Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured covers/
Couverture de couleur
- Covers damaged/
Couverture endommagée

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

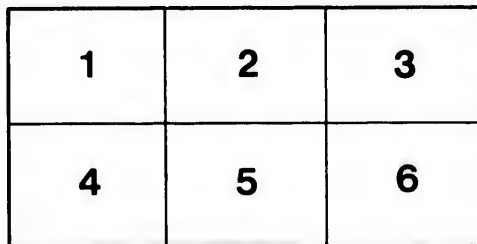

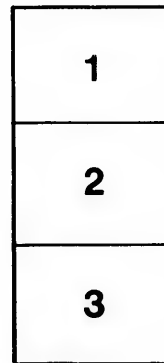

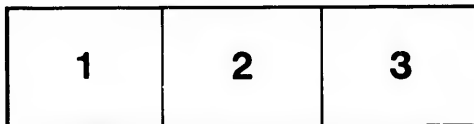

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BELCHER'S FARMER'S ALMANACK,

FOR THE YEAR OF OUR LORD

1858:

Being the **SECOND** after Bissextile or Leap Year, and the latter part of the **TWENTY-FIRST** and the beginning of the **TWENTY-SECOND** Year of the Reign of Her Majesty Queen Victoria.

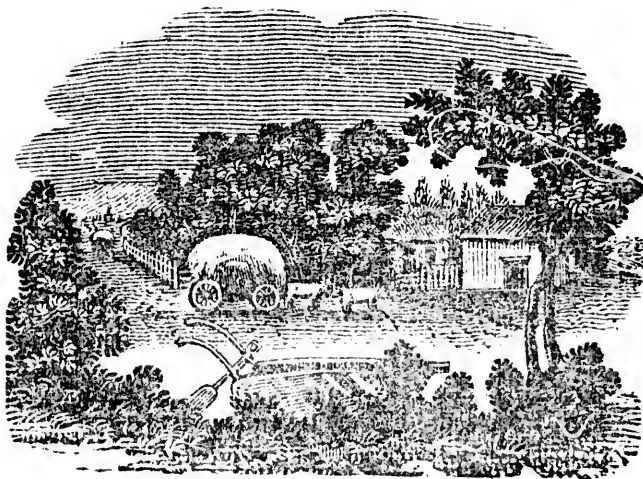

Calculated for HALIFAX, Lat. $44^{\circ} 39' 20''$ N. and Long. $63^{\circ} 36' 40''$ W. from Greenwich, but will answer for all parts of the Province, including the Island of Cape Breton.

Containing, besides the large number of Astronomical Calculations, and the Farmer's Calendar for every month in the year, a greater variety, than any other Almanack, of

NEW, USEFUL AND ENTERTAINING MATTER.

[Established in 1824]

By C. H. BELCHER.

HALIFAX, NOVA SCOTIA,

PUBLISHED BY C. H. BELCHER,

AND SOLD BY THE CITY BOOKSELLERS, AND STOREKEEPERS GENERALLY
THROUGHOUT NOVA SCOTIA AND CAPE BRETON.

Printed by JAMES BOWEN & SONS, HALIFAX, N. S.

PLANETS.

MERCURY will be the *Evening* Star until January 15. It will then be the *Morning* Star until March 22, after which it will be the *Evening* Star until July 7, after which, it will be the *Evening* Star until September 13. It will then be the *Morning* Star until November 5, then the *Evening* Star to December 30.

VENUS will be the *Morning* Star until February 11, then the *Evening* Star until December 12, after which it will be the *Morning* Star.

MARS will be a *Morning* Star until May 12. It will then be an *Evening* Star to the close of the year.

JUPITER will be an *Evening* Star until May 18. It will then be a *Morning* Star until December 6, then an *Evening* Star.

ELONGATIONS OF MERCURY AND VENUS.

MERCURY will be in its greatest Western elongation April 20, August 11, and December 14; in its greatest Eastern elongation February 5, June 8, and September 29.

VENUS will be in its greatest Eastern elongation October 12.

ECLIPSES.

There will be four Eclipses this year—two of the Sun, and two of the Moon.

I. February 27. A partial Eclipse of the Moon in the evening, on the southern limb of the Moon. Only the latter part of this Eclipse will be visible in Nova-Scotia, New-Brunswick and Canada. The Moon will rise partially eclipsed :

Beginning 3h. 32m. A. }
 Ending 8h. 26m. A. } Mean time at Halifax.

Magnitude of the Eclipse (Moon's diameter = 1) 0,333, on the southern limb.

II. March 15. An annular Eclipse of the Sun. This Eclipse will be partial and visible in Nova Scotia and New-Brunswick :

Beginning.....6h. 28m. M. }
Ending.....9h. 14m. M. } Mean time at Halifax.

The Sun will rise partially eclipsed, and but a small portion of its disc will be obscured

III. August 24. A partial Eclipse of the Moon in the morning. This Eclipse will be invisible in North America, excepting on the shores of the Pacific.

IV. A total Eclipse of the Sun, September 7. This Eclipse will be invisible in British North America, but will be total in South America.

THE COMET.

The phenomena which have created most fear and alarm amongst mankind, have been those of Eclipses and Comets; and it was not until the science of Astronomy had been cultivated for years, that any rational ideas regarding the latter were promulgated.

Dr. Halley, after laborious calculation—even nights, days and years spent in figures and planetary observations—calculated the return of twenty-four Comets. He discovered that the Comet of 1682 was the same that appeared in 1607 and 1531; whose path, in its orbit, is completed in seventy-five or seventy-six years. The Comet of 1661 was supposed to be the one of 1532, completing every journey in 129 years—that the Comet of 1680 was the same one that appeared in 1106, and previous to that period in 531; first noted fourty-four years before Christ.

Some Comets, noted in ancient times, have not yet become visible, inasmuch as their range, or the distance they are permitted to soar above the planetary system, may be to within a comparatively short space of the Fixed Stars; so that thousands of years may elapse before some return to their perihelion, or point of a planet's orbit wherein it is *nearest* the Sun.

The great Comet of 1680 was the most magnificent object of its kind seen in modern times. Its tail was 112 millions of miles in length, reaching ninety degrees across the heavens. When in its perihelion, it came so near the Sun, that, in accordance with Sir Isaac Newton's calculations, the body of the Comet must have been heated 2000 times hotter than red-hot iron, and could not get cool again in upwards of a million of years! Our readers may congratulate themselves that this Comet of 1680 is *not* the same with the one expected to flame in the firmament in 1857—8; but our posterity will have to tremble at the approach of the terrific monster in 2255!!

Halley's Comet, which appeared in 1682, two years after its big brother had winged its way from the Sun, returns, by Halley's computation, every seventy-six years. It came as predicted, in 1759 and 1835, and its next advent will be in 1911. That Comet travels a million miles or more beyond the orbit of the planet Neptune. It is, however, a pigmy compared to the one now approaching us—the Comet of 1556, whose unexpected advent struck terror throughout all Europe.

The best authorities are of opinion that the Comet of 1264 and that of 1556, which is now approaching, are identical. It does not appear

possible, in the present state of our knowledge, to prognosticate the precise period of its appearance, though some, have somewhat rashly ventured to fix the very day! We do not feel disposed to go any further in the way of prediction, than by stating that the coming Comet will most probably make its appearance between June, 1857, and August, 1858.

