The people of the State of California do enact as follows:

SECTION 1. The state board of control is hereby authorized to purchase at their face value, to the extent of not exceeding the total amount hereinafter appropriated, any or all warrants of the Sacramento and San Joaquin drainage district drawn by the state controller as provided in the reclamation board act and payable out of the assessment of the reclamation board known and designated as Sutter-Butte by-pass assessment number six and issued in payment for the expense of continuing construction of the east levee of the Sutter by-pass, or in payment for rights of way or other necessary expenses incident to the prosecution of said work. Purchase by state of drainage district warrants.

SEC. 2. Auditing of claims.

SEC. 3. The board of control is hereby authorized to enter into contracts, upon such terms and conditions as said board may impose, for the purchase of all or any of the warrants which it is hereby authorized to purchase. And the said board Contracts for purchase of warrants.

Urgency
measure.

SEC. 6. The legislature hereby declares that it deems it necessary for the immediate preservation of the public health and safety that this act shall go into immediate effect, by reason of the following facts, to wit: That unless a sufficient levee along the east side of the Sutter by-pass is constructed without delay, the effect of the levees and other works already constructed under public authority along the west side of the Sutter by-pass and the south side of the Tisdale by-pass will be to cause the spring floods of the year 1919 to overflow and greatly damage a large area of valuable land east of the Sutter by-pass, and to imperil the health and safety of the inhabitants thereof; that the plans of the state for flood control in the Sutter basin contemplate the construction of the east levee of the Sutter by-pass, and that the construction of this levee has been commenced, and in large part completed, by the reclamation board and paid for with warrants against said assessment. but the reclamation board is unable to obtain further prosecution of said work by the issuance of warrants in payment therefor; that without the passage of this act said work can not be further prosecuted until said assessment has been completed and approved and in part collected, which will be not earlier than six months from this time. That the provisions of this act will enable the reclamation board to complete said levee in time to protect said lands to the east of said by-pass, and the inhabitants thereof, against the damage and injury which would otherwise result from the spring floods of the year 1919: that the portions of said east levee already constructed at large expense will also suffer great damage and

injury unless the work is prosecuted diligently to completion. And it is hereby declared that this act constitutes an urgency measure which under the provisions of section one of article four of the constitution of the State of California shall go into immediate effect.

CHAPTER 8.

party for the same office upon complying with the requirements of this act, but no person shall be entitled to become a candidate for more than one office at the same election. No more than one affidavit need be filed by any candidate, even though he is the candidate for nomination by more than one political party. In no case shall the secretary of state, county clerk, or city clerk, place the name of any candidate on this ballot or certify any such name to be placed thereon unless the requisite affidavit has first been filed as herein provided.

6. Except in case of a candidate for nomination to a judicial, school, county, township or municipal office, the basis of percentage in each political party shall be the vote polled for such party's candidate for governor, at the last preceding November election at which a governor was elected, in the state or in that political subdivision for which the candidate is proposed for nomination; *provided*, that such candidate for governor was the candidate of such political party alone. If such party's candidate for governor was not the candidate of such party alone, the basis of percentage shall be the vote polled at said election by that one of such party's candidates voted on throughout the state who received the greatest number of votes of all of such party's candidates who were the candidates of such party alone. But if no candidate voted on throughout the state was the candidate of such party alone, then the basis of percentage shall be the vote polled at said election by that one of such party's candidates voted on throughout the state who received the greatest number of votes of all of such party's candidates who were the candidates of such party in conjunction with one or more other parties.

If the change occurs outside the limits of any county or city and county, the secretary of state shall determine such vote of each party in such new political subdivision by adding together for each party the vote for such party's candidate for governor in the counties which now are combined to make up such new political subdivision. In the same way that the highest vote for each party in each new political subdivision is ascertained, shall also be ascertained the total vote at such election as is required to be determined by the provisions of subdivision eight of this section. Every political party qualified to participate in the primary election by the provisions of subdivision nine of section one of this act, for nomination by which party there shall have been filed nomination papers for one or more candidates containing a sufficient number of signatures, shall be entitled to a separate party ticket at the primary election; but all such party tickets must be alike in the designation of candidates for judicial, school, county, and township offices.

8. In the case of a candidate for nomination to a judicial, school, county, township or municipal office, nomination papers shall be signed by not less than one-half of one per centum, nor more than two per centum of the total vote cast at the last general election in the state or political subdivision thereof in which such candidate for judicial or school, county, or township office seeks nomination.

9. Nothing herein shall be construed as prohibiting the independent nomination of candidates as provided by section one thousand one hundred eighty-eight of the Political Code, as said section reads at the time of said nomination; except that a candidate for whom a nomination paper has been filed as one of the candidates for nomination to any office on the ballots of any political party at a primary election held under the provisions of this act, and who is defeated for such party nomination at such primary election, shall be ineligible for nomination as an independent candidate, or as a candidate named by a party central committee to fill a vacancy as provided in section twenty-five of this act, for the same office at the ensuing general election; and no person shall be permitted to file nomination papers for a party nomination and an independent nomination for the same office, or for more than one office at the same election. Nor shall any person whose name has been written in upon any ballot or ballots for any office at any primary election, have his name placed upon the ballot as a candidate for such office at the ensuing general election, except under the provisions of said section one thousand one hundred eighty-eight of the Political Code or of section twenty-five of this act providing for the filling of vacancies by party central committees, unless at such primary election he shall have

received for such office votes equal in number to the minimum number of signatures to the nomination paper which would have been required to be filed to have placed his name on the primary ballot as a candidate for nomination to such office.

10. The officer with whom nomination papers are filed shall keep a record in which he shall enter the names of every person presenting the same for filing, the name of the candidate, the title of the office, the party, if any, and the time of filing.

If such vacancy occurs among candidates chosen at the primary election to go on the ballot for the succeeding general election for a judicial, school, county, township, or municipal office according to the provisions of section twenty-three of this act, in which case that candidate receiving at said primary election the highest vote among all the candidates for said office who have failed to receive a sufficient number of votes to get upon said ballot according to the provisions of said section twenty-three, shall go upon said ballot to fill said vacancy; *provided, however*, that if the vacancy occurs in a case where, by reason of having received a majority vote at the primary election, only one person is entitled to have his name printed upon the ballot at the ensuing November election, the names of the two candidates receiving the next highest vote at the primary election, if there were such number, shall be placed upon the ballot for the November election; *and provided, further*, that a vacancy authorized to be filled by the provisions of this section shall be filled and certified to the officer charged with the duty of printing the ballots twenty-five days before the day of election.

[Approved May 5, 1919. In effect July 22, 1919.]

The people of the State of California do enact as follows:

SECTION 1. Section two thousand six hundred forty-three of the Political Code is hereby amended to read as follows:

2643. The boards of supervisors of the several counties of the state shall have general supervision over the roads within their respective counties. They must by proper order:

3. Abolish or abandon such as are not necessary. Abandon.

4. Acquire the right of way over private property for the use of public highways, and for that purpose require the district attorney to institute proceedings, under title seven, part three, of the Code of Civil Procedure, and to pay therefor from the general road fund or the district road fund of the county. Right of way.

5. Levy a property tax for road purposes. Road tax.

8. Audit all claims on the funds set apart for highway purposes, and specify the fund, or funds, from which the whole or any part of any claim, or claims, must be paid. Audit claims.

9. In their discretion, they may provide for the establishment of gates on the public highways, in certain cases, to avoid the necessity of building road fences, and prescribe rules and regulations for closing the same, and penalties for violating said rules; *provided*, that the expense for the erection and maintenance of such gates shall in all cases be borne by the party or parties for whose immediate benefit the same shall be ordered. Gates.

Sprinkling.

10. For the purpose of sprinkling the roads in any part of the county with oil or water, the board of supervisors may erect and maintain waterworks and oil tanks and reservoirs, and for such purposes may purchase or lease real or personal property. The costs of such waterworks, oil tanks and reservoirs and the sprinkling of said roads with oil or water may be charged to the general county fund, the general road fund, or the district fund of the district or districts benefited.

Work costing over \$1,000.

Whenever it is determined by a four-fifths vote of the board of supervisors of any county that the public convenience and necessity demand the acquisition or construction of a new road in excess of three miles in length or the grading, regrading, paving or macadamizing of any existing road, in excess of three miles in length, and that the cost of such new road when acquired and constructed, or the cost of grading, regrading, paving or macadamizing such existing road, will be too great to pay out of any of the road funds of the county, the board of supervisors may, by resolution passed by a four-fifths vote of said board, determine to acquire or construct such new road, or grade, or regrade, pave, or macadamize such existing road, and if the cost of such new road when constructed, or the cost of grading, regrading, paving or macadamizing such existing road, when completed, shall exceed three thousand dollars, such cost may be charged to the general county fund, the general road fund or the district fund of the district or districts benefited.

Surveyor to submit estimates of cost.

11. Whenever it shall be determined that any grading, graveling, macadamizing, ditching, sprinkling, or other work upon highways is necessary, and is to be done, and where the estimated cost of such work amounts to more than one thousand dollars, the board of supervisors must, by proper order, direct the county surveyor to make definite surveys of the proposed work, and to prepare profiles and cross-sections thereof, and to submit the same with the estimate of the amount or amounts of work to be done, and cost thereof, and with specifications thereof. Said report shall be prepared in duplicate, one copy to be filed in the surveyor's office, and the other to be filed with the clerk of the board of supervisors. The board upon receipt of such report must advertise for bids for the performance of the work specified. Such advertisement for bids must be published prior to the day fixed for the opening of bids, for at least once a week for a period of two weeks in a newspaper of general circulation printed and published in the county.

Advertising for bids.

Specifications for this work are on file in the office of the said board, to which bidders are hereby referred.

Clerk of the board of supervisors of the county of _____.”

Bids must be inclosed in sealed envelope, addressed to the clerk of the board of supervisors, and must be indorsed, "Bids for _____," and must be delivered to said clerk prior to the hour specified in the advertisement. The board shall publicly open and read such bids as may be submitted, and must award the contract for the work to the lowest bidder; unless it shall appear to the board that the bids are too high, and the work can be done more cheaply by day labor, in which case the bids must be rejected, and the work ordered done by the road commissioner, or commissioners, in whose district or districts the work may be situated. In case the work shall be let by contract, monthly or quarterly payments may be made thereon upon the receipt of a certified estimate by the county surveyor of the amount of work done during the preceding month or quarter, to the extent of seventy-five per cent of the value of said work, the remaining twenty-five per cent being due on the completion of the work. Upon the completion of the work, the county surveyor must examine the same, and if completed in accordance with the specifications thereof, he must submit to the board of supervisors a certificate over his signature and official seal to the effect that such work by the contractor therefor, has been completed in accordance with the specifications therefor, and recommending its acceptance. The board shall thereupon audit the same and direct its payment out of the proper fund or funds.

Award of bids.

Examination by county surveyor.

Whenever any county has adopted a county charter under article eleven, section seven and one-half of the constitution of the State of California, providing for the appointment of a road commissioner as a county officer, and the organization of a permanent road department for the construction and maintenance of highways and bridges, the board of supervisors of such county shall have charge of construction, maintenance and repair of all highways and employ an engineer as road commissioner to have charge of the construction and the repairing and maintenance of all roads in such county, under the orders and direction of said board, and may employ such workmen and purchase such materials, equipment, tools and appliances as may be necessary to construct and maintain said roads and to keep them in repair, the cost of such construction, maintenance and repair to be paid out of the county road funds or the general fund of the county, as provided for by the law.

In counties with charter.

12. In their discretion, they may set apart on any public road or highway a strip of land for a side path, and make an order designating the width of such path and cause the lines separating the path from the road to be located and marked by stakes or posts, placed at such distances apart as they shall deem proper. After said paths have been set apart,

Side paths.

and the lines separating the same from the road have been located and marked, as aforesaid, the use of the same is hereby restricted to pedestrians and riders of bicycles and other vehicles propelled solely by the power of the rider.

Expense of erecting and maintaining such path may be charged to the general county fund, the general road fund, and the district fund of the district or districts benefited.

Use of
highway in
adjoining
county.

13. The boards of supervisors of any county in the state may by and through an ordinance duly passed permit the use of any of its public highways connecting with any main public highway of an adjoining county by the board of supervisors or highway commissioners of such adjoining county, for the purpose of constructing and maintaining thereon a highway or boulevard serving the needs of residents of both counties; and the board of supervisors of any such adjoining county, if it accepts the provisions of the ordinance adopted by the board of supervisors of the county granting the use, shall have the power to construct and maintain any such highway or boulevard, or to construct or maintain such bridge or bridges on such highway or boulevard as it may deem necessary, or to macadamize, pave, curb or gutter such highway or boulevard in such manner as it may determine, and the cost or expense thereof shall be paid out of the general fund of the county treasury, or such other fund as the board of supervisors may designate, or which shall otherwise be provided, of the county to which the use is granted. The board of supervisors of any counties proceeding under the provisions of this act may acquire real property adjacent to such public highway in an adjoining county for county purposes, and may expend thereon such funds as said board of supervisors shall deem necessary for county purposes. The boards of supervisors of any counties proceeding under the provisions of this act may by mutual consent, expressed through ordinances of the respective boards, retransfer the use, control, maintenance and jurisdiction of any highway or boulevard constructed under the provisions hereof to the county originally granting the use.

(a) Where there is not sufficient light within the lateral boundaries of the public highway to reveal all persons, vehicles or other substantial objects within said boundaries for a distance of at least two hundred feet, and all times during the period from a half hour after sunset to a half hour before sunrise, every automobile while on the public highway shall carry at the front at least two lighted lamps, and every such automobile and every trailer, at the times and under the conditions in this section hereinbefore specified, shall carry at the rear a lighted lamp exhibiting a red light plainly visible, under normal atmospheric conditions, for a distance of five hundred feet toward the rear and so constructed and placed that the number plate carried on the rear of such automobile or trailer shall be illuminated by a white light in such manner that the number thereon can be plainly distinguished under normal atmospheric conditions at a distance of not less than fifty feet toward the rear; *provided, however*, that where more than one trailer is attached to a motor vehicle, only the rear trailer shall be required to exhibit said light. At the times and under the conditions in this section hereinbefore specified, all other vehicles, except bicycles, motoreycles and motor trucks of two tons carrying capacity or over which are so governed or mechanically constructed or controlled that they can not, exceed a speed of fifteen miles per hour, shall carry one or more lighted red lamps or lanterns so arranged that said red lamp or lamps shall be visible from every direction for a distance of not less than two hundred feet.

Tail lights.

Horse-drawn vehicles.

(b) At the times and under the conditions in this section ^{Bicycles.} hereinbefore specified, every bicycle while on the public highway shall carry a lighted lamp visible under normal atmospheric conditions at least three hundred feet in the direction toward which such bicycle is faced, and shall also carry at the rear of such bicycle a reflex mirror or a lighted lamp exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least two hundred feet toward the rear.

(c) At the time and under the conditions in this section ^{Motorcycles.} hereinbefore specified, every motorcycle while on the public highway shall carry at the front at least one lighted lamp which shall give a light of sufficient power and so distributed as provided in subdivision (f) and shall also carry at the rear of such motorcycles a lighted lamp, exhibiting a red light plainly visible under normal atmospheric conditions for a distance of at least two hundred feet towards the rear.

(d) At the time and under the conditions in this section ^{Motor trucks.} hereinbefore specified, every motor truck of two tons carrying capacity or over, which is so governed or mechanically constructed or controlled that it can not exceed a speed of fifteen miles per hour, shall carry at the front at least two lighted lamps which shall be visible at least two hundred feet in the direction in which the motor truck is proceeding, and when the vehicle is proceeding on a street or highway not so lighted as to reveal any person, vehicle or substantial object on the street or highway straight ahead of such motor truck for a distance of at least two hundred feet, such front light shall be sufficient to reveal any person, vehicle or substantial object on the road straight ahead for a distance of seventy-five feet or over, and shall be equipped with a tail light such as is required on other motor vehicles.

(e) In any case where a motor or other vehicle shall be loaded with any material in such a manner that any portion of such load extends toward the rear four feet or more beyond the rear of the bed or body of such vehicle, there shall be displayed at the extreme end of the load, at the times and under the conditions in this section hereinbefore specified, in addition to the ordinary rear or tail light hereinbefore required to be displayed on such vehicle, a red light plainly visible under normal atmospheric conditions at least two hundred feet from the rear; *provided, further*, that at other times while such ^{Over-hanging loads.} vehicle is upon the highway a red flag or cloth not less than sixteen inches in length nor less than sixteen inches in width shall be displayed at the extreme rear end of said load as a warning signal to persons operating vehicles approaching from the rear.

(f) At the times and under the conditions in this section ^{Headlights.} hereinbefore specified the headlights of all automobiles upon the highways shall give a light of sufficient power and so distributed as provided herein in addition to and irrespective

of any other requirements concerning headlights in this section contained. The term "headlight" as used herein, shall denote any light, located upon any portion of the said motor vehicle other than on the windshield, the windshield supports or top thereof, the rays of which are projected forward, except sidelights of not to exceed four candle power; *provided, further*, anything to the contrary notwithstanding, that where there is sufficient light within the lateral boundaries of the public highway within any incorporated city, town or city and county, to reveal all persons, vehicles or substantial objects within said boundaries for a distance of two hundred feet, no lights shall be required to be displayed on any vehicle while the same is not in operation, providing that a wheel of such standing vehicle nearest the sidewalk is located within twelve inches of such sidewalk.

Sidelights

lights not
required.

Candle
power.

(g) The headlights of motor vehicles shall be so arranged, adjusted, and constructed when the car is fully loaded, that any pair of headlights under the conditions of use must produce a light which:

1. When measured on a level surface on which the vehicle stands at a distance of two hundred feet directly in front of the car and at some point between the said level surface and a horizontal passing through the top of the headlight reflector or lens, is not less than one thousand two hundred apparent candle power.

2. When measured at a point one hundred feet directly in front of the car, and at a height of sixty inches above the level surface on which the vehicle stands, does not exceed two thousand four hundred apparent candle power nor shall this value be exceeded at a greater height than sixty inches.

3. When measured at a distance of one hundred feet ahead of the car and seven feet or more to the left of the axis of same, and at a height of sixty inches above the level surface on which the vehicle stands, does not exceed eight hundred apparent candle power.

Tests of
devices
for
controlling.

(h) Any device or adjustment used in connection with a light upon a motor vehicle to enable the same to comply with the requirements of subdivision (f) hereof shall not be used upon a motor vehicle operated upon the highways of this state until the same shall have been tested as provided herein; such test shall be made by a skilled testing agency, appointed for that purpose by the superintendent of motor vehicle department and such tests shall be laboratory tests according to the following specifications:

Specifications. Two pairs of samples of the device submitted shall be subject to test. In the case of front glasses the sample shall be of nine and one-fourth inches diameter when practicable.

The reflectors used in connection with the laboratory tests shall be of standard high-grade manufacture of one and one-fourth inch focal length, with clean and highly polished surfaces and as nearly truly paraboloidal in form as practicable,

and as approved for this purpose by the testing agency selected by the superintendent of the motor vehicle department. Specifications.

The incandescent lamps used in connection with the laboratory test shall be of standard high quality manufacture and as approved for this purpose by the testing agency selected by the superintendent of motor vehicle department.

The manufacturer of the device shall be given due notice of the date and place of test. Manufacturers' representatives present at the test shall be privileged to adjust their devices in any way which represents an ordinary and legitimate adjustment including tilting the lamps or reflectors, which can be carried out by purchasers of the device, or such adjustment may be made by the laboratory expert acting on the instructions of the manufacturer. The character of the adjustments so made shall be carefully noted and stated in the report as manufacturer's adjustment.

The tests shall be as follows:

Test 1. Four-point test of pairs of samples. A pair of testing reflectors, mounted similarly to the headlamps on a car shall be set up in a dark room, or at the request of the applicant, out of doors in darkness under such conditions that no light thrown or reflected from any source other than from the device being tested shall materially affect the test readings, at a distance of not less than sixty feet, nor more than one hundred feet from a vertical white screen. If a testing distance of one hundred feet is taken the reflectors shall be set twenty-eight inches apart from center to center, and if a shorter testing distance is taken, the distance between reflectors shall be proportionately reduced. The axes of the lamps shall be parallel and horizontal, or as tilted in accordance with the manufacturer's adjustment. The intensity of the combined light shall then be measured with each pair of samples in turn, with the reflectors fitted with a pair of each of the following types of incandescent lamps in turn:

(1) Vacuum type, 6-8 volts, 17 msep.

(2) Gas-filled type, 6-8 volts, 20 msep.

The lamps shall be adjusted to give their rated candle power. Measurements shall be made at the following points at the surface of the screen:

A. In the median vertical plane parallel to the lamp axes, on a level with the lamps.

B. In the same plane one degree of arc below the level of the lamps.

C. In the same plane one degree of arc above the level of the lamps.

D. Four degrees of arc to the left of this plane and one degree of arc above the level.

In an acceptable device both pairs of samples shall conform to the following specifications for observed apparent candle power. Points A and B. At at least one of these points the

apparent candle power shall not be less than one thousand two hundred. Point C. The apparent candle power shall not exceed two thousand four hundred. Point D. The apparent candle power shall not exceed eight hundred; *provided, however*, that if the test indicates that a device which is unacceptable with either of the test lamps will come within the specifications with lamps of another candle power or of the other type, the device may be passed with corresponding limitations as to the incandescent lamps to be used in connection with it.

Test 2.

Test 2. Complete test of single sample.

A single sample taken as an average representative of the device as manufactured shall be submitted to a complete test with a vacuum incandescent lamp of seventeen candle power 6-8 volt rating. This test shall show its light distribution characteristics by actual measurements made according to recognized and exact methods.

One pair of the samples shall be retained by the testing agency for the purpose of future reference and as samples of construction and the other pair shall be returned to the office of the superintendent of the motor vehicle department.

The report of the tests shall be rendered in duplicate to the superintendent of the motor vehicle department, and shall be signed or initialed not only by the expert making the test, but also by an executive officer of the institution making the test.

It shall include a statement by the testing agency or the testing official as to whether or not the device when properly applied substantially complies with the requirements of section thirteen of the California motor vehicle act.

Report to
local
authorities.

(i) The superintendent of the motor vehicle department shall immediately upon the completion of the tests made as herein provided, prepare a written report of the results of such tests and transmit a copy thereof to the clerk of each county within the State of California, who shall thereupon immediately file such report. A copy shall also be sent to the city, town or county traffic departments, whose duty it is to enforce the law. The superintendent of the motor vehicle department shall endorse upon such report the statement of the testing agency or the testing officials as to whether or not the said device when properly applied, substantially complies with the requirements of section thirteen of the California motor vehicle act.

Home-
made
devices.

(j) It shall be unlawful for any manufactured device that is sold commercially to be used in connection with the headlight upon a motor vehicle to enable the same to comply with the provisions of subdivision (f) hereof unless such device shall have been first tested as provided in subdivision (h) hereof, and the testing agency shall have reported that such device, when properly applied, substantially complies with the requirements of section thirteen of the California motor vehicle act; and such reports shall have been incorporated in the said report of the said superintendent of the

motor vehicle department and a copy thereof filed in the office of the clerk of the county in which said device is used and a copy sent to city, town or county traffic departments whose duty it is to enforce the law.

(k) Any person, firm or corporation may submit to the superintendent of motor vehicle department a device for controlling the front lights of motor vehicles, so that they shall comply with the provisions of this section, together with an application that such device be tested as prescribed by this section. Such applicant shall pay to the motor vehicle department a fee of fifty dollars. Thereupon the superintendent of motor vehicle department shall upon notice to the applicant submit such device to the testing agency appointed for this purpose as hereinbefore provided with the request that it be tested as to its compliance with the provisions of this section. Upon notice from such testing agency that such test has been made and that such device, when properly applied, substantially complies with the provisions of this section, and specifying the maximum candle power to be used therewith, the superintendent of motor vehicle department shall issue a certificate to the applicant describing the device, certifying that such test has been made, that the device, when applied, complies with the provisions of this section and prescribing the said maximum candle power to be used therewith. All fees paid into the department with said applications shall be paid into the state treasury and deposited in a fund to be known as the "testing fee fund", and the moneys in said fund are hereby appropriated, or so much thereof as may be necessary to meet the expenses of the test provided for in this section, and the balance thereof, if any, after meeting all expenses incurred in connection with said test shall be paid into the motor vehicle fund. Diffusing type of lens may be used with a candle power not sufficiently great to produce a dangerous glare. The maximum of such candle power shall be established by the testing agency selected by the superintendent of the motor vehicle department, based upon tests as herein above provided. Any device so certified shall be equipped with light bulbs labeled with the true candle power thereof, not exceeding that prescribed.

