New
Bedford
Institute
of
Technology

To the Graduating Class of 1961:

Recognition takes many forms: a handclasp, a pat on the back, use of a proper name or title, a salary increase, an emblem, praise or many others. But various situations present unique opportunities for providing recognition to others, and these opportunities should be seized when they come, not chased when they are gone.

In brief: Others will like you to the extent that you accord them recognition.

I believe that if each of you in your daily work recognizes not only the good you are doing but in turn recognizes the good of others, whether they be your superiors or subordinates, you will find success in abundance.

We of the institute realize that during your stay here, you have found many things to be desired. We also recognize our shortcomings. There are improvements to be made and they are being made.

When you go out into the world we hope you will recognize and remember the good we have tried to do. Forgive us the things we could not do.

Congratulation and best wishes to you all,

Dr. John E. Foster, President

DEDICATION

The Class of 1961 is proud to dedicate its yearbook to Prof. Lenine M. Gonsalves. In this small way we wish to express recognition to Prof. Gonsalves for his untiring efforts in behalf of the Institute and the student body.

To be a success in one's chosen vocation is exemplary in itself, but what is needed today in our society is a keen sense of values, dedication to an ideal, and moral integrity.

Professor Gonsalves portrays these ideals and in this way has helped immeasurably in advancing the prestige of New Bedford Institute of Technology.

ELECTRICAL
ENGINEERING

GIL C. ARAUJO

Bachelor of Science
in
Electrical Engineering

Address: 136 Tinkham St., New Bedford, Mass.

Motto: I'll try anything—once.

Ambition: Success.

Activities:

A.I.E.E.-I.R.E.

ANTHONY C. ARRUDA, JR.

Bachelor of Science
in
Electrical Engineering

Address: 408 Wood St., New Bedford, Mass.

Motto: Every step is a debate between what
you are and what you might become.

Ambition: To be a successful engineer.

Activities:

Newman Club 1, Vice-President 2,
President 3, 4.

Student Council Vice-President 2

Class Treasurer 2

Univets 1, 2

A.I.E.E.-I.R.E. Charter Member 3,
Secretary 4

Student Council Extra-Curricular Activities
Award 1958

"Mainstay"

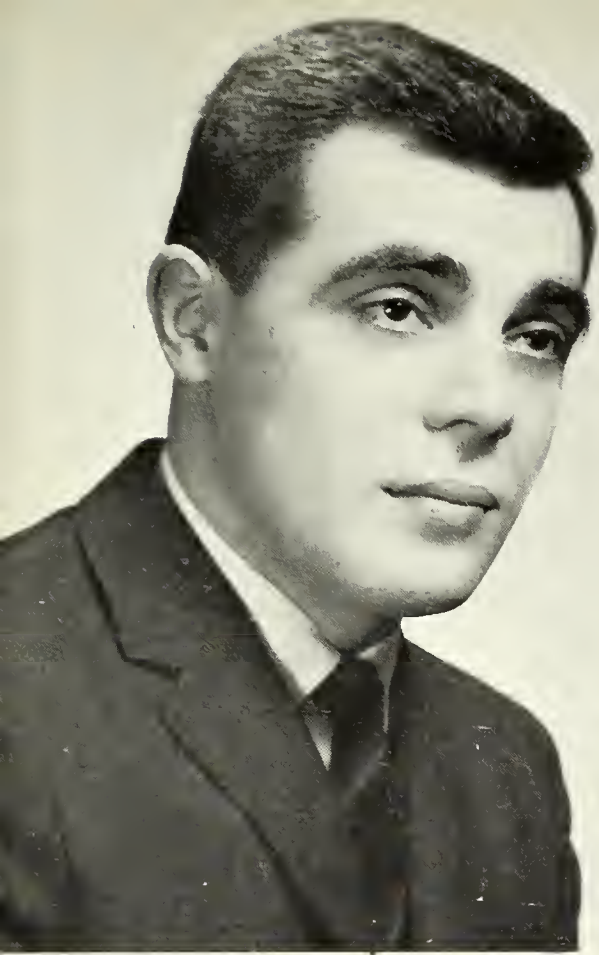

Nu Beta Tau Charter Member 2, 3, 4.

Tech Talk 1, News Editor 2,

Sports Editor 3, Editorial Staff 4

Camera Club 1, 2

ROBERT P. BERNARD

Bachelor of Science
in
Electrical Engineering

Address: 58 Main St., Fairhaven, Mass.

Motto: No spoon feeding please.

Ambition: Become a good teacher

Activities:

I.R.E. 3,4

A.I.E.E. 2, 3, 4

Phi Psi Fraternity 1, 2, 3, 4.

JOHN DONNELL BOWEN

Bachelor of Science
in
Electrical Engineering

Address: 465 Bolton St., New Bedford, Mass.

Motto: Never leave that till tomorrow which you can do today.

Ambition: To be at the New Bedford Common on my 112th birthday.

Activities:

Nu Beta Tau Fraternity 1, Vice Pres. 2, President 3 and 4.

