VICTORIA, B. C., MONDAY, AUGUST 7, 1911

NO. 31

WHY THERE IS AN ELECTION

SIR WILFRID LAURIER ANSWERS HIS CRITICS

Prime Minister in Speech Tells Opposition Why Dissolution Took Place

(Hansard, July 24.)
Sir Wilfrid Laurier—Mr. Speaker, my hon. friend rose for the purpose of trying to convince this House, and the country at large, that his Majesty's opposition in this House is not obstructing the business of the government, and is not obstructing the reciprocity agreement, which has been before the House now since the 25th of January last. However, my hon. friend had not proceeded very far before he gave away his whole case. He protests that the opposition is not obstructing yet, at the same time, he says, "Let reciprocity wait." If he is not obstructing, why should not reciprocity go on? That is what we on this side of the House want. We do not want reciprocity to wait. The hon. gentleman on the other side of the House told us that what we already knew, and I think my hon. friend for being so candid in the statement that they did not want reciprocity to go through, but wanted it to wait, and that they are trying to prevent an election to go on with the reciprocity agreement, and there will be no election. I have nothing to hide in this matter, but will speak to the House with perfect candor. When I saw evidence of obstruction taking place in this House day after day—Some hon. members—No, no.

Sir Wilfrid Laurier—When I read the reports of the speeches made here, while I was in England, and when I learned that my hon. friend (Mr. Borden), the leader of the opposition was making a triumphal tour of the country—Some hon. member—Hear, hear.

Sir Wilfrid Laurier—I did not need these cheers to know that hon. gentlemen opposite are satisfied with cheap triumphs. Any way, my hon. friend, the leader of the opposition, was making this triumphal tour of the country, and I saw it stated that the opposition would not allow this reciprocity agreement to go through. As soon as I saw this I gave instructions to my hon. friend the secretary of state to prepare the lists so that if the hon. gentlemen opposite should continue to want reciprocity to wait, we could appeal to the people as to whether it should or not. We do not want reciprocity to wait. We want it to pass, either in this House, or before the country. I have nothing whatever to conceal about the matter. We are before the people, and if government is to be made a farce—if the minority abuse the privileges of a minority in order to prevent—Some hon. member—Oh, oh.

Some hon. member—Hear, hear.
Sir Wilfrid Laurier—Then, sir, there are judges over us to judge between the government and the opposition. Surely these hon. gentlemen do not object to an election. They say they want an election, and when I tell them they do not object, they cheer; but when we take steps to have an election, they find fault. But we understand all this. The last thing they want is to go before the country. Well, there is one way in which it is possible to go to the country, and that is to pass the agreement, that the farmers of Canada may have the markets of the United States opened to their products. That is our position. My hon. friend tells me that they want redistribution. Well, redistribution bills have been passed before now, and the usual regular course has been to take the census one year and have redistribution the following year. The census was taken in 1881, 1891 and 1901, and upon every occasion the redistribution bill was passed the following year—that is in 1882, in 1892 and 1902 respectively. If we follow the usual course, we have plenty of time for redistribution. It is true, my hon. friend the leader of the opposition (Mr. Borden, Halifax), told us on the 5th of March that we should have passed the redistribution bill. But he did not reflect at that time that the census could not be taken before the 1st of June. The law on that point was changed some years ago. At the time of confederation, the 1st of April was fixed as the date for the taking of the census. But everybody knows that the 1st of April is not a good season for taking the census. The roads in many parts are not then favorable for travel, but the 1st of June, as we all know, is a propitious season for the census work. The date was changed and nobody objected. Does my hon. friend believe that it is possible to have redistribution in Canada within three months of it.

C. P. R. PLANS FOR HOTELS IN WEST

CHIEF ARCHITECT AND LONDON EXPERT HERE

Enlargements for City, Vancouver, Lake Louise, Banff, Glacier

Frances S. Swales, of London, the well known architect and architectural critic, who is retained by the C. P. R. to do whatever work is necessary for them in Europe, is at the Empress along with H. L. Painter, chief architect for the company, whose offices are at Montreal. The joint visit is in connection with the proposed additional wing to the Empress, on which subject they came here yesterday to confer with Manager Jackson before drawing up plans and calling for tenders. Work on the new wing is to be commenced within the next six weeks, and is to be completed ready for next summer. This will be the second addition to be made to the hotel, and it will be on the southern side. The foundation was laid when the Empress was built, and when the wing is completed the ground floor will probably be used as waiting rooms, smoking rooms and extra lounge, while the upper stories will provide eighty additional bedrooms—the necessity for which has been acute during the present season. This need of accommodation or building on too small a scale according to Mr. Swales is the great mistake the C. P. R. made when building, not only the magnificent Empress, but all the hotels on the company's system. It is his present mission, in company with Mr. Painter, to inspect all the hotels along the line in a critical capacity, and advise as to what is best to be done to meet not only the pressing present needs, but the vastly increased requirements of the future.

"Within the next year," said Mr. Swales, "the visitors from Europe who will come to the C. P. R. hotels will be at least three times as many as the company has ever yet had to prepare for, and now of the hotels are anywhere like big enough for the business." (Concluded on page 11.)

CITY HAS VISIT FROM SHIPPING MAGNATE
Vice-President of White Star-Dominion Line Has Eye on Victoria

When the vice-president of a shipping company of such importance as the White Star-Dominion line, visits Victoria, for the first time it may reasonably be inferred that there is some extension of shipping business in contemplation. With the opening of the Panama canal the trade routes of the world will probably see great alterations, both in regard to freight and passenger service, and there are more unlikely events than the White Star-Dominion then opening a service between Liverpool and Victoria.

P. A. S. Franklin, the very active vice-president of both the International Mercantile company of New York, and the White Star-Dominion line, arrived at the Empress on Saturday afternoon from Vancouver, accompanied by Mrs. Franklin and their sons Jack and Phillip. It was Mr. Franklin's first visit to either this city or Vancouver, and he expressed himself as delighted with what he had seen of "your splendid country here, and your beautiful city." Mr. Franklin's experience of various climates is necessarily considerable. He said he had heard a great deal of Victoria's perfect all-the-year-round climate, and quite agreed with the description.

The cause of the visit, he said, was to take in Victoria in the course of a short pleasure tour on the Pacific coast, but as T. H. Larke, the agent at Seattle of the company's line, came to the Empress to meet the vice-president it is by no means certain that the company are not studying the situation with an eye to the shipping trade developments which are sure to largely affect Victoria by the opening of the Panama canal.

Mr. and Mrs. Franklin and family left yesterday for Seattle. The taking of the census? It is impossible to have it done. It never has been done either under a Conservative government or under a Liberal government. The country is too large and the means of communication too imperfect. You must wait until the last return is before you begin your redistribution. We will have redistribution next year. If the opposition chooses to go on with tactics of obstruction, as they have been doing, then we shall have to consider what is to be done. And if, in the last resort, the only way is to appeal to the people and ask them to pass judgment between us and the opposition, we are quite prepared and ready for it.

HEDGING
OLD MAN CANADA—Look here, Robert, I thought you wanted me to decide this reciprocity question as soon as possible.

FACES TRIAL ON CHARGE OF MURDER

STARVATION SPECIALIST TAKEN INTO CUSTODY
Dr. Lina Hazzard Says "Medical Trust" is Responsible for Trouble

Seattle, Wash., Aug. 7.—In a cheerful mood and repeating her declaration that her trial on the charge of murder in the first degree will result in her vindication and the confounding of what she calls "the medical trust," Dr. Lina Hazzard, who is held at Port Orchard on a charge of murdering Miss Claire Williamson, by starvation, directed her efforts yesterday to raising the \$10,000 necessary to secure her release.

She states she will have all the necessary bonds in the hands of county officials for approval to-day, after which she will return to Seattle. Dr. Hazzard communicated with Prosecuting Attorney Stevenson of Kitsap county, yesterday, saying that she wished to make a sworn statement. With a stenographer Mr. Stevenson went to the home of W. A. Breed, where Dr. Hazzard is in custody, but on arrival there Dr. Hazzard stated that after consulting with her attorney she changed her mind and the promised statement was not made. Dr. Hazzard has engaged G. W. Gregory, of the Seattle law firm of Karr and Gregory, as her counsel.

Mr. Gregory and Prosecuting Attorney Stevenson were in consultation this afternoon in the matter of the approval of Dr. Hazzard's bonds. One of the first bondsmen to offer security was John Karscher, a well-to-do rancher, one of the incorporators of the Hazzard sanitarium, who accompanied the head of that institution to Port Orchard on her arrest and has since been active in the work of getting bail.

Mrs. Breed, with whom Mrs. Hazzard is staying, is an officer of the court regularly deputized to care for female prisoners of the county. Her attorney, Mr. Gregory, cautioned her against making any further statements. Rollin Burfield, son of the accused woman, went to Port Orchard yesterday to assist in securing bail for his mother.

"The report that Dorothea Williamson was refused permission to see her sister, Claire, is utterly false," he declared. "Dorothea would often go into (Concluded on page 2.)"

LIBERALS MEET IN WARD ASSEMBLIES

Central Body Called for This Evening and City Meetings Arranged

The Liberals are well organized for the coming fight, the five ward organizations having got to work actively after their organization in the winter through the strong executives which were elected. This evening the Victoria Liberal Association, the central body for the city, meets in the Liberal rooms, Cormorant street, facing the city market and fire hall. Important business will be before the meeting and every member should see to it that he is present. To-morrow evening Wards Two and Four Associations will meet in the same place, Ward Five meets on Wednesday and Ward One on Thursday. Ward Three has already set the example by holding a rousing meeting last week.

At each of these meetings, all of which begin at eight o'clock, it is desirable that there shall be full attendance, as naturally there will be important matters to be discussed.

HARVESTERS FOR CANADIAN WEST

Over 9,000 Arrive at Winnipeg—Bound for Manitoba and Saskatchewan Farms

Winnipeg, Aug. 7.—Between 9,000 and 10,000 harvesters arrived here to-day on route for the Canadian west. The Great Northern brought in many Americans, the Canadian Northern a thousand from the east and the C. P. R. the rest. Most went to Manitoba and eastern Saskatchewan points. Five were arrested shortly after arrival here, four for carrying revolvers, and one for stealing a bicycle. The latter excused himself by saying he was short of cash.

DEATH TERMINATES SUIT
Ottawa, Aug. 7.—A tragic touch was given the separation case between Mr. and Mrs. George Pappillon in the Hull courts to-day, when the son appeared and said the case would be dropped, his father having been run over and killed.

LINING UP FOR THE ELECTIONS

CANDIDATES ARE BEING SELECTED

Three Members of Alberta House Resign to Enter the Federal Contest

Winnipeg, Aug. 7.—Three members of the Alberta legislature resigned on Saturday to run for the House of Commons, R. Bennett of Calgary; W. Buchanan, of Lethbridge, and Dr. Warnerich, of Pincher Creek. The former opposes reciprocity, and the two others favor it.

The Mormons, who are very strong in Lethbridge, decided at a public meeting to-day to come out strong for reciprocity. The first nomination made in Manitoba for the coming elections, took place Saturday at Morden, in one of the border constituencies. T. C. Morris, leader of the Manitoba Liberals, spoke on reciprocity. He described the opposition as consisting of prophecies and "superstitions." He was loudly cheered.

Twelve Liberals were nominated but all save Peter Wright of Myrtle, and Frank Greenway of Crystal City, withdrew their names. On voting Mr. Greenway was declared nominated. Port Arthur, Aug. 7.—J. J. Carry, M. P. P., has cabled from England his acceptance of the Conservative nomination for Rainy River and Thunder Bay and will probably be definitely chosen at the Convention on Saturday to oppose James Conmee. The Liberals have dispensed with the formality of nominating Conmee. Alexandria, Ont., Aug. 7.—Duncan McMartin of Montreal, former resident of Glengarry county, was unanimously chosen as candidate by Conservatives of the county. Dresden, Aug. 7.—East Kent Conservatives on Saturday nominated Harry J. French to oppose D. A. Gordon, M. P. Peterboro, Aug. 7.—Hon. J. R. Stratton has been unanimously renominated by West Peterboro Liberals. Montreal, Aug. 7.—The Labor forces of Montreal met in the Labor Temple (Concluded on page 2.)

TO-DAY'S BASEBALL

NORTHWESTERN LEAGUE
At Seattle—First inning: Portland, 0; Seattle, 1.
Second inning: No runs.
Batteries—Lamine and Moore; Sage and Whalen.

New York 6 10 0
Batteries—Sumner, Works and Stange; Caldwell and Sweeney.

TWO SCALDED TO DEATH

Petersburg, Va., Aug. 7.—The engineer and fireman of a freight train were scalded to death to-day, and two others were seriously injured when a passenger train on the Seaboard Air Line struck through an open switch and struck the freight train on a siding near here.

BRITISH CRUISER GOES ON ROCKS

GROUNDS WHILE ON WAY TO AID THE NIOBE

The Cornwall Floated at High Tide and is Towing Canadian Warship to Port

Halifax, Aug. 7.—The government steamer Lady Laurier and several wrecking vessels were hovering about the stranded British cruiser Cornwall off Cape Sable at high tide to-day, ready to haul the Cornwall off the ledge that the fighting ship encountered during the night.

The three hundred cadets and the three hundred regular officers and crew of the disabled cruiser were on deck ready to assist in the operations. Wireless despatches from the disabled cruiser stated that the Cornwall was going at a reduced speed when she struck, and that she is not leaking, and that there should be no difficulty in pulling her off the ledge.

The cruiser now is used as a training ship and was on her way from St. John's, N. F., to Clark's Harbor to tow the damaged Canadian cruiser Niobe to this port. The Cornwall struck on a ledge, only a few miles from where the Niobe went on the rocks July 30. The wrecking vessels that came to the Cornwall's assistance had been at work on the Niobe.

The Cornwall Floated.
Halifax, Aug. 7. (Later).—The British cruiser Cornwall, which ran on the ledge off Cape Sable two miles from where the Canadian warship Niobe struck, was floated at high tide early to-day and proceeded to Clark's Harbor, apparently undamaged. When the Cornwall reached Clark's Harbor, she took the damaged Niobe in tow and started for this port. The starboard engines of the Niobe are in excellent shape, but the port engines are disabled, making towing necessary.

Victoria Liberal Association
A special meeting will be held
TO-NIGHT
In the
Liberal Committee Rooms, Cormorant Street
AT 8 O'CLOCK SHARP
Every member of all Five Ward Executives is requested to attend.
JOSHUA KINGHAM, President.

CHILL READY TO PAY INDEMNITY

King George Allowed United States \$935,000 in Alsop Arbitration

New York, Aug. 7.—It is announced that the indemnity awarded to the United States in the Alsop claim, under the arbitral judgment of King George, will be paid by the Chilean government to the American ambassador in London next Wednesday.

Deposited Full Amount. Washington, D. C., Aug. 7.—A decidedly unique feature of the Alsop arbitration was the fact that the Chilean government, in advance of the decision of the arbitrator, King George, deposited in London the full amount of the American claims, amounting to \$1,500,000.

The arbitration treaty worked with unexpected smoothness and celerity, and although it was initiated less than a year ago, the decision was rendered July 12 last.

The arbitrator allowed the United States \$935,000 of the total claim, which appears to have been satisfactory to all the interests concerned.

The claim grew out of the nullification by the Chilean government of a concession granted the Peruvian government to an American, when the Chileans came into possession of the Peruvian provinces of Tacna and Arica.

LINING UP FOR

THE ELECTION

(Continued from page 1)

ple and Alphonse Verville was unanimously nominated as candidate for Malsonneuve.

G. R. Brunnett was also nominated Labor candidate for Stanstead.

Toronto, Aug. 7.—The Independent Labor Party has called a meeting of labor men for Friday next to consider the advisability of nominating a number of Labor candidates for the forthcoming election.

Ottawa, Aug. 7.—An extra of the official gazette was issued to-day providing for the preparation of the federal lists in Winnipeg and Brandon on August 10, 11 and 12.

ENTIRE STOCK OF PIANOS TO BE CLOSED OUT

SUCCESSFUL REGATTA AT SHAWNIGAN LAKE

Athletic Association Supplied Great Day's Sport at Sixth Annual Event

The Shawnigan Lake A. A. has reason to be proud of its sixth annual regatta, held at the lake on Saturday afternoon. There was an unusually large attendance from the city and the scene on the lake and in front of the Shawnigan Lake hotel and the S. L. A. A. clubhouse was a gay one all afternoon and evening.

