Christmas is Ahead Only 6 Weeks

As most of our Xmas Goods are already here, we ask you to look over our stock, and if you find anything you want, have it laid away. We have now time to show you everything, and you have time to look.
In a few weeks it will be all rush, and you will not have the time to spend selecting Xmas Presents that you have now. We have already laid away many things, and feel satisfied that you will be better pleased with what you get if it is selected before the rush begins. Now if we have not just what you want it can be made up for you. While in December this becomes almost impossible.
To our out-of-town customers we can now send goods on approval, and they have time to get a second purchase if the first is not satisfactory.

FRUIT CANNING DEAL

Number of Establishments Will Pass Into Hands of Eastern Syndicate.

(Associated Press.)

San Francisco, Nov. 8.—According to the Chronicle a deal is about to be consummated by which all the leading fruit canning establishments outside of the California Fruit Canners' Association will pass into the hands of an Eastern syndicate. The combined capacities of the plants to be included in the proposed deal, it is said, will equal that of the existing combine. The annual output will not be less than 1,500,000 cases, or 36,000,000 cans.

It is understood from reliable authority that nearly all of the twenty and odd outside canners have given options to a firm of attorneys and that the new company will soon be incorporated under the laws of New Jersey with a capital of \$5,000,000. The names of the capitalists are not given.

SWITCHMEN'S STRIKE

Over Two Hundred Employees of Denver & Rio Grande Road Quit Work.

(Associated Press.)

Denver, Colo., Nov. 8.—Advises received by Grand Master F. E. Hawley, of the Switchmen's Union of America, who is in charge of the strike on the Denver & Rio Grande railroad, called into effect late yesterday afternoon, indicate that the strike order has been obeyed by every switchman employed on the Rio Grande system, numbering 235 men. General Manager Herbert, of the Denver & Rio Grande, stated that the strike of the switchmen would not interfere with the company's business, and that no man involved in this strike would be re-employed.

John Dix, Who is Alleged to Have Wrecked Bank at Whatcom, in Custody.

(Associated Press.)

London, Nov. 8.—At the Bow street police court today H. St. John Dix was charged on a provisional warrant with larceny committed in the United States. It is alleged that he obtained control of three banks in the state of Washington in 1900 and that he subsequently wrecked the Scandinavian American at Whatcom, Wash., and disappeared with over \$8,000. Dix was remanded after formal evidence of his arrest had been presented.

FRANCE TRIUMPHS OVER ABDUL HAMID

SULTAN YIELDS TO THE ENTIRE DEMANDS

Question of the Manner of Settling the Claims Alone Remains to Be Decided.

(Associated Press.)

Paris, Nov. 8.—France has scored a complete triumph in the Turkish dispute and the foreign office this morning received advice that the Sultan had yielded to the entire demands formulated by the French government, and only the question of form regarding the execution of the engagements remains to be settled.

This may be done within the next 24 hours, or at the latest in two or three days. Then Admiral Caillaud will relinquish his occupation of the island of Mitlyene.

An official note was issued at 1 p.m. today to the effect that the Porte has decided to yield to all the demands of France, and that as soon as the Sultan had issued an irade ratifying the decision the French squadron will leave Mitlyene.

The Temps, this afternoon prints a dispatch from Constantinople, dated today, which says that the Sultan in accepting the French demands authorizes: First—The working of the French schools, hitherto unrecognized.
Second—He recognizes officially the existence of the religious and hospital institutions already founded and accords them custom immunity and exemption from certain taxes.
Third—He authorizes the reconstruction of the schools and hospital institutions destroyed at the time of the Armenian troubles, of which a detailed list is attached to the French note.

Fewik Pasha, the Turkish foreign minister, has announced that the recognition of the Chaldean patriarch, demanded by France, has already been accorded.

CRUMPS BUILDING CRUISER

Philadelphia, Pa., Nov. 8.—The work of laying the keel blocks for the construction of a new fighting cruiser for the Turkish government has begun at Crump's ship yards. A contract was entered into several months ago, and under its terms the cruiser is to be finished in 18 months. The new vessel will go up alongside the cruiser Colorado which the firm is building for the United States. It will be of 3,200 tons displacement.

CONVICTS STILL FREE.

No Trace of the Men Who Escaped From the Penitentiary at Fort Leavenworth.

(Associated Press.)

Leavenworth, Kas., Nov. 8.—Forty mounted guards are beating the country for a radius of five miles around the federal penitentiary at Fort Leavenworth today in search of the escaped convicts who succeeded in escaping from the guards late yesterday. The country is wild and rough, and affords ample opportunity for escape, and as all of the convicts are desperate and armed, conflicts will doubtless result before they are captured.
The not known result of the mutiny and the following fight with the guards was one convict killed and four guards shot or otherwise hurt, but it is believed that many of the fleeing convicts received wounds from the bullets sent after them by pursuing guards.
Making for Indian Territory.

KANSAS CITY, MO., NOV. 8.

Advises received at the prison early today indicate that the convicts are making for the Indian territory, 100 miles south, with all speed. Warden McClary is making every effort to head them off.

HORSES BURNED TO DEATH.

Many Buildings Destroyed and Thirty-seven Animals Perished in Flames.

(Associated Press.)

Bradford, Pa., Nov. 8.—One of the worst fires in the history of the city occurred this morning. It originated in the livery stable of Frank P. Beamer, and consumed a dozen buildings including the \$35,000 city hall. Thirty-seven horses in one livery stable perished in the flames, and the \$10,000 library of Brown & Schoonmaker, city attorneys, was totally destroyed, together with valuable maps. The loss is estimated at \$150,000.

SCHOONER WRECKED.

Survivors Spent Night on a Raft—Wife of Mate Was Drowned.

(Associated Press.)

Kincardin, Ont., Nov. 8.—The crew of the schooner Eureka, wrecked about 20 miles from here, reached here at six this morning in an exhausted condition. They had been tossed about on a raft all night. One of the number, Mrs. Biggor, the cook, and wife of the mate, was drowned. The schooner was loaded with lumber and was on the way to Lorain, Ohio, from Tawas, Mich., when wrecked. The crew belonged to Michigan.

PARIS UNDER A FOG.

