PRICE FIVE CENTS

Prime Ministers Of Empire to Name Their Conference

Lloyd George Says He Will Discuss With the Other Prime Ministers How Gathering in London in June Should Be Described.

London, May 31.—Perey Hurd said in the House of Commons that a misunderstanding of the nature and powers of the forthcoming conference of Empire Prime Ministers here existed and asked that it be called an Imperial Cabinet conference.

Premier Lloyd George replied that he proposed to discuss with the other Premiers how the conference should be described.

In reply to a question as to whether an opportunity would be given to discuss the agenda of the conference, Premier Lloyd George said he would willingly arrange it if any indication were given of the particular subjects down for discussion. Otherwise it would be useless.

Describes Meighan.

London, May 31.—(Canadian Associated Press)—Charles Masterman, one-time Liberal statesman under Mr. Asquith's leadership, writing in the Daily News on the conference of Empire Prime Ministers here in June, says that "Right Hon. Arthur Meighan is high-minded, conscientious and honest." His pessimism gives him a kind of charm. His great weakness here is that he represents a hopeless minority in Canada, which may also be the case with other representatives at the conference and which will diminish the moral authority of decisions arrived at under such circumstances.

Mr. Masterman, writing of Premier Hughes of Australia, refers to his "glibly" during the war with his combined truculence concerning military and tariff reform.

Mr. Masterman says Mr. Hughes will meet a very different race in England to-morrow to the one he lectured to-death during the war.

COMMENTS WORK OF LEIPZIG COURT

British Solicitor—General Speaks of War Trials

London, May 31.—Sir Ernest Pollock, the Solicitor-General, has returned to London from Leipzig, where he attended the opening trials of the German war criminals. He is impressed, he said, with the authority of the court, which was equivalent to the British Privy Council. The president was a man of striking character and impartiality.

The British witnesses were examined with complete fairness and their testimony was well interpreted, according to the Solicitor-General, who declared he was satisfied that the court might be regarded with the fullest confidence.

Released.

Leipzig, May 31.—The trial of former Lieut. Karl Neumann, who was charged with killing the hospital ship Dover Castle while in command of a German submarine during the war, has been stayed. It is declared a preliminary examination of the case would in his complete innocence being established.

A dispatch from Leipzig yesterday said that Captain Meier, the second German officer placed on trial charged with criminal acts during the war, had been sentenced to six months imprisonment. He was tried in a charge of having practiced cruelty on prisoners at the Flawy le Martel prison camp in the Alsace department of France.

Sergeant Heyne, the first officer placed on trial, was convicted last week of ill-treating British soldiers at the prison camp in Harne, Westphalia, and sentenced to ten months in prison.

NEW YORK SINN FEINERS DEFIED

Canadian Woman Displayed the Union Jack

New York, May 31.—(Canadian Press)—Mrs. Viola Henderson, 303 West 90th Street, a Canadian, to-day received a number of letters congratulating her on her refusal to remove a British flag from the balcony window of her home during the Decoration Day parade here yesterday. Mrs. Henderson, formerly of Toronto, hung the flag from the window shortly before the parade started. A crowd of Sinn Fein sympathizers gathered and she maintained it to the ground. Then she took the flag in, and later displayed it again side by side with the Stars and Stripes.

Helped in the War. Members of her family served in the Canadian army and she maintained in the face of the crowd that she had a right to fly the flag of the country or which they had served.

The letters received by Mrs. Henderson were from British subjects who witnessed the affair.

Mrs. Henderson's parents are here from Toronto on a visit and were witnesses of yesterday's flag incident.

WESTMINSTER CLEARINGS. New Westminster, May 31.—The bank clearings here during May were \$2,672,352.

LOYD GEORGE AND BRIAND DIFFER

No Progress Made With Silesian Discussion

British Troops Were Welcomed at Oppeln

Paris, May 31.—Exchange of views between London and Paris regarding a meeting of the Allied Supreme Council to consider the Silesian question has reached a sort of dead centre.

Premier Lloyd George is insisting that the Premiers meet previous to the creation of an expert mission to examine the Silesian problem. Premier Briand handed the British Ambassador here last evening a note dwelling upon the impossibility of the Premiers taking effective action previous to the examination of the question by the experts.

British Troops. Oppeln, May 31.—The First Battalion of the Black Watch arrived here to-day and was met by hundreds of children, who threw flowers at the British soldiers. They broke into the marching squads, trying to hold the soldiers' hands, and shouted gleefully as the happyes played the music of the march.

The residents of the place lined the sidewalks smilingly, and the men doffed their hats as the troops passed. The soldiers were pleased at the reception and patted the children's heads and exchanged greetings with the crowd.

Saluted. The German gendarmes stood at rigid salute until the whole column had passed.

The first train, due to arrive in the morning, reached here about 3 p. m., while the British in virtually deserted, but the moment it was known that the British had arrived, men, women and children began running from every direction toward the station.

Waved Greeting. As the column wheeled into the narrow winding street, two horsemen cleared the way and kept careful eye on a number of civilians with rifles on their backs, but there was apparently friendliness on every hand and anxiety vanished. From every window handkerchiefs were waved and women threw flowers on the heads of the troops. Some of them

The expression was repeatedly heard from the crowds: "The Poles now have something to reckon with."

The Italians appear eager to cooperate with the British in driving out the insurgents. They have heard

GRAIN SHIPMENTS BY WAY OF QUEBEC

Mayor of Quebec Presses Ottawa Government

Quebec, May 31.—Mayor Samson of this city, has written a further letter to Premier Meighen urging an adjustment of freight rates on grain from the West to the port of Quebec.

A memorial from Quebec last January pointed out the need for diverting the flow of grain now going to United States Atlantic ports for shipment to European markets, and drawing attention to the fact that the route over the transcontinental railway was the logical one for the shipment of grain. In reply to that memorial Premier Meighen stated that it would seem difficult to justify the carriage of traffic at substantially less than cost, or at least at less than the ruling rates on Canadian lines.

Dislayed. In his reply Mayor Samson alleges that the heads of the Government railways have acted in a "most disloyal manner" if they have given the impression to the Premier that there would be a loss in carrying grain at 20 cents a bushel, for he states equally competent railwaymen claim that could be carried at a profit at that figure.

Further, he asks how it is that the Government traffic manager, C. A. Hayes, caused great quantities of wheat to be hauled from Winnipeg to Quebec four years ago for 11 cents a bushel and still sends it from Goderich to Halifax, practically the same distance, for 12 cents a bushel.

J. O. HILL DIED. Lloydminster, Sask., May 31.—J. O. Hill, a farmer in this district, who won fame in 1914 by capturing the world's prize for oats and the cup donated by the State of Colorado, died here yesterday.

EX-SPEAKER COMING

Rt. Hon. J. W. Lowther, late Speaker of the British House of Commons, will arrive in the city with Mrs. and Miss Lowther on Saturday afternoon, and will remain until Tuesday. They will stay at Government House during the visit to Victoria.

ENUMERATORS ARE SELECTED

List For Victoria and District Is Issued

Everything is in readiness for the sixth census of Canada, which will be held to-morrow throughout the Dominion.

Accompanying is the list of enumerators, according to the sub-districts of Victoria District No. 24, announced to-day by the City Census Commissioner, W. G. Gaudet. J. A. C. McRae; 2, A. Anderson; 3, J. E. Rimes; 4, F. S. Welsh; 5, A. Cave; 6, A. W. Gillett; 7, W. A. McLean; 8, J. G. Brown; 9, G. D. H. Warden; 10, C. H. Richardson; 11, A. L. Marchant; 12, W. H. Bingham; 13, H. R. McDonald; 14, A. E. Prescott; 15, E. MacQueen; 16, W. F. Harvey; 17, J. W. Kinloch; 18, H. G. Allan; 19, A. J. McKittick; 20, T. Beattie; 21, F. W. Briers; 22, H. Blythe; 23, T. Milligan; 24, J. T. Rogers; 25, W. Longworth; 26, Miss O. Dickie; 27, R. Scarborough; 28, L. E. de Macedo; 29, Mrs. M. Connacher; 30, J. E. Locke; 31, W. Watson; 32, W. W. Joseph; 33, G. C. Hewitt.

Nanaimo Riding.

The enumerators in the neighboring Federal riding of Nanaimo are announced as follows:

Esquimalt—E. Forrest, A. Wade, W. Miller Higgs, F. Fair, A. Heald, A. Mutchy, D. Sturges. Oak Bay—H. S. Webb, D. Johnson, R. S. Standerwick, H. H. Cullis, Saanich—George Carr, Thomas Coventry, Frank Chevalier, W. Jackson, John G. Elliott, T. Dark, J. A. Oades, A. Ellingworth.

The Islands—F. Paris, H. H. Curtis, J. Page, F. L. Crofton, George Darby. Cowichan—George Dee, A. J. Bailley, R. E. Macbean, Clifford Gulley, A. H. Lomas, G. A. Duncan, E. A. Winder, J. H. Wilson and Magnus Colverson. Newcastle—Edmond St. Jorre, H. R. Caldwell, J. G. Shepard, E. Nairn, E. Wilkins.

Nanaimo—W. MacDonald, William Matthews, J. Waugh, M. Storey, F. Kilner, Adam Neen. C. H. Price is commissioner for the Nanaimo electoral district. Throughout the Cowichan Indian Agency the work among the aborigines will be done by W. R. Robertson, Indian agent.

BODY FOUND IN BURRARD INLET

Vancouver, May 31.—Floating in the waters of Burrard Inlet near the West Vancouver ferry dock, the badly decomposed body of a man was found this morning.

No marks of identification were found on the body and no papers to show the name of the man.

Canada Means to Own Islands In Arctic Sea

Ottawa, May 31.—(Canadian Press)—When asked in the House of Commons by Hon. W. L. Mackenzie King, Opposition Leader, why the trip of the steamer Arctic to northern waters had been cancelled, Premier Meighen said the Government did not think the expedition would be necessary this year at least, as it had reason to believe that there was no danger of action by another Government during the present year.

Hon. R. Lemieux said he understood another Government did contemplate raising its flag upon islands in the Arctic waters and he therefore asked if the Premier did not think it imprudent to delay the expedition.

Mr. Meighen replied that the matter mentioned by Mr. Lemieux had to do with the official decision of the Government to send out the Arctic in view of the fact that the vote for the expedition had been passed. If anything transpired to indicate that there was danger in the delay, the Government would not hesitate to protect the interests of Canada.

Government of U.S. Puts Out Feelers For Disarmament

Washington, May 31.—"Informal feelers with respect to an international agreement for a reduction of armaments already have been put out by the American Government, it was learned by high administration quarters. The purpose, it is understood, was to develop the attitude of foreign Governments.

SUBMARINES OF JAPAN COLLIDED; CRUISE POSTPONED

Tokyo, May 31.—Six Japanese submarines collided during naval maneuvers in the coast of Kishiu and one of them was seriously damaged. As a result of the accidents, the proposed long distance cruise of these craft has been postponed.

NEW DUTIES MAY BOOST FOOD PRICES

Wheat, Flour and Potatoes Now Must Pay to Customs

Price of flour and potatoes may be boosted in both Canada and the United States as a result of the Fordney tariff bill which came into effect in United States last Saturday.

Wheat and other agricultural products going from Canada to the United States no longer go in free as they have for several years under the Democratic tariff, but are subject to duty under the new Fordney law.

The duty on American wheat, potatoes and flour has been off since June 1, 1915. But on July 7, 1919, an amendment to the tariff was put through, providing for a duty on these products coming into the country when the country from which they came imposes a duty on similar Canadian products.

When the Fordney Bill went into effect in the United States, the duty on American products entering this country automatically became effective. Customs officials all over Canada were notified by telegram to put on the duty on American wheat, flour and potatoes.

This duty is 20 cents a bushel on potatoes, 12 cents a bushel on wheat and 50 cents a barrel on wheat flour. Importers explain that this duty will raise the cost of these products on the coast by 20 to 30 per cent.

When there is a shortage of goods here to relieve the shortage. It works similarly in the case of flour. When there is a shortage South of the line, the Canadian grower will face the duty which will cut down his profit, but the price of goods here will be able to export.

DUKE TO LEAVE DOMINION ABOUT MIDDLE OF JUNE

Quebec, May 31.—The Duke of Devonshire and his vice-regal household are expected to depart here about the middle of June and will spend a few days here previous to their departure for England.

FIRST CITY ADOPTS SUPERANNUATION

Duncan Municipal Employees Now Cared for Under Government Act

The first municipality to come under the B. C. Government's Superannuation Act is Duncan. The application of the municipality was accepted to-day by Civil Service Commissioner Macdonald. The superannuation benefits will date from May 1.

The City Hall staff is included under the Duncan agreement. Teachers, police and the staff of the city fire hall are not brought under the Act. Employees of several of the larger municipalities of the Province have expressed their anxiety to come under the benefits of the Act, so that they will be pensioned off when they reach a certain age, but the municipalities have refused to make application claiming that they cannot afford the payments this year. Under the Act the employee pays in from 4 per cent up to 10 per cent, and the employer adds to this an equal amount. The Government bears the cost of administering the funds.

COLUMBIA RIVER FLOOD DAMAGE

Woodland, Wash., May 31.—Flood waters of the Columbia River, which broke through the feet of dikes six miles north of here last night, were spreading to-day after having flooded nearly 500 acres to a depth of 8 to 10 feet. No loss of life was suffered as a warning was given all residents of the flooded area. Damage was chiefly to crops, and was estimated at from \$300,000 to \$500,000.

TWO KILLED.

