29 May 1950

MEMORANDUM FOR MAJOR NAPIER

SUBJECT: Screening of Daily Laborers

1. The Public Office Qualifications Section of the Prime Minister's Office began a program of screening daily laborers in January 1950. Out of a total of 623,296 such persons, 8,578 — those earning at least ¥200 a day and employed at least 180 days a year — were to be screened as the first step (see Tab 1).

2. As of 13 May 1950 the first step was completed except for about 200 seamen. It was found that 136 daily laborers employed in the Special Procurement Agency were purgees or were purgeable, (see Tab 3).

3. To correct this condition, the Public Office Qualifications Section proposed to instruct the Special Procurement Agency to:

a. Release these 136 persons, or,

b. Submit an application for temporary retention in office to the Prime Minister for indispensable employees among the 136, (see Tab 4).

4. Recommend the Public Office Qualifications Section's proposal be approved with minor changes.

J.D.M.

March 28, 1950

My dear General,

The Public Office Qualifications Appeal Board, which was set up a year ago to examine the appeals of the purgees in the various categories from B to G, has met regularly since -- 66 times during 1949 and 20 times up to March 17 this year.

As shown in the attached table, the Board has examined over 20,000 cases, or about two-thirds of the total appeals on file, of which some 6,000 cases have been decided for rescission of the purge order, and more than 15,000 for non-rescission. The findings of the Board have been reported after each meeting to your headquarters, from which, however, no word has been heard to date.

It has been discovered that 1,498 persons had been placed in the B class (career military personnel) by sheer mistake, owing to the press and confusion of affairs in the initial stage of the purge administration.

The list of those found qualified include former town or village heads and other local leaders, who had been purged in the first instance on account of their nominal (mostly involuntary) connections with the branches of the Imperial Rule Assistance Association, or other wartime organizations, but who really constitute a stabilizing force -- the mainstay against unscrupulous bosses and subversive elements.

Again the same list contains a number of eminent technical experts, who were disqualified because of the positions they happened to hold as standing director in large firms -- positions which were merely honorary without executive powers or authority. Far from being either militaristic or ultra-nationalistic, they are men of liberal thought as well as of great technological ability and experience.

It would be obviously to the best interest of the country and only fair to these persons and others found innocent by the Board, if they were restored as quickly as possible to their rightful place in their respective communities, or reinstated in their specialized fields of usefulness.

122a

It is hardly necessary to point out that the rehabilitation of Japan has been handicapped to the extent that for last four years or more these people have been prevented from participating therein.

Various business concerns have been removed from the "restricted list." A parole system has been established for those convicted of war crimes. But in this matter of the purge earlier mistakes or injustices remain uncorrected. We are accordingly anxious to make some announcement on the progress of the Board's work in order to satisfy public interest as to the Government's attitude.

In view of the fact that it will take perhaps several months more, or possibly a year, for the Board to complete its examination of the remaining cases, I venture to request your early approval for an announcement covering those cases already decided by the Board.

Yours sincerely,

s/ Shigeru Yoshida

Shigeru Yoshida

General of the Army Douglas MacArthur,

Supreme Commander for the Allied Powers,

Tokyo.

Procurators 54

Plan for Increasing the Personnel of Prosecution Bureau and Public Procurators Offices

1. The Attorney-General's Office has made a request for increasing, by the 1950 year supplemental budget, the personnel of Prosecution Bureau and Public Procurators Offices because of the reasons mentioned below:

The number we request is:

(1) for Prosecution Bureau

procurators	4
secretaries	10
clerks (Koin)	9
employee (Yō-in)	2
Total	25

(2) for Public Procurators Offices

assistant procurators	100
secretaries	453
clerk	110
Total	663

2. There is an imminent necessity to strengthen the staff of prosecution, especially the number of procurators taking care of public safety in order to insure the proper disposition of special and serious cases which are being committed or apprehended to be committed more frequently by ultra-leftists in view of the present condition of public order of the country. After studing

the efficiency and number of personnel of Prosecution Bureau and Public Procurators Offices, the Attorney-General's Office has made request, in the budge for the 1951 fiscal year, for the following increase of personnel, but when we think of the present condition of public order, we do not think we can wait for the formation of the 1951 year budget. Therefore, considering the sources of salary for procurators and assistant procurators, we have decided, as stated above, to request, by the 1950 year supplemental budget, 25 persons for for Prosecution Bureau, 100 assistant procurators, 453 secretaries and 110 clerks for public procurators offices, in order to strengthen the personnel of Prosecution Bureau and public procurators offices immediately.