A.I.E.E. 1, Treas. 2, Vice Chairman 3, 4

A.I.E.E.-I.R.E. Joint Branch—Chairman 3 & 4

Tech Talk 2, Business Manager 3 & 4

Newman Club 1, 2, 3

I.F.C. 2, 3, 4

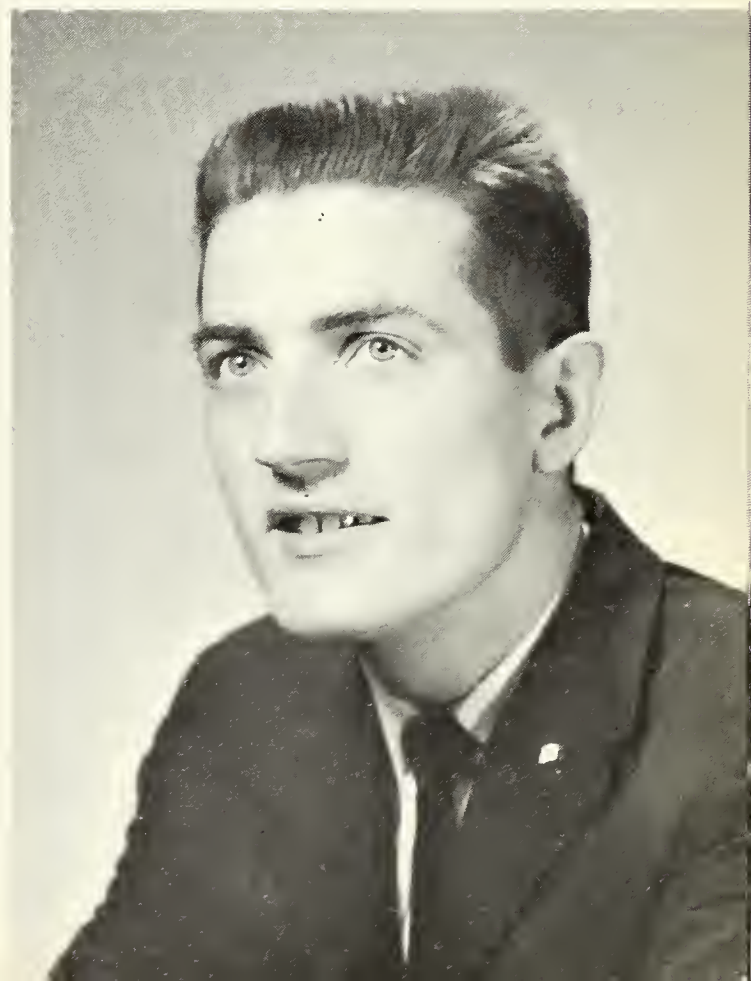

Univets 1, 2, 3

Dean's List 1, 2 Semester Soph.

Aerovox Scholarship 1960

Outstanding extra-curricular activities

Award 3.

JOHN CERMAK

Bachelor of Science
in
Electrical Engineering

Address: 129 Purchase St., New Bedford, Mass.

Motto: To know man; is to love him.

Ambition: To see my son live his life in peace.

Activities:

A.I.E.E. 1, 2, 3, 4

A.I.E.E.-I.R.E. 3, 4, Corresponding Sec. 3

Nu Beta Tau Fraternity 2, 3, 4

Ritualist 2, Social Chairman 2, 3

Univets 1

Student Council 3, 4

Junior Class Secretary

Senior Class President

EDWARD M. CUSSON

Bachelor of Science
in
Electrical Engineering

Address: 21 Main St., Acushnet, Mass.

Motto: There is nothing so bad that it can't get worse.

Ambition: To launch a satellite-carrying rocket.

Activities:

I.R.E. 3, 4

A.I.E.E. 2, 3

Newman Club 3

Circle K 2

FRANK J. GALLAGHER

Bachelor of Science
in
Electrical Engineering

Address: 218 State St., New Bedford, Mass.

Activities:

Newman Club 3, 4
I.R.E.-A.I.E.E. 3, 4
Nu Beta Tau 3, 4

GERALD GAUTHIER

Bachelor of Science
in
Electrical Engineering

Address: 309 Highland St., New Bedford, Mass.

Motto: To thine own self be true.

Ambition: To become reacquainted with the wife and children that I have reluctantly neglected these past four years.

Activities:

I.R.E.-A.I.E.E.
Dean's List 1 semester

CASIMIR A. JAROSIK

Bachelor of Science
in
Electrical Engineering

Address: 60 Fort St., New Bedford, Mass.

Motto: Don't complain if you have no shoes;
some people have no feet.

Ambition: To be a success.

Activities:

A.I.E.E. 4

I.R.E. 4

STEPHEN A. JORGENSEN

Bachelor of Science
in
Electrical Engineering

Address: 30 Elm Ave., Fairhaven, Mass.

Motto: Live and let live.

Ambition: To live a relaxed, happy life.

Activities:

Delta Kappa Phi Fraternity

College Glee Club

Protestant Fellowship

I.R.E.

GEORGE KIMPEL

Bachelor of Science
in
Electrical Engineering

Address: 11 Circuit St., New Bedford, Mass.

Motto: To be a good engineer.

Ambition: Be happy

Activities:

I.R.E.-A.I.E.E.

ROBERT A. LEE

Bachelor of Science
in
Electrical Engineering

Address: 232 Eugenia St., New Bedford, Mass.

Motto: It's not the hours you put in, but
what you put into the hours.

Ambition: To retire.

Activities:

Phi Psi Fraternity 2, 3, 4

Student Council 4

Tech Talk 1, 2

Protestant Fellowship 4

Demolay Club 2, 3, Pres. 4

A.I.E.E. 1, 2, 3, 4

I.R.E. 3, 4

Dean's List 7 Semesters

Secretary Senior Class

Mainstay; Business Editor

Tennis 1, 2

Baseball 1

Mathematics Award

Physics Award

Scholarship 1960—Revere Copper & Brass

JAMES D. MARSHALL

Bachelor of Science
in
Electrical Engineering

Address: 14 Circuit St., New Bedford, Mass.

