BRYAN TO RUN FOR PRESIDENT

STIRRING ENTHUSIASM GREET'S NOMINATION Choice of Nebraskan is Made Unanimous—Stirring Scene at Denver.

Denver, Colo., July 10.—William Jennings Bryan, of Nebraska, was nominated for the third time for the office of president of the United States by the Democratic National convention at 3:40 o'clock this morning.

The nomination was made on the first ballot, the vote standing: Wm. J. Bryan, 823; Judge Geo. Gray, 59; Governor Jno. A. Johnson, 46.

The announcement of the vote was the signal for a wild demonstration, equalling in duration the record-breaking display which on Wednesday afternoon greeted the first mention of Mr. Bryan's name in the convention.

The nomination was made on the first ballot, the vote standing: Wm. J. Bryan, 823; Judge Geo. Gray, 59; Governor Jno. A. Johnson, 46.

FIXED TAX RATE A MILL HIGHER

CITY COUNCIL DECIDES ON FIGURE FOR YEAR

Majority of Members of the Council Favor Adoption of Single Tax.

This is Victoria's growing time in more ways than one, and last night the city council, in keeping with the city's forward movement, added another mill to the tax rate which will this year be 25 mills on the dollar against 24 last year.

11 mills for general expenditures, 9 mills to meet the debt charges, 7 mills for board of health purposes.

The levy will give a total of about \$500,000 in taxes for the year, but this amount will be materially reduced by the discount of one-sixth, which is allowed on all taxes paid between August 31st, the date on which they accrue, and October 31st.

**CONVALESCENCE OF FINANCES**  
**FIRST SIX MONTHS OF YEAR WERE GOOD**  
**Clews' Report on the Situation in New York Markets.**

New York, July 2. — The first six months of the year have closed, showing a degree of recovery from the October panic which fully equals, if not surpasses, all reasonable expectations. It has been a period of somewhat painful convalescence, but the improvement has been pronounced and substantial, and if sustained for the remaining six months of the year, will go far toward offsetting the effects of last year's disasters. Of course, there are many unsatisfactory features still remaining; trade and industry are restricted, and more or less disappointment and discontent prevail generally. Unfortunately, it cannot be said that the process of readjustment is complete; contraction has been unduly severe in some directions, and very inadequate in others. Consequently the evening-up process must still go on, and additional time will be required before conditions are restored to the normal. On the other hand, it is a matter of congratulation that some very important danger points have been safely passed; a political crisis has been averted; public opinion is becoming more sane in its attitude toward corporations, and all indications point to the election of Mr. Taft as our next president. Business failures have been much less serious than at one time feared, and the credit situation shows vast improvement over a year ago. Financial institutions which fell under the strain of the panic have mostly resumed, and our banks are as a rule now exceptionally strong. This does not by any means complete the list of favorable developments. So much liquidation and housecleaning have taken place that the financial situation has been greatly clarified, although frequently at the expense of losses and difficulties which naturally cloud the vision of those upon whom they have fallen with great severity. A great deal of the depression which now exists is confined to those who have borne the brunt of the panic. Those who foresaw it coming, and trimmed their sails accordingly, are in a much more hopeful frame of mind, and confidently look forward to a sure, if slow, approach to better times.

their present level. The market leaders, however, have unlimited funds at their command at low rates, and are in a position to sustain the markets against all ordinary adverse influences. Briefly, stocks are in strong hands, the floating supply is light, liquidation has been thorough, weak points have been thoroughly eliminated, and the big men find little difficulty in supporting the market against all attacks. The bear element in the market is small, and speculation is on a much more restricted scale than usual, for no one cares to part with stocks when believing that the worst is over. The technical position is consequently a strong one and opposed to lower prices; albeit that current developments are frequently of an unfavorable character. Political scares and crop scares must be anticipated. There is also a possibility of labor troubles in the event of an attempt on the part of the railroads to reduce wages, since it must be remembered that organized labor has not yet accepted its share of the business reaction which has lately fallen upon the country. But aside from these three danger points, there is nothing in the present outlook to suggest a return to the counteraction of an unlimited supply of abnormally cheap money, which is still the controlling element in the stock market.

An element of some concern is the course of our national finances. The fiscal year closes with a reduction of \$100,000,000 of the loss being due to the shrinkage in imports following the panic. There was also a considerable loss in internal revenue, much of which was attributable to the prohibition movement. A year ago, however, the government closed its books showing a surplus of \$87,000,000 in receipt over expenses, which means a loss of about \$150,000,000 in the twelve months. Congress has complicated matters by making extravagant appropriations at a time when economy should have been the watchword. The treasury, however, is still in a strong position; the government balance sheet shows \$222,000,000, of which more than \$150,000,000 is in the depository banks. This may be reduced shortly by a call for \$50,000,000.—Henry Clews.

**STREET FREIGHT CARRYING.**  
 The directors of the Montreal Street Railway Company have decided to issue 10,000 shares of new stock, offering the same to shareholders of record of June 30th, in the proportion of one share for every nine shares standing in their respective names, says the Monetary Times. The shares will have a par value of \$100 each and will be issued at the rate of 125 each. Payment will be made in ten equal installments, ranging from August 1st, 1908, to May 1st, 1909. Shareholders desiring to pay cash for their shares will receive an allowance of five per cent, on calls payable in advance.

The question as to whether the Montreal Street Railway shall be permitted to carry freight on the streets of Montreal continues to be a live one. A number of quiet meetings have been recently held in the hope of settling the matter, but no definite arrangement has yet been reached. A draft by-law has been shown to the company, permitting it to undertake this work, but the company is averse from accepting the clause in which it is provided that the company shall remove the snow from the streets where its cars operate. Free of charge to the city. The company seems prepared to do this providing it finds the carrying of freight remunerative, but in the meantime is prepared only to do the work as cheaply as possible, the city giving its aid. The company will also be expected to water the streets where its cars operate. These will be the main provisions to be granted by the company for the privilege of carrying freight on the city streets, which privilege it does not at present enjoy. Meantime, passenger earnings continue to increase, being \$76,181 last week, an increase of \$12.

**LOWER STEEL PRICES.**  
 It is generally understood that a reduction in prices for all steel products will be made in the near future, with the probable exception of steel rails, says the Monetary Times. No definite information is obtainable at the offices of the Steel Trust. The railroad companies and the technical journals have called for time enough for a better rail, and it is thus likely that there will be no readjustment in the price of steel rails. The Canadian Engineer this week notes a report that one million tons of steel rails have been ordered from the United States Corporation by the Siberian railway. It was formerly stated, however, that rails for the Siberian road must be the product of Russian mills, so that doubt is cast on the above statement. Orders would mean about 25 per cent. of the entire American output for one year. The latest information goes to show that at the present time the American mills have only about a million and a half tons on their books for 1908, a large part of which is already rolled, and rail mills are now anxiously awaiting further orders. Such an order would be equal to the output of the United States Corporation for four or five months. If it were possible to commence operations on such an order, shortly, it would have a decidedly beneficial effect on the entire steel industry of the country. It would mean the consumption of fully 1,500,000 tons of pig iron, or about double that quantity of iron ore and would materially increase the operations of mines, transportation companies, blast furnaces and finishing mills.

