LAWS

I hereby promulgate the Law for Construction of Ashiya International Cultural and Residence City Based on the Provisions of Article 95 of the Constitution of Japan.

Signed: HIROHITO, Seal of the Emperor

This third day of the third month of the twenty-sixth year of Showa (March 3, 1951)

Prime Minister
YOSHIDA Shigeru

Law No. 8

Law for Construction of Ashiya International Cultural and Residence City

(Purpose)

Article 1. The purpose of this Law is to construct Ashiya as an international cultural and residence city, in view of the fact that the city of Ashiya has a favorable environment from the viewpoint of the international culture and possesses a location suitable for the construction of such a city, in such a manner as it may be also fitted, as an international cultural residence city, for the dwelling of foreign nationals, with a view to inducing influx of foreign tourists and furthermore to providing such tourists with the place to settle down; to contributing to the utilization and development of the culture and sightseeing resources of our country; and ultimately thereby to attaining the elevation of the international culture as well as the economic rehabilitation of our nation.

(Planning and Enterprise)

Article 2. The city planning for the construction of the International Cultural and Residence City of Ashiya (hereinafter referred to as the "Ashiya International Cultural and Residence City Construction Planning") shall include the planning to provide various facilities suitable for an international cultural and residence city, in addition to the city planning as provided for in Article 1 of the City Planning Law (Law No. 36 of 1919).

2 The enterprise to construct the International Cultural and Residence City of Ashiya (hereinafter referred to as the "Ashiya International Cultural and Residence City Construction Enterprise") shall execute the Ashiya International Cultural and Residence City Construction Planning.

(Execution of the Enterprise)

Article 3. The Mayor of the city of Ashiya shall execute the Ashiya International Cultural and Residence City Construction Enterprise.

2 The Mayor of the city of Ashiya shall make constant activity living up to the spirit of local autonomy for completing the Ashiya International Cultural and Residence City with cooperation of its inhabitants and aid of various organs concerned.

(Aid to the Enterprise)

Article 4. The organs concerned of the State and the local public entities, in view of the importance of the purpose, mentioned in Article 1, of the Ashiya International Cultural and Residence City Construction Enterprise, render every possible aid to furtherance and completion of the enterprise.

(Special Subvention)

Article 5. When it is deemed necessary for the use of the Ashiya International Cultural and Residence City Construction Enterprise, the state may transfer the common property, regardless of the provisions of Article 28 of the National Property Law (Law No. 73 of 1948) to the public entity which shall bear the expenses necessary for execution of the enterprise.

(Report)

Article 6. The executor of Ashiya International Cultural and Residence City Construction Enterprise shall make efforts to expedite the completion of the enterprise and shall submit the report on its progress to the Minister of Construction every six months.

2 The Prime Minister shall report to the Diet once every year on the state of construction of the Ashiya International Cultural and Residence City Construction Enterprise.

(Application of Law)

Article 7. Unless otherwise provided for by this Law, the Special City Planning Law (Law No. 19 of 1946) and the City Planning Law shall be applicable to the Ashiya International Cultural and Residence City Construction Enterprise.

Supplementary Provisions:

1 This Law shall come into force as from the day of its promulgation.

2 The Ashiya Special City Planning Enterprise under execution at the time of enforcement of this Law shall be deemed to be the Ashiya International Cultural and Residence City Construction Enterprise.

3 This Law shall be referred to the plebiscite of the inhabitants of the city of Ashiya, in accordance with the provisions of Article 95 of the Constitution of Japan.

CHAPTER I General Provision

(Purpose)

Article 1. As regards the hearing conducted by the Radio Regulatory Commission in accordance with the provision of Article 83 of the Radio Law (hereinafter simply referred to as the Law), it shall be in accordance with what are provided for in these Regulations in addition to those prescribed in the Law.

