

AGENTS FOR THE PACIFIC NEWS. Sacramento City, Geo. JOSEPH GRANT, San Jose, D. B. ARZUE, Benicia, C. M. DAVIS, New York, THOMPSON & HITCHCOCK, Napa, M. H. N. KENNIS.

AGENTS WANTED in every City, Town and Village, to whom liberal advantages will be given. Orders for the PACIFIC NEWS will be duly attended to, if addressed to us post paid, and enclosing the cash.

THE WEEKLY PACIFIC NEWS will be re-commenced as soon as necessary arrangements can be completed. A STEAMER EDITION will be issued semi-monthly, on the sailing of each Mail Steamer.

The Public Printing.

The incontrovertible facts presented by the State Printer, in answer to the mis-statements, and unfounded suspicions, and darker hints, engendered by jealous rivalry, has waked up the sensibilities of one or two cotemporaries, who make it the subject of extended comments.

Not so with our evening cotemporary. It flies into a passion, indites an article under as many heads as a Connecticut parson's sermon, attacks the State Printer personally, and "lastly" requests him to "mind his own business."

The capacity of this Picayune establishment does not end here. The leading editor is now laying pipe, and has secured promises, having reference to the next gubernatorial election—he to be the Whig standard bearer!

So much for the patriotism of these "reformers." The whole truth lies in a nutshell. The present State Printer may be an applicant for the office again, and by unfounded misrepresentations, and the aid of accidental official position, they hope to impose a tale of extravagance upon the members of the Legislature, to answer their own purposes.

As a specimen of typography, the printing which he has done for the State, is not excelled, and rarely equalled by any State in the Union, and is far superior to that executed by the printer to the Government.

As a specimen of typography, the printing which he has done for the State, is not excelled, and rarely equalled by any State in the Union, and is far superior to that executed by the printer to the Government.

Mountain of Carbonate of Magnesia.

The resources of California are not confined to the precious metals alone; there is a vast extent of country, of which nothing is said that will develop, in time, new avenues of wealth.

On Pitch (or Pitt) river, the principal affluents of the Sacramento, which flows through a charming valley, and about five days journey from Goose Lake, there is a hill of pure carbonate of magnesia, one hundred feet high.

Bill for the Establishment of a State Hospital.

On Tuesday last, Hon. Mr. Moore, from the Committee on the Judiciary, introduced a bill in the Senate, for the purpose of establishing a State Hospital.

The bill also provides for the election of a Treasurer, President, and Visiting Physician for said hospital, who shall strictly perform the duties attending said office, for a salary not yet named, and who on proper grounds shall be suspended, subject to the final action of the Governor.

U. S. SENATOR.—The Committee of Conference appointed by the Senate and Assembly, to fix upon a day for the election of a United States Senator, were unable to agree, and having so reported to their respective houses, were discharged.

THE DIAMOND RING CASE.—ADALAIDE MUNIX, charged with having feloniously appropriated a diamond ring, of the value of \$500, the property of Mr. BERTSELL, was examined yesterday before Justice BROWN.

MAGNIFICENT OPERA HOUSE.—The preliminary steps have been taken for building, in New York, an immense and magnificent opera house, which will cost not less than \$1,000,000, and the Tribune thinks it will come nearest \$200,000.

FOR PHILADELPHIA AND LIVERPOOL.—The large steamer which has been on the stocks at New York for some time past, intended for Howard & Son's California line, has been purchased for the Philadelphia and Liverpool line, to run with the City of Glasgow and the City of Philadelphia.

Democratic Progress—Education—Intellectual and Moral Culture in the U. States.

In the October number of the American edition of the Edinburgh Review, article "United States," we find some interesting matter in relation to the above subjects, and the progress of religious liberty.

"Democrat" proposes "to examine this subject in some of its bearings at the present time, and at the present rates of interest." If he had confined himself to these, his article would have had extremely little importance, since the present time (in any sense of the word) and present rates are both fast passing away, in all likelihood never to recur in the history of California.

