QUICK ACTION SAVES A. JOHNSON FROM

The quick action of Tony Kuchaiski, superintendent of the city incinerator, saved the life of A. Johnson yesterday, when Johnson, who was unloading garbage into the incinerator, lost his balance and fell into the incinerator.

Luckily for Johnson, the incinerator was not going full blast, for at that time the heat reaches 1,800 deg. Fahrenheit. Johnson was burned, but not seriously.

The accident recalls the time some years ago when another man fell into the incinerator and was completely consumed.

WHERE'S YOUR HEART?

HUNDREDS of poor unfortunates in this city need your care; crippled children, waifs, the sick, the blind, the destitute—your neighbors—members of the Duluth Community Family. Hitherto these were sheltered and cared for by the twenty-three Duluth charitable organizations. They are now members of an UNDER-SUBSCRIBED Community Fund, bound not to solicit needed expenses for a year.

Your Problems:

Family of eight children. Father died of tuberculosis. Five children died few years later. Three other children; girl 5, girl 10, and boy 12. Mother infected with tuberculosis. Tries to take in washing, but weakened condition forbids. Girl 10 is now in bad shape, needs constant medical attention. Family given food, fuel, and medical attention by one of these twenty-three organizations until mother is well enough to again support family.

Three chidren; boy 14, girl 10, boy 12. Family very poor. Father unable to work because of sickness. Mother unable to earn money. Boy 12 troubled with bad eyes, could not see in sunshine or bright light. Case came to attention of one of these twenty-three organizations; boy's eyes were examined, given treatment, eyes cured. Boy now able to see well. Good student, progressing rapidly in school.

HAT have you done to help? Can it be that you did not understand the purpose of this Community Fund? That you gave it too little thought? That you were not called on—or persuaded—by a solicitor? That you have been out of town? If so-think! Then bestir yourself. Consult your conscience.

McClearn Expects Heavy COLORATURA SOPRANO Shortage Bound to Exist.

From present indications Duluth and the Head of the Lakes will receive slightly more than one-third. or 40 per cent of the hard coal quota needed for distribution throughout the Northwes _

This is the conclution reached by Hugh J. McClearn, chairman of the mayor's fuel committee following rece pt of a telegra from C E. Spens, Pederal fuel administrator, Indicating the maximum amount of shipments to be expected from now on until the close of navigation early

"We should receive __ oximately 600,000 tons of hard ce altogether this year, with the expected rush coming in during the last days of navigation' sold Mr McClearn, "This will be about one-third of 1 st year's total shipments, which ran past the 1,800,000 mark for the sesson."

Instant Quaker Oats

No Other Oats Cook so quickly as these

Now there's an Instant Quaker Oats - the quickest-cooking oats in the world. Your grocer has it as well as the regular. Instant Quaker cooks in 3 to 5 minutes, and cooks to perfection. No other style of oat flakes cooks nearly so quickly as that.

Now two things you want

Now Quaker Oats offer you two things you want.

They offer a flavor which has won the world. Quaker Oats dominate wherever oat lovers live. Never was an oat dish made so delicious. That's because we use queen grains only—just the rich, plump, flavory oats. All puny grains are discarded. We get but ten pounds of these luscious flakes from a bushel. Now Instant Quaker offers that same super-quality, almost ready to eat. It is flaked from the same grains, but the oats are cut before flaking. They are rolled very thin and are partly

Frocks for Formal Affairs

The joy of the evening is the new gown that graces the fair wearer and enhances her every beauty and charm.

But all the ple - of the new gown does not lie in the wearing of it, for when it is selected here, the buying is a joy and delight. The most fashion-favored styles in a wealth of variety, deft touches of daring originality, rich combinations of pleasing colors, all these combine to make the frocks that are found here appealing to feminine buvers. And when is added the most courteous of attention to all who call, and prices that have no penalty added for extra style, it is no wonder that our dress section is a pleasant place to shop in party season.

Here are Chilion Velvets and brocaded Chiffon Velvets in sapphire blue and shades that are newly lovely; here are Chiffons and Georgettes, and Chenille Velvets, and Silver Cloths lined with colors, to say nothing of delicately shaded Taffetas for younger wearers. And here are the new touches of styles in basque top and flaring skirt, or twisted girdle and beaded design.

We will be delighted to have you come in to enjoy these party frocks, whether you buy or not.

Ross Hill, director of its Near East rel'ef operations. The cable, graphically telling of conditions in the refugee camps, declared the fate of 1,000,000 Christians "driven into the sea by the Turks," hangs largely on the "quick charity of America." Dr. Hill also cabled the thanks of King George of Greece, who asked the Red Cross to thank its workers and the American people on behalf of his subjects for the aid extended. "Hundreds of thousands of refugees arc filling the Greek citles and isiands," the cable reported. If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness. Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restora. tive, relieving the present distress and preventing more serious trouble.

Closed Bodies Built by Hupmobile

Everything about this Hupmobile Coupe adds to the sense of comfort, security, and dignity of the passengers.

We believe that no other closed car, at any price, is better built.

Hupmobile closed bodies are constructed in Hupmobile's own shops.

They share in the same skillful engineering, the same substantial, conscientious workmanship,

that makes the Hupmobile chassis the splendid performer it is.

And, as the Hupmobile chassis is really a fine car chassis at a lower price, so Hupmobile bodies partake of all the elements which make real closed car luxury and beauty.

We will consider it a favor to demonstrate the closed model in which you are most interested. 'Phone today.

Even in the minds of the most pes- simistic the questron was one of in- side and not outside conditions. There was no pretense that intrent trade news was disappointing or that the decline of the last three weeks on the stock exchange foreshadowed a change for the worse in the business situation. One of the most helpful occurrences of the day was a very rapid recevery in French government bonds, the extreme weakness in which had been very unsettling in the nurkets of the previous days. Both the 71's and the sk, representing the external dollar loans, rose over 2 points, and other foreign government bonds were

I cople who had been caught in the slump in slocks were compared to sell but bond as a measure of self-protection. The more argent of the liquidation in the market being over, the selling pressure was lifted from the bond list. The action of the rathress was sure of the action of the rathress.

The fact that the railroad stock were less disposed to rally at any stage of the day than were the industrials, was ignificant. Wall Street does not believe that any radical measures can be put through at ha i until the assembling of the Sixterighth congress, but it does take into account the uncertain possibilities in a market sense of the railway quistion being actively exploited with a lot of radical proposals during the next thee months.
