A MODEL HOUSE.—Send Scrip for De-

Waterbury, Vt.

New York, July 26, 1870.

The passage by Congress of the Currency and Funding Bills—a synopsis whereof we published in our last semi-monthly edition—and of other important bills, also the final adjournment of Congress, all of which events occurred during the present month, would, under ordinary circumstances, not have failed to materially and noticeably affect financial and commercial affairs at home. But their effect on the various markets has been completely overshadowed by the news of a war between France and Germany. Were that war even to be protracted and to involve the whole of Europe in its vortex, its ultimate bearing on this country can—financially and commercially—only be a favorable one. The decrease of our exports of cotton and petroleum, which it might involve, will be more than counterbalanced by largely increased exports of breadstuffs and other products, with a simultaneous decrease of imports from respective war-waging countries, whilst a new impetus will be given to home industries, and—lastly and chiefly—our shipping interest immensely benefitted by regaining a considerable portion, if not the whole, of that carrying trade, which we lost during and by the late war, and by injudicious respective legislation of Congress since its close. We thought Congress—before adjourning—ought to have acted on the President's suggestion in regard to allowing foreign vessels which are partly owned by citizens of the United States to seek a shelter under the starry flag; we considered the failure of Congress to do so a blunder. Yet, even more serious blunders have, ere this, turned out in the end to the material benefit of the general interests of our country. And we do not hesitate to say, that this blunder will do the same in the end. Whilst, if Congress had complied with the President's suggestion, a goodly number of "seemingly" American crafts might by this time already float the Stars and Stripes, its failing to do so will, no doubt, cause the carrying trade on the Atlantic soon to be chiefly done by *de facto* American bottoms. But whilst any European war will in the end favorably bear upon our commerce and finances, all our markets are at present, and will for some time to come be, feverish, unsettled, and more or less turbulently affected by either genuine or fraudulent reports from abroad.

The chief interest centres in the Gold market, which, with the first war news, became almost as active and feverish as during the excitement of last September. After remaining almost stationary at a fraction below 12 up to the 7th inst., the premium has wildly fluctuated since then, touching at one time 24. To-day gold quotations ranged from 120 $\frac{3}{4}$  to 121 $\frac{1}{4}$ .

Foreign Exchanges have recently become strong and rates advanced. To-day they are quoted on the standard of: sterling, 60 days', commercial, 109 $\frac{1}{2}$ ; bankers', 110; sight, 110 $\frac{1}{4}$ ; cable transfers on London, 111 $\frac{1}{2}$ . These rates allow of specie shipments, notwithstanding the extra cost of war risks. The Banks of England and of France have recently advanced to 4 per cent the minimum rate of discount; further advances are expected, should the war be protracted.

Of the two weekly statements of the City banks, rendered since our last semi-monthly report, the one before last showed an increase of over \$2,000,000 in the excess over the legal reserve, whilst the last one reflected by its decrease, in the same item, of almost \$6,500,000, the considerable shipments of specie for Europe during the last week. Loans on acceptable collaterals commanded only for a few days as high as 7 per cent in currency and in coin, from an increased demand for speculative purposes. But the money market soon recovered its previous ease. To-day the bulk of transactions are made at 4 and 5 per cent on prime and inferior stock collaterals respectively; 3 and 6 per cent are exceptional. Commercial paper is less favored. Only first class names pass at 7@8 per cent. Inferior paper is being strictly scrutinized, and has to submit to higher discounting rates, varying according to time and grades.

U. S. Bonds could not fail to suffer in the home market from the heavy decline—15 per cent—abroad, consequent upon the general panic there in all kinds of securities. The Secretary of the Treasury will hardly, for the present, succeed in selling at par in gold the new bonds, bearing 4, 4 $\frac{1}{2}$ , and 5 per cent in coin, whilst the old bonds, bearing 6 per cent in coin, are quoted considerably below par in gold. Yet, though these bonds might still further decline, by large amounts being thrown overboard abroad or by weak holders, they are undoubtedly the safest investment paper, and will ultimately be duly appreciated and advanced. Then the Funding Bill will be easily realized.

The other markets are still more unsettled, and quotations continually varying.

For to-day's quotations in the various branches of the New York Stock Exchange, see page 27.

#### LOOK OUT FOR HIM.

About the 8th day of July a person named or known as Woodward opened an account with the Union Square National Bank. Between that time and the 13th inst., he deposited and withdrew to the amount of \$3,828. On the 15th he deposited a check purporting to be drawn to his order by the well known firm of W. O. Pickersgill & Co. on the Pacific Bank for \$9,000. This check was endorsed by him, and apparently properly certified by the bank. At the time of depositing it he desired to draw against it to the amount of \$6,500, but the cashier very wisely requested a half hour in which to make inquiries. In the meanwhile Mr. Woodward withdrew, and it is hardly necessary to add, as the check was a forgery, has not since made his appearance. As the forgery is pronounced a very close imitation, both as to the maker's name and certificate, this notice is given to the business community in order to save them from like assaults. Woodward is about five feet eleven inches in height, of slender build, about forty years of age, wears black side whiskers and mustache, dresses in dark clothes and high black hat, and has the air of a gentleman.