Diffusing lens.

(l) The term "spotlights" as used herein shall denote any light fastened to the windshield, the windshield support or top of a motor vehicle, the rays of which are projected forward, except sidelights of not to exceed four candle power.

Spotlights.

All spotlights used upon motor vehicles shall be so constructed or arranged that no portion of the main, substantially parallel beam of light when measured one hundred feet or more ahead of said lights shall rise or shall be capable of being raised from the driver's seat, to more than forty-two inches above the level surface upon which the vehicle stands directly ahead of such vehicle.

SEC. 10 $\frac{1}{2}$. Section fifteen of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Cleats, etc.
on tires.

Sec. 15. (a) Other than on vehicles actually engaged at the time in construction or repair work on public highways, no tire on any motor or other vehicle operated on or over any public highway or bridge shall have on its periphery any block, stud, flange, cleat, ridge, bead or any other protuberance of metal or wood which projects beyond the tread or traction surface of the tire; but this section shall not be so construed as to prohibit the use of tire chains of reasonable proportions on motor vehicles when required for safety because of snow, ice or other conditions tending to cause such motor vehicle to slide or skid; *provided, however*, that traction engines or tractors the propulsive power of which is exerted not through wheels resting upon the ground but by means of a flexible band or chain, known as a movable track, may be operated upon the public highways with transverse corrugations upon the periphery of said movable tracks, on condition that a permit shall first have been obtained as hereinafter in this section provided.

Total
weight
limit.

(b) No motor or other vehicle shall be operated on or over any public highway or bridge, nor shall any object be moved over or upon any public highway or bridge on wheels, rollers, or otherwise, except when transported in or upon vehicles running exclusively on stationary rails or tracks, in excess of a total weight, including load, of thirty thousand pounds, when said motor or other vehicle or contrivance is equipped with four wheels running on the highway, or in excess of a total weight, including load, of forty thousand pounds when said motor or other vehicle or contrivance shall be equipped with six wheels running on the highway and with three axles not less than ninety-six inches apart, without first obtaining a permit as hereinafter in this section provided.

Weight
limit per
inch of
tire width.

(c) No motor or other vehicle or other object, or contrivance for moving loads, except as hereinafter otherwise provided, shall be operated or moved upon or over any public highway or bridge, the weight of which resting upon the surface of said highway or bridge exceeds eight hundred pounds upon any inch of width of tire, when said vehicle is equipped with tires made of other material than metal; and no motor or other vehicle, object, or contrivance for moving loads shall be operated or moved upon or over any public highway or bridge the weight of which resting upon the surface of said highway or bridge exceeds six hundred pounds upon any inch of width of tire, roller, wheel or other object supported on the surface thereof when such tires or the rolling surface of such rollers, wheels or other objects are made in whole or in part of metal, without first obtaining a permit as hereinafter in this section provided; *provided, however*, that traction engines or tractors the propulsive power of which is exerted not through wheels

resting upon the ground but by means of a flexible band or chain, known as a movable track, shall not be subject to the foregoing limitations upon permissible weights per inch of width of tire if the portions of the movable tracks in contact with the surface of the highway present plane surfaces; *and provided, further*, that cities heretofore or hereafter organized under freeholders' charters may permit or prohibit the increase, beyond the maximum weight per inch of width of tire hereinabove prescribed, of the weight of loads carried within the limits of such cities in or upon metal-tired vehicles drawn by muscular power, but where any such city has not by proper and suitable ordinance or other regulation permitted or prohibited such increase of maximum weight of loads, the regulations and limitations prescribed by this act shall not apply.

In freeholders' charter cities.

The supervisors of any county shall have power to require a lighter load on county roads in their respective counties. Any person violating the provisions of this subsection shall be guilty of a misdemeanor and is liable to a penalty of twenty dollars for each full ton in excess of the limitation herein imposed, and any peace officer making the arrest of the owner or driver of any vehicle violating the provisions of this subsection shall keep said vehicle with its load in his custody until such time as said penalty shall have been paid; *provided*, that the owner or driver of any such vehicle may give to said peace officer a bond in favor of the State of California in case of state highways, and in the name of the county in which the offense has occurred in the case of county roads, conditioned to secure the payment of said penalty within the time prescribed in said bond. Furthermore, any peace officer may require the owner or the driver to drive any such vehicle to the nearest public scales to be designated by such peace officer for the purpose of establishing the weight and the load of any such vehicle.

Regulation by county.

Penalty

(d) No motor vehicle shall be operated or driven over any public highway or bridge drawing or having attached thereto more than two trailers; *provided*, that all four-wheeled trailers excepting light camping trailers shall be equipped with suitable brakes.

Trailer limitation.

(e) Anything to the contrary herein notwithstanding, upon application in writing to the state department of engineering, said department of engineering in its discretion may issue a special permit to the owner or operator of any vehicle allowing heavier or wider loads than hereinabove in this section or elsewhere in this act permitted to be moved or carried over and on the public highways and bridges, or allowing more than two trailers to be drawn by a motor vehicle; and may also issue such special permit to increase the permissible weights per inch of width of tire and may also permit the use of corrugations on the periphery of the movable tracks of traction engines or tractors propelled not by wheels resting upon

the ground but by flexible bands or chains. Such permits shall be in writing and they may limit the time of use and operation over the particular highways and bridges which may be traversed and may contain such special conditions and provisions and require such undertaking or other security as the said department of engineering shall deem to be necessary to protect the public highways and bridges from injury, or provide indemnity for any injury resulting from such operation. All such special permits shall be carried in the vehicles to which they refer and shall upon demand be open to the inspection of any peace officer, any authorized agent of the department of engineering or of the motor vehicle department, or any officer or employee charged with the care or protection of the public highways. It shall be unlawful for any person to violate, or to cause or permit to be violated, the limitations or conditions of such special permits and any such violation shall be deemed for all purposes to be a violation of the provisions of this act.

Weight on
bridges, et.c.

(f) Anything to the contrary herein notwithstanding, the state department of engineering may in its discretion limit the maximum load to be carried over or on any public bridge, causeway, viaduct, trestle or dam, below the maximum established by law; *provided, however*, that in such event said department of engineering shall cause suitable signs to be erected and maintained, specifying such limitation of load, such signs to be placed at a distance of not less than one hundred feet nor more than one hundred fifty feet from the approaches to such bridge, causeway, viaduct, trestle or dam.

Liability
for
damages.

(g) Anything to the contrary in this act notwithstanding, the owner and the operator, driver or mover of any vehicle, object or contrivance over a public highway or bridge, shall be jointly and severally responsible for all damages which said highway or bridge may sustain as the result of so operating or driving or moving such vehicle and the amount of such damages may be recovered in an action at law by the authorities in control of such highway or bridge.

SEC. 12. Section twenty of said act approved May 10, 1915, as amended as aforesaid, is hereby amended to read as follows:

Sec. 20. (a) The driver or operator of any vehicle in or upon any public highway shall drive or operate such vehicle in a careful manner with due regard for the safety and convenience of pedestrians and of all other vehicles or traffic upon such highway, and wherever practicable shall travel on the right-hand side of such highway. Two vehicles which are passing each other in opposite directions shall have the right of way, and no other vehicle to the rear of either of such two vehicles shall pass or attempt to pass such two vehicles. On all occasions the driver or operator of any vehicle in or upon any public highway shall travel upon the right half of such highway unless the road ahead on the left-hand side is clear and unobstructed for at least one hundred yards ahead and in all cases while crossing an intersecting highway. For the purposes of this section and its subdivisions, an animal or animals attached to any conveyance shall, with such conveyance, be deemed to constitute one vehicle.

Rules of
the road.

Right side
of road.

(b) Vehicles proceeding in opposite directions shall pass each other to the right, each giving to the other one-half the road as nearly as possible.

Passing
vehicles.

(c) Vehicles overtaking other vehicles proceeding in the same direction shall pass to the left thereof and shall not again drive to the right until reasonably clear of such overtaken vehicle.

Overtaking
vehicles.

(d) It shall be the duty of the driver, rider or operator of a vehicle about to be overtaken and passed to give way to the right in favor of the overtaking vehicle, on suitable and audible signal being given by or on behalf of the operator, driver or other person in charge and control of such overtaking vehicle if such overtaking vehicle be a motor vehicle.

(e) Vehicles must be operated so as to allow a safe distance between such vehicles and any persons, vehicles or animals preceding them upon the highway, and outside of the business district of any county, incorporated city and county, city or town, contiguous to a public highway as such business district is defined in this act, no vehicle shall, while in motion, be closer than fifteen feet to any vehicle, person or animal in front thereof.

Distance
between
vehicles.

(f) Excepting where controlled by such traffic ordinances or regulations as are permitted under this act the operator of a vehicle shall yield the right of way at the intersection of their paths to a vehicle approaching from the right unless such vehicle approaching from the right is further from the point of the intersection of their paths than such first named vehicle.

Intersec-
tions, right
of way.

(g) Any vehicle traveling on a public highway which is divided longitudinally by a parkway or an isle of safety, shall keep to the right of such parkway or isle of safety unless otherwise directed by the provisions of any ordinance, rule or regulation of competent local authorities.

(h) It shall be the duty of the person operating or in charge of an overtaking vehicle to sound audible and suitable signal before passing a vehicle proceeding in the same direction.

Turning
at inter-
sections.

(i) All vehicles approaching an intersection of a public highway, with the intention of turning thereat shall in turning to the right keep to the right of the center of such intersection, and in turning to the left shall run beyond the center of such intersection, passing to the right thereof, before turning such vehicle toward the left. For the purposes of this subdivision the "center of such intersection" shall be held to mean the meeting point of the medial lines of the two highways traversed by the vehicle making the turn.

Horses, pre-
cautions on
meeting.

(j) In all passing and overtaking such assistance shall be given by the occupants of each vehicle respectively to the other as the circumstances shall reasonably demand in order to obtain clearance and avoid accidents; every person having control or charge of any motor vehicle or other vehicle upon any public highway and approaching any vehicle drawn by a horse or horses, or any horse upon which any person is riding, shall operate, manage and control such motor vehicle or other vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses and to insure the safety and protection of any person riding or driving the same; and if such horse or horses appear frightened the person in control of such motor vehicle or other vehicle shall reduce its speed, and if requested by signal or otherwise by the driver or rider of such horse or horses shall not proceed further toward such animal or animals unless such movement be necessary to avoid accident or injury, until such animal or animals be under the control of the driver or rider thereof.

(k) The operator of any vehicle shall not operate or drive the same so as to pass or overtake any other vehicle going in the same direction at any street intersection unless directed so to do by a traffic or police officer.

Slowly-
moving
vehicle.

(l) The person in control of any vehicle moving slowly along and upon any public highway shall keep such vehicle as closely as practicable to the right-hand boundary of the highway, allowing more swiftly moving vehicles reasonably free passage to the left.

Mirror
required,
when.

(m) No person shall operate or drive any motor vehicle that is so covered, loaded or constructed as to obscure the driver's view of the highway to the rear, nor any vehicle which is so covered, loaded or constructed that any portion thereof to the rear of the driver projects more than twelve inches beyond the extreme left side of the driver's seat, unless there is placed on said vehicle a mirror so located as to reflect to the driver a view of the highway for at least two hundred feet behind such vehicle.

Arm
signals.

(n) The person in charge of any vehicle in or upon any public highway, before turning, stopping, or changing the course of such vehicle, and before turning such vehicle when starting the same, shall see first that there is sufficient space for such movement to be made in safety, and if the movement or operation of other vehicles may reasonably be affected by such turning, stopping or changing of course, shall give plainly

visible signal to the persons operating, driving or in charge of such vehicles of his intention so to turn, stop, or change his course, either by the use of his hand and arm, which shall be visible from the rear, or by the use of an approved mechanical or electrical device. Any such device shall upon application to the motor vehicle department be tested and certified as adequate to give the signal herein required, in the same manner and upon the payment of the same fee as in the case of headlights.

When the signal required by this section is given by the use of the hand and arm the intention to turn such vehicle toward the right or the left shall be indicated by extending the hand and arm horizontally from and beyond the side of the vehicle toward which the turn is to be made or by extending the hand and arm vertically with the hand pointing upward from the side opposite the direction toward which the turn is to be made; when the signal to be given is to indicate the intention to stop a vehicle or to abruptly or suddenly check its speed, such signal if given with the hand and arm shall be given by extending the hand and arm out from and beyond either side of the vehicle and pointed in a downward direction.

(o) In passing any railroad, interurban or street car while passengers are alighting from or boarding the same, vehicles shall be operated or driven on the right hand side of such cars and at a rate of speed not exceeding ten miles an hour and no portion thereof or of any load thereon shall come within six feet of the running board or steps of such cars, and shall at all times be operated with due care and caution so that the safety of such passengers shall be assured; *provided, however,* that where local authorities have plainly marked upon the surface of the highway safety zones for the protection of such passengers, vehicles shall not, at any time, be operated or driven within such zones; *provided, further,* that said safety zones shall only be marked at street corners or at other regularly established stations or stopping places of such railroad, or interurban, or street cars, and shall not extend beyond seven feet toward the boundary of the highway from the outer rail of such railroad, interurban or street car line.

(p) Every motor vehicle when moving in defiles, canyons, or mountain passes where the curvature of the road or highway prevents a clear view for a distance of one hundred yards shall be held under control and not permitted to coast and the operator thereof in approaching curves shall give a warning of his gong or other adequate signaling device.

(q) No vehicle except vehicles operated by the fire department or police department of any incorporated city and county, city or town, shall be turned so as to proceed in the opposite direction except at an intersection of the public highway. In so turning vehicles shall pass beyond and around the center of such intersection. This provision shall not apply except in a business district or closely built up territory, as such district and such territory are defined in this act.

Police and
fire depart-
ment
vehicles.

(r) Police and fire department vehicles shall at all times be equipped with a siren and it shall be unlawful for any other vehicle to be equipped with or use such a device.

(s) Vehicles of the police or fire department of any incorporated city or county, city or town, shall in all cases while being operated as such, have right of way over all other vehicles with due regard to the safety of the public; but this provision shall not protect the driver or operator of any such vehicle or his employer or principal from the consequence of the arbitrary exercise of this right, nor shall it be construed as permitting the violation by the operators of any such vehicles of any of the provisions of section twenty-two of this act, except the operators of police vehicles when such vehicles are being operated in the chase or apprehension of violators of the law or of persons charged with or suspected of any such violation.

(t) Upon the approach of any police or fire department vehicle it shall be the duty of the operator of any street car, upon the sounding of a signal by such police or fire department vehicle, to stop such street car forthwith, unless at the time such street car is crossing an intersection of the public highways, in which event it shall be operated so as to clear the intersection of the highways and then stopped, and every other vehicle shall immediately be moved to a position as near as possible and parallel to the right-hand curb, and shall remain there until the police or fire department apparatus has passed such vehicle.

Fire
hydrants
protected.

(u) No person shall hitch or leave standing, or cause or permit to be hitched or left standing, any animal, or leave standing or cause or permit to be left standing, any vehicle, or stop or cause or permit to be stopped any animal or vehicle at any time upon the public highway within fifteen feet of any public fire hydrant located upon the public highway or sidewalk, unless such animal is under the charge of some person capable of driving the same or unless such vehicle is in the charge of some person capable of operating or driving the same.

Width of
vehicle.

Luggage,
trunks, etc.

(v) No motor or other vehicle as defined in this act shall be operated or driven on or over any public highway or bridge if the outside width of tread exceeds one hundred twelve inches or if the total outside width of the bed of said vehicle and any load thereon shall exceed one hundred two inches, nor shall any pleasure type automobile be operated on or over any public highway or bridge if any luggage, package, trunk, crate, box or other load carried thereon extends to the left side more than twelve inches beyond the body of such automobile; *provided, however*, that any city now or hereafter organized under freeholders' charter may permit or prohibit an increase beyond the maximum hereinbefore prescribed of the total outside width of the beds of vehicles and any loads thereon, where such vehicles are operated or driven and said loads are carried wholly within the limits of said city, but where any such city

of San Francisco; and said commissioners, in addition to a general control over said premises shall have authority to use for loading and landing merchandise, with a right to collect dockage, wharfage and tolls thereon, such portion of the streets of the city and county of San Francisco, ending or fronting upon the waters of said bay as may be used for such purposes without obstructing the same as thoroughfares; and authority to rent an office in the city and county of San Francisco, between Montgomery, Market and Pacific streets and the city front; and purchase from time to time suitable books for the records of the secretary and accounts of the wharfingers, together with such stationery as may be required by the board; and to fix and regulate, from time to time, the rates of dockage, wharfage, cranage, tolls and rents; and collect such an amount of revenue therefrom as will enable the commissioners to perform the duties required of them by authority of this article.

Wharves.

The commissioners shall construct such number of wharves as the wants of commerce shall require, and shall locate such wharves at such points and upon such lines as the board may deem most suitable for the best interests of commerce, and shall repair and maintain all the wharves, piers, quays, landings and thoroughfares the wants of commerce may require, and generally to erect all such improvements as may be necessary for the safe landing, loading and unloading, and protection of all classes of merchandise, and for the safety and convenience of passengers passing into and out of the city and county of San Francisco by water. And for the purpose of repairing said wharves, piers, quays and landings, the commissioners are hereby authorized and empowered to purchase or construct pile drivers, and the necessary machinery to be used therewith, and employ men for operating the same; nor shall any such wharf be constructed upon such place or line as will cause any slip or dock to be less than one hundred and thirty-six feet wide at the most narrow point between the wharves. without advertising for proposals therefor. When they determine that a new wharf shall be erected, or any other necessary improvement constructed, or repairs made, or dredging machines, pile drivers, scows, steam tugs, or any necessary machinery or material obtained, the costs of which shall exceed three thousand dollars, they shall advertise for sealed proposals for a period not less than ten days, in one or more of the daily newspapers in the city and county of San Francisco. Every proposal shall be accompanied by a certified check for an amount equal to five per cent of the amount of such proposal, such check to be made payable to the order of the secretary of

said board; conditioned, if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute the contract and give the bond required within six days after the award is made, in that case, the said sum mentioned in said check shall be paid into the state treasury by said secretary, as liquidated damages for such failure and neglect, as a portion of the San Francisco harbor improvement fund. Such advertisement shall contain a general description of the work to be done, the material to be used, the place where to be used, and must refer to specifications, which must contain a full and accurate description of the work to be performed, the material to be used, and where it is to be used; which specifications shall be kept in the office of the secretary of the board in such manner that all persons may inspect the same during the usual business hours of all days except Sundays and holidays. On a day named in the advertisement, the commissioners shall open the bids in the presence of such bidders as are present, and award the contract to the lowest bidder, who shall furnish sufficient sureties to guarantee the performance of the work. If, in the opinion of the commissioners, the bids are too high, they may reject them, and advertise anew in like manner as before. If, in the opinion of the commissioners, the second bids are too high, they may reject them likewise, and enter into contract with responsible parties without giving further notice. Any contract entered into without giving public notice and receiving bids, must be at least ten per cent lower than the lowest rejected bid. The board may construct such harbor embankment or seawall as shall be necessary to protect the harbor of San Francisco, and dredge such number of slips and docks as the commerce of the port of San Francisco may require, to a depth that will admit of the easy and free ingress and egress of all classes of watercraft that load and discharge cargoes at the wharves, piers, quays, landings, and thoroughfares in the harbor of San Francisco; to perform which dredging the board of state harbor commissioners are hereby authorized and empowered to purchase or construct dredging machines, scows, steam tugs, and the necessary machinery, and employ men for operating the same. When any portion of the premises described in this article shall be dredged, the sand, mud, or other substance shall be deposited in a place designated by the board, in not less than fifteen fathoms of water. All classes of watercraft that uses or makes fast to any wharf, pier, quay, landing, or thoroughfare, and lands upon or loads therefrom any goods, wares, or merchandise, shall be liable and must pay the commissioners such rates of dockage as shall be fixed by authority of this article; and all such watercraft as shall discharge or receive any goods, wares, or merchandise, while moored in any slip, dock or basin within the jurisdiction of the commissioners, shall pay one-half the regular rates of dockage. Any watercraft that shall leave any wharf, pier, quay, landing, thoroughfare, slip, dock, or basin, unless forced to do so by stress of weather, without first paying the

dockage due from such vessel, shall be liable to pay double the regular rates. The charge for wharfage and tolls shall be a lien upon all goods, wares and merchandise landed upon any of the wharves, piers, quays, landings or thoroughfares upon the premises described in this article; and the commissioners, their agents or lessees, may hold possession of any such goods, wares, or merchandise so landed as aforesaid, to secure the payment of such wharfage and tolls; and for the purpose of such lien are deemed to have possession of such goods, wares and merchandise so landed until such charge for wharfage and tolls are paid. The commissioners shall have power to make reasonable rules and regulations concerning the control and management of the property of the state which is intrusted to them by virtue of this article, and said commissioners are hereby authorized and required to make, without delay, and from time to time, and publish not less than thirty days in a daily newspaper of general circulation published in the city and county of San Francisco, all needful rules and regulations not inconsistent with the laws of the state or of the United States in relation to the mooring and anchoring of vessels in said harbor, providing and maintaining free, open, and unobstructed passageways for steam ferryboats and other steamers navigating the waters of the bay of San Francisco and the fresh-water tributaries of said bay so that such steamers can conveniently make their trips without impediment from vessels at anchor or other obstacles. And said commissioners may also make all needful rules and regulations governing the removal of such vessels from the wharves and other landings, and from slips and docks as are not engaged in receiving or discharging cargo, prescribing the time during which goods, wares, and merchandise landed upon any wharf, pier, quay, landing, or thoroughfare shall be permitted to remain thereon, and may divide the same into several classes, and may, by such rules and regulations, provide that in case any such goods, wares, or merchandise remain upon any wharf, pier, quay, landing, or thoroughfare beyond the term so prescribed, the respective wharfinger may, under the order of the commissioners, remove and deposit the same in a suitable place, at the charge, risk, and expense of the owner thereof. When any goods, wares, or merchandise shall have remained upon any wharf, pier, quay, landing, or thoroughfare more than twenty-four hours, the commissioners may, in their discretion, charge such additional rates for each subsequent day as in their opinion is just and equitable. The commissioners may, in their discretion, set apart and assign for the exclusive use of the water craft used by the officers of the federal government, such convenient and safe landings as such officers may require, together with suitable premises near such landings as may be set apart and assigned for their use, upon which premises such officers may cause to be erected offices and storehouses to suit their convenience; and the commissioners shall charge a reasonable compensation per month for the use of such landings and

