(O) RESULTS: (For all hits claimed on ship targets and for land targets of special interest, draw diagram, top or side view or both, as appropriate, showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

Strafing runs werem made on three outrigger canoes sighted in Ponape lagoon. Runs were begun at 1500'-2,000' and about 1,000 mds. range. Approximately 50 rnds. were expended on each cance and all were seen to be destroyed. Occupants dove overboard and escaped.

One plane of this squadron took off at 0500 for a regularly scheduled reconnaisance of Ponape Island. Arriving on station a few minutes before daylight the plane took up acircling patrol. The patrol continued and as visibility improved three canoes were found in Ponape lagoon and destroyed, the occupants escaping. While making a run on what turned out to be a derelict ship at Kiti Point several rounds of 40 mm. A/A were observed which appeared to come from the high ground at the point. Later in the morning a photo run was attempted over the new and old airfields. Intense, light A/A was encountered, but no hits sustained. Pulling out of this run the plane came within range of langar Island and observed several bursts of 75 mm. or larger A/A. Making use of cloud cover the plane escaped without being hit. At 1000, pursuant to orders, the plane left Ponape and returned to Eniwetok, landing at 1200.