Montreal, May 31.—Charles Brown and Joseph Kelly, brakemen of Montreal, were killed last night at Ville la Salle, a van of the Canadian Pacific Railway being wrecked when it jumped an unlocked switch.

REVOLUTIONIZED NAVIES; NOW GOES TO SCRAP HEAP

H. M. S. DREADNOUGHT

Less than fifteen years ago the Dreadnought, the mightiest fighting machine afloat, the first warcraft of her type, was the pride of the British Navy. After she had made her appearance in the battleship, she was replaced on a new period of building—the Dreadnought era. But by the time the Great War broke out she had already been outdistanced and other warships, greater than she, were leading the British Navy. And now, according to a report from London, H. M. S. Dreadnought has been sold to a private firm, presumably to be broken up, and the £750,000 which is changing hands is being paid not for her alone, but for her and 110 other warcraft which the Admiralty has decided are too old to be of further use to the navy.

Asserts Victorians Pay Too Much for Telephones

Victoria telephone users having been paying too much for their telephones in comparison with Vancouver rates in the past, and, instead of increased, according to figures which were laid before the Board of Railway Commissioners in Ottawa recently by City Solicitor H. S. Pringle, who made them public here to-day.

Mr. Pringle stated to The Times that he was very well satisfied with the progress made in the fight before the Railway Board against the application of the B. C. Telephone Company for largely increased telephone rates. He is hopeful that the Railway Board will not allow rate increases, as asked by the company, and is confident that the Victoria's case, being different to that of any other city, will receive special consideration.

Presently as a result of the stiff resistance of Victoria and Mainland municipalities against the Telephone Company's demands, the company reduced by \$80,000 the total rate increase asked. Thus, even if the Railway Board grants all the company's present requests, Victoria telephone users will have been saved \$14,658 a year. This saving, the civic authorities believe, will be the direct result of the work done by Mr. Pringle and the legal representatives of Mainland municipalities.

It is hoped, however, that the Railway Board will not allow anything like the company's demands and that a much larger amount will be saved by telephone users.

COAL EMBARGO WAS A FAILURE

British Railway Men Are Hauling Imported Fuel

London, May 31.—(Canadian Associated Press)—Another step toward industrial peace in Great Britain was taken to-day when the locomotive engineers dropped their embargo against transporting imported or what has been known as "tainted" coal in an effort to support the coal miners now on strike. The embargo was a failure.

Meanwhile the voting by districts of the miners' union on the Government's proposal that the dispute be arbitrated is still going on.

A tremendous amount of harm was done in the mining districts where the voting is taking place, according to a statement by Will Thorne in the House of Commons, by the unofficial announcement in the press that the Government had threatened to compel a settlement by arbitration. The threat appears not to have been made. Mr. Lloyd George stated in the House of Commons that the Government had threatened to compel a settlement by arbitration.

The Premier stated that what he did say was this: "If the owners refuse to carry out certain terms the Government will have to consider what steps should be taken."

While a certain amount of damage has been done by the false report of the threat, the denial has cleared the atmosphere and directed attention to the advantages of voluntary arbitration.

Hodges, secretary of the Miners' Federation, openly declared to-day for a voluntary arrangement, "even though it means a deviation from our original purpose. If the owners have an alternative to the miners' proposals," Hodges added, "let them produce them quickly, for the men are not wedded to words of a particular kind."

BRITISH-FRENCH CO-OPERATION IN THE NEAR EAST

Jerusalem, May 31.—Sir Herbert Samuel, High Commissioner of Palestine, is in Beirut to confer with General Gouraud, French High Commissioner of Syria, on the question of co-operation between the British and French in the Near East, said a dispatch received here. "At a dinner given in his honor, Sir Herbert declared it was his desire to form a closer entente with the French in Asian affairs."

Word Awaited.

Halifax, May 31.—Officials here of the Marine and Fisheries Department had been unable up to 10 o'clock this forenoon to establish definitely the fate of the twenty-two members of the crew of the Gloucester fishing schooner Esperanto, which yesterday foundered off Sable Island, although the belief is growing in marine circles in Nova Scotia that they are safe.

Canada Is to Have Society to Assist League of Nations

At Meeting in Ottawa To-night Steps Will Be Taken to Form League Association; Sir Arthur Currie and Others on Committee.

Ottawa, May 31.—The Governor-General is to preside to-night at a meeting to consider the formation of a League of Nations Society in Canada. The objects of such a society would be the providing of information concerning the League, study of international questions as they affect Canada, and fostering of mutual understanding between the nations. The committee in charge consists of General Sir Arthur Currie, G. S. Campbell, Lieut.-Colonel C. W. Peck, V.C., M.P.; Dr. Howard Murray, of Saskatoon; Major Hume Cronyn, M.P.; Hon. H. Beland, M.P.; Sir Robert Falconer, Tom Moore, Senator C. P. Beaubien and Dr. H. M. Torrey, of Edmonton.

LEAGUE TO BIND ANGLO-SAXONDOM

British-American League Is Planned as Banquet Outgrowth

The Returned Professional and Business Men's Association of Victoria is endeavoring to launch a movement for better relations between the United States and the British Empire. To this end there will be a banquet at the Empress Hotel next Monday, which are invited the Governor of Washington, representatives of the American Legion, and a representative of the State of Washington Department of Education.

Hon. Walter Nichol, Lieut.-Governor of British Columbia, and the heads of soldier organizations have been invited.

At the end of the banquet it is intended to form a British American League, which will, it is hoped, extend to all parts of this continent.

It is realized by the returned men who are organizing this affair that the future of the British Empire and nations is interlocked politically and economically. "We are connected by ties of blood, language and free political institutions, all have expressed that tends to drive us apart is criminal. We must bury any childish prejudices which we may have, get rid of our bookishness and enter on an era of good fellowship," said one of the officers of the Association to The Times to-day.

The movement is soon to be launched by the returned soldiers, and is receiving every encouragement and support from all the prominent citizens of Victoria, all have expressed the strongest sentiments of friendship and good fellowship towards our good neighbors and friends the great American people," he remarked.

REHABILITATION OF AUSTRIA PLANNED

League of Nations Committee Has Scheme

London, May 31.—The Finance Committee of the League of Nations which had been sitting here considering what could be done to rehabilitate Austria, has adjourned with the assurance that if other nations will help, the Austrians can be set on their feet again. One essential condition is that the Governments entitled to reparations under the Treaty of St. Germain and the repayment of loans granted for relief purposes should postpone their claims for twenty years and that any fresh loans contracted during the first five years of the term should have priority over these liens. Partial assurances that this will be done have been received already from Great Britain, France, Japan and Czechoslovakia and the committee is awaiting the attitude the United States will assume.

This and other parts of its proposals in the report of the committee, it was explained to-day, must of necessity be couched in general terms. It is impossible to quote definite figures, when no one can determine the value of a paper krona, but stress is laid on the fact that the committee is composed not of politicians but of expert financiers and bankers and they have had before them facts and figures ascertained in Austria from practical bankers. Sir Henry Strachan, of South Africa is chairman, and the members are Jansson, of Belgium; A. Venot, France; Sir Basil Blackett, of the British Treasury; T. Meuler, Holland; Kengo Mori, Japan; and the members are Jansson, of Belgium; Gluckstadt, Czechoslovakia; and Sir Drummond Fraser, Great Britain.

(Concluded on page 14.)

OTHER MORTGAGES HAVE PRECEDENCE

Ottawa Government and the Grand Trunk Railway

Ottawa, May 31.—During the debate on the railway estimates in the House of Commons last night, Lucien Cannon asked the Minister of Railways what position the Government would be in as compared with other creditors of the Grand Trunk Company.

Hon. J. D. Reid, Minister of Railways, said the Government's mortgage would rank last under the proposed new loan.

Referring to the arbitration, S. W. Jacobs asked whether in view of the fact that William H. Taft had been appointed to the Supreme Court of the United States it would be necessary to go through the arbitration proceedings all over again. Dr. Reid replied that he had no reason to believe that Mr. Taft would resign from the board of arbitration.

The work had been done and would not have to be gone over again. He was aware that Mr. Taft was reported to have been appointed to the Supreme Court of the United States but he had no confirmation of the report.

C. P. HILDESLEY DIED.

Oakland, Cal., May 31.—C. Patrick Hildesley, who first played the part of Nanki Poo in the Gilbert and Sullivan opera, "The Mikado," died at his home here to-day.

Vancouver Island News

SHOOTING RAPIDS TOO TAME, HE SAYS

Sir Alfred Yarrow, Noted Shipbuilder, Leads Party Into Cowichan

Cowichan Lake, May 30.—Sir Alfred Yarrow, seventy-nine years of age, head of the great Scottish shipbuilding firm of Yarrow, Ltd., Scotland, who has been holidaying in the Cowichan district for the last three days declined yesterday to shoot the rapids of the Cowichan River because he said it would be too "monotonous."

Sir Alfred and his party including Dr. Leeder arrived at Cowichan Lake in two motor cars from Duncan just before noon. Waiting for them at the Riverside Inn wharf were two Indian dugout canoes with two native rapid runners in each. The members of the party piled into the two canoes and with an extra supply of paddles and steering poles they pushed out from the landing and started down with the rush of the stream.

Takes His Own Trip
"Good-bye, if you don't come back, I'll tell them in London that I saw the last of you here," said Sir Alfred as the animal-headed prows of the canoes got headed down the stream.

When the canoes swept out of sight around the first bend of the river, Sir Alfred again put up the umbrella with which he was shading his bare head from the hot sun, got into a small tugboat, and headed it up the lake for his trip. He went up around Goat Island. Afterwards he returned to his car and made the trip back to Duncan and Victoria.

Big Water Drop
The two canoes reached Duncan late in the afternoon. There were three portages, where the canoes had to be taken out of the river and carried around, at the falls, the canyon and a big log jam.

In a thirty mile run the river between Cowichan Lake and Duncan drops 600 feet. The Indian canoes for the trip down the rapids had to be hauled by wagon from Duncan. The Indians charge \$30 a day for each canoe manned by two river runners. One is usually a young man who is daring and not afraid to take chances, so that the passengers may get a few thrills; the other is an older and experienced man whose duty it is to hold back the venturesome young brave so that there will be no casualty list of canoes or passengers.

Setting Up New Records
J. W. Fisher and his brother C. W. Fisher of England who are holidaying around Victoria arrived at Dad James's this morning for a week's fishing. Jesse James, the well known logging contractor, has now got his ninety-horsepower launch on the lake. She is a roomy craft and can kick out quite a speed. Mr. James expects to shatter all the lake launch records just as he has broken every road record between Victoria and Cowichan Lake in his big eight-cylinder motor car.

NEW VICAR WAS GIVEN A WELCOME AT SHAWNIGAN

Shawnigan Lake—A reception was held in the S. L. A. A. Hall, Shawnigan, the purpose being to extend a hearty welcome to Rev. A. L. Nixon, the newly appointed vicar of All Saints' Church. It proved a very pleasing function and was largely attended.

A portion of the evening was given over to the ladies, who provided an excellent concert. Mrs. Bastian and Mrs. Worledge contributing several vocal numbers in very fine voice and Miss Belle Clark played several pieces on the piano. During the evening C. W. Lonsdale, the vicar's warden, spoke, welcoming the new vicar, and also paying a fine tribute to Rev. E. S. Hunt, who had officiated at the church voluntarily during the period the church was without a vicar. He also complimented the members for the excellent financial standing.

Miss A. Clark, the people's warden, spoke briefly, urging an earnest forward movement.

Rev. A. L. Nixon, replying, stated he had come to British Columbia to spy out the land, having heard so many favorable accounts while in England, and he felt sure he would not regret the step he had taken. During the war he had acted as a chaplain to the Imperial forces and had every reason to feel proud of the part the Canadians had taken in the struggle.

A Sunday School is to be started in the church at once and a comprehensive programme of Anglican work planned. Rev. A. L. Nixon announced the Bishop would hold a memorial service on June 2, at 7 p. m., when the memorial lectern would be unveiled.

The ladies of the church had decorated the hall very tastefully and after the reception was over served refreshments.

Picnic

The masters and scholars of C. W. Lonsdale's preparatory school held their annual picnic, proceeding down the lake in a flotilla of boats and landing on one of the islands, where they spent a most enjoyable day. Amongst other sports a one class sailing race was held. The scholars are particularly clever in the manipulation of sails and a keen contest resulted.

Mr. Lonsdale's school has grown to very large proportions and he is contemplating the addition of a senior course to his establishment.

Bridges

A party of government bridge builders have gone to the Kokishah River to finish the construction of the bridge on the site known as the Burnt bridge. It is also intended to construct a bridge at Wolf Creek, thus giving a means of access to the Silver Mine and also to the Jordan Meadows.

If the present road on the north side of the West Arm of the lake was linked up with the Silver Mine Trail where it crosses the C. N. R. grade, a matter of about a mile and a half, the road to the mine would be shortened four miles and Shawnigan would be the natural outlet.

Improvements
D. R. Harris is staying at his place on the west side of the lake and is making considerable improvement to it.

Mason Hurley is making very extensive improvements on his recently acquired property on the West Arm. A gang of men are busy giving the place a park-like appearance. Mr. Hurley recently arrived from Hong Kong, where he was engaged in business, and considers Shawnigan Lake one of the most lovely places on the Island.

E. Matthews has taken the Shawnigan home of the late Lieutenant-Governor, Col. E. G. Prior, for the Summer and will move in with his family June 1.

