# Introduction to Phabricator: what is Phabricator?

- Project management tool, primarily for software projects
- Management of "tasks"
- Easier collaboration / working together

# Introduction to Phabricator: ...down the memory lane...

Wikimedia closed  
Bugzilla in 2014 and  
migrated to Phabricator.

[https://www.mediawiki.org/wiki/Phabricator/versus\\_Bugzilla](https://www.mediawiki.org/wiki/Phabricator/versus_Bugzilla)

← → ↻ static-bugzilla.wikimedia.org

## Bugzilla

This is the static, read-only HTML version of Wikimedia Bugzilla.

Bugzilla was replaced by [Wikimedia Phabricator](#) in November 2014. All bug reports were migrated to Phabricator's corresponding task in Wikimedia Phabricator instead.

You can find old bugs and historical activity in this static HTML version. Example links:

- [bug1.html](#)
- [activity1.html](#)

Replace '1' with your bug number.

Links in the original Bugzilla format such as [show\\_bug.cgi?id=42](#) or [show\\_activity.cgi?id=23](#) also work and are

So you can simply add "static-" to old Bugzilla URLs to get here.

- [links to all bugs](#)
- [links to all activities](#)

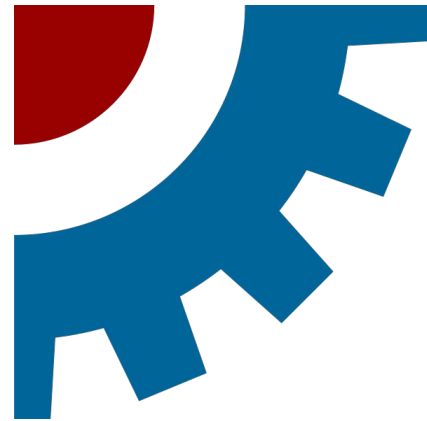

---

foot note: since [T281538](#) this archive of historic tickets is now a [Kubernetes](#) service. If you see any issues you can

# Getting started:

head to [phabricator.wikimedia.org](https://phabricator.wikimedia.org)

login either

- with MediaWiki account
- or developer account

The screenshot shows the Phabricator website homepage. The browser address bar displays <https://phabricator.wikimedia.org>. The page features a dark blue header with the Phabricator logo and name. A left sidebar contains navigation links under the heading "Wikimedia Phabricator", including "PROJECT MANAGEMENT" (Tasks & Bugs, Projects & Tags) and "CODE" (Source Repositories, Gerrit Code Review, gitlab.wikimedia.org, Developer Blogs, Wikimedia Tech blog). The main content area has a "Welcome to Wikimedia Phabricator!" heading, a "New here?" input field, and a paragraph explaining that Phabricator is a collaboration platform for Wikimedia contributors. Below this is a list of actions: "Report a software bug (guidelines)", "Report a security issue (guidelines)", "Create a feature or enhancement request", "Create a generic task", and "Learn what happens after reporting a ticket here".

Click the *MediaWiki* button below to connect your [Wikimedia unified account](#). Alternatively, click the *Wikitech Account (LDAP)* button to connect your [Developer account](#) credentials. In case of doubt, [check the Phabricator Help](#).

### Welcome to Wikimedia Phabricator!

Phabricator is a collaboration platform open to all Wikimedia contributors. It is mostly used for managing work in software projects. Non-technical initiatives are welcome as well.

- Report a software bug (guidelines).
- Report a security issue (guidelines).
- Create a feature or enhancement request.
- Create a generic task.
  - Learn what happens after reporting a ticket here.
- Learn to use Phabricator (including videos) or ask questions about Phabricator itself.
- For Wikimedia software maintainers: Request a project to use Phabricator for planning.
- For general Wikimedia development questions, see Communication instead.
- To test and experiment with Phabricator, go to [phab.wmflabs.org](https://phab.wmflabs.org) instead.

Tue, Apr 11

Mohammed\_Sadat\_WMDE created T334450: Change Property datatypes from string to External Identifier.

Tue, Apr 11, 10:17 AM - Wikidata Dev Team, Wikidata

Thu, Apr 6

Mohammed\_Sadat\_WMDE updated the task description for T334197: Improve Special:Mergeitems for qualified and not-qualified IDs.

Thu, Apr 6, 12:54 PM - Wikidata

Mohammed\_Sadat\_WMDE renamed T334197: Improve Special:Mergeitems for qualified and not-qualified IDs from *Special:Mergeitems for qualified and not-qualified IDs* to *Improve Special:Mergeitems for qualified and not-qualified IDs*.