The approaching Comet is one of greater size than the one of 1680—the length of its tail is 130 millions of miles! and its speed, near its perihelion, will be some millions of miles in one single hour!

If this Comet, then, be a solid, dense substance, and it appear during the approaching summer, going as near the Sun as the Comet of 1680, we may expect a very hot season, as certainly so large a body, if the theory be true that it becomes heated 2,000 times hotter than red-hot iron, cannot come within our view without increasing our temperature greatly.

The celebrated M. Arago and other astronomers of France, aver that there are 250,000,000 chances to one, against a collision between the Comet and the earth; and these learned observers of the heavens know far better than those pretended seers, who are always looking out for signs of horror and dismay.

ROGATION DAYS.

May 10, 11, 12.

EXPLANATION OF THE CALENDAR PAGES.

Column LEFT HAND PAGE.

- 1 and 2—Days of the Month and of the Week.
 - 3 “ 4—The rising and setting in *mean time* of the highest point, or of the *upper limb* of the Sun, corrected for refraction.
 - 5—The Sun’s declination for the same as the Equation, 6th column
 - 6—Equation of time, (or quantity by which the Sun is *slow* or *fast* of the clock at noon, apparent, not mean, time at Greenwich, or a quarter before eight o’clock in the morning at Halifax.)
 - 7—Days’ length in hours and minutes.
 - 8 and 9—The rising and setting of the Moon.
 - 10—The time of the Moon’s southing, or passing the meridian. This column also gives the time of High Water at Parrsboro’, Horton, Cornwallis, Hantsport, Windsor, Newport, Truro, &c.
 - 11—The symbols in this column indicate the moon’s place in the Signs or Constellations of the Zodiac.
- The top of the columns of each month gives the Moon’s Phases, or times of New and Full Moon, and of the First and Last Quarters, or quadratures of the Sun.
- The FARMER’S CALENDAR is placed at the foot of the columns of each month.

RIGHT HAND PAGE.

- 1—Contains the days of the month.
- 2—Sundays, Weather, Anniversaries, &c.
- 3—The time of High Water at Halifax, N. S.
- 4— “ “ Pictou, N. S. and Cape Tormentine, N.B.
- 5— “ “ Annapolis, N. S., St. John, N. B., and Portland, Maine.
- 6— “ “ St. Johns, Newfoundland, of that tide which immediately precedes the southing of the Moon. These four columns are computed on the supposition that the time of High Water on the days of the New and Full Moon—*L’establissement du port*—is at Halifax, 7h.30m.; at Annapolis, St. John, N.B., & Portland, 11h.14m.; at Pictou and Cape Tormentine, 10h., and St. Johns, N. F., 6h.30m.

All the calculations are made to mean solar time, which has superseded the old mode of reckoning by *apparent* time

THE EPHEMERIS OF THE PRINCIPAL PLANETS.—The hour of *meridian passage, right ascension and declination* of each of the principal planets is given for the 1st and 15th of each month. For any other day than the 1st and 15th of the month, apply a correction at the rate of 3m. 55. 91s. per day, reckoned from the nearest given day—to be added for an earlier day—subtracted if for a later day.

- ☾ Last Quarter, 6th d., 8h. 22m. afternoon, below the horizon.
- ☾ New Moon, 15th d., 1h. 18m. morning, below the horizon.
- ☽ First Quarter, 22d d., 0h. 42m. morning, bearing East.
- ☾ Full Moon, 29th d., 4h. 57m. morning, bearing West.

☞ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Newport, Windsor, Truro, &c.

The cultivation of the soil, together with the improvement of those animals which are given us as aids in the work, is a noble employment, and furnishes the mind with exhaustless subjects of thought. There are two Systems of belief that obtain credence—the one embodies the heaven-given rules to make the moral soil, which Sin has cursed, bring forth nourishment for the more enduring part of man;—the other teaches how to provide with the least toil for the wants of the body—to clothe the most unsightly and barren places with beauty and compel them to add to man's comfort and luxury. Though we are compelled "to eat bread in the sweat of our brow," we are not obliged to gather it by the most laborious process, to eat the earth's most unwhitened products, or to dwell in the most rude and uncomfortable habitations. It is an erroneous idea that improvements will not pay: this, in many instances, is urged merely as an excuse for carelessness and negligence. There are many instances, where improvements have been made, with a greater profit on the money so expended, than is realized in the ordinary routine of farming.

☾ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hautsport, Windsor, Newport, Truro, &c.

A farm that has not a plot of ground adapted to the purposes of a garden, had better be abandoned at once. There is no good reason why the real luxuries that spring from the soil, under the culture of the practical gardener, should be confined to the lands of the gentleman of leisure. They belong as much to the farmer, and indeed more so; for he who labours most actively, should reap the richest harvest. All that serves to make life more desirable, that tends to the improvement of the soil, the mind, and the heart, is not beneath the attention of man. We cannot conceive of a more fit place to commence the careful cultivation of a farm, than the garden. It would soon be evident that the greater care bestowed on the soil, the greater its product, and so a system of culture would by degrees be adopted, till the whole farm should become a fruitful field. In the cultivation of a garden, can be noted on a small scale, all the phenomena of growth, and from data there gathered, one can advance successfully from the tilling of narrow beds to that of broad acres. The knowledge necessary to success in gardening, is rather the result of experience, than of fixed rules. We do not profess to teach gardening "in six easy lessons," but we assert that any one so disposed can make a beginning—try!

☽ The column of the moon's southing gives the time of high water at Parrsboro', Cc'nwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

WHEN spring comes every good farmer will have a field or garden or orchard, where he can profitably apply all the manure he can save or make during the winter. Every shovelful of manure judiciously applied will increase the amount of his crop. Now is the time to think of this, and to make preparation accordingly. Let those near the sea shore collect sea-weed—and those who live near saw-mills draw horse and put under cover loads of saw-dust. This may be used to good advantage, in absorbing the urine of horses and cattle, and retaining the fertilizing ammonia which they contain. Saw-dust and dry meadow muck well saturated with urine will be a fertilizer almost equal to guano. On most farms there is nearly a total loss of the urine of the stock, during the time it is kept at the barn, and even the other portion of the excrement is often so much exposed that one half its value, probably, is lost. It is often washed into the highway, and is seen in the colouring of the water of brooks. It would not, probably, be an over estimate of this loss, to say that with many it is more than equal to their amount of poor and county rates.

☽ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

The Plough and the Harrow are now in requisition. Do you take an Agricultural paper? No doubt you do; and you will there find sufficient instruction for every month's business. In so small a compass as these columns you cannot expect any lengthened details. Our endeavours are mostly to call attention to the duty, and awaken the slumbering energies. If we happen to afford any profit, amusement or entertainment so much the better. But some very strangely object to reading for information, as though they were already fully stocked with knowledge. Lawyers, Clergymen and Physicians, say they must read as well as practice, and why not the farmer? Some, treading in the footsteps of their forefathers, say they want neither books nor papers to instruct them how to manage the soil. As for chemistry and botany, so much talked about believe they have no more to do with farming than spirit-rapping. Thus they talk, and all we can say or do is, let experience settle the matter. However, never be afraid of the word science, for skillful practice is but applied science—and you all want to be skillful, we trust, in what you do.

☾ The column of the moon's southing gives the time of high water at Parrisboro', Cornwallis, Horton, Ilantsport, Windsor, Newport, Truro, &c.

