## PERPETUAL PRESIDENT :

The Right Hon. the Lord Southampton, Lord-Lieutenant of the County.

## VICE-PRESIDENTS :—

His Grace the Duke of Buccleuch and Queensbury, K.G.

His Grace the Duke of Grafton

The Right Honourable the Earl of Cardigan

The Right Honourable Earl Fitzwilliam

The Right Honourable Earl Spencer.

## COMMITTEE OF MANAGEMENT :

The Rev. Sir George S. Robinson, Bart., Chairman

William Smyth, Esq., Vice-Chairman

His Grace the Duke of Grafton

The Right Honourable the Earl Spencer

The Right Honourable and Reverend Lord Alwyne Compton.

George Ward Hunt, Esq., M.P.

General Bouverie

James Mash, Esq.

The Rev. Henry J. Barton

John Nethercoat, Esq.

The Rev. William Butlin

H. O. Nethercote, Esq.

William Collins, Esq.

The Rev. George Robbins

W. H. I. M. Dolben, Esq.

Henry Terry, Esq.

William Grant, Esq.

The Rev. the Chancellor Wales.

TREASURERS.—Messrs. Boémé & Page, Union Bank, Northampton.

AUDITORS.—The Reverend Lord Alwyne Compton, the Reverend Henry J. Barton, R. Howes, Esq.

## FINANCE COMMITTEE :

The Chairman and Vice-Chairman of the Committee of Management.

His Grace the Duke of Grafton

William Collins, Esq.

The Rev. the Lord Alwyne Compton

W. H. I. M. Dolben, Esq.

The Rev. Henry J. Barton

William Grant, Esq.

MEDICAL SUPERINTENDENT.—Joseph Bayley, M.R.C.S.

MATRON.—Mrs. Grant.

HOUSE SURGEON.—J. Tregelles Hingston, M.R.C.S.

CHAPLAIN.—The Rev. S. Chas. Haines, M.A.

SECRETARY AND STEWARD.—Mr. John Godfrey.

AT THE GENERAL STATED ANNUAL COURT OF DIRECTORS,  
held the 27th day of February, 1867 :

The Annual Reports of the Committee of Management and the Chaplain were read ;

The Statement of Accounts for the year 1866, together with a detailed Account of the Building Expenditure and Return showing the amount of Charity done by the Institution, were also read ;

AND IT WAS RESOLVED—

That the above-named Reports and Statement of Accounts, together with the Financial and Statistical Tables, be published under the direction of the Finance Committee.

IT WAS RESOLVED UNANIMOUSLY—

1. That the Thanks of this Court be presented to the Chairman and Vice-Chairman of the Committee of Management for the very valuable services they have rendered to the Institution during the year.

2. That the thanks of this Court be given to the Noblemen and Gentlemen composing the Committee of Management for their valuable services during the past year.

3. That the thanks of this Court be given to Messrs. Boémé and Page for their good offices as Treasurers during the past year.

4. That the Thanks of this Court be given to the Rev. Lord A. Compton, the Rev. Henry J. Barton, and R. Howes, Esq., for their good offices as Auditors during the past year.

5. That the Thanks of this Court be given to the Finance Committee for their good offices during the past year.

### THE REPORT

OF

### THE COMMITTEE OF MANAGEMENT

FOR

THE YEAR 1866.

---

The Committee of Management have pleasure in reporting to the Directors the continuous improvement and prosperity of the Lunatic Asylum, both in its medical and material aspects.

There is now ample room for the reception of all the County and Borough Patients ; and the Magistrates and Guardians of the Poor are earnestly requested to satisfy themselves by personal visits of the sufficiency and fitness of the accommodation.

The following statement will show the progressive, and at times rapid, increase of county patients which has been going on in the past ten years :—

Year .....	1857	1858	1859	1860	1861	1862	1863	1864	1865	1866
Average No.	172	202	227	241	261	272	300	327	330	336

With a Building in 1857 no more than sufficient for the number then resident, great and continual additions and alterations have been required in order to enlarge and adapt the Asylum to the constantly increasing requirements of the County and Borough ; and it is satisfactory to state that during the whole of the time the works have been in progress, it has not been necessary to refuse admission in a single instance.

