 king! and Lord of ... lords! King of king! and Lord of ...

A musical score for organ or piano, consisting of three staves of music. The top two staves are soprano voices, and the bottom staff is bass. The music is in common time, with a key signature of one sharp (F#). The lyrics are repeated in four-line stanzas, starting with "lords, and he shall reign for ev - er and ev - .". The music features a mix of quarter notes, eighth notes, sixteenth notes, and sixteenth-note chords. The bass staff provides harmonic support with sustained notes and chords. The score concludes with a final section where the soprano voices sing "Hallelujah!" in unison.

The score consists of six staves of music. The first two staves are soprano voices, the next two alto voices, and the last two bass voices. The lyrics are in Italian, alternating between 'Thee, O Lord, we cry' and 'To Thee, O Lord, we cry'. The music features a mix of eighth and sixteenth note patterns, with some rests and dynamic markings like 'f' (fortissimo) and 'p' (pianissimo). The key signature is A major (no sharps or flats), and the time signature appears to be common time.

We deal in none but first-class instruments, and guarantee

A FEW REASONS WHY
WEBER PIANOS
ARE THE BEST,
And are Endorsed by all the Great Musicians.

AMERICA, in the pioneer epoch of her industry, worshipped force and magnitude.

The great American manufacturers had clutched all the laurels that were accessible to mechanical ingenuity. Their instruments were everywhere justly praised for their largeness of tone, volume and duration of sound.

It now remained for somebody to add the sympathetic quality.

This **WEBER** set himself to do.

The time had come when, with culture and taste expanded and ripened, we began to perceive that, in the domain of Art particularly, feeling, sincerity and sympathy were of far more account than vehemence, loudness and immensity.

With this came a change in the fabrication of musical instruments. Art and Musical Taste must lend its spirit to iron and steel.

According to the world's judges at Philadelphia, that has been done!

The Weber Piano, in the words of the jury, effects the alliance of Sensibility, Sympathy and Power.

To Weber alone, among the forty exhibitors, is awarded the highest honor for an instrument combining "Sympathetic, pure and rich tone, with greatest power."

This opens a new era—the era of feeling, based upon strength; the era of the **WEBER PIANO**—an instrument with a soul in it.

Is it strange, then, that all the musicians turn to the Weber Piano? They know that the manufacturer of the Weber Piano is an educated musician, who can understand the musician's smallest wish; and, as a mechanic, he knows how to execute it, having made every part of the instrument hundreds of times with his own hands, as apprentice, journeyman, and employer; in fact, he is termed the "Great Working Piano Maker."

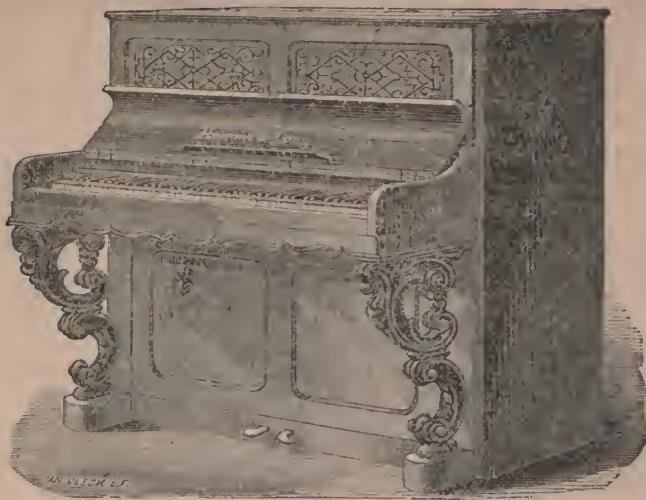

Thus may be summed up a few of the reasons why the Weber Pianos are better than those of other makers, viz: AMPLE CAPITAL, allied to the BEST MUSICAL and MECHANICAL SKILL, EARNESTNESS or PURPOSE, coupled with UNTIRING INDUSTRY and PERSEVERANCE, and the ambition to make The Best Piano which it is possible to make; and, while other makers seek for popularity, the manufacturer of the **WEBER PIANO** is aiming at **PERFECTION**.

Notwithstanding the Great Superiority of the Weber Pianos, they are sold
as low as those of other good makers, and the Installment

Terms are made very easy.

PATRONIZE HOME INDUSTRY.

Having engaged extensively in the manufacture of the

Hemme & Long Upright Pianos,

We invite the attention of all to the class of work we are producing.

We use only *first-class material*, and that which is best calculated to resist the influence of this climate. By manufacturing the Pianos *here*, we are enabled, as producers, to make the *best class of work*, and sell at the *lowest prices*, making a saving to the purchaser of from \$150 to \$200 on each Piano.

As certain unscrupulous parties are misrepresenting these Pianos, by asserting that "they are cheap Pianos imported from the East, and the name of Hemme & Long added after their arrival here," we invite all interested in the industries of this Coast to visit our Factory in person, and examine the whole process of their manufacture, as we are *confident* it will bear the most *critical scrutiny*.

SUCCESS.

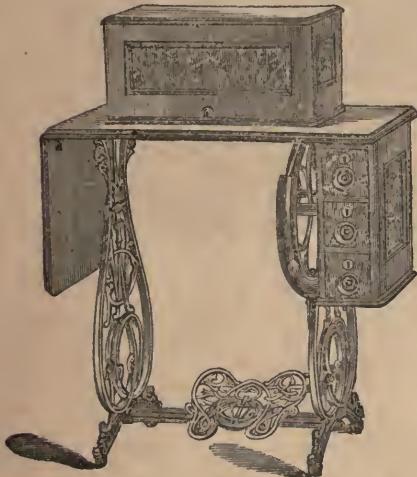

Unquestionably the Greatest Success of the Day! Enthusiasm of Purchasers unbounded! A complete Revolution in Sewing Machines! Makes the only Real Lock-Stitch! Nothing Like it in the World!