3. The reason for increase is as follows:

(1) Prosecution Bureau

Prosecution Bureau is always studying the organization of public procurators offices throughout the country and the improvement of laws or ordinances concerning procedure to increase the efficiency of procuratorial functions, and also guiding and supervising them to handle individual cases appropriately. Of late violations of Imperial Ordinance 311 which are prejudicial to the objectives of occupation, and violations of Organization Control Order and Purge Ordinance have been remarkably increasing and in addition, malicious violence cases have increased in number, too. To meet this situation, it is absolutely necessary for Prosecution Bureau to have 2 procurators who engage exclusively in the amendment of rules of procedure and the increase of efficiency of procuratorial business, and 2 more procurators who guide the prosecution of

malicious and serions cases which are prejudicial to the objectives of occupation.

(2) Public procurators offices

Public procurators offices are responsible for the ultimate disposition of all the malicious and serions cases which have been remarkably increasing, that is, they are responsible for the institution and support of public action against such cases. However, we have found out, after careful study, that public procurators offices are at present at a loss how to dispose of too many pending cases, and that especially public procurators offices in big cities have been receiving far greater number of cases than they can dispose of by the present maximum number of personnel. Therefore, there is much probability that public procuratons offices will split on a rock, if they are left as they are, and, so long as the situation ofpprocurators offices remains as it is, we cannot expect them at all to dispose appropr iately and speedily of such malicious and serious case;as have been increasing. The Attorney-General's Office is now studying a plan to appoint some Public Safety Procurators who engage exclusively in the disposition of special serious cases, as it feels it absolutely necessary. But, since the public procurators offices are so overburdened as stated above, we feel it difficult to appoint them from among the present personnel. Accordingly, the Attorney-General's Office is strongly demanding, as stated above, for the increase of personnel to enable procurators offices to dispose of cases normally and also to make it possible for us to appoint Public Safety Procurators now under consideration.

4. The amount of supplemental budget required for the increase of personnel is 116, 697,081 yen.

9.	Information media organizations.	250

CABINET ORDER 62 March 27, 1948

Cabinet Order Concerning Abolition of Public Office Qualifications Examination Committee and Public Office Qualifications Appeal Board.

Article 1. The Public Office Qualifications Examination Committee and the Public Office Qualifications Appeal Board shall be abolished after 10 May 1948, the designation of persons who fall under the provisions of the Memorandum in accordance with the Imperial Ordinance No. 1 of 1947 (Imperial Ordinance Concerning Removal and Exclusion from Public Service of Undesirable Personnel) having been completed except for inadvertencies.

After the abolition of the two committees as prescribed in the preceding paragraph, the affairs as related to the Public Office Qualifications Appeal Board shall be handled by the Prime Ninister and the affairs as related to the Public Office Qualifications Examination Committee shall be handled by the Prime Minister or Prefectural Governor in the Imperial Ordinance No. 1 of 1947, Article IV, paragraph 1.

Article II. The letter of appeal under the Imperial Ordinance No. 65 of 1947 (Imperial Ordinance Concerning Petition for Cancellation of Designation) shall be filed by 15 April 1948 and no letter of appeal arriving at the Prime Minister's Office thereafter shall be accepted.

BASIC: Ltr. GHQ, SCAP, AG 091.112, (16 June 48) GS, subject: "Purge Statistics, Final Report", dated 16 June 48.

Purge Statistics contd.

Par. 10.	Political parties with members in Diet and branches and organizations affected by Imperial Ord. 101 of 1946.	200
11.	Influential companies, financial institutions, and other economic organizations.	
12.	Influential companies, financial institutions, and other economic organizations not listed in Par. 11.	450
		9,670

e. Numbers of persons in each category of undesirable persons who have been excluded under provisional purge prescribed by Cabinet Ordinance No. 119, July 1, 1947:

Category A	0
B	113,337
C	3,066
D	33,573
E	391
F	43
G	42,770
	193,180

f. Total numbers of persons removed and excluded from public office to date:

	REMOVED	BARRED	TOTALS
1946 (Screened)	800	264	1,064
1947 (Screened)	4,736	2,835	7,571
(Purged thru provisional designation)		193,180	193,180
	5,536	196,279	201,815

Supplementary Provisions.

Article III. This Cabinet Order shall come into effect as from 15 April 1948.

Article IV. The Imperial Ordinance concerning Organization of Public Office Qualifications Examination Committee and the Imperial Ordinance concerning Organization of Public Office Qualifications Appeal Board shall be abolished after 10 May 1948.