The agreements with the County and Borough, and the Liberty of Peterborough, for the lodging of their patients, having

terminated on the 30th June last, new terms were arranged for a further period of three years, at a reduction of 4d. per week for each patient: the total payment being 11s. 8d. per week, *i. e.*, 8s. 9d. for maintenance, paid by the Unions, and 2s. 11d. for lodging, paid by the County and Borough. Considering that no further expense whatever is incurred by the County on this head, the terms are very advantageous for the ratepayers as compared with other County Asylums. It is hoped that a greater reduction will be practicable when the additions and alterations still required are finished and paid for.

As regards the employment of county patients on the Farm and other out-door work, it is satisfactory to state that the average number for the past year was 62, while in former years the average was not more than 32. This improvement has been caused by the introduction of spade husbandry, the results of which have been most satisfactory in every respect. The number of patients employed in other ways has been fully up to the average of former years.

The accommodation for the private patients has been much improved, and further improvements are still being made in the apartments occupied by the gentlemen. When they are completed a greater number of that class can be received.

For the past ten years the average numbers of private patients have been as follow:—

1857	1858	1859	1860	1861	1862	1863	1864	1865	1866
91	94	91	85	92	99	96	91	91	85

In the years 1865 and 1866 the cost of provisions and other articles was exceptionably high, and other expenses had greatly increased. For these reasons the Committee considered it advisable at the close of 1866 to review the payments made by private patients, when it was found that some cases were being maintained at a positive loss, and others at the bare actual cost. A careful revision of rates was therefore made, and increased payments were required from those whose circumstances admitted of them; while in the case of patients of limited means, who had been many years in the house, advanced rates were not enforced. In some few instances, where the relatives could not afford to pay for the expensive accommodation of the private wards, and where, in the opinion of the Medical Superintendent, such accommodation was not necessary, the Committee proposed to their friends that they should be placed in the county wards, and treated in the same manner as the county patients, for a reduced payment. This plan is pursued in most of the County Asylums, and is sanctioned by the Commissioners in Lunacy.

As regards the administration of the Charity Fund, several cases from the town and county of Northampton have been admitted during the year, on greatly reduced terms, every application which has been made having been favourably considered. The Committee are at all times most anxious to assist deserving cases belonging to the county and borough to the greatest extent in their power. An account of all the patients helped in this manner, at a total amount of £535. 17s. 6d., is given in a separate return.

In the Report for 1865 it was proposed that the Cottage formerly occupied by a few private patients should be taken for the residence of the Medical Superintendent ; but the same being insufficient for the purpose, a Special Court, held on the 28th March, determined that Mr. Law, the County Surveyor, should be instructed to prepare plans for a suitable House. At the subsequent Quarterly Court, held April 25th, Mr. Law presented two plans, one being for a new residence at an estimated cost of £2,300, the other for enlarging the Cottage at an estimated cost of £1,400. The latter plan was adopted, and tenders were obtained for carrying out the work. As the lowest tender was £1,765, that is, £365 above the estimate, the Committee considered that the sanction of a General Court was necessary for the extra outlay ; but as the money for carrying out the work would have to be borrowed, and as in the state of the money market at the time there was some difficulty in getting the necessary advance from the Treasurers, it was deemed advisable to postpone the question until the spring of 1867.

During the year various structural additions and improvements have been carried out, which are particularised in another part of the Report. These, for the most part, have been necessary additions to bath-rooms, water closets, sculleries and other offices, and works which had become inadequate through the great enlargement of the main buildings. The total cost has been £1,429. 7s. New furniture, likewise, has been provided for various parts at a cost of £255. 15s. 11d. This extra outlay has been met out of the surplus income of the year, except that the balance due from the Institution has been increased from £3,100. 4s. 3d. to £3,273. 18s. 6d.

There are still several expensive alterations and additions which have been under consideration, some of them being deemed of pressing importance, such as heating the single bedrooms throughout the House, farm buildings, workshops, substitution of boarded for stone floors, improvements in the wards M 2 and M 3, and others of minor importance.

The residence of the Medical Superintendent is the most expensive and pressing work now requiring attention, and it is the opinion of the Committee of Management that it should be immediately executed.