Railway and Steamboat Traffic and Business is Disorganized.

(Associated Press.)

New York, Nov. 8.—According to the Paris correspondent of the Herald, on account of the fog it requires no stretch of imagination on the part of Parisians nowadays to mistake the French capital for London. The whole of France is practically in the same position. From all parts of the provinces come news of the fog and its drawbacks. Railway traffic, suburban and provincial, is very seriously disorganized.
No steamboats dare to venture forth on the Seine. The tram cars and omnibus lines maintain the service with the utmost difficulty. The ordinary routine of Paris offices and workshops is completely upset, as thousands of business men, clerks and employees are unable to report themselves for duty till long after the appointed hour.

The weather expert at the central meteorological bureau says that the fog is caused by sudden lowering of the moisture laden atmosphere when the soil is warmer than the layers of air above.

BRIGANDS MAY ACCEPT

AMOUNT SUBSCRIBED

Feel the Want of Money and Will Probably Reduce Ransom Demanded for Miss Stone.

(Associated Press.)

Sofia, Bulgaria, Nov. 8.—The government last night caused the arrest of a man who was visiting United States Consul-General Dickinson and searched him, presumably thinking he was an emissary of the brigands and expecting to seize a communication from or to Miss Stone, the American missionary. The man was subsequently released.
This action of the authorities hampers Mr. Dickinson, as the brigands refuse to treat in Turkey.
Mr. Dickinson in his reply to Miss Stone's letter urged the brigands to reduce still further their demands and accept the amount subscribed, in view of the determination of the government not to contribute towards the ransom and the impossibility of collecting further subscriptions.
It is believed the brigands will agree to this, as they are now beginning to feel hard pressed and want money for current expenses, such as the bribery of officials, peasants and others.
The letter insists that the surrender of the prisoners must precede or be simultaneous with the payment, but leaves to question of the place open.
A messenger last night brought a letter from Miss Stone written in English. All her previous communications have been in Bulgarian. The letter says she is well and gives valuable information about her captors, and other circumstances which Miss Stone was debarred from sending in Bulgarian.

STREET-RAILWAY SOLD.

Report That Twenty-Six Million Dollars Will Be Paid for System.

(Associated Press.)

San Francisco, Nov. 8.—The entire system of the Market Street Railway Company has practically been sold to the Baltimore syndicate which has for several months been negotiating for its purchase. The deal is understood to have been closed at a conference between H. B. Huntington and I. W. Hellman, representing the syndicate, and other stockholders of the Market Street Company, and Geo. R. Webb, of Baltimore, B. G. Hanford and Attorney-General F. L. Ford, of this city, representing the Baltimore syndicate. The terms of the sale are not definitely known.
The call states that \$25,000,000 in cash is to be paid for the property, and that final papers will be signed today. It adds that the syndicate will expend at least \$4,000,000 in improving the property.

SHORT IN HIS ACCOUNTS.

(Associated Press.)

Port Huron, Mich., Nov. 8.—The board of trustees and the supreme officers of the Supreme Tent, Knights of the Macdonalds, are holding an executive session today with representatives of the National Surety Co., which was on the bond of C. D. Thompson, supreme finance keeper, who is short in his accounts. It is asserted that part of the money was stolen before July 1st, on which date the auditors of the order furnished the bonding company then on Thompson's bond with a statement that his accounts were correct. The statement it is said releases the bonding company.

NEW VICEROY OF CHI LI PROVINCE

SUCCESSOR TO THE LATE LI HUNG CHANG

Yuan Shi Kai Has Been Appointed—Edict Issued Creating Late Statesman a Marquis.

(Associated Press.)

Peking, Nov. 8.—An imperial edict has arrived here appointing Yuan Shi Kai to be governor of the province of Chi Li and appointing Wang Wen Shao, who is vice-president of the foreign office and a member of the cabinet, to succeed Li Hung Chang as plenipotentiary. They are both ordered to come to Peking forthwith.

Another edict creates Li Hung Chang as marquis and bestows on him the new name of Li Wen Chang, by which he will be known in history.
Cable From Conger.

Washington, Nov. 8.—Minister Conger, at Peking, informed the state department that Yuan Shi Kai has been appointed to succeed Li Hung Chang as viceroy of Chi Li and that Wang Wen Shao has been appointed deputy viceroy of the same province. Yuan is the present viceroy of Shang Tung province.

They Were Disappointed.

New York, Nov. 8.—The personality of Li Hung Chang, says the Berlin correspondent of the London Times and the New York Times, had long ceased to exert any interest in Germany. The public and the official world discovered that they had been his dupes at the time of his visit in 1896. Because of his title of viceroy, Earl Li was treated with almost royal honors in Germany, which probably astonished the wily old mandarin himself. His hosts hoped that on his return to China he would secure large orders for ambitious German manufacturers.

ACCIDENTALLY SHOT.

Young Man Seriously Injured and Is Not Likely to Recover.

(Associated Press.)

Greenfell, N. W. T., Nov. 8.—A shooting accident occurred here this morning. Paul Bushe, eldest son of the late Dr. Bushe, was driving with his brother, having a loaded gun between them, which was cocked. The jolting of the rig caused the gun to be accidentally discharged. The entire contents entered the lower part of the face and passed upwards into the skull of the elder brother. There is little or no hope of recovery. The family had made arrangements to go to Winnipeg for the winter, and were leaving tonight. Paul was going to resume studies in college after a vacation of over a year, for an eye affection.

CANAL SCHEME.

Russians Considering Construction of Waterway From the Baltic to the Black Sea.

(Associated Press.)

New York, Nov. 8.—A dispatch from Odessa to the London Times and the New York Times says a Russo-American bank is about to be established in St. Petersburg.
According to the same correspondent, the Russian government is considering the construction of a gigantic waterway from Riga, on the Baltic, to Kherson, near the mouth of the Dnieper on the Black Sea. It is believed that large sums have already been spent at Kherson, which is eventually to be the terminus of a grand canal system joining the Baltic and the Black Sea.

LAURA JACKSON'S PROTEST.

Tells Magistrate She is Tired of His Evicting Partially for Witnesses.

(Associated Press.)

