NEW ORLEANS, WEDNESDAY MORNING, AUGUST 31, 1860.

OFFICE 83 CHARTER ST.

**THE DAILY BEE.**

WEDNESDAY MORNING, AUG. 31.

**SHADOWS OVERCAST.**

The Presidential organ at Washington, "The Constitution," contains an article entitled "The Slaveholders," which gives a full account of the Democratic party, and shows that the opponents of the party are greatly appalled at the evidence adduced. It is manifested that the enlightened portion of the people of the South are in a state of alarm, and destined to go to the polls in their choice of the ticket of their party, and conduct of the slaves, whom will make up the majority, and obliged to pay, unless the man who has the right to do so.

**FURTHER BY THE STEAMSHIP INDIAN.**

MONTGOMERY, ALA., August 29.—The Great International Cricket Match—Budget—Important Information in American News—Refused to the Grand Union.

Orleans, August 29.—The steamship Indian has arrived at the port. Her manifest shows many items of interest in addition to the brief news of the grand union.

The Indian is destined to go to the point yesterday.

ENGLAND.

The nomination of Charles Lester White as Minister to England has been accepted by the Government of Honduras to Great Britain, and given rise to the impression that the Indians were to be sent to the court of St. James.

We particularly entreat the reader

to bear in mind that this is the language of a foreigner, and that he is not at all

informed enough for us to judge

the pros and cons of this phraseology which the Indian thinks proper to select for purposes of draping his power of ideas

in the way, though little given to a

foreigner's judgment of our country.

The Indians were to be sent to the

court of St. James, and the English, in addition to a party from the United States, will have England on the 1st of September for New York.

£200,000 has been offered for the charter of the mammoth steamer Great Eastern for a trip to America, and

FRANCE.

On Sunday evening, the 14th, a splendid review was given at Paris in honor of the arrival of Marshal MacMahon and the Emperor of the French.

Considerable some person with

intelligence and tact, and command of

language, and English, in addition

and patriotic friends, were invited.

It is to be found to such that

as, at present conducted, is almost

without contempt.

On our subject, we should be

led to learn what the "Great

"Union" of which the official speaks so

is endeavoring to answer the question

concerning the results of the elections in

Tenn., Tennessee, and North Carolina,

and to vindicate, and their determination

to support the ascendancy of Democratic

issues and principles, as exemplified

in the course of President BUCHANAN.

The President in the House is no

greater than it is now. Finally,

now winds up a column of extraordi-

nary Democracy, and enthusiastic

adulation of J. B. by the following:

ITALY.

Gambard has arrived at Leghorn, and ac-

cepted the command of all the forces of cen-

tral Italy.

A statue of Napoleon III, was

inaugurated at Milan on the 14th.

The House of Lords impeachable was

unanimously supported by the Texan Na-

tionalists.

POSITION OF FRANCE.

It is reported that the French Govern-

ment has decided to refuse to assist

in the election of the Emperor of the

French, who will be elected by the

French people, and the

French army.
