### MURDER SUSPECT INSANE.

Edmonton, Alta., Aug. 22.—A. S. Adams, the insane man suspected of the brutal murder of Mrs. Philip MacQuacken last Wednesday, started for the provincial asylum at Ponoka yesterday afternoon in charge of mounted police. While no charge has been laid, or possibly ever will be, the mounted police express the belief that he is the perpetrator of that crime.

The head while she was at work in her kitchen. No clue was found, but the eccentric feature of the murder led to the belief that it was a madman. Adams was found subsequently wandering about in the bush after he had threatened the life of the watchman at P. Burns & Co.'s packing plant. He has been in a raving condition ever since his arrest, but on being taken to the scene of the crime he fought to escape and cried like a child.

## FUNERAL OF LATE GENERAL BOOTH

WILL TAKE PLACE  
ON AUGUST 29

King George Pays Tribute to  
Work of Founder of Sal-  
vation Army

London, Aug. 22.—The funeral of the late General Booth will be held on August 29 at Abney Park cemetery in Stoke Newington, where his wife is buried. The funeral procession from the international headquarters, which will pass through some of the principal thoroughfares of the city, will start at noon. Many thousands of persons are expected to participate in the funeral service for the Army which will be held on the preceding night at the great hall of Olympia. Several newspapers suggest that the general's work entitles him to lie in Westminster or St. Paul's cathedral. His wish was to be buried beside his wife, and it is doubtful if the church authorities will make the offer to place the body in the cathedral.

Almost the last words of General Booth were uttered just before he lost consciousness. He was referring to God's promises and, speaking with great difficulty, said: "I think, 'They are sure, they are sure, if you will only believe.'"

Colonel Kitching said that up to Saturday General Booth showed solicitude for the work of the Army. He inquired about the progress being made in America and in India, and especially about the welfare of the officer sent to China to report on the possibility of commencing work there. "We had not expected the end quite so soon," Colonel Kitching continued. "The general died very peacefully and quietly without the slightest struggle. His breathing simply became less and less until it ceased altogether. I think the operation may have accelerated death, but I do not believe it was the cause of his demise. I think, perhaps, the disappointment following the non-return of the general's sloop was a greater strain on him than the operation itself. He was very buoyant and three weeks ago a decided change for the worse occurred. After that time he gradually sank."

New Head of Army.  
In the presence of all the Salvation Army commissioners and the officers in London at the international headquarters on Queen Victoria street, General Booth's testament entrusted to the Army's solicitor 22 years ago appointing the late commander-in-chief's son, Bramwell Booth, to succeed him

was opened yesterday and read; Bramwell Booth, who has been chief-of-staff of the Salvation Army since 1880 accepted the succession formally with much feeling. His speech was a prayer and the scriptural reading was followed by an impressive service. Mrs. Bramwell Booth and Mrs. Booth-Holbert and other well known Army leaders were among the participants. Bramwell Booth presided at the meeting. After calling on Commissioner McKie for a prayer, the chief-of-staff announced that he had called the officers together to hear the reading of the document appointing General Booth's successor. The Army solicitor produced a large sealed envelope which had lain in his safe just 22 years to a day. It bore the general's handwriting: "The appointment of my successor, William Booth, 21st August, 1890." After the envelope was passed around the circle of officers, Solicitor Ranger cut it open and read the formal appointment of the chief-of-staff as commander-in-chief.

Message of Condolence.  
King George was one of the first to telegraph his condolence to the bereaved family. Messages were also received from Premier Asquith, the Lord Mayor of London, Sir Thomas B. Crosby, the Earl of Meath and the Earl of Aberdeen, and many others, including representatives of Protestant creeds and prominent persons of the Jewish faith.

King George's message sent to Bramwell Booth follows: "I am grieved to hear the sad news of the death of your father. The British nation has lost a great organizer and the poor a whole-hearted and sincere friend, who devoted his life to helping them in a practical way. Only in the future shall we realize the good wrought by him for his fellow creatures. To-day there is universal mourning for him. I join in it and assure you and your family of my true sympathy in the heavy loss which has befallen you."

## PREPARING FOR OPENING OF CANAL

John Barrett Tells of Visits to  
European Capitals and  
Industrial Centres

London, Aug. 22.—John Barrett, director-general of the Pan-American Union, who sailed for home on the Cunard liner Franconia, spent a week with Andrew Carnegie at Skibo Castle. The company included many of the most prominent men in British public life. They discussed questions of world-peace, Panama canal and others that are now before the public. Mr. Barrett sums up the results of the visits to the principal capitals, ports and manufacturing centres as follows:

"It behoves shipping, commercial and manufacturing interests of the United States to get ready in a practical way for the opening of the Panama canal. They are all doing it here, not only British and Germans, but also French, Belgians, Hollanders, Danes, Norwegians and even Spaniards, Italians and Austrians."

## REPORTED CAPTURE OF GUNBOAT BY REBELS

Message from Mazatlan Says  
Steamer Also Has Been  
Seized

San Diego, Cal., Aug. 22.—Private advices from Mazatlan announce that the Mexican gunboat Guerrero, in command of Commander Oton Blanco, had been captured by the rebel forces working under Orozco and that the steamer Benito Juarez, owned by the Compania Naviera del Pacifico, had also been captured by the rebels. M. Bernabe, general agent for the Compania Naviera del Pacifico, received the report but refused to give it credence. Leon Gomez, Mexican consul here, admitted that the Guerrero is at Mazatlan, but has received no official confirmation of the report. The gunboat carries a crew of 108 officers and men and is equipped with four six-inch and two four-inch guns, according to Gomez.

Federals at Juarez.  
Juarez, Mex., Aug. 22.—Federal troops, numbering more than 2,000, took over Juarez, the important port of entry on the border opposite El Paso, Texas, evacuated a few days ago by Orozco's rebel forces, which are pursuing a southwesterly course through the state of Sonora. It is believed that by leaving the federal armies in command of the situation in Northern Chihuahua, General Pasquel Orozco will attempt to make a seaport on the Pacific coast. Admitting the futility of smuggling arms through the cordon of United States troops on the border, Orozco seeks a port of entry on the Pacific for smuggling purposes.

## TRAIN WRECKS AUTO. Man Sacrifices Life to Save His Bride.

Stockton, Cal., Aug. 22.—Perry Phillips, of Tulare, a bridegroom of two months, was killed at Weston, on the Southern Pacific line, when a train struck an automobile in which he, his bride and four friends were riding. Louis Rodson, of Ripon, was driving the car in which the party were sighted. Phillips, who was seated in the rear seat with his wife on his lap, was first to notice the approaching train. He instantly hurled his wife from the car, at the same time giving the alarm. The other occupants leaped from the automobile. Phillips was delayed by saving his wife and was struck just as he was about to leap. None of the others was injured.

## WILL SEND EXHIBIT TO LETHBRIDGE

Nanaimo and District to be  
Represented at Dry Farm-  
ing Congress

Nanaimo, Aug. 22.—Nanaimo is to have an exhibit at the Dry Farming congress to be held in Lethbridge, Alberta, in October, that will be a credit to the city and district. Action to bring about such a condition of affairs was taken at a meeting of the board of trade when a sum of money was voted and committee appointed to co-operate with the agricultural society in preparing the exhibit for shipment.

The question was introduced to the meeting by A. E. Planta, who read a letter received from Deputy Minister of Agriculture Scott, Victoria, to Secretary Tyrer of the Nanaimo Agricultural Society, which was in part as follows:

"It will certainly be in order for the board of trade to co-operate with your society, and place an exhibit in Lethbridge in accordance with circular letter sent by me to your board of trade. We will undertake to take over the exhibit at Nanaimo, pay all costs of transportation to Lethbridge, effectually stage the same as part of the provincial exhibit, and dispose of it at the conclusion of the exhibition as directed by the board."

A. E. Planta was of the opinion the agricultural society could perhaps select men to collect the exhibit, but he thought the board of trade should appoint a committee to look after the financial part, which he thought would not exceed \$500.

C. H. Leicester thought no matter that had come before the board of trade was capable of bringing better results to Nanaimo than an exhibit at the Dry Farming congress if worked properly. He moved the board of trade start a subscription list with a grant of \$50 and a committee be appointed to see if enough money could not be raised to make a successful exhibit.

Mr. Planta recorded the motion, which was adopted and the chairman named Messrs. W. F. Norris, A. E. Planta and A. Forrester the committee. The secretary was instructed to notify the agricultural society of the action taken by the board of trade, and a committee was appointed to prepare material for a pamphlet setting forth the agricultural possibilities of Nanaimo district.

## NO CONTEST OVER THE ASTOR WILL

Counsel for Mrs. Astor Dis-  
poses of Rumors Regarding  
Probable Law Suit

New York, Aug. 22.—A formal statement given out by counsel for Mrs. Madeline Forster Astor, in reply to persistent reports that a contest of the John Jacob Astor will is being contemplated, says: "Mrs. Astor has always expressed entire satisfaction with the provisions made for her by the late Mr. Astor. She has not now, nor has she ever had any desire or intention to dispute the validity of the ante-nuptial agreement. As for setting aside the will, any lawyer of the slightest experience would not advise that it could possibly be done. All of the provisions strictly comply with the laws of the state. In regard to the article of the will providing for the posthumous children, it must be said that while the fund of \$5,000,000 seems to be rather small in view of the large estate, Colonel Astor left as compared with the sum William Vincent Astor will receive, it is nevertheless a large fortune and ample for the heir's maintenance and education. It is likely, moreover, that this trust estate will quadruple by the time the child is twenty-one years old."

## CANADA'S PERMANENT FORCE.

Number of Changes Among the Senior Officers.  
Ottawa, Aug. 22.—Before sailing for England Col. Sam Hughes, minister of militia, arranged for a general shift among the senior officers of the militia. As already announced, Major-General Otter is to retire from the post of Inspector-general, the date set being December 1 next. General Otter will be succeeded as by Major-General W. H. Cotton, who since 1905, has been in command at Toronto, his post in the past having been officer commanding the second division. Gen. Cotton will be succeeded in Toronto as officer commanding the second division, by Brig.-Gen. F. L. Lessard, who will vacate the post of adjutant-general, which he has held since 1907. The transfer will take effect on December 1st next. General Lessard's promotion to be major-general may be expected soon.

The position of adjutant-general will be filled by the appointment of Lieut.-Col. V. A. S. Williams, R. C. D., A. D. C. Col. Williams, who is stationed in Toronto, is commanding officer of the Royal Canadian Dragoons and inspector-general of cavalry. Col. Septimus J. A. Denison, C. M. G., R. C. commander of the Royal School of Infantry at Halifax, becomes officer commanding the fourth division at Montreal in place of Col. Roy. Lieut.-Col. J. A. Fages, at present in Montreal, D. A. A. and Q. M. G., succeeds Col. Denison in command of the Royal Canadian regiment. Col. J. C. Macdougall, R. C. R. A. A. G., at Montreal, is to come to Ottawa as assistant to the judge advocate general, Col. Henry Smith.

# The Awful Cost

of neglect of the teeth infinitely outweighs the small cost of having them put right now. Think what neglect means! Not only does it mean the unsightliness of decayed teeth and the probable tortures of toothache, it imperils your digestion, it menaces your whole physical well-being. An examination of your own teeth in a mirror cannot reveal the decayed pinhole which will later result in a ruined molar. Take the wise precaution of having us examine your teeth to-day. Should you be one of the few fortunate whose teeth are perfect we shall tell you so frankly. Otherwise we shall tell you, with equal frankness just what is required and exactly what it will cost. While putting yourself under no obligation you ARE putting yourself in the hands of the best known, most widely experienced, and most successful Dentists of the Pacific Northwest.

## HOW ALDERMEN WERE TRAPPED

### DETECTIVE TESTIFIES IN BRIBERY CASE

Declares President of Detroit Council Confessed When Confronted by Burns

Detroit, Mich., Aug. 22.—Detective Walter J. Brennan, the prosecution's star witness, testified at the arraignment of Thomas E. Glinnan, president of the Detroit common council, charged with having accepted a bribe of \$1,000. There is some possibility of the prosecution placing on the stand the former council clerk, Edward R. Schreier.

Brennan went into the details of the trapping of the aldermen up to the time he alleges that he, representing himself to be an official of the Wabash railroad, paid Glinnan \$1,000 for his influence in granting the road's request for the use of a street for building purposes. The detective told of getting acquainted with the aldermen, of negotiations regarding the rights of the state and of opposition to the proposal expressed by several of the councilmen. Finally, he testified, Glinnan came to his office and arrangements were made for the closing of the street. The witness went into the details of visits with Glinnan, conferences at the alderman's home and meetings in the city hall. At last, he said, all arrangements were completed for the payment of the bribe money. It had been planned for the aldermen to go individually to Brennan's office and get their share. Glinnan was to go last and get what was left, which Brennan had told him would be at least \$1,000. According to the testimony Glinnan appeared promptly on July 26 for the money.

"I took out a roll of bills," the witness said, "and counted them."  
"I said: 'Glinnan, here's the \$1,000 that I promised you for voting for the Wabash closing.' He thanked me and put the money in his left inside pocket. As he left I took him into the next room. Mr. Burns was there."

The witness then testified that Glinnan, when he realized his situation, handed back the money and made a confession.

## WANTS CANADIAN WHEAT AND FLOUR

Trade Commissioner Predicts Increased Demand in Scotland

Ottawa, Aug. 22.—In the course of his latest report to the department of trade and commerce, J. T. Lithgow, Canadian trade commissioner at Glasgow, predicts an increased demand for wheat and flour from Canada. He says:

"If Canada has a crop of 250,000,000 bushels, of course it will have far more to export, and Scotland will be up to it but if it can compete with other countries. At the present time there is only one point in regard to flour. If, as reported, the state of Kansas is to have 50,000,000 bushels more than last year it will have far more flour to export than it had during 1911."

"Kansas flour has always been a great favorite in Glasgow, and owing to the poor condition that 'admirable' wheat was in, in 1911, bakers and importers here are most anxious to get into the Kansas flour trade again. "Already, some new crop of Kansas flour has been offered and sold at Glasgow at relatively cheaper prices than any other flour from Manitoba can be sold at. But if Manitoba this year should have a big crop of spring wheat and if in its usual good condition, it will be one of the sources of supply most sought after in Great Britain and naturally over Europe."

## FORMER SULTAN IN FRANCE.

Vichy, France, Aug. 22.—While on his way here from Marseilles Mulai Hafid, former sultan of Morocco, sat in the corridor of his special car and gazed in wonder at the cultivated country, the most beautiful he had ever seen. Southern vineyards and the rich Rhine valley elicited from him the remark that "France must be an immense garden." Tunnels bothered him and he seemed to become fearful every time the train entered one. He took the ruby ring off his finger and held it in his hand as a protecting charm. Mulai Hafid is delighted with his automobiling experience in France. "Our roads are so rough," he said, "that I never before realized the pleasure of automobiling. The roads are magnificent, and the faster I go the better I like it. I have ordered two cars for my own use."

Asked what he thought of French women, the former sultan said: "Those we have seen look very nice, but I have not got acquainted with any yet. Ask me again later."

## CANADIAN IMMIGRATION.

Returns for Three Months Show Decrease in Arrivals From Great Britain.

Ottawa, Aug. 22.—For the first three months of the fiscal year, commencing April, there has been a slight decrease in British immigration as compared with the movement for the corresponding period of last year, accompanied by quite a decided increase from the continental countries and from the United States. The total arrivals from all countries for the three months of

this year show an increase of over 50,000 over last year's figures for the same period. The estimated figures of 400,000 by the department for the complete fiscal year 1912-1913, appears very likely to be realized. For the first three months of the year the total arrivals were 175,348, as compared with 153,113 last year.

Divided into three classes, British, continental, etc., and United States, the compared figures for the first three months of this and last year follow:

British for April, May and June of the present year, 52,519, as compared with 71,036 for the corresponding period last year, or a decrease of 1,135.

Continental, etc., for the present year, 52,054, as compared with 38,250 for the corresponding period last year, or an increase of 13,814.

United States, for the present year, increase of 3,141.

Despite the steady increase of arrivals from continental countries, the demand for railway construction continues to outrun the supply. One of the chief reasons given for this is the fact that the Austrian and Polish arrivals, who formerly were content to engage in such work for a daily wage are beginning to realize from the experience of forerunners from their country that they can do better tilling the soil. A greater proportion than formerly are now taking up land for agricultural purposes.

## U. S. TO SEND FORCE TO NICARAGUA

Bluejackets and Marines Will Protect Foreigners and Their Property

Washington, D. C., Aug. 22.—Complete arrangements to throw a force of two thousand bluejackets and marines into Nicaragua within ten days to protect foreign lives and property and keep railroad communication open from the American legation in Managua to the Pacific coast were made yesterday by the navy department.

Secretary Meyer yesterday issued rush orders for the big armored cruiser California, at San Diego, Cal., to proceed to Panama.

American Minister Weitzel has asked for details of bluejackets and marines at Corinto and at San Juan del Sur, both on the west coast.

The gunboat Denver, under rush orders, should arrive at Corinto Saturday. She will lead about 150 bluejackets, bringing the total American force ashore up to 700.

Rebel Leader a Prisoner.

New Orleans, La., Aug. 22.—General Luis Mena, leader of the revolutionists in Nicaragua, was seized and is now held a prisoner by members of the Liberal party in Leon, according to wireless advices from Bluefields, received here yesterday by Juan J. Zavalla, Nicaraguan consul at New Orleans.

Many Reported Killed.

Managua, Nicaragua, Aug. 14.—(Delayed in transmission.)—Nearly the entire detachment of 500 Nicaraguan troops, comprising the garrison of the city of Leon, to the north of Managua, was massacred by a force of insurgents last night, according to reports which reached the capital city today. On Friday news was received by the government that the Liberals at Leon had risen in revolt and Gen. Chamorra dispatched troops to suppress the movement and to reinforce the garrison of the city.

The government troops, on reaching Leon, camped on the plaza in the center of the town. The insurgents, who greatly outnumbered the government force, attacked the city Saturday, and after a fierce engagement the garrison surrendered. Instead of holding their captives prisoners of war, it is reported that the rebels slaughtered them. Out of a force of 500, all except seventy were killed.

## GETS LONG TERM.

New York, Aug. 22.—Chester W. Yates, said to have framed the plot that resulted in the robbery of \$37,000 in securities from Aaron Bancroft, a broker, was sentenced to 21 years in Sing Sing.

The Bancroft robbery was daring and clever. As the broker was passing through the corridor of the Produce Exchange, with an envelope containing the securities, two men bumped into him and knocked him down. The envelope fell from his hand. The two men helped the broker to his feet with apologies. One of the men thrust a "fake" envelope into Mr. Bancroft's hand and the broker passed on.

## SMUGGLING CHINESE.

New York, Aug. 22.—A scheme to smuggle Chinese into this country was discovered today when a policeman opened an immense bundle in the rear of an automobile. The bundle revealed three badly frightened Chinese. The chauffeur told the police he was getting \$25 a day for carrying Chinese from Buffalo to New York.

## ZAM-BUK AND OUTDOOR LIFE

Every tennis or ball player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation, which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood poisoning. Next, its soothing properties relieve and ease the pain. Then its rich, herbal balsam penetrates the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—are all quickly cured by Zam-Buk. It also eases and cures piles. All druggists and stores. Use Zam-Buk Soap also; 25c. per tablet.

### Municipality of Esquimalt Tenders for Two Buildings

All persons who are qualified voters for the first election of the Municipality of Esquimalt are requested to register their names on or before September 12th next, at Room 220 Pemberton Building, Victoria, between the hours of 10 a. m. and 1 p. m. and 2 to 4 p. m.

The qualifications for voters at the first election are as follows: "A British subject of the full age of 21 years, having lived in the district three months immediately preceding August 15th, 1912, and registered owner of real property within the boundaries of the municipality of the value of at least one hundred dollars."