For raising onions it is recommended to prepare the beds as early in the spring as convenient, and suffer them to remain 8 or 10 days, for the noxious plants to vegetate, then to cover them with straw and brush to the depth of 10 inches, and burn them over; after which plant the seeds immediately. This process it is stated, has proved perfectly successful in driving away the insects and procuring good crops, and in addition, has furnished a capital top dressing to the soil. Onion beds prepared from the hearths upon which charcoal has been burned, have likewise been mentioned as producing the perfect vegetable entirely free from the attack of worms. The onion worm is exceeding difficult to destroy. Strewing the earth with ashes has proved of little avail—powdered charcoal answers a much better purpose—but if the method above mentioned be adopted, we have little doubt but that this insect will in a short time be greatly reduced in numbers, and afford a better chance for a more healthful crop of the onion plant in future. Onions and weeds do not agree well together in the same bed—the hoe and the fingers must be used as long as a weed is to be found.

☾ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

The improvement of domestic animals, by encouraging skilful and systematic breeders, deserves attention. The improvement of animals by the art of breeding, is one of the most important branches of husbandry, and yet it is but very little understood. It necessarily follows that we have made slow progress in this department, and although we have had frequent importations of stock from other countries, producing in many instances, a marked improvement in their immediate progeny, the truth is our farmers have given so little attention to the subject, or have examined it under such false impressions, that it is difficult to find a man who is really capable of selecting a proper animal to breed from, and much more difficult is it to find one who is capable of breeding a herd or flock, without degeneracy, for several generations. The successful breeding of animals for particular purposes, requires a critical judgment and skill, which can only be obtained by a long course of the closest observation, and a habit of comparing animals, united with a natural taste for the subject, and a determination to understand its principles—hence the number of real improvers in this line have been very small.

☽ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

We once knew a man who was very jealous of "his rights." He would rather lose ten dollars worth of time in attending a law-suit, than have his neighbour wrong him one dollar. He would go 7 miles, and lose 2 hours to get one penny more on a few pounds of butter. He once drove 5 miles round, over a rough road, to save a few pence bridge toll, and broke his waggon which cost a pound to mend. Yet this same man, whose indignation was always aroused at the thought of a foreign or domestic foe, tamely allowed an army of at least 20,000 mulleins, 8000 horse thistles, 50,000 Canada thistles, 3,000 burdocks and 900 elder bushes, to invade his fields, and the general opinion among his neighbours, was, that the same strength of soil and amount of land which these required for their growth, would have grown 40 bushels of wheat, 90 bushels of corn, and 120 bushels of potatoes. One of the first objects to which attention should be directed, is the eradication of bushes and pernicious plants in fields, along lines of fences, road-sides, &c. These are not only great drawbacks on the beauty of the farm, being unsightly to the eye, but they are very detrimental to the pecuniary interest of the farmer.

☾ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hauts-port, Windsor, Newport, Truro, &c.

The latter part of August is considered the most favourable part of the year for making improvements on the farm. At this season, the earlier crops have been secured, the cultivation of the late ones has been finished, and the farmer is only waiting their maturity. In addition to the comparative leisure which is thus afforded, there are other circumstances which render this a suitable period for such operations. The ground is generally drier than at any other time during the year, which permits the labour of men and teams on places which at other times are inaccessible from wetness. This is particularly favourable to the drainage of bogs and the excavation of peat or muck for manure—the growth of bushes and shrubs has also reached that particular crisis in which they may be more easily killed by cutting or bruising. The reclaimation of waste lands generally, but especially those of a wet and swampy nature, may be prosecuted with advantage—with these drainage is the first object—as the water is taken away, the soil will settle, and this settling will facilitate further operations.

☽ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

Without ORDER, SYSTEM AND ECONOMY, no man can be successful in conducting the business of a farm. If a man neglects these things, capital will be expended without a profitable return, and even experience will be of little avail. That man cannot expect to prosper, who leaves everything at odds and ends. The greatest defects in our agriculture at the present time, arise chiefly from carelessness and waste. The disregard of order, system and economy, is the bane of our farming—it is the occasion of constant and immense loss in many ways. Those farmers who succeed best in their operations, are noted for their strict adherence to system and order; and those who set at naught all order and system, are always in a hurry—never know where to find anything—never have a place for anything, except somewhere on the farm—and they never accomplish but little in comparison to what they might, were system and order their watchwords. Slovenliness does not belong to farming, dexterity and neatness should not be strangers—in short, where there is neither system or rule, the party has no claim to the title of agriculturist.

☾ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Windsor, Newport, Truro, &c.

There is a great advantage in commencing the fattening of animals early in the fall. There are many articles on a farm which may be profitably used at this season, but which, from their perishable nature, would be lost, or greatly depreciated in value, by long keeping. Early apples, squashes, pumpkinkins, humerelantable potatoes, and unsound corn should be used first. But besides the advantage in saving these kinds of food, there is another important argument in favour of early fattening; the same amount and quality of food will go further, or will produce a greater amount of meat, in mild weather, than in cold—less food being required to supply the waste of the animal system under a mild temperature, than under a low one. For swine there is a great advantage in cooking food, as it has been ascertained that pigs fatten much better on cooked than on raw food.

☾ The column of the moon's southing gives the time of high water at Parrshoro', Cornwallis, Horton, Hantsport, Newport, Windsor, Truro, &c.

PREPARATIONS must now be made for a long and severe winter. The summer vehicles should be dried, cleaned and stowed away. The fences should be put in order, so that none of the fields may be exposed to the poaching of cattle, sheep or hogs. The farmer should walk about daily with a hammer and pocket full of nails, patching and repairing the barns and sheds where they require it. Finish digging and storing of roots, and the fall ploughing—one good ploughing of clay land in the fall is worth two or three in the spring. Husk the corn—make cider—examine and make cuts for the drainage of surface water—underground drains are preferable to surface cuts. The children should be kept close at school, and the farmer should never forget that more attention is due from him toward the improvement of his children than to that of the land or stock. Let everyone take in and study an agricultural periodical, and strive to combine science with practice—practice with science.

☾ The column of the moon's southing gives the time of high water at Parrsboro', Cornwallis, Horton, Hantsport, Newport, Windsor, Truro, &c.

The close of the year is near at hand. It is the practice of many, and should be of all, to balance their accounts at the end of the year, and see how they stand with the world; whether they have advanced or reelected during the past year, and whether their expenses have been kept strictly within their income or otherwise; and also to pay off all their small outstanding bills. Tradesmen and mechanics expect their bills to be settled up to that time, and it is proper they should be, to enable them to pay off their own debts. A small amount of money will pay a very large amount of bills by going from hand to hand. Now as the stream must commence somewhere, we would suggest to those who are not obliged to wait till others pay them before they can pay their own little debts, to call in their small bills before the first of January, so that with the money thus put in circulation, others can meet their small bills by the first of the year. Wealthy men know not the trouble they put others to, and the real embarrassment they create by allowing a tradesman and others to call several times for a small bill. To the first the amount is trifling, but to the latter it is often of importance.

GENERAL POST OFFICE, HALIFAX, N. S.

POSTMASTER GENERAL, ARTHUR WOODGATE, Esq.

First Clerk, C. H. Hamilton, Esq.; *Clerk Account Branch*, F. M. Passow, Esq.; *Junior Clerks*, Messrs. Wm. Small, John M. Inglis, Hugh Kerr and Henry Driscoll; *Messenger*, Mr. A. Church.