Moose Matters

Ladysmith—The Loyal Order of Moose Lodge, No. 1459 added a class of over seventy to its membership, bringing its total up to practically the 200 mark Saturday evening. A big frolic of the Maple Legion is to take place on Saturday, the 25th of June at Ladysmith. The work of initiation will be put on by the Maple Leaf Legion Degree Team, accompanied by their two famous bands. A large number of candidates are also expected from the coast lodges to go through at the same time.

St. John Ambulance

Nanaimo—The results of the examinations recently held under the auspices of the Nanaimo Centre of the St. John Ambulance Association are announced as follows: Candidates of Canadian Western Fuel Co.'s employees, First Aid and Mine Rescue Association—For label (fourth examination), C. J. Tyler, J. A. Challoner, D. Stobart, R. Shield, G. Banasaky, For medallion (third examination), F. Nash, F. Cope, S. E. Norris. For voucher (second examination), C. Nicholas, D. R. Simpson, W. Thorpe, T. Carnely. For certificates (first examination), J. McKay, A. R. Wilson, John Scott, J. D. Miller, J. Sutherland, T. Rutherford, R. R. Smart, A. H. Cottle, I. Cottle, Jos. Taylor, J. A. Thomson, T. W. Simpson, T. H. Pearson, Jr., T. Rothery, J. Carnely. Junior certificates, F. Gard, C. Wharton, Geo. Cottle. The class instructors were Dr. O. G. Ingham and Dr. W. E. Wilks, while the examinations were conducted by Dr. T. J. McPhee and Mr. Wm. Fulton, honorary secretary, Nanaimo Centre St. John Ambulance Association. A. R. Wilson also assisting in supervising.

The local supervising Nanaimo Centre has also just received the examiners' report for the First Aid examinations conducted at Lantzville for the Nanaimo Wellington Collieries employees' class. The following were the successful candidates: For label (fourth examination and up), J. W. Jensen, For voucher (second examination), F. Hindmarsh, For certificates (first examination), N. B. Roy, J. E. Hymen, C. N. Bywell, J. T. Hillyer, S. Jensen, W. Cass, J. Hiquelbran, G. T. McIntosh, H. Hillyer, M. Stogor, Jos. Neen, T. Russell. The Lantzville class was instructed by Dr. T. J. McPhee and Superintendent J. W. Jensen, examinations being conducted by Dr. P. J. Emmerson, South Wellington, assisted by C. J. Tyler for St. John Ambulance Association.

Nanaimo—The death occurred shortly after eleven o'clock Saturday at the family residence, Fifth Street, near the Cricket Grounds, of Mary Thomson Laird, wife of Mr. Robert Laird, and daughter to Mr. and Mrs. Andrew Thomson, Hecate Street, this city.

Mrs. Laird, who had been ill less than a month, was a native of Stirlingshire, Scotland, aged 41 years, and had resided in Nanaimo for the past fifteen years. Besides her husband and parents she is survived by three daughters: Mrs. Farrell, Five Acres, and the Misses May and Pearl at home, and one son, David. She is also survived by three sisters: Mrs. Ransom, Calgary; Mrs. Roberts, Stirlingshire, Scotland, and Mrs. Leckie, Nanaimo; and one brother, William Thomson, Vancouver.

Nanaimo—At the annual meeting of the local W. C. T. U. the following officers were elected for the coming year: President, Mrs. M. L. Irvine; Vice-President, Mrs. Thomson; Corresponding Secretary, Mrs. M. A. Jensen; Treasurer, Mrs. Bood.

Fourteen new members were added. Delegates to the Convention which will be held in Victoria next month are Mrs. Riley, Mrs. Thompson, Mrs. Vipond, Mrs. Bell, Mrs. Cook, Mrs. Bradford, Mrs. Dunsmore. Alternates are Mrs. Rogers, Mrs. Garman, Mrs. Bryant and Mrs. Pearson.

TWO MAY DIE AS RESULT OF SMASH

Edinburgh, Ind., May 31.—Between fifty and sixty persons were injured two probably fatally and several seriously, last night, when a Pennsylvania freight train crashed into a fast Indianapolis, Columbus and Southern traction car.

making considerable improvement to it. Mason Hurley is making very extensive improvements on his recently acquired property on the West Arm. A gang of men are busy giving the place a park-like appearance. Mr. Hurley recently arrived from Hong Kong, where he was engaged in business, and considers Shawnigan Lake one of the most lovely places on the Island.

E. Matthews has taken the Shawnigan home of the late Lieutenant-Governor, Col. E. G. Prior, for the Summer and will move in with his family June 1.

Moose Matters

Ladysmith—The Loyal Order of Moose Lodge, No. 1459 added a class of over seventy to its membership, bringing its total up to practically the 200 mark Saturday evening. A big frolic of the Maple Legion is to take place on Saturday, the 25th of June at Ladysmith. The work of initiation will be put on by the Maple Leaf Legion Degree Team, accompanied by their two famous bands. A large number of candidates are also expected from the coast lodges to go through at the same time.

St. John Ambulance

Nanaimo—The results of the examinations recently held under the auspices of the Nanaimo Centre of the St. John Ambulance Association are announced as follows: Candidates of Canadian Western Fuel Co.'s employees, First Aid and Mine Rescue Association—For label (fourth examination), C. J. Tyler, J. A. Challoner, D. Stobart, R. Shield, G. Banasaky, For medallion (third examination), F. Nash, F. Cope, S. E. Norris. For voucher (second examination), C. Nicholas, D. R. Simpson, W. Thorpe, T. Carnely. For certificates (first examination), J. McKay, A. R. Wilson, John Scott, J. D. Miller, J. Sutherland, T. Rutherford, R. R. Smart, A. H. Cottle, I. Cottle, Jos. Taylor, J. A. Thomson, T. W. Simpson, T. H. Pearson, Jr., T. Rothery, J. Carnely. Junior certificates, F. Gard, C. Wharton, Geo. Cottle. The class instructors were Dr. O. G. Ingham and Dr. W. E. Wilks, while the examinations were conducted by Dr. T. J. McPhee and Mr. Wm. Fulton, honorary secretary, Nanaimo Centre St. John Ambulance Association. A. R. Wilson also assisting in supervising.

The local supervising Nanaimo Centre has also just received the examiners' report for the First Aid examinations conducted at Lantzville for the Nanaimo Wellington Collieries employees' class. The following were the successful candidates: For label (fourth examination and up), J. W. Jensen, For voucher (second examination), F. Hindmarsh, For certificates (first examination), N. B. Roy, J. E. Hymen, C. N. Bywell, J. T. Hillyer, S. Jensen, W. Cass, J. Hiquelbran, G. T. McIntosh, H. Hillyer, M. Stogor, Jos. Neen, T. Russell. The Lantzville class was instructed by Dr. T. J. McPhee and Superintendent J. W. Jensen, examinations being conducted by Dr. P. J. Emmerson, South Wellington, assisted by C. J. Tyler for St. John Ambulance Association.

Nanaimo—The death occurred shortly after eleven o'clock Saturday at the family residence, Fifth Street, near the Cricket Grounds, of Mary Thomson Laird, wife of Mr. Robert Laird, and daughter to Mr. and Mrs. Andrew Thomson, Hecate Street, this city.

Mrs. Laird, who had been ill less than a month, was a native of Stirlingshire, Scotland, aged 41 years, and had resided in Nanaimo for the past fifteen years. Besides her husband and parents she is survived by three daughters: Mrs. Farrell, Five Acres, and the Misses May and Pearl at home, and one son, David. She is also survived by three sisters: Mrs. Ransom, Calgary; Mrs. Roberts, Stirlingshire, Scotland, and Mrs. Leckie, Nanaimo; and one brother, William Thomson, Vancouver.

Nanaimo—At the annual meeting of the local W. C. T. U. the following officers were elected for the coming year: President, Mrs. M. L. Irvine; Vice-President, Mrs. Thomson; Corresponding Secretary, Mrs. M. A. Jensen; Treasurer, Mrs. Bood.

In their thousands, men are turning to this new razor of precision

PATENTED: CANADA, AUGUST 31st, 1920

The New Improved Gillette Safety Razor

Uses the same fine Gillette Blades as you have known for years—but now your blades can give you all the luxury of the finest shaving edge in the world. Identify the New Improved Gillette by its Fulcrum Shoulder, Overhanging Cap, Channelled Guard, Micrometric Precision, Automatic Adjustment, Diamond Embrled Handle, Diamond Trademark on Guard. Finer Shave—Longer Service. More Shaves from your Blades. In SILVER and GOLD. Shaving Sets and Traveler Outfits \$5 to \$75

Alexander Graham Bell, the great Canadian inventor, will always be given the credit for the telephone. Bell's work superseded the efforts of Page, whose research was advanced in 1837; Bourseul in 1854; and Reis about 1860. In 1878 Bell's transmitter was itself superseded by Hunning's "granular carbon transmitter"; since perfected by A. C. White, whose "solid back transmitter" has practically displaced all earlier forms.

MOST inventions develop slowly. Here a little detail. There another—and so on, until you can hardly tell when the perfected device finally took shape.

Here in the New Improved Gillette is one of the startling exceptions.

At one stroke—micrometric precision, exact to 1/1000 inch, and these three fundamental discoveries, the Fulcrum Shoulder, Overhanging Cap and Channelled Guard.

The result of the unequalled Gillette experience and resources, developed by nearly 20 years' service to the shaving needs of every civilized people on the surface of the globe.

Even measured against your old-type Gillette, the New Improved Gillette Safety Razor represents an advance of 75% in shaving comfort and efficiency.

To the man who has never used an old-type Gillette, we say this:

Compare the new Improved Gillette with any shaving method or device you know now.

It opens up an entirely new era in shaving—the era of precision, of exact and predictable results.

It is worth any man's money—no matter how attached he may be to his old-fashioned razor or old-type Gillette.

NOTE.—The Gillette Company assumes responsibility for the service of Gillette Blades when used in any GENUINE Gillette Razor—either old-type or New Improved Gillette. But with IMITATIONS of the genuine Gillette, it cannot take responsibility for service of Blades.

The New Improved Gillette SAFETY RAZOR

Gillette Safety Razor Co. of Canada, Limited - Montreal, Canada

The WEATHER

Daily Bulletin Prepared by the Victoria Meteorological Department

Victoria, May 31.—5 a. m.—The barometer has fallen over the Pacific Slope and fine, warm weather is general. Fine and warmer weather also prevails in the prairies.

Reports.—

Victoria—Barometer, 29.83; temperature, maximum yesterday, 72; minimum, 48; wind, 6 miles S.; weather, clear.

Vancouver—Barometer, 29.83; temperature, maximum yesterday, 76; minimum, 58; wind, calm; weather, clear.

Kamloops—Barometer, 29.86; temperature, maximum yesterday, 80; minimum, 46; wind, calm; weather, fair.

Prince Rupert—Barometer, 30.08; temperature, maximum yesterday, 50; minimum, 42; wind, calm; weather, cloudy.

ENLARGING COUNCIL OF TERRITORIES

Ottawa, May 31.—Two Government bills were given third reading in the House yesterday. The first was the bill to amend the Dominion Lands Act, which was read a third time without discussion. The other was the bill to amend the Northwest Territories Act. The Prime Minister explained that the purpose of this bill was to increase the membership of the Council which administers the Northwest Territories from four to six. With this explanation the measure was given second reading, put through committee and given third reading without debate.

UNFAIR CRITICISM

If Colonel Flick had confined himself to the subject matter of Sunday afternoon's meeting he would have remained within the realms of a public question about which he should know as much as anybody else. But when he strayed into a general condemnation of the Provincial Government's attitude towards the returned soldier he soon lost his footing and got completely out of his depth.

REFORM IN INDIA

When Mr. Rustom Rustomjee addressed the Chicago Chamber of Commerce the other day he informed its members that British rule had been a great blessing to the masses of India. The fact is an obvious one to all those who have taken the trouble to study the gradual progress which India has made under its influence.

ment. Whether racial inclination or inherited capacity for self-government will be such as to warrant an extension of the principle at an early or distant date remains to be seen. None the less the Act as it stands is designed to meet the supposed demand and it should justify its inauguration. It does not satisfy the extremists who follow the Ghandi programme which already has been described by one of the non-Brahmin leaders as "the stepping stones to the well of eternal damnation."

THE COST OF PEACE

If there were any scarcity of arguments in support of a limitation of armaments the average individual might ask himself why he should continue to provide the funds for building battleships when no less than one hundred and eleven obsolete craft—including the pride of the British navy fifteen years ago—could be sold for three-quarters of a million pounds. All he has to do to appreciate the enormous wastage in "defence" of the peace, for which he craves is to reckon that the amount realized for these one hundred and eleven vessels would be sufficient only to defray the cost of about one-fifth of a modern battle cruiser. In other words the cost of preventing nations from springing at each other's throats to-day is about ten times as much as it was before the great menace to the peace of the world was removed by a five years' war.

BRITISH EMPIRE CLUBS

After his examination of Great Britain in war time one celebrated American novelist described her as the poorest advertiser in the world. British statesmen discovered the fact before the great conflict came to an end and did all that was possible to correct many wrong impressions that had been created by the propagandist systems of the Central Powers. It was even necessary to publish facts and figures for American consumption. Similarity of tongue and custom constituted no barrier to prejudice. Anti-British busy-bodies had carried out their missions so completely and thoroughly. In the light of these discoveries, and because of the fact that public sentiment throughout the world has begun to demand a closer intimacy with the business of nations than was possible under the antiquated usages of diplomacy, there is much to commend the proposal which has for its object the organization of communities of British Empire citizens in foreign countries.