Tenders will be received by the undersigned up to 3 p. m., Monday, August 26th, for the erection of two wooden buildings with concrete approaches and other work, one on Woodland avenue, east of Moss street, and one on Queen's avenue, between Chambers street and Spring Road, as per plans and specifications which can be seen at this office. The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTE,  
Supt. Public Bldg.

A. B. ELLIS,  
Returning Officer, City Hall, August 17, 1912.

POLITICAL JUSTICE.

That a stream can rise no higher than its source has had another exemplification in a case recently tried in the criminal courts at Vancouver.

"You did not handle your accounts with the methods of an experienced business man," said Judge McInnes, "but your explanation is satisfactory."

Cross-examined by Mr. W. M. McKay for the crown, Hamilton admitted that he was owing money for a cow to Melville at the time he raised his cheque, and that he applied to the bank to keep the \$20 and apply it to the debt.

What has an obvious bearing on the case is the fact that the offences were committed in 1910, and two whole years had elapsed between the cashing of the cheques and the discovery that they had been "lifted."

Bride administration that the present hey-day cannot last forever, and these confidences are sometimes communicated to persons outside the carefully guarded and supposedly trustworthy circle of beneficiaries.

It is, however, with the administration of justice that we are more concerned. There are without doubt today several persons suffering incarceration in the provincial penitentiary, who, neither in intention nor act, were any more guilty of crime than this road-boss of the provincial government, who goes Scott free.

Perhaps the judge had some good reason for arriving at the conclusion upon which he found the accused "not guilty," but in any case the public has learned a salient lesson. We sow the winds simply to reap the whirlwind, and the end is not yet.

WILSON'S ACCEPTANCE.

A careful perusal of the speech in which Woodrow Wilson signified his willingness to be the Democratic presidential candidate shows an entire absence of the spirit of belligerency so characteristic of the platform of Theodore Roosevelt or the "stand pat" affirmations of President Taft.

While not believing that business done on a large scale by a single concern is necessarily detrimental to the liberties, even the economic liberties, of the American people, Mr. Wilson declares the necessity of supplementing and amending the present legislation with such laws, both civil and criminal, as will effectively punish and prevent the methods by which the trusts have established monopolies derogatory to the public interest.

In dealing with the "so-called labor question," we must have in view, he urges, the sense of universal partnership—an expression that recurs with insistence throughout the address—and laws intended to safeguard the life of the working people of the country, or to improve their physical and moral conditions, to secure their freedom of action in their own interest, should be regarded not as class legislation but as measures taken in the interest of the whole people.

These are the convictions of a candidate who appears to believe that the social and political problems of the American people need firm, discriminating treatment. There is an absence of demagoguery in his views which augurs better than anything we have yet seen for the dawn of a new era in

American politics. The people of Canada who are not wedded to high tariffs will look with great interest upon the development of the moderate yet firm principles upon which Governor Wilson has taken his stand.

The Winnipeg Tribune says the public will watch with bated breath to see if the Borden government sanctions the proposed enormous increase of C. P. R. capital. Such a straw-or rather straw stack—will show how the wind blows.

There is some talk of getting even with the United States by boycotting the San Francisco exhibition because of the Panama Canal business. The Ottawa Citizen thinks this looks to be rather tough on that city, because the Panama Canal will injure San Francisco more than any other port on the coast.

To the Editor: Your report of the meeting of the milk commission rather does me an injustice, as it suggests that I do not object to the use of preservatives in milk.

DAVID DONALD.

CAMOSUN CLUB IN PALATIAL QUARTERS

Formal Opening of New Home in Central Building Yesterday

The Camosun Club's commodious new quarters on the top floor of the Central building were formally opened yesterday afternoon. From 3 to 6 o'clock crowds thronged the rooms, including more than 500 of the fair sex who were lavish in their praise of the new quarters.

The Camosun Club is now established in quarters of the most comfortable and attractive character. Trouble and expense were not spared in the arrangement of the rooms and their equipment. Obviously the aim of the committee in charge was comfort and convenience, compatible with the utmost good taste, and in this they have been gratifyingly successful.

The dining-room is a triumph of good taste, for which the members unanimously accord the highest praise to Hugh Hart, who made the arrangement of this most essential section his particular care.

The same color effect prevails here, but special attention has been devoted to making the room bright and cheerful. Along the walls are beautifully enlarged pictures of famed scullery-places of Vancouver Island, which are only equalled by the inspiring view of the straits and the white-capped Olympics beyond them.

The club has all the most modern accessories and equipment, including a fine, well-lighted billiard room with five tables, bar, card rooms, private office and writing room, newspaper and magazine file room and other necessary adjuncts to club life.

The Camosun Club is proud of its latest accomplishment. It only came into being a year and a half ago, and even now its officers expect to be called upon to increase its present space before long.

OFFICIAL WELCOME FOR ROYAL PARTY

GOVERNMENT HOUSE DINNER, SEPTEMBER 30

Reception at Parliament Buildings at Night—Garden Party October 1

An official welcome will be tendered Their Royal Highnesses the Duke and Duchess of Connaught, in front of the parliament buildings, on their arrival here on the afternoon of Friday, September 27.

There will be an official dinner at Government House on Monday night, September 30, followed by a reception in the parliament buildings. On October 1 they will be a garden party at Government House.

The city council has appointed a committee, consisting of Aldermen Okell, Anderson, Baker, Porter and Stewart, to take into consideration the arrangements for the city's share in the reception.

Mayor Beckwith, in introducing the matter to the attention of the city council yesterday mentioned that several persons who made a speciality of decorations had called to see him, and he thought the committee might well name a date to meet them and discuss terms.

Pneumatic tires are being made in France from paper chemically treated and compressed.

Something Cool for this Warm Weather

Silk and Crepe Kimonos, cool and comfortable. Lee Dye & Co., 225 CORMORANT STREET

\$10.00 WILL BUY A VERY HANDSOME COSTUME ON FRIDAY

AND even the least experienced shopper will have no difficulty in seeing that they were never intended to be sold at such a low figure, but being a few odd lines we have marked them at a figure that will make a rapid clearance possible.

Here are some of the colors and the sizes in which they come. Navy blue in sizes 36, 38, 40, 42, 44. Black in sizes for misses, also sizes 36, 37, 38, 40 and 43. Greys in sizes 36, 38 and 40. Browns in sizes 36. Creams in sizes 34 and 36. Rajah silks in sizes 34, 36 and 38.

There are only forty Costumes to be sold at this price. Some are in the plain tailored style, others slightly trimmed and a few are in the novelty styles. All are lined with silk or satin and the finish and style is all that an expectant woman can wish for.

NOTICE THE DISPLAY IN THE VIEW STREET WINDOW.

Only \$2.95 for Women's Small Women's and Misses Button or Lace Boots in Tan Calf House Dresses Go on Sale Friday at \$1.50 and \$2.50

IS a very special line that goes on sale in this department on Friday morning. We are exceptionally fortunate in securing this shipment at an extra discount from an overstocked jobber who was anxious to clear his surplus stock.

This makes it possible for us to offer you a shoe that is easily worth \$3.50 for \$2.95. They have the new stub toes that have been and are still so popular. Cuban heels and are exceptionally well finished.

All sizes are here and as the style is right up-to-date and the Spencer guarantee of quality goes with every pair, this line should sell out rapidly.

All are made of good washing materials, and although designed primarily to serve as useful House Dresses, the manufacturers have been successful in putting sufficient style in the garments as to make them popular dresses for street wear and many other occasions when a neat dress serves your purpose best.

Well worth your consideration and an early shopping trip.

\$1.25 and \$1.50 Waists Are Marked Down To 90c For Friday's Shoppers

AND there is a wide assortment of styles to choose from. While they are odd lines that we have reduced in price to make sure of a rapid clearance, most sizes are to be had.

You'll find a choice assortment of models in allover eyelet embroidery, while in the embroidered and trimmed styles there are many delightful models to choose from.

All in these lines are finished with high collars of tuck muslin set in with lace insertions and edged with fine lace, while the sleeves are either three-quarter length or short and are either sewn in or set in with insertion.

Some choice models in the sailor and Quaker styles are to be had. They come in white muslins, dainty and vestings, some having blue chambray collars and others white collars. Some of these models come in fancy striped effects and are finished with white collars.

ALL ONE PRICE, 90c

NOTICE THE DISPLAY IN THE VIEW STREET WINDOW.

We Expect a Big Crowd in the Carpet Department on Friday Morning and Here are the Reasons

IT would be strange if such values as those described below failed to draw a big crowd. Every item is practically a staple in every home, and as the August Sale has introduced price concessions that are really remarkable, economical housekeepers will appreciate the savings that this store offers.

TAPESTRY SQUARES of a heavy quality, made with an interwoven border, only one seam, and size 5x12 feet. There are only fourteen carpets in this lot and includes a choice range of patterns and colorings. A very special value for Friday's selling at.....\$9.75

REMNANTS—We have many choice lots of remnants of drapery and covering materials, curtain nets and Madras muslins to dispose of on Friday morning. They are to be had in choice patterns and come in useful lengths. All will be sold at half or less than half their regular value, and should sell like the proverbial hot cakes.

ART WOOL SQUARES—Only eleven in this lot, but they are well worth an early shopping trip to secure them. Size 2 1/2 feet, are woven in one piece, have an artistic appearance and are durable and suitable carpets for your bedroom. They come in shades of fawns, blues and greens. Choice patterns to be had. See them in the windows. Friday's special only.....\$8.75

SOFA RUGS, size 4 1/2 feet, and to be had in various patterns and colorings. Only 19 rugs in this lot, so you'll have to hurry to secure them. Your choice for.....\$2.65

JAPANESE RUGS, size 6x6 feet, and stencilled in fine Oriental patterns. As we have only a few left, only early shoppers will be sure of securing them at, each.....\$1.00

YAMATORIA RUGS—As the name implies, these rugs are of Japanese manufacture and reflect credit on the skill of the Oriental worker and artist. They are made of a heavy quality of Jute, come in a choice assortment of designs and colors and are a splendid wearing quality. Size 27x54 inches. Only 210 to be sold and all our regular \$1.00 value. Friday's special.....65c

ENGLISH OILCLOTH—This is a very high grade quality of floor cloth, well seasoned, durable and is to be had in a very wide range of new patterns and colorings. Light and dark effects are to be had in floral, block, tile and Oriental effects. Something like 1200 yards are to be sold and with such a wide range to choose from you should find just the style you like best. Per square yard.....35c

NOTTINGHAM LACE CURTAINS, all 54 inches wide and from 3 to 3 1/2 yards long. They are finished with lockstitched edges. Dainty patterns are here to choose from and all are white. Regular \$2 and \$2.50. Will be sold on Friday at.....\$1.25

BUNGALOW NETS—These are 10 inches wide and come in colors white, cream and ecru. Coarse and fine meshes are to be had and on Friday you can secure them at, per yard.....35c

CURTAIN RODS, in either the brass or bronze finishes. These rods will extend to 4 feet and all are finished with fancy ends and brackets. On sale Friday at, each.....15c

**Adult Bible Class Federation**—At the Y. M. C. A. last evening the Victoria Adult Bible Class Federation held its regular monthly business meeting. The report of the constitution committee being received on the amendments which are to be made to the new constitution. This will make the quarterly meetings fall in the months of January, April, July and October. Another amendment stipulates that in order to qualify for representation at the federation it will be necessary for Bible classes to become members of the International Sunday School Association, two representatives to be sent from each class instead of one. The new secretary for the ensuing year, Reginald E. Chave, has requested that the names and addresses of all the officers shall be sent in by the different Bible classes.

**Service in Pemberton Chapel**—At the Royal Jubilee hospital next Sunday morning at 8 o'clock the monthly celebration of Holy Communion will be administered in the Pemberton Chapel, nurses, patients and residents in the neighborhood being cordially invited to be present.

**Small City Fire**—Fire caused by an overheated stove pipe setting fire to a wooden partition occurred in the premises of the B. C. Market yesterday afternoon. By the time the brigade had assumed control the damage sustained had amounted to only about \$10.

**TWENTY-FIVE YEARS AGO TO-DAY**

Victoria Times, August 22, 1887.

The election to fill the vacancy created by Mr. J. H. Turner's acceptance of office was a very tame affair, very little interest being manifested. Altogether 756 ballots were cast—454 for Hon. J. H. Turner and 301 for Hon. T. B. Humphreys. There was one spoiled ballot.

A lady subscriber writes asking: "What shall I do with my daisies? Well, if we were in your place we would send them into society and get them married."

The Royal City planing mills are running night and day to fill orders which are from as far east as Winnipeg.

The first shipment of flour from Winnipeg to Yokohama is now in transit.

A Fort Arthur editor's feelings were recently hurt when his article on gold in Algoma, appeared as "When God was first discovered in Algoma."

The Parthia on Saturday ran stern first into the wharf at Vancouver. The landing was witnessed by a vast crowd, including Sir George Stephen, Sir Donald A. Smith, W. C. Van Horne, Mr. Abbott and others.

Chamberlain and E. W. Russell have written letters withdrawing from the Liberal Unionist party. The Chamberlain party has decided to vote against the proclaiming of the Land League.

The Russian government has officially announced its inability to recognize the validity of Prince Ferdinand's election to the throne of Bulgaria.

**REV. P. H. MEWEN DEAD.**

Former Pastor of Emmanuel Baptist Church Passes Away.

The death took place on Tuesday evening at New Westminster, of Rev. P. H. McEwen, a pioneer minister of the Baptist church in this province, who for nearly nine years occupied the pulpit at the Emmanuel Baptist church in this city. He was also for some time the superintendent of missions, and president of the Baptist convention in British Columbia, being highly respected and esteemed, not only among the Baptists of the province and his fellow-clergymen throughout the Dominion, but by all denominations, by all of whom he will be sincerely mourned.

Rev. Mr. McEwen is survived by two sons, Dr. Howard McEwen, practicing in New Westminster, and Dr. Stanley Cameron McEwen, of Hammond, B. C.; and a daughter, Miss Jean McEwen, who also lives at Hammond.

**Physicians Elect Officers**—The B. C. Medical Association yesterday afternoon elected A. S. Monro, Vancouver, president; Hermann Robertson, Victoria, vice-president; treasurer, F. A. McLennan, Vancouver; secretary, J. W. McIntosh, Vancouver; executive, R. E. Ridgewood, Victoria, R. H. Biggs, Vancouver, and G. H. Manchester, New Westminster.

The next convention will be held at Vancouver. The members regretted the absence of Dr. Helmcken yesterday because of indolence. The provincial secretary, Dr. H. E. Young, addressed the convention.

**Committee To-morrow**—The electric lighting committee will meet to-morrow morning at ten o'clock, and the fire wardens at 10.30, the latter to bring to be used by the fire department. In the afternoon, in addition to the streets committee, the court of revision in the arbitration case in Victoria West will again hold a sitting.

**Decoration Committee**—A meeting of the decoration committee for the reception of the governor-general was held this morning, at which it was decided to call for tenders for the arches, competitors to submit their own designs. Several are proposed to be erected in the principal streets.

**NEW HOTEL OPENED.**

Cadboro Bay Hotelery Management Celebrate With An Enjoyable Dance.

The new Cadboro Bay hotel was formally opened last evening by a dance, the artistically decorated rooms looking very bright and gay with the guests who were present for the occasion. Dancing took place in the dining-room, which was cleared for the purpose, and the floor of which was in excellent condition. Herr Nagel's orchestra, which was stationed in the hotel lounge, providing a delightful programme of music. Quite a number of dancers were present, three tall-ho parties leaving town at 7, 8 and 9 o'clock, and dancing and music continuing until some time after 1 o'clock when the last party returned to town. The rooms were all prettily decorated with flowers, spacious sitting-out places being provided in the big drawing-room and the wide balcony overlooking the bay, while a delicious supper was served in the large alcove off the dining-room. The arrangements were carefully carried out, the management resourcefully meeting the emergency when the electric lights temporarily failed.

Among those present were Major and Mrs. Taylor and Miss Taylor, Major Banff, Capt. and Mrs. Clarke, Capt. and Mrs. Roush Cullen, Colonel and Mrs. Bruce, Mr. and Mrs. Sampson, Mr. and Mrs. George Agar, Mrs. Sneland, Mr. and Mrs. John May, Miss May, Capt. Stevens, Mr. and Mrs. Jarvis, Mr. and Mrs. Crook, and Messrs. Muirhead, C. W. Beale, Houligate, A. T. Hills, Chamberlain, Jameson, Mogk, and the Misses Fennell, Lindner, Baker, Gonsson, Gray, Kimber, Noble, Taylor and others. The hotel is commodious and comfortable, and has such a commanding view of the beautiful bay, the upland park and the surrounding country, that it is almost certain to become one of the most popular of the rural hotels on the island.

**A WESTMINSTER VISITOR.**

Prominent Royal City Resident Here for University Convocation.

T. J. Trapp, of New Westminster, was in the city yesterday for the first Convocation of the B. C. University. Mr. Trapp, who has been a resident of the Royal City for many years, and occupied many important public positions, including the chairmanship of the school board, and the presidency of the Royal Agricultural and Industrial Society, is enthusiastic for the progress of the Fraser river city. He says he little thought that the time would come when there would be an eight-story building on Columbia street. He referred to the Westminster Trust building, of which company he is president of the board of directors.

Mr. Trapp regretted the tendency manifested in recent agricultural shows to forget the original intention with which they were founded. The time was coming when their establishment in the interests of stock-breeding and agricultural education was being lost sight of in organizing attractions of the carnival type. Directors of agricultural societies, however, had to look to their gate money, and without sports, side shows, and similar accessories, exhibitions could not be carried on. However, the danger was that they became the first considerations, and dwarfed the larger causes for which the societies existed.

**A HANDSOME RESIDENCE.**

G. S. Brown Will Add Fine Structure to City's Beautiful Homes.

A building permit was taken out this morning for a handsome residence at the foot of Gonzales hill, facing on the Fairfield road, and comprising in the grounds an area of an acre.

It will be built by the Ward Investment company for Guy S. Brown, from the designs of Elmer E. Green, at a cost of \$15,000, and will be replete with every modern convenience. The design is an artistic addition to the homes of this city. It will be two stories high, with basement.

**HOSPITAL AT DUNCAN.**

Monthly Meeting Was Held Yesterday—Institution Is Flourishing.

The monthly meeting of the King's Daughters Hospital at Duncan was held yesterday afternoon at 3 o'clock. F. Matland-Douglass presiding in the chair. There was a good attendance and great interest was evinced in the proceedings, the reports submitted showing that the hospital there, as here, is quite inadequate to the needs of the community. In this connection it was announced that the intention is to erect either a maternity hospital or a nurse's home, as some extra accommodation is absolutely imperative. The present institution is in a flourishing condition financially, all ex-

**When Mary Garden Sings "Comin' Thro' the Rye"**

There is a sprightliness about it that did not seem to be there before. The wonderful flexibility of Mary Garden's voice, together with its rich volume, lends something to the old song that is bound to make it more pleasing than any other rendering. Miss Garden, who is leading soprano with the Metropolitan Opera Co., New York, also sings three other old Scotch songs, the four to be had on two double-discs. The others are: "Jock o' Hazeldean," "Blue Bells o' Scotland," and "John Anderson, My Jo."

**The List of September Records**

Besides Miss Garden's notable contributions, contains so many delightful selections of all kinds that no Columbia Graphophone owner can afford to miss asking for a catalogue.

There are some splendid records from "Cavalleria Rusticana," by Luisi Villani with Grand Opera Chorus and by Prince's orchestra; two fine sentimental records by Charles W. Harrison, tenor; "My Sumurun Girl," one of the season's hits, by Arthur Collins, baritone; two lively rag songs by Ada Jones; two good Scotch dialect bits by Billy Williams, and scores of other good numbers all well worth a place in your repertoire.

