This Friday 15th January is the 15th anniversary of Wikipedia! Adelaide is joining cities around the world in celebrating the wonder of free and open knowledge that is Wikipedia at Majoran.

Have you seen a Wikipedia article that has missing information? Misleading information? Missing sources? Come and learn how to be a Wiki superhero and update it yourself!

Following Majoran's regular Friday open house, Wikipedia editors and Hackerspace Adelaide will celebrate 5.30-8.30pm, with free pizza thanks to Wikimedia Australia and Wikipedia-generated music listen.hatnote.com

New editors are welcome, bring your own laptop.