THE ESMONDE FARCE

After the expenditure of a fairly reasonable sum of public money, Mr. Osmond Thomas Gratton Esmonde has been found guilty of using seditious language in the City of Vancouver on or about the first day of April of the present year. As a result of the legal proceedings in point this young and wealthy bemedocled gentleman with a Sinn Fein bee in his bonnet has been ordered to remove himself to the other side of the Atlantic as fast as train and boat service will permit. In other words the Canadian people have found the money to provide an open and harmless enemy of Great Britain with just the sort of publicity for which he was looking when he sought to land here homeward bound from Australia. As we pointed out at the outset this young man should have been told politely and firmly that his presence in this country would be tolerated only as long as he would require for his journey from Vancouver to the Atlantic seaboard. His mission was known long before the trans-Pacific liner reached these waters and the necessary arrangements could have been made for his unceremonious translation Eastwards. As it is he has accomplished his object and the people of this country have footed the bill for a legal performance which should not

LETTERS

Letters addressed to the Editor and intended to be published should be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publisher's selection is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for letters to the Editor.

WELSH SOCIETY

To the Editor—Would you kindly allow me, through the medium of your paper, to call the attention of the Welsh residents of Victoria and vicinity to the rules of the Society re membership? Rule 4 of our constitution reads thus: "The membership is limited to those of Welsh descent and all those born in Wales, who have resided in the Principality for not less than five years; also wives of Welshmen and husbands of Welshwomen."

NOTE AND COMMENT

When Mr. O. T. G. Esmonde reaches the other side of the Atlantic he will be swallowed up among people who are a great deal more important than he may ever expect to be.

Once again the Turks have offended Great Britain. But this is only a case of history continuing to repeat itself. If Turkey does not behave at once there will be another of those wrist-smacking naval demonstrations to which the wily one became so accustomed during the latter half of the last century.

LLOYD GEORGE AND BRIAND DIFFER (Continued from page 1.) that this was the plan. An Italian officer remarked: "It is high time they let us loose on these fellows."

Commission. Paris, May 31.—Before the meeting of the Allied Supreme Council to settle the partitioning of Upper Silesia, the French Government is devoting itself to a study of all the elements of the problem in the most complete possible manner. For this purpose it has created a commission at the Foreign Office to centralize all the information received and prepare a project which will serve as a basis for discussion.

Compromise. Between these two plans there is evidently a wide difference. The French Government nevertheless is convinced that it is possible and desirable with mutual good will to reach a compromise solution. Between two opposing solutions a compromise is never impossible and the peace conference was called upon to solve problems quite as difficult and quite as complicated as this one, if not more.

IN Constantinople years ago they appreciated the importance of good coffee. But now, good coffee is universally known and recognized.

SEAL BRAND COFFEE grows side by side with the coffee for European use, and the teachings of Turkey, combined with modern and sanitary methods, give us a coffee rich in fragrance and flavor—a delicacy amongst the drinks of the world.

Sold in 1/2, 1 and 2 lb. tins. Whole ground or fine ground for Tricolator and percolator use. CHASE & SANBORN, Montreal, Que.

so. The principal ideas by which the French will be inspired during the coming negotiations are as follows: First, a most essential point is the matter of leaving a few Poles as possible under German domination. The chief difficulty in this comes from the opposition between country and town. The former gave in most of the contested territory a Polish majority, whereas in the latter the majority distinctly was for the Germans for the simple reason that the greatest effort at Germanization had been exerted in the urban agglomerations. It is quite clear that from these conditions, whatever may be the decision, there are bound to be some people dissatisfied. It is essential that these should be in number as few as possible.

Never Complete. After all a plebiscite, like an election, is never a perfectly just solution. When the frontiers of Czechoslovakia and Rumania and Yugoslavia had to be traced a precisely similar difficulty was encountered. The rural populations were Polish, Rumanian or Serb while the urban populations were almost exclusively Magyar. This in no way prevented the makers of the treaty from assigning a number of towns to the Czechs, Rumanians or Serbs. Why should the Poles, who are and remain allies of the Entente Powers, be treated differently from them? The French Government, it is felt, should not be. It feels that if there is doubt it is the Poles who should get the benefit of it and not the Germans. That is the attitude France is preparing to support and to have adopted.

Careful Preparation. This solution—and this is a point to which the French Government clings most stubbornly—cannot be improvised. It must, on the contrary, be carefully prepared by precise and detailed work. The French declare that it is only when this work has been fully completed that the Supreme Council can meet to advantage.

Will Disarm. Oberglogau, Upper Silesia, May 31.—German defence organizations in this city and in other towns west of the Oder River will disarm and hand over arms to the Allied authorities has been re-established in Upper Silesia, said General von Hofer, commander of German guards in this city, yesterday. He added that the Allies should be thankful that the Germans had "organized these men and had maintained order, instead of trying to disarm and disband the defence troops at this critical time." "We do not want to keep these men under arms a minute longer than necessary," he went on, "but we must protect ourselves."

TWENTY-FIVE YEARS AGO TO-DAY (Victoria Times, May 31, 1926)

The Opposition candidates, Messrs. Templeman and Milne, will address meetings of the electors of Victoria Electoral District at Colquhoun Hall on Thursday, June 4. Baseball: Out of three games played at Seattle, Victoria has won two. The remains of ten of the victims of the bridge disaster were to-day interred in Ross Bay Cemetery. Large numbers congregated at the different churches, where solemn services were held.

COAL EMBARGO WAS A FAILURE (Continued from page 1.) At Glasgow London, May 31.—Importation of Canadian coal seems to be a somewhat important factor in meeting the situation caused by the coal miners' strike in Great Britain. Last week a dispatch to The Times, dealing with the receipts of foreign coal, emphasized the fact that nearly all the vessels arriving at Glasgow with coal cargoes were Canadian. The purchase of coal from Canada has since been made the subject of lively debate among the members of the Glasgow City Council. Heated protests were made against its purchase by the Gas Committee and the meeting finally broke up in an uproar. Labor members of the Council said

that the members of the committee had made themselves the tools of an unscrupulous Government and had purchased the coal from Canada to aid in securing the defeat of the striking miners. It was incidentally mentioned that the shipments had taken eighteen days to arrive from the Dominion. The result of the discussion was approval of the committee's action in buying the Canadian coal for its gas works.

EASY EXPLANATION "I say, Stalker," he said, "you remember you told me you had hunted tigers in West Africa? Well, Captain Smith, tells me there are no tigers there." "Quite right, quite right," said Stalker, blandly. "I killed them all." —London Opinion.

FLEET FOOT to Business IF you ask a man why he wears FLEET FOOT shoes to business, nine times out of ten he says, "because they are so comfortable." FLEET FOOT shoes are comfortable. The fine rubber soles and heels take up the jar of walking. The canvas uppers are light, cool and easy on the feet. The shapes are designed by experts who know how to put good style into shoes that fit the feet snugly, yet are light and flexible. Most men wear FLEET FOOT right through the summer. They have several pairs. Sensible oxfords for business—sport models for bowling, golf or tennis—a smart pump for evening wear—and perhaps heavy FLEET FOOT shoes for gardening or working around the house. FLEET FOOT are so economical that you can have two or three pairs for the price of one pair of leather shoes. Wear them this summer—put the whole family in FLEET FOOT. The name in the style of lettering shown above, is stamped on every genuine FLEET FOOT Shoe—look for it. FLEET FOOT shoes are sold by the leading shoe dealers everywhere. DOMINION RUBBER

LACK OF SCOW RETARDS PROGRESS

Johnson Street Bridge Work Waits Convenience of Vancouver

Mildly regretful that Vancouver had forestalled Victoria once again, City Engineer F. N. Preston this morning remarked that more speedy progress with excavations within the Johnson Street Bridge caissons would not be possible until the city was able to get the use of at least one of the few dump scows existing in British Columbia waters.

"Vancouver has them all in use on the improvement of her harbor, and there is little likelihood of our being able to get one for some time," he remarked.

Mr. Preston explained that the soft-

A GAMBLE IN BEAUTY

By NANCIBELLE MALE
ONE LOVE STORY YOU NEVER CAN FORGET.

The Romances of Two Sisters, Both Beautiful, One Demure, the Other Vampish—With Thrills in Every Chapter and an Unexpected Denouement.

Why, Varia, what are you sitting here like this in the dark for?

It was John's voice, and as he toddled the room with light, he looked down at her curiously.

She shielded her eyes from the searching rays, and tried to answer. But she could not tell him what had happened.

"Dinner will be ready in a few minutes," she said, rising uncertainly, and looking across at him.

She escaped into her own room and looked at her white face; it stared back at her, showing her trouble so plainly that she colored both cheeks with a touch of rouge.

When they were seated across from each other a few minutes later, Varia felt her heart thumping with curious loud knocks.

Between them was only a length of gleaming mahogany. Two candles in their silver holders sprayed yellow flowers of light into the dimness, the Chinese bowl of daffodils that centred the table did not hide John's face from her.

"She felt her breath catch as she looked up and caught his eyes searching her face again. How dark his eyes were! If she could only know what he was thinking, she heard herself saying, 'Are you going to the next Yale game?'"

"I'd like to run up to New Haven; Cathy said he might go in his few car."

"What kind of a car is it?" she asked with pretended interest, while she wondered if his eyes meant that he was beginning to be interested in her, actually came to hear what she said.

Sally Lou brought on the steak and Varia watched John as he handled the carving knife so deftly. How strong his hands were, and those smooth oval nails! She had never noticed before what fine hands he had.

"A small piece, Varia?"

"Oh—yes," she answered, catching herself back.

He lingered over his demi-tasse and again she felt his eyes on her face and she wondered if he could hear the heart-beats that seemed to echo through the silence.

The sharp insistent bell of the telephone startled them both. John roused himself as though he had been deep in a reverie and Varia heard his voice as he answered:

"Yes. No, this evening—You want me right away? Very well!" she heard the click of the receiver as he hung it back on the hook and he came back into the dining room.

"I may not be home until late. Will you want anything?"

"No," she answered, not meeting his eyes.

Of course he had the right to spend the evening where he chose. They were only friends—and yet this evening she had hoped—

"Good night!" he called.

As Varia responded, she blew out

the candles and went into the living room. She was alone again. The emotions that she had kept so well under control got the better of her now and she flung herself down on the couch and felt the relief of tears.

She sobbed on and on in the stillness, with a separate sense of heart-break. It must have been Nina who had telephoned; no one else could have made him leave at a moment's notice.

Pushing back her damp hair she propped herself on her elbows and heard Sally Lou's voice saying, "Yes, sir, right that way!"

"Oh, here we are!" Adam cried advancing into the room, and seeing only Varia against the pillows.

As she gave him her hand she tried to smile.

"It's a habit you see, Adam. I do nothing else but cry lately!" she said as though it were all a joke.

But her face pitifully strained with tears and her lips that tried to smile in the white little face touched Adam Phillips deeply.

"What's all this?" he said gruffly putting down his hat and stuck and coming over to the girl.

"It's just that I'm a foolish cry-baby," she answered.

"Oh, no, you're not," he replied in that same gruff voice that hid his feeling. "I remember the time that you sprained your ankle there was never a tear out of you. It must be pretty bad if you cry over it, Varia."

"Don't sympathize with me!" she begged, trying to smile. "You know that's not the way to—treat me."

He bent a keen look on her face and then he said in a deep voice:

"Then's John."

"Why, he just—just went out."

"Look here, Varia, you've played this game long enough with me. Is John acting like a scoundrel? Tell me the truth!" he demanded.

"Oh, no, John's wonderful; if any one's to blame it's only I."

"What does he leave you alone like this, then?" he demanded.

"Can't one's husband—Varia looked at Adam, his kind face watching her with a troubled frown between the brows. She could see he could not go on. The handkerchief that she had rolled into a wet ball she squeezed tight together and spoke in a soft, frightened whisper: "Adam, dear, it's all my fault; I should never have married him!"

"You couldn't hide it from me," Adam said fiercely.

"But it isn't that; it isn't what you think! I made John marry me in a way I ought to have known that he couldn't care for me the way he had for—"

"Nina?"

"Sure Nina!" he stood up and began to stride about the room. "I'm going now before I do something I'll

NEWS AND NOTES OF THE MINES

Bullion Mine

With the refusal on Friday of Mr. Justice Gregory to grant an injunction restraining W. C. Daniels and associates working the property of the Bullion Mining Company at Bullion, B. C., plans were revealed which provide for the extensive development of this historical placer property.

Much Gold There

The present valuation of the mine is \$130,000, but potentially, its promoters say, gold yet undiscovered there will exceed \$1,000,000. At the present time a 500-foot tunnel is being driven through solid rock to facilitate placer mining operations. Flumes and ditches which have been permitted to get into disrepair, are receiving the attention of carpenters and a gang of diggers. The mine's owners expect to make a clean-up this fall.—Vancouver Province.

Queensland Mining in 1920.

The report of the Under Secretary for Mines, Queensland, giving an exhaustive resume of the mining industry of the State for last year, shows that the total value of the mineral output for 1920 was £2,455,214, which was £290,187 more than that for the preceding year—a result achieved in face of a further fall in the yield of gold and in spite of the fact that the mining of wolfram, molybdenite, and bismuth had practically ceased in Queensland since the removal in March last year of Commonwealth Government control over these metals. Thanks to high prices ruling in the early part of the year for other metals, the total increase in miner-

were in the manufacturing group, chiefly iron and steel, textiles, lumber, leather and rubber.