**THE GIRL AND THE HAT.**  
 The Big Hat Song from Florence Ziegfeld's New Musical Review, "The Follies of 1908," now on at the New York Theatre Roof Garden, is the latest hit in New York. This is a year of hats, and it is quite a clever invention in the way of a song that has capped off the season with the extremes but limit. It's good music, with a swing to it, and everybody will want it. Words and music complete with the New York World next Sunday. Music by arrangement with Cohan & Harris, publishers.

Great bargains still being offered by the Hicks & Lovick Piano Co., Ltd., 2124 Douglas street. Don't forget that there is an unusual opportunity to secure a Mason & Rice piano at a great saving in price.

**SEWAGE DISPOSAL.**  
 "Sewage disposal is probably the most important sanitary problem now before the American public," says American Medicine. "It is self-evident that without the present system of water carriage of wastes, our dense city populations cannot exist. The trouble always has been the recklessness with which we pour the filth into a neighbor's water supply as criminal as though we kept our backyard clean by sweeping everything into the well of the next yard. A century ago, when cities were small and houses scattered, and when sewage was unknown, every stream was safe drinking water, but now we have suddenly awakened to the fact that we have ruined nearly all of them. Fortunately there are signs of a wholesome reaction. The Pennsylvania state legislature has recently passed a law forbidding the pouring of untreated sewage into any stream used for a water supply. The treatment of sewage is done so cheaply and efficiently that it occasions considerable surprise that cities are so slow in adopting this modern means. We hope to see the time when every city will be compelled to turn its sewage into proper establishments where its impurities will be destroyed by bacterial means either in septic tanks or in the surface soil. This may require a separate system for rain water, but it will soon pay for itself. The extravagance of wasting sewage is now realized. The most expensive foods are the nitrogenous ones, and they cost much because nitrogen fertilizers are so expensive. There are perpetual streams of nitrogen, in the shape of wheat and meat, poured into England from all over the world. The resulting nitrogen compounds of the excreta are poured into the ocean, though they have an estimated value of \$50,000,000 a most serious waste in view of the need of more fertilizers and more food for overcrowded communities. If properly managed, the natural disgust aroused by sewage fertilization will disappear, and the world be that much more prosperous. It will soon be a serious matter for America, too, where so many farms are being worn out by deprivation of nitrogen. Perhaps, after all, the needs of agriculture will reverse our sewage policy, leave our drinking water clean and reduce our sickness and mortality."

 JAPANESE SUGAR  
 H. M. commercial attaché at Yokohama, E. F. Crowe, reports that the three principal sugar refineries in Japan have come to an agreement to limit their production in order that they may avoid competition in the home market and combine to foreign markets, says the British Board of Trade Journal. According to the newspaper, for every 20 piculs removed by the Dai Nippon Sugar Company the Yokohama Company will refine 5 piculs and the Kobe Company 2 1/2 piculs. The daily capacity of these refineries is given as 400 tons for the Dai Nippon Company, 150 tons for the Yokohama Company, and 100 tons for the Kobe Company, but as a matter of fact they have never worked up to these figures, the highest output of the Dai Nippon Company, for instance, being given as from 40 to 45 tons per day.

DEFERRED ELECTIONS.

Our morning contemporary wants to know what Conservative newspaper admitted that Duncan Ross, M. P. for Yale-Cariboo, would have the prestige of a Liberal victory to aid him in his contest against Mr. Burrill. They admitted it by conceding that a deferred election would be in favor of Mr. Ross.

TAFT AND BRYAN.

In accordance with expectations, Mr. Bryan has been nominated by the Democratic Party of the United States for the third time as its presidential candidate.

up against him in the campaign. The nucleus of previous defeats, aggravated by an inclination to chase political rainbows, will heavily handicap him in his fight against Mr. Taft.

On the other hand, it is conceded that Taft, albeit an able man and a statesman worthy of honor in any country, does not carry into the campaign the political renown of a Roosevelt. Times are far from good, the trusts are directly credited with dominating and directing the policy of the Republican party.

Of course the Pan-Atlantic Congress recently held in London had to deal with that everlasting topic of abstract discussion, the Press—its virtues and its vices. Mr. Gilbert Chesterton, says the Chronicle, in the course of a short but characteristic speech, said the trouble of journalism was not publicity, but anonymity.

journalism, after the supreme indifference to veracity of statement, is said Mr. Strachey, triviality. Sensationalism and want of refinement would probably cure themselves, or at any rate, the newspapers would give up their misdeeds in those respects as soon as the public taste had improved.

A significant feature of the Olympic contests now on in London is the presence of representative athletes from nearly every nation in Europe (including one Unspookable Turk). The United States has sent over a great contingent, Canada and Australia a comparative few.

The Victoria City Council will be generally commended for deciding to send the Mayor to Quebec. It is met that the oldest Canadian city in the West should be represented at the bicentenary celebration of the founding of the ancient capital of the East.

FIRE FIGHTING APPARATUS.

To the Editor: We notice that our good friends, Messrs. Findry, Durman & Brodie, are offering inducements because the city has not allowed them an opportunity to tender on a chemical motor fire engine.

TENNIS FINALS ON TO-MORROW

C. SCHWENGER BEAT W. T. WILLIAMS TO-DAY

Brothers Schwengers and Other Good Matches Down for To-night.

Conrad Schwengers this morning defeated W. T. Williams in the semi-finals of the Victoria Lawn Tennis Clubs tournament by a score of 6-1, 6-3, and Williams met with his first defeat in the tournament.

This year he may remove the ban by defeating his brother, in which event he will get into the final game against either D'Arcy and Jephson. Before the commencement of the game this morning it was discovered that No. 1 had not taken the slightest doubles have been played, is incorrectly marked, and is narrower than the three other courts on the Belcher street ground.

In the first game Williams was too strong on rear line and served a double fault, 15 all. Williams put the ball into the net and Schwengers followed suit. A pretty line stroke by Schwengers and a long shot to the rear line gave him the game.

The fourth game Williams beat Schwengers and a mistake by him at the net evened matters. He, however, won the next three strokes and his first game, 3-1. Schwengers leading. The fifth produced a fine rally won by Williams on the fifteenth stroke, but he lost the game and Schwengers took the next two in somewhat easy fashion, winning the first set, 6-4.

The following games are listed for this afternoon and the two games drawn for 3:30 look like providing good tennis: No. 1 Court: Mixed doubles—Miss M. Pitts and Meredith vs. Miss Pooley and McDougall.

TO-MORROW'S CRICKET.

Garrison will meet Vancouver Team in This City. At the Garrison grounds to-morrow at 10:30 a.m. a match will be commenced between the Garrison eleven and the Burrards of Vancouver, and a close and interesting game is expected.

The Burrard eleven is chosen from the full strength of the Mainland aggregation, and is coming over determined to win the game. Askey, for the Garrison, will be seen doing some bowling again, and will have another try to bring his bowling average up.

ROCK BAY LEASE. Papers Will Be Furnished Members of Council in Matter.

The city council is still wrestling with the proposed lease of a portion of Rock Bay water front to the Taylor Mill Company and the Lemon-Gonson Company. Last night the matter came up at a special meeting of the city council, when it was decided that each alderman be supplied with a copy of the original lease, dated August, 1905, but never signed, the lease which the companies were last year asked to sign, and other papers in connection with the case.

DEATH BY PITCHFORK. (Special to the Times).