CHAPTER II Commencement of Hearing

(Notice of Opening Hearing)

Article 2. The presiding examiner (the examiner to preside over the hearing; hereinafter the same) shall deliver to the parties interested the notice of opening of the hearing, with the outline of the case and the date and place of the hearing stated therein, together with the summons.

2 When the notice of opening of the hearing is issued, the presiding examiner shall publish the outline of the case, date and place of the hearing, name of the examiner and procedures to participate in the hearing at least ten days prior to the opening of the hearing.

3 The presiding examiner may change the date and place of the hearing, if he deems necessary.

4 In the case of the preceding paragraph, the presiding examiner shall notify the persons to attend the hearing of the changed date and place and make public the same.

(Rejection of Request for Participation, etc.)

Article 3. When the document mentioned in Article 89 of the Law is presented, two extra copies thereof are required to be attached.

2 The presiding examiner will reject the application made in accordance with Article 89 of the Law, if he deems that the application has no connection with the case.

(Presentation of Written Complaint)

Article 4. In the written complaint (written application made in accordance with the provision of Article 84 paragraph 2 of the Law; hereinafter the same) shall be stated the following matters and it must be signed and sealed by the complainant:

(1) Name (trade name or title, in the case of a juridical person) and address (location of head office or principal office, in the case of a juridical person) of the complainant;

(2) Time when the complainant incurred the disposition; and contents of the disposition;

(3) Reason for the complaint established for the disposition.

2 The person who wishes to lodge complaint shall present to the Radio Regulatory Commission a written complaint, together with two copies thereof and three copies of the document of the disposition.

In this case, adequate references such as papers, records and other materials may be attached.

(Incompleteness of Written Complaint)

Article 5. The Radio Regulatory Commission will order the complainant (person who lodged the complaint; hereinafter the same) to correct the incompleteness of the written complaint, if any, within the fixed period.

2 The Radio Regulatory commission will reject the complaint, if the complainant does not correct the incompleteness of his written complaint within the period mentioned in the preceding paragraph.

(Application for Hearing)

Article 6. A person who may have any interest in the establishment, amendment or abolition of Radio Regulatory Commission Regulations or other matters may request the Radio Regulatory Commission to hold a hearing on the matters he is interested in.

2 In the case of the preceding paragraph, if the Radio Regulatory Commission deems it unnecessary to hold a hearing, it shall notify so the person who requested the hearing.

CHAPTER III Examiner

(Nomination of Examiner)

Article 7. In case the Radio Regulatory Commission holds a hearing, it shall nominate the presiding examiner. In this case, if it deems necessary, it may also nominate an examiner to assist the presiding examiner.

2 The presiding examiner may let his assistant examiner take his place in the examination, if he is prevented from doing his duties.

(Exercise of Duties)

Article 8. The examiner must not be instructed by any other person; he shall perform his duties in conformity to his conscience and based on laws and regulations.

(Cause of Rejection)

Article 9. In any of the following cases, the examiner will be rejected to exercise his duties:

(1) Where he is or was the party interested or its proxy;

(2) Where he is or was a relative of the parties interested;

(3) Where he is the guardian, supervisory guardian or advisor of the parties interested;

(4) Where he is officially connected with the dispositions for the case (Commissioners mentioned in the proviso to Article 87 of the Law shall be excluded);

(5) Where he has become a witness of the case.

(Application for Challenge)

Article 10. The parties interested may challenge the examiner in case there is any circumstance that the examiner may hamper the fairness of the examination. The application for challenge shall be made in writing or verbally to the Radio Regulatory Commission with the reason clarified.

2 The Radio Regulatory Commission shall make investigations immediately on receipt of such application as mentioned in the preceding paragraph.

(Acceptance and Rejection of Application for Challenge)

Article 11. In case the Radio Regulatory Commission deems that the application for the challenge has proper reason, as the result of the investigations made in accordance with the preceding Article, it shall cancel the nomination of the examiner and nominate a new examiner to supersede the former.

