VOL. 51.

VICTORIA, B. C., WEDNESDAY, MAY 10, 1911

No. 109

TO BE AGENT OF MARINE DEPT.

**CAPT. GEO. ROBERTSON
TO SUCCEED CAPT. GAUDIN**

Master of the Prince George
Has Intimate Knowledge
of This Coast

An official announcement is expected from Ottawa any day now of the appointment of Captain George Robertson, master of the Grand Trunk Pacific steamer Prince George, to the position of agent of the department of marine and fisheries at Victoria, in succession to Captain James Gaudin, who has occupied that position for seven years.

It is understood that Captain Gaudin is being appointed commissioner of wrecks here.

When only a lad Capt. George Robertson came to this city from his native land, Scotland, with his father, Capt. H. J. Robertson, of Moresby Island, and lived here for some time. Shortly after arriving here Capt. Robertson's father decided to commence ranching, but George, after pursuing a farmer's life for a short time, felt that it was not the occupation which he should follow, and decided to go to sea.

He left his home at the age of 15 and joined one of the local sealing schooners as a deckhand. For several seasons he sailed on different vessels bound for the hunting grounds, with the hope that he might accumulate a little money, as the industry at that time paid handsomely. When serving on the schooner Agnes McDonald under Capt. Cutler, of the tug Lorne, Capt. Robertson was shipwrecked on the Japanese coast, the only time he has had that experience in his life.

After serving his time before the mast Capt. Robertson joined the old Canadian Pacific Navigation Company, of which F. W. Vincent, now of the C. P. R., was manager, as quartermaster on the ill-fated steamer Islander, commanded by Capt. John Irving, making the first trip to Skagway in her in 1887. He was later quartermaster on the steamer Danube, now the Salvo, from that position he went as second mate on the well-known side-wheeler Princess Louise, in command of Capt. A. A. Sears. For some time he held similar positions on different C. P. N. boats, until he was promoted to chief officer on the steamer Danube, under Capt. McCroskie, and served in that capacity until appointed as pilot, serving on the triangular and Skagway runs under Captains Griffiths, Hickey, McLeod and Jos. Gosse, on nearly every vessel in the C. P. N. fleet.

The excellent manner in which Capt. Robertson discharged his duties and his remarkable knowledge of the coast was recognized by the C. P. N., which commensated with it, and he was soon appointed master of the steamer Queen City on the east coast run. On leaving the service of the company to become master of the Prince George, on her arrival from England, Capt. Robertson was master of the Princess Beatrice on the Prince Rupert route.

After spending over twenty years at sea, the greater part of which he put in on ships sailing up and down this coast, Capt. Robertson is acknowledged as one of the best, most careful and best-informed of the navigators of British Columbia. There is no rock or dangerous point in these waters which he does not know, and his appointment in one which will be received with satisfaction.

QUAKES IN CALIFORNIA

Oxnard, Cal., May 10.—Light earthquake shocks were felt here at 5 and 5.20 o'clock to-day and a slightly heavier one at 5.40. No damage resulted.

FIGHT FOR THE DOWIE RESIDENCE

Home of Late Founder of Zion
City is Captured by
Officers

Chicago, May 10.—Shiloh House, residence of the late John Alexander Dowie at Zion City, was stormed and captured yesterday by Constable Hicks and several deputies.

For six weeks the residence, occupied by Elder John G. Taylor and thirty disciples, had been guarded. Mrs. G. Ring bought Shiloh House from the receivers of the Dowie estate and attempted to take possession, but the occupants guarded the place so vigilantly that they were unable to gain admission.

EIGHT PERSONS PERISH IN FIRE

**MUSIC HALL IN
EDINBURGH DESTROYED**

Five Performers Among Vic-
tims—Spectators Escape
From Burning Building

Edinburgh, Scotland, May 10.—Eight bodies have been recovered this morning from the ruins of the Empire Music Hall, which burned last night. The bodies so far identified are those of "Lafayette, the Great," and two members of his company, Alice Dale, who impersonated the Teddy Bear midget, and Joe Coster.

The other bodies are those of members of the orchestra and three others have not been identified.

Miss Dale and Coster were natives of England. Lafayette was German. He had played for two years in the United States. For two years he has been in Great Britain, presenting a spectacular turn which introduced a horse and dog. An attempt to rescue these two pets cost the performer his life. Lafayette had escaped in the first panic when the stage was a mass of flames. Later he rushed back to the stage door, saying as he did so, "I am going to try to get my horse and dog." When the ruins were examined to-day the actor's charred body was found beside the body of his horse under a heavy timber that lay across both.

The fire started in a mass of scenery used in the conclusion of Lafayette's performance, which was a spectacular military pageant. In a moment the stage was filled with flames.

The iron fire curtain was lowered hastily and the audience, which at first thought that the burst of fire was a part of the spectacular play, escaped with little panic.

Those behind the scenes, however, made a rush for the exits. When the fire was at its height the iron curtain fell in on the stage.

Lafayette was a popular and picturesque character. He had a residence in London, across the front of which were blazoned the words, "Lafayette, the Great."

The theatre was to be the scene of the first music hall performance ever given in the country by royal command during King George's visit in July.

Later the bodies of the two musicians killed were identified as those of members of the Lafayette company.

According to some of those who escaped from the theatre, the trained lion belonging to Lafayette got loose during the panic and blocked the stage door through which the performers were attempting to escape. Lafayette had a desperate struggle with the beast before he got him out of the way.

"Lafayette, the Great," was born Sigmond Neuberger. Ten years ago the courts legalized his stage name. He was about 40 years of age. His devotion to his trained dog was marked. He also had a trained lion which, with the dog, was always included in his act.

WILL NOT VISIT ARCTIC.

Roosevelt Denies He Will Accompany
Bartlett—Explorer Will Try to
Drift Over Pole

New York, May 10.—"Nonsense," was Col. Roosevelt's brief response by telegraph to-day to an inquiry as to whether he intended to spend the summer of 1912 (presidential year) in hunting polar bears in the Arctic with Captain Robert Bartlett, late of the Peary polar expedition. Captain Bartlett announced last night that he hoped to enlist Roosevelt in his project, and added that he had already secured a tentative acceptance from the Colonel.

Bartlett hopes to effect the first crossing of the last remaining ocean to be thoroughly examined. He plans to enter the pack-ice northwest of Point Barrow, Alaska, make his ship fast to a large ice floe, and drift near to, if not over, the North Pole and into the North Atlantic ocean between Spitzbergen and the east coast of Greenland. He expects to emerge from the ice in 1917.

"QUEEN" ACCUSED OF ASSAULT.

Man Who Masqueraded as Woman
Throws Snake Among Audience.

The Montreal Star has an anti-reciprocity cartoon showing the Finance Minister of Canada dancing to the tune of Yankee Doodle played by President Taft. We believe the above to be a more accurate portrayal of the situation as it affects Canada.

COAL MINING IN THE YUKON

**COMPANY READY
FOR OPERATIONS**

Plans to Invade American Ter-
ritory in Vicinity of
Property

Skagway, Alaska, May 10.—While the light is raging around the coal lands of Alaska, those in the Canadian Yukon and preparations are being made to invade American territory on the Yukon. The coal is of the bituminous variety, and is sold for \$5 per ton at the pit mouth. The price charged for the coal landed in Dawson is \$14 per ton.

The last patent was obtained by the company during the winter just passed, and preparations are being made to invade American territory on the Yukon. The coal is of the bituminous variety, and is sold for \$5 per ton at the pit mouth. The price charged for the coal landed in Dawson is \$14 per ton.

"I certainly believe the leasing system to be the best," said Mr. Milton, when he came off the boat at Skagway. "The government charges 10¢ per acre and may give a renewal or not at the expiration of twenty years, which is the longest period for which a lease can be obtained."

"The government requires the payment of a royalty amounting to 10 cents per ton, and that certain amounts of coal must be mined within given periods."

"The Canadian government withdrew its coal lands just as the United States has done, but no difficulty whatever has been experienced by us or by any others in obtaining patents, provided our locations were bona fide."

RISKS LIFE TO NURSE HUSBAND.

Washington, D. C., May 10.—The health authorities of this city have in quarantine E. M. Combs, a farmer of Stafford county, Virginia, who is not expected to survive an attack of glanders. Combs is attended by his wife, a trained nurse. She has been warned that the disease is highly contagious and almost invariably fatal. Contracted two weeks ago by Combs when he was operating on a calf, the disease already has caused his total blindness and his death is expected at any time. It is said that glanders, not uncommon among horses, seldom attacks human beings.

STEEL TRADE

New York, May 10.—The United States Steel Corporation announced that unfilled tonnage on the books April 30 totalled 1,818,794 tons against 2,447,201 March 31.

STAR CHAMBER AT REGINA ABOLISHED

**NEWSPAPERS BRING
COUNCIL TO TIME**

After Long Fight Aldermen Are
Compelled to Open Meet-
ings to Press

Regina, Sask., May 10.—A deadlock which existed between the city council and three daily newspapers for the past four months, during which time the press, following their exclusion from council meetings, instituted a rigid boycott in their columns of all city council news rather than publish censored reports, has terminated. Last evening the committee room doors were once again thrown wide open to press reporters and a policy of full publicity, which until the beginning of the present year had been in vogue for several years, was again resumed.

The newspapers, which throughout have had the population behind them in the stand they took, claim to have achieved a notable victory in the recognition of the freedom of the press.

TWO MINERS ARE INSTANTLY KILLED

Victims of Explosion of Missed
Hole—Their Helpers Es-
cape Uninjured

Stewart, B. C., May 10.—Two miners, Dan Moranville and Matt Pavola, were killed a few days ago by the explosion of a missed hole. Their two helpers, standing only a few yards away, were merely scratched by the small dirt striking them in their faces.

Moranville was an old-time experienced miner, who had been in most of the camps in the north since the early days of the Klondike rush. He had been in this district for some time, being one of the original stakers of the Geo. E. Ben Hur group, now being operated by the Stewart Mining & Development Company. Matt Pavola was a Finlander and a miner of experience.

RUN OVER BY TRAIN.

Chicago, May 10.—Clasping a rosary, his only possession, 19-year-old Robert Bagley, Pasadena, California, died to-day from injuries received by falling under the wheels of a railroad train on which he was attempting, penniless, to reach the Pacific coast. William J. McCallister, Chicago, a friend of the Bagley family, could not account for young Bagley's presence here.

SEISMOLOGICAL OBSERVATORY

**F. NAPIER DENISON HAS
MOST VALUABLE DATA**

Government Will Send Him to
England to Lay This Be-
fore Scientists

The establishment of a seismological observatory in Victoria is coming within measurable distance, and the next step will be to enable F. Napier Denison, of the Meteorological bureau here, to go east to lay the matter before his superiors and later to proceed to England to consult with scientists there.

Hon. William Templeman, Minister of Mines, has taken a great interest in the matter, not only because of the honor of having such an institution in this city but largely because of the value it would be to the mining industry, it having been demonstrated that there is some subtle connection between seismic phenomena and the occurrence of coal-mine explosions.

He is arranging with his colleague, the Minister of Marine, that leave of absence shall be granted to Mr. Denison and that he shall attend important scientific conventions in England this summer as the representative of Canada, leaving here some time next month.

The proposal for the establishment of such an observatory is one which meets with hearty approval here. The Victoria Liberal association interested itself in the matter some months ago, and in a letter to Hon. Mr. Templeman, Joshua Kingsman, president of the association, said:

"It is evident the work done by Mr. Denison is of great practical value, and particularly in regard to the positive connection he appears to have discovered between periods of extreme earth strains, terrestrial magnetism and colliery explosions. As any discoveries bearing on the causes of the latter appeal to us all from humane, practical and commercial standpoints, I would urge you as Minister of Mines to carry this proposal through to a successful issue, for the amount asked is trifling, and the granting of such an observatory to Victoria would be an exceedingly wise act."

"Respecting a site for the observatory, as the entire city is in favor of one being erected near here, I have been informed the city will probably agree that a portion of the summit of Mount Douglas be allowed for the purpose. This would be an ideal site and a popular move as a means of perpetuating the name of Victoria's first governor."

"The establishment of the above would be a great attraction to tourists and a great advertisement to our city." For several years Mr. Denison has been collecting data in regard to earth tremors, and he is probably one of the best informed men in Canada to-day.

THREE HURT IN AUTO ACCIDENT

**CRASHES INTO POLE
ON ROCKLAND AVENUE**

Herbert Thompson, H. Donigan, A. Combe in Hospital—
N. Gowen Uninjured

As a result of a sudden skidding of the wheels while rounding the turn at Rockland avenue and St. Charles street this morning between 4 and 5 o'clock, in a high-power automobile, Herbert Thompson, owner of the machine, fell into the Jubilee hospital with a broken leg and cuts about the face; and Henry Donigan, driver for E. H. Goucher, and Algernon Combe, chauffeur, are also inmates in the accident ward, suffering from injuries received when they were thrown from the car as it collided with a telegraph pole at the corner.

All will recover, and, aside from Thompson, are suffering from minor injuries. A fourth occupant of the car, N. Gowen, was unhurt, and after rendering aid to his injured companions went to his home.

The young men were driving along Rockland avenue in a seven-passenger, 30 h.p., Russell touring car, and they say that at the corner, when the machine skidded, the hind wheel struck the curb and broke away from the axle. The car careened into the telegraph pole with sufficient force to throw all the occupants to the roadway and to damage the machine practically beyond repair. Thompson, the owner of the car, was driving, with Donigan sitting in front, Combe and Gowen were in the tonneau.

The four boys, who are chaffeurs, were out for a morning ride, and say they were not speeding, but that the accident was due to the slippery state of the roadway. Gowen, on picking himself up after the fall, discovered his three companions strewn about the road. He telephoned for an ambulance and gave what aid to them he could, until the arrival of the Victoria Transfer ambulance, in which the three were taken to the hospital, where Dr. Forrest Leeder attended them.

At first it was thought that Thompson was badly injured but he is now conscious and out of danger. Donigan is suffering from a broken bone in his left hand and other injuries of a minor nature, while Combe has a cut head, from the effects of which he was unconscious for a time. He is suffering mostly from shock. The remains of the automobile were brought into the Pimley garage on a truck.

RUSSIA'S NEW WARSHIPS.

Anglo-French Company Has Secured
the Contracts.

London, May 10.—The St. Petersburg correspondent of the Daily Telegraph says that as a result of the emperor's determination that Russia's new navy shall be built in Russia, of Russian materials, with every advantage of foreign skill, a plan has just matured whereby the battleships will be constructed at Nikolayev on the Black sea by an Anglo-French company, including Vickers Sons & Maxim. A French syndicate is to supply the money. According to this report the emperor has approved the details and has ordered that the contracts be signed at once.

WOMAN TAKES POISON.

Seattle, Wash., May 10.—Mrs. Katherine Mathews, 22 years old, put down a copy of "Luelle" she had been reading, poked up a bottle of carbolic acid and drank enough to cause her death within half an hour yesterday. She had been despondent two weeks. A sister resides in Gaston, Ore. Mrs. Mathews was the second person within a few days to commit suicide here immediately after reading a volume of poetry.

JUAREZ TAKEN BY INSURGENTS

**CAPTURED AFTER TWO
DAYS' FIGHTING**

Casualties Believed to Be
Heavy—Rebel Cavalry Pur-
suing Federals

The battle at Juarez between federal and insurgents that began Monday reached its culmination this morning when, after a desperate fight that was resumed at 2:30, the insurgents gained control of the city.

Throughout the night the insurgents had kept their positions along the river bank and in Juarez extending up to the business section of the city. The federals, however, held all points of vantage in Juarez until Blanco's command joined the attack.

Blanco's men had been held in camp all day yesterday and were fresh. They went into the fight with a vim and it was impossible for the federals to stop them.

Throughout the smoking town, swept by flames last night, the federals made desperate stands behind their barricades.

Navarro, the federal commander, said last night that he would fight to the death. He expected reinforcements, but the last reports showed his succor to be distant more than a week's march.

General Navarro and staff have surrendered to General Garibaldi.

Tia Juana, the Mexican town in Lower California captured by the rebels yesterday, is still in their possession. No further fighting at that point was reported.

Federal forces in Agua Prieta evacuated that town early to-day.

It is reported that federal forces were drawn into a trap yesterday near Saitillo and lost 56 men killed in the engagement with the rebels.

El Paso, Texas, May 10.—Juarez, the objective point of the Mexican revolutionists for many months because it is a port of entry to the United States, fell into the hands of General Francisco I. Madero, Jr., to-day, and the capture of Juarez is complete.

A white flag was hoisted at 12:35 o'clock over the barracks in which General Navarro, the federal commander, made his last stand.

There is some firing in the outskirts of the town, but great clouds of dust and smoke make it difficult to ascertain the situation of the federal force.

At noon the insurgents placed a cannon in position and began bombarding the barracks where Navarro and a number of his men were located. The first shot of the insurgents' cannon struck the building and it was plain to be seen that unless the troops occupying the barracks surrendered there would be great loss of life.

Four shots from the rebel artillery tore large holes in the barracks and the white flag was at once hoisted at 12:45 p. m. Except for occasional shooting in the foot hills, the firing has ceased.

Estimates of the number of dead and wounded are rising. Most of the dead have been dragged from the streets and already are being buried.

The wounded are being attended by scores of physicians who have dashed to the scene and are aided by residents of the town.

General Pasqual Orozco has given orders to his men to give all help possible to the wounded of both sides. He himself has been shaking hands with federal officers who are prisoners and telling them how bravely they fought.

THREE MEN HAVE NARROW ESCAPE

Surrounded by Prairie Fire
While Ploughing—Two
Sustain Injuries

(Special to the Times.)
High River, Alberta, May 10.—A triple tragedy was narrowly averted on the High River Wheat and Cattle Company's ranch when a steam plough gang employed by J. B. Chaffin was surrounded by fire. Chaffin has the contract to break four sections on the property. While at dinner fire was observed running at large on the prairie and the steam plough was taken out to run breaks. By a sudden change of the wind the gang found themselves surrounded by the flames.

A Rankin, ploughman, had his ears burned to a crisp and suffered other injuries and McCrea, fireman, who inhaled flames became unconscious. Chaffin, who was driving the engine, wrapped his head in a smock when he perceived the danger and succeeded in driving the outfit through the fire zone. All the injured men will recover. All of Chaffin's tents, harness, etc. were destroyed.

The New Patent Lever Lock SELTZOGENE

We are sole agents for this Soda Water machine, the best on the market. Make your own Soda Water. Equal to the best in a few minutes. No trouble. Nothing about the machine to get out of order. It's not like the former old fashion gasogenes. It will last for years. Call in and let us explain this Soda Water Machine to you.

HILL PREPARES TO INVADE CALIFORNIA

North Coast Railway Will Enter State From the Northwest

Los Angeles, Cal. May 10.—James J. Hill, the railway magnate, who has been carrying on a nation-wide war with the Harriman interests is about to enter the state from the northwest, where he is strongly entrenched, according to the statement to-day of Robert E. Strahern, vice-president and general manager of the North Coast branch of the Oregon & Washington railroad & Navigation Co. Strahern is the man who, in the employ of Harriman, built the mysterious "Romance" railroad in the north, which, after six years of construction work and the completion of about 100 miles of track, was discovered to be a Harriman interest invading the Hill stronghold in the northwest.

Strahern says that the Hill interest will not invade California from Denver, but that a great double track line will be laid from Seattle southward to the coast, and then northward to Los Angeles. This part of the construction will come first in the mind of Mr. Strahern and after that will follow the building of a closing link in the chain of Hill roads which will give Los Angeles another through line to the east by connecting with the Burlington at Denver.