office and storehouse premises; set apart and assign a suitable and proper locality for the use of the harbor police of the city and county of San Francisco, and also a suitable place for a boathouse station, for the exclusive use of the quarantine and health officers of said city and county, without compensation; set apart and assign, for the exclusive use of steam ferryboats, suitable slips, in which such structures may be erected as will secure the safe and convenient landing of passengers and safe landing and delivery of freight; set apart and assign suitable wharves, berths, or landings for the exclusive use of vessels; to construct suitable sheds, gates and other temporary structures as may be necessary for the safe and convenient landing of passengers and safe landing and delivery of freight; and set apart and assign, for the sole and exclusive use of the fishermen of the city and county of San Francisco, such place or places as the said commissioners shall deem proper, sufficient, and adapted for the requirements and necessities of said fishermen; *provided*, the premises set apart by said commissioners shall be used only for the legitimate business of said fishermen, and for no other purpose; *and provided*, said commission shall charge said fishermen for the use thereof such rates as said commission shall fix from time to time. The commissioners may assign suitable places for the landing of horses, cattle, sheep, swine; and when such places have been assigned, it shall be a misdemeanor for a commander of any water craft to land any greater number than ten at any one time from any water craft at any other place. The commissioners may set apart, for the uses and purposes of dry docks and marine railways, such portions of the waterfront northwesterly of the northerly end of Kearny street, and southerly of the easterly end of Solano street, as the wants of commerce may require. The commissioners shall not have the right to renew any lease, or to lease any premises under their control for any purpose whatever, except as otherwise specially provided, but they may permit any property under their control to be used by any corporation, firm, association, person, or company, but in no case shall any corporation, firm, association, person, or company enjoy the use of any of the property under the commissioners' charge, except such use as shall be terminated as herein provided; and the said commissioners may condemn, purchase, and pay a reasonable compensation for such structures as may have been erected upon the said premises, which structures, in the opinion of the board and engineer may be useful for such commercial purposes as this article is intended to promote. No person or company shall land or remove any goods, wares or merchandise, or other things, upon or from any wharf, pier, quay, landing, or thoroughfare situated upon the premises described in this article; nor shall any corporation, firm, association, company or person collect dockage, wharfage, cranage, or toll within the boundaries of the premises described in this article, without first obtaining permission to do so from said commissioners. Said board may, when the wants of commerce require, lay down such number of tracks along and on any portion of said waterfront as may be necessary to meet such wants, and permit the use thereof to any corporation or association, or any person or persons, under such rules, regulations, and at such compensation as said board may determine; and make such agreements with persons, firms and corporations owning spur or industry tracks relative to the use by the state of such tracks as said board may determine to be necessary. *provided*, that no special privileges shall be awarded thereon to any corporation, association, person or persons; *provided*, that nothing herein shall apply to or restrict the use of any premises leased for terminal facilities under or by reason of an act of the legislature entitled "An act to amend an act entitled 'An act to amend an act entitled "An act to amend section six of an act entitled 'An act concerning the waterfront of the city and county of San Francisco,' approved March 15, 1878, and to confer further powers upon the board of state harbor commissioners," approved March 17, 1880,' approved March 19, 1889, conferring further powers upon said board," approved March 26, 1895, and which has not been declared forfeited by the board of harbor commissioners; *and provided, further*, that switches from said railroad track or tracks may, with the permission of said board, and under the limitations and conditions of this act, be constructed by corporations, or any person or persons, leading to any warehouse or place of business. Sec. 6. The board of supervisors, at least fifteen days prior to the election, shall select one, and may select two, or more polling places within the proposed district, and make all suitable arrangements for the holding of such election. They must select and appoint, from among the qualified electors of the proposed boulevard district, one inspector and two judges of election in each polling place, who shall constitute the officers of said election and the election board; if none are so appointed or if any officer appointed does not attend at the opening of the polls on the morning of election, the electors present may appoint substitutes to fill the election board. The ballot shall contain the words "boulevard district—yes," and "boulevard district—no," and shall also make provision for voting for one member of the boulevard commission of said district. At such election there shall be elected one member of the boulevard commission, whose term of office shall be for four years and until the election, or appointment, and qualification of his successor. Such election, and all subsequent, or other, elections in said district shall, except as herein otherwise expressly provided, be conducted as nearly as practicable in accordance with the general election laws of the state, except that the provisions of said laws as to the form of ballots and the making of nominations and the selection or appointment of officers of election, shall not apply, and that no irregularity or informality in conducting any election under this act, not substantially affecting adversely the legal rights of any elector, as herein defined, shall invalidate or affect such election. At each election pursuant to this act, every qualified elector, resident within the district as proposed or established, and who would be entitled on the date of the respective election to vote in said district at a general election, shall be entitled to vote at such election. The said officers of election must make return of the election to the board of supervisors of said county, which shall canvass said returns as by law provided, and if a majority of the votes cast at such election shall be in favor of a boulevard district the board of supervisors shall make and cause to be entered in the minutes of said board an order that the boulevard district of the name, and with the boundaries theretofore established by said board (setting forth such boundaries), has been duly established, and shall declare the person receiving the highest number of votes for member of the boulevard commission, duly elected as such commissioner; and said order shall be conclusive

evidence of the fact and regularity of all prior proceedings of every kind and nature provided for by this act or by law, and of the existence and validity of the boulevard district. If a majority of the votes cast shall be against a boulevard district, the board shall by order entered in its minutes so declare, and no other proceeding shall be taken in relation thereto until the expiration of one year from the date of the presentation of the petition to said board.

SEC. 2. Section eight of said act approved May 1, 1911, as amended, is hereby amended to read as follows: Stats. 1917, p. 1304.

Sec. 8. An election shall be held in each boulevard district on the first Monday after the first Tuesday in March in the fourth year after the formation of the district, and in every fourth year thereafter, at which shall be elected a commissioner in place of the elected commissioner whose term shall expire during such year. Not less than twenty days before the day of each such election the boulevard commission must give notice of said election by posting notice thereof in three public places in the boulevard district, which notice must specify the time and place of election, the hours during which the polls will be kept open, and the officer to be elected. They shall select one, and may select two or more, polling places within the district; shall appoint one inspector and two judges of election in each polling place, and make all necessary and proper arrangements for holding the election. Said election officers shall constitute the election board. If no election officers are so appointed, or if any of those appointed are not present at the time of the opening of the polls, the electors present may appoint all, or any, of them so absent or not appointed and they shall conduct the election as if so appointed by said commission and present. The officers of the election must publicly canvass the votes immediately after the closing of the polls, and must make return of the election within twenty-four hours after the closing of the polls to the board of supervisors. Said board of supervisors at its first meeting after receiving said returns shall canvass the same and shall make, sign and deliver a certificate of election to the person elected. Election every fourth year. Notice of election. Polling places and election officers. Canvass of returns.

SEC. 3. Section twelve of said act approved May 1, 1911, as amended, is hereby amended to read as follows: Stats. 1917, p. 1306.

Sec. 12. The boulevard commission shall, before the construction of any boulevard and before the calling of any election for the issuance of bonds, employ an engineer or engineers who shall make all necessary surveys, prepare a map or maps showing the location of the said proposed boulevard or boulevards, also showing a cross-section and profile of said proposed boulevard or boulevards, together with specifications for the construction thereof and estimates of the cost of acquiring rights of way therefor and of the cost of the construction thereof, which said surveys, maps, specifications and estimates, shall, upon the approval of the same by said commission, by order entered upon its minutes, be formally adopted by said commission and filed with its secretary and constitute the plan Survey, etc., of proposed boulevards.

CHAPTER 240.

An act to amend sections one thousand one hundred ninety-six and one thousand one hundred ninety-seven of the Political Code, relating to election ballots, the manner of voting and the conduct of elections.

[Approved May 7, 1919. In effect July 22, 1919.]

The people of the State of California do enact as follows:

SECTION 1. Section one thousand one hundred ninety-six of the Political Code is hereby amended to read as follows:

1196. Except as in this code otherwise provided, it shall be the duty of the county clerk of each county to provide printed ballots for every election of public officers, except elections for city or town officers, in which electors, or any of the electors, within the county, participate, and to cause to be printed in the appropriate ballot the name of every candidate whose name has been certified to or filed with the county clerk, in the manner provided for by law, together with the names certified by the secretary of state to have received in the respective parties, the highest number of votes for United States senator. Ballots other than those printed by the respective county clerks, or the clerk or secretary of the legislative body of any incorporated city or town, according to the provisions of this code, shall not be cast nor counted at any election. It shall be the duty of the county clerk of any consolidated city and county to provide separate ballots for every election for city and county officers in which the electors, or any of the electors, of such city and county, participate, and to cause to be printed on such separate ballots the name of every candidate for a city and county office whose name has been filed with the proper officer in the manner provided by law. It shall be the duty of the clerk or secretary of the legislative body of any incorporated city or town to provide separate ballots for every election for city or town officers in which the electors, or any of the electors, of such city or town, participate, and to cause to be printed in such separate ballots the name of every candidate whose name has been filed with such clerk or secretary in the manner provided for by law. All ballots shall be not to exceed twenty-four inches in length, and shall be of sufficient width to contain in parallel columns three inches in width the names of all candidates nominated, and below the printed list of candidates for each office, the necessary blank space or spaces to permit an elector to write in the names of persons whose names are not printed on the ballot, and to contain in a separate column or columns of sufficient width statements of all questions, propositions or constitutional amendments to be submitted to vote of the electors, and shall be printed on tinted paper furnished by the secretary of state. It shall be the duty

of the secretary of state to obtain and keep on hand, a sufficient supply of paper for ballots, and to furnish the same in quantities ordered, to any county clerk, or clerk or secretary of the legislative body of any incorporated city or town, upon payment by them of the cost of such paper. Such paper shall be watermarked with a design to be furnished by the secretary of state, in such manner that the said watermark shall be plainly discernible on the outside of such ballot when folded according to law. Such design shall be kept secret from all persons not engaged in the preparation, printing or distribution of the paper or ballots, until the day of election. Such design shall be changed for each general election, and the same design shall not be used again at any general election within the space of fourteen years; but at any special or separate local election, paper marked with the design used at the previous election may be used. Nothing in this code contained shall prevent any voter from writing upon his ballot the name of any person for whom he desires to vote for any office and such vote shall be counted the same as if printed upon the ballot, and marked as voted for.

SEC. 2. Section one thousand one hundred ninety-seven of the Political Code is hereby amended to read as follows:

1197. There shall be provided at each polling place, at each election at which public officers are voted for, but one form of ballot for all the candidates for public office, and every ballot shall contain the names of all the candidates whose nominations for any office specified on the ballot have been duly made and not withdrawn, as provided by law together with the title of the office arranged to conform as nearly as practicable to the plan hereinafter set forth.

2. The order in which the list of offices shall appear on the ballot shall, as to state offices and district offices, when the district includes more than one county, be determined by the secretary of state, and shall as nearly as may be practicable be the same for all counties. The order in which the list of county offices or district offices embracing one county or less, shall appear on the ballot, shall be determined by the county clerk.

The order in which the list of candidates for any office shall appear upon the ballot shall be determined as follows:

(a) If the office is an office the candidates for which are to be voted on throughout the entire state, including United States senator in congress, the secretary of state shall arrange the names of all candidates for such office in alphabetical order for the first assembly district; and thereafter for each succeeding assembly district, the name appearing first for each office in the last preceding district shall be placed last, the order of the other names remaining unchanged; *provided, however,* that the names of candidates for the office of electors for president and vice president shall be arranged in groups as presented in the several certificates of nomination, and the secretary of state shall arrange such groups for the first

assembly district in the alphabetical order of the names standing at the head of each of such groups as the first name therein and, thereafter, for each succeeding assembly district, the group appearing first shall be placed last, the order of the groups remaining unchanged; but the order of the names within each of the several groups shall remain the same as presented in the several certificates of nomination and shall remain the same for all assembly districts. A blank column one-half inch wide shall be left upon the ballot opposite each group of names of candidates for electors for president and vice president, and to the right of the column of voting squares for the individual names and separated from it by a light dotted line, which blank column shall contain a square in which may be stamped a cross (X) which shall be counted as a vote for each and every name in the group opposite. Lengthwise along this blank column shall be printed in heavy face type "a cross (X) stamped in this square shall be counted for each name of the group to the left." The line separating any group of names from any other group shall be heavier than any line separating the individual names in each group, and shall extend across the blank column provided for in this paragraph. Below the top line of this extension shall be printed in small heavy face type the words "top of group," and above the bottom line of the extension, the words "end of group."

If the office is that of representative in congress, or is an office the candidates for nomination to which are to be voted on in more than one county or city and county, but not throughout the entire state, except the office of state senator or assemblyman, the secretary of state shall arrange the names of all candidates for such office in alphabetical order for that assembly district which is lowest in numerical order of any assembly district in which such candidates are to be voted on; and thereafter for each succeeding assembly district in which such candidates are to be voted on the name appearing first for such office in the last preceding district shall be placed last, the order of the other names remaining unchanged.

Officers voted for in more than one county.

In certifying to each county clerk or registrar of voters the list of names as required in section twenty-three of the primary election law, the secretary of state shall certify and transmit the list of candidates for each office according to assembly districts, in the order of arrangement as determined by the above provisions; and in the case of each county or city and county containing more than one assembly district, he shall transmit separate lists for each assembly district. Except for the office of state senator or assemblyman, the order in which the names so certified shall appear upon the ballot, shall be for each assembly district the order as determined by the secretary of state in accordance with the above provisions, and as certified and transmitted by him to each county clerk or registrar of voters.

Officers voted for in one county.

(b) If the office is an office to be voted on wholly within one county or city and county, except the office of representative in congress or state senator or assemblyman, the county clerk of such county or the registrar of voters of such city and county, shall arrange the names of all candidates for such office in alphabetical order, which order shall be the order of names upon the ballots; *provided*, there is no more than one assembly district in such county, or city and county. If there is more than one assembly district in such county or city and county, the county clerk or registrar of voters shall so arrange on the ballot the order of names of all candidates for such office that they shall appear in alphabetical order for that assembly district in such county, or city and county, which is lowest in numerical order, and thereafter for each succeeding assembly district in such county, or city and county, the name appearing first for each office in the last preceding assembly district shall be placed last, the order of the other names remaining unchanged.

(c) If the office is that of state senator or assemblyman, the names of all candidates for such office shall be placed upon the ballot in alphabetical order.

(d) If the office is a municipal office in any city or town whose charter does not provide for the order in which names shall appear on the ballot, the names of candidates for such office shall be placed upon the ballot in alphabetical order.

Independent candidate.

If the nomination of a candidate for any office shall be made by petition, filed within the time and manner provided by law, but subsequent to the determination of the order in which names of candidates shall appear on the ballot, the name of such candidate with the word "Independent" printed to the right thereof, shall be placed on the ballot next below the names of the other candidates for the same office; *provided, however*, that in the case of judicial officers and school officers the word "Independent" shall be omitted.

Order of propositions.

Titles.

3. The order in which all questions and propositions (including proposed laws and constitutional amendments), which are to be submitted to the vote of the electors, shall appear upon the ballot shall be determined by the secretary of state. The attorney general shall provide and return to the secretary of state a ballot title or designation by which all such questions, propositions, proposed laws and constitutional amendments shall be designated upon the ballot; *provided, however*, any person who is interested in any question, proposition, proposed law or constitutional amendment, the petition as to which is being circulated for the purpose of having the same submitted under an initiative petition, as provided in section one of article four of the constitution, to a vote of the electors, or any proposed constitutional amendment to be submitted to a vote of the electors, may, at any time prior to one hundred and thirty days before the election at which such question, proposition, proposed law or constitutional amendment is to be submitted to a vote of the electors, file a copy of said question,

proposition, proposed law or proposed constitutional amendment with the secretary of state, together with a request that a ballot title be prepared for the same; such request shall be accompanied with the address of the person or association of persons proposing such measure. The secretary of state shall forthwith transmit a copy of said question, proposition, proposed law or constitutional amendment to the attorney general. Within ten days after the same is filed with him, said attorney general shall provide and return to the secretary of state a ballot title for said measure. The ballot title may be distinguished from the legislative or other title of the measure and shall express in not exceeding one hundred words, the purpose of the measure. In making such ballot title, the attorney general shall give a true and impartial statement of the purpose of the measure and in such language that the ballot title shall not be an argument or likely to create prejudice either for or against the measure. Immediately upon receipt of the ballot title as prepared by the attorney general, the secretary of state shall mail to any and all persons who may have requested the preparation of such ballot title, a notice addressed to such person or persons at the address accompanying such request, stating that the attorney general has made and returned such ballot title, which notice shall also contain a copy of the ballot title as prepared by the attorney general. Any person who is dissatisfied with the ballot title prepared by the attorney general for any such question, proposition, proposed law or constitutional amendment may, after the same has been returned to the secretary of state as hereinbefore provided, and within ten days after said notice shall have been mailed by the secretary of state, as above provided, file in writing with the secretary of state his objections, who shall forthwith file a copy of such question, proposition, proposed law or constitutional amendment, together with the title thereof as so prepared by the attorney general and the said objections thereto, with the board of title commissioners, which board shall consist of the three justices of the district court of appeal of the State of California, in and for the third appellate district, who shall be ex officio title commissioners for the purposes of this act and which board is hereby created; said board shall fix a time at which any person may be heard either for or against the objection so made and shall notify all persons of the time so set and thereupon said board of title commissioners shall proceed to consider the said title prepared by the attorney general and the objections filed thereto, and shall prepare a title by which such question, proposition, proposed law or constitutional amendment shall be designated upon the ballot. Said title commissioners shall certify the said designation to the secretary of state within ten days after said written objections have been received by them. The determination by the said board of title commissioners shall be final and conclusive. Such questions, propositions, proposed law and constitutional amendments shall be designated on the ballot by the said ballot title certified to the secretary

4. All ballots shall be not to exceed twenty-four inches in length, and shall be three inches in width, and as many times such width as may be necessary to contain the names of all candidates nominated, with proper blank spaces to allow the voter to write in names not printed on the ballot, and also a separate column or columns of sufficient width for statements of all questions, propositions or constitutional amendments submitted to vote of the electors. Each group of candidates to be voted on shall be headed by the designation of the office and the words "Vote for One" or "Vote for Two" or more, according to the number to be elected to such office; such designation of the office and of the number of candidates to be voted for shall be printed in heavy-faced gothic type, not smaller than ten point. The word or words designating the office shall be printed flush with the left-hand margin and the words "Vote for One" or "Vote for Two" or more, as the case may be, shall extend to the extreme right of the column and over the voting square. The designation of the office and the directions for voting shall be separated from the names of the candidates by a light line. The names of the candidates for such office shall be printed in eight-point roman type (capitals) in proper order below the designation of the office, and in the same line in which the name of the candidate is printed and at the right of the name, or immediately below the name if there shall not be sufficient space to the right thereof, shall be printed in eight-point roman type (lower case) the designation of the political party or parties by or on behalf of which such candidate has been nominated, the first political party so designated being the party with which such candidate was affiliated thirty-five days before the date of the primary election, as ascertained by the secretary of state from the affidavit of registration of such candidate in the office of the county clerk in the county in which such candidate resides; *provided*, that when a candidate has been nominated by petition, the word, "Independent," shall be printed to the right of his name: *and provided*, also, that as to candidates for judicial offices, and school offices the designation of the political party or parties, or the word "Independent," if there be an independent candidate, shall be omitted. The name of the candidate, and the designation of the political party or parties by which he has been nominated shall be printed in a space three-eighths of an inch in depth, and shall be defined by light horizontal ruled lines, with a blank space on the right thereof three-eighths of an inch square, which blank space (called the voting square) shall be made use of by the voter to designate, by stamping a

5. The names of the candidates for an office shall not be separated from each other on the ballot by names of candidates for any other office, and the list of candidates for each office shall be separated from the lists of candidates for other offices by a double rule, above and below such list. Each series of the lists of candidates for the several offices shall be headed by the word "State," "Congressional," "Legislative," "County," or "Municipal" or other proper general classification, as the case may be, printed in heavy-faced gothic capital type, not smaller than twelve-point, each such word being separated from the names of the candidates beneath by a three-point line.

6. The left-hand side of each column of names on the ballot, and also the right-hand side of each column of voting squares, shall be bordered by a broad printed line one-twelfth of an inch wide. The ballot shall be so printed as to give each voter a clear opportunity to designate, by stamping a cross (X) in a blank enclosed space hereinbefore designated as the voting square on the right of and after the name of each candidate whose name is printed on the ballot, his choice of particular candidates, or his choice of each and all of a group of candidates as provided in subdivision two of this section. The binding or stitching of each package of ballots shall be on the left side thereof. The ballot shall be printed on the same leaf with a stub not over one and one-half inches in width and separated therefrom by a perforated line from top to bottom, one-half inch to the left of the broad printed line along the left border of the ballot. Upon this stub shall be printed the number of the ballot only. On each ballot a perforated line shall extend across the top of the ballot one inch from the top thereof. The same number as appears on the stub shall be printed above said perforated line within two inches of the perforated line on the left-hand side of the ballot, and above this number shall be printed in parenthesis, in small type, as follows: (This number is to be torn off by inspector); and one-half inch to the right of this ballot number there shall be a short perforated line extended from the perforated line along the top of the ballot to the top edge of the ballot. Immediately above said perforated line shall be printed in black-face lower case type at least twelve point in size, and enclosed in a parenthesis, the following "(Fold ballot to this perforated line, leaving top margin exposed)." Above this printed direction, and midway between it and the top edge of the ballot, shall be printed in black-face capital type at least twelve point in size, and with the four middle words underlined or otherwise made prominent, the following: "MARK CROSSES (X) ON BALLOT ONLY WITH RUBBER STAMP; NEVER WITH PEN OR PENCIL." The tally sheets furnished to election officers shall have the names of offices and candidates arranged in the order in which said names of officers and candidates are printed on the ballots according to the provisions of this section and subdivision. The resolution shall contain a declaration to the effect that serial bonds, bearing interest at a rate therein to be determined, but not to exceed six per cent per annum, will be issued to represent the unpaid assessments. The resolution shall also contain a notice of the day, hour, and place, when and where any persons having any objections to the proposed work or improvement may appear before the city council and show cause, if any they have, why the proposed work or improvement should not be carried out in accordance with said resolution, which time shall not be less than fifteen nor more than forty days from the day of the passage of said resolution. Resolution of intention.

Where cost paid in part by municipality.

The city council may, in its discretion, order, that any part of the cost and expenses of any of the work mentioned in this act be paid out of the treasury of the municipality from such fund as the council may designate, in which case it shall be so stated in the resolution of intention.

Whenever a part of such cost and expenses is so ordered to be paid, the superintendent of streets, in making up the assessment heretofore provided for such cost and expenses, shall first deduct from the whole cost and expenses such part thereof as has been so ordered to be paid out of the municipal treasury, and shall assess the remainder of said cost and expenses proportionately upon the lots and lands liable to be assessed for such work, and in the manner hereinafter provided.

Property omitted from assessment.

Whenever any lot, piece or parcel of land belonging to the United States, or to the State of California, or any lot, piece or parcel of land belonging to any county, city, public agent, mandatory of the government, school board, educational, penal or reform institution, or institution for the feeble-minded or the insane, and being in use in the performance of any public function, shall be included within the district or districts declared by the city council in its resolution of intention to be the district or districts to be assessed to pay the cost and expenses thereof, said city council may, in the resolution of intention, declare that said lots, pieces or parcels of land, or any of them, shall be omitted from the assessment thereafter to be made to cover the cost and expenses of said work or improvement, in which case the total cost and expenses shall be assessed on the remaining lots and lands in the assessment district or districts; *provided*, that such part of the cost and expenses may be paid out of the municipal treasury as hereinbefore provided.

SEC. 5. The council may, in the resolution of intention, by reference to the plans and specifications or otherwise, fix and establish the grade at which the work is to be done, which grade so fixed and established may be either the first establishment of such grade or the changing of an existing official grade.

In such case the plans adopted for the proposed work shall show the existing official grade, if any, and the grade at which the proposed work is to be done.

In the event the proposed work is to be done at a grade other than an existing official grade, the resolution of intention and the notices of improvement shall recite the fact and refer to the plans and specifications for further particulars as to such proposed grade.

Failure to make such objections shall be deemed to be a waiver of all objections to such grade, and shall operate as a waiver of all claims for damages and shall constitute a bar to any subsequent action looking either to the prevention of the work or the recovery of damages or compensation on account of the performance of the work to such grade.

SEC. 6. The city clerk shall cause said resolution of intention to be published twice in one or more daily or weekly newspapers published and circulated within said city. The street superintendent shall cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet in distance apart, but not less than three in all, notices of the passage of said resolution, briefly describing the district or districts to be benefited and assessed, and containing an announcement that serial bonds, bearing interest at a rate not to exceed six per cent per annum, will be issued to represent the unpaid assessments. Said notices shall also contain a notice of the day, hour, and place fixed for hearing objections as above mentioned.

and posting
of resolution
of intention.

SEC. 7. The city clerk shall, immediately upon the passage of said resolution of intention, mail, postage prepaid, to each property owner whose property is to be assessed to pay the cost and expenses of said work and improvement, at his last known address as the same appears upon the tax rolls of said city, or when no address so appears, to the general delivery of the United States post office in said city, a postal card containing a notice which shall be in substantially the following form (filling blanks):

Notice to

You are hereby referred to the said resolution for further particulars. Property belonging to you is to be assessed for this improvement.