London, Nov. 8.—The hearing of the charges against Theodore and Laura Jackson (Ann Onda Die Bakery) at the Marlborough police station here continues to attract representative crowds.
Prominent stage people, including H. B. Irving and Clement Scott and leaders of the bench, bar, church and parliament, were along today's audience. The male prisoner is ill and was allowed to be seated in the dock. Laura Jackson was continually and ostentatiously administering to him sips of water.
The testimony was a reiteration of previous evidence, but the proceedings were enlivened by several brisk passages between the prosecuting magistrate and the female prisoner; the latter informing the court she was tired of his evicting partially for witnesses.

LIBERALS TAKE TOWN.

They Captured Over Four Hundred Colonial Soldiers When Tunnaco Fell.

(Associated Press.)

Washington, Nov. 8.—The state department is in receipt of a dispatch, dated October 28th, from the United States consul general at Peking, reporting that the Liberal forces have captured the town of Tunnaco, south of Peking about 500 miles. They took from 400 to 600 soldiers, prisoners, and captured five or six cannon. Many rifles, a quantity of ammunition and one small steamer, the Gaitan, had been taken.

London, Nov. 7.—Ex-Mayor John H. Campbell died to-day, after a long illness. He was born at Tarbet, Dumbarshire, Scotland, on March 11, 1825, and was successful as a proprietor of an iron working establishment. He was mayor for several terms.

Toronto, Ont., Nov. 7.—The recently inaugurated movement of the organization of the Canadian Order of Railwaymen is said to be meeting with opposition from international bodies.

Miss Maggie Tanner, of Belleville, was knocked down by a bicyclist named Robert Pinkney on Yonge street at noon yesterday and died of her injuries six hours later. She was 32 years of age.

Wm. MacLean, 20 years old, clerk and assistant draughtsman of the Economical Gas Apparatus Construction Co., Toronto Junction, yesterday was fatally and instantly killed.

Montreal, Nov. 7.—Two cases of smallpox were discovered to-day, one in a St. Elizabeth street house, and the other on a river steamer.

The Canadian Manufacturers' Association asked many things of the government represented by Sir Wilfrid Laurier, Hon. W. S. Fielding and Hon. W. Paterson, at the Windsor hotel to-day. They asked for a railway commission; a direct steamship service between an eastern port in Canada and South Africa and Australia and the readjustment of duties on woods, iron and other products of Canadian manufacturers.

After the McGill students' last theater night, the students paraded the streets, became boisterous and damaged property. The police arrested a couple of students, and when they came before Recorder Weir, he told them it was time that a check were put on excessive students. As a result two students were remanded for trial on the Monday following without bail. They spent Sunday in jail, and on Monday the rumor flew round amongst the students that Principal Peterson had written to the Ontario Judge, who was there to administer justice impartially, by pointing out his duty to him. The principal commented warmly upon the disrespect shown him in holding a mass meeting of students. Then the principal went for the students on his own account, and declared that they were entirely mistaken in their thought any one connected with McGill would endeavor to shield students from punishment for their own lawlessness because they were McGill students. He endorsed the recorder's action. In

It is expected here that all the powers will accept the invitation, but the conference could not well be held before spring.

DISCOURAGED.

Men, who have suffered the tortures of dyspepsia, will find encouragement in the following letter. It points the way to certain help and almost certain cure. In ninety-eight cases out of every one hundred in which Dr. Pierce's Golden Medical Discovery is used the result is a perfect and permanent cure. "Golden Medical Discovery" cures diseases of the organs of digestion and nutrition, strengthens the stomach, purifies the blood, and nourishes the nerves. It has cured in hundreds of cases after all other medicines have utterly failed to give relief.

There is no alcohol contained in "Golden Medical Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

"Your Golden Medical Discovery" has performed a wonderful cure," writes Mr. M. H. House of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia, the doctors believed to have been cured. After trying seven doctors I could hear of no help, when I tried Dr. Pierce's Golden Medical Discovery, and now I am cured."

Chronic dyspepsia may consult Dr. Pierce by letter free. Correspondence private. Address Dr. Pierce, Buffalo, N.Y.

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay cost of customs and mailing only. Send 31 one-cent stamps for paper-covered book, or 50 stamps for cloth-bound volume. Address as above.

THE LATE EARL LI.

Time for Funeral Has Not Yet Been Decided.

Pekin, Nov. 7.—The end of Li Hung Chang was quiet. His vitality slowly ebbed away. For a time he lost consciousness, but he showed great tenacity, rallied at midnight, partook of nourishment, and appeared to revive his relatives. The foreign doctors left him early yesterday, saying that nothing more could be done. His personal physician, Dr. Watt, then took charge.

THE PROBLEM OF THE DYKING BOARD

HOW TO ADJUST THE PRESENT DIFFICULTY

John Oliver, M.P.P., of Delta, suggests a Solution of the Trouble With the Farmers.

The dyking commission, which meets here in a few days, is charged with a very responsible duty in adjusting the difficulty which has arisen through the failure of the farmers in the dyking districts to pay the assessments for which they became responsible when the dyking system was carried out.

These dyking works have taken years to complete, and through them the province has incurred a liability of not less than \$800,000 or \$900,000. It was expected that the cost would largely be met by assessments collected off of the lands benefited, but for one cause or another the land owners have failed to make the payments as they fell due, and a very large sum piled up in the form of arrears on these lands.

Last session the subject was brought up by the members from the constituency of the lower Mainland, and the government urged to take some steps to adjust the trouble. The result is shown in the commission recently appointed, and consisting of Engineer Gamble, of the department of lands and works; T. S. Higginson, of Coquitlam, and G. E. Froy, of Vancouver. The notices appointing them states that they are for the purpose of valuating and classifying the lands in certain specified dyking areas and to ascertain the quantity of land the government may accept in lieu of overdue assessments.

It is evident from this clause that the course in the mind of the government is to take over portions of the lands in arrears for the amount chargeable against the whole property. The objection to this course on the part of those acquainted with conditions on the lower Mainland is that the government will have great difficulty in selling these small parcels of land in districts where the farmers are accustomed to much larger pieces of land.

John Oliver, M. P. P. for Delta, is at the city at the present time, and his opinion on the matter, coming as it does from one thoroughly acquainted with the situation, is valuable. Mr. Oliver was asked to-day what course he would recommend in regard to these lands.

