PRESS OF J. L. HALLWORTH, NO. 37 WASHINGTON STREET, BOSTON.

Messrs. HOVEY invite the attention of their friends and the public to the new edition of their Catalogue. It contains many new and beautiful novelties, worthy the attention of all amateurs.

Green-house plants of all kinds being grown in pots, they may be transported *at any season of the year*. The season for transplanting the hardy herbaecous plants is *April, May and June*, in the *spring*, and *September, October and November* in the *autumn*. For the South and West, the most favorable period is the autumn, when they may be transported to the most distant parts of the country.

Boxes of plants or bundles of trees will be delivered in Boston *free of expense*, and shipped either direct or by the way of New York, or forwarded by Express or Railroad to any part of the country.

All *letters of inquiries, or applications for catalogues*, to receive any attention, should enlose a postage stamp.

☞ All orders for plants, from unknown correspondents, must be accompanied with a draft on Boston or New York, payable at sight, or within thirty or sixty days after the delivery of the plants.

The Nurseries are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard Colleges, about two miles from Boston, and contain upwards of 35 acres. A large Conservatory, three extensive Green-houses, and a hot-house, have been erected, which are filled with choice collections of Camellias, Roses, Pelargoniums, Ericas, Azaleas, and Miscellaneous Plants. All amateurs and lovers of plants are invited to visit the Nurseries.

*** *Omnibus Coaches pass within a few rods of the Nurseries every fifteen minutes during the day.*

CATALOGUES of *Fruit Trees, Ornamental Trees and Shrubs, Roses, Green-house Plants, Dahlias, Bulbs and Seeds* are issued separately, and will be forwarded to all applicants, enclosing a postage stamp.

☞ **All orders should be directed to**

"Messrs. HOVEY & CO," Boston.

CATALOGUE

OF

GREEN-HOUSE AND HOT-HOUSE PLANTS.

THE Collection of Green-house and Hot-house Plants is very extensive, and comprises not only all the popular and well known species and varieties, but all the new, rare and showy kinds of recent introduction. No pains have been spared to enrich the assortment by importation from England and the Continent, or by the addition of new varieties of American origin; and arrangements have been made with foreign nurserymen, by which every desirable plant will be added as speedily as possible.

For a more ready reference to some of the popular flowers, they are arranged under special classes.

Those marked thus, (*) are climbing plants.

AZALEA INDICA.

The Azalea is one of the showiest conservatory, green-house, or parlor plants, and from its simple cultivation and free flowering habit, is eminently adapted to the latter situation, where it opens its flowers as readily as in the green-house. With the improvements which have been made in the production of new varieties, it ranks among the most desirable plants for a collection.

CARNATIONS.

The Carnation is one of the most brilliant and showy flowers. Easily cultivated, and quite hardy, (if properly protected,) no garden can be complete without a smaller or larger collection. From the generally received notion that it requires extra care and attention, it has been unjustly neglected; and we cannot but hope it will receive that attention which its great merits demand. Our collection will be yearly augmented by new kinds from England, and by our own seedlings.

PICOTEES.

The Picotee is scarcely less beautiful than the Carnation; with many it is a greater favorite. It is of the easiest cultivation,—quite hardy,—and produces a profusion of delicately edged and tinted blossoms.

Picotees are divided into four classes, viz.,—Purple Edged, Red Edged, and Scarlet Edged, all with white grounds; and Yellow Grounds with Purple Edge.

Among the following are several seedlings unsurpassed by any of the English varieties.

CLOVE PINKS, GERMAN PICOTEEES, &c.

The Pink sports into a variety of colors, many of them exceedingly beautiful, which cannot be classed with the Picotees or Carnations; some of them being *seifs*, or of one color; some *bizarres*, or of various colors, striped and mottled; while others are edged, and fringed at the edges. We have a great collection of seedlings, many of them very dissimilar, which possess great beauty.

BROWN'S PATENT FUMIGATOR

PRICE \$3.00 AND UPWARDS, ACCORDING TO SIZE.

A PORTABLE INSTRUMENT FOR FUMIGATING

Green-houses, Frames, Dwellings, Ships, Closets, Wardrobes, &c., or Shrubs, Flowers, and all kinds of Plants in the Open Air, without injury to the most delicate,

DELIVERING THE SMOKE IN A COOL, DENSE MASS.

The instrument is of most easy application; the substance to be used for fumigation being placed in the magazine at top, and ignited with a match or paper. It is so light that it can be carried about and used by a lady without inconvenience. All that is necessary, is to introduce the pipe into an aperture in the door of a green-house, and, by turning the handle, it will soon be filled with smoke. Nor is the machine less effective in the open air; for the smoke, being concentrated to a point, and made to issue in any required direction, the whole force of the instrument can be brought to bear on any particularly affected part. A great deal of tobacco may be saved by placing the plant under a paper tent, or some other temporary covering, during the operation.

The instrument is also available for fumigating apiaries, or houses and ships, when infested by insects; with it, also, rooms and closets may be scented by burning lavender or other aromatic herbs. *Manufactured and sold wholesale and retail, by*