GEO. S. ROBINSON, Chairman.

WM. SMYTH, Vice-Chairman.

THE REPORT  
OF  
THE MEDICAL SUPERINTENDENT  
FOR  
THE YEAR 1866.

---

MY LORDS AND GENTLEMEN,

I beg leave to submit to you the Annual Report of the Superintendent, with the usual statistical tables.

On January 1st, 1866, there were in the Asylum 214 males and 212 females; total 426. Of these 38 males and 50 females were private, and 176 males and 162 females were county patients.

During the year 50 males and 61 females, total 111, have been admitted. Of these 9 males and 11 females were private, and 41 males and 50 females were county patients.

62 have been discharged recovered. Of these 7 males and 6 females were private, and 21 males and 28 females were county patients.

13 have been discharged relieved, viz., 2 males and 6 females private, and 2 males and 3 females county patients.

1 male county patient was discharged not improved.

2 male and 2 female private, and 20 male and 22 female county patients have died.

The number of patients who have been under treatment during the year amounts to 264 males and 273 females; total, 537.

The average number resident has been 420.

There were remaining in the Asylum, on January 1st, 1867, 36 male and 46 female private, and 173 male and 160 female county patients; total, 415, being a decrease of ten, as compared with the corresponding period last year. This is not owing to any diminution in the number of admissions (more patients having been admitted than in any former year since 1858), but to the large number of discharges.

The death rate for the past year is rather higher than usual, but but by referring to Table 9, it will be seen that the majority of the deaths have been from senile decay, general paralysis, and epilepsy. 26 of the patients who have died were above 60, 13 were above 70, and two were above 80 years of age.

An inquest was held on the body of a female county patient who was suffocated in her bed, by turning over on her face when in an epileptic fit, and a verdict of death from suffocation was returned.

In Table VI. will be found a general statement of admissions, discharges, and deaths, since the year 1845 (the earliest date from which I have been able to obtain any information). The same table contains an account of the average number resident, the per centage of recoveries on admissions, the per centage of recoveries on the total number under treatment, and the per centage of deaths on the total number under treatment in each year.

Table 10 shows the mental condition of the county patients remaining in the Asylum on January 1st, 1867. From this it will be seen that of 333 patients only 33, viz., 20 males and 13 females, are deemed curable, and this number includes doubtful cases.

I here give the Statistical Tables before referred to:—

TABLE I.

SHEWS THE GENERAL RESULTS OF THE YEAR AS REGARDS THE NUMBERS UNDER TREATMENT, THE ADMISSIONS, DISCHARGES, AND DEATHS.

	Males.	Females.	Total.	Males.	Females.	Total.
Remaining in the Asylum, Jan. 1, 1866 .....	214	212	426

Other forms of mental unsoundness.....	70	83	153	2	6	8	30	10	40
Total .....	115	128	243	30	17	47	38	19	57

Of the above, seven males and three females are affected with general paralysis, and four males and two females are criminals.

There have been a few attempts to commit suicide, but these have, fortunately, been prevented by the vigilance of the attendants and nurses.

Several patients have attempted to escape. In some cases they have been away for two or three days, and one man who was considered to be sufficiently well to be allowed to work with a few other convalescent patients on the farm without an attendant in charge of them, broke his parole, and knowing that he could not be re-taken after 14 days, he managed to keep out of the way until the expiration of that time, when he returned to his home. If he had not escaped he would have been discharged recovered on the following week.

Two accidents have occurred to patients: An elderly woman who is very lame and infirm from rheumatism, was pushed down in the ward by another patient, and fractured her collar-bone; and on the same day a male patient was discovered to have a fracture of the neck of the thigh-bone: This man had been bed-ridden for several years, and it is supposed that he must have slipped from his seat when being taken out of bed in the night by the night attendant.