Motto: All a man knows is nothing compared
with that which he will never know.

Ambition: To reduce the extent of the un-
known.

Activities:

A.I.E.E.-I.R.E. Vice Chairman 4

Tennis 2, 3

Camera Club

Newman Club

Nu Beta Tau Fraternity

Tech Talk

Dean's List 1 Semester

Scholarship Aerovox Corp. 1959 & 1960

WALLACE A. REID

Bachelor of Science
in
Electrical Engineering

Address: 136 Lexington Ave., No. Dartmouth,
Mass.

Motto: Nothing ventured nothing gained.

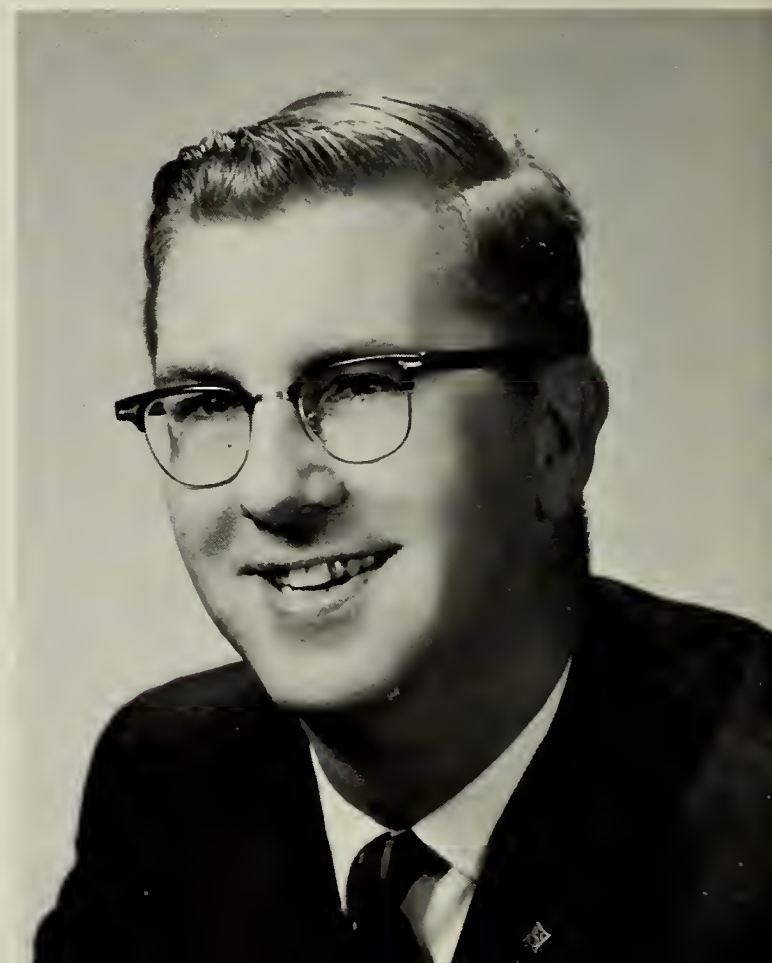

Ambitions: To live intensely.

Activities:

Nu Beta Tau Fraternity

Tech Talk Staff

A.I.E.E.-I.R.E.

FRANK J. REZENDES

Bachelor of Science
in
Electrical Engineering

Address: 415 Main St., Fairhaven, Mass.

Motto: Where there's a will there's a way.

Ambition: To become chief engineer of a large organization.

JAMES SOUZA

Bachelor of Science
in
Electrical Engineering

Address: 334 Ashley Blvd., New Bedford, Mass.

Motto: Common sense is in spite of, not the result of education.

Ambition: Not to be too ambitious.

Activities:

A.I.E.E.-I.R.E.

EDWIN P. TWAROG

Bachelor of Science
in
Electrical Engineering

Address: 110 Division St., New Bedford, Mass.

Motto: Variety is the spice of life.

Ambition: To learn something every day.

Activities:

Tech Talk
Photography Club
Nu Beta Tau Fraternity
A.I.E.E.-I.R.E.
Univets Club
Tennis

PAUL F. WILSON

Bachelor of Science
in
Electrical Engineering

Address: 130 Swan St., New Bedford, Mass.

Motto: As the circle of light grows, so also does
the perimeter of darkness.

Ambition: To do all things well.

Activities:

Tech Talk 1, 2, 3
A.I.E.E.-I.R.E.