BADLY RUN DOWN

Dr. Williams' Pink Pills Came to the Rescue After Doctor's Treatment Failed.

The life of any constant traveller is always a hard one, but those whose work compels them to take long three-week drives over rough roads, exposed to all conditions of weather, are in constant danger of losing their health. The extreme heat of summer or the piercing winds of winter sap their strength, the kidneys become diseased or rheumatism sets in. What is needed to withstand this hardship is rich red blood—the pure blood that Dr. Williams' Pink Pills alone can make. These pills are the travellers' never-failing friend. Concerning them Mr. George Dalpe, of St. Etienne, Que., says: "I am a grain dealer and am obliged to make frequent trips, something very tiring. I returned home from one of these trips last summer very much fatigued. I was overworked and tried to cool and rest myself by lounging on the veranda till late at night. I caught cold and the next day I did not feel at all well. I had a headache, pains in my stomach and was very weak. I went to see a doctor, but he said I would be better in a day or so, so I started on another trip. I had not gone far before I felt very ill and had to return home and go to bed. I had chills, headache, pains in my stomach and kidneys. The doctor came to see me and he said I was overworked. He treated me for several months, but instead of improving I continually grew worse. I wasted away almost to a skeleton, and really thought I was going to die. One day my wife returned from the village with a supply of Dr. Williams' Pink Pills. She urged me to take them, as she said they had been very highly recommended to her. I did so and by the time I had taken four boxes I felt enough benefit to decide me to continue them and took about a dozen boxes. They fully cured me and to-day I am able to go about my work without feeling fatigued."

Fatigue, on the least exertion is a sign that the blood is poor. Replenish the bad blood with good blood and labor will be a pleasure. Dr. Williams' Pink Pills make pure, red blood. That is why they cure anemia, rheumatism, kidney trouble, indigestion, heart palpitation and the nerve-racking ills of girlhood and womanhood. Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams Co., Brockville, Ont.

ARCHBISHOP McEVAY DEAD.

Passes Away at Toronto After Long Illness.

Toronto, May 10.—His Grace Archbishop McEvay died at 12:15 this morning after a long and painful illness. The end was peaceful, the distinguished patient being unconscious for several hours before the end.

Archbishop McEvay was born at Lindsay, Ont., December 8, 1852 and was educated at St. Michael's College, Toronto, and Grand Seminary, Montreal. He was ordained priest in 1882 with charge at Fenelon Falls, later rector at St. Peter's cathedral, Peterborough; rector and vicar-general at Hamilton, 1888; administrator of diocese, 1884-5; later was appointed Bishop of London; archbishop of Toronto, 1908.

FEELING RUNS HIGH AGAINST MINISTRY

Turkish Ministers May Be Forced From Office as Result of Jerusalem Trouble

Constantinople, May 10.—Popular feeling against the Turkish government on account of the Jerusalem incident is so strong that the ministry may be forced from office. In the chamber of deputies yesterday the minister of the interior admitted that the Englishmen, alleged to have profaned the Mosque of Omar in their search for sacred relics beneath its walls, operated within the Mosque through the connivance of its guardians whom the explorers had corrupted.

JUAREZ TAKEN BY INSURGENTS

(Continued from page 1.)

Gen. Madero has started for the town to establish his headquarters there, while the rebel cavalry, under Col. Villaverde, the fleetest of the revolutionist horsemen, are in pursuit of a detachment of federals fleeing southward from the town.

The main streets in Juarez are in ruins, some of the houses being riddled with bullets and demolished by dynamite bombs and shells. Insurgents have taken charge of the principal places of business and Col. Garibaldi and his men destroyed all the liquor they could find.

Dr. Wilson, the insurrecto field surgeon, declared that the total wounded on both sides would number over 500. Dr. Zenner, in charge of the federal hospital for the last three days, said he had treated over 100 federal wounded, 20 of whom may die. Around the custom house, church and jail, between 35 and 40 federal dead are lying in the streets, he said.

Col. Tamboret, commander of a part of the Juarez garrison, who is reported to have been killed, is said to have been the man whose taunts to the insurrectos were largely responsible for the attack.

As soon as the white flag was hoisted over the barracks, and the surrender of the federals was complete Mexican church bells were rung in celebration. One of the insurrecto physicians declares that Navarro surrendered with the federals stationed in the barracks.

A revised list of the casualties on the American side of the line since the fighting began, now gives the number of dead as four and wounded fifteen. In the battle at the church the insurrectos are reported to have taken many prisoners. They stole into advantageous positions under cover of darkness. They are said to have liberated everybody in the jail—except a negro charged with the murder of Bert Schell, a well known race track man. About 75 prisoners were in the jail.

Several bullets penetrated the thin walls of the United States customs guard house where several newspapermen were stationed but no one was injured.

Agua Prieta Evacuated.

Douglas, Ariz., May 10.—The federal army evacuated Agua Prieta, Mexico, early to-day, the entire garrison marching toward the southwest.

Federal Force Annihilated.

Laredo, Texas, May 10.—Reliable information that 56 federals were killed at Saitillo yesterday, in a fight with insurrectos, was brought here to-day by a railway conductor who was an eyewitness of the battle. The federals were drawn into a trap.

The slaughter occurred at a cotton mill in the eastern part of Saitillo, where a company of sixty federals had sought shelter, during a rebel attack.

The insurrectos, who appeared to be about equal to the federals in number, kept up an incessant fire on the mill from all sides from 3:30 a.m. until 3 in the afternoon, then they made a feint at retreating and the federals rushed after them to attack their rear.

The retreat was only a ruse for as soon as the federals stepped clear they were flanked by rebels who shot them down without mercy. Only four of the federals were seen to escape.

The reports from Concepcion Del Oro to-day tend to confirm last night's dispatches that insurrectos had completely annihilated a force of federals at that place.

No accurate reports of casualties are obtainable, but incoming railway officials estimate that 50 or 50 are dead or desperately wounded.

—Victoria West Methodist church Epworth League, as was anticipated, spent a most interesting evening with the Canadian Authors' on Monday. Miss Brown in the chair. Among the authors discussed were Ralph Connor, C. H. Mair, Miss L. M. Montgomery and Robert Spencer.

RECORD IN LONG DISTANCE TELEPHONING

New Yorkers Converse With Citizens in Denver—San Francisco Next Step

New York, May 10.—For the first time in history the human voice carried 2,000 miles Monday night, when New York found Denver over a long distance telephone wire. Manhattan newspapermen in a downtown skyscraper talking to a group in the Colorado city, picked up Omaha on the way and also gossiped with Chicago. "A phantom" telephone, connected with four copper wires, the thickness of a lead pencil, brought the cities together and in all 22 people were exchanging messages by telephone and telegraph at once over these four wires. While the reporters talked, 16 telegraph operators worked the New York-Chicago ends of four duplex telegraph wires. The same four wires and the same current sufficed for the simultaneous needs of the 22 senders and receivers of messages.

"The next step is San Francisco," declared J. J. McCarthy, chief engineer of the American Telegraph and Telephone company, who superintended the extension of the service.

SEISMOLOGICAL OBSERVATORY

(Continued from page 1.)

on the subject. Recently he was induced to give a summary of his observations before the Natural History Society and other public bodies, and he demonstrated the value of an observatory here. His approaching visit east will give him an opportunity of presenting the very valuable original data which he has been collecting for some years before his chief, R. F. Stupart, Toronto, superintendent of the meteorological service of Canada; the International Seismological Convention, which meets in Manchester in July, and the British Association for the Advancement of Science, which holds its annual meeting in Portsmouth in August. It affords him an opportunity as well of presenting personally these data before Sir George H. Darwin, son of Charles Darwin, and professor of astronomy and experimental philosophy at Cambridge, who has taken a very deep and kindly interest in his work, and with whom he has maintained a correspondence for a long time.

R. N. Hicks Will Build New Block on Quadra Street and McClure Corner.

Looking ahead with optimistic vision is what the property owners of Victoria are doing at the present time; and that their confidence is not misplaced is amply proved by the indications of the present. On all hands sturdy evidences of growth and prosperity are shooting up and arrainging themselves in a solid phalanx to scout the doubters.

One more substantial evidence of faith is furnished by the intention of R. N. Hicks to build an apartment house of fine proportions and excellent material and equipment at the southwest corner of Quadra and McClure streets. This ambitious project is estimated to cost in the neighborhood of \$35,000. The building permit was issued yesterday.

The structure, according to the plans lodged, will consist of two and a half storeys with basement. It will be built of brick and concrete, and will contain no less than twenty-five suites of rooms all fitted up with the latest requirements of the modern apartment house.

In the construction of this block special attention will be devoted to the free passage of light and air to all the rooms. Steam heat will be one of the accessories of this prospective block. C. C. Mesher & Co. have secured the contract for the work.

HEALTH BYLAWS TO BE REVISED

Vancouver Will Adopt the Sanitary Regulations of Provincial Board

Vancouver, May 9.—As soon as the necessary preliminary steps can be taken, the health by-laws of Vancouver are to be completely revised and made more adaptable to the needs of

the city. It was resolved by the health committee, at its regular meeting, that "in view of the urgent necessity for an immediate revision of the health department by-laws, the city solicitor be asked to make such revision forthwith, and that the medical health officer be asked to supply all necessary information for doing so." It was generally admitted that under the present by-laws it is scarcely possible to conduct the department in a thoroughly efficient manner, and that the medical health officer as well as the health committee are compelled to work constantly under serious handicaps. Alderman Stevens, chairman of the committee, stated that many things remained undone which all concerned realized should be done, and would like to do, if so empowered by the by-laws. The charge of negligence or incompetency has to be borne repeatedly, when no one is more desirous than the officials that conditions complained of could be immediately remedied. It was also resolved that the sanitary regulations of the provincial board of health be officially adopted in this city. A clause of the regulations provides that they may be adopted by any municipality, but that they do not apply unless so adopted.

RUSH OF SETTLERS TO CANADIAN WEST

Fifty Thousand Immigrants Travelled Over C. P. R. in March and April

Montreal, May 10.—It is stated by C. P. R. officials that the month of April has broken all records for immigration by over 3,000 people. At the same time the rush through Montreal with the opening of navigation has started in at a rate that bids fair to make May even exceed the figures for April. During the month just ended the C. P. R. carried from St. John to Montreal and thence westward no fewer than 29,321 immigrants, not counting small children, or over a thousand a day inclusive of Sundays. This is an increase of over 10,000 on the figures for March, when 18,000 immigrants were brought through. During the sixty-two days of March and April this year the Canadian Pacific carried 59,000 immigrants through to the new lands of the West, a number far in advance of any previous immigration statistics.

ONE MAN KILLED

TWO WOUNDED

Fight With Robbers in Street at Salt Lake City—One of Injured May Die

Salt Lake City, May 10.—One man was killed and two were wounded in a running battle here yesterday between an informal posse of police and citizens, and two men who robbed a downtown pawnshop of diamonds valued at \$6,000.

The dead: Joseph W. Axtell, hotel fireman. The wounded: E. E. Wellman, shot through the body, probably will die; F. D. Higginbotham, shot in the leg.

The bandits entered a pawnshop in East Second South street, and while one of them with two revolvers prevented the three clerks of the establishment from reaching any of the dozens of firearms which lay almost under their hands, the other scooped diamonds from a window tray into his pocket.

Both then fled. Citizens, attracted by the outcry of the clerks, started a pursuit. As they neared the robbers, one of them turned and fired three shots. Axtell dropped dead in his tracks, and Wellman and Higginbotham fell wounded. Fearing that all three had been killed, an enraged crowd swarmed from stores and offices, forcing the bandits to separate. Both were captured. The one with the diamonds tried to throw them into the street, and succeeded in disposing of some of them in this way.

When arrested they gave the names of J. J. Morris, ranchman, and John Murray, miner.

Axtell is survived by a widow and three children.

KOOTENAY RANCH SOLD.

Nelson, B. C. May 9.—W. A. Santo, of Thunder Hill, has sold his large ranch here to Lord Hildlip. There are nearly 500 acres in the ranch, and it is sixty-five miles from Cranbrook. The new owner is expected to arrive within the next couple of months. The price is well up in the thousands. It is one of the finest ranches in the country, and is extensively stocked with both cattle and horses.

EXPLOSION KILLS TWO.

Topeka, Kas., May 10.—Phillip Blatner and Peter Burghart, car repairers, were killed by the explosion of oil tanks in the car repair shops of the Santa Fe road yesterday afternoon. Several others were injured.

The property loss from the fire which followed the explosion was \$70,000, caused by a hot rivet falling into an oil tank.

TROUBLE IN HAITI.

Port Au Prince, Hayti, May 9.—President Simon, whose administration is threatened by further revolutionary activity, has determined to take strong measures against the disturbers. On Monday the French steamer Montreal left here carrying 800 soldiers to Fort Liberté, where trouble is reported.

THINKING THEMES

BY DR. FRANK CRANE

There is no doubt, but experience is a great teacher, but what does it teach? Suffering and failure happen to us for some good purpose, to be sure, but

what is the purpose? All the world, sky, sea and seasons, have a spiritual meaning, but what is it? Who shall translate the pain "Of all this unintelligible world?" "Poets," I read in a recent volume, "even the austere, have to learn in suffering what they teach in song. Only the suffering is always so much dearer than what it teaches them."

After some thousands of years, man still stands gazing before the unsolved riddle of the universe. The bereft mother to-day utters her wild cry of "Why? Why?" and is no nearer an answer than was Eve when she mourned with the dead Abel's head in her lap.

All ministries are of use only as they serve to translate this enigma. Thus art is valuable, not so much because it copies beauty, as because it finds beauty and enables us to see it; the painting unlocks the landscape, the Venus de Milo makes understandable the human form. Literature serves, in that it calls up forms of thought as the wizard calls spirits from the vasty deep, and what was vague becomes definite. Religion serves in proportion as it makes distinct and useable the strange currents of duty and love and fear that thrill the chaos of our hearts. And death is good, for at last it mothers the unquiet soul and lulls to sleep the tired striver, and answers all questions. "Aber ist Das eine Antwort?" —But is that an answer? asks Helme.

BOYS PLOT TO BLOW UP SCHOOL

Reported to Have Confessed They Placed Dynamite Under Building

South Vancouver, May 10.—With two sticks of dynamite and a length of fuse placed in holes in the basement of a two-roomed school on Wilson road, four small boys, the alleged ringleader of whom is only thirteen years old, are reported to have confessed that they were only waiting to secure a few dynamite caps before blowing up the whole building.

The four young would-be dynamiters, in their explanations, after having been taxed with putting the explosives in the school basement, are stated to have said that they had been fired to attempting the deed through reading of the explosions at Los Angeles and other cities, and thought it would be fine to send the building on Wilson road flying into the air. The boys claimed, however, that they had no intention of lighting the fuse when school was in session, but planned to wait until there was no one in the building. C. L. Thornber, present assistant master at Collingwood school, who will take charge of the new school now being erected on Wilson road, discovered the presence of the dynamite in the present school building. He said that owing to certain disturbances there he had been instructed to call daily to advise the two female teachers in charge. One day last week a carpenter reported to him that he had seen a boy with a stick of dynamite. An investigation was made and two sticks with the fuse were found in holes in the basement walls.

M. FALLIERES IN BELGIUM.

President of France Will Spend Three Days in Capital.

Brussels, May 10.—The arrival of President Fallieres and his party at the Belgian capital yesterday for which arrangements had been made in advance, was the occasion of an immense and cordial demonstration of good will toward France. From the time the French president crossed the frontier, huge crowds welcomed him at every station. On his arrival here he was met by King Albert and practically the whole official body. Three days will be given over to the entertainment of the visitors.

CHINESE MASONS.

Hamilton, Ont., May 10.—A Chinese lodge of Masons has been organized here and will be affiliated with the Canadian order. It is the first Chinese lodge to be organized in this section and many prominent officers of the order from Ottawa, Toronto and Montreal participated in the ceremonies. Seventeen were initiated.

CUNNINGHAM COAL CLAIMS.

Washington, D. C., May 10.—Eminent argument in the hearing on the Cunningham Alaskan coal land claims was presented yesterday before Secretary of the Interior Fisher and the land office board, in whose hands rested the final decision as to whether Clarence Cunningham and the other thirty-two claimants have a right to patents to certain coal lands in Alaska. Nothing but suggestion and suspicion ever have existed, declared John P. Gray, attorney for the claimants, to prove that any attempt was made to defraud the government. The evidence, in his opinion, has simply answered the suspicions of conspiracy. He told the tribunal that Cunningham and the others were guilty of conspiracy and perjury or are entitled to their patents. Commissioner Bennett and his advisers probably will take about three weeks to prepare their decision.

Watch for the Seal

of the Faultless Flour

Particular people who want a particular flour can't help buying SEAL OF ALBERTA. Actually we wash every kernel of the wheat it is made from. It is cleaned by separators—that is done at most mills—then it is dry scoured, but even that isn't enough. So we actually wash it to remove any possibility of impurities from the grain. This cannot be done at the ordinary mill. It takes too much power. It is too great an expense. That is another reason why SEAL OF ALBERTA is a purer, better flour.

Now the wheat is washed in warm water. That enables us to bring it to the right temperature before milling, and the milling process can be carried along better with the wheat at a certain temperature. That's another reason why you should say "SEAL OF ALBERTA, PLEASE," when ordering flour.

SAILS FOR BALTIC SEA.

Washington, D. C., May 10.—Bound on a foreign cruise of international courtesy the second division of the Atlantic fleet sailed yesterday for the Baltic sea.—The battleships, Minnesota, Vermont, and Massachusetts steamed from Hampton Roads while the South Carolina, the fourth member of the division sailed from New York. The ships will join at sea Rear Admiral Charles J. Badger commands the division, the itinerary for which includes stops at Copenhagen, Stockholm, and Kiel.

BODY FOUND IN RIVER.

Portland, Ore., May 10.—A man with his throat cut from ear to ear was found off the river front at Astoria yesterday. The man was apparently forty years old and well dressed and carried only a silver watch and one cartridge in his pocket. The body had been in the water about two weeks and was in such a condition as to make identification almost impossible. It is thought he committed suicide.

FOUND DEAD.

Los Angeles, Cal., May 10.—Pinned to the coat of a man found shot to death yesterday in a sparsely inhabited district of the city, was a slip of paper, bearing the scrawl "this man got killed for a mistake." Articles found in the clothing indicated that he was Alfonso Bostkowski, a Pole from Illinois.

Coroner and police are investigating to determine whether it is a case of murder or suicide.

NEW JAIL NEEDED.

Nelson, May 9.—The desirability of a new and larger provincial jail of more permanent construction and the merit of a campaign just being initiated for a new hospital in Nelson were pointed out by the grand jury of the present criminal session, as sizes here in a presentment made this morning to Mr. Justice Murphy.

McBRIDE AT OTTAWA.

There will be mingled feelings throughout the province at the reports of the impression created by Premier McBride upon the members of the Conservative party and the party leaders who were present at Mr. Borden's complimentary dinner in Ottawa last Friday night.

put his best foot forward. Perhaps there are, even among his followers in the west, those who will not be content to accept this view of the case and who will still think that he should have made the most of the occasion and not left himself, by comparison with Mr. Borden, as "the flicker of a tallow candle when compared with the electric light."

The reports say, however, that in response to the open and public invitation to extend his sphere of influence, Mr. McBride assumed a "waiting-to-be-pressed" attitude, and it is this feature of the case which more than any other that will cause the disappointment to his followers throughout the province.