The races started promptly at one o'clock and were run off with equal promptitude. The general committee, to whose excellent management is due much of the success of the day, consisted of: Chairman, F. T. Elford; vice-chairman, S. J. Heald; secretary, E. W. Blake, Shawnigan Lake; E. Skuce, secretary J. B. A. A.; W. H. Cullin, A. Peden, E. M. Walbank, V. K. Gray, D. O'Sullivan, T. G. Dundas, W. H. Wilkerson, J. B. Bamfield, W. R. Elford, H. E. Hawkins, T. A. Dundas, C. E. Morris, H. Bell, G. Taggart, D. R. Adams, G. S. Gibson, G. Koenig, S. W. Wheeler, E. M. Walbank, G. A. Chesko, H. Finlay, F. Hamilton, J. P. Sweeney, L. O. Hamilton, A. Wyde.

The land events were in the capable hands of the following: Judges, H. E. Hawkins, G. S. Gibson, G. Garnett; starters, F. C. Morris, T. A. Dundas, W. R. Elford; entry clerk, E. W. Blake.

The evening dance was held in Koenig's hall, E. M. Walbank acting as master of ceremonies and Miss Coltrane and Bantley's orchestra supplying the music. During the evening Mrs. Gordon Hunter graciously presented the prizes to the successful competitors.

The results were as below: Water Events. Sailing race (4-R-D challenge cup)—1, C. A. Armstrong's Mouren; 2, T. A. Dundas' Puffin.

Motor launch race (challenge cup, presented by Mrs. A. Koenig)—1, T. Stevenson; 2, B. Barron.

Sailing race (class B) for rowing boats only, challenge cup—1, Rev. Mr. Atkin; 2, N. A. D. Armstrong.

Single scull pleasure boats (local)—1, P. T. Barry; 2, G. Mayetich.

Ladies' single sculls pleasure boats—1, Miss May Hawkins; 2, Miss Phyllis Burrell.

Four-oared lapstreak race, for the "O" challenge cup—1, Shawnigan Lake A. A. (Geo. Koenig, stroke); 2, James Bay A. A. (W. A. Le Month, stroke).

Mixed double sculls (pleasure boats)—1, Miss May Hawkins and D. McGary; 2, Miss Josephine Margetisch and P. T. Barry.

200 yards open swimming race, breast stroke only—for gold and silver medals, 1, Harry Gardiner; 2, W. J. Smith.

100 yards swimming race (members of the S. L. A. A. only)—W. J. Smith; Harry Koenig.

Single scull pleasure boats (for girls under 18)—1, Miss May Hawkins; 2, Miss Josephine Margetisch.

Single sculls pleasure boats, (gentlemen)—1, P. T. Barry; 2, D. McGary.

Single sculls pleasure boats (for boys under 18)—1, Margetisch; 2, F. Palmer.

Four-oared lapstreak race (members of S. L. A. A. only) for the W. H. Wilkerson cup—1, George Koenig's crew; 2, F. Hamilton's crew.

Four-oared lapstreak race (J. B. A. A. gold medals final)—1, H. Skuce's crew; 2, Monk's crew.

Senior sculls (challenge cup final)—W. N. Kennedy beat P. Hay Currie.

Junior sculls (for those who have never run a race)—final, P. Hay Currie beat C. Peterson.

Land Events. One mile race (class A)—1, J. Sweeney; 2, E. H. Williams.

FACES TRIAL ON CHARGE OF MURDER

(Continued from page 1)

Claire's room, lie in bed with her, read to her frequently and brought flowers for her room. When my mother brought the two Williamson girls with her from Seattle, my father and I did not particularly approve of her action, as it has not been our custom to take patients into our own home, because there are cabins especially constructed for patients. As no cabins were available at the time they came, they were taken into our home while cabins were being built for them nearby.

"Claire said she had ruined her health in taking care of and worrying about her sister Dorothea. Even to the day she left the sanitarium Miss Dorothea expressed great belief in the treatment."

Until about a year ago Burfield was a stock company actor playing juvenile roles in Seattle. During the past year he has been engaged with his mother and father in building the Olympia sanitarium.

SEARCH FOR INCENDIARIES

San Bernardino, Cal., Aug. 7.—R. H. Charlton, supervisor of Angeles forest reserve, is making efforts to apprehend the men suspected of having caused the fires which have been raging in the mountain ranges near here for the past twelve days. Charlton is now able to spare some of his fire fighters for this purpose, as the flames have been almost subdued.

The big timber in the higher ranges escaped the flames. The burned brush area, however, will measure more than twenty-five square miles.

HIGHWAY ASSOCIATION.

A. E. Todd of Victoria Chosen As One of Vice-Presidents. Portland, Ore., Aug. 7.—Radical changes in organization were accomplished by the Pacific Highway Association's annual convention at the Commercial Club. Instead of working through individuals, as heretofore, the association will work through organizations enlisted in its membership and definitely pledged to promote the Pacific highway.

It was arranged that six vice-presidents be elected in addition to the president and secretary-treasurer, two from British Columbia, one each from Washington and Oregon and two from California. The organization was made permanent and the plan for the north and south tourist and scenic highway along the Pacific coast, from Canada to Mexico, will be prosecuted more vigorously than ever. Considered more vigorously than ever. Considered more vigorously than ever. Considered more vigorously than ever.

TEXT OF TREATIES OF ARBITRATION

MADE PUBLIC BY
UNITED STATES SENATE

Provision Made for Consulting Dominions When Their Interests Are Involved

Washington, D. C., Aug. 7.—The senate on Saturday adopted the rather unusual but not unprecedented course of making public the text of four treaties that have not yet received action at its hands. These were the Anglo-American and the Franco-American general arbitration treaties and the treaties providing for the adjustment of the finances and customs of Honduras and Nicaragua. Publicity was given to these important conventions at the request of the administration, which desires that the subject matter shall receive the fullest consideration by the press and the people in order to enlighten the senate as to the real sentiment of the country.

Each treaty provides that any dispute involving principles of law or equity shall be submitted to the permanent court of arbitration established at The Hague by the convention of October 18, 1907, or to some other arbitral tribunal as may be decided in each case by special agreement, which special agreement shall provide for the organization of such tribunal if necessary, define the scope of the powers of the arbitrators, the question of questions at issue, and settle the terms of reference and the procedure thereunder.

The provisions of articles 37 to 90 inclusive of the convention for the pacific settlement of international disputes concluded at the second peace conference at The Hague on the 18th October, 1907, so far as applicable, and unless they are inconsistent with or modified by the provisions of the special agreement to be concluded in each case, and excepting articles 53 and 54 of such convention, shall govern the arbitration proceedings to be taken under this treaty.

The special agreement in each case shall be made on the part of the United States by and with the advice and consent of the senate thereof. His Majesty's government reserving the right before concluding a special agreement in any matter affecting the interests of a self-governing dominion of the British Empire to obtain the concurrence therein of the government of that dominion. Such agreement shall be binding when confirmed by the two governments by an exchange.

Article II. The high contracting parties further agree to institute as occasion arises, and as hereinafter provided, a joint high commission of inquiry, to which, upon the request of either party, shall be referred for impartial and conscientious investigation of any controversy between the parties within the scope of Article I, before such controversy has been submitted to arbitration, and also any other controversy hereafter arising between them, even if they are not agreed that it falls within the scope of Article I; provided, however, that such reference may be postponed until the expiration of one year after the date of the formal request therefor, in order to afford an opportunity for diplomatic discussion and adjustment of the question in controversy, if either party desires such postponement.

"Whenever a question or matter of difference is referred to the joint commission of inquiry, as herein provided, each of the high contracting parties shall designate three of its nationals to act as members of the commission of inquiry for the purpose of such reference; and the commission may be otherwise constituted in any particular case by the terms of reference to be determined in each case by an exchange of notes.

"The provisions of Articles 9 to 36 inclusive, of the convention for the pacific settlement of international disputes concluded at The Hague on the 18th of October, 1907, so far as applicable, and unless they are inconsistent with the provisions of this treaty, or are modified by the terms of reference agreed upon in any particular case, shall govern the organization and procedure of the commission.

"Article III. The joint high commission of inquiry instituted in each case as provided for in Article II, is authorized to examine into and report upon the particular questions or matters referred to it, for the purpose of facilitating the solution of disputes by elucidating the facts, and to define the issues presented by such questions, and also to include in its report such recommendations and conclusions as may be appropriate.

"The reports of the commission shall not be regarded as decisions of the commission on the facts or on the law, and shall in no way have the character of an arbitral award.

"It is further agreed, however, that in cases in which the parties disagree as to whether or not a difference is subject to arbitration under Article I of this treaty, that question shall be submitted to the joint high commission of inquiry, and if all or but one of the members of the commission agree and report that such difference is within the scope of Article I, it shall be referred to arbitration in accordance with the provisions of this treaty.

"Article IV. The commission shall have power to administer oaths to witnesses and take evidence on oath wherever deemed necessary in any proceeding, or inquiry, or matter within its jurisdiction under this treaty; and the high contracting parties agree to adopt such legislation as may be appropriate and necessary to give the commission the powers above mentioned, and to provide for the issue of subpoenas and for compelling the attendance of witnesses in the proceedings before the commission.

"On the inquiry both sides must be heard, and each party is entitled to ap-

THINKING THEMES
BY DR. FRANK CRANE.

Everything depends upon the amount of your Vital Force. It is that which keeps you well; it is that which makes you recover when you are sick. It is Vital Force that makes one man succeed in business or politics, and the lack of it makes a man fail. It is that which goes by the various names of vim, pluck, go, vis viva, energy, vigor, personal magnetism, will power, tenacity, zeal, vitality, and the like.

Every man is a Works, a Locomotive, Soul and Body; and somewhere back of the whole machine, back of brain, and back of heart, and back of soul, away by the back fence, is the boiler-house, and inside of it a fire. That fire is it. Nobody knows how to build it, or control it. We make some guesses at it. We cannot get our hands on it, or poison. We can make it blaze up a few minutes by throwing in alcohol, but it dies lower afterwards. But when a man's turn comes to die, it is tragic to see all his money and friends and doctors and priests stand by help- less, watching the spark go out.

Sometimes we think we have found the secret. Good health, red blood, but doors, says one; but often a thin, anaemic woman will have more vim than a butcher. Another says religion and the cultivation of the soul; but the recipe is faulty; faith is good, but it does not always make the fire burn. Physicians have experimented with electricity, for that strange energy is curiously like the energy of the ego; but the results have not as yet been satisfactory; the position of electricity in medicine is still untried.

It is a mystery. It is Vril (see Bulwer Lytton's "Strange Story"). It is what the quack is feeling for when he makes passes with his hands and talks of "clairvoyance." It is what the doctor is feeling for when he gives you iron and tells you not to worry. It is health. It is genius. It is inspiration. It is courage. It is the inner triumph. I don't know what it is, but give it to me and you may have all the money in the world.

point an agent, whose duty it shall be to represent his government before the commission and to present to the commission, either personally, or through counsel retained for that purpose, such evidence and arguments as he may deem necessary and appropriate for the information of the commission.

"Article V. The commission shall meet whenever called upon to make an examination and report under the terms of this treaty, and the commission may fix such times and places for its meetings as may be necessary at all times at special call or direction of the two governments. Each commissioner, upon the first joint meeting of the commission, after his appointment shall, before proceeding with the work of the commission, subscribe a solemn declaration in outlining that he will faithfully and impartially perform the duties imposed upon him under this treaty and such declaration shall be entered on the records of the proceedings of the commission.

"Article VI. This treaty shall supersede the arbitration treaty concluded between the high contracting parties on April 4, 1908, but all agreements, awards, and proceedings under that treaty shall continue in force and effect, and this treaty shall not affect in any way the provisions of the treaty of January 11, 1909, relating to questions arising between the United States and the Dominion of Canada.

"Article VII. The present treaty shall be ratified by the President of the United States of America, by and with the advice and consent of the senate thereof and by His Britannic Majesty. The ratification shall be exchanged at Washington as soon as possible and the treaty shall take effect on the date of the exchange of ratifications. It shall thereafter remain in force continuously unless and until terminated by twenty-four months' written notice given by either high contracting party to the other.

"In faith whereof the respective parties have signed this in duplicate and have thereunto affixed their seals. Done at Washington, the Third Day of August, in the Year of our Lord One Thousand Nine Hundred and Eleven."

FEDERATION OF MINERS.

Battle, Mont., Aug. 7.—The sixteenth annual convention of the Western Federation of Miners was concluded on Saturday. Victor, Colo., was chosen as the convention city for 1912.

J. G. Williams, of Grass Valley, Cal., was elected as the fourth member of the delegation from the Western Federation of Miners to the next convention of the American Federation of Labor. The other three members of that delegation are C. H. Moyer, Jas. D. Cannon and C. E. Mahoney.

J. A. McKinnon, of Trail, B. C., and Edwin Young, of Great Falls, were chosen as the fraternal delegates to the next convention of the United Mine Workers of America.

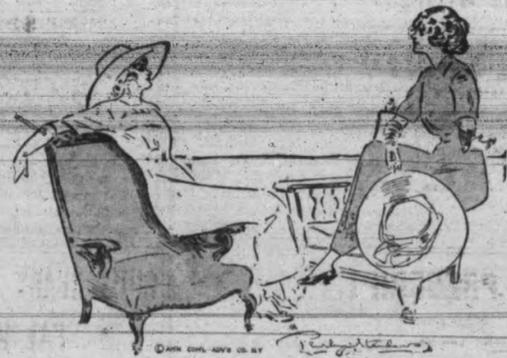

The convention went on record as condemning the military bill introduced at the last session of the Montana legislature and advised the members to vote against it when the referendum vote is called for.

Delegates J. C. Williams of Grass Valley, Calif., installed new officers and the convention adjourned.

WOMAN MURDERED.

Denver, Col., Aug. 7.—Scattered for a quarter of a mile along a lonely mountain gulch twelve miles north of here, the dismembered body of a woman was found Friday by a rancher, whose attention was first attracted by a woman's shoe, from which protruded the bones of the foot. There seems to be no doubt that the woman was murdered about a year ago.

NEW GOODS ARRIVING DAILY

Autumn Costumes and Coats

NEARLY every woman is discussing the values offered in our VERY EXCLUSIVE SHOWING of Suits and Coats for Autumn and Early Winter wear. Our Mantle Department has never presented a greater variety, so early in the season, for selection, nor more attractive styles, and never before have we been able to offer greater "value-giving" inducements. A purchase now will be an economical investment; you will be able to secure the best modes of the season at prices that represent "Campbell's better values."

HARBOR RAILWAY SCHEME SHELVED

Parks and Library By-laws Will Be Re-Submitted Along With Sooke Lake Scheme

Mayor Morley is said to have gained his point in connection with the Victoria harbor railway scheme. The project is "hanging fire" at present and there is no word yet of a renewal of the negotiations. Whether it is up to the city to act or whether it is up to the company to make the next move is a nice point, and one which neither of the parties concerned seem particularly keen on solving.

to let the matter rest until the government takes it up in connection with the terminal facilities at the reserve. Why the promoters of the scheme are remaining voiceless is something without the knowledge of the onlooker. It is hinted that perhaps the fact that the city does not intend to grant a passenger franchise along with the freight franchise, or perhaps the frigid reception which the proposition has now and then received at the hands of the council, has incited them to think that the proper time for the advocacy of such a railroad scheme is not yet.

The allotted time within which it was impossible to re-submit a by-law has now expired. The parks and library by-laws may be voted upon again at any time after the necessary number of signatures has been placed on the petitions. In view of this fact it has been decided to set the petitions for the measures in circulation so that it will be possible to have them voted upon along with the Sooke Lake water scheme by-law in September. It would, of course, be possible, now that the money guarantee is assured, to

have the parks and library by-laws voted upon earlier, but it is generally thought that it would be more advisable to hold them until such time as all three may be submitted to the people at one and the same time.

In regard to the library bylaw it may be said that its necessity has been more strenuously advocated by the existing condition of things during the past seven months of the year than by any words of complaint or warning. The appropriation as it stands at present has been sufficient to pay the salaries and nothing more. No new books have been added to the shelves and no internal alterations have been executed. To bring this institution into something like modern shape the bylaw in question is absolutely necessary, the library commissioners insist.

It is anticipated that the preliminary work in connection with the Sooke Lake scheme, upon which the settlements and the bylaw will be based, will be ready for the consideration of the council in about a month's time, so that the two defeated by-laws have not very long to wait for another joint with public sentiment.

CAMPAIGN FACTS.

While there is but a single issue before the people of Canada, that upon which the opposition has forced an appeal to the electorate, the members of the party led by Mr. Borden have already betrayed their fear of the result. The frantic and hysterical consternation into which they are plunged is apparent from the fact that no common plan of campaign seems to have been conceived. Each member is allowed to say what he likes or imagines on behalf of his party leader and the fact that contradictory appeals are being made to the electorate in the several provinces is considered inconsequential. Last week we were regaled with the interesting information that Hon. Frank Oliver and Hon. W. S. Fielding had come to blows in a quarrel over dissolution. It was represented that Mr. Oliver demanded that the House sit long enough to complete its investigation into the charges made against him by a renegade and disgruntled Liberal. Yet in Mr. Oliver's constituency and throughout the prairie provinces the opposition papers declared that the reason for the immediate dissolution was that the government was afraid to have the Oliver charges probed. Mr. Barnard brazenly reiterates this fabrication. It is impossible that both these statements can be true yet they are made with owl-like asseveration of truth and credulous Conservatives are asked to believe them.

