# MISCELLANEOUS RECORD.

## ORGANIZATION OF COUNCILS.

The members of the Select and Common Councils, are elected annually, on the first Tuesday in May, and meet at the City Hall, at 10 o'clock, in the forenoon, on the Monday succeeding their election, for the purpose of organizing in their respective chambers, the Chief Clerks of former Councils acting as the presiding officers, until Councils elect their Presidents. The members of each Council are severally sworn or affirmed to support the Constitution of the United States and of the Commonwealth of Pennsylvania, and that they will discharge the duties of their office with fidelity. Each Council elects a President, Chief Clerk, Assistant Clerk and Messenger, who severally take the oath of office, and enter immediately upon the duties thereof. Councils being thus fully organized, notify the Mayor of that fact, receive whatever communication in writing he may have to make to them, and proceed to the performance of business.

SUPERINTENDENT OF POLICE AND FIRE  
ALARM TELEGRAPH.

Elected by Councils.

William J. Phillips.

Office, S W e 5th and Chestnut.

*Fire Alarm Stations.*

The ringing of the bell within the signal stations, denotes the number of the station that gives the alarm, thus:—one tap, a pause, and three taps, another pause, and five taps—1—3—5—indicates that the alarm came from Box No. 135.

The State House and Fire Alarm Bells in the several Districts will strike the number of the fire districts twice, and the direction four times; each bell striking the direction from itself. Should the fire be in the vicinity of the State House, the bells in the boxes will ring incessantly.

In cases of general alarm, requiring the service of the entire department, the bells will be rung incessantly in quick succession, after having first signified the district in which the fire is raging.

## FIRST DISTRICT.

South of Spruce st. from Delaware to Schuylkill.

No.	Location.
4	cor. 2d and South.

*Board of Guardians of the Poor of the City of Philadelphia*.—So much of the Act of Assembly of 1854 relating to the organization of the Guardians of the Poor, is repealed "by a Supplemental Act, approved April 7, 1859," with the following proviso, "Provided, that so much of this Act as relates to the Guardians of the Poor, shall not apply to the 22d Ward, nor to such parts of the 21st and 23d Wards, as are now under a separate organization for the support and employment of the poor."

On the 1st Monday in July, 1859, and annually thereafter, nine citizens and electors of the City of Philadelphia, shall assume the powers and duties of the Guardians of the Poor, to be selected in the fol-

lowing manner, to wit: The Judges of the District Court shall appoint on the 1st Monday of June, 1859, one citizen to serve for one year, one for two years, one for three years, and annually thereafter the said Court shall appoint one person to be a member of the said Board.

The Judges of the Court of Common Pleas shall appoint the same number, and in like manner.

The Judges of the Supreme Court of this State shall appoint the same number, and in like manner.

The Select and Common Councils of the City of Philadelphia, in Joint Convention, at any stated meeting in June next, shall elect the same number of members of said Board; one to serve for one year, one to serve two years, one to serve three years; and annually thereafter, at any stated meeting in June, said Councils in "joint Convention shall elect one member of said Board to serve for three years."

(The members of said Board shall organize on the 1st Monday in July, 1859, at ten o'clock in the morning.)

Vacancies by death, resignation, or otherwise, in the Board of Guardians or Board of Health, shall be supplied and filled for the unexpired term of such member, by the Court which appointed or the Councils which elected said member.

*Guardians of the Poor*, (composed of twelve members,) elected to serve from the 1st Monday in July, 1859.

**LEED'S PATENT NEW HYDRAULIC HEATER.  
AND THE CELEBRATED  
BOYNTON PATENT SELF-CLEARING, GAS CONSUMING HEATER.**

LEED'S IMPROVED PATENT HOT WATER OR STEAM APPARATUS, is superior to any contrivance of the kind yet invented, abundant testimony can be shown to warrant this claim. It is designed for private residences or public buildings.

THE BOYNTON PATENT SELF-CLEARING FURNACE, with the late improvements for CONSUMING THE GAS. The most complete HOT AIR FURNACE ever invented. It received the *highest premium* at the Pennsylvania State Fair.

Also, all sizes of HAYE'S PATENT COOKING and HEATING RANGES, which obtained the *highest premium* at the last State Fair. A general assortment of PORTABLE FURNACES, PARLOR GRATES, REGISTERS, VENTILATORS, &c.

MILL STONES.