"When 'Democrat' then desires us to 'suppose that some large capitalist in New York, or suppose that Barings & Co., or the Rothschilds, were to send \$5,000,000 to this State, to be loaned at ten per cent. per month," the question that naturally arises is not, "what amount would they be able to ship to the country," but, by what miracle would their agents be able to fulfil their orders?

"I thank God there are no free schools or printing, and I hope we shall not have them these hundred years. For learning has brought heresy and disobedience and sects into the world, and printing has divulged them, and libels against the best government. God keep us from both."

NOT SATISFIED.—We understand that Mr. PAGE, with whom Capt. Folsom had the difficulty last Sunday, in regard to the former squatting on the land of the latter, not satisfied with the result of Capt. F.'s examination before the Recorder, laid the case before the Grand Jury, with the intention of procuring an indictment against Capt. F., and his clerk, F. O. WALKERMAN.

ANOTHER OUTRAGE ON LONG WHARF.—A couple of gentlemen just from the mines, dropped in at a restaurant on Long Wharf, yesterday, to see a little of the French monte played. One of them, a Mr. ALVIN W. BAILEY, was invited to risk his dust, but replied that he never played, but that if he did, he would not play where there were a couple of stool-pigeons at the table.

ST. VALENTINE'S DAY.—The great joy of "lads and lassies"—the epoch of many a match-making affair, in which love-sick swains and sweet-hearts most delight, is at hand—the 14th of February, St. Valentine's day. Of this fact, we are particularly reminded, by receiving from Messrs. COOKE & LEICOURT, Booksellers and Stationers, Montgomery street, several splendid specimens of Valentines; as also some fine and beautiful ones from Messrs. BONESTELL & WILLISTON, Booksellers, Post Office Piazza.

PRESTO, CHANGE!—We notice that the lot at the foot of Sacramento street, on which the late squatter shooting case occurred, has become a fine appearing ground lot, instead of the water lot over which the tide ebbed and flowed at the time its possession was disputed with broad-axe and pistols.

SHIPMENT OF MULES.—We notice that in the last few days, a large number of mules have been shipped up to Humboldt and Trinidad Bay. The high prices paid for packing, and the great demand for provisions in those mines, has turned the attention of many operators in that direction.

REPORTED DUEL.—A duel between a couple of cities, was reported to have taken place yesterday in the outskirts of the city, in which five shots were exchanged, but no blood shed. There were so many flying accounts of the affair, that we do not feel warranted in giving names at present.

The Usury Bill.

Editors of the Pacific News: "One down, another come on," seems to be the order of the day: after the fiasco of "CIVIS," the side blow of "A GOON DEMOCRAT." All right, a fair field, and no favor.

"Democrat" proposes "to examine this subject in some of its bearings at the present time, and at the present rates of interest." If he had confined himself to these, his article would have had extremely little importance, since the present time (in any sense of the word) and present rates are both fast passing away, in all likelihood never to recur in the history of California.

"When 'Democrat' then desires us to 'suppose that some large capitalist in New York, or suppose that Barings & Co., or the Rothschilds, were to send \$5,000,000 to this State, to be loaned at ten per cent. per month," the question that naturally arises is not, "what amount would they be able to ship to the country," but, by what miracle would their agents be able to fulfil their orders?

"I thank God there are no free schools or printing, and I hope we shall not have them these hundred years. For learning has brought heresy and disobedience and sects into the world, and printing has divulged them, and libels against the best government. God keep us from both."

REPORTED DUEL.—A duel between a couple of cities, was reported to have taken place yesterday in the outskirts of the city, in which five shots were exchanged, but no blood shed. There were so many flying accounts of the affair, that we do not feel warranted in giving names at present.

BY LAST NIGHT'S BOAT.

We received the Sacramento papers of yesterday, promptly last night, per Freeman & Co.'s and Palmer & Co.'s Express. Mr. Norris, who was robbed some time since of \$8000, arrested another of the robbers, named Fisher, on Thursday last, who confessed that Gahen, (formerly arrested) took the money out of the safe, and that he helped him to conceal it.