In This Province

The upward trend in British Columbia continued at much the same moderate rate as that of the previous week. Logging and lumber showed parallel increases. Minor gains in pulp and paper were slightly more than offset by losses in iron and steel. Minor losses were recorded in petroleum, and small gains in lead-silver-zinc mining. The seasonal expansion in fish canning and packing was not continued; on the contrary there was a very slight contraction in this industry. Similar contractions occurred in petroleum products and coal mining. The large single gain was that in water transportation, while railway maintenance and construction also showed additions to staffs, although small.

Famous Mine

The Bullion mine is one of the famous Cariboo placer claims. At one time it was owned by Lord Shaugnessy and Canadian Pacific Railway interests, when it was managed by John Hays Hammond, well-known mining engineer. Later it was sold to the Guggenheims who are reputed to have spent more than \$2,500,000 in machinery and development work on the property. One summer, alone about \$60,000 in gold was extracted from the claims. Eventually the "pay dirt" petered out and about thirteen years ago, following acquisition of extensive properties in the Yukon, the Guggenheims sold out for \$40,000 to R. T. Ward and associates. Then ensued litigation between these and the Hopp interests, who, it was charged, jumped the claim. Mr. Ward and his partners won out in the Privy Council.

NEARLY CRAZY WITH ECZEMA

No rest day or night for those who are afflicted with that terrible skin disease, eczema, or as it is often called, salt rheum.

With its unbearable burning, itching and torturing relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers; no remedy that has done, or can do more for those who are almost driven to distraction with the terrible torture.

Apply it externally and it takes out the stinging, itching and burning, and promotes a healthy healing.

Take it internally and it gets at the source of the disease in the blood—drives it out of the system.

Miss L. M. Boudreau, 29 Victoria Road, Halifax, N. S., writes: "I have suffered for years from eczema. I could not rest day or night. I suffered great agony, and was nearly crazy with the itching and burning. I used all kinds of salves, but nothing seemed to help me. I saw Burdock Blood Bitters advertised, and was advised to try a bottle. I found great relief, and I really cannot recommend it highly enough for what it has done for me."

Burdock Blood Bitters has been on the market for over forty years, and during that time has been manufactured only by The J. C. Ayer & Co. Limited, Toronto, Ont.

Douglas St. at Broughton (New Otto Weiler Building)

THREE LINERS ARE INBOUND FROM ORIENT

Manila Maru, Suwa Maru and
Empress of Japan Shortly
Due Here

With one hundred and thirty passengers aboard, the Osaka Shosen Kaisha liner Manila Maru is inbound from Yokohama and will arrive here June 6, it was announced this morning by Rithet Consolidated, Ltd., agents for the Japanese line. She has a fair Oriental cargo for British Columbia and Puget Sound ports. Of the total passengers on the ship, there are thirteen cabin and fifty-

four steerage for Seattle and sixty-two steerage for Victoria.
The Manila Maru is being followed across the Pacific by the Nippon Yusen Kaisha liner Suwa Maru, which is scheduled to make port June 9. No word has yet been received of the passengers or freight carried by the Suwa, but it is expected that she will be a comparatively full ship.
The Canadian Pacific Ocean Services liner Empress of Japan is due here from Hongkong and Yokohama June 7. The Empress of Japan has a good saloon list and over 2,000 tons of general cargo.

WENATCHEE WILL BE LAID UP FOR REPAIR ON RETURN

Shipping Board Liner Will Be
Out of Commission for
a Month

On her return to this coast from the Orient the United States Shipping Board liner Wenatchee, allocated to the Pacific Steamship Company, will be laid up at Seattle for a month to undergo alterations and improvements. Since new oil pumps were installed at Yokohama, after the vessel's breakdown while nearing Japan on her maiden voyage, the ship has been running steadily.

The Wenatchee was scheduled to sail from Seattle and Victoria June 13 on her second voyage to the Orient. This sailing will be taken by the Keystone State, which will be followed by the Silver State, sailing from Seattle July 3. The Keystone State and the Silver State are shortly due to arrive on this coast from New York.
These vessels were delayed in delivery in order that improvements ordered by the Shipping Board could be made before they were dispatched from the builder's yards.

STEAMER BELFLOWER HAD HEATED BUNKERS

The British freighter Belflower passed out at 10 o'clock this morning from Union Bay for the Orient. Bunker coal of the Pocohontas variety, shipped at Balboa, became heated on the voyage up the coast, and it was found necessary to sift the coal before the vessel could proceed on her voyage across the Pacific.

U.S. Shipping Board to Sell Surplus Tonnage

Washington, May 31.—Plans to offer the surplus Government-owned merchant marine tonnage to foreign buyers have been made by the United States Shipping Board, subject to the approval of the new Board.
Tentative plans for paring down

the Government's merchant fleet through sale of surplus tonnage, contemplate disposal of the wooden ships, the slower moving type of vessels of 5,000 and 6,000 deadweight tons and less and larger coal burning craft, including some of the former German vessels.

STEADY DEMAND FOR EXCURSION SPACE ON PRINCE GEORGE

Limited Reservations Can Be
Made at Canadian National
Offices Here

The demand for accommodation on the steamship Prince George for the Vancouver Board of Trade business men's excursion to the British Columbia coast, most gratifying to the organizers of the excursion and from the present indications the available space on the steamship will be fully booked by the date scheduled for sailing. The Victoria Chamber of Commerce is actively boosting for the excursion and this city promises to have strong representation aboard when the steamship Prince George steams away on June 7 for the scenic Northland.
Although the water excursion is being made under the auspices of the Board of Trade of British Columbia, it is not actually confined to members and their families. Anyone wishing to make the cruise can do so by making early application to the Canadian National Railway offices. Charles F. Earle, district passenger agent, Canadian National Railways, announced this morning that he has space allotted to him for the excursion on the Prince George, limited to 300 persons, and the bulk of the space is being disposed of at Vancouver.

S.S. BUCKEYE STATE DAMAGED BY FIRE

Blaze, Which Broke Out at
Baltimore, Confined to
Boiler Room

Baltimore, Md., May 31.—The passenger and freight steamer Buckeye State, one of the large liners plying between Baltimore, San Francisco and Pacific ports, caught fire shortly after five o'clock while tied up at a Baltimore & Ohio railroad pier. The steamship is one of the Shipping Board vessels affected by the recent strike. The blaze was confined to the boiler room where oil waste was ignited by sparks, according to reports.

"LISTER'S ARMY" GAVE SERVICE ON LINER AQUITANIA

Passengers Dispatched Wire-
less Appreciation of Volun-
teer Workers

New York, May 27.—Approx of the steamer Aquitania, the following radio was received from C. E. Cotterell, assistant manager of the Cunard Line, senior among the office staff who volunteered to "take" the stewards' places and thus effected the keeping of the Aquitania scheduled sailing from Southampton. The radio was sent from mid-ocean:
"Service first, second, third class now excellent. Hotel proprietors Harris, Ritz, Carlton, London, Sweeney, Commodore, etc., New York, say practically impossible to detect any difference from normal voyage. Passengers enjoyed excellent full course dinner, splendidly served, and are now dancing in long Ballroom. Weather good. Those who came on board expecting chaos are agreeably surprised. (Sgd.) Cotterell."

Upon the arrival of the Aquitania at Southampton on the afternoon of May 13, the regular stewards went on strike. An attempt to hold the ship up failed, owing to the zeal and loyalty of 600 volunteers from the staffs of the company's offices in Liverpool, London, Cardiff, Bristol, etc., who were substituted for the regular stewards. The volunteers included Director Sir Percy E. Bates, Bart., C.B.E., who assumed the duties of the lounge steward; Manager J. Lester, who took charge of the smoking room, and Assistant Manager C. E. Cotterell, who became the library steward.

As the new force gathered in Southampton, the English weakness for giving a new and comprehensive name to everything came over them, and they dubbed themselves "Lister's Army." Like soldiers they went to work at the herculean task of getting aboard stores for the 1,750 passengers and the crew of 350. They also buckled down to the labor of cleaning the ship and preparing her for sea. One company of the new "army" set about making the beds in the staterooms, another took charge of the passengers' baggage, another got busy in the kitchen pantries, another set about scrubbing and dusting, while others engaged in rehearsing in the art of gathering food to the dining rooms, gathering up empty dishes, sorting cutlery, and the saddest of all jobs, washing dishes.

So industriously did Lister's beavers busy themselves that the Aquitania sailed on her advertised time, which was 1 p. m. on May 14, previous to which time the volunteers had been augmented by waiters from London's leading hotels and some leading members of the striking stewards.

Just before the ship pulled out the disappointing information was given out that Sir Percy E. Bates and S. J. Cotterell were recalled to Liverpool on important matters, thus leaving Volunteer Library Steward Cotterell in charge of the volunteer crew, a big job, for the fulfillment of which Mr. Cotterell was fully capable.

Radio messages from the Aquitania stated that the first meal was somewhat slow, as the force of cooks was not large enough, but at Chelbourg, French cooks from Paris were added, and in a short time the service was normal.

Opinion was divided among the volunteers as to the propriety of taking tips. The Scotchmen among them are recorded as being in favor of acceptance.

The thirteen English babies adopted by Americans are on board in the custody of three nurses. Needless to say they are being petted and pampered.

The appreciation of the passengers on board for the work done by the volunteer staff is evidenced by the radio messages sent to the Cunard headquarters, which runs as follows:
"Aquitania at sea May 17. The passengers of the Aquitania in all classes wish publicly to express their appreciation for the manner in which the company, suddenly faced by a most critical situation, took instant measures which secured the departure from Southampton of this vessel, absolutely on the day and at the hour appointed. Furthermore, they wish to state their deep sense of obligation to those members of the company's clerical staff who volunteered to fill the strikers' places. They have seen how they unselfishly devoted themselves under conditions of some hardship and long hours to tasks for

If the shops were closed on Main Street!

IT may not be Main Street in this city, but read on—

Picture what would happen if all the shops where you do your buying were to close to-night and remain closed indefinitely.

Supposing the shops on Main Street, in every other town or city, were to close at the same time.

In a month—in perhaps less than a month—the life of the country would be paralyzed.

These rather far-fetched possibilities are cited to bring home to you the importance of the retail store to the life of the community.

If you don't buy normally from your local merchants they in turn will not buy from the manufacturers—and unemployment and chaos will follow.

These thoughts are suggested for you to ponder over when you hear people talk about not buying. Some of them assume "a holier than thou" attitude when they make such a statement, as though their self-deprivation was a virtue.

As a matter of fact, such an attitude is a barrier to prosperity—a menace, not only to themselves, but to the country at large.

Honor those who are doing what they can to encourage industry by their buying.

Honor those merchants who are buying and who are advertising, so that trade and industry may resume its normal course.

Give them their due.

Buy from them.

Issued by Canadian Daily Newspapers' Association,
Head Office, Toronto.

MAIDEN VOYAGE BY SCYTHIA IN AUGUST

First of New Cunard Fleet
Scheduled to Leave Liver-
pool August 20

It is announced by the Cunard Line that the new Cunarder Scythia, which was originally intended for service early this year, but which was delayed at her builders' yards by labor troubles, will commence her first trip in the trans-Atlantic service on August 20 from Liverpool. The liner's initial sailing has been postponed several times, but it is now definitely understood that she will be ready for her maiden voyage in August.

The Scythia was the first to be launched of the new line of five ships, a fleet of thirteen steamers, and is one of five of the same type, registering 21,000 gross tons each. These new 500-foot ships all burn fuel oil, and this means a vast saving in valuable space. It necessitates but one funnel, which saves thousands of cubic feet of room and does away with the great cabinets and funnels, are usually encased and which cut deeply into most public rooms. Then the oil fuel occupies but a portion of the space that would have to be given up to bunkers in case of coal fuel.

Each of the new ships has great passenger-carrying capacity and will accommodate over 2,500 passengers. The vast gain in space in ships originally designed as oil-burners is illustrated in the fact that the Aquitania's capacity is but 3,200 passengers, although she is more than twice the tonnage (48,000) of the Scythia. The Aquitania was reconditioned in 1920 as an oil-burner, but was originally designed and built to burn coal.

Built on staunch and graceful lines, the Scythia may be described as the ship of the future and is said to be in the very forefront, not only of post-war ships, but of the great passenger vessels of the world. She is the largest passenger vessel afloat to have been designed and built to burn fuel oil, and is also the first great liner to possess propelling machinery of the double-reduction geared type. Her auxiliary machinery and steering gear, too, provide a further departure from previous practice. These new features, it is stated, effect a definite improvement in the comfort and convenience of the passengers.

Pre-war sugar prices and cessation of exports to Europe from Cuba and the U. S. after October 1, is predicted by Philip W. Wooster, of the Federal Sugar Refining Co., returning from a six months' survey of the sugar situation abroad.

SPECTATOR ORDERED FIRST TO MAINLAND COMING HERE LATER

The Harrison Direct Line freighter Spectator, due off here to-night, will go direct to Vancouver to unload cargo before coming to this port to discharge. The Spectator, from the United Kingdom via the Panama Canal, sailed from San Francisco at 2 o'clock Saturday afternoon, and according to the latest information received by the agents, Rithet Consolidated, Ltd., the British freighter will arrive off the Outer Harbor to-night to pick up her pilot for Vancouver.

Vancouver Wants Liquor.
While no information is available as to the reason for the routing of the Spectator direct to the mainland, the probable explanation is that the freighter has aboard 10,000 cases of Scotch whisky, the bulk of which is consigned to Vancouver. The shipment is doubtless required to be on hand in readiness for the putting into force of the Liquor Control Act next month.

Vancouver is to be the principal distributing centre, the Liquor Control Board has decided, and the "wonder goods" carried by the Spectator will in all probability be required to augment the stocks already on hand by the time British Columbia officially emerges from her prohibition straits.