SMUT MACHINES.

IMPROVED ANCHOR BRAND BOLTING CLOTHS.

Smut Machines, Improved Water Wheels, &amp;c.

**SAMUEL M. MECUTCHEN,**  
**MILLWRIGHT & BURR MILLSTONE MANUFACTURER,**  
 No. 34 Haydock Street, below Front,  
 PHILADELPHIA.

Solid Burr Stones, from 20 inches to 4 feet in diameter, with self-adjusting Balance Ryne complete. Cocalico and Esopus Millstones, Mill Irons and Smut Machines, furnished to order. Square-meshed Bolting Cloths, from the most approved manufactories, always on hand, made up and put on to order, cheap and warranted.

Portable Mills, with Solid Burr, or Cocalico Stones, from two to three feet in diameter. Cob Crushers, and Plaster Breakers, and Improved Patent Mill Bush Overshot and Surface Water Wheels, put up on approved principles.

Sole proprietor of Johnson's improved and much approved Smut and Screening Machines. These machines are given to Millers with all confidence, as the best machines now known or in use, as all who have seen them can testify, and numerous certificates will show. Upwards of Two Thousand of these machines are now in use, and giving perfect satisfaction. MECUTCHEN'S improved Smut Machine and Separator combined. Improved Cast Iron Corn Kiln. All persons are cautioned against using them, unless got of me, or of my legally authorized agents.

SAMUEL M. MECUTCHEN.

THIS IS TO CERTIFY, That we have now in use in our Mills, two of Johnson's Patent Smut and Screening Machines, and are satisfied that they are the best we have ever used.

Brandywine Mills, Sept. 20th, 1850.

JOSEPH T. PRICE & Co.,  
JAMES E. PRICE & Co.

Orders (post-paid) from any part of the country strictly attended to and promptly executed.

ALSO,

IRON CONCAVE BRAN DUSTER, IMPROVED.

CERTIFICATE.

BRANDYWINE MILLS, Aug. 1854.

We have now in operation in our Mills one of McFarland & Carpenter's New Bran Dusters, and believe it is preferable to any other now in use. We have Johnson's also, and Frost and Monroe's in operation here. We recommend the said Duster, with great confidence, to the Millers; believing it to be a great acquisition to the machinery of a Mill, as it thoroughly separates the flour from the bran, which cannot be done by the ordinary process of Bolting. The power to drive it is very small and of no consequence, not being perceptible in our Mills

JAMES E. PRICE &amp; Co.

**LANDRETH'S  
WARRANTED  
GARDEN SEEDS**

Are the product of grounds cultivated under the direct superintendence of the subscribers, and from the planting to the maturity of the crops, and their subsequent preparation for sale, each operation is under their personal supervision, aided by careful and experienced foremen in the various departments—the whole so systematically arranged as to insure a degree of certainty advantageous to all concerned.

The ancestor of the present proprietors was the first in this country to rear GARDEN SEEDS on a systematic plan, which, in its results, secured public confidence, and a reputation for them unapproached by any other seeds sold in America, and which they have sustained for a period approaching three quarters of a century.

*Extract from the Report of the Visiting Committee of the Pennsylvania Horticultural Society :*

"LANDRETH'S NURSERIES AND GARDENS.—Garden Seeds of the finest quality have been scattered over the country from these grounds, and may always be depended upon. \* \* \* THE SEED ESTABLISHMENT of these Horticulturists is the most extensive in the Union. \* \* \* The supply from their grounds is recommended with great confidence."

# JOSEPH MAPLES, SCULPTOR,

Arch Street Near Broad,  
PHILADELPHIA.

## MONUMENTS AND STATUARY

OF ALL KINDS,

EXECUTED ON THE SHORTEST NOTICE.

## MONUMENTAL ARCHITECTURE.

We have frequently had occasion to admire the taste in design and beauty of finish of the Monumental Architecture produced by Mr. Joseph Maples, at the corner of Broad and Arch Streets, and we gladly give place to the following, from the pen of Robert Morris, Esq., editor of the Pennsylvania Inquirer, which sets forth, better than we could hope to do, the peculiar advantages of applying to Mr. Maples for any article in the line of his profession :

" There are few who have contributed more to the improvement of Monumental Architecture, in beauty of design, and skill of execution, than our fellow citizen, Mr. Joseph Maples. To elucidate this, we need only refer to the imposing and attractive appearance of the beautiful Tombs and Monuments which embellish his yard, at the corner of Broad and Arch Streets. We have rarely, if ever, seen more classic taste displayed than is there exhibited in the execution of a splendid Gothic Tomb. In this style of architecture, Mr. Maples has but few equals in our country, arising, doubtless, from his long experience and well cultivated taste, as well here as in Europe, where he has extensively traveled for the sole purpose of acquiring as great proficiency as possible in the Gothic and other styles of Architecture."