2 The Radio Regulatory Commission will reject the application for challenge, if it deems that the application has been made solely for the purpose of delaying the examination or that there is no other just reason.

(Suspension of Examination due to Application for Challenge)

Article 12. The examiner must suspend the examination of the case when the application mentioned in Article 10 is raised against himself. However, this shall not apply to the action requiring urgency.

(Evasion of Examiner)

Article 13. In the case of Articles 9 and 10, the examiner may, with the permission of the Radio Regulatory Commission, evade his duties.

2 In case the Radio Regulatory Commission gave the permission mentioned in the preceding paragraph, it shall cancel the nomination of the examiner and nominate a new examiner to supersede the former.

(Cancellation of Nomination)

Article 14. In case the examiner, after the nomination made in accordance with the provision of Article 7, is dead or has become unable to hold the hearing due to his mental or physical defects or by other causes, the Radio Regulatory Commission shall, without delay, cancel his nomination and nominate a new examiner to supersede the former.

CHAPTER IV Procedures of Examination

(Notice of Appointment or Dismissal of Proxy)

Article 15. The parties interested (parties interested who can present themselves at the hearing; hereinafter the same) shall, on the appointment of proxy, notify in writing the presiding examiner of the address, name and occupation of the proxy. The same formalities shall be followed for the dismissal thereof.

(Attendance of Chairman, Commissioner and Official of Radio Regulatory Commission)

Article 16. The Chairman and Commissioners of the Radio Regulatory Commission may attend the hearing and the preparatory meeting thereof.

2 The Radio Regulatory Commission may let its officials Commission attend the hearing to state their opinions on the case.

3 The officials mentioned in the preceding paragraph will be nominated by the Radio Regulatory Commission each time it is required.

(Preparatory Documents)

Article 17. If the presiding examiner deems necessary for the efficient performance of the examination, he may require the parties interested and the Radio Regulatory Commission to submit preparatory documents.

2 In the preparatory documents, there shall be stated the following matters, and they shall be signed and sealed by the parties interested or the Radio Regulatory Commission:

(1) Name (trade name or title, in the case of a juridical person) and address (location of head office or principal office, in the case of a juridical person) of the person who submits the preparatory documents;

(2) Address, name and occupation of the proxy;

(3) Gist of statement to be made at the time of hearing.

3 Materials of those quoted in the preparatory documents must be attached to each copy of the preparatory documents as annexed papers.

(Delivery of Preparatory Documents)

Article 18. The presiding examiner shall, without delay, deliver the preparatory documents to the parties interested or the Radio Regulatory Commission.

(Effect of Preparatory Documents in the Case of Absence at Hearing)

Article 19. In case the person who submitted the preparatory documents prescribed in Article 17 does not present himself at the hearing, the presiding examiner may take the contents stated in such documents as the statement made at the hearing.

2 In case the presiding examiner has taken the contents stated in the preparatory documents as the statement made in accordance with the preceding paragraph, such contents must be stated in the record.

(Preparatory Meeting to Hearing)

Article 20. The presiding examiner may hold a preparatory meeting to the hearing by convening the parties interested and the Radio Regulatory Commission, before the conduct of hearing, for clarifying the point of controversial issue and for making preparations for their proofs.

2 The presiding examiner shall record the progress and results of the meeting prescribed in the preceding paragraph.

(Maintenance of Order)

Article 21. The presiding examiner is obligated to maintain order at the hearing.

2 The presiding examiner may order the audience out, if it is deemed necessary for the progress of examination or maintenance of order at the hearing.

(Permission for Speech)

Article 22. In case a person present at the hearing wishes to speak, he shall obtain the permission of the presiding examiner.

(Limitation on Time for Statement)

Article 23. If it is necessary for the progress of examination, the presiding examiner may limit the length of time for the statement of a person present at the hearing.

(Scope of Statement)

Article 24. The statement by a person present at the hearing must not exceed the scope of the case.