Letter Carriers.—Southern District of the City, Mr. Osbourne Whittaker; Centre District, Mr. William Craig; Northern District, Mr. George Craig.

Office open every day (Sundays excepted) from 4 o'clock in the morning until 8 at night.

The Mails for the United Kingdom are closed finally at Halifax every alternate *Thursday Evening* at 8 o'clock. Letters, &c., for England, which may be dropped into the box *after the hour of closing* and up to the arrival of the Packet, will be forwarded in a bag, loose—but such letters CANNOT BE PREPAID, either in money or stamps. The Royal Mail Steamers leave Boston for Halifax and Liverpool, G. B., every alternate *Wednesday*; arrive at Halifax on *Thursday evening* or very early the succeeding morning, leaving Halifax immediately after receiving the Mails.

Letters to or from England, $7\frac{1}{2}d.$, *prepayment optional*;—can be prepaid by using a 6d. or two 3d. Stamps, together with *half of a three-penny Stamp* cut diagonally. Newspapers free.

The Postage on Books from Great Britain to Nova Scotia, or *vice versa*, is at the rate of $7\frac{1}{2}d.$ currency, if not exceeding $\frac{1}{2}$ lb.; exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb., 1s.3d.; and so on adding 1s. 3d. for every additional pound or fraction of a pound. One book package may contain separate Books, Publications, Almanacks, and Maps and Paper, Parchment or Vellum; the latter three materials may be written or printed on—the package may contain the name and address of the sender. Rollers may accompany prints and maps, and markers may be sent with books. No letter must be sent with or written on a book package, and no such package must exceed *two feet* in length, width or depth. The Postage must in all cases be *prepaid* by Stamps.

Closed Mails for the United Kingdom *via* United States are made up at Halifax to meet the Steamers leaving New York for Liverpool. Letters to be specially addressed "*via New York*." Letters 10d.; Newspapers 1d. each.

The Mails for the United States *via* Boston, per Royal Mail Steamers are made up on *Tuesday Evening* of the week in which the Packet from England is due, at 8 o'clock. Should the Steamer not arrive by 6 o'clock the following morning, *supplementary Mails* will be made up. Should the Steamer from Liverpool arrive previous to Tuesday night—the Mails as heretofore will close *immediately on her arrival*.

A closed Mail for Canada is made up and forwarded at the same time in charge of the British Officer. Letters so forwarded must be specially addressed "Closed Mail for Canada;" postage $7\frac{1}{2}d.$; viz.: 5d. Packet Rate, and $2\frac{1}{2}d.$ Colonial Rate—*prepayment optional*.

The Mails for Bermuda and the West Indies, are made up *finally* at Halifax on the *Thursday Evening* of the week in which the Royal Mail Steamer is expected to arrive from Boston, at 8 o'clock.

Letters 5d.—when posted in the interior, 3d. additional, this must be prepaid. Newspapers $1\frac{1}{2}d.$ each, which must be paid by Stamp.

Letters are forwarded *via* Bermuda for Chagres and the Pacific, Chili and Peru, Havanna, Honduras, Lagunya, Mexico, Venezuela, and the British and Foreign West India Islands.

Postage to Foreign West Indies, *five pence* when posted at Halifax : 3d. additional when posted in the interior—*must be prepaid*. Newspapers 1½d. each *to be prepaid by Stamp at the time of Posting*.

The Mails for Newfoundland, (and Cape Breton, during the Summer months,) are made up at Halifax, *once a month*, during the months of December, January, February and March; and *once a fortnight* during the months of April, May, June, July, August, September, October and November, closing *finally* on the *Thursday Evening* of the week in which the Royal Mail Steamer is expected to arrive from Boston.—Postage 5d.; when posted in the interior 3d. additional. Newspapers 1½d. each, which *must be paid by Stamp at the time of Posting*.

The Mails for St. Pierre and Miquelon are forwarded to Sydney, C.B. from whence they are despatched by the French Packet during the summer months, and from Halifax direct in the winter months. Letters 5d. packet rate, and 3d. inland, *prepayment optional*.

All letters are charged by weight, and a uniform rate of postage of 3d. on a letter not exceeding half an ounce in weight has been established throughout British North America. To any part of the United States 6d.; to Oregon and California 9d., *prepayment optional*.

Letters posted in any Town within the Province for delivery in the same Town, are liable to a rate of *one penny* for every ½ ounce.

Newspapers pass *free* to any part of the Province, British North America and the United States when sent by *land Mail*—to be put up in Covers open at the ends.

Printed Circulars, Prices Current, Handbills, and other printed matter of a like description, put up in covers open at the ends, and without any written communication, may be sent from any part of the Province to any place within the same, as well as through Nova Scotia, at the rate of *one penny* per oz.—*prepayment optional*, except when addressed to the United States, in which case the postage must be *prepaid*.

Pamphlets, Magazines, Periodicals, or Books, bound or unbound, done up in covers open at the ends, unaccompanied by any written communication, may be transmitted as above mentioned through the Mail in this Province: not exceeding 2 oz., in weight—free; 2 oz. and not 3, 1d.; 3 oz. and not 4, 1½d.; 4 oz. and not 5, 2d; adding ½d for every additional oz. up to 48 oz., beyond which weight they cannot be sent by Mail.

British reprints of copyright works from the United States, by *land mail* or *steamer*, charged letter postage.

For Dartmouth, *daily*—postage 1d.

For Musquodoboit Harbor, every Tuesday morning, at 9 o'clock. Return Mail due on Monday afternoon at 5 o'clock.

For Prospect, on Saturday afternoon, at 2 o'clock. Return Mail due on Saturday morning, at 11 o'clock.

For Ketch Harbor and Sambro, on Friday evening at 10 o'clock. Return Mail due on Saturday.

 Letters for *Registry* must be posted half an hour previous to the closing of the mail by which they are to be forwarded, and the *postage*, as well as the registration fee, must be *prepaid*.

Letters *prepaid by Stamps*, and dropped into the Letter Box any time during the night, and up to 5 o'clock, A.M., will be forwarded by the mails despatched same morning.

When the mails from England arrive before 9, P.M., they are delivered the same evening, and after that hour, at 7 next morning.

All other Mails arriving before 7 P.M., will be delivered the same evening,—if after that hour and before 8, at 6 o'clock,—and if after 8, at 7 o'clock the following morning.

The Postmaster-General is not liable for the loss of any letter or packet, unless such loss should arise from his own default.

Land Mails made up at Halifax at 8 o'clock, P.M.