Thu, Apr 6, 12:49 PM - Wikidata

Mohammed\_Sadat\_WMDE created T334197: Improve Special:Mergeitems for qualified and not-qualified IDs.

Thu, Apr 6, 12:47 PM - Wikidata

Mar 7 2023

Mohammed\_Sadat\_WMDE created T331394: Out-of-sync data in the Wikidata database.

Mar 7 2023, 11:40 AM - wmde-wikidata-tech, Wikidata

# Creating Tickets: common use cases

- Track activity - creating tasks to keep track of work progress and assign work to team members
- Bug report - a problem that is producing incorrect or unexpected results
- Feature request - an idea that a development team can add to the MediaWiki software to make it even more awesome

# Example Ticket: Tracking an activity

<https://phabricator.wikimedia.org/T317461>

The screenshot shows a browser window with the Phabricator logo and navigation bar. The address bar contains the URL <https://phabricator.wikimedia.org/T317461>. The page title is "Maniphest > T317461". There is a search bar and a "Create Task" button.

## ✔ Clean up Dagbani Wikimedians mailing lists

✔ Closed, Resolved   Public

### Description

#### Problem

- Dagbani mailing lists have duplicates on different platforms
- Mailing lists needs help with moderation
  - process subscription request
  - clear spam

#### Let's fix this

- ✔ Create an open community list: [dagbani@lists.wikimedia.org](mailto:dagbani@lists.wikimedia.org) **T274582**
- ✔ Appeal for new moderators for [dagbani@lists.wikimedia.org](mailto:dagbani@lists.wikimedia.org)
- ✔ Assign new moderators to [dagbani@lists.wikimedia.org](mailto:dagbani@lists.wikimedia.org)
- ✔ Manually subscribe users from the parallel Google Groups community list
- ✔ Delete Google Group
- ✔ Create management or team-only list: [dagbani-kpamba@lists.wikimedia.org](mailto:dagbani-kpamba@lists.wikimedia.org) **T317851**
- ✔ Appeal for new moderators for [dagbani-kpamba@lists.wikimedia.org](mailto:dagbani-kpamba@lists.wikimedia.org)
- ✔ Assign new moderators to [dagbani-kpamba@lists.wikimedia.org](mailto:dagbani-kpamba@lists.wikimedia.org)
- ✔ Update groups description with moderators contact listed on the page

## Improve Special:Mergeltems for qualified and not-qualified IDs

Open, Needs Triage

 Public

BUG REPORT

### Description

#### User story:

When using Special:Mergeltems to merge two Wikidata Items, if ItemA has a statement X with one or more qualifiers and ItemB has the same statement X without qualifiers, the two statements are kept separate in the merged Item.

#### Problem:

After merging such cases, I had to manually remove the statement that lacked qualifiers and references.

#### Steps to replicate the issue (include links if applicable):

- Go to [Test Wikidata](#)
- Create ItemA and add statement X with 1+ qualifier(s).
- Create ItemB and add statement X without qualifiers.
- Use the Special:Mergeltems to merge ItemA and ItemB.
- Observe that the two statements for X are kept separate in the merged Item

#### Example:

In [this edit](#), the statement for GND ID ([P227](#)) with value 1057744190 was duplicated after merging.

# Example Ticket: Feature request 2

<https://phabricator.wikimedia.org/T286332>

The screenshot shows a Phabricator ticket page. At the top, the Phabricator logo and navigation icons are visible. The breadcrumb trail reads "Maniphest > T286332". A search bar and a "Create Task" button are also present. The main heading of the ticket is "Add Gungbe language (guw) to monolingual codes", which is marked as "Closed, Resolved" and "Public".

**Description**

Add the [Gungbe language \(guw\)](#) to monolingual codes.

It is supported in translatewiki, and there is a Wikipedia Incubator in it.

It is needed for lexemes as well as for native names of Gungbe people

The alphabet is a variant of Latin, and the native name is "gunbge".

Sample use: *missing*

# Requesting/creating your own project

- [https://www.mediawiki.org/wiki/Phabricator/Creating\\_and\\_renaming\\_projects](https://www.mediawiki.org/wiki/Phabricator/Creating_and_renaming_projects)
- Special permission required to create projects yourself.
- Create a task to request a project. Someone will create it for you.
- It is also possible to create forms (some fields pre-filled). See <https://www.mediawiki.org/wiki/Phabricator/Help/Forms>

# Requesting/creating your own project: example request

<https://phabricator.wikimedia.org/T289909>

You can make  
a simple  
request to  
create a  
project.

