the baby-polyanthas. Flowers are peach blossom pink and borne in enormous clusters. It is free and continuous blooming and the flowers hold well after being cut, a rare character in this class. Its glossy green foliage shows the Wichuraiana blood.		
Red Letter Day (H. T.)	30	2 50
An exceedingly beautiful semi-double rose. Buds are glowing scarlet crimson and the warm color is held in the open flower. Gold Medal, N. R. S.		
Willowmere (Pern.)	25	2 00
Shrimp pink with faint yellow shading in center. Considered an improved Lyon. Of more erect growth and with a decidedly better constitution.		

CALIFORNIA GROWN

The following section covers only California grown stock. (For Holland grown stock including many of the very latest novelties see preceding section). These plants are all budded, grown on new sedimentary soil and are the finest we have ever seen; they cannot fail to please you and your customers. While the list is not long it comprises most of the standard sorts and we can supply the majority of varieties in large quantities if desired. Please note that all orders for roses will be shipped from San Jose.