_____ City clerk."

If any lots or parcels of land in the assessment district or districts be assessed to "unknown owners" on the tax rolls of said city, no postal cards containing such notice need be mailed to the owners thereof. The city clerk shall, upon the completion of the mailing of said postal cards, file in his office an affidavit setting forth the time and manner of the compliance with this requirement; *provided*, that the failure of the city clerk to mail said cards, or the failure of the property owners to receive the same shall in nowise affect the validity of the proceedings or prevent the city council from acquiring jurisdiction to order the work.

Bids.

SEC. 8. The city council shall cause notice of said work inviting sealed proposals or bids for doing the work and referring to the plans and specifications on file, to be published twice in a daily or weekly newspaper, published and circulated in said city, and provide that the same will be received and opened on the same day, hour, and place fixed for hearing objections as aforementioned. All proposals or bids offered shall be accompanied by a check payable to the city, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal.

Objections
against
work.

SEC. 9. At any time not later than the hour set for receiving proposals and hearing objections to the proposed work or improvement, any owner of property liable to be assessed for said work or improvement may make written protests or objections against the work or improvement or against the district or districts, to be assessed, or both, or make any objection of any character to said work. Said objections or protests must be delivered to the clerk of the city council prior to the hour set for the hearing, and no other protests or objections shall be considered by said council.

Opening
of bids.Hearing of
objections.

At the time fixed for said hearing and the opening of bids as aforementioned, the city council shall first cause all the bids received to be publicly opened and publicly declared, after which the same shall be temporarily laid upon the table while the council proceeds to hear and consider objections, if any there be. The council may continue the hearing from time to time and postpone final consideration of the proposals or bids submitted. The decision of the council on all protests or objections shall be final and conclusive; *provided*, that where the council finds that the objections or protests filed have been made by a majority of the property owners of the district, or of all the districts if there be more than one district, and that they are also the owners of more than one-half of the area of the property within the district or districts to be assessed for the proposed work or improvement, no further proceedings shall be taken for a period of six months from the date of the finding of the council as to the sufficiency of the protest.

If no protests or objections in writing have been delivered to the clerk up to the hour set for the hearing, or if protests have been heard and overruled, thereupon the city council shall be deemed to have acquired jurisdiction to order the work and award the contract.

Nothing herein contained shall be deemed to prevent the council from sustaining any objection filed, or to abandon the proceedings for the work or improvement prior to the awarding of the contract.

Award of
contract.

SEC. 10. The city council may reject any and all proposals or bids should it deem this for the public good, and also the bid of any party who has been delinquent or unfaithful in any former contract with the municipality, and shall reject all

proposals or bids other than the lowest regular proposal or bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder on the plans and specifications selected at the prices named in his bid. No contract shall be awarded on any proceeding, if more than one year has elapsed since the passage of the resolution of intention for such proceeding, but in such case a new proceeding will have to be instituted. If the bids are rejected or no bids received, the city council may within six months thereafter readvertise for and receive proposals or bids for the performance of the work as in the first instance, without further proceedings. The checks accompanying the accepted proposals or bids shall be held by the city clerk until the contract for doing said work has been entered into, but if said bidder fails, neglects or refuses to enter into the contract to perform said work or improvement, as hereinafter provided, then the certified check accompanying his bid and the amount therein mentioned shall be forfeited to said city and shall be collected by it and paid into the general fund.

SEC. 11. If the original bidder neglects, fails or refuses to enter into the contract within fifteen days after the same has been awarded to him, then the city council, without further proceedings, shall again advertise for proposals or bids, as in the first instance, and award the contract for said work to the lowest regular responsible bidder. Should no bids be received in response to this second call, the council may again advertise for and receive bids under the same proceedings, at any time within six months from the time set for the last reception of bids, and let the contract to the then lowest bidder, and such delay shall in no way affect the validity of any of the proceedings, unless such delay is contrary to the provisions of section ten hereof.

Failure of bidder to enter into contract.

SEC. 12. All contractors shall, at the time of executing any contract for street work, execute a bond to the satisfaction and approval of the superintendent of streets of said city, with two or more sureties, payable to such city, in a sum equal to twenty-five per cent of the contract price, conditioned for the faithful performance of the contract; and the sureties shall justify before any person competent to administer an oath in double the amount mentioned in said bond, over and above all statutory exemptions. Before being entitled to a contract, the bidder to whom the award was made, must advance to the superintendent of streets, for payment by him, all incidental expenses already incurred by the city for said work or improvements. In case the work is abandoned by the city before the letting of the contract, the incidental expenses incurred previous to such abandonment shall be paid out of the city treasury.

All demands for incidental expenses mentioned in this subdivision shall be presented to the street superintendent by itemized bill, duly verified by oath of the demandant.

SEC. 13. Every contractor, person, company, or corporation to whom is awarded any contract under this act, shall, before executing said contract, file with the superintendent of streets a good and sufficient bond, approved by the mayor, or other chief executive, in a sum not less than one-half of the total amount payable by the terms of said contract; such bond shall be executed by the principal and at least two sureties, who shall qualify for double the sum specified in said bond, and said bond shall be made to inure to the benefit of any and all persons, companies, or corporations who perform labor on, or furnish materials to be used in the said work or improvement, and shall provide that if the contractor, person, company, or corporation to whom said contract was awarded fails to pay for any materials so furnished for the said work or improvement, or for any work or labor done thereon of any kind, then the sureties will pay the same, to an amount not exceeding the sum specified in said bond. Any materialman, person, company, or corporation, furnishing materials to be used in the performance of said work specified in said contract, or who performed work or labor upon the said improvement, whose claim has not been paid by the said contractor, company or corporation, to whom the said contract was awarded, may, within sixty days from the time said improvement is completed, file with the superintendent of streets a verified statement of his or its claim, together with a statement that the same, or some part thereof, has not been paid, whereupon the amount of said claim shall be withheld from payment for a period of ninety days or until settled. Within ninety days after the filing of such claim, the person, company, or corporation, filing the same or their assigns must commence an action on said bond for the recovery of the amount due thereon.

Power of superintendent of streets.

SEC. 14. The superintendent of streets is hereby authorized in his official capacity to make all written contracts, and receive all bonds authorized by this act, and to do any other act, either express or implied, that pertains to the street department under this act.

The superintendent of streets shall fix the time for the commencement of the work, which shall not be more than fifteen days from the date of the contract, and for the completion thereof; and the work shall be prosecuted with diligence from day to day thereafter to completion. He may extend the time

so fixed from time to time, under the direction of the city council. All applications for such extensions must be in writing and be filed in his office before the expiration of the original time fixed in the contract, or of the time theretofore granted by extension, as the case may be. Payments during work.

SEC. 15. After the contractor has fulfilled his contract to the satisfaction of the street superintendent or city engineer, as the case may be, such officer shall make an assessment on the lots and lands within the district or districts to cover the sum due for the work performed and specified in the contract, including all incidental expenses, excluding therefrom any lot or portion of said district or districts which have heretofore been declared not to be benefited by the work or improvement, which assessments shall be in proportion to the assessed value of all the real property in the district or districts liable to assessment therefor, exclusive of improvements, in the proportional amount of benefit which each district will derive from the proposed work, as provided in section three hereof. Such assessment shall be filed by the street superintendent with the tax collector of said city.

The city council shall then cause bonds to be issued for the amount of the aggregate of the unpaid assessments.

For the purposes of identification and recordation each proceeding taken under this act shall be given a different identifying number, and the property assessed therefor shall be known as "local improvement district number ----", specifying the number thereof. SEC. 3. Petition. Before any board of supervisors shall call an election to determine whether a district shall be established, and before a district shall be established as outlined in section two hereof, a petition shall be filed in the office of the clerk of said board of supervisors signed either by fifty freeholders, or by a majority of the freeholders, or by the owners of more than half of the property, in either acreage or assessed value, according to the last assessment roll, within the limits

of the territory proposed to be organized into a conservancy district under this act.

The petition shall set forth:

Contents.

First—The proposed name of said district.

Second—The necessity for the proposed work and that it will be conducive to the public health, safety, convenience or welfare.

Third—A general description of the purpose of the contemplated improvement, and of the territory to be included in the proposed district. Said description of the territory to be included need not be given by metes and bounds, or by legal subdivisions, but it shall be sufficient if a generally accurate description is given of the territory to be organized as a district. Said territory need not be contiguous, provided it be so situated that the public health, safety, convenience or welfare will be promoted by the organization as a single district of the territory described.

Fourth—Said petition shall pray for the organization of the district by the name proposed.

Amendment.

No petition with the requisite signature shall be declared null and void on account of alleged defects, but the board of supervisors may at any time prior to the hearing thereof permit the petition to be amended in form and substance to conform to the facts, by correcting any errors in the description of the territory to be included, or in any other particular. Several similar petitions or duplicate copies of the same petition for the organization of the same district may be filed and shall together be regarded as one petition. All such petitions filed prior to the hearing on said petition shall be considered by the board of supervisors the same as though filed with the petition first placed on file.

Evidence of ownership.

In determining when a majority of landowners have signed the petition the board of supervisors shall be governed by the names as they appear upon the last tax assessment roll prior to one day before the filing of said petition, which shall be prima facie evidence of such ownership.

Bond.

SEC. 4. At the time of filing the petition, or at any time subsequent thereto and prior to the time of the hearing on said petition, a bond shall be filed running to the board of supervisors of the county in which the petition is filed, with security approved by the board of supervisors, sufficient to pay all the expenses connected with the proceeding in case the said board of supervisors refuses to organize the district. If at any time during the proceeding the said board of supervisors shall be satisfied that the bond first executed is insufficient in amount, it may require the execution of an additional bond within a time to be fixed to be not less than ten days distant, and upon failure of the petitioners to execute the same the petition shall be dismissed.

Notice of hearing.

SEC. 5. Immediately after the filing of such petition, the clerk of the board of supervisors with whom such petition is

filed shall cause notice by publication to be made of the pendency of the petition and of the time and place of the hearing thereon and of the hearing of objections to the formation of such district. The board of supervisors of the county in which the petition was filed, shall thereafter, for all purposes of this act, except as hereinafter otherwise provided, maintain and have original and exclusive jurisdiction coextensive with the boundaries and limits of said district and of lands and other property proposed to be affected by said district; *provided*, that where said district lies in more than one county the board of supervisors of the county where the petition is filed shall forthwith notify the board or boards of supervisors of other counties in which said district is situated by directing a letter and transmitting the same by mail to the clerk or clerks of said board or boards notifying said board or boards of that fact and setting a day for a joint meeting with said board or boards, whereupon said boards shall meet jointly for the purpose of hearing said petition and objections thereto, if any, and for the transaction of business, in the chambers of the board with whom the said petition was filed; *provided*, that said meetings from time to time may be continued, by mutual agreement, whereupon said boards shall sit conjointly thereafter for all purposes of this act, except as hereinafter otherwise provided, and maintain and have original and exclusive jurisdiction coextensive with the boundaries and limits of the district and of lands and other property proposed to be included in said district or affected by said district without regard to the usual limits of their jurisdiction. A majority of the members of the joint board shall constitute a quorum; *provided*, that in the event that the board of supervisors of any county in which a portion of the district lies, after having been given due notice, as herein provided, of the hearing for the formation of such district, who shall after having been given said notice fail to appear and participate, as a member, or members, of said joint board, shall be considered to have waived all right to participate in the deliberations of said board, and a majority of the supervisors representing the other county or counties in which said district lies, shall thereby automatically constitute the joint board of supervisors and shall have all jurisdiction and powers provided for said joint board of supervisors under this act. The clerk of the board of supervisors with whom the petition is filed, and all officers of the board with whom the petition is filed, shall be clerk and officers of the board sitting conjointly as herein specified. The act of the clerk of said board of supervisors transmitting said letter of notification shall be deemed the act of said board of supervisors so notifying. At the day set for said hearing all objections to said petition shall be heard by said board or joint board. Said board or joint board shall have and it is hereby given full discretion to approve or deny said petition by a

majority vote of its members present. Its decision in the matter shall be final and conclusive except as to the matters hereinafter stated. Objections to said petition need not be in writing, but the determination of said board shall be in writing and entered upon the minutes of said board.

Lands
included in
district.

Said board shall at said hearing, if it approve said petition, determine what land or lands within said proposed district will be benefited by said proposed improvements, and said board may in its discretion change or alter the boundaries of said proposed district to conform to the needs of the district; *provided*, that they shall include therein only such land as will in their judgment be benefited by the proposed work or improvement; *and provided*, that they shall not include therein land not included within the proposed boundaries of the district set forth in the petition; *and provided*, that said board shall at said hearing or adjourned hearing define the boundaries of the proposed district. The findings of such board shall be conclusive upon the genuineness and sufficiency of the signatures to the petition and of the notice of the hearing.

Election.

SEC. 6. Said board or joint board of supervisors, unless said petition be denied, must, if said lands of said district lie wholly within the county, within ten days after the determination of a hearing upon said petition, otherwise within thirty days after the termination of a hearing upon said petition, call an election within the proposed district for the determination of the question, whether such proposed district shall or shall not be organized and also to elect five persons who shall act as directors of the district for a term of four years in case such district be organized, and shall divide said district into convenient precincts and fix a polling place in each, and shall appoint three qualified electors in each precinct of said district to conduct said election; which election must be held within forty days from the date of said order.

Notice.

Said election shall be called by posting notice thereof in three of the most public places in such county in said proposed conservancy district, and by publication in a daily or weekly paper in each of said counties, if there be one, at least once a week for not less than fifteen days. Said notices must specify the time, place or places and purposes of said election, give the boundaries of the said proposed conservancy district as determined at the hearing of the petition, designate the respective election precincts and the polling place in each and the election officers and the hours during which the polls will be kept open; *provided*, that the polls must be opened not later than eight o'clock a.m., and kept open until seven o'clock p.m.

Candidate;
for director.

It shall be the duty of the board of supervisors to order placed upon the ballot the names of candidates for the position of director of the district who shall have been endorsed by a petition to said board of supervisors containing the names of ten or more electors of the district, petitioning that the names of candidates designated in the petition be placed upon the ballot to be voted on at such election; *provided, however*, that

such petitions be filed with the board of supervisors calling said election within fifteen days after the first publication of the notice calling said election.

Said election shall be conducted in accordance with the general election laws of this state so far as applicable, and except as herein otherwise provided, without reference to the form of the ballot or manner of voting, except that the ballots shall contain the words "for the formation of a conservancy district", and "against the formation of a conservancy district", and the voter shall write or print or stamp a cross after the words that indicate his choice, together with the number of votes he is entitled to cast therefor as hereinafter provided, and that said ballots shall also contain the names of all candidates for the position of director of the district, with instructions to the voter to vote for five of the candidates for said position whose names appear upon such ballot, with the right to vote for each of the five candidates selected by him the number of votes he is entitled to cast as hereinafter provided.

Conduct of election.

Each and every owner of land in the district shall be entitled to vote in person or by proxy, and shall have the right to cast one vote for each acre of real estate owned by him in the district, such ownership to be determined from the next preceding assessment roll of the county or counties in which the lands of the district are situated, and the board shall, prior to the election, cause to be prepared and certified and furnished to the board of elections at each voting place, a true and correct copy of the entries upon said next preceding assessment rolls so far as such assessment rolls apply to any lands within such district, and to the extent of showing the name of the owner and the number of acres assessed to each such owner, and which said certified entries from said rolls shall be used by the board of election in determining the number of votes each voter is entitled to cast.

One vote for each acre of real estate owned.

In calculating the number of acres owned by any voter any fraction of an acre in excess of the integral number owned by him shall be disregarded.

Fraction of acre.

Where land is owned in joint undivided ownership, the votes shall be divided in accordance with the interests of each joint owner.

Joint ownership.

Where land is assessed to unknown owners, any person producing an affidavit of any searcher of records certifying the true ownership of such land at the date of the election, or at any time five days previous thereto, accompanied by an affidavit of the person certified to be the owner that he is the owner of the property at that time, said person so certified to be the owner shall be entitled to vote in like manner as if his name appeared upon the assessment roll as above mentioned.

Unknown owners.

Where corporations or partnerships appear as the owners of properties the votes of such voters shall be cast by any person holding a proxy from such corporation or firm.

Executors, administrators, special administrators and guardians may cast the vote of the estates represented by them.

Pro dies.

No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing duly acknowledged and certified in the same manner as grants of real property, and filed with the board of elections. The election officer in delivering to each voter his ballot shall ascertain and write upon the ballot, the number of votes the holder of the ballot is entitled to cast, and in their canvassing returns shall see to it that the number of votes cast does not exceed the number of votes such voter was entitled to cast, but if there is an excess, the ballot shall not be disregarded or invalidated, but only the number which the voter was entitled to cast shall be counted.

Canvass of vote.

It shall be the duty of the election officers to publicly canvass the votes immediately after the close of the election, and to make a report of the result of said election to the board of supervisors within five days subsequent to the holding thereof, who shall as soon as practicable proceed to canvass said returns.

If majority for district.

If a majority of the votes cast at said election shall be in favor of a conservancy district, the said board of supervisors shall, by resolution, establish said conservancy district and proceed as herein otherwise stated.

If majority against.

If a majority of the votes cast shall be against the conservancy district, the board of supervisors shall by order so declare, and shall thereafter dismiss said proceedings by order and proceed to adjudge the cost against the signers of the petition or their bondsmen; no other proceedings shall be taken for the formation of a similar district until the expiration of one year from said election.

Directors declared elected.

If the majority of votes cast at such election shall be in favor of a conservancy district, the board of supervisors shall canvass the returns of said election for the position of directors for the district and having determined upon the five candidates duly elected as directors shall by resolution declare them to be so duly elected and declare them to be the directors of the district for the ensuing term of four years and certificates of election shall be issued to them.

The fact of the presentation of the petition and the order establishing the conservancy district and the order declaring the five directors elected, shall be entered in the minutes of the board of supervisors of the main county, and shall be conclusive evidence of the due presentation of a proper petition, and that each of the petitioners was at the time of the signing the same and presentation of the petition an assessed freeholder in the proposed district, and of the fact and regularity of all prior proceedings of every kind and nature provided for by this act, and of the existence and validity of the district. Should the office of any of said directors elected become vacant before his term of office expires, the same shall be filled by the board of directors for the unexpired term. On the expiration of the

terms of said directors elected as herein specified, the supervisors shall again call an election in accordance with the provisions of this section to fill the offices so becoming vacant.

In said resolution establishing the district the board shall give said district a corporate name, which may or may not be the name designated in said petition, by which in all proceedings it shall thereafter be known, and thereupon the district shall be a political subdivision of the State of California, a body corporate with all the powers of a corporation, and shall have power:

After an order is entered by the board of supervisors establishing the district, such order shall be deemed final and binding upon the property within the district and shall finally and conclusively establish the regular organization of the said district against all persons except the State of California upon suit commenced by the attorney general. Any such suit must be commenced within three months after said decree declaring such district organized as herein provided and not otherwise.

Upon the election and qualification of a board of directors as herein provided said board of directors shall designate the place where the office or principal place of business of the district shall be located, which shall be within the corporate limits of the district if practicable, and which may be changed by order of said board of directors from time to time. The regular meetings of the board of directors shall be held at such office or place of business, but for cause entered of record may be adjourned to any other convenient place. The official records and files of the district shall be kept at the office so established.

SEC. 7. Within thirty days after the said district has been duly established the clerk of the main county shall transmit to the secretary of state, and to the county recorder and the county clerk in each of the counties having lands in said district, copies of the resolution establishing said district. The same shall be filed and recorded in the office of the secretary of state in the same manner as articles of incorporation are now required to be filed and recorded under the general law concerning corporations, and shall also be filed in the office of the county clerk of each county in which a part of the district may be, where they shall become permanent records; and the recorder in each county shall receive a fee of one dollar for filing and recording the same, and the secretary of state shall receive for filing and for recording

Upon taking the oath, the board of directors shall choose one of their number president of the board, and shall elect some suitable person secretary, who may or may not be a member of the board. Such board shall adopt a seal, and shall keep a record of all its proceedings, minutes of all meetings, certificates, contracts, bonds given by employees or contractors and all corporate acts, which record book shall be open to the inspection of all owners of property in the district, as well as to all other interested parties.

In case the board of directors finds that any former survey made by any other district, or in any other manner, is useful for the purpose of the district, the board of directors shall have the power to acquire such data and records of surveys as may be useful to it, and shall pay therefor an amount not to exceed the value of such data and records to said district. The plan herein referred to may include any improvement work already done for conservancy or flood control purposes or any of the purposes contemplated by this act, by any person, firm, corporation, private or public, or any district or municipality, and if so the board of directors shall have power to acquire the same and pay therefor an amount not to exceed the appraised value thereof as appraised by the board of appraisers hereafter referred to.

At the time specified in said notice, the board of directors shall meet at the office of said district, and hear said objections and adopt, reject or refer back said plan for modification to the engineer of said district. If said plan be referred back to said engineer said meeting shall be continued from time to time until such modified plan shall be reported by said engineers. Such application shall conform to the rules and regulations of the state water commission and state the purpose and character of such use, the period and degree of continuity of such use, the amount of water desired and the place of use and the means of conveyance. Where it is not possible nor reasonable to grant all applications, preference shall be given to domestic and municipal water supply. All other applications shall be granted in the order of their filing and shall be granted subject to the applicable provisions of the said water commission act and to said public utility act and other acts of the State of California now in force.

Rights of municipalities.

Nothing in this act contained shall be deemed or construed to limit the rights of municipalities in the exercise of the right of eminent domain under the laws of the State of California.

Term of lease, etc

The board of directors shall not permanently sell, lease, assign, permit or otherwise part with the control by the district of the use of the waters thereof, and rates for light, power or other services charged by vendees, assignees, lessees or licensees of such board of directors shall be subject at all times to revision and control by state law. Assignments, leases, sales or permissions may be made for periods of not greater than twenty-five years. At the termination of the period of such assignments, sales, leases or permissions, they shall be renewed for a reasonable period not to exceed fifteen years, on the condition that a new determination is made of a reasonable charge therefor, as herein provided; unless there are other applications on file, the granting of which would result in filling a greater need or in a more reasonable use. In case such applications are on file, they shall have preference.

Regulations for purpose of determining rates.

The board of directors may make regulations, subject always to the applicable provisions of the said water commission act and the said public utilities act of the State of California, and other act or acts of said state, for the determination and measurement of the increased, or better, or more convenient use of,

or benefit from the water supply of the district, for the purpose of determining rates of compensation, and for the purpose of securing to all parties interested the greatest and best use of the water thereof. A copy of such regulations shall be transmitted to the state water commission for its approval and to the railroad commission of the State of California, accompanied by a request for the fixing of rates by said commission for said district. Said commission shall thereupon proceed to fix said rates in the manner provided by law and report the same to said board of directors. In case of failure of any user to pay for use in the manner specified by order of the court, the board may compel payment, and may enjoin further use until such payment is made. The rights under any lease or sale shall not extend to a change of use, or of place, time or manner of use, except in so far as is specifically stated in the lease or other agreement.

Rates fixed
by railroad
commission.

All money received as compensation under the provisions of this section shall be added to the maintenance fund of the district and used for defraying the expenses thereof.

As a basis for assessment of benefits due to a greater, better, or more convenient use of, or benefit from, the waters of the district the directors of the district may themselves cause a determination to be made or may avail themselves of data in the hands of the said state water commission of the conditions of the water supply and of the watercourses of the district as they were before the improvements were made, or as they existed at any subsequent time, and they may petition the state water commission to make a determination of all rights, property, easements, or other interests in the waters, or the watercourses of the district, such determination being based upon records of greatest and least flow, upon the evidence of use, or evidence of legal rights, and upon any other evidence and records which may be available, and upon receipt of such petition it shall become the duty of the state water commission to immediately proceed to ascertain the same and to report to said board of directors their findings. Upon the completion of such determination and the receipt of a report thereof by them, the directors of the district shall make their report thereon and file the same with the secretary of said district. Thereupon notice shall be given of the pendency of said report and a hearing thereon, which notice and hearing shall conform as nearly as possible to the notice and hearing on appraisals of benefits and of land to be taken. Upon the determination of the matter by the board of directors, its findings shall be conclusive, and shall be the basis of any future assessment; *provided*, that in case any party shall thereafter establish in court or through the action of the state water commission any right or property in the waters of the district, or the use thereof, which has not been adjudicated, the existence of such

Determina-
tion of water
rights, etc.

right, or the failure to adjudicate it, shall not affect the operation of this provision nor the findings of the board of directors thereon in any other particular.