Remember to  
tag  
Phabricator  
Admins  
Project-Admins

The screenshot shows a Phabricator task page. At the top, the Phabricator logo and name are visible, along with a search bar and a 'Create Task' button. The task title is 'Create "Dagbani-Sites" board', with status 'Closed, Resolved' and visibility 'Public'. The description reads: 'I'd like to request that a project be created for Dagbani-Sites, tp be used to tag and manage issues related to the Dagbani family of languages.' The activity log shows several updates: 'Masssly created this task.' (Aug 28, 12:12 PM), 'Restricted Application added a subscriber: Aklapper.' (Aug 28, 12:12 PM), 'Masssly renamed this task from Create "Dagbani-Sites" tag for DannyS712 to Create "Dagbani-Sites" board.' (Aug 28, 12:13 PM), 'Masssly updated the task description.' (Show Details), 'Masssly added a project: Project-Admins.' (Aug 28, 12:16 PM), and 'Masssly updated the task description.' (Show Details). A comment from Peachey88 asks for confirmation: 'Just to confirm, Is this for the language projects in general, or the Usergroup that was linked to?'. A comment from Masssly is also present. On the right, there are options to edit the task, related tasks, and objects, as well as notification settings and assigned users (Aklapper). The 'Assigned To' section shows Aklapper, and the 'Authorized By' section shows Masssly. The 'Tags' section includes 'Project-Admins (Projects to create)'.

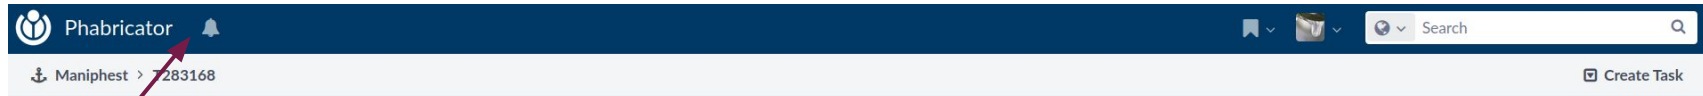

# Requesting/creating your own project: the workboard

<https://phabricator.wikimedia.org/tag/wikidata/>

The workboard for a project gives an overview of set of tasks related to the project.

The screenshot shows the Phabricator interface for the Wikidata project. The top navigation bar includes the Phabricator logo, a search bar, and navigation links for 'Natural', 'Open Tasks', and settings. The main content area is a grid of task cards, each representing a specific issue or task. The cards are organized into columns based on their status: 'incoming (Default)', 'needs discussion or investigation', 'ready to go', and 'consider for next sprint'. Each card displays a task ID, a title, a description, and various tags such as 'Wikidata Query Builder', 'Language codes', 'BUG REPORT', and 'Patch-For-Review'. The left sidebar contains a navigation menu with options like 'Wikidata', 'Workboard', 'Open Tasks', 'Burnup Graph', 'Grafana Graph', 'Tech Focus', 'Tech Focus+', 'In Iterations', 'Assigned Tasks', 'Patch-For-Review', 'Regressions & Production', 'Tech Debt', 'Past Events', 'Created This Month', and 'Untouched in 2 Years'. The Wikidata logo is prominently displayed at the top left of the workboard area.

remove special configurations for Dagbani in Wikibase code

Closed, Resolved  Public

## Description

Dagbani is now fully supported in MediaWiki core as all the [most used messages have now been translated](#).

If special configurations for Dagbani in the Wikibase code were made to allow support for lexemes or Wikidata terms: e.g. if `dag` was added to the special list of languages in which lexemes are allowed, then they should now be removed.

see:

- [T273625](#)
- [wikidata: add Dagbani to wmgExtraLanguageNames](#)

## Details

Project	Branch	Lines +/-	Subject
 operations/mediawiki-config	master	+0 -2	Remove special configurations for Dagbani in Wikibase code
 mediawiki/extensions/Wikibase	master	+2 -2	Change monolingual languages configuration

📌 Maniphest > T262269 📄 Create Task

## 🗨️ Make Serbian (sr-el) language available for terms (labels/descriptions/aliases)

🔒 Closed, Declined 🌐 Public 8 Estimated Story Points

### Description

As a Wikidata editor, I want Serbian (sr-el) to appear under my languages in the termbox when I add sr-el to my babel template, so that I can add labels and descriptions.

See [Wikidata:Contact the development team#sr-el](#)

#### Problem:

sr-el is not properly picked up by the termbox as a preferred language if it is on the user's user page.