DOMINION

A sledge-hammer blow is delivered against conviction on circumstantial evidence in "The City of Silent Men," the new Paramount picture starring Thomas Meighan which was shown at the Dominion Theatre last night. The production is founded on John Moroso's novel, "The Quarry." Mr. Meighan plays the role of a small town youth who is made the tool of murderers and sent to the prison for a crime of which he is innocent. The photoplay shows prison life in all its phases and is a story with heart interest and appeal. Mr. Meighan has in this one of the strongest roles he has portrayed in many a month, and he is ably supported by such players as Lois Wilson, Kate Bruce, Paul

AMUSEMENTS TO-DAY

Dominion—"The City of Silent Men."
Pantages—"The Sage Hen."
Columbia—"West Is West."
Variety—"If I Were King."
Romano—"Brewster's Millions."
Royal—"The Girl in the Taxi."
Empress Hotel—Cherniavsky Recital.
Cabaret—Winter Garden.

Everton, George MacQuarrie and Guy Oliver.

PANTAGES

Edgar Lewis' newest feature production for Pantages, "The Sage Hen," is being shown at Pantages Theatre to-day. It is a big, gripping tale of the old West, relating the story of a woman who was unjustly branded a "Sage Hen," a name applied to strange women of doubtful character.

The leading role—the woman of the title—is played by beautiful and talented Gladys Brockwell, who is said to give the greatest performance of a brilliant career. Lillian Rich and Wallace MacDonald have been entrusted with the leading romantic roles, while character parts are filled by James Mason, Arthur Morrison, Helen Case and Alfred Allen. Richard Hendrick, a three-year-old boy who is the youngest swimmer in the world, and a trained horse do work not to be overlooked.

ROMANO

While most of us are struggling along trying to lay a few dollars on the shelf for a rainy day, along comes a fellow who suddenly receives a gift of a million dollars. No sooner has he recovered from the shock of that surprise than another interested party

This didn't really happen, but it does form one of the most unique situations of "Brewster's Millions," which will be shown at the Romano Theatre again to-day, with Roscoe (Fatty) Arbuckle, the noted comedian, in the starring role.

FINE HUMOR IN STAGE-SCREEN FARCE

"The Girl in the Taxi" at the Royal Victoria To-night

Clean, wholesome humor, situation upon situation which in the trend of unfolding causes rollicking, mirth provoking, hilarious laughter, is in store for motion picture patrons witnessing "The Girl in the Taxi" featuring Mr. and Mrs. Carter De Haven at the Royal Victoria Theatre this week. The picture is an adaptation of the musical comedy stage success of the same name by Stanislaus Strange, and directed by Lloyd Ingraham. It is indeed a pleasure to witness the delectable flavor embodied in the picture—delectable because of its sudden spontaneity of humor which in turn brings one round of chuckle after chuckle. That scene where the policeman quite unexpectedly catches his wife mingling with a group of gay rascals was worth its weight in gold. To our mind no finer example of farce as it should be on the screen has ever come to the attention of the writer. The situations are immense. The cast is excellent throughout. And the picture's background with its lavish investiture is pleasing to the eye.

"The DeHaven's, whose career as farceurs on both stage and screen has earned for them an enviable reputation, are seen respectively in the roles of Bertie Stewart and Mignon Smith. Bertie, called a mollycoddle by his stern parent, steals his father's clothes, pawns them, hides in a taxi, is whisked off with a charming young creature, muddles a gay party and aside from giving a policeman an unusual number of ludicrous antics—all very natural and not too far fetched—caps the climatic incident by giving his father's watch to the policeman in order to extricate said parent from an embarrassing situation.

The excellence of the cast is worthy of special mention. King Baggett does credit as Major Fredrick. Fredrick-Smith, Grace Cunard renders

PRINCESS

To-morrow night will be the first night of the long looked for musical comedy, "Going Up." The production has been carefully prepared in every respect, and from start to finish will be of a most satisfying nature.

Miss Page and the entire company will be seen in parts well suited to them and the singing will be a special feature. A large cast of pretty girls, dainty gowns, and effective stage settings will add to the sure thing of "Going Up" this week. There will no doubt be a sell out Saturday, so go early and avoid the rush.

There will be a guessing contest Wednesday as usual, cash prize of \$5 for grown ups, and kiddies remember Captain Kidd's treasure chest is still here and the prize continues to grow. "Going Up" will be produced to-morrow night and the balance of the week with the usual Saturday matinee.

TO PLAY TO-NIGHT

GERTRUDE HUNTLEY GREEN

who is to appear to-night at the Empress Hotel in a joint recital with Mischel Cherniavsky, the well-known cellist.

CONCERT AROUSES KEEN INTEREST

Six or seven prisoners at the Victoria City Jail on Sunday were regaled to a Sunday band concert of their own in which they took an appreciative part. A worker for the Apostolic Faith Mission of Portland, Oregon, called on Chief Fry and requested permission to address the inmates.

A few moments afterwards sounds of melody could be heard issuing from the jail, where the mission worker seated also a table with the seven prisoners gathering around. Accompanying himself on a banjo, in a manner that showed he was an adept in the use of that instrument, the missionary conducted several well-known hymns in an excellent voice; the jail inmates joining heartily in the choruses. After the brief hymnal the missionary gave a very straightforward and common sense address to the jail men, in which he pointed out their prospects in life would be better if they were more careful in future. Two Chinese prisoners were included in the audience, one of whom did not quite understand the nature of the proceedings, and commenced a slight attempt to dance to the tune of "Winter Than the Snow," until discouraged by his companions.

Copies of the "Apostolic Faith," the journal of the Oregonian branch of the mission were also distributed. The unusual sound of music, and sacred music at that, arising from the barred windows of the city jail attracted considerable attention on the street, and also among the firemen's quarters across the way, the musical entertainment to be heard in that vicinity.

Numbers of the police and detective force were also interested auditors of the missionary concert. The journal of the Apostolic Faith Mission stated that several launches and one aeroplane, the latter appropriately styled the "Sky Pilot" were employed in distributing pocket editions of the work of the Apostles and copies of the missionary paper which is printed in Portland, Oregon. The aeroplanes, it was stated, often makes trip of 2,500 miles in length in taking the pocket books and journals to the outlying districts, through which the mission is active.

"FALLING STARS" TO GIVE ENTERTAINMENT

Men of H.M.C.S. Patriot to Help G.W.V.A. Relief Fund

The "Falling Stars Concert Party" of H. M. C. S. Patriot, will give a concert at the Victoria Theatre on Thursday night in aid of the G. W. V. A. Relief Fund.

The "Falling Stars" comprise a party that has never yet appeared before the local footlights, and Thursday night's entertainment will be one of the highest order.

Asked as to why the party was named the "Falling Stars," some of the bluejackets humorously remarked, "Well, you know the others are the 'Rising Stars' and we thought we would have something a little different."

The party has been practicing for some time past and Thursday's entertainment will be the first public appearance of the troupe. That the boys will be well received there remains no doubt. Some of the cleverest artists in the visiting fleet are members of the "Falling Stars" and they will not disappoint those who take in the concert.

The Minstrel troupe is directed by W. E. Pounder, C. P. O. and S. Chance. There will be some splendid vander-ville items and the programme will include up with a humorous sketch entitled "The Private Asylum."

A number of local artists have also volunteered to assist in the programme, including Misses Agnes Wallace and Jean Dobbie and Tom Obee.

No one need give a "kingdom for a horse." One can be procured at a reasonable price by watching for an offer or placing an ad in the Times classified.

Suffering from a fit of despondency, John Atkinson, one of the best known guides in Manitoba, committed suicide.

MOTOR TOURING SEASON IS OPEN

Out-of-Doors Has Strong Appeal Now That Warm Weather Is Here

The motor touring season is now in full swing and automobile owners are finding the attraction of Vancouver Island too great to resist, in consequence of which there are a great number of cars touring the Island and the various resorts for fishing and camping are becoming peopled with sportsmen and motorists.

A larger influx of tourists from the United States is expected this year than ever before, and the Victoria Automobile Club and the Victoria and Island Development Association have placed themselves in a position to give all information regarding the tours of the Island.

For this purpose an extremely attractive pamphlet giving the logs of tours is now in the printer's hands and will be off the press ready for distribution almost immediately. This feature is being issued jointly by the two organizations, and will be given free distribution. The pamphlet is of such a size that it fits neatly into the pocket. It is well illustrated and contains information of value to the motorist, having been specially prepared for the benefit and information of automobile owners.

The glorious scenery of Vancouver Island, which has received a great deal of publicity at the hands of the Development Association during the past year, will prove a big attraction for the visitors who are now coming to the Island in rapidly increasing numbers.

With the Summer holidays approaching, plans are now being made for family outings, and early next month will see a considerable exodus from the city to adjacent resorts.

WHAT'S THE FARE TO CONDON?

You have often watched a girl playing the piano when she had a box of candy in one hand and a powder rag in the other, haven't you? Well, read this item from Condon, Ore., in the Portland Oregonian: Miss Lillian Cross, a musician of much ability, is playing the new foot-player in the theatre here.

He Wants All the World to Know

THAT IT WAS DODD'S KIDNEY PILLS THAT HELPED HIM

Mr. Alfred Labbie, Who Suffered from Rheumatism and Backache Tells Why He Recommends Dodd's Kidney Pills.

St. Honoré, via Armand, Que., May 30.—(Special)—Mr. Alfred Labbie, well-known and highly respected resident here, is recommending Dodd's Kidney Pills to all sufferers from rheumatism or backache. He has a reason.

"I suffered from backache and rheumatism," Mr. Labbie states. "I spent much money on other remedies. But it was Dodd's Kidney Pills that helped me. I work now and I am well. That is why I would like all the world to know about Dodd's Kidney Pills."

Dodd's Kidney Pills are purely and simply a kidney remedy. They strengthen the kidneys and enable them to do their full work of straining the impurities out of the blood. Healthy kidneys make a healthy body.

Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

—Advt.

Hardening of Arteries

A serious condition which is relieved when you arouse the liver, kidneys and bowels to action by using Dr. Chase's Kidney-Liver Pills. One pill a dose. 25 a box, all dealers

Dr. Chase's Kidney-Liver Pills

OPEN AIR SERVICE FOR MEMORIAL DAYS

Veterans to Parade Next Sunday to Honor Dead Comrades

Victoria will observe Memorial Day, next Sunday, with a parade of all returned soldier organizations and an open air service at Christ Church Cathedral at 2.30 o'clock. All returned soldier organizations in the city are participating in the ceremony.

Dean Quinlan, the Rev. David McLaren, the Rev. William Carroll and Bishop Schofield will take part in the service. Col. Cyrus Peck, O.C. M.P., who will arrive here from Ottawa on Sunday, will also speak. There will be hymns and at the end the "Last Post."

Hands of the Canadian Scottish, Veterans of France, Boys' Naval Brigade and the Salvation Army will play. Returned soldiers and representatives of other public bodies will be marshalled at Douglas and Courtney Streets at 2 o'clock by Sgt. Birch. All ex-service men are supposed to wear decorations and civilian clothes. Veterans unable to walk will be taken in automobiles. A collection will be taken for the Victory Relief Fund.

WHAT THE CLUBS ARE DOING

Prince Rupert Rotarians

There was a decided spirit of optimism and cheerfulness about the short and excellent address of the Prince Rupert Rotarians at their weekly luncheon. Mayor Rochester, Fred Stork, James Lee and the guest of the club, J. A. W. Bell, spoke along general lines regarding the progress of business in the city and district, and particularly in regard to the prospects of the pulp and paper operations in Prince Rupert.

Sponsor's New Club

The Seattle Kiwanis Club is acting as sponsor for a new club at Everett. A goodly number of members have already been procured, and as an inspiration and help to the new organization, seventy-five members of the Seattle Club will go to Everett, give a dinner and put on the programme on June 2.

Future Engagements

Victoria Rotarians will meet at St. John's Church on June 9. On June 16 the rendezvous will be the new Saanich-Health Centre at Royal Oak.

WON'T MISS IT

A woman may have an engagement with you and keep you waiting several hours but if it's a train you are going to take she'll make sure to get you to the depot an hour ahead of time.

WHY THE RED CROSS MUST STILL CARRY ON

OUT of the object lesson of experience—gained through four long weary years of war—came the realization that the Red Cross, great as was its work during those years of horror, is to-day a vital need to the remnants of that terrible conflict of nations.

POST WAR WORK The Red Cross has not forgotten the crippled, blinded and helpless men, over 800 in number, that are still being cared for in the hospitals and sanitariums of British Columbia. Men who, although they are receiving all the care and attention that is possible from over-worked nurses and attendants, are lacking many little things of comfort. Little luxuries that you, who are strong of mind and body, might easily give to them. It is the aim of the Red Cross, with the aid of your dollar, to supply such things to these men.

The Red Cross is also providing workshops for disabled overseas men—some already being established in the former headquarters of the G. W. V. A. in Victoria. It is equipped with specially designed machinery, adapted to the use of these men, some of whom were apparently hopelessly crippled. It is enabling them to learn new vocations, thus preparing them to re-enter the struggle for existence on a new basis—helping them to become self-supporting.

EMERGENCY SERVICE. To vigorously and adequately cope with the sudden call—from wherever it may come—the Red Cross is providing Emergency Service and outfits in various sections of the Province. In case of sudden disaster—by fire, flood or wreck on land or sea—the Red Cross never hesitates to proceed at once to the scene with doctors, nurses, workers and supplies of all kinds, to relieve the suffering of the unfortunate ones. You may think that disaster will never overtake your community—but who can tell—it may come to-morrow, and the Red Cross will be there.