FREE CATALOGUE ON REQUEST.

# NEWS OF SPORT

## "KIDDO" WILSON HANDS GAME TO COLTS IN OPENING SESSION

### Kantlehner Replaces Him and Gets Even Break—Proceedings Started Like "First Aid to Injured Class"—Williams Out

Yesterday's Results.  
Portland, 6; Victoria, 2.  
Spokane, 3; Seattle, 0.  
Tacoma, 5; Vancouver, 2.

"Kiddo" Wilson started for Victoria yesterday, handed the game to the invaders without any loss of time and retired in favor of Kantlehner, who, in a little over eight innings, got an even break with Eastley, the Portland pitcher. Eastley was in fine shape and except in the fifth and eighth innings, on which occasions hee batters lost the ball over the fence, had Victoria feeding from his hand. The final score read 6 to 2.

Wilson had absolutely nothing on the ball and in the opening period the Colts stamped about the bases in high glee. Hausman miscued, but Fries doubled, Speas followed with a homer, McDowell singled and, after Steiger had fanned, Burch laid a fast one down close to second. Kellar made a spectacular snatch but foolishly tried to cut the batter down at first, the result being an overthrow that let McDowell in. Cruickshank grounded the ball to Brooks and Wilson covered the bag, but didn't hold the throw. While he gazed disgustedly at the ball Burch scored. Then Wilson was lifted.

Kantlehner's pitching was air-tight until the seventh, when an error by Kellar, a walk and a two-bagger by Fries gave Portland two more to count. In four innings Kantlehner retired the Colts in one, two, three order. Victoria's runs were both homers, as has already been stated. Kennedy belted the ball over the fence in the fifth and Brooks did likewise in the eighth and as luck would have it, the bases were utterly devoid of Bees on both occasions.

The proceedings yesterday looked like a "first aid to the injured" class in session at the start. Every moment of a man would fall and the other players would crowd about him, examining his ankle or some other part of his anatomy. Nick Williams was the first subject for practical demonstration. He hit foul and ran all the way to first, stumbling over the base and twisting his ankle. He couldn't play any more but the injury was not serious.

Then Rawlings and Burch fell over second base and had to be doctored and Eastley was hit by a terrific drive from Kellar's bat. Incidentally Eastley was credited with an assist for the ball bounded from his leg to Speas, who didn't have to move to retire the batter. The official score:

League Standing table with columns: National League, American League, Northwestern League. Rows include teams like New York, Chicago, Philadelphia, etc., with columns for Won, Lost, Pct.

Baseball Results table listing games not received yesterday, International League, and other regional games with scores.

#### NOYES HOLDS GIANTS DOWN; BEATS JAMES

Spokane, Wash., Aug. 22.—The Spokane batters had much the best of the visitors yesterday, though errors behind James figured largely in the local team's scores. Noyes pitched himself out of a bad hole, while James yielded his position badly.

Score by innings table for Noyes vs James game, showing runs, hits, errors, and bases on balls.

#### TIGERS WIN FROM CHAMPS; GOODMAN CHANGES OVER

Vancouver, Aug. 22.—The Tacoma Tigers again won from Vancouver yesterday by a score of 6 to 2. Goodman replaced Braisher at first base, and made good. The contest went into the tenth inning, when by bunting four hits the Tigers scored two runs. Score:

Score by innings table for Tacoma vs Vancouver game.

#### JACK HOGAN MATCHED WITH RITCHIE'S OPPONENT

San Francisco, Aug. 22.—Promoter James W. Coffroth announced last night that he had signed "One-Round" Jack Hogan and Willie Ritchie's opponent for a 20-round fight in San Francisco on Admission Day (September 9).

Harlem Tommy Murphy, who was the first choice for Ritchie's opponent, telegraphed from New York that because of a previous engagement he could not accept.

## STAKE EVENTS FOR FALL RACES

AT LEAST SIX EVENTS EACH DAY PROVIDED FOR

Daily Purse of Not Less Than \$1,800—Entries Close September 7

For the 1912 fall race meeting which opens September 14 and closes October 5, seven stakes have been provided with \$4,000 added money and a daily purse list of not less than \$1,800. There will be six or more races daily, and races will be conditioned to suit the horse in attendance. The money will be divided 70, 20 and 10 per cent, unless otherwise specified. Entries close Saturday, September 7.

#### HOCKEY PLAYER ON VISIT TO VICTORIA

Tommy Dunderdale, rover on the Victoria ice hockey team last winter, arrived in Victoria yesterday. Tommy is accompanied by his sister and his visit is partly a business one, but mostly for pleasure. He will remain here for three weeks before returning to his home in Winnipeg.

#### BAYLEY LEAVES FOR CALGARY TO-NIGHT

Meets Allen in Return Fight There September 4—Turns Barrieau Down

Joe Bayley, lightweight champion of Canada, leaves to-night for Calgary, Alberta, on September 4, he meets Billy Allen in a return fight for the Canadian title. Joe will be accompanied by Cyclone Scotty, his trainer, and his brother Tom.

#### HAL BEASLEY

Local sprinter who, it was announced, was to arrive to-day from Stockholm, where he competed at the Olympic games, as a member of the Canadian team. Tommy Gallon, another Victoria Olympic athlete, was also expected home to-day. A large crowd of their friends arranged to meet the two boys at the boat and give them a rousing reception.

acceptances due Friday, September 20; \$10 starting fee only liability; the Victoria Country Club to add \$500; 1 mile. To be run Saturday, September 21.

# KELOWNA NURSERY FOR SALE

As a Going Concern, Price \$17,000

Stock on hand will easy realize twice this amount by May, 1913. A positive bargain for a man that understands the nursery business. The demand for nursery stock in this growing orchard district far exceeds the supply. Great quantities are imported every year from the States. The stock offered consists not only of strictly first class quality but the varieties are most desirable for British Columbia. A rigid investigation of the merits and possibilities of this concern are invited.

### "PRO" LACROSSE GAME

HERE SEPTEMBER 25

Eastern All-Star Team and Vancouver Will Play Here on That Date

A professional lacrosse game between Vancouver and an eastern star team will be played here on September 25. That was the interesting announcement made by Con Jones, president of the Vancouver lacrosse club, who was in the city yesterday. Mr. Jones had a talk with L. A. Wattelet, president of the Victoria baseball club, regarding the grounds and, although terms have not yet been agreed upon, there is hardly a doubt that the game will be played at the Royal Athletic park. Under Jimmy Murphy, the Tecumseh

### Sidney A. A. Sports

SIDNEY, AUG. 24th

Bicycle road race, Victoria to Sidney; 100 yards dash; 40 yards race; open. Fifteen other events open to residents of North and South Sanich and Islands Electoral District. Entries, accompanied by fees, should be made to F. N. Teator, Sec.-Treas., Sidney.

### THIRD DAY IN GREAT CRICKET TOURNAMENT

Gloom Settles on Jubilee Grounds---Burrard Triumphant---Plethora of Good Bowling Performances Yesterday

#### MERITORIOUS PERFORMANCES.

**Batting.**  
 L. T. Dweley, Burrard vs. Victoria, 111.  
 H. Jepson, Albion vs. Saanich, 66.  
 C. Martin, Saanich vs. Albion, 61.  
 G. B. Grant, Victoria vs. Burrard, 59.  
 C. Curgenvin, Cowichan vs. Oak Bay, 59.  
 W. Thomas, Portland vs. Garrison, 56.

**Bowling.**  
 Welch, Esquimalt vs. University Masters, 8 for 21.  
 Speak, Oak Bay vs. Cowichan, 8 for 20.  
 H. Jepson, Albion vs. Saanich, 7 for 20.  
 Fanwick, Portland vs. Garrison, 7 for 52.  
 Beecham, Burrard vs. Victoria, 6 for 33.  
 W. York, Victoria vs. Burrard, 6 for 33.  
 E. W. Ismay, Albion vs. Saanich, 6 for 20.  
 W. D. Coton, Saanich vs. Albion, 6 for 52.

good Cowichan wickets for 11 runs apiece. But the Oak Bay batting was mightily unenterprising and they took over 3 hours to make 131. Pilkington batted two hours for 31 runs!

The Garrison team again found the road to victory, and in their present form are almost the equal of any team in the tourney. It will be interesting to see the result of their match to-day with Vancouver which practically decides the premiership of Division B.

University Masters had a very even game with Esquimalt in the first innings, getting the verdict only by three runs. However, in the second venture, so well did Tracey and Champion bowl that the villagers were all out for three-score runs. University knocked off the runs for the loss of only one wicket and won by nine wickets.

The standing of the clubs this morning was as follows:

Division A.				
	P.	W.	L.	Pts.
Burrard	3	2	0	6
Victoria	2	2	1	4
Albion	2	1	4	2
University Masters	3	2	1	4
Esquimalt	3	0	3	0
Saanich	3	0	3	0
Division B.				
	P.	W.	L.	Pts.
Vancouver	2	2	0	4
Garrison	2	2	0	4
Cowichan	2	1	1	2
Oak Bay	1	1	2	2
Portland	3	0	3	0

bright as the summer sun on the sward. W. York was bowling like a man possessed. Keeping a perfect length, and coming in sharply off the pitch, he took the first six wickets for very few runs, five of his victims being clean bowled.

But Dweley was immovable. Playing with superb confidence, and placing grandly, he took the score steadily ahead at this most critical juncture. Twynnam stayed with him and played very patiently. The Victoria total was passed and left behind. Change after change was tried in the bowling, but all to no effect. L. York was comparatively innocuous, and all the other bowlers were hit freely. Twynnam went, l.b.w., to Gray, after doing his side yoman service with 39 runs. Dweley was the last to go, playing a wretched stroke at a good length ball from Gillespie and being easily taken by W. York at short leg.

Victoria had another hour and a quarter of batting, during which time Grant treated the spectators to the most attractive exhibition of the day, two pulls over his shoulder to the boundary being particularly fine. Burrard won by 114 runs on the first innings.

Burrard won by 114 runs.

**A Bowler's Day.**  
 The bowlers always held the upper hand in the match at Mt. Tolmie yesterday. Tracey, Champain and Finlayson on the one hand and Welch and Hodgkins on the other found the drying pitch much to their liking, though Messrs. Sparks and Wenman broke

(Concluded on page 12.)

## You Can Build Any Kind of House But You Can't Build a View

There's a lot, only two miles from the centre of Victoria, on the lovely Cedar Hill Road, that YOU should buy TO-DAY before some other lover of a homesite beautiful steps in ahead of you. This lot is level and cleared, save for some magnificent oaks and firs; it is sheltered from prevailing winds and it commands a view that sweeps the whole countryside from Cordova Bay to Esquimalt Harbor. It's a big lot, too, and lends itself naturally to the development of a REAL home. You haven't seen this lot, so you must take our word for it. But, to prove the assertion we have made, we'll take you to look at it free, and you'll enjoy the trip immensely.

This Lot Won't Cost You More Than

# \$700

One-fifth cash, the rest in 6, 12, 18 and 24 months at 7 per cent.

As a Homesite it Has No Equal at Twice the Price. As an Investment it Will Sell at a Profit This Year

To-day-Not To-morrow-Is the Time to Buy

## LINERS OF 20 KNOTS FROM SOUND TO GATE

Rumored That Vessels of Class  
of Yale and Harvard Will  
Run to San Francisco

San Francisco, Aug. 22.—Rumors of activity among shipping men tending to place several fast steamships between San Francisco and Seattle are being actively circulated here. Some time ago, when the Pacific Coast S. S. Co. first announced its intention of building two new steamships, it was expected that a revolution in the type of coastwise craft plying to the northern part was near at hand. When the plans were exhibited, however, it was found that with the exception of building a more luxurious class of vessels than the liners Governor and President, no effort would be made to have the speed more than sixteen knots.

Although the management of the Pacific Navigation Co., which operates the fast turbines Yale and Harvard between San Francisco and Los Angeles, refuses to affirm the report that it intends to place at least two fast vessels on the run between here and Seattle to operate in conjunction with the Yale and Harvard. It is rumored that they are refraining from a public announcement until their plans have been perfected.

Despite the competition to Los Angeles by water, the turbines have demonstrated that the travelling public will patronize vessels of the Yale and Harvard type, although the cost of transportation is in excess of that charged on other vessels. It is believed that two or more twenty-knot steamships on the San Francisco-Seattle run will result and just as profitably. Shipping men argue that the sixteen-knot steamships will fail to detract from the railroad trade but those with a speed of 20 knots will create a traffic which at present does not exist.

## SHIPPING INTELLIGENCE

Aug. 21.

San Francisco.—Arrived: Steamer Columbus; Salina Cruz; Quinsuit; Willapa; Redondo, Coos Bay; Watson, Maverick, Seattle; Stratford, Newport News; Senator, Antwerp. Sailed: Steamer Lurline, Honolulu; Hampden, Vancouver; Shna Yak, Gambie. Astoria, Ore.—Arrived: Breakwater, Coos Bay; Yellowstone, San Francisco; Carlos, San Francisco; Yosemite, Oileum, San Francisco. Sailed: W. S. Porter, Portland. Seattle, Wash.—Arrived: La Touche, Tacoma; Prince Rupert, Prince Rupert. Sailed: Mexican, Sitak, Tacoma; Umatilla, San Francisco; Prince Rupert, Prince Rupert; Mackinaw, Nome; Dolphin, Skagway.

### SOCKEYE SEASON NEARLY OVER

New Westminster, Aug. 22.—One of the smallest catches in the last six weeks was recorded in the river yesterday, and local canners declare the sockeye season is practically over. While no accurate figures of the pack are yet available, it is believed that they will compare favorably with that of last year on the river. In fact the catches have been bigger than the earlier catches seemed to suggest would be the case. The best bid this week on a case of half-pound flats-sockeye brand was \$9, while \$10.50 was given earlier in the season. Leading packers will try and keep opening prices from being named until the actual size of the pack can be learned.

### COLLISION AT FRISCO.

Steamers Marshfield and South Coast in Smash—Latter's Starboard Side Stove in.

San Francisco, Cal., Aug. 22.—The steamer Marshfield bound for Hardy

Creek, and the steamer South Coast, inbound from Eureka, collided last night shortly after 9 o'clock off Point Bonita. The South Coast had her starboard side stove in but was able to reach port without assistance. The Marshfield proceeded on her voyage. No one was injured.

## AWAY FOR FAR EAST AFTER SHORT STAY

### Tacoma Maru Left Port To-day—Unloaded and Reloaded in Week—A Day Late

After spending just over a week on the Sound, during which time she discharged 3,000 tons of cargo cleaned out her holds and took on 7,000 tons of freight, the Osaka Shosen Kaisha liner Tacoma Maru, Capt. Hamada, left Victoria this afternoon at 3 o'clock for Yokohama and other Oriental ports. The Japanese steamship had all her holds filled to their capacity with general merchandise, and it was with some difficulty that all the freight which was billed at the Tacoma office could be crammed away under her hatches.

The Tacoma Maru arrived here a week ago last Tuesday from Yokohama, one week behind her schedule. The following morning she proceeded to Tacoma, and as the officials wished to get her away on schedule time an additional force of stevedores was employed in order to hasten the work of discharging and loading. During the time the Maru was on the Sound she had to shift to Seattle, and then back to Tacoma, which required a day. Although the Tacoma is one day late leaving Victoria, the stevedores have done remarkably well in getting the vessel away in such fast time.

Included in the cargo stowed away in the holds of the Tacoma Maru was a shipment of steel plates. The Osaka line about a year ago was awarded a contract to carry about 20,000 tons of steel products across the Pacific to Japan, and this work has almost been completed. The Maru also had consignments of flour, wheat, fish, lumber, condensed milk, sewing machines, automobiles and phonographs. A number of passengers went out on the Maru, several Orientals joining the vessel at this port.

The Panama Maru, Capt. Kanao, of the same line, which arrived in port yesterday afternoon from the Orient, cleared last night for Tacoma, where she arrived early this morning.

## SPECIAL VOYAGE TO JAPAN ARRANGED

### SADO MARU IS TAKING STEERAGE EXCURSION

### 200 Japanese Will Leave the Sound on Her—Is Being Specially Fitted Up

Arrangements have been made by the officials of the Nippon Yusen Kaisha for running a special steamer excursion from Seattle and Victoria to Yokohama, Kobe and Nagasaki on the steamer Sado Maru, the next vessel of the line to arrive here from the Orient. The trip has been arranged especially for Japanese, and it is understood that some 200 sons of the Mikado with their wives will cross the Pacific to spend a visit in their native land. The Sado will leave Victoria for the Orient on September 10, and reach Yokohama on September 16. Those taking in the trip will return on the next Nippon liner sailing from Yokohama after the arrival of the Sado.

According to her schedule the Sado Maru will arrive here next Wednesday from the Orient. While waiting at Seattle her stowage accommodation is to be cleaned, painted and fitted up in a different style than it is usually found in. The bunks are to be curtained off, and each one will be better arranged. More elaborate meals will also be provided on the excursion, and the passengers will have more privileges than are usually granted to those travelling steerage.

Although first class travel to the Orient is heavy at the present time there are very few Orientals going across in steerage. A number of Japanese, who desired to return to their native land on a holiday trip, interviewed officials of the Nippon Yusen Kaisha with a view to having a special excursion run, and the company conceded to their wishes. Quite a few Japanese will leave Victoria, but the majority will join the ship at Seattle. W. R. Dale, local agent for the Sado Maru, has been advised that the Sado Maru is bringing to Victoria 350 tons of general freight and a passenger list of 137 Chinese and 40 Japanese. She also has a good cargo and list of saloon passengers for Seattle.

The Awa Maru, of the same line, will leave Victoria on Tuesday of next week for the Orient, and she will have done remarkably well in getting the vessel away in such fast time. She will also take out a full cargo of general freight.

With a good crowd of passengers and some freight the Boscowitz steamer Venture, Capt. Parks, left port last night for Bella Coola.

Late to-night the Pacific Coast steamer City of Puebla, Capt. Paulsen, will arrive in port from San Francisco. She is bringing north a full cargo and a large number of passengers.

Speaking of the characteristics of deepwater captains a retired Portland mariner has said: "Whenever my ship makes a smart passage he usually uses the personal pronoun I, taking the full credit for it, as for instance: 'I took her down to Newcastle, from the Columbia river in fifty days.' If the ship shifts to 'we,' like this: 'Yes, we had had luck this passage—we ran on the rocks.'"

The steamer Alaskan, under charter to Dodwell & Co., and plying between Victoria, New Westminster, Vancouver and the Sound, is hauled out at the B. C. Marine railway at Vancouver, having a new propeller shipped. While in the Narrows on Sunday she struck a log which stripped the blades and disabled her. The tug Queen picked her up and towed her to Vancouver.

The American steamer Tampico sailed from San Francisco yesterday with cement for Vancouver. News to this effect was received this morning. A regular fleet of steamers and steam schooners is now bringing cement and asphalt to Victoria and Vancouver.

Preparations are being made to float the steamer Camano which was sunk at Everett last week by the Sioux. The Inland Transportation Company, owners of the damaged passenger craft, expects to beach the Camano by using scows and later to repair her hull.

## MONTEAGLE 36 HOURS AHEAD OF SCHEDULE

### Arriving Here Late To-morrow Afternoon—Has Many Mis- sionaries and Tourists

Latest advices received from the R. M. S. Monteagle, Capt. Davison, say that the big trans-Pacific liner will reach William Head from the Orient at 5 o'clock to-morrow afternoon. She will be tied up at the Outer Docks an hour later and after the Chinese passengers for this port have disembarked she will proceed on to Vancouver. Although the Monteagle has several hundred tons of freight for Victoria she will not stop here long enough to discharge it as her mails and silk must be landed at Vancouver at the earliest possible moment to be rushed through to the East. The local cargo will be discharged at the Terminal City and re-shipped here.