#### BDD

GIVEN a user page with a babel template listing sr-el as a spoken language by the user  
WHEN viewing an Item page  
THEN sr-el is available for viewing and editing in the termbox as a preferred language

#### Acceptance criteria:

- users with sr-el in their babel box can edit terms in sr-el as a preferred language

#### Notes:

- See Nikki's comments for some very useful investigation: [T262269#6536578](#)
- See also [T117845: Rename the language codes sr-ec and sr-el to the BCP 47 conform codes sr-Cyrl and sr-Latn](#)

# Tips and Tricks :) search

[https://phabricator.wikimedia.org/maniphest/query/AvsinpKG\\_Hn0/#](https://phabricator.wikimedia.org/maniphest/query/AvsinpKG_Hn0/#)

Use the  
Advanced  
search to  
filter for  
more  
options

The screenshot shows the Phabricator web interface. The browser address bar displays the URL `https://phabricator.wikimedia.org/maniphest/query/AvsinpKG_Hn0/#R`. The page title is "Maniphest > Advanced Search". On the left, a sidebar lists various query filters such as "Assigned", "Newest Open Tasks", "Open Tasks", "Authored", "Resolved by me", "Subscribed", "Open + Subscribed", "Unbreak Now! (Newest first)", "Unbreak Now! (Oldest first)", "Wikimedia-Incident - To Triage...", "MediaWiki Train Deployments", "#RelEng To Triage - Oldest first", "Privacy Engineering (Incoming)", "Security (Needs Triage)", "Security Team (Incoming)", "Security Team (Back Order) Bu...", "Security Team (In Progress) By ...", "Security Team (Watching) No ...", "Security Team (In Progress) Bu...", "Security Team Assigned But N...", "Security Readiness Reviews (In...", "WMCS extended backlog", and "Edit Queries...". The main content area is titled "Advanced Search" and contains several search filters:

- Query:
- Assigned To:
- Tags:
- Authors:
- Subscribers:
- Statuses:
- Priorities:
- Subtypes:
- Open Parents:
- Open Subtasks:
- Group By:
- Order By:
- Spaces:
- Due Date After:
- Due Date Before:
- Other Assignee:
- Reference:

Buttons for "Hide Query" and "Use Results" are located in the top right of the search area. A "Create Task" button is visible in the top right corner of the page.

# Tips and Tricks :) language

<https://phabricator.wikimedia.org/settings/user/Masssly/page/language/>

Change  
Phabricator  
UI  
languages:

Settings

-->

Account

-->

Language

The screenshot shows a web browser window with the URL <https://phabricator.wikimedia.org/settings/user/Masssly/page/language/>. The page title is "Edit Settings: Masssly". The left sidebar contains a navigation menu with categories: ACCOUNT (Date and Time, Language), APPLICATIONS (Diff Preferences, Display Preferences, External Editor, Notifications), AUTHENTICATION (Contact Numbers, External Accounts, Multi-Factor Auth, SSH Public Keys, VCS Password), DEVELOPER (Developer Settings), and EMAIL (Email Addresses, Email Delivery). The main content area is titled "Edit Settings: Masssly" and contains a "Language" section. It includes the instruction "Choose which language you would like the UI to use." and a dropdown menu for "Translation" set to "Default (English (US))". Below that, it says "Choose the pronoun you prefer." and a dropdown menu for "Pronoun" set to "Masssly updated their profile". A "Save Changes" button is located at the bottom right of the settings area. At the bottom of the page, there is a footer with legal notices: "Content licensed under Creative Commons Attribution-ShareAlike 3.0 (CC-BY-SA) unless otherwise noted; code licensed under GNU General Public License (GPL) or other open source licenses. By using this site, you agree to the Terms of Use, Privacy Policy, and Code of Conduct. · Wikimedia Foundation · Privacy Policy · Code of Conduct · Terms of Use · Disclaimer · CC-BY-SA · GPL".