The funeral of the late Richard Price took place yesterday afternoon at 2:30 o'clock from the Thompson Funeral Home.

The funeral of the late James Mallett, whose death took place on Sunday, June 1, 1920, will be held at 2:30 o'clock from the Sands Funeral Chapel.

Mary Anne Clapp, widow of George Clapp, died last evening at the family residence, 2444 Bay Street, at the age of 87 years.

The funeral of the late James Mallett, whose death took place on Sunday, June 1, 1920, will be held at 2:30 o'clock from the Sands Funeral Chapel.

PLEADS FOR BETTER ORIENTAL QUESTIONS

Rev. H. H. Gowen, D.D., De-lights Kiwanis Audience To-day

Rev. H. H. Gowen, D.D., Professor of Oriental languages at the University of Washington, delivered an address to the Kiwanis Club at the luncheon to-day that set the Pacific question on Oriental relations in a new light.

SHIP CONSTRUCTION CLAIMS BONUS ON

James Stewart Clark, naval architect for 43 years, during which time he has launched over 1,000,000 tons of shipping, has brought action against the Harbor Marine Company for the recovery of damages for dismissal and for bonus of 5 per cent on the gross profits from the construction of the steamships Canadian Winner and Canadian Traveller.

ORIENTAL IMMIGRATION

Questions of personal hard feeling, discrimination and immigration until to-day it is a serious one. Indeed, the League of Nations in 1905 there were about 70,000 Japanese in the United States, and since that time the increase has been rapid.

PROBE EFFICIENCY OF CITY TEACHERS

The "efficiency or otherwise" of Victoria teachers was reviewed during a lengthy private session of the City School Board last night.

REHABILITATION OF AUSTRIA PLANNED

In order to rehabilitate Austria the committee has told the Austrians they must abolish their huge civil debts, they must try to remove the customs barriers which have been set up between Austria and the surrounding states.

PREMIER OLIVER ON WAY HOME

Premier Oliver left Toronto last night for Vancouver according to word he telegraphed to the Parliament Buildings here today.

CAPTAIN OF KASHIMA MARU WAS PENALIZED

A penalty of \$450 was assessed by United States customs officials at Seattle against Captain K. Itsuno, master of the Japanese liner Kashima Maru for carrying goods not declared on the ship's manifest.

LOWER WAGES FOR REGINA WORKMEN

Regina, May 31.—Painters of Regina returned to work this morning after being on strike two weeks, having agreed to accept 8 1/2 cents an hour, a reduction of five cents from last year's scale.

FIFTH ANNIVERSARY OF JUTLAND FIGHT

Five years ago to-day the North Sea was the scene of the most critical naval encounter of the world. It was the battle of Jutland, fought on May 31, 1916, off the coast of Jutland, Denmark.

SAANICH TEACHERS DECIDE COURSE, BUT WITHHOLD DETAILS

The Saanich Teachers' Institute last night came to a final decision as to what course of action they would adopt in regard to the notification of the Saanich Trustees, but voted to withhold publication of their intended course for the present.

PREDICTS INFUX OF PEOPLE FROM EUROPE

A tremendous influx of immigrants from European countries to Canada is predicted by G. L. Boer, acting general manager of the Canadian Pacific Railway department of lands and natural resources at Rotterdam, Holland, who is now in the city, registered at the Empress Hotel.

C. P. R. Agent at Rotterdam Brings Advance Guard of Hollanders

The advance guard of many numbers of Hollanders who are coming to British Columbia and the Yukon territory is making a general tour of Canada.

TO SIFT CATTLEMEN FOR CROWDED RANGES

Hon. T. D. Pattullo Issues Special Rules For Grazing Country

Special rules for the use of the range in the Creston district of British Columbia for the benefit of stockmen in the Province have just been sanctioned by the Hon. T. D. Pattullo, Minister of Lands.

COUNCIL TO VISIT HOSPITAL AND SEE NEW HOSPITAL PLAN

At the invitation of the Hospital Directors, members of the City Council will inspect the Provincial Royal Jubilee Hospital to-morrow afternoon and see for themselves the work which is being carried on there.

ADVANTAGE OF HOUSE OVER WATER

"Liquor Exporter" Ran Shipments Across the Strait

Charles Bright, charged with retaining liquor for sale, was convicted and fined \$500 with the option of six months in jail in a sensational trial at the city police court today.

NOTICE TO CONTRACTORS

Tenders will be received up to noon Thursday, June 2, for the alteration to the new Liberal quarters. Plans and specifications can be seen at the office of the undersigned, corner View and Douglas Street.

ASSERTS VICTORIANS PAY TOO MUCH FOR TELEPHONES

Upon this assumption and taking Vancouver as a basis, Victoria has been charged an excess of 6-16 per cent of its capital, or the sum of \$80,005.10 for the year 1920.

REHABILITATION OF AUSTRIA PLANNED

In order to rehabilitate Austria the committee has told the Austrians they must abolish their huge civil debts, they must try to remove the customs barriers which have been set up between Austria and the surrounding states.

PROBE EFFICIENCY OF CITY TEACHERS

The "efficiency or otherwise" of Victoria teachers was reviewed during a lengthy private session of the City School Board last night.

SEVEN MORE ARE KILLED IN IRELAND

Soldiers Attacked by Sinn Fein Raiders
Cork, May 31.—Four soldiers were killed, two mortally wounded, and twelve slightly wounded when they were attacked this morning while marching from the Youghal barracks to the rifle range.
Near the golf links the road had been mined and an intense fire was opened on the soldiers. Bombs also were used. The uninjured soldiers replied to the fire of the attacking party.
A curate who was driving to celebrate mass got into the line of fire and was wounded. His driver was killed.

BALL GAME IN PITTSBURGH CAUSE OF TWO DEATHS

Pittsburgh, Pa., May 31.—Two men were shot and killed and four were wounded in a fight during a baseball game on the North Side here yesterday.

WITHIN THE ROPES

Huntington, W. Va., May 31.—Bob Martin, heavyweight champion of the A. E. F., knocked out Gunboat Smith in the third round of what was to have been a ten-round bout yesterday.

BASEBALL RESULTS

STATE GERMAN HARD AT WORK

Two Americans Describe What They Saw
Washington, May 31.—Present conditions in Germany were described today by Lafayette H. Defries, an American lawyer of London, and Frank Helm, a financier of Indianapolis. They have been in Washington this week in consultation with members of the administration and of Congress to whom they have detailed their recent activities in Germany.
Messrs. Defries and Helm declared it is difficult to see the zeal and determination with which Germany is preparing to "come back" industrially and economically.
Working.
"The Germans are working like beavers," said Mr. Helm. "They are utilizing every available inch of soil, even land formerly used for rights of way. Labor is sweating as never before. Capitalist and workman have gone to work to rehabilitate the nation, knowing salvation for Germany lies only in that direction. They know the war was lost, and righteously lost, and they are doing nothing left to do but to foot the bill, heavy as it is. The German people of today, I am convinced, with minority exceptions, are through with militarism and Hohenzollern for all time. That at least was my impression wherever I went, and no matter to what class of people I spoke. They exonerate the names of the Kaiser and Crown Prince. They showed reverential honors to the late Kaiser when she was buried at Potsdam, because of her personal popularity and record as a humanitarian."
Business.
Defries and Helm are agreed that the Germans are making tremendous strides industrially in every direction. Once supplied with raw materials, they are bound soon again to be formidable bidders for all the markets of the world. Throughout South Africa and Asia their agents are busy and securing profitable orders. In European countries like Holland, Switzerland and the Scandinavian lands, German business is flourishing on something like the pre-war scale.
Krupps.
The Krupps have turned their huge arsenal at Essen into a plant for the production of every implement of peace that can be made of steel or iron, including rolling stock for railways and agricultural implements. The Germans are looking for an immense trade with Russia. It already has begun. Krupp's, the Bohemian manufacturer, arrived in Berlin during the past few days and is negotiating right and left for German supplies. He knows Germany well, having for years been the representative of the Siemens-Halske electrical combine in Moscow and Petrograd.
Other interesting information was given by Defries and Helm.

NAVY SQUADRON TO SAIL JUNE 3

The Canadian naval fleet is now scheduled to leave Esquimaux for Halifax via the Panama Canal and the West Indies June 3. The existing arrangements call for the departure of H.M.C.S. Aurora and the destroyer Patrician on the afternoon of that date, and about the Patriot compete her repairs in time she will accompany the squadron. Otherwise the Patriot will sail later and catch up with the other ships en route.

PROGRESS IN FROZEN FRUIT.

Preserving fresh fruit by freezing has passed the experimental stage in the United States and Pacific States. The Office of Preservation of Fruits and Vegetables connected with the Bureau of Markets of the United States Department of Agriculture is showing that the method is practical and that it is being held in commercial lots.
So far the process is concerned, this method of preservation has all the merits of simplicity. The fruit is frozen in the same crates in which it is marketed. The temperature required is about 10 degrees Fahrenheit, though soft fruit is usually subjected to a lower temperature, that of better quality. So long as the temperature is maintained the fruit can be kept in storage. The frozen product must be used as soon as it is thawed, however, as thawing breaks down the tissues and allows the fruit to decay rapidly.

FUNDS VOTED FOR IMMIGRATION WORK

Ottawa, May 31.—(Canadian Press)—Estimates of the Department of Immigration and Colonization, which passed in the House with little discussion yesterday, were \$87,000 for contingencies in immigration agencies; \$90,000 for exhibitions, and \$3,000 for the Imperial Institute, \$22,000 for Chinese immigration, enforcing the exclusion order at certain Pacific ports; \$6,000 for relief of distressed nationals outside of Canada and \$15,000 for work on the St. John immigration buildings.

LIBERTY LEAGUE IN TORONTO GROWS; NEW CAMPAIGN

Toronto, May 31.—At a meeting of the Citizens Liberty League here last night it was decided to begin a campaign immediately to secure 50,000 members in Toronto, and it was decided to test the validity of the vote in the referendum of April 18. It was stated that the matter be fought to a finish in the courts.

CHILD WELFARE WORK ADVANCED

Ottawa, May 31.—(Canadian Press)—Officers of the Children's Welfare programme of activities mapped out by the Canadian Council of Child Welfare, which opened an executive committee here yesterday. Representatives from all sections of Canada were in attendance and preparations are being made for the Dominion conference on child welfare which is to be held in October. Reports from the different provinces showed a general interest being taken in the work of the Council.

LIQUOR INSURANCE NOW COSTS MORE
New Rates Apply to All Canada But Quebec, Because of "Moral Hazard"

Insurance companies engaged in writing insurance on liquor stocks, realizing that with the added difficulties of acquiring supplies there will be a corresponding increase in the tendency toward theft, have taken precautions against theft of liquor.
Under a form of policy adopted in 1920, liquors were included with a general list of household furnishings and effects and in the event of the loss of the liquor through theft the company would indemnify the insured up to twenty per cent. of the amount of insurance, with a maximum of \$500. When the insured wanted to place in a position to collect more than \$500 in the event of the loss of his liquor supplies he was required to take out a policy for a definite amount, on which he paid a premium rate of 7 1/2 per cent. on all over \$500.
Dating from March 1 of this year new business, and from April on renewals, the insurance companies have decided against issuing any form of blanket policy covering both household effects and liquor, and under the new arrangement, a separate and distinct policy must be taken out upon the liquor. The rate will run in the neighborhood of one per cent. of the value of the policy.
This new ruling extends to all provinces of Canada with the exception of Quebec, where it is felt that as the sale of liquor is under the control of the Government, and supplies can be secured without difficulty, the moral hazard has not increased to the same extent as in the balance of the Dominion.
Must Take Separate Policies
Prior to March 1, 1920, there was no definite form of policy. Many companies followed the practice of issuing blanket policies covering household equipment as well as liquor and making no distinction. These policies were taken out for a period of three years, and as a large number still have a comparatively long time to run before they expire the companies are taking action to protect themselves, for it is felt that with the comparatively nominal premium on this insurance, the fact that conditions have radically changed since the policies were issued, they stand in a position to lose heavily on this insurance. They are therefore issuing instructions to the clients who hold policies drawn upon the more lenient terms than prevailing that they will require to take out separate insurance on their liquor stores. The policy they hold will apply on the balance of the household list but the insurance companies are taking responsibility upon the liquor stores, except where the insured is willing to make additional payment for the liquor.
That the liquor supply is an important item in many households is evidenced by the fact that one man, who carries insurance on his household effects, carries insurance upon his liquor to the amount of \$20,000 as a protection against the loss through theft. It is stated that in many instances elaborate care has been taken to provide protection through the installation of mechanical devices and even vaults built in the walls of the cellar. With the approach of the Summer months experience has shown that the hazard grows. For with many homes vacant access to the cellar can be had with less fear of detection.

News of Markets and Finance

STOCKS FEATURELESS IN NEW YORK
(By Burdick Brothers, Ltd.)
New York, May 31.—The stock market showed little inclination to move one way or another today and a set of waiting orders was maintained. The market was subject to some further pressure on reports that Pierce Arrow passed its quarterly dividend of two dollars a share due on the preferred stock at this price.