Woodbridge, July 10.—Pierced to the heart by a pitchfork in the hands of a hired man, the little son of Oliver Burton, of Vaughan township, died yesterday. The boy, a lad of six years old, was on top of a load of hay driving from the field to the barn. The horses started suddenly, and the hired man, also on the load, was unbalanced, and his pitchfork, which was in his hand, plunged into the boy's breast. The little fellow died a couple of hours later.

**SOUTH SAANICH HAS FIXED ITS RATE**

Improvements Call for Seven Mills on the Assessment.  
South Saanich council called a special meeting for last night to fix the rate of taxation to be levied this year in the municipality of South Saanich. The council decided the rate this year would be seven mills instead of the five mills as last year. The revenue from the new rate will be about \$24,000 after allowing the deduction of one-sixth for prompt payment. The council estimates its expenditure for the year at \$23,000.  
Owing to increasing road work being required and the development of the municipality the council found that at the old rate of five mills the requirements could not be provided. There will be no meeting of the council to-morrow night.

**COULD NOT HOLD HER**

Sironje Escapes From Trunk Last Night in Spite of Bands.  
Firmly secured in what is technically known as an insane muff, which was tightly fastened by ropes and belts to her arms and legs, Sironje, muff ropes and all were put into a trunk which was locked and wrapped around with a sheet and then tied and sealed at the New Grand last evening. It certainly looked as if Officer Heather and Dotley, representing Victoria's city police, had at last captured beyond hope of escape the redoubtable Sironje, who has been slipping out of almost every kind of device in which she has been placed at the New Grand this week.  
But, whether aided by supernatural powers (as some darkly hint) or not, Sironje again proved too much for her captors, and after twenty minutes of mysterious working in the trunk again appeared in full view of the audience.  
The house was packed to overflowing last evening and people who are going to-night had better get there early for Sironje is going to run the gauntlet of several citizens, who have grimly promised themselves that they're going to trap her. One man has a pair of old irons which once he claps them on he's pretty certain no one can get out of them. But Sironje will try and there's sure to be something doing. Needless to say the balance of the performance at the New Grand is away above ordinary.

**PERSONAL**

According to R. B. Young, a trader, who conducts a general store at Port Simpson; there will soon be a "gathering" of the clans, "to speak into Prince Rupert." Prince Rupert is in the place, and the traders will have to get in there if we're going to do business," said Mr. Young. "It's really wonderful the way the town is going ahead, and it's even more remarkable how few men of moderate means keep things going so well." Mr. Young has been in the country three years, and passed through Prince Rupert when there wasn't even a tent there. He says that things are pretty quiet in Port Simpson just now. Mr. Young is down in Southern British Columbia on a combined business and pleasure trip. While in Victoria he is stopping at the Dominion.  
David Paul, formerly of the San Francisco Chronicle, arrived on the steamer President from San Francisco last night. Mr. Paul is leaving on the R. M. S. Marjorie for Australia as representative of an American news syndicate at the American fleet reception and entertainment there.

Successful operation have been performed on Mrs. Story, of Nanaimo, and Miss Hazel Morris, of Victoria, who were treated yesterday for appendicitis in St. Joseph's hospital.  
In the police court this morning the proceedings were very prosaic. Tom Turnbull pleaded guilty to assaulting Mary Ton, a Chinese woman. The assault consisted of throwing water over the woman. He was fined \$5 and those who sit magnificently attempting to preserve their laws under the present conditions will agree that Magistrate Jay was right in so punishing for such a willful waste of water. Two drunks were fined also by the magistrate.

THE CHILD AND THE RATTLE-SNAKE.
The child saw the Beautiful Death that lay in the sunshine on the edge of the bending grass; he had never been afraid of anything; he was not afraid of a snake. He stretched out his little rosy arms toward it and laughed and gurgled. The snake shortened his coil, and in his hiss there was menace. The last rays of the sun shone on the head of the reptile; they seemed to light up his evil features. They showed that his eyes had a touch of red in them and were lustful; they showed a fleck of dried blood, not his own, on the cruel curve of the lip; they showed the spreading nostrils and the jaws of iron. But the child could see none of these things; for the child knew nothing of lust, of cruelty, of blood. He rolled over on his stomach and, taking hold of the grass, pulled himself playfully toward the snake; he touched the monster's head with his little warm fingers. And not even then did the Banded Death strike—the child's touch was a caress; in the child's face and voice was neither hatred nor fear.
Then the rattlesnake glided slowly out of his coil and disappeared in the grass by the fence. And the mother, coming up, found her little boy talking faithfully though steeply to his toes.
That night, after the child had been tucked in his crib, the mother and father sat on the porch by the open door and planned for their boy's future. Then she told him of her afternoon trip; of how good the little boy had been; of the quiet safety of the green fields; of the sunset over the pines. And as her love for their child and for him thrilled in her voice he bent near and kissed her tenderly. For they were not even for all time. And none of them, not even the child, knew how near the Banded Death had passed.
That night, far up in the dim and silent pine woods, the rattler found his old den and his mate. Why had he not struck the child? It is a mystery. Archibald Rutledge in The Outing Magazine for July.

MINTO CUP MEN ARE CONFIDENT
RECORD OF PLAYERS TO MEET SHAMROCKS
C. D. Peele is Team Manager and G. A. Welsh Business Agent.

The following are the names, ages and records of the lacrosse players of the New Westminster club who left yesterday afternoon for Montreal to play the Shamrocks for the Minto cup. The first match will be played on the 21st.
The men are all in first class condition, and are confident of bringing back the cup with them:
Sandy Gray, goal-keeper, 23 years, 148 pounds; born in New Westminster and commenced playing senior lacrosse in 1901.
Charley Galbraith, point, 26 years, 170 pounds; came-to-New Westminster in youth and has been in senior company since 1905.
Tommy Gifford, cover point (captain), 23 years, 158 pounds; has been playing senior since 1928; went east on both former trips made by team in 1920 and 1922.
Jimmy Gifford, first defence, 21 years, 150 pounds; playing senior since 1905.
George Rennie, second defence, 25 years, 160 pounds; playing senior since 1901; went east on one former trip made by team.
Tom Rennie, third defence, 24 years, 160 pounds; commenced playing senior in 1902; went east with old lacrosse team as reserve man in 1902.
James (Pat) Feeney, centre, 22 years, 145 pounds; born in New Westminster and commenced playing senior in 1904.
W. Turnbull, third home, 22 years, 165 pounds; born in New Westminster and commenced playing senior in 1906.
Irving Wintemute, second home, 22 years, 150 pounds; born in New Westminster and commenced playing senior in 1905.
Alex Turnbull, first home, age unknown, 160 pounds; got into the game about 44 (estimated) years ago; has been with New Westminster team since 1887.
Len Turnbull, outside home, 148 pounds, 19 years; born in New Westminster, and commenced playing senior in 1905.
Jack Bryson, inside home, 160 pounds, 21 years; born in New Westminster, and commenced playing senior in 1905.
C. P. Latham, spare man, 160 pounds, 24 years of age; commenced playing senior in 1902.
C. Spring, spare man, 166 pounds, 19 years; first played senior last year.
With the exception of Alex Turnbull every man on the team learned the game in New Westminster.
C. D. Peele, the team manager, who will have charge of the aggregation on the eastern tour, commenced in senior ranks and was one of the team which made the eastern tour in 1928. He also played with the 1906 and 1902 teams in the east. He was born here 24 years ago, and has been identified with the game since he was big enough to play. In fact, the Peele family were once known as "the lacrosse family," there being four Peele boys in lacrosse ranks at one time. C. D. Peele left the team in 1905.
G. A. Welsh, the business manager who will accompany the team, has never played lacrosse, but, during his residence in this city, has always followed and been closely associated with the sport. He was president of the club for two years.
The team's average weight per man is 158 2-3 pounds.