DAVID A. YATES
Bachelor of Science
in
Electrical Engineering

JAMES J. YOTIDES

Bachelor of Science
in
Electrical Engineering

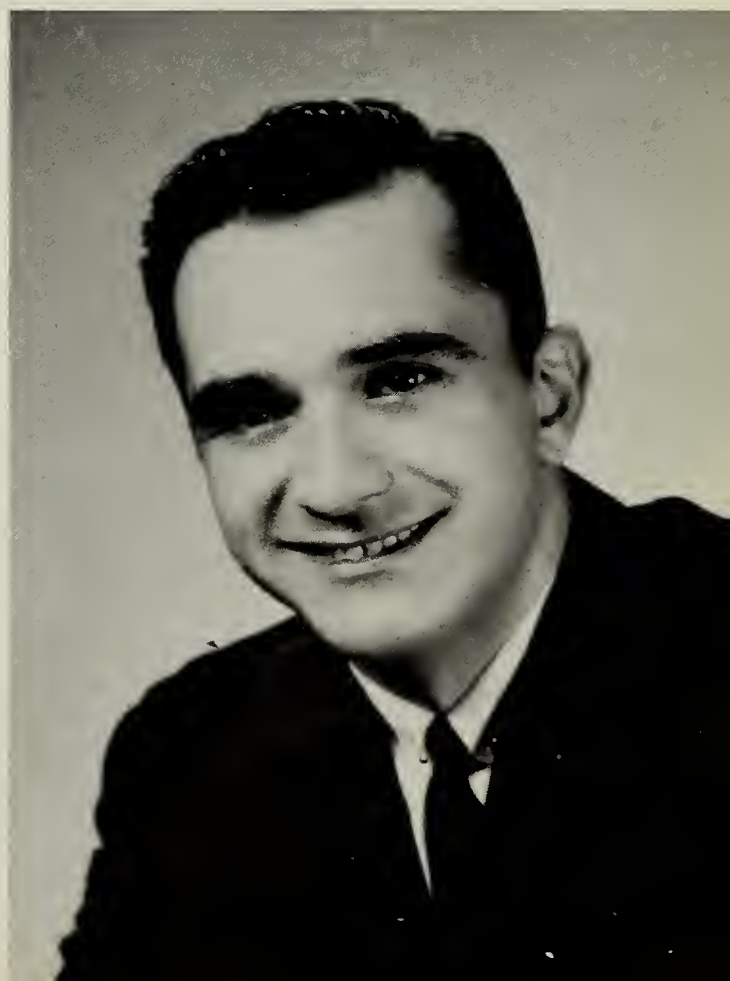

Address: 222 Smith St., New Bedford, Mass.

Motto: Anyone who lives by himself will, in
the end, be by himself.

Ambition: To be successful.

Activities:

A.I.E.E.-I.R.E.

ACTIVITIES

STUDENT COUNCIL

The Student Council is the most unique of all organizations here at the Institute. Its primary purpose is to formulate student opinion. It also acts as a liaison between the student body and faculty-administration. The Council is composed of the 16 class officers of the four classes. The president of the Junior Class is automatically the president of the Council.

Each year the Student Council receives \$10, called a student activities fee, from each student. From this money, the Council makes allotments to the four classes and also to any student organization desiring financial aid.

The Council sponsors several social functions free of charge to all students. Such events as the Welcome-Back Banquet in October, the Farewell Dance in June, and the Class Day assembly in May are examples of Council activities in the field of student service.

Throughout the scholastic year, students and organizations at Tech bring forth complaints and ideas to the Student Council, which discusses and evaluates them before deciding on a course of action.

AIEE - IRE

The Student Branch of the AIEE-IRE was chartered last year when the newly-organized student branch of the Institute of Radio Engineers was merged with the existing student branch of the American Institute of Electrical Engineers. The purpose of this organization is to foster the professional development of electrical engineering students.

AIEE-IRE performs its functions through the mediums of the student branch and the sponsoring national organizations.

Student branch activities are social, technical, and educational in nature. The student branch sponsors such events as field trips to industrial concerns, films, dinner meetings, paper-writing contests, technical meetings, and co-sponsors with the Mechanical Engineering Club the annual Valentine's Dance. Members of the profession are invited to speak on topics ranging from space technology to advertising.

Student members are also encouraged to participate in the various activities sponsored by the national organizations. By attending sectional and national meetings of AIEE and IRE, the student member is able to meet and exchange ideas with national members, many of whom are leaders in the profession.

By these means, the student branch and the national organizations serve as agencies for the continuing professional development of the electrical engineer.

ENGINEERING CLUB

The purpose of the Engineering Club is to broaden the student's acquaintance with the engineering field outside of the classroom. This is accomplished through a movie schedule designed to acquaint the student with up to date techniques used in industry, through field trips on which the student has an opportunity to see first hand practical applications of principles studied in the classroom, and finally, through dinner meetings where members have an opportunity to hear talks by some of the leading engineers in the New England area.

A highlight on the school social calendar is the Annual Valentine Dance which is co-sponsored by the Engineering Club and the student branch of the A. I. E. E. - I. R. E.

NEWMAN CLUB

The Newman Club, an affiliate of the National Federation of Newman Clubs, is an organization formed to promote Catholic Action at the college level. The goal of this organization is to guide the Catholic Students in developing their faith and to provide a balanced program of spiritual, educational, and social activity.

INTER- FRATERNITY COUNCIL

The Inter-Fraternity Council consists of twelve appointed members from the three fraternities and the sorority at N. B. I. T. This group meets monthly for the purpose of guiding and furthering the cooperation between fraternal groups. The I. F. C. exemplifies the fact that unity is essential to all fraternal power.

MICHAEL BARBER — Vice Pres.
SHAUNEEN GOGGIN — Sec. Treas.
JOHN THOMPSON — Pres.

AMERICAN CHEMICAL SOCIETY

The American Chemical Society is the world's largest organization devoted to a single science. 151 geographic units practically blanket the entire nation and its possessions. The Society owns, edits, and publishes the Journal of the American Chemical Society, Chemical Abstracts, Industrial and Engineering Chemistry, Analytical Chemistry, and other publications.

Affiliation with a professional society benefits members in training for their work. It brings out and augments their abilities just as certain chemicals emphasize the flavor of foods. It promotes personal reactions in the manner of a catalyst in a chemical reaction.

A member receives Chemical and Engineering News, the weekly news magazine of the chemical world. He is also able to receive subscriptions to other ACS journals at reduced rates. Also a student member has free use of the ACS Employment Clearing house, a service that has helped many students locate positions.