He stated in reply that he thought one or three actual disinterested farmers living outside of the neighborhood of the dyking areas should be employed satisfactorily. One commissioner would be as good as three. This commissioner should personally examine the lands and value each parcel on a common basis, taking into consideration the value of the dyking works as they exist, and what would be necessary to expand before the land could be utilized. With this in view he could value the land on the basis of what the man could afford to pay for it, improve it and put it on a business basis. The commissioner would then report to the government what each tract could afford to bear.

Mr. Oliver would then favor enacting legislation enabling the government, if these values were less than those chargeable against the land in principal and arrears, to wipe off the difference and say to the owners, "You shall pay this amount; otherwise we will take the land."

It would probably be necessary in the majority of cases to defer payment to enable the owners to get the lands under cultivation and to work it before they could pay the assessments.

The Queen's Ideas. Queen Victoria had wise ideas concerning the education of her children and grandchildren, and they were carried out by Edward, the present King of England, in the training of his sons. The German Kaiser is also extremely particular in regard to his five sons, and the next generation of kings ought to show an improvement on the past.

In order to avoid the temptations, influences and the sycofaney of the schools, to improve their physical conditions, to teach them discipline and the doctrine of equality among men, and to develop their manhood, King Edward VII. placed his two boys on a naval training ship when they were fifteen years old, believing their education would be pursued there under healthful surroundings and by contact with other boys.

A GREAT MEDICINE. "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phillips, of Potosi, Ark. "It cured me of bloody flux, I cannot speak too highly of it. This remedy always wins the proof opinion; it never ceases, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere." For sale by Henderson Bros., Wholesale Agents.

HOW BEAVERS BREATHE. Curious Method of Using the Same Air Over Again.

"The beaver is really a sort of portable pulp mill, grinding up most any kind of wood that comes his way. 1 once measured a white birch tree, 22 inches through, cut down by a beaver. A single beaver generally, if not always, annulates the tree, and when it comes down the whole family fall to and have a regular frolic with the bark and branches. A big beaver will bring down a fair-sized sapling—say three inches through—in about two minutes, and a large tree in about an hour.

"One of the queerest facts about the beaver is the rapidity with which his long, chisel-shaped teeth recover from an injury. I have known beavers to break their teeth in biting a trap and when I caught them again ten days afterward you couldn't see a sign of the break—the teeth had grown out to their former perfection in that short period.

By contrast with the other animals the beaver is a very slow swimmer. His front legs hang by his sides, and he uses only his webbed hind feet for purposes of swimming. It is easy to capture one in a canoe if you can find him in shoal water. He is a most determined fighter, and dangerous to handle. If he could get hold of you with his teeth he would almost take a leg off, so you want to watch him sharply. The place to grab him is by the tail.

"The ability of a beaver to remain under water for a long time is really not so tough a problem as it looks. When the lake or pond is frozen over a beaver

THE WEEK'S NEWS IN THE OFFICIAL ORGAN

Tenders Invited for the Fraser River Passenger and Railway Bridge—List of Appointments.

The Provincial Gazette of last night contained the following announcements: In connection with the fisheries exhibition to be held in St. Petersburg during February and March, 1902, by the Russian Imperial Society of Pisciculture, in conjunction with the International Congress of Fisheries, the following notice is given:

THE CARE OF GEMS.

Diagrams Require Gentle Treatment to Continue Sound and Brilliant. The best of all jewel boxes are not the satin-lined, velvet covered ones in which the jewelers alluringly display their wares, but airtight cases simply lined with wool.

SPORTING ASSOCIATION FOOTBALL.

WON BY THE GARRISON. The Garrison football team defeated the Navy at Work Point barracks yesterday afternoon by a score of two goals to all.

WRESTLING.

DAN, McLEOD DEFEATED. Cleveland, Nov. 7.—Tom Jenkins won the catch-as-catch-can championship of the world in Central arena in the presence of 6,000 enthusiastic spectators, when he defeated Dan McLeod, an opponent who gave him the severest struggle of his wrestling career.

TAMING LIONS BY TOBACCO.

We have all heard the old woe of taming a lion or tiger by steadily keeping your eye fixed on him. According to the world in Central arena in the presence of 6,000 enthusiastic spectators, when he defeated Dan McLeod, an opponent who gave him the severest struggle of his wrestling career.

A GIRL'S TALE.

With a Reason for Misleading the Father. "We have tried for a long time to persuade my father to change his diet and something to do with his ill feelings, he used to laugh good naturedly and say 'why, girls, I've been used to eating and drinking ever since I was a boy, I was trained that way, no, I fear some change has taken place in my body and I shall never be well again.'

RECLAIMED LANDS. The question of the relations of the government of British Columbia with the owners of the reclaimed lands in the Fraser valley is again up for consideration. It is an extremely difficult matter to adjust in such a manner as will conserve the interests of the public whose money the government advanced without appearing to deal harshly with the parties whose lands are the security for the loans.

EIGHT HOURS LABOR. Opponents of an eight-hour working day, we are afraid, might as well give up all idea of turning back the hands of the clock. The world that is the advanced part of the world, of which we hope Canada forms a part—has got the idea into its head that it is not good to labor too assiduously when things go just as well by jogging along easily.

a day? Whether it could or not, some day it will be tried. The farmers have their busy seasons and their periods of heavy tasks, but, taking them all the year round, they surely do not average more than eight hours of labor. It will interest those who here favor a reasonable length of daily service for storekeepers and their assistants and see no means of securing this save by municipal by-laws, capable of enforcement, to learn that a select committee of the British House of Commons has endorsed their attitude in the case of liberty loving Great Britain.

U. S. WANTS RECIPROcity. The prophecy of Sir Wilfrid Laurier, uttered at the banquet of the Canadian Manufacturers' Association, that ere long the United States would be petitioning for closer trade relations with Canada, seems likely soon to be fulfilled. Next Thursday a delegation composed of representatives of the board of trade of a large number of the chief cities of the United States will wait upon the President at Washington and lay before him its views on this matter.