LACROSSE.
VICTORIA VS. MAPLE LEAF.
The Victoria lacrosse team to play the Maple Leafs of Vancouver on Saturday will leave tonight for the Terminal city. The representation of Victoria going over to-night lacks several of the regular team. Kroeger, who goes to Quebec and Charlie Mason are unable to go over, and Crawford is another who will remain at home much to the regret of the team's chances of coming home winners.
The two new men, Ross and Battersby are in the team and will be tried out and allowed to show their strength. The team consists of Ross, Clegg, McLaughlin, Dewar, Oskell, Wilson, Fairall, Morris, Jenkins, Battersby, Pettigrew, Rosecamp; spare, Hancock.

GOLF.
VICTORIA CLUB MEETING.
The Victoria Golf Club held its annual meeting last night and elected officers for the year. Official reports from the secretary and treasurer were received and showed that the past season of the club's history had been the best in its existence. The membership is now larger and the financial support is stronger. The meeting considered arrangements for the coming season and discussed changes proposed in the constitution. The officers elected were: President, H. Pooley; club captain, Col. A. W. Jones; secretary, H. Combe; executive committee, Messrs. H. Swinerton, Holland, Irvine, Langley, Ambery, Rhodes and Rithet.

BASEBALL.
TO-MORROW'S GAME.
Goddard and Hanson for the Beilingsham nine, and Surridge and Robbison for the local Wonders, will be the batteries to-morrow afternoon on Oak Bay on the diamond. The local boys will have a backing in the field, that will lend some assistance every time on every base and in every case. There will also be assistance for the other men, but, by the time the locals get through with them they will not doubt need it. It is understood that they are bringing some long-legged fellows from the other side to watch for Jack Rithet's pet pitcher. The Beilingsham team will be the toughest notch on paper that the Wonders

Miss Pooley Has Yesterday's Honors—Will Challenge Cup Holder.

The honors of yesterday at the Belcher street courts were deservedly with Miss Violet Pooley, who won her way to the final of the Flumerfelt cup series by winning from Miss Butchart, 6-3, 6-1, and from Miss Pitts, 6-1, 6-3. Miss Pooley has now the right to play Miss Marion Pitts for the cup, and the contest will be brought off on Saturday. Miss Pooley, from her style of playing throughout the week, should make the match particularly interesting. She has not yet been defeated in any game she has participated in. Miss Pitts last year was matched against just about the same strength of opposition as Miss Pooley has been during this week, and succeeded in winning out from Mrs. Burton by two love sets. Miss Pooley, although she did not win yesterday by such a majority, still won by a good margin, and appears to be particularly well matched against Miss M. Pitts on figures. She will, however, have the advantage of her longer reach and her extra height when she meets Miss M. Pitts on Saturday night, and as these assets have served her in good stead throughout the week she can be looked on as a good account of her side of the score sheet. Miss M. Pitts has not been seen in many matches this week, and it is hard to form an opinion of her form. In her match with Meredith against Miss Pitts and Kirkbride Thursday morning she showed a variety of strokes that go to make an all-round player, who can free herself from difficult positions on the court with resource and determination. The Flumerfelt cup this year will not be won however wins it by the wide margin of last year. Tennis enthusiasts should see a first class encounter between the two ladies.

The Times has throughout the week mentioned Miss Pooley as a probable winner of the series, and she should be the winner of the Flumerfelt cup this year. Yesterday the sun in the earlier part of the afternoon caused the atmosphere to be oppressive, and the players were thankful when the clouds came over and cooler weather prevailed. The game between Harry Pooley and Bernard Schwengers, which was set for 3 o'clock, and was looked upon as a first class, proved very one-sided. Pooley was beaten 6-2, 6-0. Schwengers, as indicated by the scores, was never troubled, and when pressed Pooley became wild and erratic. There was nothing about the match to call for special comment. Schwengers went one step nearer the end of the single series by beating W. Todd 6-2, 6-2. The remarkable thing about the game was that Schwengers oved, 50 alternately with owe 40, and Todd receive 15. Such a terrific handicap looked impossible to surmount, and Todd smiled to himself. But Schwengers was never a fault, and went through the form of beating his opponent. C. S. Jephson yesterday beat two men in the singles, and is now ready for the single semi-finals. In all ten sets were played yesterday as the day before. Eight are down for to-day, and will bring the final down clock to the final play off to-morrow, when the Flumerfelt cup match will be played and a charge of fifty cents will be made for admission to non-members.

YACHTING.
NEW VANCOUVER BOAT.
It is reported in Vancouver yachting circles that two well known Vancouver boys are already at work on plans for a yacht which they intend shall meet the Alexandra in trial races next year to determine which shall defend the Alexandra cup. The designers are Messrs. Cliff & R. Cao, who designed the B. C. Electric Company in good style and will have the traffic arrangements in order to prevent crowding. The local nipe had the final practice last night and are good and fit and ready to protect the laurels they have won. On the work of both teams for the present season they appear to be honest competitors, and it is not surprising that they have not yet had a race. The local nipe had the final practice last night and are good and fit and ready to protect the laurels they have won. On the work of both teams for the present season they appear to be honest competitors, and it is not surprising that they have not yet had a race.

CRICKET.
TO-MORROW'S GAME.
Cricket for to-morrow is as follows: Albion against Pacific Club, and a match between two Victoria golf club teams. Both matches are being played here and several members who have not before been seen in the match will be tried out by their different clubs. When the championship series takes place next month the teams hope to have discovered some new talent and the players in to-day's games will be watched with interest for the purpose of strengthening the championship teams.

BASKETBALL.
JUNIOR GAME.
Junior baseball will be witnessed to-night at Beacon Hill between mines from Beacon Hill and Oak Bay clubs. The latter recently defeated the former by 6-3 and to-night's game is looked on to be exciting as both teams are determined to win.

THE GUN.
CLUB MEETING.
The annual meeting of the British Columbia Association will be held at the drill hall on the evening of July 21st, commencing at 8 o'clock. General business, including the election of officers, will be transacted.

have hit, but the harder the game the more resourceful the local boys seem to become. The tougher the corner they are in the more swiftness they become and the more reliable. This season they have several times been way down low in the hole at the eighth and ninth innings and hasn't the crowd just raised the grandstand roof with the cheers as the Wonders have risen on their toes and caught the game as it was about to fly over their heads. The crowds that go out to Oak Bay don't look for anything to happen till the end of the game, when, if it is wanted, it will all happen at once. That's how they want it Saturday. The game which is being played between the Oak Bay council and the city council on the waterworks question goes merrily on. Oak Bay continues to press for a final agreement that the city will undertake to supply that municipality with water...

The matter came up at a special meeting of the city council last night when City Solicitor Mann said that he had been requested by Reeve Oliver of Oak Bay to ask the council if it were going to grant the agreement asked for some time ago...

Ald. Mable opposed any agreement on this question until such time as the city was in a position to supply water in the quantity required by Oak Bay...

Ald. Cameron said that an agreement covering the points at issue between the two municipalities might be drawn up and the council need not accept the proposition dealing with the water question unless it liked.