On the 20th inst., one John Brown, alias Braden, said to be an extensive dealer in counterfeit money, was arrested in this city, by some of Col. Whitley's officers, and in his possession were found \$400 in counterfeit \$2's on the Westchester County National Bank of Peekskill, N. Y.; \$10's on the First National Bank of Poughkeepsie, and \$20's on the Market National Bank of this city.

#### AN OLD DODGE REVIVED.

The *Pittsburg Evening Mail* of the 12th inst states that a gang of swindlers in that vicinity are mutilating five dollar National bank notes—making ten bills out of nine. The following is their manner of doing it. The nine whole bills are taken, and from the right of the first one tenth is sliced off; from the right of the second two-tenths; from the right of the third three-tenths, and so on to the number nine, from which nine-tenths are taken from the right, or what amounts to the same thing, one-tenth from the left. Number one is passed as it is, with a tenth gone from the right; the one-tenth taken from number one is pasted to the residue of number two, from which two-tenths had been taken, these two-tenths are made to answer the place of the three-tenths taken from number three, and so on through. Thus nine five dollar notes are completed, leaving the original nine, with a tenth gone from the left as a tenth note. It will be seen that a tenth is gone from each bill, and in a different place on each one, and a little ingenious pasting makes the loss imperceptible to ordinary observers. It is certain that large numbers of these mutilated bills have been put in circulation, and our readers will do well to look out for them. The rogues who have carried out the fraud were cunning in selecting the denomination they did. Larger bills would have been more closely scrutinized, and smaller ones would not have been so remunerative. The department will not redeem a bill which bears evidence on its face that it has been tampered with, and we advise our friends to scrutinize their five-dollar bills closely.

The Commissioner of Internal Revenue has decided that cashier's checks issued in payment of bank dividends, require a two cent stamp, unless it is known to the issuing office that they will be immediately presented for payment.

By the new Currency Bill the need of the West and South for banking facilities will be met, and bank currency to the amount of seventy-nine millions distributed in those sections, greatly stimulating business. A long step has also been taken in the direction of specie payment, by authorizing free banking upon a gold basis.

Geo. W. Carpenter has been elected Cashier of the First National Bank of Havana, N. Y., vice Theo. L. Minier, resigned.

Lemuel B. Platt has been elected President of the First National Bank, Burlington, Vt., vice O. A. Dodge, resigned.

The Farmers' Bank of Fayetteville, N. Y., has been organized under the general banking law of this State, with a capital of \$100,000. Its officers are: Samuel J. Wells, President; William Candee, Vice President; William F. Merriman, Cashier.

**A Synopsis of Decisions in Relation to National Banks and Bank Notes rendered by the Hon. F. E. Spinner, Treasurer United States.**

(From the Internal Revenue Record.)

As no other than registered stocks are now receivable at the Treasurer's office from National Banks as security for circulating notes and public deposits, whenever coupons bonds are delivered they are converted into registered stock by the department.

By a rule adopted by the Department some time since, "currency sixes" (U. S. Pacific Railroad bonds) are not receivable in pledge for either the public deposits or the circulating notes of National Banks. The Treasurer cannot, under that rule, make exchanges of securities held for public moneys except such as pay coin interest.

The Treasury does not pay express charges in the delivery of stocks held by the Treasurer in trust for National Banks.

The granting by a [National] Bank of new power of attorney for the examination of its bonds [held in trust by the Treasurer] has always been taken at the Department as a revocation of all powers of antecedent date.

When fragments of United States Notes are presented at the Treasurer's Office for redemption, no "special form of affidavit" that the missing parts of such notes have been totally destroyed is required. Any form of affidavit will be accepted which embodies the requirements of circular No. 4, 1869, i. e., it must set forth that the missing portions of the notes have been totally destroyed, and must state the cause and manner of the mutilation; and the character of the affiant must be certified to be good by a magistrate or other public officer.

Compound interest Notes are redeemable only at the office of the Treasurer U. S. in currency, and are exchangeable at the office of the Assistant Treasurer U. S. at New York for three per cent certificates, the smallest denomination of which is \$5,000.

There is no law [other than the general law requiring them to redeem their notes] compelling National Banks to redeem their mutilated currency. Each bank makes its own rules for the redemption of its currency. In case a bank refuses to redeem its currency, the question should be referred to the Comptroller of the Currency, with the note.