PETER DeCOSTA — Sec. Treas.
EUGENE MONDOU — Pres.
MILTON BERUBE — Vice Pres.

ISO

The International Students Organization, a new club here at the Institute, was begun to further relations between countries. This will be accomplished by meetings and discussions at which the many foreign students that attend the school would give talks on their country and answer questions pertaining to their ways of life.

Here at tech at this moment are students from Peru, India, Iran, Hong Kong, Turkey, Israel, and the Phillipines.

P. RAMKISNAN — Pres.
MISS VIVIAN ZERBONNE — Faculty Advisor
WILLIAM KERWIN — Sec. Treas.
KANUBHAI S. DESAI — Vice Pres.

A. A. T. T.

The objects of the American Association of Textile Technology are to promote interchange of professional knowledge of textile technology among members, to stimulate fraternal intercourse among technologists, to provide means for diffusion of the knowledge of textile technology, and to acquaint the student with the practical workings and future business associates in some branch of the textile industry.

CIRCLE K

The Circle K club is not just another social fraternity but a service organization similar to Kiwanis and other service clubs. It serves at the college level. It is a character building group which offers service on the campus, to the school and to the community.

The Motto — “WE BUILD”

The significance of the Circle K club is to be found, not in the name itself, but in the high idealism to which the members of the organization have themselves given expression, by unselfish and practical service. In a word, Circle K means what Circle K men have made it mean.

It is appropriate, therefore, that Circle K should have adopted the motto of its sponsor, Kiwanis International, namely, “We Build.”

PHI PSI Fraternity, with chapters ranging from New Bedford, Mass. to Lubbock, Texas, is the largest professional textile fraternity in the world. It was originally founded at Philadelphia Textile Institute to promote the comradeship and mutual advancement of its brothers in the textile profession. Today, brothers of PHI PSI hold positions of esteem in many diversified industries, while still leading the textile field.

Here at Tech Beta Chapter was organized in 1904. It has continuously strived to instill the qualities of leadership in its brothers. This is plainly evident by reviewing the industry roster of the high positions achieved by Beta Alumni. As in the past, Beta will continue to send its qualified brothers to success and happiness in industry.

The Alpha chapter of Nu Beta Tau was started during the winter of 1957 by ten students who felt that the schools rapid growth provided room for another fraternity. On May 5th, 1958 the fraternity received its charter from the administration. At the start of the current school year there were thirty one active members, and following a successful Bid Week the membership has increased to fifty seven. "Help Week" found the Pledges painting at St. Mary's Home and assisting in the construction of Bowling Alleys at the New Bedford Boys Club. These projects and others planned for the future, will continue to make Nu Beta Tau an integral part of the school and civic affairs.

Delta Kappa Phi Fraternity is one of the oldest national fraternities in America. It is listed in the World Almanac and the Blue Book of professional fraternities. The members of Delta Chapter are matriculating in chemistry, engineering, textile and business administration courses offered here at New Bedford Institute of Technology. With campus life limited as it is here at Tech, the student has to turn to a fraternity for the social aspect of college life. D. K. brings into realization this desire of its members through the use of its large fraternity house located at 54 Campbell Street.

The purposes of the Fraternity are many. For the school Delta Kappa Phi is a service organization. The Fraternity continually strives to advance the aims and interests of the school through the various projects, services, and activities of its members. For the members the Fraternity is an inspiration to high scholastic achievement by encouraging its members in acquiring a thorough education in the courses of their choice. The fraternity relationships and social enjoyment gained by the members assists in forming the bonds of friendship between men of common interests. By encouraging active participation of the members in all school activities, athletics, and other functions, the Fraternity serves to promote a wellrounded character development. For the industry the Fraternity functions to furnish professional men of high caliber for executive and managerial responsibilities.

KAPPA SIGMA PHI

The Kappa Sigma Phi Sorority consists of 33 sisters whose purpose is the exchange of knowledge, sincerity, and fraternity. The Sorority was established on the 27th of October in 1943 at the Philadelphia Textile Institute. The official colors are purple and white. Purple representing the high ideals we stand for and the white representing the purity of purpose. The Sorority also has an official flower, the IRIS, a meaning behind its sorority pins and coat of arms.

Kappa Sigma Phi meets once a month and each year a schedule is planned for the academic year. Among the many various social functions held are: The Annual Get-Together, which gives the Freshmen girls a chance to become acquainted with the sorority and its sisters, and the Annual Faculty Christmas Luncheon, which is prepared by the sisters themselves. Other activities also include the Installation Banquet, "Hell Week" Initiation of new members, and the Induction Banquet.

The Sorority provides at least one social outing held for the sisters and made possible by two money making projects allotted to them by the Inter-Fraternity Council. Last year it held a successful cake sale at the Star Store and the school lobby. During the Christmas season it had a sale of candy.

SOCCER

Edward Cloutier—Coach

For the second year in a row New Bedford Tech's soccer squad pulled off what could be termed a hat trick—copping the NAIA New England title, the SNECC title, and the Colonial Intercollegiate Conference title.

With ten returning lettermen, Coach Cloutier's forces had little trouble improving on last year's record (12-2-2 and a 64-17 goal total); they crushed the opposition with 57 goals to ten while picking up thirteen victories, one tie, and no defeats. In two of the games they scored nine times.

Probably their most cherished victory was the 2-1 playoff game against Nichols College. An extra game, this one was the result of the thrilling triple overtime 2-2 scheduled game.