A heartless wretch stole \$200 from an industrious colored woman named Rachel Morse, on Wednesday. We learn from a gentleman who came down last night, that a company of 200 persons left Sacramento yesterday morning for the diggings on Scott's River.

A fearful Tragedy at Somerset.—Mr. John Barclay of New York, was stabbed by Alexander Hall of Missouri, on Sunday the 26th ult., at Somerset, eight miles this side of Coloma. It appears that Barclay was engaged at a game of cards in the Missouri House, during which time Hall made some remarks in regard to the game, occasioning a dispute.

The bill was read the first time, and referred to the Judiciary committee. Mr. Heydenfeldt, from the committee of Conference, to whom was referred the disagreeing votes of the two houses on the concurrent resolution to go into the election of a U. S. Senator, reported that they were unable to agree, and pray to be discharged from its further consideration.

The bill introduced by Mr. Van Buren, defining what in certain cases shall be sufficient evidence of possession; was discussed, amended, and made the special order for Saturday. Mr. Douglass proposed the following resolution: "Resolved, the Assembly concurring, That the two houses meet in joint convention on Tuesday the 11th, inst., at 12 o'clock, to go into the election of U. S. Senator, in place of the Hon. J. C. Fremont, whose term of office expires on the 5th of March next."

IN ASSEMBLY.—Mr. Carnes presented a communication from Hon. Charles J. Freeman, member from San Louis Obispo, resigning his seat in the Assembly. Accepted and the Governor notified. An act granting certain public lands within the city of San Francisco, and for granting titles to claimants thereto was read.

Mr. Carr moved that it be made the order for to-morrow. Carried. The committee of conference appointed yesterday, reported they could not agree with the committee on the part of the Senate, and asked to be discharged. Granted. The committee of the whole, (Mr. Bredford in the chair), proceeded with the unfinished consideration of the bill to provide for a loan for the suppression of Indian hostilities.

Mr. Moore moved the same by providing that no bonds be issued till it has been satisfactorily ascertained that such a loan can be negotiated, as is contemplated by the provisions of this bill. Mr. Moore was also in favor of giving to no one out of the Legislature, the authority to appropriate any part of the amount proposed to be raised as a loan; and that only such part of the whole loan be paid in, as is necessary for actual need.

Mr. Merritt thought not; and he maintained that one object of the loan, was to meet expenses already incurred, as well as those about to be incurred. Mr. Moore was opposed to pledging the credit of the State, and in favor of giving security for the payment of this loan, on the claim of this State upon the General Government, in consequence of Indian hostilities; and that this was the only security worth anything at all. The State could not pay it.

Mr. Murphy thought that this ought not, by any means, to warrant the conclusion, that the credit of the State should not be pledged for the payment of the loan. Mr. Moore offered an additional section, providing for the payment of expense of negotiating the loan, by appropriating a sum not exceeding \$2000, which is to be paid out of the general fund, provided the loan be negotiated in this State. Adopted. The committee then arose and were discharged: after which, the several amendments were concurred in generally.

INSPECTOR OF MEATS.—As an incumbent for this new office is shortly to be chosen by the Common Council, we trust the selection will fall upon some one having good judgment and experience in the duties of the office. We understand Mr. CHARLES WILSON, a practical butcher, is a candidate and no doubt, if elected, will ably and faithfully execute his duties.

INSPECTOR OF MEATS.—As an incumbent for this new office is shortly to be chosen by the Common Council, we trust the selection will fall upon some one having good judgment and experience in the duties of the office. We understand Mr. CHARLES WILSON, a practical butcher, is a candidate and no doubt, if elected, will ably and faithfully execute his duties.

Later from Oregon.
The fine steamer Gold Hunter, Capt. HALL, arrived in port about 10 o'clock last night, in three and a half days from Columbia River.