The Monteagle has a large list of saloon passengers, a large number of whom are missionaries who are returning to their homes in Canada and the United States on furlough. There are also many tourists who have been visiting in Japan and China. In the steerage there are several hundred Orientals and many of the Chinese will leave the ship here. The Monteagle is about 36 hours ahead of her schedule. While on her outward trip from Victoria the Monteagle broke her piston rod and had to lie at a Japanese shipyard for a brief time until repairs were effected. While in the Orient the C. P. R. steamer was rammed by a Japanese vessel, but she came out best and was undamaged.

On her next trip to the Orient the Monteagle will sail from this port on September 3.

## MANY GOING TO SALE OF LOTS AT RUPERT

### Boats Leaving for North in the Next Few Days Will Have Hosts of Speculators

Local ticket agents of both the Grand Trunk Pacific and Canadian Pacific have been called upon to make a large number of reservations on their steamers sailing from here for Prince Rupert within the next four or five days. The sale of government lots at Prince Rupert on August 28 is attracting a large number of speculators to the northern town and it is estimated that about one hundred business men from Victoria, Vancouver and adjacent American cities will attend the sale. Capt. Barney Johnson, Prince Rupert, the G. T. P. steamer Prince Rupert, which left port this morning for Prince Rupert, had a number of speculators aboard and the C. P. R. steamer Princess May, Capt. McLeod, which clears to-morrow night will also have quite a few. The majority, however, are expected to leave on the Prince George, Capt. McKenna, which clears from Victoria on Monday next. The George will arrive in Rupert the morning of the day on which the sale opens and will be the first boat to get away following the finish of the auction.

## OPENING OF SALMON PACK

Expect Prices Will Be Named Early  
Next Week—Not As High As  
Last Year.

Seattle, Aug. 22.—Jobbers and retailers all over the world are now awaiting the opening of the salmon pack. If all opinions do not miscarry, the prices will be named early next week. Packers now have a pretty good idea of the size of the pack to date, and are in a position to tell the late pack in southeastern Alaska, and on Puget Sound. From all sides it was the report that opening prices would not be as high as last year. Eastern jobbers make the prediction that reds will open at \$15. A well known local factory yesterday made the prediction, however, that in view of the large pack offered in the Bristol Bay district, opening prices on reds would not be as high as many expect. Insiders look for low prices on plinks. Last year's attempt to lift the price to \$1 was not very successful. This year competition is keener, on account of the large number of canneries.

## For San Francisco and Southern California

From Victoria 8 a. m. every Wednesday, S.S. UMATILLA or CITY OF PUEBLA, and 10 a. m. every Friday from Seattle, S.S. COCKERN or PRESIDENT.

# PORT ALBERNI CITY LOTS

Port Alberni is the centre of an immense timber district possessing sufficient timber for a cut of a million feet a day for forty years.

Port Alberni is underlaid with immense areas of good coal.

Eight to twenty hours can be saved on the present mail route time to the Orient by the Port Alberni route.

Port Alberni has a harbor one and a half miles wide, ranging from 60 to 300 feet deep, and possesses natural dockage and wharfage facilities unsurpassed on the Pacific Coast.

**No matter if you have one hundred dollars or a Thousand dollars you can take advantage of this sale.**  
**EASY TERMS**

**Victor J. Green has received instructions that not one lot must be left at the termination of sale.**

**Every lot goes to the highest bidder at once.**

**Two sales a day. 2 p.m. and 7 p.m.**

**TERMS OF SALE: 10 Per Cent Cash, 5 Per Cent per month, or 1-4 Cash, Balance 6, 12, 18, 24 and 24 Months or 1-2 Cash, Balance 6, 12, 18, 24 and 30 Months.**

**NO INTEREST NO TAXES**

If you are anxious to clean up a big pile of money within a short space of time—then be at the sale the moment the doors open. Fortune is calling you. You'll never have another opportunity like this one again. Don't wait until the last sale on the 27th inst. You'll probably be too late then. Judging from the enquiries it looks that every lot will be sold on the first day, so don't be late. Take advantage of this opportunity during its lifetime. You can purchase heavy at this sale with a feeling of safety, because you know you can resell almost the next minute at a profit. All Victorians know that Victoria is destined to become a great city, they have faith in the untold resources of the island, and they know that Port Alberni, being located in the centre of the Island, is bound to become a city of gigantic proportions. Call or write Victor J. Green, Westholme Hotel, Victoria, for literature and full particulars.

## INJUNCTION AGAINST TELEPHONE COMPANY

POST LOCATIONS OF TWENTY-FIVE FEET

Telephone Corporation Shows Right by Scale of Plat to Put Posts in Road

Under a plan put before Mr. Justice Murphy, in supreme chambers this morning the B. C. Telephone Company claimed the right according to scale to put poles on Dallas road as close as twenty-five feet apart, and under the same plan, if the technicality on which the company is proceeding is to hold good, the company may place its poles in the centre of Dallas road or any other street where approved post locations are shown. The plan is drawn to the scale of 400 feet to the inch, and the round spots in the plan showing where the poles are to be placed measure, according to the scale, twenty-five feet in diameter.

Application made a week ago before Mr. Justice Murphy by the city for an injunction restraining the company from planting poles unless on approval of the city officials, was adjourned then until to-day, and this morning his lordship allowed the injunction until the action comes up for argument. No date has been set.

The plan produced by the company under which it claims the right to plant the poles so close together is an approved plan bearing the signature of the ex-city engineer, Angus Smith. The post locations are shown in small black dots, and according to scale reach twenty-five feet out into the roadway. The dots were intended to mark the locations, but they have been made larger than the plan scale.

An injunction was granted to the city solicitor in the case of the city against Payne. It is an interim injunction until August 29, and is in connection with the occupation of land on the Sooke lake water works system.

The conviction recorded in the police court against the Arcade restaurant, Government street, for selling liquor to a minor, was quashed this morning by Mr. Justice Murphy on the ground that the proof of the minor's age was not sufficient.

The release of James Cox, alias Joseph Gillen, who has been held by order of the minister of Justice for deportation, was ordered this morning on the application of George Morphy. Cox was a Vancouver prisoner sent here to serve his term.

## ARE HEADQUARTERS TO BE TRANSFERRED?

Rumor That D. O. C. is to Move to Vancouver—Col. Wadmore to Retire

There has been a rumor in circulation for some time to the effect that the military authorities at Ottawa contemplated the transfer of the headquarters of the militia district embraced in British Columbia to Vancouver.

Victoria has been the headquarters ever since the district was organized; its naval and military associations have become known throughout the world and any such step as that reported should be resisted to the utmost. Should there ever be a Canadian fleet on the Pacific, Victoria will be its station and it would indeed be a calamity if the headquarters of the two arms of defence were separated.

Color is given to the rumor by the report published in the government press that Col. Wadmore, who is to be retired on December 1, to be succeeded by Col. A. Roy, M.G.V.O., the officer commanding the fourth division at Montreal, who, as the dispatch states, "goes to Vancouver."

## LABOR MEN WILL NAME LEGAL ADVISOR

Council Endorses Principle of Industrial Unionism—Poll Tax Protest

At a meeting of the Trades and Labor Council yesterday evening it was decided that in view of the increasing labor interests of the city, the proposal of retaining a legal advisor in the interests of the council and affiliated bodies, should be adopted. Negotiations are in progress with a legal gentleman to arrange for his services.

Delegate Havers objected at the meeting to the method adopted of collecting the government poll tax. The system of collecting from employers, without giving the employees an opportunity to show exemption receipts, came in for criticism. The aggrieved party has to lose time to obtain the refund from the collector's office. The Attorney-General will be informed of the situation by the secretary. It was decided to draw the attention of the city council to alleged discrimination in connection with the use of the streets for public speaking, and it was stated that the police showed partiality in their way of granting permits.

### POLICE SUPERVISION.

Oak Bay Council Cannot Delegate This to Commissioner.

At the meeting of the Oak Bay council last evening the clerk stated that the municipal commission had informed him that a municipal council such as Oak Bay had no power to delegate their supervision of the police to a commissioner and must manage it as a council. This was referred to the committee, as were several other questions dealing with the appointment of a caretaker, an offer by Judge Lampran to give a strip of his land for roadmaking, and the permit for the coming race meeting. The clerk reported that he had been accorded a two-hour hearing by the municipal commission and had brought up several points of municipal accountancy as well as the depositing of municipal sinking funds with the government instead of with banks, and the periodical inspection of their books by a government official. A letter from the city was read offering to pay half the cost of the construction of the sewer on Foul Bay road and half the cost of maintenance yearly, subject to the approval of the city solicitor. The agreement with the B. C. E. Company in regard to street lighting was referred to the committee which sat immediately after the regular meeting. The council was advised by its solicitor that any claim by the hospital for treatment rendered to inhabitants of the district falls first on the patient or his legal guardian, and only falling their coming forward, on the municipality. It has been accordingly decided to notify the city medical officer of health to collect all dues from the persons treated. Owing to an amendment to the legislation for municipalities in regard to whether vendor or vendee under an agreement of sale shall have the power to vote, it will be necessary to have a new voters' list made out for the Oak Bay district, and the council have expressed a wish to have copies of the amended act placed at their disposal so that the matter might be investigated.

### SEAWOLF'S FISHING FLEET.

Capt. McLean Sends Three Vessels to Sea, Including Schooner Mary Taylor.

Vancouver, Aug. 22.—Hind Bros' wharf was a scene of excitement last night when a number of shipping men gathered to watch Seawolf McLean's fleet start for the coho fishing banks of the north end of Vancouver Island. The ex-sealing schooner, Mary Taylor, the ex-yacht Blant and the auxiliary schooner Seabird comprised the squadron which will use the purse seine in the hunt for cohoes.

One speaker described it as "more like Moscow than Victoria." The council went on record as endorsing the principles of Industrial Unionism, and Delegate Sivertz will bring the matter to the attention of the Trades and Labor Congress of Canada. The Labor Day committee, who have charge of the arrangements for Monday week's celebration, stated everything was satisfactory, and only wet weather would spoil the celebration.

Successors to CHALLONER & MITCHELL, Central Building

### Clocks That Will Lend Life to Your Home

Did you ever remove a clock from a room after it had been there for some time? Did you notice how devoid of life that room became? Why not live up your home and have an appropriate clock in as many rooms as is consistent?

We have a splendid line of clocks, some of which are worthy of gracing the most artistic room. A number are of very fine French and Italian marble with bronze figures and candelabra. Beautifully enamelled mantel clocks with cathedral gongs, striking the hour and half hour; brass and silver, desk and bedroom clocks in different designs. Also high grade French clocks in leather traveling cases, including a collapsible traveling watch.

We guarantee every clock, which means that they, besides being ornamental and handsome in design, are strictly reliable timekeepers.

### The Evening Chit-Chat

By Ruth Cameron

"Did you ever know such a bright girl as Eleanor?" said the lady who always knows somehow, as she smiled and nodded to a young girl who was passing down the street.

"Bright!" sniffed the author's wife.

"Well, that's a first. I would ever apply to her. I think she's a perfect stick. I never heard her say an interesting thing."

Yes, they were talking about the same girl. There was a mistake about that. Where was the girl? No, these two people were simply unconsciously illustrating the psychological fact that our friends in our presence are what we help to make them as well as what they are themselves.

Only the exceptional human being is a fixed personality, appearing the same to everyone whom he meets. Most of us are variable. The product of our own personality times the personality of the person we are with.

Surely you have noticed this phenomenon in yourself, even if you haven't exactly classified it.

You have a friend who is vivacious and full of fun, always seeing the amusing in everything, always ready to laugh at any attempt at wit. In this girl's company all the vivacity in you comes to the surface. You laugh at things which would never occur to you as amusing under other circumstances and you are so witty that you are actually surprised at yourself.

The next day you are in the company of a conventional-minded person whose outlook on life is as heavy and serious as your other friend's is light. To-day there is not a spark of wit in your conversation. Nothing amuses you and you talk broadisms and conventionalities as naturally as you talked witticisms the day before.

Now could anything be more unlike than these two personalities who have inhabited your body in this short time? Is it strange that these two friends probably have a totally different idea of you?

An even more subtle influence of a friend's personality which I have noticed is that we write a very different letter to different people.

Recently I had occasion to write half a dozen notes to different people on much the same subject. To some I wrote easily and chattily; for others I wrote only a stiff and formal epistle. Now was the difference merely caused by the varying length of our acquaintanceships. One of the notes which I struggled over the longest was to a woman whom I have known all my life. And one of the easiest to write was to a comparatively new friend. It was simply the influence of their congenial or uncongenial personalities reaching me through space and making it difficult or easy to chat with him.

And yet more than that—I found myself writing to one girl in the same extravagant, half sincere vein in which she would have written to me; and to another with the ultra frankness which is her distinctive characteristic. Really, it is an interesting study—the effect of other personalities on ours. And if you fancy I am talking unmeaning theories, just take the pains to observe yourself in this matter, and I think you will change your mind.

Ruth Cameron

associated with the big Canadian banking institution almost continuously since 1878, the only break being during the Riel rebellion, when he went to the front with the Queen's Own Rifles, of Toronto. He was in the engagement at Cuervo creek.

Mr. Fraser's first banking experience was gained in Ottawa, thence he was moved to St. John, N. B., in 1881, and subsequently to Toronto, being transferred to Hamilton after being discharged from hospital at the conclusion of the rebellion.

In 1888 came his first experience in British Columbia, he being transferred to New Westminster, and eight years later promoted to manager of the Rossland branch.

His departure from Rossland was the occasion of a remarkable demonstration of regret and esteem, the details of which appeared in this paper at the time.

Yesterday afternoon at the residence of the vice-president, Mrs. Hart, Courtney street, the Victoria Women's University Club entertained the women members of the convocation of the University of British Columbia to luncheon, the tables being set on the lawn. About fifty guests were present, Miss Cann, the president, presiding at the principal table, while beside her were Mrs. Peter McNaughton, of Vancouver, and Mrs. J. W. de B. Farris, of Vancouver, who, with Mrs. Watt, who was also present, were the two women elected members of the university senate. The tables were prettily decorated with bows of flaming dahlias, the guests being welcomed by Miss Cann in a short formal address to which Mrs. Watt and Mrs. Farris responded. Others who spoke to the visitors were Mrs. McNaughton and Mrs. Jenkins, the women-trustees on the schoolboards of Vancouver and Victoria respectively, and Miss Ravenhill.

Last night, in the legislative chambers, the provincial executive council were the hosts at a reception held to the members of the convocation visiting the city, the function being attended by a large number of the public as well as the visitors, those receiving being the Hon. the Lieutenant-Governor and Mrs. Patterson, the latter wearing a beaded tunic over aquamarine satin; Sir Richard and Lady McBride, the latter in oyster white charmeuse with diaphanous tunic of steel-beaded white net; the Attorney-General and Mrs. Bowser, the latter in an ivory colored toilette with which a big plumed hat was worn; Miss Eberts, however, in a frock of cream-embroidered net and lace with touches of pink and robin's egg blue; Hon. Dr. Young and Mrs. Young, the latter wearing fourreau of cloth of gold with overdress of brown chiffon; Mrs. Eberts, wearing a black and white

### "COMPETITION"

"Open to the People of Vancouver Island"

The Executive Committee of the VICTORIA PROGRESSIVE CLUB invites the people of Vancouver Island to compete in the creation of a "SLOGAN" suitable for the City of Victoria. Slogans used by other cities WILL NOT DO.

"The Germ of originality breeds success!"

The person sending in the slogan which the club decides to adopt will be presented with a LADY'S OR GENTLEMAN'S SOLID GOLD WATCH

The following conditions must be observed:

1. Not more than five words to be used, other things being equal preference to be given to the shorter slogan.
2. No one candidate to send more than two slogans.
3. The slogan must bear the name and full address of the sender legibly written.
4. The competition will close on August 31st, but letters bearing that post mark will be opened.
5. Letters will be opened in the order in which they arrive, and if two persons submit the winning slogan the prize will be given to the person whose letter was first opened.
6. The envelopes must be addressed to the secretary and be endorsed "Slogan Guessing Competition."
7. The competition is open to all residents on Vancouver Island.
8. The Executive Committee will be the final judge.

"LITERARY COMPETITION"

The Executive Committee will also give a prize of a beautiful Solid Silver Toilet Set to the lady or gentleman who sends to the secretary before August 31st the best essay on the future of Victoria. The rules for the slogan guessing competition hold good for this one, except rules 1, 2 and 6.

The essay is to consist of not more than three hundred words. ONE ESSAY ONLY to be sent by each competitor. Endorse your essay wrapper "LITERARY COMPETITION."

For further particulars apply to the Secretary,  
Suite 12, McGregor Block, View Street, City.

# INFLUENCES AT WORK TO SUPPORT INVESTIGATION

## Reorganization Created Grievances of Men— Large Expenditure Much Exceeded Estimates— What Inquiry Should Seek to Unravel

The investigation which is to be held by the committee of three into the expenditure of the sewer loan of \$450,000 must be effective if it is to secure the results desired and the confidence of the public.

Careful inquiries into all the circumstances which have arisen suggest the conclusion, which is almost certain to be reached by the committee, consisting of Alderman Humber, chairman of the sewer committee, Aldermen Gleason and Okell, the latter named being acting mayor in the absence of Mayor Beckwith at Windsor, that the inevitable reorganization has displaced men, some of them long residents of the city, who have represented their case to aldermen and others with influence. This has caused the sense of dissatisfaction which has culminated in the charges made a few weeks ago, and are repeated now. It accounts for the factor of personal uncertainty and uneasiness. There has been a change of engineers while the loan was being spent, and the money was gone before Mr. Rust had an opportunity to complete the investigation and reorganization of the staff. Men carried on the roll without doing a full day's work have been dropped, and departments at the city hall have been reformed, one (that of the late superintendent of construction), being removed altogether, and then when the money suddenly ended, the trouble began, and hence to find out how it went is the cause of the inquiry.

When Smith's Hill reservoir was finished, men who had made good there were absorbed, and their employment added fuel to the flame of discontent. The report presented to the council on May 10, which had been in Alderman Humber's possession, contained a statement of the money remaining at that time, and how it was to be expended. The intention was that that information should have been turned over to City Engineer Rust on his arrival the week after the

report was adopted, but according to what he says this was not done.

The council then determined on how the money should be spent, and the mayor concurred in the report. The question aldermen are asking themselves is whether the amount then specified was actually available, and if more money had not been spent than appeared on the figure sheet before the council at that meeting. One alderman asks how did the city spend \$3,400 a day between April 28 and July 2, as he figured it out from the comptroller's regular reports to council?

The public will expect that the inquiry shall be full and public. They will want to know who had the appointment of the men, and what were their qualifications? Had any outside political body any influence in the appointments, and if so why were they allowed to stand between the officials responsible and the men? Allowing for the natural bias of men whose livelihood has been affected, the committee should be able to know who carried out the works on the streets, and if the foremen were competent? If the men were incompetent, then the extra cost of work will excite no surprise.

If the investigation secures the results which are anticipated, the public will owe a debt of gratitude to Alderman Humber for starting the inquiry, and if there is nothing to conceal then let the men concerned court the fullest examination of their administration. The witnesses must be fully protected, and assured that there will be no discrimination against them hereafter. A full inquiry can only be welcome to the new engineer, as helping to clear the air of grievances which always arise when men are reorganized out of employment, whether the public service demands the sacrifice or not. Sewer work is expensive, and particularly in the large amount of rock which has to be excavated at the present time, accounting for a large share of the expenditure.