Leading scorer again was Bill Butler followed closely by Ronnie Ponte. Butler received the outstanding player award for his stellar offensive performances on the pitch.

Faisal Al-Marzook, an import from Iran, won the Outstanding Freshman Award while Kwong Cheng was voted the MVP Award.

Cheng played four years of varsity soccer for Coach Cloutier and was, undoubtedly, one of the best outside lefts ever to wear a Tech uniform.

George Pires was a MAINSTAY in the nets. Pires proved to be an able replacement for departed Russ Wissman and simulated some acrobatic saves that Russ was so well noted for.

Again, as it was last year, it was hard to single out any individual performance because of the overall outstanding team performance.

SEASON'S RECORD—1960

	Tech	Opp.
R. I. College of Education	5	1
Durfee College of Technology	3	0
Assumption College	1	0

BASKETBALL

James Flanagan—Coach

William Doyle—Assistant Coach

New Bedford Tech's Whalers ended their basketball season with a respectable 14-8 record.

They finished their SNECC season with a 3-6 record and for the second year in a row, finished third in the North-South Tourney

Playing their last games for Tech this season were Capt. Butch McNamara, and reserves Richie Daniels and Ron Hall; the latter two played outstanding ball when called upon to spell one of the regulars.

Coach Flanagan's chargers were helped immeasurably by the addition of newcomers Richie Munson, a 6-5 center, and Bruce Violante who teamed up with McNamara to form one of the smoothest working back-court pair around.

Pacing the team again as he has done for the past four years, versatile backcourt ace, McNamara concluded his playing days for Tech with 457 points for a very respectable 20.8 average per game.

SEASON'S RESULTS

	Tech	Opp.
New England College	78	47
Quinnipiac College	66	81
Gorham Me. State Teachers	71	59
Nasson College	93	75

Quinnipiac College	71	86
Nichols College	88	92
Bridgewater State	85	75
average per game	78.6	75.5

BASEBALL

John Regan—Coach

Edward Maguire—Assistant Coach

Tech's baseball squad got off to the most successful start in many years by taking six of eight games played on their annual Southern junket.

The squad continued their terrific brand of playing by copping their first three games of the official season. The first was a horrendous beating of rival Durfee to the tune of 30-10.

Although the team lost such standout MAINSTAYS as Russ Wissman, Tom Vieira, Bill Fawcett, Ed Sylvia, and Felix Swintak, they more than made up for these losses by adding Dan Daluz, Bruce Violante, Harry Scalione, Don Duilio, and Hank Blackburn, a returnee from the 1959 squad.

Head coach John Regan had high hopes of nailing down the SNECC crown this year and was well on his way with defeats of Durfee, Bridgewater, and Stonehill.

1961 BASEBALL SCHEDULE

March

- 24 Howard University (Washington, D.C.)
- 25 Richmond Prof. Inst. (Richmond, Va.)
- 27 Pembroke State (Pembroke, N. C.)
- 28 Campbell College (Buies Creek, N. C.)
- 29 Atlantic Christian College
(Wilson, N. C.)
- 30 Baltimore College (Baltimore, Md.)

April

- 21 Durfee College of Technology (home)
- 22 Bridgewater State College (away)
- 25 Durfee College of Technology (away)
- 27 Stonehill College (home)
- 29 Quinnipiac College (home, doubleheader)

May

- 3 Curry College (away)
- 10 Bridgewater State College (home)
- 13 Nichols College (away, doubleheader)
- 15 Lowell Tech (away)
- 18 Stonehill College (away)

GOLF

For the first time in twenty years New Bedford Tech fielded a golfing squad. Just an idea in recent years, the golf team became a reality this year.

Members of the squad included Bill O'Connell, Fred Purrington, Dave Darwell, Bill Marginson, Bob LaFlamme, Paul Duval, Jim Osborne, and John Whitehead; all of which are capable on any given day to shoot in the 70's.

This could be considered more or less of a pilot season as there was not time to formalize a competitive league.

The team carried Tech's banner well in the matches it did play, though. They beat Durfee in the initial contest and then walked off with honors in a tri-match with Nichols, Durfee, and Quinnipiac. A tie with Stonehill ended the short season.

A TECH FOURSOME

Left to Right:
PAUL DUVAL
BOB LaFLAMME
BILL MARGESON
FRED PURRINGTON

TENNIS

FRED TRIPP—Coach

New Bedford Tech's tennis squad started off the season with two sparkling wins and got a good jump on the SNECC crown again.

Included in this year's schedule were such formidable foes as Holy Cross, Providence College, and St. Anselm's College.