No one who knows Premier McBride will suppose that he would hesitate for a moment to go up higher if he could feel assured that his party could capture the treasury benches at the next appeal to the people.

All this will be read between the lines in the reports of the premier's triumph in the east, for a triumph it will be called by that section of the press who can see nothing in any incident in Mr. McBride's career, nothing in any of his movements, that does not reflect glory upon himself.

TO CANADA'S ADVANTAGE.

Among the several English papers which make careful analysis of the probable effects of the reciprocity agreement and reach conclusions along general lines of reasoning is the London Statist. The Statist is a notable authority and it finds, according to its methods of reasoning, that the agreement will benefit Canada.

"The great advantage to Canada of the reciprocity arrangement with the United States will lie in the value of the American market to her in a period of stress when she must strain every nerve to increase her production and when she may experience temporary difficulty in finding buyers for her output.

greatly assist in bringing about the vast increase of production necessary to maintain the rapidly-growing population of the country.

"In brief, the arrangement is one that encourages the increased production of foodstuffs in Canada and does not discourage production, either in the United States or in other countries; hence it is in line with the policy of Great Britain to stimulate and encourage the output of foodstuffs and raw materials wherever they can be advantageously and economically produced."

It will be seen how carefully the Statist has related the prosperity of each section of the community to the prosperity of the Dominion as a whole. That is precisely the view of the case which is lost sight of, or purposely obscured, in the stock arguments against the reciprocity agreement.

It is gratifying to find a British paper of such authority giving such dispassionate consideration to the subject and enlightening its readers with so unprejudiced a view of the facts.

Query.—When did the morning paper suggest the building of the Hudson Bay railway?

Ex-Comrade Hawthornthwaite, still M. P. P., has evidently adopted Premier McBride's classical motto: "The thing is to get in, and after you are in to stay in."

Calgary is listening to a whole week of talk by Charles Frederick Adams on civic government, taxation and similar topics. We do not know what Mr. Adams's terms and dates are, but it would be real nice to have him visit Victoria.

The Toronto News asks: "Why throw away a preference in the British markets?" When Canada obtains such a preference it will be good time to put the query. The question is about as difficult to answer as "can a man lose what he never had?"

The fact cannot be denied that the alliance between the provincial premier and the man who "worked" the Socialists of Nanaimo so deftly has proved of mutual advantage to the conspirators. The one has stayed in and the other is in a position of indifference as to whether or not he stays in.

The Times is glad to acknowledge that it was misinformed as to the action of the school trustees in the matter of a half-holiday for the school children on the afternoon of the Sheffield Choir matinee. It appears the trustees passed a resolution granting the half-holiday, subject to the approval of the education department. This will meet with popular commendation.

Reciprocity, the oracle now says, would be dangerous to Canada's independence because a few Americans are talking annexation. Bless your guileless oracular heart, some United Statesers have been talking the same way for a hundred years. Besides, the avowed annexationists are all opposed to reciprocity. That is one way they hope to defeat it and keep the consumers of the United States at the mercy of "the interests."

Rev. M. A. Matthews, a Presbyterian divine, admits that he was the author and Detective Burns the finisher of Seattle's recent graft probe which led to the arrest of ex-Mayor Gill. Although the stir-up has sent political parties under and given Seattle a temporary moral black eye, the clergyman need not regret it if he succeeds in reforming the conditions which existed previously to the merciless exposure—and since.

The General Assembly of the Presbyterian Church of the United States, which convenes on the 18th of this month, will have to probe three charges of heresy against theological authorities. These are President Francis Brown of the Union Theological Seminary in New York, Rev. Dr. William Adams Brown, a professor in the same

DAVID SPENCER, LTD.

institution, and Rev. Dr. William R. Grant of Northumberland, Pa., who will appear on an appeal from his own Presbytery, which acquitted him. What with the revision of the Episcopal Book of Common Prayer, the shortening of the Ten Commandments and the expurgation of the Athanasian Creed, theologians have their summer's work cut out. Their task would be considerably lightened if they would leave the shortening of the Ten Commandments in theory to individual conscience, as is the almost universal custom in practice.

WINS SILVER MEDAL. (Special to The Times.) Guelph, Ont., May 10.—S. H. Hopkins, Lower Nicola, British Columbia, won the Governor-General's medal, the highest honor given at the Ontario agricultural college here. The results of the examinations were announced this morning.

Tickets for Alexandra ball can be obtained at the new club building.

Manure at Moore's Antiseptic Barber Shop, Pemberton Block.

The reception to be given by the Native Sons of B. C. Post No. 1 with which is amalgamated the Pioneer Society of B. C. to Pioneer Society and Native Sons and Daughters, in the new Alexandra club on Thursday the 11th, promises to be a most brilliant and successful affair, and no stone has been left unturned by the various committees to make the reception a memorable one. Invitations have been issued to a very large number, but all members of both the Pioneer Society and the Native Sons should bear in mind that invitations are not being issued to them if being expected that they will put in an appearance without one.

The bank clearings for the week ending yesterday aggregated \$3,085,992.

The Victoria Building Trades Council will hold a special meeting to-night at 7 o'clock.

The regular monthly meeting of the board of school trustees will be held this evening, when routine business will be transacted.

The annual meeting of the members of the Victoria Horticultural Society will be held in the Sir William Wallace Society's hall to-night at 8 o'clock.

The public schools will be closed on Friday afternoon, May 19, in order to give the children an opportunity to hear the Sheffield Choir, which gives a matinee that day.

The regular monthly business meeting of the Ladies' Aid Society of First Congregational church will be held at the home of Mrs. A. Braik, 1433 Elford street, this afternoon at 3 o'clock.

Why pay regular prices when you can get brand new, high class clothing, hats and furnishings at a mere fraction of their real worth at the J. N. Harvey, Ltd., sale of the H. Williams & Co.'s stock. Hundreds are taking advantage of this opportunity; are you? Store at 614 Yates St.

The ladies of Grace English Lutheran church are holding a sale of work and tea this afternoon and evening at the new church building, corner Queens avenue and Blanchard street. Extensive preparations and decorations have been made and the comforts of the guests are well provided for. The proceeds of the sale will go toward the furnishing of the church.

Final arrangements for the ball to be given Friday night in the Alexandra Club by the Daughters of Pitt, in aid of the Children's Ward of the Royal Jubilee Hospital, have been made and everything points to the success of this event. Tickets can be obtained from Dean & Hiscocks, Challoner & Mitchell, and T. N. Hibben & Co., and also from the president, Miss Hiscocks, Mrs. C. E. Wilson, vice-president, Miss O. Fawcett and Miss Furrey.

FERRY SERVICE

Victoria-Vancouver.

Princess Victoria leaves Victoria daily at 3.30 p. m., except Sunday, arriving at Vancouver at 4.15 p. m.; Princess Royal leaves Victoria daily at 11.45 p. m., arriving at Vancouver at 5 a. m.

Princess Adelaide leaves Vancouver daily, except Tuesday, at 10 a. m., arriving at Victoria at 2.45 p. m.; Princess Royal leaves Vancouver at 1 p. m. daily, arriving at Victoria at 3.30 p. m.

Victoria-Seattle.

Princess Adelaide leaves Victoria daily, except Monday, at 4.30 p. m., arriving at Seattle at 5 p. m.; Princess Victoria leaves Seattle daily, except Monday, at 10 a. m., arriving at Victoria at 2.30 p. m. On the lie-over day the steamer Inouka, of the Alaska-Navigation Co., fills the schedule.

Vancouver-Seattle.

Princess Victoria leaves Vancouver daily, except Sunday, at 11.30 p. m., arriving at Seattle at 3.30 a. m.; Princess Adelaide leaves Seattle at 11.30 p. m. daily, except Monday, arriving at Vancouver at 5 a. m.

MARK TWAIN'S WORKS.

If you are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan it will cost you nothing to get full particulars and a new thirty-two page book, "Little Stories About Mark." Address Box 409, Times office.

Y.M.C.A. CAMP.

It is likely that the Y.M.C.A. boys will go into camp early in June. Attention is called to the fact that the camp meeting on Monday next is open to all non-members as well as members, who are interested. In camp the expenses are so divided that each individual pays only the actual cost of his stay. Last year the cost per man was \$2.25 a week.

Arrangements for the juniors' camp will be left over until the arrival of Mr. Horns, the new juniors' secretary, from Olympia, Wash. For two years the younger boys have camped at McDonald's ranch, South Saanichton. This year they will probably camp in the same place. The swimming club has held its meeting, and as in former years promises to have a large share in all B. C. contests. The new tank will be a great help in affording regular and early practice to the swimmers.

Application forms for rooms in the new building are now out, and will be mailed or delivered to those who desire them. Applications must be sent to the rooms committee, which will consider them in order of their arrival. The privilege of holding rooms in the new building will only be granted to members.

Go to J. N. Harvey's for clothing.

The statutory Court of Revision to hear complaints against assessments levied against owners benefited by a large number of local improvements passed, will sit in the council chamber at the city hall to-morrow morning at 10 o'clock. This gives owners who consider themselves too highly assessed an opportunity of stating their objections.

RAILWAY COMPANIES LIKELY TO BE CURBED

Matter of Arbitrary Increase of Freight Rates—Board of Trade Council

Several matters of more than usual importance came before the council of the Board of Trade at its meeting yesterday.

Hon. Wm. Tompkins advised the Board of Trade that W. M. Langley had been appointed government representative in the forthcoming investigation in regard to the Bechtel disaster, and that M. B. Jackson had been appointed to a similar position in connection with the loss of the Inouka.

A matter of paramount interest to shippers was broached in a communication from Hon. George P. Graham, Minister of Railways and Canals. His letter was in relation to the board's petition for certain amendments to the railway act and he promised to give the petition every consideration. What is desired is an alteration in the act so that railway companies cannot appeal to the Board of Railway Commissioners to raise freight rates without the shippers affected being heard.

The question has agitated the members of the Victoria Board of Trade for some time. It is now expected that the end of this particular trouble is in sight and that in the near future it will be impossible for railway companies to arbitrarily raise their rates.

The question of the new wing to the Empress hotel, which has been in the wind so long did not get any nearer realization by the letter which the council received from the secretary of Sir Thomas Shaughnessy in answer to their suggestion that the work should be proceeded with. Sir Thomas is still in the old country. On returning to Montreal, it was promised, the suggestion would be laid before him.

J. H. Turner, the agent for B. C. in London, and J. J. Shaughnessy were appointed to represent the board at the meeting of the Associated Chambers of Commerce of the Empire which takes place in London, on July 5.

The monthly meeting which it was proposed to hold to-morrow has been cancelled, but if any business of importance should develop a special meeting will be called.

At the annual business meeting of the Young People's Society of the Centennial Methodist church plans were laid for a vigorous year's work, and the following officers elected: President, J. W. Alton; first vice-president, Geo. Lower; second vice-president, J. M. Thomas; third vice-president, Miss McEwan; fourth vice-president, Miss Thomas; secretary, E. Gillingham; treasurer, Geo. Holt; organist, Miss Murgatroyd; reporter, T. Hammond; chairman floral committee, Miss J. Henderson; chairman membership committee, Miss R. Holt; chairman mission hall committee, Miss Adams. During the months of June, July and August meetings will be held only on the second and fourth Mondays instead of weekly.

CLOSING SESSIONS OF WOMEN'S COUNCIL

Urge the Securing of Land for Parks and Playgrounds—Papers Are Read

The final session of the Local Council of Women yesterday afternoon, with Mrs. Willscroft in the chair, opened with the report of the financial secretary, Mrs. W. Grant, which showed a balance of \$76.53. From now on the annual meetings will be held in May, and the fiscal year will end in that month; thus societies which paid their affiliation fees last November, will not be called on to pay again till next May.

Mrs. Graves in moving the following resolution impressed on the council the economic necessity, as well as the benefits, of establishing play grounds for children. Her resolution, seconded by Mrs. Wm. Grant, and supported by many others, was:

"Whereas, the value of land in the city is increasing very rapidly. Therefore, be it resolved, that this Local Council of Women use its influence to impress upon the authorities the urgent necessity of securing land in different parts of the city for parks and playground purposes, as early as possible."

It was unanimously passed.

With the reading of immigration report by Miss Crease, the routine business of the meeting ended. Under the heading of new business, strong protest was made against the erection of a hotel near the George Jay school.

R. T. Elliott, K. C., read an interesting paper on "The Laws Governing Dower, Maintenance and Wills," and H. Sheridan-Hickes gave an address on "The Civic Responsibilities of Women."

Votes of thanks were passed to the press, the trustees of St. Andrew's church, and to all retiring officers.

Mrs. Willscroft expressed her regret at the withdrawal of Mrs. Spofford from the position of chairman of the presidential board. In her reply Mrs. Spofford said that it would be a good thing for the council in many ways to have a change of officers.

The meeting closed with the singing of the National Anthem.

THE CHORAL SOCIETY.

The Choral Society members were at home last evening at the Broad street hall and gave a delightful conversation to which each member invited a guest. An impromptu programme was rendered and refreshments served. The affair was very much enjoyed and was well attended.

Vice-President J. C. M. Keith presided and during the evening made two presentations, a gold-mounted ebony baton to the honorary conductor, Gideon Hicks, with the following inscription engraved: "Presented to Mr. Gideon Hicks by the Choral Society, Victoria, B. C., May 9, 1911," and a pair of solid gold cuff-links to the honorary treasurer, Arthur Wheeler, Jr., on one of which the recipient's initials were engraved, and on the other "Y. C. S.", to show by whom the links were presented.

Mr. Keith spoke very eulogistically of both gentlemen, and declared the society was very deeply indebted to them, they being the leading spirits in the society.

Both Mr. Hicks and Mr. Wheeler made suitable replies. Both of these presentations were quite unexpected and showed the excellent feeling among the members of the society.

It has been decided to continue the work of the society during the summer months by holding one practical per month. It has also been decided to endeavor to secure subscribers for future concerts of the society. A determined effort in this direction will be made at once.

An extra-ordinary meeting of the society will be held in the city hall next Tuesday evening at 8 o'clock to discuss this and other business matters.

This should prove to be one of the nicest races of the meeting, and one that should not be overlooked, with such a fast entry list.

NEWS OF SPORT

AMATEUR BASEBALL OPENS IN FORTNIGHT

Managers Draw Up Schedules—Another Entry Expected in Junior League

One week from Saturday, May 20, the amateur ball season in Victoria opens. The managers of the four senior teams, R. Whyte, Giants; C. Surphie, Hills; W. Levy, Prides; and E. Plummer, Bays, met last night and drew up the schedules for the senior and intermediate leagues. The junior schedule will be arranged at a meeting to be held next Thursday night. In the latter league five teams have entered, the Wards, Olympics, Knights, East Ends and Oak Bays. In order to make it convenient for the other teams, one more entry is needed and this is expected at the forthcoming meeting. The schedules for the senior and intermediate games as drawn last night is subject to revision at Thursday night's meeting, and is as follows:

Senior.
May 20—Hills vs. Bays; Prides vs. Giants.
May 27—Bays vs. Prides; Giants vs. Hills.
June 3—Prides vs. Hills; Bays vs. Giants.
June 10—Giants vs. Prides; Bays vs. Hills.
June 17—Hills vs. Giants; Prides vs. Bays.
June 24—Giants vs. Bays; Hills vs. Prides.
July 8—Giants vs. Prides; Bays vs. Hills.

BROWN RELIEVED IN FIRST INNING

Pitcher Goes Up in the Air and Victoria Loses Game at Start

Eliminate the first inning and yesterday's game was all Victoria's but oh! that fatal first. It was Brown's day in the box and, terrible to relate, he put the Islanders irrevocably in the hole before he had pitched half a session. He was yanked out after he had allowed two batters to hit, the next two to walk and had given Zimmerman three balls.

Sage replaced him and probably few pitchers have had to face a more disagreeable task than had the husky Twilight leaguer. Without warning he was hurried on to the slab, with three men on bases, no one out and, in order to stop the merry-go-round, must fan the batter without putting across a ball. Christy Matthews, himself could not have put the brakes on quite enough to have prevented the slaughter. Before the Indians were retired they had dusted in with five runs.

The dusky warriors from Spokane certainly must have a stand-in with the fickle goddess, for in the succeeding eight innings they were outslugged completely. The only other run they did get was the result of a squeeze play, which, it must be said, Sage should have known better than to allow. It happened in the sixth. Netzel was on third, Cooney on first and two other men were out. When Cooney dashed for second, Sage just naturally swallowed the bait, hook and all. He threw to Raymur and caught the runner, but of course, Netzel had, in the meantime, crossed the plate. However, the big twirler created such havoc amongst the hard-hitting visitors that he was forgiven this little mistake.

There is no doubt that the Islanders deserved to win. Their hitting was just as good and their fielding superior to that of the Indians. Million scored one in the third getting two bases on Petrik's error and coming home on Goodman's hit. In the ninth, the other two were tallied. Raymur got to first by the painful progress of allowing himself to be hit by the ball and Million rapped out a single. Again the day's batting hero, Goodman, came up and again he was equal to the occasion, for a well placed two-bagger brought home Raymur and Million romping home.

Talking about heroes, the palm must be handed to the umpire. That any man could have the nerve to appear before a crowd of rabid fans and hand out such a bunch of awful decisions is beyond comprehension. Not that the poor decisions were all against Victoria, although it is a fact that when his judgment did slip a cost it was generally costly to the Islanders.

Sage fell into a hole in the third, but, with the assistance of Kellar, pulled out of it nicely. With men on first and second Kollar ran in for a

short bunt and threw Nordyke out at third. Sage did the rest. There was quite a number of quick, flashy pieces of work during the game and, when successfully pulled off, they never failed to draw a round of applause from the grand stand, whether a local or a Spokane man was responsible.

Million must be credited with the prettiest of them all. It was in the fifth, Nordyke was on third, Zimmerman on second and one out. Kipper banged out a fly to deep center which Million caught and with wonderful speed threw home, catching Nordyke at the plate. With almost anyone but Little Ten in centre, Nordyke would certainly have scored. Hasty made a great catch of a fouled ball and Reddick a spectacular stop of Cooney's drive. Schwenk, the Spokane twirler, pitched good ball but he was not so sure of coming out unscathed, when in a tight position, as was Sage.

The score was:

VICTORIA CLUB TEAMS' CRICKET FIXTURES

Busy Season for the Players—Several New Teams Enter Field

The cricket teams are sprouting like spring flowers. The Rainbow, Royal Oaks, and Boy Scouts are among the newcomers. The Victoria Cricket Club schedule appended shows an active season in store for that club.

On the eve of so much cricketing activity in Victoria many old cricketers here will regret to read of the death of Robert S. N-whall, of the world renowned Philadelphia Newhall cricketing family. He was one of the best known players in the States, having been a member of the famous team of 1884, the first American team which ever competed in England.

The Rainbow cricket club is playing the Union Club team on the cauteen grounds to-day.

The Victoria Cricket Club fixtures are as follows:

Team "A" plays: May 13, Garrison at Work Point; May 20, Albion at J. H. G. (T); May 27, Seattle at Seattle (T); June 3, Garrison at J. H. G. (T); June 10, Golf Club at J. H. G. (T); June 17, Albion at Beacon Hill; June 24, Burrard at J. H. G. (T); June 31, Nanaimo at J. H. G. (T); July 1, Vancouver at Vancouver; July 8, Seattle at J. H. G. (T); July 22, Portland at Portland, Ore.; July 29, Nanaimo at Nanaimo; August 5, Vancouver at J. H. G. (T).