EDUCATION THAT PAYS. Our public schools are doing nobly, but they cannot give you a profession, it is not their function. Whenever they have tried, they have made a failure of it, as they have not the requisite time which needs must be devoted to the teaching of specialties. Training for business belongs to the Business College, and the very fact that these do exist proves their effectiveness. Our institution has trained and placed into situations in three years about 600 students as stenographers, bookkeepers, typists and office assistants, at remunerative salaries. Our rates are reasonable, in fact, they are lower than those across the line; and any young man need not be afraid of obtaining employment; as Vancouver houses take all that we train, in fact, we are always short of men and boys. But if you think of taking a course, do not wait, take full advantage of the winter months, as the best chances for employment are in the spring.

Drill hall concert—Arthur Salvini and Brodie St. John to-morrow night.
—If you cannot go "home" at Xmas send your photos. Sit now at Skene Lowe's studio. This will insure the best and avoid delay.
—Three Chinamen, Hong Lowtoy, Ah Fook and Ong Lee were arraigned this morning for spouting water on clothes. They all paid their fine of \$5 each.
—If you want up-to-date show cases, office, hotel and general store fittings consult Carruthers & Dickson, 31 Work street, Rock Bay.
—Pan-American exposition, Buffalo, N.Y., May to November. Ask Chicago, Milwaukee & St. Paul railway about reduced rates. E. M. Boyd, commercial agent, Seattle, Wash. G. J. Eddy, general agent, Portland, Ore.
—The funeral of the late Edris Helen, daughter of Mr. and Mrs. David Curtis, Kane street, took place this afternoon. Rev. W. Leslie Clay conducted the services. There was much sympathy shown in the bereaved parents by the magnificent display of floral offerings.
—This afternoon, commencing at 4 o'clock in the council chamber of the city hall, the regular monthly meeting of the Victoria Teachers' Institute is being held. Considerable business will come before the meeting, which is a discussion on the methods of teaching geography.
—A dispatch comes from Hamilton, Bermuda, dated November 7th, stating that Commander Frank A. Garforth, of the guardship Hotspur, fell overboard and was drowned in the Great Sound on Thursday. Commander Garforth was stationed here several years ago and was well known in Victoria.
—Rev. J. P. Hicks united in the holy bonds of matrimony last evening Mr. Frank Coffey, of the post office staff, and Miss Ruth Lamb. A number of friends were present, all of whom in congratulating the happy couple wished them joy, long life and happiness. Miss Heather acted as bridesmaid, while Mr. Fred Foster acted as best man. The bride was given away by Mr. Deville. A dainty wedding supper was partaken after the ceremony. The popularity of the newly-married couple was shown by the large array of handsome presents.
—There was quite a crowd in the police court this morning, it being expected that the charge against Mrs. Rhodes, of St. George's Inn, of selling liquor on Sunday would come up for hearing. An adjournment was asked for by George Powell, counsel for Mrs. Rhodes. He stated he had only been retained last night and further, Mrs. Rhodes was confined to her room and unable to appear. A remand was therefore granted until the 11th. Consent was reluctantly granted by the chief, as the R.G.A., several members of whom are important witnesses in the case, leaves shortly for China.
—A very fast and exciting game of Association football is expected to-morrow afternoon, when the Garrison meet the Columbian in a league match at Caladain park. Both teams have been practising hard for the occasion, and are in the pink of condition. It is to be hoped that the clouds that have been hanging over Victoria for the last week will have disappeared by to-morrow, as the Columbian, being a far lighter team than their opponents, rely on dry field and firm foothold to put forth their best game, whereas if the ground is wet the weight of the Garrison will tell heavily against them. All football players will be glad to hear that G. Berkeley, the clever forward of the Columbian, has recovered from the injury he received last Saturday at the canteen grounds, and will be able to appear again to-morrow in his usual form.
—The judges at the masquerade ball given by the Sons and Daughters of St. George last night were Mr. and Mrs. H. D. Helmecke, assisted by Mr. and Mrs. J. Douglas and Col. Prior. Their selections were heartily applauded. The judges and the members of the committee afterwards dined together, when the president of the society, S. Heald, toasted the health of the King and wished him many happy returns of the day. The health of the judges and guests was proposed and drunk, and replied to in felicitous terms. R. Penketh officiated as floor manager at the ball. The committee desire to thank their many friends for their kind assistance, and also Messrs. Walker Bros., Mrs. H. D. Helmecke, Hutcheson & Co., Fitz Refractor Co., Victoria Book & Stationery Co., M. Marks, Stoddart & Co., P. & F. Co., Victoria Cigar Co., Pacific Transfer Co., and also Times and Colonist. The decorations were carried out under the supervision of H. Rivers, and were in excellent taste and greatly admired.

CITY NEWS IN BRIEF.

—Drill hall concert—great extras, patriotic music, to-morrow night.
—On Tuesday next the examination of candidates for the Dominion civil service will commence. The examinations will take place before Rev. Dr. Campbell.
—Wanted, by J. E. Church, 14 Trounce Ave., houses to rent and property to list. Must be cheap.
—The King's birthday will be celebrated by the Congregationalists of this city by a lecture to be given by Rev. W. A. Vrooman, of Vancouver, this evening in the Temperance hall.
—The favorite route from this city to Nanaimo is now by the Victoria & Sidney railway and steamer Inoquoia. Train leaves every Monday and Thursday at 7 a.m. Single fare \$1.50. Return, good for ten days, \$2.50.
—The charge against J. Patterson of stealing a watch, chain and charm off of the Queen City was remanded for hearing this morning until the 11th, at the request of A. L. Belyea, counsel for the prisoner.
—The popular steamer Rosalie sails at 9 a.m. daily, except Saturday, from Hudson's Bay Co.'s Wharf for Seattle and other Puget Sound points. E. E. Blackwood, Agent.
—Last evening at the residence of Wm. Brunelle, Rev. B. H. Balderston united in the holy bonds of matrimony Mr. Frederick Cameron, of Kamloops, and Miss Nellie Powers. The ceremony was private, only the immediate friends of the contracting parties being present.
—Another convincing suggestion of the mildness of Victoria climate is to be seen to-day in the windows of Messrs. Davies Bros., druggist, Government street, in the shape of a small quantity of strawberries grown in the garden of James Moss, Superior street. The fruit is large and apparently well matured, and but a sample of a fall crop which Mr. Moss has grown. It is safe to say that in no other part of Canada are the conditions of the weather favorable for the production of such fruit at this time of the year.