2 The parties interested or Radio Regulatory Commission who has presented the preparatory documents are not permitted to make statements other than those stated in such preparatory documents at the time of examination. However, this shall not apply to the following cases:

(1) Where statement is to be made against the statement made by other parties interested or the Radio Regulatory Commission;

(2) Where statement is to be made in reply to the inquiry;

(3) Where statement is to be made with the permission of the presiding examiner.

3 The presiding examiner may stop the statement of a person present at the hearing, when his statement exceeds the scope mentioned in the preceding two paragraphs.

(Claim not to Contend with)

Article 25. In case the parties interested or the Radio Regulatory Commission were not present at the hearing without proper reason on the fixed date, or, even if present, did not apparently contend about the facts claimed by the other parties, the presiding examiner may deem that the former acknowledged the facts claimed by the latter.

(Actions to be Taken by Presiding Examiner at End of Hearing)

Article 26. At the hearing to be held in the cases as mentioned in Article 83 paragraph 1 items (2) and (3) of the Law, the presiding examiner shall give the parties interested and the Radio Regulatory Commission a chance to make the final statement before the hearing is ended.

(Matters to be Stated in Record)

Article 27. In the record to be prepared at the hearing, the following matters shall be stated and the record must be signed and sealed by the presiding examiner, assistant examiner and officials engaged in the business of the hearing:

(1) Title of the case;

(2) Date and place of hearing;

(3) Names of presiding examiner and assistant examiner;

(4) Addresses and names of those present at the hearing and of the parties interested who did not present themselves;

(5) Gist of statement;

(6) Results of examination of evidences and of inquiries of witnesses;

(7) Other matters for information.

(Documents to be Attached to Record)

Article 28. Letters, drawings, photographs and other things the presiding examiner may deem appropriate may be attached to form parts of the record.

(Matters to be Stated in Recommendation)

Article 29. In the written recommendation, the following matters shall be stated and it must be signed and scaled by the presiding examiner and assistant examiner:

(1) Opinions;

(2) Facts and points of controversial issue;

(3) Reasons.

2 Opinion of an assistant examiner which is different from those mentioned in item (1) may be attached to the recommendation mentioned in the preceding paragraph.

(Withdrawal of Complaint)

Article 30. The complaint may withdraw the whole or part of his complaint by the time when any decision on the case is made by the Radio Regulatory Commission.

2 The withdrawal of the complaint prescribed in the preceding paragraph shall be applied for in writing to the Radio Regulatory Commission. The withdrawn part of complaint will be deemed as not having been presented to the hearing from the beginning.

CHAPTER V Evidences and Witnesses

(Production of Evidences)

Article 31. The parties interested or the Radio Regulatory Commission may produce the evidences to the presiding examiner.

(Rejection of Evidences Produced)

Article 32. The presiding examiner may reject the evidences produced too late intentionally or by serious mistake, if he deems that the investigation thereof may cause delay in the progress of the examination.

(Application for Examination of Evidences)

Article 33. The parties interested or the Radio Regulatory Commission may apply to the presiding examiner for the examination of evidences. Such application must be made verbally or in writing by clarifying the following matters:

(1) Indication of evidences;

(2) Place where evidences are;

(3) Facts intended to be proved.

(Rejection of Application for Examination of Evidences)

Article 34. The presiding examiner may reject the application for the examination of evidences, in case it does not comply with the provision of the preceding Article or is deemed unnecessary.

(Ex-officio Examination of Evidences)

Article 35. The presiding examiner may, ex officio, examine evidences as deemed necessary. However, as regards the results of examination of such evidences, the parties interested or the Radio Regulatory Commission must be consulted.

(Application for Summons of Witness)

Article 36. The parties interested or the Radio Regulatory Commission may request the presiding examiner to summon witnesses.

(Rejection of Application for Summons of Witness)

Article 37. The presiding examiner may reject the application for summons of witness made too late intentionally or by serious mistake, if he deems that such summons may cause delay in the progress of the examination.