Team "B" plays: May 17, University school and masters at J. H. G. (T); May 24, 2nd XI, Vancouver C. C. at J. H. G. (T); May 27, Esquimalt at J. H. G. (T); May 31, University school and masters at University school; June 17, Union Club at J. H. G. (T); June 24, 2nd XI, Albion at Beacon Hill; July 1, Tennis Club at J. H. G. (T); July 8, Esquimalt at cauteen grounds; July 15, 2nd XI, Vancouver at Vancouver; July 22, Royal Oaks C. C. at J. H. G. (T); August 19, 2nd XI, Garrison at J. H. G. (T); September 9, 2nd XI, Garrison at Work Point.

(T) signifies afternoon tea at 4.30 p.m.

(*) signifies all-day game, luncheon at 1 p.m. and tea at 4.30 p.m. A gate of 25 cents charged to all except those presenting membership cards, who will be admitted free. Non-players are invited to luncheon, upon payment of 25 cents to luncheon, upon payment of 25 cents to luncheon, upon payment of 25 cents to luncheon.

SPORT NOTES

Among the well known jockeys who will ride in the coming meet is George Ringrose, with W. Fine. George is a little over weight just at present, but he expects to take off the superfluous flesh without trouble.

A meeting of the Vancouver Island Amateur Football League is being held to-morrow evening in the Y. M. C. A. at which the report of the committee appointed to inquire into the standing of W. Young will be heard.

There seems to be considerable trouble in fixing a date for Joe Bayley's mill with Mike Rafferty. Joe at first stated that it would be pulled off on Tuesday, May 16, as such, poor financial support was given at his last fight, which took place on a Saturday. Now, however, he has changed his mind and

McCANDLESS BROS.

557 Johnson St. Victoria, B. C.

"150% in Thirty Days"

This is a Proposition of Merit in Which the Element of Chance is Eliminated—Will Bear the Closest Investigation—Endorsed by Prominent Financiers and Far Seeing Business Men.

If you buy in the British Pacific Coal Company to-day while the shares are selling at 35 cents, you are absolutely sure of a profit of 15 cents per share through the advance in price after closing out the 35 cent issue in about thirty days time—your cash investment now is 10 cents per share, or \$10.00 cash per 100 shares; your profit 15 cents per share or \$15.00 per 100 shares.

This means that, in 30 days time the second issue of stock offered by Trustee T. R. Morrow, in the British Pacific Coal Company, Ltd., at 35 cents per share, will be absorbed by the investing public, and the third issue placed on the market at 50 cents per share.

The man who buys 1,000 shares to-day, paying down \$100 in cash and the balance in three equal monthly instalments, actually makes \$150 profit inside of 30 days. This is 150 per cent on the investment for one month.

The Fourth issue will be offered to the public in about two months time at 75 cents or \$1.00 per share.

Men who may correctly be called Captains of Industry, are buying shares to-day in the British Pacific Coal Company at 35 cents per share, in blocks twice as large as they intend to hold permanently. Their intention is to sell half their holdings when the price is 50 or 60 cents per share in about one month's time. This gives them half of their original investment practically free of cost—shares will naturally be more active when the price is 60 cents.

ABOUT THE PROPERTY

Four eminent Engineers have reported on the 8,320 acres of rich coal land con-

trolled by the British Pacific Coal Company, which is situated on Skidegate Inlet, Graham Island, 80 miles distant from Prince Rupert.

The most conservative of all reports is that of Alexander Faulds, M.E., M. Inst. M.E., in which he most forcibly sets out the fact that one seam of coal alone (and there are six on the property) embraces 36,000,000 tons of bituminous coal of the finest quality.

In addition to this there is a large body of anthracite coal on the property which is identical with the coal mined in Pennsylvania and in a number of the Old Country mines—the anthracite coal on the Company's property analyzes 83 per cent fixed carbon—almost twice the quantity present in the coal of Vancouver Island.

Consequently it burns twice as long, contains twice the heat values, and will occupy but half the bunker space in a boat, requires just half the stoking of bituminous coal.

It will readily be seen that the mines shipping coal carrying 83 per cent fixed carbon, will, under the conditions stated above, certainly control the coal market of the Pacific Coast, since it costs no more to mine and ship the first quality coal than the inferior coal carrying lower percentage of fixed carbon.

In his report the eminent coal engineer, Alexander Faulds, M.E., M. Inst. M.E., says: "Your properties are very valuable.

The value of 36,000,000 tons of bituminous coal on your property, for one seam six feet thick, should be not less than \$120 per acre, and anthracite not less than \$180 per acre, the mean or average of which would be \$150 per acre, exclusive of agricultural and timber value.

"These 8,320 acres, or thereby, are an excellent and adequate commercial assemblage for colliery operations, capable of producing a daily output of 1,000 tons for about 144 years.

"Taking the capitalization of \$1,500,000 at 16 2/3 per cent, gives \$250,000 per annum, and taking an output of 1,000 tons daily, or 250,000 tons annually, at a profit of \$1.00 per ton, would produce \$250,000 per annum, or the capital recouped in six years, adding another year for contingencies, or say, altogether at the utmost, a period of eight years.

"Taking the estimated tonnage of 36,000 during the life of the mine at \$1.00 per ton would give a clear profit of \$36,000,000 or \$22.50 for every dollar invested."

HOW TO APPLY FOR SHARES

The issue of shares to be sold at 35 cents is very limited. In a few days time the whole of the issue will be absorbed. Therefore those who are desirous of buying into this proposition at the ground floor price of 35 cents per share, should lose no time in forwarding their applications.

No application received for less than 100 shares.

Where whole cash accompanies the application, a Certificate will be issued at once, setting forth the fact that the shares have a par value of \$1.00 each, and are fully paid up and non-assessable.

SHARES SOLD ON TIME

Shares may be purchased on easy terms by paying 10 cents in cash per share applied for, and the remainder in three equal monthly instalments.

Address your applications and make your cheques payable to T. R. Morrow, Trustee. The Office of the Trustee is

617 Trounce Avenue, Victoria, B. C.

and is Open From 9 A. M. to 9 P. M. Daily

RACING CARD FOR FORTHCOMING MEET

Country Club Arranges Six Events Daily for the Seven Days

Yesterday the card for the first day's racing at the Country Club meet was given in these columns. Below will be found the cards for the first three days of the following week:

Monday, May 22
Entries close 10.30 a.m., Saturday, May 23

First Race—Purse \$200. For 3-year-olds and upwards. Weight for age. Four and a half furlongs.

Second Race—Purse \$200. For 4-year-olds and upwards. 7 lbs. below the scale. Each to be sold for \$200. Five furlongs.

3-year-olds and upwards. Non-winners in 1911, 5 lbs. below the scale. Non-winners in 1910 allowed 5 lbs. and if beaten at this meeting 5 lbs. additional. Each to be sold for \$200. Five furlongs.

Fourth Race—Purse \$200. For 3-year-olds and upwards. 7 lbs. below the scale. Winners at this meeting to carry 10 lbs. extra for each race won. Non-winners of other than a selling race in 1911 allowed 5 lbs. 2 1/2 furlongs.

Fifth Race—Purse \$200. For 3-year-olds and upwards. 7 lbs. below the scale. Allowances: Non-winners of three races 5 lbs.; two races 3 lbs.; maidens 10 lbs. Seven furlongs.

Sixth Race—Selling. Purse \$200. For 3-year-olds and upwards. 7 lbs. below the scale. Non-winners in 1911 allowed 5 lbs. Each to be sold for \$200. One mile and 50 yards.

Wednesday, May 24
Entries close 10.30 a.m., May 25

First Race—Selling. Purse \$200. For 3-year-olds and upwards. Weight for age. Beaten horses at this meeting allowed 7 lbs. to be replaced by 10 lbs. Each to be sold for \$200. Five furlongs.

Second Race—Purse \$200. For 3-year-olds and upwards. 5 lbs. allowed below the scale. Winners at this meeting to carry 10 lbs. extra. Beaten horses at this meeting allowed 5 lbs. Five furlongs.

Third Race—Selling. Purse \$200. For 3-

PRESIDENT LINDSAY

of the Northwestern League, Who Came Over to Victoria to See the Opening of the Season Here.

Third Race—Selling. Purse \$200. For 3-year-olds and upwards. 5 lbs. below the scale. Non-winners since January 1st, 1911, allowed 5 lbs. Each to be sold for \$200. Six furlongs.

Fourth Race—Purse \$200. For 2-year-olds and upwards. 7 lbs. below the scale. Non-winners of a stake or handicap since January 1st, 1911, allowed 7 lbs. Six and a half furlongs.

Fifth Race—Selling. Purse \$200. For 4-year-olds and upwards. 7 lbs. below the scale. Non-winners of two races since November 11th, 1910, allowed 5 lbs. Each to be sold for \$200. One mile.

Sixth Race—Selling. Purse \$200. For 3-year-olds and upwards. \$500 weight for age; 3 lbs. allowed for each \$100 less to \$200. One and a eighth miles.

Tuesday, May 23
Entries close 10.30 a.m., Monday, May 22

First Race—Selling. Purse \$200. For 2-year-olds. \$200 weight for age; 3 lbs. allowed for each \$100 less to \$200. Four furlongs.

Second Race—Selling. Purse \$200. For

3-year-olds and upwards. \$200 weight for age; 3 lbs. allowed for each \$100 less to \$200. Six furlongs.

Fourth Race—Purse \$200. For 3-year-olds and upwards. Non-winners at this meeting 7 lbs. below the scale. Beaten horses at this meeting allowed 5 lbs. Six furlongs.

Fifth Race—Stake. The Celebration Handicap. Entries closed. One mile.

Sixth Race—Selling. Purse \$200. For 2-year-olds and upwards. 5 lbs. below the scale. If beaten since May 19th, 1911, allowed 5 lbs. Each to be sold for \$200. One mile and 100 yards.

The racing officials will be: T. J. Wellman, presiding judge; Joseph Weber, starter; Phil Reilly, clerk of the scales; S. J. Rothel, paddock judge; Robert F. Leighton, racing secretary.

The officers of the Victoria Country Club are: M. H. Carlin, president; Geo. A. Fraser, managing director; J. E. Smart, secretary.

HAVE A BAD LEG

Foisoned Hand, Abscess, Tumour, Itch, Glandular Swelling, Eczema, Black and Inflamed Veins, Synovitis, Bunions, Ringworm, or Disinfectant Eruptions, I can cure you. I do not say perhaps, but I will. Because others have failed it is no reason I should. You may have attended Hospitals and been advised to submit to amputation, but do not for I can cure you. Send at once to the Drug Store for a Box of Grasshopper Ointment and Pills which are a certain cure for Bad Legs, etc. See the Trade Mark of a "Grasshopper" on a green label—Prepared by ALBERT & CO., Albert House, 73 Farringdon Street, London, England. MONEY WANTED Y. M. C. A.

All subscriptions to new building past due one month. Money urgently needed to open building clear.

Subscriptions received and official receipts given by following Directors, at their offices: W. N. Mitchell, A. B. Caser, A. B. McNeill, P. S. Hillis, C. A. Fields, R. B. McMicking, A. J. Braca, W. Scowcroft.

FOR SALE

An ideal apartment house sit., with 3 story house in good order, 190 feet street frontage, high commanding corner position, excellent views, within 10 minutes of Post Office, \$23,000; \$4,000 cash, balance in years at 7 per cent. C. H. Richardson, 1011 Government street.

KEEP YOUR HAIR LUBY'S

Don't let it fall out. Don't let it get dry, dull and grey. Luby's Parisian Hair Renewer restores hair to its natural shade—keeps it glossy and beautiful and cures dandruff. 2 1/2 Drugists, 50c. a bottle. R. J. Devins, Limited, Agents, Montreal.

MAYOR MORLEY PITCHING FIRST BALL

President Lindsay is Standing Behind His Worship, Who Was Caught in the Act of Delivering the Ball.

ABOUT BASEBALL

Brown can't be blamed for what happened yesterday. Every pitcher has his day off and yesterday was certainly the day for Brown to warm the bench.

The baseball games will commence at four o'clock to-day, Thursday and Friday. Saturday it will start earlier in order to give the players time to catch the afternoon boat for Seattle.

Lane will not be in the game for an-

HINDU ATTACKED

Wounded by Three Other Hindus Who Are Now in Jail.

Nelson, May 10.—A Hindu named Jajah Singh was chopped with an axe and slashed with a knife at Wardner Monday by three other Hindus. He went to Superintendent Manning of the C. P. R. mill and asked for a job, and when they found that he had applied to Mr. Manning instead of to the Hindu foreman the three other Hindus jumped on him. One of them hit him on the back with an axe and also on the hand, and another slashed his forehead with a knife. The victim and the assailants were brought to Cranbrook yesterday morning, and the latter were lodged in the jail, while the wounded man was taken to the hospital. This is the second case of the same kind within two weeks.

—A Life Policy is a good asset. R. V. Winch & Co. Limited.

YACHTSMEN ARRANGE SEASON'S PROGRAMME

Committee Met Last Evening and Settled on Events for Summer

The Boosters' club, which when first organized, numbered about half a dozen, now has 600 fans on its roll. If you meet one he is sure to say in a hunky whisper: "Wasn't that hard luck? We had that game cinched if his ivory-topped umps hadn't robbed us."

Tommy Hicks was in all his glory on Monday, being master of ceremonies in the largest parade held on any opening day in the Northwestern League this year.

To-night the regular weekly meeting of the Lacrosse Association will be held in the Victoria Sporting Goods store.

Standing of the teams is:

W.	L.	Pct.
Spokane	17	4 .209
Seattle	11	7 .511
Vancouver	10	8 .556
Tacoma	8	13 .381
Portland	7	12 .368
Victoria	5	14 .293

AVIATOR KILLED

U. S. Army Officer Thrown From Aeroplane While Making Flight

San Antonio, Tex., May 10.—Lieut. Geo. M. E. Kelly, Thirtieth Infantry, U.S.A., was killed to-day in a fall from a Curtiss aeroplane at Fort Sam Houston. He was making a flight and when about fifty feet from the ground shot from his seat, landing on his head. His skull was fractured and he died in a few minutes without recovering consciousness.

TO ENLARGE MONTREAL ISLAND

Montreal, May 10.—With the problem of accommodating a population of one million five years hence staring her in the face, Montreal is planning to rob Father Neptune of nearly a square mile of territory in an effort to provide additional room. As in the case of many smaller cities the plan in question simply proposes reclamation will be from the river, involving an amount of land which will be worth something like a million dollars. The idea, originated with an engineer who had acted in a consulting capacity in the erection of some of the largest buildings in the city, and has made a specialty of foundation and caisson work. His idea, in brief, is to lengthen the island of Montreal by the erection of sea walls, behind which the space could be filled in by pumping sand from the channel. Chimerical as the scheme may sound at first hearing, there appears to be no reason why it should not be carried out, since the value of the made land will far exceed the cost of its creation. Of course until borings and surveys have been made it is impossible to more than roughly estimate the cost of such an undertaking, but it is believed that it would not only pay for itself, but would leave a handsome profit besides.

From the Heart of the Corn Comes This Perfect Food

Kellogg's TOASTED CORN FLAKES

Of all the kinds of cereals to be had to-day Kellogg's Toasted Corn Flakes alone combines deliciousness, healthfulness and digestibility.

It is just a good, common-sense food that contains as much nutritive value as meat or eggs, at much less cost.

It gives strength and vitality to children—is ideal for invalids.

Made in Canada, at London, Ont.

GEORGIA PURCHASED BY JAPANESE FIRM
Steamship, Which Has Been Lying Idle at Vancouver, Has Been Disposed of

After lying in the stream at Vancouver for many months, the well-known steamer Georgia has been sold to a Japanese firm by Dowdell & Co. The amount involved in the sale is not reported, but it is expected that the vessel was disposed of by her owners for a good figure, as she is a fairly good craft, having both considerable passenger accommodation and large holds for the stowing of much freight.

INTERESTED IN INVENTION.
Sound Steamers May be Operated on Internal Combustion System.

Seattle, May 9.—So much interest has been aroused among Seattle shipping men in regard to a new German invention for the internal combustion of oil fuel that steps may be taken at once to install the equipment on Alaskan steamers.

Operating officials of some of the lines have received information from San Francisco that the invention is a success, and further details have been sought with a view to installation on vessels running out of this port.

The invention makes it possible to use the internal combustion engine, now available only on gasoline launches or small craft, up to 10,000 horse-power by the addition to ordinary fuel of a small quantity of gasoline to bring the oil up to a slightly higher flash.

SHIPPING MANY CARGOES.
Several Sailing Vessels Loading Lumber at Fraser River Mills.

New Westminster, May 10.—Last month the Fraser Mills cut 10,000,000 feet of lumber, an increase of 250,000 feet from the March output. The shipments were 25,000,000 feet. The Litchfield mill is now being loaded with 2,000,000 feet for South Africa and is expected to be outward bound by May 30.

The lumber business is particularly good at present and the prospects exceedingly bright. The demand from the prairie provinces is exceptionally brisk and a prosperous season is confidently anticipated.

LANGARA AND SOLANDER TO HAVE LIGHTHOUSES

Newington Leaving With H. C. Killen, District Engineer—To Do Other Work

Taking H. C. Killen, district engineer, on a survey and inspection trip to Prince Rupert, Queen Charlotte Islands and the west coast of Vancouver Island, the steamer Newington, Capt. Barnes, of the Marine and Fisheries department, will leave port tomorrow morning.

The Newington is going north by the inside passage and will make her call at Prince Rupert, where Mr. Killen will inspect the new Marine Depot, which is being erected there by the Dominion Government.

When the work on the Queen Charlotte islands is completed the Newington will head southward for Triangle Island, where Mr. Killen will size up the conditions for the betterment of the wireless station there.

BLUFF CHARTER MADE TO CHEER UP MASTER
And Biting Skipper of Barque Max is Minus Cigars, Wine and an Umbrella

Tacoma, Wash., May 10.—The only ship in the grain or lumber carrying trade disengaged, is the French barque Max, anchored in the bay, patiently waiting for a charter out of Puget Sound.

It was a rainy afternoon and on taking his departure the visitor suddenly remembered that he had left his umbrella, but the captain tried to get him to accept the loan of a fine raincoat.

The Max is a three-masted barque and is well known to marine men as the vessel with which the ill-fated steamship Walla Walla collided off the Coast.

WILL SHORTEN OCEAN ROUTE
NEWFOUNDLAND'S PREMIER ON PROPOSED NEW LINE

Plan to Connect Labrador Terminal of Railway With Quebec

New York, May 10.—Sir Edward Morris, premier of Newfoundland, who is in New York on his way to the convention, is taking advantage of his brief stay here to discuss with a syndicate of capitalists the proposed construction of a railway from Quebec to a point on Cape Charles, on the coast of Labrador.

The railway, according to the premier's plan, will connect at its Labrador terminal with a proposed new line of steamships of the Lusitania type, running between Cape Charles and Liverpool, making possible a three days' trip across the Atlantic.

REGULAR TREASURE LADEN STEAMSHIP
Antiochus Carries Most Valuable Cargo Taken From Sound in Many Years

No treasure laden Spanish galleon ever made a more tempting prize on the high seas for a Morgan or a Captain Kidd than will the Blue Funnel liner Antiochus, when she clears from this port for Liverpool next week.

The cargo of the Antiochus will consist of 2,500,000 feet of lumber weighing 5,000 tons; 2,000 tons of flour, 1,000 tons of oats, 500 tons of wheat, 1,000 tons of copper, 1,000 tons of knuckled-down boxes, 500 tons of machinery, 250 tons of scrap tin and the balance in general merchandise.