By **EASTERN ROUTE**—For Amherst, Londonderry, River Philip and Canada, on *Tuesday, Thursday and Saturday*:—For Antigonish, Arichat, Albion Mines, Baddeck, Guysborough, North Sydney, Plaister Cove, River John, St. Peters, Sydney, Sydney Mines, Tatamagouche and West River, on *Monday, Wednesday and Friday*:—For Canso, Margaree and Port Hood, on *Wednesday and Friday*:—For Durham, on *Tuesday and Wednesday*:—For Lower Stewiacke, Middle and Upper Musquodoboit, and Sherbrooke on *Wednesday and Saturday*:—For Pugwash and Wallace, on *Monday, Wednesday, Thursday and Friday*:—For Parrsboro', on *Thursday and Saturday*:—For Pictou, New Glasgow and Truro, **DAILY** (Sunday excepted). For St. Ann's and Whycoomagh, on *Monday and Friday*:—For Shubenacadie, on *Tuesday, Wednesday, Friday and Saturday*:—For New Brunswick and the United States, *Tuesday, Thursday and Saturday*:—For Prince Edward's Island, on *Monday and Wednesday*:—And for Maitland on *Monday and Saturday*:—

By **WESTERN ROUTE**.—For Annapolis, Aylesford, Bridgetown, Clementsport, Digby, Lawrencetown, Wilmot, Weymouth and Yarmouth, on *Monday, Wednesday and Friday*:—For Hantsport, on *Wednesday and Saturday*:—For Kentville, Lower Horton, Windsor, and Wolfville, **DAILY**, (Sunday excepted):—For Newport and Walton, on *Monday and Thursday*:—For Westport, on *Monday and Friday*:—And for New Brunswick and the United States on *Monday*.

By **SHORE ROUTE**—For Bridgewater, Barrington, Chester, Liverpool, Lunenburg, Mill Village, Mahone Bay, Shelburne and Yarmouth, on *Tuesday, Thursday and Saturday*:—For Lock's Island, Port Medway and St. Margaret's Bay, on *Thursday and Saturday*.

THE RETURN MAILS ARE DUE AT HALIFAX,

FROM THE EAST AT 9; WESTERN AND SHORE ROUTES AT 6 O'CLOCK, P.M.

From Amherst, Antigonish, Arichat, Annapolis, Aylesford, Albion Mines, Bridgetown, Clementsport, Digby, Guysborough, Londonderry, Lawrencetown, North Sydney, Plaister Cove, River John, River Philip, St. Peter's, Sydney, Sydney Mines, Tatamagouche, West River, Wilmot, Weymouth; Canada, and the United States, on *Monday, Wednesday and Friday*:—From Bridgewater, Barrington, Liverpool, Lunenburg, Mill Village, Mahone Bay and Shelburne, on *Tuesday, Thursday and Saturday*:—From Canso, Margaree, St. Ann's, Whycoomagh and Prince Edward's Island, on *Wednesday and Friday*:—From Durham and Shubenacadie, on *Monday, Tuesday, Wednesday and Friday*:—From Hantsport and Sherbrooke, on *Wednesday and Saturday*:—

From Kentville, Lower Horton, New Glasgow, Pietou, Truro, Windsor, Wolfville, and Yarmouth, DAILY (Sunday excepted):—From Lock's Island on *Thursday* and *Saturday*:—From Lower Stewiacke, on *Tuesday* and *Friday*:—From Maitland, on *Thursday* and *Friday*:—From Upper and Middle Musquodoboit, on *Monday* and *Saturday*:—From Port Medway, on *Tuesday* and *Thursday*:—From Pugwash and Wallace, on *Monday, Tuesday, Thursday* and *Saturday*:—From Parrsboro', Port Hood and Westport, on *Monday* and *Friday*:—From Newport, St. Margaret's Bay and Walton, on *Tuesday* and *Saturday*:—From New Brunswick, on *Monday, Wednesday, Friday* and *Saturday*:—And from Prince Edward's Island, on *Wednesday* and *Friday*.

LIGHT HOUSES

On the Coast of Nova Scotia, and on the Coast of New-Brunswick in the Bay of Fundy.

MEAGHER'S BEACH—East Side Halifax harbor. *A fixed light.*
 SAMBRO ISLAND—Western entrance Halifax harbor. *A fixed light.*

DEVIL'S ISLAND—An *Octagonal Light Beacon* on the S. W. point of Devil's Island, at the entrance of the Eastern passage to Halifax harbor, and exhibits a *red light* on the seaward sides, to distinguish it from Sambro and Meagher's Beach lights; stands forty-five feet above high water mark; rise and fall, six feet. The Tower painted dark brown, with a white belt between the Balcony and Lantern, to distinguish it in day time.

CROSS ISLAND—Entrance to Lunenburg harbor. Two lights—*flash light above; fixed light below.*

LIVERPOOL—South end of Coffin's Island. *A plain, revolving light.*

FORT POINT harbor light, at the head of Liverpool harbor, southern entrance of the river. *A bright, fixed light*, visible from all points of approach, and must be left on the larboard hand, when entering the harbor.

PORT MEDWAY—Beacon Light on Admiralty Head, west side of the entrance to the port. Building square, painted *white*, with *black square* in the centre of the seaward sides, *plain white light*, forty-four feet above sea level, and stands within thirty fathoms of the shore.

SHELBURNE—McNutt's Island. Two *fixed lights*—one above the other.

BARRINGTON—Baccaro Point, east side of the entrance to Barrington Bay. *A flash light*, of fifteen seconds.

YARMOUTH—West side of the harbor. *A plain, revolving light.*

CAPE SABLE, SEAL ISLAND—The first light on approaching the Bay of Fundy, is on the South point of Seal Island. *A plain, white light*, elevated about eighty feet above high water mark, and may be seen, on approaching the Island, from any point of the compass. A very dangerous rock, under water, but upon which the sea always breaks, called Blonde Rock, lies about three and one-third miles S. by W., by compass, from the Light House. Between this rock and the Island there are some dangers—the ground is rocky throughout, and large vessels, therefore, ought not to attempt passing between them.

BRIER ISLAND—*A plain, white light*, situate about half a mile N. E. from the N. W. point of the Island.

WESTPORT—Peter's Island, at the south entrance of the east side of the Bay of Fundy. *Two white lights*, placed horizontally, to distinguish it from Brier Island Light, at an elevation of forty feet above high-water mark.

DIGBY GUT LIGHT—On the west side of Digby Gut, from Brier Island north-eastward. This light is chiefly intended as a guide into Digby Basin. *A fixed, white light.*

BLACK ROCK LIGHT—On the south shore of the Bay of Fundy. *A fixed, white light.*

HORTON BLUFF LIGHT—In the Basin of Mines, ninety-five feet above sea level, high-water; rise and fall forty to forty-five feet. Building square, painted white; stands sixty feet from the Bluff, and shows a *white light*, which may be seen, in clear weather, over the greatest part of the Basin of Mines, (after passing Cape Blowmedon), and above the Five Islands, and up Windsor River, until intercepted by the continuation of the Bluff to the southward of it.

APPLE RIVER LIGHT—North side of the entrance to Apple River, in Chignecto, or Cumberland Bay. *Two fixed lights*, placed horizontally.

PARTRIDGE ISLAND RIVER—An Octagonal Light Beacon, on the west side of the entrance to Partridge Island River, Parrsboro', on the north side of the Basin of Mines, and exhibits a *plain, white light*, at an elevation of thirty feet above high-water; rise and fall about forty-five feet; the Tower is *white*, and stands close to high-water mark on the beach. Vessels can only enter the harbor at high-water, and must lie aground on soft bottom when the tide is low.

EASTERN BEAVER, or WILLIAM'S ISLAND—*A revolving light.*

CANSEAU, CRANBERRY ISLAND—*Two fixed lights*, one above the other, **WEST SIDE OF THE GUT OF CANSEAU**—*A fixed light.*

EDDY, or SAND POINT LIGHT—On Eddy, or Sand Point, on the west side of the south entrance to the Strait of Canseau, distinguished by *two white lights*, placed horizontally, twenty-five feet above the sea level. Building square, painted *white*, with a *black diamond* on the seaward side.