Seclusion has been seldom required; but restraint has been used once. In this case, owing to the extreme violence of the patient, both to herself and others, it was a choice of two evils, either to keep her constantly in a single room, and to have a severe struggle with her whenever it was necessary to go near her, or to use restraint by fixing her hands to her sides, by means of strings attached to her sleeves at the wrists. Since this has been done, she has been allowed to associate with the other patients in the wards, and to take walking exercise both in and beyond the grounds. I am strongly opposed to restraint in any form, but I feel satisfied that in this case it was the best course that could be adopted: The patient had been sent here from another asylum, where she was quite unmanageable, and when admitted she was extremely weak and emaciated: Now, chiefly owing to the exercise she is enabled to take, she is improving in health and condition.

I regret that I cannot speak favourably of the general health of the patients during the past year. Diarrhoea and typhoid fever have prevailed, the former to a severe extent throughout the spring and autumn; small-pox also broke out on the female side of the house in the early part of the year. All the patients who were affected with it were removed to the hospital on the farm as soon as the disease showed itself, and every means were adopted to prevent its spreading through the House; these, I am happy to say, proved effectual.

To improve the sanitary state of the House, ten additional water-closets have been built on the female side, and five on the male; two more baths have also been placed in Ward 6 on the female side, and the walls and ceilings of the dormitories, single rooms, and basements, have all been scraped, cleaned, and limewashed.

The following alterations and improvements have also been made:—The stone floor in Male Ward 4 has been removed, and boards have been substituted; the walls of this Ward have been also plastered, and fire-places fixed in the galleries. This is a great

improvement, and will add much to the comfort of the patients. Fire-places have also been placed in the gallery of Male Ward 1.

The new detached building for male patients has been occupied since May last.

The tailors' and shoemakers' shops, which were found to be too small and close for the number of persons working in them, have been enlarged. This is an improvement, but more workshops are urgently required, especially for the upholsterers, matmakers, and carpenters (the former now use the small-pox hospital on the farm), and the carpenters' shop is too small, and is inconveniently placed on the female side of the building.

Out of doors much has been done ; the farm, kitchen garden, and ornamental grounds have been cultivated and kept in order entirely by patients under charge of attendants, and I am glad to say that there is fair balance to profit on the farm accounts.

Reference to Table II. will show the number of patients employed in the various departments of the Institution.

Although at first some difficulty was experienced in getting many of the patients (who for a long time had done nothing) to employ themselves, it is now quite the exception for any patient to be unemployed, unless on account of sickness or infirmity.

The result is that the bodily health of all, and the mental condition of many of the most violent and hopeless among the male patients, have much improved, the wards are rendered less crowded and offensive, and are kept much cleaner. For those patients who, although not on the sick list, are too old and infirm, or too demented to work on the farm or garden, picking and cleaning hair for bed-making in the upholsterer's shop, has been found a most useful and suitable occupation, from 20 to 30 being regularly employed in this way ; two or three patients are also being instructed by the upholsterer in making door mats with the old coir matting which has become worn out in the galleries.

The amusements and entertainments have been continued as heretofore. During the summer months croquet, cricket, weekly dances on the lawn, and picnics ; and in the winter, in addition to the weekly dance, concerts and theatricals have been frequently given.

I must here acknowledge the kindness of Mr. and Mrs. Hollis, of Northampton, who have on more than one occasion assisted us at our concerts.

I think, also, that it deserves to be mentioned that our theatrical companies consisted chiefly of the nurses and attendants, many of whom devoted a large portion of the time allotted to themselves when off duty in getting up some comedies and a burlesque, which they performed most creditably at the beginning of the new year, on three occasions, before a large number of patients, who expressed themselves as being much pleased and amused. On these occasions, as, also, at the weekly entertainments, it is but right that the services of the band, which is composed entirely of attendants and patients, should be acknowledged. In addition to the brass band, which has existed for some time, a string band has been introduced during the past year, which is found more suitable for the in-door entertainments.

At the commencement of the year Mr. Hingston, the House Surgeon, entered upon his duties, and it affords me great pleasure here to acknowledge the valuable assistance which I have received from him in the performance of my duties.

My acknowledgments are also due, for the same reason, to all the other officers of the Establishment.

To the Noblemen and Gentlemen constituting the different Committees, I beg to tender my sincere thanks for the kindness and courtesy which I have at all times received from them, and for the attention which they have paid to any suggestions which I have thought it my duty to make.