A large part of the goods forming the bulk of the Antiochus' cargo comes from the state of Washington, as for example her shipment of lumber which was loaded mostly at Port Blakely.

Sound ports to make additions to her cargo and will leave this port for the Orient and Liverpool on May 15.

SHIPPING INTELLIGENCE

May 10.
San Francisco—Arrived: Steamers Ancon, Astoria; Temple E. Dorr, Gray's Harbor; schr. Okanagan, Port Gamble; Sailed: Stms. Nann Smith, Coox Bay; Shanto, Gen. Hubbard, barque Amy Turner, Astoria; Queen, Victoria; schr. William Renton, Gray's Harbor.

**BODY BLOW FOR
HAWTHORNTHWAITHE**

**IS REPUDIATED BY
HIS SOCIALIST LOCAL**

**Nanaimo No. 3 Adds Mead of
Obloquy and Downs Ex-
Representative**

Though coming after the historic resume of the erratic career of J. H. Hawthornthwaite, as a member of the legislature, the publication of the following findings of the Nanaimo Local No. 3, S. L. P. C., will but tend to confirm the narrative which appeared in the Times of last week.

The Nanaimo local, having appointed a committee to discover why the member of the legislative assembly did not carry out his pledge to resign from the House, gives the public additional information of the perfidy of the one-time idol of their association. The report follows:

Local Nanaimo, Socialist Party of Canada:

Your committee in making its report with a view to the publication of same deem it necessary for the benefit of those outside the province to state that the legislative assembly of British Columbia is in session for about two months of the year, and that the seasonal allowance of its members is \$1,200 per year, with transportation paid within the province provided by the railway company.

In investigating the cause of Hawthornthwaite's resignation from Local Nanaimo S. P. of C., by referring to the minute book we find that considerable discussion had taken place with regard to the organization of Vancouver Island, B. C. As a result of these discussions we find in the minute book that on April 30, 1910, Hawthornthwaite was instructed to proceed as early as possible to organize the Island and he promised to start in the following month (May). As he made no attempt to carry out the wishes of this local in the matter he was repeatedly asked to do so, and as repeatedly excused himself on one pretext or another, as a result of this considerable friction arose in the local over the time wasted, and as the session of the legislative assembly for 1911 was nearly over the local was of the opinion that something definite should be done this year. On February 26, 1911, Hawthornthwaite was criticized for congratulating the Conservative government regarding the Coal Mines Regulation Act. This was followed by a suggestion to form a committee to outline a plan of organization for Vancouver Island to be carried out by Hawthornthwaite. As soon as the suggestion to form a committee was made he immediately stated that it seemed to him he had lost the confidence of the local and that he would resign his membership, stating that he was alright anyway. In being asked if he had always received a fair and square deal from this local, or if he could name one occasion on which he had not been treated fairly, he replied that he had always been shown every consideration and been treated as well as any man could wish to be treated by any set of men, stating that he could not rise above his environment and that he belonged to the bourgeois. The following week he made a statement on the floor of the legislature that this would probably be the last speech he would make in the House. Seeing the same statement in the Western Clarion, Hawthornthwaite was asked to attend a special business meeting and explain his position.

He replied as follows:
A. Jordan, Secretary Local Nanaimo, Nanaimo, B. C.:

Dear Comrade,—Your letter of March 13th to hand. I have no further explanation to offer your local than that given when I resigned my membership in it, that is, that it was made very evident to me that I had completely lost the confidence of its members. Under these circumstances to continue to represent it in the House would constitute an injury to the party and myself. I therefore took the first public opportunity to notify all those concerned officially. The capitalist press reports to the effect that I intend to run for the Dominion House or any other House are without foundation in fact. I am simply trying to attend to my own private business as best I may, and though no longer a member of the Socialist party of Canada do what little good I can as an individual for the present. In the meantime if your local will give me the date when it desires the Speaker should take action to fill the seat I will date my official resignation in accordance, and do all I can to help elect your nominee.

Yours faithfully,
J. H. HAWTHORNTHWAITHE.

This letter came up for discussion at the next business meeting, and the secretary was instructed to notify him to hand his resignation to the Speaker on April 1, 1911. This letter was registered and as he failed to acknowledge receipt of letter after waiting two weeks the secretary wrote the postmaster at Victoria and was informed that Hawthornthwaite had received the letter on March 29, 1911. On April 13, 1911, the following letter was sent (registered):

J. H. Hawthornthwaite:
Dear Sir,—At the request of Nanaimo local No. 3, I forwarded you a registered letter on March 27, 1911, informing you that your resignation was to be handed to the Speaker on April 1, 1911. As I have received no acknowledgment from you and have not been notified that you have complied with that request, I would consider it a favor if you will inform me if you have taken any action in the matter, or what you intend to do. Hoping to hear from you as soon as possible, I remain, yours truly,
A. JORDAN,
Secretary Local Nanaimo.

This letter was also ignored by Hawthornthwaite. Finding it impossible to get the necessary informa-

tion from him, Parker Williams was instructed to write Speaker Roberts, asking if he had received Hawthornthwaite's resignation. Williams notified us that the Speaker did not answer his letter. Parker Williams was then instructed to go to Victoria and ascertain if Hawthornthwaite had resigned his seat in the House. He informed us definitely that no resignation would be given in by Hawthornthwaite.

The committee wish to draw the attention of the local to the last paragraph of Hawthornthwaite's letter in which he states: "In the meantime if your local will give me the date when it desires the speaker should take action to fill the seat I will date my official resignation in accordance." This is only one instance of the lying statements that have characterized his career during his representation of this Local in the provincial House. With all his ability he was only capable of resorting to such mean and despicable acts as the following: On January 29th, 1911, at Hawthornthwaite's request several members of this local were nominated to act as commissioners for taking affidavits (without pay). Hawthornthwaite to hand in the names to Provincial Secretary Young. After waiting about two months and no appointments being received, Parker Williams was instructed to proceed at once to Victoria and inquire why appointments had not been made. He found that Hawthornthwaite had not handed the names to the Provincial Secretary, and he immediately got Provincial Secretary Mowat to make appointments. This gave the commissioners only four days to add names before the voters' list closed. They succeeded in putting on about 250 new names.

The committee wish to draw your attention to the last sentence of Hawthornthwaite's letter in which he states, "I will do all I can to help to elect your nominee." Contrast his statement with his action in this matter.

A recent issue of the Victoria Times contained the following statement: "That the Socialist party had been flim-flammed by Hawthornthwaite during his representation of the party in the local legislature." In order to correct this misstatement of fact it is necessary to define his duties as a representative of the party. In conformity with the aim and object of this party his duty is to endeavor to transform as rapidly as possible capitalist property into the means of wealth production into the collective property of the working class. As he was a member of this local he was under its jurisdiction and so long as he remained a member he must submit to its rulings and perform the duties involved in his position as representative, and when he tried to evade these duties a committee was appointed to see that they were carried out. As he had no intention of carrying out any organization work he saw that unless he resigned from his local, expulsion would follow. Outside of his duty to the party he was given every personal liberty to attend to his own private business so long as it did not interfere with the purposes for which he was elected.

In regard to flim-flaming this Local we wish to state that in our opinion he did not possess sufficient ability to do so as he found out on various occasions when, with all his ability and his bourgeois education, he failed to hold his own with a coal miner in discussing proletarian philosophy, and in discussing sociological questions he proved himself a novice in the use of the dialectic. After full consideration of all the facts leading up to Hawthornthwaite's resignation the committee is satisfied this local has taken the right line of action in insisting that its ruling be complied with by each member. After events have more than proved their line of action to be correct. It is the aim of this local to express the interests of the working class and so long as Hawthornthwaite represented this local he expressed these interests and his local supported him. When he refused to do so—that support was withdrawn. What that support meant to him may be judged from the fact that during election time it was necessary for the members of this local to strike names off the voters list and put other names on, attend the Court of Revision, act as election agents and scrutineers, provide his election deposit, organize outside meetings and do various detail work involved in parliamentary campaigns. All this was done without him either being asked or expected to provide financial aid. This is the policy followed by the Socialist parties of the world, the Socialist party of Canada, being no exception. The capitalist political parties are subsidized by the section of the capitalist class they represent but the S. P. of C. organized to represent the workers, has to draw its financial support from the working class. Such being the case all necessary work has to be done gratuitously. As long as this local is in existence the workers can rely on every effort being made to further their interests and any representative who fails to do so will not be tolerated by this local. In the estimation of the committee this local has nothing to take back and further state that in their opinion J. H. Hawthornthwaite by his double dealing and treacherous actions, has demonstrated that he is an enemy to the revolutionary working class. In terms and the committee as members of this local and members of the revolutionary working class warn our class against this man:—James Hurst Hawthornthwaite.

We the committee recommend that the local give this report the widest possible publicity throughout the Socialist press of the world when endorsed by Local Nanaimo No. 3, S. P. of C.
(Signed) JACK PLACE,
JAMES MacINTOSH,
J. HODGKINSON,
Committee.

**The Prince Rupert-Nanaimo
Collieries, Limited**

OPENS OFFICES IN VICTORIA

Company Owns and Controls 22 Square Miles of Richest
Coal Lands on Graham Island.

First Block of 100,000 Shares to be Sold at 25c per Share

JALLAND BROS., 622 JOHNSON ST.

ARE LOCAL REPRESENTATIVES

The Prince Rupert-Nanaimo Collieries Limited has recently been organized with a capital of \$1,500,000 divided into 1,500,000 Shares, having a par value of \$1.00 each.

The Company has been formed for the purpose of developing and placing on a shipping basis its vast tract of rich coal lands, consisting of 14,080 acres on Graham Island almost opposite Prince Rupert and distant from the Pacific terminus of the Grand Trunk Pacific but 60 miles.

In order to secure the immediate development of this immense coal acreage the Company has transferred to Frank R. Laing, as Trustee, 500,000 shares of its capital stock, which 500,000 shares the Trustee is now offering to the public for subscription.

The Trustee is now receiving applications for the first block of 100,000 shares at 25 cents per share, payable 10 cents per share cash with application, and the remainder in three equal monthly payments without interest. Where all cash is paid Certificate will immediately be issued.

The shares of the Company are non-assessable. When you have paid your full 25 cents per share you will receive a certificate. No further calls or assessments.

Like timber and other natural resources of this great province, rich coal measures are rapidly being taken up by large corporations or private individuals; such a condition of affairs naturally places a great premium on coal lands.

The unique position of the property of the Prince Rupert-Nanaimo Collieries, Limited, lying as it does, close to tidewater and within a few miles of the terminus of a great transcontinental railroad, destined it to be one of the greatest, one of the most important and one of the most profitable shipping coal mines in Canada.

The Prince Rupert-Nanaimo Collieries, Limited, will in all probability be called upon to supply the fuel demand of the city of Prince Rupert and the numerous towns and cities scattered along the line of this great railway as well as filling the tenders of locomotives and the bunkers of the many craft which will make Prince Rupert port.

In all, the Company is assured an exclusive and continuous market for its output, which market must naturally be of great profit owing to the fact that the mines are within a very short distance of Prince Rupert, the great Pacific seaport of the Grand Trunk Pacific Railway.

In his report, Mr. Van Hulle, the mining expert who examined the property of the Company, says:

"With the knowledge I have of the coal regions of the Continent it must gratify you to know that in my judgment you have one of the best coal fields I have seen; until I visited them I had no idea that such valuable coalfields existed on the Pacific Coast.

"I travelled the length of Graham Island from Skidegate to Nasset, and examined carefully the shore and creek beds for indications of coal and I have no hesitation in stating that the coal lands which you have acquired will turn out to be one of the best coal fields in British Columbia."

**No Application Received For
Less Than 100 Shares**

Write to-day for Prospectus and fuller information regarding the property.

The Head Office of the Company and the office of Frank R. Laing, Trustee, is 39 Bank of Hamilton Building, Vancouver, B. C.

Jalland Bros., Gen. Agents
622 Johnson Street
Victoria, B. C.

**DR. A. W. CHASE'S 25c.
CATARRH POWDER**

NAVAL REVIEW AT THE CORONATION

Dreadnought Neptune Will Head Fleet of Five Hundred Warships Lined in Parade

Next to the coronation itself in Westminster abbey the most interesting coronation sights will be the review of the fleet at Spithead, and the procession of their Majesties through the streets of London.

As regards the naval review there is no doubt that added interest will attach to this magnificent spectacle. His Majesty is a sailor King, and it is notorious that the navy occupies to-day a larger place than ever before in the hearts and thoughts of his subjects.

Moreover great changes have come over the navy since the last coronation review in 1862, and there can be no doubt whatever that in magnitude and strength the forthcoming spectacle will outstrip all its predecessors.

In the Home fleet the line will be headed by the new battleship Neptune, flying the flag of Sir Francis Bridgeman. The other Dreadnoughts will be the Bellerophon, Collingwood, St. Vincent, Superb, Temeraire, Vanguard, Hercules, and Colossus.

On Saturday morning the King and Queen will embark in the Royal yacht Victoria and Albert, escorted by other vessels. Their Majesties will pass up and down the lines, greeted with salutes from all the ships and shore batteries, and they will remain in Cowes roads till Monday morning.

Hunyadi Janos Natural Laxative Water. Recommended by Physicians. Refuse Substitutes. Best remedy for CONSTIPATION.

patent and undoubtedly he has been driven by the irresistible logic of facts to take his present position. Men, and particularly their opinions, are largely reflex of their environment. Society must take measures for its protection, and before the pressure of circumstances theories must go.

Dr. Macdonald, who has spoken of the menace lurking in the use of the ballot of ignorant foreigners. This is no bogey. Those who have not realized its gravity do not live to present-day conditions in this country.

In the course of his address, Dr. Macdonald explored the seeming lack of an ideal in the work of legislation. In this respect he said that Canada differed much from New Zealand, the object of that government having always been to give every citizen adequate access to opportunity and enabling all the people to enjoy the rewards of honest lives.

The following is a very striking passage from a letter of confidence in the power of office. I have learned that parliament is not omnipotent, and the man who has a message, who has a desire to serve his nation, has a chance out of office that he would not have in it; office often handicaps and hampers.

These words might well be taken to heart by those engaged in the work of reform. Parliament is not omnipotent, though many people seem to think it is, nor do its acts effect nearly as much as one might be inclined to think. Any person who, following closely the work of a legislature sees how legislation passed with great parade one year, is amended out of recognition or entirely repealed the next, cannot but lose faith in the legislature as an omnipotent instrument.

The most vital of Canada's problems, says Dr. Macdonald, have to do with matters of citizenship, the national ideal, and international relationships. Of the first of these, he says it looms large to-day, as there are dangers arising out of it which threaten the very success of government, and which, if not averted, will cut what he calls the nerve of Canadian democracy.

While admitting that one of Canada's greatest needs is population, he says that there is such a thing as poisoning the blood of the nation, and that the immigration of alien and incompatible people is a menace to Canadian citizenship. The greatest danger, he thinks, lies in the immigration of races whose whole history has been a contradiction of democracy.

CITY OF VICTORIA A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

A BY-LAW TO RAISE \$30,000 FOR THE PURPOSE OF RE-ARRANGING THE MARKET BUILDING FOR USE AS POLICE HEADQUARTERS AND JAIL.

WHEREAS it is necessary to raise the sum of \$30,000 for the purpose of re-arranging and re-arranging the Market Building as to a permanent headquarters for the Police Force and for a common jail for the City of Victoria;

AND WHEREAS the whole rateable land and improvements or real property of the said Corporation of the City of Victoria, according to the last revised assessment roll for the year 1910, was \$22,095,577;

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535;

AND WHEREAS this By-law may not be altered or repealed except with the consent of the Lieutenant-Governor in Council;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. It shall be lawful for the Mayor and Council of the Corporation of the City of Victoria to borrow by way of debentures hereinafter mentioned, from any person or persons, or bodies corporate, or otherwise, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of \$30,000, in such manner as may be determined by the Council.

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535, and the interest thereon, and the cost of creating an annual sinking fund for the payment of the said debt within twenty-five years, according to law, is \$9,200,000;

A BY-LAW TO RAISE THE SUM OF \$150,000 FOR SCHOOL PURPOSES.

WHEREAS the Board of School Trustees of Victoria has caused to be prepared a detailed estimate of the sums required to meet extraordinary expenses for the year 1911, amounting to the sum of \$150,000;

AND WHEREAS the same has been considered by the Municipal Council of the Corporation of the City of Victoria and the said Council has finally disapproved of any of the said sums;

AND WHEREAS the whole rateable land and improvements or real property of the said Corporation of the City of Victoria, according to the last revised assessment roll for the year 1910, was \$22,095,577;

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535, and the interest thereon, and the cost of creating an annual sinking fund for the payment of the said debt within twenty-five years, according to law, is \$9,200,000;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. The estimate of extraordinary expenses made by the Board of School Trustees of Victoria as follows: Building and site, James Bay, \$5,000.00; Building and site, Bessie Road, \$3,000.00; Four Lots, Bank St. School, \$2,000.00; Manual Training and Domestic Science, Buildings, George Jay and Victoria West School grounds, \$7,000.00; Furniture for new schools and for additions (new) to schools transferred from Ordinary Estimates with your recent ruling, \$225.00; Discount on debentures and cost of printing, \$9,857.00; Total, \$150,000.00.

2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow by way of debentures hereinafter mentioned, from any person or persons, or bodies corporate, or otherwise, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of \$150,000, in such manner as may be determined by the Council.

A BY-LAW TO RAISE THE SUM OF \$210,000 FOR PARK PURPOSES.

WHEREAS the Municipal Council of the City of Victoria has decided that the time has arrived to make provision for playgrounds for the children of the Municipality, and to make improvements in Beacon Hill Park by asphaltting some of the roads;

AND WHEREAS it is necessary to raise the sum of \$210,000 for the above named purposes;

AND WHEREAS the whole rateable land and improvements or real property of the said Corporation of the City of Victoria, according to the last revised assessment roll for the year 1910, was \$22,095,577;

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535, and the interest thereon, and the cost of creating an annual sinking fund for the payment of the said debt within twenty-five years, according to law, is \$9,200,000;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. It shall be lawful for the Municipal Council of the Corporation of the City of Victoria to appropriate by subsequent By-law to be made, executed and issued for the purpose of the said By-law, the sum of \$210,000, to be raised by the sale of the said lands, and to be applied to the purposes of the said By-law.

2. On or in the vicinity of Richmond Avenue. 3. On or in the vicinity of Belmont Street. 4. On or in the vicinity of Edmondton Road. 5. On or in the vicinity of Oaklands. 6. In the vicinity of Smith's Hill Reservoir. 7. In the vicinity of Burnside Road. 8. In the vicinity of Skinner's Bottom in the Victoria West District. 9. On or in the vicinity of Paul Bay Beach.

A BY-LAW TO RAISE \$300,000 FOR SEWER AND DRAIN PURPOSES.

WHEREAS it is necessary to raise the sum of \$300,000 for the purpose of extending the present sewer system, and the construction of new sewers, and the construction of surface drains in various parts of the City of Victoria;

AND WHEREAS the whole rateable land and improvements or real property of the said Corporation of the City of Victoria, according to the last revised assessment roll for the year 1910 was \$22,095,577;

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535, and the interest thereon, and the cost of creating an annual sinking fund for the payment of the said debt within twenty-five years, according to law, is \$9,200,000;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. It shall be lawful for the Mayor and Council of the Corporation of the City of Victoria to borrow by way of debentures hereinafter mentioned, from any person or persons, or bodies corporate, or otherwise, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of \$300,000, in such manner as may be determined by the Council.