TO-DAY'S TRADING IN WINNIPEG MARKETS
(Burdick Bros., Limited.)
Winnipeg, May 31.—Unlike Chicago, the future on the local market to-day passed off the board quietly. There were ample offerings for all those waiting until the last hour being able to get all the wheat or oats they required on a somewhat easy market. The deliveries through the clearing houses were particularly large indicating there had been little trouble in securing stocks to fill contracts and make adjustments. The totals were: Wheat, 649,000; oats, 530,000; flax, 25,000; barley, 150,000; and rye, 100,000 bushels. The market closed higher to 1 1/2 cents lower.
The cash market was very quiet throughout the season and little or no business was worked after the close of the day. Future at 10.30 a.m. the premiums closed to-day at 22 cents over July for No. 2 Northern, 15 cents over for No. 1, No. 2 C. W. and No. 3 feed oats continued in fair demand with a premium of 1/4 cent over the top grade. Barley, flax and rye were dull. Oats closed 1/4 to 1/2 cent lower; barley 1/2 cent lower; flax 1/2 cent higher; and rye 1/4 to 1/2 cent lower.

MAY OPTION AGAIN FEATURES
(By Burdick Brothers, Ltd.)
Chicago, May 31.—The feature of the grain market here today was the violent advance of May wheat, delivery of which takes place to-morrow. Opening at 171, it covered throughout the day and its high point reached just at the close was 181. The remainder of the market was more or less featureless and little change was recorded from opening quotations.

ISLAND COAL PRICES FALL IN SEATTLE
Further Cuts Later in Year and No Shortage Forecast
Seattle, May 31.—Dealers announce that on July 1 the price of Ladsmyth lump coal will be reduced 50c per ton. It is predicted that there is small prospect of a coal shortage during the coming season, excepting possibly in steam coal.
After July 1, it is announced, no further price reduction in Ladsmyth coal can be expected before November, 1921, but the price of all coal will continue gradually to decline during the next year or two. The prevailing price, both wholesale and retail, is admitted to be high and out of line with the price of nearly all commodities of general consumption.
Unless prices are materially reduced the demand will continue weak and all classes of consumers will continue to rigidly economize in the use of coal. This condition and the trend toward lower prices is eventually going to compel operators, wholesalers and retailers to lower their margin of profit, and some companies intend to continually make reductions as fast as conditions warrant. There should be no shortage of lump coal this winter in this section. If the strike continues throughout the winter there will be a shortage of steam grades, which will be partly met by an abundance of cheap grades. The W. I. is advised to keep ample supplies of coal on hand for current needs, but no more.

Spell of North Still Grips Men; Pioneers Seek Oil

By William Turnbull.

That the spell of the North never loses its grip is evidenced by the fact that a party of old time Yukoners was among the first to enter the Fort Norman oil field after news of the striking of oil reached the outside. The party consists of Howard (Harry) Colley, David McKee, Charles McDonald and Walter (Spud) Murphy. Colley is in charge of the party, which made the trip in the interests of Victorians, nearly all of whom are Yukoners.

"Harry" Colley is of the vintage of '98 and has given most of his life to mining, having operated on the world-famous Bonanza and El Dorado Creeks, while he also was a pioneer in fox farming at West Dawson for a number of years.

"Spud" Murphy was born in Lawson City in '88, his father, J. W. Murphy, having taken his family into the Yukon in the Spring of 1887. "Spud" is only twenty-three years of age and gained fame as an athlete while still attending High School.

McDonald and McKee are also old timers at Whitehorse, the former having mined on Hunker Creek and the latter on Bonanza and Sulphur. All are experienced "miners," and like true North-westerners, they did not wait for open water but set sail from Vancouver early in January, outfitting with dog-teams, and so forth, at Whitehorse. They traveled on the ice down the Yukon as far as Hootahqua, across country to the mouth of the Ross River, up the Ross River to its head and over the divide to Gravel River, down Gravel River to the Mackenzie and up the Mackenzie to Fort Norman.

"News that the party is well and

making good progress was brought out by the parties who arrived at Selkirk from Fort Norman a few days ago, and conveyed by wire to one of the interested Victorians by Constable Erickson, of the C. R. M. P., Carmacks, Yukon.

At the time of leaving the last post of telegraphic communication, the prospectors were unaware of the suspension of the Dominion Government oil-staking regulations, and it will have to be known whether they have staked under the old or new regulations.

They will return to civilization over the Mackenzie-Peace River route to Edmonton, where they will record their applications.

"The party will reach Edmonton by time they have covered nearly 4,000 miles by river and trail.

THINKS SWEARING ALL RIGHT

Yes, providing the provocation equals the offence of Jones stepping on Smith's sore corns. Far better to use "Putnam's Painless Corn-Extractor," it does lift out corns in a hurry. No corn can last if "Putnam's" is applied. Refuse a substitute; 25c. everywhere. Adv.

Alice Calhoun and her supporting company are in Saugerties, N. Y., where the rural scenes for her new Vitaphone production, "Peggy Futs It Over," are being filmed. The play is an adaptation by C. Graham Baker and Harry Dittmar of the original story by G. Burr-Lynner, and presents the star as a young college graduate, used to city ways, having her first experiences in a country town. It is light comedy, although there are many dramatic scenes. G. V. Seyffertitz, who directed Miss Calhoun in "Princess Jones" and "Closed Doors," is in charge of the production.

Rev. O. J. Akeley, of Toronto, has commenced his pastorate at the Huntsville Baptist Church.

The Dread Pyorrhea Begins With Bleeding Gums

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

OPPOSES PLANS FOR RETARDED CHILDREN HERE

Inspector Clashes With Special School Principal

Sharp differences of opinion as to the best method of dealing with "retarded" children in Victoria schools were voiced at the City School Board meeting last night, when the Trustees heard a report on the subject from Miss Bertha Winn, principal of the Special school.

In her report, which was verbal, Miss Winn urged that further facilities be provided for the care of retarded children. School Inspector May, however, told the Board that retarded children should not be segregated from their class mates and said that he could not agree with Miss Winn at all. Miss Winn's report which will be submitted in writing soon, will be considered at a later meeting of the Board.

Statistics on Subject

Miss Winn stated that recent investigations in the schools had shown that retardation was the result of unfavorable home environment in twenty-six cases, indifference to school work was the cause of twenty-one of twenty-one; irregular attendance, twenty-three; deformity, twenty-four; poor mental ability, seven. Miss Winn added that she had found that two children now attending ordinary classes were completely deaf and five were partly deaf. Defective eyesight was hampering five children; seventeen were extremely nervous; four suffered from paralysis; twenty-one were subject to aphasia.

"Children who are so handicapped suffer untold agony unless they are understood," Miss Winn affirmed. She went on to give figures to show that 1,393 pupils, or about one-fourth of Victoria's school population, were "repeaters," that is children who had to study twice, a course which ordinary pupils grasped in one year.

Special Classes Urged

Miss Winn urged inauguration of special classes for deaf children, crippled, mental defectives and anaemic children. Open-air facilities, she advised, should be arranged for anaemic children. She also suggested establishment of a restoration class for children of apparently normal mental capacity who could overcome their handicap they might have suffered in the past.

Miss Winn told the Board that it was generally agreed that nearly all the crime committed was the work of feeble-minded people, and in support of her statement she produced reports of eastern specialists. A great deal of crime, she thought, could be nipped in the bud by proper care of these people during the impressionable period of their lives.

The Moral Hazard

"There is only one future for mentally deficient girls, you know what it is," said Miss Winn. She warned against the "sickly sentimentalism" which would keep school authorities from taking proper care of these people during the impressionable period of their lives.

She urged the local school authorities to keep abreast of other provinces in their effort to solve the problem.

Miss Winn asked the Board to send a deputation of Trustees to visit her school, to appoint a deputation of their own to accompany her when she was examining school pupils; to name a committee to visit the Vancouver schools in order to help formulate a basis on which to work; and finally that, if any Trustees had charges to make they should make them in writing.

Request Uncalled For

"The last request is uncalled for," Trustee Mrs. Condy-Johnson protested. "No one has made any charges." "Well, we haven't time to go into details," Chairman Dr. Baskop pointed out.

Granted permission to speak, Mr. May said that Miss Winn's report case of "grave reflection on municipal and provincial inspectors for the last twenty-five years or so." He doubted that any subsequently appointed inspectors would be able to do as satisfactorily as had the first inspector, who had taken office twenty-five years ago.

"It is absolutely impossible to take up this retardation," he asserted emphatically. "Judging by the children who came in from the outside there is less retardation in the schools of Victoria than in any other city on the continent. Moreover, the class work here is superior to any other city, judging by the children who come from the outside. These retardation plans are well enough in theory and probably would work out satisfactorily in very large cities like New York, Chicago, Philadelphia and so on, but here in Victoria, with all its open spaces, the degree of retardation is relatively very small."

"With Spark of Intelligence." "I cannot agree with Miss Winn. We should not segregate these children. If they have a spark of intelligence they should be with their classmates. When a child is segregated he carries the stigma of it all through life."

"Well, the outstanding fact, and a very sad fact, it seems to me, is that children who seem so gifted in so many ways are just marking time in the schools," Miss Winn replied. "I feel that we must arrive at some method by which we can make use of our gifted children."

Trustee Mrs. Andrews said she would reply later to Mr. May's remarks, which, she declared, were "quite uncalled for."

Miss Winn informs The Times that the report was a confidential one, and she was surprised to have to make her statement before the Board in public.

MISTAKEN ATTENTIONS

The pretty girl with the auburn hair had refused him. "I never dreamed, Mr. Symkins," she said, "that you'd attentions to me were anything more than those of a friend."

"Oh, you didn't?" growled the young man. "You thought that I had been coming here regularly four times a week during the last six months merely for the pleasure of seeing you eat a seven-shilling box of chocolates each night, did you?"

HER CASE SEEMED HOPELESS

But "Fruit-a-lives" Brought Health and Strength

29 St. Rose St., Montreal.
"I am writing you to tell you that I owe my life to 'Fruit-a-lives.' This medicine relieved me when I had given up hope of ever being well. "I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good. "I read about 'Fruit-a-lives' and tried them. After taking a few boxes, of this wonderful medicine made from fruit juices, I am now entirely well."

Madame ROSINA-FOISIZ.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

KENNEL SHOW AWARDS

Willgress's "Rowlands Credential."
Belleville has accepted the offer of a Toronto firm for \$30,000 serial bonds for the Bay bridge purchase.

OH, SPLUDGE!
The street car stopped and the young fellow and the pretty girl discovered that it was jammed to the doors. The young fellow hesitated for a moment and then put his arm around the pretty girl to assist her on the car and said: "Come on, Mabel. We can squeeze in here, can't we?" The pretty girl blushed and then replied in a low voice: "I suppose we can, dear. But wouldn't it be better to wait until we get home?" Mrs. E. Gill, Copper Cliff, was injured when the auto she was driving turned over on the Copper Cliff road. Rates for patients at the Queen Alexandra Sanitarium, Byron, have been increased from \$1.25 to \$1.50 per day. None so fond of secrets as those who cannot keep them.

JEWELRY MAKER COULDN'T SLEEP

Was Too Worried to Get Any Sound Rest, States Vallee

"Tanlac is the one medicine I can recommend feeling sure it will do the work," said Carolus Vallee, well-known jewelry maker, residing at 272-A Garnier Street, Montreal, P. Q.

"For two years I had no end of a trouble with my stomach, and indigestion robbed me of many a good night's sleep. Knowing so well how I would suffer afterward, I ate just as little as I could, and finally I lost my appetite entirely. "What little I managed to force down caused severe cramping pains for hours, and gas bloated me painfully, making my heart palpitate until I thought it would jump out of my body. My nerves were of course all but very little, and spent many hours rolling and tossing in my bed at night and worrying about my bad health."

"Well, I heard a lot about Tanlac, and going on the idea that where there's so much smoke, there must be fire, I got a bottle. I have taken seven bottles now, and it certainly has done everything for me they said it would. I have a splendid appetite, eat whatever I want and just as much as I want, and my stomach never gives me a bit of trouble. I sleep all night long as peacefully as a child, and feel strong and full of energy all the time. Tanlac is the only medicine for stomach trouble."

Tanlac is sold in Victoria by D. E. Campbell and all drug stores. (Adv.)

Willgress's "Rowlands Credential."
Belleville has accepted the offer of a Toronto firm for \$30,000 serial bonds for the Bay bridge purchase.

CHURCH'S COLD WATER Alabastine

CUTICURA HEALS SISTER'S ECZEMA
In Rash All Over Body. Burned And Itched. Could Not Rest.
"My little sister had eczema all over her body. It came like a rash, and was burning and itching. She could get no rest, and we would have to wet her clothing to take it off. She was cross and irritable, and the breaking out caused disfigurement. "She had the eczema about five months when we tried Cuticura Soap and Ointment. We could see she was getting relief, and we just used one cake of Cuticura Soap and one box of Cuticura Ointment when she was healed." (Signed) Miss Jessie Campbell, Sunny Brae, Nova Scotia, January 16, 1919.
You may rely on Cuticura Soap and Ointment to care for your skin.
See 25c. Ointment 25 and 50c. Sold throughout the Dominion. Cuticura Dept., Lyons, Limited, St. Paul, St. Montreal.
Cuticura Soap shaves without razor.

TINT your walls to harmonize with the woodwork in your home. Carry out a complete color scheme in each room.
There is nothing that will give that beautifully rich effect in the dining room or that touch of daintiness in the bedroom as well as Alabastine. It is an artistic, sanitary, permanent wall-coating.
Alabastine harmonizes with the most elaborate interiors and adds beauty and distinction to the less pretentious home. You will be delighted with the saving in cost and the ease and speed with which it can be put on.
FREE—"Alabastine Color Plan Book" showing 80 combinations of Alabastine tints with stencil decorations, also the "Alabastine Stencil Catalog."