Ald. Fullerton said that in view of the circumstances the people were getting off light with an increase of only 1 mill. He agreed with Ald. Cameron about the necessity for additional officials...

Ald. Mable asked if one mill was enough. The people would kick as much over one as over two. Ald. McKeown—They're getting off cheap.

Ald. Hall pointed out that the revenue from the garbage wharf would pay the water and a little more, so that the disposal of garbage was not costing so very much.

Ald. McKeown said that the board here expected the fact that the debentures would be sold at a discount, and should have added enough to their face value to have provided for the loss...

Ald. Pauline, bringing the discussion back to the fixing of the rate, said that in his mind it was a question whether the increase should be one or two mills. The expenditure so far this year was \$15,000 ahead of the revenue.

Ald. Hall objected to an increase of one or two mills, even though some necessary work had to stand over. The property owners would object to an increase of two mills, coming as it would on top of the increases in the assessment.

The question of fixing the rate was then taken up on the basis of an increase of one mill when Ald. Fullerton pressed his demand for a lightening of the tax on improvements and the increasing of the levy on land.

ing of the tax on improvements and the increasing of the levy on land. He suggested that improvements be taxed only 25 per cent.

Ald. Cameron strongly supported the single tax idea in general, and this move in particular. Ald. Pauline felt that it was late in the day to make such a suggestion...

Ald. Mable announced himself a strong advocate of the single tax, saying that it would do away with owners holding property vacant for speculative purposes...

Ald. Pauline would oppose any change for the effect of it would be to free large companies from the payment of a large amount of the taxes which they were now paying into the treasury.

In view of this feature of the question it was tacitly agreed by the supporters of the principle to abandon all idea of making a change this year...

Following this the rates for the year were fixed at 11 mills for general revenue, 9 mills for debt charges, 4 for school purposes and 1 for board of health purposes...

## MAKES RE-APPEARANCE AFTER LONG ABSENCE

### Naas Tug Morris Purchased by Local Man for Towing.

After an absence of 20 years from Victoria the steamer Morris, built at this port in 1888 for Alex. J. McLennan, made her reappearance in the harbor yesterday following an uneventful trip from the Naas river. The Morris has been purchased by H. Olsson, of this city, and will be operated in general tugboat work.

Although nearly a quarter of a century old the Morris is a fine tug, having been practically rebuilt three years ago at Port Simpson. When first placed in commission on the Naas she was operated by her first owner, the late A. J. McLennan, in connection with the Naas harbor cannery. Upon the sale of that concern to the Federation Brand Salmon Canning Company, the Morris was taken over by the latter company.

Mr. Olsson has now bought her for tow-boating, and will operate from here. Her dimensions are 35.5 feet length, 9.2 feet beam and 3.2 depth, and her registered tonnage is 16.

## C. P. R. SLASHES RATE IN HALF

### TWENTY-FIVE CENTS TO AND FROM SEATTLE

#### No Reply From the Inland Navigation Company Yet Reported.

The first aggressive move on the part of either company now engaged in the Seattle and Victoria rate war, came last night, when it was announced that the rate on the Princess Victoria and Princess Royal between these ports and Sound port had been cut to 25 cents each way. The Inland Navigation Company some time ago cut the return rate on the Chippewa to the same rate as the single fare, fifty cents, but the C. P. R. now goes one better.

Up to this afternoon the Inland Navigation Company had not made any reply to the latest cut, nor has it yet announced what steamer will be placed on the Victoria and Vancouver run or the date of this proposed service.

## A "ROTTEN SYSTEM OF SHIPPING FINANCE"

### Present Depression Will Expose Its Worst Features, Says London "Fairplay."

Commenting upon the present universal depression in the shipping industry, London Fairplay says: "The freight market, continuous in the same chaotic condition, and owners who 'unfortunates' have boats available for homeward employment either for prompt or for July loading are at their wits' end to know what to do with them. Every freight that they are invited to offer for shows a loss at first sight of no mean magnitude, but when owners go into the dissection of the charter conditions and work out the net result of the business they get bewildered, for they see a huge loss staring them in the face, and yet they can discern visions of a still greater misfortune if they neglect to secure the business and their loss. There are a great number of boats in this position, hundreds more have been fixed, and the losses encountered, but the question must arise as to how the money which is being lost is going to be found, for shipowners have no reserve funds in hand for financing losses, so where is the money coming from? These are not paper losses that can be lost sight of by entries; the voyage accounts cannot be 'cooked,' that is, by underwriting insurance, stores, provisions, etc., for wages, coal, insurance, provisions, port charges, pilotages, etc., have to be provided for, that is, the money has to be found to pay for them. The shareholders cannot be called upon as in the olden days to contribute pro rata to the loss, for now their liability is limited to the amount of their shares. The only result of such trading-as far as we can see is that when these boats arrive at a home port they will have to be tied up, and peremptorily so, by the creditors, for it is absurd to suppose that they are going to allow managing-owners to continue running their boats for management fees and reciprocally at their expense.

"The whole system of ship-management has deteriorated. And why? Because inordinate credit has been given to secure business. We know of cases where bills have been given for coal, insurance, stores, provisions, outfit, repairs, etc., part of the freight in the meantime being utilized in paying for new tonnage on the basis of robbing Peter to pay Paul. These never would have been such an over-supply of tonnage as is now the case if the wild and injudicious system of staving off liabilities for the time being by acceptance of bills of lading, and the months' date, had not been so prevalent. We admit that under certain conditions it is necessary to pay partly in cash and partly by acceptance, but when a voyage is completed the liabilities upon such voyage should be promptly discharged—proportions, insurance, stores, provisions, etc. This acute depression will in a way do good; it will withdraw the curtain and openly expose the rotten system of shipping finance from end to end.

## LARGE ATTENDANCE AT DOMINION FAIR

### Victoria's Exhibition Should Compare Favorably With Ranching Cities.

"The Dominion fair was a very good exhibition, but I think that if the people here take things in hand we can turn out an exposition in this city, which will compare favorably with the Calgary fair," was the remark made this morning by J. E. Smart, secretary of the B. C. Agricultural Association, who has just returned from Calgary, where he has been looking for pointers for our own exhibition which comes off in September.

Mr. Smart said that the exhibition while called "Dominion fair," was a typical western exhibition, and when regarded in that light was very good indeed.

Especially worthy of mention was the exhibit of heavy horses and beef cattle. In the saddle class of horses there were a large number of entries and a keen competition for the badges and medals.

One thing which struck Mr. Smart very forcibly was the very large attendance. On the 1st of July there were 25,200 paid admissions, and on the 4th, 25,000.

"The amusement side was well looked after," observed Mr. Smart, "and in respect they have an advantage over us in Victoria. They have twilight there in the summer-time until 10:30 and consequently can fill the grand stand twice a day to our once."

"On the 4th of July there were 18,000 people paid to get on the grand stand. A feature of the exhibition was the parade which took place every morning around the exhibition grounds. There were a large number of floats representing antique and modern farm implements. For instance a man carrying along sawing at the air with a grain cradle and was followed by a float with a fine model of a Massey-Harris tractor. There was over a mile of Indians on parade, who were dressed in all the ancient costumes of their tribes.

"The fine exhibit of fruits and flowers from British Columbia attracted a great deal of attention, as did also the later exhibits. There was a marked absence of sheep exhibits. The only one I saw was a carload of poultry. The attendance from the East was also small.