In British Columbia the two leading opposition organs and their whole small fry following are representing that Sir Wilfrid Laurier has compounded a felony in the unsatisfactory naval policy of the government and its agreement with Great Britain. We are solemnly told that the policy is un-British and misrepresents the sentiment of the Canadian people. It appears to be perfectly satisfactory to the British government and the first rightful step that Canada has taken in the matter of sharing in the burdens of the defence of empire as well as relieving the Mother Country of the cost of coast patrolment.

We were informed in the Ottawa dispatches appearing in the local morning paper yesterday that while the Nationalists of Quebec are opposed to reciprocity—in fact Mr. Bourassa, the Nationalist leader, says he is well satisfied with it—the issue in that province is to be fought out on the naval policy of the government.

It is well known that the Nationalist party is unchangeably opposed to the expenditure of any money on a Canadian navy and utterly unreconciled to the establishment of naval forces of any kind. The protestations of their organ abound in anathemas of the government, particularly because the naval agreement provides that the Canadian navy must go to war when the Mother Country is involved. It is claimed by Mr. Bourassa that Sir Wilfrid Laurier is too British and that he has relinquished the autonomy of Canadian military affairs by binding himself too strongly to Great Britain.

Although these criticisms of the government—in provinces which have the continent between them—are absolutely contradictory and unqualifiedly antagonistic, Mr. Borden rejoices that both appeals are being made in his name and for the advantage of his party in the hope that Sir Wilfrid Laurier will be defeated. Mr. Barnard also conceives that "while there is no alliance between the Conservative party and the Nationalists, any seats gained by the latter will be lost to the Liberals." Mr. Barnard might as well have said "though we know the Nationalists are utterly at variance from us and what they say absolutely antagonizes and neutralizes what we are saying, we are absolutely dependent upon them for the defeat of the government and we are, in consequence, humoring them and adding fuel to their factional fires." Mr. McBride says that Quebec will be the storm centre of the election; the Colonist says "the province of Quebec must always be the uncertain element in Canadian politics; so let us all stand round the flames of faction and dissension and throw kerosene on the fires."

These are the methods adopted—for want of better—by the Conservative party, leader and followers, professedly to build up a sentiment in Canada that is loyal to the British empire. On the eastern side of the Ottawa river they are feeding the flames of empire disintegration and rejoicing in the fact that a few misguided French-Canadians are sowing seeds of discord among our fellow-subjects of Great Britain and on the western side of the Ottawa river as far as the Pacific ocean they are fostering and foment-

ing dissatisfaction with the only Canadian government that has ever taken a naval step in the right direction to uphold the hands of the Mother Country.

Mr. Barnard also, in his eager desire to shield his party from the responsibility for forcing an election says "early in March last Mr. Borden urged upon the government the expediency of census taking." Mr. Borden, when he did this had forgotten that he had himself helped to pass a law requiring that the census be taken every decennial year during the month of June, but Mr. Barnard evidently never knew that such a law existed. Both these politically covetous gentlemen appear desirous that the government should violate its own laws every little while to suit the convenience of the opposition. Drowning men are said to catch at straws and it appears that there are some who catch at things they only think are straws. Shadows are poor things to grasp at when the tide is strong and the waters engulf the fagged swimmer who is threatened with cramp.

Hon. W. S. Fielding made a sensible, fair and considerate suggestion when he offered the opposition the chance to pass reciprocity and try it for a year, finish up the business of the House and reopen the question a year hence. All attempts by the opposition to evade responsibility for adequate representation to the west must go down whether made by Mr. Barnard or Mr. Borden.

OTHER ISSUES.

Now that Mr. G. H. Barnard has announced his intention of contesting the next election he will become the cynosure of all eyes. The electors will be curious to know whether he intends to keep up the farce of pretending to be the friend of labor while maintaining in his domestic employment a number of Chinese.

The Salvation Army has as a valuable feature of its organization an employment and intelligence bureau for the purpose of assisting reliable and qualified domestics and others of the laboring classes of the United Kingdom to come to this country. Anyone in need of capable help in any unskilled capacity need only send to the Army bureau a description of the kind of work for which an employee, male or female, is needed and the Army will guarantee to fill the bill. In this way good places are found for immigrants and good immigrants for places. So successful has the Army been in this work that the provincial government makes an annual grant to assist it in carrying it on. So Mr. Barnard has the assistance of both the Salvation Army and his political friends. He can, without expense, avail himself of the most suitable help from the people of his own stock, blood and language. Yet Mr. Barnard prefers to employ Chinese both inside and outside his household.

We are quite aware that it is none of our business whom Mr. Barnard employs; that is his own business. If he can get cheaper service by employing Chinese we presume he ought to be left unmolested so long as the people understand that his protestations of loyalty to the cause of labor lead him only the length of his pocketbook. Under our British laws he is free to employ people who are aliens to the exclusion of those who are born as free as himself. Our curiosity is only to know whether he intends to keep up the farce of being the friend of labor. And, if he intends to do so, whether the laboring classes are inclined to accept his assistance.

If you want reciprocity get out and work for it. Those who do not want it are mighty busy.

Dan McGillicuddy is to go on the stump for the Conservatives.—Press Item. John Jardine, M.P.P., still to be heard from.

About the last public utterance of Sir John A. Macdonald was delivered at Napanee, Ontario, in which he declared for reciprocity in natural products and proclaimed he would die a British subject. His alleged disciples of 1911 are afraid of losing their loyalty should the country become prosperous under reciprocity.—Calgary Albertan.

Buying the necessities of life without customs imposts is a bad thing according to Tory logic, but the Conservatives of Calgary were the first to make a mad rush to Ottawa and plead for the removal of the duty on coal during the miners' strike. It appears the opposition has pockets and purse strings as well as the other people whose loyalty they traduce.

The Premier who is so lavishly quoted as saying the most prominent business men of England are opposed to reciprocity should have been kind enough to give us the names of a few of these. Generalities do not count. We in our turn unhesitatingly declare that the most prominent business men of England are in favor of reciprocity. Barring the names, which we omit for the sake of convenience, our statement is as authoritative as the Premier's.

Because we propose to buy where we can get the most for our money and sell where we can get the most for our products the Colonist says we

are un-British and in danger of our loyalty to our King and flag. When did a dollar or a thousand dollars or a million dollars' eye or sell a true Briton? Any man that tells you that his loyalty to British institutions and the traditions of free British people are for sale is a traitor of the deepest dye and deserves execration. Yet the Conservative press from ocean to ocean is insulting the intelligence of Canadian people by retelling these insulting suggestions. They prostitute the country that feeds and shelters them.

Unless you feel personal misgivings on the subject the thing to do with the disloyalty cry is to laugh at it. Leave it to those who are themselves so wobbly in their loyalty that they shiver at shadows. By this means the process of elimination will be carried far enough to show just who are the lip-loyalists. Bunch the bunch and then line them up and take a second look at them.

"No man," said Major Beattie on the floor of parliament on July 28, "is more loyal to the Union Jack than I am; and I want it always to float over Canada. I favor a British preference, but not at the expense of Canadian factories or Canadian workmen." And yet this is the brand of imperialism with which the Conservatives attack Sir Wilfrid Laurier when he favors Canadian autonomy. Sic!

The opposition press of Canada now print with approval editorial excerpts from American papers which advocate the adoption of reciprocity by Canada. This is paying a very high compliment to the Dominion. It shows that Canada is developing a national importance which can no longer be neglected or ignored. Our American neighbors show good sense in their endeavors to get on the good side of us. It should stimulate our national pride to feel that we are the cynosure of these gallant eyes. Every pretty, nice and courtly maiden likes to be admired but they say administration usually makes her the harder to win.

A contemporary says that enough potatoes can be grown on the Saanich peninsula to feed all British Columbia for many years to come. Perhaps true, but why are they not grown? Simply because the farmers can make more money at something else. In the meantime the workmen and other consumers must keep on paying a duty of 25 cents per sack to bring in the necessities of life. The Liberal government wants to abolish this and save the consumer's money to his pocket. Borden, McBride, Barnard, the Colonist and the Conservative party say "No!" So because the Saanich peninsula will grow potatoes we must go on paying one quarter more for them than is necessary.

Mr. G. H. Barnard, no longer F. T. M. P., says the opposition of which he is a member did not obstruct business at Ottawa. In proof of his somewhat remarkable assertion Mr. Barnard says there were no night sessions of parliament. We have looked over the issues of Hansard since parliament reassembled and find that on various occasions the House adjourned at 11:55 p.m., 11:30 p.m., 12:23 a.m., 12:40 a.m., 11:32 p.m., 11:31 p.m., 1:30 a.m., 12:10 a.m., 12 m., etc. In addition there were morning sessions. As parliament had been in session eight months, we think there is proof that the opposition did obstruct and that G. H. has told the people of this part of the world a mighty whopper. But that is nothing to what G. H. and his friends will essay before the campaign is over.

I will not increase the British preference. I will try to turn as much Canadian trade into British channels as I can, but I would not help to build a factory in Yorkshire at the expense of one in Canada. I will compel the Canadian consumer to buy his manufactured articles in his own protected country at a price that will enable the enriched manufacturer to build or buy mills costing millions of dollars in the United States, but I will not allow the Canadian farmer to sell his wheat to those mills even if they offer as good or better price than British offers. I will not allow the Canadian consumer to buy his food stuffs for less than the amount of the tariff than he now pays. All this because to do so would endanger the integrity of the British Empire.—Summary of Borden's platform.

To-morrow you will have the opportunity to make your choice from a large assortment of Mull and Lawn Dresses in white and dainty pale colors, at prices that represent from one-half to one-third of their regular value. This is our way of disposing of the balance of the summer stock, and in spite of the fact that the season is late you should find ample use for these beautiful dresses, especially when purchased at such a low figure. They come in a large assortment of tasteful designs, trimmed with beautiful embroideries, lace insertions, tucks, frills, etc., in all sizes. See window display. You must see the goods to realize the values we are offering. All to be cleared out at the two prices, \$6.75 and **\$2.50**

A Clean-up of High Grade Blouses Values to \$6.50 for \$2.90 Tuesday

See our View street window for a display of this lot of handsome waists. They come in a wide range of very choice and dainty styles, made of high grade mulls, etc., and trimmed with hand embroidery, embroidered net yokes, lace insertion, tucks, and fine lace. Long, three-quarter and short sleeves are included in this line. Regular values up to \$6.50. All to clear at, each **\$2.90**

A New Shipment of Fall Tweeds Just Opened

These are grey mixture in light and dark herringbone, fancy stripe check and diagonal effect, 44 in. wide. Per yard, **75¢**

200 YARDS SHEPHERD PLAIN SUITING, all wool, in six different size checks, 42 in. wide. Price **50¢**

200 YARDS NAVY BLUE SERGE, warranted fast dye, will not spot or cockle with salt water; 40 in. wide. Per yd., **60¢**

A clean up sale of dress patterns, 10 only, at exactly half price. REMNANTS OF DRESS GOODS at regardless of prices. Lengths to suit all purposes.

A good programme of sports has been prepared. The children's races will commence at three o'clock and the ladies and gentlemen's at seven in the evening.

The gang of thieves which has been at work in the neighborhood of the Gorge for a month or more is still carrying on operations there and on Friday night took about \$300 worth of the stock of Theodore Cost, who keeps the stand at the Gorge loop. The fact that such large and weighty articles as ice cream freezers were taken seems to indicate that an express wagon must have been used to remove the booty. Entrance had been gained to the stand by sawing through the lock. Residents and campers near the Gorge have been troubled for a long time. The police are doing their best to apprehend the culprit.

—The records of the Provincial Hospital for the insane for the month of July show that at the first of the month 48 males and 17 females were under treatment. During the month 19 male and seven female patients were admitted. Three patients were returned from probation, six discharged as cured and eleven released on probation. Six deaths occurred. There are fifty-four male and twenty-three female patients out of probation at present. At the end of July there were 461 male and 156 female patients in the institution, making the total of those under treatment 718.

CHILDREN'S REGATTA. Ian St. Clair Preparing for Popular Annual Event.

There will be a meeting next Friday of the committee in charge of the children's regatta when final arrangements will be made for the event, which is to be held on Saturday, Aug. 19, so as not to interfere with the senior gala to be held next Saturday. The J. B. A. A. medal for a single sculling rowing match for boys will be keenly contested. It practically is equivalent to a junior championship of Victoria in that line of activity.

One of the successes of the school of instruction in swimming this year has been the teaching of a boy to swim who has suffered from infantile paralysis. At first he was very deficient in muscular power and control. The physician who placed the case in Mr. St. Clair's hands is greatly pleased with the physical improvement resulting from the systematic and vigorous training.

To prevent a long wait Mr. St. Clair advises senior pupils to make note of the fact that second grade class work starts at 11:30; first grade as soon as that is completed.

The following cases were dealt with during the month of July by the justices of the S. P. C. A.: Horses, 16; chickens, 1; dogs, 1. One case was prosecuted in court.

The Ladies' Aid Society of Esquimalt Methodist church will meet on Tuesday evening at 8 o'clock at the parsonage, Admiral's road. Ladies of the congregation are heartily welcomed.

At the last regular meeting of Victoria Lodge, No. 84, I. O. G. T., the election and appointment of officers resulted as follows: Bro. J. A. Dewar, chief templar; Sister M. Jones, vice-templar; Bro. H. Bailey, financial secretary; Sister Mrs. Bailey, treasurer; Bro. R. Anderson, secretary; Sister Mrs. Anderson, assistant secretary; Bro. J. S. Bailey, chaplain; Bro. G. Switzer, marshal; Sister D. Stevenson, deputy marshal; Bro. W. G. Ross, guard; Bro. P. Matheson, sentinel; Sister M. Jones, superintendent of juvenile work.

Queen Alexandra Hive, No. 11, Ladies of the Maccabees of the World, desire to extend, through the Times, their appreciation and sincere thanks to Mr. and Mrs. Green, of the Poplars, for their very great kindness in giving to this hive the proceeds from Mr. Green's stand, which netted the ladies a tidy amount for their general fund. This offer was purely one of thoughtfulness on the part of Mr. Green, whose wife and two daughters are members of this hive.

On Saturday afternoon R. C. Horne, the boys' secretary of the local Y. M. C. A., and his charges, Lou Beckwith, Harry Hopkins, Marshall Henderson, J. Brown, Fred Durick and Aubrey Jones, returned from Paradise Valley, where they have been the guests of the Seattle association for the past two weeks. The great feature of the trip, which was in every way most pleasant one, was the sailing of Mt. Rainier. The ascent was begun on Thursday night at midnight, and the summit was reached at half-past ten the following morning. At three o'clock on Friday the scaling party returned to the camp at Paradise Valley. All the local boys, except Aubrey Jones and Fred Durick, made the climb.

PROPOSED YARD ON WATERFRONT

City Council Has Given Up All Idea of Locating "Dump" in Spring Ridge

That the affinity of to-day is not necessarily the affinity of a week hence is one of those horribly un sentimental truths which the sentimental mind cannot grasp, and consequently the sentimentalists and "cent-per-cent-mentalists" of the city of Victoria are wondering what has caused the estrangement between the city fathers and their love of the Spring Ridge district as a location for the proposed city pipe yard. Only a few short days ago the site surrounded by and including the Lion saloon was the only possible place in the city on which to place this beauty centre, but now that the purchase of the Lion saloon has been forcibly excommunicated from any such proposition not a word is heard of pursuing the idea as far as may be by expropriating the land adjoining.

This somewhat curious situation is giving rise to many a chuckle at the expense of the city council. Those who swore that the whole movement was an invidious attempt to buy out the saloon license and at the same time dump a disagreeable element into the heart of the residential community are laying the flattering unction to their souls that the evidence corroborates their expressed opinion. It is now fairly apparent that the council does not intend to pursue the idea of installing the pipe yard up town. All the negotiations that are at present proceeding in connection with this interesting matter deal with waterfront property, and it is possible that a site will be acquired shortly.

A stretch of low-lying property at the foot of Bridge street is recognized as possessing all the virtues necessary to such a yard. It belongs to J. A. Hayward, and the price for which he is reported to be willing to sell is \$35,000. This property, which extends to about four acres, is adjoined by another similar but smaller area belonging to another party, and with a possible view to purchasing the two lots the city purchasing agent has been instructed to take an option on the latter, which is about an acre and a half in size.