When fragments of two or more notes pasted together are presented for redemption at the Treasurer's Office, the fragments are separated and those pieces that are less than half a note are destroyed. The larger pieces, if equal in size to half a note, are discounted in conformity to the regulations and redeemed.

Until a National Bank has deposited at the Treasurer's Office the amount of its outstanding circulation, under the provisions of section 42 of the National Currency Act, its liability for semi-annual duty does not cease; and it should make a return therefor regularly.

A National Bank is required to pay semi-annual duty upon balances due other banks for whom it makes collections, and pays weekly—those banks not being permitted to draw against such balances.

The Treasurer has defined, in the form of semi-annual returns, what constitutes dutiable deposits. The clause which covers the balances of collections for other banks reads: "Collections made on account of other banks, and, in fact, all descriptions of deposits which may be used by the bank."

In addition to the duty on circulation, National Banks are required to pay semi-annual duty upon the excess of their capital over United States bonds belonging to them, until they deposit with the Treasurer the amount of their circulating notes, as provided in the 42d section of the National Currency Act.

**CAUTION.**

The public are hereby cautioned against swindlers who go through the country representing themselves to be our agents. All agents of this REPORTER are furnished with our printed receipts and with copies of the Reporter; none others should be trusted.

**Counterfeit Tobacco Stamps.**

The points of difference between the counterfeit and the genuine stamp are so marked as to be easily detected by the glass. They are as follows:

FIRST: The imprint in the counterfeit is badly engraved, and a trifle larger than the genuine. The words "Continental Bank Note Co., New York," in the genuine are small, distinct, and not connected, each letter standing separate, while in the counterfeit the letters are heavier, and more crowded, larger, and closer together, and in the word "Continental" the "l" joins the "n," making the "l" and "n" look like an "m," with a period at the end of the imprint in the counterfeit, which is omitted in the genuine.

SECOND: In the sky of the counterfeit, over the mane of the horse, will be observed four small dots: in the genuine the sky is made of straight lines.

THIRD: The ornamentations resembling small stars on each side of the vignette in the counterfeit look imperfect and blurred, while in the genuine they appear bright.

FOURTH: Over the white faced figure "6" on the left side of the stamp in the genuine is a small black figure, a part of the lathe work pattern which is wanting in the counterfeit, and the imitation lathe work of the counterfeit has a muddy appearance, while in the genuine the patterns are clear and distinct.

**NEW COUNTERFEITS.**

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

**WESTCHESTER COUNTY NAT. B'K, Peekskill, N. Y.**

2s, imitation. The general appearance of the bill is good, although the shading under the title of the bank is very irregular and dark. The vignette on left end is blurred and very rough.

10s, imitation. Well done.

**FIRST NAT. B'K, Poughkeepsie, N. Y.**

10s, imitation. Well done.

**FIRST NAT. B'K, Philadelphia, Pa.**

10s, imitation. Well executed and a very dangerous counterfeit. This is the second 10 on this bank, and all the omissions on the first plate are corrected in this issue.

**ONEIDA NATIONAL B'K, Utica, N. Y.**

20s, imitation. The paper is rather poor, the shading irregular, impression imperfect. The child on the lap of the Indian girl, on back of the bill is very indistinct. Dangerous.

**50 CENT FRACTIONAL CURRENCY.**

New Issue—A very good counterfeit. The portrait of Lincoln is coarser and darker than the genuine, and the lathe work in the centre of the die is also darker.

**5s, GREENBACKS.**

The green ornamental engraving, lengthwise of the bill, in the counterfeit, is of a paler color than in the genuine, and has a brighter look than the dark green of the original. Seen under the microscope the engraving is coarse, but to the naked eye the bills have a very good appearance.

**10s GREENBACKS.**

The engraving is coarse. The vignette of Lincoln is a very indifferent engraving, and the scroll work around the medallion is poorly imitated. Letter C, twenty-third series.

**10s, GREENBACKS.**

An excellent imitation of the genuine. Note the following discrepancies. In the genuine, the shading around the 10 in the medallion appears like a fine net work, and runs close up to the figures. In the counterfeit, the shading is "picked up," and becomes coarser as it reaches the figures, forming a light streak or circular haze. Another test is on the figure 10 within the light circle. The genuine has three and one-third dots on the left on the fig. 10, while the counterfeit has but three. Thus:

GENUINE. COUNTERFEIT.

But the surest test is under the left wing of the eagle. The genuine has FOUR DISTINCT ROWS OF FEATHERS under the wing, while in the counterfeit the rows of feathers are undefined. One issue of this counterfeit is of the new series, letter D, No. 53; another is letter D, with a small 5 under the D, No. 23. These counterfeits are the best we have ever seen.