The appraisal of benefits made by the appraisers of the district shall not include benefits for such greater, better or more convenient use of, or benefit from the waters of the district, but the compensation for such use or benefits shall be made according to the provisions of this section.

Board of
appraisers.

SEC. 24. At any suitable time after having taken their oath of office, the board of directors shall appoint three appraisers whose duty it shall be to appraise the lands or other property within and without the district to be acquired for rights of way, reservoirs and other works of the district, and to appraise all benefits and damages accruing to all lands within or without the district by reason of the execution of the official plan. Said appraisers shall be freeholders residing within the State of California, who may or may not own lands within said district. Each of the appraisers shall, before taking up his duties, take and subscribe to an oath that he will faithfully and impartially discharge his duties as such appraiser, and that he will make a true report of such work done by him. The said appraisers shall at their first meeting elect one of their own number chairman, and the secretary of the board of directors or his deputy shall be ex officio secretary of said board of appraisers during their continuance in office. A majority of the appraisers shall constitute a quorum, and a concurrence of the majority in any matter within their duties shall be sufficient for its determination. Said appraisers shall continue to hold their office until dismissed by the board of directors, and the board of directors shall fill all vacancies in the board of appraisers, or may appoint a new board for subsequent appraisals, as occasion may require. Such new board, if appointed, shall fill all the requirements of the board of appraisers of the district, and perform its duties.

Appraisal of
benefits and
damages.

SEC. 25. When the official plan is adopted and filed with the secretary of the district and said appraisers have been appointed he shall at once notify the board of appraisers, and they shall thereupon proceed to appraise the benefits of every kind to all real property within or without the district, which will result from the organization of said district and the execution of the official plan; and also to appraise the damages sustained and the value of the land and other property necessary to be taken by the district for which settlement has not been made by the board of directors. In the progress of their work, they shall have the assistance of the attorney, engineers, secretary and other agents and employees of the board of directors.

The board of appraisers shall also appraise the benefits and damages, if any, accruing to property or interests in properties of cities, counties and other public corporations, and to the State of California.

Before appraisals of compensation and damages are made, the directors of the district may report to the appraisers the parcels of land or other property, or any other works to be done, included within the powers granted under the act they may wish to purchase and for which they may wish appraisals to be made, both for easement and for purchase in fee simple. The board may, if it deems best, specify in case of any property the particular purpose for which and the extent to which an easement in the same is desired, describing definitely such purpose and extent. The appraisers shall appraise all damages which may, because of the execution of the official plan, accrue to real or other property either within or without the district, which damages shall also represent easements acquired by the district for all the purposes of the district, unless otherwise specifically stated. Upon such appraisals being confirmed by the board of directors, the board of directors of the district shall have the option of paying the entire appraised value of the property and acquiring full title to it (in fee simple), or of paying only the cost of such easement for the purposes of the district. The appraisers in appraising benefits and damages shall consider only the effect of the execution of the official plan. The appraisers in making appraisals shall give due consideration and credit to any other works or other systems of reclamation already constructed, or under construction, which form a useful part of the work of the district according to the official plan. Where the appraisers return no appraisal of damages to any property, it shall be deemed a finding by them that no damage will be sustained.

Appraisal of property for purchase.

SEC. 26. If the appraisers find the lands or other property not embraced within the boundaries of the district will be affected by the proposed improvement, or should be included in the district, they shall appraise the benefits and damages to such land, and shall file notice with the board of directors of the appraisal which they have made upon the lands beyond the boundaries of the district.

Lands outside district.

SEC. 27. The board of appraisers shall prepare a report of its findings which shall be arranged in tabular form and bound in book form, and which shall be known as the conservancy appraisal record. Such record shall contain the names of the owners of property appraised as it may appear on the last assessment roll of the county, a description of the property appraised, the amount of benefits appraised, the amount of damages appraised, and the appraised value of land or other property which may be taken for the purposes of the district. They shall also report any other benefits or damages or any other matter which in their opinion should be brought to the attention of the board of directors. No error in the names of the owners of real property or in the descriptions thereof shall invalidate said appraisal or the levy of assessments or taxes based thereon, if sufficient description is given to identify such real property.

Report of board of appraisers.

When their report is completed, it shall be signed by at least a majority of the appraisers and filed with the secretary.

Notice of hearing on appraisals

SEC. 28. Upon the filing of the report of the appraisers, the secretary of the district shall give notice thereof by publication. Said notice shall be substantially as in form six of the schedules hereto attached. It shall not be necessary for said secretary to name the parties interested.

Description of lands.

It shall not be necessary to describe the separate lots or tracts of land in giving said notice, but it shall be sufficient to give such descriptions as will enable him, the owner, to determine whether or not his land is covered by such description. For instance, it will be sufficient to state "all land lying in block ----- of the town of -----" or, "all land abutting on ----- street in the town of -----," or "all land lying west of ----- river and east of ----- railroad in ----- township," or any other general description pointing out the lands involved and identifying the same.

Where lands in different counties are mentioned in said report it shall not be necessary to publish a description of all the lands in the district in each county, but only of that part of the said lands situate in the county in which publication is made.

Hearing of objections.

SEC. 29. Any property owner may accept the appraisals of benefits and of damages and of lands to be taken made by the appraisers, or may acquiesce in their failure to appraise damages, and shall be construed to have done so unless he shall within ten days after the last publication provided for in the preceding section file objections to said report. All objections shall be heard by the board of directors, beginning not less than twenty nor more than thirty days after the last publication provided for herein, and determined in advance of other business so as to carry out, liberally, the purposes and needs of the district. The board of directors, if it deem necessary, may alter or amend said report in accordance with such objection or any of them, or may return the report to the board of appraisers for their further consideration and amendments, and enter its order to that effect. If, however, the appraisal roll as a whole is referred back to the appraisers, the board of directors shall not resume the hearing thereof without due notice, as for an original hearing thereon.

Approval of report.

SEC. 30. If it appears to the satisfaction of the board of directors after having heard and determined all said objections that the estimated cost of constructing the improvement contemplated in the official plan is less than the benefits appraised, then the said board shall approve and confirm said appraisers' report as filed or as so modified and amended. In case the board of directors shall find that the benefits appraised are less than the estimated total costs, it shall report the fact to the board of supervisors who shall disorganize the district after having provided for the payment of all expenditures by an order of said board abandoning all proceedings.

Disorganization of district on disapproval of report.

SEC. 31. If after the approval of the appraisers' report the said board of directors deems it necessary to proceed by condemnation to acquire for the district property to carry out the official plan of the district, it may proceed so to do, under and by virtue of the laws of the State of California, and the passage of a resolution by said board that the lands to be acquired are for a public use shall be conclusive of that fact.

Condemnation of additions of property.

SEC. 32. The board of directors may at any time before the conclusion of the hearing thereon and the approval by the state engineer, when necessary to fulfill the objects for which the district was created, alter or add to the official plan as in section eleven provided, and when such alterations or additions are formally approved by the said board and by the state engineer and are filed with the secretary, they shall become parts of the official plan for all purposes of this act. Where such alterations or additions in the judgment of the said board neither materially modify the general character of the work, nor materially increase resulting damages for which the board is not able to make amicable settlement, nor increase the cost more than ten per cent, no reappraisal shall be necessary. In case the proposed alterations or additions in the opinion of the board materially modify the resulting damages or materially reduce the benefits, for which the board of directors is not able to make amicable settlement, or materially increase the benefits in such a manner as to require a new appraisal, or increase the cost more than ten per cent, the board of directors shall direct the board of appraisers (which may be the original board or a new board appointed by the board of directors) to appraise the property to be taken, benefited or damaged, by the proposed alterations or additions. Upon the completion of the report thereon by the board of appraisers notice shall be given and a hearing had on their report in the same manner as in the case of the original report of the board of appraisers; *provided*, that where only a few landowners are affected, the secretary of the district may, on order of the board of directors, if found by them to be more economical and convenient, give personal notice to such landowners of the hearing of the report of said appraisers, instead of notice by publication; *and provided*, that when the only question at issue is additional damages or reduction of benefits to property, due to modifications or additions to the plans, the board of directors may, if they find it practicable, make settlements with the owners of the property damaged or benefited, instead of having appraisals made by the board of appraisers. In case such settlements are made, notice and hearing need not be had. After bonds have been sold, in order that their security may not be impaired, no reduction shall be made in the aggregate amount of benefits appraised against property in the district.

Alterations or additions to plan.

Validity of proceeding not affected by fault.

SEC. 33. No fault in any notice or other proceedings shall affect the validity of any proceeding under this act except to the extent to which it can be shown that such fault resulted in a material denial of justice to the property owner complaining of such fault if any appraisal of benefits shall be declared ineffectual by any court.

The board of directors may render a finding as to the amount of benefits to said property, and appraise the proper benefits accordingly, and thereupon said land shall be assessed according to such benefits.

District funds.

SEC. 34. The moneys of every conservancy district organized hereunder shall consist of four separate funds: (1) Preliminary fund, by which is meant the proceeds of the ad valorem tax authorized by this act and such advancements as may be made from the general county funds as provided in this act; (2) bond fund, by which is meant a fund raised by the issuance and sale of bonds of the district; (3) improvement warrant fund, by which is meant the proceeds of levies made against the special assessments of benefits equalized and confirmed under the provisions of this act; and (4) maintenance fund, which is a special assessment to be levied annually for the purpose of upkeep, administration and current expenses as hereinafter provided. It is intended that the cost of preparing the official plan, the appraisal (except as paid out of the preliminary fund) and the entire cost of construction and superintendence, including all charges incidental thereto, and the cost of administration during the period of construction, shall be paid out of the bond fund.

No vouchers shall be drawn against the preliminary fund (except for advances from the general county funds) or against the maintenance fund until a tax-levying resolution shall have been properly recommended by the board of directors and passed by the board of supervisors and duly entered upon its records; no bonds shall be issued against the bond fund until a tax-levying resolution shall have been properly recommended by the board of directors and passed by the board of supervisors and duly entered upon its records; no moneys shall be transferred from the improvement warrant fund except by order of the board of supervisors, upon recommendation of the board of directors.

Payment of preliminary expenses.

SEC. 35. If the district is not organized, then the costs of publication and other official costs of the proceedings shall be collected by the county from the petitioners or their bondsmen, paid into the county treasury and there held in a separate fund against which warrants may be audited and drawn on the order of the board of supervisors, as other warrants of the county are audited and drawn. Upon the organization of the district, the board of supervisors shall make an order indicating a preliminary division of the preliminary expenses between the counties included in the district in approximately the proportions of interest of the various counties as may be estimated by said board of supervisors.

And the board of supervisors of each respective county shall issue an order to the auditor of its respective county to issue his warrant for the pro rata amount to be paid that county, upon the treasurer of his county to reimburse the county having paid the total cost; *provided, however*, that the joint board of supervisors shall first determine at a previous meeting the pro rata amount to be borne by each county and shall determine the same upon a basis of the assessed value of property benefited in the district in each county.

Expenses incurred thereafter prior to the receipt of money by the district from taxes or assessments, bond sales, or otherwise, shall be paid from the general funds of the respective counties proportionately upon the order of the board of supervisors, and shall be paid upon certification of the clerk of the board of supervisors of such order, specifying the amount and purpose of the claims to the auditor of each county, who shall thereupon at once issue his warrant to the treasurer of his county. Upon receipt of funds by the district from the sale of bonds or by taxation or assessment the funds so advanced by the counties shall be repaid.

Advance of funds by counties.

As soon as any district shall have been organized under this act, and a board of directors shall have been elected and qualified, such board of directors shall recommend to the board of supervisors and the board of supervisors shall have the power and authority to levy upon the property within the district an assessment not to exceed three-tenths of a mill on each one hundred dollars of the assessed valuation thereof as a level rate to be used for the purpose of paying expenses of organization, for surveys and plans, and for other incidental expenses which may be necessary up to the time money is received from the sale of bonds or otherwise. This assessment shall be certified to the auditors of the various counties having property within the district and by them to the respective treasurers of their counties. If such items of expense have already been paid in whole or in part from other sources, they may be repaid from the receipts of such levy, and such levy may be made although the work proposed may have been found impracticable or for other reasons is abandoned. The tax collector shall at once proceed to collect said assessment and the collection of such assessment levy shall conform in all matters to the collection of taxes and assessments for the district outlined in this act, and the same provisions concerning the non-payment of taxes shall apply. In case a district is disbanded for any cause whatever before the work is contracted, the data, plans and estimates which have been secured shall be filed with the clerk of the board of supervisors with which the petition thereupon was filed, and shall be matters of public record available to any person interested.

Tax levy for incidental expenses.

SEC. 36. If any warrant issued by the board of directors is presented for payment and is not paid for want of funds in the treasury, that fact with the date of refusal shall be endorsed on the back of such warrant, and said warrant shall thereafter

draw interest at the rate of six per cent, until such time as there is money in the treasury of said district sufficient to pay the amount of said warrant with interest.

Bond issue
to complete
works.

SEC. 37. At any time after the adoption of the original official plan the board of directors may by majority vote of said board adopt and enter on their minutes a resolution estimating the amount of money needed to complete the works according to said official plan and authorizing and directing a petition to be filed with the board of supervisors of the county in which the original petition for the organization of the district was filed, requesting that a special election be called to submit to the electors of the district qualified under this act the question of incurring an indebtedness in the amount specified in said resolution. Said petition shall set forth the amount of bonds to be issued, the rate of interest to be paid, which shall not exceed six per cent per annum and in general terms the objects and purposes for which the indebtedness is to be incurred. After the filing of said petition the board of supervisors shall without delay call a special election and submit to the electors of said district, qualified under the provisions of this act, the proposition of incurring a bonded debt in the amount estimated by the board for the construction of the works in accordance with said official plan.

Additional
issues.

If the amount of money provided in the original bond issue is not sufficient to complete the work according to the official plan nothing herein contained shall prohibit the board of directors from filing petitions for additional issues of bonds in the same form and manner hereinabove set forth for the original issue of bonds. The plan and procedure for the original issue of bonds shall be followed for all subsequent issues of bonds.

Ordinance
calling
election.

Said board of supervisors shall call such special election by ordinance, and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; *provided*, that it shall be sufficient to give a brief general description of such objects and purposes, and refer to the official plan on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and what part of such indebtedness shall be paid each and every year, and which shall be not less than one-fortieth of the whole amount of such indebtedness, and the rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, the manner of holding the same and the manner of voting for or against incurring such indebtedness. The rate of interest to be paid on such indebtedness shall not exceed six per centum per annum.

Rate of
interest.

Election
precincts.

For the purposes of said election, said board of supervisors shall in said ordinance establish election precincts within the boundaries of the said district, and may form election precincts by consolidating the precincts established for general

election purposes in said district to a number not exceeding six for each such bond election precinct, and shall designate a polling place and appoint two inspectors, two judges and two clerks for each of such precincts.

In all particulars not recited in such ordinance, such election shall be held as nearly as practicable in conformity with the general election laws of the state.

Said board of supervisors shall cause so much of said official plan as covers a general description of the work to be done, and the map showing the location of the proposed work and improvements, to be printed at least thirty days before the date fixed for such election, and a copy thereof furnished to every elector of said district qualified under the provisions of this act who shall apply for the same.

Said ordinance calling such election shall, prior to the date set for such election, be published ten times in a daily, or four times in a weekly, newspaper of general circulation, printed and published in said district, and designated by said board of supervisors for said purpose. No other notice of such election need be given. Publication of ordinance.

Any defect or irregularity in the proceedings prior to the calling of such election shall not affect the validity of the bonds.

If at such election a majority of the votes cast are in favor of incurring such bonded indebtedness, then bonds of said district for the amount stated in such proceedings shall be issued and sold as in this act provided. All bonds issued under this act shall mature serially in equal annual amounts of not less than one-fortieth part of the aggregate principal in each year, and their principal and interest shall be made payable at the county treasurer's office of the main county; in United States gold coin. The board of supervisors by an order entered upon its minutes shall prescribe the form of said bonds, and of the interest coupons attached thereto; the denominations of the bonds, which shall be not less than one hundred dollars nor more than one thousand dollars; the dates of payment of principal and interest, and the serial numbering of the bonds and coupons. Said bonds shall be signed on behalf of the district by the chairman of the board of supervisors of the main county and by the auditor of said county, and the coupons shall be signed by the engraved or lithographed facsimile signature of such auditor; and when so signed said bonds and coupons shall be delivered for safe keeping to the county treasurer of said main county, who shall deliver them to the purchaser or purchasers thereof on receipt of the purchase price. If any officer signing shall cease to be such officer before the delivery of the bonds to the purchaser, such signature shall nevertheless be valid and effectual. Said bonds shall be sold in the manner prescribed by the board of supervisors, but for not less than par, and the proceeds of sale thereof, including any premium received at such sale, shall be Majority vote.

deposited in the county treasury to the credit of the construction fund of the district. Payments from said fund shall be made by the county treasurer upon demands signed by the president and secretary of the district and approved by resolution of the board of directors, each of which demands shall recite that it is drawn in payment of work to be done under said official plan, or for expense incidental thereto. Bonds issued under this act shall constitute a continuing lien upon all property within the district. The board of supervisors shall levy a tax each year upon the taxable property in such district, sufficient (when added to the district bond fund in the county treasury available therefor) to pay the annual interest on said bonds, and also such part of the principal thereof necessary to be collected as will become due before the collection of the next general tax levy. Such tax shall be levied and collected on such property in each county containing any part of the district at the time and in the same manner as the general tax levy for county purposes, and when collected shall be paid by the treasurer of each county into the county treasury of the main county to the credit of the district bond fund, to be used for the payment of the principal and interest of said bonds and for no other purpose. The treasurer shall pay therefrom the principal and interest of said district bonds in the manner provided by law for payment of county bonds.

The provisions of the Political Code prescribing the manner and effect of levying, equalizing and collecting taxes, the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers in respect thereto, so far as they do not conflict with the specific provisions of this act, are hereby adopted and made applicable to the levy and collection of said taxes for the payment of bonds. Such officers shall be liable on their official bonds for the faithful discharge of the duties imposed on them by this act.

Partial sale
or pledge.

If at the time the bonds are ready to be issued, the board shall be of the opinion that such bonds can not advantageously be issued and sold in whole, the board may sell parts only of the entire issue or may pledge all or part of said issue as collateral to a loan, but no partial sale or pledge shall be made without the order of the board made and entered of record, and no pledge shall be made at a greater margin than at the rate of one hundred dollars of bond principal for ninety dollars of loan.

The district may secure the payment of loans from the United States government in the same manner as it may secure the payment of bonds, and the board of directors may make any necessary regulations to provide for such payments.

Validity
of bonds.

This act shall, without reference to any other act of the legislature of California, be full authority for the issuance and sale of the bonds in this act authorized, which bonds shall have all the qualities of negotiable paper under the law merchant, and when executed and sealed and certified to by the state treasurer in conformity with the provisions of this act, and

when sold in the manner prescribed herein and the consideration therefor received by the district, shall not be invalid for any irregularity or defect in the proceedings for the issue and sale thereof, and shall be incontestible in the hands of bona fide purchasers or holders thereof for value. No proceedings in respect to the issuance of any such bonds shall be necessary except such as are required by this act. Whenever the owner of any coupon bond issued pursuant to the provisions of this act shall present such bond to the treasurer of the district with a request for the conversion of such bond into a registered bond, the said treasurer shall cut off and cancel the coupons of any such coupon bond so presented and shall stamp, print or write upon such coupon bond so presented, either upon the back or the face thereof, as may be convenient, a statement to the effect that the said bond is registered in the name of the owner and that thereafter the interest and principal of said bond are payable to the registered owner. Thereafter and from time to time, such bond may be transferred by such registered owner in person or by attorney duly authorized on presentation of such bond to the treasurer of the district and the bond again registered as before, a similar statement being stamped, printed or written thereon. Such statement stamped, printed or written upon any such bond may be substantially in the following form:

This bond is registered pursuant to the statutes in such case made and provided, in the name of (here insert name of owner), and the interest and principal thereof are hereafter payable to such owner.

If any bond shall be registered as aforesaid, the principal and interest of such bond shall be payable to the registered owner. The treasurer of the district shall enter in a register of said bonds to be kept by him or in a separate book, the fact of the registration of such bond and the name of the registered owner thereof, so that said registry or book shall at all times show what bonds are registered and the name of the registered owner thereof.

SEC. 38. Bonds of any district issued pursuant to the provisions of this act which are investigated and approved by any commission or officer now or hereafter authorized by the laws of this state to conduct such investigation and give such approval and by authority of which approval said bonds are declared to be legal investments for savings banks may be lawfully purchased or received in pledge for loans by banks, trust companies, guardians, executors, administrators and special administrators, or by any public officer or officers of this state, or of any county, city, city and county or other municipal or corporate body within the state having or holding funds which they are allowed by law to invest or loan.

Improvement warrants.

SEC. 39. Upon the adoption of the report of appraisers hereinbefore referred to, the board of directors shall certify said report to the board of supervisors. The board of supervisors shall levy against the respective parcels of property within the district the sum set forth in said report of appraisers assessed to the respective parcels of property as therein set forth for special benefits. The board of supervisors shall thereupon issue what shall be known as improvement warrants, under the provisions of this act, to represent such special assessments against each parcel of land, in the form and manner and with the effect in this act provided. Said improvement warrants shall be numbered consecutively, their said numbers corresponding with the numbers given to the respective parcels of land as shown upon the map accompanying the general plan, and shall be deemed to refer to said map. The respective special assessments so levied, as evidenced by said improvement warrants, shall bear the same rate of interest per annum from the date of the issuance of the said warrants until paid as is borne by the district bonds hereinbefore authorized to be issued, and said interest, together with a sum equal to the first installment of principal, plus one per cent of said principal, shall be paid semiannually at the treasury of said district. Said assessments shall be apportioned by said board of supervisors over a period of twenty-six years, both principal and interest payable at the office of the treasury of said district. The said improvement warrants issued to evidence said assessments shall be attested by the seal of said district, and shall be signed by the secretary of the board of directors, and shall be a lien for the amount indicated on the face of such warrants, viz, the amount of said special assessment, together with accrued interest, if any, against the specific parcels of land to which the said improvement warrants respectively refer. Payment of the annual installment of the principal of said assessment, as evidenced by said improvement warrants, together with accrued interest, shall be due on the first day of July and January of each year, and the first payment shall be due on the first day of July next following the date of the issuance of such improvement warrant. In case of default in the payment of any installment of the principal provided for in said improvement warrant, or interest accrued on deferred payments, then and in that event the entire remaining unpaid installments shall become immediately due and payable, and the same, and all liens which are security therefor, may be collected and enforced as in this act provided. Said improvement warrants shall be in the following, or substantially the following form, and of effect as therein stated:

The treasurer shall be entitled to receive from the purchaser two dollars for making said deed, which shall be deposited in the treasury of the district for the use of the district after payment has been made therefrom for the acknowledgment of said deed; *provided, however*, that the purchaser of the property, or his assignee or agent, must, thirty days prior to the expiration of the time of the redemption, or thirty days before his application for a deed, serve upon the owner or agent of the property purchased, if named in such certificate of sale, and upon the party occupying the property if the property is occupied, a written notice, stating that said property, or a portion thereof, has been sold to satisfy the improvement warrant lien, and stating the date of sale, the number, the amount then due, and the time when the right of redemption will expire, or when the purchaser will apply for a deed, and the owner of the property shall have the right of redemption indefinitely until such notice shall have been given and such deed applied for, upon the payment of the fees, penalties and costs in this act required. In case of unoccupied property, a similar notice must be posted in a conspicuous place upon the property at least thirty days before the purchaser

applies for a deed, and no deed to the property sold in accordance with the provisions of this act shall be issued by the treasurer of the district to the purchaser of such property until such purchaser shall have filed with such treasurer an affidavit showing that the notice hereinbefore required to be given has been given as herein required, which said affidavit shall be filed and preserved by the said treasurer as other records kept by him in his office. Such purchaser shall be entitled to receive the sum of fifty cents for his services of such notice and the making of such affidavit, which sum of fifty cents shall be paid by the redemptioner at the time and in the same manner as the other sums, costs and fees are paid.