A. PHENOMENAL RECORD.

In the 41 years during which The Mutual Life of Canada has been in operation, not one dollar received from its policyholders has been lost out of the many millions invested for their security. Such a record is truly a phenomenal one, and it is a question if a parallel to it can be found in any other financial institution in the history of Canada.

Moreover, it costs policyholders in The Mutual Life of Canada only about half as much to look after their business as in the average of all Canadian companies, and being a purely mutual company, no part of its earnings is absorbed by stockholders. Every dollar is for the policyholder. For rates and particulars apply to R. L. Drury, Manager; or Fred M. McGregor, Special Agent, 918 Government street.

PASSING SHOW

Princess Theatre. James J. Corbett's three-act comedy, "College Chums," will hold the boards at the Princess theatre all this week. It has never before been produced at a popular-priced house, and has always been so successful in the large cities that the Princess management expect it to be received with great favor in Victoria.

A feature will be Miss Pinkie Mullally in her trouserette skirt, and when the ladies see how gracefully it is worn by Miss Mullally it is expected that a great deal of prejudice in regard to that particular skirt will be effaced.

Miss Margaret Doyle has made many friends the past week who will be anxious to see her in the emotional role of the landlady's pretty daughter. Arthur Cyril will be seen at his best in the light comedy part of a college chappie. "Happy Dave" Williams, as he is called in the East, will have the part of a big, awkward country booby, fresh from the farm. He will no doubt fill the bill, especially as to size.

The remainder of the company are cast to advantage—W. J. Van Dyke and George Sweatman as college boys, though they differ in heart and feelings; Byron Loucke as the cripple; Miss Ora Wolf, as an "eccentric" old maid, and Miggles, a city wail. "College Chums," with special scenery, will be given every evening at 8.50 (10c, 20c, 30c), with Wednesday and Saturday matinees (10c, 20c). Reserved seats will be sold during the day at Dehn & Hiscock's drug store, corner Broad and Yates streets.

Empress Theatre. The master of mystery, from the vaudeville standpoint, Albini, will open to-day at the Empress with his \$10,000 show of illusions, including the new feature, "Astra," which is said to be the mystery of the century. Albini is accompanied by Miss Beattie Allen and has a full equipment of puzzling stage effects with which to keep all guessing.

Supporting the leading act are Joe Cook, dancer, wire-walker and everything else, a ten-minute vaudeville show himself. There are Ward and Cullen, a couple of bright entertainers; Heeley and Meeley, two lucky traps, and Kaufman and Sautele, character vocalists and admirable instrumentalists. There are the Grandioso pictures and the orchestral music.

Majestic Theatre. "The New Dress," a biograph headliner, which will be included in the programme at the Majestic for to-day and to-morrow, depicts a young woman who is promised a new dress by her husband, but he, under the influence of wine, gives it to another woman, telling his wife he lost it. When she sees it on another woman she loses her mind, but recovers it later, when a little one comes to the house.

"Red Deer's Devotion," a western picture which has much merit. "A Mexican Romance," the story of a girl who pined away and failed to recover from an injury when her lover was forbidden the house. "A Coaching Trip in Devonshire, England," an attractive outdoor picture, giving a good idea of the type of scenery in Devonshire. "Helping Him Out," the story of an elopement and one of the best comedies presented in a long time.

Singer at the Gorge. A delightful addition has been made to the programme at the Gorge Park this week by the engagement of Madame Marie Burnett, a vocalist of high repute. Those who had the pleasure of hearing her yesterday, or a few months ago in the Victoria theatre, when she sang with the Vancouver Amateur Operatic Club in "The Mikado," will be pleased to learn that Manager Denham has been able to secure her services for the balance of the summer season, and that she will sing every evening at the Gorge park.

Madame Burnett was formerly a member of the Carl Rosa Opera Company, and has won high praise from critics in Great Britain. She has a rich mezzo-soprano voice of excellent quality, sympathetic, and of a considerable range. The charm of her voice appeals to all hearers.

The Gorge orchestra renders a choice programme every evening, an excellent series of moving pictures is shown, the dancing pavilion invites all lovers of the dance, and the many other attractions are in full swing.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 7.—5 a. m.—Low pressure areas cover the Pacific slope and the Middle West states and upper Mississippi valley, while the pressure is only comparatively high in Northern Alberta and Saskatchewan. Cloudy weather is general on the Coast, and heavy rains have fallen on the Lower Mainland, in the Kootenays and in Alberta and Montana. Temperatures are normal in most districts.

Forecasts.

For 24 hours ending 5 p. m. Tuesday. Victoria and vicinity—Moderate to fresh southerly winds, generally fair and moderately warm.

Lower Mainland—Light to moderate winds chiefly cloudy, with occasional showers.

Reports at 5 a. m. Victoria—Barometer, 29.85; temperature, 52; minimum, 52; wind, 4 miles S. W.; weather, clear.

Vancouver—Barometer, 29.99; temperature, 51; minimum, 54; wind, calm; rain, 26; weather, cloudy.

Kamloops—Barometer, 29.76; temperature, 54; minimum, 54; wind, 8 miles W.; rain, 74; weather, rain.

San Francisco—Barometer, 29.88; temperature, 62; minimum, 59; wind, 6 miles S. W.; weather, cloudy.

Edmonton—Barometer, 30.08; temperature, 61; minimum, 45; wind, 4 miles N. W.; rain, 61; weather, cloudy.

Winnipeg—Barometer, 29.97; temperature, 64; minimum, 60; wind, 4 miles N.; rain, 69; weather, cloudy.

Victoria Daily Weather. Observations taken 5 a. m., noon and 5 p. m., Saturday. Temperature. Highest 68. Lowest 52. Average 60. Bright sunshine, 7 hours 34 minutes. General state of weather, fair. Observations taken 5 a. m., noon and 5 p. m., Sunday: Highest 68. Lowest 54. Average 61. General state of weather, cloudy.

What Is More Important?

If you are entertaining, giving a dinner, a supper, or if you are hostess at any festive gathering, you will readily admit that it is a great relief to know that the TEA and COFFEE is going to be all right.

Our Tea and Coffee business has increased by leaps and bounds, in fact so rapid has the growth in this particular department been that we are continually wiring rush orders for further supplies.

But we don't have to seek for a reason for this wonderful expansion of business—we KNOW it is because we have found a RIPPING GOOD COFFEE; and a TEA that suits the SOFT WATERS OF THIS DISTRICT.

AND WE NEVER CHANGE THE QUALITY OR THE BLENDS

Ask for a sample of our Tea and Coffee, which will be gladly furnished free of charge.

For every time this happens, we know that it means new customers for

PORTLAND MAKES IT SEVEN STRAIGHT

Victoria Unlucky Last Week Seattle Climbs Into Third Place

Portland, Aug. 7.—Portland made it seven straight games yesterday by capturing the contest with Victoria. Jensen was almost invincible. Two hits in the fourth scored the visitors' only run. Portland's Thorsen out of the box in the first and he was replaced by McCreey, who pitched good ball, but was unlucky. The score:

Victoria		Portland	
A.B.R.	H.P.O.A.E.	A.B.R.	H.P.O.A.E.

VANCOUVER TWELVE HAD AN EASY TIME

Local Lacrosse Team Had Not Slightest Chance in Saturday's Game

The Vancouver amateur lacrosse twelve had not the slightest difficulty in defeating Victoria on Saturday. The score ended 6 to 2, but it might just as well have been a rout for all the chance the local had. Both the home team's scores were made in the last quarter, when the Terminal City stick-wielders, with a safe margin of six, smothered their pass considerably.

Before a good crowd of about five or six hundred people the teams lined up promptly at 4 o'clock. Throughout the first quarter the exhibition was very slow, Victoria playing a dull, listless game and the visitors seeming content to lie back and take the measure of their opponents before doing much attacking. Victoria had the most of the play, but the Vancouver home was more dangerous when it did attack.

The second session changed the aspect of affairs completely. The mainlanders took the offensive and the exhibition they gave during the second and third quarters, and also part of the fourth, made the locals look like rank outsiders. Anyone who saw both games between Vancouver and Victoria here, the one July 8 and that of Saturday, would have been justified in thinking the teams had changed uniforms for the time being. If anything the visitors made greater monkeys of the locals on Saturday than did the home team of the visitors on July 8. And that is going some, too.

Hardly had the trill of the whistle ceased in the second quarter, when the ball was flashed to Gunn, Vancouver's third home, and he shot, scoring the first goal. After that it was a runaway. The visitors speeded up, playing splendid lacrosse, far superior to anything they have done this season, while Victoria's representatives continued in their state of lethargy, with the result that before the opening of the final quarter the latter were hopelessly beaten.

Although it must be conceded that Vancouver's defence was exceptionally strong, there is not the slightest excuse for the local home's inability to break through except on a few widely-scattered occasions. The boys composing Victoria's home seemed to lack initiative, and when they did go in did it in a spiritless, padded manner that speedily brought them to a standstill. The disability of the home affected the defence, and, as a consequence, the latter's work was not up to its usual standard. Clute, Okell, McCarter and Sweeney were exceptions to the general conditions of rotteness, but even at that they were off-color.

At the beginning of the third quarter McDougall was replaced by McGregor, the former having shown himself absolutely incompetent to fill the position at inside home.

In the closing half of the final period Victoria got its two goals, McGregor netting one immediately after a face-off close to Vancouver's goal and Clute scoring one shortly afterwards.

As well as in many other ways Vancouver showed a marked improvement in its combination, the home, headed by Bobby Knight, at times giving exhibitions that would compare favorably with anything the professionals could do.

The game was exceptionally free from rough work, Frank Sweeney being the only one who suffered in any way at all. He was accidentally struck on the mouth, but after being carried to the dressing room and fixed up by the trainer took the field again in no way the worse for his encounter, with the exception of a rather heightened temper.

The teams were:

Vancouver—Goal, McGeer; point, F. Matheson; cover point, Burns; 1st defence, McQuig; 2nd defence, Donohue; 3rd defence, E. Matheson; centre, Fairbairn; 2nd home, Gunn; 2nd home, Knight; 1st home, Murray; outside home, Peacock; inside home, Wright.

Victoria—Goal, Johnson; point, F. Sweeney; cover point, J. Dakers; 1st defence, Stiles; 2nd defence, Okell; 3rd defence, Brynjolfsson; centre, McCarter; 3rd home, A. Cars; 2nd home, Johnson; 1st home, McDonald; outside home, Clute (capt.).

The summary:

1st quarter—No score.

2nd quarter—Gunn, Vancouver, 15 seconds; Matheson, Vancouver, 16 minutes.

3rd quarter—Murray, Vancouver, 24 minutes; Gunn, Vancouver, 16 minutes.

4th quarter—Knight, Vancouver, 5 minutes; Wright, Vancouver, 5 minutes; McGregor, Victoria, 2 minutes; Clute, Victoria, 2 minutes.

Penalties—Donohue, Vancouver, 5 minutes; 2nd quarter.

Alderman W. C. Moresby refereed.

Struck out—By McCreey: 5; by Jensen: 5. Bases on balls—Off McCreey: 1. Two base hits—Goodman, Speas, Pettigrew. Home run—Moore. Double play—Goodman to Kelly. Sacrifice hit—Casey. VICTORIAN FIRST IN THE HALF MILE EVENT

Large Crowd Attended First Half of Swimming Championships—The Results

A large crowd witnessed the first half of the swimming races for the championships of British Columbia at English Bay, Vancouver, on Saturday. Some of the contests were very exciting and one or two so close as to give the judges trouble in awarding a decision.

A. Victorian, A. W. E. Folle, won the feature event of the day, the half mile senior, over G. Y. Simpson, of the Vancouver Rowing Club, last year's champion, by 75 yards. L. K. Goffrey, of Victoria, was third. It is suspected that the time made was a record, but it is a mere suspicion and will never be proved to be a fact, for the stopwatch went out of order during the race. Other results were:

Diving championship—Leonard Ross, Vancouver, Y. M. C. A., first; L. H. Taylor, Vancouver, second; J. Cameron, Victoria, Y. M. C. A., third. There was only one point difference between each of the three.

Life saving championship—W. Kennedy and S. Lindsay, Vancouver, Y. M. C. A., first; Poirier and Long, Victoria, Y. M. C. A., last year's champion (team), second.

250-yard senior championship—H. A. McWatters, unattached, first; S. Warn, St. George's, Cumberland, second. Time, 32 2-5 seconds.

Hundred-yard junior championship—F. V. Henderson, Vancouver, Y. M. C. A., first; J. Cameron, Victoria, second. Time, 1 minute, 24 2-5 seconds.

Hundred-yard for boys under 16—J. Cameron, Victoria, Y. M. C. A., first; C. B. Bunbury, unattached, second. Time, 1:35 2-5.

Ladies' hundred-yard championship—Miss Dorothea Hey, Victoria, first; Miss Hilda Badman, Vancouver, second. Time, 2:08 4-5.

With a mass economy begins at home and ends at a downtown cafe.

Struck out—By McCreey: 5; by Jensen: 5. Bases on balls—Off McCreey: 1. Two base hits—Goodman, Speas, Pettigrew. Home run—Moore. Double play—Goodman to Kelly. Sacrifice hit—Casey. Stolen bases—Williams, Wild pitch—Jensen. Innings pitched—By Thorsen, 4-3; by McCreey, 8-2-3. Base hits—Off Thorsen, 4; off McCreey, 7. Time—1:30. Umpire—McCarthy.

QUICK SALES MEAN ROOM FOR OUR NEW GOODS

The Reductions We Have Made on These Quality Pieces Make Them Quick Sellers, And Why Not?

PAYING taxes is like buying many of the so-called bargains; you generally pay out a good deal of money for very meagre returns. As you all know, quality costs, but it's the surest guarantee and we would not be making these radical reductions on our quality furniture if it were not for the simple reason that we have to make room for the immense shipments arriving and the alterations to our furniture department. Quality is remembered long after the price is forgotten (even at our regular prices) so at these reduced prices you'll never notice the small amount you have to pay for these quality offerings that have built up this big store of ours

Chiffoniere for \$10

Golden finish, 5 drawers. Exceptional value at the reduced price of **\$10.00**. With British bevelled mirror in golden finish, with five drawers, the best in the city at this reduced price of **\$15**

\$50.00

Three Piece Mahogany Parlor Suite

Upholstered in attractive patterns. This is an exceptionally fine value. You will agree with us when you see the articles offered which are settee, arm chair, parlor chair. Reduced to **\$50.00**

Diningroom Extension Tables Reduced to \$9.00
6 FT. EXTENSION TABLES, 40 x 40, with five legs, golden finish. Great value at the reduced price of **\$9.00**
8 FT. EXTENSION TABLE, 45 in. top, golden finish, highly polished. Reduced to **\$12.50**

Morris Chair

\$15.00

Golden finish, with handsome green plush cushions on seat and back. This is solid comfort for **\$15.00**

Buffet for \$47.50

Solid quarter cut oak, Early English finish, top 22x48 British bevel mirror 9x40, two drawers at top and one below with two leaded glass doors to cupboard. A magnificent Buffet of exceptionally handsome design, with copper trimmings, at **\$47.50**

Enormous Reductions on Our Quality Carpets

A number of our best selling patterns of carpet with and without borders to match, quality, color and design of the best. We are putting on sale all patterns which are not being repeated for the coming season in order to make shelf room for our Fall stock. These goods are all up to Weiler standard of quality, substantial reductions are made in every case. This affords you an excellent opportunity of securing a beautiful and durable floor covering at an advantageous price. See our Government street window and our Carpet department.

See the Summer Furniture In Our Broughton Street Window

It's here, it's worthy; if it's worthy, it's here, and that is what you'll find in this great showing of summer furniture. We are displaying a few pieces in one of our Broughton street windows. These are talking advertisements for us. They are light in weight and light in price, but long in wear because they are all shellaced. Look everywhere—these are the best anywhere. There's a hot time ahead, so say our weather prophets, and we have arranged our stock accordingly. You'll be glad of these comforts as the days grow warmer.

SHELLACED RATTAN CONVERSION CHAIR	\$8.00	SHELLACED RATTAN FANCY RECEPTION CHAIR	\$4.00
SHELLACED RATTAN ARM CHAIR	\$7.00	SHELLACED RATTAN CHAIR	\$6.00

YUCATAN LOADING FREIGHT FOR NOME

On Expiration of Present Charter to Be Converted to Passenger Use on Coast

Seattle, Aug. 7.—Navigating under her own steam for the first time since February 16, 1910, when she struck an iceberg in the dense fog while passing through Icy Straits, the steamship Yucatan, which lay for months at the outer wharf, went to Seattle Saturday afternoon from Eagle Harbor to begin loading for Nome. Only those acquainted with her past could have told from the Yucatan's appearance that she once lay for three months beneath the northern waters. At the time she was wrecked the Yucatan was a passenger vessel, but she now is equipped for handling freight only. Her present owners, the North Pacific Navigation Company, of San Francisco, expect to fit her with passenger accommodations at the end of this season when her charter to Schubach & Hamilton expires.

