Agenda discussion:

This is second week of the project so, in this week we are mainly focused on the design of the solar car and calculations.

➤ Assignments:

We all of us discussed the calculation of M (diode factor) and also about graphical representation of voltage-current and voltage-power. Later we moved our discussion about the car design for the further calculations. Again we divided the work as for our WBC.

➤ Literature study:

We divide the work into graph analysis , designing and analytical calculations then we assign to the people based on WBC.

➤ Miscellany :

none

Future Meeting:

The next meeting will be on Thursday i.e. 27/02/2014 next week at 10:00 AM in Cafeteria.