SEC. 52. Deed

evidence of
proceedings

SEC. 53. Nothing in this act contained shall be construed to deprive any person or persons whose land has been assessed, as evidenced by said improvement warrants, of the privilege of paying off and having said warrant canceled by the payment of the principal and accrued interest of said warrant at any time when payments may be made during the life of said warrant.

Paying off
warrant.

SEC. 54. To maintain, operate and preserve the reservoirs, ditches, drains, dams, levees, settling basins or settling wells, canals or other improvements made pursuant to this act and to strengthen, repair and restore the same, when needed, and for the purpose of defraying the current expenses of the district, the board of directors may recommend, and the board of supervisors upon such recommendation may upon the substantial completion of said improvements and on or before the first day of September in each year thereafter, levy an assessment upon each tract or parcel of land and upon property within the district, subject to assessments under this act, to be known as a "conservancy maintenance assessment." Said maintenance assessment shall be apportioned upon the basis of the total appraisal of benefits accruing for original and subsequent construction, and shall be levied, collected, audited and deposited in each county in which lands of said district are situate, in the same manner as county taxes are levied, collected, audited and deposited; *provided, however*, that said funds shall be deposited to the credit of the "conservancy maintenance assessment fund," hereby established.

Conservancy
maintenance
assessment

The amount of the maintenance tax paid by any parcel of land shall not be credited against the benefits assessed against such parcel of land; but the maintenance tax shall be in

addition to any tax that has been or can be levied against the benefit assessment.

Readjustment of appraisal of benefits.

SEC. 55. Whenever the owners or representatives of twenty-five per cent or more of the acreage or value of the lands in the district shall file a petition with the clerk of the district, stating that there has been a material change in the values of the property in the district since the last previous appraisal of benefits, and praying for readjustment of the appraisal of benefits for the purpose of making a more equitable basis for the levy of the maintenance assessment, the said clerk shall give notice of the filing and hearing of said petition in the manner hereinbefore provided.

Upon hearing of said petition if said board of directors shall find there has been a material change in the value of property in said district since the last previous appraisal of benefits, the board of directors shall order that there be a readjustment of the appraisal of benefits for the purpose of providing a basis upon which to levy the maintenance assessment of said district. Thereupon the board of directors shall direct the appraisers of the conservancy district to make such readjustment of appraisal in the manner provided in this act, and said appraisers shall make their report; and the same proceedings shall be had thereon, as nearly as may be, as are herein provided for the appraisal of benefits accruing for original construction; *provided*, that in making the readjustment of the appraisal of benefits said appraisals shall not be limited to the aggregate amount of the original or any previous appraisal of benefits, and that after the making of such readjustment the limitation of the annual maintenance assessment to one per cent of the total appraised benefits shall apply to the amount of the benefits as readjusted; *and provided*, *further*, that there shall be no such readjustment of benefits oftener than once in six years.

Invalid assessments.

SEC. 56. If any assessment made pursuant to the provisions of this act shall prove invalid, the board of directors shall by subsequent or amended acts or proceedings promptly and without delay remedy all defects or irregularities as the case may require by making and providing for the collection of new taxes or assessments or otherwise.

Collection of tax levied against county or city.

SEC. 57. Whenever, under the provisions of this act, an assessment is made or a tax levied against a county or city, it shall be the duty of the governing or taxing body of such political subdivision, upon receipt of the order of the board of directors which established the district, confirming the appraisal of benefits and the assessment based thereon, to receive and file the said order, and to immediately take all the legal and necessary steps to collect the same. It shall be the duty of the said governing or taxing body or persons to levy and assess a tax, by a uniform rate upon all the taxable property within the political subdivision, to make out the proper duplicate, certify the same to the auditor

of the county in which such subdivision is, whose duty it shall be to receive the same, certify the same for collection to the tax collector of the county, whose duty it shall be to collect the same for the benefit of the conservancy district, all of said officers above named being authorized and directed to take all the necessary steps for the levying, collection and distribution of such tax.

Nothing in this section shall prevent the assessment of the real estate of other corporations or persons situated within such political subdivision, which may be subject to assessment for special benefits to be received.

Every conservancy district formed or established under the provisions of this act, must be designated by the name and under the style of _____ conservancy district (using the name of the district), of _____ county (using the name of the county in which such district is situated), and in that name the board of supervisors may make and award contracts, and may sue and be sued. Designation of district.

The district may at any time be dissolved upon the vote of two-thirds of the qualified electors thereof voting at an election called by the board of supervisors, upon the question of dissolution. Upon a petition signed by fifty or more property owners and residents of such conservancy district, or by thirty-three per cent of the property owners and residents, asking for the dissolution of said district, the board of supervisors shall within thirty days after receiving said petition, by resolution, order that an election be held in the said district, for the determination of the question. Such election shall be called and conducted in the same manner as other elections of the district. Upon such dissolution, any property which may have been acquired by such conservancy district shall vest in the board of supervisors of the county wherein such conservancy district is situated; *provided, however*, that if at the time of the election to dissolve such district there be any outstanding indebtedness of such district, then, in such event, the vote to dissolve such district shall dissolve the same for all purposes excepting only the levy and collection of taxes for the payment of such outstanding indebtedness; and from the time such district is thus dissolved, until such indebtedness is fully paid, satisfied and discharged, the board of supervisors is hereby constituted ex officio the governing board of such district. And it is hereby made obligatory upon such board to levy such taxes and perform such other acts as may be necessary in order to raise money for the payment of such indebtedness, as herein provided. Dissolution of district.

In the event of any dissolution or disincorporation of any conservancy district organized pursuant to the provisions of this act, such dissolution or disincorporation shall not affect the lien of any assessment for benefits imposed pursuant to the provisions of this act, or the liability of any land or lands in such district to the levy of any future assessments for the Lien not affected by dissolution.

Duty of officers in event of dissolution

purpose of paying the principal and interest of any bonds issued hereunder, and in that event, or in the event of any failure on the part of the officers of any district to qualify and act, or in the event of any resignations or vacancies in office, which shall prevent action by the said district or by its proper officers. it shall be the duty of the county tax collector and of all other officers charged in any manner with the duty of assessing, levying and collecting taxes for public purpose in any county, in which said lands shall be situated, to do and perform all acts which may be necessary and requisite to the collection of any such assessment which may have been imposed and to the levying, imposing and collecting of any assessment which it may be necessary to make for the purpose of paying the principal and interest of the said bonds. Any holder of any bonds issued pursuant to the provisions of this act or any person or officers being a party in interest, may either at law or in equity by suit, action or mandamus, enforce and compel performance of the duties required by this act of any of the officers or persons mentioned in this act.

Failure of tax collector to make prompt payment

SEC. 58. If any county tax collector or other person entrusted with the collection of these assessments refuses, fails or neglects to make prompt payment of the tax or any part thereof collected under this act to the treasurer of said district upon his presentation of a proper demand, then he shall pay a penalty of ten per cent on the amount of his delinquency; such penalty shall at once become due and payable and both he and his securities shall be liable therefor on his official bond.

Use of surplus funds.

SEC. 59. Any surplus funds in the treasury of the district may be used, upon resolution of the board of directors, for retiring bonds, reducing the rate of assessment to purchase lands sold for taxes or assessments, as hereinbefore provided, or for accomplishing any other of the legitimate objects of the district.

Report to board of supervisors.

At least once a year, or oftener if the board of supervisors shall so order, the board of directors shall make a report to the board of supervisors of its proceedings and an accounting of receipts and disbursements to that date which shall be filed with the clerk of the board of supervisors. Thereupon the board of supervisors shall order the auditing of said accounts by public accountants of recognized standing who shall file their report thereon with the clerk of the board of supervisors.

Per diem and expenses of directors, and appraisers

SEC. 60. Each member of the board of directors shall receive not to exceed ten dollars a day and his necessary traveling expenses, when away from home, for the time actually employed in performing his duties. Each appraiser shall receive not to exceed ten dollars a day and his expenses for the time actually employed in his duties.

Land in more than one district

SEC. 61. The same land, if conducive to public health, safety, convenience or welfare, may be included in more than one district and be subject to the provisions of this act for each and every district in which it may be included; *provided,*

that no district shall be organized under this act in whole or in part within the territory of a district already organized under this act until the board or joint boards of supervisors determine whether the public health, safety, convenience or welfare demand the organization of an additional district, or whether it demand that the territory proposed to be organized into an additional district shall be added to the existing district; and in case the proceedings concerning two or more such districts are before the board of supervisors of two or more counties, such determination shall be as provided in the next section.

SEC. 62. In case any district or districts are being organized within, or partly within and partly without, the same territory in which some other district or districts have been or are being organized, the board of supervisors of every such county in which such districts have been or are being organized shall confer at the earliest convenient moment after they ascertain the possibility of a conflict in jurisdiction, the sitting to be had in the county having the largest assessed valuation in the proposed district or districts, anything to the contrary herein stated notwithstanding.

Conference
of super-
visors to
determine
jurisdiction
of districts

At such conference, the several supervisors shall determine to what extent the several districts should be consolidated, or to what extent the boundaries should be adjusted in order to most fully carry out the purposes of this act; and they shall by suitable orders make such determination effective. At such conferences, the decision of the majority of the supervisors shall be necessary for the determination of any matter.

The provisions of this, and of the preceding section shall not operate to delay or to interrupt any proceeding under this act until the question of jurisdiction has been finally determined by the court or courts.

SEC. 63. Whenever it is desired to construct improvements wholly within any district organized under this act, which improvements will affect only a part of said district, for the purpose of accomplishing such work, subdistricts may be organized upon petition of the owners of real property, within the district, which petition shall fulfill the same requirements concerning the subdistricts as the petition outlined in this act is required to fulfill concerning the organization of the main district, and shall be filed with the clerk of the same board of supervisors, and shall be accompanied by a bond as provided for in this act in the first instance. All proceedings relating to the organization of such subdistricts shall conform in all things to the provisions of this act relating to the organization of districts, including also the provision in regard to holding an election excepting as to an election of directors. Whenever the board of supervisors shall by its order duly entered of record declare and decree such subdistricts to be organized, the clerk of said board shall thereupon give notice of such order to the directors of the district, who shall thereupon act also as directors of the subdistrict. Thereafter, the

Subdistricts

proceedings in reference to the subdistrict shall in all matters conform to the provisions of this act, with the same officers, directors and appraisers; except that in appraisal of benefits and damages for the purposes of such subdistricts, in the issuance of bonds, in the levying of assessments or taxes, and in all other matters affecting only the subdistrict, the provisions of this act shall apply to this subdistrict as though it were an independent district, and it shall not, in these things, be amalgamated with the main district.

Officers of
main district
to serve.

The board of directors, board of appraisers, chief engineer, attorney, secretary and other officers, agents and employees of the district shall, so far as it may be necessary, serve in the same capacities for such subdistrict, and contracts and agreements between the main district and the subdistrict may be made in the same manner as contracts and agreements between two districts. The distribution of administrative expense between the main district and subdistrict shall be in proportion to the interests involved and the amount of service rendered, such division to be made by the board of directors with an appeal to the board of supervisors establishing the district. This section shall not be held to prevent the organization of independent districts for local improvements under other laws within the limits of a district organized under this act.

Protection
of works.

SEC. 64. The board of directors shall have the right to police the works of the district, and in times of great emergency may compel assistance in the protection of such works, and shall, also, have the right to prevent persons, vehicles or live stock from passing over the works of the district in any manner which would result in damage thereto.

Penalty for
injuring
bench marks,
etc.

SEC. 65. The wilful destruction, injury or removal of any bench marks, witness marks, stakes or other reference marks, placed by the surveyors or engineers of the district or by contractors in constructing the works of the district, shall be a misdemeanor, punishable by fine not exceeding one hundred dollars.

Liability for
damages.

SEC. 66. All persons and corporations shall be liable for damages done to works of the district by themselves, their agents, their employees, or by their live stock, in the same manner, and punishable in the same manner as persons and corporations are liable for damage committed to property or works belonging to private persons.

Districts for
forestation
and reforestation.

SEC. 67. Districts may be formed under the provisions of this act for forestation and reforestation of the lands leased or owned by said district or upon federal or state lands upon receiving proper permits therefor, when deemed necessary for and incidental to the conservation or control of flood waters against damage by floods, by a substantial compliance with the terms of this act. But no such district in its construction or operation shall in any manner interfere with works for the prevention of floods, or the drainage of lands, or materially

diminish their protective value. And the board of supervisors organizing such district for the conservation of water by forestation or reforestation solely, shall require a statement in the petition and proof of the effect that the organization and operation of the same will not materially interfere with any works or plans for flood prevention or the drainage or protection of lands, but will assist in preventing such damage. Nor shall any improvement under this act deprive the owners of lands lying upon any streams of water, of the ordinary flow in said stream without compensation therefor.

Subject to the above, the board of directors shall have the same powers as are herein conferred generally by its provisions so far as applicable.

Sec. 68. In any and every case where a notice is provided for in this act, if the board of directors finds for any reason that due notice was not given, the board of directors shall not thereby lose jurisdiction, and the proceeding in question shall not thereby be void; but the board of directors shall in that case order due notice to be given, and shall continue the hearing until such time as such notice shall be properly given, and thereupon shall proceed as though notice had been properly given in the first instance.

If notice is not properly given.

In case any individual appraisal or appraisals, assessment or assessments, or levy or levies, shall be held void for want of legal notice, or in case the board may determine that any notice with reference to any land or lands may be faulty, then a petition may be filed with the board of directors asking that the board of directors order notice to the owner of such land or lands given and set a time for hearing as provided in this act. And in case the original notice as a whole was sufficient, and was faulty only with reference to publication as to certain tracts, only the owners of and persons interested in those particular tracts need be notified by such subsequent notice. And if the publication of any notice in any county was defective or not made in time, publication of the defective notice need be had only in the county in which the defect occurred.

Sec. 69. All cases in which there arises a question of the validity of the organization of conservancy districts shall be advanced as a matter of immediate public interest and concern, and heard in all courts at the earliest practicable moment.

Early hearing on question of validity.

Sec. 70. This act being necessary for securing the public health, safety, convenience or welfare, and being necessary for the prevention of great loss of life and for the security of public and private property from floods and other uncontrolled waters, it shall be liberally construed to effect the control and conservation and drainage of the waters of this state.

Construction of act.

Sec. 71. In case any section or sections or part of any section of this act shall be found to be unconstitutional, the remainder of the act shall not thereby be invalidated, but shall remain in full force and effect.

Constitutionality.

Alternative act

SEC. 72. All existing laws of the state and parts of laws relating to drainage, flood control, protection from storm waters, irrigation and subjects of which this act treats, shall not be in any other way affected by this act, but this act shall be treated and shall be in effect an alternative act thereto.

SEC. 73. For the sake of convenience:

Jurisdiction of supervisors over proceedings.

(a) In any orders of the board of supervisors, the words, "the board of supervisors now here finds that it hath jurisdiction of the parties to and of the subject matter of this proceeding," shall be equivalent to a finding that each jurisdictional act necessary to confer plenary jurisdiction upon the board of supervisors beginning with the proper signing and filing of the initial petition to the date of the order to meet every legal requirement imposed by this act, has been conferred.

Bonding resolution

(b) No other or further evidence of the legal disposition of the special assessment to the payment of the bonds shall be required than the passage of a bonding resolution by the board of directors recommending to the board of supervisors the issuance of bonds in accordance therewith.

Unnecessary to specify names in notice

(e) It shall not be necessary in any notice required by this act to be published to specify the names of the owners of the lands or of the persons interested therein; but any such notice may be addressed, "to all persons interested" with like effect as though such notice named by name every owner, of any lands within the territory specified in the notice and every person interested therein, and every lienor, actual or inchoate.

District a political subdivision.

(f) Every district declared to be a conservancy district in accordance with this act shall thereupon become a political subdivision and a public corporation of the State of California, invested with all the powers and privileges conferred upon such districts by this act.

Powers of state commissions not limited.

Nothing in this act stated shall be construed to limit or abridge the rights and powers now vested in the railroad commission of the State of California, the water commission of the State of California, the reclamation board, any other commission, officer or agency created by law, and all things herein enumerated to be done shall be performed subject to and in compliance with the authority now vested or hereafter to be vested by law in such commission, board, officer or agency, anything appearing herein notwithstanding.

An act to amend sections three thousand four hundred fifty-five, three thousand four hundred fifty-six, three thousand four hundred fifty-nine and three thousand four hundred sixty-three of the Political Code, relating to the organization, government and operation of reclamation districts.

[Approved May 16, 1919. In effect July 22, 1919.]

The people of the State of California do enact as follows:

SECTION 1. Section three thousand four hundred fifty-five of the Political Code is hereby amended to read as follows:

3455. (a) If and when any such district is located, in whole or in part, within the Sacramento and San Joaquin drainage district;

Within Sacramento and San Joaquin drainage district.

(1) The board of trustees of such reclamation district must report to the board of supervisors of the county within which the district, or the greater part thereof, is situate, by filing, with the county clerk of said county, three copies of the original plan or plans of the works of reclamation and three copies of every new, supplemental, or additional plan, if any, together with the estimates of the cost of the contemplated works of the district, including incidental expenses, maintenance and repair necessary for the reclamation of the lands of the district in pursuance of any such plan or plans. The term "works of reclamation" as used in this chapter shall include not only such public works and equipment, as are necessary for the unwatering of lands in reclamation districts, but shall also include such like works as may be necessary to water or irrigate the same lands in such districts.

Plans to be reported to supervisors.

(2) Within five days after said three copies of such plans and estimates are filed with him, the said county clerk shall certify two of said copies and transmit the same to the secretary of the reclamation board.

Two copies to be certified.

(3) Upon receipt of said certified copies of said plan or plans, the secretary of the reclamation board shall immediately set a date when the reclamation board will hold a meeting for considering objections, if any, to said plans. All such hearings by the said reclamation board shall be held not less than twenty, nor more than sixty days after the day the secretary of the reclamation board receives the certified copies of the said plans. Notice of said hearing before the said reclamation board shall be given by the secretary of said board by publishing a notice of such hearing once a week for two weeks in some newspaper of general circulation published within said district or, if there be no such newspaper so published, then in the county seat of the county within which the said district or the greater part thereof, is situate. Said notice shall be in substantially the following form:

Hearing for objections to plans.

"Notice to the landowners of reclamation district -----

Form of notice.

Notice is hereby given to the landowners of reclamation district number ----- that there has been filed with the county clerk of the county of ----- and with the secretary of the reclamation board, original (supplemental or new, as the case may be) plans for the reclamation of lands of said district; that the reclamation board will hold a meeting at its office in the city of Sacramento, county of Sacramento, State of California, on the ----- day of -----, A. D. 191-- at ----- o'clock, at which time any interested party may appear and object to the said plans."

(4) At said hearing the reclamation board shall hear such evidence as may be offered with respect to said plans, and thereafter shall approve, modify, amend or reject the said plans; *provided, however*, that the said reclamation board shall not have the power to modify, amend or reject any plans so submitted on the ground that said plans provide

for a levee which in their judgment is of excessive strength either in height, slopes or crown width: but no claim for compensation shall thereafter be made against the reclamation board or the Sacramento and San Joaquin drainage district for any part of such levees which said board may consider to be in excess of what is required to comply with its plans for flood control. The reclamation board shall have power to continue or adjourn the said hearing from time to time and shall have authority to cause such investigation and report of said plans to be made by the engineers connected with the reclamation board or by such other competent authority as said board shall deem necessary.

Action taken shall be final.

(5) When the said reclamation board shall have taken action approving, modifying, or rejecting any such original, supplemental or new plan of reclamation after a hearing as herein provided, such action shall be final, and thereafter the sufficiency of said plans shall not be subject to attack either before the reclamation board or in any court; *provided, however*, that nothing herein contained shall prevent the board of trustees of any district from at any time filing with the county clerk of the county within which the district, or the greater part thereof, is situate, three copies of any amendatory, additional or supplemental plan of reclamation. In the event any such amendatory, additional or supplemental plan of reclamation is filed with the said clerk, two certified copies thereof shall be transmitted to the secretary of the reclamation board, who shall set the time for hearing, and thereafter the same proceedings shall be had and with like effect with respect to said amendatory, additional or supplemental plan as is herein provided for the original plan.

Commissioners to view and assess lands.

(2) Thereupon the board of supervisors of such county must appoint three commissioners, who shall have no interest in any real estate within said district, each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real estate within said district, directly or indirectly, and that he will perform the duties of a commissioner to the best of his ability. Said commissioners must view and assess upon the land within said district the said sum so estimated and shall apportion the same according to the benefits that will accrue to each

tract of land in said district, respectively, by reason of the expenditures of said sums of money, and shall estimate the same in gold coin of the United States. The same must be collected and paid into the county treasury as hereinafter provided, and be placed by the treasurer to the credit of the district, and paid out for the works of reclamation upon the warrants of the trustees, approved by the board of supervisors, or, if bonds of such district have been issued upon said assessment, then said treasurer shall set the same apart as a separate fund for the purpose of paying the principal and interest of such bonds, and shall not pay any part of the moneys received from such assessment for any purpose other than the payment of the principal and interest of such bonds.

(c) Any of the said plan or plans and estimates may include any levees or other reclamation works already constructed or in course of construction and payments therefor may be made to the person or persons who constructed the same or to the grantee of the lands for the benefit of which such levees or other works of reclamation were constructed by the owner of such lands, and no trustee shall be disqualified to make or approve such plans or estimates because of his ownership of any levee or other reclamation works included in such plan, or the cost of which is embraced in said estimates but he shall be disqualified to vote for the issuance of any warrant or order to himself in payment therefor.

What plans and estimates may include

Sec. 2. Section three thousand four hundred fifty-six of the Political Code is hereby amended to read as follows:

3456. (a) If such reclamation district is located, in whole or in part, within the Sacramento and San Joaquin drainage district, then if and when the said reclamation board shall have approved the plan or plans of the works of reclamation, after a hearing as provided in section three thousand four hundred fifty-five of this code, then the board of trustees of the reclamation district shall so report to the board of supervisors of the county within which the district or the greater part thereof is situate, and shall set forth in their said report the estimated cost of the said works of reclamation, and petition the said board of supervisors to appoint three commissioners who shall have no interest in any real estate within said district, each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real estate within said district, directly or indirectly, and that he will perform the duties of a commissioner to the best of his ability. Upon receipt of said petition from the board of trustees the board of supervisors to whom the same was presented must within not more than sixty days appoint said assessment commissioners above referred to. Said commissioners must view and assess upon the land within said district the said sum so estimated and shall apportion the same according to the benefits that will accrue to each tract of land in said district, respectively, by reason of the expenditures of said sums of money, and shall estimate the same in gold

coin of the United States. The sums must be collected and paid into the county treasury as hereinafter provided, and be placed by the treasurer to the credit of the district, and paid out for the works of reclamation upon the warrants of the trustees, approved by the board of supervisors, or, if bonds of such district have been issued upon said assessment, then said treasurer shall set the same apart as a separate fund for the purpose of paying the principal and interest of such bonds, and shall not pay any part of the moneys received from such assessment for any purpose other than the payment of the principal and interest of such bonds.

Funds for
maintenance
and repair.

(b) In all cases when the work contemplated by the original or any supplemental plan of reclamation of any reclamation district shall have been completed, the trustees may so report to the board of supervisors of the county in which the district, or the greater part thereof is situate, together with a petition to the said board of supervisors to appoint assessment commissioners. Said report and petition shall set forth that the work contemplated by the original or supplemental plan of reclamation has been completed, and that hereafter the said reclamation district will only require funds for the maintenance and repair of the said works of reclamation. Upon filing said report and petition the said board of supervisors shall appoint three commissioners, each of whom shall be similarly qualified, and shall make and subscribe the same oath as is provided hereinabove for commissioners. When so appointed and so qualified such commissioners shall prepare an assessment list, which list shall contain the following information in separate columns:

Commis-
sioners to
prepare
assessment
list.