—After a prosperous run of 400 performances in New York city and 300 nights at the Shaftesbury theatre, London, "The Casino Girl," George W. Lederer's Casino musical extravaganza, arrived by the Rosalie this morning, and will be presented at the Victoria theatre to-night under the personal direction of Samuel E. Ross. The production is said to be one of the most magnificent stage conceptions that the Casino has ever sent forth. The libretto is by Harry B. Smith. Being a Casino production it is needless to state that the routine chorus will be much in evidence, and that it is composed of very pretty girls. The music was written by Ludwig Engländer, who has a peculiar knack of turning out jingly tunes.

AN ACTION ENTERED AGAINST THE PREMIER

Almost Five Thousand Shares in Dunsmuir Company Involved in Litigation—The Plaintiff's Claim.

Action has been entered in the Supreme Court of British Columbia by Jane Olive Dunsmuir, widow of the late Hon. Robert Dunsmuir, against her son, the Premier, Hon. James Dunsmuir. The writ was taken out on October 30th and requires an appearance within eight days.
The sum involved in the action is a very large one, the claim of the plaintiff being as follows:
(a) For the delivery of 4,908 shares in the R. Dunsmuir Sons Company, Limited, in pursuance of an agreement under seal, dated the 3rd day of September, 1896, and made between the plaintiff, the defendant and one Alexander Dunsmuir, deceased.
(b) For an account of all dividends and profits on or of the said shares received by the defendant from the 31st of January, 1900, and for payment to the plaintiff of what shall be found due to her upon the footing of the said account.
(c) For interest upon all such sums of dividends and profits received by the defendant from the date when the same were respectively received until payment thereof at the rate of five per cent. per annum.
(d) For a declaration that the defendant now holds and always has held the said shares as trustee for the plaintiff.
(e) For an injunction restraining the defendant from parting or otherwise dealing with the said shares.
Alexander Dunsmuir, referred to in the above, is the deceased son of Mrs. Dunsmuir, sr., Tupper, Peters & Griffin are acting for the plaintiff.
—A conference is being held this afternoon, it is understood, between the officials of the B. C. Electric railway and the city council to arrive at an understanding regarding the pavement of Government street. The railway company are indisposed to defray the expenditure involved in retracking consequent on the paving of the street and registered their objection in a communication to the council some time ago. Mr. Buntzen, the general manager of the company, is now in the city.
—It is not unlikely that a public meeting will be held in the city, probably on Monday evening, in regard to the vacancy in the representation of the city and the political situation generally. A number of out-of-town members, who will be here for the Governor's dinner, may be invited to speak.
—A lady residing in the Werk Estate was ferociously attacked by a cow which she was driving to pasture a few days ago. The animal had a calf with it and turned on the woman with little warning, tearing her dress and coming within an ace of seriously injuring her.
—His Honor the Lieut.-Governor will give a dinner to-morrow evening at the Union club in honor of the birthday of His Majesty the King. The members of parliament and others have been invited. To-morrow will be observed as a public holiday.
—The ball given at the Sail Loft at Esquimaux last evening was not given by the officers of the fleet as erroneously stated in another column, but by the captain and officers of H. M. S. "Warspite," as a farewell entertainment.
—Allan Jeeves, a teamster, was fined \$5 and costs in the city police court this morning for leaving his team on the streets unsecured. A tag was given until the 12th to leave town.
—Drill hall concert—patriotic songs and music to-morrow night.

SORE BACK.

Lumbago, pains in the back or side, soreness, swelling or inflammation, find no standing ground after an application of Griffiths' Liniment—penetrates in a minute, dispels the pain and stops the suffering. You will find it better than plaster.
Mr. Mack White, the well known trainer of the Toronto Lacrosse Club, and Osgoode Hall Football Club, writes: "I consider Griffiths' Menthol Liniment unequalled for athletes or those training. I have used it with the best success and can heartily recommend it for lumbago, stiffness, soreness, sprains and all forms of swelling and inflammation."

EARLY SETTLEMENTS IN SOUTH AFRICA

GIRLS FROM HOLLAND MARRIED THE SETTLERS

An Article by the Duke of Argyll on the First Boers—Treatment of the Slaves.

The marvellous successes of the Portuguese covered the coasts of Africa, Arabia and India with the forts which guarded the sea-washed territories they had discovered and merchants settled.

For all the conquerors of the East the Cape has been a half-way house to India. For a long time making no lasting settlements, it was only during the early years of the seventeenth century that any serious colonization was begun.

Each man was to have sixty acres of land. But each man was to have a wife. Now of the wisest part of the Dutch settlement, which was to keep itself free of "entangling alliances" with the natives, and to be formed of a white population, having only Dutch ideas.

The colonists had a grand council, and a "superior" and "inferior" court of justice; a court for marriages, and register the validity of marriages, and register the wills; three proclamations of bans on three separate Sundays having been held necessary, any "reason against" was not asked on the spot, but was to be brought before the court, and all lovers had to appear before the governor to ask his consent.

It they could only get drunk they were willing to sit in rags winter and summer in their cabins after working hours. They got meat and salt fish, rice or bread, and were not satisfied in their nourishment, but were said to be so lazy that they would only half cook their food.

There was a great mortality in 1707 among the slaves. The disease was probably smallpox. It spread to the white men, whose efforts to keep some degree of cleanliness among their slaves seemed hopeless.

Rewards for Slaves.

At Stellenbosch, where in 1741 Kolbe was stationed as secretary of that colony and of Drakenstein, a "furiosus lion" caused "by the ravage" and the Boers had not been able to kill it, when a slave from Ceylon distinguished himself by destroying it.

Most of the slaves came from Madagascar, although they had the reputation of being difficult to keep in order, and as being cruel and vindictive. The survivors were always hung if they killed others in their quarrels, and if a European suffered they were broken on the wheel.