In conclusion, I beg leave to thank you for the honour you have done me in electing me Superintendent, and to assure you it will be my anxious endeavour to perform my duties in such a manner as will prove that your confidence has not been misplaced, and will lead to the comfort and improvement of the patients placed under my charge, and to the benefit of the Institution.

I have the honour to be,

My Lords and Gentlemen,

Your obedient Servant,

J. BAYLEY, Superintendent.

THE REPORT  
OF  
THE CHAPLAIN  
FOR  
THE YEAR 1866.

---

MY LORDS AND GENTLEMEN,

I have to report that during the year 1866 nothing of any special importance has occurred in my department. In everything I have received the utmost assistance from the Medical Superintendent, Mr. Bayley.

Our attendance at Chapel keeps up to the average ; but it would be no guide if I were to mention numbers, because the attendance on week days is nearly confined to the old and the sick, and on Sunday our Chapel is completely filled ; our numbers are then only limited by the space at our command.

The singing has greatly improved of late, chiefly owing to the cheerful assistance rendered by the Organist, Mr. Ward. I believe that good singing imparts heartiness to public worship, and is both a solace and an amusement at other times.

The Library is in good order, but it needs the addition of new books to replace those destroyed. Many of the patients are great readers.

By a resolution of the Committee, passed at the end of the year 1866, the Chaplain is required, in addition to the duties hitherto performed, to attend three evenings every week at the Asylum for the instruction of the patients, and also to hold full services on all Saints' days : This resolution has been complied with.

So far as I can judge, a greater number of patients than usual have returned to their homes benefitted or cured during the past year ; also those, not quite in a hopeless state, who have entered, have been quickly re-established. In this medical success I heartily rejoice, but its effect is to shorten my acquaintance with the most hopeful cases, and to deprive me of assistants in my work.

I have the honour to be,

My Lords and Gentlemen,

Your obedient servant,

S. CHARLES HAINES, M.A., Chaplain.

## LIST OF PRIVATE PATIENTS,

Whose Payments for Maintenance are under the lowest remunerative rate of payment, viz., 2ls. per week, shewing the amount of benefit derived in each case from the Funds of the Institution, and the total amount thus set apart during the year 1866 for charitable purposes.

# TERMS OF ADMISSION

## FOR

### PRIVATE PATIENTS.

---

This Institution is pleasantly situated in a healthy locality, within a short distance of the town of Northampton, being one mile from the railway station, and affords good accommodation for the reception of Private Patients.

The rooms are cheerful, airy, and spacious, and the grounds, which are extensive, are well planted, and command most pleasing prospects, looking over the Valley of the Nene.

The management, being presided over by a Committee of Noblemen and Gentlemen, and conducted by experienced officers, who have no interest but the welfare of the Patients and the usefulness of the Institution, the security and protection of a public establishment, under vigilant supervision, are combined with the comforts and advantages of a home.

The Chaplain is in daily attendance, to administer consolation and instruction, in addition to the ordinary religious services.

Ample means of amusement and occupation are provided, and every method resorted to for the amelioration of the condition of the afflicted inmates. The utmost liberty, consistent with safety, is permitted, and carriage exercise provided for those requiring it.

The Friends of Patients are invited to satisfy themselves of the condition of their relatives, and the treatment they receive, by making frequent visits to the Institution.

Patients not connected with the county of Northampton are received at £1. 11s. 6d. per week, but where the Friends of Patients cannot afford to pay this rate, the Committee have authority to reduce the same, according to the circumstances of the case.

Patients connected with the county of Northampton are received at One Guinea a Week, where more cannot be afforded, and the Committee have power to reduce this rate, according to the circumstances of each case.

The terms include board, lodging, washing, medical advice, medicines, and all other necessaries; clothing, and wines and spirits only excepted. Terms to include the latter items may be proposed.

The above-named rates secure good accommodation in all respects, but there are superior apartments, for which higher payments are necessary.

One quarter's payment is made at the time of admission, and the payments are afterwards made quarterly, and in advance.

Any further information can be had on applying, either personally or by letter, to the Medical Superintendent, at the Asylum, who will also furnish the necessary Forms required by the Acts of Parliament.