1. A description of each tract assessed by legal subdivisions, swamp land surveys, or other boundaries sufficient to identify the same.

2. The number of acres in each tract.

3. The names of the owners of each tract, if known; and if unknown, that fact; but no mistake or error in the name of the owner or supposed owner of the property assessed, and no mistake in any other particular, shall render the assessment thereof invalid.

4. The assessment valuation per acre of each tract assessed.

5. The total assessment valuations of each said tract.

6. A blank column for rate to be fixed as shown hereinafter.

7. A blank column for amount of assessment to be computed as shown hereinafter.

Thereafter said assessment valuations shall be used as a basis for assessments in raising funds for the maintenance and repair of the works of reclamation and incidental expenses of said district. Said assessment list, when completed, shall be filed with the clerk of the board of supervisors in the same manner as a report made under an original or modified plan of reclamation. Thereupon the said board of supervisors shall appoint a time when it will meet for the purpose of hearing objections; said objections, if any, must be in writing, verified,

and filed with the clerk of said board of supervisors. Notice of the said hearing shall be given in the same manner and for the same time as notice of hearing objections to an original assessment. At said hearing, the board of supervisors shall hear such evidence as may be offered in support of said written objections, and may modify or amend the said assessment valuations in any particular. No objections to said assessment valuations shall be considered by the board of supervisors, or allowed in any other action or proceeding, unless said objections shall have been made in writing to the board of supervisors within thirty days after the first publication of notice of hearing objections, if any, to said assessment valuations.

Any person aggrieved by the decision of the board of supervisors may commence an action in the superior court of the county in which the greater part of the said district is situate, to have said assessment valuations corrected, modified or annulled. Such action must be commenced within thirty days after said assessment valuations have been approved by the board of supervisors. If said action shall not be commenced within thirty days, no action of defense shall thereafter be maintained attacking the legality of said assessment valuations in any respect.

Action in
superior
court.

Hereafter, whenever, in the opinion of the trustees of the district, it shall be necessary to raise any sum for the construction, maintenance or repair of the works of reclamation, or for the incidental expenses of the district, the said board of trustees shall make an order, which order shall be entered in the minutes of the board and shall recite the total amount necessary to be raised and shall fix a rate designating the number of cents to be levied on each one hundred dollars of assessment valuation shown on the list prepared and approved in the manner hereinabove provided.

Amounts
needed
thereafter.

Thereafter the board of trustees must complete said assessment list by inserting the rate and the total assessment in columns six and seven as provided therefor.

The assessment made in pursuance hercof shall be filed with the county treasurer and thereafter collected in the same manner provided for the collection of any original assessment; *provided, however*, that the board of trustees may, in their discretion, direct the payment of any such assessment in one installment.

The report of assessment commissioners as herein provided, fixing the assessment valuations for reclamation purposes, after having first been approved by the board of supervisors as hereinabove provided, shall continue in force as the basis for raising necessary funds for construction, maintenance and repair of the works of reclamation, and for incidental expenses of the district until the trustees of said district, or the holders of title or evidence of title representing fifteen per cent or more of the lands within the district, shall petition said board

ment list.

of supervisors to make an order directing the commissioners who made the original assessment list or other commissioners, to be named in such order to prepare a new assessment list. Such commissioners must have the same qualifications and take the same oath as the original assessment commissioners.

The assessment list when so prepared by said commissioners shall be filed with the clerk of the board of supervisors, and shall thereafter in all respects be subject to the same provisions as an original assessment list. All provisions of this code relating to collection of assessments and sale of land for delinquent assessments, shall be applicable to assessments levied in accordance with the provisions of this section.

SEC. 3. Section three thousand four hundred fifty-nine of the Political Code is hereby amended to read as follows:

Additional
assessments.

3459. If the original assessment is insufficient to provide for the complete reclamation of the lands of the district, or if further assessments are from time to time required to provide for the protection, maintenance and repair of the reclamation works, the trustees may file with the clerk of the board of supervisors of the county in which the district or the greater part thereof, is situated two copies of the plan of reclamation and a statement of the work done or to be done and its estimated cost, and the same proceedings shall be had thereon as provided in section three thousand four hundred fifty-five for an original plan of reclamation. If the reclamation district is located, in whole or in part, within the Sacramento and San Joaquin drainage district, then when said plan shall have been approved by the state board of reclamation, and if a reclamation district is not so situate, then at any time, the trustees of the district shall report to the board of supervisors, and such board must make an order directing the commissioners who made the original assessment, or other commissioners, to be named in such order, to assess the amount of such estimated cost as a charge upon the lands within the district, which assessment must be made and collected in the same manner as the original assessment.

SEC. 4. Section three thousand four hundred sixty-three of the Political Code is hereby amended to read as follows:

Charges
assessed
become lien.

3463. When the board of supervisors shall have finally taken action modifying or approving any assessment liens as provided in section three thousand four hundred sixty-two of this code, the charges assessed thereby upon tracts of land within the county shall constitute a lien thereon and shall impart notice thereof to all persons.

When the board of trustees of any reclamation district shall cause assessment lists to be prepared and filed with the clerk of the board of supervisors, whereon they shall assess any sum necessary to be raised to the several tracts of land within the said district in the manner provided in section three thousand four hundred fifty-five, or in section three thousand four hundred fifty-six of this code, the charges so assessed

upon any said tract shall constitute a lien thereon and shall impart notice thereof to all persons.

No subsequent act or conduct of the trustees of the reclamation district shall invalidate any such assessment, after the same shall have become a lien in the manner herein provided, but such trustees may be compelled by mandate, or other proper proceeding, to perform their duties as required by law

Assessment
may not be
invalidated.

And the city council shall thereupon levy the assessment for the proportion or percentage required to pay for said improvement for the period of time beginning with the date of such levy and ending with the close of the following fiscal year, upon the respective subdivisions of land in the assessment district, and thereafter during the period of time provided in the resolution of intention, the city council shall on or before the beginning of the following fiscal year, levy in like manner the assessment for the proportion or percentage required to pay for such improvement for such year, and said board, commission or officer of the city authorized therefor shall, on or before sixty days prior to the commencement of such fiscal year, make and file with the city council a report in writing, presenting the following:

Any unexpended balance remaining in such fund at the expiration of any year shall be credited to the fund to be raised for the next ensuing fiscal year, and the assessment to be levied, as herein provided, for such ensuing year, shall be only for the amount required therefor after deducting from such estimated amount the amount of any such unexpended balance. Any unexpended balance remaining in such fund at the expiration of the period of time provided for in said resolution of intention shall, upon demands therefor made upon the city council of any such city, within one year from and after the expiration of the time specified in said ordinance of intention, be repaid pro rata to the persons by whom such assessments were paid; *provided, however*, that any such unexpended balance remaining in such fund and not demanded within said period of one year, as herein provided, shall be placed in such fund as the city council may order.

The validity of any assessment levied under this act shall not be contested in any action or proceeding unless the same is commenced within thirty days after the time said assessment is levied, and any appeal from a final judgment in such an action or proceeding must be perfected within thirty days after the entry of such judgment.

Contest of validity of assessment.

SEC. 7. Upon the levying of such assessment as provided in section five hereof, the clerk of said council shall transmit to the city tax collector the diagram and assessment upon which such levy is based.

Duty of clerk of council.

SEC. 8. Upon the receipt of the diagram and assessment referred to in the last preceding section, the tax collector shall record the same in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording, and such record shall be the assessment roll. From the date of such recording all persons shall be deemed to have notice of the contents of such assessment roll. Immediately upon such recording, the several assessments contained in such assessment roll shall become due and payable, and each of such assessments shall be a lien upon the property against which it is made, paramount to all other liens except liens for state, county and municipal taxes, and shall only be discharged by payment of the assessment or by redemption of the land after sale for delinquency. The tax collector shall, upon the recording of such assessment, give notice by publication for five days in a daily newspaper, published and circulated in said city, or by

two insertions in a weekly newspaper so published and circulated, that said assessment has been recorded in his office and that all sums assessed therein are due and payable immediately, and that payment of said sums must be made to him within thirty days after the date of the first publication or posting, which date shall be stated in the notice. Said notice shall also contain the statement that all assessments not paid before the expiration of the said thirty days shall be delinquent, and thereupon ten per cent of the amount of each such assessment shall be added thereto. When payment of any assessment is made, the tax collector shall mark opposite such assessment the word, "paid," with the date of the payment thereof, and shall give a receipt therefor. Upon the expiration of said period of thirty days, all assessments then unpaid shall become delinquent, and the tax collector shall mark each such assessment "delinquent," and shall add ten per cent to the amount thereof.

Delinquent assessments.

Sale of property upon which assessments are delinquent.

SEC. 9. The tax collector shall, within thirty days after the date of such delinquency, begin the publication of a notice of sale of the property upon which the assessments have not been paid, which publication must be made by two insertions in a daily or weekly newspaper published and circulated in the city. The dates fixed for the sale of the property upon which assessments have not been paid shall be not less than five days, nor more than ten days, after the last publication of said list, or after the completion of posting—as the case may be. The list so published must contain a description of each lot or parcel of land delinquent, and opposite each description the name of the owner in the assessment roll, and the amount of the assessment and costs due, including the cost of advertisement, which cost of advertisement shall not exceed the sum of fifty cents for each parcel of land separately assessed. He shall append to and publish with said delinquent list a notice that unless each assessment delinquent, together with the penalty and cost thereon, is paid, the property upon which the assessment is a lien will be sold at public auction, at a time and place to be specified in said notice.

At any time after such delinquency and prior to the sale of any parcels of land assessed and delinquent any person may pay the assessment thereon, together with the penalties and costs due thereon, including the cost of advertising, if such payment is made after the first publication of notice of sale.

At the time and place fixed therein the tax collector shall proceed with such sale, commencing at the head of the list of lands contained in such notice and continuing in the numerical order thereof until all the property is sold; *provided*, that he may postpone, or continue, the sale from day to day until the sale is completed. The tax collector shall separately sell each parcel of land described in such notice, or so much thereof as shall be necessary to realize the amount assessed against the same, together with the penalties and costs as aforesaid, and fifty cents for a certificate of sale. In case there is no other purchaser the same shall be struck off to the city as purchaser.

SEC. 10. The tax collector shall issue for each sale an original and duplicate certificate of sale, referring to the proceedings, describing the parcel sold, and giving the name of the purchaser and the amount for which said parcel was sold. The original certificate he shall deliver to the purchaser, and the duplicate he shall keep on file in his office.

Certificate
of sale.

SEC. 11. At any time before the expiration of one year from the date of the sale, any property sold under the provisions of the preceding sections may be redeemed by the payment to the tax collector of the amount for which the property was sold, with an additional penalty of twenty per cent of said amount. Said redemption money shall be paid by the tax collector to the person holding the original certificate of sale upon his delivering up the same and receiving from the amount received from the tax collector therefor. Upon redemption of any parcel of land the tax collector shall enter the fact and date of such redemption upon the duplicate certificate of sale thereof.

Redemption
of property.

SEC. 12. At any time after the expiration of twelve months from the date of sale, the tax collector must execute to the purchaser, or his assignee on his application, if such purchaser or assignee has complied with the provisions of this section, a deed of the property sold, in which shall be recited substantially the matters contained in the certificate, also any assignment thereof and the fact that no person has redeemed the property. The tax collector shall receive from the applicant for a deed, one dollar for making such deed, unless the municipality is the purchaser, in which case no charge shall be made therefor. The purchaser or his assignee must, at least thirty days before he applies for a deed, serve upon the owner of the property, and upon the occupant of such property, if the same is occupied, a written notice setting forth a description of the property, that said property has been sold for a delinquent assessment (specifying the improvement for which the same was made), the amount for which it was sold, the amount necessary to redeem at the time of giving notice, and the time when such purchaser or assignee will apply to the tax collector for a deed. If the said owner can not be found, after due diligence, said notice must be posted in a conspicuous place upon said property at least thirty days before the time stated therein, at which the application for a deed will be made. The person applying for a deed must file with the tax collector an affidavit or affidavits showing that notice of such application has been given, as herein required, and if the notice was not served on the owner of the property personally, that due diligence was used to find said owner; which affidavit or affidavits must be filed by the tax collector in his office. If redemption of the property is made after such affidavits are filed, and more than eleven months from the date of sale, the person making such redemption must pay, in addition to the other amounts required, three dollars for the service of notice and the making

To expedite the making of any such improvement, the city council may at any time, transfer into said special fund, out of any money in the general fund, such sums as it may deem necessary, and the sums so transferred shall be deemed a loan to such special fund, and shall be repaid out of the proceeds of the assessments provided for in this act.

The work must be done under the supervision of the board, officer or person designated by the city council, and no work shall be paid for until it has been accepted by said board, officer or person. If the contractor abandons the work, or fails to proceed with the same as rapidly as required by his contract, the said city council may relet the work in the same manner as in the case of the first letting thereof and retain the amount of the cost of the same, and of any expense incidental to the reletting out of any funds due or to become due to the contractor, and also hold him and his sureties responsible for such cost and expense, and for any

If the superintendent of banks shall find from such investigation that the bonds or securities so presented come within and fully conform to all the requirements of any of said paragraphs of subdivision three of section sixty-one of this act, and is satisfied from such investigation as to such franchise conditions, he shall so certify unless for any reason he shall be of the opinion that such bonds are not a safe or proper investment for savings banks, and in such event or if such bonds shall fail to meet the requirements of this act such certificate must be refused. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, said board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate. Said surveys, examinations, drawings and plans, and the estimate based thereon may provide that the works necessary for a completed project shall be constructed progressively during a period of years. In the estimate of the amount of money necessary to be raised by the first issue of bonds in any district, the board of directors may include a sum sufficient to pay the interest on all of such bonds for three years or less. SEC. 30*a*. The board of directors shall then submit a copy of the said estimate and the said engineer's report to the commission authorized by law to approve bonds of irrigation districts for certification as legal investments for savings banks and for the other purposes specified in the act creating said commission. Said commission shall forthwith examine said report and any data in its possession or in the possession of

said district and shall make such additional surveys and examinations at the expense of the district as it may deem proper or practicable, and as soon as practicable thereafter shall make to the board of directors of said district a report which shall contain such matters as, in the judgment of the said commission, may be desirable; *provided*, that it may state generally the conclusions of said commission regarding the supply of water available for the project, the nature of the soil proposed to be irrigated as to its fertility and susceptibility to irrigation, the probable amount of water needed for its irrigation and the probable need of drainage, the cost of works, water rights and other property necessary for a complete and satisfactory project, the proper dates of maturity for the bonds proposed to be issued and whether in its opinion it is advisable to proceed with the proposed bond issue. If the estimate of the amount of said bond issue shall have included any amount for the payment of interest on the bonds of such issue, as provided in section thirty of this act, and such estimate for the payment of interest, or any part thereof, is approved by the commission in said report, it shall be lawful for the board of directors, if the issuance of such bonds is thereafter authorized by vote of the electors of the district, to use for the payment of interest on any bonds of such issue so much of the proceeds of the sale of said bonds as may have been approved for that purpose in said report of the commission.

Report of
Commission.

SEC. 6. Section thirty *b* of said act is hereby amended to read as follows:

Stats. 1917,
p. 762.

Sec. 30*b*. If after such examination and investigation the said commission shall deem it advisable that the said plans be modified or that the amount of the bonds proposed to be issued be changed, or that certain conditions should be prescribed to insure the success of the project, or that in its opinion it is not advisable to proceed with the proposed bond issue, it shall so state in its report to the board of directors. After receiving said report, or if no report is received within ninety days after the submission of said estimate and engineer's report to said commission, said board of directors, if it shall determine and shall declare by resolution that the proposed plan of works or some modified plan recommended by said commission is satisfactory and that the said project or said modified plan is feasible, shall make an order determining the amount of bonds that should be issued in order to raise the money necessary therefor; *and provided, further*, that if any district shall issue bonds to carry out any plans approved by said irrigation district bond commission as herein provided it shall be unlawful for said district to make any material change in said plans thereafter without the consent of said commission.

SEC. 7. Section thirty *c* of said act is hereby amended to read as follows:

Sec. 30*c*. After the making of the order specified in section thirty *b* of this act said board of directors may call a special election, at which shall be submitted to the electors of such district possessing the qualifications prescribed by this act, the question whether or not the bonds of said district in the amount determined in said order of said board shall be issued, and said board must call such an election and submit said question upon receipt of a petition signed by a majority of the holders of title or evidence of title to lands within the district, representing, also, a majority in value of said lands, or by at least five hundred petitioners, each petitioner to the number of at least five hundred to be an elector residing within the district or a holder of title or evidence of title to lands therein, provided that said petitioners shall include the holders of title or evidence of title to not less than twenty per cent in value of said lands. In determining the value of any lands within an irrigation district and the holders of title or evidence of title to such lands for the purpose of determining the sufficiency of any petition required by this act after the organization of the district, the assessment roll of the district last equalized at the time of the presentation of such petition shall be conclusive evidence, but if no assessment roll of the district has theretofore been equalized, then the county assessment roll of the county within which any land within the district is situated, which county assessment roll has been last equalized at the time of the presentation of such petition, shall be conclusive evidence of such facts for such land.

At such election the ballots shall contain a general statement of the proposition or propositions to be voted on, including the amount of bonds proposed to be issued for each purpose, but no informality in such statement shall vitiate the election. Each proposition shall be followed by the words "Yes" and "No," on separate lines, with a small inclosed space after each of said words. If the number of votes for any proposition is less than the number required herein to authorize the issuance of the bonds provided for therein, the result of the vote on said proposition shall be entered of record, but said proposition may be again submitted to the electors of the district at a special election upon the presentation to the board of directors of a petition therefor signed as provided in section thirty *c* of this act.

Each issue of the bonds of a district shall be numbered consecutively as authorized, and the bonds of each issue shall be numbered consecutively. The board of directors shall fix the date of said bonds, or may divide any issue into two or more divisions and fix different dates for the bonds of each respective division. The date of any bond must be subsequent to the election at which its issuance was authorized and prior to its delivery to a purchaser from the district. The date of issue of any bond authorized under this act or heretofore or hereafter issued in pursuance of this act shall be deemed to be the apparent date of the said bond appearing on the face thereof. Each bond shall be signed by the president and secretary of the board of directors of the district, who may be in office at the date of said bond or at any time thereafter prior to the delivery of said bond to the purchaser thereof from the district, and the seal of the district shall be impressed on each bond. The interest coupons shall also bear the signature of the secretary of the board of directors or a facsimile of such signature. The board of directors shall fix the denominations of said bonds, which shall not be less than one hundred dollars nor more than one thousand dollars. Said bonds shall bear interest at a rate to be fixed by the board of directors, but the rate shall not exceed six per centum per annum. The interest shall be payable on the first day of January and the first day of July of each year. The board of directors shall also designate the place or places at which said bonds or any of them and the interest thereon shall be payable. Each issue or each division of any issue of said bonds shall be payable in gold coin of the United States in twenty series as follows, to wit: at the expiration of twenty-one years from the date of any issue or

Bonds of any issue may be made payable at the ends of other periods than are specified herein and the number of series may be more or less than twenty if the number of series and the length of the respective periods at the ends of which the respective amounts of bonds shall be made payable have been specified in the notice of the election at which the issuance of such bonds was authorized, or on the recommendation of the irrigation district bond commission, but in any event the bonds shall all be made

SEC. 11. Section fifty-two of said act is hereby amended to read as follows: Stats. 1897, p 272.

Sec. 52. Upon presentation of any matured bond or any matured interest coupon of any bond of the district, the treasurer shall pay the same from the bond fund. If funds are not available for the payment of any such matured bond or interest coupon, it shall draw interest at the rate of seven per cent per annum from the date of its presentation for payment until notice is given that funds are available for its payment, and it shall be stamped and provision made for its payment as in the case of a warrant for the payment of which funds are not available on its presentation. Whenever the bond fund contains ten thousand dollars in excess of the amount necessary to pay all bonds and interest coupons of the district that have matured or that will mature before the time when any part of the next annual assessment to be levied in the district will become delinquent, the board of directors may advertise, in the manner hereinbefore provided for the sale of bonds, for the receipt of sealed proposals for the delivery to the district for redemption of any of its bonds not due. Said advertisement shall state the amount which may be used for the redemption of such bonds. Any such proposals shall be opened by the board in open meeting at the time named in said advertisement, and the offer or offers of such bonds at the lowest rate or rates shall be accepted, provided that no bonds shall be redeemed at more than the par value thereof except by unanimous vote of the directors. In case two or more proposals are equal and there is not sufficient money available to accept them all, the lowest numbered bonds shall have the preference. In case not enough bonds are offered for redemption at prices which the board of directors accepts, the board may invest any money available for redemption of bonds in bonds of the United States or of the State of California and shall hold the bonds so purchased as part of the bond fund until such time as the board may determine that it is for the best interests of the district that such bonds or any of them be sold. In case of the sale of any such bonds, the proceeds of the sale shall be deposited in the bond fund. Redemption of bonds. Proposals for redemption of bonds. Investment in U. S. or state bonds.

Sec. 60. The rate of assessments levied under the provisions of this act shall be ascertained by deducting fifteen per cent for anticipated delinquencies from the aggregate assessed value of the property in the district as it appears on the assessment roll for the current year, and then dividing the sum to be raised by the remainder of such aggregate assessed value. Special assessments shall be computed and entered by the secretary and collected as a part of the regular assessment levied hereunder, and, when collected, shall be paid into the district treasury for the purpose or purposes specified in the notices calling the respective elections at which they were voted. The people of the State of California do enact as follows:

Irrigation

SECTION 1. There is created a board to be known as the "irrigation board," which shall consist of three members, and shall constitute a body corporate and politic for the purpose of exercising the powers and performing the acts herein mentioned, and which shall have the power to sue and to be sued. Within thirty days of the date upon which this act takes effect the governor shall appoint the members of said board and the members so appointed shall serve for four years and until their successors have been appointed; *provided*, that the members of said board heretofore appointed under the California irrigation act approved June 4, 1915, shall serve out the terms for which they were appointed. Amounts paid by conservation districts.

SEC. 2. It is hereby declared that the State of California has a paramount interest in the storage and diversion of water, the irrigation of land and the production of electric power; that such storage, irrigation and production of electric power will make productive vast quantities of land that are comparatively unproductive and will increase production, property valuations and population in the state, make profitable the cultivation of small tracts and promote subdivision of larger tracts, and will promote the welfare and prosperity of all the people. The powers herein conferred upon the irrigation board are hereby declared to be police and regulatory powers and are necessary to the accomplishment of a purpose that is indispensable to the public interests.

Interest of state in water storage paramount.

SEC. 3. The irrigation board shall have power to make, or cause to be made, examinations and surveys, to make or adopt plans, and estimate, or cause to be estimated, the cost of all projects for the storage or diversion of water within the State of California, the distribution of said water, and the generation of electric power in connection with such storage, and the sale and distribution of such power, and to make and enter into contracts for the construction and maintenance of works for such projects and the supervision and administration thereof. The irrigation board shall also have power to confer and make agreements with any authorized department, board or officer of the United States government, or with any irrigation district, reclamation district, or drainage district, or other political subdivision of the state organized to promote irrigation, reclamation or drainage, or with any water, power, irrigation or other company, or corporation, or association, or person, or persons, with reference to such projects and concerning examinations, surveys, works and plans in connection therewith. SEC. 4. The state department of engineering, or such engineer or engineers as may be appointed by the irrigation board, shall make such surveys, examinations, reports, plans and estimates as may be required by the board, either with or without the co-operation of the United States or any department thereof, whenever said board has under its control money available with which to pay the expenses in connection therewith. All such work and all supervision of construction shall be performed under such contracts and regulations as may be made or approved by the irrigation board or agreed upon between said board and the United States.

Petition to
organize
irrigation
district.