She brings about forty passengers. To one of them, Mr. AUSTIN, of the "Tontine" of this city, we are indebted for Oregon papers, and a letter from our regular correspondent.

The propeller Sea Gull left Astoria for the ports farther up the river, on Saturday last. The markets remained without change.

More New Material.—By the last steamer, J. W. GREGORY brought forward for the News establishment, another large invoice of Printing Material, which is now being properly put in shape for use, and which will enable us to do work as expeditiously, and more perfectly than any establishment on the Pacific coast. In addition to type by this arrival, we received an abundance of the various colored printing inks, cards, &c.

The business public should bear in mind that the entire material of our establishment, both job and newspaper, is perfectly new, and of the latest styles, which enables us to get up bills of every kind, of a superior character, and which will not suffer in comparison with any done on the Atlantic side.

Gen. Shields, in a speech at Springfield, Ill., a few days since, speaking of the abolitionists, said:

"He could afford to be as generous in company with the most illustrious of America—such men as Clay, Cass, and Webster. Lewis Cass is also a Benedict Arnold or Judas Iscariot with these men; and yet Lewis Cass is one of the most truly liberal and enlightened statesmen I have ever known. By the necessity of his nature, he is the friend of the poor emigrant, the poor soldier, and the sufferer of every clime and color. In a word, he is the friend of his country and the friend of the human race; and yet those abolitionists do not hate Benedict Arnold, or Judas Iscariot, or either, half as bitterly as they do Lewis Cass of Michigan. Hate is the religion of abolitionism."

Printing Office and Bindery.—We learn from Gen. WINCHESTER, that the proprietors of the Pacific News expect to receive by way of Cape Horn, during the present month, or early in March, an invoice valued in New York at over \$6000, consisting in part of a complete Bindery Establishment, with a large amount of stock, standing presses, ruling machines, &c., equal to any in the Atlantic cities. Also, additional presses and types, which with invoices already purchased by the News since the first of December, amounting to over \$10,000, will render that establishment the most perfect and extensive in California. Should the Legislature see fit to continue the present State Printer in office, they will be served by one who thoroughly understands his business, having spent twenty-three years of his life in the practice of the art, and whose facilities for doing the work at the lowest paying rates, are equal to those of any others. [San Jose Argus.]

"A Correspondent" writes to the N. Y. Tribune, proposing the following ticket for 1852:

For President, CASSIUS M. CLAY, of Ky.
" Vice President, JOHN VAN DENBURG, of N. Y.
That paper thinks, however, it will be time enough a year hence to think about candidates.

Commercial.
There are no changes to note in the Produce market. Prices still remain as quoted for the different articles. A considerable number of up-country dealers came in town yesterday for supplies, but are buying moderate.

In the Stock market there is no great activity. The inquiries for Scrip are for immediate use rather than for holding. State Warrants remain about the same. One sale of \$800 was made yesterday morning at 50c. Smaller sales were made at a trifle above that figure.

At the meeting of the Board of Brokers yesterday afternoon, but little was done. City Scrip, now \$1200 sold at 44c; do old, \$500, at 63c; State Warrants, 45c offered, 50c asked; California State 3 per cent. 65c offered, 70c asked; Mining Stocks nothing doing.

Religious Notices.
First Presbyterian Church, Rev. A. Williams in the new church on Stockton street. Afternoon service commences at half past 3 o'clock. Sabbath school at 2 o'clock, p. m.

Arrivals at Hotels.
Revere House—J. F. Groom, Capt. Clark Wm Stafford, Robt Stafford, Colonel G. McNeil Jr, B. F. Cook, J. Respondez, J. H. Hall, Sacramento; Jas H. Bowman, Geo Heber, W. R. Gordon, Fremont; V. H. Hore, Henry Callaman, Nevada; Geo Seebold, Canada; Geo J. Johnston, San Jose.

BUSINESS NOTICES.
Ship Isiah Crowell.—Consignees by this ship are hereby notified that she is ready to discharge cargo, and are requested to call on our office, pay their freight and receive orders for their goods.