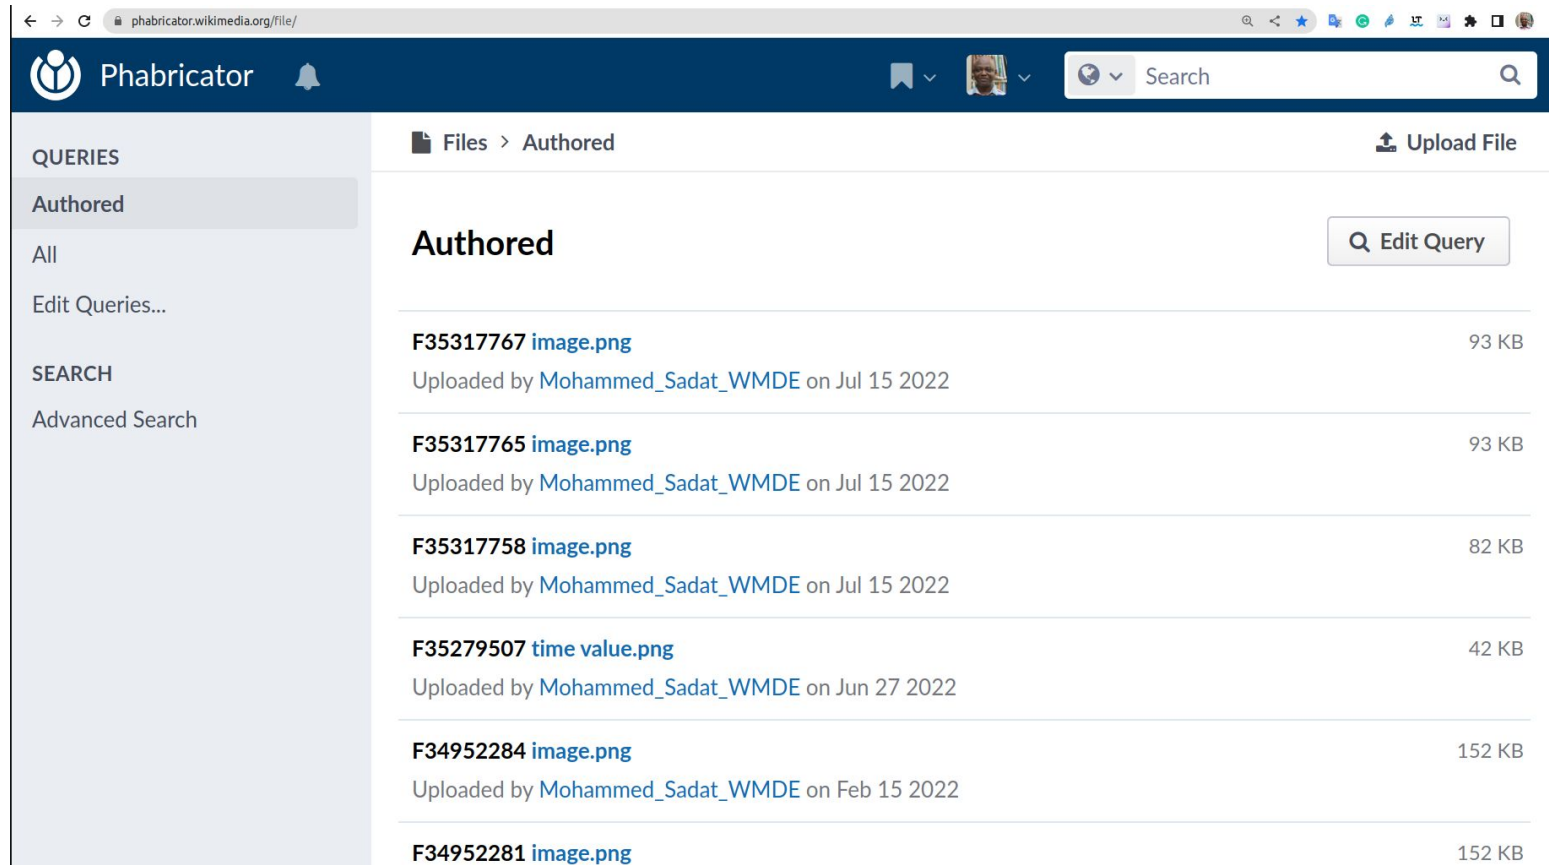

# Tips and Tricks :) file uploads

Upload files by going to

<https://phabricator.wikimedia.org/file/>

or by simple drag and drop the file when you're on the Phabricator main page

<https://phabricator.wikimedia.org>

The screenshot shows the Phabricator web interface. The browser address bar displays `phabricator.wikimedia.org/file/`. The page header includes the Phabricator logo, a notification bell, a user profile dropdown, and a search bar. The main content area is titled "Files > Authored" and features an "Upload File" button in the top right. A left sidebar contains navigation options: "QUERIES" (with "Authored" selected), "All", "Edit Queries...", "SEARCH", and "Advanced Search". The main area displays a list of files under the heading "Authored" with an "Edit Query" button. The list contains five entries, each showing a file ID, name, type, upload date, and size.

File ID	File Name	Type	Upload Date	Size