At one time a few escaped, and got into country where they thought they would be free of the Dutch, electing a king and queen. They had stolen arms and provisions, and went towards Saldanha Bay and killed a superintendent and a slave also who had refused to join them. But there was a guard at Saldanha, and the party was captured and taken back to Capetown, when four were broken alive on the wheel, the "queen" hung, while the remainder were to look on at their comrades' execution with ropes round their necks, and then be severely flogged and marked with red iron.

All went fairly well, ulcers and sore eyes being the chief complaints besides those known as common in Europe. Hot water and mineral waters are spoken of as much used by the natives and of great value. The great waves and the high winds which blew about the dust were supposed to cause the trouble with the eyes, but the present course of the up-country, the enteric fever, is hardly noticed by the old writers.

We shall send out enough women and girls to make British homes and rear British families in every part of the country favorable to their settlement. We shall not burn Kafirs alive or flog them to death, but use them as necessary helps to that higher civilization of the land which consists in giving equal rights to all whites and carefully measured amount of participation in their own matters to the colored native population.

We have done this in other colonies as well as in the Cape, and now that gold and diamonds and all the wealth that brings many folks from many races together have been proved to be in the Cape Hinterland, the old Dutch exclusiveness must yield to the freer and more ennobling wide which gives all men a chance under the Union Jack.

KENTUCKY RABBIT HUNT.

A Gentleman from Mississippi was once visiting at the home of a gentleman in Kentucky when the host proposed a rabbit hunt. The guest was sorely offended until he learned that the rabbit hunt is one of the favorite sports of Kentuckians.

The Kentucky hunter learned a long time ago that the little cotton tail is even a bigger coward than is generally supposed. Every one who has seen the little animal knows that it is coward enough to run on all occasions.

CAREER AND CHARACTER OF ABRAHAM LINCOLN.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame.

FRENCH FOREIGN LEGION.

Facts About Membership, Characteristics and Services.

Much has been written from time to time about the French Foreign Legion, that strange, mysterious medley of men collected from nearly every corner of the earth, but chiefly from Germany.

Englishmen or British Subjects. In the corps when M. d'Esparbes was in Algeria. It is feasible to suppose that some of these British subjects were Maltese, and also, perhaps, Irish.

There are common legionaries who know five or six languages, and who can quote ancient and modern writers. Others are marvelous musicians, actors, accountants. When they die in the colonies or in battle they are thrown into a hole and covered up, but as M. d'Esparbes relates, there is generally a prayer said over the dead comrade by somebody who "blows in the pipes" for the occasion.

These Mysterious Men of the legion enter it one fine day, and as soon as they are clothed in uniform, sedulously endeavor to forget their past. They never speak of themselves, and they die as they lived in the legion—human enigmas.

These Mysterious Men of the legion enter it one fine day, and as soon as they are clothed in uniform, sedulously endeavor to forget their past. They never speak of themselves, and they die as they lived in the legion—human enigmas.

There are many young Belgians and others who are annually enticed by the notice affixed to the recruiting depot in Paris to the effect that "those who aspire to the honor of serving France can do so in the Foreign Legion."

so in the Foreign Legion." The aspirants enlist, and soon after their landing in Algeria they find that to be a soldier of the Legion means hard work in a hot climate, iron discipline, small pay, scant rations, and the post of greatest peril in battle.

All, however, who have had any experience of the legionaries attest that there can be no question of their bravery. They are always ready and willing to fight, and they gladly forget their sorrows, troubles, and privations amid the din of battle.

TIDE TABLE. Victoria, B. C., November, 1901. (Issued by the Tidal Survey Branch of the Department of Marine and Fisheries, Ottawa.)

A VILLAGE BLACKSMITH SAVED HIS LITTLE SON'S LIFE. Mr. H. H. Black, the well known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to cramp, and so had have the attacks been that we have feared many times that he would die."

"Pa?" said little Willie, asking his sixteenth question. "Well, my son?" "Pa, how'd the man who named the first bicycle know it was a bicycle?"

"If ten men should ask you to marry them what would that be?" "A tender." "And if one should ask you, what would that be?" "A don't know what?" "A wonder."

First Billionaire's Son—What did you get for your birthday? Second Billionaire's Son—I got a railroad. "That's nothing. I got a whole system." THE GREAT SERPENT OF ALL DISEASES—Kidney disease may well be called the "bon constricteur" disease, constricting and annihilating, it gets the victim in its coils and gradually tightens all life is crushed out, but the great South American Kidney Cure treatment has proved its power over the monster, and no matter how firmly entrenched, it will release, heal and cure. Sold by Jackson & Co. and Hall & Co.—158.

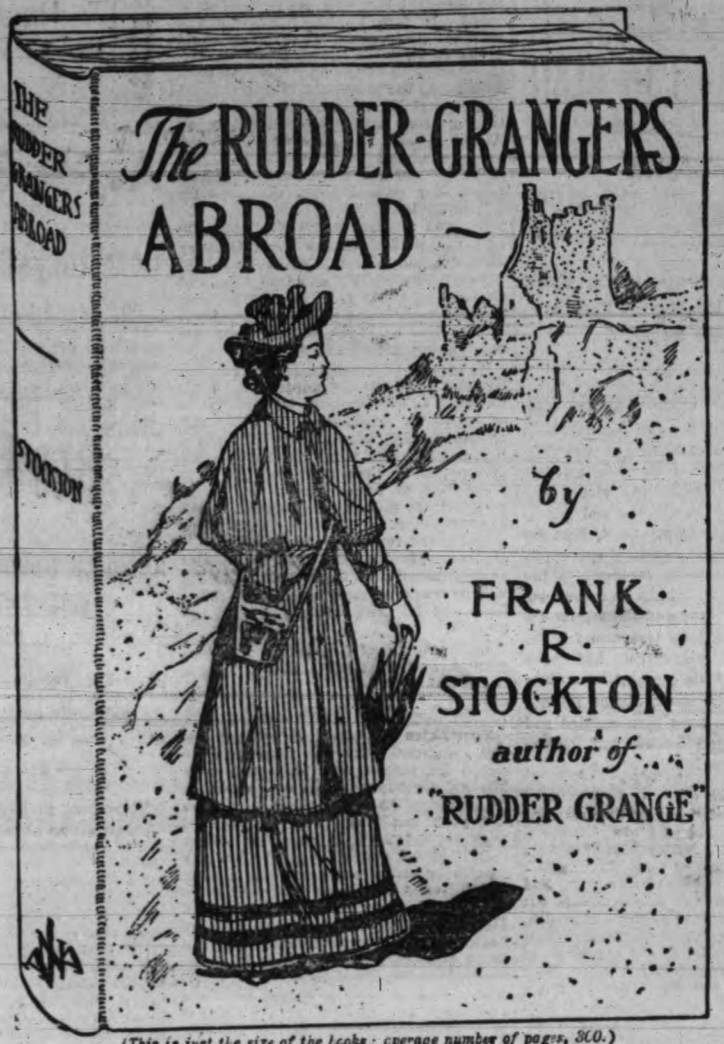

BOOK BUYING

Which Touches the Pocket Lightly.