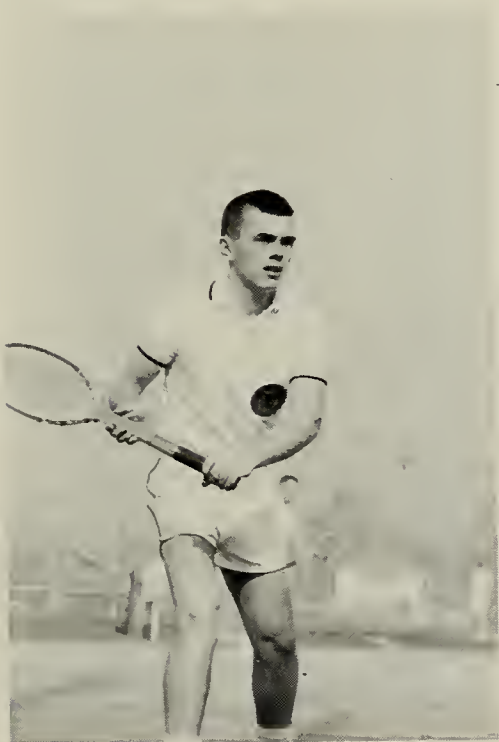

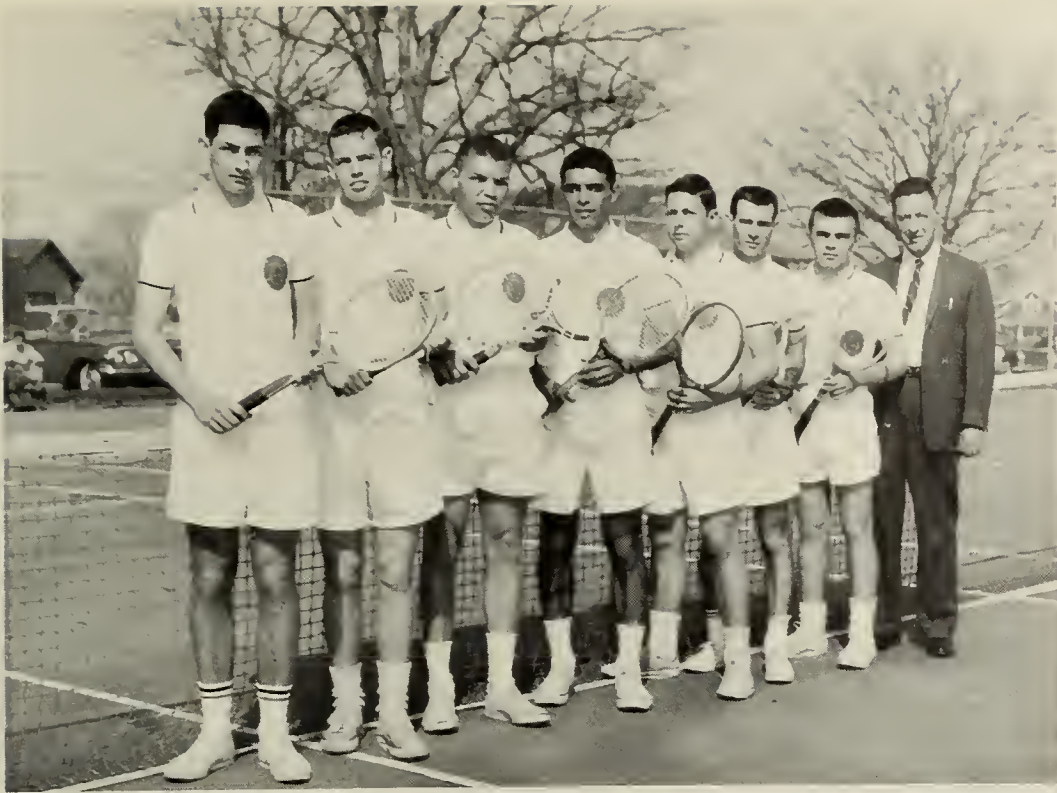

Leading the Whalers in quest of a successful season were Freshmen Frank Fletcher and Gerald Burke who won the No. 1 and No. 2 spots on the squad, respectively.

Coach Tripp entered his team in the NAIA Tourney this year and saw his team play well enough to earn the runner-up honors against some stiff opposition.

Graduating this year after three years with the squad is Jim Marshall. Jim played well for the Whalers over this span and showed his forte in the doubles competition.

1961 TENNIS SCHEDULE

- April 13 Bridgewater State College
- April 17 Durfee College of Technology
- April 20 Stonehill College
- April 22 Nichols College
- April 26 Holy Cross College
- April 29 Providence College
- May 1 Bridgewater State College
- May 3 Providence College
- May 6 NAIA Tournament
- May 9 Durfee College of Technology
- May 13 St. Anselm's College
- May 16 Nichols College
- May 18 Stonehill College

STEWART ENGINEERING CORPORATION

Stewart Engineering is a company uniquely oriented to the research, development, and manufacture of backward wave oscillators, specialty vacuum tubes, and related equipment.

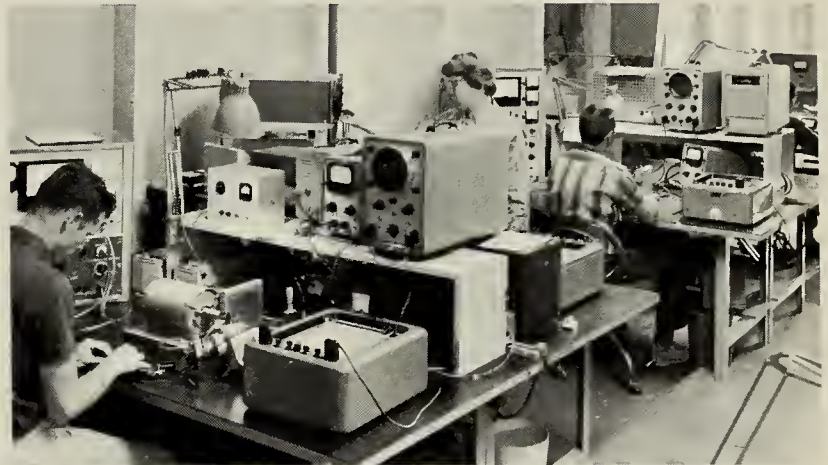

The Stewart plant is located a few miles outside Santa Cruz, California, in a beautifully picturesque mountain location. Only an hour away, north and south, are the growing electronics industry concentrations of the San Francisco and Monterey Bay areas, with their unmatched resources and opportunities for both academic and technical advancement.