"Taking everything into account the Calgary fair was a very good one, and should have been very successful from the financial point of view as the attendance was immense. But as I remarked before, if we take the matter in hand our provincial exhibition ought to compare with it very favorably."

A fine exhibit of Highland cattle and pure bred Clydesdale and hackney horses has been secured for the Victoria provincial exhibition. They are being brought by Capt. Watson from 150 Mile House, on the Cariboo road. There will also be a carload of horses, of pure bred stock from the Bon Rich district.

Mr. Smart gave some features of the coming Victoria exhibition. There will be a new stock building which will accommodate a large number of horses. The stock judging ring is to be in the centre of the building. The seating capacity of the new pavilion which is entirely enclosed, will be 2,000. A horse show will be put on in front of the grand stand every evening.

According to Mr. Smart there will be a large attendance at the provincial fair from the prairie provinces.

## DO NOT AGREE ON QUESTION OF WHARF

### City Council Wants the Rights of Public Enclosed.

The city and the B. C. Sand & Gravel Company do not see eye to eye regarding the wharf which the company was allowed to erect at the foot of Johnson street, to which access was secured by means of an extension of the platform along the public street. It was the understanding of the council at the time that permission was granted the company to build this wharf that the public should have the right of ingress and egress over it at all times on the same footing as the company.

According to the lease as prepared by the company's solicitors, Elliott & Shandley, however, the company would be given special rights. At last night's council meeting City Solicitor Mann reported that he had drawn a lease giving the public the right of access to the wharf at all times, which, however, the city engineer will prepare plans of the wharf after which the council will deal with the subject.

## PAPER COMPANY FINED.

New York, July 10.—The Petoskey Fibre Paper company of Petoskey, Mich., indicted with 23 other wrapping paper companies by the federal grand jury for violating the pooling provision of the Sherman anti-trust act, pleaded guilty in the United States circuit court. As in the case of the other 23 companies, Judge Hugh imposed a fine of \$2,000, which was paid.

## ROBERT MANTELL TO BE GUEST OF HONOR

### Canadian Club Will Entertain Well Known Actor on Occasion of Visit Here.

Robert Mantell, the well known actor and Shakespearean student, who appears in the Victoria theatre Monday and Tuesday evenings respectively in "Hamlet" and "Othello," will be the guest of the Canadian Club at a luncheon to be given in the Driad hotel Tuesday afternoon, commencing at 1 o'clock. Tickets will be on sale to-morrow and Monday at Hibben's book store, but after 3 o'clock Monday evening, no tickets will be sold.

It is absolutely necessary for the caterer to know in advance how many he will have to serve. On the occasion of the last banquet, at which W. L. Mackenzie King spoke, only 60 tickets had been sold up to shortly before the hour set for the luncheon at which, however, there were 87 present, a large number having rushed up at the last minute to secure tickets. The caterer thereby was placed at an unfair advantage in serving the luncheon for the attendance of so many more than was expected upset all the arrangements he had made.

Tuesday's luncheon, it may be said, will be the first public event to be held in the Driad since it was taken over from L. Bates Van Dusen by Harry Hemming.

## SCHOONER HAS CLOSE CALL IN THE STRAIT

### H. D. Bendixen Was Almost Aground Near Cape Flattery Yesterday Afternoon.

(Special to the Times.) Port Townsend, July 10.—Became in the strait of Juan de Fuca, a short distance in from Cape Flattery, the American schooner H. D. Bendixen was carried by the tide yesterday to within a hundred yards of the rocks. The Bendixen, which has arrived from San Francisco, rounded the Cape during the afternoon, and was suddenly becalmed when sailing close under the shore. She was almost ashore when a light breeze came to the aid of her crew and enabled them to work the schooner to clear water. After entering here the schooner proceeded to Port Gamble to load lumber.

The steamer Harold Dollar arrived from San Francisco and proceeded to Mukelto to load lumber for return.

## MARINE NOTES

Bringing 292 passengers and a full cargo the Pacific coast steamer President reached port last night from San Francisco after a fine passage. At the outer docks the President discharged 70 tons of local freight. Forty-one passengers landed here, among them being the following: C. Fletcher, H. F. Haygarth, Miss Maitland, D. Paul, John Brent, C. A. Lett, B. H. Anderson, Mr. and Mrs. Ansey, Miss Allen.

On her last voyage from Puget Sound to southeastern Alaska the ship Delhi made a record calling at several ports, handling a large amount of cargo and returning to Seattle within 16 days. The usual time is from 18 to 20 days.

Capt. Percival Shadforth has returned from New Westminster. He states that negotiations in respect to the proposed operation of the steamer Newington, between San Blas, Mexico, and San Diego, have not yet reached a definite conclusion.

After making an inspection of Sooke harbor with a view to recommending improvements to the entrance to the Dominion government, Louis Coste has returned to the city. He will present a report to Ottawa shortly.

The British steamship Tuscarora, which sailed from San Francisco on May 30th for Shanghai via this port, arrived at her destination prior to July 6th.

The French barque Marechal de Conant has arrived at Tacoma from Vancouver and will load lumber for Australia.

A three-masted ship, probably the Falls of Dee, Capt. Bianco, from Comalbo for the Royal Roads, is reported coming up the strait of Juan de Fuca.

New York, July 10.—Arrived, steamer Cedric, from Liverpool and Queenstown.

## OHIO IS SAFE AMONG FLOES NEAR NOME

### Waterhouse and Company Receive First Authentic News of Vessel.

(Special to the Times.) Seattle, July 9.—Word was received this evening by Frank Waterhouse & Co. of the steamship Ohio's safety. The White Star vessel is at present quite near to Nome in the ice, and Capt. Conrad is waiting for the ice to break up before attempting to make port. It is believed that he will not take any risk, as the Ohio is damaged.

The Ohio is 29 days out from Seattle, with 550 passengers aboard, and her delay will mean a loss of many thousands of dollars of loss to her owners.

## BRATTON WILL BE TRIED AUGUST 5TH

### Bail Allowed by Judge, but Not Secured by Prisoner.

C. E. Bratton will be tried before Judge Lammpan on August 5th on the charge of incendiarism. Two days ago Bratton came up for election and decided to take speedy trial. The date was not fixed, however, pending an application for bail.

This morning J. A. Aitken, on behalf of the accused, made his application for bail, which was finally fixed at \$5,000 in the name of Bratton himself and \$5,000 in sureties arranged either for the full amount in one name or \$2,500 each for two or \$2,000 each if three went.

The bail was not secured up to the time of going to press so that Bratton is still in the provincial jail.

The steamer John L. Card is on the ways at the Victoria machinery depot, being overhauled and having a new propeller fitted.

**CONDUCTOR OF THE "KILTIES"**

Leader Must Have Marked Ability With Such a Collection.

A musical organization of the importance and renown of the "Kilties" must necessarily have for its leader a man of highest ability. In the person of Mr. Albert Cook, the director, this leader is found. Mr. Cook is a striking example of a man who not only knows music, but can impart to those under him his ideas of how compositions should be played. In the "Kilties" Canada's remarkable band, which has visited seven countries, and is now on its fifteenth tour. Mr. Cook has most sympathetic material, and with it, he achieves results that take his hearers by storm.

Nothing but praise is ever heard for the band, because every man in it is an artist, individually working for the success of the whole; and under the direction of a master, they could not help achieving that success.