# LIGHTNING RODS.

To all those who intend protecting their property from lightning, a few facts may not be unwelcome. The Electric Magnet Lightning Rod has been before the public for twenty years; has been the means of saving a vast deal of property, and many lives; and has never, in a single instance, failed to meet the highest expectations of its value. Hundreds of our own citizens can testify, from their own knowledge, of its ability to protect property in safety; who have been eye-witnesses where buildings, public and private, churches and school-houses, have been saved from destruction;—the rod receiving, and carrying harmless to the ground, strokes which, but for it, would have caused the total ruin of the building and all within it.

The superiority of these rods over any others in use, has been testified to by men who have no superiors in general science or in this department. Recommendations, to the number of six thousand, can be seen at the factory.

The United States' Patent Office is protected by my Rods, having been selected from all others in use, as the best and most reliable. Considering the character and position of the men who have charge of that institution, no higher testimony could be desired.

Persons residing at a distance should be on their guard against a class of swindlers who, by false representations of every description, seek to mislead the purchaser.

Where my agents are not personally known as such, the only safe plan is to apply, by letter or otherwise, at the Factory.

## Weather Vanes, Cardinal Points, Spire Rods,

And all manner of *Scroll and Fancy Iron Work*, to suit all characters of *Architecture*, got up in the neatest and most durable manner, at the lowest cost price.

payable monthly to the carriers, or \$1.50 per annum, payable at the office, in advance.

Mail subscribers, \$2.00 per annum, payable in advance. \$1.00 for six months.

THE UNRIVALLED PATENT  
**UNION FARM**  
 AND  
**PLANTATION MILL.**

**FARMERS, PLANTERS AND MANUFACTURERS:**

We offer you the most efficient, simple, and durable Farm and Plantation Mill ever brought to your notice, it is new in its construction. Two separate Letters' Patent having been granted by the United States Patent Office upon the Mill during the month of May, 1859.

Our Grinding surfaces are entirely new and patented. The Union Farm and Plantation Mill presents double the amount of Grinding Surface over any other Portable Grist Mill in the market, and does its work with less power for the fineness of the meal or substance ground. The mill is so complete in its arrangement and construction, that any farm hand can take the mill apart and replace it without the possibility of getting any of the parts misplaced. Our Grinding Surface is made removable, so that when become worn out they can be replaced at a trifling cost, and without removing the Mill from its box; by this new feature in our Grinding Surface, we are enabled, by a process of our own, to make them as hard as steel, making a Mill that is durable, and one that will, with proper management, grind from ten to fifteen thousand bushels of feed at least, before they are worn out.

The originality and efficiency of our new and patented device for Cutting and Grinding Corn from the Cob, is apparent to any Farmer, Planter or Miller, when once seen in operation; from the peculiar construction of this device, all substances which may be fed into the Mill, are cut and crushed with a shere cut, the easiest and best manner known to Mechanics; and all substances, such as Corn in the Cob, Sumac, Roots for Medicine, &c., when cut and crushed are from the nature of the Cutter Head, forced toward the Grinding Burr; it is a propellor in principle, and for feeding light substances to a Mill, such as Sumac, it has no equal. The best Cast Steel Knives are used upon the Cutter Head, and can be sharpened or whet up without removal.

The Mill makes fine Flour for family use; Grinds all kinds of Grain for feed with great rapidity. The small amount of room required (being less than four feet square,) is another object to the Farmer and Planter. The Mill can be run and is adapted to either Steam, Water or Horse Power. Weight of Mill, less than 300 pounds. Directions for running accompany each Mill.

The Price of Mill for Grinding Feed, with Sieve for making Indian Meal for Family Use, - - - \$50

The Price of Mill, with Bolting Attachment for Making Flour, - - - - - 75

 Large discounts made to Wholesale Dealers in Agricultural Goods, or to persons acting as Agents.