The Yucatan will begin taking on 3,000 tons of general cargo for Nome and St. Michael, including the last freight of the season for the Merchants' Yukon fleet. She will steam north from here August 15.

The Yucatan's history has been a singular one. After being wrecked in Icy Straits she was raised May 22, 1910, and towed to Juneau two days later. June 7 she was towed to Victoria, where she lay looking more like a heap of scrap iron than anything else. Owing to a dispute over the question of insurance nothing was done with her for nearly a year, until she was sold to the North Pacific Navigation Company. This concern chartered her to Schubach & Hamilton, and the necessary repairs were made here and at Eagle Harbor, constituting one of the largest jobs of this nature ever undertaken on the Sound.

When her Schubach-Hamilton charter expires and she has been fitted with passenger accommodations, the Yucatan will be operated between San Francisco and Portland.

of call, and when she tied up at the new wharf at Port Alberni there was quite a crowd to see the ship. She discharged her freight, and will make another trip to Clayoquot before the steamer Tees goes on the run again.

The Princess Mary received orders Saturday afternoon to proceed to quarantine and take from there to Vancouver the Chinese who were quarantined from the R. M. S. Empress of India, their term of detention having been completed. Yesterday afternoon she brought those booked for Victoria in from quarantine.

The Mary leaves to-night for Alberni again, taking the place of the Tees for the second time, that boat being on the ways for repairs. Among her passengers to-night will be Duncan Ross, ex-M. P., who is paying the district a visit.

ADVANCED CHARTER RATES ARE EXPECTED

Lumber Shippers Snapping Up All Frisco Tonnage—Grain Movement Just Started

San Francisco, Cal., Aug. 7.—Only one charter was announced Saturday, the schooner James H. Bruce to load lumber at Eureka for San Pedro at 14.

Offshore business was inactive but not dull, as practically all idle vessels on the coast and in the immediate vicinity are being snapped up by the lumber shippers. In fact, it is commencing to look as though rates must soon show a marked advance, for the lumber movement is already taking care of all available tonnage and the grain movement is just commencing.

The Union oil tanker Trincolo left port Friday after a stay of five weeks in port repairing damages caused by a submerged rock in a Mexican harbor. Her sister ship, the Oberon, arrived from Balboa and will sail south again in a few days with oil.

The Kosmos liner Sakkarah arrived Saturday morning from Tacoma. She will finish loading and sail for Hamburg Sunday. The Pacific coast liner President arrived from San Diego and will proceed to the Sound to-morrow. The Norwegian steamer Henrik Ibsen of the Portland and Asiatic line, sailed for Portland Friday to finish discharging, after which she will go to the Sound.

The steamer Venture due here Wednesday from the coast will on this trip call for mails at Kitamaat and is not expected on time. This is her regular monthly call at Kitamaat. The vessel will bring down a large quantity of salmon when she comes south the heavy part of the season having begun.

MARY'S FIRST TRIP.
Fine New Boat on West Coast Route Much Admired.

The C. P. R. steamer Princess Mary, Capt. Gillam, returned from her first trip to Clayoquot land the west coast points shortly after noon Saturday, bringing many passengers and considerable freight.

The new steamer was much admired by the residents at the various points

RAILWAY OFFICIALS GO NORTH ON RUPERT

Operating Officers of Railway Commission to See Stewart and Rupert Conditions

Arriving from Prince Rupert with passengers and a small amount of freight, the G. T. P. steamer Prince Rupert, Capt. Barney Johnston, reached port yesterday and left the G. T. P. dock again this morning for the north with considerable freight and passengers for the northern towns. Among the passengers on the northern trip were George H. Pope, right-of-way agent for the G. T. P., who goes to Stewart in connection with the G. T. P. line now being constructed there; James Ogilvie, assistant chief operating officer of the board of railway commissioners, Ottawa; Edward C. Lalonde, operating officer of the board of railway commissioners. These gentlemen go north in connection with railway matters at Prince Rupert. It is estimated that the board of railway commissioners, Ottawa, is interested in the lumber, W. H. computer, a camera operator, H. Dorsett, J. W. Bryant, P. Neale were passengers.

W. H. Trewartha and Mrs. James and Harry Howson and Capt. John Irwin of Victoria were booked to Prince Rupert and English tourists were J. C. Chadwick, Mrs. W. computer, and Miss M. E. Chadwick, booked to Stewart.

The Prince Rupert brought from Vancouver to Victoria a quantity of plumbing supplies for the Canadian Fairbanks Company, and took north 30 tons of hay, 10 tons of wheat, a plaster, and 40 tons of general freight.

SIX OCEAN LINERS HERE DURING WEEK

Keemun Here; Monteagle, Protetislaus, Chicago Maru, Zealandia, Empress Due

It is very probable there will not be a day this week when there is not a large ocean liner tied up either discharging or loading at the outer wharf. The Osaka Kaisha Mexico Maru sailed for the Orient Saturday afternoon from the outer wharf with a large shipment of flour as part of her general cargo and carried a consignment of household goods, sewing machines, etc., for people in China and Japan, and a large shipment of binder twine for Vladivostok, valued at \$24,570. To the same destination was consigned over \$7,000 value of condensed milk. There was an automobile for Tientsin, and machinery and four for Japan and China.

The Blue Funnel liner is discharging 2,000 tons of freight at the outer wharf to-day and to-morrow the Monteagle is expected, having completed loading at Seattle and general freight on the Sound for the Orient and Liverpool.

Wednesday the S. S. K. Chicago Maru is due in from Oriental ports, having sailed July 25th, and the same day or Thursday at latest the big Blue Funnel liner Protetislaus, now loading on the Sound, will sail from here with a cargo of approximately 7,000 tons. Among the shipments in her holds will be 2,000,000 feet of lumber, 1,400 tons of flour, and 1,000 tons of copper. From here she will take a heavy shipment of whale oil.

Friday is the due date for the sailing of the Canadian Australian liner Zealandia and at the end of the week the Empress of Japan is due to arrive from Japan.

United States marine inspectors having heard at Seattle the witnesses in connection with the wreck of the Alaskan excursion steamer Spokane, wrecked in Seymour Narrows on June 28, on Saturday last, suspended the certificate of Capt. James E. Guptill, master of the vessel at the time of the wreck. The suspension is for 60 days. The marine inspectors, while suspending the captain's certificate, declare that he used excellent judgment in handling the ship after she struck, and in beaching her and in looking after the passengers. The reason given for the suspension is that the captain should not have taken the boat into the narrows when the tide was at its height, but should have waited for slack water.

Capt. W. H. Logan, special agent of the Loucon Salvage Company, who was present during the raising operations by the B. C. Salvage Company, gave an interview Friday at Seattle, praising the work of the divers and all employed in the raising of the Spokane. He tells of the events as follows:

"Great credit is indeed due to those men of the B. C. Salvage Company, divers, engineers, sailors, carpenters, linked to all hands, for the great work they did in raising the Spokane. It was no mean work. The steamer was under

MARINE NOTES

J. F. Goslin, formerly purser of Transfer barge No. 2, has been appointed to a similar office on the C. P. R. steamer City of Nanaimo, now engaged in the Gulf Islands trade.

By order in council in the Canada gazette, motor boats are prohibited from navigating the waters of Victoria Arm above Point Ellice bridge at a faster rate than six miles an hour, under a penalty of \$20 for each violation.

H. P. Franklin, vice-president of the White Star steamship line, who is touring the continent from New York, was in Victoria yesterday and expressed himself as seeing evidences of great growth in the Capital City. Accompanying him was T. H. Larke, general agent for the company at Seattle.

Saturday night at 8 o'clock the new steel barge built for the C. P. R. was launched from the B. C. Marine Railway ways successfully. The barge will be ready for commission in about ten days when it will be towed to Vancouver for service between there and Ladysmith.

The Blue Funnel boat Keemun returned to the outer wharf this morning to unload the Victoria freight consisting of 2,000 tons. From here she will go to Vancouver to unload 6,000 tons and then to Tacoma where she will load for the Orient and Liverpool. She is due to sail from Tacoma September 4th.

Admire a woman and she will admire your, good taste.

Even when they have nothing to do some fellows can't do it well.

Are little patches of itching on the skin, scalp or hands which are instantly relieved and speedily cured, in the majority of cases, by baths with CUTICURA SOAP and general anointings of CUTICURA OINTMENT, purest and sweetest of emollients.

ITCHING DIVLS

INCREASED TONNAGE AT THESE WHARVES

Coastwise Arrivals Show Advance of One-Fifth—Foreign Tonnage for Year

An increase of one-fifth is shown in the coastwise arrivals for 1911 as against the arrivals of 1910 and 1909, while an even greater increase is shown in the foreign shipping at this port. The development of the shipping here is held in shipping circles to be but the forerunner of the true development that will eventually when the Panama canal is open. Statistical returns for the past three years are as follows:

Year.	Arrivals.	Tonnage.
1911	3163	1,472,447
1910	2706	1,222,850
1909	2788	1,055,197

Year.	Departures.	Tonnage.
1911	3123	1,115,223
1910	2685	991,327
1909	2273	852,105

Year.	Foreign Arrivals.	Tonnage.
1911	1142	1,322,890
1910	995	1,235,584

Year.	Foreign Departures.	Tonnage.
1911	1107	1,159,851
1910	988	1,376,965

SUSPEND CERTIFICATE OF SPOKANE'S CAPTAIN

Capt. E. H. Logan Speaks of Work Done in Raising Vessel From Sea

The Spokane was wrecked in Seymour Narrows on June 28, on Saturday last, suspended the certificate of Capt. James E. Guptill, master of the vessel at the time of the wreck. The suspension is for 60 days. The marine inspectors, while suspending the captain's certificate, declare that he used excellent judgment in handling the ship after she struck, and in beaching her and in looking after the passengers. The reason given for the suspension is that the captain should not have taken the boat into the narrows when the tide was at its height, but should have waited for slack water.

Capt. W. H. Logan, special agent of the Loucon Salvage Company, who was present during the raising operations by the B. C. Salvage Company, gave an interview Friday at Seattle, praising the work of the divers and all employed in the raising of the Spokane. He tells of the events as follows:

"Great credit is indeed due to those men of the B. C. Salvage Company, divers, engineers, sailors, carpenters, linked to all hands, for the great work they did in raising the Spokane. It was no mean work. The steamer was under

water in Plummer bay, and it was a matter of fine calculation as to whether the decks would stand the weight of lifting her.

"The work therefore commenced with my drawings and calculations, and I found that with judicious handling and good shoring the decks would stand the weight. This simplified the proposition. We could leave the upper passenger decks open, but had to cover the main deck in, well. It was necessary to clear out all the openings and cover them, the light wells, saloon stairway, etc., had to be plank over, and the diving work in that connection was splendid. The under water operations were a tribute to the efficiency of the B. C. Salvage Company, and never in any of the many jobs with which I have been connected have I seen better work.

"It was necessary to put on a patch 24 feet by 8 feet over the underwater damage, and the divers did this well.

"The tide was favorable on August 23 when the steamer was raised, but would not have been good again for four months, and it was necessary to handle everything carefully. In fact we had to make sure of getting the steamer up with the tide, or wait about four months. She had to come with the tide, and she came.

"Exceptional precautions were taken. Six 10-inch pumps were judiciously placed, and a pontoon with a lift of 300 tons was placed alongside on the low side. Anchors were got with long steel wire hawsers, which came to the ship's masthead with their tackle, which gave a lift of 50 tons at the main deck. We had about 60 ballast logs slung on the vessel's side, and parbuckle wires, placed around the ship, secured to trees on the shore at a distance of 800 feet.

"We had been a month getting ready for that morning, and the whole force was ready and eager for the climax. The whole ship's company on the Salvor was out at 4 a. m., lined up ready for the whistle, and they were as disciplined as a force of soldiers; each man in his place, each knowing what was required of him, and ready to do it. I have never seen a salvage job handled better than the work done by the B. C. Salvage Company that morning.

"As the ship rose from the water the carpenters were ready alongside on the low side, and they nailed up every door and plank over the windows as she rose. The passengers' baggage was secured thus in the staterooms, and remained there without being handled until the Spokane was turned over to the Pacific Coast Steamship Company at Seattle, and the steamship company's crews went on board to handle the baggage."

water in Plummer bay, and it was a matter of fine calculation as to whether the decks would stand the weight of lifting her.

for some time will be held, the festivities starting promptly at 8:30 o'clock. The best of local talent as well as a few outsiders of exceptional ability have been secured for the occasion and some splendid bouts should be the result.

Joe Bayley, champion lightweight of B. C., is looking after the boxers and there is no doubt of their being in the best possible shape when they enter the ring. Joe himself will give an exhibition with Jim O'Donnell, a Seattle lightweight, who has done considerable fighting and has acquired quite a reputation on the coast. O'Donnell is now living in Victoria.

John P. Sweeney, of the Strathcona hotel, Shawnigan Lake, has been appointed official referee. Tickets may be secured at Collier's, Feder Bros or the Victoria Sporting Goods store.

SPORT NOTES

The Victoria lacrosse twelve is in the same position as the Westminster champions now; they have to win every game to get a chance at the silverware.

No games scheduled in the American League yesterday.

Saturday's eastern lacrosse results were: Tecumseh 12, Toronto 2; Nationals 5, Capitals 7; Shamrocks 0, Cornwall 4.

The title of champion in the open singles at the Quebec lawn tennis championships was won at Montreal on Saturday by Schwengers, of Victoria, the Canadian champion, who had an easy win over Guard, the Montreal player. In the opening doubles Schwengers and McRae, the other Victoria player, defeated McDougall and Guard, and so both titles went to the Pacific Coast.

The touring Corinthian Soccer team defeated an all-Ontario team Saturday by two to one. Most of the Ontario players were former residents of England or Scotland.

A Centralia, Wash. dispatch says: The directors of the Victoria club of the Northwestern League are negotiating with Centralia for the purchase of Pitcher Berger, the twirler who has made such a sensational record in the State League since joining the local club. The local directors wired their price to the Victoria manager at Portland Saturday morning. Berger has pitched three games since joining Centralia and has allowed a total of six hits in the three games.

The Minto cup now looks like a certainty for Vancouver. By decisively defeating the New Westminster champions on Saturday, winning by a score of 7 to 4, Vancouver annexed the eighth game of the league series of ten games, of which they have now won five to New Westminster's three. Even if the Royal City champions win the next two games, which seems unlikely after Saturday's exhibition, Vancouver would still be tie in the series, with a battle royal for that extra game.

CRICKET

RESULTS OF SATURDAY'S GAMES.

Vancouver C. C. 211, vs. Victoria, C. C., 313 for 7 wickets.

Strawberry Vale C. C. 70, vs. Esquimalt C. C. 96.

Albion C. C. 1st XI, 152 for 1 wicket, vs. Vancouver C. C. 378 for 4 wickets.

Saanich C. C. 109 for 15 wickets, vs. Albion 2nd XI, 46 for 9 wickets.

VANCOUVER VS. VICTORIA.

The sun shone brightly all day, being slightly tempered at times with a gentle breeze and slight chill. Before the game started some enthusiasts began arriving at the Jubilee hospital cricket field, and during the day over one hundred and fifty visitors came on foot, in traps, and automobiles. After the players had partaken of the midday luncheon a second table was spread for guests, many of whom were surprised and delighted to know the club made a practise of providing for outsiders.

Later on, pretty gowns, beautiful flowers, bright blazers, white flannels and the sombre business suits in and around the tea-pavilion, made a picture most pleasing to the eye. Meantime a test match, to the full meaning of the word test, was going on. Vancouver had not here full strength in batting, but in bowling it was expected, with the assistance of Askey, who has been doing extraordinary execution for the Garrison, their attack would be strengthened to offset the loss of run-getting talent. The game disclosed Victoria's potency with the willow which was pronounced; whereas her attack, fielding, and need of a stumper were of an inferior order. Gallither and S. Gillespie have been out of the game for some time but can get in form, with practice, before the tournament, but the fielding and wicket-keeping departments are not so easily remedied.