# ENTERTAINMENT OF FLYING LEGION

## The Programme Has Been Definitely Prepared—A Busy Time Ahead

The following arrangements have been made for the entertainment of the Flying Legion during their stay in Victoria:

Saturday, August 24, 1 p.m., the Victoria Royal Yacht Club will meet the Princess Victoria on which the visitors are to arrive, and will escort the vessel to the C. P. R. wharf, where they will be received by the members of the Victoria citizens' committee. Shortly afterwards a reception lunch will be held at the Empress hotel, where the delegates will be welcomed to the city by His Worship the Mayor and Premier McBride, and the presidents of Victoria commercial bodies. In the evening, commencing at 8.30, a public reception will be tendered to the delegates in the parliament buildings by the legislature, to which the public are invited.

On Sunday afternoon the visitors will be taken around the city in automobiles.

The Arion Club will give a concert on Sunday night at 8.30 o'clock in the Empress hotel rotunda.

The delegation will be leaving at 5 o'clock Monday morning for an automobile trip to the lumber camps at Jordan river, where the complete process will be seen, and where luncheon will be partaken of. At 8 o'clock on Tuesday morning a special train will leave for Nanaimo, where the party will be entertained at lunch, after which the mines of the Western Fuel Company will be examined, and a motor drive taken round the district.

On Wednesday the day will once more commence early, the party leaving shortly after 8.30 via the Malahat drive, for Shawnigan Lake, and in the afternoon, once more, returned to town, will be the guests of Mr. and Mrs. F. Pemberton at a garden party to be held at Mount Joy, the evening to be spent in a general reunion and smoker at the Empress hotel, when a musical programme and speeches will make a pleasant evening for the visitors. This will bring the visit of the Legion to a close, and it is anticipated that they will leave by the midnight boat for Vancouver.

In this connection the Times is requested to state that so complimentary tickets are to be given out. Tickets which will entitle their holders to the trip to Nanaimo and back, the lunch at the Empress and the smoking concert in the same place, can be purchased for \$5, which is little enough for what they will provide for.

There are 125 tickets left. These can be obtained from the secretary, Randolph Stuart. For the big reception in the parliament buildings on Saturday night no special invitations will be issued, but the premier desires the public generally to attend.

# TO-DAY'S CRICKET

Saanich opened splendidly in their match with Victoria this morning on the Jubilee grounds. With Horton and Martin in first for the suburbanites, they started to hit immediately, Horton bringing off some fine off-drives which found a billet in the boundary on almost every occasion. Martin was slower in getting settled down but afterwards made some pretty strokes, one wrist shot through the slips in particular being very well timed. He also placed three good twos in succession between point and cover.

Horton was beaten at length by a great ball from E. A. Goward when he had scored 27. Martin continued to monopolize the bowling after his partner's dismissal and eighty came on the board in very quick time. Martin reached his fifty with a drive past mid-off for two. Scores:

R. J. Horton, b. Goward ..... 27  
C. Martin, not out ..... 55  
Allen, not out ..... 8  
Extras ..... 5

Total for 1 wicket ..... 95

Albion v. Esquimalt.

Albion fared none too well in the early stages of their match with Esquimalt this morning. Welch, of Esquimalt, whose bowling has been remarkably consistent all through the week, was in great form this morning. Ismay fell clean bowled, after he had scored only eight, and Ward was nicely taken by Thomson off the same bowler shortly afterwards after augmenting the score by 11 runs. Pegler hit hard for 18 and was then caught by Lloyd off Baker.

L. B. Trimen was the only one to make a stand, and by means of careful play he hit up 46 before he was bowled. Scores:

H. A. Ismay, b. Welch ..... 8  
E. P. Ward, c. Thomson, b. Welch ..... 11  
H. H. Pegler, c. Lloyd, b. Baker ..... 18  
Barrington Foote, b. Welch ..... 11  
H. J. Jensen, b. Welch ..... 8  
E. W. Ismay, c. Thomson, b. Welch ..... 1  
J. Idiens, not out ..... 23  
G. Wilson, b. Welch ..... 0  
L. B. Trimen, b. Welch ..... 46  
Extras ..... 8

Total for 8 wickets ..... 134

Portland v. Cowichan.

There was quite a fair gathering of spectators when Portland opened their last fixture to-day with Cowichan. Portland batted first, and sent in Tarilton and Captain Churchley. Cowichan opened the attack with Brooks-Smith and Sullivan. They were not associated long, however, as Tarilton was bowled by Brooks-Smith, when he had added three as his contribution to the general total. Churchley also could only score a four. With McKillop and Smith allied, however, matters took on a different complexion. McKillop played with great confidence, and repeatedly turned Brooks-Smith to leg for a couple or so.

Another good innings was that played by Thomas, who unfortunately played on when he had reached thirty runs. His driving was very clean, and his leg glances well timed. He off-drove Brooks-Smith once to the boundary with as pretty a stroke as one could wish to see, while he also late cut the same bowler past point for a three.

He was missed at cover when he had scored 25, but that was the only blemish in a very good display. Scores:

Portland.

Tarilton, b. Brooks-Smith ..... 3  
Churchley (Capt.), b. Sullivan ..... 4  
McKillop, c. Hayward, b. Sullivan ..... 38  
Smith, G., b. Brooks-Smith ..... 19  
Fenwick, not out ..... 13  
Thoman, b. Brooks-Smith ..... 30  
Patullo, not out ..... 4

Total (for 6 wickets) ..... 119

Vancouver v. Garrison.

Vancouver collared the Garrison bowling this morning and set the military men leather-hunting in real earnest. After an indifferent start Peers came in and hit the ball to all parts of the field. When lunch time arrived Vancouver had scored 236 runs for five wickets, and Peers was still not out with 148 runs to his credit. Scores:

Vancouver, 236 for 5 wickets. Peers 148, not out.

University Masters vs. Burrard.

The University Masters put up a great performance against their powerful rivals, the Burrards—eleven, this morning, and scored 178 for the loss of nine wickets. Of these F. H. B. Champain scored 32, Wenman 31 and Sparks 49.

University Masters, 178 for nine wickets.

# PUBLIC SWIMMING BATH PROPOSED

## MAYOR WILL PRESENT SCHEME TO COUNCIL

### Proposal Can Be Made Financially Sound, Apart From Other Advantages

The proposal of the swimming and life-saving societies for an open air swimming bath in this city, which has long been pressed in the newspapers and elsewhere, has now taken such form that Mayor Beckwith was able to announce this morning that the scheme would go ahead, and that he would recommend the city council to place a by-law before the people at an early date as possible.

The absolute confidence that a salt bath can be made financially sound, apart from its admitted convenience to the public, has justified his worship in making the announcement, although he stated that the projected site was not quite in the stage that it would be intimated to the public. He mentioned, however, that it would be in such a location that a main could easily be utilized to bring salt water from the shore.

He has been in consultation with P. R. Pomfret, representative of the Royal Life-Saving Society here, and an officer of the B. C. branch, and William Mead, both of whom will assist in the proposal, and they have the backing not only of the organized swimmers of the city, but of all those who require the opportunity for public bathing all the year round.

A bath with accessories can be built for from \$75,000 to \$100,000, and will return sufficient revenue in tickets and subscriptions to pay off the principal through a sinking fund in a period of five to seven years.

A contractor is figuring on the plan now, and a definite estimate of the cost of the scheme actually prepared will be possible in a few days. Similar municipal baths are in operation in many parts of the empire, and are paying propositions, apart from their utility, and advantages to the community.

LEAVES FOR EAST.

Mayor Beckwith to Attend Meeting of Canadian Union of Municipalities.

Mayor Beckwith expects to leave to-day for the east, to attend the conference of the Canadian Union of Municipalities at Windsor, Ont., next week. The mayor expects among other resolutions to support that adopted recently by the city council at the instigation of the city of Halifax, to give better treatment to capital cities than they are receiving at the hands of federal and state authorities, and to urge this course on Dominion and provincial governments. He expects that the gatherings of a similar character at Detroit concurrently with the Canadian Union's sessions will cause the visit of many delegates to the American city.

# LOCAL NEWS

**Florence Nightingale Chapter of the Daughters of the Empire**—The members of this chapter are asked to attend a general meeting of the D. of E. in Victoria on Monday next, the 26th August at 2.30 p.m. at the Alexandra Club.

**Financing Schools**—The school board will probably finance the Oaklands and Burnside schools, which between them will cost about \$105,000, from the remainder of the balance in hand from previous loans for Oaklands, \$11,000, the James Bay school fund, \$50,000, which will not be required this year, and \$25,000 remaining from the Burnside school loan.

**Alexandra Club**—The guest day originally fixed to be held at the Alexandra Club on Monday, September 2 has been changed to Thursday, August 29, on account of the previous date being a public holiday. This guest day promises to be an occasion of more than usual interest, and a large gathering of members and their invited guests is anticipated.

**Burnside Road Improvement**—Representatives of the Saanich council have reached an arrangement with the B. C. E. R. with reference to the regrading operations on Burnside road, in consequence of which the company will complete the regrade necessary for the Saanich extension right across the road and remove one of the worst hills out of the city. The municipality undertakes improvements on the roadways when the company's operations are ended.

**Greens' Picnic**—Favorable weather attended the opening of the annual greens' picnic which went to Goldstream to-day, most of the grocery establishments throughout the city being closed by one o'clock in order to allow both proprietor and assistant the opportunity to gather with the merry-makers. The trains were well filled with people, and an excellent programme of sports will make the occasion an enjoyable one for all.

# OBITUARY RECORD

The funeral of Florence Agnes Davidson, the six-months' old child of Mr. and Mrs. Davidson, of Burnside road, who died yesterday, will take place at 2.30 to-morrow from the family residence, Rev. Mr. Tapscott officiating.

The funeral of Baby Mary Bowcott took place this morning at 10 o'clock from the Victoria Undertaking Parlor, Rev. A. J. Stanley officiating.

The funeral of the late Miss Phillipa Dawson took place yesterday afternoon from the family residence, 512 Cook street, Rev. Wm. Stevenson officiating. Many beautiful floral tributes covered the coffin, the pallbearers being Thos. Lancaster, C. Webb, George Thompson and E. Marriner.

**W. J. BURNS ILL.**

Denver, Col., Aug. 22.—William J. Burns, the famous detective, is confined to his room in a local hotel to-day, suffering. It was given out, from a mild attack of ptomaine poisoning. Visitors are denied admittance to his apartment.

# WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 22—5 a.m.—The barometer is only moderately high on the American and Vancouver Island coast, and a low area of considerable intensity is becoming central over the great lakes. Showers have fallen at Fort Arthur and Sault Ste. Marie and a thunderstorm occurred at Roseberg, but with these exceptions splendid summer weather conditions prevail on the Pacific slope and in Alberta and Saskatchewan.

For 26 hours ending 5 p.m. Friday.

Victoria and vicinity—Light to moderate winds, fair and warm to-day and Friday. Lower Mainland—Light to moderate winds, fair and warm to-day and Friday.

Reports at 5 a.m.

Victoria—Barometer, 30.90; temperature, 54; minimum, 54; wind, 4 miles W.; weather, clear.

Vancouver—Barometer, 30.62; temperature, 56; minimum, 56; wind, calm; weather, clear.

Kamloops—Barometer, 29.96; temperature, 55; minimum, 55; wind, calm; weather, clear.

Edmonton—Barometer, 29.82; temperature, 58; minimum, 58; wind, 8 miles W.; weather, clear.

Winnipeg—Barometer, 29.74; temperature, 54; minimum, 54; wind, 14 miles E.; rain, 5; weather, clear.

Victoria Daily Weather.

Observations taken 5 a.m., noon and 5 p.m., Wednesday:

Temperature:

Highest ..... 80  
Lowest ..... 54  
Average ..... 67

Bright sunshine, 10 hours 32 minutes.

General state of weather, fine.

# RARE TAPESTRIES STOLEN.

Providence, R. I., Aug. 22.—A squad of detectives is here to investigate a burglary reported at the home of Mrs. Stanford White, widow of the architect who was killed by Harry K. Thaw. The burglars stole several thousand dollars worth of rare tapestries, which were collected by the architect in his many trips abroad. Several of the tapestries stolen dated from the fifteenth and sixteenth centuries. Mrs. White sailed for Europe this spring and had the tapestries packed in boxes before her departure. She returned a fortnight ago, but not until some time later was any discovery made of the robbery.

# SHORTAGE OF LABOR.

Hogquiam, Wash., Aug. 22.—With every manufacturing and industrial plant of this city in operation, with a large amount of building and railroad and street work under way, with all of the logging camps tributary to Hogquiam, with one exception, operating, and that exception preparing to start within a few days and another big camp to be started soon afterward, there is great shortage of men for all kinds of work here. Manager T. P. Horn, of the citizens' free employment agency, says he has places for 300 men in the woods.

# ENGLAND'S VICTORY

The Test Match was concluded late this afternoon, England winning by 244 runs.

Scores: England, 245 and 175; Australia, 111 and 65.

The bowling of Hazlett for the Australians who took seven wickets for 25, and the magnificent bowling of Barnes were the features of the match.

C. B. Fry was the only Englishman to make a show, scoring 79 in excellent style. Hobbs 32, and Douglas 24, were the only other scores of any note.

# DEMAND INCREASED WAGES.

Quebec, Aug. 22.—Although it was openly stated by the employees' union of the Quebec street railway that even if their demands for an increase of wages and for the recognition of their union were not acceded to by the company they would not go on strike, the company remained suspicious with the result that a number of strange men have arrived in this city from Montreal the last few days. It is evident that the company fears trouble and is preparing for the worst. The scale of wages asked for by the men, which was 21 cents an hour for the first year employees, 23 cents for the second year, and 25 cents for the third year men, was not entertained for a moment by the company, who refused to have any dealings with the union, ignoring it entirely.

# Let Us Shoulder Your Cares

You have a thousand and one Household worries. Why not rid yourself of a few? We'll take them!

There is hardly a Housewife in Victoria who can say that her buying responsibilities are as light as they should be.

There is hardly one who has the time she needs to make her home the pleasant spot that future Memory loves to linger o'er—because of the drain on her each day by the tediousness of ordinary shopping.

But a change is coming—it is here. A change for the better!

We are going to assume part of your cares.

We are going to make the buying for your Home, self and children, easy and reliable.

We are going to make it a real pleasure for you, as we already have for others, to step into our store, select these dainty silks, or those fine Irish linens; or choose that rich, ruby-shot Oriental rug for your new den or library.

Come in to-day and let us show you what honest, earnest service really is

Prices as Low as Anywhere in Canada.

## ALL SEWER WORK NOW OPENED WILL BE FINISHED

Portion on Streets Let For Paving to be Completed and Also Section of North-East Sewer— Personnel of Investigating Committee

Save for a little breeze between Aldermen Stewart and Gleason, the mayor managed to keep the discussion on the sewer question on a harmonious basis at the special meeting of the city council called yesterday afternoon to discuss what work should be done in the circumstances, with only limited funds available.

The council, on learning that probably \$30,000 could be raised by the diversion of the paving plant funds, curtailment of various expenditures, and the use of the money set aside in the estimates for a corporation yard, determined to spend it on streets already paved for paving where work is in progress, estimated at \$8,800, to complete the portion of the northeast sewer already opened, costing \$12,000, and to leave the balance to the discretion of the city engineer to expend as he felt necessary in closing up work already opened.

Beyond the appointment of a committee, consisting of Aldermen Okell, Humber and Gleason, to make an investigation into the circumstances of the expenditure of the \$450,000 loan, the matter of the big expenditure was not referred to, except that Alderman Gleason said he had a mass of information already, but was "tired" from the chair to keep it for the committee, which he promised to do.

Decision on Amount of Work.  
The mayor having explained the object of the meeting, Alderman Cuthbert said it was no use crying over spilt milk, and they must grapple with the situation as it had arisen. Therefore he thought that, as the paving plant was available, and certain other small sums, the matter should be referred to the finance committee to decide how it should be spent, and so instruct the engineer.

The mayor observed he had gone into the matter with the comptroller, and they had found that about \$30,000 would be available from certain sources. Some amounts were earmarked, like the fall vote, and that for electric lighting and, of course, they could not disturb those but other votes could be cut down, making the sum mentioned.

Alderman Cuthbert thereupon moved that the amount set out for completing streets be appropriated, namely \$8,800 and the northeast sewer should be completed.

Mr. Rust stated that this latter amount would be about \$12,000 for the part started, and \$200 for the Shelbourne street sewer.

Responsibility of Council.  
Alderman Gleason saw that as the northeast section cost \$35,300, and Shelbourne street sewer \$22,000 to finish, they must cut down the work to the smallest available margin.

Comptroller Raymur advised against

doing any more work than the motion called for, as in addition to work embraced in the resolution they had to pay for pumps, and there would certainly be emergencies.

Alderman Okell pressed for work on the George road, which was opened for 600 yards near Harriet road, and which he learned from Mr. Rust would cost \$3,000 to finish the portion already excavated, and \$4,000 to finish to Harriet road. He did not want the city to lose through work opened and unfinished.

After Alderman Cuthbert having urged that the city council dictate the policy of what work was to be done, and not throw the responsibility on an official, Alderman Stewart rose to throw light on the mysterious sewer report of May 10, which, it had been stated, the mayor was responsible in suppressing, and of which no copy could be found.

Had Original Copy.  
He had been talking to Alderman Humber after Monday's meeting, and discovered the alderman had the original copy from the city clerk's office in his possession. That was the reason why the report could not be found when it was searched for last week.

Alderman Humber: "Quite correct." The council breathed a sigh of relief when the history of the missing document was revealed, but the next remarks of Alderman Stewart did not meet with so much pleasure. The chairman of the streets committee continued: "I know a great deal more, and will tell it when the proper time comes. I have lain back and stood a good deal this year."

Alderman Gleason: "I would remind Alderman Stewart that he must obey the rules of debate. He cannot speak twice. Why does he not mention the names, be man enough to state names and let us know what he is aiming at by these insinuations?"

Alderman Stewart took umbrage, and wanted to reply to the alderman across the floor, but the mayor cut the answer short, and put the motion of Alderman Cuthbert, which was carried unanimously.

Alderman Okell then briefly intervened in the debate to say he agreed with Alderman Cuthbert that the city council ought not to shift its responsibility, and define just what work ought to be done.

Without settling exactly what ought to be determined about the balance of the money available, which will apparently go to the engineer with a free speech, the council adjourned after adopting the resolution.

The investigating committee will probably meet early next week, and it is understood will be public.

## COMMISSIONER IS TO VISIT HERE

REMARKABLE FIGURE IN EMPIRE POLITICS

A Free Trader Among the Protectionists—Model Representative of Colony

The metropolis of the Empire contains many singular men engaged in strange enterprises, but among the picturesque characters representing the overseas Dominions in London the High Commissioner for Australia, Sir George Reid, who is shortly to visit Victoria, stands in a place apart. Till his appointment two years ago, Lord Strathcona dwarfed all others in the public estimation; and recognizing the necessity of a strong able man in the Imperial headquarters, the Deakin government sent Sir George to London.

The government of the day was dying. Had the Labor ministry, which shortly took office as a result of the defeat of the Deakin administration at the polls, already been in office, it was understood at the time they would have appointed J. C. Watson, who had been prime minister in the first Labor government, and whose financial ventures in South Africa placed in a position to accept such an onerous position.

However, Sir George, who was then in the House of Representatives for East Sydney, as a private member, with a readiness to lend an occasional assistance to the Deakin ministry, received the appointment, and started for the old country. On his way there he stopped off at various Australian cities and delivered speeches agitating with his characteristic humor, pointing out that the records of humorism and self-sacrifice presented "no more pathetic pictures than men who went to live abroad for their country, to look happy at dinners, and lie awake with indigestion in the dark hours of nightfall. He has indeed lived up to the reputation of the office, and scarcely an important dinner has been held without him. Sir George must attend week-end parties in the country, launching of ships, and garden parties, and in fact everything, putting in hours at things which must be an everlasting bore to a man past sixty, but he carries them off with good grace.