(Writ of Summons to Witness)

Article 38. The presiding examiner shall summon the witness with a writ of summons containing the following matters, in case he requires the presence of the witness:

(1) Address, name and occupation of the person nominated as the witness;

(2) Date and place requiring his presence;

(3) Matters requiring his statement;

(4) Other matters as deemed necessary.

(Oath-taking of Witness)

Article 39. When the statement of a witness is to be requested, an oath must be administered in advance. However, this shall not apply to the person to whom the presiding examiner deems it inadequate to administer an oath.

2 The oath-taking shall be made by the witness by reading the written oath and by signing and sealing thereon. In the written oath, there must be contained statement to the effect that the witness takes his oath that he will tell the truth according to the dictates of his conscience and that nothing will be concealed nor added.

3 If the statement was requested without oath-taking, such fact must be written in the record.

(Affidavit)

Article 40. The presiding examiner may request the witness to present an affidavit instead of his statement. In this case, the request shall be made in writing with the following matters stated therein. However, if the presiding examiner deems necessary concerning the affidavit presented, he may summon the witness:

(1) Address, name and occupation of the witness requested to present the affidavit;

(2) Date and place for presentation of the affidavit;

(3) Matters requiring the statement by affidavit;

(4) Other matters as deemed necessary.

(Order of Inquiry of Witness)

Article 41. The inquiry of the witness will be made first by the person who has applied for the summons of the witness; after this inquiry, other parties interested or the Radio Regulatory Commission will follow.

2 After the inquiry mentioned in paragraph 1 is over, the presiding examiner will inquire of the witness.

3 The presiding examiner may, if he deems necessary, make inquiry of his own accord any time or allow the parties interested or the Radio Regulatory Commission to make inquiry.

4 The presiding examiner may limit the inquiry by the parties interested or the Radio Regulatory Commission, in case such inquiry duplicates those already made, or it concerns matters having no connection with the controversial issue, or it is deemed necessary in particular.

5 The assistant examiner may, after notifying the presiding examiner, inquire of the witness.

CHAPTER VI Decision

(Matters to be Stated in Written Decision)

Article 42. The document mentioned in Article 94 paragraph 2 of the Law (hereinafter to be referred to as the "written decision") must have the following matters stated therein, and must be signed and sealed by the Chairman of the Radio Regulatory Commission and the Commissioners who participated in the decision:

(1) Main text;

(2) Facts and controversial points;

(3) Reasons.

2 In the written decision mentioned in the preceding paragraph, the opinion of minority of the Commissioners may be added.

(Delivery of Written Decision)

Article 43. The original of the written decision shall be retained by the Radio Regulatory Commission; the authorized copies thereof shall be delivered to the parties interested.

CHAPTER VII Miscellaneous Provision

Article 44. In case the proviso to Article 87 of the Law is applied, the "examiner", "presiding examiner" or "examiner assisting the presiding examiner" in these Regulations shall read as the "Commissioner", "presiding Commissioner" or

"Commissioner assisting the presiding Commissioner", according to the method of nomination made by the Radio Regulatory Commission.

Supplementary Provisions:

1 These Regulations shall come into force as from the day of their promulgation.

2 The Radio Regulatory Commission Hearing Procedure Regulations (Radio Regulatory Commission Regulations No. 9 of 1950) shall be abrogated.

Ministry of Transportation Notification No. 36

March 3, 1951

In accordance with Article 10 of the General Regulations of the Transportation Council (Ministry of Transportation Ordinance No. 75 of 1949), Notification on the decision of the Transportation Council is hereby given as follows:

Minister of Transportation
YAMAZAKI Takeshi

Franchise for laying down a private railway between Oiwake and Shimosha applied for by Oyama Sight-Seeing Co., Ltd. and four other applications

With regard to the above subject which had been submitted to the Transportation Council for deliberation, the following report was received therefrom:

No. 5

February 13, 1951

Subject: Franchise for laying down a private railway between Oiwake and Shimosha applied for by Oyama Sight-Seeing Co., Ltd.