GUYSBOROUGH HARBOR BEACON—On the west side of the entrance to the harbor, head of Chedabucto Bay. *A fixed light.*

PICOU LIGHT—On the south-east side of the entrance to the harbor. *A fixed light.*

PICOU ISLAND LIGHT—on the S. E. point of the Island. Building square and painted *white*. *A fixed light*, fifty-two feet above high-water mark.

ARICHAU BEACON—A Light on Point Marichi, on the east side of the southern entrance to the harbor. Building square, painted *white*. *A white light*, thirty-four feet above the sea-level.

LOUISBURG—On the east side of the entrance to the harbor. *A fixed light.*

LOW POINT LIGHT—East side of Sydney, Cape Breton, harbor. *A fixed light.*

SEA-WOLF, or MARGARIE ISLAND LIGHT—Situated on the N. W. side of the Island of Cape Breton, nearly midway between Port Hood and Cheticamp harbors, and distant from Cape Breton two and a-half miles. *A plain, white light*. The lantern is placed on a square, wooden tower, painted white, near the centre and summit of the Island. The lantern is 298 feet above sea level—visible from all points of approach. To ves-

The lantern
h. To ves-

so's in proximity to the Island, the light may become observed by the abrupt cliffs or sides of the Island, which may serve as a guide to tack or anchor by, as hundreds of vessels find anchorage on the south-east side. The chief landing is near the S. W. end, in shore, where a few fishing stages and boats are kept in use during the fishing season.

POUR HOOD LIGHT—Changed from *white* to *red*, when seen from the northern entrance, to distinguish it from the Margerie and North Canso lights.

WHITE HEAD ISLAND LIGHT—On the S. W. point of White Head Island. The tower is square, painted *white*, standing seventy-five fathoms from the water's edge, with an Octagonal Iron Lantern, sixty feet above sea level at high-water; rise and fall, six feet. The light is distinguished by *bright flashes*, of ten seconds duration, followed by eclipses of ten seconds, displaying alternately three flashes and three eclipses in a minute. The light will not be totally obscured during the eclipse.

FLINT ISLAND LIGHT—On Flint Island, off the Eastern coast of Cape Breton. Lat. 40 degrees, 11 5' N., and Long. 59 degrees, 45 50' W., and exhibits a *bright, flash light*, every fifteen seconds, visible from all points of the compass. The light is sixty-five feet above sea level, and can be seen at the distance of twelve miles.

ST. PAUL'S ISLAND—*A fixed light* on the north-east end, and a *flash light* on the south-west end.

SCATTARIE ISLAND—*A revolving light*, on the east end of the Island.

IRON-BOUND-ISLAND LIGHT—Off the entrance to La Have River. *A bright, flash light*, of ten seconds duration, followed by eclipses of thirty seconds. The lantern is placed on a square, wooden tower, painted *white*, on the southern side of the Island, and is visible from all points of approach. Elevation seventy feet above sea level.

RAGGED ISLAND HARBOR LIGHT—On Gull Rock, off the entrance of the harbor. Building square and painted *white*, exhibiting a *clear, fixed light*, at an elevation of fifty-one feet above the sea level, and is situated in Lat. 43° 39' N., and Long. 64° 66' W.

PUNNICO HARBOR LIGHT—A Beacon Light on the S. E. side of the entrance to Punnico Harbor, situated on the E. side of the entrance to the Bay of Fundy, about thirteen miles northerly of Cape Sable. Building square, painted *white*. *A fixed, red light*, on the seaward side, twenty-eight feet above high-water level, (rise and fall twelve feet), and stands fifty fathoms from low-water mark. The point of beach is bold.

A FOG BELL has been erected on the E. Cape of Yarmouth harbor, a few feet to the southward of the Light House, and about one and one-quarter miles from the extreme outer point of the Cape. Strikes *seven* times per minute.

GANNET ROCK LIGHT—This light is intended to warn vessels of their approach to a very dangerous range of shoals and ledges, which extend from the Old Proprietor to the Seal Islands, off Machias, a distance of about twenty miles. *A white, flash light*, twenty seconds dark, and forty seconds light, in each minute. Building painted in stripes, vertical, black and white. Between the northernmost and the southernmost of the Murr Ledges, there is a range of dangerous rocks and shoals, many of them always above water, and extend westward from the Light House about four miles. From this range further westerly, about six miles from the Gannet Light, lies a dangerous breaker called the Bull—this may be

avoided by keeping three remarkable headlands near the S. W. end of Grand Manan, open.

MACHIAS SEAL ISLAND LIGHTS—*Two fixed, white lights*, upon the Machias Seal Islands, forty-five feet above high-water, and bearing from each other E. S. E. and W. N. W., distant about 200 feet, by which circumstance, of two Light Houses at the same station, they will be immediately distinguished from all other lights upon the coast, British or American. Both buildings painted *white*. Vessels standing to the northward between these lights and the Gannet Rock, should tack or haul off the moment they bring these lights into one, as they will be, then, not more than three-fourths of a mile from the Murr Ledges, if more than five miles to the E. of the lights.

HEAD HARBOR LIGHT—Next in order after passing Grand Manan and the plain, white light (American) on West Quoddy Point, is Head Harbor Light, placed on the N. E. extremity of Campo Bello, and is a guide to vessels entering the main channel to West Isles, Moose Island, and the Inner Bay of Passamaquoddy; it enables vessels, also, at all times to enter Head Harbor. *A fixed, white light*. Building painted *white*, with a *red* cross on it.

POINT LE PREAU LIGHTS—Upon this projecting headland, two lights are placed, one above the other, in the same house, and distant twenty-eight feet. Both lights can be seen from every point of the compass where they may be useful; both are *fixed* and *white*. Building painted *red* and *white*, in stripes, five feet broad each, horizontally.

PARTRIDGE ISLAND LIGHT—At the entrance of the river and harbor of St. John, N. B. *A fixed, white light*. The building painted *red* and *white*, in vertical stripes.

BEACON LIGHT—Within Partridge Island, and upon a spit or bar which extends about half a mile S. S. E. off Sand Point, and which dries at two-thirds ebb, stands the Beacon Tower. *A fixed, white light*. Building painted *white* and *black*, in stripes, vertically.

QUACO LIGHT—*A revolving, white light*, placed on a small rock, off Quaco Head, showing twice full and twice dark in a minute. The light can be seen from any quarter where a vessel can approach. Building painted *white* and *red*, in horizontal stripes.

CAPE ENRAGE LIGHT—On the point of that name in Westmoreland, nearly opposite Apple River Harbor, N. S. Building painted *white*, about 120 feet above the tide mark. *A plain, white light*.

WEST QUODDY LIGHT—This is an American light, placed on the west side of the entrance into the St. Croix, by Lubec and Eastport.

EXPLANATION OF SIGNALS

Made on the Ship Staff at Citadel Hill, when vessels are seen from the Citadel, or reported from an Outpost.

One ball close up.	1 sq. rigged.	A pendant under a ball	6 sq. rigged
One ball half hoisted,	2 do.	do. over a ball,	7 do.
Two balls close,	3 do.	do. under 2 balls close,	8 do.
Two balls separated.	4 do.	do. between 2 balls	9 do.
A pendant of any col.	5 do.	A flag of any color,	10 or more do.

The above Balls, &c., are hoisted at the east or west yard-arm, according to the *quarter* the vessel first appears in.