To a man who has been prime minister of his adopted state, New South Wales, for five years—for like Lord Strathcona he too was born in Scotland—and then afterwards prime minister of Australia, life in the Commonwealth could not offer much else to strive after, and hence his gradual withdrawal from party strife in the House, and occupancy of a position on the cross benches. In London Sir George has the opportunity of meeting the leading men of the Empire, and doing useful service for the Commonwealth, in whose creation he had no small share.

He was a free trader, and the protectionist tendencies of the ministerialists were unwelcome, hence the gradual drawing apart from their point of view. He maintained New South Wales as a free trade state before Confederation, while Victoria was protectionist, and devious and curious were the methods adopted during those years to get produce across the Murray without paying duty. Living at Sydney was half again as cheap as in Melbourne, but it soon soared with the adoption of protection. While both parties in Australia to-day are endeavoring to give to the worker a larger share of the margin coming back to the producer through the tariff.

Hence to a free trader Australian politics could present little attraction, and the larger life of London was welcome. He has since been a model representative of the Commonwealth, but to appreciate Sir George he must be heard. His wit will not stand transfer to paper, it must be absorbed at first hand to be properly appreciated.

The rainiest place in England is St. Head, in Westmorland, where the mean annual fall is 25 in., but where, in wet years, there have been measured 200 in., or 17 ft.

## Boys' School Suits Low-Priced and Durable, in Nifty Styles

The boys who take advantage of our School Opening Sale will be conspicuous for their classy clothes at school next Monday. They will be the most studious boys in the school, for they will feel as bright and as neat as a new dollar bill. These clothes not only embody style, but they are very durable and will give lots of rough wear. Start the boy off next Monday fully prepared to take up his studies.

## 'Lion' and 'Sovereign' Brand Suits for Boys

These two brands are recognized as the standard in Boys' Clothing throughout Canada. No better clothes could be made and therefore no better clothes can be bought. The display in these includes some really nifty patterns in the new Fall cuts for boys. They are suits that will stand all the hard usage that boys give clothes at school and yet keep their good appearance. In tweeds of all shades and nice fancy worsteds.

\$3.50, \$4.00, Up to \$8.50

### SCHOOL HOSIERY

LIGHT AND HEAVY WEIGHTS, THE KIND THAT WILL STAND ALL KINDS OF SCUFFLING WITHOUT WEARING OUT, PAIR 25c and 35c

## Natty Shirt Waists That Lend a Nice Appearance

These Shirt Waists are made with soft collars to match and also with white collars. Worn with a "manly" suit they give the boy a well-groomed appearance and yet leave him free and easy. The best-dressed school boys in the country wear these shirt waists. Made by the well known "Tookes," also "Crescent" brand. Large range of sizes and patterns. To clear ..... 75c Each

## School Caps With Special Emblems

Select the Boys' School Cap here and we will put whatever emblem he desires on it, the letters of his school, his class number or whatever is required, without extra cost. This is a special feature in connection with our great display of the newest ideas in Boys' School Caps. Wide variety and many styles.

25c and 35c Each

## He Can Wear 'Em But He Can't Tear 'Em

Odd Pants of the very best materials, from the most reliable and largest manufacturers in Canada. A special line for school wear, re-inforced in the spots where the hardest wear comes. No matter how full of spirits a boy may be he won't wear these trousers out in a hurry, and they cost only

\$1 and \$1.25 Per Pair

THIRD DAY IN GREAT CRICKET TOURNAMENT

(Continued from page 7.)

through in the last fateful minutes of the game. Too much praise can scarcely be given to Welch for his admirable trundling in the first innings. The University-Masters are a strong batting side this week, and Welch's 3 for 21 was a feat of which any bowler might well be proud. Five of the victims, he said, were clean bowled by the dogged villager, who kept up an immaculate length all through the innings. Thomson played well behind the stumps. Welch was also responsible for the highest score on his side—24. Greaves being the only other Esquimalt man to reach double figures. S. C. Thomson, the Victoria hitter, who was playing for Esquimalt, failed to get away on both occasions. Scores:

Table with 2 columns: Player Name and Score. Includes names like S. C. Thomson, Welch, Greaves, etc.

Champion was snatched behind the stumps when he had scored only 9. He shared the trundling with Tracey in the second innings, and disposed of four men for exactly eight runs apiece. R. N. Hincks, the golfer, played a nice innings of 14 and fielded extremely well. E. A. Sparks played a great part in the victory by scoring 40 runs in quick time and finishing off the match. Scores:

Table with 2 columns: Player Name and Score. Includes names like S. C. Thomson, Welch, Greaves, etc.

The Oak Bay eleven played a very plucky game against the cracks from Cowichan yesterday. Indeed, it looked at one time like certain victory for them for, with a total of 131 to their credit, they had sent five of the best men of Cowichan back to the pavilion for 58 runs. It was only when Cargiven and Brooke-Smith were allowed that the back of the bowling was broken. Oak Bay batted first and as has already been stated, scored very slowly; Pilkington being the chief offender. The bowling, of course, was extremely good, and the Bays can hardly be blamed for exercising caution, though they certainly carried that virtue to an extreme point. The batting of the side was chiefly remarkable for its consistency, no less than seven of the men reaching double figures. Pilkington was top scorer with 31, and Yeoman also batted attractively for his 17. Cowichan opened none too well, Drake being out-manoeuvred by Speak when he had reached the half-dozen, and Murphy fell immediately afterwards to

the same magician. Had Oak Bay another bowler of the same calibre as the old Nottinghamshire man, there would have been no doubt of the ultimate result of the game.

To Cargiven and Brooke-Smith fell the honor of taking the scores part that of their opponents. Both men batted resourcefully, and sent the score along rapidly. The side were all out for 211 runs. Scores:

Table with 2 columns: Player Name and Score. Includes names like W. F. Pilkington, Sullivan, etc.

A full-toned roar of cheering from the assembled soldiers greeted the winning hit in the Garrison match with Portland yesterday. It was indeed a notable victory for the sons of Mars, and stamps them as one of the best teams in the tournament. Their victory was in the main due to the bowling of Ashley and the consistency of the whole team with the bat.

Table with 2 columns: Player Name and Score. Includes names like G. Shipley, Kelly, etc.

Portland v. Garrison. Portland-1st Innings. G. Shipley, b. Kelly, 15; V. McKillop, c. and b. Kelly, 12; A. F. Tariton, l.b.w., b. Illingworth, 34; E. G. Pattullo, b. Askey, 1; W. Thomas, b. Askey, 2; Extras, 2. Total, 76.

good strokes and one which had remarkably few blemishes. In Saanich's second knock, Carew Martin and Horton made a great first wicket stand and laid on the wood with right good will. Martin scored 61 before a good ball from Jepson beat him, and Horton's 43 was obtained mostly by clean off-driving and crisp cutting. Scores:

Table with 2 columns: Player Name and Score. Includes names like R. J. Horton, E. W. Ismay, etc.

Newport, R. I., Aug. 22.—Nine matches in singles between lawn tennis players of country-wide reputation were played on the Casino courts today, the fourth day of the national championships. One of the matches

ADVERTISE IN THE TIMES

The Establishment of a Great New Seaport

HARDY BAY B. C.

An Event of International Importance!

THE BATTLE OF THE RAILROAD GIANTS! MILLIONS OF DOLLARS TO BE MADE IN BRITISH COLUMBIA BY INVESTORS IN FOLLOWING RAILROAD AND HARBOR DEVELOPMENTS

Why Not HARDY BAY?

Millions of dollars have been made in British Columbia by men of capital and nerve. British Columbia is still, by comparison, merely an undeveloped store house of almost incredible wealth. Vancouver, Victoria and Prince Rupert are only fair examples of the developments which confront the future of Hardy Bay, the great new seaport that is destined to spring up at the north end of Vancouver Island. The imperative demands of Canada's shipping, and the crying needs of those enormously wealthy, transcontinental railroads which have to compete with the new line of the Grand Trunk Pacific and its strategic terminal at Prince Rupert, assure the future of Hardy Bay. Hardy Bay has been announced in the press as the Vancouver Island terminal of the Canadian Pacific Railway, the Canadian Northern Railway, and the North Island Railway. It has safe anchorage for innumerable ships. It shortens the route to the Orient. It makes an ideal shipping point for the big fishing industries and the coast trade with Alaska. It is blessed with every requirement for a successful city site—a gentle slope, no rocks, waterfrontage, and out-of-door climate the year round. It is backed by an agricultural and timber district of splendid character. It is the choice for investment of the foremost men of British Columbia, as well as capitalists from over. Send for a list of men who have bought at Hardy Bay. Hardy Bay to-day is where Seattle was 64 years ago, where Vancouver was 50 years ago, and where Prince Rupert was 5 years ago. Remember that the cream of such opportunities is soon skimming. Call now, or write our local office for details.

THE GREAT TRADE ROUTES OF CANADA ARE BEING REVOLUTIONIZED. HARDY BAY IS THE PIVOT. STUDY THE MAP. A map showing trade routes across Canada from the Atlantic to the Pacific, with Hardy Bay highlighted as a central hub. Text around the map includes 'STUDY THE MAP' and 'READ AND LEARN WHAT THE VANANCA CANAL MEANS TO HARDY BAY'.

CAUGHT NAPPING

How many people are caught napping every year when a sudden cold snap comes? They are out of Coal, and find that there are so many rush orders ahead of theirs that they must wait perhaps several days. The man who fills his coal bin in the summer, is wisely prepared for the cold weather. He doesn't mind when it comes, because it will make no difference to him. There's nothing gained by delaying, excepting annoyance—so why not order NOW.

## GYMKHANA EVENTS KEENLY CONTESTED

Results of Competitions at Koksilah—Proposal to Form Polo Club

Duncan, Aug. 22.—The gymkhana given by the Koksilah Golf Club at Koksilah on Tuesday was in every way a success, every event being well contested. The general management was in the hands of F. H. Maitland-Dougall, who was assisted by W. H. Elkington, and Mr. Hutchinson as starter, and W. H. Hayward and R. Musgrave judges. The results follow:  
 Tipping at the ring (ladies), 6 entries—1, Miss Holden, on Mr. Boothby's Nancy.  
 Men's scurry, 10 entries—1, G. Gore-Langton on Cigarette; 2, C. Carpenetto; 3, T. Cornfield.  
 Ladies' scurry, 7 entries—1, Mrs. Powell on G. Gore-Langton's Cigarette. Mrs. Powell won this race in spite of the fact that she was thrown immediately before the start.  
 Matrimonial or elopement race, 6 entries—1, Mr. Kenniston, and Mrs. Hogan; 2, Mr. Knight and Mrs. Powell; 3, C. Carpenetto and Mrs. Johnson.  
 Zoological race, 9 entries—1, Miss Stillwell and Mr. Boothby. Mr. Boothby was the only man of the first six to guess the animal drawn by his partner.  
 Ladies' serpentine—1, Mrs. Hogan; 2, Mrs. Hutchinson.  
 Men's serpentine, 12 entries—1, C. Carpenetto.  
 Placicking, ladies, 7 entries—A man rides ahead trailing a sack of hay and the ladies follow with spears to stick the "pig." 1, Mrs. Powell.  
 Housekeeping stakes—1, Mr. Boothby and Mrs. Phipps.  
 Placicking, men's, 10 entries—1, M. Gore-Langton.  
 After the races the prizes were presented by Mrs. Elkington.  
 The King's Daughters provided lunch, afternoon tea and ice cream, the proceeds of which go to the hospital building fund. Mrs. Elkington, Mrs. Whitmore, Mrs. Macdonald, Mrs. Hird, Miss Marriner, Mrs. Smithson, Miss Stephens and others helped at lunch and tea, and the Misses Wilson at the ice cream stall. After tea the cakes, etc. remaining were sold by auction, H. D. Morten acting as auctioneer.  
 Proposed Polo Club.  
 During the luncheon interval a meeting of the men was held in the club house to discuss the formation of a polo club. Mr. Hayward was in the chair and a provisional committee consisting of Messrs. W. H. Hayward, Kenniston, Boothby, M. Gore-Langton, Easton, C. W. Johnson and Capt. Chambers was formed to arrange for grounds, canvass the district for members, and also up the financial support they might expect. This committee is to report at a meeting to be held on Sunday next at 2 p.m., at the Koksilah club.  
 Tennis Tourney.  
 Owing to the rain of last week the South Cowichan club's tennis tournament has been postponed until next week, beginning on the 26th. There was a very large entry list this year and the postponement means that it will be necessary to make arrangements again and have another draw.

## MARITIME GROUP OF UNIVERSITIES

Leavening Influence of Tradition Felt in the Colleges of Acadia

Nowhere else in Canada, with the possible exception of Lennoxville, does the traditional college spirit find so complete an expression as in the small group of universities set so unostentatiously away in quiet little college towns down by the sea. Almost without exception there is an inspiration in their location and natural environment, an exclusively academic atmosphere about their college halls and a suggestion, almost pathetic in its insistence, of the days of long ago in every nook and corner. This spirit seems to be completely lacking in the larger and more modern and cosmopolitan universities of the West. They are in a sense midway between the collegiate foundations of the old land and their proto-types in the newer parts of Canada.  
 A modern man of affairs, unbiassed with sentiment might fail to see anything particularly admirable or praiseworthy in the system of higher education provided for the young men and women of the Eastern provinces. To his practical mind the spectacle of seven comparatively small universities scattered here and there through Nova Scotia and New Brunswick, several of them struggling for existence, would seem to be quite unnecessary and undesirable. Schemes for amalgamation and centralization would immediately begin to flit through his mind, and one big inter-provincial university would present itself to his fancy as the great desideratum. But it is certainly debatable whether such an achievement as the federation of the maritime universities, were it to mean the obliteration of the old institutions with all their sacred associations, would be a real advantage. Canadian life to-day stands sorely in need of the leavening influence of tradition, and unhappily this is not supplied by the larger and more unwieldy universities of the cities, beset on all sides by the utilitarian spirit of the age.  
 With the single exception of Dalhousie University, which is situated in the city of Halifax, all the eastern universities are untrammelled by those influences which are bound to flow from close association with city life. Ancient King's College, the oldest chartered university in Canada, stands on high ground on the outskirts of the little town of Windsor, and commands a sweeping view of green fields and wooded forest and hills and fertile valleys—fit setting indeed for the impressive old college building. Acadia University, perhaps the most charmingly situated of all the colleges, has been built on high ground in the village of Wolfville and overlooks the magnificent panorama of the Cornwalls valley, the Basin of Minas, with Blomidon heights and the range of the North Mountains in the distance. Mount Allison University at Sackville, New Brunswick, is set in fine surroundings, with a wide view over a beautiful countryside. The University of New Brunswick looks down on the wooded streets of the provincial capital, Fredericton, from the crest of College Heights, while the eye is carried far up and down the valley of the St. John river and across to the hills that form its eastern watershed. The University of St. Joseph's College has its location in the Acadian village of Memramouc. And lastly the University of St. Francis Xavier is pleasantly situated in the little college town of Antigonish in Eastern Nova Scotia.—W. Arnot Craik, in The Canadian Magazine.

## NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH

Men and women want a splendid head of luxuriant hair free from scalp itch and dandruff. Do you want hair so bewitchingly radiant that it compels the admiration of all who see it?  
 Do you want a scalp as immaculate as clean and bright as a newly-minted coin?  
 Do you want to use a hair dressing that will surely prevent dandruff, that always refreshes and invigorates and makes your entire head feel fine?  
 Then spend 50 cents this very day and get a bottle of **PARISIAN** Sage at any drug store or toilet goods counter. Use it as directed and you will never care to use ordinary tonics again.  
 No poisonous sugar of lead, no sulphur, no injurious ingredients in **PARISIAN** Sage. Ask for **PARISIAN** Sage.  
 D. E. Campbell guarantees it.

**MODERN SEVEN WONDERS.**  
 According to a vote recently taken by a magazine, says the San Francisco Examiner, the greatest scientists accord to the wireless the enviable position of being first of the modern seven wonders of the world. Following it comes the telephone, the aeroplane, radium, antiseptics and antitoxin, spectrum analysis and the X-ray.  
 This order was evolved from nearly seven hundred replies from as many noted men of science in various countries. Wireless received 244 votes, an against 185 for the telephone, its nearest rival. The X-ray received 111, alcohol 100 were cast for the Panama Canal.  
 This is interesting when compared with the selection of the wonders of the world by the Greeks. Following them comes the famous Pharos lighthouse at the entrance of Alexandria harbor, the hanging gardens of Babylon, the statue of the Siphnian, the Mausoleum of Artemisia and the Colossus of Rhodes.  
 Of the seven wonders of the modern world all are of incalculable benefit to man; all mark great steps forward in his march of triumph.  
 A comparison with the ancient list

### BIRTHDAY CALENDAR

#### IF THIS IS YOUR BIRTHDAY

Whatever you are interested in, whether business or other projects, will be successful and active in the following year, and many of your hopes will be realized. Those born to-day will have clever ideas and will also have the good sense to use them to good advantage. Advancement to high positions will naturally follow.

#### IDEAS OF A PLAIN MAN

BY DR. FRANK CRANE

Generally speaking I am for women voting, or doing anything else they want to do.

It is a fine thing to be the equal of man, to emerge from her world-old servitude.

However—There are times when I am weak in the faith, O my sisters. I am perfectly willing that you should own property and even own a latch-key; that you should compete freely with men in any work, and, when you do a man's work, get a man's wages.

Do office work, teach school, keep store, carry the mail, be police, practice law and medicine, preach, write books, manage newspapers, and, if you insist, go on, and bring in the wood and shovel the snow off the sidewalk.

However—I cannot get that Titanic disaster out of my mind, nor keep from feeling that it was somehow nobler for those men to step back and put the women in the boats, in a word to treat them as superiors, as beings to protect and serve and die for, and not as "equals." And even you, I imagine, if you had converted some man among those passengers, and if he, acting upon the principle that sex makes no difference in one's "rights," had pushed forward and jumped into a lifeboat while women were waiting, and if a ship's officer had promptly blown out the emancipated brains of the gentleman, even you, I fear, would have said, with that delightful inconsistency which is not the least of your charms: "Served him right!"

#### WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office.

August 14 to 21, 1912.

Victoria—Bright sunshine, 24 hours 48 minutes; highest temperature, 76.3 on 20th; lowest, 65.2 on 17th; rain, 1.17 inches.

### Notice to Contractors

Tenders will be received at the office of the Board of School Trustees, on or before Tuesday, August 27th, at 4 o'clock p.m., for the erection and completion of a six-room Public School Building to be erected on the corner of Oliver avenue and Cecilia Road.

Each tender is to be accompanied by a marked cheque payable to the Board of School Trustees for an amount equal to 5 per cent of the total amount of the tender.

The cheque will be returned to the contractor and also to the unsuccessful tenderers when a contract has been entered into and a satisfactory bond provided.

In the event of the successful tenderer refusing to enter into a contract when called upon to do the deposit cheque will be forfeited to the Board of School Trustees.

The lowest or any tender will not necessarily be accepted.

A separate tender will be required for the heating and ventilating plant.

# THE AUTOMOBILE

## IN AND AROUND VICTORIA

MARINE DRIVE B.C. ENG. CO.

### AROUND THE GARAGES.

Vancouver Island Motor Co.

Another prominent woman was added to the list of automobile drivers when Mrs. John W. Gates, widow of the famous capitalist, was presented with a Hudson car by her son, J. W. Gates, Jr., the news having reached the Vancouver Island Motor Co., Ltd., the Hudson dealer, to-day. Mrs. Gates' home is at Port Arthur, Texas.

Every American whose means allow her to own an automobile should drive it herself if possible, Mrs. Gates believes.

The result is that to-day Mrs. Gates, though having a number of high-priced automobiles at her constant command, drives her own popular-priced Hudson car in and about Port Arthur and in the surrounding Texas plains.