AND WHEREAS the total amount required to be raised annually by rate for the purpose of the said By-law is \$1,920,535, and the interest thereon, and the cost of creating an annual sinking fund for the payment of the said debt within twenty-five years, according to law, is \$9,200,000;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. To construct sewer, surface drain and water laterals to each rock lot on Aquila street, between Edmondton road and Haultain street; 2. To construct sewer, surface drain and water laterals to each rock lot on Cecil street between Edmondton road and Haultain street; 3. To construct sewer, surface drain and water laterals to each rock lot on Forbes street between Edmondton road and Haultain street; 4. To construct sewer, surface drain and water laterals to each rock lot on Victor street between Edmondton road and Haultain street; 5. That all of said works shall be carried out in accordance with the provisions of the Local Improvement (General) By-law, and amendments thereto, and the City Engineer and Council in accordance with the provisions of Section 4 of this By-law upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the rate thereon.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

BLOOD BAD

Indoor Life, Too Little Exercise, Breathing Impure Air, Eating Artificial Foods

Is it any wonder that the system becomes poisoned with impure waste matter in the winter time, when you think of the artificial life we lead? With doors and windows tight shut we breathe the same air over and over again until it is incapable of purifying the blood.

In vain effort to cast the poisons out of the system the liver and kidneys are worked over, until they too are played out. Then comes the pain in the back, the headaches, the attacks of constipation and indigestion. The quickest and most certain way to overcome this condition is by the use of Dr. Chase's Kidney-Liver Pills. They act definitely and directly on the liver and kidneys, awaken them to renewed energy in filtering poisons from the bowels and remove the cause of indigestion, backache and other body pains.

TO PROVIDE FOR INCREASING THE AMOUNT AVAILABLE FROM TIME TO TIME FOR THE MAINTENANCE OF A FREE PUBLIC LIBRARY

WHEREAS by the provisions of the Public Library By-law, 1902, the annual sum which is available for the purpose of the Public Library is limited to the sum of \$5,000;

AND WHEREAS this sum has been found to be inadequate and for the current year the sum of \$10,000 is required;

A BY-LAW TO RAISE THE SUM OF \$10,000 FOR THE PURPOSE OF INCREASING THE AMOUNT AVAILABLE FROM TIME TO TIME FOR THE MAINTENANCE OF A FREE PUBLIC LIBRARY

WHEREAS by the provisions of the Public Library By-law, 1902, the annual sum which is available for the purpose of the Public Library is limited to the sum of \$5,000;

AND WHEREAS this sum has been found to be inadequate and for the current year the sum of \$10,000 is required;

RE LOCAL IMPROVEMENTS

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable: 1. To construct sewer, surface drain and water laterals to each rock lot on Aquila street, between Edmondton road and Haultain street; 2. To construct sewer, surface drain and water laterals to each rock lot on Cecil street between Edmondton road and Haultain street; 3. To construct sewer, surface drain and water laterals to each rock lot on Forbes street between Edmondton road and Haultain street; 4. To construct sewer, surface drain and water laterals to each rock lot on Victor street between Edmondton road and Haultain street; 5. That all of said works shall be carried out in accordance with the provisions of the Local Improvement (General) By-law, and amendments thereto, and the City Engineer and Council in accordance with the provisions of Section 4 of this By-law upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the rate thereon.

VICTORIA DAY TO BE GALA OCCASION

Programme Decided Upon by the Committee Will Please Everyone

The committee having in charge the Victoria Day celebration met at the city hall last evening and arranged the final draft of the programme. A glance at this will show that every taste has been catered to, and that there is not a doubt but that the affair will be a complete success. The programme is as follows:

- May 23—Band concert in the downtown section. Annual school sports at Oak Bay commencing at 2.30 p.m.
 - May 24—9 a.m., fire drill by the Victoria fire department; 2.30 a.m., decorated automobile parade for prizes for the best decorated car or runabout; 2 p.m., regatta at the Gorge; 8 p.m., band concert at Beacon Hill park; 9 p.m., fireworks at Beacon Hill.
 - May 25—9 p.m., fireworks and decorated water spectacle at the B. C. Electric Company's park, at the Gorge, for which prizes will be given.
- The Regatta.
- The detailed programme for the regatta is:
- 1—Double scull schoolboys' race, open to boys 17 years and under actually attending school; only one crew from each school to be allowed to compete; course from E. Crow Baker's boat house to starter's barge. Prize, value \$12.
 - 2—Five-oared whaler, open to army and navy forces; course around Deadman's Island, leaving it on the port side and returning. First prize, \$18; second, \$5.
 - 3—Double scull race, open to those under 18 years; course from E. Crow Baker's boat house to starter's barge. Prize, \$12.
 - 4—Indian war canoe race, 40 to 50 feet; course, around Deadman's Island and return. First prize, \$25.00; second, \$4; third, \$1.50 per paddle.
 - 5—Four-oared lapstreak, first heat.
 - 6—Men's race for double paddle canoe. First prize, value \$10; second, \$5.
 - 7—Four-oared lapstreak, second heat.
 - 8—Indian war canoe race, 40 feet; course, around Deadman's Island and

- return. First prize, \$6; second, \$3; and third, \$1 per paddle.
- 9—Ten-oared service cutters, open to army and navy forces. First prize, \$25; second, \$16.50.
- 10—Single skiff race. First prize, silver cup.
- 11—Ladies' race for double paddle. First prize, value \$10; second, \$5.
- 12—Klutchman's race, working canoes only. First prize, \$5.50; second, \$2.50; third, \$1 per paddle.
- 13—Final heat of four-oared lapstreaks between winners of first and second heats. Prizes, engraved gold tickets.
- 14—Double paddle Indian canoe race; course, from starter's barge around bay and return. First prize, \$12; second, \$5; third, \$3 per canoe.
- 15—Oriental race. (Prizes not yet decided upon.)
- 16—All comers' race, open to army and navy forces. First prize, \$20; second, \$10.
- 17—Greasy pole. First prize, \$10; second, \$5.
- 18—Tilting contest. Prize, \$5.
- 19—Best comic aquatic display. Prize, \$10. Fifty per cent. awarded for costume and fifty per cent. awarded for amusement provided.

The officials at the regatta event will be: Referee, (not yet determined); Judges, Capt. Harris, R.E., Lieut. Morrell, R.N., George Jay and F. W. Thomas; starter, Lieut. Moore, R.N.; J. Dallan, George Jay, A. L. Kirkpatrick, W. N. Kennedy, Edward Logan, Hugh Macdonald, J. B. McCallum, H. Dallas Helmcken, K.C., A. J. Brace and F. W. Thomas; clerks of the course, Lieut. Halifax, R.N., A. J. Brace, A. J. Dallan, D. O'Sullivan, Edward Logan; starter of Indian races, Chief Michael Cooper.

The entries expected for the Indian war canoe races will be supplied by the following tribes: Kuper Island, Clem Clemanats, Quamichan, West Saanich, North Saanich, Westholme, La Connor, Snohomish, Cowichan, Lummi.

The committee reserves to itself the power to prevent any boat pulling in any race, and all boats are subject to the inspection of the committee. Racing canoes by amateurs are barred. No second prize will be awarded unless there are at least three starters in the army and navy and Indian races. Amateur races require four to start. Service condition oars used except in all comers' race. Bottom boards and sling may be taken out. Men to pull their proper thwarts with service oars allowed for all events. All amateur races under the auspices of the James Bay Athletic Association. Races will be run in the order in which they appear in

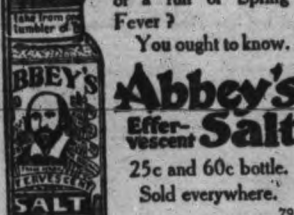

the programme and contestants are requested to be promptly in time.

The School Sports.

The events in the school sports are open to the public and private schools of the city, and the school scoring the highest number of points in all events except those open to students over 16 and under 8 years will win the Swinerton cup, now held by the Central school. Two entries for each school will be allowed in this cup contest, the points being scored three for firsts, two for seconds and one for thirds. The following will be the programme:

- 100 yards open, to school boys of any age; 100 yards, under 14; 100 yards, under 12; 100 yards, old boys.
- 220 yards, open to boys of any age; 220 yards, under 14; 220 yards, under 12; 220 yards, old boys.
- Half-mile, open to boys of any age. Quarter-mile, for old boys.
- Quarter-mile, under 14.
- 75 yards, under 10; 75 yards, under 8; 150 yards, under 10.
- Relay, half-mile, under 14.
- High jump, under 14; high jump, under 16; high jump, open to boys of any age.
- Broad jump, under 14; broad jump, under 16; broad jump, open to boys of any age.

THE ADVANCE MAN

Vesta Victoria.

Colonel Wm. A. Thompson, under whose guidance Miss Vesta Victoria and her company of international stars is touring Canada, is an Australian by birth, being a native of Paddington, Sydney. Col. Thompson is one of three brothers, the other two, Richard and Phillip, having gone from Australia to participate in the Sudan campaign. Of the only 71 came back to Australia. Richard was killed on H.M.S. Wallaroo. Col. Thompson's father was well known in English army circles, having been an officer in the Eleventh Foot Regiment, which made such an enviable record in the Crimean war, being known as the "Bloody Eleventh." Col. Thompson has been in many successful army engagements, but says that of all the successful engagements he ever saw that of Miss Victoria, in her triumphant tour of Canada is by far the most wonderful, although of a more peaceable nature.

Miss Victoria is making her absolutely first bow to Canadian audiences, and it is said will be accompanied by a company of twenty-five international entertainers of exceptional ability when she appears at the Victoria theatre on Friday and Saturday, May 12 and 13.

In New Westminster on Thursday afternoon Miss Victoria will be tendered an informal complimentary luncheon, with Mayor Lee in the chair and distinguished citizens around the board. Those who had been in the city in advance management of Miss Victoria appreciated the honor which was to be done the queen of comedy no definite steps were taken until the receipt of a telegram from Calgary, stating that the English comedienne would be delighted to accept the invitation and lunch with leading citizens of the Royal City.

Sheffield Choir and Expression.

Of all the arts music is the most emotional, and of all the points which go to the making of a great choir, Dr. Henry Coward, conductor of the Sheffield Choir, maintains that training in emotional expression is one of the greatest. A man of enthusiastic and impetuous nature, his magnetic hold of the choir has at times almost the effect of a whirlwind upon the great volume of sound which he controls. Piling effect upon effect in a tremendous tone-poem, he leads his chorus to heights of musical expression that carry the audience off its feet.

In the composition of the choir, and in the drawing up of the programmes which it is to render during its tour of the Empire, Dr. Coward is achieving what he declares to be the greatest effort of his career, and it is a matter for much congratulation that in the course of this tour Victoria is to receive a visit from this choir, and have an opportunity of hearing what is perhaps the best exposition of choral music that the world can produce.

To hear two hundred of the picked voices of Great Britain, under such a world-famous conductor as Dr. Henry Coward, is the event of a lifetime, and there is little doubt that Victoria and the vicinity will on May 17, 18 and 19 give the choir such a reception as will show that the citizens are not behind any part of the Empire in their appreciation of what is best in musical art.

"The Girl From Rector's," which has been more widely discussed than by any comedy now before the public, will play an engagement at the Victoria theatre on Tuesday, May 16.

The story deal with a young wife who tired of the monotony of a small town in Michigan, during her husband's absence, and who decides to see something of the "White Light" of the eastern metropolis. There she meets many "habitués of the all night circles, and complications follow when she returns to Michigan to meet several of the rounders at the home of a mutual friend.

The origin of the comedy is French, like most plays of its class, and is the work of Pierre Veber, from which Paul M. Potter made the English translation.

BROTHERHOOD OF TRAINMEN.

Harrisburg, Pa., May 10.—The tenth biennial convention of the Brotherhood of Railway Trainmen representing 300,000 men in the United States and Canada, opened here today. Wages will not be discussed. One of the chief topics will be federal legislation on employers liability and workmen's compensation. The brotherhood spent more than \$2,000,000 last year in death and disability claims. The treasurer's report will show a balance of more than \$2,225,000. The increase in the membership since the convention two years ago is over 17,000.

CHARGES OF EXTRAVAGANCE.

Melbourne, May 10.—The federal expenditure for the past three years shows the remarkable increase of three million sterling. Criticism is being directed against the government on the ground of extravagance.

The figures of the referendum, which have been finally checked, show that the majority against the proposals of the government remains unaltered.

CHILDREN'S AID DOES GOOD WORK

Annual Reports Show Steps Taken to Preserve the Youth of Victoria

The annual meeting of the Children's Aid Society was held last night in the council chambers, when reports of satisfactory progress made during the past twelve months were submitted.

The treasurer's report showed expenditures of \$2,987.46 and receipts \$2,888. Subscriptions and donations amounted to \$663.15. The election of officers for the ensuing year resulted as follows:

President, Charles Hayward; vice-president, Rev. W. Leslie Clay; secretary, Mrs. Gordon Grant; treasurer, J. E. Andrews.

Directors: Mes James R. S. Day, W. W. Wilson, E. B. Marvin and Gavin Burns; Rev. Father Latimer, Rev. Herman A. Carson, Bishop of Columbia, E. H. Fletcher, Aldermen Bishop and Okell.

In the secretary's report it was stated that the work of the society during the past year has been placed on a very much better basis than was possible during the first nine years since organization, and that it has at the present time, with the city supporting the work, the machinery in operation for the carrying on of the juvenile court with the detention home school; the delinquents are placed on probation with the hope that by a change of environment evil will be overcome with good.

The work of the society is growing rapidly with the increased population and the work among the children has been organized none too soon. A great deal of neglect and delinquency is prevented by the continued visits of the officer and unless it is necessary the little ones are not separated from their parents, believing that the parents should realize their responsibility in training and supporting their children. During the past year about sixty cases have been investigated. Of these one was sent to the reformatory; fifteen have been made wards of the society; twenty have been in the home, and the conditions under which the others are living have greatly improved.

Those who care for the special thanks of the society were Thompson, Hon. A. E. McPhillips, K. C., and Magistrate Jay.

HIS FOOT UNDER AXE!

Zam-Buk Proved Very Useful

Mrs. H. Sawyer, of Keene, Ont., says: "I must write you in praise of Zam-Buk, a proof of the merits of which we have just had. My husband is engaged on a farm, and one day, while chopping wood, fell upon his foot, cutting a nasty gash. The wound was so bad that we first thought we would have to get a doctor, but we finally decided to dress the cut with Zam-Buk. Well, the Zam-Buk treatment proved a success. It not only eased the pain, but it prevented any inflammation; and right from first applying it, the cut began to heal. It is now completely healed, and my husband says he will never be without a box of Zam-Buk in the house, for we are sure it saved us a great deal of expense."

Over and over again Zam-Buk has been proved to be the worker's best remedy. As soon as applied to a cut, a burn, a scald, or any skin injury, it relieves the pain and it sets up healing. It also sterilizes the wound and prevents blood-poisoning or inflammation.

It is a sure cure, too, for eczema, piles, ulcers, old wounds, bad leg, ringworm, scald sores, fostering, running sores, boils, eruptions, chiggers, insect stings, sore feet, etc. Its absence also, makes it the ideal balm for babies. Zam-Buk Soap should be used along with the balm for washing all sore places. This soap will be found excellent for baby's bath, even where the balm is not being used.

All druggists and stores sell Zam-Buk at 50c. box, and Soap at 25c. tablet, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse substitutes and imitations.

HONOR FOR PREMIERS.

(Special to the Times.)

Glasgow, May 10.—The freedom of this city will be offered the visiting premiers of the Overseas Dominions, including Sir Wilfrid Laurier, Mr. Fisher, General Botha, Sir E. Morris and Sir Joseph Ward.

SCHOOL TRUSTEES THREATEN TO RESIGN

Members of Vernon Board Present Ultimatum to the City Council

Vernon, May 9.—The regular monthly meeting of the board of school trustees proved to be a particularly interesting and important session, inasmuch that the trustees decided to resign in a body unless a satisfactory settlement is made by the city council of an item of extraordinary expenditure, which the council refused to provide for at its last meeting.

The chairman of the finance committee, R. V. Clement, then presented his report of his meeting with the city council. This brought the matter which has occasioned some friction between the two bodies to a head, and the following resolution was moved by W. H. Rice, seconded by R. V. Clement, and unanimously carried: That an order be drawn in favor of Campbell Bros. for \$782.25 in full of their account for furniture, and that (his order be forwarded to the council, with a letter from the secretary to the board reminding the council that their finance committee promised to pass this item of extraordinary expenditure; and indicating that, if this item is not passed on extraordinary expenditure and paid, that the school board have decided to resign in a body.

The meeting then adjourned till tonight, when a special meeting will be held.

A HOME FORMULA THAT STOPS DANDRUFF

Bay Rum 6 oz.
Lavona de Composee 2 oz.
Menthol Crystals 5 dr.

These are all staple, standard and inexpensive pharmaceutical products that you can buy from any good drug-gist. You can mix them yourself at home or the druggist will do it for you. Allow to stand one-half hour before using. Apply night and morning, rubbing briskly into the scalp with finger tips or a medium stiff brush. The one 3 oz. bottle should, in most cases, be sufficient to completely clear the head of dandruff and kill the germ, thereby preventing its return. This treatment is also excellent for making the hair grow and to keep the hair from falling out, and although not a stain or dye, will restore natural color to gray, streaked or faded hair in from 15 to 30 days simply by its action on the hair roots. Be careful not to apply where hair is not desired.

SCULLING CHAMPIONSHIP.

London, May 10.—Ernest Barry, who recently successfully defended his title of champion sculler of England against Albany, has accepted a challenge from Fogwell, the New Zealand champion, the race to be rowed on the Thames in September.

Dated March 8th, 1911. ROSALIE MAUD SCHARSCHMIDT. Per C. F. Butler, Agent.

WILL REPORT ON SITE FOR SMELTER

Prince Rupert Among Locations Being Considered by Granby Officials

Prince Rupert, May 9.—To look for a site for a two thousand ton smelter to employ a thousand men and have a weekly payroll of \$42,000—that is one of the things that a party of prominent mining men are now looking for in this district. It is quite possible that Prince Rupert itself may be selected as the site. The party is headed by J. P. Graves, president of the Granby Consolidated Mining & Power Company of Phoenix and Grand Forks, B. C., and is visiting the Hidden Creek mine on Goose Bay. The Granby Company holds an option on this valuable low-grade copper-gold property covering about 80 per cent. of the property and representing nearly half a million dollars. The present visit is one of investigation with a view to regarding the taking over of the property and its extensive development to handle a large output.

Accompanying Mr. Graves are F. M. Silvester, assistant manager; W. A. Williams, smelter superintendent; W. I. Williams, consulting engineer, and O. B. Smith, Jr., mining superintendent of the Granby Co., also B. Lawrence, mining engineer, New York, and M. K. Rogers, the well-known mining man of this coast, who retains his interest in the Hidden Creek property which he purchased along with Mr. Hodgins from the original locators of the mine-prospect. Mr. Rogers has a vast experience of mining matters in these districts, having operated on the Alaska coast for years, and his advice regarding this property is valuable.

Already development is being carried on. The intention is to prepare for the getting out of enough ore to keep a smelting plant going, handling at least two thousand tons per day.

A most important question to be settled is the location of the smelter. For this purpose W. A. Williams accompanies the party. He will consider the merits of various places along the coast with a view to the establishment of the plant, and also the merits of the mine with the other members of the party. Mr. Graves stated definitely that Prince Rupert was being considered with this in view. In establishing a smelter much depends upon the supply of coke, and the coal prospects about Prince Rupert are being therefore considered.