To: Mr. YAMAZAKI Takeshi, Minister of Transportation

From: Mr. KIMURA Takanori, Chairman of Transportation Council

Report

With regard to the application of Oyama Sight-Seeing Co., Ltd. for franchise for laying down a private railway between Oiwake and Shimosha which was referred to this Council by Tetsu-Kan No. 31 dated January 13, 1951, the following report is hereby given after due deliberation:

Text

The application of Oyama Sight-Seeing Co., Ltd. for laying down a private railway between Oiwake and Shimosha is judged as reasonable to be franchised.

Reason

Oyama Ropeway Co., Ltd. was once operating the line in this application basing upon the franchise, but has cancelled its traffic business and removed its equipments in accordance with the industrial adjustment up to date since the war time. However, Mt. Oyama is not only famous for its beautiful form and splendid view, but offers many mountaineers ideal hiking courses, together with the mountain range of Tanzawa in the rear. On the other hand, it is visited through the year by adherents of the Afuri Shrine located on it's summit.

In response to the earnest desire of the local people, Oyama Sight-Seeing Co., Ltd. has a plan to restore the line by repairing and improving the road-bed and remaining equipments of the former ropeway. The plan is deemed as to increase conveniences for these mountaineers and adherents, to induce foreign and domestic tourists and to make much contribution to development of the locality.

No. 6

February 13, 1951

Subject: Franchise for laying down a tramway between Kaigandori 1-chome and 7-chome, Kure City applied for by Kure City.

To: Mr. YAMAZAKI Takeshi, Minister of Transportation

From: Mr. KIMURA Takanori, Chairman of Transportation Council

Report

With regard to the application for franchise for laying down a tramway between Kaigan-dori 1-chome and 7-chome, Kure City which was referred to this Council by Tetsu-Kan No. 31 dated January 13, 1951, the following report is hereby given after due deliberation:

Text

The application for laying down a tramway between Kaigan-dori 1-chome and 7-chome, Kure City is judged as reasonable to be franchised.

Reason

The line in this application is a slight extension of the municipal electric tramway and has no serious obstacle in its construction. The section of the line to be prolonged is included in the non-war-damaged zone of Kure City and has a heavy traffic volume, because it is thickly populated and has the port of Kawaraishi, inport harbor for Kure, as well as the Central Market. Though, at present, there is J.N.R. bus service, it is deemed that conveniences for citizens can be remarkably increased by operation of municipal electric cars which are more in transportation capacity.

No. 7

February 13, 1951

Subject: Franchise for laying down a private railway between Tatsue and Ikihina applied for by Shikoku Central Railway Co., Ltd.

To: Mr. YAMAZAKI Takeshi, Minister of Transportation

From: Mr. KIMURA Takanori, Chairman of Transportation Council

Report

With regard to the application of Shikoku Central Railway Co., Ltd. for franchise for laying down a private railway between Tatsue and Ikihina which was referred to this Council by Tetsu-Kan No. 87 dated January 29, 1951, the following report is hereby given after due deliberation:

Text

The application of Shikoku Central Railway Co., Ltd. for laying down a private railway between Tatsue and Ikihina is judged as reasonable to be franchised.

Reason

The line in this application is to change partially the line between Nakada and Tanano of Shikoku Central Railway, for which franchise was given in November of 1946 and of which construction work was approved in October of 1947. The projected line in the early days was given an incidental order based upon the Road Width Program of Tokushima Prefecture when the approval for its construction work was given. But, if it is subject to the order, it must undergo such a difficult construction work as to cut a long tunnel on a precipitous cliff and, worse than all, be frequently threatened by fear of storms and floods. Apart from it, this project is made to change to a flat line which is easy to be constructed, with a curtailment of 2.7 k.m. in length. This railway is a part of the big program aiming

at connection with Tosa-Yamada in future, and the area along the line, though it is now unexplored, is an inexhaustible treasury of forestry products as well as a promising zone for development of electric power resource. Accordingly, Tokushima Prefecture is laying stress on the railway as a link of its synthetical exploitation. Because the original mission of this railway is not influenced at all by the change of route and, better than all, its construction work is expected to be accelerated, it is deemed as an adequate project.