Mrs. Gates' operation of a motor car is another echo of the elimination of cranking which was the last obstacle in the way of women driving automobiles and which was wiped away by the advent of the self-starter. Almost any morning, it is stated, Mrs. Gates may be seen leaving her palatial Port Arthur home, occupying the driver's seat and "spedding it up" as she reaches the street in her Hudson.

The responsiveness of the car, the ease of operating its steering mechanism and the car's simplicity is commented upon by Mrs. Gates in explaining how easy it is for a woman to drive her own car.

Mrs. Gates is one of a number of prominent American women of wealth who have taken to driving cars with the same enthusiasm that many women have taken to golfing. Among them is Mrs. Frank J. Gould, who inaugurated the "crankless automobile age" by becoming owner of a Hudson roadster last January at the New York automobile show where the initial self-starting cars were first exhibited.

"For the fresh air and bodily and mental exercise a car gives a woman any family which is in a position to own an automobile should not postpone the day of enjoying its pleasures," said Mr. Burman to-day. "An automobile with its faculty of giving its driver the cool, fresh air and exercise—for you do get exercise in driving a car—is one of the best things which can come into any home. Being an especially simple car the Hudson has been commended widely by women drivers."

At Plimley's.

"When will the 1912 Overland be in?" "Our force has been very busy answering that question for the past week," replied the sales manager. "It comes over the 'phones, through the mail, and dozens of Victoria people and people from up the island call every day, look in our empty show-room, ask the same question, only to return again the next day."

"Now we have the answer. That 1912 Overland can be seen at Plimley's tomorrow (Friday), and that same machine is the talk of the automobile world to-day. It is in a class by itself. How Willy Overland can put out a car like that for the money is a question too deep for us to try to answer. It is a car that others may try to imitate in a small way, only to find that they must sell their inferior article for twice the cost of the Overland. The secret is that the Overland is made in the Overland factory, and this factory will turn out 400 cars in 1913. Thirty-five thousand of these have been sold to date. There were not enough this season to supply the demand. We have not had a car for over a month, and from the present demand there will be a shortage this season same as last."

Oxford Truck.

The Oxford truck is proving very popular for light delivery. Several of these are expected in a few days.

Wood Motor Co.

"The day of the woman driver is here," says Mr. Wood, general manager of Wood Motor Co., Chalmers dealers in the city. "There will be three times the number of automobiles driven by women next season. Some of the improvements on the 1913 cars make them so easy and convenient to operate, so beautiful and comfortable, that motoring is sure to attract the attention of women more than ever before."

"Of course, there have been women drivers since the early days of motoring, but with the cars in use a few years ago automobile driving for women would never have advanced above the stage. Few women cared to get out in the street and crank their cars. They would not run the chance of the disagreeable work entailed in case of a puncture on a country road. Then the arrangement of the controlling mechanism was not convenient."

"Now in the 1913 Chalmers, all of the features which detracted from the pleasure of driving for women, have been obviated. And further, these improvements are possible at a medium price."

"Perhaps most important is the compressed air self-starter. You just press the button and the engine is operated by compressed air pressure until it takes up regular firing. There is no more turning of the crank in front of the car—a difficult feat for any woman to accomplish."

"With the addition of demountable rims, tire troubles have no terrors. A puncture is merely a matter of a few minutes' delay; then you are up and out again."

"Electric lighting makes the illumination of the car as convenient as

lighting my lady's boudoir.

"The extended cowl dash as used on Chalmers cars will appeal strongly to women. This new feature places the switches and indicators within easy reach of the occupant of the driver's seat. It is hardly necessary even to bend forward."

"On the dash are placed the ignition switch, self-starter button, speedometer, adjustment for carburetor, oil light feed, carburetor priming lever, ammeter, gasoline pressure pump, air gauge for self-starter, horn bulb and electric lighting switch."

"These are some of the advantages in the 1913 Chalmers cars, which will, I feel sure, appeal especially to women who wish to drive their own cars. These new cars are as easy to handle as an electric, and that is why I predict a great many more women drivers next season."

### RACE IN MID-AIR.

A motor car race in mid-air was the thrilling sensation seen at "Shakespeare's England," at Earl's Court, London.

The spacious arena at Earl's Court, the scene of Mrs. George Cornwallis-West's tournament, was rapidly transformed into a circus. In the centre of the great meadow of lawn where the knights tilted so gallantly, a ring fence was erected, wherein the special feats of the hundred horses were exhibited. Across this circular barrier two motor cars, one containing a woman and the other a man, leaped with lightning rapidity and landed on a platform exactly opposite the deep slope which gave them their terrific impetus. There is nothing buoyant in the construction of the cars; nor are any inflated bags attached. They are just small, two-seated automobiles, such as are frequently seen in the streets of London, and about as heavy.

Spectators say the two cars start down the slope, gather momentum, and leap one after the other into the air. One of the cars succeeds in passing over or under the car preceding it, and both land safely on the other side of the circus ring, some sixty feet being traversed.

"Motoring the gap" and "looping the loop," two somewhat similar sensations of previous exhibitions, are mere kindergarten performances in comparison with the feat in mid-air," said C. B. Cochran, who is chief director of Mrs. Cornwallis-West's latest addition to "Shakespeare's England," as he is of the rest of Tudor Town. "I had been searching all Europe for a startling spectacle, and I finally came across the racing motors in Warsaw. It was a terribly hot afternoon, and the vast amphitheatre in which I was sitting was crowded with people. As the cars shot through the air I almost shrank with fear, but in a moment I was as cool from the shock as though I had been steeped in ice. I at once decided upon securing that sensation for Earl's Court, especially as I was assured that so perfectly was the whole contrivance constructed that accident was as unlikely as Providence could make it."

Travel With Precision.

"The mathematical precision with which the car traverses the gap is really as simple in its achievement as the slinging of a stone," continued Mr. Cochran. The inventor, or, if you like, the discoverer of the necessary curves and slope and weight is a French scientist who will not allow me to give his name. He has a reputation in other fields of research which he thinks would not be improved were he to reveal his identity in the present instance. The only reason that he himself is the man in one of the racing cars is that he has so far not succeeded in inducing any other man to take his place. He managed, after many disappointments, to engage a woman to be his competitor in the second race. Quite a romantic incident followed her acceptance of the engagement some twelve months ago. The man, a trapeze performer, to whom she was engaged to be married, declined to have anything more to do with her if she insisted on imperiling her life in such an apparently reckless fashion. But the lady persisted, and her swain left her and consoled himself with the lady trainer of Polar bears.

Dangerous Work.

"Of course, there is danger in all these spectacular exhibitions. Look at the extreme peril of a tight-rope walker. A slip, and he is finished; but that did not prevent a million people from applauding Blondin. Blondin always asserted that he felt much safer crossing his rope than he did crossing the Strand, and there were no motor omnibuses in his day. Trapeze artists, gymnasts, and a hundred and more performers for the public amusement have their breath escapes every time they appear, and it is that sense of watching 'fearfully' intense danger that attracts, even delights, the onlookers."

At St. Petersburg, the Czar Nicholas and a party of Grand Dukes and many other personages of the court came to a special performance at the Imperial Circus expressly to see the mid-air race. Three times running the cars were made to leap the gap for his Imperial Majesty, and then he directed the Frenchman and the lady to be presented to him. "I feel like Nero," said the Czar, as he proffered his hand to mademoiselle. "It seemed cruel to watch you three times. I seemed to be waiting for a catastrophe." Later in the day a chamberlain brought a costly jeweled souvenir for the two performers.

### MILWAUKEE RACES.

It is announced that more than \$16,000 already has been raised by the Milwaukee Automobile Dealers' Association from local automobile concerns toward the guarantee fund for the holding of the Vanderbilt Cup, Grand Prize, Pabst Trophy, and Wisconsin Trophy automobile races at Milwaukee, September 17-21. This amount represents only that contributed by automobile and accessory dealers. Aside from this, business men of the city not connected with the automobile industry have pledged thousands of dollars.

It was announced last week that the course for the races had been changed. Originally a circuit known as the Greenfield course was picked, but owing to the fact that it was found to be practically impossible to get this into good shape in such a short time it was decided to switch to an 8.2 mile course in Wauwatosa township, near Milwaukee. This circuit has some beautiful roads in it already and these are rapidly being improved. Ample funds are available to put it into condition, and \$25,000, and possibly more, will be spent on it. Inasmuch as practice is to start about September 7, the course will have to be ready and oiled by that time.

During the last few days the entries of Caleb Bragg and "Teddy" Tetzlaff completed the first team of three cars for the Grand Prix race, the Fiat team. Bragg has entered his own big car which he drove in the last Grand Prix race; Tetzlaff will have E. E. Hewlett's car, with which Bruce Brown won the Grand Prix, and Bruce Brown—the third member of the team, will pilot the same car with which he won the first leg in the French Grand Prix on the Dieppe circuit recently. Hugh Hughes has been nominated to drive the Mercer entry in the international race, which opens the speed carnival on September 17.

Ralph Mulford made it known positively yesterday that his car in the Vanderbilt Cup race will be the Knox, the same one he drove at Indianapolis.

### HORSE-RACING SUPREME.

That auto races which have grown so popular in the last few years will never detract from the popularity of the racehorse is the prediction of Mr. W. P. McNair, of Douglas, Arizona, who was brought to this city by the exhibition board to act as judge for the long programme of horse races. Mr. McNair, who has been a railroader all his life, and who is at the present time chairman of the Arizona railway commission, is a born horse lover, and is taking advantage of a vacation from his strenuous duties to act in his present capacity. In various roles as a breeder, owner and judge he has followed the racing game continuously for the past forty years.

"There is so much difference," he says, "between the two classes of racing that one will never interfere with the other. It is true that auto races are getting more and more popular with the public and the interest in them does not yet appear to have reached its height, but this interest is chiefly among the automobile owners and those acquainted with the motor."

"On the other hand ever since the elimination of the bookmaker the horseracing game has made rapid strides, and is still growing. The bookmaker was the one objectionable feature of the horse race, and his elimination is entirely due to himself. The avarice which was so apparent in his every deal caused the sentiment in the

States to crystallize into a regular warfare against him, but the horsemen also had to suffer because of that condemnation.

### MOTORCYCLIST DON'T FORGET.

That oil is cheaper than repairs. That a wrench in time saves nine. Try all nuts and screws occasionally. That motorcycles will not run unless there is gasoline in the tank and the battery plug is in place.

That loose, dirty or broken electrical connections are responsible for three-fourths of the misfirings and stoppages. Don't "tear things apart" until you have thoroughly tested every connection.

That blowing into the tank will frequently correct carburetor or feed troubles.

That "dead batteries" can be revived by being saturated with warm water or vinegar.

That riding with mufflers open is a practice that makes enemies for motor-

rest in all of the displays. It was no uncommon thing to see some of the more enthusiastic in the building for hours at a time listening to the fine points of the various new models as explained by the dealers or their agents. The numerous mechanically operated displays proved a source of great interest to the public and both the management and the dealers felt that they had been amply repaid for their trouble in installing them.

### ISLAND IS POPULAR.

The past week has shown a record number of automobilists from Canada and the United States who have come to make their annual summer trip to the Pacific coast. Vancouver Island, with its splendid highways and wonderful sea, mountain and forest scenery, is an inviting spot for the automobile touring party.

A large number of British Columbia motorists have motored over to the

### NATIONAL HIGHWAYS.

"A subject that appeals to automobile owners is the establishment of a system of national highways connecting every large city and place of national interest from coast to coast," said M. J. Hammers, of Seattle, general manager of the Abbott Motor Company.

"It is astonishing when one thinks of the attention given the subject of road building during the days of establishment of our government that after a while enthusiasm should dwindle down to such a degree as to be incomparably outstripped by progress made along other lines. But I believe the country is now very much awake. Nearly everybody, from the president down, is talking good roads. It is not an unwieldy statement to say that the matter is one of universal importance. Few subjects relating to material interests are so broad in their scope. It touches the interests of the

could be more profitably made than in building national highways and assisting the states in road improvement. It has been figured out by government officials that the \$10,000,000 spent for the modern battleship would build and pave with best brick 666 miles of public highway. It would be quite impossible to estimate the value of 35,000 miles of such highways to the country. In the national expenditures of nearly twenty-two and a half billion dollars since 1875 the appropriations for road construction in the states amounted to \$10,000, against \$1,700,000,000 for the navy."

### MOTORCYCLE NOTES.

Chief of Police Carter, of Columbus, O., is after the motorcyclist who keeps his muffler open, but the Buckeye chief believes in stringent rules. He proposes that an ordinance be passed making every motorcyclist seal his muffler and providing for a heavy fine if at any time the seal is broken.

Even though a heavy rain had practically flooded the country roads, six riders finished the 170-mile Englewood, Ill. Motorcycle Club run from Chicago to Rensselaer, Ind., with perfect scores.

Several rural mail carriers in Monmouth, Ill., and Maysville, Ky., have adopted the motorcycle for the quick delivery of mail along their routes.

The plumbing inspector of Terre Haute, Ind., now uses a motorcycle in his inspection work.

The "trouble-shooter" on the Missoula, Mont. Mountain States Telephone Company has been given a motorcycle and his work now practically guarantees up-to-date service to the telephone patrons.

A trip from Moline, Ill., to Minneapolis, Minn., on a motorcycle, a distance of 750 miles, has just been completed by Mr. and Mrs. Samuel Switzer, of Moline on a tandem machine.

The Goshen, Ind. Motorcycle Club, which was recently organized, recently conducted a successful run to Fort Wayne, Ind., and return.

The motorcycle side-car, which made its debut in various parts of the country this summer, promises to outlive all other methods of carrying girl passengers during the coming season.

### AUTO ACCIDENTS.

The number of automobile accidents in New York city could be materially lessened if mothers would impress upon their children the necessity of looking in both directions before venturing off the sidewalks, declares William H. Stewart, Jr., president of the Stewart Automobile Academy. Mr. Stewart writes:

"Almost every day one reads of the killing of some child by an automobile, but in nine cases out of ten the accident is unavoidable, so far as the automobilist is concerned. The child runs suddenly into the roadway, probably from behind some vehicle, and is under the wheels of the automobile before an attempt to check its speed is possible."

"I will admit that there are a few reckless and indifferent drivers in this city, and this is especially true of the younger element, but the average driver and owner is always on the lookout. The careful drivers never take their eyes off the sidewalk on either side, particularly in thickly populated sections, watching every group of children and steering as far toward the centre of the street as safety will permit."

"Mothers have some responsibility in the matter as well as the owner of an automobile. As the mother trains her little ones to dread the fire engine and keep away from the river and the railroad track, so should she train them to keep out of the way of automobiles, and above all to avoid running into the middle of the street without seeing that the way is clear."

Great Britain owns 65 submarine naval vessels, France 23, the United States 23, and Japan 12.

The total amount invested in factories in the United States in 1909 was \$15,425,000,000, as against \$5,955,000,000 in 1909, an increase of 165 per cent.

SHOAL BAY—ALONG THE MARINE DRIVE.

idly being improved. Ample funds are available to put it into condition, and \$25,000, and possibly more, will be spent on it. Inasmuch as practice is to start about September 7, the course will have to be ready and oiled by that time.

During the last few days the entries of Caleb Bragg and "Teddy" Tetzlaff completed the first team of three cars for the Grand Prix race, the Fiat team. Bragg has entered his own big car which he drove in the last Grand Prix race; Tetzlaff will have E. E. Hewlett's car, with which Bruce Brown won the Grand Prix, and Bruce Brown—the third member of the team, will pilot the same car with which he won the first leg in the French Grand Prix on the Dieppe circuit recently. Hugh Hughes has been nominated to drive the Mercer entry in the international race, which opens the speed carnival on September 17.

Ralph Mulford made it known positively yesterday that his car in the Vanderbilt Cup race will be the Knox, the same one he drove at Indianapolis.

### SUCCESSFUL SHOW.

That the second annual automobile show held under the auspices of the B. C. Auto and Motor Trades' Association, which was concluded in Vancouver last week was one of the most successful affairs of its kind ever held on the Pacific Coast is the unanimous opinion of everyone connected with it. Inasmuch as an auto show is held for the purpose of bringing the dealers into closer touch with prospective buyers and as the success of the show is judged by the dealers on the number of sales that are made and the number of friends made for their cars it is usually somewhat difficult to say as soon as a show is over just how successful it has been. In the case of the Vancouver show, however, there does not seem to be any necessity of waiting to see what the after results are to be, for a surprisingly large number of sales were actually made in the show building while all the exhibitors report having made a host of friends from whom they are certain to secure business. In short the dealers are delighted with every feature of the show and it is a safe prediction that the 1913 show will be as far ahead of this one in size as this year's display was ahead of 1911.

The management of the show as might well be expected are greatly pleased at the satisfaction expressed by the dealers and also at the patronage which their show received from the exhibition visitors. The attendance at the display was as gratifying to them as it was to the dealers themselves. And even more pleasing to those in charge than the satisfaction of the exhibitors and the large attendance is the fact that the visitors were very profuse in their remarks on the excellence of the exhibits, the beauty of the decorations and the arrangements for their reception and entertainment.

All day long from the opening of the exhibition gates in the morning until their close at night the Horse Show Building in which the show was held was crowded with a throng of spectators who showed a very keen in-

terest in all of the displays. It was no uncommon thing to see some of the more enthusiastic in the building for hours at a time listening to the fine points of the various new models as explained by the dealers or their agents. The numerous mechanically operated displays proved a source of great interest to the public and both the management and the dealers felt that they had been amply repaid for their trouble in installing them.

Among the prominent American motorists who have found British Columbia, and particularly Vancouver Island, a pleasant place for their excursions, are L. A. Miller, a well known steamship man of Seattle, and W. H. Lilly, also of Seattle who left Washington State the other day in a Ford roadster for a tour of Vancouver Island. They plan to spend at least two weeks in driving over the roads of the island.

Mr. W. Avery, accompanied by Mr. Waller A. Chandler, of Portland, and their families, are paying a visit to Vancouver Island this week.

A large number of other prominent motorists are also about to pay a few weeks' visit to the island and several are just returning from a fortnight's trip to British Columbia. All speak in flattering terms of the splendid highways of this province.

millionaire, the farmer and the mechanic alike.

Cuts Cost of Living.

"A uniform system of good roads will be a great step in the solution of the problem of high cost of living. Millions of dollars are annually lost to the farmer because he is unable to get his produce to market at the right time, and city prices are kept high because produce cannot be obtained. Good roads the year around will contribute as much to prosperity, development and welfare of the entire nation as the railway, the interurban, the automobile or the telephone to some communities. Nothing retards civilization and progress like inaccessibility. The barriers of the forest or rugged hill are oftentimes as effectual as a prison wall. With good roads through the Cumberland valley, the Ozark mountains, and many other such districts, the notorious poverty and ignorance in those communities would disappear within a few years, and the great wealth of natural resources of these regions be opened for the enjoyment of millions of people."

No Better Expenditure.

"No expenditure of public money

"I will admit that there are a few reckless and indifferent drivers in this city, and this is especially true of the younger element, but the average driver and owner is always on the lookout. The careful drivers never take their eyes off the sidewalk on either side, particularly in thickly populated sections, watching every group of children and steering as far toward the centre of the street as safety will permit."

"Mothers have some responsibility in the matter as well as the owner of an automobile. As the mother trains her little ones to dread the fire engine and keep away from the river and the railroad track, so should she train them to keep out of the way of automobiles, and above all to avoid running into the middle of the street without seeing that the way is clear."