"In the event of our deciding to establish our plant in Prince Rupert," remarked Mr. Graves, "we should aim at handling not only the output of one from our own Hidden Creek mine, but also copper, gold and silver ores from other properties throughout the district. We should handle probably four thousand tons a day at least. On this basis the smelting of low-grade ore pays best as we have found at Grand Forks.

"About a thousand men are required to handle a two thousand ton smelter, and correspondingly more for a plant of double that capacity. At an average wage rate of \$3.50 per man per day, the payroll would come to \$7,000 per day, or \$42,000 per week.

"You must understand, of course, that the present visit is one of investigation for the purpose of reporting to the Granby company's offices at New York. A scheme of development involving such a large outlay must, of course, be well considered.

"But I may say that I am immensely impressed with the wonderful water-works already considering the advantages of Prince Rupert as a terminus of the Grand Trunk continental line, with a view to the shipping of ore and smelter-product right through to Boston and New York."

SUCCESS TO INJURIES. Clinton, May 9.—A young Indian woman of Big Bar died a few days ago from severe burns. After the accident the woman could say very little, but it appears that she had been visiting friends a few miles up the Kelly Lake road, and was returning to the Clinton rancherie late that night. Not wishing to disturb her mother she lit a fire by the road about a mile away, and, according to her story, fell asleep and was awakened by her clothes being on fire, the flames having already enveloped her.

Mr. Minch, foreman of Ed. Bell's ranch, was returning home from Clinton and heard the girl's mad screams in the road ahead and found her running frantically about with every article of clothing burnt. He took her to the ranch and brought her to the rancherie early next morning.

ASSISTANCE FOR ENGINEER. Vancouver, May 9.—It was decided by the finance committee that the board of works should be requested to set aside the sum of \$4,000 to be used by the city engineer, Mr. Fellowes, for the employment of assistance in his department. It is assumed that an assistant or a deputy engineer will be engaged, as Mr. Fellowes was given to understand that the former city engineer, Mr. Clement, would be retained in that capacity if the latter so desired.

Alderman Ramsey, chairman of the meeting, was of the opinion that a present employee of the department should be given first chance at the post if agreeable to the engineer, but that he should be at liberty to make his own selection.

WILL ATTEND CONVENTION. Kamloops, May 9.—At a meeting of the Kamloops St. Andrews' and Caledonian Society a letter was read, and it was decided to send a delegate to the convention to be held in Victoria on May 23, one of the objects of which is to secure the amalgamation of all the Caledonian societies in the province. George McBeth was chosen as delegate with N. McGill as alternative.

BLAST DOES DAMAGE

Prince Rupert, May 9.—Havoc was wrought in the home of C. B. Wark on Third Avenue by a heavy blast shot on Nick Struga's station contract just behind the police station. A high rock weighing over 600 pounds was flung high in the air and crashed down on the roof of Mr. Wark's house. Rending its way through timbers and ceiling the mass buried itself in the floor. It took six men to get it out.

Fortunately Mrs. Wark was in the kitchen at the moment. A few minutes before the shot she had been in the wrecked room. Other houses were fairly sprayed with splattered musket and small pieces of rock. The veranda of D. McLeod's home was wrecked and Vernon W. Smith's white house presents a mottled appearance from flying musket. Wires on the poles across the street were delogged.

KETTLE VALLEY RAILWAY. Penticton, May 9.—The council has been successful in having a clause inserted in its agreement with the Kettle Valley Railway which specifies that grading work will be begun here by the first week in July. The railway company has also pledged itself to fulfill the condition of the irrigation agreement relating to property purchased from the municipality. Fred Bellings of Vernon, solicitor for the Kettle Valley, is authority for the statement that 400 men will be employed in railway construction out of Penticton this summer. President J. J. Warren will occupy his new residence here on his return from Toronto.

CHILD DESERTION. Vancouver, May 9.—A few days ago a young woman went to the house of a neighbor in the East End, whom she knew slightly, and asked her to mind her baby for an hour or two while she went down town and did some shopping. She went away and never came back, leaving the three-months-old child with a stranger. The lady with whom it was left took it to C. J. South, superintendent of the Children's Aid Society. He turned it over for the time to the Salvation Army, but later it may be taken into the custody of the Children's Aid Society.

WOMEN VAGRANTS APPEAR WITH BOYS. Quartette Get Chance to Return to Seattle—Sly Grog-Seller is Convicted.

Two girls and two boys, Frances Woods, George Adams, Joseph Benjamin Stevens and a girl claiming to be his wife, who came here from Seattle about a week ago, and have been living at one of the cheap hotels, were gathered into the police drag-net last night and presented before the police magistrate this morning to answer charges of vagrancy. They pleaded not guilty and were allowed twenty-four hours to get out of town. All four accused were well-dressed and appeared to be in prosperous circumstances, but nevertheless eagerly accepted the offer made by the police of a chance to get back home. Louisa Goulet, alias Brown, formerly convicted of selling liquor without a license, appeared again on a similar charge this morning, the offence having been committed at 755 View street. She was fined \$250 and told the police the money was waiting for them. On her former conviction she served two months. Mamie Stevens, a woman found in the house in company with the sly grogg-seller, was convicted of vagrancy and sent to jail for three months. Thomas Galloway, charged with looking on at a gambling game, conducted at 576 Johnson street, was remanded at his own request until Monday. J. W. Crittenden, against whom is a charge of uttering a cheque knowing it to be forged, was remanded until tomorrow to allow him to obtain legal advice. The cheque is drawn for \$11.00 on the Royal Bank and signed with the name of "C. E. Yates." It was cashed with the manager of the B. C. Hardware Company.

REPORT ON PRAIRIE CROP CONDITIONS. Lack of Rain in Manitoba and Saskatchewan Has Not Caused Damage.

Winnipeg, May 10.—The Canadian Pacific railway weekly crop report was issued very opportunely yesterday, for there has been a great deal of gossip among local grain men of damage to crop prospects from the lack of rain during seeding operations. Speaking generally these fears are without foundation. Rain would be beneficial, but there is plenty of moisture in the ground, and although there has been no rain in most of Manitoba and over large areas of Saskatchewan since seeding started, or about April 14, the grain is coming along nicely. Without question general rains would be very welcome, and should these come it is possible that the local wheat market might break a couple of cents. But the soil is in shape to sustain drought for another week or ten days without giving cause for serious apprehension. From 80 to 95 per cent. of seeding is completed. Six to ten hours' rain in Alberta last Saturday has removed all fear of drought from that province for some weeks to come.

SEA WALL INQUIRY THIS AFTERNOON Merits of Dispute Between Contractors and Engineer Thrashed Out

The committee appointed to investigate the dispute between the contractors and the engineer in connection with the construction of the Dallas Road sea wall met this afternoon, and as a result of their deliberations it is to be expected that the air in that particular sphere will be considerably clarified. The aldermen on the committee are H. M. Fullerton, Okell, and Langley. The representative of the Pacific Coast Construction Company, who are carrying out the contract, and A. J. Foreman, the engineer, will both be present to give evidence. In certain quarters there is a feeling that the wall is suffering through the alleged incapacity of the engineer. It has even been stated that instead of being a construction engineer he is an electrical engineer. On the other hand it is claimed that the agitation against Mr. Foreman is purely one of spite, that in effect the contractors no longer love him because he rigidly enforces their implementation of the contract, and that he is a fully competent man. Which of these two views is correct, and it is possible that there is something or nothing to be said for either of them, will be elucidated in the report which the committee will make to council in connection with the matter. Mr. Foreman was appointed by the city engineer and his appointment was approved by the provincial government. For some time there have been complaints as to the manner in which the work on the sea wall has been progressing and his name has been mentioned in council in connection with the matter. It was stated that there was no need for him on the job at all. Of course this view was combatted by those who are familiar with the abilities of Mr. Foreman, so that the only way out of the difficulty was for the council to appoint a committee to investigate the whole situation. Whether there is something really wrong, or whether the dispute between the contractors and the engineer is merely the customary squabble over the rights and concessions which both parties think they are entitled to, will be settled once and for all by the inquiry. It was Alderman Langley who called for the appointment of the committee, and in doing so he stated specifically that he had, up to that time, no definite knowledge of the situation, but thought that if the city's money was being uselessly squandered in any way it was time the council took the matter in hand and sifted it to the bottom.

quired could be obtained, would be busy turning over the prairie sod. There is some movement, he said, to secure a supply of briquettes from the east, but so far as his experience went, he did not consider that they would be suited for steam purposes or plow outfits. They burn away quickly and are very hard on the boiler. Dealers in steam engines and plow outfits also state that many orders taken earlier in the season have been cancelled owing to the impossibility of securing fuel to operate them this season. Under these circumstances it will be seen that the farmers and landowners of Alberta are so much interested in the strike negotiations and a settlement of the labor troubles as any other class of citizens. As is always the case in such cases, there is a third party, the general public, which is not the least sufferer in times of prolonged labor troubles. The loss of even a couple of months at this season of the year is very serious and will if continued be a great handicap to the expected development of the province. The coal miners' strike is the only cloud on the bright outlook of the province at the present time, and every citizen hopes that through the mediation of the conciliation board even that cloud may be quickly dispelled and harmony between employers and employees be once more restored.

DRINK CURE A MIRACLE? No, Just Sound Science. Many drunkards are sent to jail when what they need is medicine. Drink has undermined their constitutions, inflamed their stomach and nerves, until the craving must be satisfied, if it is not removed by a scientific prescription like Samaria. Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite and renders drink distasteful, even nauseous. It is odorless and tasteless, and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge. Write to-day for what it did for Mrs. G. of Vancouver: "I was so anxious to get my husband cured that I went up to Harrison Drug Store, and got your remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that it brought already into my home. The cost was nothing according to what he would spend in drinking. The cure of drink was putting me into my grave, but now I feel so happy, and everything seems so different and bright. May the Lord be with you and help you in curing the evil. I don't want my name published." Now, if you know of any unfortunate needing Samaria treatment, tell him or his family or friends about it. If you have any friend or relative who is forming the drink habit, help him to release himself from its clutches. Write to-day. A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence secretly confidential. Write to-day. The Samaria Remedy Co., Dept. 75, 45 Colborne street, Toronto; also for sale at Hall & Co.'s Drug Store, corner Yates and Douglas Sts., Victoria, B.C.

COURT CLEARED. More Scenes at Trial of Corruptists—Wrangle Between Judge and Lawyers. Vitebro, Italy, May 10.—Although unable to appear at the morning session, Abbate-maggio, the informer, took the witness stand again yesterday afternoon at the trial of the members of the Camorra, and was confronted by Giuseppe De Marinis, who like all the other prisoners, made a sweeping denial of the accusations against him. Abbate-maggio, however, maintained his charges to the end. Counsel for De Marinis, Sunner Lioi, interrupted the witness, who cried out: "There is also a rod in pickle for you, lawyer Lioi."

STRIKE WORRIES FARMERS. The coal miners' strike in southern Alberta and in the north of British Columbia will, if not brought to a speedy end, have a very serious effect on the development of Alberta this year, says a Calgary dispatch. Owners of steam plow outfits find it impossible to secure sufficient coal to operate their machines and as a result there are many holes in the south country. Contracts for breaking have been refused and the probabilities are that there will be much less land broken this season than there would have been had the coal miners' strike not taken place. Carl Modahl, an engineer, who has operated steam plow outfits in Alberta for several years, says he is informed that the coal miners' strike has a very serious effect on the development of Alberta this year, says a Calgary dispatch.

Re Prince Rupert Property

I leave for Prince Rupert May 17th on a short business trip and shall be glad to execute any commissions for anyone owning property there. Having had a special survey made for my own information, I am thoroughly familiar with the townsite, and my firm—Pattulo & Radford—at Prince Rupert specialize in the care and management of the property of absentees. It is my belief that property bought in Prince Rupert to-day will return many times the investment during the next five years, nor do I think that there will be a more advantageous time to buy than this year. Everybody counts upon buying just a little ahead of the completion of the railroad. The essence of shrewd real estate investment is to buy a little ahead of everybody else. During the past two years I have purchased a lot of Prince Rupert property for clients who have never seen the property, but I guarantee it to be just as stated. Some particularly good buys are to be had at this time and I shall be glad to make any investments entrusted to me. There are a great many people in the southern portion of B. C. who do not appreciate the resources of Northern B. C., and the certainty of development at the metropolis of the north, Prince Rupert. To them I would say that they are overlooking not only absolute safety of investment but a similar certainty of profit. I should be pleased to consult with either present or intending holders of Prince Rupert property and may be seen at the offices of R. V. Winch & Co., Limited, Temple Building, Fort street.

4,000 MILES OF KNOWLEDGE. New and Monumental Edition of the Encyclopaedia Britannica. The gentlemen who are issuing the New Encyclopaedia Britannica to the public on behalf of the University of Cambridge have produced a number of startling statistics to convey vivid and tremendous impressions of the magnitude of the work. Thus we are told that the number of letters comprised in the 29 volumes reach a total of 250,000,000. The type used, if joined together, would stretch for 4,000 miles. The paper on which the edition is printed weighs 2,000 tons and contains nearly 14,000,000 sheets, each about five feet long. Supposing they were joined together, they would stretch from the North Pole to the South with a few hundred miles to spare. The whole of the edition, if the books were placed one on top of the other, would make a pile 12 miles high, or twice the height of Mount Everest, with two miles to spare. It would be 370 times as high as the Monument, 160 times as high as St. Paul's, 60 times as high as the Eiffel tower. But, interesting though the figures are, they do not impress one as to the value of the work. What is more interesting to those who will use the Encyclopaedia as a book and not as a statistical marvel, is the literary organization behind the work, the arrangement of its contents, and the modernity of its information. It must be admitted that the last edition of the Encyclopaedia Britannica was not only very archaic in its articles on history, science, ex-

BY MRS. A. T. ASHMORE.

A CLOTH coat and skirt costume may be the first essential for the spring season, but an equal necessity for street wear in town is a costume of silk or satin possessing some little warmth, yet more elaborate in finish than the tailor suit. Satin gowns both in black and dark colors are still very smart, and smart also are the costumes, both the dresses and the coat and skirt suits, of satin and crêpe de Chine, and now the various old and the many new or newly named pongee and rajah and tussor textures are beginning to make their appearance at all afternoon entertainments. There is a heavy ribbed quality of pongee that makes a most satisfactory weight of costume for the uncertain spring days, which really should be quite warm, but when a decided chill in the atmosphere make obligatory the wearing of a light weight jacket over the silk or voile frock. The jacket is not an essential part of elaborate afternoon dress, however, this spring, and separate wraps play a more important part in the season's outfit than is ordinarily the case at this time of year. Of course the most satisfactory costume if one wishes to be ready for every emergency and every change of temperature is the three piece silk, satin, voile or pongee costume, and for the woman who has not a private equipage at her disposal this style of dress is almost indispensable, for a long separate wrap is never really comfortable for a public conveyance.

Black Taffeta Frocks.

An excellent dress at this time is a frock of black taffeta fashioned somewhat elaborately, with yoke and sleeve trimming of deep yellow lace, to be worn when necessary with a fancy little jacket of the same silk. This black taffeta jacket may then be worn at will with any gown in the outfit, being especially smart with an embroidered lining or crêpe frock in white or any pale, cool shade. In fact, the only separate coats that are especially in vogue this spring and for the coming summer are

Illustration Pongee Gown.

the fancy taffeta jackets. Again, for carriages wear, the wrap may be long and narrow, and of brilliant color, but the

woman who would dress well and must economize will always wear during the daytime gowns of inconspicuous color and not too eccentric design.

Panel skirts are as popular as ever in both cloth and silk. The panel is in some cases separate from the skirt and only caught to the skirt itself with long milliner's stitches. In fact, the panel is one of the noticeable points of the fashions this spring. One rather elaborate rendering of the style is the side

pleated panel in the foulard gowns. This panel forms the back of the skirt and waist, and on either side of it there is another flat panel of the silk, but plain,

not tucked or pleated. Often the skirt is slit up at the side its entire length and the panel is placed on the underskirt of the skirt. This provides an opportunity for the jupe couleur style to be indicated, as when the skirt inside skirt or panel, generally of black or white, looks as if it were the leg of a pair of trousers.

The Slashed Skirt.
And apparently some form of this most hideous fashion is insisted upon, if not by this means then by a slashing of the skirt front, back or sides, white at the

hem the entire skirt is turned under until it looks like a loose bag, and in the centre of the front breadth it is caught in, still at the hem, in a most ungraceful line. The foulard gowns this season display most marked evidence of the panel style, and there are few made without it. And foulard is to be extremely fashionable this summer, so that it is a good thing to plan for this panel effect when selecting the design and color. There are many different sized plaids and checks, and always the polka dot. This year a colored dot on a white or dark background is considered smart and rather newer than the black and white, but be it noted that a black and white foulard is never out of style. Combining the plain silk with the figured is one plan by which the panel is worked out, then the bordered foulards possess many desirable attributes, for the border can be so arranged as to form a panel, and, as has been said many times, the plain silk or satin can always be combined with the figured design.

Length of Sleeve.
Once again there is a disquieting rumor abroad in the land about the length of the sleeve. Several new models for summer gowns have been exhibited made with close fitting, long sleeves. The fashion has many supporters, and there is surely much to object to in the too bare arm, especially when the arm is of the red, brassy type; but the long, tight fitting sleeve is not comfortable in hot weather. The ideal sleeve is the loose kimono, fitting up under the arm, that reaches below the elbow or just above, and with an undersleeve of chiffon or batiste that is not too long and is finished with a close fitting lace cuff. There must be cuffs or ruffles on every sleeve, and always white about the hand. This, like the white around the throat, is always far more becoming. White jabots, wide and full, but with one side plain, are worn with all gowns, and are becoming; but the fashion will not live long; it is quite too popular, and is copied in coarse materials, so that it loses half its charm.

Lace and chiffon frocks are most charming in design. Now they are worn for the theatre and restaurant; later on they will be suitable for any summer afternoon entertainment if made higher in the neck, as they so easily be done with a small guimpe or yoke. The designs are

lower rosette adds still another tone of darker shade. The waist is very charming, with the soft folds of chiffon over the shoulders and crossing over the flat lace in the front of the waist, and while the same color of lace is fashionable a cream white can be substituted if it is more becoming. Every color is chosen for this model. In grey it is very smart, and in green, if not of too wide a shade, in all whites with colored belt it is extremely effective. In short, this is one of those models capable of much imitation and many variations. There is a lot of work on it, hand embroidery, with medallions of lace and appliqué work which all add to the beauty and finish, but which can be modified, and will consequently lessen the cost. Fine work of any kind is of necessity expensive, but often much less can be used than is to be seen in the original model. The lines and general effect will not in any way be interfered with.

equilize and the combination of the chiffon and lace is smart and effective, although the design and workmanship often requires a close inspection for its true beauty to be discovered. All white gowns of this description are in style, but colors also are fashionable. The lighter shades and the lining or under gown can be of color if all white is not becoming.

A shading of colors is smart. One most attractive model of pale pink chiffon and lace of the same color is made over a deeper pink satin. The wide, high belt is of the two shades of pink, while a bunch of deeper pink flowers or a ribbon

PRACTICAL DETAILS OF NEW COSTUMES.

THE details of summer gowns seem to be endless and are so all important that it is necessary to look after them most carefully. The dark coat collar requires an edge of white inside, both to keep the yoke of the waist from becoming too soon soiled and because it is far more effective. The bias fold of white pique or linen is the best for this purpose. Although at the moment white silk or white satin is popular, the white pique or duck is more practical because it can so easily be laundered.