It is not necessary for Mr. Cook to descend to eccentricities in order to secure good work from his men; and throughout all his leading the gymnastics indulged in by some leaders, are noticeable by his absence. His splendid figure, set up like a soldier's, is not required to twist and turn and jump about to secure the results he desires from the musicians; and the ease with which he leads them comes as a distinct relief to audiences over-weary of "eccentric" poses.

The "Kilties," with Mr. Cook leading, supplemented by a male choir of twenty voices, and Mr. Angus McMillan Fraser, the American champion bagpiper and sword, sailor's hornpipe and Highland fling dancer, will appear at Royal Athletic park on Thursday afternoon (tomorrow) and evening.

Great bargains still being offered by the Hicks & Lovick Piano Co., 1204 Douglas street. Don't forget that there is an unusual opportunity to secure a Mason & Risch piano at a great saving in price.

**PUBLICITY IN WESTERN CITIES**

IMMENSE SUMS ARE SPENT IN ADVERTISING

The West Has Found it a Paying Investment.

Investments in the West in land have never failed to pay; they are better than money in the bank, if made right, says Printers' Ink. In 1907, which was a banner year in westward immigration, western railroads which kept tabs on the upbuilding of their territory, say that three hundred million dollars were spent by eastern investors in lands and town property, and that three hundred thousand more were added to the population of the various western communities.

Advertising pays the western town. Did it not they would not continue spending thousands of dollars a year after year. Almost every community in the western States has a commercial club, which is no more than an advertising agency for the purpose of booming the resources of that community. These towns advertise in many ways; some of them send delegates across the continent in private cars to talk personally with the possible investor in their community; others do it by advertising in the magazines and newspapers, and by a follow-up of booklets, etc. Much of the advertising money is wasted by putting it into inferior mediums and publishing unconvincing pamphlets, but a majority of this western publicity literature is worth while, handsomely illustrated, and well printed, and filled with convincing arguments. It sets results.

There is a community in Wyoming where an advertising fund of five thousand dollars was created to colonize the irrigable lands in that district. The appropriation was made in the summer of 1907, but was not to be available until the early part of 1908, as the winter season is the most opportune time to advertise for farmers. They have time to read advertising and talk about a change in their location. Handsome literature was published, an edition of five thousand books on plate paper, setting forth the wonderful possibilities of the one-inch advertising pamphlet in the classified columns of the Sunday editions of about fifteen middle-west newspapers and in twenty or more farm journals, at a cost of \$750 for one month. The ad within two months brought eight thousand inquiries, located sixty people in this district, and sold by mail seven thousand acres of land at thirty dollars an acre. This is, however, a record in land advertising.

The balance of the appropriation is fully expected to sell out the 150,000 acres of land and locate 2,500 people in the district before winter.

The writer has corresponded with commercial clubs in various localities which are pushing forth their wares to the farmer-investor of the east, and below is given a brief synopsis of replies. In addition to these communities hundreds of others are operating on similar lines, and besides the railroads are spending vast sums in advertising the west as a whole. Results have been most doubled their land advertising appropriations in the last two years. The trains going west every first and third Tuesday of the month (home-seekers days) are crowded, and often three or four sections of one train are run to handle the crowd. The plans of the communities mentioned have all been a success.

Sheridan, Wyoming, has issued a handsome, illustrated pamphlet showing how the city has increased from 1,500 to 15,000 inhabitants in the last five years. This pamphlet they are advertising in the classified columns of the large newspapers.

El Reno, Oklahoma, has raised an advertising fund of \$20,000, and is using fifteen to twenty inch display copy in newspapers in Kansas City, St. Louis and Chicago, in which the fact is brought out prominently that the Rock Island Railroad has a monthly payroll of \$125,000 at El Reno, and that the managing centre of this railroad is located there. El Reno is after factories, and expects to spend \$400,000 in six months.

Tulsa, Oklahoma, has a unique plan to boom the city. Recently a solid train of Pullman cars was chartered, which carried 150 business men and a band of twenty-six pieces. This train covered 10,000 miles, and visited the large cities of the country. Tulsa has spent thousands of dollars in the classified columns of newspapers, under "Public Opportunities." An illustrated booklet, is furnished setting forth the resources of the town. The booklet, however, is very poorly printed. It could be improved very much in its appearance, which would, no doubt, help in attracting business people.

Salem, Oregon, is spending about \$1,000 per year advertising in agricultural newspapers in the Middle West. The Board of Trade has a pamphlet called "Facts," which gives the amount of products grown in that vicinity, and the profits realized by the farmers. Salem is advertising more heavily since

the financial panic in the east, and with better results.

Baker City, Oregon, is spending about \$2,000 annually advertising in agricultural papers in the Middle West. The secretary of the Commercial Club says that they have been spending about \$1,000 each year in magazines on the Pacific coast, and although they change their advertisements frequently, the results are very unsatisfactory. The booklet they send out to inquire costs six cents each. The population is about 25,000. Baker City is especially anxious to get manufacturing plants.

Portland, Oregon, spends about \$250 per month through its Commercial Club in advertising the State of Oregon. Portland advertises the colonists' rates more extensively than it does the resources of that community. A fruit bulletin, devoted to fruit growing in Oregon, has been printed and 10,000 copies circulated in the United States. Portland recently gave a \$5,000 prize to the newspaper and magazine writers who composed the best articles on the city. The Commercial Club estimates that it has done \$50,000 of free advertising since the campaign began. The first prize was \$1,000. According to W. L. Crissey, assistant manager of the Publicity Committee of Portland, the town has never come to the front as rapidly as it has since this course was entered upon. A very beautiful booklet entitled, "Oregon, the Land of Opportunity," is distributed by the Publicity Committee. This book gives a list of about fifty Commercial Clubs that are co-operating to advertise the State of Oregon.

The California Promotion Committee of San Francisco has done a great deal to advertise California, and especially San Francisco. While this committee does not advertise generally in the magazines and newspapers, it has access to a large mailing list furnished by the railroads going into California. To these inquirers about California and San Francisco they mail five or six very handsome pamphlets, showing the growth of San Francisco since the fire, and the wealth of opportunities existing not only in San Francisco, but in California. Members of the California Promotion Committee comprise some of the leading capitalists of the state and also some of the important railroad officials of California.

W. P. Jennings is the chairman of the committee, who is an experienced newspaper man. The committee has an affiliated organization of seventy-five Commercial Clubs with a membership of 30,000. It is five years old, and during that time has supplied for publication nearly 50,000 newspapers and magazine articles. During its existence the committee has published one hundred and eighty-six books and pamphlets, of which were printed 1,233,000 copies. It furnishes American consuls throughout the world with facts about San Francisco and California.

**Picturequely situated at the foot of the magnificent Harrison Lake,**

surrounded by mountains from 2,000 to 10,000 feet in height, within three hours' run from the Pacific Coast, this celebrated resort, whose Springs have been famous for their curative powers since the pioneer days of British Columbia, offers unequalled attractions to both pleasure and health seekers. A beautiful drive from Agassiz station, seventy miles from Vancouver on the main line of the Canadian Pacific Railway, brings the tourist to the St. Alice Hotel. The views from the hotel verandas are unrivalled. Many delightful walks through the woods, mountain trails to climb, tennis courts, croquet lawns, baseball grounds, good fishing and hunting in season. And bustling unexcelled outdoor entertainment, while for indoor amusement there are ping-pong and billiard tables and a large dancing pavilion. One of the attractions of the locality is the Government Experimental Farm at Agassiz, many guests spending pleasant afternoons visiting this interesting institution.