**PROFIT TAKING ON LONG STOCK**

New York Market Firm at the Opening, But Reaction Sets in Before Close

(By Courtesy F. W. Stevenson & Co.)  
New York, Aug. 22.—The market was quite firm during the forenoon, but as the session progressed reactions became general on the announcement of the disposition on the part of many traders to secure at least part profits on long stock in view of the conflicting reports from Washington relative to matters before congress. It was said that the Panama Canal bill is likely to be signed by the president, which may afford the element committed to the side of feeling prices an excuse for depressing the market temporarily, but at the same time it is thought in view of the fact that the house agreed to postpone further action on the commerce court matter until March next year that an adjournment of congress will be taken this week.  
It is not improbable that many who heretofore have been inclined to hesitate about buying stocks will actively enter the market as soon as congress is temporarily out of the way, but as stated from time to time, the disposition has become quite general to trade in the lower priced stocks such as the coppers, the equipment issues, and stocks of the above character present the greatest attractions until monetary and investment conditions become such as will warrant the expectancy of a pronounced and sustained general rise.

**WHEAT PRICES ARE SLIGHTLY HIGHER**

Bearish Feeling in Chicago Pit—Stocks at Minneapolis Decreasing

(By Courtesy F. W. Stevenson & Co.)  
Chicago, Aug. 22.—Moderate action was recorded in the wheat trade today, but bearish feeling prevailed during the major part of the session. Before the close prices were up 5-8 to 3-4, and closed steady to a fraction higher than yesterday. Receipts at Minneapolis were lighter than expected. Stocks there are still decreasing. Cables contained the statement that Russia is pressing wheat for sale with better conditions for harvest. Paris was easier on larger arrivals of foreign wheat. Weather conditions are favorable over the Canadian Northwest, best scares being frankly denied. There is a certain conservative feeling favoring the buying side of the market on the dips because of the discount of futures under the cash level.  
The most noticeable feature in the entire corn trade to-day was the great strength in cash with mixed No. 3 corn selling around 75¢ and sales of No. 3 at 50 cents. Leaders in the cash trade called corn scarce and prices were 1/2 to 1 cent higher on the tables. Cash corn was firm and higher in Southwest markets. Southwest reports on corn were bearish.  
Oats simply followed in a sluggish way the action in corn with last prices at the best point. Some of the cash houses bought September oats the first hour. This big cash business is simply having a moderately bullish influence on futures.

**THE PASSING SHOW**  
The Empress Theatre.  
As artistic an act as any seen at the Empress theatre is that which Mile. Deodima, the well known Parisian actress, is presenting this week. It is entitled "Visions d'Art." Mile. Deodima poses in a large frame, and excellent lighting effects are used to throw a series of pictures about her, many national subjects being introduced. The orchestra playing appropriate music as the pictures of the various nations are introduced.  
A. Edward Locke's new playlet, "The Green Mouse," as presented by Robert Rogers and Louise Mackintosh, vies with the passing act for feature honors on this week's bill. It comes up to all expectations, and as a roaring farce from start to finish.  
Lina Pantzer, member of a well known acrobatic family, offers a graceful and daring wire-walking act. She is one of the best women-wire walkers in vaudeville.  
A musical offering is presented by Bert Daniels and Lester Conrad, one playing the violin and the other a piano. Classic and ragtime melodies are included in their repertoire. The violinist offers some amusing tricks in his ragtime selections, and his rendition of "Every Body's Doing It" is a gem.  
"The Messenger Boy and the Lady," as the act of Harry Holden and Lucy Harron is entitled, is an excellent offering, dancing and talking and offering. They sing and dance well, and Holden's comedy amuses all the while.  
Some good pictures are shown by the Empresscope.  
The Allen Players.  
The success of the "Squaw Man" at the Victoria theatre by the Allen players is due to the clever work of the members of the company, of Miss Felton as Nat-U-Ritch, the Indian girl; P. R. Allen as Grouchy; G. D. Zucco as James Wynnegate; James Mitchell as Henry Kerhill, and Elton Egan as Sir John Applegate. Little Baby Adelaide, in the part of Hal, adds greatly to the interest of the piece. The "Squaw Man" has been one of the best drawing plays the Allen Players have appeared in here, and despite the hot weather, the attendances have been very large this week. Friday and Saturday nights, and there will be a matinee on Saturday afternoon.  
Princess Theatre.  
"Sherlock Holmes" is playing to the second largest business of the season, and the great detective story is pleasing immensely. From the first act where the safe is broken open and the stolen papers are found to have mysteriously disappeared, until the last act, when they are given up, the interest of the story never wavers. In the escape from the Stoney Lane the clever ruse with which Sherlock Holmes escapes from his assailants gains many certain calls. All the familiar characters of the book are presented—Dr. Watson, Prof. Moriarty, Sir Prisma and Little Billy. By the way Billy is no small part of the show. He gains much applause and many laughs. Robert Thorn, a local boy, is playing the part. Richard Lonsdale is giving a splendid portrayal of Sherlock Holmes, each night gaining more control of the difficult points in the piece. Miss Page receives an every entrance much appreciated, showing that the sympathy of the audience is entirely with her. Halie Mitchell and Arthur Bellamy are the two heavies, Mr. and Mrs. Bee, are very convincing, and in making themselves heard, "Sherlock Holmes" all

**BUY A HOMESITE WITH A VIEW**  
**Olympic-view Park**  
**"UPLANDS" WITH THE PRICE LEFT OUT**  
"Uplands" is probably the premier residential subdivision of Canada. Some of the finest homes in the Dominion are being built there. But, it costs a "pot of money" to buy a big lot and build a worthy house in "Uplands." You get the same magnificent view of the Straits and the distant mountain range; the same lovely homesites, large and full of character, right on Cadboro Bay, just across from "Uplands" by buying in "Olympic-view Park." The sites are the same with two points of difference—"Olympic-view Park" does not contain full municipal improvements as "Uplands" does, and it costs only a fraction of what "Uplands" lots cost.  
**Your Later Years**  
Will demand something more in the way of a home than a mere place of abode. In five years, one year, ONE MONTH from now it will be too late to get a waterfront lot on Cadboro Bay that is rockless and desirable, without paying a GOOD, STIFF PRICE. Isn't it worth your while to get down to business and SEE "OLYMPIC-VIEW PARK?"  
**Your Bank Balance**  
Will not be the worse for the addition of a neat profit. Remember that "Olympic-view Park" lots are the LAST ROCKLESS WATERFRONT LOTS on Cadboro Bay; that they face the new Yacht club on "Uplands," and that this is THE residential district of Victoria. Buy a lot in "Olympic-view Park" NOW, and when the wealthy homeseeker falls in love with it this fall, he'll pay your profit.  
**SEE BEFORE YOU BUY. PICK YOUR OWN LOT. FREE MOTORS TO THE PROPERTY EVERY HOUR EVERY DAY. OFFICE OPEN EVENINGS, 7 TO 8. FURTHER DETAILS ON APPLICATION**  
**To-day Is the Time To Buy**

### JOHNSON-JEANETTE MATCH.

Promoters, After Confering With State Commission, Decide to Cancel Contest.

New York, Aug. 22.—The Johnson-Jeanette boxing match set for September 25 at the St. Nicholas A. C. was declared off this afternoon. "For the betterment of the sport," by Jesse and Edward McMahon, the promoters of the bout. The McMahon brothers called off the match after a long conference behind closed doors with the state athletic commission.

### JOHN ROBERTS IS HERE WITH NEWMAN

#### BILLIARD CHAMPION TAKING QUIET REST

at Pacific Club Aug. 29—Arranging Other Exhibitions

John Roberts, the famous English billiard player, arrived in Victoria yesterday afternoon accompanied by Tom Newman, his playing partner. Tom Newman, the boy whom Roberts believes will be a future champion. Since his arrival here, after five days playing at Vancouver, Roberts is in good luck and has been keeping his room at the Empress hotel. At the age of 45 the old champion is beginning to feel travel and cannot stand the long journeys as well as of old.

Newman has arranged for an exhibition match between Roberts and himself at the Pacific Club on August 29, and Newman is to-day endeavoring to arrange for exhibitions at the Union and Cannon clubs, besides opening negotiations for public exhibitions in some hall. With the exception of the game at the Pacific club he had however not made further arrangements by this afternoon.

Newman will play any billiard player in Victoria for a wager of \$500, or any sum that may be agreed on between them. "I shall be very pleased to accommodate anyone," said the 18-year-old boy, whose highest break is 470 odd.

Roberts brought Newman from England after the arrangements between himself and the Australian, George Gray, fell through. Roberts sued Gray in London for breach of contract and obtained a judgment by default for \$1500, as Gray had repudiated his contract to tour Canada, the Orient and India with the champion. Roberts then engaged Newman to take Gray's place, and after concluding their exhibitions here they will go to Japan and China, and then to India.

Newman says there has been a new order recently enforced by the B. C. C. to the effect that only one miss is allowed. To prevent playing safety the balls by the new rule are to be spotted on two consecutive misses by the same player.

Reports that Roberts sight is not as keen as it used to be are denied by Newman, who says the champion can see the top of the table as well as ever.

### West Sooke

### HON. P. C. KNOX HERE.

Hon. Philander C. Knox, secretary of state in President Taft's cabinet, and Mrs. Knox, arrived here this afternoon from Vancouver, bound for Japan to attend the funeral of the late Emperor. They spent the time between their arrival and the departure of the Seattle steamer motoring around the city.

#### CHINESE CRISIS OVER.

President's Explanation Regarding Recent Execution Proves Satisfactory.

Pekin, Aug. 22.—President Yuan Shi Kai yesterday sent a dispatch to the Chinese national assembly declining to accede to its demands that the premier and the minister of war, and further session of the assembly, and further explanation of the reasons for the execution of Generals Chang Chen Wu and Feng Wu, members of Dr. Sun Yat Sen's party. The president suggested that the Hu Pei members of the assembly explain the government's attitude so effectively that his visitors would be persuaded to drop their demand to impeach the government until further reaction acts were committed. The crisis is considered over.

#### PORT ARTHUR STRIKE.

Company Willing to Grant Truckers Increase of Two Cents an Hour.

Port Arthur, Ont., Aug. 22.—True to the promise made last night by officials that freight would be moved after their shutoff today, the Canadian Northern this morning commenced unloading cargo from the steamers Ames and Pellatt. The number of men at work is not large, but the officials believe that the end of the strike is in sight. Chief Special Agent A. E. McDonald has arranged to speak to the strikers at a meeting this afternoon, when he will once more offer them an increase of two cents an hour. This is declared by the company to be the best it will do and that it depends upon the action of the men to-day whether further attempts will be made to break the strike.

#### TRAVELLING INSPECTOR.

Ottawa, Aug. 22.—W. B. Scarth, of this city, and formerly of Winnipeg, has been appointed travelling immigration inspector to succeed H. G. Ingles, who was murdered at Windsor some weeks ago. The district extends from Prescott, Ontario, to Fort Belknap, Alberta, and will include the St. Peterburg, formerly deputy minister of agriculture. He will make his headquarters at Ottawa.

St. Petersburg, Aug. 22.—The story of the plot among the sailors of the Russian Black Sea fleet to capture the Russian Emperor is declared in official circles here to be an absolute invention.

#### VOICE CULTURE AND SINGING.

MADAME MARIE BURNETT and Mr. Albert German, late principals Royal Carl Rosa Opera, teaching old Italian and modern methods of "singing" to method. This season will shortly commence. Studio, 113 Menzies. Phone 1407.

### SHERIFF'S SALE.

Under and by virtue of a Warrant of Execution, issued out of the County Court, holden at Victoria, and to me directed, I have seized and taken possession of the goods and chattels of the Pier Island Syndicate, Ltd., consisting of 3 Island hawks, 1 hare, 2 chickens, 2 cows, 2 heifers, 1 horse, seed of corn, clover, peas, beans, 4 crowscut hawks, 2 sets hares, 2 barrows, seed sows, snags, quantity of other farming implements, and a quantity of timber, quantity of paint, white lead, house finishing lumber, and one score, all of which I will offer for sale at public auction at Pier Island on Monday next, August 27th, 1912, at 11 o'clock a.m., at the residence of the said Pier Island by C. P. R. steamer leaving Victoria at 7 a.m. Monday morning of Tuesday next, August 27th, at the Causeway Pier, Victoria. Any intending purchaser should apply to the Sheriff's Office, Victoria, at 11 a.m. Tuesday next, August 27th, for the full particulars of the said sale, which shall be held in accordance with the will of the said Mary Robt. McKay, as Administratrix with the will annexed. F. G. RICHARDS, Sheriff.

Sheriff's Office, Victoria, August 22nd, 1912.

#### NOTICE.

TAKE NOTICE that PETER HENRY MCKAY, formerly of Lima, Peru, but lately of 824 Courtney street, Victoria, British Columbia, died on the 14th day of May, 1912, leaving a widow, and the said PETER HENRY MCKAY, executor of the will of the said PETER HENRY MCKAY, as Administratrix with the will annexed, hereby gives notice that she has received the estate, having regard only to such claims of which she shall have received notice.

DATED the 19th day of August, 1912.  
F. G. RICHARDS,  
410 Central Building,  
Victoria, B. C.  
Solicitors for the said Administratrix.

#### TWO MORE DEATHS.

Montreal, Aug. 22.—Surrounded by whisky bottles and with an agonized look on his face, Alexander Maheden, another Russian workman, who took part in the celebration in the camp near St. Lambert, was found lying dead in a room at 30 St. Charles street this morning. Leloh-Grunza, 29 Clarke street, making nine victims up to the present, and it is known that scores of Russians are deathly ill in all sections of the city from the poisoned liquor.

The Westmount Heights are being scoured to-day for more victims of an orgy which took place near the camp while men are still reported missing around St. Lambert.

Additional light regarding the source of the supply of the deadly whisky came out at the adjourned inquest to-day, when the wife of Boldura and Seimerman, the two arrested in the case, both swore that the liquor had been purchased at a grocery store near the corner of St. Urban and Vite streets. Many arrests and sensational details are expected this afternoon.

## WANT PROVINCIAL EXHIBIT STAGED

TO BOOST FOR DISPLAY AT LETHBRIDGE

Influential Gathering to be Held in October—Ministers to be Invited

To interest the provincial government in the provision of a building representing British Columbia at the International Dry Farming Congress at Lethbridge from October 21 to 25, John T. Burns, executive secretary-treasurer, arrived in the city yesterday, and met Sir Richard McBride. To-day he conferred with Hon. Price Ellison, minister of agriculture, and departmental officials, in connection both with the representation of the province by a special building at the exhibition, and the presence of some of the ministers at the gathering in October.

Mr. Burns remarked that this was the first exhibition to be held on the Canadian side, and was an ambitious project for a city of 15,000 people. Among the visitors would be the president of the International Institute of Agriculture at Rome, the Hungarian Agricultural Society, the Belgian minister of agriculture, and many other distinguished men from Europe. Hon. Mr. Wilson, secretary of the department of agriculture, Washington, who was one of the promoters of the congress, representatives in all from 57 nations had been invited. The Governor-General and Prime Minister Borden were both expected to attend. The United States government would have a very large exhibit, and this week he had been notified from Ottawa that the Dominion government would have a comprehensive display. Accordingly he was particularly anxious that the British Columbian government should be adequately represented, and would suggest that the exhibits be housed in a building of native lumber, thus displaying the woods of the province, and proving an effective exhibit like the forestry building at the A. Y. P. exposition in Seattle three years ago. He hoped in that display not only to see agricultural products, but examples of the mineral and fisheries resources of the province. Hundreds of people would be at Lethbridge at the exhibition, as all homesteaders' trains would be diverted to that city for the event, and the American railroads were arranging to run special excursions.

Mr. Burns has just come down from the dry farming meeting at Kelowna, where he delivered an address, and is

At Oak Bay, the

## Contents of a Beautiful Home

Comprising some GENUINE SHERIDAN Tables, Sideboards, Chest of Drawers, Toilet and Ladies' Work Tables, Ladies' Wardrobe, etc. CHIP-PINDALE Dining Table, Screen, and Gentleman's Wardrobe, Dining Chairs and Arm Chairs, Adams' style, together with some Crystal and Cut Glass, Odd China and Old Silver, Pictures, Prints and Ornaments. The auctioneers beg to call the attention of all interested in ANTIQUE FURNITURE to the above sale, as they feel sure that never before has such a quality of Really First-class Furniture been offered in the city of Victoria. The date of sale will be announced in a few days. Further particulars may be obtained of the auctioneers at their office—  
Phone 2149. 1109 Fort St.

## SHOULD BE SHIP YARDS ON PACIFIC

JAMES VICKERS SAYS CONDITIONS SUITABLE

Member of Famous Firm Does Not Believe in Total Disarmament by Nations

James Vickers, of the famous firm of Vickers, Maxim & Company, who is in the city, believes there should be shipbuilding yards on the Pacific and the Atlantic Canadian coasts. On each coast coal is obtainable, and the greater reason for the yards is the necessity for them. Mr. Vickers was in Victoria with the party of British manufacturers, and after returning with them to Montreal he has come west again preparatory to proceeding to San Francisco.

Mr. Vickers believes that there is a great deal of nonsense being spoken by the "peace-at-any-price" advocates, because he says the only way to preserve peace is to prepare for war. This old axiom is to-day truer than ever, he declared. "If total disarmament were decided upon," he declared, "it would mean that several thousands of skilled workmen in Great Britain would be thrown out of employment. Our firm alone employs over 25,000 men, and there are other shipbuilding firms with an even greater payroll. We have established a model city for our workmen, and I do not believe there is a more contented body of workmen in the United Kingdom. Not so long ago Barrow-in-Furness was a small town. Now it is a flourishing city."

"I believe the greatest security for peace is readiness for war. The minute Great Britain falls behind in her shipbuilding programme, then will she be exposed to attack from Germany or some other nation. Great Britain has maintained and is maintaining the peace of the world simply because of her preparedness for war. Her battleships kept peace on the seas long before our firm was building battleships. If we do not build her battleships some other firm will. As long as the Mother Country maintains her supremacy on the seas, so long will Germany and other rivals remain quiet."

"At present we are building two big battleships for the British government, but we are also building battleships for Spain and Peru. The Spanish navy is being entirely reorganized, and in a few years will be an entirely different proposition from the collection of ships which were so easily beaten by the United States."

facturing plants going. The Germans are confronted by a serious industrial crisis, and are forced to adopt desperate means to tide themselves over it. "The trouble between the two nations has nothing to do with the shipbuilders or gunmakers. It hinges largely on commercial rivalry and colonial expansion."

# MADAM—you waste 40 cents on every dollar you spend on an American or other imported corset.

Because of the Customs duty—American or other imported corsets cost YOU Madam—about 40 cents on every dollar more than La Diva or D & A Corsets. YOU SEE the duty does not improve the quality of the corset. True it helps the Government but your retailer must add to the manufacturers price the duty and a legitimate profit on both cost and duty. You Madam have to pay this largely increased price yet you get no increase in corset value—not a single cent.

Made in Canada—No Customs duties.

The D & A and La Diva Corsets are of the same excellence as the finest imported corsets. They are made in the largest and finest factory of its kind in Canada, and there is no better equipped corset works, nor a better trained staff of operatives in every department anywhere else in the world.

La Diva Corsets \$3.50 to \$8.00  
At best dealers everywhere.  
DOMINION CORSET CO. QUEBEC.

Made in Canada—No Customs duties.

To prove our claims, Madam, ask your dealer to show you a D & A or a La Diva and any American or other imported corset selling about 40c. more in the dollar—that is a D & A at \$1.00 and imported at \$1.40 or a La Diva at \$3.50

and an imported at \$4.50 or \$5.00. Examine the detail—apply all corset tests—try them on—wear them walking—sitting—playing or working and our corset will show at least equal art—promise equal wear and equal comfort thanks to the finest equipment on the continent. In every case the Canadian made La Diva or D & A will stand the test.

Madam in making your next corset purchase bear this in mind and select the D & A or the La Diva Corsets and save 40c. on every dollar spent.

D & A Corsets \$1.00 to \$3.50.  
At best dealers everywhere.  
DOMINION CORSET CO. QUEBEC.