SEC. 5. Whenever the holders of title, or evidence of title, or of possessory rights to lands entered under the laws of the United States, or of the State of California, representing one-half or more of any body of land susceptible of irrigation (excepting lands embraced within the limits of incorporated cities or towns) desire to form an irrigation district under the provisions of this act, for the irrigation of said land, they may present to the irrigation board a petition signed by them, or their authorized agents, which petition shall set forth generally the boundaries of the proposed district, a description of the lands by legal subdivisions or other boundaries, the county in which they are situated, the number of acres in the proposed district, and in each tract with the names (if known) of the owners thereof, and designating as unsold any lands not reduced to private ownership; and also shall state generally the source or sources from which said lands are proposed to be irrigated, and the proposed name of the district, and shall pray that the territory within the boundaries of the proposed district may be organized as an irrigation district under the provisions of this act. The petition may consist of any number of separate instruments; and guardians, executors, administrators or other persons holding property in a trust capacity under appointment of court may sign any petition provided for in this act, when authorized by an order of court, which order may be made without notice. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom such petition was signed, shall be sufficient evidence of the genuineness of such signature, and of the fact of residence of any petitioner and any fact going to the qualifications of any petitioner under this act.

Defects in
petition.

No defect in the contents of the petition or in the title to or form of the notice or signatures, or the lack of signatures

shall vitiate any proceedings thereon; *provided*, such petition or petitions have a sufficient number of qualified signatures attached thereto.

The certificate of the county assessor of the county wherein the lands described in the petition are situated that the titles and possessory rights of the respective signers thereto are as appear on the county assessment roll or rolls last equalized at the time of filing the petition, or of the register of the United States land office of the district in which said lands are situated, or of the surveyor general of the State of California, shall be sufficient evidence of the title or possessory right of any signer hereto, and where as to any tract the assessor is unable to make such certificate for the reason that it is assessed to an unknown owner or the assessment roll does not purport to give the true name or gives the names of a portion only of the owners, the actual owners of such property shall be considered the owners for all the purposes of this act and owners of undivided interests may sign for such interest.

Evidence
of title.

The petition must be verified by the affidavit of one of the petitioners, and shall be filed with the irrigation board. Upon the receipt of such petition the irrigation board, or such person as said board may authorize to act in such cases, shall designate a time and place for the hearing of said petition, which date shall be not less than twenty days nor more than thirty days from the date of the filing of the petition with the board. The secretary of the irrigation board shall cause notice of said hearing to be published at least once a week for two successive weeks, prior to the time of said hearing, in a newspaper of general circulation printed and published in each of the counties in which any of the lands intended to be embraced within such proposed irrigation district are situated. Such notice shall designate the time and place when and where said petition will be heard, and shall set forth the exterior boundaries of said proposed district.

Hearing.

Notice of
hearing.

At the time and place designated in said notice, any person owning land within the said proposed irrigation district, may appear and present written objections to the creation of such district. The irrigation board shall hear and receive such evidence as may be offered in support of the petition and in support of said written objections. The irrigation board may continue said hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had. Upon the final hearing of said matter, the irrigation board shall make an order approving said petition as originally presented, or as modified by such order, excluding from the district such lands as in the judgment of the irrigation board should be excluded, and upon the filing of such order with the irrigation board such irrigation district shall be deemed to be created. Upon application by any person whose lands are susceptible of irrigation from any of the proposed sources, the irrigation board, in its discretion, may

order such lands included within said proposed district. The order shall describe the exterior boundaries of the district, as determined by the irrigation board, and also the exterior boundaries of any lands excluded therefrom, and shall be indorsed upon or attached to the petition, and be signed by the president and attested by the secretary of the irrigation board. A copy of the order creating such irrigation district, certified by such secretary, shall be filed in the office of the secretary of state, and a similarly certified copy of such order, together with a map showing the exterior boundaries of the district, and indicating the lands excluded therefrom, shall be filed in the office of the county recorder of each of the counties in which any of the lands within the said district are situated, and a properly certified copy of such order, together with the maps attached thereto, shall be received in all of the courts of this state as prima facie evidence of the organization of such district and of the boundaries thereof. Before the irrigation board makes such order, it may require that the project and proposed works be approved by the state engineer, or by such engineer or engineers as shall be designated by the irrigation board.

Copy of order, with map, to be filed.

Approval of state engineer.

Board of directors.

Each irrigation district created under the provisions of this act shall have a board of directors composed of owners of land within the district, elected by the owners of land in such district in the manner provided for the election of trustees of reclamation districts in section three thousand four hundred ninety-one of the Political Code of the State of California, except that such elections shall be called by and returns thereof made to the board of supervisors of the county in which the greater portion of the lands of the district are situated. Each such district shall have a board consisting of five directors; *provided*, that if so requested in the petition for the formation of said district, the irrigation board may order that there shall be only three directors. After the approval of the petition and the election of directors for the district, the directors shall adopt rules, not inconsistent with the laws of the state, for the government and control of the affairs of the district, which rules may be amended at any time by said board of directors.

Proceeding to determine legality of district.

The board of directors of any irrigation district created under this act may commence a proceeding in the superior court of any county, wherein a portion of the district is situated, to determine the legality of the existence of said district. The complaint in said proceeding shall describe the district by name and the exterior boundaries thereof, and shall contain a prayer that such district be adjudged a legal irrigation district. The summons in such proceeding shall be served by publishing a copy thereof once a week for four successive weeks in a newspaper of general circulation published in each county where any part of such district is situated. Within thirty days after the last publication of said summons, any person who may be interested may appear and answer said complaint, in which answer the facts relied upon to show the

invalidity of the district shall be set forth. If no answer shall be filed, the court must render judgment as prayed for in the complaint. If any answer shall be filed within said period, the court shall thereafter proceed as in other civil cases, but no district shall be adjudged invalid when it appears that such district has, for five years prior to the commencement of such proceeding, been performing its functions as an irrigation district under this act in good faith. The proceeding under this section is hereby declared to be a proceeding in rem, and the judgment rendered therein shall be conclusive against all persons whomsoever and against the State of California.

SEC. 6. Any irrigation district formed under the provisions of any other law or statute of this state, and any reclamation district or drainage district (excluding from any such district the area embraced within the limits of any incorporated city or town) susceptible of irrigation from any project adopted or approved by the irrigation board, may become an irrigation district under the provisions of this act upon presenting to the irrigation board a consent thereto signed by the holders of title, or evidence of title, of more than half of the lands embraced in said district (excepting lands within incorporated cities or towns). Upon the filing of such consent, the irrigation board shall fix a date for a hearing of the matter involved in such consent. The secretary of the irrigation board shall publish a notice of such hearing once a week for four successive weeks preceding the date fixed therefor in a newspaper of general circulation published in each of the counties in which any portion of said district is situated. At the time and place designated in said notice the irrigation board shall hear and receive such evidence as may be offered in support of the proposal to convert such district into an irrigation district under the provisions of this act and in support of any written objection thereto filed with the irrigation board. The irrigation board may continue said hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had. Upon the final hearing of said matter, the irrigation board shall make its order, providing that said district (excluding therefrom the territory embraced in incorporated cities or towns) shall thereafter be an irrigation district subject to all of the provisions of this act, or, in its discretion, said irrigation board may decline to make such order. If the irrigation board shall make an order converting such district into an irrigation district, all of the lands therein (except lands lying within the boundaries of incorporated cities or towns), shall become, and shall thereafter be, subject to all of the provisions of this act.

SEC. 6b. The irrigation board shall have power to consolidate into single districts in the manner and for the purposes provided in this act, irrigation districts, reclamation districts, drainage districts and other political subdivisions of the state organized to promote irrigation, reclamation or drainage, which consolidated districts shall be known, and are herein referred to, as conservation districts; and, the purpose of the formation of such districts being primarily to provide for and

promote the irrigation of the lands therein and in connection therewith and incidental thereto the reclamation and drainage of such lands, the legislature hereby expressly declares that every such conservation district, formed as herein provided, is and shall be an irrigation district within the meaning of section thirteen of article eleven of the constitution of the State of California, and within the meaning of every other provision of said constitution relating to irrigation districts. Such conservation districts shall be composed of two or more units all or any of which units may be irrigation districts, formed under the provisions of this or any other act or statute of this state, reclamation districts, drainage districts, or other political districts of the state organized to promote irrigation, reclamation or drainage, now or hereafter to be formed. The territory embraced within such units need not be contiguous in order to be embraced within the same conservation district, provided all or a portion of the territory embraced within said respective units is susceptible of irrigation from the works proposed to be constructed by said conservation district. Any private corporation engaged in the distribution of water to the public, for irrigation or other beneficial uses, or in the generation of hydroelectric power for sale to the public, and any mutual ditch company or mutual water company organized for the purpose of distributing water to the members or stockholders thereof, which private corporation, mutual ditch company or mutual water company is receiving or entitled to receive water from the same stream or streams for the storage or diversion of whose waters it is proposed to construct the works of said conservation district, shall have the right, upon payment of its proportion of the cost of constructing, operating and maintaining such works, to share in all of the benefits resulting from such construction, operation and maintenance, including its proportionate share of the water to be conserved thereby and the power to be generated and produced in connection therewith; *provided*, that nothing herein contained shall be deemed to confer upon said irrigation board, or upon any conservation district formed under the provisions of this act, the right to impair, or deprive any person, firm or corporation of any vested right in or to the waters of any stream or streams proposed to be stored or diverted by said conservation district, without due process of law.

Upon presentation to it of a petition signed by the respective governing boards of two or more of said units praying for the formation of a conservation district, the irrigation board shall fix a time and place for the hearing of such petition. The secretary of the irrigation board shall cause notice of said hearing to be given by publication once a week for four successive weeks in a newspaper of general circulation published in each county wherein any part of said petitioning districts are situated, and also by mailing a written notice of such hearing to the governing boards of such other districts or political subdivisions of the state and to such private

corporations, mutual ditch companies and mutual water companies as may be designated by the irrigation board. At the time fixed by the irrigation board for such hearing, or at such other time to which the hearing may be adjourned, the irrigation board shall hear and receive evidence in support of any objections which may be filed in opposition thereto, and shall also receive applications from other districts to become a part of such conservation district and from private corporations, mutual ditch companies or mutual water companies to participate in the benefits of such conservation district. If there shall be presented at such hearing a written objection or objections signed by the owners of more than one-half of the lands in any such unit district the signing of such petition by the governing board of such unit district shall be deemed to be nullified and the irrigation board shall have no power to include such unit district within the proposed conservation district.

Territory included.

The irrigation board shall include as a part of such conservation district the territory embraced within any district unit applying to be made part of the conservation district, which applying district shall be lawfully receiving or entitled to receive water from the same stream or streams whose waters are proposed to be stored or diverted by such conservation district, and shall admit to beneficial participation in said conservation district such private corporations, mutual ditch companies or mutual water companies likewise lawfully receiving or entitled to receive water and applying to the irrigation board to be admitted to such participation. The application of any unit district or private corporation, mutual ditch company or mutual water company, not so lawfully receiving or entitled to receive water, to be included as a part of said conservation district or to be permitted to share in the benefits thereof, may be approved or rejected by the irrigation board in its discretion. Upon the final hearing of said matter, the irrigation board shall make an order approving said petition, as originally presented, or as modified by such order. Such order shall describe said conservation district by exterior boundaries when the lands therein lie in one body, or by naming the unit districts embraced therein when said lands do not lie in one body, and shall also designate the private corporations, mutual ditch companies or mutual water companies, entitled to participate in the benefits of the works proposed to be constructed by said conservation district. Upon the filing of such order with the irrigation board such conservation district shall be deemed to be created. A certified copy of the order creating such conservation district shall be filed in the office of the secretary of state, and a certified copy thereof, together with a map showing the boundaries of the district, shall be filed in the office of the county recorder of each of the counties in which any of the lands within the said district are situated. A properly certified copy of such order, together with the map attached thereto, shall be received in all the

courts of this state as prima facie evidence of the organization of such district in compliance with the provisions of this act, and of the boundaries thereof.

After the formation of a conservation district as herein provided, any irrigation district, reclamation district, drainage district, or other political subdivision of the state organized to promote irrigation, reclamation or drainage, theretofore existing and which was entitled to become a part of and unit in such conservation district at the time of its formation, and any such district or political subdivision of the state thereafter formed, any portion of the lands in which are receiving or entitled to receive water from the same stream or streams for the storage or diversion of whose waters said conservation district was formed, may, at any time prior to the making by the irrigation board of the order approving the apportionment as provided in section ten of this act, but not thereafter, file with the irrigation board a petition to be made a part of and unit in such conservation district. And any private corporation, mutual ditch company or mutual water company existing at the time of the formation of such conservation district, and at that time entitled to be admitted to participation in the benefits resulting from the construction of the works of such conservation district and any such private corporation, mutual water company or mutual ditch company thereafter organized and receiving or entitled to receive water from such stream or streams, may, at any time prior to the making by the irrigation board of the order approving the apportionment as provided in section ten of this act, but not thereafter, file with the irrigation board a petition to be admitted to such participation. Upon the filing of any such petition, within the time hereinbefore limited, the irrigation board shall fix a time and place for the hearing thereof and give such notice of said hearing and cause such proceedings to be had and taken at such hearing and such order to be made and filed, and certified copies of such order to be filed, as in the case of a hearing upon a petition, for the original formation of a conservation district, and the right of such petitioning district or political subdivision to become a part of and unit in such conservation district or of such private corporation, mutual water company or mutual ditch company to be admitted to participation in the benefits resulting from the construction of the works thereof, shall be determined in the same manner as if such district or political subdivision or private corporation or mutual water company or mutual ditch company had presented its petition or application at the hearing of the petition for the original formation of such conservation district.

The irrigation board, or the governing body of any irrigation district, reclamation district, drainage district, or other political subdivision of the state organized to promote irrigation, reclamation or drainage, constituting a unit of said conservation district, or any private corporation, or mutual water company or mutual ditch company admitted to participation in

the benefits of such conservation district, may commence a proceeding in the superior court of any county wherein a portion of said conservation district is situated to determine the legality of the existence of said conservation district. The complaint in said proceeding shall describe the district by name, and the exterior boundaries thereof, when the lands therein lie in one body, or by naming the unit districts embraced therein when said lands do not lie in one body, and shall contain a prayer that such district be adjudged a legal conservation district. The summons in such proceeding shall be served by publishing a copy thereof once a week for four successive weeks in a newspaper of general circulation published in each county wherein any part of such district is situated. Within thirty days after the last publication of said summons any person who may be interested may appear and answer said complaint in which answer the facts relied upon to show the invalidity of the district shall be set forth. If no answer shall be filed the court must render judgment as prayed for in the complaint. If any answer shall be filed within said period the court shall thereafter proceed as in other civil cases, but no district shall be adjudged invalid when it appears that such district has, for five years prior to the commencement of such proceeding, been performing its functions as a conservation district in good faith. The proceeding under this section is hereby declared to be a proceeding in rem and the judgment rendered therein shall be conclusive against all persons whomsoever and against the State of California.

Prior to making any assessment, to provide funds for the construction or purchase of any project for the construction or purchase of which any conservation district shall have been formed, there shall be apportioned as hereinafter provided, to each constituent district or unit under such project the proportion to which it is entitled of all water stored or to be stored or diverted or to be diverted by such project for the irrigation of such conservation district, and of all power to be developed in connection therewith, which proportion of such water and power shall be forever applied to the purposes of said constituent district; *provided*, that any water or power that may be so apportioned and for which any constituent district or unit has not, to the full extent thereof, a beneficial use, may be leased by such district or unit, with the consent of the irrigation board, to any other territory within or without the said conservation district; the other districts or units, embraced in said conservation district to be entitled, however, to the first right to so lease such surplus water or power. The apportionment of water and power under this section shall be made by a special board of apportionment and confirmed by the irrigation board. And every and all such contract or contracts shall be valid and binding, in accordance with their terms and provisions respectively; *provided, however*, that before any such contract or contracts shall go into force or effect or become binding for any purpose, the same shall be submitted to and approved by the irrigation board; *and provided, further*, that where any such contract relates to or affects the sale, rental or distribution of water or electric power, or the beneficial use of water, by a public utility, the same shall, before it goes into force or effect or becomes binding, be submitted to and approved by the railroad commission of the State of California. And all such contracts approved as herein provided shall be binding and valid for all purposes, either in perpetuity or such term or terms as shall be specified or agreed upon therein or in the order or orders approving the same.

Such estimate as is above provided for shall be in such form as shall be approved by said irrigation board and shall be entered in the minutes of said board and shall constitute a part of the records of said board, and the same, or a copy thereof, certified by the secretary of said board, shall be admissible as evidence in any proceeding before any court, commission or tribunal of this state wherein the matters therein set forth shall be admissible in evidence.

Whenever, for any of the purposes of this act, the irrigation board shall deem it necessary for the purposes of said district, or the levying of an assessment upon the property therein, or the issuance of bonds by said district, said board shall appoint three commissioners for such purpose or purposes. Such commissioners shall have no interest in any land in the district, either directly or indirectly, and each commissioner before entering upon his duties shall make and subscribe an oath that he is not in any manner interested directly or indirectly in any land in said district, and that he will perform the duties of commissioner to the best of his ability. Thereupon said commissioners shall proceed separately as to each unit within said district to view and assess upon the land within said district a sum sufficient to cover said estimated amount and shall apportion the same according to the benefits which will accrue to each unit within said district, and separately as to each tract of land within said unit. Said commissioners shall prepare and certify a roll on which they shall state the name and address of the owner of each parcel of land in such unit, or if the name or address of any owner is unknown, then, that fact; also a description of each parcel of land by legal subdivisions or boundaries, and the total amount assessed against each parcel of land so described. No mistake in the name of the owner, or supposed owner of any parcel of land, shall invalidate the apportionment or assessment. A separate roll shall be made for the lands in each county where such unit includes land in more than one county. When completed said roll or rolls shall be filed with the irrigation board and certified copies of the particular roll for each county shall be filed with the county recorder of any county in which any lands within said unit may be, and each roll shall be open for inspection by the public for at least thirty days.

At any time before or at the original date of such hearing, any person interested in any real estate upon which any charge has been apportioned and assessed, may file in the office of the secretary of said irrigation board written objections thereto, stating the grounds of such objections, which said statements shall be verified by the affidavit of such person or some other person who is familiar with the facts. Said irrigation board may postpone such hearing from time to time. At such hearing the irrigation board shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment and may modify or amend the same and may reapportion all or any part of the entire assessment. No assessment or apportionment shall be increased except upon the hearing of objections thereto or after personal notice or notice by mail to the owner of the land upon which said increase is made. Said irrigation board must make and enter in its minutes an order approving said assessment and apportionment as finally fixed, and the decision of said irrigation board shall be final, and thereafter said assessment and apportionment shall be conclusive evidence of the validity of said assessment and apportionment, and no action or defense shall ever be maintained attacking the same in any respect. And the records of said irrigation board, or a copy thereof certified by its secretary, shall be received in evidence in all or any of the courts of this state, or before

any board or tribunal authorized to hear or consider any matter wherein the same shall be admissible as evidence. No change shall be made in said assessment or apportionment after the consideration, approval and fixing thereof by said irrigation board, and all assessments upon the property of said district thereafter shall be levied in accordance therewith and consistent with the apportionment of benefits therein provided for and fixed, and if any assessments are called for or required in addition to the original amount estimated and apportioned for the purposes of said district, such additional amount shall be assessed, levied and raised in accordance with said apportionment and assessment of benefits so fixed in the first instance by said irrigation board. A certified copy of such assessment and apportionment roll as finally approved shall be filed in the offices of the county recorder of each county in which any land within said district is situated. Such assessment and apportionment shall thereafter constitute a first lien upon the land affected thereby until the full amount thereof is paid or until all bonds of the district issued thereon, together with the accrued interest, shall have been fully paid. The said irrigation board shall on the first Tuesday in May following the fixing and approval of said assessment and apportionment therein provided for, and annually thereafter on said date, levy an assessment, sufficient to raise the annual interest on the outstanding bonds of said district, and in any year in which any bonds shall fall due must increase such assessment to an amount sufficient to pay the principal of the outstanding bonds as they mature; also sufficient to pay in full all sums that may become due from the district before the time of collection of the next annual assessment, including an amount sufficient to pay in full the amount of any contract or obligation of the district which may come due during said year or may have been reduced to judgment. And to provide for and maintain a fund out of which the current and contingent obligations of said district can be paid in cash as they mature. In addition to the amounts estimated as necessary for the purposes aforesaid, a further levy of fifteen per cent additional shall be included and levied for the purposes of meeting any additional amounts that may be required on account of delinquencies and to insure the payment of all of the bonded indebtedness, including the interest thereon and other obligations of said district at maturity. Whenever there is a surplus in the funds of said district over and above all requirements as herein specified for the payment of the bonded indebtedness and interest thereon and accrued obligations of said district, such a surplus may be used and applied in retiring the outstanding bonds, or any thereof, of said district. The secretary of the irrigation board must compute and enter in a separate column of the assessment book the respective sums in dollars and cents to be paid as an assessment upon

In so doing, said secretary shall enter the names of the owners of such lands and the descriptions thereof in accordance with the last assessment roll of the county in which the said lands are situated. Such assessment must be so levied and computed as to be in accordance with the apportionment and assessment of benefits herein provided for and so that all lands within said district shall be assessed and required to pay in accordance therewith.

Duty of
county
auditor.

The secretary of said board shall forthwith deliver a certified copy of that portion of said assessment so directed to be entered by him, so far as it applies or appertains to any land within any county situated within said district to the county auditor of such county, and such auditor shall accept and receipt for the same; and thereupon it shall be the duty of said auditor to include said assessment as an assessment against each parcel or tract of land therein described. It shall be the duty of said auditor to examine and ascertain as to any errors or discrepancies that may exist in said roll as to the ownership of, or the descriptions of, land as applied to any owner or owners thereof as compared with the assessment roll of the said county for such year, and if any such difference or discrepancies are found, it shall be the duty of said auditor to correct the same accordingly so that the said roll as to ownerships and descriptions of land and assessments thereof shall correspond to the assessment roll of said county and for such year. And it shall be his duty to audit, enter and certify the same to the tax collector of said county for collection in the same manner and form as county, school district and other taxes are included and certified by him to such tax collector, and all such assessments shall constitute a first lien upon the lands affected thereby as hereinbefore provided.

Additional
clerical force
for auditor.

The board of supervisors is hereby authorized and empowered to employ what extra clerical force is necessary to perform the additional duties herein prescribed for the auditor. Said extra clerks shall receive as compensation for the work herein provided a per diem not to exceed five dollars which shall be paid by the districts operating under the provisions of this act in proportion to the amount of work done for each and it shall be the duty of the clerk of said board to issue warrants payable to such clerks employed as herein provided out of the funds of the districts, upon the presentation of a verified demand, approved by the auditor and the board of supervisors.

Duty of tax
collector.

Upon receipt of the same from the auditor of such county it shall be the duty of the tax collector of said county to include the same as a separate entry and charge against the land therein described and to collect the same with the county, school district and other taxes so required to be collected by such county tax collector and to keep and deposit such district taxes in a separate fund, and when the same is collected it shall be the duty of such tax collector to pay the same over to the treasurer of such county at the same time and in the same

manner as other taxes collected by him are paid over to such treasurer, and it shall be the duty of such treasurer to receive the same as other taxes are received by him and after receipt thereof to keep the same in a separate fund; and upon receipt of same, or any part thereof, it shall be the duty of such county treasurer within thirty days thereafter to pay the same and all thereof to the treasurer of the State of California, who shall receive and keep the same and deposit the same in a separate fund to the credit of the said district, and to be paid out by him upon the order and approval of the said irrigation board.

All moneys received under contracts, leases or other arrangements by such conservation district from any canal companies, mutual or other water companies, reclamation districts, or from any corporations, individuals, or other sources not herein otherwise provided for shall be collected by said irrigation board and by it deposited with the state treasurer, and thereafter to be disbursed as provided as to funds of such district under the order and direction of such irrigation board for the purposes and obligations of said district, including the payment and retirement of outstanding bonds with interest thereon.

Thereupon said commissioners shall proceed to view and assess upon the land within said irrigation district a sum sufficient to cover said estimated amount and shall apportion the same according to the benefits which will accrue to each tract of land within said irrigation district, such benefits to be estimated according to the benefits which will accrue to each tract of land in such irrigation district by reason of the expenditure of said estimated sum, and shall estimate the same in gold coin of the United States.