A key factor in Stewart's success in producing traveling wave tubes and related products of premium quality is an adherence to the highest standards in selection and development of personnel. As a result, Stewart people achieve an unusually high degree of productivity and job satisfaction, in an atmosphere of creativity, where performance is both recognized and rewarded.

Forward-thinking, aggressive electrical engineers will find that Stewart Engineering Corporation can offer a particularly interesting and challenging future. If you would like to know more about the company, write for a copy of the Stewart facilities brochure.

Wave tube pioneer Raymond Stewart discusses a detail of design with members of his staff.

A portion of the Stewart engineering test laboratory, where wave tubes are being performance-checked.

Stewart sales engineers find a scenic mountain background conducive to their efforts.

Special TEXTILE DICTIONARY for BEST RESULTS in Textile Processing

C

Castrolite® (kās/trō.līte)

A highly sulphonated castor oil made by an improved process of manufacture. A stable penetrant for dyeing or kier boiling. Used extensively in finishing.

D

Discolite® (dīs/kō.līte)

Concentrated sodium sulphoxylate formaldehyde available in lump, pea, rice or powder form.

A powerful reducing agent, stable at high temperatures. Widely used to effect reduction and solution of vat colors, and for discharge effects when applied to colored grounds. Effective when mixed with vat colors and discharge pastes wherever the reducing agent must retain its reducing power after being dried into the fabric.

Dispersall (dīs.pūr/sal)

A long chain ethylene oxide condensate in the form of a colorless, neutral, somewhat viscous liquid. Fully resistant to hard water, and miscible with water in all proportions. A retardant and leveling assistant in vat dyeing.

Used widely as a dispersing agent in dyeing synthetic fibers with disperse colors and for fast color salts and bases in Naphthol dyeing and printing.

Effective in stripping to prevent redeposition of the color on stripped goods.

N

Neowet (nē/ō.wēt)

Complex Polyethelene Ether in the form of a pale yellow, slightly viscous liquid.

A non-ionic surface active wetting agent, effective at all temperatures. Completely compatible with enzymatic desizing agents and readily soluble in water. Contains 33 1/4% active ingredients. Widely used in scouring all types of textile fabrics and for general wetting purposes.

Neowet X (nē/ō.wēt)

Organic Ether Sulphonate in the form of a water white slightly viscous liquid.

An anionic surface active wetting agent, effective at all temperatures. Does not affect enzyme activity in desizing. Compatible with hydrogen peroxide and resin finishes. High detergent value. Contains 20% active ingredients.

Neozymes® (nē/ō.zīms)

Desizing agents made up of amylolytic, proteolytic and fat splitting enzymes available in the form of crystalline powder or liquid concentrate for high or low temperature requirements.

Neozymes quickly remove all trace of starch glue or gelatin sizing without danger of damage to even the most delicate fabrics. For best results, use with NEOWET to speed saturation.

P

Parolite® (pār/ō.līte)

Zinc sulphoxylate formaldehyde in the form of white crystalline powder. A highly concentrated stripping agent for all forms of wool and modern synthetics.

Completely soluble in water. Leaves stripped goods soft, completely free of zinc dust and in most receptive condition for further processing. Often completely strips goods where other stripping agents fail. Very effective in discharge printing on acetate rayon.

V

Vatrolite® (vāt/rō.līte)

Concentrated sodium hydrosulphite in the form of white crystalline powder. A powerful reducing agent for vat colors, ideal for dry feeding because of its free flowing, dustless character. Completely soluble in water.

Effective stripping agent for direct, sulphur and vat colors on cellulosic fabrics.

Quickly removes rust stains from cotton goods. May be stored indefinitely.

Available with optical whites and in buffered formulas for high temperature use without excessive alkalinity.

Velvoray® (vēl/vō.rāy)

A high grade finishing oil made up of sulphonated vegetable oil combined with specially selected fats.

Compatible with all materials commonly used for finishing textiles. Will not foam, smoke or oxidize. Imparts no rancid odor. Gives body and has emulsion stability. Widely used to add a silky softness to all types of fabrics.

Velvo Softener (vēl/vō)

A highly sulphonated tallow in the form of a creamy white paste, easily dispersed in water. Used in general finishing of all types of textile fabrics. Will not "smoke off" or change color in high temperature operations such as calendering or drying. Has no effect on light fastness of colors.

Strategically placed warehouses plus company owned trucks add up to fast dependable delivery, every time.

REVERE TEXTILE PRINT ROLLS

A New Bedford Product Famous For a Hundred Years

“For more than a century the New Bedford Division of Revere Copper and Brass Incorporated has been making textile print rolls. As a result of this long experience the Revere organization is in a unique position to know and understand practical textile printing problems and how to meet them with rolls best adapted to give efficient, economical service.

“Revere specialists in this field are available to assist you in obtaining the type of rolls best adapted to serve your individual requirements.”

CONGRATULATIONS

to You who are about to enter the Textile Industry!

Your interest in textiles together with your background of study and training are essential elements in building the solid foundation for a successful career.

The Textile Industry is a basic industry — and a continuing one. It is an industry which provides great opportunity for initiative, growth and satisfying personal achievement so important to the development of your career.

You are welcome indeed. Your energy, your eagerness and your skills are all needed in helping the industry advance to new levels of achievement.

May every success be yours in the industry which will play such an important part in your future — and in ours.