Victoria won the toss, sending in Pilkington and Martin. The latter batted from Payne's first ball. Pilkington from the second and Martin 2 from the third. From now on the stonewaller contented himself with holding up his wicket while Martin did the scoring, in fact, when Hodges took into camp at square leg a hard hit which disposed of Martin for a charitable 22. Pilkington had added but 2 runs to his credit, 31-1-32. M. Cane was not at home with the underhand bowler but was getting set when given out l. b. w., having played the ball first. Telegraph 53-2-74. The next batsman sent in for boundary hits. He failed to remember there are no boundaries on the horizontal plane, so his attempt skyward by returning to the bowler's hand caused his dismissal. Captain L. S. V. York started off on one of his record scores, playing the bowling with confidence from the start. Slowly the runs mounted up from 38 to 123, at which total Payne secured Pilkington's downfall. The retiring batsman had placed 27 to his account and

THOUSANDS IDLE
Leipic, Saxony, Aug. 7.—Ten thousand metal workers here and nine thousand in the Thuringian district were locked out Saturday because some of the men had struck. The National Organization of Employees have taken up the conflict with a view to a settlement, a failure to reach which will, it is expected, result in a lockout of 25,000 men at Dresden and Chemnitz.

CAT'S PAW RUBBER HEELS
During the month of March, 1911, a canvass of the rubber heel situation was made in eighteen cities, which showed 65% Cat's Paw Heels being sold against 35% of all other makes. This proves conclusively that the MERIT of the Cat's Paw Heel is winning out rapidly.

W. J. Taylor, K. C., is expected home shortly from the Old Country, where he

Herbert Macklin, of Simon Leiser & Co., Ltd., left the city yesterday afternoon on a short holiday visit to England, going by way of Montreal and Empress of Britain. Mr. Macklin is making the trip to England at the request of London capitalists, who are interested in the fishing industry of northern B. C. waters, more especially the Queen Charlotte district, and will return to Victoria, early in October by way of New York.

A pretty wedding took place on Wednesday in St. John's church, when Mr. Erny Jeeves, third son of Mr. and Mrs. Allan Jeeves, Ross street, was married to Miss Ada J. Casleton, youngest daughter of the late Mr. and Mrs. R. Casleton. Rev. A. J. Stanley Aird officiated. Mr. Frank Jeeves acted as best man and Mrs. R. Wood attended the bride. After the ceremony the bridal party drove to the home of Mrs. A. Sheather, 719 Princess avenue, sister of the bride. A reception was held and a dainty repast served. The rooms were decorated in pink and white.

As a token of their esteem and of the regret felt at his departure for Victoria the members of the Nelson Bar Association on Thursday afternoon presented H. C. Hall with a beautiful clock inscribed with the words, "Presented to Mr. and Mrs. H. C. Hall by the Nelson Bar Association, August, 1911." The presentation took place in the County court room of the government buildings, and was made by C. R. Hamilton, K. C. E. A. Crease, president of the association, was in the chair. Speeches complimentary to Mr. Hall's ability as a lawyer and of his qualities as a citizen were made by C. R. Hamilton, E. C. Wragge, R. S. Lennie, James O'Shea, W. B. Harris, T. M. Bowman, H. A. Stewart, Fred C. Moffatt and W. H. Bullock-Webster. Mr. Hall, who has been in Nelson for over five years, expressed his appreciation of the honor done to him and of his regret at leaving the city.

The presentation took place in the County court room of the government buildings, and was made by C. R. Hamilton, K. C. E. A. Crease, president of the association, was in the chair. Speeches complimentary to Mr. Hall's ability as a lawyer and of his qualities as a citizen were made by C. R. Hamilton, E. C. Wragge, R. S. Lennie, James O'Shea, W. B. Harris, T. M. Bowman, H. A. Stewart, Fred C. Moffatt and W. H. Bullock-Webster. Mr. Hall, who has been in Nelson for over five years, expressed his appreciation of the honor done to him and of his regret at leaving the city.

The Evening Chit-Chat

By Ruth Cameron

Several weeks ago I asked my regular friends to join with me in a discussion on "Class Distinction."

Almost everyone admits there is such a fact as class. But not everyone is satisfied with the vulgar notion that the possession of money is the proper class criterion. Therefore, I thought it would be interesting to find out what thinking people do make their class criterion; what qualities they consider place a man or woman in the "upper class."
Many interesting letters have come to me on this subject.
I expect that I cannot print a few "You ask your readers to give their opinions on class distinction. Why not attribute class distinction to nature? The good authority which says all people are born free and equal is true as far as birth goes, but nature soon shows they are far from being equal and while children are more truly democratic than their elders, class distinction is soon in evidence in all our schools without regard to wealth or poverty. So it is evident that nature is the true author of class distinction and the "upper class" is the class we all look up to whether wealthy or otherwise. Am I not right?"

"To my way of thinking the upper class consists of those who possess that innate refinement which cannot be fully acquired but must be born in one—that refinement which, by its very nature, makes itself felt at all times. The individual who acts the perfect gentleman or lady under all circumstances and to all fellow creatures, no matter what their station in life, belongs to this class. Success or wealth count for nothing unless accompanied by refinement and culture; but the latter could be overlooked if the former were there. Without this refinement the sesame to this class is hidden."

"In my country (Germany) are many classes, all fully recognized. However, I believe there is only one class that is recognized as the best all over the world, as it brings forth our best and greatest thinkers and creators, our most intelligent and diligent men and women. We call it the "educated," or better, the "refined (cultured) middle class." The people of that class are never too high, often very poor, and yet they will always be recognized, by the "highest" class as well as the lowest, as the class."

"In regard to who are the upper class, I would say that the upper class are those who are able to rise in the face of all obstacles from obscurity to fame by their own force of character. Someone has said that some people are born great, some have greatness thrust upon them and some become great on their own account. Then, I would say, according to this philosophy, that it is only those who are able to make themselves great, provided they become so honestly, who are entitled to classify themselves as belonging to the upper class. There have ever been class differences, upper, middle and lower, both in birth, fortune and intellect, and that difference will continue while human nature lasts, the immortal declaration of independence to the contrary notwithstanding."

Ruth Cameron

BLACK AND WHITE COAT SUIT.
Despite some of the early predictions that black and white would make way for more glaring colors, the combination is still holding its own in the world of good clothes.
A striking coat suit of white serge, shown above, has a broad band of black satin down front and back of plain narrow skirt. Collar, cuffs, and large buttons are also of satin, and the coat of the short-waisted variety is heavily braided in white soutache in manner illustrated. This is an extremely modish model for shore wear.

Smart Styles In Men's FALL FOOTWEAR

OUR latest shipment to hand discloses a very varied assortment of Autumn styles for men. THIS is one part of the dress question where most men take as much interest as the woman with her elaborate wardrobe. THESE new lines come in tan, black and patent button boots.

WOMEN'S HELP WANTED.
Sanitarium for Consumption Doing Good Work But Needs Money.

Since the opening of the sanitarium at Tranquille the results of the efforts to cure cases of tuberculosis have been very satisfactory, but it is still handicapped by the want of funds. Mrs. Fagan, wife of Dr. C. J. Fagan, secretary of the B. C. Anti-Tuberculosis Society, which acts as a kind of maintenance board for the sanitarium, issues an earnest appeal to the women of Victoria to assist by a small donation the efforts being put out in the province to combat this disease and to gratuitously treat, if necessary, any cases brought before them. If every woman would contribute \$1 it would mean a very great deal to the institution, says Mrs. Fagan. The president of the local society is Mrs. F. S. Barnard, vice-president, Mrs. Stuart Robertson; treasurer, Mrs. Munn, and secretary, Mrs. Carmichael, and the officers of the executive are Mrs. Mathews, Mrs. Wilkinson, Mrs. Colos and Mrs. Fagan.
A woman can say more in a look than a man can in a book.
The fellow who simply sits down and hopes for the best is hopeless.
Home Made Syrup
For one-half the cost it is made by dissolving White Sugar in Water and adding
MAPLEINE
the popular flavoring. It also flavors Fudge, Cakes, Frostings, Candies, etc. Grocers sell Mapleine. If not send 50 cents for 3 oz. bottle.

Green & Burdick Brothers

STREET RAILWAY STRIKE AT END

CAR TRAFFIC RESUMED AT DES MOINES

Organizer of Carmen's Union Orders Men to Obey Writ of Judge

Des Moines, Ia., Aug. 7.—Normal conditions existed in Des Moines today. With street car traffic resumed and every car in the entire system of the City Railway running on schedule time, there were no surface indications that there had been a strike. The first cars were taken from the barns early to-day and as the day wore on traffic resumed its wonted proportion. Late on Saturday night Judge Lawrence DeGraff issued a mandatory writ of injunction in the district court ordering the city railway and its employees to resume car service within a reasonable time. It is also ordered by the writ that Conductor Pratt shall be temporarily reinstated pending arbitration. Papers to carry out the provisions of the writ were issued for service upon President Leonard of the street car men's union and General Manager Harrison of the city railway. At midnight international organizer Fred Fry of the carmen's union announced that the strike of the Des Moines city railway employees was ended, so far as the union was concerned. He said the union would obey the mandate issued by Judge DeGraff. Riots, which at times threatened to prove serious, wild hunts for strike-breakers, assaults and broken heads, marked a day of intense excitement Saturday. The mob sought out the boarding house of the imported men and were with difficulty prevented from starting pitched battles. A mob, the worst of the day, surrounded the Iowa hotel during the afternoon and demanded that the strike-breakers under guard there be turned over to it. It was necessary to call out the fire department, and put it into action to disperse the mob.

Wounded in Fight—Crockett, Cal., Aug. 7.—Four men were shot, one receiving a wound which may prove fatal, and several others injured by bricks and stones in an encounter here last night, between former employees of the California-Hawaiian Sugar Refinery, who went on strike several weeks ago, and a number of non-union workmen, who arrived from San Francisco to begin work for the sugar company. On the arrival of the train the strike-breakers were encountered by union pickets and a heated controversy ensued, threatening to result in a fight, when Edward Becker, one of the new arrivals, drew his revolver and the shooting began. Officers were called to the scene and when peace had been restored it was found that John Cronin, a striker, had been shot through the stomach and probably would die; Eugene Crypt, a watchman at the refinery, had received several wounds, and F. Pritz, a striker; Eugene LaSalle, a non-union man, and Ed Becker, who it is alleged began the shooting, had been less seriously wounded. Becker was lodged in the local jail and will be taken to the county jail at Martinez. The wounded men are in the hospital here.

They need very great enlargement all over the system, and Mr. Painter is going to carry out most extensive additions. Mr. Swales considers it likely the company will erect a new hotel at Field, and that the hotel at Lagran will be largely developed. In regard to these extensions Mr. Painter stated to-day that they had already started work on an additional 100-room wing at Lake Louise, which is essential notwithstanding the fact that a 50-room extra wing had but recently been completed there. This will be ready for the opening of next year's season, and the company is also to build an entirely new power plant and laundry there. At Banff, where a 60-room addition to the hotel has just been completed, it is in contemplation to erect a further addition which will be on a large scale and will provide close on 100 more rooms. Glacier is to see a complete remodeling of the hotel and large extra accommodation is to be arranged. The Hotel Vancouver enlargements are to be started within the next two months. It is only a couple of months since the big new wing was completed on the southeast corner, and in the proposed frontal additions the architect will go to the full extent of the city limit, the arrangements being that the centre wing will be 200 feet in height. The work is hoped to be finished by the middle of next year, and 250 additional rooms will then be found for the accommodation of the public, whose requirements the hotel is still quite unable to adequately cope with. The cost of all these additions will run into a large sum of money. All these additions are in regard to the demands in British Columbia and west of Winnipeg only. For the use and convenience of Canadians going to the Old Country it is by no means unlikely that the C. P. R. will not, in the near future, build an hotel of its own in London. Mr. Painter went to Vancouver by the afternoon boat, and he and Mr. Swales will return to Montreal by way of Winnipeg. Many a married woman envies her cook because of her salary and evenings off.

C. P. R. PLANS FOR HOTELS IN WEST

(Continued from page 1)

LOSES HIS LIFE

Man Drowned While Trying to Save Girl.

San Diego, Cal., Aug. 7.—Cecil Karberg, a newspaper reporter, formerly of Spokane, was carried to sea by a huge billow and drowned at La Jolla while attempting to save the life of Dorothy McDrew, the 10-year-old daughter of the editor of the San Diego Sun. Inflated wings attached to the

AUTO DRIVERS HAVE NARROW ESCAPE

One Big Machine Bursts Into Flame, While Another Plunges Into Sea

Newport, R. I., Aug. 7.—In a furious automobile race, in which they had sought to work their motors up to 110 miles an hour pace and had nearly succeeded, Vincent Astor, son of John Jacob Astor, and 17-year-old Herman Oelrichs, heir to the Oelrichs millions, both suffered accidents as they dashed along the beach. Young Oelrichs' car burst into flames and he narrowly escaped being burned to death. As the crowd cried in horror, young Oelrichs leaped through the flames unhurt. Young Astor's car was seen to skid

Imperfect Kidney Action Causes Rheumatism

Rheumatism with its kindred ailments—Lumbago, Wry Neck, Neuralgia, etc., usually results from lodgments of uric acid in the joints and muscles. Now the chief function of the kidneys is to properly filter this poison from the blood. Only when they fail to do this is Rheumatism probable. Kidney weakness starts in various ways. A sudden chill, after perspiring freely, sometimes settles in the kidneys—or an unusual strain may cause it. Poisons which should be filtered out of the system are pumped back into the blood, causing Uric Acid, the real cause of Rheumatism, Lumbago, Wry Neck, Neuralgia, etc. In the early stages Nyal's Stone Root Compound will stop it. Will start your kidneys working properly so that the Uric Acid is reabsorbed and eliminated. Away goes your Rheumatism with it. Perhaps these early warning twinges have passed unheeded, and your Rheumatism has become deep-seated. Muscles all snarled up in knots as it were. Then you'll need Nyal's Rheumatic Cure. Ask your own druggist about these remedies. His opinion is worth while. Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Elmcock, F. W. Fyfe, Messrs. Hall & Co., W. Jackson & Co., F. J. Williams, Victoria.

TWO DROWNED

Kenora, Ont., Aug. 7.—Victoria D. Webster, formerly of Aurora, Ont., and T. A. Proctor, were drowned by the upsetting of a canoe near Devil's Gap.

PISTOL FIGHT IN STREET IN VANCOUVER

One Man Dead and Another in Hospital—Police Searching for Murderer

Vancouver, Aug. 7.—Romeo Rosco is dead. Antonio Monotto is in the hospital suffering from a slight bullet wound in his neck and the police are searching for an unknown Italian, who did the shooting last night on Harris street. The gun fight took place on the street, the dead man and his wounded companion returning the fire of the murderer. Rosco died just as he reached the hospital. The police were unable to secure any statement from his which would aid them in running down the murderer. Monotto is uncommunicative and police believe the shooting is either the outcome of an Italian vendetta or the result of a drunken carousal.

ALLEGED SPY ARRESTED

Bremen, Germany, Aug. 7.—An Englishman, said to be an officer in the British yeomanry, was arrested here to-day, accused of spying on the German fortifications on the North Sea coast. The prisoner, whose name has not been learned, has been admitted to bail.

FOR THE DINING ROOM

"Your Profit 50 Per Cent August 17"

The proposition as presented to you is a simple one.

You buy to-day at 50c what you are guaranteed beyond a shadow of a doubt will be worth and sell for 75c on the morning of Aug. 17—50 per cent profit.

Briefly the offer is: A limited number of shares are available in The British Pacific Coal Company, Ltd., at 50c a share—it is the close of the 50c issue.

Trustee T. R. Morrow absolutely guarantees that the new price will be 75c or \$1—at least 75c a share—at the new price the next issue will be on the market on the morning of August 17.

Therefore, those who buy to-day at 50c until the advance in price, have a holding on Aug. 17 worth 75c.

To hold 100 shares your profit is \$25 till the advance in price.

Remember, these shares have a par value of \$1 each.

You can buy 100 shares for \$10 cash, the remainder of the purchase price is spread over a period of three months—it is so easy that anybody can own 100 shares in The British Pacific Coal Company, Ltd.

What is Behind the British Pacific Coal Company

Area of property: 8,320 acres of coal land. Location of property: On Skidegate Inlet, Graham Island, 80 miles from Prince Rupert City by boat. Coal in the property: There are six seams. One seam measures 36,000,000 of tons, according to Engineer Alexander Faulds' report, which is in inspection at the office of the company.

Quality of the Coal: The coal is anthracite—identical with the coal from the famous Pennsylvania coal-fields which is almost as hard as rock—carries 83 per cent fixed carbon, or from 35 per cent to 50 per cent more fixed carbon—heat values—than the coal from the Vancouver Island coal mines.

By heat values or fixed carbon is meant the energy in coal to produce heat.

A coal carrying 80 per cent fixed carbon will burn twice as long and give twice as much heat as coal carrying 40 per cent fixed carbon. The coal from Vancouver Island is bituminous.

This is the coal that is universally used throughout the province.