When vessels are reported from an Outpost, the following signals are shown under the Yard-Arm as repeats :

For a square rigged vessel, two balls of a size, one at the outer, the other at the inner halliard, close up.

A Ship or Barque, a large ball at the end of the yard, with a small one at the inner halliard.

A Brig, a small ball at the end of the yard, and a large one at the inner halliard.

A Brigantine, a cross close up at the outer halliard.

Two or more do., a cross half hoisted.

A Schooner, a cross close up at the inner halliard.

An upper yard having been added to the Ship Staff, it will be used exclusively to designate Steam Vessels, thus :

One ball E. or W. indicates a Steam Vessel repeated in that quarter.

A small ball out and a large one in, a Branch Packet or Merchant Vessel.

A large ball out and a small one in, a Man-of-war Steamer, or Royal Mail Steamer.

Numbers will be indicated as directed from the lower yard.

The lower yard is now used for sailing vessels only.

When the description of vessel in sight is ascertained from the Citadel, the following descriptive colours will be hoisted at the mast head :

A Union Jack, a Flag Ship.

Do. with a red Pendant over it, a two decker.

Do. with a blue Pendant over it, a Frigate.

Do. with a blue and white Pendant over it, a Ship or Barque rigged Sloop-of-War.

Do. with a white Pendant over it, a Brig rigged Sloop-of-War.

Do. with a red and white Pendant over it, a Schooner or Cutter-of-War.

A white Pendant, with two blue crosses, a Transport, or a vessel with troops on board—if a Man-of-War, the Union under.

A white Pendant, with a blue ball, a Steamer—if a Man-of-War, the Union under.

A red Flag pierced white, Royal Mail Steam Packet from England.

A blue and red Flag Crossed white, ditto. from Boston.

A white and blue Pendant, do., from St. Johns, Newfoundland.

A white and red Pendant, do., from Bermuda.

A blue Pendant, a ship.

A blue and white Pendant, a Barque.

A red Pendant, a Brig.

A red and white Pendant, a Brigantine.

A white Pendant, a Sloop or Schooner.

A blue and white Flag horizontally divided, a Foreign or Neutral Fleet.

A white and blue Pendant vertically divided, a Foreign or Neutral Man-of-war.

A blue Flag, a Foreign or Neutral Merchantman.

When an English Packet arrives between Evening and Morning gun fire, a red triangular flag will be kept flying at the mast head from 7 till 8 o'clock.

EXPLANATION OF SIGNALS—*Made on the Ensign Staff, to denote the Port from whence Vessels are arriving.*

A red Flag, from Great Britain.

A red and white Flag vertically divided, red next the mast, the Mediterranean.

A red Pendant, the Continent of Europe.

A white and red Pendant, Madeira, Canary or Western Isles.

A blue Flag, the West Indies.

A blue Pendant, Bermudas, Bahamas or Turk's Island.

A blue and white Flag vertically divided, blue next the mast, the United States of America.

A white Flag, Newfoundland.

A red and white Flag, horizontally divided, Quebec or Gulf of St. Lawrence.

A blue and white Flag horizontally divided, New Brunswick or Bay of Fundy.

A white Pendant, coasts of Nova-Scotia or Cape Breton.

MERCHANTS' PRIVATE SIGNALS—PORT OF HALIFAX.

- RED**—J. & M. Tobin, a red Flag crossed white.
 Jas G. A. Creighton & Co. do. crossed white diagonally.
 Deblois & Merkel, do. centre a white square.
 Robert Noble & Sons, do. centre a white N.
 Rich'd McLearn, do. centre a white ball.
 J. T. Wainwright & Co., a red, white and blue do., red and white next the mast, red uppermost, blue at the end.
 T. A. S. DeWolf, a red and white do., red uppermost, with a red and white ball in the centre, the red half on the white, and the white half on the red.
 Young & Hart, a red and white do., striped horizontally, with a blue star in the centre.
 Daniel Cronan, a red and white Burgee, red next the mast.
 John Whitman & Son, a red and white do., red uppermost.
 Barss & Harris, a red do., with a white St. George's Cross.
- WHITE**—J. & T. Williamson & Co. a white Flag.
 William Stairs, Son & Morrow, do. centre a blue square.
 James A. Moren, do. bordered red.
 John H. McNab & Co., do. crossed blue.
 John B. Fay, do. centre a thistle.
 Salter & Twining, do. crossed red diagonally.
 T. C. Kinnear & Co. do. centre a red star, bordered red at top and bottom.
 Williams & Starr, do. centre a black ball.
 Black Brothers & Co., a white and blue Flag, white next the mast.
 John Strachan, a white, red and white do., white next the mast.
 Joseph Fairbanks, a white and blue do., the blue meeting in the centre, at a point from the four corners.
 George H. Starr & Co., a white Burgee.
 Frith & Harveys, a blue and white do., white next the mast, with a red cross in the white.
 Fraser, Lyle & Co., a white and red do. white next the mast, a red II on the white, and a white L on the red.
 Bauld, Gibson & Co. a white and red checkered do.
- BLUE**—Samuel Cunard & Co., a blue Flag, centre a white star.
 John Esson & Co., do., crossed white diagonally.
 Wm. Pryor & Sons, a blue and white do. blue uppermost.
 Wm. B. Hamilton & Co., a blue, white and blue do., blue uppermost.
 Wm. A. Hare, a blue and red do., crossed white, blue next the mast.
 Wm. Lawson, a blue, white and blue do., blue next the mast.
 Benjamin Wier & Co., a blue, red and white checkered flag.
 Henry Yeomans, a blue and white do., blue next the mast.
 C. D. Hunter, a blue, white and red do., blue next the mast.
 Allison & Co., a blue Burgee.
 N. L. & J. T. West, do., centre a white star.
 G. & A. Mitchell & Co., a blue and white do., blue uppermost.
 Oxley & Co., a blue and red do., red uppermost.
 Wm. H. Creighton, a blue & white do., white next the mast.
 Thos. Bolton, a blue Pendant, crossed white diagonally.
 Wm. Full, a blue and white do., blue next the mast.

STAR
LIFE ASSURANCE SOCIETY,
OF LONDON.

Founded 1843.

CAPITAL £100,000 STERLING.

NOTICE.

The privilege offered to Assurers in the Star Life Office, are highly advantageous. Ninety per cent. or nine tenths of the profits (ascertained every fifth year) are allotted to the holders of Policies; which may be applied in the reduction of the future annual premium, or be added to the sum insured, as a bonus.

Thirty days are allowed for the payment of the premium from the date of its becoming due.

All claims are paid within fifty days of their being allowed by the Board, and disputed claims referred to arbitration.

The following Table shows the additions to Policies of ten years duration, to which attention is specially invited:—

Age at entrance	Sum Insured.	Amount paid to the Office.	Bonus added to the sum assured in ten years.	Total amount now payable at the death of the Assured.
	£	£ s. d.	£ s. d.	£ s. d.
15	1000	165 16 8	132 6 0	1,132 6 0
20	1000	186 13 4	137 12 0	1,137 12 0
25	1000	212 18 4	144 12 0	1,144 12 0
30	1000	243 15 0	147 10 0	1,147 10 0
35	1000	279 11 8	156 3 4	1,156 3 4
40	1000	324 11 8	168 10 0	1,168 10 0
45	1000	377 1 8	177 10 0	1,177 10 0

This Society is chiefly, but not exclusively, devoted to the Assurance of the Lives of members of the Wesleyan Methodist Societies, and of the hearers and friends of that connection. Assurances however, have been, and may be effected upon all assurable lives. Nothing need be said upon the propriety of persons assuring their lives for the benefit of their families and friends, when so many proofs are furnished by the experience of every day life. The advantages of a respectable Company, with a large Capital, and dividing handsome profits, are too obvious to need comment.