Article V. The Imperial Ordinance No. 65 of 1947 concerning the petition for cancellation of the Designation shall be abolished after 10 May 1948 provided that the penal provisions shall be applied as heretofore to the offence committed prior to its abolition.

FDC 158

DEMOBILIZATION BUREAU
2 JUN 1948

ON TABLE OF MONTHLY STATISTICS OF THE DEMOBILIZED,
VERIFIED DEAD, UNDEMOBILIZED AND PRESUMED DEAD
AS OF END OF MARCH, 1948

Demob. Bureau.

1. These tables are classified into three as follows:

   a. Table of Monthly Statistics relating to all Army personnel and Employees as of 15 Aug. 1945.

   b. Table of Monthly Statistics relating to Army personnel and Employees in Homeland as of 15 Aug. 1945.

   c. Table of Army personnel and Employees Overseas as of 15 Aug. 1945.

2. These Tables are based on investigation by the Assistance Sections of the Prefectural Governments on matters within their jurisdiction at the end of each month, and collected and adjusted by the Demob. Bureau.

3. Important terms in these tables and explanations on them are as follows:

   a. "Demobilized" refers to those who returned home alive (Owing to the fact that some repatriates do not declare themselves as Army personnel or Gunzoku at the landing point, but who so declare themselves to the Assistance Section after their return home, the number in these tables is greater than that resulting from investigations at the landing points).

b. "Verified dead" refers to those whose death has been confirmed and recorded in the death ledger (those whose death has been confirmed but official notification thereof has not been transmitted because address of next-of-kin is unknown, are also recorded in the death ledger).

c. "Probably alive" refers to those who, through information furnished by the Allied Forces, through communications or repatriates' reports, have been confirmed present and alive in some specific area overseas.

A. TABLE OF MONTHLY STATISTICS RELATING TO [redacted] ARMY PERSONNEL AND GUNZOKU (DEMOBILIZED, overseas

GENERAL HEADQUARTERS
FAR EAST COMMAND

APO 500
27 February 1948

AG 091 (27 Feb 48)GS

SUBJECT: Purge Statistics, Including Forecasts

TO: The Adjutant General, Dept. of the Army
Washington 25, D.C.
(Attn: Civil Affairs Division)

1. Reference: Ltr. Dept of Army, Wash., D.C. AGAO-S 014 Japan, (26 Jan 48) CSCAD: subject, "Purge Statistics, Including Forecasts," dated 2 Feb 1948.

2. Inclosed herewith are available purge statistics and forecasts as requested in Series I.

3. Since the information requested in Series II has never been required, purge statistics have never been compiled in accordance with subdivisions comparable to A,B,C and D of that Series. Generally, however, it may be said that every person found subject to the purge directive by virtue of the position held actively supported the policies leading to war and aggression and none were able to present satisfactory proof to the contrary, although all had full opportunity to do so.

4. Throughout the administration of the purge operation, it has been the concept here that the persons to be removed and excluded from important positions in government and business should be the policy-makers rather than the technicians. Accordingly, the detailed criteria included in the Japanese Government's implementing ordinances and the actual operation of the purge were such that none other than persons who had made or influenced policy in government or in business in the direction of war would be affected thereby. To this end, if any individual occupying a position classified under the criteria as policy-making was able to show that he was not in fact a policy-maker or that he opposed the policies leading to war and aggression, he was exempt from the provisions of the purge. Full opportunity to secure such exemption was afforded both in the initial screening and the appeal. In addition, with due regard to the critical economic condition of Japan, temporary exemptions or extensions were granted to individuals where a showing was made that the continued services of such individuals were essential to the efficient operation of enterprises important to national economic recovery.

5. At various stages of this operation the fear has been expressed in certain quarters that the removal of important individuals from the

660-A

economy would adversely affect the operating efficiency of business concerns, retard economic recovery, and increase the burden on the taxpayers of the United States. Statistics of production and trade during the last six months have failed to bear out this fear. In fact, evidence has come to the attention of this Headquarters that the removal of old leaders has, by permitting younger and more vigorous executives to assume more important positions, created a healthier and sounder base for the future Japanese economy.

FOR THE COMMANDER-IN-CHIEF:

1 Incl:
Purge Statistics and
Estimates, in quadruplicate.

A. J. REHE
Major AGD
Asst. Adj. Gen.

BASIC: Ltr. Dept. of Army, Wash., D.C. AGAO-S 014 Japan, (26 Jan 48) OSCAD; subject, "Purge Statistics, Including Forecasts", dated 2 February 48.