The above sentences very imperfectly convey to the reader the real facts concerning the wonderful machine known as the new

Automatic Silent Sewing Machine

— OF THE —

WILLCOX & GIBBS S. M. CO.,

WHICH was placed on the market August, 1875, and has been subjected, since that time, to every conceivable test under every possible circumstance, with the unparalleled result, that of the thousands sold, not one has been returned or exchanged for another make, and not a single complaint has been made from purchasers to its disadvantage. Every one is delighted and testifies that the machine does all and more than all it claims.

Persons without any previous instruction can sit down and *instantly* sew seams of the greatest beauty and unquestioned durability. It is impossible for the seam made by this machine to rip or ravel unless deliberately unlocked. An accidental fracture, or the deliberate cutting of the stitches will not make the seam give. Indeed, it will defy all efforts to unravel it, unless first *carefully unlocked*.

No other machine in the world has this quality. The beautiful and complicated lock-stitch machines, so called, of the now old and exploded styles, appear as miserable, clumsy expedients when contrasted with it; and the seam made by them is insecurity itself in comparison with that made by the now celebrated "AUTOMATIC," which (the public will mark this point) makes the only

True lock-stitch Seam in the world.

In addition to this great advantage, the operator has

No Tension to Manage. No guessing for length of Stitch. No Bobbins to wind. No Shuttles to prepare. No preparatory experiments to make.

Any person can sit down and do the most beautiful work *right off*, with ease and pleasure. The machine is absolutely noiseless, and so light running that the most delicate can work upon it without weariness or injury. The public are invited to examine this last and greatest invention in Sewing Machines; or, if they are at a distance from any agency, to write by postal card to the head office for full descriptive catalogue and list of offices, prices, etc.

WILLCOX & GIBBS S. M. CO., 124 POST STREET, SAN FRANCISCO.

The "AUTOMATIC" has received the highest awards and premiums from the American Institute, the Franklin Institute of Pennsylvania, and the Centennial Exposition; also, from State and County Fairs, wherever exhibited.

* Applications from merchants, dealers, and parties wishing agencies, should state quantity of machines they will purchase first order, and territory desired. While we are prepared to deal liberally with agents and dealers, we do not pretend to compete in rates with some companies, but guarantee our machine to be of the highest standard in finish and make, possessing more real merit than any other in market.

STEINWAY'S TRIUMPH!

CAUTION! One New York Piano-Maker having not only published the judges signatures to an altered report, but also dishonestly advertised that he had received an average of 95 out of a possible 96, the Examining judges flatly contradicted him, and certify that he reached an average of 90 3-4 only ranking but THIRD on Square, and FOURTH on Parlor Grands.

Messrs STEINWAY & SONS:

Gentlemen:—Permit me to thank you for the magnificent Upright Piano which you kindly placed at my disposal during my brief sojourn in New York, and I can only repeat what I have so often expressed verbally—that during my long career as an Artist and Composer, I have met with many fine European and American Piano-Fortes, but none that combine grandeur and poetry of tone, elasticity of touch, in short, every thing that renders a Piano perfect, to such a high degree as your celebrated Piano-Fortes.

Very truly yours,

CHICKERING & SONS,

Desire to call especial attention to their New Scales, in

U P R I G H T P I A N O S.

The "New Scale" introduced about two years since by Chickering & Sons, is conceded to be the "home instrument" of the future. The most distinguishing points of this New Upright are the action, with its graduating pedal, which enables the player to graduate the amount of tone and weight of touch precisely to suit his pleasure; and the Grand Piano quality of tone which the scale possesses. Especial attention is also directed to their

NEW PARLOR GRAND,

Just introduced, and considered by the best musical authority to be a remarkable instrument. This Piano is offered to the most critical portion of the musical public, with every assurance that it not only maintains, but adds to the high reputation of the Chickering Grands. To those who contemplate buying, we can assure that "The best is the cheapest;" and remember, a Piano is usually a purchase of a life-time; therefore, great care should be used in its selection.

A F E W F A C T S.

The impossibility of judging critically of the durability of a Piano until the instrument is tested by use, induces unscrupulous makers to employ the cheapest of material and workmanship, without any regard to the durable qualities of the instrument. This is done in order to tempt the public by an apparently low price; whereas, the profit on this class of Pianos is larger by fifty per cent. than on a well-made instrument, sold at such prices as we maintain. It is very poor economy (excluding the question of poor tone) to purchase Pianos that, from their price, are seemingly cheap. In a very short time such instruments will surely become worthless; and in this connection we wish to state in the most emphatic manner that we do not pretend to compete with dealers in BOGUS PIANOS; nor can we allow the enormous commissions given by such dealers,—the purchaser will receive the benefit of that. Whilst respectfully directing the attention of the musical public to the matter contained in the above, we may be pardoned in giving expression to our satisfaction at being able to say, that the

CHICKERING PIANOS

Still maintain their distinguished place as the *very best*; that they are *legitimately* the Standard Pianos of the world. Every Piano fully guaranteed. An elegant stock of Grands, Squares and Uprights can be seen at their new ware-rooms, No. 31 Post Street, Mechanics' Building.