The British Pacific Coal Company control the only workable area of anthracite coal in the western portion of the continent. Being anthracite coal carrying twice the heat values of the ordinary bituminous coal and costing no more to mine or to lay down at the consumer's door than bituminous coal, practically gives The British Pacific Coal Company the control of the fuel markets of the Pacific Coast, since the mines of The British Pacific Coal Company are available to all ships on the Pacific Coast—the property fronting as it does on salt water, Skidegate Inlet—one of the finest harbors on the Pacific Coast.

You need not go far back into history to understand the fortunes that have been made from a few dollars invested in coal lands and in coal mining propositions in Canada and the United States.

Take, for instance, the millions that have been made in Vancouver Island the past 20 years from the operations of coal properties.

It is common talk of the multi-millionaires who have realized their wealth from operating coal mines very close to Victoria.

The British Pacific Coal Company having anthracite coal will have no trouble in marketing its output at a good price and at a good profit.

You investor, make no mistake by buying the shares at 50c—one-half the par value—since you can take double the amount of stock you intend to hold permanently, and you may sell out part of the same when the stock is selling at par value a few months hence, thus it will cost you nothing to hold the balance.

The stock will naturally be more active when it is selling at par than at the present price of 50c.

All shares are fully paid-up and non-assessable.

Remember, the closing out date of 50c stock is the evening of the 16th August. Positively no application received by the Trustee after that date at 50c a share.

In making your applications remit \$10 for each 100 shares—the remainder of the price is spread over a period of three months.

Address your applications and make your cheque or money order payable to the order of T. R. Morrow, Trustee.

When all cash accompanies application, your Certificate is issued at once.

The office of the Trustee is Situated at 604 Broughton Street, Victoria, B.C., and is open from 9 a. m. to 9 p. m. Saturday evening open to 10 p. m.

1434 Government Street. Phone 2880.

To the Editor:—In answer to letter of "Outcast" in your issue of last night, the writer asks why some of the taxes are not spent in Victoria West. We in James Bay could ask the same question, which can be answered by asking those old-time kickers why they did not ask for local improvements, in which case the city engineer would not have to have made into "Outcast" sidewalk. If he has been paying taxes for over ten years it is time he got busy and set to work to get improvement petition signed, and incidentally raise the value of his property. As regards Pandora avenue, the improvement of this thoroughfare will do Victoria West as much good as it will James Bay, and I am not aware that they will contribute more toward it. Any improvement does us all good, so, Mr. Editor, let us stop kicking, and if we want good roads and sidewalks do not ask the city to waste money in patching jobs, but petition and get the job done. With good roads "Outcast" will not miss the water wagon of the city carpenter's nails. JAMES BAY.

AT THE HEEL OF THE HUNT.

To the Editor:—The evening paper speaks of red herrings being drawn across the orbit of vision. Ordinarily the metaphorical red herring has been supposed to affect the nose. Good for the Colonist, and other persons who have not ridden to hounds, and call them "dogs." I am sorry to spoil the joke by pointing out that contemporary is decidedly not a sportsman. Heavens! Only imagine such a personification of the Colonist appearing at a meet of the Galway Blazers (fully under the impression they were waiting for him before putting the "dogs" into cover), and from force of habit issuing general instructions to the master of the "Blazers." The Colonist has yet to learn there are other conular parts of a "hunt" besides hounds, that are guided by "vision" only. Master, huntsman and whip, who play an important part in management of the pack that follows the new, bright light, across the red herring when "drawn across the orbit of human vision," to which the Times referred.

Therefore the "joke" falls flat on that editorial page of course, partly, because an ordinary fib becomes "perjury" by contrast, in the opinion of your contemporary. AN OLD "BLAZER."

A CASE CLEARLY STATED.

To the Editor:—May I take the liberty of asking you to publish this letter dealing with the question occupying the minds of Canadian people so much at the present time: the reciprocity agreement with the United States.

It appears to me that in discussing this agreement too much prominence is given to the financial and political standpoint, and the real issue as to whether it is a wise move in the interests of Canada as a whole is lost sight of. It would seem well, I think, to look at the question from the view point of the Imperial and the other the Canadian.

Those opposed to the agreement take the position that it is against the best interests of the principles and ideals of Imperial unity, and are on this ground, ceaseless in their opposition. They assert that the agreement must inevitably lead to the breaking up of the unity of the Empire.

Let us analyze this statement. To do this it becomes important to examine the situation from the point of view of the Mother Country. In Great Britain the fiscal policy operation is free trade. My statement based on this fact is that so long as England continues this fiscal policy so long will it be absolutely impossible to have Imperial unity in fiscal matters. Assuming, of course, Imperial unity and fiscal policies have any relation to each other. It may be asked why? The statement of the proposition, it would appear to the writer, is the answer to the question. How can Great Britain hope for Imperial unity in fiscal matters unless she changes her own fiscal policy? I do not admit for a moment that Imperial unity necessarily involves unity of fiscal policy, but if Conservatives really believe that it does they must admit that either the colonies must at once adopt free trade or Great Britain adopt protection. As to Great Britain adopting protection surely that proposition is a hopeless one, in view of the state of public opinion in that country.

If the charge made that the agreement will prejudice Imperial unity be true, the responsibility is not to be laid upon the government of Canada, but rather upon the national policy of Canada, which does not happen to be in union with the free-trade policy of England. This effect all goes to show how erroneous it is to believe that fiscal matters have anything to do with Imperial unity.

Now, let us look at the agreement from a Canadian standpoint and see whether or not the agreement is a wise one and in her best interests. Great Britain carries on business with the world as a whole under a policy of free trade, and I give a few figures as to her trade:

England's Customers, 1902.

These figures are most interesting and it will be noticed that Canada occupies the undesirable position of eighth both as to imports and exports, and Great Britain's best customer is the United States. Now if England finds it a good proposition to have the United States her best customer surely Canada is not in error if she tries to increase her trade with that country. If Great Britain finds it pays to put her colonial trade, as the figures show, almost at the bottom of the list, Canada cannot be wrong in trying to extend her fields of activity. No Conservative will dare to say England is impeding the unity of the Empire, yet if Canada, by her agreement with the United States, is doing so, as they say, she is, they must, on behalf of those figures, come to the conclusion that England herself is the greatest hindrance to unity of the Empire, which of course is not true, and is a further argument proving how

fallacious it is to mix-up fiscal matters with Imperial unity.
If England, with the Atlantic ocean between it and this continent, can have the United States as its best customer, surely it follows with immense force that Canada, being part and parcel of this continent, would be in her duty if she did not do all that is possible to cultivate reciprocal trade relations with the one hundred millions of people divided only from her by a boundary line.
To my mind the argument that unity of the Empire is in danger if the agreement becomes law is absolutely unsound.
E. M. N. WOODS.
Vancouver, B. C., August 4, 1911.

FOR SKIN DISEASES

A Treatment That Costs Nothing Unless It Provides Satisfaction.
We have a grayish-white ointment with a pleasant odor that is clean to use, which we believe is the best known remedy for the relief of skin diseases. It is especially efficacious for over-crowding eczema in all its various forms, ringworm, acne, pimples, blotches, insect bites, tetter, certain forms of ulcers, sores and wounds. It is strongly antiseptic, cleansing, soothing and healing. It stops all itching and burning caused by skin eruptions.

We are so positive this ointment is unequalled that we offer it with the distinct understanding that if after having given it a reasonable trial, you are not satisfied with the results, you have only to tell us and we will, without quibbling, return every cent paid us for it. We exact no promises or obligations whatever.

We want you to try Rexall Eczema Ointment. The first application gives a refreshing sense of relief, and because of its germ destroying power, it eradicates the germ or parasite which causes eczema and many other eruptions. It quickly allays the inflammation, gives protection to the inflamed surface, and helps restore healthy tissue. It is particularly active in relieving skin ailments peculiar to children. You certainly cannot lose anything by trying it. We would not dare make this offer except we are positive Rexall Eczema Ointment will satisfactorily benefit you. Two sizes, 50c and \$1. Remember, you can only obtain it at our store—the Rexall store, D. Campbell, corner Fort and Douglas streets.

Strawberry Vale

5 Minutes Walk From Car Line

RANCH

5 Minutes Walk from Car Line

7 1-2 ACRES
4-Room House
\$4,500

1-3 Cash. Balance 1, 2 and 3 Years

This property is situated in Strawberry Vale on the Wilkerson Road, about five minutes' walk from the Saanich car line where the power poles are already erected.

The plot contains 7 1/2 acres and is nearly square, thus ensuring an easy subdivision to the purchaser who wishes to sell a part of it. The front portion is a beautiful slope of ground with a splendid grove of evergreens and immediately at the rear of the grove is a level spot for building. The rear portion is almost free from rock and is at present under cultivation. Over six acres of this property may be cultivated, while the balance shows outcroppings of rock. The house is worth about \$600 and poultry houses, fenced runs, etc., are worth about \$150.

The plot across the road without anything like as good a view to be obtained from it, and not nearly so desirable for a home, sold for \$1,000 per acre.

The owner has previously refused the price asked, but on account of sickness is now obliged to sell.

This acreage at \$600 per acre is a positive snap.

SENSATIONS OF AN AEROPLANIST

Winner of Paris-Rome-London Race Tells How It Feels to Fly

Lieutenant Conneau (Andre Beaumont), officer of the French navy, winner of the Paris-Rome-London circuit of Europe air races, and the first competitor to leave Brooklands in the great race for the London Daily Mail \$50,000 prize, writing in that paper says:

On my return from my two great voyages by air—the Paris to Rome race and the circuit of Europe—I endeavor to set down the bird-man's sensations during a great cross-country flying race. It is difficult enough in all conscience to discern and analyse one's own emotions, and especially to define them with requisite correctness, even when these are emotions which other men have already known and experienced. But here in a domain which is totally new to humanity, both for the spectator who observes the flight of man from below and for the airman who to-day is beginning to try his wings, there is something almost audacious in seeking to lay bare a state of mind which is still unexpressed, a mentality not yet conscious of itself. But since I must be thus daring I will try to penetrate for the first time the mysterious grotto where the bird-men jealously hide their emotions, their anguish, and their joy.

First of all, then, let me remark, people must remember that we who fly are men like the rest. Therefore the sensations we have in accomplishing this almost superhuman feat are profound and intense, and it is even by reason of the depth and intensity of these sensations that we are often incapable of understanding them. In point of fact I know more than one airman whose eyes, before he is pushed to cover a hundred miles in full flight than to face an interview on this delicate subject.

I gather up all my courage, then; I spring into my monoplane; I switch on the contact; the propeller flies round dizzily; I give the signal, metaphorically, to let go, and, with the map of Europe before my eyes, I rise into the air in search of my impressions, scattered over the route between Rome, Paris, Utrecht, Brussels, and London. For our impressions have wings, too, and I shall need all the speed and suppleness of my machine to grasp them in their flight.

Here are three of them already on my road through the air, always the same, familiar to all airmen, varying in intensity according to the day, the weather, or one's state of mind—they are the anxiety at the start, the enthusiasm and the ardour of the contest, the manifold emotions of full flight, and, finally, the immense joy, the involuntary cry of victory at the finish.

Just look at airmen when they are about to go up. They do not speak, or hardly at all; their attention is absorbed by the minute examination of the machine to which they are about to trust their fate; they go over everything in silence—the state of the wings, the levers controlling the rudder, the elevating plane, and the warping; the condition of the motor, above all things, this metal heart which gives life to the frail framework of wood, canvas, and steel. This is not the moment, my dear young ladies in search of autographs, to ask the airman to sign picture post-cards!

Then there is the scrupulous toilette while the airman dons the ungraceful panoply of the most graceful of sports, the paper gloves and socks to ward off the cold, the overalls, the Balacava helmet, the goggles, the woollen comforter—in short, the bizarre get-up which, on the appearance of a Martini or a man in the moon, as they are described in books. Next the compass and the map have to be attentively examined. Does the map run all right on its rollers? And so on—a host of other little technical details into which I need not enter here.

At last the pitiless hour has arrived. Everything is ready. It is time to start. Amid the deafening roar of the motor the aeroplane snatches itself out of the hands of the men holding it back and hurtles along the ground. Then it hops and the aeroplane dashes to its ascent from the earth are succeeded by a soft, gliding sensation which defies definition; the anxiety and anguish of the start have vanished, to make room for a feeling of repose, of absolute solitude. The man has disappeared; he is now a bird!

He rises but he has not the impression of rising. As in balloon ascents, one has the impression that the earth is sinking beneath one. People seen far below look like very mobile little black points, then only groups can be seen, then one is only conscious of the black mass of the spectators. Everything blends together and dwindles away. Houses look like dice thrown on a billiard table, the largest cities seem like Lilliputian towns, the bas-relief melts away, roads, rivers and railways appear to wind their way in a child's model landscape toy. Only the sea and lofty mountains are spared in this wholesale diminution, and they always impose on the airman respectful admiration mixed with a very lively sentiment of fear.

Intoxicated by the sight, the airman mounts and mounts, his machine pointing upwards. Far beneath him the distant earth lies flattered out. Human sounds no longer reach his ear, defied by the motor's roar. Suddenly, appalled by the utter sense of solitude, he rights his machine, and planes horizontally over hills and hollowed valleys. There are no more roads, nor bridges, nor barriers; forests, marshes, and lakes exist for the airman no more; the road is straight and clear in all directions, and on every side! It is then that man has the real sensation of flying, of having at last left the earth, of hav-

Gross & Co.

622 Fort Street.

ing conquered the air as he has conquered the ocean, moving in it, playing in it, at his fancy, with a machine of his own invention, obedient to his slightest gesture, rising, falling, wheeling, and diving with the grace and lightness of the bird.

The danger? But it is for the very reason of the danger that man loves flying. It is because his fair young conquest threatens at every instant to destroy him that man loves it. Man loves flying as he loves his mistress.

But in the great cross-country races man has yet another delight. He has not alone the sensation of fighting against air's treacherous element, but of striving in it against other men to reach himself with a destination like himself with a destination to reach like great migratory birds. The emotion caused by his victory over the air is heightened by the ardour of the strife to be the first to reach that little plot, as yet unknown to him, first with anxiety, then with astonishment, and lastly with enthusiasm at seeing two white, two human wings, at the hour appointed barring the heavens for the first time.

That is the airman's most impressive moment. When, for the first time, he sees the great bare space where he is about to rest his wings, when he has recognized by signs familiar to him—the flying flags, the white cloths spread as a signal upon the ground, the bonfires lit to guide him, the crowd pressing about the barriers—that he has reached the goal of his race by air, it is then that he is caught at the throat by an intense emotion, so sweet, yet so strong as to make him forget the anguish of the start and the perils of the journey. And when this final goal is a city, when this city is a capital, when this capital is the cradle of humanity, when it is Rome, the feeling is so overwhelming that a man may be allowed to enjoy a moment of pride.

Anguish, joy, pride, fright, isolation, hope and despair, alternating, struggles, disasters, mournings, victories, and, dominating all, the tenacious instinct of self-preservation—such are the sensations experienced in the great cross-country flying races. Therefore may it be said of them that they are the intense image of human life.

IMPRISONED FOR LIFE.

San Francisco, Aug. 6.—Joseph Stark and Bernard Lavoie, each accused of a number of robberies and assaults to commit murder, were sentenced to life imprisonment in Folsom penitentiary by Judge Lawler in the Superior court yesterday. The first crime charged against the men was the robbery of a saloon in San Francisco on April 22. "These men are a greater menace to the community than wild beasts of prey," said the court in passing sentence.

THE NORTH IS SOLID FOR RECIPROCITY

Duncan Ross Says That Policy Will Decide Comox-Atlin— All Are for It

Among the passengers who arrived from the north on the G. T. P. steamer Prince Rupert was Duncan Ross, ex-M. P., whose name has been prominently mentioned as possible Liberal candidate in Comox-Atlin district. Seen this morning by a Times representative Mr. Ross was asked if he intended to be a candidate in the northern constituency.

"The Liberals of Comox-Atlin will say who their candidate will be," he replied. "A convention of Liberals will be held in Nanaimo on August 19 for the purpose of selecting a candidate. Every portion of the large constituency from Atlin to the north to Albert in the south, will be represented in the convention. If I get a majority of votes in the convention I shall make the run. If some other candidate for nomination is selected I shall do what I can to secure his election. Personally I welcome a friendly contest for the nomination as it is sure to stimulate interest and will be the means of getting the Liberals together to organize for the campaign."

"The north is solid for reciprocity," continued Mr. Ross, "and there will scarcely be a party contest in that portion of the riding. The people, irrespective of party, are convinced that reciprocity will benefit that new country more than any other portion of the Dominion, and will vote accordingly. I am not so closely in touch with the southern portion of the riding, but I am advised that those on the west coast of Vancouver Island particularly, the feeling is very strong in favor of reciprocity."