While the narrow skirt is still obligatory, it must be wide enough to allow of taking a long step. Especially does this apply to the street costume. Straight up and down lines give the desired effect, only the effect is not so simple to attain as might be supposed. The straight panel back and front or flat pleat loose from the skirt for some distance from the hem gives a good line, but then the sides must be right

which can be easily put in so that it scarcely shows at all; if necessary let there be another seam all the way down the skirt.

White in revers or in jabot and yoke is

Black or White Striped Serge Gown.

extremely fashionable this season and is so becoming that it is not remarkable it is popular. There is quite a variety in the shape and size of the revers on the new spring street costumes, and it is not difficult to select a style that, faced with white, will be becoming. A great deal of white near the face looks best; then the wide revers is chosen. If only a small amount is more becoming, then the narrow revers is the best. Altogether it looks as though no end of trouble had been taken to furnish every woman with what best suits her own especial style.

The soft fichu of fine white lace is so dainty and becoming that it is attaining more popularity every day. The fine mesh net for the yoke and with ruffles of lace to match as trimming for the fichu, looks best, and this is worn with satin, silk, muslin or even wool gowns and looks well on each and every one.

ALEXANDRA CLUB SOCIAL FUNCTION

Brilliant Ball in New Home of Women's Organization Last Night

The white and gold ball room of the new Alexandra club was the scene of the opening ball held in connection with the completion of the new club building on Courtenay street last night, and several hundred people attended what was one of the most popular and successful social functions of the season.

Decorations committees had been busy and had succeeded in transforming the empire room, the cafe and the foyer into charming floral masses of color. The ball room walls were hung last night with wreaths of fern and white arabis, with pale pink flowers and hung with blue ribbon. Palms stood in the orchestral gallery. Yellow daffodils were used in the cafe, which has followed the Dutch style in permanent decoration and has hangings of maize silk and colorings of blue. The yellow daffodils, with masses of broom and quantities of buttercups, proved very effective against the wall tints. Dogwood and ferns decorated the foyer and the other apartments of the club were decorated in equally good taste and beauty.

The floor was in splendid condition special attention having been paid to it for some time past in order to have it brought into perfect condition for the opening function. Supper was served in the tea room, with one of the drawing rooms as an auxiliary supper room.

The music was supplied by Louis Turner's orchestra and many expressions of approval were heard from those present. General praise was bestowed upon the management of the club and those who were connected with the arrangements for the perfection of these and the success of the function. The committee responsible were as follows:

Reception committee (directorate) of the Alexandra House Co.—and executive of the Alexandra club—Mrs. Henry Croft, Mrs. Dunsmuir, Mrs. Pemberton, Mrs. Flumerfelt, Mrs. J. S. H. Matson, Mrs. Burdett Garrard, Mrs. H. B. Robertson, Mrs. M. Jenkins, Mrs. C. J. V. Spratt, Mrs. A. F. Griffiths, Mrs. Curtis Sampson, Mrs. D. R. Ker, Mrs. J. H. Gillespie, Mrs. H. A. S. Morley, Mrs. Cuppige, Mrs. Mara, Mrs. I. W. Powell, Mrs. Robert Beaven, Mrs. T. Watt, Mrs. E. G. Tilton, Mrs. Mackenzie Clelland, Mrs. Thornton Fell, Mrs. John Pigott, Mrs. Guy Audain, Mrs. Alex. Gillespie, Mrs. E. S. Hazell, Miss Pooley.

Decorations committee—Mrs. Croft, convener, Ball room—Mrs. Tilton, Mrs. F. B. Pemberton, Mrs. Phillip Musgrave, Mrs. J. K. Wilson, Miss Pooley, Miss Ethel Ellis, Miss Tooker, Mrs. T. Pemberton, Foyer—Mrs. J. H. B. Robertson, Mrs. Curtis Sampson, Mrs. A. W. Jones, Mrs. C. A. Holland, Mrs. Burdett Garrard, Mrs. Pollok, Mrs. J. O. Graham, Miss Bennett, Mrs. Guy Warner, Supper room and club flat—Mrs. D. R. Ker, Mrs. H. B. Robertson, Mrs. D. Leung, Mrs. C. J. V. Spratt, Mrs. A. F. Griffiths, Mrs. Ferguson Pollok, Refreshment room and canteen—Mrs. Audain, Mrs. P. S. Lampman, Mrs. C. F. Todd, Mrs. H. B. Robertson, Mrs. Thornton Fell, Mrs. J. A. Lindsay, Mrs. Cecil Cookson, Mrs. H. A. S. Morley, Mrs. A. T. Watt, Mrs. Harry Pooley, the Misses Marion, Marjorie and Kathleen Dunsmuir.

In the handsomely-bound guest-book of the club most of the guests registered, among them being:

His Honor Lieutenant-Governor Paterson, Mrs. Paterson, Hon. Robert and Mrs. Beaven, Mr. and Mrs. Guy Warner, Mr. and Mrs. Harold Fleming, Miss Muttter, Mrs. Lugin, Mrs. Nathaniel Shaw, Miss Lugin, Mr. and Mrs. J. W. SOCIAL AND PERSONAL

Mrs. Stanley McB. Smith, Dunsmuir road, will be at home to-day.

The Misses Dunsmuir have returned from an extensive tour of Europe.

D. D. England returned last night to Vancouver, after a short visit here.

Mrs. E. W. Ruzg and daughter left yesterday on a short visit to Spokane.

Mrs. John Cotsford will not receive again till the second Monday in October.

Mrs. John Hoy, 62 Linden avenue, will receive to-day, but not again till further notice.

Mrs. Mathews and Miss Mathews, Cumberland, are visiting Mrs. Lawrence, 1028 View street.

Mrs. C. H. Morrow, 612 Harbinger avenue, will be at home to-morrow, but not again until further notice.

Miss Margaret Marshall, Los Angeles, Cal., is visiting her cousin, Mrs. Robin Scott, York Place, Oak Bay.

Mrs. J. T. McDonald, Terrace avenue, and her guest, Miss McDonald, Seattle, will be at home on Friday afternoon.

Mr. and Mrs. Arthur Lingham left to-day on an extended visit to the Old Country, by way of the North Coast Limited, and S. P. Macmillan.

The Evening Chit-Chat
By Ruth Cameron

"Hello! Dad, where's mother? Gee! but it's hot out. Dad, I bet I walked that last mile in two-forty—that means twelve minutes, you know. Hello! mother, I met Mrs. Savary down town and she says the twins have mumps. How soon is dinger going to be ready? What on earth are you doing with that watch, Dad?"

In the course of this outburst, sixteen-year-old Marjorie, who had come into the living room glowing and enthusiastic from a walk to town, had stripped off her gloves, cast them upon the centre table, jammed her hat pins to the mantelpiece and her hat to a side-table, nonchalantly draped her coat over the back of the Morris chair, dumped five bundles of assorted shapes and sizes into a second chair and was just about to cast herself into a third when she caught sight of her father, his open watch in his hand, evidently timing something.

Dad closed the watch and then, without answering Marjorie, lifted a warning hand at Marjorie's mother, who had come into the room during the harangue, and with the mechanical movements of habit was starting to remove the coat from the Morris chair. "Wait a minute, mother," requested Dad.

Then to Marjorie, "I've been timing you. It took you just twenty seconds to strip your things off the way you did. Now, I want you and your mother to try an experiment for me. First, I want you to put your hat and coat on and take those bundles and come into the room again. I want you to put your hat and coat in the closet and everything else where it belongs—yes, I'm not joking—try it to please me. Fly around just as quickly as you did before, only put things in their proper places and let me see how long it takes you."

"Oh, Dad, what an idea; well, all right, if you want me to," pining on the hat and gathering unto herself again the wreckage which her cyclonic entrance had spread about. "You know I always mean to put things away, only I forget sometimes, and mother just loves to pick up anyway, don't you, mother? All right, Dad; really, on your mark, set go."

This time the gloves went into the secretary drawer, the hat pins into a hatpin holder provided for them, the coat was put on a coat hanger and with the hat hung up in the hall closet, two of the bundles were delivered to mother and three taken into the kitchen—then Marjorie stood before her father and saluted solemnly.

"Forty seconds," said Dad, "and now for the rest of the experiment. Bring all those things back and throw them around the way you did before and let mother pick them up and see how long it takes her."

"What an absurd idea, Edward," from mother.

"Go ahead and be a sport, mother; I was," from Marjorie.

"Well," said mother reluctantly, "as long as you silly children insist."

This time when Dad clicked the watch together "one minute and twenty seconds" was his verdict. "That means, Marjorie, that at the expense of twenty seconds for yourself you can save your mother four times as long. Of course, I don't suppose that seems very much, but when it happens four or five or six times a day, well—"

"Mother," interrupted Marjorie, "I'm a villainess and Dad's a scientist and a diplomat all rolled up together. You've shown me, Dad, and it's never again truly."

"Still the next time?" inquired Dad quizzically.

"Better make it hardly ever; you might get somewhere near that," advised mother.

"I'm dead sure it will never," insisted Marjorie, "but if it isn't, just open your watch at me Dad and see me jump."

WOLFFE WILL SWIM ENGLISH CHANNEL

Glasgow Water Man Will Make Seventeenth Attempt at Daring Feat

On no fewer than sixteen occasions Mr. Jabez Wolffe has valiantly attempted to emulate Captain Webb's ever-memorable feat of swimming the English Channel; and some time in July or August of this year he will make his seventeenth, and, as he himself says, his final attempt.

"You see," he laughingly remarked to a Glasgow News representative who dared to tackle him in business hours, "this is coronation year and now's the time to accomplish something big."

"But why worry yourself about this forlorn hope?" ventured the interviewer.

"Fatal it is no forlorn hope. It can be done, but one can only hope to succeed if the conditions are favorable—and even then you must swim all the time. It is no good hanging about in the water—floating, taking refreshments and conversing with those accompanying you. That's what I would call 'plugging' it, and 'plugging' will never conquer the Channel."

Mr. Wolffe is strong on this point, and so far as time is concerned, he puts the limit at 15 hours. After that, he says, the swimmer is always getting weaker, and the chances of battling against an ebb-tide simply makes his task hopeless.

"And why has it not been accomplished?" asked the News man.

"Well, it's this way. In my first attempt I would probably have managed across. That was five years ago, and I was every bit as strong a swimmer as I am to-day. But I—and those others who were also at the game then—lacked that experience which has now been gained. At the time I speak of the weather was indeed favorable, but now that the experience has come along all right the weather refuses to accompany it. And it is weather and Channel swimmers have been waiting on."

Wolffe's last attempt was in 1908, when he reached within 370 yards of the Calais shore. He was in the water 15 hours 16 minutes, and during the last two hours had battled valiantly but unsuccessfully against an ebb-tide.

This year Wolffe—who, by the way, is a Glasgow man—will start from the French side, an arrangement he thinks more satisfactory than making Dover the starting point. The winds are more persistent on the Dover side than at Calais, and the conditions generally on the French side of the water are inclined to be rather more favorable. Last year he made two attempts from Calais. He started off in fine style at the first attempt, being past mid-channel in 6 hours 35 minutes, but at that point the wind started to blow, and with the first indication of "weather" the attempt was as good as finished. He was in the water 11½ hours, and at the second attempt left the water after 10½ hours' swimming. The last year was a bad one for the long-distance men. The "Gulf Stream" didn't oblige with any favors, and the result was that the water was cold up till October. However, better things are in store this year.

"And, by the way," remarked the News man as a parting query, "where will you land—Dover?"

"No," was the laughing reply. "It won't be Dover. The tides there are too difficult to negotiate; but it will probably be two miles to the east or two miles to the west of Dover. And remember—favorable weather conditions, and taking the water fit and well, the Channel stands in great danger of being conquered."

DECLARE TREATY VIOLATED

Chinese at San Francisco Will Send Protest to President Taft.

San Francisco, Cal., May 10.—Declaring that treaties between China and the United States are being violated daily, that President Taft has failed to carry out his promise of an investigation of the immigration commission in its dealings with the Chinese immigrants, and that the rights of Chinese entering the United States are disregarded daily, six members of the Chinese chamber of commerce, with representatives of the San Francisco chamber of commerce, prepared a memorial yesterday to be sent to President Taft. That the continuance of the present methods eventually will result in a greatly endanger commercial relations between the two countries is the substance of the communication. It is charged that the immigration commission has delayed Chinese of the exempt classes, including students and merchants, with their wives and children, in their transit through the United States.

"The harshness of the administration of the laws by the immigration commission" is referred to as having practically caused the cessation of travel of Chinese subjects in the United States.

Clarkson Dye, an attorney representing various Chinese bodies addressed the meeting at which the memorial was prepared.

"Congress has pledged the honor of the nation to protect these people," he said, "and yet every promise and obligation to humanity of justice and common decency, has been violated."

A committee of three members of the local chamber of commerce, with Captain Robin Dollar, as chairman, endorsed the memorial.

MANY IN WANT

New York, May 9.—Between 5,000 and 6,000 settlers on the Labrador coast are suffering from lack of food, and the effects of a severe winter, according to advices received here to-day by the Grenfell Association of America.

LOCAL IMPROVEMENT NOTICE
TAKE NOTICE that the Council of the Corporation of the District of Oak Bay intends to grade and drain:
Marrion Street, from Foul Bay Road to its present termination,
Bourchier Street, from Foul Bay Road to its present termination,
Hampshire Road, from Oak Bay Avenue to Brighton Avenue.
And to construct and undertake a five foot cement sidewalk on the east side of Hampshire Road, from Oak Bay Avenue to Brighton Avenue, and intends to assess the final cost thereof upon the various portions of real property immediately to be benefited thereby by fronting and abutting upon the aforesaid streets. The number of the annual special assessments will be ten. The estimated cost of the works is \$7,568.40.

COURT OF REVISION
The Court of Revision will sit in the Council Chamber, Oak Bay Avenue, on Saturday, 13th May, 1911, at 2 p. m., for the purpose of hearing complaints against the assessments made by the Assessor and for revising and correcting the Assessment Roll.

LAND ACT
DISTRICT OF COAST RANGE III
Take notice that Samuel G. Parker, of Bella Coola, occupant of the bookkeeping file in the following described lands: Commencing at a post placed at the corner of South Bleeker Arm, thence west 25 chains, thence south 25 chains to the shore line of Bella Beach Arm, thence north 25 chains along the shore line to point of commencement, containing 100 acres more or less.

NOTICE TO THE PUBLIC
I have resigned as a DIRECTOR OF the DOMINION STOCK & BOND CORPORATION of Vancouver, and have now no connection or interest with the said Corporation.

SUSPECTED ATTEMPT TO DESTROY PRISON

Man and Woman Arrested While Placing Bomb Near Wall of the Tombs

New York, May 10.—A suspected attempt to destroy the Tombs prison by a bomb was frustrated late last night by a court interpreter who caused the sudden arrest of an Italian youth and an old woman companion whom he saw placing a small round object under the famous "Bridge of Sighs," which connects the prison with the courts building adjoining.

The interpreter heard the old woman whisper in Italian: "Yes, place it there against the prison wall where it will do the most good."
 The interpreter sent a policeman post haste after them, while he grabbed the bomb and threw it into a puddle of water. The bomb, on examination, proved to be a small brown bean pot filled with white powder which the aged woman prisoner said was "a magic cure for consumption."

RIVAL FORCES IN MEXICO.

Washington, D.C., May 10.—A bit of interesting information was laid before President Taft and the members of his cabinet yesterday in a statement on the strength of the federal and rebel forces in Mexico. The statement shows that there are 23,452 men in the federal army and 23,425 men in the insurgent army. The statement was compiled from official and unofficial sources.

PASSING SHOW

Crystal Theatre

"The Cowboy's Wife," a young widow with a little baby, is penniless, and leaves the child at the ranch house with an explanatory note around its neck. George, a handsome cowboy, finds the baby and takes care of it, assisted by all the cowpunchers. The mother answers an advertisement for a school teacher and gets the position stationed near the ranch. George falls in love with her and proposes marriage, urging as an additional reason that he has a young baby to take care of. The mother of course immediately recognizes her child and is wild with joy, and the baby gets its mother back and a new papa. "Across the Mexican Border Line," by the Salas Co. "North Western League Baseball," Tacoma and Vancouver. "A Trip Through the Holy Land," by Pathe Freres. "Driest in the Country," Warwick Chronicle. Norwegian Winter Sports, Launch of H. M. S. Dartmouth. Burning of the King's Carriages.

Romano Photoplay Theatre.

The enterprising management of this theatre, as a rule, show only the very best films procurable, but they have gone a little beyond this in the programme for to-day and to-morrow in securing the Imp films, "The Scarlet Letter." Nathaniel Hawthorne's famous masterpiece. This film tells the story exactly as it was written by the famous writer, and is staged in a way that outshines anything the I. M. P. Co. has even produced, inasmuch as it was acted by their star company. "Shifty's Claim" is a western comedy, without the usual roughness typical to that country. The Warwick Chronicle tells the latest happenings of the world in motion pictures. "A Tailor's Queer Advertisement" is brimful of fun, as is also "Father's Birthday Ring," by the Lubin Co. There will be a song by Miss England. The Romano orchestra will be heard in several new selections appropriate to the pictures.

Majestic Theatre.

"The Majesty of the Law" is the title of the big feature for to-day and to-morrow. It shows what responsibility will do for a man, a drunkard, a tough, for a joke elected to the office of sheriff. Instead of doing as every one supposed he would do, he turns squarely around and enforces the law, reforming his own evil ways.

The London Second-Hand Exchange Co.

We pay the highest cash price for cast-off clothing, such as ladies' and gents' boots and shoes, hats, all kinds of tools, guns and pistols. All kinds of books bought.

Ladies, Use the Rest Room. Second Floor

WEILER BROS

We Lead. Others Try To. Why? Because Truth is Powerful

to do so. The picture is a sermon and is a practical illustration of the reclaiming power of the good that is in all men.

"Between Love and Honor," depicting how out of disheartening beginnings can come the most beautiful things in life and love. "The try out," a story of particular interest showing what happens to young actors who are trying to get ahead in the world and what happens to the unfortunates when they fail. "Finland Falls of Inatra," a colored travologue, illustrating this little known rapids and falls. "Who is Nellie," a comedy showing jealousy and injustice done a man who was trying to do something to please his wife.

New Grand Theatre. Manager Trumbull has a five-act bill at the Grand this week that includes three headline acts. Lohse and Stirling are a couple of boys showing in brilliant athletics, doing fifteen minutes of very fast work. The Barrow-Lancaster company presents "Tactics," an old military drama in one act showing how strong the feeling between north and south re-

mained years after the civil war in the United States.

Sadie Sherman, with some impersonations, presents an act of undoubted quality and a pleased audience last night again encored her; Jack Inglis and May Reading present a song and dance act; Jack Goldie is heard as a singer and a whistler; there are pictures by the Grandoscope at the end of the bill after the big athletic turn by Lohse and Stirling.

—It has been said that a \$1.00 saved is a \$1.00 earned, but in reality it is twice as good as you still have an opportunity to earn in addition to what you have saved. You can save from one-third to one-half of the price of a new, this season's suit if you buy now at the J. N. Harvey, Ltd., clearance of the E. Williams & Co.'s store, 614 Yates St.

—The Young Ladies' Club of the Metropolitan Methodist church will hold a social meeting in the Sunday school room this evening at 8 o'clock.

Go to J. N. Harvey's for clothing.