All necessary Blanks and Pamphlets and every information furnished gratis, by the Society's Agent or Medical Examiner.

R. S. BLACK, M.D., *Medical Examiner.*
M. G. BLACK, JR., *Agent.*

JAMES L. WOODILL,
CHEMIST & DRUGGIST,
 (Successor to DEWOLF & Co.)
CITY DRUG STORE,
 HALIFAX, N. S.

DEALER IN DRUGS, MEDICINES, PERFUMERY, SPICES,
 GARDEN AND AGRICULTURAL SEEDS,
 Wholesale and Retail.

JOHN BOWES,
BOOKBINDER

(IN ALL ITS VARIOUS BRANCHES)

Thankful for the support hitherto received in the above business, respectfully solicits a continuance of patronage from his friends in Town and Country. He begs to announce that he has now all the requisite materials and improvements to bind or re-bind books of any description in the best style.

Blank books of any quality, ruled and bound to required pattern. "London News," "Harper's," "Godey's," and all other Magazines or Papers, done up to suit the fancy of customers.

N. B.—Owing to the general belief that all Binders retain books needlessly, he undertakes that no work left at his Bindery or at E. G. FULLER's American Book Store, shall be on hand more than from 7 to 14 days.

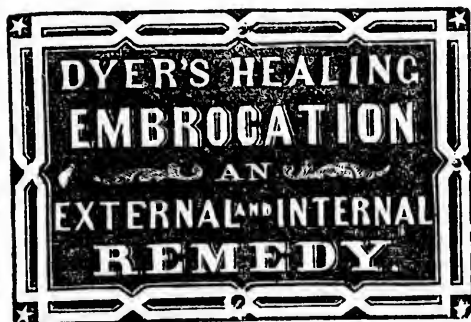

Please take *particular* notice that my Bindery is on the South Side of Hare's building, under Morning Journal Office, opposite MORRIS & COGSWELL's Drug Store, and immediately over BAIRD & Co's Grocery Store.

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp. It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color, be it black, brown, or auburn. It makes the Hair soft and glossy,—prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been colored for a week, you will find towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

Agents in Halifax, G. E. MORTON & CO.

It cures Rheumatism, Cuts, Wounds, Scalds, Bruises, Burns, Lumbago, Dysentery, Cholera Morbus, Neuralgia, Toothache, Headache, Pains in the Side, Back or Limbs, Sore Throat, Cramp, &c.

Physicians prescribe and recommend it with the most perfect confidence; and by the use of it thousands have been saved from an untimely death.

BELCHER'S MAP OF NOVA-SCOTIA,

Second Edition. Corrected to 1855.

FOR SALE AT ALL THE GIFT BOOK STORES.

With the lines of proposed RAILWAYS through the Province laid down, and also the Routes and Stations of TELEGRAPH LINE.

This is the largest and *only correct* Map published of the Province. It has been revised and corrected, and the new Counties and Townships formed since its first publication accurately laid down, together with the lines of proposed RAILWAYS through the Province, and the routes and stations of the TELEGRAPH LINE. And may be had, mounted on cloth and rollers, colored and varnished, for the Office, the Library or Hall, 22s. 6d. ; and on cloth, colored, in neat case, for the Pocket for Travelling, 18s. 9d. ; and on blue paper, same as a chart, 8s. 9d.

C. H. BELCHER, *Publisher.*

OPINIONS OF THE PRESS.

"We notice with much pleasure the appearance of a second Edition of BELCHER'S MAP OF NOVA-SCOTIA. This Map, originally compiled in 1834 by William McKay from actual surveys, has now been revised, and corrections down to the present year have been carefully introduced. We observe that the projected lines of Railway are marked out, and the routes and stations of the Telegraph Line are also indicated. A late Edition of a correct Map is one of the most desirable possessions. We bespeak, therefore, a speedy and extensive sale for Belcher's Map of Nova-Scotia."—PROVINCIAL WESLEYAN.

"BELCHER'S MAP OF NOVA-SCOTIA.—Good Office Maps of our own Province have, for some years past, been in great demand ; but we have not this want to complain of any longer, now that a second Edition of Belcher's excellent Map is in the market. This is a great improvement upon the old one. Errors which must have been all but unavoidable at the time the Map of 1834 was published, and which became more apparent as the interior of the country came to be better known have in this Map been, for the most part, carefully corrected. Not the least valuable of the many additions made, is the laying down of the several lines of Railway lately surveyed, and the courses of the Telegraph lines and the marking out of localities where the Telegraph offices are situated. The corrections and improvements reflect much credit on the draughtsman, and must have cost him no small amount of labor. The execution of the work is, in the highest degree, admirable."—ACADIAN RECORDER.

"BELCHER'S MAP OF NOVA-SCOTIA.—A second edition of which has just been published, is a work that should be in every house in the Province. Besides being correct, it is on a much larger scale than any other Map of the same kind, being 5 feet 2 inches by 2 feet ; and as set forth in the advertisement which appears in another column, it has been revised and corrected, and the new Counties and Townships, formed since its first publication, accurately laid down, together with the proposed Railways through the Province, and the routes and stations of the Telegraph line."—BRITISH COLONIST.

"BELCHER'S MAP OF NOVA-SCOTIA.—A copy of the second edition of this very superior Map, corrected to October, 1855, has been received. At the present important epoch in our Province, when even the most skeptical cannot fail to be convinced that this country is turning the corner beyond which lies the fair way of Provincial prosperity, such a reference as the one before us is invaluable. In addition to the boundaries, &c. of the several Counties of Nova-Scotia proper, and the routes of the Railway already projected, it includes the Island of Cape Breton and the proposed improvements in that interesting locality, all of which have been compiled from the most careful surveys and the latest arrangements. No person interested in the country who can afford the cost should be without a copy."—MORNING CHRONICLE.

PRINTING ESTABLISHMENT.

THE SUBSCRIBERS have great pleasure in being able to announce that they have largely increased their facilities for

BOOK AND JOB PRINTING.

They have added extensively to their stock of Book Types—for the purpose of enabling them to execute any orders for large editions of

PAMPHLET WORK.

Their means for publishing Reports, Catalogues, or other publications requiring type for lists, Tabular Work, &c., are not surpassed in the Provinces. They use Adams' Hand Press, as well as his celebrated Steam Power Book Press.

FOR ALL DESCRIPTIONS OF JOB WORK

They take particular care in selecting the latest Styles of Types, Borderings, and Ornaments, from the English & American Foundries.

BLANK FORMS, for the Army or Navy—for Banking or other Companies—for Merchants, Lawyers, and Magistrates,—SMALL CATALOGUES, HANDBILLS, BILL HEADINGS LABELS, &c. are very rapidly and beautifully thrown off by these presses. To give Bill Heads and other forms a neat appearance, they have in use one of HATHEWAY'S RULING MACHINES.

CARDS

May be had *one hour after being ordered*, white or colored, from 6s. 3d. per thousand upwards.