Mr. Ross leaves to-night by the Princess Mary for Albert and West Coast points. He will join H. C. Brewster, M.P.P., addressing several meetings before returning to the Nanaimo convention.

VISITING BANKER ON CROP CONDITIONS

"Most Promising" is Opinion of Edward F. Hebdon, General Manager Merchants' Bank

"I have every reason to believe that the crops are most promising," this morning stated Edward F. Hebdon, general manager of the Merchants' Bank of Canada, who arrived at the Empress yesterday direct from Montreal on his annual visit to the Coast.

Bankers as a rule are not communists, and Mr. Hebdon is no exception. Consequently, what gentlemen in these positions do allow themselves to say may be taken as exact and definite. As a matter of fact, Mr. Hebdon stated he was, as usual, not here to give but to receive information, as the first object of his periodical visits was always to inform himself of conditions, and his thirst for information in this respect was unquenchable.

From what he did say it may, consequently, be inferred that crop conditions are unquestionably in an first-class estimation in the banking mind as they are in that of the trade. Mr. Hebdon stated that, not being an expert on the subject, he would not care to state what probable excess might be looked forward to this season by reason of the larger amount of area under cultivation, but it is probable that such an increase might be looked for.

Is Mr. Hebdon's usual custom to work from East to West on the occasion of his annual visits, but on this occasion he has come straight through from the East and will visit the various branches of the bank on his way back to Montreal. It may be noted that Mr. Hebdon's connection with the Merchants' Bank of Canada has extended for thirty-eight years. He left this afternoon for Prince Rupert.

LORD STRATHCONA.

Will Probably Be in Ottawa When Duke of Connaught Arrives.

Ottawa, Aug. 7.—It is learned here that Lord Strathcona proposed to be in Ottawa to take part in the welcome to the Duke of Connaught when he arrives in Canada in October. Lord Strathcona, it is understood, will not resign the high commissionership in London until that date.

THE POPE'S HEALTH.

Rome, Aug. 7.—Pope Pius experienced a slight relapse yesterday. The attack came suddenly, aggravating the cold with which he has suffered this being accompanied by gouty pains.

Dr. Giuseppe Petacchi, private physician to His Holiness, and Dr. Marchisio, consulting physician at the Vatican, being notified of the unexpected change in the pontiff's condition, visited him immediately and directed that he remain in his bed. His Holiness had appeared to be recovering normally from his recent indisposition, though the recent extreme heat had weakened him and prevented his daily celebration of mass.

DROPS DEAD ON STREET.

Toronto, Aug. 7.—Rev. Thomas Holt, Wilson, an English church clergyman, who had only been in Canada a month, was walking along Isabella street with his wife on Saturday evening when he suddenly expired. He was 63 years of age and came from Redgrave, Suffolk, England, where he was rector.

His intention was to proceed to the coast and settle there, securing farms in British Columbia for his two sons, who are students at the Ontario Agricultural College, Guelph.

SIR A. B. AYLESWORTH DECIDES TO RETIRE

Tenders Resignation to Sir Wilfrid—H. Guthrie May Enter Cabinet

Ottawa, Aug. 7.—Sir A. B. Aylesworth has definitely announced that he will not again be a candidate in North York. He has tendered the resignation of his portfolio to Sir Wilfrid, who will be obliged reluctantly to accept it. The premier has strongly urged Sir Alan to continue in the government, but the latter, on account of his deafness, thinks it right he should retire. He will continue to hold the portfolio for a few weeks yet until his successor, who will probably be H. Guthrie or Guelph, is sworn in. Sir Alan will resume practice of law in Toronto.

It is generally admitted here that Sir Alan has been the best Minister of Justice Canada ever had. His retirement is sincerely regretted by Sir Wilfrid and every Liberal colleague in parliament.

PERSONAL

Miss Winnifred Creed returned home yesterday from Vancouver.

Dr. and Mrs. Charles O. Kinball, New York, are at the Empress.

R. Marpole, vice-president of the E. & N. railway, returned to Vancouver on Saturday night.

Miss Clara Finch, Linden avenue, is visiting her aunt, Mrs. John Nelson, of Vancouver, for a couple of weeks.

Duncan Ross came down from the north on the Prince Rupert yesterday and goes up the west coast to-night.

J. L. Skene, contractor, Vancouver, who has recently completed the new wing to the Hotel Vancouver, is in the city to-day.

Viscount Colville, of Culross, and Hon. J. Colville are staying at the Empress. Viscount Colville fought in the Zulu war of 1879.

Frank V. Hobbs, of Mystic Spring, Cadboro Bay, has returned from his trip to Albert, but Miss Hobbs is still sojourning at McCoy lake.

Miss Emma Gonnason, a student of St. Ann's academy, won a scholarship from McGill university in the recent matriculation examinations.

Mr. Justice Gallher returned from the north yesterday. While away he spent a few days with Duncan Ross at his railway construction camp on the G. T. P.

Mayor Manson, of Prince Rupert, is in the city to secure Premier McBride's signature on behalf of the province of Alberta and to discuss the proposed G. T. P. with regard to taxation and other matters.

TO EVADE RECIPROCITY.

Desire to Stir up French-Canadians on Side Issue, Says Barnard.

G. H. Barnard, late member for Victoria, who returned to the city from Ottawa on Saturday afternoon, amongst other things referred to the proposed intention on the part of the "Nationalists" in the province of Quebec to endeavor to bring the question of naval policy as the issue before the electors, in place of the question of reciprocity, which does not appear, by any means, to be a sign of confidence on the part of Henri Bourassa and his "Little Canada" party. Mr. Barnard himself appears to favor the issue but reciprocity in his light here—should be again the Conservative candidate—as he is reported in the morning paper as speaking thus:

"While reciprocity will be the dominant issue still the question of the naval policy of the government will figure to a great extent. In British Columbia the government will have to be prepared to meet criticism with regard to its policy in that respect. We have the recommendation of the admiralty that a fleet unit should be maintained by Canada on the Pacific coast, but instead of following out that recommendation it is proposed to es-

tablish a much weaker force here and notwithstanding Sir Wilfrid's statement that Canada could anticipate no danger upon the Atlantic seaboard, but he could see possible danger upon the Pacific, yet it is proposed to so divide the naval forces, which are already so much weaker than that recommended by the admiralty, by putting the strongest portion of the navy on the Atlantic."

Half Acre Graham Street

Fine, high view lots, beautiful location; oak trees on property, in the midst of fine residences. For quick sale

\$1,400 ON TERMS

Harris & Sturgess

Next Merchants Bank.

Establish a much weaker force here and notwithstanding Sir Wilfrid's statement that Canada could anticipate no danger upon the Atlantic seaboard, but he could see possible danger upon the Pacific, yet it is proposed to so divide the naval forces, which are already so much weaker than that recommended by the admiralty, by putting the strongest portion of the navy on the Atlantic."

NEW FEATURES AT THE COMING FLOWER SHOW

Decorative Designs for Tables Under a New Plan—Children's Share in Competition

There has been considerable delay in the preparations for the summer show of the Victoria Horticultural Society owing to the uncertainty of the Drill hall being available on the occasion, but this most important question being favorably settled, thanks to the efforts of Colonel Wadmore, D. O. C., and Lieut. Colonel Currie, preparations are going forward with a rush, and judging from the amount of inquiries received by the secretary for information the show is already an assured success.

The feature of the board of directors is pushing most prominently to the front at this show is a perfect system of handling the exhibits. From the time they arrive in the show hall until they are finally placed in position for the judges' inspection they will be under the eye of an expert in the handling of plants and flowers. At this exhibition the most delicate flower or the most expensive plant may be safely shown without danger of injury.

Mr. Purdy, the able park superintendent, who so acceptably filled the position of superintendent of the rose show, will be the general manager of the exhibition. Under him will be four assistants, one of whom will devote his whole time to each of the four important sections. The decorative section will be under the management of Mrs. F. S. Barnard, who has promised to make this the feature of the show. There are so many inquiries for information of the new section, "a decorative design," that a few words of explanation will be of assistance.

The decorated tables, while they are extremely effective, are necessarily limited in scope. To allow of new ideas being introduced it was decided to try this plan. A decorative design means a table 30x30 inches that contains some distinctive feature representative of an idea or some special occasion. Any accessories necessary to bring the idea into prominence are allowed. Potted plants are barred solely because it was feared some exhibitors might give an arrangement that in effect would be a table of plants, which is not at all desired. This section only will be judged by James Manton and Fred Bennett and prizes will be awarded not to the tables that represent the highest intrinsic value but to those that show the brightest and best ideas, most artistically executed.

Horticulture for the children is going to be the watchword of the directors. Thanks to the efforts of the president, Mrs. Henry Croft, who is the leading spirit in this department, a splendid challenge vase has already been given, and more can easily be obtained when the circumstances warrant. Owing to the very limited time at the disposal of the board very little more than a beginning is expected in this section of the show, but it is known that after this year competition in these prizes will be of the keenest kind.

The board of directors are open for any suggestions from any one interested in the matter and heartily invite anyone who has the welfare of the

children along the lines of Horticulture at heart to lay their suggestions before the board. These suggestions need not be confined to the one idea but to any part of the subject that may be of practical value, they say.

ADMIRAL TOGO GUEST OF PRESIDENT TAFT

Chief Executive Extends Invitation to Japan to Join in Arbitration

Washington, D. C., Aug. 7.—President Taft Saturday night extended to Japan through the nation's guest, Admiral Count Togo, at a dinner in the White House in honor of the Japanese naval hero, an invitation to join the United States, Great Britain and France in the great world movement for international peace.

Rising from his chair before Admiral Togo and Speaker Clark, the President offered a toast to the Emperor of Japan. Then turning to Count Togo, he said:

"I would indeed fall in my duty and be untrue to my own deep convictions did I not take this occasion of the first public welcome to you as our national guest to express my own appreciation and that of the American people of the broad and humanitarian view taken by His Majesty the Emperor of Japan, and the Imperial Japanese government, in so readily and generously affirming in the most positive and solemn manner that no consideration of selfish interests should be permitted to obstruct the progress of the great world movement for international peace as exemplified in the general treaties of arbitration between the United States, Great Britain and France signed on the day of your arrival in this country."

"I gladly acknowledge the important part which Japan has played in facilitating this notable achievement by its prompt and unreserved recognition in the recent Anglo-Japanese agreement, of the great moral principle of arbitration, and I entertain the hope with confidence that the time may not be far distant when Japan will see fit to join in the movement now so auspiciously inaugurated."

In toasting the Emperor of Japan, Mr. Taft said: "To one who has shown himself a great ruler, who has given all of his time and energy and intellect to the progress of his country and the preservation of the interests of the people, whose wonderful power in the selection of great men to accomplish great tasks has lifted Japan to a place among the first nations of the world, and whose sense of humanity and justice can always be counted on to contribute effectively to the peace of the world—His Majesty the Emperor of Japan."

The toast was drunk standing. Count Togo acknowledged the toast through Commander Taniguchi, his aide. He said: "Mr. President: It is my pleasant duty and great honor to convey to His Majesty the Emperor, my august sovereign, the most kind words you have just said of him. As for me, words fail to express what I feel deeply at heart. I can only say that I thank you most heartily for the honor you have done me."

The dinner was held in the state dining room and a magnificent old service was used. Following the dinner a reception was held in the east room, at which several thousand people were present to honor the Japanese admiral.

"Why are most animals larger in the tropics than they are in the frigid zone?" asked the teacher.

"Because," answered the bright pupil at the foot of the class, "heat expands and cold contracts."

The door of adversity always has the latch-string out.

What Reciprocity Means to the People of Canada

Reciprocity with the United States is now at the disposal of the Canadian people. It rests with parliament or the electors to say if we are to have the benefits of the enlarged free market, which it will bring. Look at the new market possibilities in the list of Canadian products which would thereafter have free entry into the United States:

- For the Farmer: Cattle, Horses and mules, Swine, Sheep and lambs, Poultry, Wheat, Oats, Barley, Beans, Potatoes, Corn, Onions, Apples, Peas, Peaches, Grapes, Butter, Cheese, Fresh milk, Fresh cream, Eggs, Hay, Straw.
- For the Fisherman: Mackerel, Herring, Halibut, Salmon, Cod, Oysters, Lobsters.
- For the Lumberman: Timber, hewn, sawed or squared, Sawn boards, planks, deals.
- Paying posts, railroad ties and poles.
- Wooden staves, Pickets and palings.
- For the Miner: Feldspar, Mica, Talc, Salt, Asbestos.
- For the Consumer: Lower duties on a host of articles, such as: Meats, fresh or refrigerated, Bacon and hams, Beef and pork, salted, Canned meats and poultry, Lard, Tomatoes and other vegetables, Wheat flour and oatmeal, Prepared cereal food, Bran, middlings and other offals of grain, Macaroni and vermicelli, Biscuits, wafers and cakes, Canned fruits, Agricultural implements, Cutlery, Paving stones, Clocks and Watches, Games, Motor vehicles, Laurier and the Larger Markets is the policy for Canada.

ROOSEVELT TAKES RESPONSIBILITY

Agreed to Absorption of Tennessee Coal Company to Avert Disastrous Panic

New York, Aug. 7.—Theodore Roosevelt talked boldly before the House of Representatives' committee of inquiry into the United States Steel Corporation here Saturday, and voluntarily told how his action in consenting to the absorption of the Tennessee Coal & Iron Company by the steel corporation in 1907 averted a disastrous panic.

The former president's action in submitting to a congressional review of his own administration was almost unprecedented in the history of the United States, and was thoroughly Rooseveltian.

First he placed upon himself responsibility for approving the absorption to avert financial distress in Wall street, and condemned any man who would be so weak as not to act as he did in that crisis. Not to have done so, he said, would have been criminal. The chapter he contributed not only dealt with his part in the events of that threatening time, but he gave the committee some interesting opinions on the trust question that loomed up in their report even more than his recital of facts in the Tennessee Coal & Iron transaction.

After declaring that his object in approving the sale of the Tennessee company was to restore confidence, the former president, in response to inquiries by Representative Littleton, relating to the case as presented to him by Judge Gary and H. C. Frick at the White House conference in November, 1907, said:

"The situation was so critical that it was liable to break at any moment until the action was taken, and the instant it was taken an enormous improvement occurred, and as said in the poem of Mr. Emerson, with which you are all so well acquainted:

"If the red slayer think he slays, Or if the slain think he is slain, It matters not."

Then Mr. Roosevelt launched into a discussion with Chairman Stanley of the general trust question, saying that the United States had something to learn from Germany.

"Mr. Stanley," Mr. Roosevelt broke in, "switching the line of inquiry in progress, may I say in connection with what has been said on the general trust question and of this particular corporation, the steel corporation, that I know you will not accept silence on my part as indicating anything as to my attitude on the general trust question, as you know it."

"I have stated again and again, while I was president, in messages to Congress, which were not always received with as much enthusiasm as they were written, and since then in articles and speeches, just what I have felt the attitude of Congress toward these great corporations should be, and as you know, I believe in a far more drastic and far more thoroughgoing supervision and control over them by the national government than we have yet achieved."

"On another occasion I should have been very glad to have spoken with you on trust remedies. I am sure you will not achieve your purpose by splitting up the big corporations, as I have stated again and again in messages to Congress. While something can be done along that line, in addition, and to my mind mainly, the work must be done by our national government, acting as the government of Germany did. I think, in the potash matter, by actually, in the interest of all the people, interfering and exercising a degree of control over a big corporation which it would be wholly unnecessary to exercise over a corporation that has no monopolistic taint."

"I wish to say," Mr. Stanley replied, "that I am not of the opinion that the dissolution of the United States Steel Corporation into its constituent parts is an adequate remedy."

SPECIAL OFFER

\$1 Weekly Payments of \$1

\$20 Each

We have on hand a number of Columbia (Cylinder) Graphophones, same as illustration, which we are desirous of disposing of at once. In order to make a quick clearance we place them on sale Monday morning, and while they last, at \$20 each. The payments can be

\$1 a Week

In order to make this offer more interesting, we will, in addition, give with each machine

12 Records Free of Charge

Better hurry, as they won't last long at the above prices. Call at our show rooms and hear them played.

PLAGUE OF RATS.

Montreal is suffering from a plague of rats, and the trouble has become so serious that the municipal authorities have been asked to take a hand. The trouble is felt especially by owners of warehouses along the harbor front, who claim that a constant stream of rodents is coming from the sewers and from the vessels in port, causing them heavy loss.

Dr. Leberge, city health officer, has presented a report to the authorities outlining a plan of campaign to be carried on along scientific lines.

"Now, Tommy," said his mother, "take this medicine. It's sweet as sugar."

"I don't want to be selfish, mamma," said the little invalid, "give it to the baby."

The things we don't have to do always look the easiest.

The bone of contention is pretty poor picking.