No. 8

February 13, 1951

Subject: Partial suspension of railway service applied for by Sendai Railway Co., Ltd.
To: Mr. YAMAZAKI Takeshi, Minister of Transportation
From: Mr. KIMURA Takanori, Chairman of Transportation Council

Report

With regard to the application of Sendai Railway Co., Ltd. for suspension of railway service between Kita-Sendai and Kami-Nakaniida which was referred to this Council by Tetsu-Kan No. 87 dated January 29, 1951, the following report is hereby given after due deliberation:

Text

The application of Sendai Railway Co., Ltd. for suspension of railway service between Kita-Sendai and Kami-Nakaniida is judged as reasonable to be permitted.

Reason

Since the inauguration in 1922, the said railway company had been operating its business patronized by the Government subsidies. Despite the abolition of these subsidies after the end of the war, and the damages inflicted on the railway by the wind and flood disasters as many as seven times in succession, the company had managed to maintain its operation, ever intent upon its rehabilitation. But the flood damage on August 4 last year dealt such a deadly blow on the railway that it required about 14,000,000 *yen* for the recovery. Having already been indebted for 29,000,000 *yen*, the company has been in a fix to effect the recovery with its present financial condition. However, even though the company has succeeded in resurrection, the areas which this railway line passes through are in most cases far from the Riku-u national highway districts which are thickly populated. On top of it, this is a steam railway laid with 0.762-meter gauged rails and handicapped with many curves in track construction. With these disadvantages in view, it is considered hopeless to expect a favourable turn for the company's business result. Such being the case, the company contemplates a fundamental measure to meet the situation by suspending the transport operation between Kita Sendai and Kaminakaniida (40.5 km.), but maintaining the operation between Nakaniida and Kaminakaniida only.

The mayors of towns and villages along the railway support the project on the ground that the suspension is inevitable. The management of the company and the workers' union are reconciled to each other by the mediation rendered by the Miyagi Prefecture Regional Labor Relations Commission on December 29 last year. As the substitutes during the suspension, buses and trucks will be increased to fill the demand of the inhabitants in the areas concerned. By these abovementioned reasons, it is recognized that the suspension of traffic business on the line is inevitable.

No. 9

February 13, 1951

Subject: Transfer of the tramway between Front of Shinjuku Station and Ogikubo belonging to Seibu Railway Co., Ltd. to Tokyo-To
To: Mr. YAMAZAKI Takeshi, Minister of Transportation
From: Mr. KIMURA Takanori, Chairman of Transportation Council

Report

With regard to the application for permission for transferring the tramway between Front of Shinjuku Station and Ogikubo belonging to Seibu Railway Co., Ltd. to Tokyo-To which was referred to this Council by Tetsu-Kan No. 87 dated January 29, 1951, the following report is hereby given after due deliberation:

Text

The transfer of the tramway between Front of Shinjuku Station and Ogikubo belonging to Seibu Railway Co., Ltd. to Tokyo-To, is judged as reasonable to be permitted.

Reason

In accordance with the order under the provision of Article 2 of the Land Transportation Enterprise Adjustment Law, the business management of this tramway has been trusted to Tokyo-To by Seibu Railway Co., Ltd. up to date since December of 1942. To transfer it to Tokyo-To for managing it as the municipal electric tramway in fact as well as in name, is deemed as to give various interests and conveniences in repair and improvement works, to result in a favourable operation of it and to increase conveniences in the transportation of citizens.