Newer issues have appeared lately, in which the defects above referred to have been corrected. We would advise our patrons to refuse all tens, greenbacks, unless they know the parties from whom they receive them.

**20s, GREENBACKS.**

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect is the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

**50s, GREENBACKS.**

Imitation. Observe the figures 50 on back of the bill around the margin. The 5 in the imitation runs into the 0 on the lower left corner, and reads 550 instead of 50. The buttons on Hamilton's vest which are very distinct in genuine are scarcely discernable in the counterfeit. Genuine has FIVE while in the counterfeit you can hardly see FOUR. The note is dated March 10th, 1863. We would advise our patrons to scrutinize carefully all \$50 Treasury Notes, unless they know the parties from whom they receive them.

**FRAUDULENT BANKS.**

**Lynn Park National Bank, N. Y. (No such bank.)**

2s. Very well done.

**Nat. Union Bank of Linderpark N. Y.**

2s, (NO SUCH BANK) well calculated to deceive.

**National Bank of Idaho Territory.**

10s. Well done.

**National Bank of the State "IN" N. Y.**

10s. Coarsely done.

**Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)**

10s. A very good looking bill—look out for them.

**COUNTERFEIT GREENBACKS.**

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is of a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a black straight line under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 30th June, 1867," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A. and are 1/2 inch shorter than the genuine.

On the new series of notes "A." around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this

may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 16 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, imit., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engravers name. Portrait of Pres. Lincoln is very coarse and pale looking; imit. are dated Washington, March 10, 1862, letter C.

20s, very close imit. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter 'x' in the word 'The' is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives exports.

50s, imit. observe the figure 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word 'FIFTY' around the above 50 can scarcely be read. Words 'LEGAL TENDER' is very much blurred. Letter C dated March 5, '63. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Note, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

**COUNTERFEIT COUPONS.**

The following are the words on the coupons: "Acts of July 17 and August 6, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 725, for \$500. L. E. Chittenden, Register United States Treasury.

**FIVE CENT COIN COUNTERFEITS**

Are in circulation. They may be distinguished from the genuine by the softness of the metal

**COUNTERFEIT**

**FRACTIONAL CURRENCY.**

**Old Issues.**

50s, imit., the portraits of Washington differs one from another; in the genuine they are all alike; the green color looks light and pale.

25s, imit., well executed. Look out.

**2d Issue.**

10s, imitation. All gen. on the top has the word "Depositories," the imitation reads "Depositories."

50s, imit., have a pale slate color. The small barrels on lower right corner are very indistinct. The gen. have six barrels perfectly clear and plain. Three on lower row, two on next, and one on top. The counterfeit barrels are black, and gen. are white.

50s raised from 5s.

**3d Issue.**

50c. imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DESIGNATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Act so on the genuine.

25s, imit., are very pale and coarse. The letter C in cents on left end is smaller than the other letters, and too far off.

**New Issue.**

25, imitation. Above the words "Treasury Department," on the bottom of the bill in the genuine there is a fine horizontal line—the counterfeits have a straight line.

Notice the shading of the "25" on the back of the note. The genuine is dark, while the counterfeits is very pale, and very little darker than the other green. The word "of" on the face of the genuine appears thus—"of"—on the counterfeit "of."

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurers" the Assistant is spelt "Assistatn." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The adverse is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on counterfeit between the figures "50" at the top and bottom of the back of the note have white centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the bronze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. B. Spinner is omitted in some, and the (.) after print, on one end, and the d. after March 30.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 30," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

**COUNTERFEIT 7.30 BONDS.**

The seal is slightly larger than the genuine; the red ink with which it is stamped is a shade lighter, and the points projecting from the seal are blurred and a little longer than the genuine. The imprint at the bottom of the face of the bond is set different in the margin, there being more space given it than in the genuine. The borders of the coupon which are attached to the counterfeit bonds are larger, while the red figures are finer than in the genuine. The borders of the ornamental lathework are blurred and somewhat indifferently executed. The figures denoting the bond are slightly uneven, while the blue ink in which they are printed is a duller blue and lacks the metallic glossy appearance of the genuine.

A counterfeit coupon for three dollars, purporting to belong to a one hundred dollar 5.20 bond, has been received at the Treasury Department, which had been sent from Germany to New York, cashed here and forwarded to Washington for collection. The counterfeit is a lithograph, and when compared with the genuine coupon it could be easily detected by the most inexperienced persons; as the execution is rough and inartistic, the paper thin and common, and a trifle shorter than the genuine coupon. It assumes to belong to the 5.20s of 1862, fourth series, and bore the stamp of some German house on the back, but too indistinctly to be deciphered fully.