The efficacy of the Harrison waters in rheumatism, kidney and liver diseases, etc., etc., has long since made these springs the most noted of the Pacific Northwest. Well fitted baths in the hotel are supplied with the mineral water. Those requiring medical advice may consult the resident physician, and baths may be taken under his superintendence. The St. Alice Hotel is open all the year round. Terms, \$1.50 per day and upward. American plan. Baths, etc., extra. Special terms to parties staying a week or longer. Address all inquiries to the manager.

beef. We haven't got many cattle into the country as yet.

The Hudson's Bay Company operate all the steamers on the route from Port Essington to Hazelton, and Mr. Orchard spoke highly of their service.

He also referred to the great work being done by Mr. Vallieu, the government agent at Hazelton in getting the roads and trails into the valley country in good shape.

Mr. Orchard left Telkwa on the 2nd of June, and arrived in Victoria yesterday.

When he was leaving Hazelton he encountered a couple of pack trains which were taking in provisions to the prospectors working in the Ingenika gold fields.

**ADVICE TO BOYS.**

Robert Fitzsimmons Will Give a Lecture This Evening.

"The keynote of success," says Bob Fitzsimmons, "is proper training and common sense." Fitzsimmons can, however, lay down no regular rules for training beyond a common sense diet and abstinence from over indulgence.

"Different men need different work," he says. "A frail boy cannot stand the same treatment as a vigorous lusty lad." There are, however, six good commonsense rules which he lays down for all athletes: "Never smoke, drink or eat cheese. Do get all the sleep you can and fresh pure air. Eat plain wholesome food and plenty of it."

Fitz will conclude the Victoria engagement at Pantages to-night, and will give the audience a little lecture, don't you know.

The subject chosen for the little talk by big Bob is physical training and the mode of retaining good health.

Mrs. Bob will be seen in the delightful little skit with Bob as usual and her fine voice ("Better than any on the American continent, I don't care what you say," says Bob), will be heard and heartily enjoyed here for the last time. Mrs. Fitzsimmons has by special request, agreed to sing several new selections so that the lovers of music can have an opportunity of hearing her voice in different compositions.

Seats have been reserved beyond the usual demand. The balance of the bill will be as usual and this week it is exceptionally good.

Bob has certainly had a pleasant engagement and announces he will return here again, possibly to train should he engage in another match. The management states that the reserve seat sale for the closing performance is beyond expectations.

Another feature has been secured for Saturday to fill the vacancy on the bill made by Fitzsimmons who leaves for Spokane after the show to-night.

Charlie Harris, "The Gibson Girl," who has made such a decided hit with his local jokes on the city authorities, will remain for Saturday; also Fiske and McDonough, Roberto, "the boy wonder violinist," Harry DeVerra and the motion pictures.

The usual prices will prevail: Matinee 10c. Evening, balcony 10c; lower floor 25c.

Allen Ballou and his one man's band will occupy the orchestra pit. This is

**Let Us Help You to Keep Out the Flies**

Flies are a great nuisance in any kitchen. In addition they are a grave menace to health, they carry all sorts of diseases from place to place. We do not say you can keep every fly out of your kitchen by using our screen doors and window screens, but we do say you can keep the vast majority out, and make comfort in the kitchen.

SCREEN DOORS, a full range, all sizes, from \$3.50 to \$12.25  
WINDOW SCREENS, adjustable, all sizes, from 60c to \$2.50

**Enduring Enamelware**

Why do you buy so-called cheap Enamel Ware which snips and shells, spoiling your meals, your kitchen comfort and your home comfort, when we can sell you the finest enamel sauce pans, preserving pans, fish kettles, boilers, etc., at prices only a few cents more—frequently no more—than you pay for the disastrous sort.

**Rugs Not Rags**

THERE IS NO REASON WHY the kitchen should not be as comfortable as any room in the house, if you have got a good Linoleum on the floor—say our 40c or 50c lines—then, when you have done cooking a brush over or a wipe takes about four minutes and makes it spick-and-span. In fact, you can make it as comfortable as the parlor by having a couple of our new FIBER RUGS, 2 ft. 6 in. x 5 ft. size cost only \$1.75 each. Put one in front of the range and the other in front of the table and you have a most comfortable extra living room at a cost of only..... \$3

**"GREEN CORN" DANCE.**  
Muskegon, Okla., July 10.—The word received yesterday afternoon from the Hickory camp grounds says that Crazy Snake and his followers are quiet and there is absolutely no trouble that would warrant state authorities in calling troops to the scene. The Snake band of Cree Indians are holding their annual "Green Corn" dance, and Indian Agent Kelsey says there is no cause for alarm.

**RICH LANDS IN THE BULKLEY**

**TELKWA MAN TELLS OF THE NEW COUNTRY**

Vegetables Grow to Immense Size—Lack of Transportation Facilities.

mining and an agricultural country. The timber is small and only adapted for firewood. The valleys are particularly suited for mixed farming.

"Last year there were but three white men at Telkwa," said Mr. Orchard; "now there are a number of families settled there, and there is really first class hotel."

"When the Grand Trunk Pacific construction camps come into the valley we will have everything for them but

"It's the country for the poor man, and with the possible exception of the Isle of Wight, it's the most charming agricultural district in the world."

This was the way E. E. Orchard, formerly a business man in Seattle, and Frank Albert, described the Bulkley valley and its continuation, the Francois Lake district, which extends from Hazelton a distance of nearly 600 miles.

"The land in the Bulkley valley proper is nearly all taken up now," said Mr. Orchard, "and people have been refusing chances to sell at \$25 an acre, but there's plenty of good land in the Francois Lake district, and people who know a good thing will be wise to get in there."

"We grow vegetables in Bulkley valley that can't be beat anywhere in the world. All you have to do is to plant the crops and the soil will do the rest. It's simply wonderful. There must have been some volcanic action in the district in past ages and the soil for a depth of two or three feet is of fine volcanic ash which makes an excellent sub-soil."

"I think that the country will be very suitable for fruit, though we haven't started that yet."

"The climate is splendid. We don't get any more rain than the country actually needs, and in the winter there's not a great deal of snow. We often have weeks of fine, dry, cold weather."

Mr. Orchard said that some trouble was being experienced in the farming of the crops in the valley owing to the lack of proper farm implements. He himself had to employ pack horses for sixty miles from Hazelton, and it was very difficult as well as costly to get the machinery into the country. He is now in Victoria buying another outfit of farm machinery.

"Talk about hay," continued Mr. Orchard, enthusiastically, "we have hay in the Bulkley valley; wild hay, too, that will cover a man standing upright."

"There are numerous lakes, rivers and streams both in the Bulkley and Francois Lake country, and there will be no need of artificial irrigation."

"Besides being an agricultural country, there are miles and miles of coal land, and the mountainous country and hills about the valley are rich in copper."

"Unfortunately, owing to the present money stringency and the great cost of operations, mining operations are a little slack just now."

"The Telkwa mine & Milling Company are surveying all the mine properties, situated about thirty miles from Telkwa, to secure the crown grants."

"The country is filling up rapidly. A large proportion of the people coming in are from Dakota. They are doing pioneer work in the Francois Lake country and will consequently get the pick of the land."

"The fishing throughout the entire district is grand."

"The new country is essentially a