We all like to have a few of the good new books lying about our libraries—books we have just read or intend reading. But we all know that new copyrighted works are expensive—\$1.25 and upwards a copy.

Only 25c a Copy. At this small outlay you can afford to buy four good new books each week for a few weeks, and in an incredibly short time you will possess a library of 20 Greatest Modern Novels.

And remember, every book is fresh from the binder's hands. It is wonderful that a new copyrighted \$1.25 book can be handed out to you for a quarter. But so it is, all because author and publisher surrender royalty and profit for a time in exchange for wide publicity, which means future benefit, but the big end of the bargain is where it ought to be—with the book-buying public.

(This is just the size of the books; coverage number of pages, 300.)

Simon Dale—By Anthony Hope (Author of "The Prisoner of Zenda.") The best of all "Nell Gwynn" stories. Romantic adventures in England and France with Charles II. and King Louis.

A Fair Barbarian—By Frances Hodgson Burnett (Author of "A Lady of Quality," "Through One Administration," etc. "Sweet Six" again. A humorous account of how prejudice was turned to admiration.

The Great K. & A. Train Robbery—By Paul Leicester Ford (Author of "Janice Meredith.") A delightful tale recounting the adventures of a Western railroad official's pursuit of three stolen letters of importance—also is winning of a very charming society girl's love.

I, Thou and the Other One—By Amelia E. Barr (Author of "The Bow of Orange Ribbon.") A love story of the days when the Reform Bill agitated all England. The mixture of love and politics is remarkably interesting.

GREEK FISHERMAN STABBED TO DEATH

MURDERER ESCAPED IN A FISHING SLOOP

Tragedy Occurred on Government Street Early This Morning—in Pursuit of the Sloop.

This morning about 1 o'clock Tom Netes, a Greek fisherman, was stabbed to death by Frank Nicholas, another fisherman, who escaped in his sloop and has not yet been captured.

The crime occurred on Government street, between Herald and Chatham, and was the fatal termination of a fight between the victim and his slayer.

The murderer is also a Greek. His description is as follows: Age 37 years, height 5 feet 6 or 7 inches, brown curly hair, light brown mustache, figure of a well-developed man.

Constantine Netes, brother of the murderer, says that trouble had existed between himself and the murderer for years. He last saw his brother in front of the Lighthouse saloon last night about 11 o'clock.

Immediately upon committing his terrible crime Nicholas rushed to the waterfront where his fishing sloop was anchored with the little fleet above the railroad bridge.

mitting, and his capture is only a matter of time.

The Pursuit.

As soon as they learned of the manner of the murderer's escape the police engaged the provincial police steam launch and started off in pursuit.

Outside, however, the conditions were vastly different. There was a high breeze, quite a sea and the night was dark as pitch.

On land a police patrol was established. Constables Carlow and O'Leary were detailed to keep a look out on shore between Beacon Hill and Oak Bay.

As soon as he was apprised of the tragedy and escape of the murderer the chief hastened to communicate with the authorities in the neighboring cities.

Williams Head quarantine was also notified, and the men there will keep a sharp lookout.

The murderer is also a Greek. His description is as follows: Age 37 years, height 5 feet 6 or 7 inches, brown curly hair, light brown mustache, figure of a well-developed man.

The murderer is also a Greek. His description is as follows: Age 37 years, height 5 feet 6 or 7 inches, brown curly hair, light brown mustache, figure of a well-developed man.

A post mortem will be held to-morrow, when further particulars will probably be obtained.

The whereabouts of the murderer of Tom Netes is still unknown. Water leaves no trail, but there is a strong possibility of the fugitive being located in one of the many bays that skirt this part of the island.

The Sadie can make about eight knots an hour and should be able to cover quite an area. The provincial police are co-operating with the local sleuths and the murderer will have his work cut out to avoid the net which it is expected will be woven around him.

SALMON MARKETS FOUND IN ORIENT

REGULAR SHIPMENTS TO LEAVE THIS CITY

Dodwell Liner Queen Adelaide Brings Advice of Loss of Large Japanese Merchant Steamer.

There was yesterday forwarded from Victoria one of the most interesting reports of salmon that has ever left British Columbia. It was the initial consignment from this province for far-away India and for points on the coast of Java and in the Straits Settlements.

The present move is an innovation, not only in the salmon business of British Columbia, but a new feature to the commerce of the Pacific.

The other vessels which sailed for the United Kingdom before the Charies Cotesworth were the Blythe, the Largo, the Law, the Connaught, the Pacific, the British ship Red Rock and the bark Santa are now on the river loading, while the Ballachulish has just left for the Fraser.

LARGE JAP STEAMER LOST

Cargo and crew only was brought by steamer Queen Adelaide, of the Dodwell Oriental line, which arrived from Kobe direct this morning.

The Sadie can make about eight knots an hour and should be able to cover quite an area. The provincial police are co-operating with the local sleuths and the murderer will have his work cut out to avoid the net which it is expected will be woven around him.

pedo boat destroyer Murakumo left Saigo for the scene of the disaster in the morning at 5:45 and the Usugumo followed her at 6:20.

The Warspite, which leaves this station early next month for home, will spend some time in visiting the stations in the south, and on or about March 28th she will be relieved by H. M. S. Grafton.

It is not expected that H. M. S. Phaeton will get away before January. The Grafton, however, will sail at the same time as the Warspite, but she will only accompany her as far as Cape Flattery.
